**GRAND CHAMPION BARROW** — Wayne Ray of Pampa shows his 191 pound Poland China barrow which took top honors in the Gray County Junior Livestock Show held Saturday in the County Show barns. The porker wasn't impressed, refusing to come out of his pen to be photographed.

## Pampa Youths Win Champ Honors

By BOB CORTNER, Daily News Reporter

Championship calves and pigs stuffed their way Saturday in final judging of the Gray County Junior Livestock Show presented at Recreation Park by the Pampa Lions Club.

Grand Champion calf honors went to Andy Cole of Pampa, exhibitor of a light weight Hereford weighing in at 775 pounds. Mike Long of McLean, entered the Reserve Grand Champion light weight calf, a 843-pound Hereford.

In the swine division, the Grand Champion was a 191-pound Poland China light pig exhibited by Wayne Ray of Pampa. Ray's entry weighed 191 pounds. Leroy Tate of Pampa showed the Reserve Grand Champion pig, a 205-pound Poland China light.

Showmanship awards were presented to Mike Scott and Andy Cole of Pampa; Second Phillip Savage, both of Pampa; Mike Long, McLean; Third, Lynn Futch, local manager of the Canadian Production Credit Association made, the presentation to Mike Scott for showmanship. Phillip Savage received J. T. Rogers Jr. of Pampa; Third, Lewis Davis of Pampa and Fourth, Guy Turner, Pampa.

Here are the results of the Junior Livestock Show:

**Steers:** Light-weight Calves: First, Second, Leroy Tate, Pampa; Third, Steve Smith, Alanreed, Bowers, Pampa; and Fourth, Randy McCracken, Alanreed.

**Poland China Heavy:** First, Gordon Taylor, Pampa; Second, Brenda Winters, Pampa; Third, James McMahon, Alanreed, and Fourth, Terry Arnold of Pampa.

**Light-weight Hampshire:** First, Mickey Richardson, Pampa; Second, Byron Mays, McLean; Third, J. T. Winters Jr. of Pampa, and Fourth, Charles Smith of McLean.

**Heavy Weight Hampshires:** First, Danny Dalton of McLean; Second Isaac Baggerman, Groom; Third, Rocky Barby, McLean and Fourth, Ernest McLean and Fourth, Ernest Smith of McLean.

**Light Weight Cross Breeds:** First, Johnnie Bearden, Pampa; Second, Dennis Taylor, Pampa; Third, Richard Markie, Pampa and Fourth, Jackie (See HONORS, Page 6)

## 89 Americans Killed In Airplane Crash in Japan

### Negro Quartet Arrested in Money Order Swindle

A group of four Negroes, suspected of passing bad money orders in the Panhandle area since December, were charged by Pampa authorities Saturday.

The quartet, two men and two girls, were arrested in Pampa after passing altered money orders to several local merchants.

The men, James Carlton Carter, 26, both of Amarillo, were charged with passing a forged instrument. The girls, Zona Mae Lynn and Eula Dean Watie, both of Pampa, were arraigned by Justice of the Peace G. L. "Nat" Lunsford on charges of theft by false pretext.

A third girl was released by police and returned to Borger. Police said she was not involved in the conspiracy.

Pampa Police Chief Jim Connor said Saturday, "There is no way of knowing how much these suspects have cashed in the Panhandle area. They are suspected of passing about \$800 in forged and have passed seven or eight money orders here. We think they may be connected with bad money orders passed in Lubbock and New Mexico. There is no way of knowing how much money is involved.

The methods of operation in passing the altered money orders was simple. Money orders of eight dollar amounts were purchased, then the eight was altered to read \$80. The money orders were then stamped with (See MONEY, Page 6)

**GRAND CHAMPION CALF** — Andy Cole of Pampa shows his calf which took top honors in the Lions Club Gray County Junior Livestock Show, held Saturday at Recreation Park.

### Second Jet to Go Down in 24-Hours Takes Lives of 124

TOKYO (UPI) — A British Overseas Airways Corp. 707 jet lost its tail in a burst of smoke and nose-dived to earth while on a tourist "bonus flight" around sacred Mt. Fuji Saturday, killing all 124 persons aboard, including 89 Americans.

Seventy-five of the Americans were top dealers and executives of Thermo King Corp., a refrigeration firm of Minneapolis, Minn., and their wives on a gay company-sponsored Far Eastern tour. It was the second major air disaster here in less than 24 hours.

Scores of people saw the four-engine, swept wing jet plummet thousands of feet straight down through crystal clear skies to the mountain's southern slope at about midnight Friday, just 27 minutes after leaving Tokyo's Haneda International Airport. It was on an unscheduled swing around Mt. Fuji to give passengers a view of the magnificent snow-covered peak before heading to Hong Kong.

The crash happened so quickly the pilot, veteran Capt. Bernard J. Dobson, radioed no hint of an emergency. Japanese officials said they had not ruled out the possibility of sabotage.

A Japanese television cameraman near Mt. Fuji's summit caught the last few seconds of the flight on film. It looked like a scene out of an aerial combat movie.

from the crash only 22 hours earlier of a Canadian Pacific Airlines DC8 while making a landing approach at the same airport from which the BOAC (See CRASH, Page 6)

### POLL TAX NECESSARY

## \$2,900,000 Bond Issue Set Tuesday

Pampa property owners with a poll tax receipt or exemption will have an opportunity to go to the polls Tuesday and register their approval or disapproval of five proposed bond issues totalling \$2,900,000.

It is estimated between 5,000 and 6,000 voters inside the city limits are eligible to cast ballots.

The city's four voting places will open at 8 a.m. and close at 7 p.m. Tuesday.

There will be five separate propositions on the ballot. They are:

No. 1—The issuance of \$236,000 in bonds to provide 100-ft. right of way and an 84-ft. street on Block from Faulkner to Price Rd. This is on SH 152.

No. 2—The issuance of \$395,000 in bonds to provide an 80-ft. right of way and an 84-ft. street from the West city limits to the East city limits on U.S. Hwy 60 traversing Wilks, Brown and Frederic.

No. 3—The issuance of \$369,000 in bonds to provide a 80-ft. right of way and 64-ft. street on S. Cuvier and S. Barnes from Brown to McCullough.

No. 4—The issuance of \$950,000 in bonds to provide funds for the acquisition of some right of way to establish the beginning of a major thoroughfare system. This proposition also provides for construction of a bridge across N. Somerville to tie in with N. Hobart. It also includes the widening of Duncan from the bridge at Central Park north to Harvester and the city's share of the paving on Harvester east from Duncan to existing pavement on Harvester. Proposition No. 4 also provides the City's share of approximately 200 blocks of assessment paving in various city areas.

No. 5—The issuance of \$750,000 in bonds to construct a water filtration plant for the processing of water to be delivered from the Canadian River Municipal Water Authority when the water supply becomes available in 1968.

Bonds in all five propositions will be tax bonds. City officials have estimated approval of all five bond issues would increase city taxes by 25 cents on the \$100 property valuation. The present tax rate is \$1.47 per \$100 property valuation.

Any resident of Pampa who has rendered property for tax purposes, has lived in Texas one year and six months in Pampa, and who has a poll tax receipt or exemption, is entitled to vote.

The polling places are located as follows:

Ward 1—City Hall.

Ward 2—North Fire Station, 321 E. 17th St.

Ward 3—Langley & Grey Cabinet Shop, 323 S. Strakweather.

Ward 4—South Fire Station, 1010 S. Barnes.

If it comes from a hardware store we have it. Lewis Hardware.

### Veteran Lecturer To Speak Before Pampa K&F Club

Charles Taylor, a veteran lecturer despite the fact he is not a veteran in years, will address members of the Knife & Fork club at 7:30 p.m. March 14, at the Coronado Inn.

Taylor, who is just a little past the "sixty" mark, has been lecturing since he was 14 years old. At that age he addressed an audience of 2,000 persons in the Platt Hall in Luton, England. He was accompanying his father, a diplomat.

Taylor, who came to the United States at the age of 13, has now addressed audiences in Europe, Australia and, not long ago, in the new state of Hawaii.

Frequently demanded for psychological, humorous addresses before large gatherings, Taylor's educational background lends itself to such accomplishments. He has attended more than a score of colleges and seminars in the United States. He holds a (See LECTURER, Page 6)

CHARLES TAYLOR to speak here

## Three-Day Stock Show Opens Today

Pampa gets set for its second Livestock Show today as the Top O' Texas Hereford Breeders Association Show and Sale begins today at noon in Recreation Park.

Sifting of fat steers and pigs begins at 1:30 p.m. today after completion of weighing Junior Livestock at Recreation Park.

On Monday, the swine division will be judged at 9 a.m. with fat calves judged at 1:30 p.m. Monday's activities are topped off with a Top O' Texas Rodeo Association Junior Exhibitor's Barbecue at the Show Barn. The barbecue begins at 7 p.m.

The FFA Livestock Judging Contest begins Tuesday's activities at the Top O' Texas Stock Show. Following the FFA Judging at 9:30 a.m., Hereford breeding Cattle are judged at 1 p.m.

Tuesday's Stock Show visitors and competitors are invited to a Livestock Judging Banquet at Pampa Senior High School Tuesday evening at 5 p.m.

At 7:30 p.m. Tuesday, the Hereford Breeders Banquet is scheduled at the Starlight Room of the Coronado Inn.

Two sales highlight Wednesday's final day in the show. At 9:30 a.m. the Junior Livestock Sale begins, followed by the Hereford Breeders Sale at 1 p.m. Clyde Magee is President of the Hereford Breeders Association. E. O. Wedgworth serves the association as secretary, Gordon Whitener, Vice President, and Frank M. Carter, Treasurer.

Terms of sale for all animals is cash. All animals to be exhibited will be banded and T.B. tested, and guaranteed by consignors. The Association acts only as agent.

### Fourth Worst Air Disaster In History

By United Press International

The crash of a British Overseas Airways Corp. Boeing 707 on Mt. Fuji Saturday, killing all 124 persons aboard, ranks fourth among single-plane disasters in air history, third among those in commercial traffic.

Largest death toll in a commercial air accident was 134, in the Dec. 16, 1960 collision over New York City of a Trans World Airlines Super Constellation and United Air Lines DC8, but the victims in that crash included some on the ground.

Deaths in other major crashes included:

- 133, in All Nippon Airways Boeing 727 in Tokyo Bay, Feb. 4, 1966.
- 130 in an Air France Boeing 707 at Orly Airfield, Paris, France, June 3, 1962.
- 129 in a military C124 Globemaster near Tokyo June 18, 1963.

The disaster came as Japanese officials still were reeling from the crash only 22 hours earlier of a Canadian Pacific Airlines DC8 while making a landing approach at the same airport from which the BOAC

### Mayor Sums Up Bond Proposals, Asks Voters To Make Decision

EDITOR'S NOTE — This is the last of four weekly articles on Pampa's \$2,900,000 bond issue proposals to be submitted to voters Tuesday. Today's article is by Mayor Jim Nation who presents a summation of the five propositions that will appear on the ballot. The series has been published by The News as a public service.

By MAYOR JIM NATION

There will be a bond election in Pampa Tuesday, March 8, in which the qualified voters of Pampa will have the privilege and opportunity of voting for or against five proposals for city improvements. The planning for this election started 19 months ago on May 4 when the City Commission adopted a resolution appointing 11 citizen study committees.

The people appointed to these committees are public-spirited, responsible citizens from all sections of the city and are dedicated to the improvement of every phase of city activities. Immediately after its appointment, the Water Study Committee began a detailed study of the city's water system. After numerous meetings this committee recommended to the Commission that a bond election be held to provide funds for building a water treatment plant, but that actual construction of the plant not be started until such time that we needed more water than can be supplied by our present wells.

The Highway Study Committee reported next and recommended that a bond election be held to provide the city's share of funds to improve State Highways 60, 152 and 273 within the city.

The committee for study of city streets and thoroughfares reported next, and recommended that a bond election be held to provide funds for the beginning (See MAYOR, Page 11)

### Observance Of Education Week To Start Monday

Observance of Public Schools Week in Texas gets underway full force Monday with a special program slated at the monthly membership luncheon of the Pampa Chamber of Commerce.

The Education Committee of the chamber will present the program at the luncheon slated in the Starlight Room of the Coronado Inn, as a salute to TEW.

The Pampa High School Stage Band will play luncheon music and the A Cappella Choir will present a 15-minute musical program.

A panel of high school speech students, including Barbara Killebrew, Rickey Marson, Jan Pitts, Jeanie Prock, Patsy Holloway, Dale Cain, Pam McLeod, and Cheryl Reeves, will discuss public education in our school system.

Pampa civic clubs are holding their regular weekly noon meetings in Pampa grade schools.

Governor John Connally proclaimed the week of March 4-11 as Public Schools Week in Texas and Pampa Mayor Jim Nation issued a proclamation with the dates of March 7-11 as Texas Education Week in Pampa.

Pampa Superintendent of Schools Jack Edmondson urged all parents to visit the schools.

At 1 p.m. Tuesday all new Pampa members of the National Honor Society will be installed (See WEEK, Page 6)

### Attorney General Clarifies Voter Registration Period

Texas Attorney General Waggoner Carr has released a statement clarifying the new 15-day voter registration period.

Carr said, "Last Saturday, February 26, the Federal District Court hearing the Texas Poll Tax Case granted the State's request for a 30 day stay of its original decree declaring the poll tax to be unconstitutional. I requested this stay in order to give our State a reasonable time in which to put the Registration Act passed by the recent Special Session of the Legislature into effect. As a result, persons subject to the poll tax who had not registered prior to February 1, 1966, either by obtaining a paid poll tax receipt or a "poll tax not paid" receipt for voting in federal elections cannot vote at any election held before March 26, 1966, but can vote at elections held on or after that date, if otherwise qualified, by registering during the 15-day period beginning March 3, 1966 and ending March 17, 1966.

The Texas Attorney General said applications for conditional voter registration certificates (See VOTER, Page 11)

**WEATHER**

# Panhandle Water Conservation News

By FELIX W. RYALS

A big move is on by the State of Texas to stay ahead of the upcoming water and pollution regulations. In the office of the Division of Occupational Health of the State Department of Health a chart and map has been completed showing the results of air monitoring tests being taken at twenty-four observation stations over Texas. The tests were made on one 2-hour test each week during the test period. Dallas was selected as one of the test areas. The test equipment was set up at the City Hall in Dallas. The initial results indicated that the air over Dallas is in good shape as far as dangerous pollution is concerned, using the City Hall location as a guide line.

After completion of the City Hall test in Dallas eighteen monitoring stations were set up in different areas of the city. Results from the 18 monitoring stations have shown that the air in the area of City Hall was about the cleanest in Dallas. The monitoring stations away from City Hall show that many other parts of Dallas County have air with readings as high as 887 micrograms of particulate matter per cubic meter of air. By way of comparison the City of New York is allowed to have not more than 200 micrograms per cubic meter of air, under the State's Air Standards. During the period of 1958 to 1963 the minimum found in Los Angeles was 594.

The new maps now being prepared by the State Health Department will show the expected increase in air contamination under the present practice of garbage burning and diffusion of exhaust from traffic vehicles.

A survey crew has now been sent to Fort Worth, Wichita Falls, San Antonio, Laredo, Beaumont, Port Arthur and Orange have also been selected as sites to survey.

The big question that always comes up when pollution of water or air is being discussed is — Who and what is causing the pollution. Some surveys have been run on cotton gins, chemical plants, and feed mills. The results of these are as follows: COTTON GINS—Readings have been found as high as 70,000 micrograms per meter downwind from them, with arsenic and other agricultural chemicals pres-

ent. CHEMICAL PLANTS—One plant in Brazoria County was found to be losing many tons of magnesium oxide a day, bringing readings as high as 4,100. The operators of the chemical plant installed recovery equipment which is saving them an average of \$1,800 worth of chemicals per day during the peak seasons. Feed MILLS—A survey conducted at Laredo showed that one feed mill was losing approximately seven and one-half tons of minerals into the air each day. The value of each ton was forty dollars. Results have been obtained indicating that protective equipment, in most instances, add to the profits of the company and at the same time slows down the pollution of the water as well as the air.

Those regulations of the pollution of the air and water are with us. The Congress of the United States has enacted legislation requiring it now — and not at some far off date in the future.

The African nation of Mali has a marriage code which permits a choice between monogamy and polygamy.

## Emergency SDA Meetings On Milk Scheduled

Three regional emergency public hearings have been scheduled by the U. S. Department of Agriculture to consider what would be the appropriate levels of Class 1 (fluid) milk prices during the next several months

## Gray County SCD News

By VAN C. MILLS

An irrigation system is being laid out for W. Sheppard on his farm northeast of Groom. M. Doss, John Harnly, Lean Daugherty, Frank Daugherty, Bill Stockstill, and H. W. Waters plan to put in underground irrigation pipeline.

Shelton Nash, who farms the Brown place west of McLean plans to build two farm ponds and a diversion terrace.

G. M. Walls who farms east of Pampa is in the process of completing a farmstead windbreak. Rows in windbreak should be spaced so that farming can be done between rows to control weeds. From now until April 1 is a good time to set out farmstead and livestock windbreaks and wildlife plantings.

How often do droughts occur? Droughts are one of the main concerns of farmers and ranchers in the Texas Panhandle. From 1892 to 1958, 16 years (24 per cent) were very dry; 38 years (58.8 per cent) were below average; 29 years (43.2 per cent) were above average. We can see from the above figures that droughts and wet years are just as normal as dry years. If you are stocked on the basis of average rain fall you could be short of grass over 50 per cent of the time. Since we know these droughts occur rather frequently we should prepare for them. The past three years have found many farmers and ranchers out of grass and feed. The

THE WINNER—Missouri's 1965 corn-growing champion is George Kimmons of Ozark. His 304.5 bushels per acre on a 28-acre field was high in the 17th annual Missouri Farmers Assn. statewide growing contest. Kimmons also won in 1963.

ranchers that do a good job of managing their grass are the ones that stay put.

Success in ranching business depends upon the amount of grass we produce rather than the number of livestock we have. To avoid damaging our grass during droughts and dry years, we should stock on basis of the drier years rather than the wet years. A good many farmers and ranchers reserve a pasture, or carry over a good supply of hay to feed during the first part of drought. This helps to avoid damaging their grass and buying high price feed, and allows them to market their cattle at the right time.

## Make Believe Meat Affects Economy

COLLEGE STATION — Fred Uvacek, extension livestock marketing specialist at Texas A&M University, thanks "make-believe meat" could have a severe impact on Texas economy. Uvacek said recent developments in use of spun fibers of soybean protein as a substitute for almost any food with natural fiber texture may bring this problem closer in the foreseeable future.

The fiber can be treated to look like meat, dried fruits, potato chips, nut kernels and many vegetables. Since it has no flavor of its own, it may be given any flavor desired.

Uvacek said substitution of synthetics for farm products is not new. Nylon, rayon, dacron and other synthetic fibers have

cut into the demand for wool and cotton. "Soybeans or other substitutes for meat are therefore not too surprising," Uvacek said.

"Research is still in progress and many product development and consumer research problems have to be worked out." In Texas, livestock is a major source of farm income and any development in the competition for meat production could have a substantial effect on farm and ranch income.

**No Immediate Threat** "Currently, synthetics are not major competitors with fresh meat," Uvacek said. "In the event that synthetic meat products find a strong market in the future, it may be that soybeans, now a relatively small crop in the state, could in-

crease substantially." Uvacek said the most logical approach of ranchers and farmers to the new products probably is to understand their nature and devote efforts to improvement of production, processing and marketing of livestock.

It is estimated there are 5,450,000 bee colonies in the United States.

## Agriculturally Speaking

By FOSTER WHALEY  
Due to lack of space a few comments were not printed in my last week's column that referred to the present cattle price situation. Here is my other comment:

"Cattle Feeders and prospective cattle feeders should sober some of their optimism with the February 10th 'Texas Cattle on Feed' report that showed January placements up by 84 per cent in Texas. They were up 57 per cent in California. January placements were up an average of 115 per cent in five se-

lected cattle feeding states. "Eventhough U.S. cattle numbers made a down turn on January 1, 1966, this can easily be offset.

"For each eleven pound increase in average slaughter weights, fed beef production increases by about one per cent. This requires only four extra feeding days for each animal on feed. Feed them forty days extra and you have a 10 per cent increase in beef supply. This is what got many feeders in trouble in '62. It doesn't take an increase in cow numbers to produce more beef. Cattle numbers means much less today than average slaughter weights.

"Don't get me wrong — there is a long list of good reasons why the general range of cattle prices will be in the thirty-cent bracket this fall.

"Many observers think there will be some brief depressions in the finished market throughout '66. If feeders pay too much for replacements, there will be some very narrow margins at times."

The Downtown Lions Club are to be congratulated for their many years of sponsoring the Gray County Junior Livestock Show. While attending their Farmer-Rancher day program last Thursday I noticed quite an array of trophies they had displayed that were to be presented to young 4H and FFA members. This show was held yesterday. Today the Top O' Texas Show kicks off with the sifting of Steers at 2 p.m. Judging begins Monday at 9 with the Fat barrows. The steers will be judged at 1 p.m. tomorrow. Hereford Breeding Cattle will be judged on Tuesday afternoon, March 8. Sale of the Junior Livestock will be Wednesday, March 9 at 9 a.m.

Last week we met with several local real estate dealers and others having knowledge of land values in an effort to establish the value of dryland as compared to land having good irrigation possibilities. This was done for several preceding years, starting with the first year a difference was noted between dryland and irrigated land.

This is necessary so that farmers can show a depletion allowance for the irrigation water they purchased. As we understand it the Internal Revenue Service will accept the combined opinion of these real estate figures.

Our underground water supply is a trapped body of water held in a sand and gravel formation. With the tremendous increase in irrigation wells over the High and South Plains, the water table is falling at an alarming rate in places,

**NEW YORK STATE SAFETY CAR**—There are 134 new safety features in a model car designed by Republic Aviation under contract to New York state. Some of them are pointed out in the sketch above. The car would be about the size of a Ford or Chevrolet and would have a 200-horsepower engine. It was described as crash-resistant, though not crash-proof. Its potential is to decrease accident deaths and injuries a minimum 50 per cent.

### Old Age Assistance Payment Due \$3 Per Month Increase

**AUSTIN (UPI)** — Gov. John Connally today announced the State Welfare Department will increase old age assistance payments by \$3 a month so recipients can pay medicare premiums.

In a speech before a conference on older Americans, Connally also announced the Welfare Department has made arrangements to pay the \$40 hospital deductible plus the first \$50 for physicians services for those on old age assistance. Those on old age assistance, then, will receive the benefits of medicare without reducing

their subsistence grants and without requiring their payment of deductible costs," Connally said.

The \$3 premium is for an optional medicare plan providing surgical insurance which pays 80 per cent of doctor bills after the first \$50. The hospital insurance portion of medicare is free to persons over 65.

Connally designated March as "medicare enrollment month" and also proclaimed the month "senior citizens month."

### Birth Control Assistance Due To Increase

**WASHINGTON (UPI)** —The administration expects its outlays for birth control assistance to foreign nations to double next year and double again in the years immediately following. This would raise family planning expenditures under the foreign aid program to an annual level of \$20 million within a few years, according to a report by the Agency for International Development (AID).

Portions of the report were released Friday by the House Appropriations Committee.

AID, which administers much of the foreign aid program, said its investment to date in family planning assistance abroad amounted to \$2 million in the fiscal year starting July 1, 1964; \$5.5 million in the current fiscal year; "with prospects of expanding assistance levels to \$10 million in fiscal year 1967" which starts July 1, 1966.

"That figure can be reasonably expected to double again in the years immediately thereafter," the report said.

### Merchants to Attend Safety Meeting

Several Pampa merchants and their employes will attend a one day safety clinic beginning at 8:30 a.m. Thursday in Amarillo.

The clinic will be held at the Pioneer-Natural Gas Company. The Texas Safety Association and the Panhandle Chapter of the American Society of Safety Engineers are co-sponsors of the clinic, which will feature talks and demonstrations by a panel of national and regional experts in safety, training, insurance and the manufacture of protective equipment.

Several speakers have been lined up to speak with interest to the small organization which does not have a safety department.

PAUL CARMICHAEL

### Indians To Discuss Land Domains

Public domain land claims for members of the Five Civilized Tribes will be discussed at a Sunday meeting of the Pampa chapter of the Southwest Indian Organization, Marland P. Hays, chief of the local chapter announced today.

The Sunday Meeting will be held in the Old Parish Hall at the Corner of Ward and Butler at 2 p.m.

Attorneys A. J. Carubbi Jr. and John Warner will attend the meeting to answer any questions those attending may have. Congressional Candidate Bob Price and Amarillo Chief David Perkins will also attend the Sunday meeting.

The chapter will provide roll books for Indians to trace their genealogy. Necessary forms must be obtained to establish Indian ancestry, Hays said.

Under a federal act of Feb. 8, 1887, Indians and those of Indian ancestry up to one-thirty-second, are eligible for grants of land from the public domain of 160 acres each.

The government, in the past, has not honored this right, Hays said. The Southwest Indian Organization has launched a campaign to have these rights recognized.

A key portion of the law concerning Indians is a paragraph specifying they must act "in good faith" and settle on the land, remaining on the land at least two years as under the Homestead Act.

The paragraph ends: "Where an Indian makes settlement in good faith upon lands not reserved therefrom, an allotment therefor can not be denied on the ground that the lands are too poor in quality. Also, where settlement was made in good faith, the presence of valuable timber does not warrant the rejection of the allotment." An additional paragraph reads: "An allotment may be allowed for coal and oil and gas lands, with reservation of the mineral contents to the United States."

Any person wishing to check his Indian ancestry is welcome at meetings to use the roll books for that purpose, Hays said.

### Wall Street In Review

**NEW YORK (UPI)** —Edward F. Underwood of Mitchum, Jones & Templeton Inc. says tight money would clearly force the market lower on a broad front.

However, Underwood says, since it is almost inconceivable that such a policy could be anything but an error on the part of the administration, prompt corrective measures could be expected. Such a break, Underwood says, would be an outstanding buying opportunity.

Oppenheimer, Newberg & Neu says that although it does not believe a major reaction is in sight it does again recommend great caution and the weeding out of some of the weaker holdings in portfolios. The firm says it believes a certain amount of liquidity is advisable at this time.

Stanley Heller & Co. says investment decisions at this time should be geared increasingly toward the shorter term trading opportunities of the market rather than the longer term.

The 42-line Bible, often called the Mazarin Bible, was the first book Gutenberg printed on his press.

# Cruise Ship Advertising To Contain Cautionary Labelling

By DANIEL RAPOPORT  
United Press International  
WASHINGTON (UPI)—Some  
akin to the warning label  
a pack of cigarettes may be

in store for the foreign-flag  
cruise ships operating out of  
American ports.  
The White House is reported  
to be considering asking

Congress for authority to  
require that a cautionary note  
be included in advertisements  
for such cruises.  
Rep. Paul G. Rogers, D-Fla.,

a senior member of the House  
Merchant Marine Committee,  
introduced legislation to that  
effect this week. His bill was  
prompted by the sinking last

fall of the Yarmouth Castle, a commandant of the Coast  
38-year-old cruise ship of Guard.  
Panamanian registry whose  
structure contained much wood  
and other "combustible materi-

Not all foreign ships are less  
safe than their U.S. counter-  
parts. Some may even be safer.  
The difficulty is that in  
inspecting foreign ships, the  
Coast Guard can only apply the  
standards set by international  
conventions, standards that are  
not as stringent as those  
imposed by U.S. law.

In order to be fair to foreign  
ships, Rogers is considering  
some way to permit these  
vessels to be inspected by U.S.  
Coast Guard safety standards and to advertise that  
inspections required of U.S.-flag  
passenger vessels." All of this would be unneeded  
if international standards could  
be raised. The United States is  
expected to make such an  
effort.

## Johnson To Visit Mexico

MEXICO CITY (UPI)—  
President Johnson will go to  
the Mexican resort of Acapulco  
in July for talks with Mexican  
President Gustavo Diaz Ordaz,  
government sources said today.

They said former Assistant  
Secretary of State Thomas  
ann told Diaz that Johnson  
had accepted an invitation to  
visit Mexico when Mann came  
there in December as part of  
the U. S. President's world-  
wide "peace offensive."

Acapulco apparently was  
chosen as a place for the  
meeting because of the 7,348-  
foot altitude of Mexico City  
which might put an undue  
strain on the U. S. President's  
art.

Sea lions, some seals and  
ales sleep under water, com-  
to the surface only occasi-  
ally to breathe.

## Cuba Charges CIA Involved In Anti-Castro Plot

HAVANA (UPI)—Cuba  
claimed Saturday that two  
former army majors and five  
other persons arrested this  
week for plotting an attack  
against Premier Fidel Castro  
were linked with the United  
States Central Intelligence  
Agency and anti-Castro Cubans  
abroad.

A lengthy official commu-  
nique from the Interior Minis-  
try said several weapons,  
including one with a telescopic  
sight, were found in the home  
of Rolando Cubela, a former  
president of the University  
Students Federation and former-  
ly a major in Castro's army.

The communique named  
Cubela as leader of a revolution-  
ary group and said he began  
leaning against the Castro  
revolution in December, 1964,  
when he went to Europe for a  
meeting of student groups.  
Among the weapons found at

## LANGUAGE BARRIER

GLASGOW, Scotland (UPI)—  
A judge excused an English  
woman from jury duty in a  
Glasgow murder case when she  
said she was unable to follow  
the evidence.

"I can understand my own  
people, but I can not under-  
stand some Scottish voices,"  
she said.

PLAY OPENING  
ROME (UPI)—"The Mercy  
of November," an Italian stage  
play based on the assassination  
of President Kennedy will  
premiere March 18.

Franco Brusati, the author,  
said it is a "moral, not a  
historical" treatment of the  
murder and portrays the  
assassin as having a twisted  
desire to rise above the  
masses.

his home were a rifle, a  
submachinegun, hand grenades,  
incendiary grenades and large  
amounts of ammunition. Both  
Cuban and American money  
also were found, the Interior  
Ministry said.

## Tiny Infant In Good Condition

DENVER (UPI)—A 14-  
ounce premature baby boy born  
10 days ago was in satisfactory  
condition today at Children's  
Hospital after an emergency  
flight from Imperial, Neb.

The infant, Scott William  
Raile, has been in an incubator  
since he was born three months  
premature at Imperial. He is  
the son of Mr. and Mrs. Larie  
Raile. The father is an auction-  
eer at McCook, Neb.

Doctors said the child weighed  
one pound, 3½ ounces at  
birth. He was flown to the Den-  
ver hospital, which is equipped  
with an intensive care center  
for premature infants.

Doctors said chances of a  
baby of such weight surviving  
were about one in 1,000, but  
they said the odds are better  
than that because the boy has  
lived 10 days.

A Coast Guard board of inspecting foreign ships, the  
inquiry Thursday made public a  
highly critical report on its  
investigation of the tragedy.  
Under Rogers' bill the  
American vacationer would be  
forewarned by a declaration in  
cruise line ads reading:  
"Foreign-flag passenger vessels  
are not subject to the same  
U.S. Coast Guard safety standards  
and inspections required of U.S.-flag  
passenger vessels."

**VA Increase Interest On Home Mortgages**

WASHINGTON (UPI) —The Veterans Administration (VA) has increased interest rates for GI home loans under a "sleeper" provision of the new GI bill of rights.

The increase, from 5 1/4 to 5 1/2 per cent, would mean increases of from \$3 to \$4.50 in the monthly payments on average GI mortgages.

Some four million VA-insured mortgages already outstanding will not be affected by the increase. A VA spokesman said an estimated 275,000 persons taking out loans on new and existing homes will be affected by the higher interest rates this year.

The increase was announced Thursday shortly after President Johnson signed into law legislation providing educational and other veterans benefits for persons serving in the armed forces since Jan. 31, 1955.

Authorization for the increase was contained in a provision of the bill which had not attracted widespread attention when the bill went through Congress. An increase had not been entirely unexpected, however in light of the general rise in interest rates recently.

SENTENCE SUSPENDED  
NEW YORK (UPI) —A federal judge Friday took into consideration a young man's dedication to humanitarian ideals in suspending his two-year prison sentence for burning his draft card.

"I take your sincerity and dedication into account," said Judge Edward Weinfeld in suspending sentence for James E. Wilson, 21. Wilson could have received a five-year prison sentence and a fine of \$10,000 under a new law making it a federal offense to knowingly destroy a Selective Service card.

Crash

(Continued From Page 1)  
plane took off. Sixty-four of the 72 persons aboard were killed. The crash of the 707 splattered wreckage over a wide, forested area near the Tarobo observation station on Mt. Fuji's second level.

Marine Lt. Thomas Quinn of Modesto, Calif., said when he arrived on the scene from a nearby firing range he "found wreckage scattered all over the side of the mountain. I don't know what happened, but the plane must have blown up in the air."

There was other evidence to substantiate this view. The rear stabilizer and rudder — both pieces of the tail assembly — were found lying near a road about five miles from the crash scene. Both were covered with scorch and smoke marks.

Officials at Haneda said Captain Dobson was flying visually instead of on instruments during the flight. The plane was off its course to Hong Kong, but officials said BOAC pilots made a practice of swinging by Mt. Fuji to give passengers a view of the magnificent sacred peak.

The flight, No. 911, was to have continued on to London after Hong Kong.

In addition to the 89 Americans aboard, there were 12 Japanese, three French, two Chinese, two Britons, one Canadian, one German, one New Zealander, one Korean, and one Thai. The 11-man crew was composed of nine Britons, one Japanese and one Chinese.

BOAC's last fatal crash was in June, 1956, when three crewmembers and 29 passengers were killed at Kano, Nigeria.

Japanese officials were shocked and puzzled by the frightening series of air disasters which have struck here. Premier Eisaku Sato dispatched the chief of the Japanese Aviation Bureau to the scene by helicopter.

Preliminary investigations indicated that pilot error contributed to both the crash of the All-Nippon Airways plane in Tokyo Bay and Friday's Canadian Pacific Airline disaster.

Money

(Continued From Page 1)  
a check protector to read \$80, completing the forgery.

Chief Connor said the suspects had several money orders in eight dollar amounts. Four were on the persons of the men when they were arrested.

Investigation in the bad money order passing started here Thursday when one was discovered passed at Furr's Food Store. Friday, police moved in with a tip from Mitchell Grocery that to Negro men were trying to pass eight dollar money orders. The suspects were then arrested with four money orders in their possession. All were purchased at Richards Drug.

Connor said it appeared the girls were buying the money orders and the men were passing them. Police believe when the quartet's activities are investigated throughout the Panhandle area and in New Mexico, the amount of altered money orders passed may reach "into the thousands."

City Council To Study Request For Annexation

Pampa city commissioners Tuesday will consider a request for annexation of Boy Scouts of America headquarters property on N. Sumner St.

The commission also will discuss possible annexation of other areas adjacent to the city limits.

Floyd Watson, chairman of the School-City-County Cooperative Government committee, will offer the group's recommendation on a proposed community center building in Hollywood Park adjacent to Carver School.

Other items on the agenda at the Tuesday morning session include:

Approval of \$11,790 payment to Contractor A. W. Boren for work completed through February on the new sewer plant.

Transfer of \$15,697 from the general fund to the library fund and authorization for the purchase of \$350,000 in U.S. Treasury bills.

Receiving of bids for a street sweeper, tractor and mower and set April 12 as date for receiving bids on three new police patrol cars.

Fort Fails To Find 'Debaters'

The attempt of former city commissioner L. P. Fort to find someone who would debate with him on Proposition 5 to be submitted to Pampa voters Tuesday failed again Saturday night.

The ex-commissioner, opposed to a bond issue at this time for construction of a \$750,000 filtration plant to receive Canadian River water, has repeatedly challenged city commissioners, city officials or anyone to discuss the proposal with him.

He rented the Palm Room of City Hall Saturday night and again issued his open challenge. There were no takers when Fort appeared on the rostrum at 7:30 p.m.

A dozen or more persons were in the audience and Fort spent the time discussing various points in connection with Pampa's affiliation in the Canadian River Municipal Water Authority, a group of 11 cities committed to pay the cost of the \$90 million Canadian River Dam project.

"The crowd was bigger than I expected," Fort said at the conclusion of the hour-long discussion period.

Police believe when the quartet's activities are investigated throughout the Panhandle area and in New Mexico, the amount of altered money orders passed may reach "into the thousands."

Mossler Jury Ordered To Reach Verdict

MIAMI (UPI) — A jury deliberating murder charges against Candy Mossler and Melvin Lane Powers reported late Saturday it had been unable to reach a verdict but the judge ordered the 12 man panel to keep trying.

The jury, which was given the case against the alleged lovers Thursday night and spent much of Friday hearing testimony re-read, sent out a sealed note at 11:30 a.m. EST. The note advised Circuit Court Judge George E. Schulz: "Your honor, with all due apologies, we the members of this jury find we cannot reach an agreement to our verdict of either acquittal or conviction."

The judge, who had to come to the courthouse from his home, opened the envelope shortly before 3 p.m. and, after a conference with a attorneys for both sides, sent a reply to the jury.

The judge's reply noted that actual deliberation of the seven week case in the June 30, 1964 death of millionaire Texan Jacques Mossler had totalled less than 11 hours.

"While the court has no intention of attempting to force the jury to reach a verdict or verdicts, in fairness to both the state and the defendants, you should deliberate a sufficient time to reach a verdict or verdicts if you can," the judge's note said.

Obituaries

Bernice C. Heare  
Bernice Cass Heare, 81, of Panhandle, father of J. Frank Heare of 1529 Hamilton, died at his home Friday morning following a heart attack.

Funeral services will be at 3 p.m. today in Panhandle First Methodist Church with Rev. Alvis Cooley officiating. Burial will be in Panhandle Cemetery under direction of Poston Funeral Home.

Mr. Heare was born in Bowie and moved to Miami in 1960. He moved from Miami to Panhandle in 1945 where he farmed until his retirement several years ago.

Mr. Heare was a member of Panhandle First Methodist Church and Carson Masonic Lodge 1167. He was past master of Miami Masonic Lodge 905.

Survivors include his wife, Mrs. Annie Heare of the home; three daughters, Mrs. Carrie Jo Patton and Mrs. Marjorie Brannum, both of Panhandle, and Mrs. Verla Faye Holland of Miami; four sons, J. Frank Heare of Pampa, Gerald Heare of Panhandle, Leroy Heare of Lancaster, Calif., and Bernie Heare of San Rafael, Calif.; a brother, Clayton Heare of Amarillo; a sister, Mrs. Grace McCausion of Panhandle, 15 grand-children and four great-grandchildren.

W. E. GINN  
Monday funeral services are scheduled for W. E. (Bill) Ginn, Pampa resident who died here at 12:30 p.m. Saturday at Pampa Convalescent Home. Services will be held at 2 p.m. at Carmichael-Whitley Colonial Chapel with Rev. Ed L. Spivey, pastor of the First Baptist Church of LeFors officiating.

Born March 25, 1885 at Terrell, Texas, Ginn moved to Pampa in 1908 from Beaver County, Okla. He was employed by the White Deer Land and Cattle Company for a short time before moving to his farm 10 miles south of Pampa. Ginn was a member of Pampa Masonic Lodge 966.

Survivors include one daughter, Mrs. Leo Calata Jr., of Amarillo; a son, Bruce of Pampa; three sisters, Mrs. Martha Dorris of Clovis, N. M., Mrs. Sally Ferguson, Colorado Springs, Colo., and Mrs. Alpha Edwards of Wichita Falls; three grandchildren and two great-grandchildren.

He will be buried by the side of his wife Prebble Ginn, who died January 16, 1960.

Pall bearers will be John Mackie, Al Ferguson, Gerald Simms, Emil Urbanczyk, Fred Vandenberg and Jimmy McCracken.

The Baptist Study Group will be held Friday at 1 p.m. at the First Baptist Church Parlor.

"Whiskey" is a word came into common usage in the 13th century.

Cong Try To Smash Through Marines

By RAY F. HERNDON  
United Press International

SAIGON, Sunday (UPI) — Communist North Vietnamese

troops trapped in a small valley about 330 miles northeast of Saigon tried to smash through U.S. Marine positions early today. But the Leathernecks hurled them back in bitter fighting and the Communist death toll soared to above 500.

In trying to break out of the death trap, the Hanoi troops, originally numbering more than 2,300, used a withering barrage of machinegun, mortar and small arms fire. But the Marines held their ground and quickly were reinforced by two Leatherneck companies heli-lifted into the area.

The Marines, with South Vietnamese ranger and airborne troops, pressed in on the Communists from four sides, keeping the Reds literally fighting back to back in the small rectangular shaped valley.

At about dawn a Marine spokesman said the Marines still were taking heavy machinegun and small arms fire and were in "solid contact" with at

least two Communist companies.

The Leatherneck unit that bore the brunt of the fighting throughout the night was the 2nd Battalion, Fourth Marines, which had taken up positions on the east side of the trap.

In the most intense bombing raids of the year against the North, U.S. Planes blasted a Soviet-built missile site near Hanoi. Communist MIG jets fired on the American Planes and a military spokesman said it was the first time that MIGs had ever done so in the war.

Trophies for three places in each division plus awards for grand and reserve champion were made by the Pampa Lions Club, sponsors of the annual

Honors

BERRY'S WORLD

"Hope you don't mind fillin' in until the new chef arrives on Tuesday."

The crescent is a world-wide symbol of growth and progress. In 1864, Ulysses S. Grant, about to be put in command of all Union armies, arrived in Washington for the first time in his life.

VOTE FOR PAMPA  
YOU KNOW THE ISSUES — VOTE FOR THESE PROPOSALS  
PROTECT YOUR INVESTMENT IN YOUR FUTURE!  
YOUR CITY COMMISSION HAS MADE A UNANIMOUS ENDORSEMENT OF ALL 5 PROPOSITIONS.

PROPOSITION NUMBER 1  
FOR the issuance of bonds for improvements to Alcock Street.  
These bonds, in the amount of \$236,000, will be used to widen State Highway 152 and provide a drainage system for this area. When completed, this street will be 84 feet wide, or 20 feet wider than Hobart Street.

PROPOSITION NUMBER 2  
FOR the issuance of bonds for improvements to Wilks, Brown and Frederic Streets.  
These bonds, in the amount of \$595,000, will be used to widen U.S. 60 through town and provide a drainage system for this area. When completed, this street will be 84 feet wide, or 20 feet wider than Hobart Street.

PROPOSITION NUMBER 3  
FOR the issuance of bonds for improvements to South Cuyler and Barnes Streets.  
These bonds, in the amount of \$395,000, will be used to widen South Cuyler and Barnes Streets and provide a drainage system for this area. When completed, these streets will be 64 feet wide, or the same width as Hobart. This facility will provide a body needed thoroughfare from downtown Pampa to the South City Limits.

PROPOSITION NUMBER 4  
FOR the issuance of bonds for improving the Streets and Thoroughfares throughout the City.  
These bonds, in the amount of \$950,000, will be used to widen and improve streets designated as thoroughfares which will serve as the beginning of a thoroughfare plan. It will also provide approximately 200 blocks of residential paving throughout the City.

PROPOSITION NUMBER 5  
FOR the issuance of Waterworks System Tax Bonds.  
These bonds, in the amount of \$750,000, will be used to construct a water filter plant. This plant is necessary before Pampa can use the Canadian River water for which we must pay whether the water is used or not.

# Worst Blizzard In History Cripples Area

By United Press International  
The worst blizzard since the U.S. Weather Bureau began keeping records for the third day through the northern Plains Saturday, all but isolating entire states.

The storm death toll reached 14. At least 40 persons were missing. The number of travelers known to be stranded totaled 914. A 350-mile strip of South Dakota was without electric power.

North Dakota's acting governor declared the state a disaster area and mobilized 1,600 National Guardsmen.

South Dakota's governor called on the National Guard to rescue 50 families Friday night and early Saturday when their homes were left without heat or electric power.

It was snowing from Kansas to the Canadian border and from the high plains to the Great Lakes. Mobridge, S.D., reported 35 inches of snow since Wednesday. The 24-hour snowfall of 15 1/2 inches at Bismarck, N.D., set a one-day record and the total of 22.4 inches since Wednesday set a one-storm record.

Weather experts said the current storm may well eclipse the fabled blizzard of 1888, which denuded the Plains of

# 7 'Corpse' Comes Alive In Mortuary

NEW YORK (UPI)—A 71-year-old "dead" woman revived in a mortuary shortly before she was to be embalmed was reported in critical condition Saturday at Roosevelt Hospital.

Henrietta Landau was pronounced dead Friday at her lower East Side apartment by Dr. Samuel Gaines. She was transported to a funeral home and placed on a slab to await embalming.

An attendant heard low moans emanating from the "corpse" and noted slight breath movements under the sheet. He ran to the mortuary manager's office shouting "the corpse is alive."

Manager James Kennedy administered artificial respiration and an ambulance was called. By the time Miss Landau reached the hospital her breathing was improved and color had returned to her face.

"Thank heavens she never

# Balanced Criminal Procedure Code Being Sought by Washington Experts

WASHINGTON (UPI)—Legal experts Saturday unveiled a proposed code which they assert will protect the rights of a crime suspect and still allow police to question them before he is formally charged.

Intense controversy over how far police can go in prying information out of suspects has been building up since 1957 when the Supreme Court reversed the rape conviction of a Washington, D.C., man deemed to have been held too long in custody. The man confessed to police.

The tentative draft distributed to the press will be considered at the annual meeting in May of the American Law Institute, a group of lawyers, professors and judges interested in improving the administration of justice.

The lawyers said they had "sought to understand as fully as possible the need of those entrusted with responsibility of law enforcement." They said they also recognized "that the individual is not simply at the disposal of public officials."

The code would, among other things:

- Permit police to stop persons for as long as 20 minutes in the street or elsewhere to try to run down
- Require that felony arrests without a warrant be made only for "reasonable cause."
- Permit non-felony arrests without a warrant only if the misdemeanor is committed in the officer's presence or if the person "could not otherwise be apprehended, or if he might injure persons or damage property."
- Require that the suspect be informed of his right to remain silent and to consult with an attorney, family or friend. If an attorney is on the way, the questioning may still proceed up to a four-hour limit set on in-police station interrogation.
- The code, if approved by the institute, would serve as a guide for new rules of court procedure or for state legislatures which might want to revise criminal codes. The draft was financed by a Ford Foundation grant.

**Veneral Disease Is Still A World Problem**

Although penicillin and other antibiotics are an effective, speedy cure for most cases of syphilis and gonorrhea, these diseases are increasing. Promiscuous exposure, by personal contact with infected people is spreading veneral disease. If treatment is not early, one's health can be permanently injured.

We urge every parent and teenager to send a 5c stamp to the American Medical Association, Chicago, Illinois, for a copy of their Veneral Disease pamphlet. The information in it can prevent much mental anguish and poor health.

YOUR DOCTOR CAN FROCK US when you need a medicine. Pick up your prescription if shopping nearby or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

### Red Cross News

By LIBBY SHOTWELL, Executive Secretary

This is Red Cross month and we hope all of you heard President Johnson's message over radio and TV last Tuesday evening. These are some of the thoughts he brought to the American people. "At this very minute somewhere in Viet Nam the American Red Cross is saving a soldier's life — feeding a starving child — sheltering a refugee family. At this very moment, somewhere in America, our Red Cross is helping a personal tragedy — easing a community crisis — tackling and solving the problems and emergencies of life.

"At this minute, in these difficult hours, I am deeply grateful for the Red Cross. We should all be grateful—and very proud. We should remember Hurricane Betsy — and how the Red Cross rescued thousands from the brink of that disaster. We should all remember the nurses, doctors, and countless volunteers who stand watch around the clock in hospitals, tents, shelters — wherever there is a human need or suffering — here and in Viet Nam this very minute. We should remember and give thanks — by giving our personal support to the Red Cross Month. The Red Cross needs volunteers and funds. No dollar sign can measure the priceless service they provide. "I ask every American to give—

and generously — this month to the American Red Cross. Red Cross has never failed us — and we cannot fail them now. Give your membership to the Red Cross today!"

The Red Cross board will meet Tuesday morning at the Coronado Inn at 7 a.m. for their regular monthly meeting. Mrs. Ralph Converse will give a report on the Disaster Conference held recently and the UF board will be guests of the Red Cross at this meeting. Wesley Langham, chapter chairman, invites all members to be present.

Frank Stallings will meet with the Standard First Aid class Tuesday at 9:30 a.m. in the City Club Rooms in the City Hall. Last week's group was small and they decided to recruit more members for the class so, Lesson one will be taught Tuesday morning. This meeting is open to the public and anyone who wishes to learn of First Aid is invited to come to the meeting.

H. H. "Toots" Gilliam, Water Safety and First Aid Instructor Trainee for the State of Texas, was in Pampa Monday afternoon enroute to Perryton, where he held a FAI class during the week. Gilliam will hold a WSI class at West Texas University in April, date to be announced.

Ray Fisher finished his Standard and Junior First Aid class Friday evening at the Fire Station No. 2, with the following completing the course in Standard First Aid: DeWayne Stembbridge, Ray Caldwell, Virgie Wallin, Wayne Pratt, J. D. Ray, Mike McComas, Rick Redus, Karl Gruben, David Irwin and Roy Marx.

The Junior Course was completed by the following boys: Tom Neslage, Bill Brewer, Mack Gething, Stewart Murchison, Ray Cox, Gene Carlson, Kevin Walls, Lee Losher, Bruce Brown. These boys made up a most unusual class group as they were all Boy Scouts or Boy Scout Leaders, and most of them were working on their Eagle Badge. To become an Eagle Boy Scout they must earn their First Aid Badge, and these boys decided that they would take the complete course. Last Tuesday night, Fisher showed Part I and Part 2 of the movie, "First Aid" to 53 Boy Scouts at the Fire Station. Troop 14 from the Presbyterian Church were the guests who viewed the film.

Dick Strayer, field representative from Amarillo with Mrs. Libby Shotwell visited the Lion's Club in McLean Tuesday noon where Strayer was the guest speaker. He spoke on the work of the Red Cross and the Lion's Club took the Fund Drive for Red Cross as one of their projects.

### Lumbermen To Convene For Spring Meeting

J. B. Woodington, Pampa lumberman, president of the Lumbermen's Association of Texas, has issued a call to the Board of Directors to convene at El Tropicana Motel in San Antonio March 11-12 for the Spring meeting of that group.

The directors are expected to pass on regular business to come before the 50-year old non-profit trade association, but will focus their attention on two future meetings — one the convention-exposition of the state association, which will be held in Dallas April 15, 16, 17; and the other, the convention to be held in 1968 in San Antonio to mark the opening of HemisFair.

According to Woodington, The Lumbermen's Association of Texas was organized in 1886. It now has members in 44 Texas communities and has been in a large measure responsible for bringing about advanced thinking and modern merchandising methods in the building materials industry.

Woodington is the second Pampa lumberman to be head of the state wide organization. Lynn Boyd of this city was president in 1944-45-46.

MARCH, 1966

**NON-MEDICAL PEOPLE CANNOT DIAGNOSE**  
To diagnose, or find out the cause of an ailment requires more than intelligence. A medical education plus observational experience is needed.

**PAIN OR DISCOMFORT RELIEF IMPORTANT**  
Sometimes a home remedy or non-prescription medicine helps. But, if such pains or discomforts keep returning it is of greater importance to find out the cause. For pain is an urgent cry from your body that something is wrong and it needs help.

**THEN YOU SHOULD CONSULT A PHYSICIAN**  
Otherwise, a possibly easily cured ailment can gain a foothold and become a serious disease. A physician will check your medical history, give your body an adequate physical examination and study your symptoms. If still in doubt about the cause of your trouble, or to positively confirm his diagnosis, he may give some laboratory tests or require X-rays.

**PHYSICIANS TREAT THE CAUSE**  
Self-treatments only try to relieve the pain or discomfort. That is why you usually will save much sickness-time and possible future harm by quickly consulting a physician about any recurring body problem.

**MANY NEW MEDICINES ARE AVAILABLE**  
Your physician can prescribe the one he thinks will help you most. We stock them as soon as they are released for safe use.

### New Books on Shelves At Public Library

**Fiction:**

"Tell No Man" by Adela Rogers St. Johns; a compelling novel about a contemporary man who endeavored to obey Christ's Commandments.

"Highland Masquerade" by Mary Elgin; the author of "A Man from the Mist" again lures the reader into the Scots Highlands in a tale of romantic suspense.

"The Beginners" by Dan Jacobson; chronicles the saga of four generations of South African Jews.

"The Embezzler" by Louis Auchincloss; the chief character in this powerful novel is Guy Prime — one time golden boy of Wall Street — whose embezzlements brought down the delicately balanced power structure of the Exchange.

"Journal From Ellipsia" by Hortense Calisher; this is a comic novel of the utmost seriousness of purpose, believable at the same time that it is fantastic.

"The Man Who Loved His Wife" by Vera Caspary; the author reveals, with sure psychological insight, the strange desires that hide in the hearts of seemingly respectable people.

**Non-Fiction:**

"Pop Art . . . And After" by Mario Amaya; a survey of the new super-realism.

"Anxiety and Tension Control" by Edmund Jacobson, M. D., demonstrates how you can help minimize your tensions — a workable way to eliminate energy-robbing tension.

"The Right Frame" by Henry Heydenryk; a consideration of the right and wrong methods of framing pictures.

"Ransom" by Ronald Goldfarb; the author describes the danger to society and the abuse of the bail system in recent civil rights demonstrations.

"Our Vietnam Nightmare" by Marguerite Higgins; an eye-opening and controversial account of what has happened — and is likely to happen — in Vietnam as a result of American policy and actions.

"You Can Raise Your Handicapped Child" by Evelyn West Ayrault; a book designed to help parents — as well as teachers and therapists — better understand and cope with as handicapped child.

"Our Murdered Presidents" by Stewart M. Brooks; a fascinating blend of history and scientific reportage probes our four presidential assassinations for a new and unusual angle.

"Disinherited" by Dale Van Every; the lost birthright of the American Indian.

"The Last 100 Days" by John Toland; this authoritative reconstruction of the story of the last 100 days of World War II in Europe is based on more than three years of intensive research and more than 600 interviews with the men who served Adolf Hitler and the men who defeated him.

Other recent additions to the Reference Collection:

"The Encyclopedia of Mental Health" — 6 volumes.

"McGray - Hill Encyclopedia of Science and Technology" — 15 volumes.

"Barron's Business and Financial Weekly".

Upper Nile tribesmen relax by resting the sole of one foot against the knee of the other.

# The Week in Review

**By H.J. HELLER**  
United Press International  
Like birds of prey, tornadoes swooped to the earth in Mississippi and Alabama this week killing at least 58 persons, injuring 450 others and leaving behind nearly incalculable property damage.

The area worst hit appeared to be Jackson, Miss., where one twister wrecked a shopping center killing a dozen persons. At Leesburg, the terrible force of the whirling winds pulled one home apart wiping out a family of six.

Rescue workers searching the debris and twisted steel of the shopping center said the twister had plowed into the area "roaring like an express train." "I've been in Korea and the shopping center looked as if it had been hit by a bomb," said one witness. "There was only one building left that even looked like a building."

The awesome series of tornadoes were part of a weather system which brought torrential rainfall and flash floods to parts of Alabama and Georgia and flattened farmhouses in rural areas.

The shopping area, which once had been a modern stretch of business places, was destroyed by the tornado which hit with unexpected ferocity. "Everything was knocked to the ground," said R. L. Crawford, a service station attendant. "People were screaming. It was the most terrible thing I ever witnessed."

"I saw a fireman carrying the limp and lifeless body of a boy and trying to find a place for him," he said.

**Addis Ababa, Ethiopia:** Deposed President Kwame Nkrumah of Ghana was made an "honorary president" of the West African country of Guinea. But there were conflicting reports of just what privileges and rights Nkrumah would enjoy in Guinea where fellow Marxist President Sekou Toure holds sway.

**Saigon:** Stepped-up air activity was reported in Viet Nam in a week marked by terrorist bombings in Saigon and an attempt by Communists to sink an oil barge in the Saigon River in an effort to block a busy channel.

**St. Louis:** Astronauts Elliott M. See Jr. and Maj. Charles A. Bassett, who had been named as the crew of a Gemini 9 space flight, were killed in the crash of a jet plane which struck a building of the McDonnell Aircraft Corp., where the space capsules are manufactured.

**Moscow:** The Russians said an unmanned space craft had crashed on Venus, the first man-made object to reach another planet. Western observers said if the Russian claim

was true, there was danger Venus might become contaminated.

**Washington:** The administration's \$4.8 billion supplemental military authorization bill was overwhelmingly passed by both the House and the Senate.

**Washington:** Secretary of Defense Robert McNamara said the United States could win in Viet Nam and was not committing itself to a major war in Asia.

**Tokyo:** A Canadian Pacific Airlines DC8 jetliner crashed in heavy fog at Tokyo International Airport. Six survivors were reported among the 71 persons aboard.

## 727 Jet Skids To Safe Stop

MIAMI (UPI) — An Eastern Airlines 727 jet bound from Miami to Newark, N.J. with 101 persons aboard skidded to a safe stop during an emergency landing Saturday with its landing gear locked in the up position.

"As far as we know, there were no injuries," a spokesman for the Federal Aviation Agency said.

The plane set down at Miami International Airport shortly after 4 p.m. EST.

It had taken off from Miami moments earlier to begin a flight to Newark, N.J., but the spokesman said the pilot elected to return to Miami "because of the landing gear condition."

Washington: The administration's \$4.8 billion supplemental military authorization bill was overwhelmingly passed by both the House and the Senate.

Washington: Secretary of Defense Robert McNamara said the United States could win in Viet Nam and was not committing itself to a major war in Asia.

Tokyo: A Canadian Pacific Airlines DC8 jetliner crashed in heavy fog at Tokyo International Airport. Six survivors were reported among the 71 persons aboard.

**HITTING THE HAY** — Three exhibitors in the Gray County Junior Livestock Show take time out with their entries Saturday. Left to right, Jerry Lunsford and Jackie Sirman of Miami and Archie Davis of Amarillo hit the hay after showing their cattle. The show ended Saturday afternoon at the Show Barns in Recreation Park.

## Economist Gives Views On Checking Inflation

**EDITOR'S NOTE:** Inflation is on nearly everyone's mind in Washington today. The administration is determined to void it, and the following dispatch tells how its economists decide whether a tax increase or other steps are needed to do the trick.

**By JOHN PIERSON**  
United Press International  
WASHINGTON (UPI) — The man in the street may be worried about the price of a steak dinner or a new suit.

In Washington, a tiny band of men are looking at statistics about plant and equipment spending, business inventories and the unstalistical matter of the Viet Nam war.

Businessmen's plans to spend money on new factories and machinery.

Businessmen's inventory buying.

Government spending on the war in Viet Nam.

Consumer spending is regarded as a less sensitive barometer because it tends to be pretty steady, rising or falling as consumer income rises or falls.

They are anxiously awaiting results of the Commerce Department's quarterly survey of how much U.S. companies plan to invest in new plant and equipment this year.

In the long run, new factories help meet rising demand for goods and thus combat inflation. But in the short run, a capital building boom can drive up prices.

Last year, businessmen increased their plant and equipment spending by more than \$9 billion, or 15 per cent. When the Commerce Department sur-

veyed businessmen in November, they indicated they would raise their outlays during the first half of 1966 by an annual rate of about 11 per cent.

The new survey, due any day, will cover all of 1966. Some government economists believe any increase above 11 per cent would be a sign of inflation.

Others say it would have to be a bigger increase.

Everyone is agreed that, as one commerce official put it, the plant and equipment figures will provide "very, very important evidence" about whether the economy is overheating.

While philosophical in approach, the Rosicrucian theory appears to fit in with the latest scientific speculation regarding anti-matter.

Some astronomers think it possible that our universe is balanced by another universe composed of anti-matter. If so, it is logical to assume that some of the anti-planets are populated by anti-people.

I am convinced that the anti-people are the ones who have been practicing "thought migration" on me.

They fasted for 33 hours and missed four feedings," Williams said. They broke their fast Thursday at the evening meal. We gave them lunch Friday; bread and water last night. They will get lunch every three days.

They say they are getting to be pretty good boys," Williams said. "They know what it is all about now."

Sheriff Maxwell will say when the four can get out of solitary. They are all charged with aggravated assault.

Just made \$1,500 bond Friday and went home to Denton. Car-bille is still in jail.

## The Lighter Side

**By DICK WEST**  
United Press International  
WASHINGTON (UPI) — Although founded in the 17th Century, the Rosicrucians, a world wide philosophical society, have rolled right along with the times.

In other words, their philosopher's stone has gathered no moss.

They not only keep up with the rest of the world, but frequently get ahead of it. At present they are so far in front they are almost out of sight.

I am grateful to the Rosicrucians for sending me a little pamphlet on the possibility of interplanetary "thought migration." It has helped me close the gap.

If the purpose of philosophy is to put a man in tune with his environment and find harmony within himself, this concept may be the greatest thing since Confucius invented the Chinese fortune cookie.

"For millions of years man has been earthbound," it says. "He has made this globe — which is a mere speck of cosmic matter — the center of his interest."

Now it is dawning upon man that intelligence is not just locked within the mortal shells of earthly beings. Certainly other worlds in the greater universe possess the phenomenon of life.

"How many of our moods, our strange impulses, are the result of the influence of other minds in space?"

Quite a lot, I would say, and I can't tell you how comforting it is to find out what has been causing all the trouble.

I had always assumed that my moods and strange impulses were the result of eating hot tamales.

Therefore, I am not going to worry any more about whether I should give up Mexican food. The next time any strange mood or impulse comes over me, I will simply blame it on some clown out there in space. That may be even better than

## Inmates Accused Of Torture End 33-Hour Fast

ABILENE, Tex. (UPI) — Chief jailer Lester Williams said Saturday that four prisoners accused of torturing two other prisoners in the county jail are still in solitary confinement but have broken a 33-hour fast.

The four are Clifton Leo Sawyer, 20, and Tim Justin Bishop, both of Abilene, and Roy P. Goff Jr., 18, of San Diego, Calif., and Robert K. Constantine, 19, of Newmarket, Md.

Maxwell said the four beat and kicked Dennis Jost, 17, and Larry Carbillie, 17, both of Denton, Tex., burned them with cigarettes and matches, poured urine down their throats and threatened them with razors if they asked for help.

Jost and Carbillie finally got out of the jail bullpen by telling jailer Jimmy Day they wanted to confess to an imaginary burglary. Sheriff George Maxwell put Sawyer, Bishop, Goff and Constantine in a 5 by 7 foot cell on a bread and water diet. They refused for 33 hours to eat the bread.

"They fasted for 33 hours and missed four feedings," Williams said. They broke their fast Thursday at the evening meal. We gave them lunch Friday; bread and water last night. They will get lunch every three days.

They say they are getting to be pretty good boys," Williams said. "They know what it is all about now."

Sheriff Maxwell will say when the four can get out of solitary. They are all charged with aggravated assault.

Just made \$1,500 bond Friday and went home to Denton. Car-bille is still in jail.

**Rotary Rigs In US Increased**  
HOUSTON (UPI) — The Hughes Tool Co. said Tuesday rotary drilling rigs in the United States and Canada rose from 1,412 a week ago to 1,449 as of Monday.

The U.S. total rose from 1,155 to 1,183 and Canadian rigs in operation rose from 257 to 266.

Texas rigs were up from 358 to 362. Other major oil areas and their rig totals included California down 11 at 83, Illinois down four at 21, Kansas up five at 62, Louisiana up eight at 256, Mississippi up 10 at 33, Montana up three at 21, New Mexico up seven at 59, Oklahoma up four at 144, Utah up two at 14 and Wyoming down one at 31.

of a planned system of major thoroughfares. It also recommended that funds be provided to pay the city's share of paving some 200 blocks of residential streets.

The committee on city finances reported next. After studying all the reports of the other three committees, this group recommended that all the proposals be submitted to the voters. This committee stated it felt all of these improvements were needed and that these improvements can be afforded without jeopardizing the excellent financial condition of the City of Pampa.

After studying the reports and recommendations of the four committees, the City Commission passed an ordinance calling for a bond election Tuesday, March 8. The Commission also adopted a resolution recommending to the people of Pampa that each of the five proposals on the ballot be approved.

During the course of their studies, the citizens used all the facilities of the city departments, and had in addition, expert advice from two firms of consulting engineers.

After 10 months of study, planning and work, it is now up to the qualified voters of Pampa to decide if they want these improvements.

On behalf of the Pampa City Commission and the City employees, I urge each qualified citizen to vote in this election, so that your City Commission and staff will know what improvements you want for your city.

Brochures describing each of the five proposals appearing on the ballot are available in most Pampa stores. Most merchants, all members of the City staff, and members of the City Commission will be glad to answer questions about any of the proposed improvements.

**Police Fire On Indian Rioters**

CALCUTTA, India (UPI) — Police opened fire on rioters and army units moved into three northeastern Indian cities to restore order Saturday after students set government buildings and trains ablaze.

The army units responded to calls for help by local officials in Krishnagar, about 40 miles north of Calcutta and from nearby Ranaghat and Santipur as the riots went into their second day.

The students set fire to three railway stations, a bank, a telephone office and other administrative buildings, dug out railway ties and stopped and set fire to two trains Saturday to protest the refusal by police to let them march with the body of a student shot by police Friday.

**HOLD HIM BOYS** — Max Montgomery of Pampa, left, is shown getting his 750 pound steer ready for the judges' eye yesterday during the one-day Gray County Junior Livestock Show. The affair was a prelude to the annual Top O' Texas Livestock Show which kicks off today in Recreation Park. Shown assisting Max are, left to right, Mike Smith, Howard Sanders, Tony Andris and Sany Fiel.

**Rogers Asks For Bill to Stop Rail Car Shortages**

WASHINGTON, D. C. (UPI) — Congressman Walter Rogers said Saturday he hopes the House of Representatives will take action soon to pass legislation to alleviate rail freight car shortages.

"While we in the Panhandle are more familiar with this problem than many Americans, every section of the United States is affected seriously by recurring shortages in the supply of railroad boxcars," Congressman Rogers said.

The congressman added, "The problem is growing and it is national in scope. Latest estimates show that the peak shortages in the country are approximately 15,000 cars per day — and rail shippers of many kinds are being affected."

Congressman Rogers' bill to alleviate boxcar shortages was the subject of hearings last year before the House Committee on Interstate and Foreign

**War in Viet Compared to Boxing Match**

By HELEN THOMAS  
United Press International  
SAN ANTONIO, Tex. (UPI)

A combat general told President Johnson Saturday "the enemy is groggy" in Viet Nam and likened the war to a "10-round boxing match and we are in the 5th round."

Brig. Gen. Ellis W. Williamson, who commanded the 173rd Airborne Brigade in Viet Nam, lunched with the Commander-in-Chief at the LBJ Ranch. He told Johnson the war is "going well and we are winning."

Williamson said the President asked him, "if you were president what would you do."

The committee, on which Congressman Rogers serves as ranking majority member, has cleared legislation for consideration by the full House of Representatives.

The congressman said he hopes the House Rules Committee will act soon to clear the measure for debate on the House floor.

**Voter**  
(Continued From Page 1)

may be made by mail. Such applications must be actually delivered to the tax collector by midnight March 17. Forms for the conditional voter registration certificate may be obtained at the Gray County Tax Assessor's office in the court house.

Persons who were subject to paying the poll tax during the period which ended on January 31, 1966 in order to be qualified to vote in the 1966 elections, but who did not pay the poll tax or obtain a "poll tax not paid" (for voting in federal elections) should now register.

Persons holding a paid poll tax receipt, a receipt stamped "poll tax not paid" (for voting in federal elections) or those who have received an exemption certificate do not need to register and will not be allowed to do so.

Those persons over 60 years of age who live in cities of 10,000 or more inhabitants who did not get their exemption certificates before the January 31 deadline will be allowed to register.

Jack Back, Gray County Assessor-Collector, said Carr's instructions on the voter registration rules will be carried out here.

**Foreign Commentary**

**UPI Foreign News Analyst**  
**The Foreign News Outlook**  
**U.S.-Korea Pact:**

Some legislators of South Korea's ruling Democratic Republic party may come up this week with a resolution urging revision of the Korea-U.S. defense pact. It would be sought as a further means of guaranteeing Korean security in return for the dispatch of more Korean troops to South Viet Nam. U.S. Vice President Hubert H. Humphrey said at a news conference in Seoul that revision of the pact was not necessary. The U.S. has pledged that aggression against South Korea will be regarded as aggression against the U.S. itself. But some junior legislators want it in English language, and in writing.

**hitherto untried radiation zones.**

Some romantic observers are guessing that a manned lunar landing will be times for the 50th anniversary of the Russian Revolution in November, 1967. But hard-headed scientists who know their business don't expect it for several more years.

**No Room at the Inn:**

Moscow hotel space is inadequate any time but its even worse now that the Soviets are preparing for the party congress to be held later this month. Newsmen, diplomats and visiting professors and businessmen are being evicted from hotels, moved into smaller quarters or jammed into inadequate apartments to make room for the expected mobs of delegates.

**Church-State:**

Western diplomatic circles in Warsaw fear the Communist regime will severely restrict Stefan Cardinal Wyszynski's exercise of his functions as primate of Poland. They point to the increasingly personal nature of the criticism of the cardinal in the Polish press for his letter of reconciliation to

**Trouble for de Gaulle:**

The wave of strikes which hit France in the last week or so is likely to be only the beginning of mounting labor trouble, particularly in nationalized industries. Next to be hit probably will be the Paris bus

**services, followed by a nationwide gas and electricity stoppage.**

The labor unions also are considering a 24-hour nationwide general strike because the government is trying to hold wage increases to about four-and-a-half per cent annually. The unions say this is insufficient.

## Center Wrap-Up

George Smith, Director  
Pampa Youth and Community Center

New Swim Lessons will start Monday for Advanced Beginners and Swimmers. Advanced Beginner will meet from 4-5 p.m. and Swimmers from 5-6 p.m. Classes will meet on Monday, Wednesday, Thursday and Fridays from March 7-23. Carolyn Estes, Center-Water Safety Instructor, will conduct the classes.

Enrollment is now going on and will continue through Wednesday, March 9. Enrollment is free to Center members and an instructional fee of \$3 per child will be charged non members.

The Dolphin Swim team is still looking for new members, particularly girls. They meet weekdays from 6-7 p.m. and on Saturday morning from 10-12 a.m. Those who are interested in competitive swimming may come by during any of these hours for an interview. Membership into the Club is by joining the Center and passing a short swim test. Donald Klepper is the Dolphin Swim Coach and will

be happy to talk to you during any of these hours.

Center memberships are always available at the Center front office. You need only come to fill out the membership forms, pay your dues and then members' cards will be issued immediately. Family memberships are \$20 per year and \$12 for six months while individual memberships are \$8 per year or \$5 for six months.

Volleyball season kicks off Monday night with a tournament for women to be followed on Thursday night with a tournament for men. This will be a single elimination one night tournament. Entry fee into the tournament will be \$3 per team payable to March 7.

After the tournaments the leagues will start with women playing on Monday nights beginning March 21 and the men on March 24 playing on Thursday nights. Entry fee into either league is \$15 per team and is payable by March 7. On that night an organizational meeting will be held to draw up league schedules. Each team should have a representative at this meeting.

For those of you who are new in Pampa, we would suggest you come by and be given a guided tour of the Center and its facilities. The Center houses an indoor heated swimming pool, recreation hall with two pool tables and a gym. Dressing room facilities and a TV and meeting room are also available. Activities such as swimming, ping pong, pool, basketball, volleyball, shuffleboard, judo, wrestling, tumbling, trampolining and other quiet games are available. For each center member there are free swim lessons given on a scheduled basis and supervised by a registered water safety instructor.

**TRANSISTOR CAMPAIGN**  
WASHINGTON (UPI) —The Federal Communications Commission (FCC) is urging broadcasters to open a campaign that would put transistor radio in every American home.

The FCC said Friday that the use of the transistors during such emergencies as the Nov. 9 power failure in the Northeast were of such value that it could urge such a campaign.

**VIET NAM BRANCHES**  
WASHINGTON (UPI) —The State Department today considered an urgent request from Sen. Paul H. Douglas, D-Ill., to clear the way for Viet Nam operations of American branch banks.

In a Senate speech Friday, Douglas said that at least four American banks wanted to open branch operations and are now awaiting approval from the South Vietnamese government.

# Vote-Getting Tax Break Plan Getting Congress' Kiss Of Death

WASHINGTON (UPI) — A tax break plan which had the earmarks of becoming a vote-getter in the November elections is being reluctantly put to death in Congress.

The proposal was an amendment by Sen. Abraham Ribicoff, D-Conn., which would have extended a tax credit to parents financing college education for their children. He offered it as an amendment to President Johnson's package tax bill which would net \$6 billion to help pay for the Viet Nam war.

Under Ribicoff's plan, a parent could subtract up to \$325 in education expenses from his computed tax bill.

Administration leaders moved quickly to scotch the move. First, word was passed that the House would definitely reject any such proposal.

Second, pro-administration senators pointed out that the plan would cost the treasury \$1 billion at a time the President is seeking more money to pay increase auto and telephone excise taxed to last Dec. 31 levels, impose a graduated income withholding rate, and speed up corporate tax collections.

Senators who opposed the plan then recall getting an avalanche of protest mail from the voters.

Ribicoff attempted to head off administration opposition by delaying the tax credit until returns are filed in 1968. "It will not affect the money raised to fight the war in Viet Nam," he said.

Democratic Leader Mike Mansfield, Mont., predicted a close vote. But the word that the tax credit would be vetoed by Mills may spur some senators into going on record in favor of it despite White House disapproval.

**Baseball Suit Reopens Monday**

MILWAUKEE (UPI) — Only one witness—a college economics professor who called baseball a "self-regulating economic monopoly"—testified Friday as Wisconsin's antitrust trial against the Braves completed its first week.

The professor, Frank Andreano of the University of Wisconsin, testified despite numerous defense objections that he was not a qualified witness and that his sources of knowledge were "incompetent."

Arguments between attorneys over Andreano's testimony and the introduction of four letters or telegrams and two books which were subpoenaed from former Baseball Commissioner Ford Frick occupied most of the day.

Andreano, who taught at Earlham College in Richmond, Ind., when he wrote a book entitled, "No Joy in Mudville—The Dilemma of Major League Baseball," said his studies showed baseball had resisted all efforts to establish a third league since the formation of the American League in 1903.

Judge Elmer Roller, who is hearing the case without a jury, at the end of Friday's session expressed dissatisfaction at the progress of the trial and indicated night sessions might be held next week. He has also warned that the court might go into Saturday and Sunday sessions in an attempt to get the case decided before opening day of the baseball season April 12.

### Baseball Suit Reopens Monday

**Chuck Thinks Tigers Have Title Chance**

LAKELAND, Fla. (UPI) — There's a lot of talk about the Detroit Tigers in the baseball training camps this spring and their manager, Chuck Dressen, thinks that's the way it should be because they have "a real fine shot" at winning the American League pennant.

"All we need is a healthy Al Kaline and a left-handed relief pitcher to go all the way," Dressen claims.

Told by a touring group of baseball writers that such managers as Hank Bauer of Baltimore, Johnny Keane of New York and Gil Hodges of Washington all were high on Detroit's chances, Dressen smiled and said:

"They have a good reason to be and I'll bet the three of them told you that our problem is relief pitching and that Kaline must be the Kaline of old."

That's exactly the if's the three managers attached to the Tigers chances.

"Well, I have news for them," Dressen said. "Kaline looks fine and I'm not at all concerned about him. As for the relief pitching, I think Dave Wickersham will do the job, but you can tell them if they have a left handed relief pitcher they don't need, I'm in the market."

### Major League Training Camp Notes

LAKELAND, Fla. (UPI) — Pitcher Johnny Hiller may be the only rookie with a chance to stick with the Detroit Tigers this season, manager Charlie Dressen indicated Saturday.

Hiller's chances are bolstered by the absence of any other left-handed pitcher in the Detroit bullpen.

Dave Wickersham, Terry Fox, Fred Gladding, Orlando Pena and Larry Sherry—the current relief staff—are all righthanders.

Hiller, a 22-year-old Canadian, appeared briefly in three games with the Tig respite games with the Tigers at the end of last season and was unscathed. He was 5-7 with a 2.53 earned run average with the Tigers' Montgomery farm team.

Only other contenders for the job—Mike Small and Mike Kilkenney—both are regarded by Dressen to be still a year away from major league duty.

A third candidate, Fritz Fisher, who was 14-6 for Montgomery last year, has been detained in Detroit and is not yet in camp.

BRADENTON, Fla. (UPI) — Wet grounds and cool temperatures hampered the training of the Kansas City Athletics Saturday.

Following a squad meeting, the pitchers did their normal amount of running while the remainder of the squad loosened up their throwing arms.

**Sanders Out Of Pensacola Golf Tournament**

PENSACOLA, Fla. (UPI) — Defending champion Doug Sanders, holding a four stroke lead at the end of the second round of the Pensacola Open Golf tournament, was disqualified Saturday for failing to sign his score card.

The 32-year-old Sanders, seeking a record third championship here, had just finished posting a 14-under-par 130 for the first 36 holes when he was besieged by autograph seekers. He signed his name at least 20 times but forgot to put it in the one place it had to be if he were to remain in the running for the \$10,000 first prize that would have made him the leading money winner on the pro tour this year.

The irate Sanders argued in vain with PGA official Jack Tutthill who refused to change his ruling. Tutthill said that Rule 38 of the association's regulations clearly threw Sanders out of the tournament for his omission.

Responsible for Signing

The rule states that a competitor is responsible for signing his card and returning it to the tournament committee. It says once the card reaches the PGA official scorekeeper, if it has not been signed the penalty is disqualification.

Sanders was in the press room talking about the 67 he shot in the second round to give him a four-stroke lead over Gay Brewer Jr. of Dallas. An official rushed to the room to inform him of his error but the time Sanders, who jumped up and dashed out of the room, had reached Tutthill it was ruled he was too late.

"This rule has not been enforced in the past," argued Sanders. "Why enforce it now?"

This is the first time in recent years that a leader in a professional golf tournament has been disqualified for any reason.

Sanders, after losing his argument with Tutthill, stormed from the Pensacola Country Club followed by a large gallery and drove away.

Brewer takes lead

The disqualification put Brewer—who had a 69 Saturday and a 10-under-par 114, into the lead. Brewer should have been closer to Sanders than he was but had taken a triple bogey on the 13th hole.

"I just as soon not think about that one," the 34-year-old pro from Dallas said when asked about the seven he wound up with on the par four hole.

Brewer had sliced his drive into a ditch. When he attempted to blast out the ball bounced off a tree and back into the ditch. His next shot got out of the ditch and he followed that by hitting the tree again.

He finally got the ball four inches from the cup and sank his putt for the triple bogey.

### Sanders Out Of Pensacola Golf Tournament

**Duke Wins ACC Cage Tournament**

RALEIGH, N.C. (UPI) — Duke's Steve Vacendak led the second-ranked Blue Devils to a 71-66 victory over North Carolina State Saturday in the Atlantic Coast Conference championship.

The triumph gave Duke a berth in the NCAA Eastern regional playoffs against Syracuse in Raleigh next week. The Blue Devils will meet the winner of the St. Joseph's-Providence preliminary round game.

Vacendak wound up the game with 18 points and received the trophy as most valuable player in the tournament. Mike Lewis, the hero of Duke's 21-20 victory over North Carolina Friday night, had 10 but his rebounding success in the entire tournament.

State led until 4:22 was gone in the second half and then the game turned into a lead-changing battle which saw both teams marching goal for goal.

Then the Lewis-Vacendak rally put the Blue Devils head to win.

**Channing Crushed In Class B Finals, 64-40**

AUSTIN, Tex. (UPI) — Harry Barthlow came off the bench to spark Spring Branch Memorial to the state Class AAAA schoolboy basketball title Saturday, while defending champions Lake Worth of Class AA and Snook of Class B repeated.

Gruber downed Honey Grove, 63-62 Saturday night for the Class A state schoolboy basketball championship.

San Antonio Marshall defeated Clear Creek, 64-60 in overtime to win the class AAAA title.

The 6-2 Barthlow subbing for teammates who got in early foul trouble was only his team's third high scorer with 16 points, but his clutch play carried the Mustangs to a thrill-packed 73-68 mid upset of Dallas Samuell.

Lake Worth's Bullfrogs built up a 26-17 halftime lead and went on to defeat Crane 60-42, while Snook cashed in on a 27-point third quarter to smother Channing 64-40 and establish a new state winning streak record of 78 games.

Jerry Kroil, a 6-4 post man, led Spring Branch's scoring with 20 points and hauled in 10 rebounds, while Vernon Cross, 6-9 guard, contributed mightily with 18 points.

It was sweet revenge for Memorial which had lost a 101-87 game to Samuell early in the season.

Crane was never in its showdown game against Lake Worth after the first quarter 11-11 tie. Teddy Gillum led the defending champions to a 42-37 third quarter lead and even the heroic 19-point effort of Eddie Jones couldn't save Crane.

Channing kept pace with Snook for a half and trailed only 18-16, but the Panhandle team's ace — Randy Sherrod — out midway through the third quarter and Channing was no match for the talented Blue Jays the last half.

Calvin Gerke, a 6-5 pivot, scored 35 points for the victors and his total broke the old Class B championship of 31 set in 1957 by Oscar Williams of Big Sandy.

In the only third place situation left undecided, after Friday's action, Lubbock Monterey took the Class AAAA consolation with a 50-40 victory over Austin McCallum.

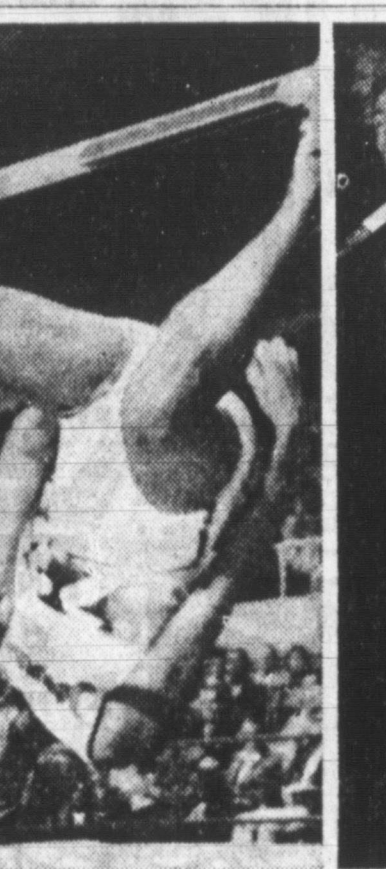

# Channing Crushed In Class B Finals, 64-40

**HAPPY LANDING** — Going up seems to be easy part. Coming down is different judging from the expression of Tatyana Shechelkanova of the Soviet Union, Eleanor Montgomery of Tennessee State and John Pannel of the Southern California Striders.

### Trinity Whiz Breaks Marks

FORT WORTH (UPI) — Clyde Glosson, Trinity University's classy sprinter, took advantage of winds gusting to 43-miles-an-hour Saturday to crack two records and steal the show at the 43rd annual Southwestern Recreation Track and Field Meet.

Glosson ripped off a 9.2 seconds in the 100-yard dash to shatter the meet record of 9.3 shared by Bill Woodhouse of Abilene Christian and former Highland Park high school boy whiz George Aldredge.

Then Glosson zipped through the 220-yard dash in 21.2 seconds around the curve—just a tenth of a second off Aldredge's meet mark, but good enough for a college division record.

Arlington Heights of Fort Worth took honors in the schoolboy division, Texas Tech won the University Division with 75 points followed by Southern Methodist with 72, then Texas Christian and Arlington State.

Texas Southern took the college division with 86 points to Prairie Vie's 37 and Howard County won the freshman-junior college division with 66 to 39 for North Texas.

Glosson was named the outstanding athlete in the meet. Two other overall meet records were set on this cold 45 degree day in which the participants were often blinded by dust kicked up by the wind.

Roy Hicks of Texas Southern with the north wind at his back whirled across the 120-yard high hurdles in a sizzling 13.6 seconds to easily break the old mark of 14.1 set by Mark McKee of East Texas State in 1958.

In the college discus, Russell Polhemus of East Texas State hurled the platter 170 ft. 11 1/2 inches to beat the old meet mark of 164 ft 2 3/4 inches by Hoy Rogers of Northeast Louisiana in 1961.

Texas Southern's swift 440-yard relay team swept to a college division record with a time of 40.5. The foursome of Arnado Briers'ow, Roy Hicks, Claude Duncan and James Hines beat the old mark of 41.1 set by McMurry in 1961.

Mike Robins, Waco university schoolboy, ran the 120-yard high hurdles in 13.6 to beat an old mark of 14.3 set by Eddie Roberts of Stillwater in 1952. Robins also recorded a 19 seconds flat 180-yard low hurdles to tie another record.

His time in the high hurdles did not count as a tie for the meet record because different sized hurdles are used for schoolboys.

### PHS Golfers First, Thinclads 10th at Snyder

SNYDER (Sp) — Pampa golfers made off with team honors Saturday in the 36-hole Snyder Invitational Golf tournament.

Pampa's thinclads finished 10th with Gary McCarroll picking up the only first place finish with a 50.9 clocking in the 440.

In the golf meet Richard Ellis finished five strokes off the pace of medalist Joel Vaughn of La Mesa.

Ellis fired a 74-80—154 for second place while Vaughn fired a 72-77—149 total.

George Snell Jr. was third with a 77-79—156.

Besides Snell and Ellis, Richey Roach shot a 76-82—158 and Tom Rose fired a 77-83—160 for Pampa's team total of 628.

Borger finished second with a 314 and Friday Pampa led the 10-team affair by 14 strokes.

In the track meet Doc Cornutt won third place in the shot event with a 53-8 heave and Gary Crossland, competing with a painful knee injury was fourth in the broad jump with a leap of 20-9.

Odessa Periman won the meet with Midland Lee second.

The first major college basketball player to score over 1,000 points in a season was Frank Selvy, who tallied 1,209 for Furman in 1953-54.

# Jack's A Realist, He'll Settle for 20-8 Record

ST. PETERSBURG, Fla. (UPI) — Sandy Koufax would win between 18 and 20 games for the Mets.

And that, gentlemen, comes from an authority, a pitcher who posted almost identical figures for the Mets last year as Koufax did for the Dodgers with one minor exception.

The figures were the other way around.

Jack Fisher's record was 8-24 for the Mets; Koufax was 6-8 with the Dodgers. Small difference, right? Vive la difference.

"Koufax is that great a

pitcher that I'm convinced he'd still win 18 or 20 games with this club," said Fisher. "A guy like Juan Marichal probably would do okay, too. Those are the only two I can think of. I don't put myself in their class; I don't put many others, either."

**Last More Games**

Fisher, who previously toiled for the Orioles and Giants, lost more games than any other major league pitcher while working in 254 innings for the Mets last season. He is not particularly proud of all those losses, but neither does he try

to alibi them.

"I honestly hope I pitch as well this year as I did last year," declared the bulky righthander who celebrated his 27th birthday Friday by shagging fungos in the outfield.

"My record didn't get me down. I figure I simply was the victim of circumstances. This year I hope I'll hit more days when these guys will score a few runs. They will. I have a feeling."

Pitching for the Mets is something like being on a treadmill, according to Fisher. "With us, you go out there

and pitch every inning like it's the ninth," he said.

"I know one thing: Every time I went out there I did the best I could. There was one road trip I don't think I'll ever forget. First we went into San Francisco and Marichal beat me, 2-1. Then we went to Los Angeles and Koufax beat me, 2-1. And then we went to Houston where (Don) Nottebart beat me, 2-1."

It was enough to put a fella in a rut, Fisher never gave up, though. He kept coming back for more and unfortunately he kept getting it.

"You go out there knowing you have to pitch a shutout to win," said Fisher without any resentment in his voice. "I know I have to pitch a lot differently for this club than I did for the Giants."

"With this club, when the other club gets a man on third base, you may walk their third and fourth hitters, figuring if one of them hits a sacrifice fly and scores a run it could be the ball game. Pitching like that, though, also sets up big innings."

"Take the same situation when you're pitching for a club

like the Giants and you don't mind giving up a run. At least you can generally figure on getting it back."

With such added punch as Ken Boyer and Dick Stuart in the lineup to go along with Ron Swoboda and Ed Kranepool, Fisher can also figure on getting some of those runs back with the Mets this summer.

"The picture is a lot brighter," he said, looking around the clubhouse where some of his teammates were making short work of the usual groceries placed on the center table.

Before Tracy Stallard was traded by the Mets to the Cardinals more than a year ago, he used to room with Fisher. When he left for St. Louis, he kidded Fisher by telling him he was going to lose 25 games in 1965.

"I messed him up," says Fisher. "I lost only 21."

The Mets' workhorse plans to mess up Stallard and all the rest this year.

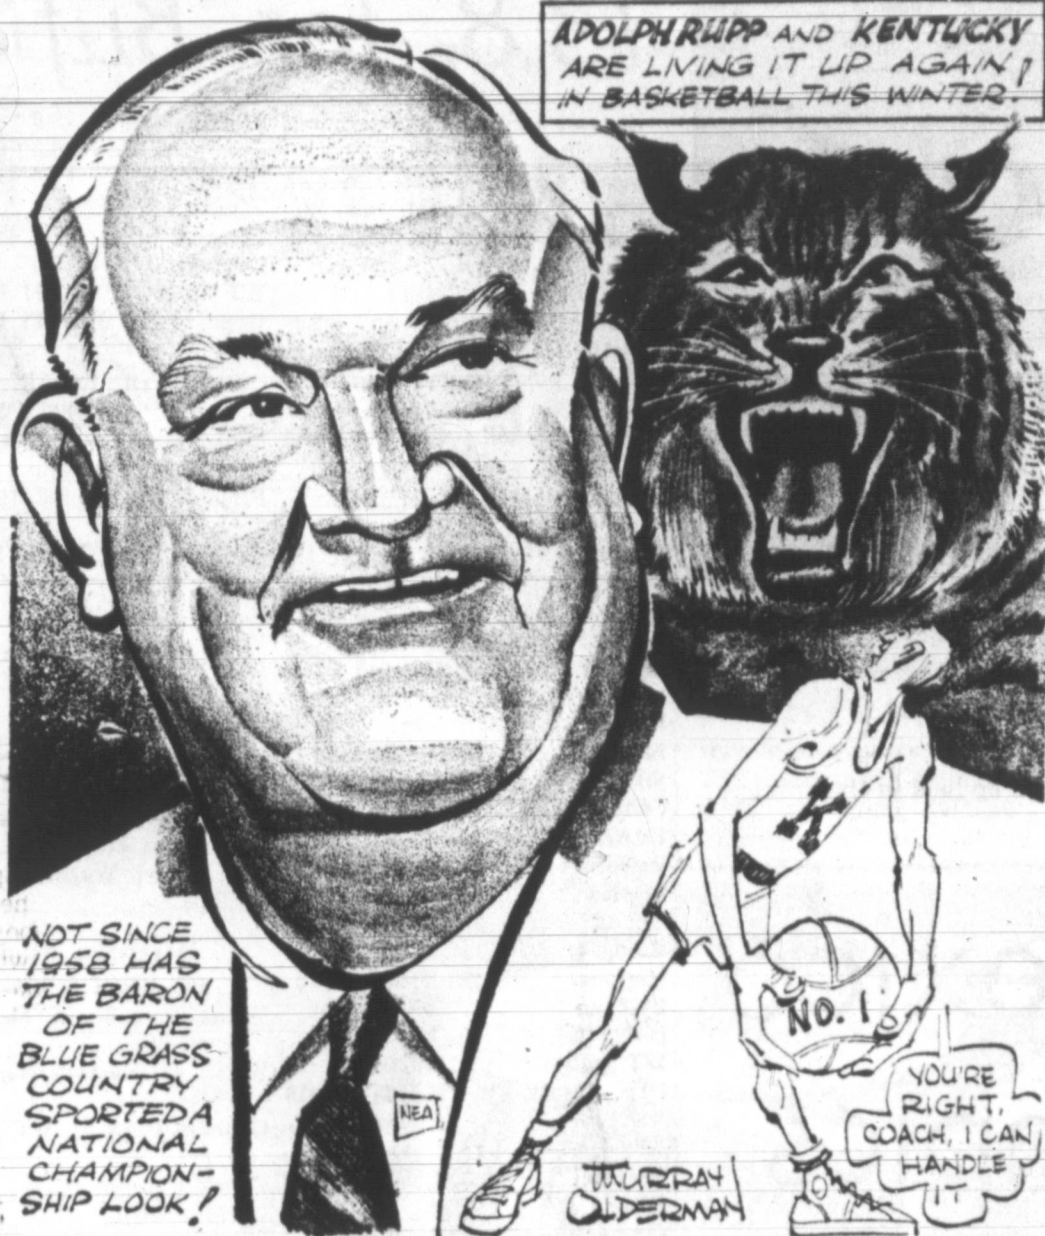

"This time," he says, "I'd like to turn my record around."

That would be 24-8. Jack's a realist, though. He'll settle for 20 and 8.

Rose Quits As Hogs Cage Coach

FAYETTEVILLE, Ark. (UPI) — The University of Arkansas' 1965-66 basketball team finished with a creditable 7-7 Southwest Conference season. But Coach Glen Rose decided he had too much. Rose, the coach for the Razorbacks 23 years, submitted his resignation effective June 30. "I've just been through too many overtimes and last-second games," he said. "I only have one set of nerves and they've been under constant strain for too many years. I think it's time to turn the job over to a younger man."

Everybody's Gone Mad About Rupp's Kentucky Wildcats

LEXINGTON, Ky. (UPI) — The Baron abruptly stopped talking, raised his hand for quiet, and listened attentively to a two-minute radio tale of his own voice. "Its Adolph Ruff day on that Louisville station you know," he said. For Kentucky it is Adolph Rupp's year. The man in the brown suit once again is on top. Kentucky dropped to a 15-10 record during 1964-65, the worst in Rupp's 35 years as head basketball coach. The word was that Rupp was done, over the hill, and at 63 should retire. Not Retiring Rupp is now 64 and says, "I don't know what the word retirement means." Kentucky is 23-0 and the Wildcats are the top team in the nation. In an interview, Rupp explained the transition of a team that has essentially the same personnel and an unheralded sophomore center. "This team is a year older and smarter," he said. "They're intelligent. They know what I'm talking about. I don't have to tell them more than once or twice. One reason for the team's

success is that it makes an absolute minimum of mistakes. "We make fewer mistakes because we stress the fundamentals," Rupp said. "I chart every practice and know exactly how every second is spent. If you ask me what we did on Nov. 30 I could tell you right down to the last second." Rupp said he feels more of a personal attachment to this team than any he has ever coached. Gratifying Team "The team's record is very, very gratifying," he said. This is praise indeed from the man considered by many the greatest basketball coach who ever lived. Rupp has compiled a 720-150 record up to this season. Rupp said when scouting a boy he looks for quickness, size, a good shooting eye and "the ability to go to war"—meaning to fight for a rebound. Stories about Rupp are legion, and most of them probably are true. He is called the man in the brown suit because he wears a suit of that color to every game and has been doing this for 36 years, since his high school coaching days at Freeport, Ill. Rupp, also is a firm believer

that the best way to build character in an athlete is by winning. He was once asked to comment on whether winning was more important than you played the game. Rupp replied: "Then why keep score?" He still believes that.

Orioles Paying For Two Robinson Theory

By United Press International The Baltimore Orioles, whose 1966 pennant hopes rest on the theory that two Robinsons are better than one, are paying plenty for their formula. Third-baseman Brooks Robinson and newly acquired outfielder Frank Robinson are the major chemicals in the Orioles' success chart, but it's the catalyst which is causing management headaches. The catalyst, of course, is money. Brooks Robinson was offered about \$54,000 Friday and he accepted after a three-day holdout. The same figure isn't going to trigger a reaction with Frank Robinson, however. The former Cincinnati Reds star received a reported \$60,000 last year and is believed to be asking a slight raise. He is en route to Miami, though, and Orioles' personnel director Harry Dalton said that the big slugger is close to an agreement. The Orioles received sad news Friday when it was revealed that catcher Dick Brown would undergo surgery next Monday for a possible brain tumor. The Cincinnati Reds received another contract rejection from ace pitcher Jim Maloney and he informed the club that "unless my terms are met I will remain in California." Tommy Davis of the Los Angeles Dodgers, who missed almost all of last season with a broken ankle, was listed as the starting left fielder for coach Preston Gomez' team in Saturday's intra-squad game. Mickey Mantle impressed his teammates by completing a 20-minute batting drill without experiencing any ill effects from his recent shoulder operation.

'Freeze' Doesn't Work on Duke

By United Press International The Duke Blue Devils still break out in goose pimples thinking about the deep-freeze that almost shattered their dreams of winning the Atlantic Coast Conference title and a chance to go to the NCAA tournament. Sophomore M'ke Lewis sank a foul shot with four seconds left to give Duke a breathtaking 21-20 victory Friday night over North Carolina and its stalling tactics. The victory moved the Blue Devils into the finals of the conference tournament against North Carolina State, which beat South Carolina 75-62. The Blue Devils hadn't scored so few points since they lost to Southern California 94-79, but to no avail. Rhode Island froze the ball in the final minutes to stun Connecticut 67-62 in a playoff between the co-champions of the Yankee Conference. Hank Carey scored 21 points to pace the Rams. Eighth-ranked Providence, paced by All-America Jimmy Walker's 16 points, beat Brown 51-47 in a hardfought warmup for the Friars' first game in the NCAA eastern regionals against St. Joseph's Monday night. The New York Giants beat the National Football League

Randy Honored As Texas Sportsman Of The Year

DALLAS (UPI) — Randy Matson, world shotput record holder, was honored as Texas Sportsman of the Year and Amateur Athlete of the Year Friday night at the first All-Sports Association banquet. The Texas A&M track and basketball star from Pampa, Tex. was one of a number of sports heroes to be honored. Arkansas football coach Frank Broyles, the principal speaker, received the Field Scovell Award for meritorious service to southwest sports. J. T. King, Texas Tech football coach who guided the Red Raiders to an 8-2 season and the Gator Bowl, received the Texas Sports Writers Association's award as Senior College Coach of the Year. Dallas Cowboy defensive lineman Bob Lilly was honored as professional athlete of the year. Lilly was a former college great at Texas Christian University. Bob Baccarini, Henderson County Junior College coach who mentored his team through an undefeated season as a Junior Rose Bowl berth, was named Junior College Coach of the Year.

Red  
RON CROSS

The dog fight gets underway in the National League April 11. That's when the Reds play the Mets and Cincinnati should be the first team to go into first place. Cincinnati has a good chance to finish in the top spot when the season ends, although San Francisco, the Dodgers, Braves and Phils will have something to say about it.

The Giants, in fact, should be able to carry away all the marbles and meet the Yankees in the World Series. It's nice in California in October, anyway.

Pitching Better

The 1966 National League pennant race shapes up as one of the finest ever. Almost everybody, with the exception of Houston, Chicago and New York have an outside chance of winning it.

Improved pitching should be the clincher for San Francisco, who has the hitting to back it up. The additions of Joe Gibbon and Lindy McDaniel bolsters the staff of Juan Marichal, Bob Shaw, Bob Bolin and Ron Herbel along with Frank Lincey.

Willie Mays, Orlando Cepeda, Willie McCovey, etc. have the power and the fielding ability.

Cincinnati traded Frank Robinson to get Milt Pappas and this could be a mistake. The Reds were already weak in the hitting department and the loss of Robinson makes them more vulnerable.

The pitching and defense will be great but can they get the runs in?

Don't doubt for a minute that Koufax and Drysdale will not play, even if they don't get three year contracts. And they won't.

But even though Koufax is the best in baseball, he needs runs and the Dodgers can barely carry the bat to the plate. Some of them can't hit their weight. Tommy Davis is sore so cut the running strength in half.

But they'll still be up there. Everything's mixed up for the Milwaukee-Atlanta Braves. But not so mixed up that with a little pitching Atlanta could host a World Series in October.

The Braves certainly have the power with Eddie Mathews, Joe Torre, Gene Oliver, Rico Carty, etc.

Tony Cloninger will have to repeat his 24 wins of last season and Wade Blasingame, Ken Johnson and Hank Fischer will have to be better.

The Phillies have probably the best manager in baseball in Gene Mauch.

Poor Bo

But even he can't quiet down Bo Belinsky, the playboy pitcher deluxe.

The Phils have it all, power, defense, speed and possibly pitching. Bo and Jim Banning must come through and if they do move over Giants.

You can't trade off your infield, outfield and most of your pitching and expect to win a pennant in one year.

The St. Louis Cardinals will have to wait at least another year to reap the benefits of newly acquired pitchers, Larry Jaster, Don Dennis and Nelson Briles.

Holdovers are Curt Simmons, Ray Sadecki, Tracy Stallard and Ray Washburn.

You can't rule the Pirates out. They could surprise everyone.

A good year by Vern Law, Bob Veale and Al McBean, plus good seasons by Bill Mazerowski, Bob Bailey and Bill Virdon could give them the push they need.

But don't look for it.

The Cubs, Mets and Astros will battle to stay out of last place.

Leo Durocher might just be the thing the Cubs need to give them a little incentive although the Astros have the pitching but no power and the Mets are just there.

- The Picks:
1. San Francisco Giants
  2. Cincinnati Redlegs
  3. Los Angeles Dodgers
  4. Philadelphia Phillies
  5. Milwaukee Braves
  6. St. Louis Cardinals
  7. Pittsburgh Pirates
  8. Chicago Cubs
  9. Houston Astros
  10. New York Mets

Flying Queens Set Trout Times

PLAINVIEW—Tryouts for the Hatcheron Flying Queens of Wayland Baptist College are set for March 19 at the Plainview High School gymnasium, according to coach Harley Redin.

"We are looking for high school seniors with good academic records who want to play basketball at Wayland," Redin said.

Although some scholarships are awarded for women's bas-

ketball as a result of one of the practice sessions, the coach recommends that seniors attend Wayland and then come out for basketball.

"A year of competition on the freshman team gives the young ladies an opportunity to demonstrate their basketball ability while maintaining a good academic record," he continued.

Rush Is On in Mexico City for '68 Olympics

By JOHN ABNEY

MEXICO CITY (SpI) — Mexico City is going into high gear for the 1968 Olympics. Only 100 years off and the place is bustling like a bee hive.

It sounds simple. Invite everybody to come here and play games. And the ones who don't play can lay out a few pesos to watch.

But it is a complicated matter. People pour in and you have to do something about them. They must eat, sleep and move around in some kind of transportation.

Mexico already is swinging high with the tourist trade and the Olympics will add to the problems.

No new hotels are beginning to sprout up around town. Old hostels are getting ready to convert their homes to boarding houses.

There is this vast housing section on the extension of the Paseo de la Reforma towering apartment buildings and shopping centers. Lay out the down payment and buy your own apartment.

Along came the money men

from a big hotel chain and bought eleven buildings.

These will be converted into apartment hotels. Carpeted and curtained to handle the overflow crowd. And they will work for the regular tourist trade which is growing like a teenage basketball player.

Even over-the-mountain towns like Cuernavaca are busily getting things ready for the big event. Live in the city of Eternal Spring. Drive an hour over to the big city and watch the foot races.

at it sounds big, it is. For

some reason you can't seem to get too many hotels in Mexico these plush days of fun and frolic.

Then there is the transportation business. Mexico City's taxi and bus accommodations are a mile short with the regular trade and people go for an empty cab like dogs after a juicy bone.

Every hour has become a rush hour. A crowd of Olympics spectators on top of this would be murder.

The city fathers have laid plans for additional fleets of taxis and are grinding out buses from the local factories. U.S. experts in such matters have been hanging around to give people ideas on how to handle large crowds.

The taxi business had to be stepped up anyhow. And for the Olympics, it must be shot in the arm with a big needle.

Eateries come next, but by no means least. Restaurants run full at the critical hours. New ones are going up and many of the present ones are getting an expansion job.

Olympics will practically abolish the easy-going two hours lunch we enjoy these days. A quick meal and back to the stadium will be the order of the day.

This means a new type of training for Mexico's waiters who are used to letting people sit and enjoy their meals. It will be hustle, rush and scat to get the spectators feel and back in their seats before the next event.

There will be quick lunch shops on hand at the games for those who aren't eager for the trip into town to a restaurant. This is one of Mexico's specialties.

All sporting events have their traditional face and tortas stands doing a flourishing trade outside the stadiums.

MY ACHING BACK — Georgia's Ray Jeff fords has a different view of the action. He landed there, quite hard, but was uninjured.

Hole-in-one Story is True

NEW YORK — (NEA) — The hole-in-one, or rather the near hole-in-one, probably has spawned as much recklessness with the truth as the wildest and biggest fish imaginable.

Any golfer knows this, which explains why Bob Mitera is likened to a criminal when he tells his hole-in-one story.

"I got so tired of talking about my hole-in-one," said Mitera, a 21-year-old senior at Creighton University in Omaha, Neb. "Everytime I'm asked about it, somebody always says, 'Cmon, Bob, who you trying to kid?'"

Mitera is not fibbing. His story has been checked and rechecked. He did indeed hit a 444-yard hole-in-one, the longest

ever recorded as well as one of the longest tee shots ever measured.

In the days after he hit it, last Oct. 7, Mitera found golf authorities from everywhere lurking around, asking questions of his friends, checking witnesses on the course and tape-measuring the hole on which Mitera hit his record shot.

"For a while I was beginning to think I had done something wrong," he said, "I even thought about lying and saying the whole thing was a hoax. It would have been much easier that way."

When Mitera was in New York to be feted for his feat, the crowd's introduction went like this:

"Bob Mitera's unbelievable accomplishment . . . er, I mean, it was beyond belief . . . I mean . . ."

"That's O.K.," Mitera interjected. "I'm used to it."

Mitera says that people seem more willing to believe that his double eagle ace was carried in to the cup by a friendly snake. Or they ask, "Was it a concrete fairway? Was it a short-cut shot on a dogleg hole?"

"The trick," he explained, "was a strong wind, gusts up to 50-miles-an-hour. I shouldn't even have been playing that day."

"I teed the ball high, with the wind at my back, and took a healthy cut. The ball was pretty well hit."

Majors Won't Be Signing Many College Baseballers While War Lasts in Viet Nam

By DENNE H. FREEMAN

DALLAS (UPI)—Tom Chandler, Texas A&M University baseball coach, says he thinks he has found at least one good reason for the Viet Nam war.

He says the professionals are going to have to stop raiding college baseball talent.

"The kids will have to stay in school or they will be drafted," Chandler said.

Chandler cites the case of Mike McClure, his All-America third baseman from last season. McClure was given a big bonus by the New York Mets, foregoing his final year of eligibility.

School is Necessity

He said that McClure will not be able to go into minor league

baseball because of the war. He will have to stay in school.

McClure will be sitting in the stands this year watching us play and just rusting away a year when he could be playing ball," Chandler said. "The same thing happened two weeks ago. The Dodgers signed a boy at Sam Houston State who was eligible to play this year. Now he's got to stay in school or face induction."

He said the pros were discouraging the colleges from giving scholarships.

Sees Improvement

"I believe things might improve and schools will give more scholarships because the players will stay in school," Chandler said.

Another reason Chandler believes the pros will have to start keeping their hands off, is

that there are not as many professional leagues as in the past.

"It's foolish to sign a great number of players without the minor leagues," Chandler said. "If there is such a thing as a war helping, I believe it will college baseball."

Agrees in Part

Texas baseball coach Bibb Falk says he agrees with Chandler to a certain extent, but has at least one example in which the pros can get around the draft.

"The Cardinals signed outfielder Joe Hagig Sr., who had another year of eligibility left," Falk said. "He married and has a kid and the draft may not get him."

Falk says he doesn't expect any more harassment from the pros because "I don't have anybody they are after."

**Income Tax Questions, Answers**

**EDITOR'S NOTE** — This column of questions and answers on federal tax matters is provided by the Pampa office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

**Q** — Our daughter was married during the Christmas holidays. Will we be able to claim her as a dependent for 1965 even though she is now married?

**A** — If you furnished more than one-half the support of your daughter for the entire calendar year, you may claim her as a dependent unless she files a joint return with her husband, provided the gross income and citizenship tests are met. If she files jointly, you may not claim her exemption.

**Q** — I qualify as unmarried head of household. Which tax table should I use?

**A** — If your adjusted gross income is less than \$5,000 and you do not claim itemized deductions, use Table B on page 13 of the 1040 instruction booklet; otherwise, use Schedule II on page 11.

**Q** — I retired last year after 30 years of government service on a disability pension. Is this taxable to me? I'm 58 years old.

**A** — Yes, although a disability pension received before the normal retirement age may qualify for the sick pay exclusion. Since U. S. Civil Service employees may retire at age 60 with 30 years of service, your pension qualifies as sick pay and up to \$100 a week may be excluded from income. When you reach age 60 your pension will be treated as an annuity for tax purposes.

**Q** — Is there any deduction at all for the college tuition costs I pay for my son?

**A** — Present tax law does not allow a deduction for this purpose. However, if you borrow money to pay the tuition you may deduct the interest charges.

**Q** — Are legal fees in an adoption case deductible? My husband and I had a little girl placed with us last year.

**A** — These legal fees are considered a personal expense and are not deductible. A legally adopted child may be claimed as a dependent, however, if the other necessary dependency tests are met.

**Q** — I'm self-employed and don't need a Social Security number. Why should I bother to get one just for my tax return?

**A** — The law requires that each taxpayer have a tax account identifying number. For individuals, the Social Security numbering system is used. Besides the penalty you may have to pay for not having a number on your tax return, no refund check can be issued without this identification.

**Q** — I had to sell my home at a loss last year when I was transferred by my company. Can I deduct my loss?

**A** — No, the law considers this a personal expense.

**Q** — I'm 65 but my wife is not. Does that mean all my medical expenses are deductible while hers are subject to a 3 percent limitation?

**A** — When one member of a couple is 65 then all of their qualifying medical expenses become fully deductible. This means that your wife's medical expenses are fully deductible just as yours are.

**Quarters Pay Price Of Round-World**

LANCASTER, Pa. (UPI) — Benjamin H. High, owner of a welding company, is scheduled to start a trip around the world with \$2,632.50 in quarters saved as a non-smoker for 10 years.

High walked into the Lancaster County Farmers National Bank Thursday behind a wheelbarrow containing 10,130 quarters.

"I started saving them 20 years ago when I gave up smoking," High explained. "I turned up 7,285 quarters 10 years ago."

He said he saved the quarters in a box built into the wall of his home. Each day, he put in an amount he figured would have been spent on cigarettes.

**ROYAL DECREE**  
ATHENS, Greece (UPI) — A royal decree signed Thursday forbids Greek ships to transport cargoes to Communist North Viet Nam. The only exceptions were for ships committed to charter agreements signed before the decree takes effect March 12.

**Poverty—Then as Now**

The face of poverty is ageless, as these photographs show. They could be eloquent testimony to the distress of many Americans today as the nation engages in a War on Poverty. But they are from an earlier time, the Depression-ridden Thirties. They are among the great works of photographer Dorothea Lange, who died last October, on display at New York's Museum of Modern Art.

**NICE THOUGHT**  
HUNTSVILLE, Tex. (UPI) — Admirer is all 547 patriotic

prisoners of the Texas Penitentiary are going to get. They wanted out to fight in Viet

Nam. Dr. George Beto, director of the Texas Prison System, said the prisoners asked for

release so they could join the armed forces. Beto thanked the inmates for "thinking about it."

The Christian doctrine of the Trinity was proclaimed by the Nicene Council.

**Non-Discriminating Pledges Must Be Signed for Medicare Payments**

WASHINGTON (UPI) — The discrimination in federally aided nation's hospital and nursing homes must sign non-discrimination pledges before they can receive payments under the Medicare program, a high federal official said Friday.

The Public Health Service will send a questionnaire to hospitals and nursing homes next week to survey their compliance with the anti-Discrimination section of the Civil Rights Law, the official said. The section forbids racial

discrimination in federally aided programs. Wilbur J. Cohen, under-secretary of health, education and welfare, outlined this condition in a speech before the District of Columbia Public Health Association.

He estimated that payments for treatment of persons over 65 who have Medicare hospital insurance protection would provide 25 to 30 per cent of the operating expenses of the average hospital.

**GIRLS MEAN BOYS**

WASHINGTON (UPI) —Put 450 teen-aged girls in a motel and what do you get? "Traffic impact of 450 boys driving up in autos at night," says Stan Parris, a county official in suburban Fairfax, Va. For that reason, he asked the Office of Economic Opportunity to delay a decision to use a motel as a

The coalfish, sometimes called pollack, is so-called because of its black coloration, according to the Encyclopaedia Britannica.

Job Corps Center for the girls, average age 17. The federal agency said it would study the matter.

**Cows To Be Key To Breakfast And Bed?**

By ANNE H. PEARSON United Press International WASHINGTON (UPI) —The familiar struggle over whether Americans' breakfast and bedtime hours should be keyed to the cows may be coming to a head in Congress at long last. The House Commerce Committee is pushing toward agreement on a bill which could force most Americans —if not all —to advance their clocks in unison April 24 and leave them that way for six months.

Chairman Harley O. Staggers, D-W.Va., said the committee was shooting for a daylight saving time bill which would become effective this year. He said he expected the panel to approve such a measure at its next meeting Tuesday.

Staggers declined to say where the committee consensus appeared to be settling. But other sources said there was a strong push for a bill to require states going on fast time to start it the last Sunday in April and end it the last Sunday in October — on a statewide basis.

If the committee adopts this plan, it will be more severe than the one passed by the Senate last year. The Senate bill had the same mandatory dates for any area choosing fast time, but it allowed local option. This means that sections of states could go on fast time while other parts re-

mained on standard time for the six-month period.

One concern of some House committee members is that all states with laws putting them on daylight time on any basis would come under the federal bill if it became law. A bill taking effect this year would give them little chance to change their laws and elect to stay on standard time.

Last year, 36 states went on daylight savings time on some basis. Of these, 16 used the six-month periods specified in the federal legislation.

The controversy generally pits rural areas, which point out that cows don't change their habits just because clocks change, against urban dwellers who like that extra daylight in the evening.

In recent years, however, the main drive for more summer time uniformity has come from business and industry. One group of carriers told the committee it had to revise schedules 38 times in one season.

Most of the world's opals are produced by Australia's Coober Pedy and Andamook mines.

Total number of call notes of the ostrich is said to exceed that of most songbirds.

# Pampa A Cappella Choir To Sing At National Meet

## The Pampa Daily News

SUNDAY, MARCH 6, 1966

Pampa High School's A Cappella Choir is one of two high schools in the nation selected to present a concert at the national convention of the American Choral Directors Association in the Muehlebach Hotel at Kansas City, Mo., March 16-17.

The other high school choir chosen to sing is from Ottumwa, Iowa. The rest of the choirs to appear are from colleges and universities.

The 86-member Pampa choir under the direction of Hugh Sanders will appear in concert at 9 a.m. March 16 at the ACDA meeting.

The program to be sung in Kansas City will be presented in Robert E. Lee Junior High auditorium at 7:15 p.m. next Saturday.

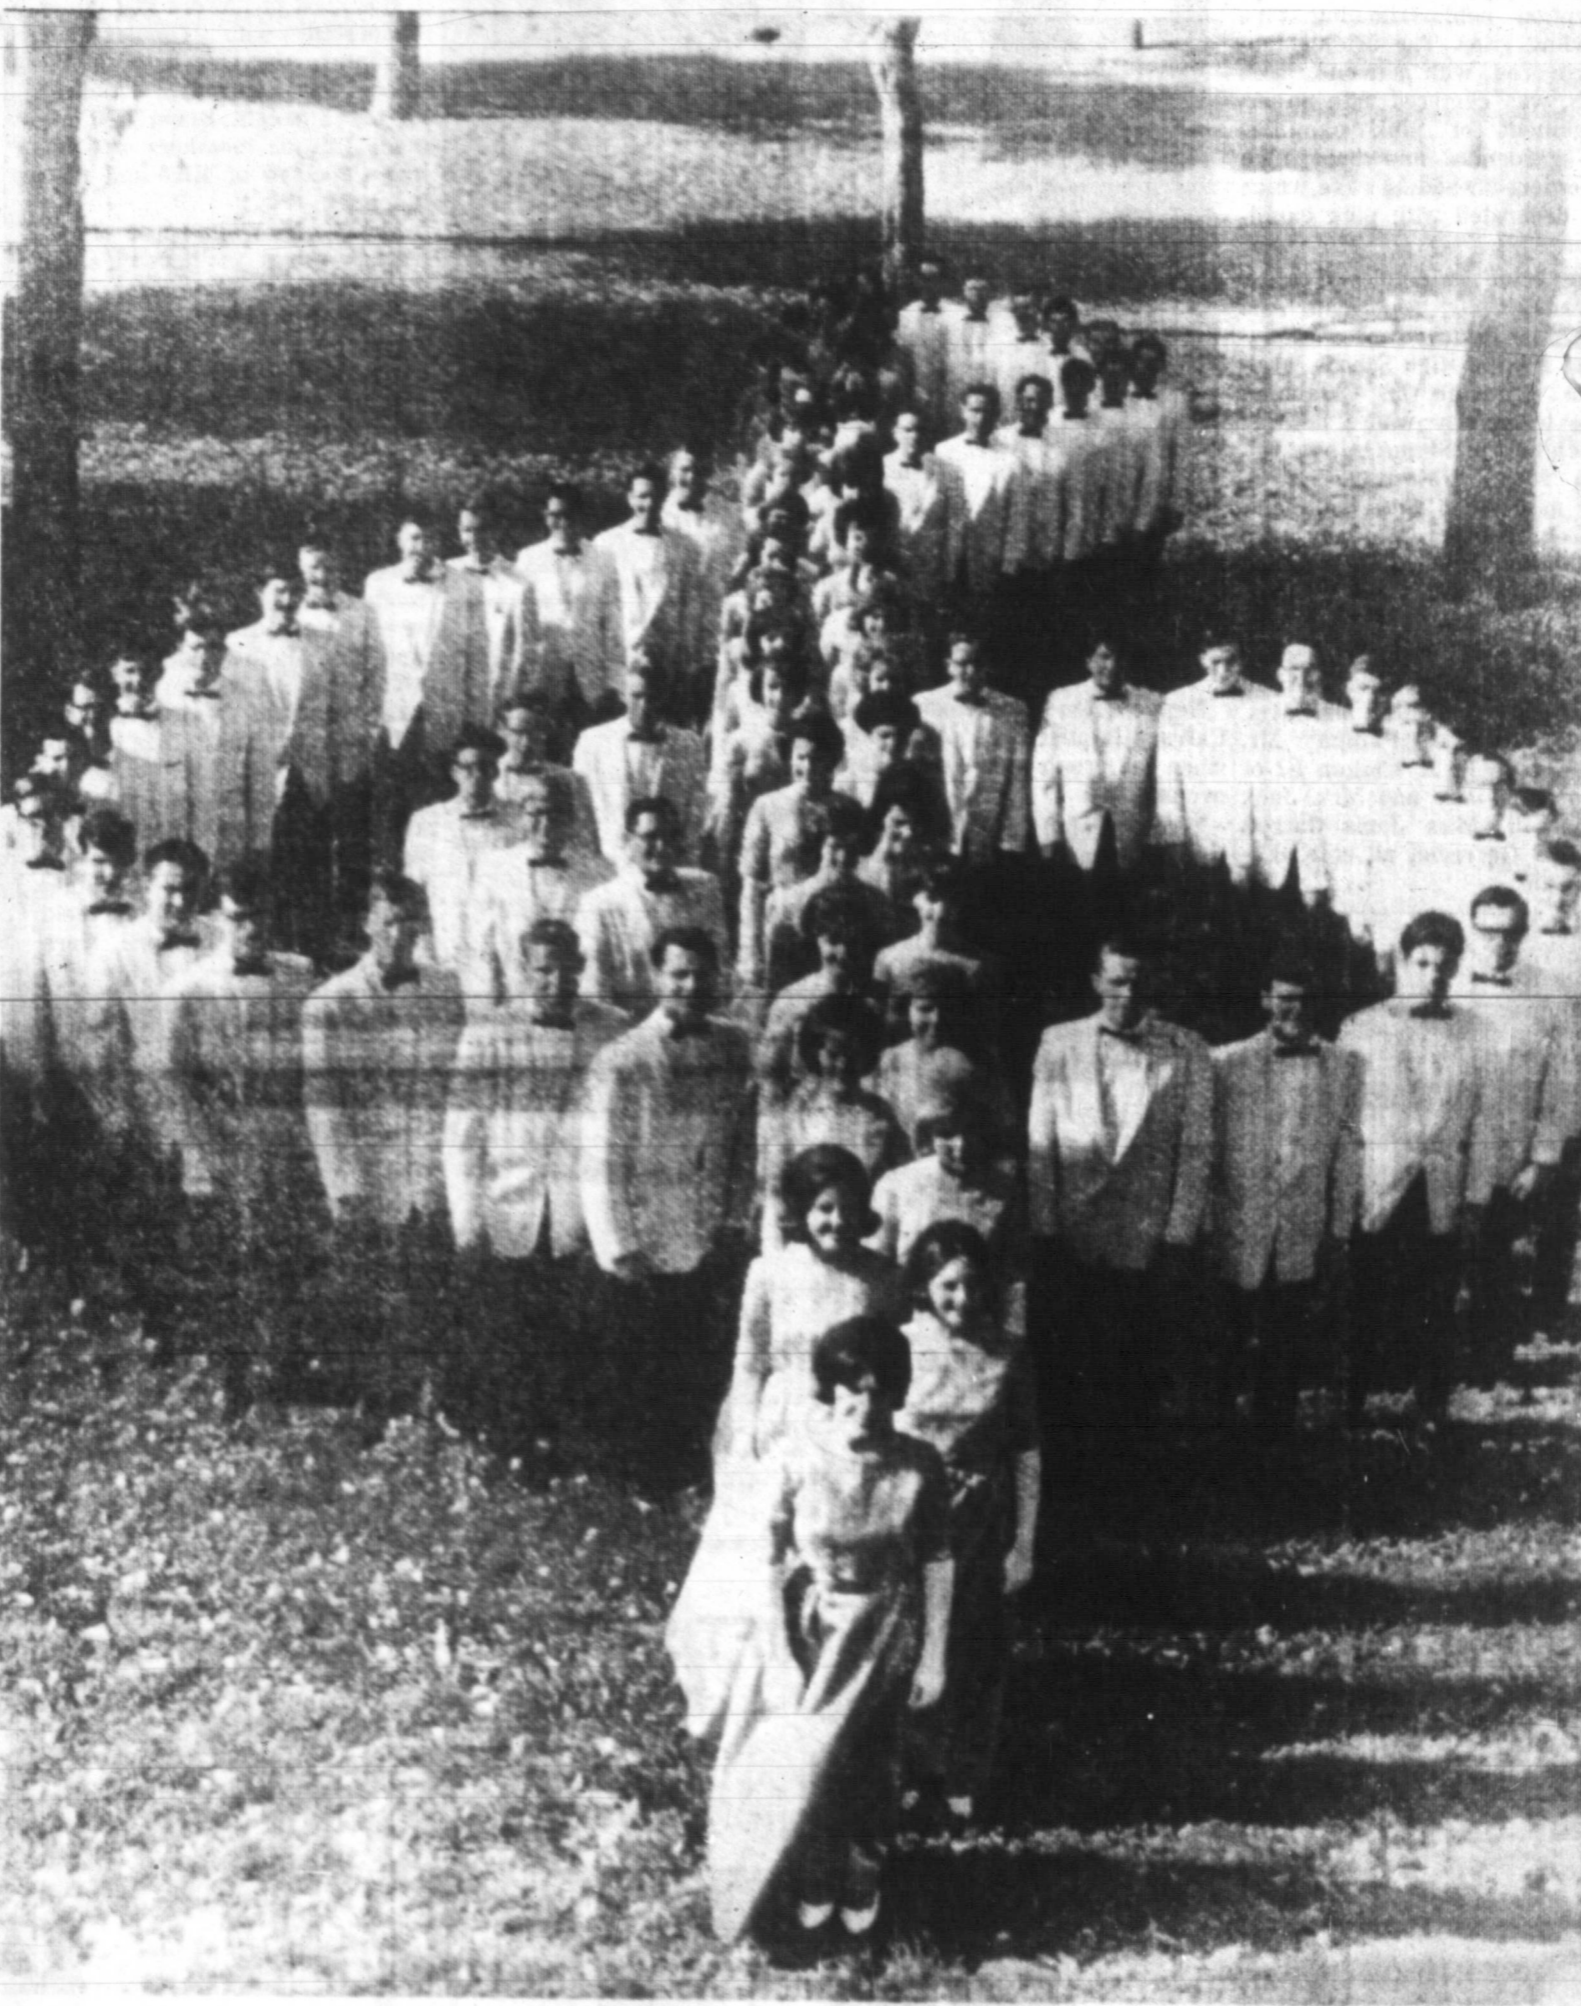

The choir members will leave by chartered bus for Kansas City at 4:30 p.m. March 14 and arrive in Kansas City the following evening. Money to pay for lodging and meals was raised by the choir in its recent presentation of "Pajama Game."

**TOP LEFT** — Accompanists for the A Cappella Choir contribute much to its performance. Accompanists are, seated left to right, Susan Patrick and Eileene Trout, and standing, Jo Ann Craig and Jerry Stephens.

**TOP CENTER** — The performance at Kansas City, Mo., will highlight the choir years of the senior boys of the group, shown with Hugh D. Sanders, choir director. Senior boys pictured are, front row left to right, Sunny Merrill, George Snell and Scott Epperson; middle row left to right, Freddy Upshaw, Sam Waters and Richard Johnson, and back row left to right, Morris Johnson, Danny Hogsett and John Curry.

**TOP RIGHT** — Guiding the activities of the choir are its officers, David Cain, seated, president; Jo Ann Craig, secretary, and Doug Altom, vice president.

**CENTER** — The 86-voice Pampa High School A Cappella Choir in treble clef formation. A complete roster includes, Suzanne Benton, Carol Gates, Pamela Noe, Paula Zinn, Linda Skidmore, Earleen Sutton, Diana Gist, Karen Laramore, Susan Patrick and Vickie Pruess, first sopranos; Jo Ann Craig, Cindy Key, Dianne Phillips, Nita Eats, Vickie Heasley, Jo Clair Wilkerson, Celeste Duncan, Donna Flynt, Eileene Trout, Leslie Watkins and Riina Langus, second sopranos; Sheryl Baxter, Dorothy Davis, Mary Shewmaker, Venita Turcotte, Barbara Veale, Vickie Autry, Jane Hiatt, Janie Prock and Marilyn Milliron, first altos; Betty Frock, Judy Watkins, Martha Stuart, Karen Hoover, Rama Hoepner and Roena Ruddick, second altos; Doug Altom, Fred Barber, Billy Hawkins, Morris Johnson, Jerry Moore, Harlan HySmith, Schuyler Stuckey, Terry Trice, Freddy Upshaw, Rob Walters, Wendell Watson, Bobby Washburne, Raymond Deanda, Cary Lee and Fran McGhan, tenors; Ricky Roach, Charles Brauchle, David Cain, Paul Cantrell, Scott Epperson, David Harris, Danny Hogsett, Kenneth McWilliams, Sunny Merrill, Mike Miller, Jerry Stephens, Gary Hiatt, Vaughn Taylor, Kenneth Taylor, Chris Kenney, Terry Ellis, Jim Benton, Mike Phillips and Barney Beezley, baritones; and Rick Foster, John Curry, Bruce HySmith, Billy Quarles, David Smith, Sam Waters, Mike Johnson, Jan Farley, George Snell, Mark Presser, Jim Cornutt, Ralph Baxter, Johnny Carlos, Larry Elledge, Terry Scoggin and Doc Cornutt, basses.

**CENTER RIGHT** — Director of the Pampa High School A Cappella Choir, Hugh D. Sanders, has taught in Pampa six years during which time his choirs have consistently attained a fine degree of excellence. This excellence was shown in the selection of the choir to present a program at last year's Southwestern Division Meeting of Music Educators National Conference in Oklahoma City. The respect of Sander's leadership and ability, shown by other choral directors of the state was evidence by his election to vice president of Vocal Chairmen of Texas Music Educators Assn. Two years ago the Junior Chamber of Commerce awarded him the Outstanding Young Man of the Year Award for his responsibilities.

**BOTTOM LEFT** — The "Modernaires," composed of choir members, present special numbers for school functions and various organizations. "Modernaires" are, front row left to right, Dianne Phillips, Suzanne Benton and Leslie Watkins; second row left to right, Vickie Autry, Jo Ann Craig and Susan Patrick; third row left to right, Fred Barber, Terry Trice, Jerry Moore and Harlan Hy-Smith, and back row left to right, Vaughn Taylor, Billy Quarles, Terry Scoggin and David Harris.

**BOTTOM RIGHT** — Students who had leads in "The Pajama Game," produced earlier this year by the choir as the money making project whereby funds were derived to make the trip, discuss the results of the production. Pictured left to right are David Cain, Doug Altom, Dorothy Davis, Kenneth McWilliams and Jo Ann Craig.

Mrs. Ford, 'Woman of the Week,' To Be Feted During Business Women's Week

Mrs. Charley Ford ... 'Woman of the Week'

Mrs. Charley Ford, selected "Woman of the Week" by the Pampa Business and Professional Women's Club, will be honored at a breakfast this morning in the Coronado Inn, opening Business Women's Week, and will be recognized at many social functions throughout the week.

Mrs. Ford was born and reared at Texhoma, Okla., attended college at Goodwell, Okla., Alva, Okla., Boulder, Colo., obtaining a life time teacher's certificate. She also is a beautician, having graduated from beauty school in Tulsa, Okla.

The honoree was married to Charley Ford at Elkhart, Kan., and moved to Pampa in 1943. She owned and operated Ford's Youth Store for 10 years and after seeing a need for a boys store, sold out and opened a boys specialty store where she has been in business for the past six years.

Mrs. Ford is a member of the First Presbyterian Church, the

Order of the Eastern Star, a member of the Chamber of Commerce, a board member of the Down Town Merchant's Association, a past-president of the B&PW Club, having served on all committees of this club, and is presently serving as corresponding secretary.

After working hours she enjoys her time at home cooking, keeping house and working in her yard caring for her beautiful flowers. She loves association with people and when possible enjoys playing bridge. Mrs. Ford has four sisters and three brothers.

Fire Fighters

NEW YORK (UPI) — Small, cheap aerosol fire extinguishers selling for about \$2 have been nixed by the National Fire Protection Association as almost worthless. Holding a pint of liquid, they are no more effective than a pitcher of water, the association reported.

The Women's Page

20 THE PAMPA DAILY NEWS SUNDAY, MARCH 6, 1966 58TH YEAR

Pampans' Son Weds in California Rites

Wayfarers' Chapel of Los Angeles, Calif., was the scene for the recent wedding of Miss Judith Ann Alfeltes and William T. Fraser II, both of Los Angeles. The double-ring vows were exchanged at 6 p.m., on Jan. 28.

The bride is the daughter of Mrs. and Mrs. John Alfeltes of Phoenix, Ariz. The bridegroom is the son of Mr. and Mrs. William T. Fraser of 102 W. 18th.

Given in marriage by her father, the bride was gowning in a formal gown of ivory textured silk. The fitted bodice was embellished with seed pearls. A chapel train fell from the back waistline of the sheath skirt. Her elbow length tiered veil of silk illusion was secured by a pill box coil. She carried a cascading arrangement of bronze orchids.

Galley West Restaurant, Los Angeles, was the scene of the reception held following the wedding rites. The bride's table, covered with a white linen cloth, was centered with an arrangement of pink camillias and gardenias and held the three-tiered wedding cake which was decorated with pink camillias.

The bride is employed as a stewardess by American Airlines. The bridegroom, a graduate of Pampa High School, is also a graduate of Oklahoma State University where he was a member of Sigma Alpha Epsilon social fraternity. He is now associated with Southland Life Insurance Company in Manhattan Beach, Calif., where the couple will make their home.

Out-of-town wedding guests included Mr. and Mrs. William T. Fraser, and Mr. and Mrs. Lee Fraser of Pampa; Mr. and Mrs. J. E. R. Chilton III of Dallas; and Mr. and Mrs. Jack H. Jarrell, Miss Janis Jarrell and Joe Garrison, all of El Cajon, Calif.

Mrs. William T. Fraser II ... nee Miss Judith Ann Alfeltes

Girls' Auxiliary Elects Officers

New officers were elected by Calvary Baptist Girls' Auxiliary when the group met Wednesday evening.

Those elected included Miss Alma Newman, president; Miss Pam Long, vice president; Miss Carolyn Kidwell, secretary-treasurer; Miss Cara Tidwell, program chairman, and Miss

Connie Winegeart, prayer chairman.

The film, "Panama, the Land Between," will be presented to the Auxiliary at 6 p.m. Wednesday.

Reception to Honor The Loyal Davies

Mr. and Mrs. Loyal Davies will be honored at a reception in the home of Mr. and Mrs. Leon Patterson this afternoon.

Pampa residents since 1947, the Davies have been active in civic and art circles. Mr. Davies is president of Rotary, past director of the Chamber of Commerce, has held office in the Pampa Shrine, is a member of API and the country club.

Mrs. Davies is a past president of the Pampa Art Club, Paint, Pot and Piddlers Hobby Club and a former member of the A.U.W.

Mr. Davies has been superintendent over the Pampa and Lefors gasoline plants of Cities Service Oil company and is being transferred to Wichita, Kan. to manage several plants in the area. Plant personnel from both plants are included in the guest list.

Serving at the refreshment table will be Mrs. Avey King, Mrs. F. D. Pitts, Mrs. Davis Piunkett and Mrs. Hubert Lam.

Spring Fashions Are Presented at KKI Style Show

Bouquet of flowers and tables decorated with candles and miniature souvenir hats set the scene for Saturday's luncheon in the Starlight Room of Coronado Inn for members of Gamma Conclave of KKI and their guests.

Mrs. G. M. Walls acted as narrator, using as her theme "Friendship," and Mrs. Hugh Sanders furnished a musical background for a varied and interesting style show presenting spring fashions. Modeling were Mmes. J. E. Tatum, Perry Gaut, Jarvis Johnson Sr. and Miss Mildred Highland. The show was coaxed by an exclusive showing of the controversial topless bathing suit modeled by little Stacy Sanders, one-year-old daughter of Mr. and Mrs. Hugh Sanders.

The door prize, a lively arrangement of spring flowers was won by Miss Inez Clubb, guest.

Mrs. Aaron Meek, presided at a short business meeting. Officers for the coming year were elected and plans for the State Convention, which will be held at Coronado Inn in April, were discussed.

Mrs. Richard Earl Chambers  
nee Miss Peggy Sue Kendricks

In a ceremony read at 7 o'clock Feb. 25, Miss Peggy Sue Kendricks, daughter of Mrs. Juanita Kendricks of 701 N. Nalda, be-

came the bride of Richard Earl Chambers, son of Mr. and Mrs. Glenn D. Chambers of 1300 N. Starkweather.

Rev. Thurman Upshaw pronounced the double-ring vows in Central Baptist Church before an altar appointed with arrangements of white gladioli, ivy and fern.

Mrs. Charles Parr, organist, presented a program of traditional nuptial selections.

G. A. Morrow of Borger gave his granddaughter in marriage. She was attired in a chapel-length gown fashioned of white peau de soie trimmed with chantilly lace appliques. The fitted

bodice featured a scoop neckline and long tapering sleeves terminating in petal points. The softly pleated skirt swept to back fullness creating a chapel train. Her elbow-length veil of illusion fell from a rhinestone tiara. She carried a white Bible topped by a cascading arrangement of white roses. Carrying out the tradition of something old, new, borrowed and blue, the bride wore an 1864 penny-in-her-shoe, a blue bible garter, and wore her great-grandmother's wedding band.

Bridal attendants, attired in waltz-length gowns of pink shan-

Serving the bride room as best man was his cousin, Bart Nay, while groomsmen were Phillip Meek of Amarillo, bride's brother-in-law. Ushers were Wendell Honeycutt and Jim Keough.

Guests were greeted in Fellowship Hall of Central Baptist Church at the reception held following the wedding rites. The bride's table, covered with a white lace cloth over pink, was appointed with a crystal bud vase bearing two pink roses and a basket filled with pink and white rice bags. Mrs. Phillip Meek, bride's sister, served the three-tiered cononaded wedding cake which was topped with pink roses. Mrs. Wendell Honeycutt presided at the punch bowl and Mrs. Bart Nay attended the guest register.

The newlyweds are now at home at 709 N. Dwight following a brief wedding trip. For traveling the bride chose a sheath dress of white wool complimented by pink accessories. She lifted the rose corsage from her bridal bouquet.

**Legg-Baxter Vows  
Read in Denison**

Double-ring wedding vows were pledged by Miss Laura Beth Legg of Denison and Jerry Dean Baxter of Killeen at 4 p.m., Feb. 19, in Waples Methodist Church of Denison.

The bride is the daughter of Mr. and Mrs. Lonnie D. Legg of Denison and the bridegroom is the son of Mr. and Mrs. Ralph Baxter of 1929 Grape.

Mrs. Isaac Burks, organist, provided traditional selections and accompanied Kenneth Baxter as he sang "The Wedding Prayer" and "I Love Thee." Lonnie Legg Jr., read a Bible scripture from the Book of Ruth.

Given in marriage by her father, the bride was attired in a street-length suit of white silk with matching accessories. She carried a nosegay of gardenias.

Miss Nancy Lee Legg of Denison, wearing a brocaded blue and white frock and carrying a nosegay of blue and white carnations, attended the bride as maid of honor.

Wayne Doyle of Waco served as best man to the bridegroom while ushers were Bob McCausland of Denton and Virgil Strimple of Waco.

A reception was held in the church parlor following the ceremony. Miss Sheryl Baxter provided background piano music throughout the receiving hours. Miss Marilyn Barnett and Miss Gloria Adams, both of Denton, presided at the serving table.

Mrs. Baxter, a graduate of North Texas State University, Denton, attended graduate school at Purdue University, Ind. The bridegroom, a 1961 graduate of Pampa High School, is also a graduate of Baylor University where he was a member of Phi Mu Alpha Music fraternity.

He is now associated with the Killeen Public School System as a music director. The newlyweds are making their home at 1114 Florence, Killeen.

**Tea Honors Bride-Elect**

(Smith's Studio)

**TEA HONOREE** - Miss DeAnn Drew, right, was honored at a tea Feb. 26 in the home of Mrs. R. D. Wilkerson, 2324 Christine. The honoree, bride-elect of Charles H. Britton of Brownfield, is pictured with her mother, Mrs. V. J. Drew.

An afternoon tea was given recently in the home of Mrs. R. D. Wilkerson, 2324 Christine, honoring Miss DeAnn Drew, bride-elect of Charles H. Britton of Brownfield and daughter of Mr. and Mrs. V. J. Drew.

Other tea hostesses were Mrs. Cloud O. Drew and Mrs. Lalar D. Wilkerson.

Receiving guests were the honoree, her mother, Mrs. R. D. Wilkerson and Mrs. Cloud O. Drew. Guests were registered by Miss Jo Clair Wilkerson and Mrs. Boy McCoy.

Miss Drew was presented a corsage fashioned of pink rose-

**Mrs. Mullins And  
Mrs. Hall To Be  
Honored at Tea**

Mrs. C. C. Mullins and Mrs. Carl Hall have been selected by the Lefors Art and Civic Club to be honored as the longest and most outstanding leaders in Federated Clubwork at a tea to be held this afternoon at 3 o'clock in the Civic Center.

The Texas Day Friendship P is being held in conjunction with the Diamond Jubilee Celebration, an honorary project of the General Federation of Women's Clubs.

Throughout the nation these representatives are designated "Jewels" in connection with the 75th or diamond anniversary of GFWC.

Mrs. Mullins, a charter member of the club since its federation in 1938, was selected as the member with the longest continuous membership and outstanding club work. Mrs. Hall was selected for her concentrated and outstanding leadership during her 10 years of membership.

Husbands and friends of Art and Civic Club members are invited to attend the tea. The program will include an exhibition of antiques of the area, displayed by Mrs. James Gatlin, and musical selections by the club chorus under the direction of Mrs. Tony Timmons.

Look for clothing with much shorter skirts this year. Most of the Paris designers gave in to the short skirt. American buyers are expected to follow that decisive lead.

### Qualifications Of County Officials Is Program Topic

"Why I Should Study Qualifications of County Officials" was the program topic chosen by Mrs. O. A. Wagner when she led the program recently for Worth-while Home Demonstration Club.

Mrs. Robert M. Barrett was hostess to the group in the Barrett home.

Those participating on the program and their subjects were Mrs. N. B. Cude, "Qualifications and Duties of the County Judge;" Mrs. Barrett, "Qualifications and Duties of the County Sheriff;" Mrs. P. G. Tur-

ner, "Qualifications and Duties of County Commissioners," and Mrs. Roy Tinsley, "Qualifications and Duties of the County Clerk."

Mrs. J. L. Carlton also told the group of the use of vinegar in cooking, laundry and insect bites.

Members attending were Mrs. D. A. Wagner, Lester Reynolds, Polly Bryant, J. C. Payne, P. G. Turner, Boyd Brown, Tom Carver, W. G. Kinzer, O. G. Smith, J. L. Carlton, N. B. Cude, C. B. Rogers, Roy Tinsley and Miss Yvonne Reynolds.

### Wedding Rites Read at Baptist Assembly

Large basket arrangements of roses, candelabra entwined with greenery and a kneeling bench appointed the altar of Glorieta Baptist Assembly Chapel, Santa Fe, N. M., for the recent wedding uniting Miss Esta Kay Brown of Las Vegas, Nev., and Richard Alan Benson of Sheperd Air Force Base.

The bride is the daughter of Mr. and Mrs. E. E. Brown of Las Vegas, Nev., former Pampans. The bridegroom is the son of Dr. G. M. Benson of Tucumcari, N. M., and Mrs. M. T. Peters of Hobbs, N. M.

Rev. Glenn McCoy, director of the Baptist Student Union at Highlands University, Las Vegas, pronounced the double-ring ceremony. Mrs. Fred Watts, organist, provided traditional nuptial selections and Mrs. Gardne Johnson was soloist.

The bride chose a floor-length gown of winter white faille crepe for her wedding. The fitted bodice featured a boat neckline edged with fur, and an empire waistline. The bell-shaped skirt swept to a chapel train. Her floor-length veil of illusion was embellished with a brief blusher with fur buttons. She carried a cascading arrangement of white and pink roses centered with two red roses, embellished with ivory and white velvet cord streamers.

Miss Janice Brown attended her sister as maid of honor while bridesmaid was Miss Nancy DeWees. The Misses Benson and DeWees were attired in floor-length gowns fashioned of pink velvet with empire styling. Each wore a pink velvet circle crown coil with brief veil and carried a bouquet of red roses tied with red velvet cord streamers.

Serving his brother as best man was Ronald Benson. Ushers were Larry DeWees, Mennen Clement, Jim Soulek and Willard Hagey.

Lighting the tapers were Steve Brown, bride's brother, and Miss Kathy Johnson.

Pampa Lodge at Glorieta Baptist Assembly held following the pledging of vows. The bride's table, covered with a white organza cloth over pink satin, was centered with a silver candelabra bearing white tapers and surrounded by pink roses.

Prior to departing on a wedding trip to Winter Park, Colo., the new Mrs. Benson donned a three-piece black and white walking suit, accented by black accessories. They are now mak-

### Luncheon Meeting Is Slated by PE Wives Society

"Rocks and Minerals," presented by O. A. Greene, will be the program for the Petroleum Engineers' Wives Society when the group meets at 11:30 a.m. Tuesday in the Borgor Hotel, Borgor.

Following the program, a brief business session will be conducted by Mrs. Paul Davis, president. A slate of officers, selected by the nominating committee, will be presented and other nominations will be accepted from the membership at large. The election of officers is slated for the April meeting with the installation ceremony to be conducted in May.

Reservations for the luncheon may be made by contacting Mrs. James Moring at MO 4-8317 by this evening.

ing their home at 1540 Billings, Denver, Colo.

The bride attended Colorado Woman's College, Denver, Texas Technological University, Lubbock and Highland University, Las Vegas. The bridegroom attended University of New Mexico, Albuquerque, where he was a member of Sigma Alpha Epsilon fraternity. A 1965 graduate of the U. S. Air Force Academy, Colorado Springs, Colo., he is now stationed at Lowry Air Force Base, Denver.

## Newlyweds To Make Home in Colorado

Miss Shirley Ann Ossola, daughter of Mrs. and Mrs. Mike Ossola of Trinidad, Colo., became the bride of George Bullard, son of Mr. and Mrs. D. L. Bullard, of 1132 Cinderella in rite officiated last evening.

Rev. Joseph R. Weber, S. J., officiated at the 3 p.m. double ring ceremony at Holy Trinity Catholic Church.

The bride, escorted to the altar by her father, was attired in a gown of peau de soie, with a high rounded neckline, long tapered sleeves, and A-line skirt. The neckline and skirt were banded with chantilly lace and dewed with seed pearls and French sequins. The de'achable illusion train, flowing from the shoulders, was also banded in lace. The bride's only jewelry was a pearl and diamond pendant given to her by the bridegroom. Her elbow-length veil of silk illusion was held by five jeweled leaves, centered with a blooming rose bud. A string of pearls extended from the center of the bud. She carried a white orchid surrounded with feathered carnations.

Miss Patty Schroeder, maid of honor, and Miss Vicki Alessandrelli, bridesmaid, wore ocean green brocade sheath dresses with matching jackets. Their shoes and veiled bow headpieces were also of green brocade. The only jewelry worn was a pearl pendant given as a gift of the bride. Each carried a single yellow rose.

Robert Pullen served as best man and Eddie Langwell was groomsmen. Ushers were Terry Bromlow and Don McCool.

The bride chose as her going away suit an avocado green stretch knit suit with celery green accessories. Her corsage was a white orchid. The newlyweds will honeymoon in Texas.

The bride is employed at Moderne Beauty Salon and the bridegroom is attending Trinidad State Jr. College. After graduation in June the couple will make their home in Amarillo. The couple will be at home at 327 1/2 Commercial in Trinidad.

Mrs. George Bullard ... nee Miss Shirley Ann Ossola

Out-of-town wedding guests included Mr. and Mrs. Robert Baird, Mr. and Mrs. Jum Ma-ple, Mr. and Mrs. Bobby Fer-

### 'Those Who Love' Is Reviewed for TC Cotillion Club by Mrs. Don Morrison

A meeting of the Twentieth Century Cotillion Club was held March 1, at 1236 Williston. Mrs. Buddy Cockrell served as hostess.

Mrs. Weldon Adair opened the regular business meeting. Final plans were made for the Antique Show and Sale for April 1, 2,

and 3.

Mrs. Don Morrison announced that the musical review of "Funny Girl" will be presented for the benefit of leukemia research of Wadley Research Institute in Dallas. The performance is scheduled for 8 p.m., Thursday, March 17, in the Starlight Room of the Coronado Inn.

"Those Who Love," a biographical novel of Abigail and John Adams written by Irving Stone, was reviewed by Mrs. Morrison.

"To look back and recollect the adventures of myself and my wife and daughter and sons, I see a kind of romance which, a little embellished with fiction, or only poetical ornament, would equal anything in the days of chivalry or knight errantry," wrote John Adams to Abigail.

"Abigail answered in the (See THOSE, Page 29)

### YOUR PHARMACIST SPEAKS

By Joe Tooley and Tom Beard

Whether you choose to believe it or not perhaps as much as 95 per cent of headaches have no source in the head at all. Tension is the most common cause, and the pain results from a release of "pain substance" in the nerve end.

Joe Tooley of the scalp at a time when arteries in the head have become dilated.

Reading, television, poor ventilation and driving can cause this, as can too-long preoccupation with one subject, missing a meal, and fever.

However, if getting prescriptions filled is somewhat of a headache, may we suggest a quick cure? Rely on prompt, courteous service at

By CARROLL RIGHTER

**FOR SUNDAY, MARCH 6**  
**GENERAL TENDENCIES:** The approaching Full Moon finds you eager to make many changes and new beginnings, but be sure they have been carefully thought out, or you can find that intermittent likelihood of broken promises are set before you. Use your fine sense of compassion to help those who are less fortunate than yourself this Sunday.

**ARIES (Mar. 21 to Apr. 19)** — Morning is wisely spent thinking over how to make your life more efficient. You are more happy at least and you get fine results. Put ideas to work. Contact those persons who can be of assistance.

**TAURUS (Apr. 20 to May 20)** — Spending time to get health bettered and to assist others to live better is wise this a.m. Give a word of cheer where needed. Joining with associates or pals in the evening brings happy accord.

**GEMINI (May 21 to June 21)** — Showing greater conscience in both home and business affairs is what you should concentrate upon today. Have a happier and easier life. Show fortitude where anything disappointing is concerned. Grow.

**MOON CHILDREN (June 22 to July 21)** — Gearing information you need at your favorite services or by solitary study will get rid of any depressive thoughts you may have. Show exactitude in all that you do. Observe the Golden Rule.

**LEO (July 22 to Aug. 23)** — Meditating upon financial gain and how to help others is best way to spend the a.m. Approach practical aims with enthusiasm. Forethought. Problematical affairs will be quickly gotten rid of.

**VIRGO (Aug. 24 to Sept. 23)** — Some time spent in straightening out misunderstandings with associates is necessary today. Put yourself in their position. Then accord comes quickly and the future is more secure.

**LIBRA (Sept. 24 to Oct. 23)** — Meditating upon how to get your nerves working more efficiently will mean bigger income and dividends later. Be sure to plan to get rid of whatever keeps you from progressing. Have a simpler system.

**SCORPIO (Oct. 24 to Nov. 21)** — Know that what your true aims are and how to gain them swiftly and with greater facility in the future. Your associates and pals view you in a better light. They give the right ideas, support you need.

**SAGITTARIUS (Nov. 22 to Dec. 21)** — Right day to contact those big-wigs who can help you to make the future brighter and start an upward climb. Also take time for civic affairs. Devotion to kin is important as well.

**CAPRICORN (Dec. 22 to Jan. 20)** — You are thinking very quickly now and accurately, so make all the good contacts you can to further your interests. You have met interesting persons lately. Learn to know them better, since they can be very helpful.

**AQUARIUS (Jan. 21 to Feb. 19)** — Analysis of your present position reveals how to better it in the future. Greater exactitude in all that you do is required. Be very sure you don't have others talk you into jeopardizing security.

**PISCES (Feb. 20 to Mar. 20)** — Having long talks with those you contact today is resultant of added prestige and good will. Avoid those critical remarks that can come quickly to your lips. Strive for better understanding instead of goading others.

**FOR MONDAY, MARCH 7**  
**GENERAL TENDENCIES:** Today's Full Moon activity can bring much criticism from others, as well as a tendency on your part to look for flaws in persons and conditions about you, so make a point to sidestep such rebuking attitudes and do what you can to aid those who are fortunate to well-placed then yourself. This condition improve.

**ARIES (Mar. 21 to Apr. 19)** — Complete dedication to your regular work is important today so that you do not become entangled with what could be very harmful to you. Steer clear of arguments. Associates could be in a bad humor.

**TAURUS (Apr. 20 to May 20)** — You are tempted to put aside all important tasks (See FORECAST, Page 30)

**NEWMAN - SPALDING** — Miss Stella Ruth Newman will become the bride of Fred L. Spalding of St. Paul, Minn., on March 27, according to an announcement made by Mr. and Mrs. J. L. Edwards of 1035 S. Nelson, parents of the bride-elect. The prospective bridegroom is the son of Mr. and Mrs. Charlie Spalding of 834 S. Banks.

**MILLER-BRIGGS** — Mr. and Mrs. Othello Miller of Canadian announce the engagement of their daughter, Margaret, to Ronnie Briggs, son of Mr. and Mrs. Clarence Briggs of Canadian. The bride-elect is a sophomore in Canadian High School. The prospective bridegroom is attending the U.S. Navy Submarine School at New London, Conn.

**John Whites Observe Golden Wedding Date**  
**CANADIAN (Sp)** — Open house was held in Amarillo February 27 at 5111 Temple in honor of the fiftieth wedding anniversary of Mr. and Mrs. John White. The Whites made their home here for many years and their children were all raised here.

Mrs. White was the former Miss Elmira Ramsey, daughter of the late Mr. and Mrs. Lew Ramsey of the Gem community. Mr. White is a carpenter and helped construct many buildings here.

The White children were hosts and hostesses at the affair which was held from two until five o'clock in the afternoon.

Crystal and cut glass will sparkle if it is washed in water to which a little ammonia is added.

# A Salute To Pampa

## Courses In High School Meet All Student Needs

With an enrollment of almost 1,300 students, Pampa High School provides a curriculum designed to meet the needs of both pre-college students and those who will go directly into vocational fields after graduation. Principal Cameron Marsh di-

**WILSON SCHOOL** — Pupils line up in the cafeteria at Woodrow Wilson Elementary School for a nourishing lunch.

**LAMAR SCHOOL** — First grade pupils at Lamar Elementary School begin their study of arithmetic in this classroom.

### Wilson Band Is First in Texas

Woodrow Wilson Elementary School, first named East Ward School, was opened on January 2, 1929, with an enrollment of 300 pupils. By action of the School Board on October 19, 1930, East Ward was renamed Woodrow Wilson. At the opening of East Ward there were ten rooms. By 1933 there were 20 rooms, and later a gym was added. **PARKS IS SIXTH PRINCIPAL** The first principal was Mr. Lewis. He was followed by Mrs. Anna Daniels, Frank Monroe, H. A. Yoder and Floyd Smith. The present principal is Bob Parks. In 1932 Woodrow Wilson had the distinction of having the first complete uniformed and

organized school band in Texas, directed by Winston Savage. Woodrow Wilson has a sound scholastic program, concentrating upon academic achievements rather than the extra-curricular. During the past two years there has been established a more organized program of physical fitness. **SPEECH THERAPIST ASSIGNED** This year a speech therapist was assigned to Woodrow Wilson once a week. This has greatly benefited those students with speech defects. At present Woodrow Wilson has an enrollment of 463 students, 19 full-time faculty members, and one part-time band instructor.

rects a school staff which consists of 63 classroom teachers, an assistant principal, a guidance counselor, a registrar, a librarian, a bookkeeper, a reading consultant, four secretaries, eight custodians, and seven cafeteria personnel. A part-time school nurse visits the school once a week.

Accelerated courses are offered in English, mathematics and science. Any student who completes eight semesters of accelerated courses with grades of 90 or above is a candidate for honors at graduation exercises. This entitles the student to wear the gold tassel and cord at commencement.

#### FIRST CLASS TO GRADUATE

The Class of 1942 was the first class to be graduated from the present-day Pampa High School. Construction on the main building, facing Harvester St., was started in the fall of 1940, and the first students moved in to the school in the fall of 1941.

A new fieldhouse for athletics and boys' physical education classes was opened in 1952. In the spring of 1959 construction started on a new wing of the main building, housing 14 classrooms, choir rooms and publications rooms. This part was occupied in November of that year. At the same time a new machine shop and vocational agriculture building was erected.

#### AUDITORIUM NOW INADEQUATE

The school auditorium, included when the original building was erected, is now inadequate to seat the entire student body, and assemblies are held in the fieldhouse.

The cafeteria, which operates on a non-profit basis to give students the most nourishing meals at the lowest possible cost, serves during two lunch periods to accommodate the students and teachers who eat there. In the school library, which

contains 7,000 volumes and current issues of 40 magazines as well as several daily newspapers, students seek material for research papers as well as check out books for reading and reports. All audio-visual materials, films, and film strips are handled through the assistant principal's office.

#### 20 CREDITS TO GRADUATE

Twenty credits are required for graduation, 16 of which must be in academic courses. Although only three years of English is required, a fourth year is highly recommended, especially for those students planning to go to college. Two units of mathematics is required to graduate, but most college-bound students take at least three.

Mathematics courses include Algebra I and II, plane geometry, solid geometry, trigonometry, elementary analysis, analytical geometry, related mathematics, and business arithmetic.

#### GOVERNMENT REQUIRED

In addition to American and World History, one semester of government is required for graduation. Elective courses in this department include sociology, economics, and Texas History. Three years each of Latin, Spanish and French are offered, while science courses include chemistry, biology, physics, and general science, two units of which are required for graduation unless a laboratory science was taken in the eighth grade.

Any one unit of band or choir taken in the tenth, eleventh, or twelfth grade may count as part of the basic academic units needed for graduation.

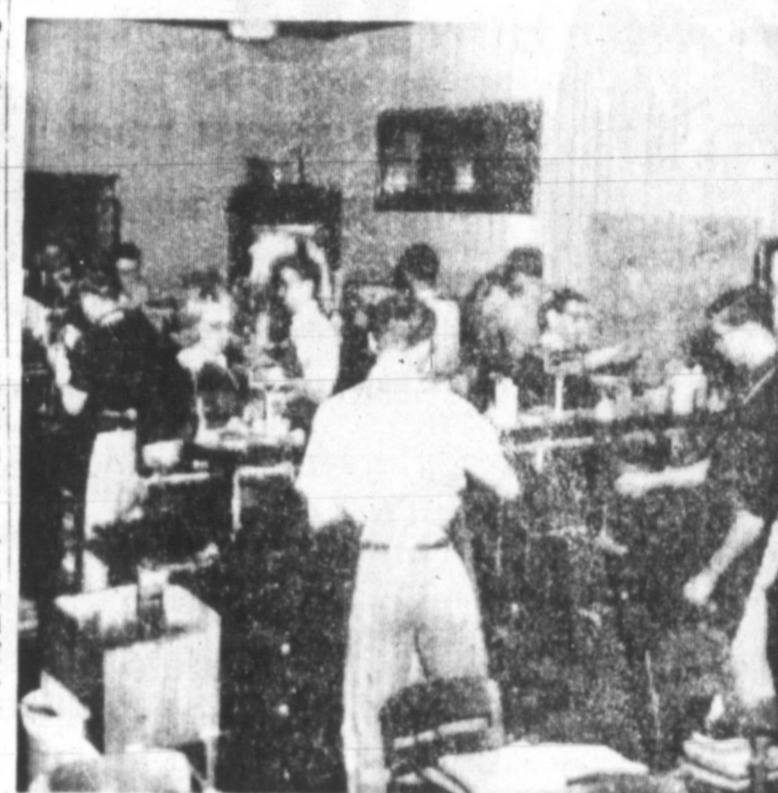

A one-semester course in health, as well as three semesters of physical education, is required for graduation.

**AUSTIN ELEMENTARY SCHOOL** — Using "numbers men" in their study of modern mathematics, above photo, this class at Stephen F. Austin Elementary School prepares for the more difficult courses they will face as they reach junior high and high school.

**SCIENCE FAIR** — Elementary school children crowd around several exhibits among the 250 projects on display in the girls' gymnasium at Pampa High School during the ninth annual Pampa Science Fair, with two high school boys providing the explanation.

**HIGH SCHOOL CHEMISTRY CLASS** — Students in an advanced chemistry class work to identify "unknowns" in chemistry laboratory at Pampa High School.

## Dream Comes True As Lee Doors Open

In the early summer of 1958, a dream of Pampa school and civic leaders came true in the completion of Robert E. Lee Junior High School at 2401 Charles Street.

The modern brick and glass building was constructed to adequately accommodate 800 students of grades 7, 8, and 9. Most year's student membership at Lee has been between 850 and 915. There are 45 full time teachers at Lee, plus the principal, Jack Nichols.

Endeavoring to meet the student's changing needs academically and prepare him for happy and useful community life, the faculty of Lee Junior High offers a program which will increase the knowledge of the student, foster aesthetic awareness, and develop skills in healthy mental and physical growth.

#### FACE EXPANDED CURRICULUM

Students entering Lee from various elementary schools encounter an expanded curriculum and an increased activity program. Emphasis is given to orientation for the seventh grade student who receives instruction from several teachers. The seventh and eighth grade students find exposures and challenges in modern math, language arts, social studies, physical education, art, and music.

In the ninth grade, the student has greater choice of electives, such as homemaking, shop, publications, speech, choir, band, art, and Latin. All ninth grade students take related math or algebra; English is also a required course in the ninth grade. General science and world history are offered.

By participating in student council, all junior high students gain experience in self-government.

#### EMPHASIS ON PATRIOTISM

Emphasis is given daily to development of desirable attitudes; patriotism and Americanism are an important part of the program at Lee.

The modern school plant has light, airy classrooms, wide corridors, a superior library, and a large cafeteria and auditorium that are available for community use.

In physical education, required except in the ninth grade, physical fitness tests are administered to all students at least twice a year. Good health and safety practices are stressed.

While boys in the ninth grade who enroll in such industrial art courses as general shop, woodcrafts, and power mechanics, girls who take homemaking learn to apply homemaking skills to wage-earning situations and opportunities for careers in the home economics field.

**TRAVIS SCHOOL** — In an art class at Travis Elementary School, pupils learn how to develop creative skills.

## Travis Named For Texas Hero

Named after the commander of the Alamo garrison, which was put to the sword March 6, 1836, William B. Travis Elementary School was founded in 1959.

Located at Primrose Lane and 23rd Street, Travis currently has an enrollment of 530 students with 21 members on the faculty. The school principal is Dan Johnson.

A health service is provided one day a week. A speech therapist and a special reading teacher are retained at the school.

Extra-curricular activities include band and the school choir. Students may also enter the National Spelling Bee and the Pampa Science Fair.

Handicapped somewhat by the lack of space, Travis has 18 classrooms and a gymnasium where school basketball games are played.

**R. E. LEE JUNIOR HIGH SCHOOL** — Many shelves of books which appeal to all reading tastes lure students to the library at Robert E. Lee Junior High School, left photo.

## 24 Will Compete Bus In Regional Fair 154

Seven high school, nine junior high, and eight elementary

### Austin Enrolls 300 First Year

Stephen F. Austin Elementary School was completed in the summer of 1957 with 500 students enrolled for the first year of operation in September, 1957.

Stephen F. Austin's 13 1/4-acre campus fronts North Duncan on the east from the 1900 to the 2000 block.

D. V. Biggers has been principal of Stephen F. Austin since its doors were opened. Mrs. Drace Henry has been school secretary for the past 5 years.

This year there are three sections on each grade level in Stephen F. Austin; thus all classrooms are occupied as home rooms. The Central Text Book Depository has to be used as a music room.

Outstanding bands and choruses are turned out in Stephen F. Austin each year. The students and directors meet from 8 to 9 p.m., taking only 15 minutes from the scheduled teaching day.

Present enrollment at Stephen F. Austin is 481 with 18 faculty members.

### Students Learn In Lamar School

When Lamar Elementary School swung open its doors in 1953, there were only 12 classrooms. More students set a need for more classrooms. Six new rooms were added in 1955.

Lamar's first principal was J. Aron Meek until 1959, when Joe Page was employed in the position.

Twenty-two teachers are employed at Lamar. Eighteen class teachers, band director, school nurse, and music teachers are employed at Lamar, teaching 432 students. An average of 350 students per day eat in the cafeteria.

Lamar students also have an opportunity to participate in the Gray County Spelling Bee, Lamar School Choir or band, and the Pampa Science Fair.

school projects will advance to the Regional Science Fair in Amarillo April 1-3. Only high school entries are eligible to compete in the National Science Fair.

Each year two regional student winners are chosen to take their projects to the national fair. Since Pampa Science Fair was started in 1958, Pampa has had 10 contestants winning national recognition.

### Business and Vocational Class Popular at PHS

For students desiring vocational training, courses are offered in metal trades, woodshop, leathercraft, and handicrafts. Other industrial arts courses include general and machine drafting, as well as architectural drafting.

Now in its second year, the distributive education program enables students to learn correct business procedures and practices while working part-time in local businesses.

Vocational agriculture courses enable boys interested in farming or ranching to prepare for jobs after graduation or for continuation of their education in college.

In homemaking courses girls study family relationships, home management, clothing, foods, housing, health and home care of the sick and injured, and child development.

Courses in general business, typing, bookkeeping, shorthand, business law, clerical practice, and salesmanship are offered in the business department.

Other elective academic courses include journalism, speech, drama, art, and music theory.

Pampa High School has a strong program of activities, including a weekly newspaper, yearbook, choirs, concert band, stage bands, speech activities and athletics.

An active Student Council provides leadership training and experience in student government, while 29 clubs serve as outlets for expressions of talent, leadership, and service for students of widely varied interests.

## 6,286 Students Enrolled In Eleven Pampa Schools

**SCHOOL BUSES** — Except during the worst blizzards, the school buses are on the job every school day to transport students to their classrooms and home again at the end of the day. This is one stop on the school bus routes.

### Concrete Buses Transport 154,772 In Year

A school system, no matter how fine, is no better than the poorest without students. Without a means of transporting students to and from schools, the school attendance charts would have no purpose. For more than 40 years school buses have helped to solve this problem in the Pampa area. Last year alone the school buses carried 154,772 passengers a total of 193,294 miles, according to Mr. Herold Baer, school bus superintendent. The buses use about 24,000 gallons of gasoline a year.

"On the regular runs, (those taking students to and from school), we transported 121,795 passengers 148,233 miles," said Mr. Baer. Besides the regular runs, the buses also take 26,688 students 7,442 miles on the local runs such as school picnics. Last year 6,389 students were transported 37,619 miles to trips outside of town for such things as conventions and games.

Sixteen buses are in constant use. Four extra buses are ready for use. A 1945 International, one of the extras, is the oldest bus. The newest is a 1966 International with a seating capacity of 66. The smallest bus seats 18. The buses leave the barn in a staggered system.

"We try to get all the buses to high school, our terminal, between 8:15 to 8:25," said Mr. Baer, who has served as superintendent for six years.

### Carver Begins Service in 1928

Beginning in 1928 with only a few students, W. T. Harris and other prominent Negro citizens established Carver School for Negro Children. It was a small start. There was only one teacher, Mrs. C. Castle, and classes were held in the First Baptist Church.

In 1929, Mrs. Castle was succeeded by Prof. L. A. Hayden of Waco, and a one-room stucco school building was provided. The school, still in its formative years, began to make real progress.

The school first came to be known as Carver High School in 1930, when John Turner was chosen as principal. Also, two additional teachers were hired — Mrs. J. W. Turner, wife of Professor Turner, and Mrs. Jerome, wife of a Baptist minister. During Mr. Turner's administration, a new school building with four classrooms was constructed and three new teachers were added to the staff.

In 1945, J. C. Randall, an undergraduate of Jarvis Christian College and graduate student of Atlanta University, became principal. He is still serving today.

Carver's high school department was incorporated into that of Pampa High School in September of 1963. The junior high school department was integrated in the fall of 1965.

The present enrollment of Carver Elementary School is 133 students in the first through sixth grades. The school is staffed by eight teachers.

**HIGH SCHOOL TYPING CLASS** — Accuracy first, then speed. This is what students in a typical class at Pampa High School learn as they progress through the various stages of time typing.

### Education Broadened At Junior High Level

Junior High School is termed a transition period between the elementary school and the high school level of education. It is in junior high that skills already learned on the lower level are improved and strengthened.

A broader program of studies is presented to the junior high school student, who, for the first time, is given a limited choice of elective subjects.

**UPPER GRADES DEPARTMENTALIZED** — At Pampa Junior High School, located on a block between Francis and Browning Streets in the downtown area, the seventh grade is semi-departmentalized while the eighth and ninth grades are completely departmentalized.

An eighth grade student is given a choice of three electives: art, choir, and band. On the ninth grade level, a student may, for the first time, take such vocational courses as shop, crafts, and home economics. Also offered to ninth grade students are Latin and Algebra I, but students of these courses are selected on the basis of teacher recommendations, tests and grades.

**ACTIVITIES PROVIDED** — Experiences through participation in activities are provided by annual, newspaper, Student Council, Latin Club, Future Homemakers of America, office work, library work, and athletics.

Some activities are termed "extra class," while others are offered but receive academic credit under the present student activity program. In crafts and art many areas are covered that might come under clubs of hobbies, such as leathercraft or jewelry design.

Radio, costume design, and stage craft are covered in Speech I. A variety of physical activities is offered both girls and boys. Opportunities for exploration and participation are available to all students on all levels.

**FIRST SCHOOL ERECTED** — In 1910 the school building, known as the Red Brick of Pampa Junior High, was completed. This building, which was razed in the summer of 1959, served as a grade school, junior high, and high school.

The center section of the present Pampa Junior High School was built in 1920 to take care of the increasing enrollment.

With a present enrollment of 681 pupils, the school has a faculty of 40 teachers directed by Paul Payne as principal.

**HORACE MANN SCHOOL** — This reading circle in a classroom at Horace Mann Elementary School is typical of those in all elementary schools.

At semester of this school year 6,286 students were enrolled in the 11 public schools of the Pampa Independent School District. Mr. L. J. Edmondson is superintendent of Pampa schools.

At the present time, 299 professional personnel teach in the public schools. Two of the teachers are speech therapists, and three are special education instructors.

"We have a very effective school system that teachers want to be a part of," Mr. Edmondson said. School reputations, scholastic standards, the curriculum, philosophy of the schools, salary schedule, community spirit, and fellow workers are some of the factors that attract teachers to Pampa.

### READING PROGRAM IS NEWEST

The latest program that has been added to the curriculum in nine schools is a reading improvement course. This course is designed to help students improve reading skills in all subjects. Ten teachers instruct in this program.

Reading improvement came about as the result of the Panhandle Educational Services Organization (PESO), which is a form of federal aid administered by the Texas Education Agency.

### 81 SCHOOLS INVOLVED

"PESO is a co-operative organization of 81 schools in the Texas Panhandle and Texas Plains," Mr. Edmondson explained. Headquarters are at West Texas State University in Canyon; and Pampa is headquarters for Unit 3, which includes Allison, Briscoe, Canadian, Kellon, Lela,

Shamrock, Wheeler and Pampa. Unit 3 offices are directed by Mr. Claude Zevely at Sam Houston Elementary School.

Pampa schools also receive federal aid through the school lunch program and the Vocational Agriculture and Vocational Homemaking Smith-Hughes Act of 1918.

The 1965-66 budget for the Pampa Independent School District is \$2,829,689.10. Current school tax rate is \$1.65 per \$100 value of property. The greater part, \$1.29, is used for school maintenance, and \$36 is for bonds and interest.

All school financial matters are

handled through the School Business Office, under the direction of Mr. Homer Craig.

### BOARD SETS POLICIES

School policies are set by the School Board. Members are H. Creel Grady, president; E. E. Shelhamer, vice president; John Gikas, secretary; Dr. Raymond M. Hampton and Joe E. Reid. The five-member board, elected by the general public, meets regularly the second Tuesday of each month.

"The School Board defines all policies under which the school district operates," Mr. Edmondson pointed out. "They adopt policies, rules, regulations and by-laws to meet the needs of the

schools and community and that comply with the state law. They are the appraisal body that evaluates the general public school program."

In addition to Mr. Edmondson and Mr. Craig, Mr. McHenry Lane, curriculum co-ordinator, and all school principals have administrative duties.

"We are here for the students," Mr. Edmondson said. "We try to meet the needs of ALL the students and the community."

He concluded by saying, "The staff is dedicated, and it is a pleasure to work in such a professional climate and to work in a community that is concerned and interested in its students."

### H. Mann School Opens In 1928

Horace Mann Elementary School opened with 11 classrooms in September, 1928, under the name of West Ward.

In 1951 six new classrooms, the offices, and the gym-auditorium combination were added to the building. The school now maintains a staff of 17 full-time classroom teachers, one full-time music teacher, a part-time band instructor, and a part-time speech therapist. The present enrollment is 420.

A committee was appointed in 1931 to choose a new name for the school. Horace Mann, famous American educator, was selected over the suggested names of Franklin and Washington.

Miss Josephine Thomas was the first of the school principals. She served until 1952, when the present principal, Sam A. Berger, took over her duties.

**BAKER SCHOOL** — Their curiosity whetted by the wonders of nature, these pupils are gaining another phase of education in this nature study class at Baker Elementary School.

**CARVER SCHOOL** — Taking a reading test to show their progress in one of the important fundamentals of the educational process are these pupils at Carver Elementary School.

### Sam Houston Expands Area

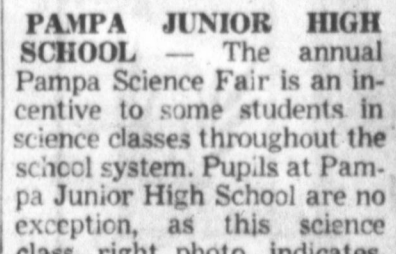

Sam Houston Elementary School, located at 900 N. Frost, has a student population of 345, with ample textbooks, educational aids, and office machines to maintain its educational program.

The school was originally constructed in 1929. The gymnasium, cafeteria, four more classrooms, and restrooms were added in 1943. The building now contains one gymnasium, 18 classrooms, a cafeteria, office, filer room, music room, and custodian's room.

L. C. Davis, who has been principal of Sam Houston for 10 years, heads a staff of 12 classroom teachers, two special education teachers, a reading specialist, a music teacher, and a band director.

The school nurse and speech therapist are on duty one day a week. The two school therapists for the Pampa school system and the reading consultant have offices in the east wing of the building. One office clerk, four cafeteria workers, and two custodians complete the staff.

**PAMPA JUNIOR HIGH SCHOOL** — The annual Pampa Science Fair is an incentive to some students in science classes throughout the school system. Pupils at Pampa Junior High School are no exception, as this science class, right photo, indicates.

Durning-Montgomery Vows Exchanged

Teitz Family Is Honored at Party

A farewell party honoring Mr. and Mrs. Kenneth Tietz and children, Teresa, Mike and Leslie, of Skellytown, was given recently in the Skellytown home of Mr. and Mrs. Ben Lick. The family is moving to Ft. Stockton soon. Hostesses for the event were Mmes. Lick, Bill Braden, Jack Lawson, Howard Franz and Lula Thompson. Those attending included Mrs. Mae Braden, Mrs. Lula Thompson, E. A. Teitz and son and Messrs. and Mmes. Howard Franz and son, Jack Lawson and family and Bill Braden and daughters, all of Borger; Mr. and Mrs. Junior Williams White Deer, B. C. Harris Electra; Miss Addie Fern L. of Pampa, and Messrs. and Mmes. Silas Paul, L. C. Harris, Gerald Reeves and Mrs. Clara Brown and Sue, all of Skellytown.

Mrs. Jerryl Montgomery, nee Becky Jean Durning

SKELLYTOWN (Spl.)—First Baptist Church of Skellytown was the scene for the February wedding uniting Miss Becky Jean Durning and Jerry Montgomery of Lefors.

The bride is the daughter of Mr. and Mrs. Buck Durning of Skellytown and the bridegroom is the son of Mr. and Mrs. J. E. Montgomery of Lefors. Rev. Murl Rogers, officiated the double-ring rites at 5 p.m. Mrs. John Biegle, provided

nuptial selections at the organ. Escorted to the altar and given in marriage by her uncle R. D. Marrison of Borger, the bride wore a white lace two-piece dress with a V neck line. Her only jewelry was a single strand of pearls. The bride's shoulder length tiered veil of illusion fell from a lace coil enhanced with seed pearls and crystals. She carried a cascading bouquet of pink cattleya orchids and white stephanotis.

Mrs. Tommy Clinton, sister of the bridegroom, matron of honor, was attired in a double knit yellow shift dress, wearing a corsage of white carnations.

Tommy Clinton served his brother-in-law as bestman and David Herd was an usher.

The bride chose a royal blue knit suit for departing on a wedding trip to Dallas. She lifted the orchids from her bridal bouquet. The newlyweds are at home at 413 N. Roberta St., Pampa.

Mrs. Montgomery is a junior at White Deer High School. Mr. Montgomery attended Lefors High School. He is presently employed by Champlain Service Station on N. Hobart in Pampa.

'How to Make Friends' Program Given For Xi Beta Chi Chapter by Member

Xi Beta Chi Chapter of Beta Sigma Phi held their regular meeting in the Hospitality Room of Citizens Bank, Mrs. Tom Beard, vice-president, presided in the absence of Mrs. Jay Leath, president.

Mrs. Beard brought before the chapter Walter W. Ross, founder and director of Beta Sigma Phi, request and desire for eligible women to form a preceptor chapter in Pampa. This chapter, if formed, would be a step-up on the road of learning for those desiring.

Mrs. Barney McMullan gave a report on plans for The Woman of the Year Tea which will be held April 17.

Explaining that ten business men would be invited to write a letter of recommendation concerning the woman of their choice.

Also, any member of the five chapters of Beta Sigma Phi are requested to turn their letters of

recommendation in to Mrs. Al Stroker, member of Rho Eta chapter, or Mrs. Barney McMullan, Xi Beta Chi Chapter, by March 7.

Mrs. Dot Francis gave a brief talk on "How To Make Friends."

She said in part, "Begin each day with friendly thoughts," and "The rule of life is 'To make a friend, be a friend'."

Members enjoyed participating in a "White Elephant" sale, auctioneer portrayed by Miss Norma Briden, ways and means chairman.

Refreshments served in the Shamrock motif by hostesses Mrs. John Plaster, and Mrs. Gerry Grayson to Mmes. Tom Beard, Stanly Chittenden, Ralph Esson, Joe Fischer, Jim Holcomb, Ray Jordan, George Massie, Barney McMullan, John Plaster, Jack Vaughn, Dot Francis, Gerry Grayson, Hazel Poole and Miss Norma Briden.

### 29 Convention Plans Are Discussed by Civic Culture Club

The Civic Culture Club met recently in the home of Mrs. Irvin Cole with the president, Mrs. George Neef, conducting the business meeting. The pledges to the U.S. and Texas flags were given. The program for the District Convention to be held March 24 and 25 was announced, and plans made for attending the meeting. It was announced that the next club meeting will be in the home of Mrs. Emmett Osborne on March 8.

Mrs. Frank Grantham introduced the program on "Profiles in Courage". Mrs. Carl Axelson read an interesting paper on the life of John Adams, prepared by Mrs. H. W. Waters.

Mrs. A. C. Houchin gave an informative talk on the life of Sam Houston, relating his early work with the Indians, then as governor of Tennessee and his emigration to Texas. She told of his heroic work in Texas in defeating Santa Ana at San Jacinto, his work as first president, and then his representation of her as governor and twice as senator.

Leftover starch solution kept in a sealed jar will keep indefinitely.

Those (Continued From Page 24) fullness of her talent, her wit, and her devotion.

"Life is for those who love." "Those Who Love" is a novel of affirmation, or "Yea Saying" to man's richest dreams and aspirations, his sometime failure and ultimate triumph. Mrs. Morrison said, "The story tells not only the depth of love and heroic sacrifice between a man and a woman, but the equally majestic love of men and women for the vision of freedom. It would take sheer genius to drive out of the British Empire the fanatically loyal Englishmen in the Colonies. The British Crown possessed that genius. An even greater genius was needed by the Americans to realize that they must sever their bonds with their Motherland, no mat-

ter how painful the process. The Franks, the Washingtons, the Jeffersons, and John Adams, called The Atlas of the Revolution, had that genius.

"Abigail and John Adams were at the core of this glorious crisis in man's fate."

Members present were Mes. Weldon Adair, Jim Campbell, Don Morrison, Tom Snow, Lee Fraser, James Galemore, Bill Atkinson, Jim Brown, Kenneth Royle, Buddy Cockrell, Buddy Price Jr., John Spearman, Harold Cox, Bob Rogers, Ralph McKinney, Marvin Jones and Doug Mills Jr.

### Dear Abby... Art Teacher Says All Cherubs Are Boys

DEAR ABBY: We are stumped. Can you help clear something up? Recently a teacher told our class that all cherubs are boys, and that no artist has ever portrayed a "girl" cherub. Since we can't find proof to the contrary, we can't say that he is wrong, but we think he is anyway. Please help us.

GIRL CHERUBS, ANYONE? DEAR GIRL: According to Webster's New International Unabridged Dictionary, a "cherub" (as depicted in art) is described as a chubby, angelic-looking child, generally winged. There is no mention of the child's sex. So tell your teacher that since he made the statement, the burden of proof is on him. And I am waiting with the rest of the world for proof that all cherubs are male.

DEAR ABBY: Over the years I have often wanted to give you a piece of my mind about your old-fashioned attitude towards sex and teenagers. However I now know that you were right and I only wish I had listened to you.

A year ago, while still in high school, I started dating a girl two years younger than I. We fell head over heels in love. Our parents were friends and were overjoyed. They gave us complete freedom. When I would go to her house, her folks would go to bed early so we could be alone. At first we just cuddled on the couch and watched TV. It was wonderful. We were together, alone, sometimes as often as six nights a week. We started necking a little, and then all the time I started getting a little fresh, and she resisted, but she finally gave in from fear of losing me. Anyway, one thing led to another, and before we knew it, we had gone too far. We started feeling guilty about what we were doing, but we consoled ourselves that we were "in love," that as soon as she was out of school we'd be married so what difference did it make?

One night we had a terrible argument, and although it had nothing to do with sex, I know it would never have happened if we had behaved ourselves. Anyway, she hit me and I hit her back. I have never forgiven myself for that and I don't believe I ever will. She went running home, and told her mother everything that had happened between us. You can imagine what happened after that.

I was going to college at the time. I couldn't keep my mind on my studies, I just wanted to lie down and die. Finally, I knew I was flunking out, so I quit college and joined the navy. I saw her on the street just once before I left for basic training. She cried and told me she still felt the same about me and was sorry for what she had done, but it was too late then. Her parents have refused to let her see me.

Four months ago I was in college and I had the girl I loved. We had our whole lives mapped out. Now I am on an island in the Pacific, thousands of miles from home. I'd give anything in the world if my girl had stuck by her guns and I hadn't been so persistent. Any girl who thinks she has to put out to keep a guy is crazy. I would have stayed with her if she'd only have let me hold her hand. But I guess I was like every other boy. Selfish. I am sorry now, and would give anything for a second chance, but I'll never get it. I love that girl with all my heart and I will love

Mrs. Meadows Speaks To Home Makers Club SKELLYTOWN (Spl) — The Home Makers Club met Tuesday afternoon in the home of Mrs. Clarence Hoskins.

The meeting was opened by all present repeating the "Lord's Prayer" in unison.

Roll call was answered by each member telling of the household task they most dislike.

Game prizes were won by Mrs. Jack Houston and Mrs. E. W. Meadows.

Mrs. Meadows gave a demonstration on antiques flowers. Next club meeting will be Mar. 15 in the home of Mrs. John Simmons, north of Skellytown.

Refreshments were served to one guest, Mrs. W. E. Meadows, and members, Mes. John Simmons, Floyd McCoy, Jack Houston, Miles Pearson, W. S. Berry and E. E. Crawford.

Read The News Classified Ads

her for the rest of my life. Please keep telling teens and parents what you have in the past. Parents don't know what can happen when they push their kids into being adults. And kids don't realize they are playing with dynamite when they experiment with sex. You may use all of this letter, or any part of it, Abby, to help get the point across to young people. It is something that can't be stressed too strongly because the stakes are so high. Just sign me... A SORRY SAILOR.

CONFIDENTIAL TO "SICK OF INFLATION" IN GREAT NECK: It's true, a dollar won't do as much for you these days, which sort of evens things out, because people won't do as much for a dollar either.

Troubled? Write to Abby, Box 69700, Los Angeles, Calif. For a personal reply, inclose a stamped, self-addressed envelope.

### Engagements Announced

**RIVERS-GILBERT**  
Mr. and Mrs. Horace Rivers of Canadian are announcing the engagement and approaching marriage of their daughter, Mary Annetta, to Ronald Eugene Gilbert, son of Mr. and Mrs. Fred Ferguson of Pampa, and grandson of Mr. and Mrs. E. M. Gilbert of Canadian.

The wedding date has been set for April 22 and the vows will be exchanged at 7:30 in the First Methodist Church of Canadian.

**GARCIA-GRESHAM**  
Mr. and Mrs. J. R. Garcia of Canadian are announcing the engagement and approaching marriage of their granddaughter, Miss Mary Garcia of Canadian, to Dwayne Gresham of Hereford, son of Mr. and Mrs. Bill Gresham of Hereford.

The marriage ceremony will be performed at 5:30 o'clock on the evening of March 12, in the Sacred Heart Church of Canadian with the pastor, Father Antonio Catalina, officiating.

Try dipping batter from bowl to muffin tin with a one-fourth cup measure. It holds just enough batter for muffins or cupcakes to fill the muffin tin two-thirds full.

**ABBOTT-BECK** — Mr. and Mrs. J. R. Abbott of 441 Graham announce the engagement and approaching marriage of their daughter, Barbara Jean Abbott, to A. C. Gerald David Beck of Ford U.S. Air Force Base, Topeka, Kan., son of Mr. and Mrs. Sid Beck Jr. of Spearman. Vows will be exchanged May 7 in Mary Ellen and Harvest Church of Christ. The bride-elect, a 1963 graduate of Pampa High School, is employed by Marie Foundations. Airman Beck is a 1959 graduate of Spearman High School.

### Bob Price Speaks on 'Citizenship' At Top O' Texas 4-H Club General Meet

The Top O' Texas 4-H Club held a general meeting recently at the recreation room of the County Barns. The president, Phyllis Atwood, presided and Cathy Wilkie, secretary, called the roll and read the minutes.

New members welcomed to the club were Marilyn Gibbon and Theresa Sailor.

Jim Reeves, club vice-president, introduced the guest speaker, Bob Price, local businessman and rancher, who gave the program on "Citizenship". He said "The citizens of a country guide the nation, that the Bill of Rights is for citizens and aliens. Each of us has civic and political rights and civic and political duties. A 4-H club work program teaches responsibility, initiative, and individualism, and that it is the duty of the adults to teach them. Four-H Club people are the foundation for tomorrow."

Terry Arnold, J. T. Winters and Cynthia Hogsett gave beef cattle reports. Monty Brogdon said the rifle groups were meeting on Monday and Tuesday nights with Mr. Leo Scott as coach and Danny Hogsett as assistant coach.

Judy Cox said she is meeting with three girls as their Junior Leader in Foods I.

Winona Chisum said she was working as Junior Leader with four members in Foods I and four other members in Money Management I.

Cynthia Hogsett reported for Junior girls in Foods II, and girls in Clothing III.

Miss Atwood said that eight girls were taking landscape plant identification under Mrs. Derral Hogsett. Last week they took a test over 45 plants.

Miss Hogsett said that she and

Danny Hogsett had completed their beef cattle project, sold the cattle and made a profit.

The Horse and Pony report was given by Guy Turner who said that they were learning how to groom a horse.

Cathy Wilkie reported that the junior leaders, Phyllis Atwood, Winona Chisum, Judy Cox, Cynthia Hogsett, and herself, are presently taking the course, Household Equipment, under the direction of Mrs. Mildred Prince at Southwestern Public Service Company.

Following the reports, refreshments were served by the refreshment chairman, Judy Cox. Members present were Teddy Atwood, Larry Arnold, Regina Atwood, J. T. Winters, Jim Reeves, Guy Turner, Stanford Friend, Brenda Winters, Suzan Hunt, Judy Cox, Marilyn Gibbin, Theresa Ann Sailor, Marilyn Sailor, Cara Thomas, Christie Whaley, Rhonda Estes, Rhonda Thacker, Monte Brogdon, Matt Mills, Bill Skaggs, Alan Tidwell, Cara Tidwell, Ted Reeves, Vanessa Chisum, Lisa Friend, Frankie Mitchell, Laura Mitchell, Marcella Brooks, Karen McGahan, Burton Turner, Jim Bob Sailor, Cynthia Hogsett, Phyllis Atwood and Cathy Wilkie.

**MADDOX-ALEXANDER** — The engagement and approaching marriage of Miss Gloria Jean Maddox and James Edgar Alexander, both of Henderson, is announced by Mr. and Mrs. Oscar McNeil Maddox of Henderson, parents of the bride-elect. Mr. Alexander is the son of Mr. and Mrs. James A. Alexander of 514 N. Russell. The wedding will be solemnized in Henderson on April 2, Miss Maddox, a graduate of Henderson High School, attended Harding College, Searcy, Ark. She is now employed by Southwestern Bell Telephone Co. in Longview. The prospective bridegroom, a 1961 graduate of Pampa High School, is em-

played by M. E. Moses Co. in Henderson as a manager trainee.

### Forecast

(Continued From Page 24)

for some relatively unimportant recreation, which would be most unwise. Keep steady. A cheerful attitude and a pat on the back will work wonders with others.

**GEMINI** (May 21 to June 21) You are feeling disappointed and could take risks into both business and home matters, so be on the alert and avoid them. Put yourself off whatever has been detrimental. Replace with the progressive.

**MOON CHILDREN** (June 22 to July 21) Caution must be used while out shopping so that you do not lose any money or lose temper with a salesperson, etc.—Data is not easy to glean today. Others are apt to be rather annoying.

**LEO** (July 22 to Aug. 21) You waver between being overly generous and later almost penurious, so be sure early to make up your mind what you want to do. This is especially true in business. Grave errors could be made otherwise.

**LIBRA** (Sept. 23 to Oct. 22) While all those tasks before you are hardly inspiring, it is necessary you get them behind

you quickly. Put aside anything recreational. Be gracious with one who is in deep trouble — be understanding.

**SCORPIO** (Oct. 23 to Nov. 21) Pains in the neck today, but be gentle or matters will get worse. Small social matters can be handled by applying yourself quickly. Show gratitude to pals.

**SAGITTARIUS** (Nov. 22 to Dec. 21) You must be careful not to act in a somewhat unorthodox fashion that will not make a good impression on others. Your intentions may be harmless, but they may be puzzled. See that credit is good.

**CAPRICORN** (Dec. 22 to Jan. 20) Getting certain odds and ends of business finished. At least before you get out of town. Be sure to plan time for study first. Then you can glance into new interests with ease.

**AQUARIUS** (Jan. 21 to Feb. 18) Newer system are necessary if you are to keep the promises you have made, and double-checking is necessary also. Stop being jealous of others. This is especially true where male is concerned.

**PISCES** (Feb. 19 to Mar. 20) Try not to light into some partner who is not operating as you wish — a little time will reveal true aims. Argument could result in a very serious fight. Avoid at all cost — keep busy at own work.

### Deadlines For Sunday Editions

Deadline schedule for submitting articles to appear in the Women's Section of a Sunday edition of the Pampa Daily News follow:

**Wedding Announcements** — 12 noon Monday, at least one week before the wedding is solemnized. Forms are available at the Society desk.

**Engagement Announcements** — 12 noon Monday. Announcements accompanied with pictures are to be submitted at least six weeks prior to the wedding date and announcements without pictures submitted four weeks prior to wedding date. Forms are available at the Women's Dept.

**25 and 50 - year Anniversary Announcements** — 12 noon Monday.

**Club Reports, Birthday Parties, Recitals and other articles** — One day after the event occurs. Must be submitted not later than Thursday noon to appear in Sunday's edition.

If the above deadlines are observed every effort will be made to publish articles designated for Sunday on that day. However space limitations may not always permit the publishing of all club reports, birthday parties, recitals and other such stories in a Sunday edition.

### Birthday Marked By Jerry Mackie

Jerry Don Mackie celebrated his tenth birthday with a party given by his parents, Mr. and Mrs. Joe Edd Mackie, 1401 S. Barnes.

Children attending rode the school bus home with Jerry. Those attending were Karen Tarpley, Coye Sue Frazier, Sherla Bryan, Cherie Walling, David Rodgers, James Hoskins, Paul Killiams, Angela Appleton, Jimmy Best, David, Rusty, Darrel and Danny Kitchens, Dusty Morrison, Tony and Teresa Stafford cousins, and his sisters Brenda and Tina.

Also attending were Mrs. Dorothy Stafford, Mr. and Mrs. B. J. Smith and Mrs. Gladys Holder.

**EVER STRIVING FOR THE TOP O' TEXAS  
TO BE AN EVEN BETTER PLACE TO LIVE**

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

**SUNDAY MORNING GRIST**

**From the Editorial Mill**

PAMPA HAS a lot going this week. Following yesterday's Lions Club - sponsored Gray County junior livestock show comes the big one that's getting under way today—The Top O' Texas Stock Show.

Today is weighing in and sifting day in the livestock pens at Recreation Park and tomorrow the juniors go into action with their fat calves and swine. Judging in both divisions is scheduled Monday.

At 6:30 p.m. Monday the Top O' Texas Rodeo Association will host the junior exhibitors at a barbecue in the Park show barn. On Tuesday comes the junior livestock judging contest, judging of the Hereford breeding cattle, a 5 p.m. livestock judging banquet in the Pampa senior high school cafeteria and the Hereford Breeder's banquet at 7:30 p.m. in Coronado Inn.

On Wednesday the stock show's climax will come with the junior livestock sale in the morning and the Hereford Breeder's sale in the afternoon.

**THIS ALSO** is Education Week in Texas. That's the one week of the year when the public schools show their stuff to parents and taxpayers. It started in Pampa Friday when downtown Kiwanians visited Travis elementary school. Other civic clubs will meet at schools for their weekly luncheons through Thursday.

Tomorrow a special Education Week program has been arranged for the March membership luncheon of the Chamber of Commerce in Coronado Inn.

Saturday night Pampa's fine A Cappella Choir will present a concert in Robert E. Lee Junior High auditorium. It will be their dress rehearsal for the appearance the 66-member choir will make the following Wednesday morning at the national convention of the American Choral Directors Association in Kansas City, Mo.

Of course, Tuesday is bond election day and on Friday and Saturday nights the Lions Club stages its annual minstrel show in Pampa Junior High auditorium. All in all, a big week for Pampa.

SHOULD HIS name have been permitted to go on the ballot or

**THE GUEST PEN:**

**LBJ Sends in 'First Team'**

By D. R. SEGAL  
Editor, Brownsville Herald

My friend from the Pedernales is feeling some better. He's groucher than an old bear, according to my colleagues who get invited to the ranch, but there are signs he's coming along pretty good.

Leas'wise, he's still miles smarter than the fellows he runs with. Lyndon B. is not one to let happen-so's and coincidence rule his life. And so, I asked some of his buddies how come he'd been sending the first team all over the world like he had an airline credit card that was going to expire on the first of the year?

Gabby Humphrey was sent off to the Philippines. Well, that's a loss when that one leaves the country. Honest Ave turns up in Poland. And Art Goldberg, of all people, shows up on the Pope's doorstep.

In the Good Old Days... It used to be that whenever there was a delicate international mission to be accomplished—such as alienating an ally or choosing the wrong side in a civil war—old Soapy Williams would suit-up and go over, (like sent Dick Nixon out to sass Khrushchev once, but Dick was not what you'd call a bona fide card-carrying Secret Agent.)

No, there is more to this than meets the eye. There is some reason why our sagebrush Machiavelli sent all those fellows

out of town at the same time. When Our Leader sends a dear friend and trusted advisor out of the country, he's just liable to come back and find his office furniture's been moved out.

Diplomacy is a tough racket, even when you've got guys like Ave and Gabby up front. We sort of expected Charles DeGaulle to fire off a sharp note to the White House when Chef Rene Viridon got the shoe in favor of a lady from Texas. (It's great to be from Texas these days, I can just tell you.)

But, apparently le grande Charles was otherwise occupied and nothing came of it.

But if he thinks it over and decides to get sore about it, who are we going to send to Paris? The First Team's busy already. Maybe Lady Bird? Say, wouldn't that take the rag out of Charlie's bush! Lady B would come back with the French Broadcasting Company and Charlie's pants. It might be a good way to get even with those Frenchies for the way they've been taking American tourists all these years.

A thought for the day—German author Thomas Kempis said: "Be not angry that you cannot make others as you wish them to be, since you cannot make yourself as you wish to be."

**In Prison**

By RAY CROMLEY  
Washington Correspondent

WASHINGTON (NEA)—Opportunities are where you find them—if you have determination.

This was brought home to me the other day.

A taxi driver who picked me up at the Pentagon turned out to be only a part-time operator. He drives a taxi on Thursdays and Fridays, works at his prison job the other five days each week.

He likes his work at the prison. "There are the guys who come in dumb and go out dumb," he said. "They never learn anything."

"But then there are the others. "There was one man..." he said.

Then he told me about a convict he had known—a man sentenced for murder—who was in prison for 18 years before he was released.

"The man was a bum when he came to prison. He had a hot temper he couldn't control. He couldn't read. He was a nothing."

"But in prison he began with a primer. He gradually studied his way through the school grades. He took correspondence courses."

"Finally, he earned his high school certificate."

"He didn't stop there. Though still in prison, he enrolled at a nearby university—in engineering."

"For years more, this man worked at university correspondence courses. It was a long chunk of his life. But by the time he's 18 years in prison were up, he had won a college degree."

"Now he's out. He's a professional engineer. He has a good job and works hard. I keep track of him."

"He'll never be back in prison," said the taxi driver-corrections officer.

"You like to help a man like that?"

There's more of an effort in many prisons these days to help men fit themselves for a job while they serve their sentences.

Some states have experimented with letting some convicted men work at regular outside jobs with private companies in the daytime, sleep in the prison at night. Part of the money they earn goes to pay the state for their keep, part to their families. Part is put aside as a nest egg to help them get going after their terms have been served.

Some school systems and universities have gone out of their way to make it possible for prisoners to improve their education.

Officials of one state who have tried these ideas say their figures show they have reduced crime and cut the costs of prison operation.

ROBERT ALLEN

**Backstage Washington**  
More Controversial Foreign Policy Statements Expected From Sen. Robert Kennedy: on Africa, Latin America

PAUL SCOTT

WASHINGTON (NEA)—Senator Robert Kennedy, D.N.Y., is getting set to give vent to what may turn out to be more foreign policy differences with the Johnson administration.

Latin America and Africa are to be the new targets.

Major speeches on the two crisis-troubled continents are in process of being assembled by Kennedy and a number of advisers—some of them not members of his official staff. Such outside assistance was importantly influential in the preparation of his controversial Viet Nam address.

Staff aides of Kennedy are indicating his Latin American and African pronouncements will be as politically explosive as his advocating that the Viet Cong be given a "share of power and responsibility" in the Saigon government.

It is also intimated that to dramatize his African views, Kennedy may expound them in one of the speeches he is slated to make at the Universities of Alabama and Mississippi. He has been invited to address student groups at both institutions later this month.

According to Senate colleagues, Kennedy is considering making a statement designed to promote the candidacy of Juan Bosch, one-time Dominican president who is again seeking that office in the June election.

Reportedly, Bosch would be acclaimed as "one of the progressive leaders of Latin America."

The Johnson administration is keeping strict hands-off the Dominican election. The President has personally directed U.S. diplomatic and military authorities to take no part in the contest other than to ensure a free and democratic ballot.

Senator Margaret Chase Smith, Me., a ranking Republican member of the Armed Services Committee, has confirmed that this policy is in effect.

Following a recent first-hand study of the Dominican situation, Mrs. Smith reported to the committee, "U.S. policy is merely to hold on until the election takes place. The U.S. does not have a candidate. We are not supporting or opposing anyone."

**THE GREEN LIGHT**—Senator Kennedy's aides claim he has discussed his contemplated Latin American and African speeches with high-placed State Department officials— foremost among them Ambassador Averell Harriman.

Harriman, one-time governor of New York, served as assistant secretary for Far Eastern affairs and undersecretary for political affairs under President Kennedy.

As related by Kennedy's aides, the State Department authorities he consulted encouraged him to voice his views. While not fully agreeing with him, they saw no reason why he shouldn't speak out.

A leading theme in the Latin American speech under preparation is understood to call for the U.S. to support only "progressive leaders." Kennedy also will advocate massive economic aid for the "progressive" regimes in Chile and Peru, and urge helping them to work out arrangements to take over large U.S. business interests.

Kennedy's contemplated African speech reportedly will urge that the U.S. support economic sanctions against South Africa if voted by the United Nations.

President Johnson has taken no stand on this. Treasury and Commerce Department authorities have warned that sanctions against the South African apartheid regime could seriously affect the free world's gold supply. Last year the bulk of free world gold production came from South Africa—more than \$1 billion.

Among Democratic politicians, Senator Kennedy's increasing militancy on foreign policy is viewed as motivated by two objectives:

(1) To further his stature and influence as a "national" leader; (2) to attract the personal enthusiasm and support of "young people," who already constitute around one-half of the country's population.

Kennedy envisions himself as the spokesman and champion, and apparently is bent on drawing a sharp line of demarcation between himself, the President and particularly Vice President Humphrey—Kennedy's foreseeable rival in 1972, if not before then.

**CAPITOL EYE:  
Viet Policy Is Splitting Democrats**

By BRUCE BLOSSAT  
Washington Correspondent

WASHINGTON (NEA)—The Democratic party in 1966 seems to be moving steadily toward the kind of bone-shaking split which visited disaster upon the Republicans in their 1964 Gold-water phase.

The issue this time is not ideology. In the specific, it is boiling opposition in Congress and beyond to President Johnson's Viet Nam policy. In the broad, it is protest against the whole bent of American foreign policy since World War II—and possibly much earlier.

The developing rift may prove truly historic, the worst within the Democratic fold since the party gained major national ascendancy with the election of Franklin D. Roosevelt in 1932.

The events of every passing day suggest that the lines are hardening, that the openly warring factions are quickly approaching an irreconcilability which may be impossible to disguise in the 1966 election, and may be felt even more sharply in presidential 1968.

The rallying of numerous Johnson critics around New York's Sen. Robert Kennedy after his outspoken call for a Viet Nam government to include the Red Viet Cong has given the opposition keener focus and new energies.

The intra-party turbulence, coming on top of the political difficulties imposed by the mere existence of the war, lifts still higher the already buoyant 1966 hopes of Republican professionals. Says one: "I wish the elections were next week instead of in November."

Nearly a score of Democratic senators, including some of the most prominent and most vocal, are in avowed conflict—in one degree or another—with Lyndon Johnson. Reports have it that perhaps a dozen or so more quietly disapprove his Viet Nam course.

Probably upwards of 100 Democratic congressmen out of 293 join their senatorial colleagues in the opposition camp.

High Democratic party men have been worried for weeks about the potential political damage of the war as a mere fact of life. The growing chasm between the President and his adversaries on Viet Nam could add immeasurably to their burdens.

While all the President's

Editor:  
It is regrettable that all the taxpayers can't take the time

**The Doctor Says:**

By DR. WAYNE BRANDSTADT  
Common Hearing Block Can Be Eased by Surgery

The commonest cause of hearing loss in young and middle-aged adults is otosclerosis, a stiffening of the connection between the stapes and the other small bones in the inner ear. Hearing loss occurs when this stiffness reduces the ability of the stapes to vibrate normally.

Hearing depends on the transmission of vibrations to the auditory nerve. This hereditary disease usually starts between the ages of 18 and 40. It is more common in women than in men and is slowly progressive.

The victim hears better in noisy surroundings because the background noise sets up coarse vibrations and also forces people to talk louder than they otherwise would. Because in otosclerosis sounds are heard more plainly by bone conduction than by air conduction, the victim has less difficulty hearing over a telephone than when talking to a person in the same room.

Since the person with otosclerosis hears his own voice via bone conduction, he thinks he is speaking louder than he is and is likely to drop his voice to a low pitch.

The sound of his own chewing, also transmitted by bone conduction, can be very distracting to him and makes it hard for him to hear what others are saying while he is eating. The victim may also be troubled by ringing in the ears.

Although there are other causes of hearing loss, the person who can hear a tuning fork better when the base is held against the back of his head than when the blades are held near his ear probably has otosclerosis, especially if there is no past history of ear infections and the doctor finds a normal eardrum.

Nearly all persons with otosclerosis can be helped by surgery. In the operation now preferred by most surgeons, the stapes is removed and replaced with a stainless steel wire or a small piece of polyethylene, a nonirritating plastic that is well tolerated by the adjacent tissues.

Although the results are usually better if the operation is performed early in the course of the disease, age is no barrier to this procedure. The patient can usually go home on the day following the operation, but how lasting the improvement in hearing will be cannot be judged until about three months later.

or are apathetic to the problems facing our city, particularly our water problems. Further taxation and squandering of taxpayers' money is not the answer.

Former Commissioner Fort has spent too many hours doing his home work and studying the problem for the City Commission or any of their appointed committees to engage him in a discussion of this subject. Some of the statements made by the committee supporting the water issue are to the extent of being ridiculous. It is therefore not surprising that the committee would say "no thank you" to an open discussion and brush the subject under the rug.

E. C. Sidwell

BY H. L. HUNT

**VICTORY—A FORGOTTEN SUBJECT**

There is not a day passes during which the citizens of the United States are not reminded in some way of the war in Viet Nam and of the attempts being made for a settlement or compromise. President Johnson and Vice President Humphrey have both been away from their Executive posts in Washington trying to reach just such an agreement.

One of the strangest paradoxes in pursuit of these settlements and compromises is the complete omission of the word "victory" from the vocabulary of the leaders attending these conferences. There is talk of withdrawal, compromise, stalemate, but at no time has victory been the subject of discussion.

We should be not only fighting the war to win it, but to show the nations of the world that the Freedom and Liberty of Republics can and will triumph over the tyranny and totalitarianism of communism.

The communists, whether wearing the label of Castro, Moscow or Peking have the same objective: world domination, world control, world communism. Total enslavement of all the people of the world is the victory communism seeks. If such a victory is allowed, the struggles and aspirations of our forefathers will have been for naught.

We must win victory over communism not only in Viet Nam, but throughout the world. We must put away such words as compromise, stalemate, settlement; victory is the keyword. A victory is necessary to defeat the onslaught of communism in the world today. Let the words of our delegates ring with overtures of victory; victory not only in Viet Nam, but throughout the world where communism controls or threatens to stifle Freedom.

**The Almanac**

By United Press International  
Today is Sunday, March 6, the 65th day of 1966 with 300 to follow.

The moon is in its full phase. The morning star is Venus. The evening stars are Jupiter and Mercury. Italian painter and sculptor Michelangelo was born on this day in 1475.

On this day in history: In 1835, Santa Anna's Mexican army overwhelmed a tiny band of Texans in the Alamo to end a 13-day siege.

**fact**

The rattlesnake is classed as an American pit viper. The "pit" of these snakes is a deep depression on each side of the snout between the eye and the nostril. Largest and most dangerous of the species is the eastern diamondback which is confined in the southeastern U.S. and often reaches a length of eight feet.

**Hatton Still Puzzled Over White Sox Denial**

Army 44-20 back in 1938. Only gone on to take the NCAA All-Stars 13-0 in 1939 in the night before, Duke had run championship. UCLA beat first pro-bowl game.

# Hollywood Report

By VERNON SCOTT  
UPI Hollywood Correspondent

HOLLYWOOD (UPI)—Dodge pitcher Sandy Koufax and Don Drysdale might well study Lucille Ball's holdout techniques when it comes to signing new contracts.

Every winter for the past several years the zany redhead has announced she is quitting her weekly television series.

But at the start of every new season Lucy is on the tube with a new and generous contract. But then she has some things going for her that Koufax and Drysdale don't.

When Lucy chooses to turn on the charm there are few men alive who can resist. The Dodge pitcher, on the other hand, leave Walter O'Malley cold in the charm department. Moreover, the boys don't play to as many customers all season as Lucy does in a single show.

**Different Demands**  
Last month Lucy announced she was quitting. But her motives were vastly different from the Dodge stars who wanted a million dollars.

Lucy's already got a million. "If it weren't for the option date in my contract, when I have to file my intentions, I'd probably never announce I was leaving the air," Lucy explained.

"The option time always comes up when I'm dead tired and in the middle of the season. Once Lucy opts for out, the network chieftains (CBS) and sponsors hold a pow-wow. There is much rending of hair, weeping, agonized soul-searching and table pounding. Then they come to Lucy with a new deal, all smiles and promises.

Lucy, naturally, capitulates. "I don't know why I decide to return all the time," she grinned. "It must be the network's persuasive ways."

It has been suggested that Lucy could do a great deal indeed for her stockholders by making a package deal with her weekly television series.

**TOP-PINUP?** — Ann-Margret is being touted as the Vietnamese conflict successor to the pinup queens of the past—Betty Grable and Rita Hayworth of World War II and Marilyn Monroe of the Korean war. Likely to support the claim is this picture, to be distributed at the request of 23,000 members of the 1st Infantry Division during the actress' 15-day tour of Viet Nam starting March 8.

# Will Success Rock Dick?

By DICK KLEINER  
Hollywood Correspondent  
Newspaper Enterprise Assn.  
**FOOTLOOSE AND FANCY FREEWAY**

The premiere of "The Oscar" was a boy-meets-gala night. Everybody was there, at the Egyptian Theater, to see Joe Levine's new one, with Stephen Boyd, Elke Sommer, Tony Bennett, Milton Berle, Eleanor Parker, Jill St. John, Ernest Borgnine, Edie Adams and me.

Well, I don't say anything, but I'm in the picture, in a press conference scene. And it was fun to get a brief glimpse of how the

other half basks in the limelight.

Photographer Joseph Ruttenberg started it in the lobby, by saying, "I took care of you—you look great."

And then, as the lights came up again after the movie, Ed Begley turned around and said, "I saw you, you actor, you." Outside, Jonathan Winters grabbed my arm and said, "Dick, you were just—!" and he made some kind of complimentary noise. Michael Connors just shook hands, humbly.

SUNDAY, MARCH 6, 1966

# Television in Review

By RICK DU BROW  
United Press International

HOLLYWOOD (UPI)—Wednesday's decision by the California Supreme Court to declare unconstitutional a voter ban on pay-television was totally predictable, according to many legal observers—and important in a national sense.

For what the decision affirmed in essence, according to these observers, was that even in these bureaucratic times there is belief and significance in the American tradition of free enterprise, and that a legitimate company therefore should be protected from being directly voted out of business.

The matter of free speech was also brought up in the case and in the decision, but there is no question that what concerned opponents of the voter ban most of all was the issue of free enterprise—and the wanted assurance that an endeavor supported by a minority has the same rights as one backed up by a majority.

The fact that the pay-television operation in question, Subscription Television Inc., had not done really well in attracting as many customers as hoped for in its brief existence in Los Angeles and San Francisco was beside the point, according to the legal observers. The point here, of course, is that failure is no offense, merely a normal hazard—and right-of-free enterprise.

In fact, if the worried theater owners of California had not fought so fiercely in public—with shameless scare advertising—and had therefore not made a martyr of pay-television and STV, it is entirely possible that the experiment would just have failed of its own accord. There would have been, possibly, no big issue, no court case, no ironic decision against the theater owners who forced the matter—merely a business that couldn't make a go of it, perhaps.

From a practical, immediate point of view, however, pay-television, as represented by the STV operation, does not seem to offer much hope for a large-scale success unless many changes are implemented. The chief need for a pay-television arrangement that expects to be prominent, it is widely believed, is for such a business to have a national setup, rather than merely a local one—even if the local one happens to be in a large city like Los Angeles or San Francisco.

# TV PROGRAMS FOR THE WEEK ENDING MARCH 12

THE NEWS IS NOT RESPONSIBLE FOR CHANGES FROM THE PUBLISHED SCHEDULES AS SUPPLIED IN ADVANCE BY THE TV STUDIOS
