New Pipeline Firm To Headquarter Here

A new construction company, to headquarter in Pampa, will grow from approximately 40 employees currently to about 200 within a year, the company president, Beryl D. Brister, announced here today.

The new company is Houston-Western, Inc., formed by Houston Contracting Company, one of the nation's largest cross-country pipeline contractors.

Brister, with over 15 years of experience in all phases of pipeline construction, will head the new firm as President.

Brister was formerly with McCathern Pipeline Construction of Pampa and, after his association with that firm, helped form Phoenix Construction, which he later purchased as sole owner and the new company, Houston-Western, was formed when Brister sold Phoenix Construction to Houston Contracting Company.

The new firm will perform construction work on small-diameter pipelines for refined products, crude oil and natural gas throughout the western, mid-western and central gulf states.

H. J. Muckley, president of Houston Contracting, pointed out that Houston-Western will be backed by the full capabilities and management experience of Houston Contracting.

Brister, contacted by The News this morning, said the company will provide a number of new job opportunities for Top O' Texans. Though much of the work will be done in other states, the majority of personnel employed could be hired locally, he added.

Brister, a long time Top O' Texan, resides at 1943 Grape in Pampa. C. E. Cole, 1818 N. Nelson, is assistant secretary-treasurer of the new company.

The new firm's address here is 1541 N. Hobart.

Ten More Ballots Cast Absentee In Voting Here

Ten more absentee ballots, all cast by Democrats, were received in the mail yesterday and early today at County Clerk Charlie Rut's office.

The additional ballots pushed absentee voting, already at a record level here, to a total of 335.

The absentee votes, to be included in Saturday Primary voting, included 57 by Republicans and 278 by Democrats.

Indications are that Saturday's voting may also be particularly heavy in the Top O' Texas and across the state.

College Rebels Shout Approval Of Walkout

By DAVID L. DUGAS
NEW YORK (UPI)—Some 1,200 rebellious students shouted their approval today of a move to strike Columbia University following two days of bloody clashes with police on the troubled campus.

Shouting "strike, strike, strike," militant students meeting at Ferris Booth Hall raised their hands in support of a walkout.

The meeting preceded by several hours an announcement by the university board of trustees that it had appointed a special committee "to study and recommend changes" in the basic structure of the university.

The trustee announcement called on "all students and faculty to resume their scholarly activities so that the presence of the police can be ended" and university return to its normal activities.

The trustees said the special committee had been instructed "to consult with representatives of the administration, students and alumni of the university concerning its basic structure."

It was not known what effect the board announcement would have on the strike plans of the

BERYL D. BRISTER heads Houston-Western

A Shau Valley Battle Is Won

By JACK WALSH

SAIGON (UPI)—About 10,000 allied troops have won the battle of the A Shau Valley, driving North Vietnamese forces from their sanctuary and cutting off major Communist supply routes into South Vietnam, U.S. military spokesmen said today.

In Saigon, U.S. spokesmen reported that 302 Americans were killed in action last week and 2,458 wounded, an increase from the previous week's 287 killed, South Vietnamese lost 253 dead and 789 wounded and the Communists 1,792. The higher casualties reflected fighting in the A Shau Valley.

Military sources also said the two week drive through the 25-mile-long valley swept up sophisticated Russian weapons never before used by the Communists in the Vietnam war—including 122mm artillery shells and transistorized mine detectors.

The seizure of A Shau, a bastion the North Vietnamese took two years building up in a jungle full of tigers and pythons, snapped the key lifeline to Red forces which allied intelligence said was threatening Hue and other bases

with a second invasion in three months.

U.S. spokesmen said that the first 11 days of the valley campaign killed 377 Communists at a cost of 63 allied lives.

In the Hue area, U.S. and South Vietnamese troops reported killing 581 Communists since Monday—364 of them Wednesday when American paratroopers also captured 102 North Vietnamese. It was the largest single catch of Hanoi troops of the war, spokesmen said, UPI correspondents reported more

(See A-SHAU, Page 3)

PANMUNJOM, Korea (UPI)—Two North Korean soldiers knocked down and roughed up an American soldier today outside an armistice commission meeting between North Korea and the United Nations Command.

U.S. authorities said the American was standing outside the truce headquarters when three North Korean guards approached.

One of the North Koreans knocked a chocolate bar out of the American's hand, witnesses said, another grabbed him by the collar and pulled him to the ground and a third tried to kick him in the face.

But U.S. and North Korean officers rushed up to stop the scuffle.

The whole thing lasted only a few seconds," an eyewitness said.

The American was not immediately identified.

In the truce headquarters, Maj. Gen. Gilbert H. Woodward charged that North Korea is trying to goad U.S. and South Korean troops into "irrational acts."

North Korea said "U.S. imperialists are trying to ignite a new war of aggression in Korea."

Woodward made his debut as senior delegate to the Korean armistice commission. He succeeded Rear Adm. John V. Smith, who has been reassigned to the United States.

Woodward said the United Nations would take all appropriate self-defense measures to protect South Korea from North Korean aggression.

Maj. Gen. Pak Chung Kuk of North Korea charged that South Korean troops made an "organized and large scale" attack on North Korean positions in the eastern sector of the Demilitarized Zone April 29. He said the South Koreans fired more than 40 mortar shells.

Arabs Demonstrate As Israelis Parade Through The Holy City

Bids Taken For Work On Gray Roads

The Texas Highway Department recently received bids for the resurfacing of 15 miles of U. S. 60 in Carson and Gray Counties. A 1-mile section of the project is located at West Cuyler Lake between Panhandle and White Deer. The remainder of the improvement extends from near the east city limits of Pampa to the Roberts County Line. Cooper and Woodruff, Inc. of Amarillo was awarded the \$176,000 contract.

Officials of the highway department (See BIDS, Page 3)

AUTO MISHAP — In good condition at a Groom hospital is the driver of this car, Ralph Britten. Britten's car was in collision with one driven by Donald Bain, who was dead on the scene. Bain, according to highway Patrolman Charles Henderson, was traveling toward Pampa when the accident occurred.

Hedley US Gets Propaganda Man Dies Edge In Peace Talks In Crash

WASHINGTON (UPI)—Swift U.S. acceptance of an Indonesian ship in neutral waters as a suitable site for preliminary talks with North Vietnam shifted some of the propaganda advantage to the American side today.

Observers here felt there was a strong chance Hanoi would reject the site, proposed Wednesday by Indonesian Foreign Minister Adam Malik in Jakarta.

By offering its own quick acceptance, the United States stood to neutralize some of the propaganda advantage Hanoi has enjoyed in the four weeks since both sides expressed willingness to meet once a site was agreed upon.

Hanoi Radio has missed no opportunity to point out that although the United States long stressed its willingness to "meet any time, any place," it rejected as unsuitable the sites proposed by North Vietnam in the last month.

The U.S. position was that the Communists' suggestions, Phnom Penh, Cambodia, and Warsaw, would be disadvantageous because there are no established American diplomatic posts and communications facilities in those cities.

Actually, the United States had little choice in accepting Indonesia's offer. Jakarta was one of the 15 sites U.S. diplomats proposed for the talks. Hanoi has rejected all of them.

Under Malik's offer, the talks would be held on either a civilian or military Indonesian ship in neutral waters acceptable to both sides—perhaps the Gulf of Tonkin off North Vietnam and Communist China.

One of the sticking points so far as Hanoi is concerned is the recent era of poor relations with Indonesia since a Peking-orientated Communist coup attempt occurred there in October 1965. This was forcefully suppressed by Indonesia's military.

Diplomats Sip Tea, Talk Peace

By KIM WILLENSON
VIENTIANE (UPI)—Sipping tea and orangeade in a yellow house behind a chain locked gate America's man in Laos sits with North Vietnam's diplomats to do the guarded talking that the world hopes will lead to a Vietnam peace conference.

Ambassador William H. Sullivan and his political counselor, Robert Hurwich, are the men who handle most of the sensitive contacts between the United States and North Vietnam.

A source in a position to know said the diplomats talk as much

about the day's weather and local news as they do of world problems.

A typical session was the most recent one, held Sunday. Hurwich drove to the North Vietnamese Embassy, a two-story yellow and gray complex of three buildings behind a high fence on a red dirt road on the city outskirts. He hoped to find Nguyen Chanh, the North Vietnamese charge d'affaires.

When he reached the gate the porter had forgotten the key and when he finally opened the gate he had to unwind a length of clanking chain from the latch. But when Hurwich got inside

US Gets Propaganda Edge In Peace Talks

WASHINGTON (UPI)—The Communication Workers of America announced today tentative agreement had been reached with the Bell system on new contracts that could end the coast-to-coast telephone strike early next week.

The union said its more than 200,000 striking members would vote on the pacts during the next three days and "the nation's two-week-old telephone strike could end by early next week."

Joseph Beirne, president of the CWA, called the settlement "big in every sense." He said a total three-year package represented a 19.58 per cent increase in wages and fringe benefits.

When the settlement is eventually applied to all union and non-union, non-supervisory personnel in the Bell system the cost will be an estimated \$2 billion, Beirne said.

Beirne said the settlement "compares very favorably with recent major agreements in auto, rubber and can (industries)." This would appear to mean that the annual wage increase represented in the new settlement would be about 6 per cent.

Jerusalem Viewing Jew Military Might

Tens of thousand of Arabs, some chanting "Jerusalem is ours," demonstrated today against the Israeli parade through the disputed Holy City.

Displaying military might that crushed Arab armies in three wars, the parade marking Israel's 20th anniversary as a state went off without trouble.

There were no incidents as the parade wound through predominantly Arab East Jerusalem. But in Beirut, thousands of Arab men and women took to the streets amid chants of "Jerusalem is ours."

A group of about 50 American women living in Beirut staged an independent silent march. Some wore miniskirts and carried placards reading "military parades don't make peace" and "Jerusalem is a Holy City."

In Damascus, the Syrian Federation of Women gathered for a protest rally. In Jordan and Saudi Arabia, newspapers carried strong editorial attacks against Israel for staging the parade in defiance of the U.N. Security Council.

Egyptian officials in Cairo reported a generally heavy turnout today in a nationwide vote of confidence on President Gamal Abdel Nasser's program of domestic policy reform.

U.N. Secretary General Thant protested the 5 1/2 mile parade going through the sullen Arab sector captured in the six day war of June 1967. Arab governments protested.

Almost angrily, Israel swept aside the protests. Ahead went the biggest peacetime display of "Jerusalem is ours."

America's Allies Move To Help US Economically

By JOHN A. CALLCOTT
GENEVA (UPI)—With a tribute to the live-saving U.S. aid they received after World War II, America's allies moved today to help solve its balance of payments problem.

Canada, Japan and nations of Western Europe said they would speed up planned reductions in trade barriers in an effort to increase the flow of American-made goods to their countries.

The offer, announced Wednesday at the Geneva headquarters of the General Agreement on Tariffs and Trade (GATT) organization, included conditions that need Washington approval.

The outgoing director general of GATT, Eric Wyham White, said the proposal "can be called a modest counterpart to the enormous assistance given by the United States to Europe in the late 1940s and early '50s."

It was the first time Europe had spontaneously offered to give the United States economic help and White said it was "historic importance."

The GATT nations stood to benefit from the offer as well as the United States. If America clamped down on imports from abroad everybody would suffer and the 16 nations hoped their offer would prevent that.

The proposal called for the GATT nations to speed up by one year reductions on import duties that were agreed upon during the Kennedy round of tariff negotiations. The cuts would be made Jan. 1, 1969, instead of in 1970.

The nations also would permit the United States to wait for an unspecified time, probably about a year, before making similar cuts in its own duties.

In return Washington would have to refrain from imposing restrictions on foreign imports, or subsidizing U.S. exports. The United States would also have to abandon a pricing system that keeps duties high on chemical imports, an action requiring congressional approval.

France was included in the list of nations making the offer. The others, besides Japan and Canada, were Austria, Denmark, Finland, Norway, Portugal, Sweden, Switzerland, Britain, Italy, Germany, Belgium, Holland, and Luxembourg.

Students To Attend Symposium

Two Pampa High School students and their science instructor will attend the eighth annual Texas Nuclear Science Symposium at the University of Texas in Austin June 3 through June 7 under the sponsorship of Southwestern Public Service Co.

Some 500 top students and teachers from Texas high schools will attend the symposium which is presented by the University of Texas and the Texas Atomic Energy Research Foundation, of which the electric company is a charter member. The student representatives are Chris Dunham, son of Mr. and Mrs. A. T. Dunham, 1012 Terry Rd., and Mario Zoratti, an Italian Foreign Exchange Student living with Mr. and Mrs. W. C. Epperson, 1900 N. Nelson. The faculty member has not been determined, pending summer school plans.

Chris is a member of Tri-Sci, the school sponsored science club, the National Honor Society and the Junior Classical League. He is in the process of designing and building a spark chamber to be used in the study of electron-positron pairs. Mario was a top student in his school in Italy. He is especially interested in agriculture, science in general and politics.

The symposium participants will have an opportunity to hear some of the nation's leading authorities on nuclear physics and to tour the laboratory facilities at the University of Texas.

A-Shau (Continued From Page 1)

fighting underway on the coast near Hue today. In Saigon, U.S. spokesmen reported that last week 302 Americans were killed in action and 2,458 wounded. Allied forces killed 1,792 Communists in the same period, spokesmen said. Many of the casualties came in and near A Shau.

U.S. Air Cavalry helicopters were battered by North Vietnamese radar-directed anti-aircraft fire when they spearheaded the assault into the once-forbidden valley April 19. But the spokesmen said Red resistance grew less each day as more and more allied troops poured into the Communist stronghold that runs from the Laos border to within striking distance of Hue.

It marked the first allied entry into the valley in two years. Thousands of well-entrenched North Vietnamese hurriedly withdrew. They left behind the largest and most sophisticated assortment of weapons ever seized in the war, the spokesmen said.

Equally important, U.S. and South Vietnamese troops blocked off the major highways the Communists built with bulldozers and used for two years to funnel men and arms into South Vietnam's northern provinces. South Vietnamese and U.S. Army 101st Airborne Division troops did most of the initial fighting. They killed 377 Communists.

Allied casualties totaled 63 men killed and 307 seriously wounded, the spokesmen said. Most of the wounded were men of the U.S. Army 1st Air Cavalry Division who led the helicopter assault April 19. The spokesmen said at least 40 U.S. helicopters were shot down or damaged in the assault. But once the allies had a foothold, the North Vietnamese, estimated by intelligence at 10,000, were not to be found. Apparently they fled into Laos. In some cases, GIs found steaming food in Red camp sites.

Marine Lt. Gen. Robert E. Cushman, commander of U.S. forces in northern provinces, gave details of the A Shau campaign which earlier were withheld for security reasons. "We're sitting right on their supply line for everybody south of Dong Ha," the Marine base just below the North-South Vietnam border, he said. "It's a main supply route for the northern three provinces, and maybe all of I Corps (the five northern provinces)."

UPI correspondent Nat Gibson reported GIs in the valley galloping around huge piles of arms, a commercial type radio station, air-conditioned offices, truck parks and Soviet-built bulldozers. Gibson said the victorious GIs donned Soviet-type helmets, painted the names of their home states on captured trucks and wheeled them up and down Communist supply highways.

CALL OF THE SEA was irresistible to this man who discarded his shoes and socks, hiked up his trousers and went wading on a warm spring day.

Pampan Enters State UIL Meet

A Pampa High School senior, Suzy Palmer, daughter of Mr. and Mrs. Ralph Palmer, is entering the state University Interscholastic League extemporaneous speaking contest in Austin Friday and Saturday. Miss Palmer won first in district and regional contests in extemporaneous speaking, and is the only PHS student entered in a state UIL contest, according to Mrs. J. T. Cornutt, PHS registrar.

Bids

(Continued From Page 1) partment stated work would begin around June 15 with the ultimate completion being scheduled for some time in September.

The Highway Department also received bids for reconstruction of 9.8 miles of F. M. 749 in Gray County. The limits of the project extend from Loop 171, 1 mile south of Pampa to State Highway 70, with the exception of a 2.8 mile section of the existing highway. Cooper and Woodruff, Inc. of Amarillo was awarded the \$324,000 contract. Construction engineering on both projects is under the supervision of T. R. Kelley, resident engineer of Pampa.

Some preparatory work will begin immediately on the latter project with the project getting into full swing around May 15 and completion set for late in August. Kelley stated traffic would be routed through the projects during construction. In the interest of safety, co-operation of the public is sincerely requested, Kelley said.

In 1937 the German dirigible "Hindenburg" exploded at Lakehurst, N.J., killing 36 passengers.

Hazlewood Closes Out Campaign

Jack Hazlewood closed out the last day of his campaign today with a trip to Pampa to visit with his supporters.

Mr. and Mrs. Hazlewood yesterday campaigned in Canyon, Muleshoe, Morton, Levelland and Littlefield. He was guest speaker at the monthly meeting of the Cochran County League of Democratic Women at noon. Today, Hazlewood addressed the San Jacinto Kiwanis Club in Amarillo at its noon meetings.

On his visit to Pampa today, Hazlewood had this to say: "Judges on the Courts of Civil Appeals are elected at large rather than from specific areas. The area to be served by the judges on the Court of Civil Appeals is the entire area of the Seventh Supreme Judicial District. There is a misconception that each judge represents different cities in the area. There is no tradition to that effect, and as a matter of fact, the Judges on the Court have been elected to the Court from all points in the Seventh Supreme Judicial District."

US (Continued From Page 1)

The only large vessel in the Indonesian navy, and presumably the one Malik had in mind, is the cruiser Irian, obtained from the Russians.

There was some doubt whether it is seaworthy. It has been lying idle in harbor for the past year due to lack of maintenance parts. In the history of diplomacy, meetings on ships located on neutral water have been utilized from time to time as a compromise in similar disputes.

Rotary Constitution Amendments Talked

Proposed resolutions and amendments to Rotary International's constitution were discussed by Allen Adkins before members of Pampa's Rotary Club yesterday in Coronado Inn. Adkins, who is a member of the Downtown Amarillo Rotary Club, said that several important proposals will be voted on at the upcoming Rotary International convention in Mexico City, May 12 to 16. Principal change would have to do with the organization's membership classification system.

SOUTH VIETNAMESE paratrooper leads two blind children to an evacuation helicopter. The children were found in the ruins of a house near Khe Sanh.

Green Foresees Threat To Party In Gray County

E. L. Green Jr., Gray County co-ordinator for the Eugene Locke for Governor Campaign, today urged all Locke supporters in the county to attend their precinct conventions immediately following the closing of the polls Saturday and support Gov. John Connally for Texas favorite son for president.

Green reminded the Locke organization that "outside forces are working hard in Gray County to take over control of our county Democratic party." "Supporters of Senators Kennedy and McCarthy have been advertising heavily and working hard in this area," Green said. "We neither need nor want outsiders coming into Texas and taking over our party affairs."

Green reminded the Gray County organization of joint efforts throughout Texas to elect Locke as governor and Governor Connally as the state's favorite son presidential choice. "Eugene Locke is the only candidate in the governor's race who can carry on sound, progressive government in Texas in the tradition of John Connally and others like him," Green pointed out.

The election of Governor John Connally, as our favorite son candidate, is the only way we can assure a strong voice for Texas in the selection of the Democratic candidate for president."

WET LOOK

TRINIDAD, Colo. (UPI)—Guy Davis, president of Trinidad State Junior College, Wednesday urged students at the school to toss water-filled balloons at his car—rather than at those of passersby as happened Tuesday. At least this way, Davis explained, there won't be any more complaints.

Pythians' Junior Order Sets Banquet

Pampa Chapter No. 70, Phi Delta Pi, Junior Order Knights of Pythias, will hold a Father and Son dinner tonight at the Pythian Hall, 317 N. Nelson beginning at 8.

Members of the chapter have invited their friends and fathers to the dinner as guests. Corporation Court Judge John W. Warner, a candidate for County Attorney, will be the guest speaker.

Members of the Junior Chapter will be in charge of the program: Invocation, Eddy Hopkins; Jay Johnson, master of ceremonies; Donald Barhill, introduce guests; Jim Hollis, benediction; and Gary Parrish, introduce speaker.

Other members on the committee are Terry Rainey, Joe Mac Millican, Gary Johnson, Charley Buzzard, Tommy Hawkins, Steve Syper, Dan Carlton, Randy Marsh, Steve Taylor, Gary Gibson, Marc Ginn and Johnny Epperson. Knight advisor J. C. Hopkins said all members, their fathers, and all Knights are urged to attend the dinner.

Indictments Returned

WHEELER (SpI)—The Wheeler County grand jury returned four indictments yesterday. John Rhodes was indicted for forgery and passing. Mr. and Mrs. P. C. Henbee were indicted for theft, entering premises with intent to steal, and for possession of a stolen car.

- Law Practice since 1952
- Teacher of Law at St. Mary's Law School
- City Attorney-City Judge Abernathy, Texas
- County Judge Hale County
- District Judge 64th District since 1961

Vote for Judicial Experience — Vote for James A. Joy

Mitchell's Grocery Sold To Local Residents; Grand Opening Underway

Mitchell's Grocery and Market, 638 S. Cuyler, changed hands today with a grand opening under new ownership.

Announcement by Mr. and Mrs. Mitchell C. Hill of the sale of the grocery and market to Mr. and Mrs. Frank Morrison, of Pampa, was made shortly before noon today. The sale marks the end of 37 years in the grocery business for the Hills who opened their first store at 541 S. Cuyler in 1927.

Keeping up with Pampa's growth, the Hills moved to the present store location in 1941. Hill noted today it was one of the first supermarkets in the Texas Panhandle. Since 1937, Hill has seen many changes in the grocery business including the coming of frozen foods. Hill has served as a director of Texas Retail Producers' Association, an association of independent grocers with over 5,000 members.

In 1931 he and 11 other Panhandle merchants established their own wholesale warehouse that now does a \$38-million annual business serving independent grocers and markets. Hill and several associates decided in 1954 to try another cooperative venture by taking over a bakery that was having financial troubles. Today the bakery serves stores throughout the Texas Panhandle, New Mexico and Oklahoma under the Tender Crust label.

Hill said a new bakery in Amarillo soon will be serving some 300 stores. Grand opening of the Pampa store under its new ownership began today and will run through Friday and Saturday. Mr. and Mrs. Hill plan to remain in Pampa and their son, Calvin Hill, will assist the new owners in the business.

Trial Date Set In Murder Case

WHEELER (SpI)—A continuance has been granted in 31st Judicial District Court here for Mrs. Melvin Simpson, charged in the shooting death of Jake Sutton, her husband's uncle, last June 31. Mrs. Simpson's husband was acquitted of murder with malice in the same case. Judge Grainger W. McIlhenny set the new trial date as May 27.

Cheerleader Election Is Slated for Friday

Pampa High School students will vote Friday to select a head cheerleader. In selections last week, students voted to increase the cheerleader list from five to seven and selected new yell leaders for 1965-69. Cheerleaders are Lee Bowerman, Jan Wallace, Cindy Cameron, Pam Martin, Angela Cunningham, Beth Watson and Kay White. Miss Bowerman and Miss Wallace will be seniors in September, and other cheerleaders will be juniors.

examination for entry into the armed forces. His body was taken to Clarendon Funeral Home where funeral services are pending.

THE WINNERS SAN FRANCISCO (UPI)—For months, police have been frustrated in trying to end drag races outside Candlestick Park because the dragsters have faster cars and an elaborate lookout system. Forty policemen, operating from a hilltop command post, ambushed and surrounded the drag race event early Wednesday, arresting 72 persons and impounding 25 hot rods. More than half the participants still zoomed away.

OUT TO LUNCH SAN FRANCISCO (UPI)—Satyananamah Bodhisatva, who identified himself as a guru, plans to act as his own attorney on charges of being high on drugs. The arresting officer, Michael Dower Jr., told a judge Wednesday he found Mr. Bodhisatva "as tight as the concrete sidewalk." Not true, said the guru, "I was not in my body."

KOREAN CAPER involves these members of the U.S. Second Infantry Division, who take positions as artillery fire pounds an imaginary enemy during a full-scale three-day field training exercise. The maneuvers took place south of the western sector of the Korean truce front.

Court Approves Area Gas Rates

WASHINGTON (UPI)—The Supreme Court has approved area rate-making for natural gas producers, including rates and refunds ordered by the Federal Power Commission (FPC) for the Permian Basin in Texas and New Mexico.

The 7-1 decision was a victory for California interests, where the bulk of the Permian Basin gas is marketed.

The action will mean millions of dollars in refunds for both individual consumers and industrial customers in California and will bring lower prices in the future for gas users in other areas.

Most of the California gas is delivered to the Pacific Lighting Co. for distribution in the Los Angeles area, and to the Pacific Gas and Electric Co., which sells it in northern California.

The gas is transported to California through the El Paso Natural Gas Co. and Trans-Western Pipeline Co.

Today's precedent-setting opinion was written by Justice John M. Harlan. It explored all aspects of the complex rate-making process in 75 pages.

Justice William O. Douglas dissented. Justice Thurgood Marshall did not participate.

The commission came up with the area rate-making concept in 1965 after the court had determined in a landmark 1954 decision that wholesale rates of natural gas at the well head are subject to FPC regulation. Before 1954, only pipe lines had been under government regulation.

William Blount, a U.S. senator from Tennessee, was expelled from the Senate in 1797, though not impeached, on charges he conspired to incite the Creek and Cherokee Indians against the king of Spain.

FOREIGN NEWS COMMENTARY — Germany's New Party

By PHIL NEWSOM
UPI Foreign News Analyst

In early March, 1966, West German Interior Minister Paul Lucke issued a report that noted a sharp rise in criminal neo-Nazi and anti-Semitic incidents in the year just past and singled out for particular criticism the new National Democratic Party.

The report charged that the party was hiding neo-Nazi goals behind a democratic front.

Few newspapers in Germany bothered to print it. The Bild Zeitung, the nation's largest newspaper with a circulation of more than four million, gave it one paragraph.

In general, the attitude was to dismiss as of no significance the party formed from several extreme rightwing groups on Nov. 28, 1964, and to regard its membership as a "bunch of clowns."

By the end of 1967, the party could not so easily be dismissed.

It had won seats in each of the six state legislatures for which it had contested.

This week, the leaders of West Germany's coalition government of Christian Democrats and Socialists were assessing the party's strongest showing to date, 9.8 per cent of the vote in Baden-Wuerttemberg state.

Chancellor Kurt Georg Kiesinger saw it as "damaging" to West Germany's image abroad. The Soviet Union trumpeted that it disclosed the existence of an "extremely dangerous tendency" in West Germany.

In front of the Baden-Wuerttemberg Parliament building demonstrators carried placards reading "10 per cent Nazi — our shame."

Among alarmed Socialists, who have lost ground steadily since entering the coalition

government, there was talk of "disengagement." It was obvious that a time of soul-searching was at hand.

Assessments by German commentators varied. Some believed recent leftwing student demonstrations had contributed to a protest vote. Others held that the coalition of West Germany's two largest parties had left the voters no place to turn except to the extreme right or left.

What does the National Democratic Party stand for? Its leadership has denied that it has neo-Nazi or anti-democratic goals. Rather, it has said, it supports the national constitution and the rule of democracy.

I has avoided the outer trappings of Nazism. It has no uniforms. There is no open anti-Semitism.

Adolf von Thadden, its noble-born leader, declares the party will be the "seeding ground for the rebirth of the German nation."

SHAPELY FIRST for the Iron Curtain countries was the entry of Daliborka Stojic, 23, in the Miss Universe Beauty Pageant. Miss Stojic will represent Yugoslavia in the contest. The University of Belgrade student is 5-foot-6, weighs 118 pounds and measures 36-23-36.

Pizzaria pancakes for teen party.

Teens Like to Make Pizzaria Pancakes

By GAYNOR MADDOX
NEA Food Editor
Teen-agers are always on the hunt for something new. These pizzaria pancakes are a hit for a teen party. Allow at least two pizzaria pancakes to a person.

PIZZARIA PANCAKES
2 cups sifted flour
2 tablespoons sugar
1/4 teaspoon salt
6 eggs
1 cup milk
1/4 cup melted butter
2-3 cup wheat germ
2 cans (15 1/2 ozs, each) pizza sauce...

Mix and sift flour, sugar and salt. Beat eggs; add to dry ingredients. Add milk; stir until smooth. Add butter; mix well. Strain through a fine sieve. Stir in wheat germ. Let stand 2 hours.

COOK'S TOUR

By JEANNE LESEM
UPI Food Editor
NEW YORK (UPI)—Cooking with cordials is increasing, along with cordial consumption generally, which grew nearly 96 per cent in the United States between 1955 and 1965.

Industry sources, which supplied this figure, also indicated that cordial and liqueur consumption more than tripled in three states between 1958 and 1966 and more than doubled in 20 others during the same period. Cordials and liqueurs are interchangeable terms for alcoholic beverages flavored with aromatics and generally sweetened.

A trade publication survey of women shoppers in 400 liquor stores revealed that distaff shoppers demand good recipe booklets and are greatly influenced by packaging, displays, recipe booklets and back labels containing recipes and serving suggestions.

Some even write distillers for recipes and advice on meal planning, says Kermit Axel, marketing vice president for the world's largest liqueur plant.

"We get 'mother-in-law' letters from women who want recipes to prepare when mother-in-laws come to dinner," said Axel. Letter writers also ask what beverages are traditional for social events, including christenings and golden wedding anniversary parties, and holidays such as Thanksgiving and Christmas.

Cordials and liqueurs have been used widely in French cooking for years. Two of the best known dishes from this cuisine are crepes suzette — thin pancakes flamed in sauce containing orange-flavored liqueur and brandy, and caneton a l'orange — roast duckling with sauce containing orange-flavored liqueur. In both cases the alcohol is burned off, leaving only the flavor. Alcohol also evaporates rapidly when a beverage is heated without burning.

Women influence the cordial market in many ways, industry sources said. They get much of the credit for the moderation of American drinking habits, which has seen total liquor and liqueur consumption increase but per capita consumption drop from 3.25 gallons annually a century ago to 1.58 gallons annually in 1965.

Three out of 10 women questioned in the Liquor Store Magazine survey said they made an unplanned purchase, with cordials second only to wine in their "impulse" buying. Nearly 32 per cent of the women surveyed who serve liquor said they preferred cordials to "hard" liquors.

An industry newsletter published early this year showed that cordials and liqueurs, traditionally after-dinner drinks, are making inroads in the cocktail list, especially in southern California, an area the industry considers a trend setter for the

Herald Spring With New Salads

By GAYNOR MADDOX
NEA Food Editor
On the calendar, at least, it's now spring, which of course, means it's time for a few new salads. So we went to the Imperial House in Chicago and asked them to give us two of their favorite ones.

IMPERIAL HOUSE SALADS
Limestone lettuce
Sliced avocado
Sliced tomato
Baby artichoke
Hearts of palm
Quartered hard-cooked eggs
Garlic croutons...

IMPERIAL SALAD DRESSING
1 teaspoon anchovy paste
1 teaspoon salt
1 teaspoon white pepper
4 teaspoons dry English mustard
2 teaspoons Worcestershire sauce
3 cups olive oil
1 cup wine vinegar
1 cup chili sauce...
Mix all dry ingredients together with a little vinegar. Then combine with remaining ingredients. Use on salad.

Salad Provinciale
On a head of shredded lettuce, place several slices of pickled beets. Garnish with four quarters of hard-cooked eggs. Cut anchovies in thin pieces and place over the eggs.

CLASSIFIED ADS

PHONE MO 4-2525

remainder of the United States. These sweetened beverages have appeared for the first time on the top 10 popularity list which is based on a poll by the California Bartenders Guild. The poll showed that many consumers call for cordials on the rocks or crushed ice, in highballs and in cocktails.

The most popular flavors nationally are cream de menthe, creme de cacao and anisette in that order but fruit flavors increasingly are popular, says Richard Finger, National marketing manager for one distiller of fruit-flavored liqueurs and liquors. Finger said that his company's most popular fruit cordial flavors are peach, apricot and blackberry, in that order.

Flavor it Almond
Almond milk/cherbert is a party dessert that can be made with cordial for adults or with flavoring extract for children. Boil 1 cup water and 1/4 cup of sugar for 5 minutes. Add 1 (13-ounce) can of evaporated skimmed milk, 1-3 cup of finely chopped blanched almonds and either 1/4 cup of almond-flavored cordial or 1/4 cup of water containing 1 teaspoon of almond extract and a few drops of red food coloring.

Freeze until mushy. Place in a bowl and beat until fluffy. Fold in 2 stiffly beaten egg whites, return to freezer, freeze until almost firm. Beat again until smooth, then freeze until firm. Serve in parfait glasses with additional almond-flavored cordial for adults. For a children's party, use the non-alcoholic version and serve with topping of sweetened whipped cream, chocolate sauce or custard sauce. Makes 6 servings.

Ever Try Eating Dutch Shoe Dish?

By GAYNOR MADDOX
NEA Food Editor

In the Netherlands they make a fancy dessert called "Dutch Shoes." It consists of meringues shaped like Dutch shoes, filled with ice cream. Over the ice cream is poured some of their Holland chocolate mint liqueur, shredded coconut and on top a tiny button of bitter-sweet chocolate.

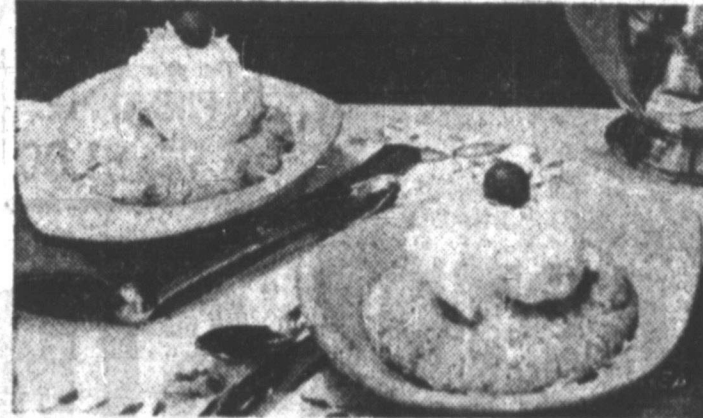

It is actually much simpler than it sounds. So why not try it for a spring dinner dessert.

DUTCH SHOES MERINGUES
2 large egg whites
1/2 cup confectioners' sugar
Pinch cream of tartar
Pinch salt
1 teaspoon Dutch chocolate mint liqueur...

Add salt to the egg whites and beat until whites hold a soft peak. Add cream of tartar and while beating constantly, slowly add the sugar. Add the Dutch chocolate mint liqueur and continue to beat until the meringue is glossy and stiff. Drop the

meringue on a greased baking sheet, swirling so that individual shells form. Master chefs in the Netherlands form the meringue into a semblance of the Dutch wooden shoes, hence the name. This may easily be done in the home with a pastry tube, or the meringues may be swirled into a simple round shape. Bake at a slow (250-degree) oven for 45 minutes or until the meringues are a soft golden brown color. Makes 4 meringues. When shells are cool, remove them from the pan and a dampened spatula may be used for this, if necessary.

About to paint a high ceiling? Follow these hints from the National Paint, Varnish and Lacquer Association. Rig a raised platform by putting a plank on the rungs of two sturdy stepladders. Allow the plank to extend at least a foot beyond the step of the ladder on which it rests. Make sure that the ladders are fully open and locked in position before you begin.

Spring dessert: Holland's "Dutch shoes."

Beany frank buns: Spring dish.

Serve for Spring, Beany Frank Buns

By GAYNOR MADDOX
NEA Food Editor
Every one gets a touch of spring fever these days.

From observation, we learn that one cure for this among the young is something extra to eat. Something good, something they can prepare for themselves, something they can enjoy without the presence of the older members of the family watching. These beany frank buns might be a good suggestion. Remember, teen-agers like food that they can eat without forks.

BEANY FRANK BUNS
1/2 pound frankfurters, diagonally sliced
2 tablespoons butter or margarine
1/4 cup sliced green onion
1/2 teaspoon chili powder

1 can (11 1/2 ounces) condensed bean with bacon soup
1/2 cup catsup
1-3 cup water
6 hamburger rolls, toasted and buttered
Grated Cheddar cheese...

In skillet, brown frankfurters in butter and cook green onion with chili powder until tender. Add soup, catsup, and water. Heat, stirring occasionally. Serve on rolls; sprinkle with cheese. Six servings

When buying furniture, inspect it. Try doors, drawers and all movable parts. Sit in sofas and chairs. Check inside, underneath and backside for construction details. Rock furniture to test sturdiness.

It's going to cost about \$29 billion to collect and adequately treat municipal and industrial wastes that will be spilled in the nation's waterways in the next five years, according to a Commerce Clearing House report. Chart shows a breakdown of the government estimates, which doesn't cover additional expenditures necessary to control other pollutants, such as acid mine drainage, discharges from combined sewers, oil and radioactive wastes and sediment washed into rivers and lakes.

ALL-OUT CAMPAIGN
PALO ALTO, Calif. (UPI)—Topless dancer Vicky Drake, 21, believes a candidate should conceal nothing from the voters. She is distributing posters showing her 38-22-36 figure in the nude to support her campaign for president of the Stanford University student body.

She also plans a whistle-stop tour of men's dormitories to provide "a little distraction for a lot of book-wary students."

THE LIGHTER SIDE 'Aerobics' - II

By DICK WEST
WASHINGTON (UPI)—This is the last of a two-part series on "aerobics," the new exercise program that is based on oxygen intake.

In case you were too short of oxygen to read the first installment, here is a brief recap:

Maj. Kenneth Cooper of the Air Force Medical Corps, who has written a fast-selling book on the subject, says the best kinds of exercises are those that force the body to process more oxygen.

He says the extra oxygen not only is good for what ails you, but may even prevent the ailments from developing. End recap.

It may be presumptuous of me, an unschooled layman, to raise a point of order with Cooper, who is an M. D. Nevertheless, he seems to be operating from a premise that isn't necessarily valid.

Assumption Doesn't Hold

He arbitrarily assumes that the stuff you will be sucking into your lungs while jogging, cycling or whatever is oxygen. The benefits Cooper speaks of so glowingly were mostly observed on military bases where the air usually is relatively pure.

But in recommending the program for civilians, he fails to take into account the fact that many of us live in cities where the air is likely to be composed of exhaust fumes, factory smoke, street dust and bad breath.

Although I haven't conducted any medical studies, it stands to reason that the less city air you inhale the better off you are.

Consequently, as a sort of adjunct to aerobics, I have started working on an exercise program I call "smogobics."

Whereas aerobics were designed to improve your health through exercises that induce deep breathing, the purpose of smogobics is to preserve what little health you have left by means of shallow-breathing exercises.

Closed Mouth Exercise

First exercise—Lie flat on the floor (the air is better down there), close your mouth and with your right thumb cover up your right nostril. Practice breathing through only one nostril, which cuts your smog intake in half.

Second exercise—While still on the floor, dangle a wet noodle in front of your nose and try to breathe shallow enough to keep the noodle from rustling.

Third exercise—Place a rope around your neck and pull it tight enough to... well, actually I'm planning to write a book about smogobics and I don't wish to give away all of the exercises in advance. I will say, however, that if you live in an area with a high air pollution index, smogobics may increase your life expectancy by as much as 20 minutes.

NO TRAFFIC TICKETS
HOUSTON (UPI)—Law enforcement took a holiday in Houston Tuesday when the police ran out of traffic tickets. An additional supply has been ordered but has not yet arrived.

WORLD ALMANAC FACTS

Although Benjamin Franklin was this country's first high-level diplomatic representative abroad, he was not our first ambassador. The World Almanac says that title was first given, according to State Department records, to Thomas Francis Bayard, who was sent to Great Britain in March, 1893, as ambassador extraordinary and plenipotentiary. Franklin was sent to France in September, 1776, with the title of minister plenipotentiary.

HAVE YOU EVER TRIED to hide your hands and play bridge at the same time? It's a pretty difficult task and with a little extra attention given to your hands and nails you wouldn't have this worry. Once a week you can show off your nails with a start-from-scratch manicure and display smooth hands that show they've been consistently creamed after each water chore.

Add Beauty to Fingertips

By PATRICIA KING
NEA Beauty Editor
NEW YORK — (NEA)—Most women today are playing dual roles. One in the business world and one of the social butterfly. You may work hard but you enjoy playing, too.

Your hands are an integral part of your feminine appeal. If you take a look around you, in the supermarket, on a train or in a restaurant, you will find a number of women otherwise well-groomed whose hands are in bad shape — reddened skin, chipped polish or torn cuticles.

In the daytime you do laundry and dishes, type and file, garden, polish furniture and silver, clean crystal and cook and paint. In the evening, however you may want to literally lay your cards on the table, hold a cocktail or fluff up your hair.

For knobby knuckles, massage your fingers several times a week, starting at the tips with a slight wringing motion. This helps keep your fingers flexible and graceful.

The avid gardener can protect her hands and nails by digging nails into a cake of soap and covering her hands with cream and gloves before working in the mud.

For a split nail, cut a tiny piece of linen from an old handkerchief and glue it to your nail and then cover with polish. Or, you can trim all your nails and glue on fake fingernails. Be sure to smooth a jagged nail immediately with an emery board.

Hot water, detergents and many other cleansing products rob your hands of the natural oils that keep them soft and supple and holdable.

A few drops of your favorite cream or lotion is absolutely essential after every watery chore and you should reach for it as often as you reach for the towel. Keep your ounce of protection handy, near the kitchen sink and near your laundry. Massage cream or lotion once a day into your arms and your elbows, too.

If your problem is chapped hands, slather the cream on generously quite often during the day. At night another slush of lotion and sleep with white cotton gloves on if you don't want the cream to ruin your bed linen.

If nicotine, fruits or vegetables leave unwanted stains, you can come clean with a swabbing of lemon juice or use a cotton-tipped orange-stick dipped in a half-and-half solu-

tion of hydrogen peroxide and water.

When your partner trumps your ace, your hands won't feel clammy and perspire if you spray some antiperspirant on your palms before the game.

For a split nail, cut a tiny piece of linen from an old handkerchief and glue it to your nail and then cover with polish. Or, you can trim all your nails and glue on fake fingernails. Be sure to smooth a jagged nail immediately with an emery board.

Cotillion Members Attend Meetings

Members of Twentieth Century Cotillion completed their study, "The Face of America," at meetings held recently in the homes of Mrs. Ben Sturgeon and Mrs. Gene Hall.

Mrs. Harbord Cox presented a program on New England. Mrs. Ralph McKinney gave a program on the mid-eastern states.

Members met to hear the final report on the club's annual antique show in the home of Mrs. Jim Brown. Mrs. Bob Rogers reported on the show's success and a check for \$1,250, proceeds of the show, was presented to special guests, Milton Morris of Canyon and Harvey Allen of Amarillo who represented Opportunity Plan Inc.

Mr. Morris spoke to members about various students who are borrowing money from Opportunity Plan Inc. to further their education. He stressed the need for further education of some sort for every student graduating from high school.

"Every student has a talent. We must encourage them to learn to use their talent and become the best in whatever field they choose," Mr. Morris said. The Opportunity Plan Inc. loans are available to any student who seeks financial aid to go to a university or technical

Dear Abby

By Abigail Van Buren

DEAR ABBY: All went fine with my marriage, until my loving spouse got so heavy from Manhattans, beer, pizza, candy, etc., that the bed sagged on her side. Although the sagging caused me to roll down near her, I must confess this nearness created no romantic interest whatsoever. My partner angrily declared me "impotent," and took to her own bed in another room.

I was determined to prove to myself that I was not impotent. The details are only incidental, but let us just say that it didn't take me very long to prove it. My question: Should I share this happy discovery with my wife?

SWINGER

DEAR SWINGER: Go ahead. She'll never believe you.

DEAR ABBY: I am an average 19-year-old college student (male) living on campus in a college town. My home is 200 miles away. My mother has an old friend living near campus, so she wrote and asked this friend of hers to look me up. What, I'll never know because I'm not lonesome and this woman is a 65-year-old widow, and we don't have one thing in common.

Well, this old lady invited me to her house for Sunday supper, so I went. She was very nice to me. Too nice. There were just the two of us there and she made me feel very uncomfortable. She kept wanting to hug me and touch me, and she made all sorts of remarks about how she "had a crush" on me.

A few days later she called me up and invited me over for dinner again. I told her I had to study. (I did.) Then she sent me a silly "I could go for you" card with a \$10 bill inside. Today I got a box of cookies with a note, "Honey, when am I going to see you again?"

Abby, she keeps calling me, school and is willing to budget his funds.

Eleven Panhandle area girls are attending college on the Opportunity Plan. Three, Narvela Mosley, Marsha Jewell and Sandra Brewer are from Pampa.

and I tell my roommate to tell her I'm at the library. I want to see this old lady again like I want to go to Vietnam. I hate to insult her, but I sure don't want to see her again. How should I handle this?

SOPHOMORE

DEAR SOPHOMORE: First, return her money with a "thank-you" note, and thank her for the cookies, but ask her not to send any more. Then continue to be "out" when she calls. In time, she will be sufficiently discouraged to forget you.

DEAR ABBY: Several months ago my mother passed away. She and my father had been married nearly 50 years, and seemingly had a good life together.

To me, it seemed disrespectful to my mother's memory, but ONE WEEK after my mother's funeral my father (a minister, by-the-way) began seeing other women. Less than three months later he remarried. This marriage lasted four months; they got a quick divorce, and within 30 days my father remarried again!

Now my father insists that his grandchildren call his new wife "Grandma." My children all remember their real grandmother and it doesn't seem natural to them (Nor to me). Should I insist they call this woman "Grandma" just because their grandfather demands it? Or am I within my rights to tell them they don't have to? So far they call her "Mrs. _____."

DAUGHTER

DEAR DAUGHTER: Tell the children to call the lady whatever comes naturally.

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700, Los Angeles, Calif., 90069 and enclose a stamped, self-addressed envelope.

Astrological Forecast

By CAROL RIGNER

FOR FRIDAY, MAY 3: GENERAL TENDENCIES: Until noon all sorts of obstacles and delays can be in effect, so you feel you are getting nowhere — but fast! However, the afternoon and evening bring you all kinds of opportunities to surge ahead in the shopping or the merchandising that you wish to do, as well as get your romantic life improved.

ARIES (Mar. 21 to Apr. 19): Being frigid with him in a.m. could lead to rather disastrous results, otherwise by evening all can be improved within the realm of your home. Put those established plans in operation, quickly, some others you are most capable.

Taurus (Apr. 20 to May 20): Morning is not a good time to contact others, so wait until afternoon to get the right results. After lunch you can cover a good deal of territory. Keep appointments on time. Shop and visit.

Virgo (Aug. 23 to Sept. 22): Get busy with your work in the morning when it is impossible to go out for fun or relax. Since later in the day you get fine ideas for improving same. There are many fascinating facets for you to look into.

Libra (Sept. 23 to Oct. 22): It would be best to handle that vital public matter after lunch when you are at your best with influential. Show business is a that you will support their projects. Gain prestige, improve reputation.

Scorpio (Oct. 23 to Nov. 21): Some new system can now be put in operation that seems feasible to you, but make preparations in a.m. and then full speed ahead after lunch. Plan some trip tonight. See that wardrobe is just right.

Sagittarius (Nov. 22 to Dec. 21): Put recreation aside and get into all that work that is before you. Tonight you have time for the romantic. Make sure that you make arrangements that are due. Don't dash out for fun and forget all about it.

Capricorn (Dec. 22 to Jan. 19): Go into the detail of hobbies during a.m. so that they work just fine tonight. Getting all these checks completed is fine because you get into the pleasurable. Show that you are a neat efficient person.

Aquarius (Jan. 20 to Feb. 18): With all those duties ahead of you, you had better plan your time and activities early then full speed ahead. Impress workers that you will do more than your share. This brings added good will.

Pisces (Feb. 19 to Mar. 20): You have to have a sunny disposition in a.m. if you want to get those outlets on the road successfully. Plan your evening pleasure early and be sure to telephone friends on time. Then have a wonderful time.

IF YOUR CHILD IS BORN TODAY: He, or she, will be one of those young people who, early in life find the stalling father hard, but as time goes on all improves naturally and regularly, and will be able to stand on own two feet.

Just what you've always wanted — a disposable dustmop. Its throw-away cleaning pads are made of special material for maximum dirt retrieval and a unique shape for easy use in every area of the home, the manufacturer reports. They are made of non-woven, spun cellulose which picks up not only dirt and dust but hard to get at thread and hairs.

Flavor pimiento-stuffed olives with garlic for an interesting hors d'oeuvre. Combine 1 cup of whole large pimiento-stuffed olives, 1/2 cup of the olive liquid, 1/4-cup of chopped onion and large clove of garlic, sliced. Chill several hours or overnight. Remove just before serving time.

Highlights and Sidelights From Your State Capitol

By VERN NEFORD
Texas Press Association
AUSTIN — Hard-driving candidates for governor are coming down the stretch after a long campaign which has failed to fire up the voters.
Probably about 50 per cent of the total eligible electorate of just over four million will decide the outcome Saturday (May 4).
Strong Democratic runners include Lt. Gov. Preston Smith, John Hill, Waggoner Carr, Eugene Locke, Don Yarborough, Dolph Briscoe and Edward L. Whittenburg. Pat O'Daniel has campaigned extensively in recent weeks. Other candidates, Johnnie Mae Hackworth and Alfonso Veloz, have done little campaigning.
In the Republican primary, a warm gubernatorial contest features Paul Eggers, John R. Trice and Wallace Sisk.
Another hard-fought contest on the Democratic ballot pits House Speaker Ben Barnes against Don Gladden and Gene Smith for lieutenant governor.
There are two State Supreme Court races in the Democratic primary:
Place 1—Matt Davis vs. Sears McGee.
Place 2—Tom Reavley vs. James G. Denton.
There is just one other statewide contest on either ballot: Comptroller Robert S. Calvert is opposed by Dallas Blankenship.
Democratic, Republican and American parties have scheduled referendums on legalizing sale of mixed alcoholic beverages on local option, pari-mutual wagering on horse racing, also on local option, and establishment of a state milk-price fixing commission.
Democrats expect sharp fighting in their precinct conventions Saturday which decide makeup of the national presidential nominating convention delegation and shape of the state party organization. Gov. John Connally is campaigning for favorite son presidential designation, leadership of the national convention delegation and binding of delegates under the unit rule. Liberal opposition opposes both Connally as favorite son and the unit rule. Republican conventions Saturday will see strong efforts to name Sen. John Tower as their favorite son candidate.
Voters have been warned they can't participate in affairs of the new American Party supporting George Wallace for president if they vote in either the GOP or Demo primaries Saturday or go to major party conventions. American Party needs 14,000 members to get Wallace on the November ballot.

COURTS SPEAK — In an important new opinion, Court of Criminal Appeals has held that trial judges must interrupt criminal trials and get a jury verdict on a question of sanity if the issue is raised by evidence.
Following that decision, Court reversed two convictions, ordering new trials for a young Petersburg woman accused of stabbing a baby to death and for an Andrews County man sentenced to life imprisonment as an habitual criminal. Court also ordered a new trial in a Lubbock County murder case and closed the book on 21-year-old Kenneth Allen McDuff's unsuccessful appeal from the death penalty for murder of three teenagers in Tarrant County a year and a half ago.
Supreme Court, reversing intermediate court, upheld trial judgment that landowners' suit to stop Fort Worth annexation of 6.3 acres of land in 1963 is void.

STATE BUILDING-HOUSING CODE URGED — Senate Study Committee of Slums and Slum Clearance has called for statewide minimum building and housing codes and other action encouraging individual initiative in the area of home improvements.
Housing code, committee said, should be established by a state agency, designed to protect health and should include physical requirements and establish a desired occupancy ratio. Building Code was recommended for a Jan., 1970, effective date.

GRANTS APPROVED — Governor Connally has approved six supplemental state regional planning grants totalling \$18,153.
Biggest of grants, \$8,559, will go to North Central Texas Regional Planning Commission, a voluntary association of local governments in 10 counties of the Dallas-Fort Worth region. Same organization received an earlier grant of \$2,000 for a variety of studies.

EDUCATION CONFERENCE — The top official with the U.S. Office of Education made a plea for expanded bilingual education programs here during the first session of the National Conference on Educational Opportunities for Mexican-Americans. Harold Howe II, U.S. Commissioner of Education, said local school districts have failed Mexican-American children because our society has treated persons who are different as inferior.

ON THE WAGON
SAN FRANCISCO (UPI)—A neck chewed by a lion and two broken legs have had a sobering effect on Amos Watson, 59, who has been arrested 177 times for drunkenness. Watson fell into the lion's grotto at the zoo Saturday, and only a keeper's well-placed bullet saved his life.
"You know," he said from his hospital bed Tuesday, "When a man does something like jump into a lion's cage, it's time to stop drinking."

SHORT SNORTS
Governor's Committee on Public School Education, in a first-installment preview of its recommendations to the legislature, says enrollment will remain about the same for the next decade or so.
Governor has proclaimed May as "senior citizen month" in Texas.
Mrs. John Connally dedicated the Texas Tropical Trail along Padre Island and Rio Grande Valley, one of 10 off-the-beaten-path routes through scenic-historic Texas areas.
Parks and Wildlife Department has bought 64.5 acres in Starr County for white-winged dove nesting areas.
Texas Animal Health Commission reports that Dimmit, Calhoun, Limestone and Zavala counties have qualified for certification in the crash program to clear up brucellosis in as many counties as possible by the end of the year.

SNOOPY OUT
SACRAMENTO, Calif. (UPI)—Snoopy, Dicky Tracy and Ho Chi Minh would be barred from running for president by a bill passed Tuesday by the California Senate.
The measure, already okayed by the State Assembly, requires a count of write-in votes only if the individual declares himself a candidate and pays the filing fee. Sen. James Mills, D-San Diego, said the bill was intended to eliminate presidential campaigns on behalf of comic-strip characters and others who could not accept it elected.

There's A World Of Difference In US And Russian Star Performers

By GAY PAULEY
UPI Women's Editor
NEW YORK (UPI)—Movie star Russian style and movie star Hollywood style are about as far apart as the politics of the part of the world.
The Hollywood aura is of glamour—palatial homes and swimming pools, one's own hairdresser, closets full of furs and courtier clothes, pink Cadillacs. It's also the star born overnight, the sex goddess idolized, the 36-23-36 statistics, the autograph seekers and the eternal accent on youth where one's age is discussed only if you're a Gladys George.
It is the world on a string—while it lasts.
In Russia, it's the world on a string too. But the measuring is another thing. Cinema in Russia is more art for art's sake than the fat figure on the contract, idolatry of the star is non-existent, the palatial home is an apartment in Moscow and use of a nearby public swimming pool, talk of age is with candor, and if an actress has children out come their pictures to be shown around.
Contrast Shows
The contrast in the two worlds shows in conversation with a couple of elite of the Russian cinema—a man and his wife who came to New York as part of a Soviet contingent for the premier of the dubbed English version of "War and Peace," the monumental work of Leo Tolstoy.
He is Sergei Bondarchuk, an affable man with a shock of graying hair and ample proportions, who directed and acted in the film. She is Irina Skobtseva, who plays one of the feminine leads in the film and who met Bondarchuk when she was playing Desdemona to his Othello.
The Bondarchuks have two children, a girl five years old, a boy just two months. "I miss," said Miss Skobtseva. It was her first trip to the United States, but her husband had been here before. So he knew well the American custom; out came pictures of the children from father's wallet.
Many Frustrations
Talking with the director-writer-actor and his wife was through an interpreter and in a matter of minutes one learns what frustrations diplomats must have when they're dealing in touchy state matters through English to Russian, Russian to English, or whatever.
The interpreter had a Dickens of a time getting across to Miss Skobtseva what I meant by asking if Russian cinema had its sex goddesses, the likes of the late Marilyn Monroe or Jane Mansfield.
Finally, the idea in its own way got through and she said, "Oh, in both countries we have a division . . . man, woman." Much laughter.
Miss Skobtseva said the Russians "humanize" their stars, no pedestal for them. No young things pattern their looks after hers—blonde, blue-eyed, and as scrubbed looking as a teen-ager without a trace of eye makeup.
I asked her age. "I'm 34," she said.
Miss Skobtseva said she had been born in the same part of Russia as Tolstoy and had become an actress a traditional way; she studied at the College of Moscow Art Theater. Russia's theater and cinema, like its ballet and other performing arts, is state supported and the government pays its artists.
"The salaries vary, but naturally the best actors and actresses are going to get the most money"—that's the way another feminine lead in the picture, Ludmila Savelyeva, puts it. (But) we are actors of our people. There is more worship of the art than there is of the stars."

A newspaper man asked me recently what I considered to be the major problems facing the Panhandle and how I, as your Representative to Congress, proposed to help solve them. Following is the answer I gave him:

Everyday we face new situations that challenge our experience and knowledge, but in my opinion several interlocking problems face the 18th District agriculture prices, a long range water program, and the need to attract more new industries for jobs.

As you know, I have always been vitally interested in water. As a rancher farmer, I know the importance of an adequate supply of good, pure water to our agriculture economy. During the past 18 months, I have consulted with various agencies here in Washington and have studied at length possible ways to conserve and better utilize our present water supplies. I have cooperated with the Texas Water Development Board and have supported and encouraged the formation of Water, Inc. I am extremely proud of the role that the members of my Water Advisory Committee have played in the organization of Water Inc. and specifically K. Burt Watson, the Chairman of my Water Advisory Committee. Last year I introduced a bill which would authorize a study to determine the feasibility of bringing water from the Missouri River to the Panhandle and have supported the appropriations to the Bureau of Reclamation and the Corps of Engineers for a study to import water from the Mississippi River. The agriculture industry is of vital importance to our economy and water will play a key role in helping today's farmer to provide food for our future. The livestock feeding explosion in the Texas Panhandle has attracted tremendous new packing houses — which have and will provide new jobs and better the income of our people. Although my work is not nearly completed, I am pleased with what we have been able to accomplish so far.

Another problem of utmost importance to the people of the Panhandle is inflation. It affects everybody's pocketbook. We must first adopt a sound common-sense fiscal policy here in Washington to curb the rising cost of living so that wages and salaries will hold their buying power. In the Panhandle, we must aggressively seek new industry to provide more jobs and better wages. In visiting with the legislative affairs committees of the many Chambers of Commerce in our district, and in meetings with the Office of Economic Adjustment, of the Department of Defense here, I am convinced the opportunities and the potentials of the District are great.

The recent accomplishment of bringing Bell Helicopter to Amarillo Air Force Base proves the success of this. I have visited several times with Kenneth Grenewald and his committee and would like to compliment them on their fine accomplishments. Pursuant to Bell, we are currently working with Dr. Roy

Dugger and the James Connally Institute in Waco in establishing a technical institute at Amarillo Air Force Base which will in no way conflict but complement Amarillo College. The trained labor force that this institute would provide the Panhandle in ample supply would be a major attraction to new industry for all the district.

Basically, I think these issues are the most pressing for our district. In summary, I have learned many things from our Town Hall meetings and from my advisory Committees, the most gratifying of which is that if we all roll up our sleeves and work together, there is no problem too large for us to solve.

Bob Price
Member of Congress

US Living Cost Called Lowest In The World

NEW YORK (UPI) — The American Labor magazine reported Tuesday that the cost of living in the United States is by far the lowest of any economy in the world with the average U.S. paycheck providing more food, clothing, shelter, education and luxuries than the paychecks of any other nation.

The magazine said the conclusion was based on a study of the United States, Russia, Japan, Great Britain, France, West Germany, Argentina, South Africa, Canada and Australia. The study was based on the number of hours a worker must work to buy a given item, it said.

The United States leads the world with an average hourly wage of 27.4. It takes 18 minutes of work to earn a pound of butter for the worker with this hourly wage, compared to 20 minutes in Great Britain, 57 minutes in West Germany, 70 minutes in France, 84 minutes in Japan, and 163 minutes in Soviet Russia.

The magazine said the average Russian family still subsists largely on cabbage soup, black bread and tea—less than the diet served in American prisons. Soviet law allows a maximum living space per person of 93 square feet whereas in the average American home the individual has 420 square feet of living space.

Even vodka, the Russian national drink, costs more in Moscow than New York when you consider that the average Russian worker must work eight hours to earn the price of a fifth of vodka. The New Yorker toils only an hour and a half for his fifth.

In 1964 an airliner crashed 40 miles east of San Francisco, killing all 44 persons aboard. The FBI indicated that the pilot had been shot.

Guy Hardin Concludes Campaign For District Attorney TO THE VOTERS OF THE 31st JUDICIAL DISTRICT

During my campaign for District Attorney, I have been received in a very courteous manner, and I would like to take this opportunity to thank each of you. It is with regret that I close my campaign knowing that there are some of you that I did not see personally. It would therefore be appreciated if you would let me take this method of soliciting your vote for the office of District Attorney.

For 11 years I have held the office of County Attorney of Wheeler County and my record is open to public inspection. I invite and would appreciate any interested person to check my record, or with the officers with whom I have worked. If you will do this, you will find that I have properly prosecuted the cases filed in my courts.

My experience also includes 8 years of defending criminal cases and I know that experience on both sides of this type of work is a valuable asset and would assist me greatly, if elected.

My belief has always been that the law applies equally to all persons, regardless of social status, and if elected I will continue to have this belief and will administer the duties of this office fairly to all persons. I can and will devote the required time to each county to handle its needs. The District Attorney has an equal responsibility to each county in the district, regardless of size.

As you cast your ballot on May 4th, please remember that I would sincerely appreciate your vote for the office of District Attorney.

Henley, Hurler Receive Praise

By WES DUMONT
Daily News Sports Editor

Overconfidence and a letdown after a crucial defeat may have been factors in Pampa high school's win over Amarillo Tascosa, 3-1, Tuesday afternoon. That's the opinion of Bobby Stephens, baseball coach for the Harvesters, who was elated with his team's second straight win and upset victory over Tascosa.

Pampa came to life in the seventh inning to score three runs and defeat Tascosa in an important 3-AAA win at Amarillo Tuesday afternoon.

It was an interesting baseball game, played on a well-groomed diamond under ideal baseball weather — no wind, a clear sky and moderately warm weather.

Tascosa may have been upset after its loss at the hands of Monterey, 8-4, Saturday. The defeat was a tough one for the Rebels and dropped the hard-hitting squad into a tie for first place in the standings.

"I think overconfidence was a factor, also," Stephens said. "The 25-year-old coach and ex-Pampa high school athlete agreed with the following analysis of the upset by the young Harvesters. Important factors included Hal Clabaugh's superlative hurling, Dickie Henley's defensive outfield play and Clabaugh's key single followed by Larry Turcotte's run-scoring double in the deciding seventh inning."

Stephens praised Clabaugh's control. "He walked no one." Stephens also was high in praise for senior Steve Summers. Summers made some good catches at the center field position, he stated.

Henley, one of Pampa's most versatile players, was a key defensive player. The pitcher-third baseman-outfielder caught four long fly balls and also threw out a Rebel runner who had started toward third in the seventh inning on a brilliant throw to second base to halt a potential Tascosa threat in the final frame. This was probably the key play of the contest.

Pampa will play Borger in an-

other conference test Saturday afternoon. Game time is 1 a.m. It will be the rubber game of three contests between the two fierce rivals. Pampa won the first meeting, a non-conference tilt, by a score of 9-2. Here at Pampa in a return loop game, Borger won, 5-1.

The Harvesters are anxious to keep a hex on the Borger nine. Pampa has defeated Borger seven of their last eight games, losing here last time to end a long winning streak against Borger.

Palmer Misses Houston Event

HOUSTON (UPI)—The long hitter with the most patience has the best chance to win the \$100,000 Houston Champions International Golf Tournament which opens today, co-host Jack Burke predicted.

Burke, who operates Champions Golf Club with Jimmy Demaret, said patience will be necessary to master the slick greens. The greens are in poor condition because of a short growing season this spring.

Burke, who is making one of his rare playing appearances, said his personal pick in the field of 97 was Roberto De Vicenzo. The 45-year-old Argentine has the power to conquer the 7,118-yard, par 71 Cypress Creek course and the patience to play the greens.

De Vicenzo, who lost a chance to win the Masters in a playoff because he signed an incorrect scorecard, said he was playing well, but said Burke's pick was based on friendship.

"Jimmy (Demaret) did the same thing last year and lost his trousers," De Vicenzo said. Jack Nicklaus, the biggest name in the tournament, said he was beginning to put his game together. Nicklaus is a long hitter who never has played well at Champions, finishing 39th last year and 27th in the 1966 inaugural.

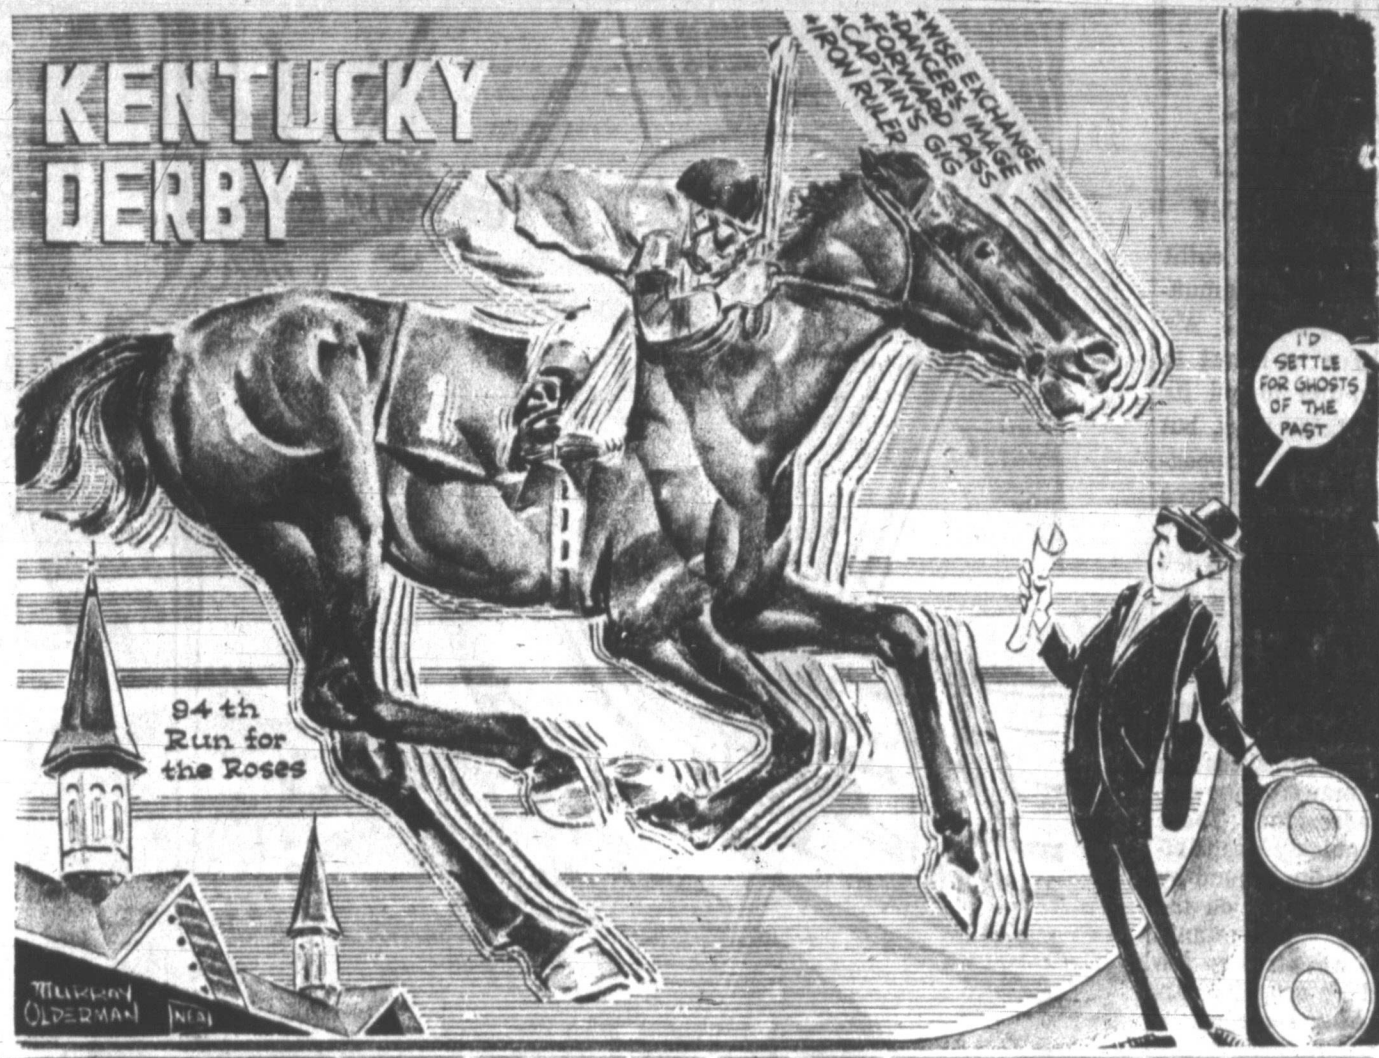

"I'm getting close to playing well," Nicklaus said during a practice round on the eve of the tournament. "I'm hitting the ball better than at any time I've come to Houston."

Gary Player, who hasn't won a U.S. tournament since the 1965 Open, also is rounding into form after seven weeks on the tour. He is playing here for the first time.

The perennial favorite, Arnold Palmer, is missing because of an ailing hip.

Forward Pass Heads Kentucky Derby Annual Classic

By RAY AYRES
UPI Sports Writer

LOUISVILLE, Ky. (UPI)—Calumet Farm's Forward Pass the stable's hope for an eighth victory in the Kentucky Derby, headed the 14 colts expected to be entered today for Saturday's 94th running of the classic at Churchill Downs.

Also scheduled to start in the first of the Triple Crown classics were: Peter Fuller's Dancer's Image, Cain Hoy Stable's Captain's Gig, October House Farm's Iron Ruler, Mrs. Montgomery Fisher's Proper Proof, Craigwood Stable's Jig Time, Saddle Rock Farm's Francie's Hat, Don B. Wood's Don B., C. V. Whitney's

Gleaming Sword, Mrs. Joe W. Brown's Kentucky Sherry, El-mendorf's Verbatim, Bwamaxon Farm's T.V. Commercial, Coventry Rock Stable's Trouble Brewing, and Frank C. Sullivan's Te Vega.

The names passed through the entry box 48 hours before the race at a cost of \$50 each. If the colts survive the final two days without injury, it will cost an additional \$1,000 to actually start, raising the total value of the race to \$165,100 with a winner's purse of \$122,600. The second horse gets \$25,000 with \$12,500 to third and \$5,000 to fourth.

Ismael "Milo" Valenzuela, who won the Kentucky Derby

for Calumet Farm with Tim Tam in 1938, rides Forward Pass who has won four of his seven races this year along with \$165,664.

Mrs. Gene Markey's stable has not had a starter since then and Valenzuela, although he has had four derby mounts in the intervening 10 years, was unable to win for the second time.

Dancer's Image, now insured for \$1.5 million, was second choice with Bobby Ussery riding. Ussery won the Kentucky Derby with Proud Clarion last year but his is the first time Fuller has had a Derby starter.

completed Wednesday when C. V. Whitney hired Eddie Belmonte to ride Gleaming Sword and trainer Mack Miller secured the services of Ray Broussard for Jig Time.

Riders for the other starters had been set with Braulio Baeza, winner with Chateaugay in 1963, aboard Iron Ruler, Manny Ycaza on Captain's Gig, Johnny Sellers, winner with Carry Back in 1961, on Proper Proof, Earlie Fires on Francie's Hat, Don Pierce on Don B. Jim Combest on Kentucky Sherry, Angel Cordero on Verbatim, Howard Grant on T.V. Commercial, Buck Thornburg on Trouble Brewing, and Mike Manganello on Te Vega.

Durocher Loses Another Rhubarb

Larry Shepard was awarded visitation privileges to his pitcher, Al McBean, while Leo Durocher received custody of eighth place.

Those were the results of the unusual proceedings which enveloped Forbes Field Wednesday night as plate umpire Shag Crawford, acting in the role of judge, overruled Durocher's objection and allowed Shepard to visit the mound twice in the eighth inning during the Pittsburgh Pirates' 4-0 victory over the Chicago Cubs.

Under baseball rules, a second visit by a manager to a pitcher in one inning necessitates automatic removal of the pitcher from the game. In this case, however, Crawford ruled one of the trips was the result of an injury to catcher Jerry May and, despite Durocher's cries of mistrial, Crawford allowed McBean to continue in the game.

McBean, who had completed three of his previous four starts, was not about to leave on any account. He yielded only six hits, none after the third inning, and struck out five in posting his second shutout and raising his mark to 4-1. The former bullpen ace also reduced his earned run average to 1.61.

Cards Increase Lead
The St. Louis Cardinals lengthened their National League lead to 3 1/2 games over San Francisco by beating Houston 3-1 in 12 innings while the Giants were defeated 6-5 by Cincinnati. Philadelphia flipped New York 7-2 in 11 innings and Atlanta whipped Los Angeles 7-3 in other games.

The Detroit Tigers edged the Minnesota Twins 3-2 in a key American League contest while Cleveland clipped Oakland 3-1, Chicago topped Washington 4-1, California defeated Boston 5-3 and Baltimore downed New York 6-1.

Durocher, whose Cubs sank into eighth under the weight of a three-game losing streak, was only hoping. That having failed, he did the next best thing—namely, playing the game under protest.

Donn Clendenon drove in two runs for the Cubs with a single and a solo homer and Manny Mota doubled in a pair in the eighth.

Julian Javier's fourth hit of the game, a triple, drove in the winning run in the 12th and he scored himself on a wild throw as the Cards presented Bob Gibson with his second victory in three decisions.

Mays Slams Two
A three-base error by rookie Dave Marshall on Leo Cardenas' drive to right field and a sacrifice fly by pinch hitter Mack Jones in the ninth inning enabled the Reds to defeat the Giants despite two homers by Willie Mays and one by Willie

Ted Recalled

By STEVE SNIDER
UPI Sports Writer

NEW YORK (UPI)—Mickey Mantle kicked up a flurry of excitement around here recently when he hit his third home run of the season for a career total of 521.

That tied him with Ted Williams on the all-time homer list—and revived a few memories.

Ted Williams, the master batsman, wrote a bundle of baseball history despite trips to two wars that cost him all or most of five seasons in the major leagues.

The war in Vietnam, racial unrest in the cities, selective service and National Guard duty for certain players all are a part of the current scene in baseball as well as most any other business, trade or pursuit at which a man can make a living.

Scores of famed major league players have had careers interrupted by military service in the last 28 years and it's continuing right up to the minute.

But when Ted's name popped into print on the occasion of Mantle's 521st homer, a guy had to wonder just how many Williams might have hit if he hadn't missed those five seasons.

You can play the "if" game a lot of ways but going by Ted's average output in the years before or after his two service hitches the total comes out to 659, only 55 short of Babe Ruth's all-time record.

In the three years before he became a World War II flier, Ted hit 96 home runs. In the three seasons after coming out, he hit 95. So give him a bonus of 95 for three years there.

Called to Korea as a re-tread flying jets in 1952-53, he played only enough baseball to account for 14 home runs. In the two full years after Korea, he hit 57. Deduct the 14 he actually hit and it's 43 as a Korean war bonus.

People who played with and against Williams insist there'll never be another like him. They could be right. Since his retirement after 1960, he is remembered best as baseball's last 400 hitter for his walloping 406 in 1941.

However, you can play the same "if" game with Willie Mays, who also missed 1952-53. According to the same rules, Willie would get a bonus of 88 and would have opened this season with 652 instead of 564. And Willie still is "alive" in the home run derby.

No, Grandpa, we're not forgetting Ruth, himself.

Lakers Need Win

INGLEWOOD, Calif. (UPI)—The Los Angeles Lakers were in a "must win" situation for tonight's meeting with the Boston Celtics in the sixth game of the National Basketball Association championship.

Training by a 3-2 margin as a result of Tuesday's 120-117 defeat at Boston, it's the end of the line for the Lakers in the best-of-seven playoff if they lose at the Forum before a sellout crowd.

The key to the Lakers' chances rested on the condition of guard Jerry West who sprained an ankle last Sunday at the Forum but played Tuesday despite the injury by having a pain-killer injected.

West feels he can play under the same condition tonight but if the drug should not relieve the pain in his ankle then the Lakers may be forced to cancel their plans to go back to Boston for the seventh game Sunday.

Cards Beat Astros

HOUSTON (UPI)—Julian Javier's 12th-inning triple, his fourth hit of the game, drove in the winning run and Javier scored himself on a wild throw Wednesday night to give the St. Louis Cardinals a 3-1 victory over the Houston Astros.

Shockers Draw Stiff Penalty

DENVER (UPI)—The National Collegiate Athletic Association Council Wednesday slapped Wichita State University with a stiff two-year probation penalty for committing "widespread, willful and serious" violations in its football program.

change in rules pertaining to athletes from other nations who are over 20 years' old. The council used strong words in condemning Wichita State's football program, but praised the school and the Missouri Valley Conference for taking quick action after violations were uncovered.

The council, in announcing its action at the close of a three-day meeting here, said football teams at the Missouri Valley Conference school would be unable to take part in any post-season play or in any televised games over the next two years.

Athletic Director Dr. Noah Allen and football Coach Boyd Converse were both fired from Wichita State as a result of the incident.

The conference already had imposed the same restrictions for three years, a move that the NCAA council praised. It also promised to support the longer ban.

The council said Converse and some of his assistants provided student athletes with improper financial assistance from December 1966, through 1967. The coach also promised or provided improper inducements to 25 football prospects, the council said.

The council used strong words football bowl games for next fall and winter; restored Central College of Pella, Iowa, to full rights after a year's probation for taking part in an uncertified post-season football game in 1966; affirmed a rule that no college football coach could have a prospective player on his television show, and set up a committee to investigate a

er this year.

The 12 football bowl games approved included the new Peach Bowl at Atlanta, Ga., and the Tangerine Bowl for Orlando, Fla., which has not been held in four years.

West Texas plays the Wichita State Shockers in its home open-

Southwest Conference Schedules Track, Tennis, Golf Tournaments

FORT WORTH (UPI)—The individual Southwest Conference golf and tennis tournaments

open Thursday, beginning a weekend that should see one of the league's most hotly contested track meets in history.

The league's annual spring business meeting will also be held, with most interest centered on what SWC officials will have to say about Texas A&M. The Aggies have been the subject of an investigation of alleged recruiting violations.

Butch Seewagen is the favorite to repeat as SWC tennis champion and Rik Massengale of Texas is expected to fight it out with teammate Chip Stewart for the individual golf crown.

The first round of tennis action opens Thursday at the Ridgelea Country Club, with finals Saturday afternoon.

Sixteen golfers will play 36 holes over the Glen Garden Country Club course Thursday, with the final 36 holes.

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE
 The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license, nor anarchy. It is control and sovereignty of oneself. No more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

New Threat To Business

There was a time (before getting people would be no FDR and his New Deal) when drawback. He said he could an American businessman was staff a safety policing team primarily concerned with what with the hard-core unemployed. his competition was doing and a This would mean that a federal inspector who had been turned down in a bid for a job by an employer would have a chance to "get even" with the businessman by finding all kinds of safety violations and imposing penalties. It conceivably could happen.

The opinion that the labor secretary could and would use the proposed safety and health powers to pressure business firms out of favor with the administration is not uncommon. On the contrary, it's a generally conceded conclusion. Also, it is pretty well known that AFL-CIO President George Meany looks upon Wirtz as "labor's voice" in the Johnson administration.

Labor leaders foresee the following windfalls from the act: Bargaining disputes over the size of work crews could be quashed in favor of larger crews was a fast decision by the safety czar.

Featherbedding unions could get a labor secretary to declare certain new automated devices and labor-saving materials are unsafe or unhealthy.

The labor secretary could help strikers by ruling that it's unsafe during a strike for supervisors and others to try to carry on production as a skeleton crew.

Whenever unions and management deadlock, the unions could threaten to get the labor secretary to shut down the plant on some sort of ad hoc safety or health ruling.

Statistics don't make interesting reading, but the National Safety Council has released figures showing that since 1926 the frequency of both injuries and death at work has dropped more than 78 per cent. Meanwhile, the number of employees has increased 121 per cent, the hours worked in manufacturing has nearly doubled and, the gross national product has quadrupled. Incidentally, the record in government employment falls short of private industry's, the council reports.

American businessmen agree that anything but a perfect safety record calls for preventive measures. Safety programs are a never-ending thing; they've got to be to keep accidents at a minimum.

The act is the subject of an article in Nation's Business, published by the Chamber of Commerce of the United States. The story suggests that the administration cool its fervor for fast passage of the act, and instead appoint a National Safety Commission to get facts and recommend measures to assure greater safety in all aspects of American life.

Certainly the story adds, there is no compelling need for the sudden granting of the drastic and harsh powers that the secretary of labor proposes for himself.

Sen. Ralph Yarborough of Texas was chosen to run with the bill in the Senate, and Rep. James G. O'Hara (D-Mich.), anticipate it will be boistered with unions, to handle the bill in the Labor secretary Willard Wirtz House.

blantly testified at a Congressional hearing on the bill that naught.

Pull Up A Chair

By FRANK JAY MARKEY

You'd never think an outfit with the sophisticated communications systems of the U.S. Air Force would have to resort to the ancient tom-tom to get its message across these days, but that's what has been happening in Africa. The Air Force has been dropping food since last Fall when a drought struck an area in one of the newer nations. Every time natives see a plane approaching they rush to the air strip or drop area. To get the crowds off the air strip the officers aboard broadcast warnings on loudspeakers in French, which many of the natives don't understand. These messages are quickly translated by officials on the ground by means of a tom-tom which the natives readily understand. They clear the air strip so the plane can land or drop its cargo without knocking someone.

Today's smile: A six-year-old youngster told his younger brother he could give him a head start and beat him in a race. The younger brother thought it over for a moment and said: "Okay. Let us slide down the banister."

The expression "once in a blue moon" dates back to 1528 when it appeared in a volume of English verse. It meant something that would never happen. . . . Another old-time expression is free lance, which today usually means a writer whose pen is for hire. In medieval England it meant a knight who sold his services to any lord or noble who was willing to pay for their aid.

Thoughts while shaving: A group of doctors in Green County, Mo., recently got together and made a hi-fi and stereo album of songs they liked to sing. It's not on the Hit Parade, but it has enjoyed a good sale. The receipts are put in a fund that to date has provided scholarships and loans to 120 medical students. . . . Window shopping on New York's Madison Avenue we saw something that should make an amateur chef's cook-outs this summer posh affairs. It's a branding iron for putting your own brand or initials on steaks. . . . The Post Office Dept. tells us 65 per cent of the 80 billion pieces of mail takes three days to be delivered. What they neglect to tell us, medieval gland, it meant a takes three days to be delivered from Boston to New York when it travels air mail and only takes 24 hours when transported by train. . . . Incidentally, we understand there is one major holdout against affixing a Zip Code to mail. You'd never believe it, but it's the White House. . . . If you want to give up smoking and like the taste of nicotine you will soon be able to buy a spray can that will do the trick nicely. Its inventor claims it will provide the same sensation as smoking a cigarette, but will not be harmful because it lacks tobacco tars. Somehow or other we think a gadget like that would never induce a puff to become a sniffer, do you? . . . The Chicago (IL) SUN TIMES headlined a story: "Bra Makers' Skepticism Is Nothing But A Bust." That's uplifting!

Country Editor Speaking: "There are credit cards for everything these days except money."

Men haven't much imagination. That's why the girls who wear mini skirts leave so little to it.

Adolescence is the period when parents learn the facts of life.

The worst thing about a wife being right is that it makes her so hard to live with.

You can learn a lot about love at the movies—if you don't let your attention wander to the screen.

A woman looks at a woman to see what she is wearing. A man looks at a woman to see what she is clothing.

I don't think much of diets. They may help you keep your figure, but they don't leave you the strength to shove it around.

My grandson says his prayers regularly. But he keeps putting in commercials about a new purple tricycle.

It's tough enough to find a parking place. But it's even tougher to find room enough to get out.

H. L. Hunt Writes

PROSPECTS FOR WORLD'S MOST IMPORTANT OFFICE

Disdaining use of the obvious power of the White House to induce a major occurrence, through the means of a startlingly simple announcement. President Johnson changed his position from a public figure hated throughout the world to a world leader respected for his decision to sacrifice his "place in the sun" in the interest of "peace," "good will," and "unity." The skill and timing of his move also put him in line, if he chooses, to be drafted for the presidential nomination at the Convention.

An unforeseen side effect of the announcement was the rush by Democrat politicians fearful of Bobby Kennedy's presidential aspirations to announce phreay as a means of "stopping" Kennedy.

A close look at the record indicates the thoughtlessness of such a step.

Humphrey was a founder of ADA, its chairman in 1949-50, and has served as National Vice-Chairman every year since. His reverence for ADA action and opinion is clearly expressed in his statement that, "This great organization has seen fit to chastise me. Perhaps I did not understand why at the moment, but their judgement was undoubtedly better than mine."

Their viewpoints were expressed when competing for the nomination in 1960 when Senator John F. Kennedy said of ADA, "I'm not comfortable with those people," and Senator Lyndon B. Johnson said, "I would expect them (ADA) to be against me. As a matter of

Question Box

QUESTION: Can one cent of the millions of dollars of damage caused by the looting and burning following Dr. King's murder be justified? What must be done to restore law and order in this land?

ANSWER: We can see no justification for any destruction and theft of property. If looters and burners believe that such actions will bring about Dr. King's dream of equal treatment for all they are mistaken. Such acts have only brought resentment from both black and white people, and has spurred demands to "shoot on sight" anyone seen looting. The wanton acts build resentment against the very people that men of good will are trying to help.

Law and order can be restored only if the bulk of the people determine in their own minds to treat all humans as individuals. Passage of special legislation designed to give some individuals "rights" at the expense of others will only build resentment on the part of those deprived and will cause "beneficiaries" of special privileges only to demand more and more.

Justice, law and order can only come when all individuals fact, I would not feel very comfortable if I had their support." Texas' Governor John B. Connally said in 1962, "The left-wing, radical ADA and their cohorts stand for everything Texas doesn't." The U.S. electorate will analyze all these factors and may correctly assess these events.

The Doctor Says:

By DR. WAYNE BRANDSTADT
Color of Pills Not Vital Concern
Q—For my angina my doctor is giving me white tablets but my friend, who also has angina, is taking pink pills. Do you think my doctor is giving me the right medicine?
A—Granted that pink pills are prettier, both probably contain the same drug or closely related drugs. On the other hand, your friends disease may not be identical with yours. If your tablets prevent or relieve your attacks, you are getting the right medicine. Trust your doctor and don't be misled by idle conjectures.

Your Dental Health

By DR. WM. LAWRENCE
Abcessed Baby Teeth Can Harm Permanent Set
Dear Dr. Lawrence: My daughter, 2½, fell and hit her mouth on a railing. The gum over her front teeth was cut but didn't bleed much. I'd like to know if something like this could make her front teeth dark. What I'm more concerned about is if this could damage her permanent teeth.

ANSWER: Teeth often become dark after such injuries, but in itself, discoloration isn't important. It's a sign that the blood vessel in the tooth has hemorrhaged and the nerve has died. This may occur immediately after the accident, or some weeks or months later.

Even if not very handsome, dark teeth can be retained unless they become abcessed. Retained abcessed baby teeth can cause injury to permanent teeth. Your dentist should make this evaluation.

The things to look for are looseness of the tooth and gum boils. If these develop the tooth is probably abcessed and should be removed.

Sometimes premature loss of injured baby teeth can be prevented by a visit to the dentist as soon after the accident as is reasonable. Loose teeth can be splinted and biting pressure reduced; sharp edges can be smoothed; broken teeth can be capped; lacerated gums can be sewed together; and sometimes extraction becomes a preventive measure if retaining the broken tooth might cause further damage.

Dear Dr. Lawrence: What is the cause of bad breath? Mouthwash is no help. My daughter is a pretty teen-ager who has regular dental care. The problem causes her much unhappiness. Could it be her tonsils which were removed but have grown back?

ANSWER: Even though bad breath was discussed in some detail recently, it's so common a complaint let's review its main causes.

Usual cause of BB in people who exercise reasonably good mouth care is not usually found in the mouth. It comes from chronic infections or conditions in areas that communicate with the mouth.

In young people its common causes are infected tonsils, adenoids, sinusitis and, less commonly, stomach disorders.

In older people it usually comes from excessive smoking and drinking, esophageal diverticulum, stomach disorders, chronic lung infections, chronic upper respiratory infections, gum infections, periodontal disease, and sometimes deep-furrowed tongue.

And, in general, diet plays an important role. Aromatic foods and poor eating habits can cause bad breath.

Dear Dr. Lawrence: What is the cause of bad breath? Mouthwash is no help. My daughter is a pretty teen-ager who has regular dental care. The problem causes her much unhappiness. Could it be her tonsils which were removed but have grown back?

ANSWER: Even though bad breath was discussed in some detail recently, it's so common a complaint let's review its main causes.

Usual cause of BB in people who exercise reasonably good mouth care is not usually found in the mouth. It comes from chronic infections or conditions in areas that communicate with the mouth.

In young people its common causes are infected tonsils, adenoids, sinusitis and, less commonly, stomach disorders.

In older people it usually comes from excessive smoking and drinking, esophageal diverticulum, stomach disorders, chronic lung infections, chronic upper respiratory infections, gum infections, periodontal disease, and sometimes deep-furrowed tongue.

And, in general, diet plays an important role. Aromatic foods and poor eating habits can cause bad breath.

Wit and Whimsy

Jealousy is always born with love, but it does not always die with it.

Today's supermarket sells almost everything, but if you find tires among the groceries, you're in the wrong place. That's a drug store.

John was out with the boys one evening, and before he realized it the morning of the next day had dawned. He hesitated to call home but finally hit upon an idea.

He rang his house. When his wife answered the phone, he shouted, John—Don't pay the ransom, honey, I escaped!

HOW TO ADDRESS OUR LAWMAKERS

You may want to write your senators and representatives to Washington and Austin. Here are their addresses:

Amarillo, Texas 79100.

(FEDERAL)
 Rep. Bob Price, 1323 Longworth Bldg.
 Sen. Ralph Yarborough, Senate Office Bldg., Washington, D.C. 20505.
 Sen. John Tower, Senate Office Bldg., Washington, D.C. 20505.

(STATE)
 Rep. Misour Abraham, Canadian, Texas Washington, D.C. 20511.
 Sen. Grady Haslewood, Canyon H-7

The trouble with the latest riots was they didn't get enough help from the OEO. But the OEO, thru the Community Action Programs are bustin a hamstring to correct that.

During the riots the Action Houses was open 24 hours a day to give out information as to where to riot next. They also served food and gave out clothing to those who might have got torn up somewhat.

But the next time they will be able to really do a good job. For instance, in N. Y. City alone they just got a grant of 408 thousand bucks to Mobilize The Youth. They are going to organize all the young people into one big umbrella organization, like a sort of army. That way they can really give us the umbrella.

None of the Community Action Centers was burned out. A rioter has to have food, and where cities are burning where else will he get it except from the government. To do a A-1 first class job of looting you need three things — a full belly, information on where to strike next, and the police on your side. The Administration is the only one who can supply all three. And they do.

Now wouldn't you think that anybody with an ounce of brains would say, "Look, you rioters are not going to march on Washington." But do you hear anybody say that?

I never thought I'd see the day when our so called 'leaders' would stand by and let a group of anarchists take over. But they are all smiling and showing their teeth and gums, making speeches, shaking hands with the rabble-rousers and giving orders to cops not to stop arson, looting or murder.

If the marchers on Washington are going after that bunch I hope they make it. Then maybe we'll get somebody up there who knows what law and order means. Then again, maybe not.

agree to respect all others' rights, regardless of race, creed, color or ethnic origin.

BERRY'S WORLD

"Albert, someday, let's become real 'activists' and write a letter to our congressmen!"

The Almanac

By United Press International
 Today is Thursday, May 2, the 123rd day of 1968 with 243 to follow.

The moon is between its new phase and first quarter.

The morning stars are Saturn and Venus.

The evening star is Jupiter.

On this day in history:
 In 1865 President Andrew Johnson offered a reward of \$100,000 for the capture of Jefferson Davis, president of the Confederacy.

In 1933 Adolf Hitler abolished labor unions throughout Germany and set up a so-called "labor front" to control all workers.

In 1945 the allies announced the unconditional surrender of Nazi troops in Italy and southern and western Austria.

In 1967 the United States cut its forces in Germany to 35,000.

A thought for the day—William Penn said, "Truth often suffers more by the heat of its defenders than from the arguments of its opposers."

In 1941 Communist dictator Joseph Stalin became premier of the Soviet Union, replacing V.M. Molotov.

In 1967 the Greek military junta suspended parliament, abolishing popular elections.

YOU CAN **WIN** UP TO **\$1,000.00 CASH**

THOUSANDS WIN CASH PRIZES EVERY WEEK WITH THIS EXCITING NEW TV GAME... RIGHT AT HOME!!
GET YOUR TICKET AT PIGGLY WIGGLY! BE READY TO PLAY!

HERE ARE THE EASY-TO-FOLLOW RULES:

1. Cards available on request, or at end of check-out lanes or at store office at any Piggly Wiggly.
2. No purchase necessary — limit one card per adult customer per store visit.
3. Mark your numbers in the appropriate column as they are called on "ALL STAR BINGO." If you mark 5 numbers in a straight line (including free stars) either horizontal, vertical or diagonal, you win the prize indicated. If the team shown on the front of this card is the same as the winning team (either team A or team B) on the "ALL STAR BINGO" Show, you have won double your prize.
4. Cards are good only for the date shown on the back. Valid only when series, date and numbers match the televised show.

5. Card void if tampered with in any way.
6. We reserve the right to correct typographical or mechanical errors, which might appear in conjunction with this game, including cards, and reject any card not obtained through legitimate channels.
7. Employees of Piggly Wiggly, their advertising agencies, or their immediate families, and persons under 18 not eligible to win.
8. Winning cards must be taken to a Piggly Wiggly store for verification within 5 days after this televised show. Winners will receive their prize after verification.
