## Indications Are Mounting Hanoi Will Talk Peace

### 23 Americans Die Daily in Vietnam

SAIGON (UPI) The price of war in Vietnam in 1967 was an average of approximately 26 Americans killed and 170 wounded every single day of the year.

U.S. officials said today as of Dec. 30 a total of 9,353 Americans were killed and 62,064 wounded in 1967.

The spokesman said 185 Americans were killed, 437 wounded and 878 missing in the week last week, compared with 163 killed, 1,397 wounded and 866 missing in the previous week.

Figures were not available for Dec. 31, which fell on Sunday, the beginning of the next casualty week.

U.S. and allied countries said they killed 623 Communists last week, well below the 977 reported for the previous week. The allies suffered 37 killed and 47 wounded last week.

The figures released today did not include South Vietnamese casualties nor Communist dead accounted for by government troops.

Ground fighting dropped off somewhat during the week, apparently because of the impending truce announced by both sides. Heaviest fighting for the Americans was along South Vietnam's southern coast and in U.S. Marine territory in the north of South Vietnam.

The bloody battlefields of 1967 accounted for well over half of the total American casualties through last week of 116,517 since 1961, including 15,997 killed, 99,742 wounded, of which 52,972 required hospitalization, and 678 missing. Casualties since Dec. 30 sent the dead figure past 16,000. Official figures showed that U.S. military strength in Vietnam soared to an all-time high of 486,000, 8.0 higher than in the previous week and 14,000 higher than at any time in the Korean war.

Australia, South Korea, the Philippines, Thailand and New Zealand, had 60,000 men in Vietnam, unchanged from last week.

U.S. officials estimated Communist strength in South Vietnam between 298,000 and 333,000.

### 'Flying Saucer' Is Cleaning Bag

CASTLE ROCK, Colo. (UPI)—An eerie bubble-shaped object that sent 30 persons scurrying to their telephones was a candle-powered cleaning bag built by two teen-aged brothers, it was learned today.

Thirty residents of this East Central Colorado town reported sighting the flying object last Tuesday.

Deputy Sheriff R. S. Weimer said reports described the strange object as being more than 30 feet in diameter and as long as 50 feet. One eye-witness said the object had lights "all the color of car headlights that have mud on them."

The mystery was cleared up when Jack Dietrich, 16, of Castle Rock, explained the "saucer" was built by himself and his brother, Tom, 14, a student at Maryknoll Junior Seminary in St. Louis, Mo. The older youth said his 14-year-old brother conceived the idea from a science club in his school.

The older brother said the "saucer" was a plastic dry cleaning bag, braced by two balsa wood sticks and with an aluminum cup in the center. Four candles provided the heated air to give the object its lift.

"The flight was perfect," Dietrich said. "It stayed up about 10 or 15 minutes."

CITY HALL INSTRUCTORS — Ronnie Wood, left, director of personnel, and City Manager Jim White, are shown as they led a discussion at City Hall yesterday afternoon in an orientation session for City Hall department heads. Wood will conduct a 15-week In-Service Training Course on municipal personnel administration for the heads of 11 city departments. (See story, page 3).

### All-American To Be Honored By City Chamber

Pampa's first football All-American Kenny Hebert, and his college coach, University of Houston headmaster, Bill Yeoman, will be honored by the Pampa Chamber of Commerce at their February membership luncheon.

Hebert and Yeoman will both speak at the noon affair, planned for the Starlight Room at Coronado Inn, Monday, Feb. 5. Split end Hebert, who led the nation in scoring in 1966 and was third in 1967 and a possible All-American baseball player also.

Ray Thompson, chairman of the Chamber sports committee, said that complete plans for the affair have not been completed.

It is expected, however, that Hebert and Yeoman will arrive in Amarillo Feb. 4 and then drive to Pampa for an informal reception at the Coronado. Personal friends, members of the press and the Pampa coaching staff are invited to the reception.

The All-American and his coach are expected also to speak at an assembly at Pampa High School Monday morning prior to the luncheon.

Yeoman and Hebert will attend the annual meeting of the Dumas YMCA Monday evening where Yeoman will be main speaker.

### Heart Transplant Patient Reported in Good Condition

CAPE TOWN, South Africa (UPI) — Doctors today pronounced Philip Blaiberg and his transplanted heart in "very good condition." But the chief surgeon is angry over the \$50,000 sale of their story rights by the patient's family to a U.S. broadcasting company, colleagues said.

An official bulletin issued by Grootes Schuur Hospital, where the five-hour transplant operation was performed Tuesday, by

### Sihanouk Broke Old Relations in 1965

## Cambodian Ruler OKS New US Ambassador

PHNOM PENH, Cambodia (UPI)—Prince Norodom Sihanouk has approved President Johnson's choice of Ambassador Chester Bowles to conduct reconciliation talks between the two countries, a government spokesman said today.

"We expect ambassador Bowles to arrive here within a few days," the spokesman said. Government officials said there was "no truth whatsoever" to rumors abroad that Sihanouk, the chief of state, had gone back on his offer to meet a "duly accredited" representative from the White House.

Bowles, former ambassador to India, was chosen for the job because of his longtime interest in Southeast Asia and because he has been active helping solve the delicate question of Communist sanctuaries in Cambodia.

In recent weeks Bowles has met with officials of India, which is chairman of the International Control Commission (ICC) set up by the 1954 Geneva convention on Indochina to police the end of that war. Other members are Canada and Poland.

An official bulletin issued by Grootes Schuur Hospital, where the five-hour transplant operation was performed Tuesday, by

### Communists Impose Vague Conditions

SAIGON (UPI) — There were mounting indications today the U.S. bombing of Communist North Vietnam might be driving Hanoi to the negotiating table. But prospects for peace were clouded by vague conditions imposed by Hanoi.

Diplomatic sources in Saigon said North Vietnam has sent fresh word it would open peace talks with the United States as soon as American bombing of the Communist nation is halted. All other sources said Hanoi also demanded the United States end "other acts of war" against the North.

The Saigon sources said Hanoi delivered the message through its envoy to Indonesia, Pham Binh, several weeks ago. In Jakarta, Indonesian Foreign Office sources confirmed that North Vietnam had asked Indonesia to mediate in the Vietnam war.

But the Jakarta sources said Indonesia had not taken the request seriously since Indonesia had not been approached by other involved parties including the National Liberation Front, the political arm of the Viet Cong, and by the South Vietnamese government.

A change in Hanoi's rigid attitude appeared to develop last week when the North Vietnamese foreign minister said Hanoi "will" talk if the bombings were halted. Previously all official Hanoi statements said North Vietnam "might" talk.

Since then apparent clarification of Hanoi's positions have snowballed—in Washington, in Paris, in London and in other world capitals. In most cases, however, Hanoi coupled the end to bombing with an end to "other acts of war."

There still was no word from Washington on the flurry of apparent peace feelers but Secretary of state Dean Rusk was holding a news conference at 3 p.m. EST today in Washington. In the past Rusk has insisted that Hanoi must give some positive sign it is (See HANOI, Page Three)

### Government Proposes Pollution Controls

WASHINGTON (UPI) — The government is proposing tighter air pollution controls for 1970 model automobiles, trucks and buses and diesel trucks than prescribed last year.

Secretary John W. Gardner of the Department of Health, Education and Welfare acted Wednesday under the 1965 Clean Air act to require a one-third reduction in the amount of auto exhaust pollutants permitted for 1968 model cars.

HEW will hear comments for 30 days and then set final standards. Under the proposed requirements, cars and trucks would have to control 90 per cent of the evaporation and hydrocarbons from gas tanks and carburetors.

Smoke from diesel trucks would be limited to a faint plume of smoke. Gasoline-powered trucks and buses would have to control 35 per cent of hydrocarbons and 37 per cent of carbon monoxide in their exhausts.

Left unchanged was a 1968-69 standard requiring total elimination of engine crankcase fumes from automobiles.

HEW said extensive research has shown that automotive smog contributes to eye and throat irritations and probably to major respiratory diseases.

### Blast at Arsenal Is Being Probed

DENVER (UPI)—A special team of investigators today tried to learn the cause of a munitions assembly line explosion which killed one person and injured eight others at the Army's Rocky Mountain Arsenal Wednesday.

The explosion at the top secret plant, which once produced deadly nerve gas, involved "classified work," a spokesman said. He said no top secret material was involved, however.

Killed in the explosion was James D. Fisher, 23, of Aurora, a worker at the plant. Only one of the injured, which included two women, was reported seriously injured. The man, Iseddo R. Martinez, was undergoing treatment at Fitzsimons Army Hospital.

### LANGHAM TELLS WHY

## Hospital Bills Keep Heading for the Sky

There is no secret about the reasons hospital bills continue to get higher and higher, according to a statement issued today by Wes Langham, new administrator at Highland General Hospital.

To prove his point Langham, who succeeded Bill Robertson as hospital administrator, last Monday, reviewed some of the hospital major expense items. Langham said the cost of preparing three meals per day, for approximately 90 patients at Highland General has been rising rapidly.

In January of 1966, he stated, the average cost of preparing one meal was .64 cents. Now, not quite two years later, the cost is \$1.07 per tray. (The figures quoted are for the median hospital in Texas in the 50-99 bed size). During this period the raw food cost climbed from 49 to 51 cents or about 4 per cent.

The largest part of the increased costs was in labor, according to Langham. He said that 28 employees work in the dietary department at Highland General.

Hospitals came under the

Minimum Wage Law in February of 1966. The lowest allowable wage is \$1 an hour, and will climb to \$1.15 per hour in February.

"We just see no relief in sight for the rising costs in dietary or any other department," Langham said, "and it appears the hospital patient can expect no immediate reverse in this pattern."

The administrator continued: "We're sure no one expects hospital employees to work for substandard wages."

"Federal legislation has decreed that by 1971 our wages will be on a level with all other employers. This will cause a continuance in the price spiral which no individual hospital can stop," he said.

"Modern, efficient hospital care which restores the sick and injured to health in the shortest possible time is still a bargain, in spite of the upward cost trend."

Langham said the Highland general governing board and administration are determined to do everything possible to assure each patient receives care and treatment commensurate with the cost.

## Israel's Minister Flies Here for Talks

JERUSALEM (UPI)—Prime Minister Levi Eshkol of Israel flew to the United States today for two days of talks with

President Johnson on the Middle East crisis.

The Israeli leader was scheduled to arrive in New York and remain through Saturday for meetings with United Nations officials, including Secretary General Thant.

As if to underline the tensions in the Middle East a pair of terrorist bombs damaged a reservoir near the River Jordan only a few hours before Eshkol's plane left Jerusalem.

The blasts caused "some damage" to the Ashod-Yaacov reservoir, military officials said. They said footsteps were found leading to the Jordanian frontier a few miles away.

Eshkol was meeting Johnson at the President's Texas ranch Sunday and leaving two days later for Ottawa. He planned to remain in New York through Saturday in keeping with religious strictures against travel on the Jewish Sabbath.

It is the first U.S. visit by Eshkol following the six-day Arab-Israeli war last June. He last met Johnson in Washington in 1964.

Their talks were expected to deal with the Arab-Israeli arms balance and Soviet penetration into the Middle East since the June 5-10 war.

### Peace Freedom Party Seeking Spot on Ballot

SAN FRANCISCO (UPI)—The Peace and Freedom party, dominated by antiwar and civil rights militants, claims it has qualified for California's 1968 presidential ballot, but the state's secretary of state today expressed his doubts.

Leaders of the Peace and Freedom party reported Wednesday they had at least 88,475 registrations, 22,000 more than the minimum to place a candidate on the ballot, by the Tuesday midnight deadline.

Secretary of State Frank Jordan said he doubted the party, which favors U.S. withdrawal from Vietnam and an end to what it calls oppression of racial minorities, had the required 66,059 valid registrations.

Jordan said the American Independent party of former Alabama Gov. George C. Wallace had qualified for the California primary and general election ballots. Wallace said in Santa Monica Wednesday he was not certain he would run in the June 4 primary or wait for a national convention of his American Independent party in August or later to nominate him.

He said the important thing was to be on the November general election ballot.

Wallace said a national organization is working to help him get on the general election ballots in at least 49 states. Ohio is doubtful because of its stringent third party requirements.

The state secretary of state must approve both new parties for the ballot. Jordan said final registration totals would not be ready until about Jan. 22.

### Mild Weather In Forecast

Milder weather is forecast for Pampa and the Panhandle tomorrow.

Temperatures dipped to a low of 15 this morning after a high of 16 yesterday and thick fog last night.

The Amarillo Weather Bureau said a thaw would start tomorrow and weather would continue mild through Saturday.

Clear skies and a mild 50 degrees are forecast for Friday and Saturday. Winds will be westerly at 10-20 m.p.h.

### School Officials To Attend Meet

About 75 teachers and other officials who attend the reading conference here Saturday will study why children don't learn and what teachers can do to improve learning difficulties.

Dr. Carol Anderson, director of the Learning Disabilities Diagnostic Center at West Texas State University, will explain how the center works and what it tries to accomplish.

Mrs. Wilsam Hill, PESO (Panhandle Education Service Center) coordinator for region 16, will preside in the program which starts at 9:30 a.m. at Pampa Junior High School. After the coffee break, Mrs. Marjorie Gaut, elementary education consultant for Pampa, will introduce guests and start the program.

Claud R. Zevely, a member of the WTSU faculty, will explain the intake referral forms which are completed on children admitted to the center.

"The WTSU center is a new one and aims to diagnose what causes reading and learning difficulties so teachers can know how to teach to the child's strengths and alleviate his weaknesses. This is one of the ways to get a breakthrough on why children don't learn," Mrs. Gaut said.

Those attending the conference will include nurses and special education workers from Pampa and reading teachers and administrators from U.S. 3 and 4, which includes Pampa, Wheeler, Shamrock, Alton, Kelton, Briscoe, Canadian, Gains, Fallett, Samnorwood, Quail, Hedley, Clarendon and Lakeview.

### AUBREY L. STEELE ... PIF president

## Steele Elected PIF President

Aubrey L. Steele, executive vice-president of Security Federal Savings Association, was elected president of the Pampa Industrial Foundation, Inc. at a directors meeting of the organization Thursday morning.

Other officers named to serve during 1968 are vice presidents E. L. Green Jr., Frank Culbertson and Hugh Burdette; treasurer Floyd Imel and A. A. Schuneman; and executive vice president and secretary E. O. Wedgeworth.

Green is the retiring president.

In other business, Foundation auditor Bill Chambliss gave a financial report. The group also approved the purchase of a page advertisement in the April-May issue of West Texas Chamber of Commerce magazine, "This is West Texas."

W.T.C.C. will be observing their 50th anniversary this spring.

The Foundation's meeting was held in the Chamber of Commerce Conference Room.

## Absentee Ballots Available For Water Director

Absentee voters may cast ballots at the district office of the Panhandle Water Conservation District through Saturday, Jan. 6 for the election of a new director.

Felix W. Ryals, manager of the Panhandle Ground Water Conservation District, made the announcement yesterday.

Others voters will go to the polls Tuesday, Jan. 9. Candidates for the two-year term of director are John H. Harnly and James D. Skaggs. Harnly is the incumbent.

Voting booths will be at the Hoover Mercantile Store at Hoover and the Laketon Farm Supply Store in Laketon.

The polls will be open from 8 a.m. to 6 p.m.

Only voters living in Director's Precinct No. 5 are eligible to vote.

Ryals said Precinct 5 begins 2 miles east of Pampa at the Gray-Roberts county line, extends south, approximately 17 miles, east 2 miles, zigzags around the city limits of Lefors on the west and north sides, extends in a northeasterly direction to the southeast corner of Section 1, Block M-2, H & GN survey, continues due east to the Gray-Wheeler county line and then due north along the Gray-Roberts county line.

The Gray County line is the precinct boundary on the north, back to the point of beginning northeast of Pampa.

## Film on Birth Defects Shown at Rotary Club

"The Only Kid in the Block," a film on birth defects, was shown to members of the Pampa Rotary Club yesterday in the Coronado Inn.

January is March of Dimes month and this year is the 30th Anniversary of The National Foundation, the voluntary health group that fights birth defects. Don Losher and Cameron Marsh spoke in behalf of

NAT LUNSFORD  
... Justice candidate

## Lunsford Files For Re-election

Nat Lunsford, justice of the peace in Pct. 2, Place 1, announced today he will be a candidate for re-election at the Democratic primary election in May.

Lunsford, a former justice of the peace, was appointed to his present post by county commissioners court when the place was re-activated a year ago.

The justice court post will be filled for another four-year term, beginning Jan. 1, 1969.

Lunsford filed his candidacy today with Bob Baker, secretary of the Gray County Democratic Executive Committee.

the Gray County chapter of the organization.

Greg Gunter was introduced as the Junior Rotarian for the month of January. At Pampa High School, he is a member of the student Council, a member of the golf team and choir, as well as being a member of the Key Club.

In 1959, Rep. Charles Halleck, R-Ill., defeated Joe Martin for the post as House Republican leader.

## City Officials Begin 15-Week Personnel Study

City department heads met yesterday for a briefing on a municipal personnel administration course to be held 1 1/2 hours each Thursday for 15 weeks.

The course will be part of an in-service training program aimed at upgrading management practices for Pampa's 11 city departments.

First session of the municipal personnel administration course, sponsored by the International City Managers Association, will start next Thursday.

Classes will be conducted at 4 p.m. every Thursday in the City Commission room by Ronnie Wood, personnel director. The classes will run for an hour and a half weekly for 15 weeks.

"Chief purpose of the course," Wood said, "will be to upgrade the management of city affairs at all levels of municipal government."

City Manager Jim White said: "Actually, we've already started self-improvement programs in some areas. In the police department, we send our rookies to Amarillo for training and from time to time we send some of our policemen to the FBI Academy for further training."

"But we believe that this course will be the most beneficial in helping all our department heads improve the operation of their departments."

White said the classes would be taken up with conference-type discussions. Each class will be led by a different city department head.

"There will be a final exam and you will be awarded a certificate if you pass it," Wood told those present at yesterday's session, "but the emphasis here is on learning—not getting the certificates."

Those who will attend the course will be Jim Conner, chief, and Lt. George Wallace, police; Bob Bonsel, superintendent of streets; Allen Vickery, superintendent of sanitation; Carl Wright, superintendent of parks; "Chick" Chittenden, city secretary; Aubrey Jones, tax assessor-collector; Tony Anderson, water superintendent; and Mack Wofford and R. B. Cooke, public works and utilities. Capt. F. E. Dyer of the fire department will take the course instead of Fire Chief Ernest Winborne, who is retiring soon. Mrs. Barbara Cokrell, city librarian, will also attend the course.

Funeral services will be held at 2 p.m. Friday in Carmichael-Whitley Colonial Chapel. Rev. J. B. Manning, assistant pastor of First Baptist Church, will officiate. Burial will be in Fairview Cemetery.

Pallbearers will be Al Davis, Jay Henderson, Walter Davis, Jerry Johnson, Buford Winegeart and Austin McDowell.

Mrs. Mabel Arrington, Mrs. Mabel Huseby Arrington, 78, died at her home in Miami Wednesday. Born Jan. 15, 1889, at Old Mobeetie, she was the daughter of pioneer settlers, the late Mr. and Mrs. Mark Huseby.

Her parents came to Ft. Elliott at Old Mobeetie where they farmed and sold horses to the cavalry at Ft. Elliott.

Her father was the first tax assessor of Wheeler County, the oldest organized county in the Panhandle. He was the first man in the Panhandle to use irrigation commercially and built the first stone jail at Mobeetie. After retiring from the Army at Ft. Elliott, near Old Mobeetie, he farmed nearby, and built one of the first hotels in Mobeetie.

Mrs. Arrington was a member of the First Methodist Church in Miami. Before moving to Miami 44 years ago, she lived on a ranch in Hemphill County.

She is survived by one son, Mark Arrington, Miami; one sister, Miss Isobel Huseby, Mobeetie; five grandchildren and five great-grandchildren.

Her daughter, Mrs. Eileen McElroy, of Pampa, died in 1967. The body will lie in state at Miami Methodist Church from 2 p.m. Friday until service time at 3 p.m. Friday. Rev. D. D. Creech, pastor, will officiate. Burial will be in Miami Cemetery directed by Carmichael-Whitley Funeral Directors of Pampa.

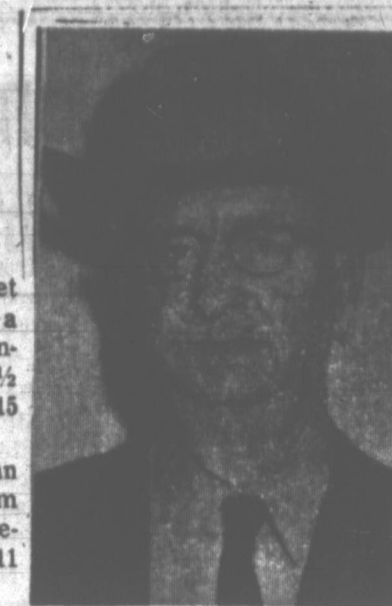

The body will lie in state at Miami Methodist Church from 2 p.m. Friday until service time at 3 p.m. Friday. Rev. D. D. Creech, pastor, will officiate. Burial will be in Miami Cemetery directed by Carmichael-Whitley Funeral Directors of Pampa.

A spokesman for Highland General Hospital said this morning that Whatley was in good condition.

Bill Fulcher, plant superintendent, said the explosion was probably caused by static electricity.

The explosion was not major and did little damage except to a small building nearby, Fulcher said. The fire was extinguished within minutes by the compressor plant's own fire fighting equipment.

In 1938, the March of Dimes campaign was organized to fight infantile paralysis.

H. A. DOGGETT  
... seeks re-election

## Doggett Gives Notice to Seek Re-Election

H. A. Doggett, incumbent constable in Precinct 2, today announced his candidacy for re-election.

He will be seeking his fifth term. He has held the office for 15 years.

A native of Goldthwaite, Texas, Doggett has lived in Pampa for 25 years. He resides at 1805 Hamilton with his wife. They have two children, Mrs. Christell McElroy of Beaver, Okla., and Gene Doggett of Boulder, Colorado.

Doggett is a member of the First Baptist Church.

## Obituaries

Fred C. Bohannon, 68, of Casa Del Nursing Center, died at 12:15 p.m. Wednesday at Highland General Hospital after an 18-year illness.

He was born March 20, 1899, in Bonham, and was a retired roughneck. He was a member of First Baptist Church, Borger.

Survivors include one son, Carlton Bohannon, Ulysses, Kans.; one daughter, Mrs. Trucille Hickey, Wichita Falls; one brother, Frank Bohannon, Dallas; a sister, Mrs. Flora Hamilton, Waco and six grandchildren.

Funeral services will be held at 2 p.m. Friday in Carmichael-Whitley Colonial Chapel. Rev. J. B. Manning, assistant pastor of First Baptist Church, will officiate. Burial will be in Fairview Cemetery.

Pallbearers will be Al Davis, Jay Henderson, Walter Davis, Jerry Johnson, Buford Winegeart and Austin McDowell.

**Airman First Class**—Michael Tracy, son of Mr. and Mrs. Paul L. Tracy of 2237 N. Wells, is serving with the U.S. Air Force in Thailand. Tracy, who entered the Air Force in October of 1965, has been in Thailand since August. His younger brother, Peter, is currently undergoing basic training at Lackland Air Force base in San Antonio. Both are graduates of Pampa High School.

**Insure against "15" dread diseases.** Call Ott Shewmaker. The regular meeting of Las Pampas Chapter, D.A.R., will be held at 12:30 p.m. Saturday in Jackson's Cafeteria. Mrs. Bill Blackstone of Groom will speak on her experiences in war torn Europe.

**We sell our famous brand clothes** anyway for half price, but now on winter clothing 60 to 80 per cent off. Dyke's Discount.

**Jim Arthur, junior** at the University of Houston, spent the recent holidays visiting his mother, Mrs. Margaret Arthur, 1105 Varnon Drive.

**Shop now. Sand's Fabre year-end clearance sale.** Pampa Chapter No. 70, Pi Delta Pi, Junior Order Knights of Pythias will hold a called meeting at 7:30 p.m. today in Pythian Hall, 317 N. Nelson. Members will be assigned a time to help on the March of Dimes "Bucket Brigade" to be held Saturday. The chapter will work the Foster and Cuyler intersection.

**Plastic film, up to 40' wide 4-10 mils.** Pampa Tent and Awning, 317 E. Brown, MO 4-8541.

**Key Club Banquet Set for Saturday**—Pampa High School Key Club will hold its ninth annual Leadership Banquet at 7 p.m. Saturday, Jan. 6, in the high school cafeteria.

The banquet is held annually in honor of Key Club's adult leader of the year. The recipient is chosen by a special committee for his work with and for young people.

Kevin Francis, senior director, will serve as master of ceremonies. Tommy Rose, student body vice-president, will present the award.

Rev. Dan Cameron, pastor of the First Baptist Church, will be the speaker. His topic will be "The World's Greatest Things."

Tickets for the banquet may be purchased from members of the Key Club. Cost is \$1.25 for students and \$2.00 for adults.

## Kiwanis Club To Install Tonight

Installation of 1968 officers of the Downtown Kiwanis Club was scheduled for a 7 p.m. Ladies Night banquet tonight in the Starlight Room of Coronado Inn.

Joe Fischer will be installed president to succeed outgoing president Boyd Taylor. Other officers for the current year are Royce Laycock, first vice president; Bob Parks, second vice president; Jerry Davis, secretary, and Cletus Mitchell, treasurer.

Directors include Jeff Anderson, Clyde Carruth, Bob Parks, Glenn Radcliff, Joe Sleede, George Thompson and Larry Wall.

The installing officer will be T. A. Kilpatrick of Amarillo, past lieutenant-governor of Division 6 of Kiwanis International.

Speaker at the banquet will be Rev. Leon Hill of Amarillo, humorist, known nation-wide on the Knife & Fork Club circuit. Entertainment will be provided by Jerry Baxter, choir director at Robert E. Lee Junior High School. Ralph McKinney will be the master of ceremonies.

In 1937, 10,000 Italian troops landed in Spain to bolster the nationalist forces in the Spanish Civil War.

## Students to Enter Region Try-Outs For Texas Band

Thirteen Pampa students will compete Saturday in region one tryouts for all-state band. Harris Brinson, Pampa High School band director, will accompany the group to West Texas State University, Canyon.

All schools in region one, which includes those from Lubbock north to the Panhandle, will send contestants.

Winners at Canyon will enter area tryouts for all-state band Jan. 20 in Lubbock. Schools included in the area contest are those from regions one, five and six, from El Paso to Abilene, and from Lubbock north to the Panhandle.

Pampa High School students entering the region one tryouts are Doug Laramore, Mike Ruff, Bill Duggan, Barbara Wolf, Danny Finnell, Renee Seest, Bill Felter, Rusty Reeves, Mike Collinsworth, Gall Miller and Tommy Francis. Doyle Gerkin and Hugh Jones are Pampa Junior High School students.

## Schools Shut By Flu in Cleburne

CLEBURNE, Tex. (UPI)—The doors of Cleburne schools were closed today, and Superintendent Ernest Guinn said they would stay that way until Monday because of an outbreak of influenza.

The Cleburne schools are the first major school district in Texas to close because of influenza illness which has struck much of the state.

Guinn said attendance had dropped to about 88 per cent since the children returned from the Christmas holidays. He said normal attendance was about 95 per cent.

# President To Curb Tourism

WASHINGTON (UPI)—President Johnson's plan to help stem the overseas dollar drain by curbing American tourism outside the Western Hemisphere hit travel industries here and abroad with a jolt.

Since the early years of the Kennedy administration, government policy had been to leave American touring unrestricted but try to balance the resulting dollar outflow by drawing more foreign tourists here.

Johnson's abandonment of this approach appeared to catch the American tourist industry by surprise.

"This is a very traumatic thing and we'll have to take some time in drafting comment," said a spokesman for one major overseas airline.

**Question Legal Action**  
An official of Pan American World Airways said it was hard to believe that Johnson would actually move to legally restrict travel abroad, "especially in an election year."

The British tourist industry was dismayed by the move. Its spokesman warned that any curtailment in U.S. tourist traffic could seriously hurt the British economy because tourism is the nation's second highest dollar earner.

Johnson, expressing the hope the annual \$2 billion deficit in the U.S. "tourist account" could be cut by 25 to 37 per cent with his plan, called on Americans to forego voluntarily any "non-essential" travel outside the Western Hemisphere in 1968 and 1969.

**Form In Doubt**  
He promised to seek legislation to discourage overseas travel while his "temporary" plan is in effect, but gave no hint of its form.

Informed sources said, however, Johnson was likely to ask Congress to impose a special tax on foreign travel.

This could be in the form of a "head tax" or fee required to leave the country on pleasure travel; a special tax on airline or ship tickets; or reducing or eliminating the present \$100 in foreign goods returning tourists can bring in the country duty free.

Still another way might be to limit the amount of money U.S. tourists could take with them abroad, a method now used by Britain to control the outflow of pounds.

## Deadline Nears For Filing Of Estimated Tax

Monday, Jan. 15, is the due date for the final payment of 1967 estimated Federal income tax, according to Ellis Campbell, Jr., district director of Internal Revenue for Northern Texas.

An amended declaration of 1967 estimated income tax may be required by Jan. 15, from taxpayers who have had changes in income or exemptions during the last quarter of 1967 that cause substantial increase or decrease in income tax. The amended declaration form may be obtained from any IRS office.

An original declaration of 1967 estimated tax should be filed by Jan. 15, on Form 1040-ES by taxpayers who just became liable for filing an estimate during the fourth quarter.

Payment of the last installment, filing of an amended declaration or original declaration which would otherwise be due on Jan. 15, need not be done if the taxpayer files his 1967 income tax return, Form 1040, and pays in full the balance of tax due on or before Jan. 31.

**SEARCH FOR BODY**  
SABINE PASS, Tex. (UPI)—A search was under way today for the body of Frank Williams, 28, believed to have drowned Tuesday in the Gulf of Mexico, about 30 yards from shore.

# Long Tells Plan To Solve Deficit

NEW ORLEANS (UPI)—U.S. Sen. Russell B. Long, D-La., presented a get tough plan to solve America's balance of trade deficit Tuesday and announced an off hand deal with Wyoming politicians for a bill designed to give states millions of additional dollars in revenues from natural resources.

The veteran Louisiana congressman said President Johnson's plan to curb U.S. investments abroad and urge Americans not to travel overseas did not go far enough to reverse the balance of payments.

"I think we should tax foreign tourists, recall more troops from Europe, Japan and Korea and levy heavier taxes on imports," Long said.

He said Wyoming Gov. Stan Hathaway and Sens. Gale McGee, R-Wyo., and Clifford Hansen, R-Wyo., had agreed to support his bill giving Louisiana 37 1/2 per cent of the revenues from oil produced on the continental shelf if it was amended to hand inerior states a 60 per cent tax rebate on revenues from federally owned lands.

States like Wyoming with huge federal land areas could receive millions of dollars from such a measure.

# Foreign Commentary

**By PHIL NEWSOM**  
UPI Foreign News Analyst

In Belgrade and in the stores of other major Yugoslav cities consumer goods abound.

If they feel aggrieved, Yugoslav workers go on strike. Automobiles jam the streets. Small, but private, one-family houses seem to spring up overnight.

In Communist Yugoslavia, the rules have been rewritten so many times there even is a serious question whether, especially as measured by the rules of the late Joseph Stalin, Yugoslavia is truly Communist any more.

And this is precisely what is giving President Josp Broz Tito, the most unorthodox among Communist leaders, his greatest trouble.

**Another Purge**  
And this is what led Tito to announce over the weekend a purge-upon-a-purge.

Elements opposed to Yugoslavia's economic reforms would be purged, he announced, before the beginning of Yugoslavia's ninth Communist party congress to be held at the end of 1968.

It was at the end of last June that Tito announced a purge that would extend into every branch of Yugoslav official life, from the secret police and the army to the courts and the secretariat of foreign affairs.

That announcement followed the ouster of Vice President Aleksandar Rankovic whose efforts to circumvent decreed economic and social reforms had extended to the tapping of Tito's own telephone lines.

Now the 75-year-old Tito has decreed another to clear the way for the ninth congress which must approve the drastic reforms that have shaken the East European Communist block all the way from Moscow to East Berlin to Moscow itself.

**Unorthodox Moves**  
Tito's departure from orthodox communism led to Yugoslavia's ouster from the Cominform by Stalin in 1948, and today has extended so far that half of Yugoslavia's workers are engaged in the private sector, foreign investment is encouraged in Yugoslav enterprises which are being thrown open to outside competition, and the Yugoslav dinar is to be made freely convertible into hard foreign currencies.

# Humphrey Lands in Monrovia, Approves New Ghana Loan

ACCRA, Ghana (UPI)—Vice President Hubert H. Humphrey arrived by plane from Monrovia, Liberia, today on the third stage of his nine-nation goodwill tour of Africa.

Along with President Johnson's good wishes, Humphrey brought his own signature for a \$12.1 million food-for-freedom loan to Ghana—the former British Gold Coast colony which in 1957 led the way to independence in black Africa.

The new loan was interpreted in Accra as a further demonstration of U.S. backing for the ruling National Liberation Council which ousted former dictator Kwame Nkrumah from power in 1966.

Before leaving the Liberian capital this morning, Humphrey paid a brief visit to the Firestone rubber plantation where he was shown around by Raymond C. Firestone. The vice president chatted with African schoolchildren and passed out vice presidential cards as souvenirs.

### 5 Nasser Quietly Releases Reds

LONDON (UPI) — President Gamal Abdel Nasser of Egypt has quietly released a number of detained Communists, presumably as the price of growing Soviet influence in the country, diplomatic reports said.

The Communist party is officially banned in Egypt, as it is in most of the Arab countries. Many Communists have been in jail or under detention for some time past.

Latest reports said more than 1,000 Communists "have had their political rights restored." More are to be released and regain their civil rights.

The move was seen as one of the direct consequences of growing Soviet influence in the U.A.R., following the defeat of Egypt at Israel's hands and her mounting dependence on Soviet assistance and good will.

Despite Soviet arms supplies, and economic aid, including the building of the costly Aswan Dam, Cairo in the past refused to make any concessions to Moscow on Communists in the country and maintained a harsh policy towards them.

Moscow, anxious to keep on good terms with Nasser, quietly swallowed the paradoxical situa-

## Autopsy Set for Tenth Infant In Family to Suffer Mystery Death

PHILADELPHIA (UPI) — An autopsy was set today in the mysterious and tragic sudden death of a couple's tenth baby whose nine brothers and sisters all died within months after birth.

Performing the autopsy were Dr. Marvin Aaronson of the medical examiner's office, assisted by world-renowned expert on infant sudden deaths, Dr. Molly DePena, a pathologist at St. Christopher's Hospital for Children.

Five-month-old Arthur J. Noe died Wednesday afternoon in a fire rescue ambulance. Firemen administered oxygen but the baby was dead on arrival at St. Christopher's.

Arthur Noe, 46, told a reporter he had nothing to say because "we have just been through this so many times. It's just heartbreak."

His wife, Marie, 39, couldn't speak about the tragedy.

The baby was described as healthy, except for a cold. Suddenly, he became very sick and the rescue squad was summoned.

The hospital couldn't give a cause of death. There were no marks on the baby's body.

The deaths have puzzled the pathologists for years and Dr. DePena, who has studied them as much as the medical examiners office, has been unable to find a conclusive cause of death.

Medical examiner, Dr. Joseph W. Speiman, said there was never a reason to believe the deaths were not from natural causes, but "what the disease is, what the metabolic or genetic defect is, we do not know."

## Exemption of Mexico Travel Limits Hailed

MEXICO CITY (UPI) — U. S. President Lyndon Johnson's express exception of Mexico from the trade and travel curbs announced Monday is "very important," said Agustin Salvat, head of the Mexican Tourist Department, Tuesday.

"We consider this a very important part of the President's declarations," said Salvat.

"He thus avoided any kind of limitation on American tourist travel to this area. The relations between Mexico and the United States involve an uncountable economic interdependence; they need our products as much as we need theirs, and no restrictive measures have changed the status quo."

Mexico—along with Canada, and many Caribbean and Latin American nations—was specifically exempted from the U.S. move to prohibit foreign investments and reduce tourist spending abroad, in order to defend the dollar from a balance of no restrictive measures have payments crisis.

The move was expected to boost U. S. investment in Mexico, and U. S. tourists travel.

### Drug Companies Must Face Suit On Overcharge

AUSTIN (UPI) — Five drug companies accused of overcharging the state of Texas for antibiotics have until the end of February to answer the state's suit, the attorney general's office said Tuesday. The state seeks damages of \$11 to \$12 million under antitrust laws.

The companies named in the suit are Charles Pfizer and Co., American Cyanamid Co., Bristol Myers Co., Olin Mathieson Chemical Corp. and the Upjohn Co. They are accused of conspiring to fix prices of several antibiotics from 1953 to 1966.

## Chef's Salad Takes On Hawaiian Flavor

Sturdy chunks of ham, Cheddar or Swiss cheese, and juicy tart-sweet Hawaiian pineapple make a luncheon that is satisfying to the hearty appetite. A perky French style dressing and chopped garden green onions give a piquancy to this beautifully easy one dish meal. Something great to remember about this salad... unlike most, it can be made in advance and chilled... it's even a little better if allowed to "marinate" a while.

### Chef's Salad Hawaiian

- 3 cups drained Hawaiian Pineapple Chunks (No. 2 or 1 lb. 4 1/2 oz. can)
- 2 tablespoons chopped dill pickle
- 2 tablespoons chopped green onion
- 1 cup cubed ham
- 1 cup cubed Cheddar or Swiss cheese
- 1/4 cup French dressing

Tom all ingredients together. Serve on lettuce leaves. Makes 4 luncheon servings.

## Shrimp Graced With Gruyere

Party day, busy day, any day—thank heaven for the no-fuss dinner. The Borden Kitchen had just such a hurried homemaker in mind when they created shrimp-egg ramekins smoothly sauced with Gruyere cheese. Complement with a crisp green salad, refrigerated biscuits temptingly browned, and—dinner's ready.

### Deviled Cheese and Shrimp Ramekins (Makes 4 Servings)

- 1/4 cup Danish flavor margarine or butter
- 1/4 cup finely chopped onion
- 1/4 cup all-purpose flour
- 2 cups homogenized milk
- 1-1/2 teaspoons dry mustard
- 2 tablespoons Wyley's dehydrated parsley flakes
- Dash salt & pepper
- 1 teaspoon Worcestershire sauce
- 3-4 drops Tabasco sauce
- 1 package (six 1-oz. portions) Borden's pasteurized process Gruyere cheese
- 1/2 cup fine dry bread crumbs
- 1/4 cup finely chopped pecans
- 2 tablespoons butter or margarine, melted
- 4 hard-cooked eggs
- 1 cup (one 5-oz. can) shrimp, drained

In a medium-size saucepan, melt butter or margarine; saute onion until transparent. Stir in flour; cook until mixture bubbles. Remove from heat; gradually blend in milk. Place over medium heat. Cook; stir constantly until sauce is thickened. Stir in mustard, parsley flakes, salt, pepper, Worcestershire sauce and Tabasco. Remove from heat. Shred 4 portions of cheese. Stir into sauce. Return to heat; stir until cheese melts. Shred the remaining cheese and combine with crumbs, pecans and butter. Reserve for topping. Diver 4 individual ramekins. Divide cheese sauce in half; spoon into 4 ramekins. Cut eggs lengthwise into quarters. Arrange over cheese sauce. Add shrimp. Top each ramekin with remaining cheese sauce. Sprinkle each with cheese-crumbs mixture. Bake in a moderate (375°F.) oven 10 minutes or until crumbs brown and sauce is bubbly.

## Rosy Salmon Ring Makes Hot News

If you have a family of salmon lovers, you may already know this distinctive fish is not just for serving cold in a salad, but that some like it hot. And perhaps you've been fishing for different ways to dish it out. If so, you'll be happy to discover Rosy Salmon Ring. With its dash of dill and lemon, it's tangy as well as nourishing. And, it's a festive looking dish to add to your recipe collection. Serve quick and easy Rosy Salmon Ring for dinner soon. The center of the ring may be filled with green peas, accompanied by tomato sauce. Garnish with parsley, radish roses and lemon wedges.

### Rosy Salmon Ring

- 30 double Krispy Crackers
- 1/2 teaspoon pepper
- 1/4 teaspoon dried dill weed
- 1 can salmon, 1 pound
- 1/4 teaspoon grated lemon rind
- 2 tablespoons lemon juice
- 2 eggs, beaten
- 2 tablespoons melted butter or margarine
- 1/2 cup finely diced celery
- Lemon wedges
- Parsley
- Radish roses
- Green peas to fill center, optional
- Tomato sauce, chili sauce, or catsup

Roll crackers into very fine crumbs, between two pieces of waxed paper. (There should be about 2 cups.) Mix with pepper and dill and set aside. Drain salmon, reserving the juice. Flake salmon into bowl, discarding dark skin and bones. Stir in juice from can, lemon rind, lemon juice, eggs, butter and celery. Add crumb mixture and blend well. Turn into well greased 8-inch ring mold (about 5 cups capacity). Bake in moderate oven (350°) for about 25 minutes, or until firm. To serve, loosen from mold with spatula and turn onto platter. Fill center with green peas or desired vegetable. Garnish with lemon wedges, parsley and radish roses. Serve with tomato sauce, chili sauce or catsup. Or, serve vegetable separately and fill center of ring with bowl of tomato sauce. Yield: 6 servings.

## New World Version of Flemish Beef Uses Canned Beef Gravy

Have you ever been fortunate enough to sample Belgian food firsthand? It rates among the finest in the world and is very similar to the better-known dishes of neighboring France.

However, the classic Flemish beef is simmered in gravy laced with beer instead of with wine as in France; for beer is the Flemish national drink. To Old World flavor we add a bit of New World ingenuity here by using a convenience item, canned beef gravy. Instead of standing over the stove, fighting lumpy gravy, just open the can and pour out the velvety perfection. It saves a bothersome step.

This recipe calls for a flank steak, stuffed, rolled and then simmered in this delectable sauce. Chopped onion and crushed thyme add further flavor. You might serve whole carrots and green beans along with the flank steak. And for dessert, baked apples stuffed with raisins and glazed with honey.

### STUFFED FLEMISH FLANK STEAK WITH-BROWN SAUCE

- 1 cup chopped onion
- 1/4 teaspoon thyme, crushed
- 3 tablespoons butter or margarine
- 2 cups dry bread cubes
- 1/2 cup beer
- 1 1/2 pounds flank steak
- 1 tablespoon shortening
- 1 can (10 1/2 ounces) beef gravy

In skillet, cook onion with thyme in butter until tender; mix in bread and 1/4 cup beer. Score both sides of steak. Spread stuffing evenly on steak to within 1-inch of edges. Starting at narrow end, roll up; tuck in ends; seal with toothpicks. In skillet, brown steak in shortening; pour off fat. Add gravy and remaining beer. Cover; cook over low heat 2 hours or until tender. Uncover; cook until desired consistency. Makes 4 to 6 servings.

## At Company Meal Cook Rice Cereal

Here are two light and lovely desserts which will make an elegant ending to a company meal. Both use the quick-cooking rice cereal for lightness. Topsy Custard pudding is a creamy sauce with a touch of sherry flavor served over sponge cake or ladyfingers. Peach Fluff pudding has the hint of almond and the richness of heavy cream. These two desserts will meet with approval when the cry from the guests is that they have already eaten too much.

### TIPSY CUSTARD PUDDING

- 2 cups milk
- 2 tablespoons Cream of Rice
- 2 eggs
- 1/4 cup sugar
- 1/4 teaspoon salt
- 1 teaspoon sherry extract
- Sponge cake or ladyfingers. . . .

Scald milk. Slowly add rice cereal and cook 1 minute, stirring constantly. Remove from heat, cover and let stand 4 minutes. Beat eggs, sugar and salt together. Gradually stir hot cereal mixture into eggs. Return to saucepan and cook, stirring constantly, until custard is slightly thickened, about 5 minutes. Stir in sherry extract. Cool. Serve on sponge cake or ladyfingers. Makes 2 1/2 cups sauce.

### PEACH FLUFF PUDDING

- 1 can (1 lb.) sliced peaches
- Water to make 1 1/4 cups
- 1/4 teaspoon salt
- 1/4 cup Cream of Rice

### Food Buying Guide

The following guide to the nation's food buys for the weekend was prepared by the Departments of Agriculture and Interior for United Press International.

WASHINGTON (UPI) — USDA's consumer and marketing service reports that weekend shoppers, preparing for the first weekend of the new year, can make their selections from good supplies of meat and poultry and from adequate supplies of some fresh fruits and vegetables at food stores and supermarkets.

Broiler-fryer chickens and turkeys continue as the most abundant meats. They should be featured food buys in all areas. Beef roasts and steaks should also be featured in most areas with ground beef in this category in some areas. Pork features will include bacon, chops, and hams. The U.S. Department of the Interior reports that stocks of fish sticks and portions and frozen fish filets and steaks are again ample in all areas. Cabbage, onions, and potatoes are in good supply in most areas. Lettuce joins this group in some areas. Apples, grapefruit and oranges are leaders among the abundantly available fruit. Bananas are also in this category in some areas.

1 1/2 cups. Chop peaches and in chopped peaches (reserve a few for garnish) and remaining whipped cream. Spoon into serving dishes. Garnish with reserved peaches. Makes 4 to 6 servings.

Are you budget-minded? Then know the cuts of meat! Meat takes most of your food dollars. So guard against waste—from the meat counter to the serving dish.

Cuts of meat differ in tenderness, which depends on the part of the animal from which they are taken, and the age and fatness of the animal.

by Abigail Van Buren

**DEAR ABBY:** What would you think if your husband could hardly wait for the hunting season to open. And then he took off in the middle of the night for a four-day hunting trip and forgot his rifle? I thank you.

**DEAR WONDERING:** I would think that he did not intend to shoot whatever it was that he set out to hunt.

**DEAR ABBY:** I am a 65-year-old woman, facing eye surgery which could cost me my eyesight, but that is not my problem. My problem is my 41-year-old daughter. She is married and lives in the same town, but I have not been able to contact her or see my grandchildren for five years.

My daughter started growing distant toward me when her husband was promoted and they moved into a fine big home. Then she broke off with me completely. When I call her house her maid says she is not in. I have left my number, but she never calls me back. When I call my son-in-law at his office, his secretary gives me the same story. I have written letters to her, but she never answers. On Mother's Day and Christmas I never hear from her.

I am not a drunk or a dope and have done nothing to make her ashamed of me. I go to church and have never interfered in her life. My husband (her father) deserted us when she was a child, so I went to work and gave her a good home and put her through college. I have spoken with my minister and hers, too, and they both tell me their hands are tied and their authority is limited. Please tell me what to do. Life isn't worth living anymore.

**DEAR LONELY:** It seems highly unlikely that this is the whole story. But if it is, your daughter is heartless beyond belief. In any case, your only course is to accept the fact that she has chosen to ignore you. Put all thoughts of her out of your mind as best you can. Not an easy pill to swallow, but it's better than consuming yourself with the pain and sorrow that now dominate your life.

**DEAR ABBY:** I would like to help all "young marrieds" who find it difficult to address their husbands' mothers as "Mother".

When I made my first visit to the doctor's office after my first baby was born the nurse motioned to me, and said, "You are next, Mother." I knew she wasn't addressing me as HER mother. Suddenly I realized that she addressed all of us with children as "Mother." Immediately my vision was broadened, and I came to understand that "Mother" applied to all women with children. That was the moment I was lifted out of the narrow rut of thinking that the title belonged only to my own mother.

I soon put this knowledge to practice. When I wanted to attract the attention of friends, neighbors or even strangers, I would say, "Mother, watch your little one." You'd be surprised how quickly they reacted, having been reminded that they were mothers. The title is rightly theirs, and never interfered with the special meaning it held for my own dear mother.

If we would use the term freely, the next generation would learn from our example and thus alleviate a sticky problem. Thank you for the privilege of sharing these thoughts with you.

**"A" OF ALABAMA** DEAR "A.": And thank you for having shared them.

Problems? Write to Abby, Box 69700, Los Angeles, Calif. 90069. For a personal reply, enclose a stamped, self-addressed envelope.

NOVEL SKI RACK, her nephew's baby buggy, is pressed into service by Gail Tobin, 17, of Gilford, N.H., as the sun-and-snow season gets under way at the Belknap ski area. Robert Tobin, 16 months, apparently has no objections so long as he gets to go along for the ride.

### Astrological Forecast

By CAROL R. RIGTER

**FOR FRIDAY, JAN. 5**  
**GENERAL TENDENCIES:** You feel you want to make those long-awaited changes in a drastic and dramatic fashion but if you will take some time out to consider all of your obligations and then listen to that insistent hunch so likely to be buried by outside activities, you can get the right answer and not go through so much tension, strain.

**ARIES (Mar. 21 to Apr. 19)**—Listen to what advisors have to suggest and add to present benefits instead of being concerned with small details, interests, etc. Don't change jobs. Be affectionate with loved ones in p.m.

**TAURUS (Apr. 20 to May 20)**—An associate gives you right advice, so listen and follow before you go with plans for pleasure you desire. Be gracious about your favor being extended to you. You need not upset present conditions, either.

**GEMINI (May 21 to June 21)**—Although you feel you need some new interest, you had better handle that important work instead and gain favor of those you have long been buttering up. Show that you do your rightful share of any work. Be happier.

**SCORPIO (Oct. 23 to Nov. 21)**—Listen to what some expert has to say so that you have more harmonious relations with everyone around you, especially your mate. Know that a happy home life is half the battle. Spend your money wisely.

**SAGITTARIUS (Nov. 22 to Dec. 21)**—You have a clever idea to work out with a pet, so don't permit unimportant matter to hold you back and be sure to follow all laws that apply to you. Some expert can be of great assistance to you now.

**CAPRICORN (Dec. 22 to Jan. 20)**—You require assistance which a good pal can extend, so don't be reluctant to go after it. Avoid that superficial person. That social affair should be attended without hesitation, finding some excuse.

**AQUARIUS (Jan. 21 to Feb. 18)**—Make plans to get your credit or career bettered by being very practical and stop spending so much time on unimportant things. Some logic can be very helpful to you—go to see him, or her.

**PISCES (Feb. 19 to Mar. 20)**—You find it hard to go along with ideas or associates right now, so get out to other activities that will yield far better results. You get a wonderful idea for self-improvement. Follow through on it.

## Eurleen Wallace In Hospital Again To Get Test Results

HOUSTON (UPI)—Gov. Lurleen Wallace of Alabama returned to Montgomery, Ala., hospital and Tumor Institute today for the results of Tuesday's tests with her doctors. After they evaluate the tests, Wallace will continue to return to the doctors who will determine whether more tests are necessary or whether she will be able to leave. Mrs. Wallace is undergoing any cobalt therapy and no therapy or treatment is scheduled when she returns to Montgomery, Ala., according to a spokesman for the hospital. The spokesman said Mrs. Wallace will continue to return to the doctors who will determine whether more tests are necessary or whether she will be able to leave. Mrs. Wallace is undergoing any cobalt therapy and no therapy or treatment is scheduled when she returns to Montgomery, Ala., according to a spokesman for the hospital.

## McLendon Enters Race for Gov.

AUSTIN (UPI)—Gordon McLendon, millionaire broadcasting executive who lost a race for the U. S. Senate in 1964, announced Wednesday he will run for governor of Texas. McLendon, 46, is a conservative Democrat. He is widely known as "the Old Scotchman," a name he used in his "recreated" baseball broadcasts in the 1940's. He now lives in Dallas and controls 15 radio and television stations in Texas and elsewhere. McLendon and Lt. Gov. Preston Smith are the only announced candidates for governor, but Secretary of State John L. Hill has said he expects to announce later this month. Other possibilities in the Democratic primary include Sen. Ralph Yarborough, former Atty. Gen. Waggoner Carr, Eugene Locke of Dallas, Mayor Louie Welch of Houston and Don Yarborough of Houston. No Republican candidate has announced so far.

In 1964 McLendon opposed Sen. Yarborough in the Democratic primary after other conservative Democrats declined to make the race, citing pressures from President Johnson. Yarborough beat McLendon 905,011 to 672,573 after a bitter campaign marked by charges that Yarborough accepted a \$50,000 gift from Billie Sol Estes and contentions that McLendon misused his broadcasting outlets to boost his own campaign. The U. S. Justice Department investigated the story of the \$50,000 gift from Billie Sol Estes and the Federal Communications Commission ordered McLendon to give Yarborough equal time on the McLendon radio and TV stations. At a news conference today, McLendon said he had a private nationwide polling organization conduct a poll in Texas and "it showed me far stronger than I had hoped, and far more than I felt I needed to enter the governor's race." He would not reveal any other results of the poll, which he said he received Tuesday when he finally made up his mind to run. McLendon said he planned to go by the state Democratic headquarters following the news conference and pay the \$1,000 filing fee. "The survey showed I had even greater strength among conservatives, moderates and liberals than I thought I needed to enter this race," McLendon said. In answer to a question, McLendon said he was opposed to any law which would authorize open saloons or general liquor by the drink in Texas. "However, it might be possible that something else could be worked out on a local option basis on this issue," he said. He said he had a similar position on parimutuel horse race betting. He said his staff is making studies on such issues as crime, education, taxes, housing, employment, transportation and poverty "to enable us to anticipate some, to meet others head on."

In the second year, she probably will be examined every six months and after that once a year.

## Romney Ends His 11-Nation Tour

PARIS (UPI)—Republican presidential aspirant George Romney ended an 11-nation global tour Wednesday and flew home to begin "the real season" of political campaigning. The Michigan governor made no statement before boarding a New York bound jet but earlier took a swipe at his "negative" press coverage. Romney said the information he gathered in talks with world leaders would be "reflected very definitely in New Hampshire campaigning." "This is the end of the grapefruit league," he said. "The real season is just starting."

## Source in Stockholm Says Defector There

STOCKHOLM (UPI)—A reliable government source today disclosed that an American soldier scheduled to be transferred to Vietnam from West Germany arrived in Sweden two months ago and asked for political asylum. The GI was identified only as Mitchell Hair. The source said his file was stamped classified at his request and neither his hometown nor his unit in West Germany could be disclosed. It brought to seven the known number of American servicemen who have sought asylum in Sweden in protest against U.S. policies in Vietnam or for other reasons. Meanwhile, the four U.S. sailors, who fled from the carrier Intrepid in Japan and came to Sweden by way of the Soviet Union, awaited a final decision on their applications for political asylum. The aliens committee recommended Tuesday that they be given asylum on the condition they refrain from anti-American Vietnam propaganda during their stay in Sweden. The committee's recommendation almost certainly means that the aliens commission—the deciding government agency—will grant them asylum. A spokesman said the commission was expected to meet later this week to give its ruling. The four Americans are Richard Bailey, 19, of Jacksonville, Fla.; John Barilla, 20, of Catonsville, Md.; Michael Lindner, 19, of Mount Pocono, Pa.; and Craig Anderson, 20, of San Jose, Calif. They flew here Dec. 29 from Moscow and said they would like to settle in neutral Sweden because they considered U.S. involvement in the Vietnam war "immoral."

# 100 to 1 Shot Williams No Pigskin Picker

NEW YORK (UPI)—Dick Williams, the same guy who cashed in on an unbelievable 100 to 1 shot, suddenly has turned into a loser.

"That's right, I haven't been doing well at all lately," confided the manager of the Boston Red Sox from Palm Beach Shores, Fla., where he's building a new home.

How come?

"Well, I lived in Texas nine years you know. So I was rooting for Dallas to beat Green

Bay and for Houston to beat Oakland. I didn't do too good there, did I? Before that, I wanted the Rams to beat Green Bay because I grew up just outside L.A. I didn't do so good there, either, did I? But I got one winner going for me, Bobby Orr (of the Bruins) is substituting my apartment in Boston."

Williams is no chalk player. He has a great shot at getting well in the Super Bowl, but wouldn't you know it, he likes

Oakland. "I have to stay with the underdog," he says.

"That's fine, but who's gonna win?"

"Green Bay," he comes right back.

**Gets Job Done**

"That Lombardi is the greatest ever without a doubt," the Red Sox manager went on. "He's not worried about winning friends and influencing people. He just goes out and gets the job done."

Speaking of that, how did Dick Williams hope to get the job done this coming season if it turns out that Jim Lonborg, the Olympic skiing ace, isn't ready to take his regular turn for awhile.

"He may be ready by opening day," Williams says. "I've talked with him over the phone and told him to do exactly what Buddy Leroux, our trainer, wants him to do. Between Buddy and Darrell Johnson (Boston's new pitching coach), I

think he'll be all right. It's unfortunate that accident happened. It may help, though. As far as other fellas taking up hazardous sports for enjoyment, I mean. Those two trades we made look even bigger now since Lonnie got hurt. Ray Culp and Dick Ellsworth could mean an awful lot to us."

Williams feels the Red Sox improved themselves as much as any other club in the American League by getting Culp from the Cubs and

Ellsworth from the Phillies since the season ended.

"I'd say our club and the White Sox helped themselves most in our league," said Williams. "We didn't give up a front-line player and we stayed focused. We thought we had a weakness in our pitching, so we went to Minnesota and D-I. Jimenez had come in there, so we traded Detroit for the other pitcher. Detroit didn't make a deal."

Williams will be getting to Winter Haven, Fla., site of the Red Sox' spring training quarters, early the week of Feb. 18.

He had planned to attend the Super Bowl game in Miami Jan. 14 but will be unable to because of other commitments here in New York. Prior to that, he'll be in Manchester, N.H., Baltimore and Washington on the banquet circuit.

Williams is a bear about any of his players putting on weight

and doesn't play some of them who do, but as manager, he's exempt from paying any penalty.

"I'm not afraid of getting fat," he says. "The reason I'm not is because I'm fat already." Williams is 10 pounds over at 195.

He shows it a bit at the bell-line but he isn't complaining.

That's the only place he hasn't lost lately.

## Knicks Finally Win One for Red

By United Press International  
The New York Knicks picked quite a spot to give Red Holzman his first victory.

Holzman, who took over a week ago as a replacement for Dick McGuire as head Knick coach, didn't exactly make a smashing debut as the Knicks lost their first two games under him to run their losing streak to six straight.

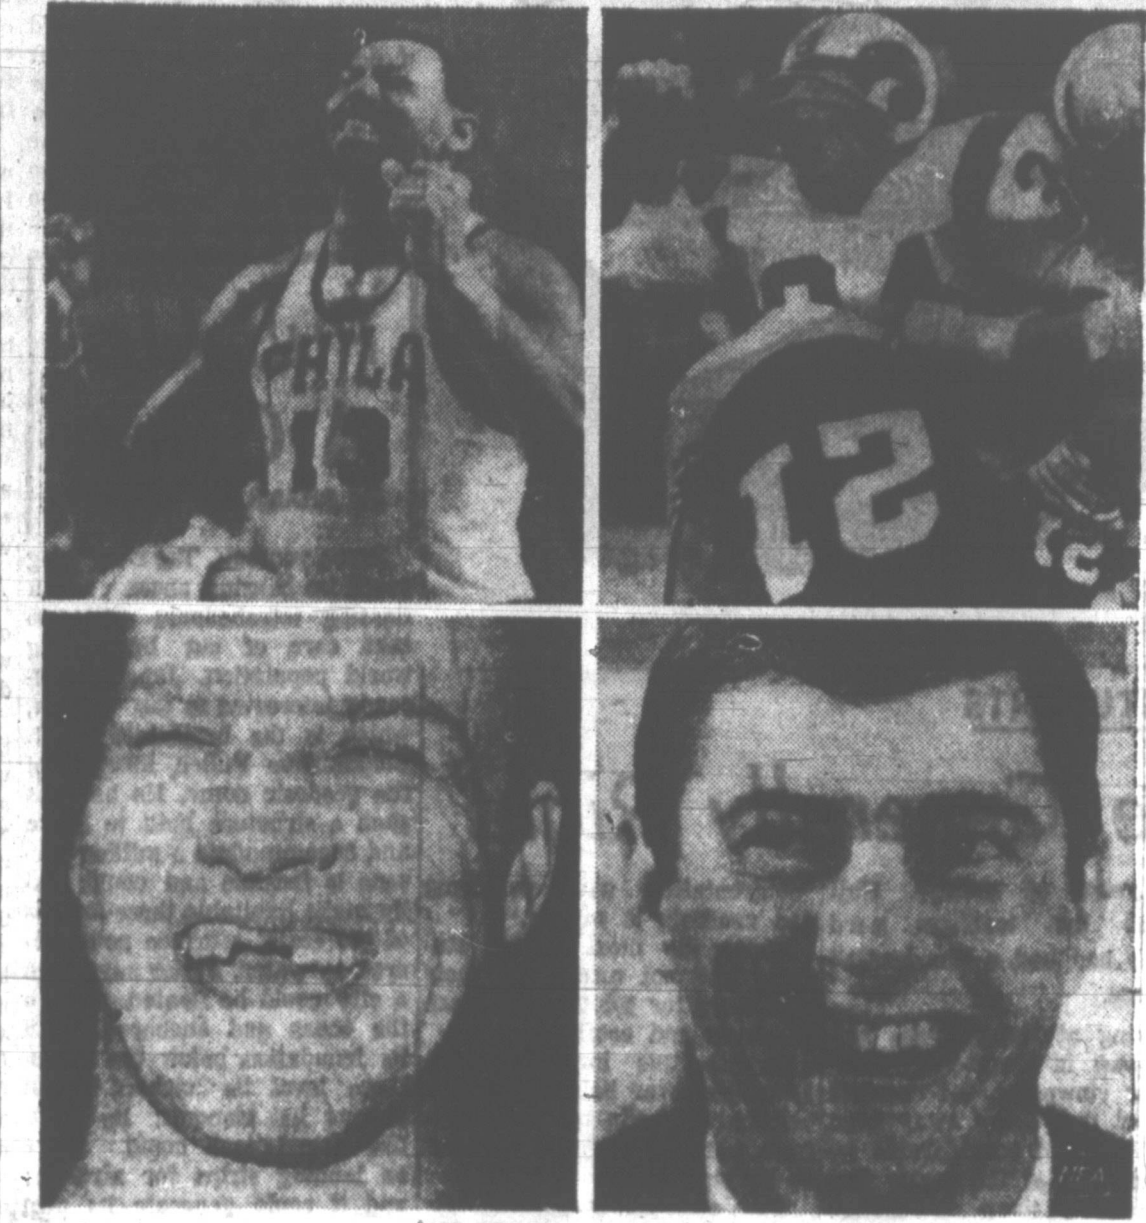

But Wednesday night, the Knicks turned in their first victory in almost three years in Philadelphia while topping the 76ers, 129-115 to snap the 76er's nine-game winning streak.

In the other three games, St. Louis had its lead in the Western Division cut to 1/2 game by suffering a 126-124 double overtime loss to San Diego, Boston whipped Los Angeles 113-103 and Chicago topped Baltimore 112-94.

Walt Bellamy and Rick Barnett each scored 30 points to pace the Knicks past the 76ers. The Knicks opened up a 122-83 lead with 8:19 remaining in the game and then thwarted a 76er rally to wrap up the contest. Wilt Chamberlain had 39 for the losers.

Don Kojis scored five points in the second overtime to lead San Diego past St. Louis. The score was tied 108-108 at the end of regulation time and 114-114 at the end of the first overtime. The Rockets took a seven-point lead in the second overtime on Jim Ware's two free throws with 2:33 remaining and held on for the victory.

The loss enabled idle San Francisco to move within one-half game of the Hawks in the Western Division race.

**THE AGONY AND THE ECSTASY:** The ever-changing expressions of athletes are pictured here by Wilt Chamberlain (upper left) as he slightly disagrees with an official's call; Les Josephon of the Rams (upper right), who finds that although the Packers are getting older they're not getting any softer; Bobby Hull (lower left), who flashes a toothless grin after scoring another goal, and Carl Yastrzemski (lower right), a guy who's been laughing his way through the winter after receiving a huge raise in salary plus numerous awards.

## Harvesters Have Four In Double Figures

By RON CROSS  
Although they've won three of their last four games and boast a 15-2 season record and 5-0 District 3-4A mark, Pampa has seen its offensive average dip a bit and its defensive average jump.

Despite all this the Harvesters now have four of their five regulars averaging in double figures and the fifth, guard Johnny Carlos moving closer all the time.

Through 17 games the Harvesters have scored 1,367 points for a 80.4 average, this is a drop of 3.4 points per game in their last four outings.

Defensively, before Pampa entered the Hobbs tournament,

the average was 53.5 points per game given up. Now the Harvesters have had 964 points scored against them and carry a 56.7 defensive mark.

But in conference play, where it really counts the Harvesters' defensive job on Tascosa Tuesday night saw their defense average drop almost three points. Pampa has now given up 302 points in district competition, a 60.4 per game average.

The offensive mark dropped four points, from an even 79 points an outing to 75.2 points per game on 376 points scored.

Senior forward George Bailey, despite being held to only nine points Tuesday night, his lowest output of the season, still

leads Pampa scorers and the district in scoring.

For the season Bailey has totaled 415 points, an average of 24.4 per contest. In the five league games the 6'2 senior has 103 total points, a 20.6 per game average.

Senior forward Bo Lang is next on the scoring chart, despite being held to seven points against Abilene Cooper. Lang has scored 241 points for a 14.1 season mark and has 95 league points, an average of 19 per contest.

Beau Bond, who has jumped to the double figure scoring column regularly now has 200 points for an 11.7 average, his highest of the season. Bond

has an even 50 district points for an even 10 points per game. Cornutt, who made the Hobbs All-Tournament team with some outstanding play has scored 170 points, an even 10 points per game. The senior guard has 52 district points, for a 10.1 average.

Carlos brought his average from 7.8 to 8.2 with three good games in his last four starts. The 6'0 guard has now scored 140 points for his 8.2 average. Carlos still maintains a 10.3 league average with 53 points.

The Harvesters host Lubbock High, currently nested in last place in District 3-4A at 8 p.m. Friday.

### IN SWC OPENING ACTION

## Surprising Baylor Wins 76-66

By United Press International  
Arkansas, Texas, TCU and those surprising Baylor Bears picked up victories Wednesday night in the opening evening of action in the Southwest Conference basketball race.

Three of the wins, including Baylor's victory over defending SWC champion Southern Methodist, were fairly one sided, but Arkansas had to go into an overtime to upset Texas A&M 75-70.

The Porkers appeared to have the game wrapped up in the regulation time, but A&M's Ronny Peret got loose under the basket to knot the score at 60-60 with a second left.

Arkansas hit nine free throws in the overtime period, however, and the Aggies could not find the basket with any regularity. A&M had come into the conference race as one of only two clubs with a winning record.

The other was Baylor, which dumped SMU 76-66 on the Mustangs' home court.

The Bears led by as much as 19 points as Larry Gatewood scored 24 points to pace Baylor's attack.

SMU got into trouble early when its big center Lynn Phillips came up with four fouls in the first 10 minutes of play.

Texas relied on 25-point per-

formances by Gary Overbeck and Billy Arnold to roll over Texas-Tec 84-72.

Overbeck carried the load in the first half, scoring 19 points on a number of close-in shots. Arnold took over in the second stanza, picking up 17 of his points in the final 20 minutes.

Tech narrowed the Texas lead to six points with four minutes left, but Texas went into a control game and converted six of eight free throws to assure the victory.

James Cash was the big gun in a second half split that carried TCU to its 84-73 victory over Rice.

The first half was a close affair, but Cash hit nine straight points during the second half to open up an unbeatable 19-point spread.

## Next 100 Wins May be Tougher

By United Press International  
The next 100 victories may not be as easy for North Carolina basketball coach Dean Smith but the presence of sophomore Charlie Scott figures to get him more than halfway there.

Much like his hero, Jimmy Walker, the former Providence

All-America now with the Detroit Pistons, the 6-foot-5 Scott migrated from the North (New York) to attend prep school at Laurinburg Institute (N.C.).

Instead of returning home, though, Scott was persuaded by Smith to attend UNC, thereby breaking the basketball color line at the Chapel Hill institution.

**Hits Century Mark**

Scott teamed with Larry Miller and Rusty Clark in bringing Smith his 100th Tar Heel coaching victory Wednesday night, a 74-62 victory over

visiting Wake Forest in an Atlantic Coast Conference game.

In other games, 12th-ranked Duke, led by Mike Lewis and Dave Golden, upended 10th-ranked Davidson 89-84 at Durham, N.C.; Sophomore Pete Maravich, the nation's leading scorer, poured in 55 points in leading LSU to its fourth straight Southeastern Conference triumph, 76-72 over Auburn at Baton Rouge, and sixth-ranked Utah trounced visiting American U. 84-77 to boost its mark to 11-1.

Three major unbeaten kept

rolling. New Mexico ran its Air streak to 12 by turning back the Force 86-60 at home; St. Bonaventure made it 10 in a row, whipping Kent State on the road 80-63 behind Bob Lanier's 33 points, and St. Peter's, led by Elnardo Webster's 26 points, won the Hatter Invitational by trouncing host Stetson 94-78.

In leading fourth-ranked North Carolina to its eighth win in nine starts, Scott hit 10 field goals, and 22 points while Miller, and the 6-foot-10 Clark clicked from the free throw line. Miller made 12 of 15 and 20 points; Clark had 11 of 12 and 23 points.

Davidson, trailing Duke 43-28 at halftime, rallied behind Lewis, Golden and Steve Vandenberg. Lewis and Golden each scored 22 points while Vandenberg added 19.

Elsewhere, George Thompson's 22 points helped Marquette defeat DePaul 71-50, Dayton edged Xavier 83-80 behind Don May's 30 points; sophomore Calvin Murphy, although hampered by injuries, made 27 of his 39 points in the second half as Niagara routed Buffalo State 94-79 and Bob Whitmore's 30 points led Notre Dame past Kings (Pa.) 105-68.

**Olympic Field Being Readied**

NEW YORK (UPI)—Peyton Jordan, head coach of the 1968 U.S. Olympic track and field team, is optimistic about the progress being made by Mexico to stage—the 1968 Olympic Games next October.

Although the Mexicans have been rapped by some officials for their slow progress in making the preparations for the games, Jordan said he believes Mexico's preparations are "farther along at this stage than for any previous Olympics."

Jordan, speaking by telephone from Stanford University where he is track and field coach, said that he was "extremely impressed" by the progress he saw on a recent trip to Mexico City in preparation of the facilities and the Olympic Village.

It was announced here Wednesday that 30 U.S. colleges and universities which have composition tracks similar to the one which has been installed in the main Olympic Stadium in Mexico will make their facilities available for athletes trying to gain an Olympic team berth.

"I think this is important," Jordan said "because I think it's important for athletes to train as much as possible under conditions which duplicate those under which the competition will be held."

**CAN CROWN KINGS**

**LA Hockey Club Blanked**

By United Press International  
If Cesare Maniago could only play all his games against the Los Angeles Kings, he'd probably set some shutout records in the National Hockey League.

The lanky goalie for the Minnesota North Stars, who played in only four games for the New York Rangers last season but got a shot at a new career when he was drafted by the expansion team, is unbeatable when he's in the goal against the Kings.

Maniago shutout the Kings for the third straight time Wednesday night as the North Stars breezed to a 6-0 victory over the Kings. Maniago has a total of four shutouts this season—all but one against the Kings.

In the other three games Wednesday night, veteran Glenn Hall picked up the 70th shutout of his career as the St. Louis Blues whipped the Oakland Seals 4-0, Montreal tied Toronto 1-1 and New York tied Boston 5-5.

Minnesota was holding a 1-0 edge after two periods but exploded for five goals in the final period to make the game a rout. Parker MacDonald started with the period just 18 seconds old but the North Stars

waited more than nine minutes before Andrew Boudrias connected at 9:08. MacDonald then collected his second one 41 seconds later and it was a rout.

Hall, who had 66 shutouts in 12 brilliant seasons with Detroit and Chicago, collected his second of this season with St. Louis as the Blues whipped Oakland. Rookie Frank St. Marselle scored the fifth and sixth goals of his NHL career in the victory.

A power play goal by Gilles Tremblay in the third period

**Houston's Hayes Leads Scoring**

NEW YORK (UPI)—Elvin Hayes' higher education includes pursuit of a Phi Beta Kappa in scoring, a degree that carries six-figure contracts after the annual pro basketball drafts.

Hayes, ranked 15th among all-time college basketball scorers with 2,119 points, leads the nation in point totals this season with 418 points through last Saturday's games.

In game averages, Hayes, the All-America from Houston, takes a back seat in fourth place to national leader Pete Maravich of Louisiana State, who sports a 44.5 per game

gave Montreal the tie with Toronto. Tremblay collected his 12th goal at 13:37 to deadlock the game. Mike Walton scored Toronto's lone goal in the second period.

In the see-saw contest, Boston blew leads of 3-1 and 9-3 as New York came back for a deadlock on Jim Neilson's goal at 10:46 of the final period. Ken Hodge collected two goals and two assists for the Bruins.

# The Tampa Daily News

A Watchful Newspaper  
EVER STRIVING FOR THE TOP O' TEXAS  
TO BE AN EVEN BETTER PLACE TO LIVE

The Tampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license, nor anarchy. It is control and sovereignty of oneself. No more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

## The Increasing Crime Rate

Too often, when the increasing crime rate is pointed out, social apologists retort: "Of course crime is increasing. So are population figures. It is only natural that, with more people, there will be more crime." Having delivered themselves of such a profound statement, or something akin to it, the apologists shrug and mentally walk away.

It is high time that this lame rejoinder be exploded for all time; for, while it is true that population figures have increased, having just recently reached the official 200 million mark, the brutal fact is that the crime rate has increased, and continues to increase, out of all proportion to the added number of people in the country.

No apologist who would venture to claim that the number of people in this country increased anywhere near 16 per cent during the first nine months of this year as compared with the same period during 1966; yet, according to J. Edgar Hoover, Director of the Federal Bureau of Investigation, in a just published supplement to the FBI's Uniform Crime Report, crime in the United States during the first nine months of 1967 increased 16 per cent over the corresponding period in 1966.

Broken down into broad category crime groupings, the overall 16 per cent increase was accounted for in the FBI Report as: 27 per cent increase in robbery; 16 per cent in murder; 9 per cent aggravated assault and 7 per cent in forcible rape.

Property crimes broken down into specific offenses, recorded increases of: auto thefts 17 per cent; burglary 16 per cent; thefts over \$50 in value 15 per cent; street robbery 27 per cent; business house robberies 34 per cent; service station robbery 26 per cent; chain stores 39 per cent; residences 10 per cent; purse-snatching 23 per cent; theft of property from automobiles 17 per cent; pocket picking 14 per cent; and shoplifting 11 per cent.

Bank robbery, according to the FBI, continued its sharp upward trend with a 60 per cent increase during the nine months in 1967 over the same period in 1966.

"Our spiraling national crime trend," observed Mr. Hoover, "is not a new phenomenon. It has been clearly demonstrated statistically over recent years."

## No Strings Attached

One of the problems which organized teams, including the last session of Congress did teenagers, to sell shares in the not face up to was the matter enterprise at \$5 a share. Not a representation in Washington-penny came from the so-called ton for New York City's Har-Negro leaders. Not a dime from them. The disincarnation of the city, state or federal funds. Sev. Reverend Adam Clayton Pow-teen teenagers sold shares all to face the legal music, or door-to-door and raised \$10,000. To step down, has denied Har-

Then Mrs. Walker hired some lem residents a Congressman-to supermarket specialists to pre- represent them in Washington, pare a study of the prospects And one is needed. There are thousands of chores these peo- fed that because of the locality ple need to have done for them and scarcity of competition, the in Washington and the Con-supermarket could gross \$1.8 gress should arrange for anmillion a year. That made office to do those chores.

A news story out of Harlem suggests a candidate for the job. It seems that a Mrs. Cora T. Walker, a handsome Negro attorney who worked her way through school to a law degree in 1946, has demonstrated the kind of leadership that trou- bled community needs. It is not known what her party affili- ations are. Maybe she doesn't have any. If that is the case, so much the better.

Maglem needed a food super- market. The solution: the peo- ple of Harlem are building their own modern cooperative su- per-market, financed and own- ed and managed by the Harlem people themselves. It will pro- vide jobs for 80 men and wom- en; the management personnel are being trained now for the April opening of the store.

Mr. Hoover's suggested solution? The usual. More police, better police selection and training standards, improved crime detection and solution techniques, more modern communication and information systems; and, "to accomplish" all this, Hoover adds, "increased financial support is necessary."

And here, despite the high regard we have for J. Edgar Hoover personally is where we must take difference with the FBI Chief's point of views. For, in essence, and whether he realizes it or not, he is talking about crime punishment—not crime prevention. And his suggestions, when stripped down to the essentials, are that the size and power of government be increased and that, to finance such increase, the people be separated from more of their incomes.

Mr. Hoover, if he would but realize and admit it, is suggesting that the increasing-crime rate of individuals be opposed by increasing the crime rate of government.

And that, we believe, is the root of the problem. Government, itself, is setting the precedent and providing the example for the individual criminal. For pacing the growing crime rate, itself out of proportion to population increases, have been the inordinately growing size and power of government and increasing incursions, by that government, against the individual's earnings, his body and life and freedom of choice.

It is so mere accident, we think, that at a time when illegal crime is at an all-time high, records are also being set in "welfare" payments, government subsidy programs (foreign and domestic), bureaucratic boondoggies and patronage payoffs, and burgeoning government at all levels—all funded by tax predations and deficit spending debauchery of the currency.

And all this crime, both illegal and otherwise occurring at a time, we might add, when taxes for government controlled and oriented schools are at record levels and more children than ever before are compelled by force of law, to attend those schools.

There is a moral and practical lesson to be gained from the wealth of statistics at Director Hoover's disposal if he will but use them and learn it.

## PINE TREE FEATURES

by C. L. Dickinson

### SECOND CLASS CITIZENS

The devaluation of the British pound was greeted by a rum on gold in the London and other European gold markets. In just a few days, hundreds of tons of the precious metal was exchanged for dollars or pounds. Why?

If you have been in the bargain basement of a large metropolitan department store at the opening of "bargain day," you have the answer. Gold, in the eyes of those lucky enough to be able to buy it legally, looked like a bargain at \$35.20 an ounce.

A storekeeper, whether he is selling last year's neckties, out-of-style dresses, or gold, can clear the shelves by establishing the price at a level where the merchandise is wanted more than dollars, pounds, or any other medium of exchange. The U. S. government has been maintaining a bargain basement for gold and silver. Gold at about \$35 an ounce and silver at \$1.29 an ounce have attracted the bargain hunters from all over the world; so much so that all of the United States' vast hoard of silver is gone and about 50 per cent of the gold has migrated to the vaults of other nations, or into the private vaults of non-U.S. citizens.

In the case of the department store's bargain basement, the owners have every right to dispose of their property at a loss or even to give it away. But if the business is deeply in debt, the creditors probably would take the steps available to them to prevent the dissipation of assets.

Not so with the United States government. Owners of United States bonds are second class citizens. They are not only prevented from entering the government's bargain basement to change their dollars for gold; but they have no legal recourse as bond-holding creditors to stop their debtor—the government—from selling or even giving away the assets: the gold, silver, and dollars that stand back of the bonds.

To add insult to injury, United States citizens are taxed heavily to give dollars to aid the citizens of practically every other nation in the world, while these foreign citizens and nations convert the dollars to gold at bargain rates.

Perhaps your congressman can explain why your government makes you a second class citizen when it comes to exchanging dollars for gold; for after all, the Constitution does charge the Congress with "the power to coin money, regulate the value thereof, and of foreign coin."

## H. L. Hunt Writes

### TRAINING RIOTERS

It is impossible for an objective observer to doubt that communists have been deeply involved in fomenting recent riots in U.S. cities. An important part of a dedicated communist's job is to stir up trouble.

An authority on communism in the USA, Philip Luce, author and former member of the communist Progressive-Labor Movement, says that groups of young people from this country have been trained in Cuba to foment trouble in our cities. In a panel discussion at the recent convention in Washington of the National Real Estate Boards, Luce told of a communist plan to create international wars and at the same time encourage rioting in the United States.

The goal, he said, is to draw most of our military strength abroad and then create anarchy here at home. Communists hope police and the National Guard will be unable to handle disturbances breaking out simultaneously in 15 or more U.S. cities.

Government authorities are said to discourage the release of factual information about the role of communists in riots for fear that the result would be a new wave of "McCarthyism." This implies that anti-communism, which most Americans would equate with patriotism,

## "—But I'm Married. Still In School, Am Over 26 And I Have A Real Bad Cold!"

### GREAT DISCOVERY BY STUDENTS

## 'Parents Are Generally Right'

By RAY CROMLEY

NEA Washington Correspondent

WASHINGTON (NEA) — If a four-year study of Stanford and University of California students is correct, this student generation does a great deal of worrying.

A thousand seniors at the two schools were questioned on how often they have felt depressed in the past few years. Half the senior men and two-thirds of the senior women reported periods of depression as occurring an astounding "few times a week" to "a few times a month."

Something around three-fourths of the students said that in their senior year they had felt physically out of shape between once and five times a month on the average.

To most, "old age," meaning the years after 50, looked pretty bleak. Between a quarter and a third of the senior students said they believed that the people are happier during their first six years of life and a third thought the happiest time was from 22 to 25. Only one out of seven chose the years after 36. Less than 3 per cent opted for any time after 30.

Most of the senior students questioned seemed to feel they got more out of their associations with other students than they did from their professors, their studies or their textbooks. In fact, the survey found evidence that college has less impact on students' intellectual development than on their social attitudes.

Only about one senior student out of seven believed he had "increased intellectual activity and curiosity" as a result of his four years in college. The most often mentioned changes were more self-confidence, poise and independence and more stability.

The single most meaningful experience of the college years most often checked was "love, marriage or conjugal family."

Between half and two-thirds of the women seniors and 30 to 40 per cent of the senior men thought that close relations with friends of the opposite sex had done a great deal to change them. A third of the men, and a third to a half of the women seniors thought that close relations with friends of the same sex had done much to change them.

By contrast, only about a fourth of the students felt that ideas presented in courses or by teachers had had "much" influence in causing the change that had taken place in their way of thinking or acting in the world.

Those who oppose turning the spotlight on current communist activities bring to mind the group that told us the Chinese revolutionaries were "agrarian reformers" and that Fidel Castro was not a communist. The facts about the role of communists in riots and demonstrations need to be made public.

confrontation with problems and conflicts in myself."

Apparently most of the students had not turned to their professors for solutions to these problems and conflicts.

Despite this inner conflict, somewhat over half the seniors believed that "in the final analysis, parents generally turn out to be right about things." This, after all, is quite a compliment for parents in this day and age.

## The Doctor Says:

By DR. WAYNE BRANDSTADT

No Simple Cure Known For 'Noisy' Ligaments  
Q I am 64. Every time I turn my neck there is a painful cracking noise. What causes this and is there any cure for it?

A—Cracking in any joint is caused by the snapping of ligaments or tendons as the joint is moved. Although there is no simple cure for this condition, it helps to avoid turning your head quickly. Using a heating pad for 20 minutes two or three times a day should take some of the soreness out of your neck.

Q—What is meant by coxa valga? With this condition, can I have a child by natural childbirth?

A—in an adult, the neck of the femur forms an angle of about 125 degrees with the shaft of the bone. When this angle is increased (more nearly a straight line), a congenital condition called coxa valga exists. Of itself this would have no effect on childbirth.

Q—What is synovitis?

A—This is an inflammation of the membranous sheath that surrounds the tendons in the vicinity of a joint. It commonly affects the ankles, knees and fingers.

Q—My psychiatrist is giving me an intramuscular injection of Novocain once a week for a nervous condition. How will this help my emotional problem? Can I become addicted to the drug?

A—Procaine (Novocain) is a local anesthetic. Although it has been used for many other purposes, such use is not recommended because other drugs work better. It is not habit-forming.

Q—I have a papilloma about the size of a grain of rice on my back. It is best to leave it alone or have it removed?

A—Papillomas of the skin are wart-like growths. If they are subjected to constant friction or become infected they should be removed. Otherwise they should be left alone. The operation is both safe and simple.

Q—Why are some drugs referred to as major and others as minor tranquilizers? Which type is Librium?

A—The major tranquilizers are used chiefly, but not exclu-

sively, to relieve aggressiveness and overactivity in acutely disturbed mental patients. They are not habit-forming. The minor tranquilizers, of which Librium, Equanil, Miltown and Valium are examples, are used chiefly for the suppression of anxiety and nervous tension. When taken for a prolonged period they cause the user to become emotionally or physically dependent on them.

## Question Box

(We invite questions on economic and proper functions of government which will not injure anyone.)

QUESTION: If it is right and just to draft soldiers, why should we not draft policemen?

ANSWER: That is a question that is based on a false premise, because in the first place it is not right and just and moral to draft soldiers. It violates the Declaration of Independence, the Golden Rule, and the Commandments, especially the commandment against stealing.

We suppose the reason we do not draft policemen is that it is so close to home that we'd see the immorality and injustice and the bad effects when it is so local.

And besides, it's doubtful whether the public would consent to having policemen drafted. Just as we should pay policemen enough to get them, so should we pay soldiers enough to get them on a permanent basis.

And it undoubtedly would cost a lot less because instead of training men and letting them resign in a year or two, it's much better to have men who want to make a business of being soldiers and make a life work of it rather than be in and out.

Drafting soldiers just shows how far we have departed from the principles and morals of the Declaration of Independence.

There doesn't seem to be anything in the Constitution that gives the government the right to draft soldiers although it was done in the Civil War and people objected very strenuously to it.

## Branch Head Bill Says:

by BILL KENNEDY

I got me a deal with a ole cottonmouth moccasin that lives under a log down in the lake where me and my family and friends goes in washin.

The way it come about was back yonder a few years ago when I found that ole moccasin and a highland rattler squared off down there by the lake ready to fight it out to the finish.

I stood by there for a while trying to see what was going to happen next and it turned out to be a hell of a fight. They both got bit, I know that. And they both got hurt bad and I sometimes wonder which one of them snakes would of outbit the other one if I had stayed out of it. Which I didn.

You might think that I should of done that, then killed off he one that was left while he was hurt and tired. But some how it didn seem right for me to jest let that snake fight go on without me. It could happen

## Pull Up A Chair

By FRANK JAY MARKEY

Brace yourself. The next thing you'll be hearing about is a floating tetrahedonal city to take care of our burgeoning world population. Japan is already interested in the idea, which is the brainchild of R. Buckminster Fuller, inventor of the geodesic dome. He believes such a structure built to house and accommodate a million persons is feasible and could easily make habitable three-fourths of the earth's surface now covered by water. Fuller says such a city could be floated out into the ocean and anchored. With its foundation below the turbulence level its harbors would always be tranquil; its boat-like foundations could serve as landing strips for aircraft; and it could generate its own power energy through atomic reactors. Just in case you are wondering what is a tetrahedron? Well, it's a solid figure with four triangular sides or surfaces. An example? The pyramids in Egypt. The most stable structures known to man.

Today's smile? A race horse owner said to his trainer: "I don't know what to do with the new two-year-old I bought. Sometimes he walks normal and at other times he appears to be lame." The trainer counseled: "The next time he walks normal, sell him."

The U. S. typewriter business grosses more than \$420 million annually. Yet, O. Latham Sholes, who invented the writing machine just 100 years ago, had so little faith in his brainchild that he sold all rights for \$12,000 to the Remington gun makers. . . . And although typewriters are indispensable these days back in 1861 they were considered harmful and protestors said the female constitution would break down after working on a typewriter in an office for six months. That proved to be one of the greatest fallacies of all time.

Thoughts while shaving: We will bet you never knew the U.S. Naval Academy at Annapolis, Md., has an 876-acre farm that boasts several hundred cows and 97 buildings. It can't be too important in shaping the careers of the future admirals since it is under the supervision of a lowly lieutenant commander. . . . McGill University, Canada's leading higher educational institution, was named after James McGill, a Scotsman who became a Canadian fur trader in 1770 and amassed a fortune. He left all of it to found the university that now bears his name. . . . The Purple Heart is awarded for combat action only in the armed services. It was established by Gen. George Washington in 1782 and is conferred on any persons wounded in action while serving with the Army, Navy, Air Force and the Marine Corps. It is also awarded posthumously since 1917 to the next of kin of personnel killed, or having died of wounds suffered in action. . . . The Tucson (Arizona) DAILY CITIZEN reported in a story: "The house has a set of exhibition cabinets where Shirley Temple displayed her collection of dollars from all over the world." And Shirley Temple is one gal who collected dollars from all over the world.

Country . . . Editor speaking: "Don't take yourself seriously; you're not that important."

that they would plain kill off one another, and then I couldn't of been in on the snakekilling at all. Then I couldn't strut around telling about my snakekilling. So I took a hand in it. That rattler was living in my woodpile and it looked to me like I would be more apt to step on him some night in the dark when I walked out on the front porch than I would be with the cottonmouth. So I joined in with the moccasin. That way I would at least get credit for helping kill the rattlesnake.

I got me a forked stick and I pinned ole rattler to the mud on the bank of the water with it, caught him right in the back of his neck. That way so ole cottonmouth could come around to the side and bite his enemy—and that's the way it finally worked out. But not at first.

Ole cottonmouth slid off in the water and refused to come out. He wanted me to cripple up the rattler first, then let him come in for the kill. Well, I could of killed the rattler myself—all I had to do was hit him in the head with a rock, now that I had done jumped in there and had him pinned down—but somehow that didn seem fair and sportin. So I got a stick and beat ole rattler over the head a few times until he was about finished off and then—according to the agreement—I backed off so the ole moccasin could come out of the water and kill him. But he still didn come out.

Now he wanted me to agree that I wouldn't bother him never no more after he come out and killed the rattler. And he wanted me to promise that he could keep the ole log for his home and could also move over under my dock if he wanted to. And he wanted me to promise that I would not never bother none of his family no more after he killed the rattler. Well, I wasn't dumb enough to fall for that—not without making that snake promise not to bite me. So he did, and I did.

So ole Joseph (I named the cottonmouth Joseph), he came on out and he killed the rattlesnake and slithered on back in the water. And peace settled down over the lake.

Of course it has got to be a right uneasy peace between me and that snake. It's a fact that ole Joseph ain't never bit me nor nobody in my family and my friends yet. But his offspring have. Ole Joe has got a hundred and somethin offspring now, and he claims he never promised to not let them others bite us. And them snakes has jest about took over that wash hole.

They have also took over some of my neighbors' water. I keep telling them that we can live at peace with them snakes, but some of 'em jest don't believe it, specially them that has already been bit.

Some folks thinks I'm crazy. But I know all them that are high-up in the government—in Washington knows why I don't shoot none of them snakes. . . . BILL KENNEDY

Is there a doctor in the House? No. Is there a doctor in the Senate? No. And if there was, he would be worked to death cause they're all pick.

In 1961 they was spending '99 billion dollars. Next year they will spend roughly 160 billion and that is really rough.

They talk about the cost of the war all the time. Why, that is the smallest part of it. Defense, including the war, has gone up by 30 billions. But the other boondoggles, including welfare, has jumped up to 51 billions.

So if you have got a Blouse A Skirt and two kiddos it means a cost to you of three thousand, 800 dollars! Do you think that's all? Well, the state and local politicians are trying to keep up with the congress. They have jumped their take to 72 billions.

Do you think you can't stand any more? Well, they don't. The bureaucrats are planning bigger things for you to bear. A few are: Rebuilding the cities at a cost of 1 trillion, 3 billion for air pollution, 12 billion to raise all incomes to 3,000 gees a year, retraining men for a billion. There is no limit to some things like rent subsidies, mass transit, health programs and subsidies to areas abroad.

Why, the little feller could get more consideration from a basketfull of rattlesnakes. At least their rattles are on the tail end.

**Television In Review**

HOLLYWOOD (UPI)—I have this friend, Max, who loves New York. You tell him something terrible about New York and he always has something wonderful to answer you with. You tell him "traffic" and he tells you "Luchow's." You say "muggings" and he says "East 62nd Street." You tell him "weather" and he tells you "The Plaza."

As you can see, logic is not one of Max's strong points. But he all has your loyalties, and today I would like to put in a few kind words for one of mine: the television series "I Spy," which is doing poorly in the ratings this season, but which is nevertheless still the very best weekly entertainment show in prime time on any network.

It is the best regular program because the boss, Sheldon Leonard, has gone all the way with its cool, contemporary flavor, and because its two stars, Robert Culp and Bill Cosby, are simply superb week in and week out, individually and as a team.

It doesn't matter whether the stories are all outstanding—the remarkable thing is having such a team of stars giving us such splendid company every week. Their characterizations are virtually light years ahead of almost every other one in prime time television. The fact that one of the stars is Negro was historic when the series began; at this point the pleasant fact is that it doesn't matter one way or the other.

Gaby, of course, got most of the publicity in connection with the series, and awards too. But much as I like him, I confess my favorite is Culp. Sometimes I wonder whether movie producers wear blinders, because here is a fellow who is terrifically handsome in a contemporary way, marvelous with a line—either comic or dramatic—and so real that he almost explodes through the screen. He is a sort of latter-day, up-tempo, American Ray Milland, or even Douglas Fairbanks Jr.

**Decision Time**

If all of this praise sounds premeditated in purpose, that is because it is. Decisions are being made about the futures of various series that are wobbly in the ratings—and "I Spy" is certainly on NBC-TV's list of statistical headaches. And perhaps not all of its own doing either. It was switched this season from Wednesdays, where it was doing fine, to Mondays, where it ran into CBS-TV's Carol Burnett series, which has turned out to be a tough ratings competitor.

NBC-TV recently announced that next season it would add a Monday night movie to its schedule, in the slot occupied now by "I Spy" and another series. The point is, if NBC-TV is still making a choice of which shows to continue and which ones to drop—and if "I Spy" is among those being considered—

**Legal Publication**

THE STATE OF TEXAS  
TO: GREN WOODROW WYATT,

GREETING:  
YOU ARE commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock a.m. of the first Monday after the expiration of 45 days from the date of issuance of this Citation, the same being Monday the 29th day of January, A. D. 1968, at or before 10 o'clock A. M. before the Honorable 21st District Court of Gray County, at the Court House in Panna, Texas.

Said Plaintiff's petition was filed on the 18th day of November, 1967. The file number of said suit being No. 28,295.

The names of the parties in said suit are: LEO M. WATKINS, Plaintiff, and GREN WOODROW WYATT, as Defendant.

The nature of said suit being substantially as follows, to-wit: Suit for Divorce and Child Support. Plaintiff, within 90 days after the date of its issuance, it shall be returned unadvised, on the 11th day of December, A. D. 1967.

Given under my hand and seal of said Court at office in Panna, Texas, this 11th day of December, A. D. 1967.

Helen Sprinkle, Clerk District Court, Gray County, Texas
