**CHICKEN-IN-THE-ROUGH** — Ray Duncan, right, was winner of the "chicken dinner" door prize presented at the UF Breakfast this morning by Salvation Army Captain R. J. Tritton. Duncan, however, had no takers to his invitation "to come to dinner" after guests saw the star of the menu, an ancient rooster, devoid of neck feathers and too weak to stand in his coop.

## OFF TO STRONG START

# Fund Workers Rise and Shine

By DORIS E. WILSON  
News Staff Writer

It was a sleepy-eyed group of United Fund workers that flipped their car blinkers for left and right turns into Coronado Drive early this morning. And it was a sleepy-eyed group that groped their way down the corridor to the Starlight Room of the Coronado Inn.

But after cups of coffee and listening to the importance of their roles of United Fund solicitors in the 1966-67 campaign, their mood and manner, as they left the meeting, was charged with enthusiasm and a determination to make this year's drive one of the most successful ever.

Things got off to an eye-opening, ear-popping start when Captain R. J. Tritton of the Salvation Army asked workers to blow up balloons that had been left by their plates; then to see which team could burst them the fastest by sitting on them. There was no winner; it was a draw, but everyone awoke immediately.

A chicken dinner door prize

## New Sewer, Tax Rates In Effect

At a special called meeting of the Pampa City Commission in City Hall this morning, commissioners held second and final readings on four ordinances so they may get in effect before the beginning of the city's fiscal year, Sept. 30.

Pampa's city budget of \$1,721,338 was formally adopted to include a 13-cent tax increase that will be reflected in a \$1.60 per \$100 property evaluation to meet the \$1,000,000 bond payment for city and highway improvements approved by Pampa voters on March 8.

The sewer tax rate increased by \$1 for both commercial and residential users will go into effect with the Nov. 1st billing. This will mean a \$2 rate for commercial users for four or less fixtures and twenty-five cents for each additional fixture over four. Residential users will be paying \$2.50 for five or less fixtures and 10 cents for each additional fixture over four.

The engineering firm of Meriman and Barber was employed as engineers on the street improvement program in the new ordinance that re-stated the terms under which they will be paid for specifications, plans drawn and work completed.

## WEATHER

PAMPA AND VICINITY—Clear to partly cloudy through Thursday. Little warmer daytime temperatures. High today and tomorrow upper 70s. Low tonight near 50. Southwesterly winds today 10-20 mph.

# Violence Erupts Over Shooting of Youth

SAN FRANCISCO (UPI) — Police, backed by 2,000 armed National Guardsmen, restored order early today after a night of violence by Negroes fired up over the killing of a youth fleeing from a patrolman.

The rioting was centered in the 30-block Hunters Point district next to San Francisco Bay and Candlestick Park. Sporadic disturbances were also reported in a Negro poverty area five miles away.

Hundreds of Negroes were drawn into the streets by a rare fall heat wave which kept the nighttime temperatures near the 70-degree mark.

A short time after California Gov. Edmund G. Brown ordered the guardsmen to duty, city officials announced the rioting was "under control."

One tired police sergeant described the night by saying: "It was bad, it was bad, but thank God it wasn't another Watts."

The Guardsmen, some of whom served during last summer's rioting in the Watts section of Los Angeles, remained at their armories on standby alert. A lieutenant at the San Francisco armory, instructing his company, said, "remember, if you go out there, hold that rifle high so they can see the bayonet."

The governor also imposed a curfew which lasted until 7 a.m. CST. In addition all taverns were shut down in the area.

Police inspectors announced this morning that the number of arrests in Hunters Point was 20. Some suspects were picked up on charges of burglary and others for violating the curfew.

Fire department officials reported that three chiefs' cars were damaged by rocks and 32 alarms, including incendiaries and false calls, were responded to by fire fighters.

The violence took the form of rock-throwing, window-smashing and fire-setting. Most of the trouble was caused by hundreds of young Negroes, who roamed the area in bands.

At least five persons were injured and taken to emergency hospitals. One was fireman Russell Sheehan, 53, who suffered facial cuts when a brick was heaved through a window of his fire truck.

Another was white grocer Anthony Ladulidice, 44, who was hit on the head with a wrench.

Also attending were heads of (See UNITED FUND, Page 3)

# Space Walk Changes May Cause Delay

SPACE CENTER, Houston (UPI) — Drastic changes in the spacewalk of Gemini 12 astronaut Edwin (Buz) Aldrin may delay the flight as much as two weeks.

The space trip is set for late October or early November. The National Aeronautics and Space Administration (NASA) said plans for Aldrin to use a jet-powered Buck Rogers type "back pack" to scoot around in space during his space walk had been abandoned.

The change was made to allow a better study of the problem of free space walking — an exhausting chore that caused Gemini 11 astronaut Richard F. Gordon to cut his space walk short Sept. 13.

ASA officials said they wanted to "gather more information concerning the performance of basic tasks by an astronaut in orbit outside a spacecraft."

Space walking so far has been one of the more difficult problems of the nation's space program. Three of America's four spacewalkers have been forced back in their spaceships before finishing their walks.

Defense attorney Art Hanes, a former mayor of Birmingham, said he was "elated." "I feel the evidence warrants the verdict."

The verdict was announced at 7 p.m. and brought the first smile of the trial to the face of Thomas.

"I'm glad it's over with," said the 42-year-old steel worker from the Birmingham suburb of Bessemer.

Wilkins was acquitted of murder charges last spring. The state had charged

# Airline Strike Is Postponed For 12 Hours

NEW YORK (UPI) — The Transport Workers Union (TWU) announced it has "postponed" for 12 hours a nationwide strike, originally set for 4:45 a.m. CST today, against American Airlines, "in view of the progress being made in negotiations" for a new contract "and in the public interest."

A union spokesman said talks with the company were continuing on a round-the-clock basis, "at least until the (new) 4:45 p.m. CST strike deadline."

Company officials expressed hope a strike would be averted. American Airlines, at the same time, said all flights would continue to depart on schedule during negotiations.

Negotiators met in an all-night session in hopes of averting the strike, overwhelmingly endorsed by the union's locals around the country in balloting Sunday.

# Johnson's Manila Peace Conference Gets Criticism

WASHINGTON (UPI) — President Johnson's plans to attend a seven-nation "war and peace" conference on Viet Nam in Manila are running into some criticism on Capitol Hill.

Chairman J. William Fulbright, D-Ark., of the Senate Foreign Relations Committee, a leading critic of administration Viet Nam policy, made it plain Tuesday he did not think the conference would produce much in the way of results.

All those attending the meeting are already "in agreement," he said. "They're all our boys ... it's a cozy little group."

Fulbright urged, instead, that the United States suspend bombing North Viet Nam as a good faith gesture toward peace without waiting for assurances that the Communists also would deescalate the war.

Sen. Jacob K. Javits, R-N.Y., who supports the administration's stand on Viet Nam, said he thought the Manila conference was "certainly desirable as a show of Asian-U.S. unity over Viet Nam policy."

"But it would be unfortunate if the Manila conference, like the Honolulu conference, promised much and accomplished little."

"Therefore, I urge the President to clarify his objectives and to make sure they are attainable and not to raise expectations that cannot be fulfilled," Javits added.

The conference is aimed at bringing together "on or after Oct. 18" the leaders of the countries actively engaged in the battle against the Communists in Viet Nam. These are: South Viet Nam, the United States, Australia, New Zealand, South Korea, the Philippines and Thailand.

One result of the meeting, high officials indicated, may be a joint declaration of support for the basic conditions for which the Saigon government — with massive foreign assistance — is fighting.

Thomas with murder in the March 25, 1965, shooting of Mrs. Liuzzo, 39, a white civil rights worker from Detroit following the Selma-to-Montgomery voting rights' march.

Missing Witnesses But two expected key state witnesses, FBI informer Gary Thomas Rowe and Leroy Moton, a Negro youth riding with Mrs. Liuzzo when she was slain, did not appear at the trial.

The defense attempted to call Moton and Rowe, who testified in two earlier trials that he was in the car from which the fatal shots were fired at the mother of five. But one of Flowers' assistants told Judge T. Werth Thaggard, "Your honor, we have no earthly idea where any eyewitnesses are."

Thomas faces 10-year-old sentence for conspiracy in the slaying. A federal court jury earlier convicted him and two other Klansmen, Collie Leroy Wilkins and William O. Eaton, of conspiring to violate Mrs. Liuzzo's civil rights. Eaton later died of a heart attack.

Wilkins was acquitted of murder charges last spring.

# U.S. Planes Bomb Village by Mistake

SAIGON (UPI) — Two U.S. Marine planes mistakenly dumped 500 pound bombs into a friendly Central Highlands village killing 28 residents and wounding 19 others, a military spokesman said today.

Some of the village's residents were Vietnamese army troops and their families, the spokesman said. He said about 100 homes were destroyed.

Two Air Skyhawks from the 1st Marine Air Wing were flying a support mission in Quang Ngai province about 55 miles south of Da Nang Tuesday when they strayed from the intended target area and hit the village, the spokesman said.

Helicopters rushed in and began ferrying the wounded to a Vietnamese hospital in Quang Ngai city.

Civil affairs workers also moved into the village to help survivors.

The spokesman said it was not immediately known why the planes strayed from the intended target. The villagers were "outside-the target zone," he said.

An immediate investigation was launched, the spokesman said.

The mistake bombing was the latest in a number of such tragedies that have taken a toll in both the civilian population and among friendly forces.

U.S. jets accidentally killed (See PLANES, Page 3)

# Viet Cong Chief Issues Revised and Shortened List of Peace Terms

TOKYO (UPI) — The chief of the Communist Viet Cong today issued a new and shortened list of conditions for the return of peace in Viet Nam.

Unlike previous lists it contained no demand for prior withdrawal of U.S. troops or for a settlement based exclusively on the Communists' political program. It did call for eventual U.S. withdrawal.

The new list of conditions was set forth by Nguyen Huu Tho, a lawyer who is president of the National Liberation Front, political arm of the Viet Cong. He made the statements in an interview with leftist Australian newsman Eilfrid Burchett on Aug. 28. The interview was broadcast today by Radio Hanoi.

The new conditions may or may not represent new concessions to the United States, but they differed from the five conditions for a peaceful settlement issued by the NFL a year ago.

The three conditions outlined today are not so far from the stated goals of the United States as to preclude the possibility that negotiations could begin before the fighting stopped.

There also was no hint in the text of Tho's remarks that a U.S. withdrawal would be required beforehand, a point on which the front and its mentors in Hanoi had been adamant.

In reply to a direct question from Burchett to outline the conditions for peace, Tho replied:

Terms of Conditions "The conditions for a real peace in South Viet Nam and also the basis for the only correct political solution to the South Viet Nam problem is: "1. The U.S. must end the (See TERMS, Page 3)

# Erhard Flies Home With Agreement That Cuts Arms Buying Requirement

WASHINGTON (UPI) — West German Chancellor Ludwig Erhard flew home early today with a compromise agreement that will cut German requirements to buy \$1.35 billion in American arms.

The agreement, hammered out during Erhard's tour of Cape Kennedy Tuesday with President Johnson, calls for arms purchases of \$450 million before June 30, according to German officials.

"The officials said another \$650 million of the arms buying commitment—purchases which help offset the cost of keeping U.S. troops in NATO—would be fulfilled by prepayment of \$214 million in debts to the United States, and a \$436 million purchase of U.S. government bonds.

The remaining \$250 million of the commitment will be subject to U.S.-German negotiations. There was a possibility that the June 30 deadline for meeting the buying quota would be extended.

The deadline comes with the expiration of a two-year U.S.-German agreement aimed at offsetting U.S. costs in Germany with German arms purchases in this country.

# Lane Named To New Post In City Court

DON LANE, a local attorney, was named Corporation Court attorney by city commissioners at the special called meeting of the commission held this morning in City Hall.

Effective Oct. 1, Lane will represent the city in corporation court cases.

A native Pampa, Lane was graduated from Pampa High School and received his law degree from the University of Oklahoma in Norman. He is a member of the Oklahoma Bar Association and the Texas State Bar. He is a partner in the law firm of Lane and Douglas, Hughes Building.

He and his wife, Susanne, reside at 1616 N. Russell with their two children, Richard, age 8, and Susan, 5.

DON LANE

A past president of the Kiwanis Club, he is currently president of the Gray County Chapter of the American Cancer Society and a lay leader for the First Methodist Church and the Pampa District of Methodist Churches.

He and his wife, Susanne, reside at 1616 N. Russell with their two children, Richard, age 8, and Susan, 5.

# GOP Criticizes Johnson's Plan

WASHINGTON (UPI) — Five Republicans on the House Ways & Means Committee attacked President Johnson's anti-inflation program today, calling instead for stronger remedies to cure what they termed "a spending hangover."

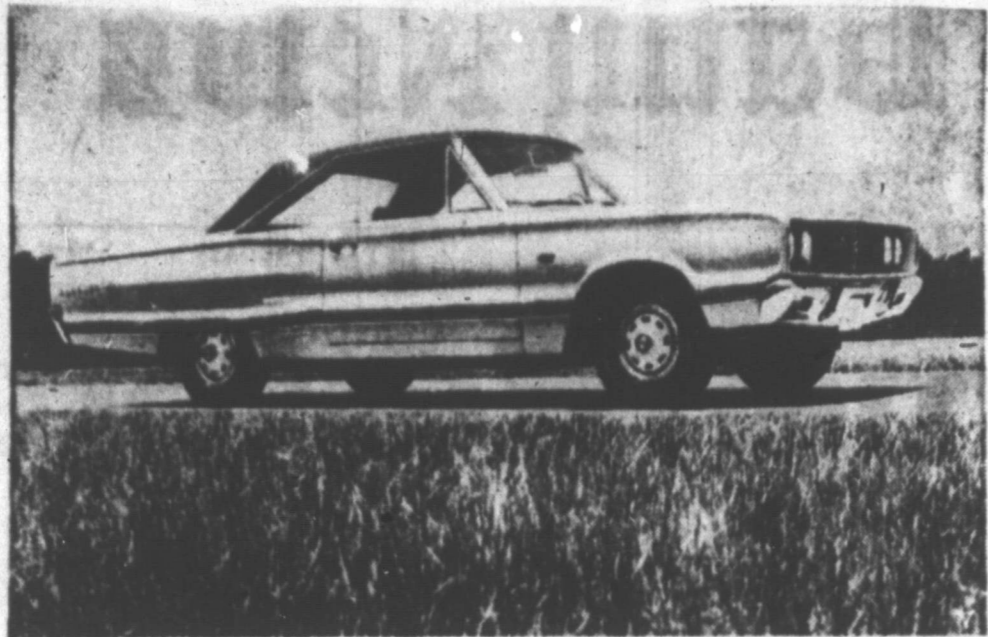

Their criticism of the administration's measure was the first GOP opposition to surface in the tax-writing Ways & Means Committee. Three other Republicans on the panel gave reluctant support to the move to suspend for 16 months two tax credits for businessmen.

Reps. Thomas B. Curtis, Mo., James B. Utt, Calif., Jackson E. Betts, Ohio, Herman T. Schneebeli, Pa., and Harold R. Collier, Ill., announced their opposition in a dissenting report on the measure, which has won the approval of the committee.

"The basic cause of inflation is clear—excessive government spending," they said. "Without an attack on government spending, further inflation is inevitable. The government has been on a spending spree. Today we are suffering from a hangover. What is needed is a period of restraint—not just on the part of labor or on the part of business—but on the part of government."

Johnson's program was expected to go before the House late this week or early next. It would suspend the 7 per cent tax credit businessmen get for investing in new plant and equipment and the accelerated tax write-off for depreciation of commercial buildings.

"It comes from a hardware store we have R. Lewis Edson. (Adv.)

### 'Bridge Break' Replacing Coffee Break

The "bridge break" is replacing the "coffee break" as the pause that refreshes many of the country's office girls. "The emphasis on weight-watching in the 1960's and a concurrent surge in popularity of bridge have turned many company dining rooms into card rooms," says Max Glazer, president of Chicago's Arcco Playing Card Co. "The trend has become so big that many companies keep decks of cards in their employee dining rooms just to keep the girls happy," he adds.

The "coffee break," according to the Arcco executive, originated as a device to make office personnel more productive. Thinking was that if office workers were given a short pause in their work day, they would return to their chores with zest.

"But the office girl found herself nibbling at something sweet with her coffee and suddenly she was gaining weight," notes Glazer. "So, she turned to playing bridge during the rest period — to relax her body and get her mind off food and the office chores."

Glazer also notes that many company executives join the girls in a game during their breaks.

"It's great for office morale if the girls can kibbitz about how they beat the boss at bridge — and the good boss knows it."

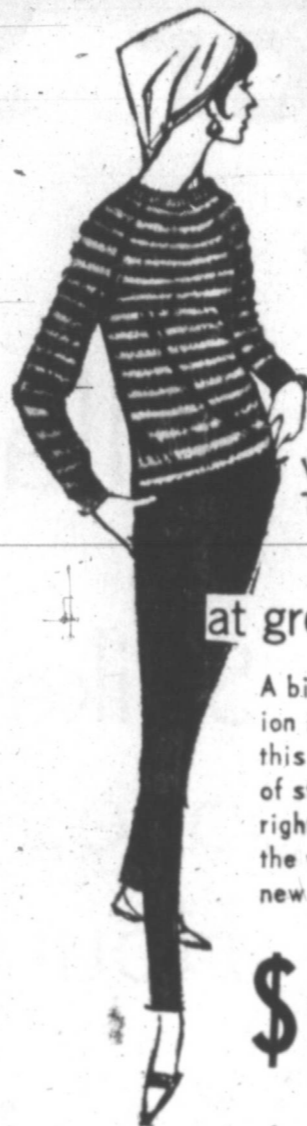

## Texas Leading In Auto Safety Via Interstates

Texas is among the leaders of all the states in promoting automotive safety by moving steadily toward completion of the state's share of the nationwide Interstate Highway System, according to an analysis of progress reports on the System. Within the state 1,627 miles of the 3,027 designated Interstate miles are now open to the public, reports Byron W. Rippey of Dallas, assistant vice president of C.I.T. Corporation, the nation's largest industrial and commercial financing firm. This is 54 per cent of the total designated for the state under the Federal program compared with 53 per cent for the state this year, for government studies have shown that one life is saved for every four miles completed on the Interstate highways, which are de-

### New Directors Selected For Rodeo Board

Eleven new directors were named to the Top O' Texas Rodeo Association board at a meeting held last night in the Pampa Chamber of Commerce conference room.

Named to serve for three year terms are Dr. Kenneth Royle, Holly Gray, John R. Spearman, Clayton Mathis, Bill McEntire, Don Morrison, Lee Fraser, Foster Whaley, John Schoolfield, B. E. Bearden and Tom Rogers.

### Obituaries

Mrs. Patricia Ann Brown, 54 S. Banks died at 5:15 p.m. yesterday in Highland General Hospital.

Funeral services will be at 2 p.m. tomorrow in Carmichael-Whitley Colonial Chapel with Rev. O. E. Wright, pastor of the Church of God officiating, assisted by Rev. Earl Pruitt of Webb City, Mo. Interment will be in Fairview Cemetery under direction of Carmichael-Whitley Funeral Directors.

Born Feb. 16, 1942, in Canadian, Mrs. Brown grew up in Pampa and graduated from Pampa High School in 1960. She was married to Marvin Brown on May 25, 1960, in Pampa. Mrs. Brown was a member of the Church of God.

Survivors include her husband and one daughter, Tallie Brown, both of the home; her parents Mr. and Mrs. Roy Free of Pampa; two brothers, Jimmy Free of Pampa and Glenn Free of Ft. Bliss, and grandparents, Jack Free of Pampa and Mrs. Margaret Ray of Amarillo.

Funeral services will be at 2 p.m. tomorrow in Carmichael-Whitley Colonial Chapel with Rev. O. E. Wright, pastor of the Church of God officiating, assisted by Rev. Earl Pruitt of Webb City, Mo. Interment will be in Fairview Cemetery under direction of Carmichael-Whitley Funeral Directors.

aggressive war in South Viet Nam, withdraw the troops and weapons of the U.S. and its satellites from South Viet Nam, and dissolve all U.S. military bases there.

The internal affairs of South Viet Nam must be settled by the South Vietnamese people themselves without foreign interference. The reunification of Viet Nam must be decided by the people in both zones of Viet Nam.

### Strike

Passengers a day, would halt the line's traffic to 44 cities in the United States, Canada and Mexico.

An American spokesman said about 11,700 of the company's 28,000 employees would stay at their jobs for at least two weeks in event of a strike. These include management, supervisory, specialist and clerical personnel. Non-striking workers, represented by other unions would immediately go on leave of absence status.

TWU workers voted 6,139 to 186 Monday to endorse a union recommendation to reject American's latest contract offer. The union represents 12,000 employees including maintenance, ground service, stores and communications personnel.

The major disagreement was on a union demand for a cost-of-living clause in addition to the company's proposal for three 5 per cent increases over a three-year period. The union also sought the increases over a shorter contract term, two years.

On Aug. 9, two other Air Force jets attacked a village near Can Tho 135 miles south of Saigon killing 15 civilians and wounding 182. Two days later American planes attacked a U.S. Coast Guard cutter by mistake, killing its commander and wounding five men, including a British war correspondent.

In a similar tragedy, a U.S. Marine fighter-bomber heavily laden with bombs and fuel crashed into a Vietnamese village near Da Nang killing 26 persons and wounding scores.

### Police Report

One burglary; Two Attempts

One burglary and two attempted burglaries were reported to Pampa police this morning. Eva Vick, 1002 E. Francis, told police someone entered her home Tuesday night.

Police said the burglar entered through a kitchen window, next to an alley and took a portable radio valued at \$100. Darrell Cook reported to police that someone entered the Mobil Wholesale sometime Tuesday night but nothing was missing from the building.

A Pampa youth was questioned in the attempted burglary of the Allen Self residence at 728 Bradley Dr. Tuesday night. Police said a youth went in the house through a kitchen window but nothing was taken.

A neighbor saw the youth enter and leave the house but police released him when no charges were filed.

In 1960, a bomb blast in New York City's Times Square injured several hundred persons.

### Knife and Fork To Learn Atom's Favorable Uses

Knife and Fork Club members will hear an outstanding scientist discuss favorable realisms of the atom in its first dinner meeting of the new season at 7:30 p.m. Thursday in the Starlight Room of the Coronado Inn.

Dr. Ralph T. Overman, educational consultant for the Oak Ridge Technical Enterprises, Inc., has titled his talk "Which Way the Atom?"

### Landscape School Slated at Wheeler

WHEELER — A county-wide landscaping school, sponsored by the Wheeler County Family Living Sub-committee and the Extension Service, will be held from 9:15 a.m. to 3 p.m. Friday in the American Legion Hall.

Speakers for the day will include Everett Janne, landscape horticulturist of College Station whose topic will be "Landscaping and Fertilizing Principles and Pruning Ornamental Plants," Paul Bruce of Bruce's Nursery, Manred, will speak on "You and Hardy Trees and Shrubs for the Locality," and Richard DeArment, game biologist of Wheeler, will present "Care and Selection of Roses."

### City Folk Will Meet Farm Folk On Special Tour

A tour of Gray County farms is being planned for Pampa business and professional people Thursday to point up the importance of Gray County's agricultural resources and to bring about a better understanding of some of the agricultural problems facing local farmers.

The tour will start at 2:30 p.m. from the Gray County Community Building, located at the rodeo grounds, where two buses will be waiting to provide transportation.

The tour will be concluded at 5:30 p.m. with a barbecue in the Community Building. Plans are under the direction of the Gray County Soil Conservation District and the Agriculture Committee of the Pampa Chamber of Commerce, who will be host for the barbecue.

### United Fund Airport Demands Urgent Attention, Committee Says

Immediate attention to needs at Perry Lefors Airfield was urged by the chamber of commerce aviation committee, headed by Wynn Veale, at a directors' luncheon held yesterday in the Coronado Inn.

Specifically, the committee recommended securing land by the county for extension of the north-south runway to 5,500 paved feet and 500 feet of sod overrun; a north-south taxiway to be built and an additional ramp area be paved north of the county hangar.

### Gray County Unit Of Cancer Society Names Chairmen

The announcement of committee chairmen and naming of delegates to the state convention highlighted a meeting of the Gray County Unit of the American Cancer Society this morning in the Coronado Inn.

Chairmen and their committees are Mrs. Jack Foster, service; Dr. Royce Laycock, medical; Mrs. Kermit Lawson, education; Bill Power, publicity, and Ben Sturgeon, legacy.

Mrs. Lawson was elected official delegate to the annual meeting of the Texas Division. The convention will be held in Houston Oct. 5 and 6.

### Uncle Billy Is In Good Condition

William "Uncle Billy" Frost, Gray Counties oldest living pioneer at 103, is in good condition in Highland General Hospital today.

"Uncle Billy" was taken to the hospital Sunday after he suffered a fall at his home Saturday night.

### Two Injured In Accident

Alva Durad Gifford, 59 of Lefors, was traveling west on 152 when he crashed into the rear of a vehicle driven by Patricia A. Stewart, 21, of 525 Powell, Pampa.

According to investigating highway patrolman Bill Lusk the Stewart woman had stopped on the highway when some horses ran in front of her car. Gifford suffered broken teeth and a cut chin in the accident while the Stewart woman incurred neck injuries.

Lusk said the accident occurred about three-tenths of a mile west of Pampa at about 10 p.m.

### Carpet Spots and Paths Easily Removed

# Male Fashions on a Budget

POPULAR SINGER Ronnie Dove (left) displays a combination bound to be big on campus this year. The pants are bright homespun in a flaxen hue; the jerkin is a rich brown velvet. Both are by Contact. At right is a shaggy, fringed sweater styled by Himalaya. The wide boat neck offers roomier freedom.

By ROBERT COCHNAR  
Newsman Enterprise Assn.  
(EDITOR'S NOTE: This is the second of two related columns on organizing a back-to-school wardrobe.)

NEW YORK (NEA) — It is always nice to return to campus with a trunk full of new duds. Your position as a BMO is almost assured and you bask in the envy of your threadbare colleagues.

But this is the stuff of dreams. Most students find barely enough money to pay for tuition, room, board, books, beer and potato chips, let alone the funds for a new wardrobe. So they must necessarily cut corners and make do with the basics.

There are ways, however, to stretch a skimpy wardrobe. Unfortunately many undergraduates don't learn the sartorial tricks until their last years and then it is too late. So, here are a few hints, which will put you in the forefront of the fashionable set at minimum expense.

—STAY CASUAL: At least 80 per cent of the time you will not wear suits; slacks and sweaters will be the daily uniform. A half-dozen pairs of inexpensive slacks (chinos and polished cottons, oatmeal and nonblue jeans) plus two or three pairs of better quality trousers (hopsacks, cavalry twill, whipcord, herringbone) will give you considerable style flexibility.

Be sure, too, to pack at least four or five sweaters. One ought to be in a rather bold pattern but the others should be more subdued — shades of camel, heather and dark blue or brown. Boat, vee, crew and turtle necks are appropriate. If your sweater collection is distinctive and small at the same time, it will look as if you own just a few.

—DOUBLE-DUTY SHIRTS: If you can swing a dozen shirts, three or four of them can be

bold. But if your budget doesn't permit your best bet is to look for button-down oxfords in white, blue and stripes. These can be worn with or without tie. NOTE: The "in" shirt this season retains the long-point, flared collar but the locker loop and the button on the back of the collar are gone, replaced by a flapped, buttoned breast pocket.

—VITAL FOOTWEAR: A pair of hand sewn mocs is mandatory. You should also have a pair of black or cordovan wingtips or bluchers. Throw in a pair of quality tennis shoes and, if you have a few more dollars, a pair of desert boots.

—TIES: A half-dozen is basic and make sure you don't pay too much less than \$3 each. Cheaper cravats simply don't last and they look shoddy. Traditional regimental stripes are safe, but flesh out your tie wardrobe with a distinctive Paisley and a couple of solid knits.

—SUITS AND JACKETS: Include one good three-piece suit in traditional, natural-shoulder style. If you can afford only one suit, make sure it's dark charcoal gray, brown or navy blue. Hopsack, herringbone tweed or an unfinished worsted is appropriate. A navy blue blazer is also a necessary and versatile item.

—OUTERWEAR: If you can afford a topcoat (make it a British warm or dark, knee-length tweed), you'll be particularly stylish on formal occasions. But you can easily make do with a quality raincoat which features a zip-out lining. A parka, goal coat or ski jacket will work well during the school day.

## Children Raised On 'Hymns and Oatmeal'

By GAY PAULEY  
UPI Women's Editor

NEW YORK (UPI) — The other day I mentioned the pleasure that comes from singing as one goes about the daily tasks and suggested the family tune up on occasion on some of the American favorites, including old-time hymns. The brief paragraphs brought a delightfully nostalgic letter from a Midwest newspaperman who grew up in a family that loved to make music.

"I didn't know it at the time," he wrote. "But the legacy my parents left — the love of singing in all the children — was the greatest they possibly could have."

"I came from a family of eight," he continued, "and our home was out on the plains and

in the small towns of Colorado. An older brother of mine once said, 'We were raised on hymns and oatmeal, in that order.'"

The letter is from Damon Kerby, assistant feature editor of the St. Louis Post-Dispatch, and he captured better than I've ever been able to what singing can mean in a family.

With his permission, I'd like to share his letter with you. "One of my early memories is that of riding home with the family in a surrey from a Sunday night service," he said. "And everybody harmonizing on 'Face to Face' (with Christ my Saviour), and its line... 'Far beyond the starry skies...'"

"I looked up at those incredibly bright stars and the milky way and imagined I indeed could see His face."

59TH  
YEAR

## Gardening News

By THELMA BRAY

A forum on "Bindweed Control," sponsored by the Pampa Garden Club, will be held Oct. 3 at 2:30 p.m. in Lovett Memorial Library. It will be opened to the public and is planned for education purposes as well as a means of coordinating groups who are involved in the eradication of bindweed.

For anyone who does not realize the seriousness of bindweed inside a city the following is quoted from America's Garden Book: "Bindweed is an exceedingly tenacious weed and has been one of the most difficult of

all weeds to control. In certain sections of the country it has become so rampant that it has made necessary the abandonment of great areas of agricultural land. Its habit of obtaining a stranglehold on all plants with which it comes into contact makes it a most serious menace in garden and crop fields, and immediate measures of control should be undertaken as soon as it appears, as it spreads very rapidly from underground runners."

Many homeowners may be cultivating bindweed on their

own grounds thinking they have an attractive vine or groundcover; it can be found all over Pampa. Citizens of Pampa as well as surrounding areas should come to this meeting if for no other reason than to be sure they are not cultivating the weed. Foster Whaley will be the speaker and will be prepared to show how to identify the plant as well as how to begin to get rid of it. Everyone is urged to attend.

The beautiful elm trees at the A. B. Carruth home, 2008 Mary Ellen, and the Ralph Thomas home, 1705 Williston, are originally from China and are sometimes called Lace Bark Elm because of the beauty of the bark. These trees when purchased were recommended by the Woodward Experiment Station. They are loaded now with clusters of seeds which adds to their attractiveness. Some elm seeds do not germinate easily and it is possible that this type doesn't because of the time of its fruiting.

Elm trees have contributed their part to the history of our country. Since elm wood does not split easily, it is useful in making barrels, wagon wheels and farm implements. Wood

from the Rock Elm tree is especially valuable in boat building. In the famous poem "The Wonderful One-Hoss Shay" by Oliver Wendell Holmes, Rock Elm was the wood used for the hubs of the carriage that would not wear out.

The Slippery Elm has a gluey inner bark which boys like to chew. The pioneers used the same inner bark to treat sore throat. At one time spitball pitchers chewed slippery elm bark to increase the saliva and to make their fingers slippery. The bark of the American Elm contains a strong fiber from which the Indians made rope.

When driving on south Cuyler be sure to notice the attractive planting of red geraniums and white petunias at the entrance to the Beacon Supply Co., 734 S. Cuyler. Plantings like this are appreciated by all.

The H. L. Porche home at 2525 Charles is attractive with an abundance of roses in bloom all around the front yard. Every

# Delta Kappa Gamma To Meet in Borger

Two hundred members of Delta Kappa Gamma Society, an international organization for women educators, will convene in Borger Saturday for a regional meeting of chapters in Pampa, Goodnight, Dumas, Spearman, Perryton, Panhandle and Borger.

Mrs. E. B. Grady, president of Gamma Theta Chapter, Borger, is directing arrangements for the session to begin at 9 a.m. at Stephen F. Austin Junior High School and to conclude at 2 p.m.

The meeting will open with registration and coffee, to be followed by a general session at 9:30 a.m., with Miss Claudia Evely of Pampa to preside. Miss Evely, regional director of DKG, is a Latin teacher in Pampa High School and works with nine-year-olds in the Junior Department at First Baptist Church where she is an ac-

... keynote speaker

tive member. A charter member of Theta Delta Chapter of Borger and Beta Delta Evelyn Laney, Amarillo, state Chapter of Pampa, she is a former state chairman of DKG. Four sectional meetings will develop phases of the theme, "Make No Little Plans."

Mrs. Grady will preside at the afternoon session, with Mrs. Laney, Amarillo, state Chapter of Pampa, she is a former state chairman of DKG. A pre-convention affair will be a dinner at 7:30 p.m. Friday at Hotel Borger, for all presidents of area chapters and state directors.

with her husband, Bob Laney, as co-director of activities at the Community House, Red River, N.M., for the past ten summers. She is a past chairman of the public relations committee for the Amarillo Classroom Teachers Assn. and is now serving as a member of the association's professional rights and responsibilities committee.

Mrs. Laney is also now serving as building representative of the Potter County Unit of TSTA and is a delegate to the TSTA State Convention to be held Nov. 3-1 in Austin. A member of Delta Kappa Gamma International Society, the keynote speaker is a past-president of the Beta Sigma Chapter of Olney and of Zeta Delta Chapter of Amarillo.

Special music will be provided by Mrs. Jerry Ball, vocalist, and Mrs. Leon Leimer, pianist. Mrs. Leimer will give the invocation. A pre-convention affair will be a dinner at 7:30 p.m. Friday at Hotel Borger, for all presidents of area chapters and state directors.

## NEW WAY TO BE SUDDENLY SLIM, COMFORTABLE, TOO

Los Angeles:—Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim and yet completely comfortable. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girdle will contour your hips if they are a problem.

The girdle itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, acetate and spandex. It is so comfortable, but has such slimming strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim," in both girdle and panty versions, is the peak achievement of the California design genius, Olga. They are available in our area at

## Ruth Millett

### A Woman's Skills Are Many and Varied

By RUTH MILLETT  
Newspaper Enterprise Assn.  
Why don't men ever say: "If that isn't just like a woman" when:

A woman with more imagination and energy than money quickly transforms a hopeless looking house into a real home?

A woman walks into a house where all is confusion and clutter because the mother of the family has been away for a few days and calmly and efficiently sets everything to rights?

A woman picks up a frightened child and with a few soothing words and a gentle touch has the young one smiling through his tears?

A woman, hearing of trouble in a neighbor's family, doesn't hopelessly ask, "What can I do?" but pitches in to do whatever her eyes and common sense tell her needs to be done?

A woman, inwardly dismayed by unexpected guests arriving at an inopportune time, seems outwardly a delighted hostess and somehow manages to provide more than adequate hospitality?

A woman, hearing the awkward silence that follows someone's tactless remark, steps in quickly and easily to say just the right thing to take the sting out of the words?

A woman, aware without being told that her husband has met with discouragement during the day, quietly and subtly gives him such a build-up that things soon begin to look brighter?

A woman, on a day when everything goes wrong, still remembers to do the extra thing important to some member of the family?

# Sleepwear Is Wide Awake

A PERFECT CHOICE for pajama parties, the mini-plaid study shift (left) has matching undercover panties, a flirty self-ruffled hemline and white eyelet embroidery accents. It comes in red or blue woven cotton. Prim provincial pique print on jet black cotton in the Empire robe (right) will please any member of the dormitory crowd. Quilted cotton robe has drawstring waistline and a face camouflaged zipper closing. Solid color nightie is on Orion and Avril blend. Both are M. C. Schrank creations.

By HELEN HENNESSY  
Newspaper Editor  
Women's Editor  
NEW YORK (NEA) — Sleepwear has become TV wear, study wear and togs to hear records by. It's out of the bedroom as much as it's in it. And aware designers have perked up its

## Women Dictate Bottle Designs

NEW YORK (UPI) — Glass bottles and jars for even such everyday table items as salad oil and jelly are designed to a formula dictated by the housewife.

The formula simply states that the bottle or jar must be easy to handle, equally easy to open and close, pleasing in appearance when placed on the table and handy to store in the refrigerator or kitchen cabinet.

"Housewives may not always be conscious of dictating the formula, but exhaustive research proves that is what she wants, and that is what she gets," said Ricard L. Cheney, executive director of the Glass Container Manufacturers Institute.

looks to accommodate its new role.

There is a variety of fashions and fabrics in designs that run the gamut from dainty granny gowns to kooky fanny warmers and mini-plaid shifts.

According to Evelyn Lind (designer for M. C. Schrank), permanent press fabrics have found a welcome place in the sleepwear field, especially in sheer Dacron and cotton batiste.

Those who like the baby dress look will find a mother and daughter group in this fabric. It includes a long and short gown, regular length pajamas for a child and a capri for mother. Yokes are befrilled and beribboned.

Those who think young will find Empire robes in provincial prints teamed with solid gowns, study shifts that reach mid-thigh, leopard printed fanny

In 1934, Babe Ruth made his last appearance as a regular player with the New York Yankees.

## Dear Abby... 'Sonny' Can't Face Married Life Realities

DEAR ABBY: Everyone tells me how lucky I am to have this jewel.

Now, here's the rub: Bruce (I'll call him) was a bachelor, living with his mother when I married him. I agreed to keep my job until we could afford a nice home. Now, a year later, I have bought all the groceries and paid the rent. Bruce does not have one suit of clothes at our apartment. He shaves and showers at his mother's, keeps everything there except his socks and underwear. He even gets his mail there.

I have never seen a bank statement, a paycheck, or a canceled check. All his personal papers and records are locked up in a strong box at his mother's. When I mention these things to him he just smiles. If I pursue it further he walks away and ignores me. The newspaper is the one thing he buys, and he reads your column, so please print this, and tell me what to do.

DEAR ABBY: I admire parents who take an interest in their children's school work, but we have a situation in our school which I think needs looking into. There is a family of children whose parents are well-educated and very smart, so if one of their children has to write a theme or give a speech he was told to write himself, his parents help him with it to the extent of doing the whole thing. Now I happen to know this is so because my son pals with their son, who won a speech contest by giving an "original" speech which his father wrote

for him. I think this is unfair to the other children who go by the rules. I wish you would mention this in your column. Maybe the guilty parents will see it and take the hint.

BURNED UP  
DEAR BURNED UP: Not only is it unfair to the other children, it is unfair to their own child. The real "prize" is in learning — not in winning.

CONFIDENTIAL TO "NO NAMES, PLEASE" IN PASTAIC: A blood test will tell you who the baby's father isn't — not necessarily who the baby's father is.

Problems? Write to Abby, Box 69700, Los Angeles, Calif., 90069. For a personal reply, enclose a stamped, self-addressed envelope.

Hate to write letters? Sent \$1 to Abby, Box 69700, Los Angeles, Calif., 90069 for Abby's booklet, "How to Write Letters for All Occasions."

So you haven't lost your summer's tan yet and there's still sand in your hair. But along fashion row, the wheels are spinning out designs for spring and summer — 1967. The National Shoe Retailers Association, predicting what's ahead, sees the shirtwaist theme returning strong in dresses. The shift and tube, plus high-hosom shaping in Empire and A-line,

## Astrological Forecast

By CARROLL RIGTER

HUSHAY, SEPT. 29  
GENERAL TENDENCIES: Today's Full Moon brings changes, changes — and quickly and if you will go along with them, you can find you have a much better working understanding with all with whom you now make any contact or think out a fresh approach for more and better relations. World powers are making new deals with each other.

ARIES (Mar. 21 to Apr. 19) — It's up to you to come up with new suggestions that will make your present operations with associates more ideal. A pat on the back where most needed brings right response. Do what will improve marital affairs, also.

TAURUS (Apr. 20 to May 20) — Venus is your ruler and you are now able to beautify your surroundings and be very cooperative with co-workers. An added touch to your wardrobe can give you that new look, add sparkle to your eyes. Keep busy.

GEMINI (May 21 to June 21) — Showing devotion to others will put them in a most to a wonderful understanding. Get into sports that make you happy. Do what makes future more ideal with mate.

MOON CHILDREN (Jun 22 to July 21) — Some beautiful gifts to family will relieve that feeling of unhappiness and boredom that now exists. That new plan you have in mind can bring increased success. Show that you have much ingenuity.

LEO (July 22 to Aug 21) — Investigating into the facts of whatever is an enigma right now brings clarification and then you can proceed intelligently. Be wide-awake to opportunities around you. Make the most of them and advance quickly.

VERGO (Aug 22 to Sept 21) — Increasing present income should be your goal today, so keep on the alert, be busy and get ideas from experts. Beautifying property and adding to comforts is also wise. Take it easy and rest tonight.

LINRA (Sept. 22 to Oct. 21) — If you concentrate on how to increase harmony with both personal associates as well as those in business, you know just what changes to make. Stop fretting over small matters. Elevate your thinking.

SCORPIO (Oct. 22 to Nov. 21) — Private anxieties can be eliminated if you do what you need to do. Also, will continue front runners, Hemlines? The rule will be: stop at will, according to dictates of sensibility.

## The Lighter Side

By DICK WEST  
 United Press International  
 WASHINGTON (UPI)—My daughter, who is 11, came up to me, stuck out a foot and said, "How do you like my new shoes?"  
 "I don't know," I said, "where are they?"  
 "I'm wearing them, she said, "They don't look new to me."  
 I said, "Oh daddy! she exclaimed, "You always say the nicest things."  
 "This was my introduction to 'grubbies,' the pre-soiled sneakers."  
 Pre-soiled sneakers apparently are the hottest item in the juvenile footwear line. At least among children whose parents can afford them.  
 Others Less Fortunate  
 There may be a few underprivileged children who have to wear new-looking sneakers. In economically depressed areas, kids may have to buy unsoiled sneakers and dirty them up themselves.  
 But the fashionable thing is to buy the kind with a ready-made raunchy look. Do-it-yourself besmirchment carries no status.  
 I imagine sneakers with factory-applied stains are particularly beneficial to fastidious children, who otherwise have trouble giving a new pair that smart grimy appearance.  
 Anyway, pre-soiled sneakers may indirectly bring me great riches. For I intend to steal the idea and use it in a new line of college clothing.  
 Goes With Spirit  
 Slovenly apparel apparently goes hand-in-glove with the rebellious spirit. Students who join the campus revolts usually

## Insurance Company Develops Driver Stimulator Program

Contrary to popular opinion, drivers with many years on the road are no more likely to be capable drivers than those with less time on the road.  
 This was one of the main findings of a test given recently on the country's only workable non-programmed simulator.  
 Another fact uncovered by the Liberty Mutual Insurance Companies, developers of the simulator was that drivers who make excessive and erratic adjustments of the steering wheel of their car are generally inexperienced drivers.  
 The unusual road simulated tests were given to a small selected group of six experienced drivers — who had driven up to 100,000 miles on the road — and six inexperienced drivers who were only recently licensed.  
 Scientists at the companies' research center at Hopkinton, Mass., where the testing was performed, cautioned that findings may not be totally valid for all drivers because the sam-

## Huntsville Readies for 35th Annual Texas Prison Rodeo

HUNTSVILLE — An air of excitement prevails throughout the sprawling Texas Department of Corrections as nearly 13,000 inmates eagerly await the presentation of the 35th Annual Texas Prison Rodeo to be held here each Sunday in October.  
 The 1966 Prison Rodeo series will headline some of the nation's best entertainers as guest stars along with tough convict rodeo riders, plus a host of inmate talent to help round out a fast-moving two-hour show. The rodeo, held in the 30,000-seat Prison Stadium, begins at 2 p.m. A pre-show inmate variety to give the drivers the feeling of road motion through the seat.  
 The Massachusetts based insurance companies began development of the driving simulator early in 1962 and had it working by 1963.  
 Scientists and engineers are still trying to improve the machine, and to date have poured more than \$10,000 in parts alone into their simulator.  
 If the simulator proves to be a reliable method of training, the day may not be far off when driver training schools and public school driving courses could

## Ride the Wide-Track winning streak!

From the same drawing board that gave you Grand Prix, GTO and Overhead Cam Six now come the newest Pontiacs since the invention of Wide-Track!

You're looking at the most beautiful Pontiacs ever to ride on Wide-Track. The incomparable GTO returns with 400 cubic inches of engine under a magnificently refined new skin. Or you can order the 255-hp version or the fabulous new 360-hp Quadra-Power 400. And for the first time, you can order your GTO with our famous three-speed Turbo Hydra-Matic.  
 The Le Mans comes back better than ever. Bright new interiors. Bold new colors. Naturally the superb 165-hp

Overhead Cam Six is standard. You can specify a 215-hp version, a lively 250-hp regular gas V-8 or its 285-hp premium gas cousin on all Le Mans and Tempests. Or step into the neatest grand touring car this side of the Atlantic with our OHC 6 Sprint package.  
 Our big Pontiacs are new from the famous split grille to the slickest engineering innovation of the year—disappearing windshield wipers! They only come out when it rains, are less subject to freezing, and only Pontiac

have them. Also new: a Grand Prix convertible!  
 There are new 400 and 428 cubic inch V-8s. New safety features such as front seat belt retractors, a four-way traffic hazard flasher, folding front seat back latches and General Motors' new energy absorbing steering column.  
 Of course, all Pontiacs come with the road-hugging security of Wide-Track.

**TREELESS TREE HOUSE** is actually a two-story house and must come down because it violates zoning rules, Fort Worth, Tex., officials have informed a group of boys. The boys wanted a tree house and built it on stilts because trees weren't available at the back yard site. Trouble developed when a neighbor complained that it invaded her privacy. Allen and Charles Brown, 12 and 11, look over the city's "must go" citation.

### Your Child And School

By DAVID NYDICK  
UPI Education Specialist

Science education has been faced with a number of problems. The rapidly changing knowledge and the creation of many new careers must naturally affect the content and method of science teaching. Many changes have already taken place in school science programs. The federal government has been a prime factor during the past decade. The National Defense Education Act and National Science Foundation grants have provided materials and teacher education. There has been a tremendous upgrading of science education. As a matter of fact, there has been a feeling that too much emphasis has been placed on science at the expense of the humanities.

Both are important and both should receive maximum emphasis. The kind of science teaching going on in many elementary schools is still inadequate. The approaches and content are still poorly understood by many elementary school teachers. There is a definite need to continue the efforts at improvement or the giant steps will become baby steps.

Let's look at what should be the basic emphasis of an elementary school science program. Perhaps the most important purpose is to help children learn how to solve problems in an organized and valid method. This is what might be called the scientific method.

With this purpose in mind the student should be exposed to the language of science, the content and the basic knowledge upon which future special-

### Chrysler Offers New Series for 1967

Chrysler cars are attractively changed in appearance for 1967 with new metal sculpture, new front and rear designs and semi-fastback roof styling for two-door hardtops. A new series of Newport Custom cars, available in two-door hardtop, four-door hardtop and four-door sedan models, are offered to broaden Chrysler's coverage of the medium price market. The other four series—Newport, 300, New Yorker and Town and Country wagons—are retained, with even stronger separate styling identity than in 1966. Chrysler engines have significant improvements with the 440 cubic inch engine, which becomes standard in 300 series cars as well as New Yorkers, completely new for 1967. New standard features for 1967 include an impact absorbing steering column, a dual brake system with a warning light, new windshield wipers with non-reflection metal parts, and a redesigned left outside mirror with remote control. Shown is the Newport Custom two-door hardtop.

**ACTRESS WEDS**  
MUNICH, Germany (UPI) — Film actress Maria Schell and movie Director Veit Relin were married Tuesday in the Bavarian hamlet of Reitmehring where the Swiss star makes her home. The 39-year-old actress and Relin left for a short honeymoon after the ceremony in the mayor's office. Miss Schell, whose first marriage to producer Horst Haechler ended in divorce last January, bore a child by Relin last July.

### English Teachers Slate Workshop

The annual English workshop for District IX, Texas State Teachers Association, will be held Saturday, Oct. 1, from 8:30 a.m. until 12:00 noon in the auditorium of the Canyon High School, Canyon. Teachers of English of all levels are encouraged to attend.

The workshop theme for this year is "Dimensions of English". Mrs. Beryl Richardson, program chairman, has arranged for a talk on "The English and the PSEO Programs" by Mr. J. T. Thomas, reading consultation from Dumas High School. Mrs. Lana White and Mrs. Jewelle Allen, English teachers in the Amarillo school system, will speak on "Echoes of an English Institute".

The National Council of Teachers of English Convention, the first of this kind to be held in the Southwest, will take place No. 24-26 in Houston.

Teachers wishing to attend the District IX meeting may send the \$2.00 fee in advance to Miss Alice Douglas, 2610 Fifth Ave. Canyon.

### 60 New Texas Museums To Be Added to Present 243

Texas — which already has a nation-breaking record of 243 museums — has 60 new museums a building.

Spurred by the historical renaissance nurtured by growing pride of counties and communities in their own local heritage, museums are springing up like wild flowers in spring.

From tip to stern and the width and breadth of Texas, 57 counties — many of which already have museums — soon will have new museums to tell the story of Texas history in depth.

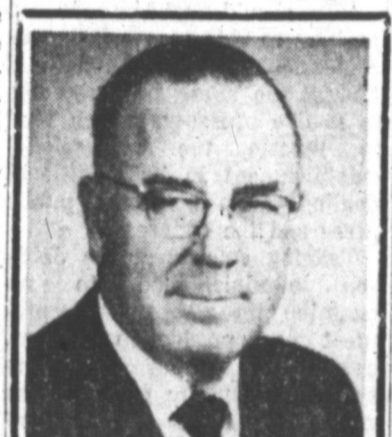

In some, the plans are just the gleam of an idea in the eyes of history buffs. Others are searching — for a building to house collections. Buildings are being constructed; historic homes restored. Some are nearly ready to open their doors. Others are starting to collect.

Here's where the Texas State Historical Survey Committee arrives on the scene. Most of the new museums are small, and their staffs have no place to turn for professional guidance. Large museums at best can offer suggestions only by correspondence or telephone.

Hence TSHSC — with the Smithsonian Institution as its cosponsor — will conduct its first official Texas Institute for Small Museums at Woodville Sept. 30 and Oct. 1-2. Anyone interested in museum development and operations may attend; 200 already have registered.

This is the first institute of this type that the Smithsonian has co-sponsored with a state agency. Frank Taylor, director of the Smithsonian's U.S. National Museum, will head the faculty. Gov. John Connally will give an address at the session on Oct. 1.

**THANT WINS AWARD**  
NEW DELHI (UPI) — India's Council for Cultural Relations Tuesday named United States Secretary General Thant as the first recipient of the Nehru Memorial Award for his work toward international understanding and friendship. The award has a cash value of \$10,000. Vice President Zaker Hussain said Thant would be invited to India to receive the award on the birthday of the late Prime Minister Jawaharlal Nehru, Nov. 14.

### Take Charge... Move up to Chrysler '67

Any time. Anywhere. The '67 Chrysler takes charge.

In the way it looks.

In the way it goes.

Its optional 440 TNT V-8 is the biggest in the price class, as are the brakes. A perfect balance.

A new energy-absorbing steering column is standard equipment. So are many other safety features.

Something else about Chrysler. Four Chrysler Newport models are now priced just a few dollars a month more than the most popular smaller cars, comparably equipped.

If you've been looking for a winner, Take Charge in Chrysler '67. It's it.

**on display now**

JOHN PARKER MOTORS, INC., 301 S. Cuyler

# Pampa Car Dealers Unveil 1967 Line

**MERCURY**  
Mercury continues its expansion in the upper end of the medium priced field for 1967 by adding three luxury models in two new top-of-the-line series.

They are the Mercury Marquis, a formal two-door hardtop with wide rear roof pillars, and the Mercury Brougham series which offers four-door sedan and hardtop models with rich, luxurious interiors.

These new entries are only three of the 16 models in the full-size Mercury line which will be introduced to the public at Lincoln-Mercury dealerships on Friday, September 30.

"These two new series put the spotlight on the premium nature of the entire Mercury line for 1967," said Paul F. Lorenz, general manager of Lincoln-Mercury Division and vice president of Ford Motor Company. "We feel our new models anticipate the growing demand, by customers in all segments of the automotive market, for higher standards of quality, performance, comfort and ease of operation."

Eight new body colors are among the 17 choices offered. In addition, a vinyl Oxford roof is available on any full-size Mercury sedan, hardtop or wagon and it comes in black, ivory or blue.

**OLDSMOBILE**  
Oldsmobile for 1967 has com-

pletely restyled its 88's and 98's, consolidated and realigned its series and body styles, and engineered into every new Oldsmobile a long list of advancements for improved comfort, convenience and safety. It was announced by the division's general manager, Harold N. Metzel.

"All our new cars," he said, "strongly reflect in styling and in many areas of their engineering, the knowledge gained from our experience in developing the highly successful Toronado."

"This is particularly apparent in the new 88's and 98's which benefit heavily from the Toronado's styling influence," Metzel continued. "These cars, with a five inch reduction in rear deck length and a corresponding increase in the hood and front fenders, clearly suggest the distinctive profile of the now famous front wheel drive Oldsmobile."

"In the medium price class," he said, "we are introducing the new Delmont 88. To be offered in a pillar sedan, a hardtop sedan, a hardtop coupe, and a convertible. The Delmont 88 may be ordered with either a 330 cubic inch or a 425 cubic inch engine, each with its own drive line and rear axle. When ordered with the bigger engine, the car is physically identified with a 425 insignia on the front quarter. Otherwise the cars

are identical. The Delmont 88 replaces the Dynamic 88. The Jetstar 88 has been dropped."

**PLYMOUTH**  
Plymouth enters the 1967 model year with newly-sculptured bodies and dramatic new roof styles for its high volume Fury cars, new high performance cars for its Belvedere series and new styling for economy Valiants.

All Plymouth cars except Barracuda will go on sale in dealer showrooms Thursday, September 29. The sporty Barracudas are scheduled for a special introduction in late November.

There are important engine changes for all lines, including a 60-pound weight saving in the standard 318-cubic inch engine for Fury cars. The six cylinder engines have changes in combustion chamber shape for greater efficiency.

A high performance version of the 440-cubic inch V-8 has been developed for Fury and Belvedere series cars.

The Valiants, with their wheelbase lengthened 2 inches to 108, are engineered to provide even better fuel economy than their predecessors.

The new models in the line are a Belvedere GTX two-door hardtop, Belvedere GTX convertible, an economy two-seat wagon in the Belvedere series and a two-door Fast Top in the

Sport Fury line.

Robert Anderson, general manager of the Chrysler - Plymouth Division, said the model realignment for 1967 puts Plymouth in an even stronger competitive position in the low-priced field than in 1966.

**FORD**  
The 1967 Ford, with a major body styling change for the third consecutive year, will seek a larger share of the medium price market by offering the biggest and most luxurious cars in its history.

"With the 1967 Ford, we will offer the new car buyer the smartest, freshest styling and the most advanced mechanical and body refinements possible," said M. S. McLaughlin, Ford Division assistant general manager.

"Our new models not only have a dramatic new styling, but they also ride and handle better, are even quieter than last year's cars and have the greatest number of standard safety items in Ford Division's history."

Three inches longer than its predecessor, the 1967 Ford has sculptured side panels which give the car a lower, longer silhouette. Roof lines on all models but convertibles, station wagons and 4-door hardtops are sweeping lines that create a fastback look. New grilles, tail-lights, side trim and rear end treatment add the finishing touches to the big Ford.

Interiors also are newly designed with instrument panels that feature recessed controls and new, more luxurious upholstery materials.

Already noted for its quiet ride, the Ford will reflect further advances by sound engineers to reduce noise even more for 1967. Front and rear suspensions have bigger, softer rubber "sound stoppers" attached to the chassis to isolate road noise more effectively. Drive shafts utilize a new flywheel-type inertia damper to reduce sound.

**PONTIAC**  
The 1967 models of Pontiac Motor Division represent a bold new approach in automotive styling combined with many new engineering features designed to increase the safety, comfort and convenience of driving.

Offered for the first time is a Grand Prix convertible and three new station wagons, two in the Executive series and one Tempest Safari, all with simulated wood exterior paneling.

Sweeping new roof lines on all two and four-door models, major design advancements in both front and rear ends, a Pontiac exclusive of recessed windshield wipers and exhaustive detail to safety keeps Pontiac the pacesetter for the industry.

An energy-absorbing steering column, a dual braking system and an inside rear view non-glare tilting mirror are standard equipment on all 1967 Pontiacs and are just three of the many safety developments available as standard equipment on every model.

"By extensively following Pontiac's continuous policy of making safety our major objective in the design, manufacture and testing of our cars, Pontiac again this year meets the highest standards in the automobile industry," John Z. DeLorean, a General Motors vice president and Pontiac general manager said.

**BUICK**  
Buick unveiled its 1967 automobiles Sept. 13, placing the emphasis on major styling changes, two new power plants, and a host of product improvements.

The new models will go on display in Buick dealerships September 29.

A new series, the GS 400, was introduced to give Buick a total of 37 different models in nine series. The various series are Special, Special Deluxe, Skylark, and GS 400, and the Sport wagon, and LeSabre, Wildcat, Electra 225, and Riviera.

Robert L. Kessler, Buick's general manager and vice president of General Motors, noted that product improvements were a major consideration in designing the new models.

"In addition to the full complement of General Motors product improvements, we have provided a number of advancements of our own, particularly in the area of brakes," Kessler said.

Buick's general manager pointed out that brake systems were more closely tailored to the weight and power of the car, which varies from series to series and according to power plant options. In addition, front wheel disc brakes are offered as optional equipment on most models.

Improved lining material and increased thickness were provided where braking demands were greater because of the power weight factor, Kessler said.

Buick's regular-sized cars, the LeSabre, Wildcat and Electra 225, have new bodies and introduce an attractive new side appearance with a contoured

line that sweeps from front fender to rear bumper.

**CHEVROLET**  
For the 1967 car buyer, Chevrolet stresses choice with a capital "C," E. M. Estes, general manager, said today.

Introduction of the Camaro as Chevrolet's sixth line of cars matches the American public's growing preference for individualized transportation," he declared.

Estes said the 48 new models of Chevrolet, Chevelle, Chevy II, Corvair, Corvette and

Camaro offer an "unparalleled variety of sizes, body styles, options and safety features." They go on sale Thursday, September 29.

Two models of the personal-size Camaro — a coupe and a convertible that Estes terms "four-passenger packages of excitement" — are built on a 108-inch wheelbase.

"Camaro offers the greatest choice of engines, trims, options and accessories Chevrolet has ever introduced with a new line of cars," Estes said. "The buy-

er can literally tailor his own automobile."

Also new for 1967 is a top-of-the-line Chevelle station wagon, named "Concours" which has wood grain exterior trim.

Many important new safety-related product improvements are standard equipment on all 1967 Chevrolets. They range from an energy-absorbing steering column and dual master cylinder brake system with warning light to passenger-guard door locks and a four-way hazard warning flasher.

Dramatic new styling marks the 1967 Ford which has received a major sheet metal change for the third time in three years. Pictured here are the X/L Convertible (above) and the X/L 2-door hardtop, both of which offer Ford's Select Shift Cruise-O-Matic transmission as standard equipment. Featured only on the Fairlane GTA in 1966, Select Shift permits the driver to shift manually or automatically. Ford's new styling features sculptured side panels and a gull-wing design grille that is die-cast in the X/L, LTD and Country Squire series. Engineering improvements give the 1967 Ford an even quieter and smoother ride. All Ford models will be on display at Ford dealer showrooms Friday, Sept. 30.

The 1967 Plymouth Valiant has new styling and a wheelbase lengthened two inches to 108. It remains a true economy car with generous passenger and luggage carrying capacity. Plymouth engineers say engine and drive line changes make it even better than its predecessors in fuel economy.

A new grille, flush-with-the-hood headlight covers, new tail-lamp styling and optional specially sporty-looking wheel discs characterize the 1967 exterior appearance of Oldsmobile's front wheel drive Toronado. Engineering improvements give the Toronado a smoother, quieter ride with no sacrifice in the car's outstanding handling characteristics. A spring-operated assist device makes it possible to swing the Toronado's doors open with a minimum of effort. A distinctive horizontal paint stripe is optional, as are bucket seats in the Toronado Deluxe. The Toronado is powered by the 425-cubic-inch, 4-barrel Toronado V-8 engine and features Turbo Hydra-Matic, power steering and power brakes as standard equipment.

The all new Camaro will be built in sport coupe and convertible models. The Camaro line incorporates many sprightly options that include concealed headlamps behind the lattice grille which opens and closes when lights are turned on and off, plus a hood with simulated louvers and a wide "bumble bee" paint band on the nose. A 330-cu.-inch V8 engine is used in the Super Sport version of the Camaro. They go on display September 29.

Pontiac's volume-selling Catalina series is represented in the top photo above by the 1967 hardtop coupe with the Ventura option. The Catalina's distinctive styling, interiors and colors, many standard equipment safety items and a wide selection of options has made this Pontiac one of the industry's largest selling cars. The Pontiac LeMans series is represented in the lower photo by the hardtop coupe. Separate styling features on the side, front and rear gives each LeMans model a new and different look.

Continuing its expansion in the upper end of the medium price field, Mercury for 1967 introduces two new top-of-the-line series, the Mercury Marquis, above, and the Mercury Brougham, below. The Marquis is a sporty two-door hardtop with formal, vinyl-covered roof. The Brougham features new Breezeaway ventilation with lowerable back window in the four-door sedan, as pictured, and a four-door hardtop. Interiors are luxurious in styling and in appointments. The 1967 Mercurys assume additional Lincoln Continental styling influence, with a broad, raised powerdome on the hood and a subtle hop-up on the rear quarter panel. The new cars go on sale in Lincoln-Mercury dealerships on Friday, Sept. 30.

Buick's Electra 225 series for 1967 features a long, low side profile. Its classic lines are emphasized by a sweeping contoured line running the full length of the all-new body. A newly-designed roof line adds to the car's smartness. Buick's new 430 cubic-inch V-8 engine with four-barrel quadrajet carburetor powers the Electra 225.

## Price Suggests Alternative To New Tax Increase

PERRYTON — With the possibility of wage and price controls and income tax increase being imposed following the elections in November, congressional candidate Bob Price offered alternative recommendations Tuesday.

"It is obvious that if the war in Viet Nam continues much longer there must be some measures taken to prevent a partial collapse of our economy from inflation," Price told members of the Perryton Lions Club at noon.

"Administration pressure for massive new domestic programs endangers our entire economy," he added.

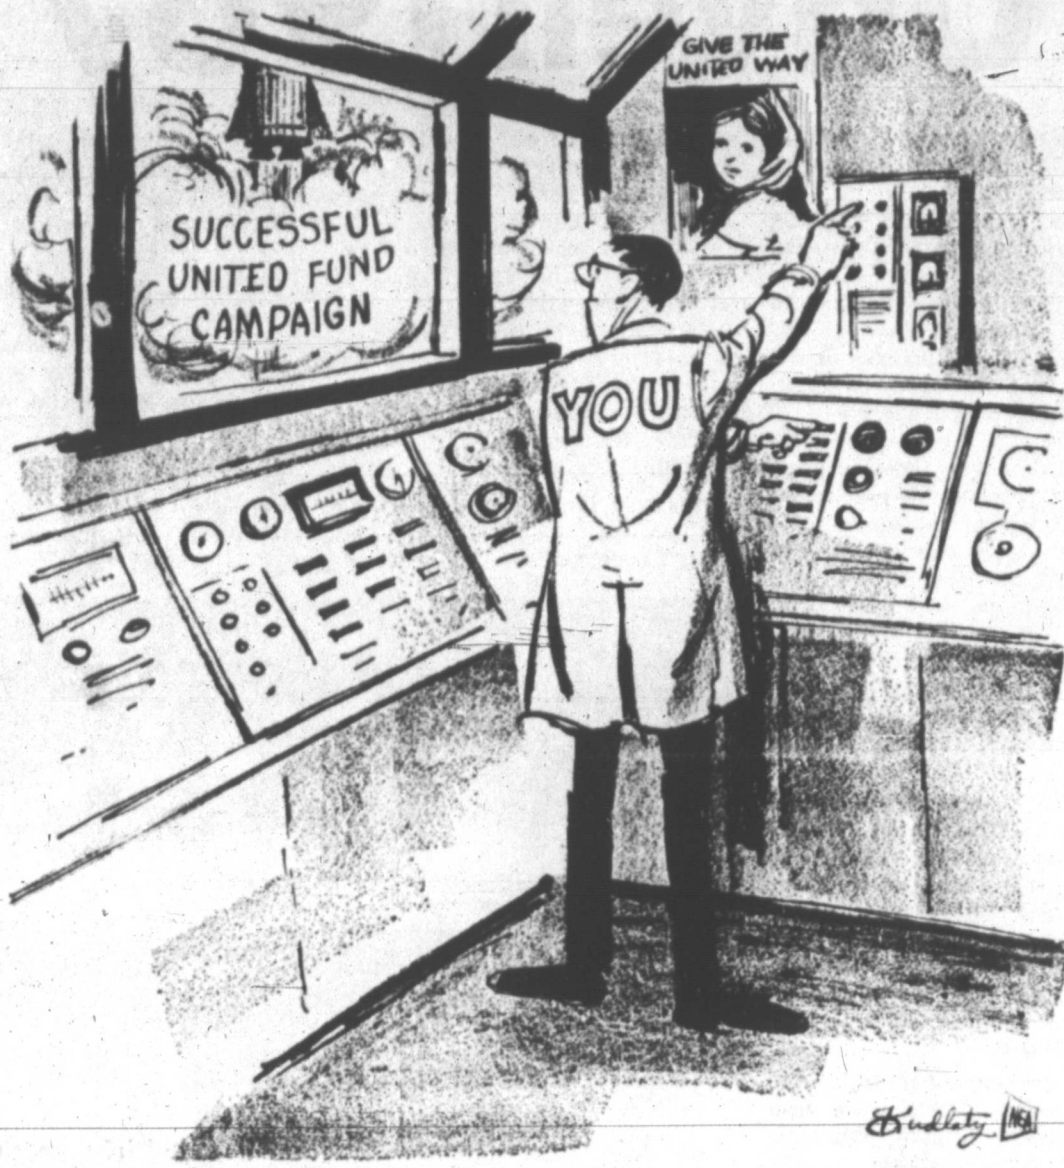

"The quickest way to halt inflation without an income tax increase and without wage and price controls is to halt non-essential Federal spending."

"Federal rent subsidies, an experimental model city, foreign aid, and expanded Great Society give-away programs are just a few examples of areas where spending should be cut back," Price continued.

The 18th District candidate also pointed out that France owes the United States almost seven billion dollars in outstanding debts from both World Wars.

"With President DeGaulle ordering American and NATO installations removed from France there is no valid reason why we should not demand immediate payment of overdue bonds," the Pampa rancher-businessman added.

**FREE TREATMENT**  
THE HAGUE (UPI) — In observance of animal day in Holland next week, a dog beauty shop is offering a free, complete treatment to any dog taken from the local dog pound and given a "decent home."

## Pampans Attend Corporation's Anniversary

Darrel Gibson and Gabe Crossman of Crossman Implement Co., Pampa, represented one of over 400 dealers and distributors who attended the recent 50th Anniversary Convention of Krause Plow Corp. in Hutchinson, Kan. "Looking Forward to Our Second Half-Century" was the convention theme.

Three separate sales and training sessions were held on Sept. 10, 12 and 14.

Highlighting this year's meeting was the introduction of 10 new models of tillage tools now

in production at the Hutchinson-based manufacturing concern. Those attending viewed field demonstrations of the new models, as well as performance demonstrations of some of the 100 basic models of tillage tools manufactured by the company.

### COOL FEET

STERLING, Colo. (UPI) — City manager Marvin McElwain received a letter from a young Winchester, Mass., lad thanking him for sending a pair of shoes the boy forgot in a municipal park.

"It's such a relief not to have to walk to school in my bare feet," the boy wrote.

## 12 THE PAMPA DAILY NEWS WEDNESDAY, SEPTEMBER 28, 1966 59TH YEAR

### Communist North Viet Nam Steps Up Soviet Contracts

By K.C. THALER  
United Press International  
LONDON (UPI) — Communist North Viet Nam has stepped up contacts with the Moscow bloc, far beyond the scope of routine consultations. Two major moves in the past few days have spotlighted this development which experts believe may signify more than meets the eye.

In Moscow, a high level North Vietnamese delegation, headed by deputy premier and the political bureau of the party's central committee Lee Thanh Ngi is talking to Soviet leaders. For the second time in less than a fortnight.

**Arrive For Talks**  
In Hanoi a top level Czech mission, headed by Premier Josef Lecard has arrived for talks with North Vietnamese leaders.

Little has emerged in public from these consultations. The Vietnamese mission is said to be dealing with aid and economic problems.

It is significant however that on its first stop in Moscow two weeks ago it met with the Soviet Party Chief Leonid Brezhnev and the party's chief theoretician Mikhail Suslov, as well as Yuri Andropov, one of

the Soviet party secretaries, in charge of party relations.

There has been increasingly talk lately of a cooling-off between Hanoi and Peking, with the latter seemingly alarmed at Red China's new ideological campaign. Moreover, authoritative Communist reports say Peking is pressuring Hanoi relentlessly to go on fighting, opposing any thought of peace negotiations.

The North Vietnamese mission has spent the last ten days in Communist east European capitals on an unpublicized tour of wide-ranging consultations.

They are believed to have dealt with important political war aspects as well as requests for more military and economic aid.

The Czech visit to Hanoi currently is all the more surprising as the North Vietnamese mission has just completed discussions with the Czechs.

Since his talk with the Vietnamese deputy premier in Moscow earlier this month Brezhnev, in turn has conferred with the Bulgarian party chief Todor Zhivkov and with Yugoslav leaders, following earlier talks with East German and Czech chiefs.

**NEW YORK** City Council President Frank O'Connor has been selected to face Republican Gov. Nelson Rockefeller this November as the Democrats try to break the GOP's hold on the governorship. O'Connor, who figures to have his hands full with Rockefeller, had an additional obstacle thrown in his path when fellow Democrat Franklin D. Roosevelt Jr. announced that he would run for governor as a candidate of the Liberal party.

## Nurses' Salaries Still Remain Low

AUSTIN — Nurses' salary increases in several large Texas hospitals deserve commendation in the opinion of a Texas Nurses Association officer, but she declared the pay in numerous smaller hospitals lags far behind.

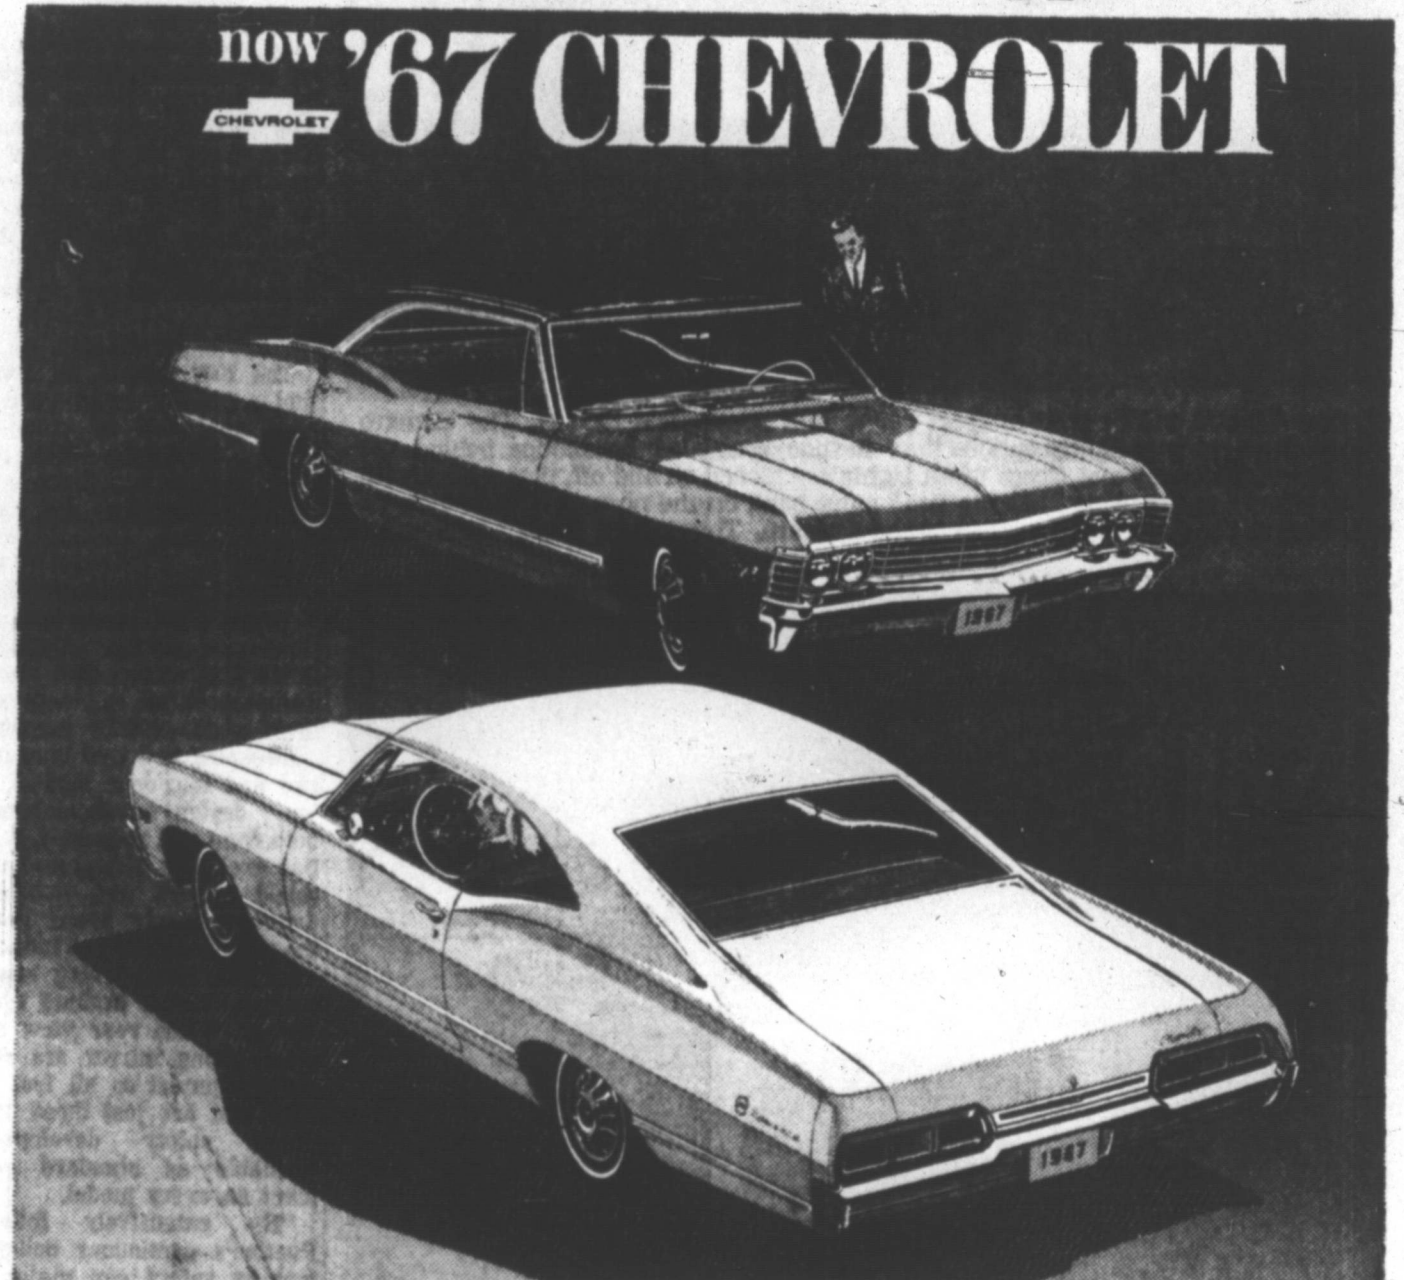

"Many moderate and small-sized hospitals throughout the state," says Miss Billye J. Brown of Austin, association president, "pay such low salaries that lack of staff reduces the quality of nursing care for patients."

The American Nurses' Association with which she is affiliated, she continued, "has adopted a basic salary of \$6,500 per year or \$542 a month as a realistic and reasonable income."

Salaries more than twice the average in Texas are being paid in San Francisco, for example, where hospitals recently were forced to raise the pay to a minimum of \$578 and a maximum of \$703 per month."

### Bowling Breaks By Gil

GIL BURGUND

Claire Edwards could hardly wait to tell me that Lee Baggerman had picked the 4-7-10 split bowling on a Tuesday a m league. She was just as happy as if she had done it herself. Now if I could only get a lot more people to call in a lot more news it would be swell. Thanks Claire.

R. K. Parsley had that pleased little boy look when he picked the 4-7-9-10 which is quite a feat. That's the reverse of the one that we used to see on 'Make That Spare'.

Bob Oasley ought to be on TV. The way he bends that ball is a caution and everyone wonders how it ever stays out of the gutter.

We have to thank Bartlesville, Okla. for sending us a nice bunch of bowlers Gary Haag, Larry Parker, and Don Masters who transferred here lately.

Tuesday evening Bob Brown, the Photographer for the Celanese publication, The Celagram, had everybody all shook as he snapped flash bulbs everywhere. We should get some good publicity from some of those shots especially for Lou Donghi who was really the King

of the Hill with a 216 and 234 game and a 607 series that night.

Oran Skinner meant business by starting out with a 220 game in setting an average. Doris Kreft starting with a 110 game jumped up to a 140 and then a 190. Just think in three more games she might have had a 300.

Young Johnny Snuggs made himself so mad at throwing a gutter ball that he turned around picked up the spare anyway.

Shirley Winters picked the 5-8-10 and Jackie Mills the 4-7. Pauline Redmond picked the 3-7 and didn't even see it. She says she is always afraid to look cause she would probably faint. Rosa Warminski says Pauline has a habit of missing the easy spares but not the hard ones.

Back on the job of knocking over pins we find Ethel Bryant, Jo Ann Adkins, LaVerne Ducall and if you can find her, Vesta Parker and others too. I probably missed Betty Cox says you really don't have to be a contortionist to do a good job of bowling but it sure helps.

Mark Carter was a pretty happy youngster Saturday. He bowled a 404 series on a 94 average and Debbie Winters was a mighty unhappy one cause she fouled on about the only strike she had all day. Kerry Parsley had another crack at the King of the Hill title and this time he relieved Stan Cable of the crown. Tommy Harmon just couldn't bowl up to par Saturday either, his excuse was too many girls. That's an excuse?

We have a Mike, Jim, John and Keith Enioe bowling in the Bantams. Pretty good representation wouldn't you say?

If practice made perfect Grace Bright would have top honors except she has been hitting the wrong pins, namely her ankle and brother does that hurt about the second time. Pretty good too she is on a really Bright team, Grace Bright, Pat Bright and Jane Bright are all members.

Gene Fleming was bemoaning the fact that he wasn't good enough to bowl on a league but somehow managed to set a 163 average.

Somehow I have run out of news and also out of time and space so that's all for now.

The Pampa Daily News A Watchful Newspaper EVER STRIVING FOR THE 100 O TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Prayer Amendment

The Senate Judiciary Subcommittee has now concluded hearings on the proposed constitutional amendment to allow voluntary prayers in public schools.

The New Outlook

It being the responsibility of a newspaper to inform, interpret and explain, we pause here to talk patiently with those people with old-fashioned ideas who find it hard to understand the true meaning of some of the "demonstrations" they see reported on TV and in news pictures.

Why Not \$100 an Hour?

Now that the United States has a new minimum-wage law, something like 37 1/2 million workers will be included by 1969, according to reliable estimates.

Your Dental Health

By DR. WM. LAWRENCE Tall Tales Take Small Minds Off Big Ouch

When I was six years old I was already a dentist and had a little office out West. And do you know who my best patient was? Buffalo Bill. He and I were good friends. We used to go hunting together.

One day when I was filling a tooth for BB (I used to call him BB for short), the telephone rang and the voice said: "Hiss, hello, hiss. I've got a toothache, hiss, and I want you to fix it, hiss."

I knew who it was at once. I could tell by the hisses. It was a snake. So I said, "I'm sorry but I don't take care of snake's teeth." When he heard that the snake got mad and said: "Hiss, I'm coming up to get you, Doc, hiss."

I hung up the phone and told BB what the snake said and he said to me: "Don't worry, Herbie (BB called me Herbie). If that snake comes up here I'll take care of him." But we locked the door anyway just to be sure the snake couldn't get in.

Pretty soon we heard the elevator door open, then a hissing noise in the hall and then do you know what happened? That snake came crawling through the little window, over the waiting room door, which we forgot to close.

When BB saw the snake crawling down, tall first, he whipped out his six-shooter and fired 13 times, each time shooting a rattle of the snake's tail. You see, the snake was 13 years old. He grew a new rattle every year.

Gosh, I felt sorry for old snake. He looked so bare without his tail. So do you know what I did? I patted back every one of those rattles and the snake was so happy he said he wanted to be my friend. That's how come one of my best friends is a snake.

That's the end of the story. And it always ends when the filling is completed. "Spit please" - brings the little patient back to reality.

Telling humorous adventure stories is as good as "novocain" for some young patients; it fascinates them. Some dentists entertain with records and some even show movies. These are dentists who are interested in children and their special dental problems.

"How can I select the right dentist for my child?" many mothers ask. Besides usual criteria of ability, cleanliness, kindly manner, convenient location, reasonable fees, etc., and short of psychoanalyzing the child and dentist to see if their personalities jibe, FIND OUT:

—What kind of a man am I trusting my child to? —Does he like children in his office, or does he get annoyed and nervous?

—Does he have things in his waiting room that children can identify with, such as toys, books, children's pictures on the wall, drawing paper and crayons, small furniture, etc.?

—Then, put the \$64 question to him: "Doctor, do you like to work on children?"

The Nation's Press

MULTIPLYING THE ERROR Freedom First, London, Eng. If it be admitted that a man, possessing absolute power, may misuse that power by wronging his adversaries, why should a majority not be liable to the same reproach?

Now, you understand, don't you? The foolishness of setting a minimum wage by law should be evident to all persons. For if setting a minimum of \$1, or \$1.25, or \$1.60 an hour is of benefit, then Congress could make everyone wealthy by decreasing a minimum of \$10, \$20 or even \$100 an hour.

Even the economic illiterates who are pushing such laws realize that the larger amounts would bring on unemployment and financial chaos which would destroy the nation. So they give us small doses of the poison, in hopes that they will fool enough people into voting to return their "benefactors" to office.

We hear constantly about the young people who are school dropouts and who get into trouble because they have no employment. Even the President's Council of Economic Advisers recently said: "The conditions of insecurity

Thanks Juts the Same, Lyndon, But—

Backstage Washington

Hidden Million for Civil Rights Enforcement Found in HEW, Labor Budgets: Order Funds Be Centralized, Fully Known

WASHINGTON — Congressional probes have tracked down and eliminated more than \$1 million in hidden funds for "civil rights activities" in the Johnson administration's current budget.

This backstage search, which so far has involved only two departments, is being expanded to include all government agencies.

This extraordinary hidden fund search was ordered by the House Appropriations Committee after Representative John Fogarty, D-R.I., head of the subcommittee in charge of the budgets of the Labor and Health, Education & Welfare Departments, discovered provisions for money for "civil rights activities" scattered throughout their budgets.

Appropriations committee members were astonished by Fogarty's report that a study of the HEW budget had disclosed "more than 25 separate civil rights funds" totaling nearly \$1 million.

This hidden money was in addition to the department's specific request for \$3.3 million for civil rights enforcement programs. These funds were approved but the others were rejected.

Representative Fogarty, a strong civil rights supporter, reported to the full Appropriations Committee that the secret items for "civil rights activities" were found in fund requests of nearly every division of HEW, as follows:

- "National Institute of Arthritis & Metabolic Diseases \$105,000; National Cancer Institute \$91,000; National Heart Institute \$60,000; National Institute of Blindness \$42,000; National Institute of Child Health and Human Development \$62,000.

"Office of Surgeon General \$138,000; construction of health education facilities \$67,000; National Institute of General Medical Services \$62,000; hospital construction \$19,000; Division of Regional Medical Programs \$20,000.

"Bureau of Family Services \$50,000; Chronic Diseases and Health of Aged \$45,000; Air Pollution \$16,000; communicable disease activities \$10,000; Radiological Health \$9,000; Occupational Health \$8,000; National Library of Medicine \$7,000; and Injury Control \$1,000."

It's Up To You

By HOWARD KERSHNER

What is Sacred Here? The basis of relief for suffering people normally has been that the needy should do their best to help themselves. This principle is sound.

If the American people knew that a vast herd of about 200 million sacred cows roam throughout India eating what they want, wherever they find it, and that an estimated one-quarter of the grain we send to India will be consumed by rats, the Congressional vote to send a billion dollars worth of food to India would certainly not have been unanimous.

Few American taxpayers will want to dig down into their pockets for \$175 million to buy food for rats in India. India's cattle population of about 200 million is about double that of ours, and none of these animals are used for meat. Some 20 million of them are estimated to be 15 years or more in age, and a Delhi official, as reported in Time magazine a few years ago, remarked with great bitterness that the 20 million aged cows consumed the food production of about 40 million acres of Indian land. The same article in Time also contained the remark that "Hindu businessmen support old cows' homes more readily than old people's homes."

There is also a very large population of sacred monkeys in India, adding nothing to the economy while consuming large quantities of food.

Hunger is a terrible thing. I have spent many years gathering and distributing food to starving people, but when it comes to feeding unnecessary animals, while babies are starving, the limit of tolerance for human frailty and error has been reached. Something should be done about this before more food is shipped to India. We have said this many times, but we shall continue saying it until something is done.

A SECOND VOTE — Democratic House leaders are making a strenuous last-minute effort to block an investigation of the U.S. Office of Education.

In a series of backstage talks with Representative Howard Smith, D-Va., chairman of the Rules Committee, the legislative leaders worked out a compromise under which the committee will reconsider its vote approving the probe.

At a meeting in Speaker John McCormack's office, Smith agreed to another vote after Representative Emanuel Celler, D-N.Y., chairman of the powerful Judiciary Committee, presents the administration's arguments against an investigation.

The Doctor Says:

By DR. WAYNE BRANDSTADT

Grave Aftereffects Peril Electric Shock Survivors

Many people have the impression that if an electric shock doesn't kill you, you have nothing to worry about. Unfortunately there is mounting evidence that those who survive may incur serious injuries. There are a number of factors. The type of current is important. Other circumstances being equal, an alternating current is three or four times as dangerous as a direct current. Death may result from as little as 220 volts if it causes the heart to fibrillate. Although some persons survive exposure to several thousand volts, deaths from over 1,000 volts are caused by paralysis of the respirator center in the brain.

Other important factors are the duration of contact with the current, the part of the body through which the current travels, electric resistance at the contact point and the victim's general health at the time of the accident.

The late effects of electric shock may be seen in the nervous system (paralysis or sensory disturbances) or the blood vessels (hemorrhage and clotting two weeks or more after the accident).

Recently Drs. L. B. Brinn and J. E. Moseley of New York observed a man who received a 2,500-volt shock that lasted about 20 seconds. He didn't pass or even require artificial respiration. The current went in one hand and out the other. As a result he had pain, swelling and limitation of motion of both shoulders. This was attributed to internal burns and no X-rays were taken until 18 months later. At that time this man was found to have fractures in both arms produced by the intense jerking of his arm muscles at the time of the accident. Furthermore the bony shell the humerus forms around the marrow had become very thin.

Every household nowadays contains dozens of electrical gadgets that would be extremely hazardous were it not for the excellent job being done by the Underwriters Laboratories, Inc. Your television set, electric fan,

toaster, razor, hair curler, etc., should carry the UL label to insure that it has been properly tested for safety.

Q — In the past I have applied castor oil to warts and they disappeared. Would castor oil have the same effect on moles?

A — Since warts disappear spontaneously after several months, whatever you used last is likely to get the credit for making them disappear. Moles will not go away unaided and I doubt that they would go away after any number of treatments with castor oil.

Hunt for Truth

BY H. L. HUNT

IS YOUR HOUSE IN INTERSTATE COMMERCE?

For those Americans still interested in what the Constitution actually says instead of what five members of the current Supreme Court would like it to mean, a kind of landmark will be reached if Congress passes the law now before it to control the sale and rental of privately owned dwellings.

Whatever merit such legislation may have or lack, if enacted by individual states, it should be glaringly obvious that it can have no shadow of Constitutional justification if enacted by the Congress of the United States. Not one of the powers granted by the Constitution to the federal government mentions or implies, even by the most far-fetched interpretation, a federal authority over transactions in real estate.

Not even the tortured interpretation of the Fourteenth Amendment which allowed the federal courts to intervene in local schools can be used in this case. Public schools, being state agencies, have been argued to be subject to Fourteenth Amendment restrictions on state action. But the sale or rental of property is a private agreement.

The only basis on which a federal law to control housing sales and rentals could be held Constitutional is that last resort of the Constitution-twisters, the interstate commerce clause. Critics of Constitution-twisting have sometimes wondered how elastic the clause would prove to be. If it is applied to a house, anchored to the ground at every cornerstone, then "interstate commerce" is the day we no longer have a Constitution.

Question Box

QUESTION: "Do we have two or four parties, politically speaking, in the United States? Do we have just Democrat and Republican, or Democrat, Republican, Conservative and Liberal? (This excludes naming Communist Party, Patriotic Party, Socialist-Labor Party, etc.) Should parties be eliminated, re-named, or re-aligned?"

ANSWER: It has appeared that there has been only one political party — or at least one political philosophy in the past 40 years. To all intents and purposes the Democratic party of Roosevelt, Kennedy, Truman, Johnson and Brown is no different from the Republican party of Hoover, Eisenhower, Warren, Kuchel and Nixon. Granted there are some slight degrees of difference, but basically there has been no difference in philosophy. As examples, the Democrats in 1932 decried the socialist spending program of the Hoover administration, then adopted all of the Hoover program of social intervention and went further. Republicans complained of the Democratic spending, and the Eisenhower administration had the biggest peacetime budget deficit to that time. Each party builds on top of the previous administration's bureaucratic government.

From time to time it has been suggested that the "liberals" of both parties should get together in one party and let the "conservatives" get together in the other party. About the only thing that has come of it is that Wayne Morse left the Republicans for the Democrats and Strom Thurmond left the Democrats for the Republicans. There are more "liberals" on the Democratic side and more "conservatives" on the Republican side. Yet Democrat Lausche of Ohio, a Democrat, has a far more "conservative" voting record than a great many Republicans, including Javits of New York, and even Kuchel of California — until recently.

Since we have no faith in political action to solve human problems, we leave the question of whether political parties should be eliminated, re-named or re-aligned to those who can see some value in political solutions.

# Drag Racing Has Come a Long Way Since Borrowing Dad's Car

By BOB COCHAR and DAVE BURGIN  
Newspaper Enterprise Assn.  
NEW YORK (NEA) — Ten years ago there couldn't have been a more improbable ex-

pected "funny cars" — cars with stock-looking glass fiber bodies which house powerful engines and with suspension systems. Nicholson's factory-backed car, Eliminator I, is a special

EASIEST WAY to get at the engine is to take the body off. Don Nicholson's glass fiber body Comet is powered by a 427-cubic-inch single overhead cam fuel-injected engine.

change between father and son than this one:  
"How'd you do in the drags today, Butch?"  
"Great, Pop. Turned 95.3 in the quarter and did in a Chevy, a Ford and a Dodge Charger."  
Man, has drag racing in the United States changed!  
It has come a long way since junior did his drag racing on Sunday afternoon at the local strip by borrowing dad's car under the guise of taking Honey Bee for a ride in the country.

Or worse yet, the Saturday night date often turned into dangerous through-the-gears races on suburban and rural back roads.

Now the sport of drag racing has acquired dignity, but not just because it has won parental acceptance. Rather, the young people who are drag racing (about 80 per cent are in the 16 to 25 age group) try hard, and very often succeed, at being sophisticated about it.

For one thing, in most sections of the country, drag racing on all levels is well-organized. The two big sanctioning bodies, National Hot Rod Association have seen to that.  
And safety regulations are much tighter than they were 10 years ago. No drag driver, no matter what age or what class, goes off the line with his seat belt unbuckled and his equipment unchecked.

Still, the thing the drag racing set today can be proudest of is its knowledge of the sport and over-all contribution to automotive progress.

"These kids are unbelievable," says a Ford Motor Co. executive. "The modifications they make on some of the cars not only work well but sometimes baffle the engineers."

"We get letters from 18 year olds all the time suggesting we alter this or try that. They are growing up in the era of the automobile and they know what they're talking about."

The scope of drag racing has broadened mainly because there has evolved a system that offers a racing class for nearly every type car imaginable. Classes are rigidly controlled so that competition is kept close. This means races are won by microseconds which, in turn, means competitors must keep sharp scientifically. The drawback for young enthusiasts, of course, is the expense of the sport.

At the top of drag racing are the professionals — the Don Nicholson, and the Arnie Beswicks — who are to the amateurs what Willie May is to Little Leaguers.  
"We used to run around trying to impress upon these kids that competition was the thing, not the kicks," Nicholson said. "But I got behind the times. They already know. The or/s who don't either learn it fast or get out."

Nicholson, 39, came up through the ranks. His first drag race, believe it or not, was in a "modified 1930 Oakland sedan tractor." When he was 14, his parents moved from their Missouri farm to California, the home of drag racing.

And there, a few years after the war, Nicholson started driving coupes, sedans and roadsters in drags. Now he's at the top, driving the super-sophisti-

Mercury Comet Cyclone that to all outward appearances would look right at home in any family's driveway.  
Except pop wouldn't know how to drive it.

SPINOFFS — The motorcycle industry is taking steps to im-

prove the safety record of motorcycles and scooters. Anticipating federal pressure, the industry plans to prepare guidelines for sound licensing procedures. "A 'Wheeling It'"

## Highlights and Sidelights

By VERN SANFORD  
Texas Press Association  
AUSTIN, Tex. — A complete revision of the Texas Constitution, proposed by Gov. John Connally and endorsed by the state Democratic convention, looks like the big state capitol news of the coming years.

Republicans likewise gave approval at their state convention to the idea of modernizing the 1876 constitution. But a long row lies ahead. Already many are expressing doubt as to the wisdom of a complete revision. It would be a long process. First, the Legislature would ask the voters to approve the calling of a constitutional convention. Then presumably, delegates to the convention would be elected. Their final product would go to the Legislature for submission to the voters for approval or rejection.

Governor Connally's suggested route would be to set up a cabinet system like the federal government. This would give the governor responsibility for all phases of state government. Now he appoints only one major state department head — the secretary of state.

BOLLWORM DEADLINE EXTENDED — Agriculture Commissioner John White granted a 10-day cotton harvest and plow-up extension (to October 5) for farmers in 13 South Texas counties under the pink bollworm control law.

Counties affected by the extension are Aransas, Brooks, Duval, Jim Hogg, Jim Wells, Kenedy, Kleberg, Nueces, San Patricio, Webb, Zapata and portions of Hidalgo and Starr.  
White urged fast field clean-up to prevent a "seriously threatening" buildup of pink bollworm.

WATER PLAN RESTUDIED — Texas Water Development Board pulled back its massive \$3,700,000,000 proposed statewide water plan for re-evaluation in view of strong criticism during its series of 30 public hearings.

Board announced 16 additional studies to determine reasonable "alternates" which may be put into the plan in case populations grow and water needs are higher than those originally predicted.

Among subjects scheduled for new looks are:  
—Alternative sources of irrigation water for West Texas, including possible diversions from surplus East Texas basins;  
—Importing water into or above Highland Lakes in the Colorado River basin;

—New sources of industrial and municipal water for Abilene, San Angelo, Odessa, Lubbock and the Trans Pecos-El Paso areas.  
Board also will cooperate with the U.S. Bureau of Reclamation in determining costs of deliver-

ing water to West Texas, utilizing a pump-back system up the Colorado River channel.

COMMITTEE SYSTEM Eyed — A study panel has agreed to principle on far-reaching recommendations to modernize antiquated procedures by which committees of the House of Representatives process legislation.

House Rules Study Committee, headed by Rep. L. DeWitt Hale of Corpus Christi, concluded that the number of standing committees should be cut from 43 to 25; that membership should be based on a modified seniority system; and that committees should return detailed reports and analysis of bills with aid of professional staffs.

COLLEGE GRANTS PUSHED — Coordinating Board of the Texas College and University System recommended 48 projects totalling \$23,000,000 for federal grants under Title I of the Higher Education Facilities Act of 1963.

Money has not yet been allocated by Congress, but the applications were recommended early to speed their processing through the U.S. Office of Education. Federal money will be matched with state and local funds for new buildings.

SHORT SNORTS — Thurman Dobbins of Austin and Mrs. Mary Margaret Perry of Houston were named to the State Commission for the blind.

Governor Connally has approved Neighborhood Youth Corps Projects in El Paso and Mount Vernon, for grants of \$194,35 and \$124,80, respectively.

Application blanks for the November 18-19 Selective Service Qualification Test for college students, to be used by local boards in considering deferments, now are available to students.

Sabine River Authority will receive \$120,440 from the federal government under the Land and Water Conservation Fund Act, which they will match locally, to develop Wind Point Park at Lake Tawakoni.

Texas Water Development Board approved Franklin County water district application for \$1,700,000 in state aid for the \$3,400,000 Cypress Basin dam.

Texas Highway Commission approved the plan to purchase Dallas County right-of-way for Interstate Highway 20 between Dallas and Fort Worth.

State of Texas spent \$1,860,633,789 during the fiscal year ending August 31, 1966, for its normal governmental functions, according to State Treasurer Jesse James.

INSURE CONVICTS — LONDON (UPI) — Britains prison authorities, unable to get housing for released prisoners, have come up with an idea.

To encourage landlords to take on ex-convicts, they will be insured against possible thefts.

"This is D-Day"

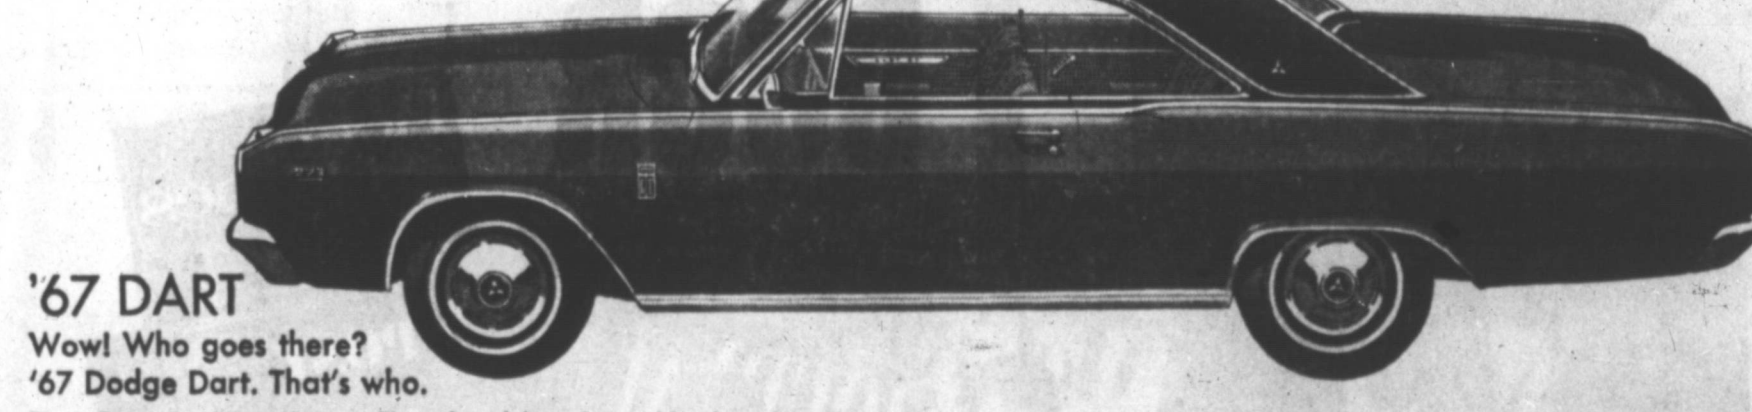

# DODGE REBELLION OPERATION '67

Fresh off the drawing board with an arsenal of powerful new ammunition. Bigger. Longer. Sharper. Hot new Dodges to back the attack on dull driving. Dart, Coronet, Polara, Monaco, Charger. Check them out today. The Dodge Rebellion will get you if you don't watch out.

'67 CORONET  
Advance and be recognized. We know you. You're '67 Coronet.

Last year's biggest selling Dodge gets all freshened up, all sharpened up for another big assault on the drag Sixes and dull V8s. And you know what we mean. The ones you've had enough of. You're ready for Coronet. You're ready to move out of that deep rut and into a car with class, dash, and lots of it — with your choice of a slick Six or 4 great V8s. That's Coronet for '67.

'67 DART  
Wow! Who goes there? '67 Dodge Dart. That's who.

That's Dart, all right — totally new. Through-and-through new. New long, low silhouette. New plush interiors. New easy-to-read, easy-to-operate dash instrumentation. New performance, too. With a choice of engines from the supersmooth 170-cu.-in. Six to the 273-cu.-in. 4-bbl. V8. Not to mention a host of new safety features. But there's one thing you'll recognize about '67 Dart — its low price. It's still got compact written all over it. Why resist? Enlist. Dart for 1967.

'67 MONACO  
Full speed ahead. Monaco, flagship of the '67 Dodge fleet.

If you're determined to go first-cabin in '67, here's the way to go... Monaco. Extras? Everywhere. Everything a luxury-lover ever looked for — even optional vinyl-covered bucket seats and headrests, if you wish. Plus the power of the standard 383-cu.-in. V8 up to the 440-Magnum, optional at extra cost, to put you ahead of the pack.

1967 MODELS NOW ON DISPLAY.

## Brothers Finish 40 Years Service

Two brothers, Glennard G. Tennant and Nimrod E. Tennant, both in Sinclair Oil & Gas Company's production department here, completed 40 years with the company Friday. They have worked their entire careers without a disabling injury.

Later this year each will receive a certificate and an engraved watch in recognition of the long service record.

Born in Jakes Run Monongalia County, W. Va., they joined Prairie Oil and Gas Company at Berger in 1926. Nimrod Tennant, gangpusher, transferred to Pampa in 1930; Glennard Tennant, pumper, moved to Noelette, Texas, in 1930 and to Pampa in 1933.

Mr. and Mrs. Glennard G. Tennant live five miles east of Pampa. They have one son, Richard Lee Tennant, who is employed by Sinclair at Medicine Lodge, Kan.

Mr. and Mrs. Nimrod E. Tennant, who live on the W. W. Merten lease four miles south of Pampa, have one son, Merle W. Tennant, of Miami, who is employed by another oil company.

signed to prevent accidents and to promote easier, safer driving." Mr. Rippey said, "An estimated 5,000 lives were saved in the entire country in 1965 because drivers could use the Interstate Highway System instead of more dangerous conventional roads; total mileage open to traffic passed the 20,000 mark during the year."

"The number of lives saved is expected to be higher this year and to reach 8,000 lives annually after completion of the System, which is scheduled for 1972 but is expected to be delayed because of lack of funds."

Mr. Rippey's firm, which is a subsidiary of CIT Financial Corporation, provides the financial support that enables contractors to acquire the huge, colorful yet costly equipment needed to build interstate and other highways.

# New Standard For China Suspected

HONG KONG (UPI)—The Communist Bank of China here hung out a huge red flag bearing a picture of Mao Tse-tung today and touched off speculation the Peking government has decided to replace the traditional five-star standard it has used since its founding in 1949.

The flag showed up today in preparation for the Oct. 1 celebration of Red China's national day.

It bears Mao's picture in the upper left-hand corner. Four volumes bearing the title "Selected Works of Mao Tse-tung" adorn the center.

At the same time the new flag appeared, the traditional flags—a big yellow star in the center of a red field with four smaller yellow stars in the upper left hand corner—were withdrawn from all other spots they normally occupy.

Peking has made no announcement of plans for a new flag. But the current cultural revolution underway in China has carried the cult of Maoism to new heights and such a move would be a fitting symbol of China's "cultural revolution."

Meantime, a usually reliable Hong Kong Chinese daily, predicted today the Peking regime will make "starting revelations" possibly by displaying new rockets during the Oct. 1 celebrations.

## Foreign Commentary

By PHIL NEWSOM

UPI Foreign News Analyst BAN ME THUOT, South Viet Nam (UPI)—Just outside this highland provincial capital, a young Montagnard mother unconcernedly completes her open-air bath beneath cooling flowing spring water piped from a nearby hillside. Close by, her daughter scrubs diligently at the family laundry.

To the left, in a setting of banana trees and coconut palms, a narrow path winds down the hillside to the village fish pond and the communal garden where the villagers have planted sweet potatoes, eggplant and Guatemalan corn. This is Darlac Province, bordering on Cambodia in the Central Highlands.

Like all of South Viet Nam, it has known little but bitter struggle for 25 years, against the Japanese, the French, the Communist Viet Cong, and, here in Darlac the struggle of the Montagnards or mountain people to preserve their ways and lands against the pressures of the in-moving Vietnamese.

After days spent amid the flooded flatlands and thatched huts of the delta, this could be a different land in a different world. Gnarled banyan trees cast huge limbs across wide streets. Bougainvillea and flame trees bloom.

Headquarters in Lodge And here in Ban Me Thuot, the U.S. Military Assistance

Command has its headquarters in the lodge from which former playboy Emperor Bao Dai launched his elephant and tiger hunts.

It has been two years since the Viet Cong were able to overrun a district capital in Darlac, and it has not known major military action since early this year. Province Chief Col. Le Van Thanh estimates his province is 70 per cent secure.

An estimated 1,600 Viet Cong guerrillas spread occasional terror from their jungle and mountain hideouts, but American advisers believe main force Communist North Vietnamese use the province primarily as a transit point in their push toward the delta.

Oasis for Refugees

Officially, Ban Me Thuot's population is 55,000. But its relative security makes it a special oasis for thousands of refugees and a headquarters for the Chieu Hoi, the "open arms" program which welcomes the return of former Viet Cong to the government side.

Assigned to Darlac as a civilian American adviser to Thanh is Vaughn Stapleton of Somerville, N.J.

The Benlux Customs Union is composed of Belgium, Luxembourg and the Netherlands.

HEAT SHEET of lightweight steel foil is the newest thing in heating units. Consisting of paper-thin steel foil laminated to epoxy film and etched to form the electrical circuit displayed here, the 2-by-4-foot units are attached to the backs of steel panels designed to fit into standard frames of a suspended ceiling. The sheets already are being used as the sole heat sources for several schools in New Hampshire.

AGILE LEOPARD MOSCOW (UPI)—An agile snow leopard escaped on horseback after it was surprised by an armed herdsman and his dog in the mountainous Kirghizia area in central Asia, the Soviet news agency Tass reported Tuesday. A witness, who herds horses, said that when the leopard was discovered by the dog, it jumped with "lightning speed" on a horse and bit the fear-crazed animal free only after it reached some rocks into which the big cat disappeared.

## Television in Review

By RICK DU BROW

United Press International HOLLYWOOD (UPI)—That fabulous invalid of television, the Western—often written off as being out of date and too simple for the contemporary mentality—is showing its timeless appeal again this new video season.

Some years ago, the home screen was deluged with Westerns, and then suddenly, in recent seasons, the oaters went into decline. Some film production geniuses held—and still hold—to the theory that youngsters in the television audience, who now comprise a large percentage of the viewers, had adopted World War II as their generation's equivalent, or counterpart, to the older folks' Westerns. Thus the rash of World War II dramas—and even comedies.

Temporary Demise

The new video season, however, tends to confirm that the temporary demise of Westerns was nothing but a matter of the usual entertainment cycles, and that the oaters are still probably the champion source of melodramas for Americans, despite fads.

For example, some of the returning video Westerns—top-rated "Bonanza," "Gunsmoke," "The Virginian," "Daniel Boone" and "The Big Valley"—are not only holding their own, but have been joined by a number of other frontier epics. No less than three one-hour Western series have had their debuts on ABC-TV one is "Iron

Horse," which deals with a gambler who wins a railroad in a poker game, and stars Dale Robertson, who formerly headlined another Western, "Tales of Wells Fargo," and shrewdly predicted not too long ago that the oater decline was strictly a cyclical happening.

Another ABC-TV Western is "Shane," based on the movie, but very loosely, and starring David Carradine as a former gunfighter trying to settle down peacefully, but not allowed to by the network.

The third ABC-TV hour Western is "The Monroes," about five brothers and sisters who try to settle a homestead in hazardous country after their parents are drowned heading west.

Over at NBC-TV, where "Bonanza" and "The Virginian" have been two of the few shows that have kept the network in the ratings fight in recent years, there is an unending search to come up with more such staples, and this year the entry is called "The Road West," starring Barry Sullivan as a widower who homesteads with his family.

Interesting Note

An interesting note concerning the new season is that another freshman NBC-TV series, "The Hero," which pokes fun at Westerns, appears to be heading for ratings failure, at least as of the moment. The story concerns a television Western idol who, rather than being a hero in real life, is pretty much of a bumbler.

This does not mean, however, that comedy Western series won't be tried again—since "the Hero" is really more of a "situation comedy with a modern setting than an actual frontier story. Among the future projects that could classify as comedy Westerns are "Rango," with Tim Conway, formerly of "McHale's Navy"; and a possible show called "Sheriff Who!," headlined by John Astin, recently of "The Addams Family" and before that "I'm Dickens...He's Fenster."

It is possible that another old television standby—the straight cops and robbers or private eye series—may also be starting another cycle after being pushed out of the picture in recent seasons by spoofs of the same subjects. Spot ratings of ABC-TV's new program, "The Felony Squad," haven't been bad. And NBC-TV has signed Jack Webb to revive his old "Dragnet" series for at least 13 episodes, possibly to move in as a midseason replacement.
