Germany's Forces Occupy Ukraine Capital

115 Deaths In A Week -- Terrorism, Reprisals In Nazi-Held Zone

By The Associated Press. Shots of a German firing squad broke the quiet of a Paris dawn once more today as two more communists were executed in reprisal for demonstrations against the German occupying authorities in France.

Paris has become in recent months a respite symbol of the chafing of a populace under authoritarian rule, there the Germans have taken the most drastic of measures applied in the many occupied lands.

Bombings and gunfire marked the continued resistance of Serbs in the mountain hamlets of Yugoslavia. An explosion in the Zagreb, Croatia, central telephone exchange last Sunday wounded at least 13 German soldiers, one of them a major, and seven Croats.

Baruch Favors A Ceiling On All Prices

Says Action Would Save 20 Per. On Appropriations

WASHINGTON, Sept. 19 (AP)—Bernard M. Baruch, World War head of the war industries board, told congress today legislation which would put a ceiling over the entire price structure was the "greatest single necessity of our present crisis" and would save "twenty per cent or more of all appropriations."

Other Red Armies Claimed Trapped With Heavy Loss

By The Associated Press. Adolf Hitler's high command reported late today that German troops have entered Kiev, the Ukraine capital and Russia's third greatest city, while other Nazi forces have trapped four Russian armies and stormed within 80 miles of Kharkov.

The swastika flag is waving over the Kiev citadel, the Nazi high command said, announcing the capture less than 12 hours after the Russians officially acknowledged that German troops had reached one of Kiev's gates.

The city, with a population of more than 850,000, had been under siege for two months. Grave new threats also imperiled Russia's second biggest city, Leningrad, with the Germans reporting that the guns of the mighty Kronstadt naval base, 20 miles west of Leningrad, had been silenced.

In the drive toward Kharkov, Hitler's high command reported, Nazi troops captured the key rail town of Foltava, 300 miles east of Kiev and 65 miles east of the Dnieper river. Kharkov is the chief industrial city of the Donets river basin.

Kansas City Electricians End Strike

By The Associated Press. A walkout of AFL electricians at Kansas City was ended today and striking merchant sailors on the Atlantic and Gulf coasts expressed willingness to arbitrate "on certain conditions."

The electricians voted last night to go back to their jobs, after the Kansas City Power and Light company reportedly agreed to reinstate all strikers, including five men accused of sabotage.

The striking AFL sailors made their tentative arbitration offer last night after the Maritime Commission had requisitioned three tied-up vessels of the Alcoa line. The commission had warned the ship owners and the strikers Wednesday that the vessels would be taken over under a dispute over war bonuses was arbitrated.

Will They Repeat? Here is the Big Spring high school football team that is faced with the difficult task of following in the footsteps of a district-winning 1940 club. Tonight they make their debut in a clash with Austin of El Paso.

Miss Laneous Notes

Remember reading stories in history about how the ancient ones worshipped the sun and the moon and the stars? We aren't so up to date. Let a couple of cloudy days come along and hear folks start crying for some sunshine.

They mutter about how it seems so damp and cold without the sun and they watch for a ray or two to filter through the clouds. When the sun shines again, they throw away their droopy spirits and rub their hands together. The sun is shining again!

They worry about the sun like a missing relative and you can take a barometer of most people's spirits by the length of the sun rays. We aren't so modern after all.

The ancient ones worshipped the moon too. They thought it was a goddess. Watch the young folks on a moonlight night. They don't overlook its possibilities either. And most people, young or old, watch the moon night after night as it changes from just a sliver of a moon to a full one.

The amateur weather prophets predict by looking at the ring around the moon whether it will rain or not the next day. As for the stars, many thousands of folks secretly believe that wishing on the first star of the evening will bring them good luck.

We think we're awfully smart and up to date in 1941. But seems to me that we've kept a lot of ancient customs about worshipping the moon, sun and stars.

When You Repair an Appliance IT'S LIKE FINDING MONEY in Last Winter's Vest

It's a wonderful experience to poke your hand into an old pocket and pull out a piece of money. You're just that much richer than you knew!

And it's also wonderful to find that you can put your electric percolator, electric iron, or other electrical appliances back into service for only a small repair charge.

Some of your electric servants may be made as good as new just by getting a new cord, putting in a new fuse or by making some other minor repair that will take only a few minutes.

Why not gather up that valuable electric percolator, that table lamp that won't burn, and take them to an electric shop? When they are fixed, you'll agree that it was like finding money you didn't know you had!

Flashes Of Life--

By the Associated Press
FORT MYER, Fla.—Joe Whitehill telephoned the police station to report: "There's an alligator in my chicken house and by his deep voice a big one."
 The desk sergeant sent Officer Dick Hendry to the scene. Hendry unlimbered his .28 pistol, took out his flashlight, spotted two large eyes shining in the darkness and fired.
 The Whitehill family had frog legs for breakfast.

MICHIGAN CITY, Ind.—Mark Moorman, cafeteria owner, went out front to see why the young woman and her child were crying. They had missed a Detroit-bound bus that was to have taken them to the bedside of the woman's dying mother.

Moorman bundled the strangers into his automobile and caught the bus at Niles, Mich.—3 1/2 miles away.

Behind his counter again, he tossed off the good deed with: "Aw, I was glad of the excuse to get away from the place."

CINCINNATI—Jerome Hoerling, 22, who spent 17 days in jail rather than report for army induction, was wasting his time. He finally gave in to the selective service act and then flunked his physical examination at Fort Thomas, Ky.

PHILADELPHIA—The Philadelphia county medical society, long concerned with the public's health, has got around to wondering about the well being of its own members.
 Dr. Edward L. Boritz, retiring president, listed as one of the accomplishments of his administration the establishment of a committee for the preservation of the health of physicians. The committee will make a five-year study of the physical and mental history of 1,000 local doctors.

Garner Girls Organize Club

KNOTT, Sept. 10 (SpI)—The 4-H club girls eligible for membership met Wednesday morning with Lora Farnsworth to organize a new club at Garner school. Instead of having two organizations, in the grades and in high school the girls will work together. Officers elected were Audrey June De-ment, president; Juanita Brown, vice president; Joy Jean Bradshaw, secretary; Jeannette McCormick, reporter; Joy Beth Phillips and Doris Jones, recreational leaders. Mrs. George Bradshaw was elected to be sponsor.

Miss Farnsworth explained some of the plans for the girls' part in the county-wide products exhibit. Meeting dates are to be the first and third Wednesdays of each month with the sponsor meeting with the girls the first Wednesday and the agent the third.

Present were Mona Faye Motley, Lora Morris, Patsy Phillips, Billie Doris McClain, Josephine Aubry, Dorothy Cline, Audrey June De-ment, Elizabeth Burton, Wanda Faye Higgin, Joy Beth Phillips, Jeannette McCormick, Joy Jean Bradshaw, Thelma Jackson, Jackie Lee Riggs, Juanita Brown, Iwana Denny, Wilma Dean Clanton, Wanda Beth Clanton, Loudell Motley, Laverne Metcalf, June Adams, Wanetta Wood, Idella Sample, Marie Denton, Doris Jones and Miss Farnsworth.

Mr. and Mrs. Noel Burnett have had as their guest recently his brother, Leo Burnett, of Bonham. He went to Sterling City and spent several days there with another brother, Floyd Burnett, before re-

turning to his home at Bonham.

Jerry Adams, 11-year-old son of Mr. and Mrs. Fred Adams, has returned to his home after being ill in a Big Spring hospital for a week.

Mr. and Mrs. Walter Barbee have bought a lot west of the Garner campus and are going to start a new house as soon as their lumber can be delivered. Mr. Barbee is janitor at the school.

Several farmers have prepared their land to drill barley or other winter grain. Last year some of the best grain pastures ever seen around Knott were raised. Emmett Grantham threshed a bumper crop of barley and oat mixture then planted the field in 60-day maize which is well on its way to making another bumper crop with the generous rains we are having.

Charley Bayes attended the livestock auction sale at Lamesa and bought 13 yearlings.

Two Wildcats Drill In Mitchell County

COLORADO CITY, Sept. 10 (SpI)—With spudding this week of the H. B. Ownby No. 1 Earl Morrison, two wildcats were drilled in Mitchell county.

The other, Humble No. 1 Ellwood 20 miles south of Colorado City, was drilling past 5,037 feet in an Ordovician test. Location is in section 42-16, 2P.

Location of the Ownby wildcat is in section 34-29, T-1-N, T&P survey.

Two miles east of the Ownby test, a semi-wildcat has been located by H. A. McDonald et al on Earl Morrison land, in section 32-28, T-1-N, T&P survey.

Club Boys Vie For Dallas Trips

Howard county 4-H club boys are putting their best feet forward these days, hoping to win one of the four free trips to the Dallas fair that will be given by the fair and County Agent O. P. Griffin.

The county agent is conducting a series of club meetings now, and while in each community is checking over demonstrations carried on by the boys to select the winners.

Food Output Moved Up To Higher Goals

CHICAGO, Sept. 10 (AP)—A door-to-door canvass of every farm in the United States, asking producers to gear their 1942 crops to the defense program, will be completed by Dec. 1, a federal farm leader said today.

Wayne H. Darrow, information chief of the U. S. department of agriculture, told 400 midwest agricultural agents the campaign to increase the nation's food output would be carried into the farm home by a questionnaire to be filled out by 7,000,000 farm families.

County agents then will use persuasion to swing the farmer's production plans to meet defense needs.

Darrow outlined the program as follows:

Food goals for each state were drawn up by federal authorities this week. They recommended specific increases in meats and dairy products, and certain reductions in crops like wheat and cotton.

In Minnesota, for example, the principal goals included an increase of 688 million pounds of milk, 15 million dozen eggs, and 81 million pounds of beef and veal cattle. The state was asked to reduce its wheat by 100,000 acres.

A Minnesota defense council, organized by the department of agriculture, will break down the state quotas by counties, and the county defense committees then will carry out the farm-to-farm canvass.

The plan sheet which each farmer is asked to fill out is similar to the previous AAA questionnaires on wheat and corn acreage, but this time covers the acreage of every crop, the breeding of all animals, and the production of milk. It represents the farmer's work plans for 1942.

County agents will attempt to show the farmer he can cooperate with the government at no loss to himself by changing, for example, some wheat land to fodder.

There are no penalties involved, patriotism and profits are the only appeals.

Since the principal lend-lease requirement is for more meat and milk, and since animals cannot be bred so quickly, the agents will stress better feeding.

Clark Views New Model Pontiacs

Ray Clark, local Pontiac dealer, and the company's sales force have returned from Dallas where the Pontiac Motor Division formally launched its 1942 campaign. All Pontiac dealers from the Dallas territory met at the Adolphus hotel.

"Every dealer and salesman was pleasantly surprised when he saw the new Pontiac cars," said Clark. "In a year when changes are least expected we found that the new Pontiacs have been restyled, appearance-wise, also, that a number of worthwhile mechanical improvements have been made."

President Refuses To Give Wide Economic Power To Army Chiefs

WASHINGTON, Sept. 10 (AP)—President Roosevelt, informed quarters reported today, has rejected proposals that would have placed a greater degree of control over defense industry in military, instead of civilian hands.

Refusing recommendations designed to extend the army's authority, Mr. Roosevelt took action to insure that the civilian-dominated governmental agencies administer measures affecting the supply of raw materials, priorities, production and export control.

The president's decision was the major development to date in what was described as a long and spirited behind-the-scenes battle for control of defense production and regulation of export trade.

Disclosure of the conflict followed the president's executive order of Sept. 15 which transferred the export control administration to the economic defense board headed by Vice President Wallace.

By that order the president not only transferred the hitherto separate, army-controlled export control administration to the vice president's board, but reduced it to a subordinate division which will be headed by a civilian, Milo

Perkins, former head of the Commodity Credit corporation.

At the same time Brig. Gen. Russel L. Maxwell, who has acted as administrator of export control since the office was organized July 2, 1940, was relieved of that assignment and ordered back to duty in the war department.

More than 100 other army officers—mostly from the reserves—are now on duty with the export control administration but there has been no decision yet as to their future disposition.

In the behind-the-scenes conflict, informed sources said, members of one faction described the others as "new dealers" and were, in turn, called "army bureaucrats."

The so-called "new dealers" charged that the "army bureaucrats" and ambitious plans—even to the point of preparing proposed executive orders for the president's signature—which would expand and extend the export control administration's powers until it would be in control of the major part of defense industries.

This, the non-military faction argued, would be detrimental to

the best interests of American industry.

The military faction denied any ambitions to control industry, asserting the export control administration's powers were clearly defined in various presidential orders and had not been overreached.

The "new dealers," they charged, were chiefly interested in placing their proteges in the considerable number of positions in the organization and utilize the emergency opportunity to experiment with "reforms."

Civilian consumption of soap increased during the first half of this year, the department of commerce reported.

Fort Davis Is The Hub Of A Vast Vacation Area

HERE IS THE INDIAN LODGE, one of the most-frequently photographed and most-frequently discussed sights in the Davis Mountains country. It was built by CCC workers and all the furniture in the rooms is hand made. The Indian Lodge is located on the road from Fort Davis to McDonald Observatory.

WITH OLD FORT DAVIS, the Davis Mountain State Park, and the famed McDonald Observatory within easy reach, Fort Davis is the hub of a vast vacation area. The town itself is 4,927 feet high and it is a steady climb, over an excellent road to the summit of Mount Locke, 6,790 feet in the air. The Davis Mountains State Park boasts the famed Indian Lodge, a picturesque place maintained by the Texas State Parks Board. Here tourists may stay at a very reasonable rate. The nights are cool, even during mid-summer. For the lovers of history, old Fort Davis is an enchanting place. Most of the old adobe buildings, although crumbling, still are there. Here has been written much of the early history "West of the Pecos."

WORLD-FAMOUS McDONALD OBSERVATORY, protruding from the summit of Mount Locke, is a magnet for Davis Mountains tourists. It is reached by a good road from Fort Davis. Visiting hours are from 1 until 1:30 p. m. daily.

MOUNTAINS WITH YOUR BREAKFAST—Above is the magnificent view of mountains one gets from the dining room at the Indian Lodge near Fort Davis. Meals can't help tasting a little better when you can look out on such a pretty canyon sight. At the right is the patio of the Indian Lodge—with the inevitable mountain behind it. The pool in the center has come to be known as a "wishing well" and its bottom is covered with pennies.

POINTING SKYWARD is the massive 82-inch reflector in the McDonald Observatory, right. The giant instrument is the third largest in the world. It is used jointly by the University of Texas, University of Chicago, and the University of Indiana.

NESTLED AGAINST THE MOUNTAINS, old Fort Davis is a big attraction for sight-seers. Most of the adobe buildings, though crumbling now, still stand, a reminder of the days when Highland settlers had to fight the menace of raiding Indians.

INSIDE THE OBSERVATORY—Here a guide explains to a large crowd of visitors the features of the huge 82-inch McDonald Observatory reflector. Note the size of the reflector, at the right, as compared with the people standing below it.

END OF THE TRAIL is the mouth of famed Santa Helena Canyon, where the Rio Grande flows from steep rock cliffs out into a level plain. The cliff on the left is in Mexico.

BEGINNING OF THE BIG BEND PARK is Persimmon Gap, shown here. The men are members of a group of State Parks Board and National Park Service officials who toured the area last week.

AWED by the size of Santa Helena Canyon were members of the Texas State Parks Board, who toured the proposed Big Bend National Park area and the Davis Mountains and Balmorhea State Parks during the past week. Shown looking at the huge gorge which separate the United States and Mexico are (left to right) Raymond Dillard, Mexico, vice-chairman; J. D. Sandefer, Jr., Breckenridge; T. C. Ashford, Maud; J. V. Ash, Bastrop, chairman; and Frank D. Quinn, Austin, executive secretary.

MAN OF THE BIG BEND—Pileverto Luna lives in a mud hut. He claims to be 102 years old.

READY FOR TOURISTS SOON—This is one of the luxurious cabins being built in the Big Bend National Park by CCC workers. This and another cabin are practically complete and work is being rushed on several others.

FOR THE LOVE OF PAM

By VIVIEN GREY

THE COUNT DISAPPEARED

"The Winthrop pride and problem!" Jerry said as Lenore passed. "Shut up!" Her eyes flashed at him.

First Vin played Rubenstein's Romance seriously, beautifully. Then he swung it. He glanced then, his eyes finding Lenore's. He spoke to the boys. Yes, the cellist and two violinists indicated. Vin took the piano himself and the opening notes of Beloved, it is Morn rippled from his fingers.

"Lenore!" There was a note of pride in Adele Winthrop's voice. "I don't know you had it in you!" "I haven't. It was Vin," she acknowledged.

"Pam was applauding madly, a little more madly than any of the others, who were certainly making enough noise." "And you applaud her after the poisonous way she's treated you?" Jerry said in surprise.

"Of course, Jerry. Lenore sang beautifully. Why shouldn't I admit that, even if there are things I'd like to wring her neck for?" "Of all the gathering, only Germaine granted the performance faint praise. He stood a little apart, looking on. He wasn't exactly pleased with the future Countess de Bellafleur performing for a not-to-order party with a young man that no one in particular seemed to know.

"Look," Antoinette said to Vin as he left the piano, "if you want to work, I'll make you and your boys one of my units. I've got a place I could send you for a spring date. I need someone for it."

"Are you really saying that, or am I dreaming? Do I want to work?" Antoinette grinned. "Come around. We'll get together on the beginning."

Manhattan - Miami Beach, Broadway Are Just Alike

By GEORGE TUCKER

MIAMI—Miami Beach is so much like Broadway that one scarcely could tell the difference except for the warm weather and the palm trees waving in the sub-tropical trades.

His father was an expert at the swashbuckling business, but young Doug said he wasn't tackling the role as his father would have.

A few moments later Jack Mercer came in. Jack is the "voice" of most of the characters in these animated cartoon movies you see.

"You're always borrowing that sort of trouble, Adele," Jerry's father glanced at him, but went on talking. "What's wrong with that girl? Frankly, I do like her."

"All you want, Jerry," said his father. "Well, Pam would agree with you perfectly. She's told me the same thing, only a little more politely. I'm beginning to believe it."

"Score one for Pam!" Winthrop exclaimed. "Why, Bart, I thought you loved your children!" "He does, Mother," Jerry said quickly. "That's the trouble; you both love us too much. I know we're a couple of spoiled brats. I deserved everything Pam said. That's why I took it and went back for more."

"Jerry, you mean Pam criticized you?" Adele was shocked that anyone could find a flaw in one of her children.

Bob Taylor and Barbara Stanwyck take a ribbing in the Pulitzer Prize World-Journal for that film article describing their Caribbean cruise—in which they gave Havana landmarks that belong to San Juan!

Johnny Weissmuller is teaching young Tarzan, John, Jr., aged one year, the rudiments of the Australian crawl. Junior has been in the water, in and out, for six months now.

Nancy Kelly, in "Fly by Night," has only one costume through the picture—a nightgown and a fur coat. After the picture Nancy and Edmund O'Brien, reconciled, are planning a young wiver. "Don't go home to mother!"

The thing about some of them (all of the federal taxes) is that, until now, you couldn't see them unless you looked at the bill of sale, or the posted price of gasoline, and oil.

With the "use tax" it's going to be different. It will be just \$5 across the counter, with maybe a little sticker for the windshield and another little receipt to add to the file of "debts paid." Congress handed the Treasury the "use tax" without any instructions for collection and about the only method suggested so far is that stickers be put on sale at postoffices.

The real pay-off on this little item is that Congress made it effective Feb. 1, 1942. Since the federal tax year does not begin until July 1, that means that every motorist, truck owner and such will have to come in on Feb. 1 and pay five-twelfths of \$5 or \$2.08 (providing the government drops the one-third cent) to use his vehicle until July 1.

Washington Daybook—You Can FEEL That New Car Use Tax

By JACK STINNETT WASHINGTON — Tucked away in the \$2,000,000,000 federal tax bill is a little-discussed tax which some pretty shrewd observers of John Q. Taxpayer's reactions say is going to cause more squawks than anything else in the whole measure.

These taxes are in addition to all state, county and city taxes (on jalopies and their drivers) of which there are by actual count 14 different varieties. Although not all of these bloom in any section, majority do in many.

McALLEN, Sept. 18. (AP)—A four-day celebration of completion of a 141-mile strip of highway, a vital link in an ambitious Mexican road-building program, opens here tonight with representatives of South Texas and northeastern Mexico participating.

WYOMING HAS 33,847 ELK CHEYENNE, Wyo.—Wyoming's elk production now stands at 33,847. Lester Bagley, state game warden, said that 23,077 elk were counted this year in six Wyoming counties and the total figure was arrived at by adding estimates of wardens and other game and fish department officials in the other counties.

With the "use tax" it's going to be different. It will be just \$5 across the counter, with maybe a little sticker for the windshield and another little receipt to add to the file of "debts paid." Congress handed the Treasury the "use tax" without any instructions for collection and about the only method suggested so far is that stickers be put on sale at postoffices.

The real pay-off on this little item is that Congress made it effective Feb. 1, 1942. Since the federal tax year does not begin until July 1, that means that every motorist, truck owner and such will have to come in on Feb. 1 and pay five-twelfths of \$5 or \$2.08 (providing the government drops the one-third cent) to use his vehicle until July 1.

One of the theories advanced by sponsors of the tax is that it will help to make the country tax-conscious and the little man proud of the fact that he is contributing to national defense. The wisecracks say "just wait and see."

It could be that this little undiscussed tax will turn out to be one of the real touchstones of American temper.

COLLEGE STATION, Sept. 18—An advisory committee has been named to conduct a survey and develop a program under the provisions of a bill passed by the last session of the Texas legislature appropriating \$250,000 for a broad cotton research program in Texas.

The bill named the presidents of Texas A. & M. college, Texas University and Texas Technological college to supervise the program, and the three presidents have asked for and created an advisory committee composed of Burrice C. Jackson, chairman; Sydney Oden, Houston; A. L. Ward, Dallas; Walter Dillard, New Braunfels; Victor Schoffeleymeyer, Dallas; John T. Thompson, Merkin; Dr. A. B. Connor, College Station; Dr. A. B. Cox, Austin; and Dr. R. C. Goodwin, Lubbock.

These taxes are in addition to all state, county and city taxes (on jalopies and their drivers) of which there are by actual count 14 different varieties. Although not all of these bloom in any section, majority do in many.

200 Attend Get-Together At Coahoma

Described as one of the most successful rural-urban goodwill dinners yet staged under sponsorship of the chamber of commerce was that held at Coahoma Thursday evening, when more than 200 Big Spring and Coahoma business men had a period of entertainment and visiting around a banquet table.

The "good neighbor" theme prevailed, and there were no formalities to interrupt an evening of pleasure. With Martelle McDonald as master of ceremonies, jokes and wise cracks flowed freely, to the enjoyment of all concerned. A high type musical program contributed to the affair.

The dinner was served in the Coahoma high school gymnasium, with members of the Federated Women's clubs serving a sumptuous fried chicken-and-apple pie menu. Girls of the Coahoma home-making department served the food.

Following invocation by Rev. N. W. Pitts of Coahoma, the guests were welcomed by Joe Pond and response was by Supt. George Boswell of the Coahoma schools. Musical numbers included songs by Joe Fowler Brooks, the West Texans—Mrs. R. E. Blount, Mrs. Ruby Billingsley and Edith Gay—and Arnold Marshall, and instrumental numbers by Doisy Turney and his orchestra, and by Edwin Harris and Harry Fenstermaker. Ann Gibson Houser and Helen Dugley were accompanists.

Recognition was given Harry Hurt and Chester O'Brien as leaders in ticket sales. Coahoma and Big Spring exchanged invitations to attend agricultural exhibits. Coahoma's community fair will be October 10 and 11, the exhibit in Big Spring will be October 17-18.

Markets At A Glance

NEW YORK, Sept. 19 (AP)—Maybe it was sun spots. Maybe it was the war, taxes, price controls, business or just general contrariness. Anyway, most stock market leaders today went into a slow decline. Losses of fractions to a point or so predominated at the close.

Negatively constructive, from the standpoint of analysts, was the fact that offerings never were urgent. Transfers for the full proceedings were around 850,000 shares against nearly 800,000 Thursday.

The War Today—
Russian Position Grave

By DEWITT MACKENZIE

Hitler's powerful and unrelenting offensives against the Russians on both flanks of the 1,100-mile battle line are creating a grave threat to the present Red position.

The crucial engagement — having regard to its effect not only on the Russo-German war but on the European conflict as a whole — is in the Ukraine, which will provide a gateway to further tremendous adventures if the Nazi chief can force it.

There certainly is nothing in the strategic set-up of the moment to guarantee that the fiercely resisting Muscovites won't be compelled to make widespread withdrawals to defenses further east. Indeed, the likelihood is that they will unless they have a quick break of luck.

Thus far the bolshevik high command has pulled back its great, unwieldy front in such orderly fashion as to keep it intact. But retreats are among the most dangerous operations of war, for once a line gives way there may easily be a debacle, and frequently the situation becomes more critical with each retirement.

This increasing pressure on the Reds will make the allies turn their eyes towards Tokyo, where among the momentous problems the Japanese government has been considering undoubtedly is whether Japan shall seize the opportunity to attack Russia.

Thus it is interesting to note that today for the second time the Japanese government has protested to the Soviet against floating mines in the Sea of Japan. Here we have a possible basis for war — if Tokyo feels that Russia is hard-pressed enough to warrant such action.

Here 'n There

Mrs. S. H. Morrison calls attention to an address scheduled over station KWFT, Wichita Falls, Saturday at 7 a. m. by Dr. E. J. Kennaman, one of the two surviving archaeologists who opened and investigated the tomb of "King Tut" in Egypt many years ago. He is to speak on the Bible versus Evolution and friends are hopeful many students, teachers and preachers will hear him. Twenty of the 22 scientists who entered the King Tut tomb have since died in the order in which they reported entered the tomb, supposedly in accordance with a curse on those disturbing the tomb. But Dr. Kennaman is still hale and hearty.

The North Side mission maintained by the East 4th St. Baptist church now has a pastor. He is W. D. Nowlin, and he also will serve as superintendent of the mission Sunday school. The new schedule calls for Sunday school at 9:45 a. m., morning worship at 11 o'clock, evening worship at 8 o'clock and prayer meeting Thursday at 8 p. m.

At long last (unless somebody slipped in after we checked), the city and school district board of equalization concluded its session early Friday afternoon. Thus, it required about two weeks to finish the interrupted hearings. Now the job is for tax office employees to get out statements and receipts by Nov. 1—which probably can't be done.

Mrs. L. P. McCaCeland has moved back here, but chances of her husband, who is instructing in pistol work at the state department of public safety training school, returning to his state highway patrol here before Christmas are slim. Mac has a second training school coming up when current one is finished.

Truck Load Law Being Observed

AUSTIN, Sept. 19 (AP)—Texas truck drivers generally are observing the comparatively new 28,000-pound truck load law, State Police Director Homer Garrison, Jr., declared today.

From May through July, the first three months after repeal of the old 7,000-pound net weight limit law, the license and weight division filed 1,111 complaints for violation compared with 5,624 in the same period of 1940.

Garrison said most of the violations were charged against out-of-state drivers.

Stevenson Lauds Legislators' Work

AUSTIN, Sept. 19 (AP)—In a message Governor Coke R. Stevenson told the legislature today it had rendered fine public service in the current special session and the people would applaud.

He asserted assuage of the highway bond financing bill would save property owners \$9,000,000 to \$10,000,000 a year and illustrated that democratic forces could work swiftly yet considerably when all factors had a genuine desire to promote public welfare.

Texas Highway Funds Approved

WASHINGTON, Sept. 19 (AP)—Aides of Senator Tom Connally (D-Tex) today were informed of presidential approval of a \$4,000,000 WPA allocation for the Texas highway department for general improvement of roads throughout the state.

Wool Market

BOSTON, Sept. 19 (AP)—(USDA) The volume of trade in wool on the Boston market today was inclined to slacken. A moderate amount of wool was selling but the rate of turnover was slower than last week or the middle of the current week. Asking prices generally were being maintained despite the hesitancy and resistance on the part of buyers to recent advances.

Graded French combing length fine territory wools were quoted steady at \$1.02 to \$1.07 secured basis. Combing three-eighths and quarter-blood bright fleeces wools were quoted mostly at 48 to 51 cents in the grease.

Grain

CHICAGO, Sept. 19 (AP)—Wheat prices tumbled 1 1/2 to 3 1/2 cents a bushel today as selling increased after midseason.

Wheat rallied almost a cent from the extreme lows due to late short covering but prices finished 1 3/4 to 2 5/8 lower than yesterday, December \$1.20 1/2 - 1 1/4, May \$1.24 1/4 - 1/8.

Other grains reacted with wheat, rye leading the decline. Rye was 2 3/8-3 lower than yesterday, corn 7-8 - 1 1/2 down, December \$1 7/8, May \$1 7/8 - 8/8; oats 1 1/8 - 1 3/8 down and soybeans unchanged to 1 1/2 lower.

Band Members Are Collecting Paper

With an eye on a trip to San Antonio in April to attend the Battle of Flowers, members of the Big Spring hospital band are busy collecting corrugated boxes, magazines and newspapers to sell and raise necessary funds. Dan Conley, band leader, has asked that anyone having any magazines or newspapers they would like to contribute to call him and they will be collected.

Japanese Launch Major Offensive

SHANGHAI, Sept. 19 (AP)—Japanese army spokesmen said today that a major offensive was underway southwestward from Hankow along the shores of Tungting lake and in the vicinity of Yochow, where the Japanese were said to have crossed the Sunghiang river. Preliminary operations ended yesterday were said to have led to the death of 4,300 Chinese.

The attack was said to be following the same strategy as that of the 1939 offensive—when Chinese turned back the invaders within sight of Changsha and scored their most important victory of the war.

Winfield Honored With Senate Post

AUSTIN, Sept. 19 (AP)—Shortly before adjourning the special session of the legislature, the senate today elected Senator H. L. Winfield of Fort Stockton as president pro tempore ad interim.

The 52-year-old West Texas senator was administered the oath of office by his predecessor, Senator E. Harold Beck of Texarkana, who presided over the upper legislative chamber during the session.

Winfield, elected 23 to 5 over Senator L. J. Sulak of LaGrange, will serve as presiding officer until the next session when a new president pro tempore will be chosen.

Licenses To Be Available Soon

The rush for drivers licenses, in accordance with the new statutes, is not due to materialize until after Oct. 1, according to Hardy B. Matthews, inspector for the drivers license division in this district.

Complete supplies of forms are due by the end of this month so that the task of replacing old licenses with the new ones may be accomplished.

Although time for securing new licenses is being scheduled according to serial numbers of the old licenses, it probably will be possible for anyone who desires to apply anytime after Oct. 1. The new licenses will be in a card form, adaptable to billfold use instead of the old folding type.

Demand for a recent department of commerce report on use of the United States' flag in commerce necessitated a second edition.

Legislators Take It Easy On Final Day Of Session

AUSTIN, Sept. 19 (AP)—Pleasant prospects and simple tasks faced the Texas legislature today as it returned to the capitol for the final day of the ten day special session.

Their single duty — passage of a bond financing law — accomplished, the legislators had before them such chores as collecting their pay; enrolling or dressing up, the bond bill and electing a president pro tempore ad interim of the senate.

Capitol observers said it had been many years since the legislature had progressed so swiftly in its work that only routine labors remained on the final day of a session.

Usually it drives right down to the wire in a mad scramble to clear up remaining business, and frequently it becomes involved in a hopeless tangle.

The bond bill will be enrolled—carefully copied, with red ink markings at the end of each line so that no alterations can be made; signed by the presiding officer of each house, and sent to Governor Stevenson today.

There was no doubt Gov. Coke Stevenson would sign it; he had said he would accept any compromise bill placed before him.

The senate yesterday placed a firm ban on local bills — the governor had submitted only the bond financing question in his call — and it appeared there was no likelihood of further action on legislative measures.

Only two bills were passed in the ten days the legislature has been in session — the bond bill and the usual \$150,000 for expenses.

The legislators will collect a week's wages today — \$70 apiece.

The senate's choice of president pro tempore ad interim will serve as governor in case Stevenson leaves the state before the next session.

Conservation Staff Has Dove Barbecue

Barbecued doves furnished the piece de resistance for Soil Conservation Service staff men and members of their family at the park Thursday evening.

There were enough birds to go around and leave a little surplus. Attending were Mr. and Mrs. T. R. Morris and family, Mr. and Mrs. Harold Bush, Mr. and Mrs. Dudley Mann, Noel Brown, Leon Gebort, Lee Putnam, Homer Taft, Gene Durham, Paul Warren, Mr. and Mrs. John Webb, and Mr. and Mrs. R. D. Needham and family.

Of a total production of 1,038,668 shotguns reported to the census bureau by the firearms industry in the last two censuses of manufacturers, 137,241 were double-barreled, and 841,427 were single-barreled, including automatic, repeating, and single shot.

H. F. Railsback At NYA Center

H. F. Railsback, who resigned during the summer as superintendent of the Garner school, is now assigned to the personnel force of the NYA training center at Inks Dam near Burnet.

Happy in his new work, he did express regrets at leaving friends in this community and over the county. For seven years he headed schools in Howard county and for five years was superintendent at Garner, going there the year it was created out of the Knott and Highway schools. During that period the school gained 23 affiliated credits and a staff of 14 teachers. Many of the early financial and transportation problems have been overcome or reduced.

N. Y. Burnett has succeeded him as head of the school.

All Is Chaos

PHILADELPHIA — Even the animal world reacted to the dazzling display of the Northern Lights, Zoo Watchman Bert Shipley reporting plaintively:

"They all start hollering for food. There are no lights around here at night, of course. When this thing started, the animals thought it was feeding time. The buffalo, deer, goats and other outside ones were the worst but then those in the buildings got to yelling, too."
