**PHS CHEERLEADERS** — Pampa High School's cheerleaders for the next school year are shown here as they held their first practice session this morning. They are left to right, Mrs. J. E. Torvie, sponsor; Angela Cunningham, junior; Kay White, junior; Pam Martin, junior; Cindy Cambern, junior; Jan Wallace, senior; and head cheerleader Lee Boweron, senior. Beth Watson, another junior cheerleader, was unavailable for the picture.

## De Gaulle In Selusion As Crisis Mounts In France

### Vietnam Battles Rage Near Border, In Saigon

### Communists Demand Leader's Resignation

By JACK WALSH  
SAIGON (UPI)—Allied forces killed 410 North Vietnamese soldiers in three battles near South Vietnam's northern border. U.S. military spokesmen said today. Viet Cong troops battled government forces for the third straight day in Saigon's outskirts.

American Navy pilots attacked a sophisticated new North Vietnamese antiaircraft battery placed in the Demilitarized Zone (DMZ) that divides the two Vietnams and capable of shooting down American planes in South Vietnam. Military spokesmen said the U.S. aircraft damaged a 100 mm gun emplacement about a mile north of the DMZ.

By GEORGE SIBERA  
PARIS (UPI)—President Charles de Gaulle today abruptly cancelled a cabinet meeting and left for his country retreat in the face of a deepening labor crisis and planned Communist demonstrations to demand his resignation. The 77-year-old French president has traditionally gone to his country home at Colombes-Deux-eglises 110 miles east of Paris whenever he has crucial decisions to make or a major statement to prepare. There was speculation — but no confirmation — this decision would be to resign.

Cabinet ministers arriving for the morning meeting were told there was none and that it had been rescheduled for Thursday. Officials said De Gaulle would be back to Paris to preside over it.

Leftist federation leader Francois Mitterand Tuesday called on De Gaulle to resign and declared himself ready to step into the place held by De Gaulle for 10 years.

Communist party leaders today ordered their 4.5 million card-carrying members to march in all of France's cities in a move they hoped would propel them to a position of leadership in a leftist government.

They also called on the workers of the giant, Communist General Workers Confederation to join them in the streets in defiance of a government ban on demonstrations, imposed last week but not likely to be enforced today.

The French nation groaned under the hardships of the crisis, which began as a Paris student protest, turned into street fighting then swelled to a nationwide strike of 10 million.

### Absentee Ballots Near Record As 285 Vote Here

On hundred votes in the runoff primary were recorded on the last day of absentee voting yesterday to bring the total number cast to 285.

Fifteen mailed ballots are still outstanding, Mrs. Joyce Combs, deputy in the county clerk's office, said. If returned, they would bring the total to over 300.

### BULLETIN

WASHINGTON (UPI)—Windows were broken in the Supreme Court building today and several persons tried to storm their way past its locked doors as several hundred poverty campaigners conducted a two hour demonstration in protest of a recent ruling on Indian fishing rights.

### Youth Critically Injured In Fall Here Yesterday

Johnny Stokes, 17-year-old son of Mr. and Mrs. Clayton Stokes of 524 N. Rider, was listed in critical condition today at St. Anthony's Hospital in Amarillo after being injured in a house-moving accident shortly before 1 p.m. yesterday.

The accident occurred near the junction of U.S. 60 and Texas 152 when a moving house on which Stokes was riding came into contact with a high voltage overhead power line.

He suffered electrical burns and sustained severe head injuries when he fell about 20 feet from the one-story house.

He was rushed to Highland General Hospital and later transferred to St. Anthony's in Amarillo.

The youth apparently thought the overhead line was a telephone wire and attempted to lift it up for clearance of the moving house. Instead, it was a 7,800-volt power line.

It was Stokes' first day on the job working for his father's trucking and house-moving firm. He will be a high school senior.

## Sub Is Still Lost

By DONALD H. MAY  
WASHINGTON (UPI)—A massive air-sea search for the missing USS Scorpion moved into its third day today with anxiety rapidly mounting over the submarine and her 99 men.

By midday, 55 U.S. warships and three Canadian vessels were strung out along the 2,100-mile track the Scorpion was following from the Azores to Norfolk, Va., Navy base, hoping to turn up a lead to her disappearance.

All-weather P2 and P3 sub-hunter planes were back in the air at daybreak, joined by 10 S2 tracker planes from Norfolk.

The only clues turned up so far — a midocean oil slick, a floating "orange colored object," and a British ham radio operator's report of a distress call — were being checked out for lack of any better leads.

A crewman on the U.S.S. Hyades reported spotting the orange colored object today about 60 to 80 miles north of the spot where the oil slick was sighted six days ago.

The Navy said, however, there appeared to be no connection between the object and the missing submarine.

John Grayson of Barnolowick, Yorkshire told U.S. military authorities in England he intercepted a radio message Monday that "seemed to be a distress call from the Scorpion."

He said the message came over the 2 1/2 meter band Monday morning, London time, and read: "This is the Scorpion. We have a faulty condenser but

are attempting to return to base." The Defense Department said "no similar report has been received by the Navy from any military or civilian radio operator. The report is being evaluated."

The oil slick, reported to have been seen in midocean May 23 by the merchant ship Monrovia along the track the Scorpion was following, was checked out by two Navy search vessels.

But Navy officials noted that oil slicks are a common sight and said it was highly unlikely the oil had any connection with the Scorpion.

Wary commanders acknowledged increasing fear for the 99-man crew as the silent hours passed.

Officially, the attack submarine remained listed as "overdue" rather than missing. But an air of dejection hung over the search center at the giant Norfolk, Va., Navy base, headquarters of the Atlantic fleet.

"With the passage of time, we're more apprehensive what the possibilities are," said a Navy spokesman, Capt. John F. Davis.

The Scorpion had been due to report by radio to Norfolk at 1 p.m. EDT Monday following a submerged trans-Atlantic voyage undertaken at the close of training exercises in the Mediterranean Sea. It was last seen at 11:30 a.m. Monday.

If the weather permits, Pampans plan to celebrate the day with picnics, boating and other water sports, and other summer recreational activities.

At Fairview Cemetery, the ceremony will start at 6:30 a.m. with several Pampa war veteran units and their auxiliary members participating in the memorial services.

Rev. M. G. Herring, Lutheran Church pastor, will give the invocation at Fairview Cemetery. Others who will participate in placing wreaths and flags on veterans' graves will be Capt. Jess Duncan, commander of the Pampa unit of the Salvation Army; Mrs. Henry Merrick, regent of the Daughters of the American Revolution, and Mrs. Libby Shotwell, Red Cross executive secretary.

Hazel Mullinax and Mrs. May Hatcher will place the memorial wreaths. Gold star mothers, those whose sons were killed in service, will also be recognized. Doug Laramore, a Pampa High School student, will play the bugle.

The parade of flags at Memory Gardens is planned for sunrise and is also in honor of Pampans killed in World Wars I and II, the Korean Conflict and Vietnam.

Other local units participating in cemetery services will be the American Legion and the Legion auxiliary; Red Cross Hospital Volunteers; Veterans of Foreign Wars; VFW Auxiliary, and WWI and II veterans and their auxiliary members.

### City Department Heads Set Meet

Revision of departmental reporting procedures was on the agenda for discussion at a meeting of city department heads with City Manager Charles Hill this afternoon.

The city manager said the changes were being made in order to summarize in monthly reports instead of making frequent reports at irregular intervals.

Hill also stated a quarterly report would be asked on department activities of interest to city commission members and the general public.

A change in format for preparation of the annual budget also was scheduled for discussion at today's meeting.

### Y.E.S. Is Getting Summer Jobs For Youths In Pampa

Out of school and need a job? Youth Employment Service (Y.E.S.) may be able to help you, according to Bill Ragsdale of the Texas Employment Commission, sponsoring organization here for the youth-for-hire program.

"This is primarily a program for youth in the summer months," Ragsdale said. "The age limit is 22 but there is no lower age limit except for a practical one."

He said chances of youths over 18 getting jobs are better than that of younger persons because of the Child Labor Law and the Minimum Wage Law, but emphasized that possibilities for employment are available for those from 13 or 14 up to the maximum limit of 22.

The jobs range from babysitting to yard work, from unskilled to skilled labor. Some firms must pay minimum wages while other firms and individuals do not—frequently a cause of

## Clay Shaw Granted Temporary Delay In Trial For 'Conspiracy'

NEW ORLEANS (UPI)—Clay L. Shaw was granted at least a temporary delay in his June 11 assassination conspiracy trial by a U.S. District Judge Tuesday because of the possibility "his rights cannot be vindicated within the context of state prosecution."

Judge Frederick Heebe issued a temporary restraining order against the office of Dist. Atty. Jim Garrison, prohibiting Shaw's prosecution "pending the further orders of this court."

Heebe said he would schedule a "speedy" three-judge hearing into Shaw's charges of a "concerted pattern of persecution and wholesale and willful disregard of constitutional rights."

Attorneys for Shaw requested "sanctuary" in the federal court, accusing Garrison and his staff of "conducting a reign of terror by the misuse and abuse of the powers of public office by conducting an illegal, unwarranted, fraudulent and useless probe of the assassination of the late John F. Kennedy."

Heebe admitted the allegations raised "serious questions" concerning the relationship between state and federal courts, but ruled that "equity demands and the proprietary interest of the federal courts authorize" the delay and intervention.

"The pervasive allegations of the petitioner here that his prosecution by the defendants is totally without foundation, we think raise the definite reasonable possibility of a finding on the merits that his rights cannot be vindicated within the context of his state prosecution," Heebe said.

Heebe said federal intervention was not limited to specific complaints of constitutional infringements.

"The Supreme Court has strongly indicated that the concept of liberty is not to be tied down merely to the recitation of the conventional freedoms straffied in the specific guarantees in the bill of rights where substantial unjust interference by the state with personal liberty is involved," Heebe said.

"The plaintiff's complaint raises real issues of alleged deprivations of liberty through the actions of the state."

Heebe did not address himself to Shaw's charges that he rule the findings of the Warren Commission be made binding on the courts.

The Warren Commission concluded Lee Harvey Oswald acted alone to assassinate Kennedy Nov. 22, 1963, in Dallas. Garrison has said Oswald did not fire a shot.

Assistant Dist. Atty. James Alcock, who was named as one of the defendants in the suit, said the federal court had no more authority in the Shaw case "than the courts of England."

Shaw, 55, was arrested March 1, 1967, and later indicted on charges of conspiring with Oswald, David Ferrie, Jack Ruby and "others" to assassinate Kennedy.

## US Is Prepared To Discuss Cease-Fire

PARIS (UPI)—The United States will propose immediate cease-fire negotiations with Hanoi if and when the Vietnam peace talks result in an initial de-escalation of the war, American officials said today.

This, they said, is why Ambassador-at-large W. Averell Harriman is firmly pushing the North Vietnamese to admit they have troops in South Vietnam.

They said Harriman is looking ahead to possible cease-fire negotiations once the principle is set.

To obtain cease-fire negotiations the sources said, Hanoi will have to admit it has troops in the South—70 per cent of all Communists fighting there as Harriman told his North Vietnamese counterpart Xuan Thuy at a meeting Monday.

With Hanoi's admission of activity south of the border, the United States could point to a specified North Vietnamese division or unit and ask what Hanoi intends to do about it.

However, Hanoi has shown no readiness to make the admission at the negotiating table.

## Memorial Services Set Here Tomorrow

Sunrise services in Pampa cemeteries will mark the beginning of Memorial Day ceremonies for Pampans. Several stores and bank officials have announced they will close to give

employees the day off with their families.

City Hall, most Gray County offices, and federal offices will also close for the day.

The Sheriff's Office, Police and Fire Departments, and Pampa units of the Highway Patrol will remain on 24-hour duty to deal with Memorial Day traffic and celebrants.

The Pampa News business office will close at 1 p.m. Thursday.

If the weather permits, Pampans plan to celebrate the day with picnics, boating and other water sports, and other summer recreational activities.

At Fairview Cemetery, the ceremony will start at 6:30 a.m. with several Pampa war veteran units and their auxiliary members participating in the memorial services.

## News To Close Early Tomorrow

The Pampa News business office will close at 1 p.m. tomorrow. Memorial Day.

With the passage of time, we're more apprehensive what the possibilities are," said a Navy spokesman, Capt. John F. Davis.

The Scorpion had been due to report by radio to Norfolk at 1 p.m. EDT Monday following a submerged trans-Atlantic voyage undertaken at the close of training exercises in the Mediterranean Sea. It was last seen at 11:30 a.m. Monday.

If the weather permits, Pampans plan to celebrate the day with picnics, boating and other water sports, and other summer recreational activities.

At Fairview Cemetery, the ceremony will start at 6:30 a.m. with several Pampa war veteran units and their auxiliary members participating in the memorial services.

Rev. M. G. Herring, Lutheran Church pastor, will give the invocation at Fairview Cemetery. Others who will participate in placing wreaths and flags on veterans' graves will be Capt. Jess Duncan, commander of the Pampa unit of the Salvation Army; Mrs. Henry Merrick, regent of the Daughters of the American Revolution, and Mrs. Libby Shotwell, Red Cross executive secretary.

Hazel Mullinax and Mrs. May Hatcher will place the memorial wreaths. Gold star mothers, those whose sons were killed in service, will also be recognized. Doug Laramore, a Pampa High School student, will play the bugle.

## Gene Sticks His Foot Out And... Kennedy Stumbles In Oregon

By RAYMOND LAHR  
PORTLAND, Ore. (UPI)—Sen. Eugene J. McCarthy stunningly defeated Sen. Robert F. Kennedy in the Oregon Democratic primary that Kennedy had said he must win to keep his presidential aspirations alive. They headed today for a do-or-die showdown in California.

Richard M. Nixon won another lopsided primary victory Tuesday in his quest for the Republican nomination.

Oregon's maverick voters harshly set back Kennedy's design to roll to his party's nomination on a bandwagon of consecutive primary victories.

Once a substantial number of the votes was counted, McCarthy consistently ran ahead of Kennedy by a margin of about 43 per cent to 36. Most of the balance went for President Johnson and Humphrey write-ins.

Kennedy is the favorite. The California winner gets 172 delegates, a prize neither Kennedy nor McCarthy could afford to lose and still hope to stop Humphrey.

Stunning as his victory was, McCarthy still was an underdog, the nomination but he confidently spoke of going on to Chicago (the national convention) "and beyond."

Nixon won overwhelmingly over absentee opponents—Gov. Ronald Reagan of California, whose name was on the ballot, and Gov. Nelson A. Rockefeller of New York, a write-in candidate.

Nixon's Lead Constant  
Nixon's total throughout the night hovered around 72 per cent with 22 per cent going to Reagan and six per cent in Rockefeller write-ins.

Returns from 73 per cent of the state's 599 precincts gave:

Democrats:  
Johnson 25,633—13 pct  
Kennedy 77,247—38 pct  
McCarthy 88,943—44 pct  
Humphrey 9,755—5 pct  
Wallace 442—0 pct

Republicans:  
Nixon 118,231—73 pct  
Reagan 36,382—22 pct  
Rockefeller 8,251—5 pct  
Stassen 4—0 pct  
Wallace 79—0 pct

McCarthy got 33 delegates in Oregon, swelling his total to 230. Humphrey was the leader with 377 1/2 while Kennedy was third with 172.

#### HARD LESSON

CREWKERNE, England (UPI)—Gardener William Hooper, 60, Monday ended his first bank account after thieves broke into his home, tied him up and took a tin box from under his bed containing 6,000 pounds (\$14,400). "I never trusted banks but now I have learned my lesson

#### LOVE LOST

LILLE, France (UPI)—Striking municipal workers today announced all city hall marriages are banned until further notice. "the expensive way," he said as he deposited "several thousand pounds," which the thieves had missed.

AN ECHO OF HABITAT, the revolutionary apartment complex at last year's Expo in Montreal, is going up in Munich in West Germany. Shown here in model form, a university guest house financed by the Volkswagen Works Foundation will house German and foreign scientists in 59 apartments when completed in 1969.

### THE LIGHTER SIDE Pentagon Research

By DICK WEST  
WASHINGTON (UPI) — The Senate Foreign Relations Committee recently disclosed that the Defense Department is spending about \$34 million a year on social and behavioral science research. Among the projects the Pentagon has financed is a study of "witchcraft, sorcery, magic and other psychological phenomena" in the Congo. Some of the committee members had trouble grasping the military significance of this

sort of expenditure. That probably is because they are accustomed to dealing with the State Department. They have come to think of witchcraft, sorcery, etc., as being instruments of diplomacy rather than weapons of warfare. Which goes to show you how short-sighted some senators are. Useful Study I imagine that even now the Pentagon is making good use of the information it obtained in the Congo study. For a progress report, I take you to the office of Claypool Talisman, deputy assistant undersecretary for charms, fetishes and incantations. "Mr. Talisman, what is that thing on your desk? It looks like a doll." "It is a doll. As you can see, it bears the likeness of Ho Chi Min."

FEAR, hopelessness, grief and pain are reflected in these faces of Vietnamese women and children left homeless by the recent enemy offensive in the Cholon district of Saigon. An estimated 80,000 residents have been driven from their homes.

"And what are those things sticking in it?" "Those are hatpins." "Would you mind explaining what military significance this has?" "Be glad to. Its purpose is to stop the infiltration of North Vietnamese troops across the Demilitarized Zone. When a troop movement is spotted, we stick a pin in the doll's leg and theoretically the enemy will develop charlie horses, making it difficult for them to walk." Voodoo Warfare "In other words, you are attempting to apply the principle of voodoo on a massive scale. Do you think it will work?" "Well, we've tried about everything else." "Doesn't this amount to another escalation of the war?" "Some people might call it that, but we have been exercising great restraint in the use of the pins." "Isn't it true that the joint chiefs of witchdoctors have recommended that the pinning be expanded to include the appendix and other vital spots?" "Yes, but pending the outcome of the Paris peace talks, we have orders from the White House not to stick any pins above the third vertebra."

SWINGING AFFAIR  
NEW YORK (UPI)—A party of sorts was scheduled today at a police warehouse in Brooklyn. Participating policemen promised to finish off more than 8,000 bottles of liquor and 5,000 cans of beer.

However, the "finishing off" was not to be in the traditional way. Police were to destroy the supplies seized in raids on unlicensed taverns. REQUESTS SENTENCE  
NOTTINGHAM, England (UPI)—John Tomlin, 25, was banned from driving for three years and fined 35 pounds (\$84) after pleading guilty in court to dangerous driving. Tomlin asked the magistrate to take away his driver's license for life. He told the court he tried to commit suicide by ramming his car into a roadside pillar and added: "I might try this again—I don't trust myself."

E. L. HENDERSON named president

### Henderson Heads CLU Organization

The Amarillo Chapter of The American Society of Chartered Life Underwriters, at its annual meeting held in Amarillo Tuesday, elected E. L. Henderson, C.L.U., Pampa, as its president for the 1968-69 term of office beginning July 1.

Other officers elected, all of Amarillo, to serve with Henderson are Carl H. Benson, C.L.U., vice-president; Charles A. Gallatin, C.L.U., secretary-treasurer.

### Blood Mobile Here Tuesday

A blood mobile unit from the Coffee Memorial Blood Center in Amarillo will be in Pampa Tuesday to receive blood donations.

The blood mobile will be at Highland General Hospital from 5 to 7 p.m. Tuesday and donors are asked to come during that time.

Persons who donate one pint of blood per year automatically make members of their families eligible to receive needed blood transfusions for one year free of charge.

Additional information may be obtained by contacting the Highland General Hospital laboratory.

### Absentee

(Continued From Page 1) the recent record of 298 recorded in 1966.

The Democratic Party's runoff primary Saturday will feature races between gubernatorial candidates Preston Smith and Don Yarborough, and between James A. Joy and Jack Hazelwood for the post of associate justice of the 7th Court of Appeals in Amarillo. The two races will be voted on county-wide.

Locally, incumbent Constable W. R. Combs of Lefors will be opposed for his post by J. L. Bromlow.

Only those voters who cast ballots in the May 4 Democratic primary, or those who have not previously voted in any of this year's primaries, will be eligible to vote Saturday.

### Murder Trial Continues For Wheeler Woman

WHEELER (Spl) — Trial continued here today for Mrs. Melvin Simpson on a charge of murder with malice in the shooting death of Jake Sutton in July, 1967.

The 34-year-old woman entered a plea of innocent Tuesday and her counsel, George Gilkerson of Lubbock, appeared to be laying the groundwork for a plea of self-defense.

Mrs. Simpson's husband, Melvin, 41, was declared innocent by a directed verdict last February for the same crime. Both were originally charged with acting together in Sutton's death but separate trials were later granted.

District Attorney Bill Waters has said the state would seek to prove the murder with malice, charge, but would not ask the death penalty.

Sutton, 64, was Melvin Simpson's uncle. All were from Shamrock. Simpson's mother testified yesterday that the shooting stemmed from an argument. Sutton died in Shamrock General Hospital shortly after the shooting.

### De Gaulle

(Continued From Page 1) workers and posed a threat of civil war.

It is costing France 1 billion a week. Today was its 12th day. Every activity from banking to garbage collection was affected by the strikes and today rats began nosing in the heaps of refuse that littered almost every Paris street.

Official sources said Finance Minister Michel Debre warned De Gaulle of impending bankruptcy if the striking workers received more than the 10 percent pay raise offer they rejected earlier this week. The agreement was reached in a conference of top government labor and management leaders but local trade unions branded it "insufficient."

Many government officials said they believed that extremists of both the left and the right, violently hostile to the 77-year-old French president, would try to prolong the paralysis in the hope it would cancel out a planned referendum on which De Gaulle has staked his future leadership.

De Gaulle said he would resign if the French nation did not give him a resounding "out" vote in the referendum June 16.

### YES

(Continued From Page 1) much confusion, he said. Determination of who must or may not pay minimum wages and who comes under the jurisdiction of the Child Labor Law is determined by the U.S. Department of Labor. Ragsdale said those who desire such information should contact the Labor Department representative in Amarillo, Ragsdale said.

Those interested in applying for a summer job should go by the Texas Employment Commission office at 823 W. Francis. The office is open from 7 a.m. to 5 p.m.

In 1937 the Duke of Windsor, formerly King Edward VIII of Great Britain, was married to Mrs. Wallis Simpson of Baltimore.

### Submarine

(Continued From Page 1) heard from May 21 at a point 250 miles south of the Azores. The search was concentrated in waters off Norfolk, where the ocean depth for about 20 miles out is 60 feet or less and men trapped in a disabled sub on the bottom would be within reach of rescue equipment.

Thirty-nine ships and a fleet of P2 and P3 subhunter aircraft searched visually and with sophisticated electronic devices for some sign of the Scorpion's fate.

If the power plant was disabled, survival would be limited to perhaps five days, he said.

Just what depth a submarine can descend to and survive is a military secret. The hull of the Thresher lost in 1963 with its 129-man crew was crushed as it sank to the bottom 8,400 feet down.

The Scorpion was due to surface Monday at a point 55 miles off Norfolk and break the radio silence it had maintained under training conditions simulating wartime emergency.

No radio message was ever received and the submarine failed to appear at the wharf at 4 p.m. EDT, the time it was scheduled to dock. Messages initiated by Norfolk squatters went unanswered.

### Vietnam

(Continued From Page 1) Vietnam's southern panhandle with 108 missions Tuesday, U.S. spokesmen said.

Battle Near Saigon American and South Vietnamese forces reported killing 136 Viet Cong guerrillas in Tuesday action in the Saigon area. Military spokesmen said 54 of the Communists died in a fight with troops of the 11th U.S. Army Armored Cavalry Regiment about 16 miles west of the capital.

At the western edge of Saigon a Viet Cong suicide company holed up in a residential district fought South Vietnamese troops, using its positions to fire three B40 rockets into a nearby American communications tower. Casualties were reported light at the tower.

Near Dak To the Americans took the offensive against a North Vietnamese buildup that military sources estimated contained seven Communist regiments. The Communists were located in rolling hill country near the junction of the Cambodian and Laotian borders.

Communist forces shelled mortar rounds and rockets on the U.S. air base and a Vietnamese training center at Da Nang. They also shelled a radio station and airfield at Pleiku. Casualties and damage in the attacks were reported light.

### New Policeman Hired

Bobby J. Dyer, 25, of 1325 Garland, has been accepted as a patrolman on the Pampa Police Department and will assume duties June 1, according to an announcement this morning by Police Chief Jim Conner.

He is a native of Allison in Wheeler County and a four-year veteran of the U. S. Navy. He is married and the father of one child.

### TROPICAL DESSERT

LOS ANGELES (UPI)—A "fruit salad" tree developed here will be flown to the Royal Botanical Gardens in Copenhagen Thursday for display there. A spokesman for an airline transporting the tree said that, as a result of skillful budding, the tree produces oranges, lemons, limes, grapefruit and tangerines.

### EXPENSIVE DOG

NEW YORK (UPI)—Chicago dealer King C. Hostick paid \$190 at the Hamilton Galleries auction Tuesday for a license, issued in Munich in 1927, to Adolph Hitler for his German shepherd dog, Wolff.

### Hemphill Historical Markers Will Be Dedicated in Friday Ceremonies

CANADIAN — Plans had been finalized today for the dedication of 11 historical markers in Hemphill County beginning at 10 a.m. Friday.

Sen. Grady Hazelwood of Canyon will be principal speaker at noon luncheon in the Canadian Motel restaurant and at the dedication in Canadian of the Robert Ralph Young marker. Railroad financier Young was born in Canadian.

The dedication ceremonies are being sponsored by the Hemphill County Historical Survey Committee of which E. E. Sparks is chairman.

Other speakers at dedication sites throughout the county will include Rep. Majouf Abraham, Mrs. Fleda Studer, Larry Sanders, County Judge B. F. Conyers, Don Powell, George E. Tubbs and Mrs. L.E. Dudley, all of Canadian; Ernest R. Archambeau and Charles Woodburn of Amarillo, and Dist. Judge Grainger McIlhany of Wheeler.

Other markers to be dedicated will commemorate Dick Bussell, Indian fighter and buffalo hunter; the Presbyterian Church bell, the first in the county; Mary B. Isaacs, first public schoolteacher in the county; Tom T. McGee, first sheriff; Sam Wood's Cabin, Canadian River Trail; Anvit Park Ranch, Springer Ranch, Gen. Lyman Wagon Train Battle Site.

### Fire Call Answered

Firemen answered a 9:40 alarm this morning—their first call in nine days.

A Dempster Dumpster near the Lamar School sustained only light damage, fire officials said.

In 1963 Pope John XIII died at the age of 81 after a long illness.

### Virginia Farmers Are Opposed To Roses By The Side Of The Road

ABINGDON, Va. (UPI)—As far as some Virginia farmers are concerned, everything is coming up roses in the federal government's highway beautification program—far too many roses.

Hundreds of rose bushes are growing on the sides and down the median of interstate 1 near Abingdon in Virginia's mountain country.

No one claims they are not pretty. But they grow so well, the farmers say, they are spreading over precious pasture land.

The Washington County Board of Supervisors is asking that the Federal Bureau of Roads "cease any further planting of multiflora roses and remove what they already have planted."

Board Chairman B. K. Knight said the roses are worse than thistles, which he said the state Israel and Egypt began.

In 1967 the war between thistles, which he said the state Israel and Egypt began.

### The Uneducated Jobless Unable To Fill Needs

By KENNETH R. CLARK  
EDINBURG, Tex. (UPI)—In the Lower Rio Grande Valley, between 6,000 and 7,000 persons are listed as out of work, yet in more than a dozen fields, employers are clamoring for personnel.

Fred Garcia, of the Texas Education Agency's migrant division in Edinburg, said Monday the difference is education. He also said that unless more money to foot that education bill turns up in federal channels, the people and the jobs are not soon likely to get together.

Virtually all of the Valley's unemployed are among the ranks of agricultural workers. Those who migrate—following crops around the nation—come off the unemployment lists periodically, but many remain at home taking their chances on whatever crops will give them a brief livelihood, between welfare doles and unemployment checks.

None of them can take advantage of the many positions open to stenographers, welders, cashiers, medical technicians, auto mechanics, and a dozen others for whom demand now is high.

Garcia said some big strides have been taken in the field of migrant education in South Texas, but that the Valley itself has been caught in a financial bottleneck which threatens the migrant worker's faith in the system.

He said the procedure is to enroll Mexican-American adults in a basic education program geared to raise their education at least to a sixth grade equivalent, and to make them literate in English.

After that, several specialized training programs are available—ranging from James Connally Tech at Harlingen, to the Ling-Temco-Vought program which already has moved some 400 families north to Fort Worth to work on the company's assembly line.

### Clifford Sees New Possibility Of War in Korea

WASHINGTON (UPI)—Defense Secretary Clark M. Clifford has warned that continued acts of aggression by North Korea could lead to a resumption of the Korean War.

Clifford, in a joint statement with South Korean Defense Minister Choi Young-hi, said "recent acts of provocation by North Korea constitute a serious threat to the peace and security of this area."

"Such acts, if persisted in, can lead to renewed hostilities," the two defense leaders said.

The South Korean and American defense officials "noted with serious concern" the increased military threat to South Korea from the North.

### The Almanac

By United Press International  
Today is Wednesday, May 29, the 150th day of 1968 with 216 to follow.

The moon is between its new phase and first quarter.

The morning stars are Saturn and Venus.

The evening stars are Mercury and Jupiter.

On this day in history:  
In 1453 Constantinople, capital of the Byzantine Empire, was captured by the Turks. Some historians list the date as the closing of the Middle Ages.

In 1790 Rhode Island became the last of the 13 original states to ratify the U.S. Constitution.

In 1868 Gen. Ulysses S. Grant accepted the Republican nomination for the presidency and issued the statement, "Let us have peace."

In 1953 Sir Edmund Hillary became the first person to reach the top of Mount Everest.

A thought for the day: French philosopher Michel de Montaigne said, "A wise man never loses anything if he has himself."

# Television In Review

By RICK DU BROW  
HOLLYWOOD (UPI)—ABC-TV's evening news program took on a new look Monday that bears watching—a format that allows for outspoken guest columnists of the air.

ABC-TV is the smallest of the three major commercial television networks, and has never been able to compete successfully in the ratings with CBS-TV's Walter Cronkite or NBC-TV's Huntley-Brinkley Report.

It therefore seems a very wise decision for ABC-TV to go its own way rather than continuing to knock heads with its larger competitors on their own terms.

This doesn't mean that ABC-TV is discarding all of the standard evening news approach. News is still what the evening report is all about—and it's not at all a matter of one guest columnist after another.

**Variety of Commentators**  
There will probably be a collection of 20 or 25 of them for ABC-TV to call on but the chances are that most of the individuals will be used only occasionally, depending on how the news goes.

ABC-TV's opinion section was initiated Monday evening by columnist James R. Patrick, who didn't mince word a bit in his views of campus rioters.

And later on, veteran ABC-TV commentator Howard Smith offered some views critical of television news. The ABC-TV anchorman for the new format, Frank Reynolds, offered a rebuttal to Smith as his contribution to the new commentary emphasis.

There's no question that ABC-TV's fresh direction is welcome, significant for television and even a bit historic—strife in terms of video, of course.

In fact, it may well be that the most significant television happening of the past year has been the new outspokenness by the news reporters of all the networks.

**Veterans Comment**  
Nor should it be overlooked that several veterans like Smith and Eric Sevard of CBS-TV, have been deluged frequently trenchant commentaries for some time now, the very same evening news programs.

But ABC-TV is fully committed to commentaries in a very large way, and its own special thing. And at something.

Of course, one wants to say hooray and all that, but it seems somehow wrong to go overboard since television is still light years behind the old newspapers and magazines in the field of strong commentary, which has always been an essential part of the print media.

In brief, it is simply pleasant to note that television is growing up—and more powerful all the networks as they finally shake off the absurd shackles that have retarded them long.

## FIGHTER CRASHES

BONN (UPI)—The 82nd West German Starfighter to crash since the U.S.-designed fighter entered service with the Luftwaffe in 1961 plunged to earth near Wittmundhaven, Tuesday, but both crewmen parachuted to safety, the Defense Ministry said.

## PATIENT DIES

EDINBURGH, Scotland (UPI)—Fifteen-year-old Alex Smith died Tuesday night 13 days after he was given the lung of an 18-year-old girl in Europe's first lung transplant.

10-20

LOTS OF FASHION for little price is how National Board of the Coat and Suit Industry rates these spring-into-summer styles. Stripe-it-rich shaped coat (left) is teamed with solid dress yoked with the same multicolored candy stripes. The Bonnie and Clyde look, the dazzle of colors, the supple wool of the coat featured (right) all make up a fashion born for adventure.

## Mrs. Huckins Feted By Rebekah Lodge

SKELLYTOWN (SPL) Mrs. Gertrude Huckins, Skellytown, and past noble grand of Skellytown Rebekah Lodge, was honored recently with a past grand banquet in Pampa at Harvester Barbeque.

The theme "Antique" was carried out in table decorations with the women attending wearing long dresses and bonnets. The serving table was covered with a white cloth and centered with a black potbelled stove decoration. Favors were miniature black iron pots, coal buckets and kettles filled with candy corn. Place cards were small cloth bonnets. On each end of the serving table was a lighted kerosene lamp.

Mrs. Gladys Simmons gave the invocation. Mrs. Miles Pearson was mistress of ceremonies for the program as Mrs. Bob Heaton read a poem, "My Get Up and Go Has Got up and Went." Mrs. Huckins was also presented a bulletin board made of an old-fashioned copper wash board with clips attached and pot holders hanging across the board.

Attending were Meses. Gertrude Huckins, John Simmons, Clifford Coleman, Everett Crawford, Tommie Hill, Floyd McCoy, W. S. Berry, Bob Heaton and Miles Pearson.

White Deer FHA Gives Devotional In Lions' Meeting  
SKELLYTOWN (SPL) — The White Deer Chapter of Future Homemakers of America presented their devotional, "A Different America," recently at the District T-1 Lions Club Convention in Amarillo.

The program was sixth presentation of this devotional this year. FHA girls and Beau, Byron Thomas, presented the program, which was dedicated to Panhandle area youths who have died while in the armed services.

Parents of 10-year training award students are Messrs. and Mrs. Ben D. Fallon, Frank Roach, Jack D. Edwards, John B. White and J. T. Winborne, all of Pampa, and Mr. and Mrs. Frank I. Cunningham, Perryton.

## Astrological Forecast By CARROLL RIGHTER

THURSDAY, MAY 30  
GENERAL TENDENCIES: A day and evening to renew your patriotism to your own country that has done so much for you. To get in some civic venture or undertaking that can bring you the good will of those in authority as well as the general public. Then you can turn your attention to family picnics or similar gatherings.  
ARIES (Mar. 21 to Apr. 19) — Relegate own desires to the background and do what kin expect of you, at this time. This could be in the engineering of finances or taking them out for a good time. Show that you are indeed devoted. Kind.  
TAURUS (Apr. 20 to May 20) — Doing something of a patriotic nature is wise today so that you show love of country in some tangible way. Then contact good friends you have not seen in some time. Have a very delightful time.  
GEMINI (May 21 to June 21) — Some contribution to some civic organization would be a good way to show your devotion and gratitude to your country now. Be very practical in all of your interests now. Show that you have good common sense.  
MOON CHILDREN (June 22 to July 21) — Patriotism is a natural with you so make this a day to show how adept you are at civic duties. Then out to the social by accomplishing whatever you have in mind. Make others understand your ideas.  
LEO (July 22 to Aug. 21) — A day to give thanks for your blessings and give support to those associates who have been loyal to you. Then get important duties handled properly. Evening is then fine for whatever is of a romantic nature.  
VIRGO (Aug. 22 to Sept. 22) — Talking over with pals what should be done so that you put energies to better use in your best bet today. Be sociable with those persons who can assist you and vice versa in the days ahead. Be very compatible.  
LIBRA (Sept. 23 to Oct. 22) — Doing some civic or community service can be most helpful and give you a chance to add a present prestige. Some act on your part can improve a higher-up with your sincerity to try to improve conditions. Be active.  
SCORPIO (Oct. 23 to Nov. 21) — The best thoughts can be yours now, particularly where the philanthropic is concerned. Think of best ways to advance. That new idea you have could be fine. Provided it is absolutely ethical.  
SAGITTARIUS (Nov. 22 to Dec. 21) —

## Area WMU Meets

The Baptist WMU met recently in the home of Mrs. Jeff Gray for mission study led by Mrs. Donald Ritter who also conducted the business session. Others present were Meses. Rudolph Tucker, James Coffman, Viola Harrell, Minard Henderson and Charley Fields.

## Dear Abby

By Abigail Van Buren  
DEAR ABBY: I am 18 and my boy friend is 19. We sometimes will come home from a movie or something and we will sit in his car for a while. We sit right in front of my house, Abby. If we wanted to neck up a storm, we could go park on a lonely road, couldn't we? I am not saying we have never exchanged a kiss once in a while, but it's no big make-out session. We talk mostly. We don't do anything in the car we wouldn't do in the house but my mother says she does not want us out there — even talking. She says the neighbors are getting their eyes full and I am ruining my reputation. I could care less what the neighbors say as my conscience is clear. I'd like your opinion.

NOTHING TO HIDE  
DEAR ABBY: As long as you don't do anything in the car that you would not do in the house, do it in the house. A girl has only one reputation, so take care that yours is as clear as your conscience.

DEAR ABBY: Your advice is desperately needed if my wedding is to be a joyous occasion next month. My father is dead and my mother insists that I have my brother walk me down the aisle and give me away. Abby, I do not want my brother to walk me down the aisle as he drinks heavily, is foul-mouthed, ill-mannered, and he spoils every gathering he attends with his crudeness. He has no friends except a few drinking bums like himself. I am marrying a fine man whose family lives out of town, and they are coming here for our wedding. I suppose every family has a skeleton in their closet, but I do not wish to put mine on display. I am paying for my own wedding and do not want it spoiled. My mother has made excuses for my brother all his life, and now she tells me if I don't have him give me away she will not attend my wedding. Please help me decide what to do.

TORN  
DEAR TORN: It is your wedding and it should be your day, and I think your mother is being unfair by putting you in the position of having to make such a difficult choice. Ask your clergyman to talk to her. If she is firm in her refusal to

attend your wedding unless you ask your brother to give you away, you would be justified in telling your mother that you do not want your wedding spoiled by him, but you want with all your heart to have her there, and the rest is up to her.

DEAR ABBY: Three cheers for "not ready" — the young married woman who was not ready for a family, but was made to feel it was her "duty." Her letter could have been written by me, except our reasons for waiting are financial. If we both work another five years we will have our mortgage paid off and will be in a better position to afford a family. Abby, you would be doing me and lots of other girls a big favor if you would put a few lines in this column to tell people how rude it is to ask a girl, "Why aren't you pregnant yet?" I do not think the answer is anybody's business but my husband's and mine. Just the same a lot of people keep on asking. NOT READY EITHER

Everybody has a problem. What is yours? For a personal reply write to Abby, Box 69700, Los Angeles, Calif. 90069 and inclose a stamped, self-addressed envelope.

SKELLYTOWN Circle Attends Meeting  
SKELLYTOWN (SPL) — Sylvia Freeman WMU Circle of Skellytown First Baptist Church met recently in the home of Mrs. Donna Moreland for the circle program led by Mrs. Cora Price. Meeting opened with prayer by Mrs. Myrtle Thompson and a special prayer by Mrs. Neoma Mercer. Ladies having part on the program were Kay May, Myrtle Thompson, Delle Grant, Donna Moreland, Wanda Rogers. The closing prayer was led by Mrs. Price, Arlene Carter also attended. A business meeting was held in which the women voted to make grants to Girls' Town for personal gifts. Another meeting was held in the Delle Grant home.

Art, Civic Club  
Names Officials  
LEFORS (SPL) Mrs. Carl Hall, president of the Lefors Art and Civic Club, announced department chairmen and standing committees. Those who will serve as department chairmen are Mrs. Merray Stroud, conservation; Mrs. Howard Archer, education; Mrs. Loyd McKnight, fine arts; Mrs. H.L. Teel, home life; Mrs. Harry Youngblood, international affairs; Mrs. James Gatlin, Texas Heritage; Mrs. Jerrel Julian, public affairs; and Mrs. Joe Watson standing committees. Standing committee chairmen are Mrs. Loyd McKnight, social; Mrs. Iris Barron, finance; Mrs. Joe Watson, membership; Mrs. James Gatlin, telephone and Mrs. Harry Youngblood, yearbook.

Some people plant tomatoes in the spring  
Others plant carrots, or onions, or cucumbers, or asparagus, or lettuce. But there's one thing you can plant now that will create a variety of tastes. A gas barbecue grill.  
We have several varieties. Any one lets you harvest a delicious meal any time of the year. Its perfect heat control and permanent briquettes give you year round cooking pleasure without the mess of a charcoal fire.  
For best results, we recommend early planting. This will guarantee larger yields because you can start your harvest immediately. New lower prices on the '58 models are in effect through July 31st. Prices start at \$77.50 cash (includes installation and tax) or as little as \$2.50 a month, whichever you prefer. After that, it will only cost a few cents per month for us to feed it. Call us. We'll plant a gas barbecue grill in your yard. That is, if you have a taste for the outdoors. Buy a PATIO PAIR (one gas light and one gas barbecue grill) and save \$25.00. Prices start at \$192.70 (includes installation and tax) or \$4.00 a month.

IN "WEDDING OF PAINTED DOLLS" ... Keith Germany and Leia Shuman

"LOLLIPOPS AND ROSES" DANCER ... Miss Anita Bichsel of Pampa

## 7 Dance Recital Planned in White Deer

Panhandle area students will appear in a dance recital at 8 p.m. Monday in White Deer High School Auditorium when the Linda Germany School of Dance presents its fifth annual revue, "The Four Seasons." The public is invited.

Miss Anita Bichsel, daughter of Mr. and Mrs. Richard Bichsel, 1632 Faulkner, will be featured in two numbers, a ballet to "Lollipops and Roses," and a Hawaiian "Keep Your Eyes on the Hands."

Keith Germany and Leia Shuman will perform in a number, "Wedding of the Painted Dolls," to portray a miniature bride and bridegroom.

In 1951 Radio Moscow claimed television had been invented in 1907 by a Russian. TV actually was developed in U.S. laboratories in the 1930's.

In 1962 Adolph Eichmann was hanged for his part in the murders of six-million Jews during World War II.

## Canasta Club Has Canadian Meeting

CANADIAN (Sp1) — Mrs. Glenn Riley was hostess to the H & H Canasta Club in her home recently with nine members and two guests present.

Guests were Mrs. Lee Hendershot and Mrs. Virginia Whipple.

Members present were Mmes. Carey May, Charles Morehead, Bill Moore, Jerry Schafer, Bill Lynch, Vernon Morse, Coy Holman, Chalk Fuson, and the hostess, Mrs. Riley.

## PEO Sisterhood Initiates Member

Mrs. John Isaacs entertained PEO members recently with Mrs. Arthur Webb as co-hostess.

Miss Christine Stone of Dallas was a guest.

Mrs. Larry Sanders was initiated into the sisterhood.

Mrs. George Earl Tubb gave the program and showed a film "Take Time To Love." Members present were: Mmes. Willia Ayers, Morris Bennett, Bob Dillman, John

#### STUDENT SITIN

LONDON (UPI)—About 1,000 students continued a sit-in today at London's Hornsey College of Art to protest what they termed a shortage of toilets and other facilities at the school.

#### RIGHTS RESTORED

ATHENS (UPI)—The government announced Tuesday night it had reinstated two articles of the constitution that restores the rights of trade unions to organize and strike.

### Call Made For Clarification Of Resolution By Methodists

DALLAS, Tex. (UPI)—The Texas Methodist newspaper said last week the church's governing body needs to clarify the resolution on civil disobedience. The resolution on "The Rule of Law and the Right of Disobedience" which among other things affirmed the individual's right of "non-violent civil disobedience in extreme cases" in seeking to correct unjust laws, was adopted earlier this month in Dallas by the uniting conference of the Methodist Church. Since the adoption, many Methodist members and churches have voiced opposition to the statement. The Texas Methodist newspaper proposed a compromise recently for the current Methodist controversy over actions adopted by the church's governing body. The compromise asked each annual (regional) conference in the state to follow the example of the Northwest Texas conference, which met last week in Amarillo. The conference approved a year-long study of the uniting conference action in the hope many of the misunderstandings could be resolved at the meeting. The Texas Methodist said, "By adopting the proposal, the conference very probably headed off a floor fight, and at the same time charted what is the best course we have seen." The uniting conference action left something to be desired since it contained wording "unsatisfactory and very vague," and thus caused misinterpretation of the statement "as a blanket endorsement of outright lawlessness," the Methodist newspaper said.

## Foreign News Commentary

By WILLIAM SUNDERLAND

LONDON (UPI)—Could Britain, that paragon of parliamentary government where words replace action, see fighting in the streets such as that rocking Paris?

A few weeks ago the answer would have been "definitely not." Now, many Britons aren't so sure. There has been a disturbing groundswell in the country, a public voicing of what up to now have been private feelings.

Enoch Powell started it with his "keep Britain white" speech—a speech that cost him his position as Conservative party "shadow" defense secretary. It probably cost him his political

future, too. But the fact is Powell voiced in public what a large number of Britons feel—colored immigration is getting out of hand and the government should take action against it. The moral right or wrong of the matter is secondary to the normal worker. His pocketbook and paycheck are involved. And now a member of government has voiced another feeling that up to now has been kept well hidden in the hearts of law-abiding Englishmen. The question is whether Parliament is outdated. Minister of Technology Anthony Wedgwood Benn warned openly that unless the political system in Britain is changed public discontent "could engulf us all in bloodshed."

"It is no good saying it could never happen here—it could," the Laborite government minister said in a speech in Wales Saturday.

Wedgwood Benn's speech ended a week highlighted by some public Parliamentary squabbles. To top the list Dame Irene Ward, a 72-year-old Conservative member of Parliament, was forcibly removed from the chamber after protesting loudly "the government has turned into a dictatorship."

## Somebody will probably gamble with your life

He thinks that if he takes chances on the highway, that's his business. The trouble is, the minute he loses control, somebody else's life is in jeopardy. Yours, perhaps. What can you do about it? Be forewarned. Expect trouble. Assume that any car on the road could do something stupid, any minute. Then if something happens, you won't be completely taken by surprise. Otherwise, when someone else begins to gamble with your life, the odds are against you. Your independent insurance agent suggests: drive defensively.

YOU'LL LIVE LONGER.

# DAY

On This Day, a Solemn Tribute...

On Memorial Day, we pause with pride in our hearts to pay solemn tribute to those departed heroes who gave their lives that the light of freedom may shine eternally. May we be worthy of their supreme sacrifice... and may the memory of their heroic deeds inspire us.

Let us dedicate ourselves to the cause that all which was so nobly won shall vigilantly be preserved. To our honored dead, let us pledge to guard and to cherish the priceless heritage of freedom. Thus let us pledge our thoughts, words and deeds to the high purpose of keeping America forever strong... to be forever free.

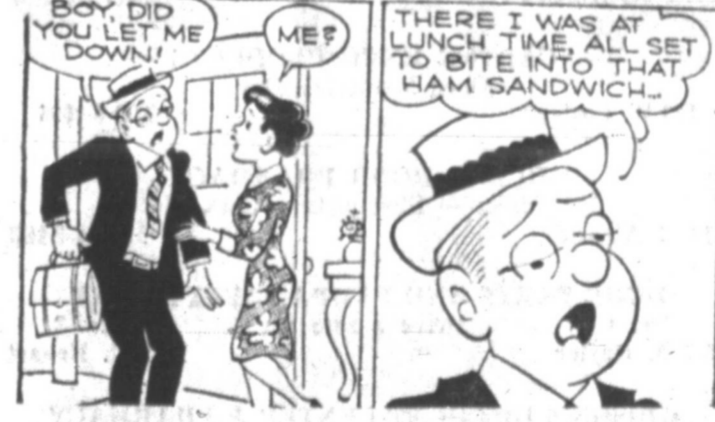

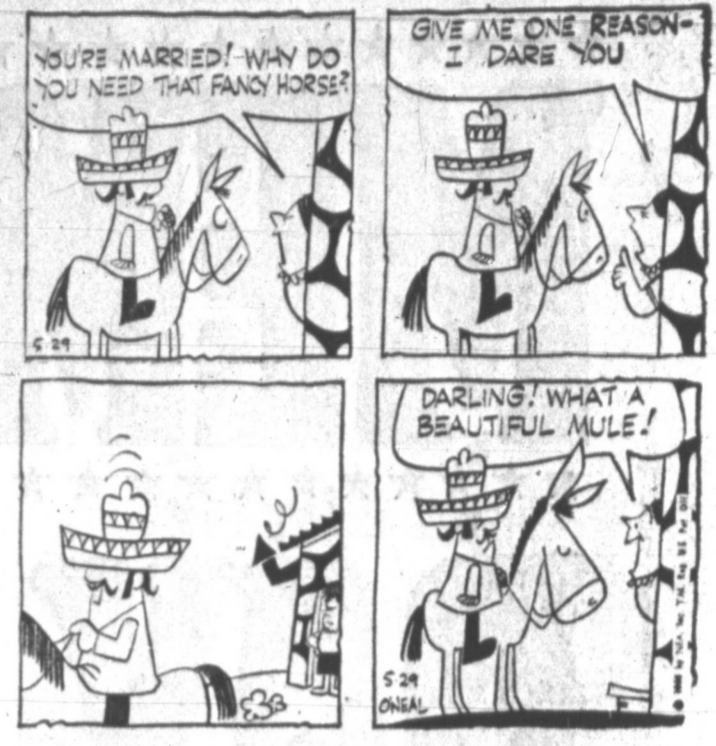

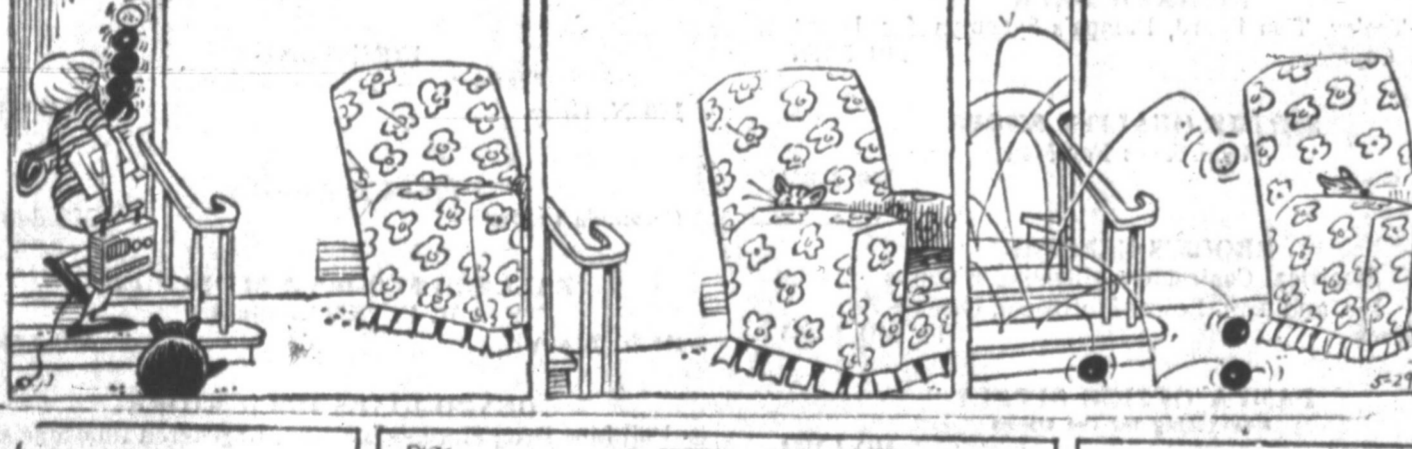

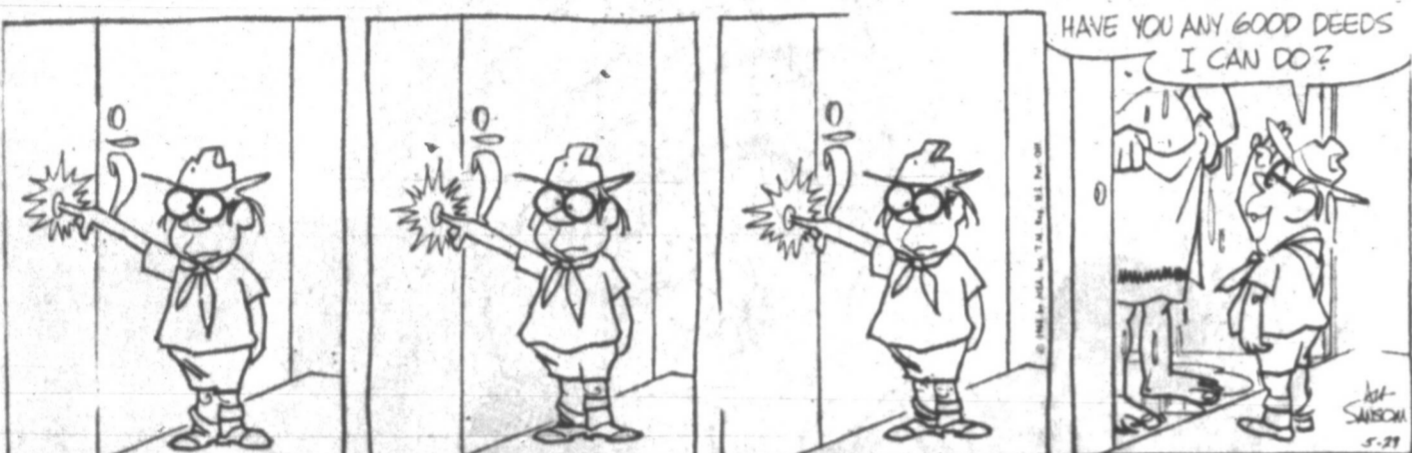

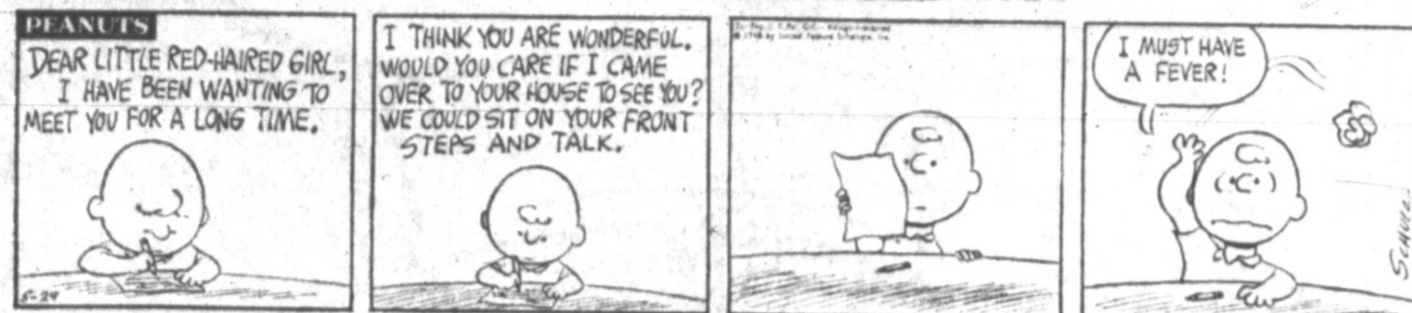

**Remember To Drive Carefully  
Over The

TURBINE BREAKTHROUGH

INDIANAPOLIS

TURBINE MAY WIN — Many racing experts are predicting that a turbine-powered racing auto will win this year's Memorial Day event at Indianapolis. Last year, a turbine led most of the way only to finish second because of mechanical difficulties near the end of the race.

Pistons Vs. Tubines Duel Highlights Memorial Race

By KURT FREUDENTHAL  
INDIANAPOLIS, Ind. (UPI)—Because there is safety in numbers, the piston engine auto racing fraternity was hopeful today of outlasting and outsmarting the three turbine-powered machines in the 500-mile Memorial Day chase.

With an eye on the sky, race day strategy was being mapped by the 33 starters, most of whom hoped to make final carburetor tests today before the traditional drivers' meeting in the afternoon.

The dress rehearsal tests were scheduled for Tuesday, but showers, which have interrupt-

ed the Speedway's racing program for the last 10 days, cut the three-hour practice session to 44 minutes.

But, the U.S. Weather Bureau predicted all will be well for the holiday grind. Partly sunny and warmer weather was the forecast for race day, with the temperature in the mid 70s. That would be near ideal racing weather for all except Andy Granatelli's three wedge-shaped turbocars which run more efficiently with the mercury 40 higher than 60.

But with two of the three turbines, driven by pole-sitter

Maloney Hurls Reds Over Dodgers, 7-0

By FRED DOWN  
UPI Sports Writer

Jim Maloney says his hobby is hunting in the winter and the Cincinnati Reds say it is holding out in the spring but National League hitters know better.

They know it is collecting low-hit games in the summer.

Maloney, who pitched a no-hitter on Aug. 19, 1965 after pitching 10 innings of no-hit ball only to lose in 11 innings earlier in the same season, pitched the fourth no-hitter of his career Tuesday night to give the Reds a 7-0 victory over the Los Angeles Dodgers.

The 215-pound fireballer, who yielded only a fifth-inning single by Zoilo Versalles and four walks while striking out 10, is one shy of the National League record of five one-hitters shared by Grover Cleveland Alexander and Mordecai Brown. The American League New York at major league record of 12 one-

hitters is held by Bob Feller. Rose Hits Four

Pete Rose collected a triple, double and two singles and Tommy Helms and Alex Johnson each had three hits to lead a 13-hit attack that tagged Don Sutton with his fourth loss.

The San Francisco Giants defeated the St. Louis Cardinals 3-1 in a game called because of rain after eight innings and the Atlanta Braves beat the Houston Astros 3-1 in other National League games. Chicago at Philadelphia and New York at Pittsburgh were postponed because of rain.

The Detroit Tigers downed the California Angels 4-1, the Baltimore Orioles shaded the Chicago White Sox 3-2, the Minnesota Twins beat the Cleveland Indians 3-1 and the Oakland Athletics defeated the Boston Red Sox 3-1 in the American League. New York at Washington was rained out.

Perry Wins Sixth

Gaylord Perry pitched a two-hitter to win his sixth game for the Giants, who dropped the Cardinals into fourth place. Willie Mays hit a two-run homer in the seventh inning to snap a 1-1 tie after Dick Dietz homered for the Giants in the sixth.

The Cardinals scored off Perry in the first inning on Lou Brock's double, an outfield fly and Roger Maris' fielder's choice and then didn't make another hit until Tom McCarver tripled in the seventh.

Pat Jarvis won his fourth game for the Braves with a four-hitter embellished with seven strikeouts. The Braves scored all their runs off Dave Giusti in the third on singles by Sonny Jackson, Hank Aaron and Joe Torre, an error by Giusti and a sacrifice fly by Deron Johnson.

Greenbelt Lake Opening Scheduled Today

CLARENDON — Green belt Lake opens today featuring a fishing derby, professional boat races, a beauty pageant, an art show and a carnival during its grand opening festivities Wednesday through Sunday.

An expected 4,000 to 5,000 visitors are scheduled to attend the opening.

On Thursday, anglers will start competing in the three-day fishing tournament. The contest is based on the combined weight of the pike and bass caught and the finalists will be selected from the top 40 percent of the fishermen in Thursday's and Friday's competition.

Three categories—men's singles, women's singles and the junior class for youth 17 and

under—will participate in the fishing derby.

Greenbelt Lake is located about five miles north of Clarendon on U.S. 70.

LISTO NCOMEBACK

NEW YORK (UPI)—many Liston's seventh bout on a comeback trail will be televised by the American Broadcasting Company. ABC said Tuesday the fight with Henry Clark July 6 in San Francisco will be televised live and in color.

Liston has won six straight fights by knockouts since being kayoed in one round by Cassius Clay in a 1965 heavyweight title bout.

DANCER'S IMAGE CASE

An interesting article, "It Was A Bitter Pill," appears in a recent edition of Sports Illustrated explaining in depth the controversial pain-killing drug given Dancer's Image, who consequently forfeited his Kentucky Derby winnings.

Who's responsible for the drug being given Dancer's Image? According to Sports Illustrated writer, Whitney Tower, the trainer is "held responsible" for the horse's well-being "at all times."

One of the rules of racing under law plainly states that horses who come up "positive" shall not get any of the purse. Dancer's Image urinalysis came up positive. He deserved to lose.

The painkiller involved was known by doctors as phenylbutazone, the common name being Butazolidin. It is taken by humans as well as horses and is used to alleviate joint pain.

Using the drug—or using it, and then withdrawing it—can make a horse run well or bad.

Dancer's Image later competed in the Preakness. He was again disqualified—this time, for a running violation.

There is no doubt that many fans feel justly that Dancer's Image had some bad luck.

However, rules are rules and they should be enforced. Otherwise, you have anarchy.

SPEED COMING UP

While the Pampa high school

football team may lack speed this year, reports from the Junior High School indicate that this year's seventh grade track team is one of the speediest in history.

Should these young boys decide to play football, Pampa can expect some fast running backs in the future.

Pampa's High School football Harvesters will find no easy games at the start of the season. The first three teams—Hereford, Dumas and Perryton—are triple A schools and have the advantage of being able to begin fall football practice earlier than the gridmen at Pampa.

Pampa meets Hereford there on Sept. 13 and plays Dumas there on Sept. 20. Its first home game before local football fans is with Perryton on Sept. 27.

Groom Tackle Awarded Honor

GROOM (Spl) — Keith Fields, 18-year-old son of Mr. and Mrs. Billy Fields and a senior in Groom High School has been chosen to play in the Texas High School All-Star game in Fort Worth in August.

Keith is a 205-pound tackle, who starred on the Groom High School Tiger football team for several years. He plans to attend Texas Tech at Lubbock on a football scholarship this coming school year.

Ankle Trouble Ends Career Of Horse

NEW YORK (UPI)—Dancer's Image and misfortune's child, the almost winner of the Kentucky Derby and unlucky in the Preakness, turned to greener pastures today, three days before the running of the third jewel in racing's Triple Crown.

The racing career of Dancer's Image ended Tuesday when owner Peter Fuller announced that the big gray colt had been retired to stud because of recurring ankle trouble.

The son of Native Dancer, disqualified after finishing first in the Kentucky Derby and from third place in the Preakness Stakes, came out of a Monday workout in poor shape and an emotional Fuller decided to end the colt's racing career.

"After a conference this morning with Dr. Mike Gerard regarding his right ankle, I have decided to retire him," the Boston automobile dealer told a news conference at Belmont Park.

Hard Announcement

"Dancer's Image is too honest and game a horse to allow him to race in the Belmont and not be in perfect physical condition

Hickey Slated To Compete At Borger

BORGER—Max Hickey, Pampa, was scheduled to play in the West Texas pro-amateur golf meet here Wednesday.

Hickey recently won the American Petroleum Institute golf tournament with a one-stroke win over James Linn, Spearman.

Professionals Howard Warren, head pro at the Pampa country club and Martin Reeves, assistant pro at the Pampa country club, were also slated to compete in the event.

Another Pampa entry is Elmer Wilson, an amateur.

A field between 100-120 is scheduled to play in the tournament which brings together around 12 professionals and over 100 amateurs.

# The Panma Daily News

A Watchful Newspaper  
EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE  
The Panma News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license, nor anarchy. It is control and sovereignty of oneself. No more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

### Support Youth in What?

"Support Our Youth" is the banner printed across the top of a recently issued U.S. postage stamp, the six-cent variety. Reading it gives immediate rise to a barrage of questions. Support which of our youth? Support them in what? Support them how much? How much below the poverty level should parents be driven to "support our youth"? Is this a plea to support the much pictured examples of the bad, the loud and the ugly?

The examples, of course, are part of the iceberg, where only the small fraction is visible, supported by a submerged strong steady base of our young population. While most of us work to reveal young stable lovers of freedom for what they are, there are forces at work pushing them back under the water unless they emerge in the same hideous molds already visible.

One of the most obvious workshops for such whitening and chiseling is the college campus. And one of the hardest workers is a group which, according to U.S. News & World Report, has been behind much of the violence on the U.S. campuses in recent months—the Students for a Democratic Society. According to the May 20 issue of the magazine, this organization existing at nearly 300 colleges "has been described as having almost every aspect of American life and is dedicated to a program of obstruction and disruption of all authority." Foremost it fights the "imperialist" war in Vietnam, recruiting for the armed services, and the "hierarchy" that controls "higher education" in the United States, with some leaders giving open support to guerrilla warfare in this country.

The SDS sponsored the demonstration against Vice President Humphrey at the University of Chicago last February and recently staged the large-scale riot at Columbia University, still in progress. Dr. Logan Wilson, president of the American Council on Education, was quoted as saying he believes that American universities are being torn apart by student uprisings.

### Czechs Sniffing Freedom

If eternal vigilance is the price of liberty it is just as true that constant watchfulness is the price of totalitarianism.

Czechoslovakia is a nation walking a precarious tightrope, trying to maintain a balance between oppressive dictatorship on the one side and heady freedom on the other; between Russian domination and runaway nationalism; between devotion to Marxist economic dogma and flirtation with the practices of capitalism.

Events in that iron curtain country in recent months have been given prominence in the western press.

First Antonin Novotny, 63, Stalinist-type party boss, was thrown out along with a raft of lesser officials in a revolt engineered within the party hierarchy itself and replaced by younger, reform-minded Communists headed by Alexander Dubcek, 46.

In its lately promulgated "action program," the new look party has moved to curb the

powers of the secret police, guarantee the right of citizens to travel freely abroad and give legal rights to certain political parties other than the Communist party.

Except for the police measure, however, the innovations are not as startling as they appear when baldly stated.

The easing of travel restrictions is partly designed to enable Czechoslovaks to find jobs in labor-hungry Western Europe and to send home needed foreign currency. As for political diversity, the party has made it plain that it will not tolerate opposition in the true sense.

Yet a gentle but steady breath of something resembling freedom does seem to be sweeping through Czechoslovakia. The man in the street definitely feels it, says western journalists.

It would be a mistake to exaggerate these faint stirrings in Czechoslovakia. But little breezes, even if they don't kick up into real winds, can make tightrope walking a very chancy business indeed.

### Nation's Press

A NOTE ON YOUTH (Wall Street Journal)  
Will Durant is 82, and this week his wife, Ariel, will turn the corner of 70. John S. Knight is a mere 73. What makes these chronological notes of more than passing interest is that this week these three were honored by Columbia University with 1968 Pulitzer prizes.

The Durants have just finished their ten volume history of mankind, and so now having a little time on their hands plan to start writing their autobiography, a joint telling of 55 years of married life and work together.

John Knight, with a half century of newspapering behind him, is off somewhere (nobody even knows where Jack Knight

is until he's left) writing his weekly comment which will appear this week-end in all his newspapers except The Detroit Free Press, which also won a Pulitzer prize for its riot coverage but can't report it because it is closed by a strike.

As with all careers in mid-stream it's possible they will not live up to the Pulitzer promise; the Durants' next book may be a disappointment and Mr. Knight's next book may be a disappointment and Mr. Knight's next column may lack its usual pungency. But in this age of youth a reminder that the years cannot wither those unaccustomed to stale retirement is somehow a comfort to the mid-aged.

### PINE TREE FEATURES

by Robert Lefevre

### THE CASE OF JOHN WELLS

There is a young man named John Wells, a twenty-five-year-old junior in the physical sciences at the University of California in Berkeley. He wants to be a teacher. He happens to be an idealist. He seems to believe that he has rights. He seems to feel that no one but himself has any right over his life or his property.

Many of us, of different ages and in different pursuits, believe much as John Wells believes. But few of us would care to try to act out our beliefs with the consistency and the determination which characterizes John Wells.

He was drafted in April of 1964. After basic training he spent eight months in Missouri, then was shipped to Germany. He says: "I had studied German in college, so when I got to Germany I made an attempt to spend my time with the Germans instead of with the G.I's. My political education began. Former Nazis patted me on the back and congratulated America on her anti-Communist stand. Neutral Germans, old-timers who had lived through the Hitler era, explained how gradually and unwittingly Germany had drifted into Nazism. Radical German students began asking me embarrassing and pointed questions about the Dominican Republic and the war in Vietnam. And I found that I could not answer these questions without sounding suspiciously like the former Nazis."

So, to make a long and involved story brief, he got into difficulty with the military for refusing to obey an order relating to daily inspections. He was court-martialed but refused to attend on the grounds that he was to be tried before superior officers and not by his peers. A second court-martial was scheduled. As he was waiting for trial, his father died. He was sentenced to six months in the stockade. Then he was "separated" from the service, but not "discharged." This meant that he was still in the active reserves. But by this time he was "fed up" with the Army and considered his position as "separate." However, he was served notice that he would have to go to a summer camp in July of last year. He did not go. He was apprehended by military personnel and now is confined in the military stockade on the Presidio in San Francisco.

When apprehended, he refused to cooperate in any way, maintaining that he alone had rights over his own person. He says that he refuses to stand trial on the basis of his beliefs; that he does not mind explaining his beliefs to others, but denies that his or any other person's beliefs are the proper subject of a trial.

When apprehended, his captors were forced to carry him. At the processing center they took his clothes from him, leaving him in his underwear. He was issued prison garb, which he refused to put on. The military took him in his underwear and he has worn nothing else since April 11 of this year. His cell is six-and-a-half feet long by five feet wide by eight feet high. He is in solitary confinement, which is called "administrative segregation."

He has refused to sign an agreement for the prison officials to censor his mail; consequently he receives none. Because he will not wear prison garb, he is allowed no visitors. His only contact with the outside world is through his attorney, Lloyd McMurray, and David Smith, a member of the Campus Ministry at Berkeley. All others are barred.

They report that John Wells is almost always cold, but otherwise in good health. During the day they strip his bed of blankets and mattress, so nothing remains in his cell with him except a metal cot.

They used to allow him a newspaper, but he shared an issue with a man in an adjoining cell, so now newspapers are barred. He was given cigarettes (one at a time and lighter), but this ration has been cut back because on one occasion he gave another prisoner a puff.

I am wondering what the American reaction would be if the Viet Cong, in dealing with American prisoners of war, treated them in this manner.

In the end, John Wells will be

Republicans Prepare Campaign Attack On Democratic Administration's Weapons Lag

WASHINGTON — A Republican "white paper" detailing the Johnson and Kennedy administrations' alarming neglect in the development of new military weapons, including long-range missiles, could become as important a document in the 1968 campaign as the late President Kennedy's missile gap charges in 1960.

In addition to showing that Kennedy's widely publicized charges were completely unfounded, Republican leaders are planning during the coming presidential campaign to thoroughly document the dangerous new weapons lag.

Plans already are under way to highlight this crucial defense issue in the platform of the Republicans are drafting for their national convention in Miami in August.

Prepared by the national security task force of the Republican Coordinating Committee, which includes two former defense secretaries and three ex-members of the Joint Chiefs of Staff, the blistering GOP attack will center around the finding:

"This nation's development of military weapons has not been progressing at a pace equal to either the accelerating spiral of science and technology or the expanding Soviet threat."

Pointing out that "the peace and security of the U.S. and the free world are at stake," the GOP "white paper" charges:

"The administrations present defense policies will deprive America of technological superiority over Russia in the development of new weapons."

"Fearful lest new developments might provoke undesirable Soviet reactions," the Republicans state, "the administration has failed to exploit boldly new concepts in science and technology, which has resulted in the Soviets catching up and passing the U.S. in many new weapons developments."

THE SHIFTING BALANCE—According to the GOP "white paper," the U.S. military superiority today is largely a legacy from the administration of former President Eisenhower.

"In the all-important strategic area, for example, the post-Eisenhower administration inherited both the Minuteman and Polaris systems," the paper states. "Our strategic bombers, the E-52s and B-58s were developed prior to the 1960s."

In striking contrast, the paper charges that in the Johnson and Kennedy administrations, "There has been no new development of a bomber as a bomber. The modification of the F-111 (all recently grounded) does not significantly advance the state of the art, nor can it

proved right. No man has any right over his person and his property except that man. Unquestionably the authorities can kill John. It is doubtful that they will win his cooperation,

PAUL SCOTT

### The Doctor Says:

Home Surgery for Elderly Dependent on its Type

Some time ago, I stated that surgical operations on the elderly should, when possible, be performed in the home. Since this has given rise to some misunderstanding, I wish to make it clear that such cases must be carefully selected. This procedure would be most unwise in the case of an exploratory operation in the abdomen if the surgeon was unsure of the diagnosis and what he would find. Nor could it be used for brain surgery, chest surgery or any other procedure that would be likely to require keeping the patient under an anesthetic for a prolonged period.

In the case of simpler procedures that could be done quickly, however, the operations can be performed at home and even in the patient's own bed. This has been recently recommended by a noted professor of surgery not because it would make it easier for the surgeon but because uprooting an elderly patient from his home and sending him to a hospital is likely to cause a severe emotional upset.

Q—What is a fibroid tumor?  
A—This is a common benign tumor of the uterus that is made up of muscular and fibrous connective tissue fibers. It may occur on the outer lining of the uterus, within the uterine wall or on the inner lining. In some women, two or more may be present at once.

Q—I have uterine fibroids. What causes them? Why must I have a checkup every six months? Is there any cure?  
A—The cause is unknown. About 20 per cent of all women over 35 have them and the percentage increases with advancing age. Since these tumors are benign and usually cause no symptoms, the best treatment is to watch them by having a checkup once or twice a year. The only way to get rid of them is removal of the uterus but is advised only if bleeding occurs between your regular menstrual periods or if the tumor becomes so large that it causes pressure on your bladder. Following the menopause, most fibroids show some evidence of spontaneous shrinking.

Q—All I want to eat is lettuce and hard candy. What would cause this?  
A—Pregnancy is one common cause of bizarre appetites. Other causes include anemia, glandular diseases and certain dietary deficiencies.

Q—Is it true that for every gray hair that is pulled out two will grow back?  
A—If this were true, we

Space Administration.  
The findings of the GOP task force were shown to and approved by former President Dwight Eisenhower and Vice President Richard Nixon, and by California governor Ronald Reagan.

Nixon is planning to challenge whoever is the Democratic presidential candidate to debate the military weapons lag.

## Pull Up A Chair

By FRANK J. MARKEY

There aren't as many passenger trains as there used to be, but some bright people are still thinking of rail travel as a good means of fast transportation. One of them is Lawrence K. Edwards, a California aerospace engineer, who envisions passenger trains pushed by air pressure and pulled by gravity at speeds of 400 mph through steel tubes a half mile below ground. He says such a system could carry people between Boston and Washington in two hours, including 5 stops enroute. Edwards says tunnels are easier and cheaper to bore and they eliminate the problems of right-of-way and other costs. Sounds like science fiction, but who can doubt the possibilities this day and age?

lifetime of being kidnapped. This bugged him so much that he opened a separate bank account where he kept a million dollars on deposit at all times to be paid as ransom if any bad boys grabbed him. No one ever did. They used to say farmers work was never done, but the farm machinery on today gives the modern farmer the soil plenty of leisure time. The Department of Agriculture says that modern farm machinery can do the work of four men working by conventional methods only 25 years ago. Americans should be the sweetest people in the world. They consume about 10 billion pounds of sugar every year, which averages out to 100 pounds per person. Someone took the trouble to measure the speed of ice and roller skates and guess which kind won? Ice skates are up to one mile. But roller skates proved the faster for longer distances (two miles or more). The reason given for the speed of the latter was they required less stamina to maintain speed. The New Castle (Pa.) NEWS Reported in a story: "Employees have back pay coming to them since January 5 because they have received salary increases which were radioactive to that date." Maybe they'll need a Geiger counter to count it when they get it.

Today's smile: The newly wed had their first quarrel and for several hours neither would speak to the other. Finally the husband decided to give in and said his bride, "I've changed my mind." "Nothing doing," said his bride, "I've changed my mind."

Country Editor speaking: "Food is one thing you buy these days that you can't afford, but you can't get along without eating."

Tito Gaona, the Ringling Bros. and Barnum and Bailey Circus trapeze artist, does the incredible mid-air triple somersault at each performance of the greatest show on earth. Yet he's scared stiff of traveling by plane. "Imagine being 20,000 feet up there," he says, "and no net!" We recently asked Tito how he perfected his art and the 20-year-old Mexican replied very casually: "It wasn't too hard. I practiced doing four somersaults—then I just cut out one."

Thoughts while shaving: Clarence H. Geist, who grew up on an Indiana farm and became a multimillionaire through his investments in public utilities, had a mortal fear throughout his

### Your Dental Health

Most Dental Diseases Are Not Reversible.  
DEAR DR. LAWRENCE: Is it always apparent to the dentist when a tooth requires removal of the nerve?—Mrs. C.H. ANSWER: No. There are so many referred aches and pains associated with teeth that have partial or total pulp (nerve) infection that it's impossible sometimes to know for sure even which tooth is hurting.

Some years ago one of my teeth became sensitive and showed signs of pulpitis. I couldn't tell which tooth it was; even which jaw it was in, upper or lower. And three dentists who examined me couldn't agree on which tooth was involved.

Only when an abscess can be visualized on x-ray, or when it can be clinically demonstrated into the nerve chamber is it certain that root canal therapy (RCT) is the treatment of choice.

And even an exposed nerve can sometimes be treated successfully by "capping" that is, by placing a special medicated filling over the exposed nerve area. This is far simpler and less costly than RCT but its use depends on the judgment of the dentist.

DEAR DR. LAWRENCE: If your answer is free, I would like to know whether it is necessary to have an abscessed tooth pulled? Will nature handle it? Or drugs?  
—MR. U. B.

ANSWER: Unfortunately most dental diseases are not reversible and certainly not spontaneously reversible. Many can be arrested by proper treatment, but there are only two ways of treating an abscessed tooth:

1. Extraction.  
2. RCT, that is, removing the nerve, draining the abscess, sterilizing the nerve canals and filling them. (And variations of this treatment.)

Penicillin and other antibiotics can reduce swelling and temporarily mask symptoms, but infection cannot be permanently eliminated without first removing the cause, which is usually an infected nerve.

Tooth abscesses occur from causes other than infected nerves, such as periodontal abscesses, but these too, do not spontaneously cure themselves. They must be treated and the cause removed.

would have the greatest cure for baldness since the invention of the guillotine.
