### Twinkles

We can limit the size of battleships, if we will, but we can no more limit the size of airplanes, and their ability to carry bombs, than we can control the lightning bolt. The question of the future is, can we control man's mind?

Don't get the idea that college students won't fight. And for proof, just throw a few taunts at a pacifist club.

\*\*\*\*\*

Sometimes you would think that it is getting more popular to count the ducks in this country than to shoot them.

\*\*\*\*\*

Maybe times have changed. The Wee Young Man out at our house says that, in view of the fact that he does not ask us to walk the floor with him, we ought to get in a bit earlier at night and be more quiet when we come in.

\*\*\*\*\*

It may be all right for Clark Gable to pick the No. 1 sweetheart of the Centennial, but we know a lot of fellows who have demonstrated more ability than Gable along this line.

\*\*\*\*\*

Musing of the moment: Republicans may be down to "grass roots" instead of brass tacks this year, but the average man seems to think the grass has been rooted out by the winds and he wants it returned. . . . And we heard of a local plainman who was so disgusted with the "chorus of our critics against the dusters that he invited a group to accept a stack of road-maps and note the numerous roads leading out of Pampa.

\*\*\*\*\*

### Brevitorials

EXCERPTS FROM letter from Dr. C. P. Callison, former Pampa, now living at Des Moines, Ia.: "Spring has 'come,' ah yes, spring has come, but the flowers are not yet in bloom. . . . Here in the near polar regions we are still 'walking in a winter world,' only it is not wonderful as it might seem. The wonder is that anybody could 'roll out of bed in the morning' when the mercury has retreated into the bulb to hibernate and the snow is another foot deeper outside. . . . Fog and soft coal smoke make a fairly good substitute for dusters, but for real nourishing vitamin K give me good old Panhandle soil with enough sand and grit added to insure proper digestion. Tell Russ (R. G. Allen) that he doesn't produce all the carbon black in the world; there is plenty of it turned out up here, only it doesn't do anybody much good except the laundry-men and dry-cleaners.

\*\*\*\*\*

"You may be sure that all of us prodigals, whether natives or adopted citizens of the Lone Star state, feel 'the eyes of Texas' upon us. We have never heard of any section half as history-conscious as the Panhandle of Texas. And none of us is more enthusiastic over the dramatic and patriotic background of that wonderful state than are its adopted sons and daughters who have been inspired by its heroic past.

\*\*\*\*\*

"WE HAVE BEEN quite interested in the plans for the opening of KPND. This will be of great benefit for Pampa and an asset in many ways. But be careful not to claim supremacy in too many lines; at least, allow Dalhart and Amarillo to decide between themselves the question of leadership in the 'dust bowl'." . . . Dr. Callison hinted that

# TOWNSEND ORGANIZER TESTIFIES

James E. Van Zandt of Altoona, Pa., above, commander-in-chief of the Veterans of Foreign Wars of the United States, will come to Pampa Monday on his nation-wide tour and will make a public address in the city auditorium at 2 p. m. Other prominent veterans will accompany him.

## Coming Monday

### VAN ZANDT TO BE MET AT DALHART BY PAMPA VETS

### VFW Commander To Be Guest at Banquet

A cavalcade of Pampa veterans, headed by Past Commander Hamp Waddell of the local post, will join Commander Van Zandt when he leaves his train at Dalhart on Sunday morning. They will accompany him to Amarillo in the afternoon, to Borger Monday morning, and then to Pampa, arriving here at 11 o'clock.

The commander will be guest of honor and chief speaker at a banquet for all veterans and a few guests in the banquet room in the Schneider hotel at noon. Commander D. A. Bartlett of the local post will preside. D. E. Cecil, chairman of the arrangements committee, will be toastmaster.

The public is invited to hear the commander and other national and state officers in a program at the city auditorium at 2 o'clock. The high school band will give a concert at 4:45 o'clock.

Promptly on the hour, Mr. Cecil will present Mayor W. A. Bratton who will welcome the visiting dignitaries and veterans. Youover at the Panhandle who will be here for the occasion.

Commander Van Zandt, nationally known orator, will speak on a subject of vital interest to both veterans and the public in general. Women are welcomed at the meeting which is expected to draw a packed auditorium. Local Boy Scouts will act as ushers.

## TAX PROGRAM IS ACCEPTED BY COMMITTEE

### OPEN HEARINGS TO BE HELD ON REVENUE MEASURE

WASHINGTON, March 26 (AP)—The house ways and means committee today accepted without change the tax program worked out by a subcommittee as a basis for open hearings on the administration revenue program.

The report contained recommendations, already disclosed, for a new form of corporation tax, based on percentages of net income held in reserves, designed to yield \$590,000,000.

It included, too, a proposal for a 90 per cent "windfall" tax on "unjust enrichment" occurring as a result of nonpayment of old AAA processing taxes.

It also included proposals for new processing taxes, as suggested by the president, or any other form of excise levies, were embraced in the report.

One hitherto unrevealed feature was that railroads would be subject to the tax on undistributed corporation income but that they would be allowed to retain the privilege of filing consolidated returns.

Some committee members said railroads would pay no more taxes under this arrangement than they do now and perhaps less.

"I want to make it clear," said Chairman Doughton (D., N. C.), of the full committee, "that the report has been accepted only as the basis for hearings."

The 10-page report was devoted merely to explanations of the projected new tax program, without comment on the merits of any of the proposals.

(President Roosevelt had suggested

See TAX PROGRAM, Page 6

## BORAH WON'T ENTER VOTING IN CALIFORNIA

### Senator Finds It Impossible To Campaign In Primary In That State

WASHINGTON, March 26 (AP)—Senator Borah decided today not to enter the California republican presidential preference primary because it would be impossible for him to campaign in that state.

"My friends think I ought not do so unless I can spend at least a week in California," he told reporters.

"In view of the Illinois and Ohio situations—where I have already entered—that would be utterly impossible."

Borah advisers said today they understood California republicans were divided into two groups—one favoring an unstructured delegation and the other backing Governor Alf Landon of Kansas.

Their claim, Borah had friends in both groups.

## Business Census To Begin Soon

A local census of business, federally started, will likely get under way tomorrow.

The survey will be made by Chas. I. Hughes and L. C. McMurtry. It is a part of a nationwide census. Roy Chase of Amarillo is district supervisor.

Information will be strictly confidential and not available to other government departments. Only total figures will be released.

No study of profits will be made. The desire is to arrive at totals by classifications for the city, county, and state.

## Skellytown Couple Contributes \$5 to Flood Relief Fund

A \$5 contribution to flood relief in the east has been received by Alex Schneider, Red Cross chapter chairman here, from Mr. and Mrs. G. C. Henshaw of Skellytown.

The money will be forwarded immediately to the disaster zone and expended under the direction of the national Red Cross executives as requested by President Roosevelt.

Pampans are being invited to contribute to the relief of millions who are homeless and without food. A total of \$45 has been received. Pampa has been asked to give more than \$100 to the cause.

## CO-FOUNDER OF ORGANIZATION TAKES STAND

### COLLECTED \$43,295 IN FIRST 10 MONTHS OF OPERATION

WASHINGTON, March 26 (AP)—Testimony that the Townsend old age pension organization had an income of \$43,295 during the first ten months of its existence was given a congressional investigating committee today by Robert E. Clements, resigned national secretary.

The co-founder of the organization was still on the witness stand when the committee recessed for lunch. James R. Sullivan, special committee prosecutor, was pressing his questions on the revenue and bank deposits of the Old Age Revolving Pensions, Inc., of which Dr. F. E. Townsend is president.

Clements said he personally had collected no money for the organization nor had he received any as donations or from the sale of Townsend literature.

Clements said the \$43,295 on deposit in the Citizens State bank of Long Beach, Calif., was left there when the Townsend organization moved to Los Angeles about the first of December, 1934.

He testified the account in the Long Beach bank was not opened coincident with the opening of the first Townsend office in Long Beach, Jan. 15, 1934. The account, he indicated, was opened about the first of February.

Townsend "Brilliant"

Clements said he did not know how much was taken in before the opening of the bank account but that Dr. Townsend had received some money from the sale of literature and from voluntary contributions.

"I did not devote my entire time to the Townsend movement until March, or April, in 1934," he testified.

Dr. F. E. Townsend, with whom he has split because of "differences," today was termed a "brilliant man and a physician of note" by Robert E. Clements, co-founder of the Townsend old age pension movement.

He was the first witness in the \$50,000 house investigation of the Townsend and other old age pension movements from which committee members have promised "startling" revelations. Clements re-

See TOWNSEND, Page 6

## Goliad Centennial Is Tomorrow

Impressive ceremonies at Goliad and at Mission La Bahia Friday, March 27, will commemorate the tragic massacre of Colonel James Walker Fannin, and 300 Texas heroes 100 years ago on Palm Sunday, March 27, 1836. Col. Fannin of Georgia, leader of the Texas revolutionary force at Goliad, is shown in the oval above the picture of the historic mission in which he and his followers were imprisoned before they met death, and in which a solemn pontifical mass will be celebrated in their memory tomorrow. Below is shown two iron cannons, buried by Fannin as he fled from Goliad, which were unearthed at the mission recently.

## Pneumonia Takes Beloved Resident, Mrs. W. T. Fraser

### Funeral To Be Held Friday Afternoon At 3 O'clock

Death came just before dawn today to Mrs. Mary Lucille Fraser, one of Pampa's most beloved young matrons, at a local hospital. She had been ill of pneumonia for several days. She underwent an operation for appendicitis last week.

Mrs. Fraser, the wife of City Commissioner W. T. Fraser, was 28 years old. Besides her husband, she is survived by a daughter, Mary Nick 5 1/2 years old; and twins, Donald Lee and Linda Lou, who will be 2 years old within a few days; and her parents, Mr. and Mrs. W. B. Nicholson of Terrell, who are here. She was born in Mineral Wells June 20, 1907.

Mrs. Fraser had a prominent place in women's affairs of the city, although she placed her home interests first and had given up many club and social activities in recent years.

She retained her membership in Twentieth Century club, however, and was holding the office of club critic this year. She served as secretary in the 1932-33 season.

As a member of the Pampa Little Theater, she appeared in that organization's production of "Holiday." Mrs. Fraser was a member of the Methodist church. She was formerly associated with the A. A. U. W. branch here, and was for several years a member of London Bridge club.

The funeral service will be held at the First Methodist church at 3 p. m. tomorrow—Friday—followed by interment at the local cemetery, directed by the G. C. Malone Funeral home. The funeral will be in charge of Dr. W. C. House, her pastor, of the First Methodist church, and John Mullen, minister of the First Christian church.

The city hall will be closed tomorrow afternoon. City Manager C. L. Stine said this morning.

Palbearers will be R. A. (Bob) Thompson, O. K. Gaylor, Jim Col-

## FARM LABORERS SEIZE LANDS IN 263 VILLAGES

### 60,000 Communists in Spanish Province Divide Land

BY ALEXANDER H. UHL, Associated Press Foreign Staff.

BADAJOS, Spain, March 26 (AP)—Detachments of storm police and civil guards rushed to this city and province today in an effort to oust 60,000 farm laborers who suddenly swarmed over the farms of this area.

The police were instructed to avoid using firearms unless they were fired upon, but the situation was tense.

The laborers, impatient at the new leftist government's delay in redistributing lands, seized many vast estates.

Premier Manuel Azana sent orders from Madrid that the peasants must wait until the lands can be distributed legally.

BADAJOS, Spain, March 26 (AP)—Sixty thousand farm laborers, refusing to await government measures for distribution of lands, took over the farms today in most of the 263 villages in Spain's southwestern province of Badajoz.

The workers, most of them socialists and communists, members of the national association of "land workers," marched on their local villages in an apparently long-prepared movement.

Arriving at the large estates, they divided the land in accordance with lists already made, each group then taking over the land assigned to it with shouts of "long live the workers' republic."

The group then returned to their villages where they informed the mayors of what had taken place and the authorities to take note of the divisions that had been made and enter them in the public books with the names of the new land owners.

There had been many isolated cases of seizure of farm lands in the last few weeks, but this was the first large concerted movement to be reported, leading to fears that

## 'Ironhead' Given Prison Furlough Because He Sings

### Texas Negro To Go With Lomax on Trip

AUSTIN, March 26 (AP)—A negro called "Ironhead" won a furlough from the Texas penitentiary today because he could sing.

Governor Allred released him temporarily from service of a life sentence as an habitual criminal on the request of John A. Lomax of Dallas, curator of folk songs for the library of congress.

Lomax will take the negro, James Baker, on a visit to penitentiaries in Mississippi, Florida, South Carolina, and Virginia, to demonstrate the type of songs he seeks to retrieve from prison inmates.

"He isn't a fancy singer," Lomax, accompanied by the negro, explained to Governor Allred; "but he has 10 songs, expressive of convict life, on file in the library of congress. Some he heard convict sing; others he made up himself."

Lomax ran across the negro some time ago while on a tour of the penitentiary system. "Ironhead" had served various sentences for burglary in the last 28 years, and finally was sent up permanently as an habitual offender.

He explained how he acquired the nickname.

"Governor, when I first landed in de pen, I was chopping wood one day," he said. "We cut down an oak tree, and a big limb hit me in de head and knocked me down. Dat limb broke, but I went right on working. So de boys called me 'Ironhead'."

Lomax took another negro on a tour of northern penitentiaries last year, but had to send him home.

## Our Audrey Gives News Advertisers Another Break

Audrey of The News is not to be confused with the Little Audrey of folklore fame who currently believes that "Ace" Pendleton southwest band, must have the measles, because he's always breaking out. Little Audrey loves such terrible puns but THE NEWS' Audrey does not.

For instance, she says it will be fun but no pun to insert a 15-word want ad in THE NEWS classified section beginning Sunday. It will run one week for 80 cents, additional words three cents each, or the same ad for three days will cost 50 cents, additional words two cents each. The special will start Sunday.

## Big Savings in Interest Effected In Bond Refunding

A refunding deal in two series of outstanding Pampa municipal bonds has been completed by the city commission for a consideration which ultimately will mean a saving of \$61,790 in interest, it was announced today.

Bonds refunded through R. A. Underwood & Co., Inc., of Fort Worth have a total value of \$1,111,000.

One series is \$56,000 of sewer bonds of 1927, which under the original issue would have meant an expenditure of \$56,460 in interest. Under the shortened maturities, the interest will be \$29,206 for a saving of \$27,254. The annual payment increase will be only \$35.

An issue of \$85,000 in 1927 refunding bonds would have involved an inter at payment of \$75,000, but under the new plan the interest will total \$46,465, or a saving of \$34,535. The annual payment requirement on these bonds will be reduced \$108 per year.

The interest rate is being reduced from 6 per cent to 4 1/2 per cent.

Not all of the outstanding bonds of these series were obtainable, but they may be bought up later.

## Japanese Attack Russians on Border

MOSCOW, March 26 (AP)—A fresh outbreak of border fighting dealt a rude shock today to Soviet-Japanese negotiations for settlement of the troubled far-eastern situation.

Both sides suffered loss of life in an engagement which lasted for hours yesterday and which resulted Soviet advisers said, from a Japanese attack on a Soviet border post near Khundjun, southwest of Vladivostok. The Kremlin, immediately upon receipt of the news, instructed Ambassador Constantin Youroff at Tokyo to present a strong protest to the Japanese government.

The Soviet communique issued last night, reporting the encounter did not mention the effect it might have on negotiations for appointment of a mixed commission to investigate the causes of the recurring boundary incidents.

Khundjun, near which the clash was reported, is in the border sector south of Lake Khanka, where the Japanese have proposed a redemarcation of boundaries.

The Soviet union agreed to redemarcation on the condition that

## Pampan Invited To Box Supper At Grandview

Pampans tomorrow evening will go to Grandview to present a program and attend a box supper.

Jaycees will present their new string band and other numbers. Trippers are invited to meet at the B. G. D. rooms about 7:15 to start the caravan.

Large crowds always attend the enjoyable occasions at Grandview.

## HOLES IN RAIL ARE FITTED TO ATTIC BEAMS

### GOVERNOR AND AIDS GO TO HOUSE IN BRONX

(Copyright, 1936, By The Associated Press)

TRENTON, N. J., March 26 (AP)—Governor Harold G. Hoffman went in person today to Bronx Richard Hauptmann's former Bronx home to test prosecution testimony that the nail holes in one rail of the kidnap ladder—"rail 16"—fitted nail holes in attic beams of the house.

The state successfully contended at Hauptmann's Flemington trial that rail 16 was originally part of a floor board in the Hauptmann attic. Arthur Koehler, federal wood technologist, testified the ladder rail had been cut from the floor board, part of which remained in the attic at the time of Hauptmann's arrest. The grain of the rail matched this floor board, he swore, and the ladder rail nail holes fitted nail holes in the joists.

William Lagsy, the governor's secretary, and Lieut. Arthur Keaten, of the New Jersey state police, were known to be in the house.

The test was made at Governor Hoffman's direction because he desired its results to be available before the court of pardons meets to consider Hauptmann's second appeal for commutation from the death sentence scheduled to be carried out next Tuesday night at 8 o'clock.

Meanwhile, a close personal friend of Dr. John F. Condon, the "Jastie" of the ransom negotiations, expressed surprise at Governor Hoffman's refusal to accept the conditions which Condon outlined for the interview with him the governor has been seeking.

Speaking of the nail holes, the wood expert said, "those nails fit perfectly. Now that indicated without any doubt in my opinion that the rail had at one time had been nailed down there on those joists. There are four nail holes a certain distance apart and a certain direction from each other and in my opinion it wouldn't be possible that there would have been another somewhere with cut nail holes in it, spaced exactly like those nail holes are in the joists, the same distance, the same direction from each other."

"The nails, he said, fitted "not only as to direction and spacing, but slant." The distance between the nail holes was irregular, he pointed out.

The test, designed to check on Koehler's testimony by fitting the cut rails into the ladder rail and the attic beams, will be conducted if there would have been another somewhere with cut nail holes in it, spaced exactly like those nail holes are in the joists, the same distance, the same direction from each other."

The test, designed to check on Koehler's testimony by fitting the cut rails into the ladder rail and the attic beams, will be conducted if there would have been another somewhere with cut nail holes in it, spaced exactly like those nail holes are in the joists, the same distance, the same direction from each other."

All parents, teachers, and friends of Boy Scouts are urged to attend the Court of Honor to be held Monday evening in the county court room at the courthouse at 7:30 o'clock.

Numerous boys will come up for merit badges and advancement. Scouts must have all test cards and applications at the scout office in the city hall before 1 o'clock Saturday.

J. O. McCollm, chairman of the Court of Honor committee, will preside.

## Scout Court of Honor Will Be Held on Monday

All parents, teachers, and friends of Boy Scouts are urged to attend the Court of Honor to be held Monday evening in the county court room at the courthouse at 7:30 o'clock.

Numerous boys will come up for merit badges and advancement. Scouts must have all test cards and applications at the scout office in the city hall before 1 o'clock Saturday.

J. O. McCollm, chairman of the Court of Honor committee, will preside.

## C. of C. Drive Is Very Successful

Described as very successful was the one-day membership drive for the Pampa chamber of commerce yesterday.

J. O. Gillham, drive chairman, today urged all workers to turn in their reports so that a complete report may be made.

The drive was primarily for employees and citizens who have not given through firm memberships in the chamber. In some instances, workers will do a bit of "backtracking" to see persons who were not interviewed yesterday.

All those who have joined will have votes on the major projects of the chamber and B. C. D. Membership meetings will be held each two months, or oftener.

Participating in the drive yesterday were many members of the Junior chamber.

Mrs. Des Moore is ill of flu at her home here.

## I Saw . . .

A high school assembly crowd lately cheering after Coach Mitchell had played certain husky, talented boys most of whom played as Goliad last year, for not coming out for spring training. Names were called as the coach said he regretted the boys apparently couldn't take it.

Tuke Salsbury moving his pretty sorrel horse in a trailer behind the car. Tuke moved recently and had the horse staked for several days in the creek where all of the kids in the neighborhood spent hours watching it.

### THE WEATHER

WEST TEXAS—Fair, colder in southeast, frost in south portion tonight; Friday fair, warmer in the Panhandle.

# TAX FEATURE SUGGESTED BY FOR CUT OUT

## PROCESSING TAXES NOT MENTIONED IN NEW BILL

WASHINGTON, March 26 (AP)—A tax program, short of a major feature suggested by President Roosevelt, was ready today for submission to the house ways and means committee. The committee will hold open hearings on it beginning Monday.

The bill would work three years on the administration's \$792,000,000 revenue plan, and finally come out with recommendations which may exceed that sum by \$7,000,000,000. It would accept in full only a presidential suggestion for a windfall tax to recapture part of the unpaid or refunded AAA processing taxes.

It is decided that the administration plan for new processing taxes on farm products should not even be considered in the hearings. A third suggestion of the president, for graduated taxes on the portions of incomes which corporations do not distribute in dividends to stockholders, was changed to provide levies on total income of corporations varied according to percentages of profits put into reserves.

Coupled with the corporation tax would be the lifting of the exemption of corporation dividends from the normal income tax. Surtaxes which already apply to the dividends would continue.

From the new corporation tax and the income taxes on dividends, the subcommittee is figuring on getting \$1,591,000,000. The net gain would be only \$501,000,000, however, because \$1,090,000,000 would be lost by quick repeal of present corporation income levies and eventual repeal of excess profits and capital stock taxes.

The president had asked a corporation tax of \$620,000,000 to provide \$500,000,000 annually for the new farm program and \$120,000,000 yearly until 1945 to meet part of the bonus cost.

The subcommittee agreed, though, that the corporation tax rates should be so drafted as to permit corporations, particularly small ones, to build up reserves for lean years without being compelled to pay

# White Sails in the Gulf Coast Sunset

Quiet waters of the bays and inlets which dot the long Texas coast line of the Gulf of Mexico make it possible to enjoy all water sports practically the year round. The boat race scene above, taken on beautiful Corpus Christi bay at the port city of the same name, is repeated many times each year. The Gulf cities are expected to draw thousands of visitors, who will include the Coast in the itinerary to the Texas Centennial Exposition, \$25,000,000 World's Fair opening in Dallas, June 8. Centennial year celebrations throughout the state will make motorists' Texas trips doubly enjoyable this summer.

# Will Press for New Truck Law

TYLER, March 26 (AP)—Rep. Tom P. Cooper announced today he would introduce a bill in the legislature for more stringent laws governing the operation of trucks on Texas highways.

The Smith county legislator said he had conferred with Governor James V. Alford and L. G. Phares, chief of the department of public safety, and that both assured him support.

Citizens of Mineola and Tyler demanded new legislation to control trucks after Mrs. W. B. Stokes Jr., sister of Governor Alford, was killed last Saturday in an accident attributed to a truck driver falling asleep at the wheel near Mineola and forcing her car to hit a culvert.

Cooper said his bill would contain three major points: It would force truck operators to carry liability insurance, it would place all drivers under the current law limiting work to 10 hours of the 24, and would provide stricter penalties for truck speed law violators.

Mr. and Mrs. C. A. Martin are the parents of a son, born yesterday at Worley hospital.

# S. M. U. Students Seek Expo Jobs

"Blue Shirts," Southern Methodist University's freshmen "pop" organization, have requested W. A. Webb, general manager of the Texas Centennial Exposition, to hire S.M.U. students to help manage

# JOIN LEGION TO MAINTAIN LAW AND ORDER, DECLARES MONTIETH

"An ex-service man should join the American Legion to help maintain law and order," according to A. D. Montieth, commander of Kerley-Crossman Post. Mr. Montieth said that 15 have joined in the last ten days. The current campaign closes April 15. He continued:

"It will be inconsistent, to say the least, to believe that the American Legion, or any other organization would uphold and defend the constitution of the United States of America without at the same time maintaining law and order thereunder. It is unfortunate that we must have governments. It has been said that they are a necessary evil, that if each of us obeyed absolutely the dictates of his conscience and that conscience were equal in all particulars to the conscience of all the rest of the citizens, laws would be unnecessary and disorder unknown. Unfortunately, such is not the case, and the majority must make laws to restrain the minority.

"Upon the observance of these laws depend the security of the home, the progress of business, the delights of civilization. No argument can persuade the thoughtful that disregard for law is desirable. Laws are given to us as a result of necessity, expediency, outgrowth of custom and righteous thinking. Bad laws, foolish laws, have been enacted, but who can say that a law is bad or foolish until it has been given a testing, or time?

"The individual is a weak vessel. The urge of appetite, passions, and prejudices cause him to disregard the lessons which he teaches. His actions are contrary to his words. Yet there lies a soul and a heart, a mind and a conscience, which, upon reflection, acknowledges to some degree that each is his brother's keeper. When they function, right will prevail.

"The American Legion have blessed our course. One monument of accomplishment stands behind us, a monument of deeds done in flaming imperalism and securing for the time further guarantees of our national perpetuity. We have enlisted again for the duration of our lives as peace-time soldiers.

"Our objective is a better and still better America; yes, a thousand years hence, for our children, and our children's children. Our combat orders have been transmitted to us in the constitution of our country, under arms, upholding and defending the constitution of the United States of America, and maintaining law and order. Why not join now?

# Tiniest Baby Dies, Weighed 15 Ounces

OAKLAND, Cal., March 26 (AP)—Science has lost its fight for the life of Nancy Lee Vogt, whose weight at birth, estimated at 15 ounces, classed her as one of the world's tiniest tots.

Born prematurely and nurtured with utmost care in a hospital incubator, the baby died yesterday. Dr. John W. Sieracki, who temporarily tended the infant, said her death was due to immaturity and improper development and functioning of some of the vital organs.

# Vera Stretz Again Loses Composure In Murder Trial

NEW YORK, March 26 (AP)—Vera Stretz sobbed and buried her face in her hands today when a detective testifying for the state quoted her as saying "there was no assault" on the night she fatally shot Dr. Fritz Gebhardt, wealthy German importer.

The attractive blond secretary lost her composure as she heard for the fourth time the story of how she was found by officers in corridor of the fashionable apartment hotel where her lover-employer was killed.

"Was anything said about assault?" asked Judge Cornelius Collins of Detective John Kaiser, in charge of the investigation.

"Yes, she said, there was no assault," Kaiser replied.

"This was contrary to the contention of Miss Stretz's counsel that the slaying was in self defense after she had been attacked.

# ALLIED GIVEN CITATION

AUSTIN, March 26 (AP)—M. A. Harlan of El Paso, national commander of the Disabled Veterans of the World War, today presented the national citation to Governor Alford and Adjutant General Carl Nesbitt.

Harlan said the citations, first to be awarded, were given "in recognition of outstanding patriotic service to the disabled American veterans of the World War." It was the highest honor conferred by the organization.

# END OF FLOOD DELUGE IS IN SIGHT IN EAST

## NEW FLOOD NOT AS SEVERE AS RECENT DISASTER

(By The Associated Press) Protracted flood conditions in W. Virginia and Ohio today forced hundreds of families from their homes, while in Pennsylvania the end of the deluge was in sight.

The Monongahela and Allegheny rivers poured their excess waters into the Ohio river but Pittsburgh, Hardest hit by last week's flood was not affected.

At Wheeling, W. Va., however, residents digging out of the debris deposited last week encountered a second crest there today.

Though falling far below the former level, the new rise was expected to inundate part of Wheeling Island and to halt trolley service in downtown Wheeling.

Rivermen said the new crest would be from 10 to 20 feet below the old which was sweeping past Louisville, Ky., still forcing lowland residents to flee though much of its force was spent Cincinnati and Portsmouth, Ohio, not seriously affected

# anticipating only a prolongation of high water from the new rise.

Other communities in Ohio and West Virginia, not protected by a wall as is Portsmouth, prepared for new invasions of muddy water. The Red Cross estimated it would have to care for 75,000 homeless from East Liverpool to Portsmouth.

Pennsylvania and New England, which suffered huge property losses during a week of floods which claimed 200 lives in the nation, were restoring their industrial and community life to normal.

Washington officials were besieged with requests for relief funds to aid in rehabilitation, and plans for a huge flood control project for Pennsylvania, West Virginia, Ohio and Kentucky took shape.

Small streams in Tennessee went on a rampage, leaving many families stranded, but barring excess rainfall in other tributary valleys the Mississippi was expected to care for the abnormal Ohio river influx without serious difficulty.

# Fruit Freezes In California

SAN FRANCISCO, March 26 (AP)—Smudge pots glowing in northern California's rich fruit orchards early today as growers fought to check the damage freezing temperatures have inflicted on blossoming trees.

On the basis of reports received last night, A. E. Morrison, Sacramento county agricultural commissioner, expressed fear today damage already done by the cold wave indicates the apricot, almond, peach and

# early plum crops in the lower foothill regions of the Sacramento valley will be "practically wiped out."

He said the reports further indicate "some damage" to pear and asparagus crops in the lower valley. Although temperatures ranged in the low 50's, southern California's prize citrus groves escaped damage Tuesday night, and smudge pots were in readiness to be fired should temperatures drop again today.

# HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are one of Nature's chief ways of taking acids and wastes out of the blood. A healthy person should pass about 3 pints a day and so get rid of more than 3 pounds of waste matter.

If the 15 miles of kidney tubes and filters don't work well, waste stays in the body and may become poisonous. It may start nagging backaches, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Don't let it lay you up.

Ask your druggist for Doan's Pills—used successfully by millions for over 40 years. They give happy relief and will help to flush out the 15 miles of kidney tubes. Get Doan's Pills.

W. J. Boyd left yesterday for a visit in Houghton, Kan.

You don't have to be rich to enjoy rich whiskey!

Not a barrel of money my friend—but a barrel of quality!

Yes, friends, when you think of quality, think of mellow Old Quaker straight whiskey—rich and round and smooth—for there's a barrel of quality in every bottle! But it doesn't take a barrel of money to buy it—for Old Quaker is The Friendly Whiskey—mindful of your pocketbook, as well as your taste and throat. And so today, why not change to friendly Old Quaker—and keep the change!

# Sooner Capital Has Boom But Too Few Tools

OKLAHOMA CITY, March 26 (AP)—Oklahoma's capital showed many indications of an oil boom today.

For one thing, there was a shortage of oil drilling contractors and heavy equipment for the drilling campaign in the new territory north of the capital opened up by Tuesday's election.

While some companies went ahead with the digging of shush pits and cellars for their 100-foot derricks, other operators started a search for drilling contractors.

One report was that a Tulsa contractor had eight calls yesterday and was unable to take any of them. Some Oklahoma City contractors were booked for weeks ahead.

Many a contractor was ordering tools which had been stacked in East and South Texas but there was some reported shortage of equipment in East Texas because of the Reddessa development.

Altogether 27 new locations were announced in the new area by leasing companies.

# Martin Funeral To Be Tomorrow

John P. Martin, who died in a local hospital yesterday, will be buried here tomorrow following a funeral service at the Holy Souls Catholic church at 7 a. m.

Mr. Martin was born in Chandler Okla., December 19, 1908. With his parents, Mr. and Mrs. E. F. Martin, he came to Pampa in 1928 and worked for the Skelly Oil company and other oil field concerns.

He is survived by his parents, Mrs. Martin and a 4-year-old daughter, two brothers and two sisters. The brothers and sisters are: Frank and Robert, Mary Kay and Mrs. M. A. Pampa Mortuary will direct funeral and burial arrangements.

Mr. Martin had been in poor health for several years.

### CLASS ENJOYS SOCIAL AFTER BOARD SESSION

#### FRIENDSHIP MEMBERS ARE ENTERTAINED YESTERDAY

A party was enjoyed by Friendship class of First Methodist church yesterday in the home of Mrs. Paul Cunningham, following a brief executive session at the church.

Mmes. Cunningham, Joe Gordon, J. V. Kidwell, Edwin Vicars, B. G. Harris, and H. W. Kiser were the party hostesses. Mrs. W. C. Hutchinson directed games and contests. A salad course and iced tea were served.

Present were Mmes. T. B. Barson, O. L. Bassham, J. E. Kirchner, A. W. Babione, B. S. Via, Clifford S. Jones, Marvin Harris, Roy Bourland, C. M. Carlock, Robert Elkins, J. M. Smoot, H. H. Boynton, A. F. Carrington, G. C. Hart, S. C. Evans, W. J. Foster, A. C. Green, E. M. Heard, Eunice L. Brady, W. D. Walters.

#### ATTEND MEETING

Mmes. W. R. Hallmark, Joe R. Foster, and Owen Johnson were among the Baptist church members here who attended a district convention of Sunday school workers at Amarillo yesterday.

#### PROGRAM POSTPONED

An entertainment scheduled for Friday evening at the Community church of Skellytown has been postponed. It was announced today. No new date was set.

### A. A. U. W. Gathers Articles to Sell At Fund Benefit

Collection of material for the rummage sale which the A. A. U. W. will sponsor Saturday for benefit of its scholarship fund, is in charge of Mrs. Lee Harrah, Mrs. R. B. Fisher, Mrs. R. E. Koiner, and Mrs. L. K. Stout.

Members and friends of the association are asked to contribute articles for the sale, which will be conducted at 531 S. Cuyler. The donations will be collected today and tomorrow at the home of Mrs. Harrah, 605 N. Frost, or members of the committee will call for them if notified by telephone.

The sale will be in charge of the fellowship committee, Miss Mary Idelle Cox, Miss Kathleen Milam, and Miss Josephine Thomas. Proceeds will go to the fund which each year provides a scholarship for some girl graduating from high school here, and to the national fund for awarding fellowships to outstanding women students.

### Miss Thomas Is Hostess to Club

Miss Barbara Thomas was hostess to the Club High bridge club Tuesday afternoon at the home of Mrs. R. D. Thomas. The Easter motif was attractively carried out during the afternoon.

High score for members went to Mrs. Frank Painter, high guest award to Mrs. Alva Halley, and traveling prize to Mrs. Lon Blauvelt. Refreshments were served to Mrs. George Stanton and Mrs. Halley.

### SCHOOL PARTY WILL INCLUDE MANY EVENTS

Movie, Music, and Games Will Amuse Visitors

A program of music and dancing will be presented by pupils of Horace Mann school with assistance of a few guests, as part of the Centennial party which Horace Mann Parent - Teacher association will sponsor tomorrow evening to benefit the school band uniform fund.

The party will start at 7 o'clock at the school building, with the public invited. Entertainment will include a movie, the pupils' program, old fashioned games in the auditorium, and a forty-two tournament.

Lunches of hamburgers, "hot dogs," pie, coffee, and home made candy will be sold beginning at 7 o'clock. Among numbers on the pupils' program will be the following: Dance, Polly-Wolly-Doodle, Marion Hoover, Ruth Slocum, Armenta Harness, and Lela Pearl Baldwin. Songs by the high school Girls' Trio, directed by Harry Kelley.

Dance, June Marie Amick, Dorothy Jo Moore, Betty Ann McTaggart, Helen Jean, Betty Sue Price, Ada Arthur, Jane and Gloria Robinson.

Guitar duet, Roland and Warner Phillips. Saxophone trio, June Marie Amick, Eloise Taylor, Buddy Lane. Songs by the Horace Mann chorus.

Guests: Mmes. C. A. Rhea, Blauvelt, Ruth Lawrence, Painter, and Thomas.

### Paris Likes Gathered Jacket

Multicolored shaded wool fabric with the dominating tones red, green, yellow and brown is used by Creed for this jacket with the new gathered back and sleeves. A green felt hat trimmed with a red and green ostrich tip, completes this smart, semi-tailored ensemble.

### Young Crowds at Wheeler Attend Recent Parties

WHEELER, March 26.—Miss Wilona Adams was hostess to a group of friends in her home Saturday evening. A variety of games entertained the party, and dainty refreshments were served.

Guests were Helen Green, Nerline Young, Marguerite and Bessie MacFicke, Juanell Perryman, Dora MacWilson, Rose Bowden, M. L. Gunter, Bill McCarroll, the Rev. Taft Hollaway, John Ficke, Hobby Kirby Walter Adams, Roy Briars of Briscoe, Dewey Vise, Chris McClain, Mr. and Mrs. Ray Gwyn of Midland.

Miss Buchanan Hostess. Miss Alene Buchanan entertained with a party at her home Saturday evening. Games were played outdoors and indoors.

Present were Bonnie Adams, Jack Tate, Farrell Wallace, Glen Richardson, Louise Yennie, Guy Robinson, Charles Dixon, Ferrol Ficke, Leonard Dixon, Marion Moore, Imogene Jamison, Charles Red, Junior Jamison, Lavell Jico, Amos Page, Curtis Weeks.

#### Club Boy Wins

James Passon attended the Fat Stock show at Fort Worth last week, and entered a steer which won first place in the 4-H club Aberdeen-Angus division, and third in the Aberdeen-Angus open class.

#### Persons

Elva Willard visited friends in Shamrock Friday evening and Saturday.

Mr. and Mrs. Roy Gwyn of Midland spent the week-end here.

Mr. and Mrs. W. O. Puett were in Shamrock on business Friday.

Mrs. Raymond Waters, Mrs. W. O. Puett and daughter, Orveta, were visitors in Shamrock Sunday.

### Chapel Program Will Have Story Teller as Guest

Third grade pupils at Woodrow Wilson school will be in charge of the chapel program tomorrow at 2 o'clock. Students will present several numbers, and Mrs. Earl Powell, who will tell a story, will be a program guest. The outline follows:

- Songs, Third grades.
- Reading, Norma Jean Samuel.
- Trumpet solo, Sammy Taylor.
- Texas History, Mrs. Slover's pupils.
- Reading, James Paul Cunningham.
- Rhythm band, Mrs. R. E. Koiner's pupils.
- Reading, Lavoy Hinkle.
- Health song, Twelve of Mrs. Stover's pupils.
- Reading, Bernadine Breining.
- Song and dance, Merita Von Brummett.
- Reading, Tommy Darby.
- Saxette band, Mrs. Theresa Humphrey's room.

### One-Act Play Is Staged for Club

"Pa" character in the play, Pa Wants a Cushion, was finally pleased when his wife and daughters learned to make a cushion that was attractive and practical, but comfortable to ease his lumbago when he came from a strenuous day's work on the farm.

The one-act play was staged for Hopkins Home Demonstration club Tuesday afternoon in a meeting with Mrs. E. F. Vanderburg.

A short business session featured discussion of means for raising funds to send a 4-H club girl from the community to the state short course this summer. Revision of the club by-laws, suggested by the parliamentarian.

### I Made Up My Mind To Get Thin..and Did!

It was so simple! I ate what I liked, took no strenuous exercises, did not weaken my body with drastic purgatives—yet day by day I felt myself getting lighter, the fat seemed to slip away. Now I have a lovely, graceful figure—and I never felt better in my life!

That, in brief, is what thousands of women who have reduced the Marmola way might well tell you. Four times a day they take a little tablet containing in exactly the right quantity a world-famous corrective for abnormal obesity—A corrective prescribed by physicians everywhere and acknowledged to be the most effective known.

Since 1907, more than 20 million packages of Marmola have been purchased. Could any better recommendation be had?

Today—buy a package of Marmola, and start at once. Soon you will experience Marmola's benefits. When you have gone far enough, stop taking Marmola. And you will bless the day you first discovered this marvelous reducing agent.

Marmola is on sale by dealers everywhere—from coast to coast.

### Surprise Birthday Supper Is Enjoyed

A party of friends surprised Mrs. Lewis Jones on her birthday Monday evening when they called at her home, taking food for a supper. Two tables of bridge and two of pitch were in play later.

Guests were Messrs. and Mmes. A. L. Chivers, Earl Eckfoat, Ralph Johnson, Bob Mannery, A. E. Hickman, D. C. Turner, C. C. Organ, Ben Organ, and Mrs. Cora L. Turner.

#### PUBLISHER DIES

ORLANDO, Fla., March 26 (AP)—George D. Mann, 55, publisher of the Bismarck, N. D. Tribune, died here today of a heart ailment.

### Miss Manos and Mr. Gibson Wed Wednesday Night

The marriage of Miss Cener Lee Manos and M. B. Gibson was solemnized last evening at 9:30 in the home of the Rev. C. E. McKenzie, minister of Francis Avenue Church of Christ. Mr. McKenzie read the ceremony.

After a short trip which started immediately after the wedding, the couple will be at home in LeFors.

The bride is the daughter of Mr. and Mrs. Wiley Manos of Dumas, and has made her home in Pampa the past two years. She has been employed as office attendant for a physician here.

Mr. Gibson, formerly of Batesville, Ark., has been in this county two years as an employe in the production department of the Danciger oil company.

### KING COTTON AND OIL ARE EL PROGRESSO CLUB TOPICS

Cotton, king of Texas' agricultural resources, and oil, the chief mineral resource, were subject for an interesting program in El Progreso club Tuesday afternoon in the home of Mrs. W. R. Ewing. Mrs. T. D. Hobart, program leader, was assisted by Mrs. J. H. Kelley.

Mrs. S. G. Surratt presided over a short business meeting in the absence of Mrs. C. T. Hunkapillar, president.

Mrs. Hobart told the story of oil development in Texas, saying that before the white man discovered oil native Indians had discovered oil pools where they bathed as a treatment for rheumatism.

First Texas oil wells brought in at Beaumont in 1900, when the famous Sprindley Top produced oil at 1,100 feet. Captain A. F. Lucas brought in the first well then, and mad rush of people filled Beaumont. That year Texas produced 2,000 barrels of oil and the amount was doubled in 1901.

Following the Beaumont development came the Ranger and Burketts, and the Wichita Falls fields, then the Panhandle fields. In Gray Wheeler, Carson, and Hutchinson counties oil is found in the granite wash formation. Mrs. Hobart closed her talk with a sketch of Gray county oil field history.

Mrs. Kelley spoke of cotton production, one of the largest industries in the world and especially in the United States. In a brief history of cotton, she said that man learned its value as he emerged from barbarism.

When Columbus discovered America and stopped at Wayland island, natives came swimming in the water bringing cotton as a gift to him. Cotton was first grown in the United States in 1536 in what is now the states of Louisiana and Texas.

Cotton was the mainstay of the old south, with negro slave labor used in its cultivation. It is still the south's chief crop, an industry worth \$145,000,000 a year, supporting ginning plants, mills, factories, and cottonseed mills.

After the program period the hostess served a salad course to Mmes. Carson Loftus, C. P. Buckler, Lee Ledrick, George Walstad, Hobart, Surratt, Kelley, James Todd, P. C. Ledrick, W. M. Craven, George Brigs, and John Andrews.

### Two Honorees Are Named at Shower

Mrs. Don Hurst and Mrs. W. E. Noblitt were hostesses yesterday at a shower with Mrs. Helen Brewer and Mrs. Leland Bastion as joint honorees. After an informal hour and presentation of the dainty gifts, refreshments of cake and Mexican tea were served.

Present were the honoree and Mmes. Paul Hill, L. E. Wilson, W. E. Speed, John Mullen, Lloyd B. Roberts, Oscar Frazier, Ballard, J. A. Pittman, C. F. Bastion, E. A. Twentier, J. E. Johnson, Claude Watson, J. T. Harwell, H. H. Keahy, George Dezer, W. E. Dunaway, A. C. Jones, C. E. Cary, C. A. Stewart, R. F. Hancock, Jimmy Garrett, W. E. Riggins, Nellie Ford, Misses Alice Jones and Lorene Bastion.

Gifts were sent by Mmes. Frank Meers, Homer McCoy, Ivy Duncan, Hugh Morrow, B. C. Faby, Delene Vicars, C. W. Webber, Buri Graham, Roy McMillen, A. B. Keahy, Albert Keahy, Bruce Cobb, A. A. Tiemann, Jack Wilkinson, and Miss Madge Tiemann.

G. M. Elder was called to Norman, Okla. Monday on business. He will remain two weeks to look after property interests and visit.

Mr. and Mrs. Jim White have returned from Beloit, Kan., where they visited her father and other relatives the last two weeks.

### The Social CALENDAR

**Friday**  
Mrs. Henry Thut will entertain Contract club at her home.

Merten Home Demonstration club will entertain at the home of Mrs. W. A. Pickering.

High School P.-T. A. study group will meet at city hall auditorium, 2:30.

Mrs. N. A. Elliott will be hostess to New Deal bridge club.

**SATURDAY**  
Altar Society of Holy Souls church will sponsor a food sale at Standard food store, beginning at 9 a. m.

A. A. U. W. will sponsor a rummage sale at 531 S. Cuyler St., to benefit their scholarship fund.

Girls' Auxiliary of Central Baptist church meets at the church at 2:30 p. m.

### Girl Celebrates Tenth Birthday By Giving Party

Peggy Murphy celebrated her tenth birthday Tuesday afternoon with a party at the home of her parents, Mr. and Mrs. W. B. Murphy. In the games, Earlene Shotwell and Billy Coy won prizes.

Birthday cake lighted with 10 candles was served with ice cream to Louise Shaddix, Sara Frances Chidden, Pauline Johnson, Jack Morgan, Evelyn Kidwell, Anna Laura McFarling, Patricia Lively, Inez Baird, Betty Jean Fletcher, Donald Jones, Loraine Murphy, Earlene Shotwell, Billy Coy, and the honoree.

Mrs. Murphy was assisted in serving by Rowena Johnson and Elaine Murphy.

### Hopkins Pupils Present Program

Songs and declamations by pupils from Hopkins school No. 2 formed the assembly program at Sam Houston school yesterday morning. Misses LaTrice Quattlebaum and Wilma Jarrell, Hopkins teachers, were in charge.

Sam Houston teachers acted as judges in the declamation contest in which entrants for the county interscholastic meet were selected. Martha Orr and Lois Cuvey were winners for the girls, Everett Sparks and Sam B. Howett for the boys.

A chorus directed by Miss Quattlebaum sang six numbers. Members were Marie Frazier, Bernice Roberts, Irene Cisco, Dolores Bailey, Martha Orr, Mary Ruth Garrison, Melba Savage, Betty Jean Carlson, Inez Cooper, Lois Covey, Irene Westbrook, Faye Ikchen, Iona Batson, Beulah Orr.

Everett Sparks, Jack Sharp, Dinne Law, Charles McAnally, Tom Cox, Gene Cooper, Leon Qualls, eGorge Cunningham, Walter Mitchell, David McAnally, Richard Stone.

**CONTRACTOR DIES**  
HOUSTON, March 26. (AP)—Marshall Haber, 40-year-old contractor, died today from injuries suffered about three hours earlier when his parked truck was struck by another truck on the Hempstead road near Satsuma. L. I. Smith, also of Houston, driver of the other truck, suffered a head injury.

Sun Is Blotted Out in Oklahoma By Dust Cloud

OKLAHOMA CITY, March 26 (AP)—A vast cloud of dust rolled over Oklahoma today, paralyzing traffic on highways.

Dust settled in a thick pall on central Oklahoma. It hit Guthrie at mid-morning.

At Enid, Alva, and Ponca City, in northwestern Oklahoma, the storm was described as "the worst of this year."

Visibility dropped to 50 feet at Alva. A strong north wind skidded the mercury to 30 degrees.

When Houston became president the second time he again established peace with the Indians.

LONE STAR FLAG OF THE TEXAS REPUBLIC SAW STIRRING DAYS

On April 21, 1836 Santa Anna was defeated and captured by Houston's army in the Battle of San Jacinto.

The people met at once to organize the republic. Sam Houston was chosen president.

Another problem that the republic faced—was getting recognition of the leading nations of the world.

In 1842 Mexico started another invasion of Texas. Texas from the beginning of the republic had felt the need of the strong arm of the United States.

Another great problem of the republic was no more. He resigned the government to James Pinckney Henderson.

In February, 1845 congress passed a law providing that Texas should be annexed to the United States.

Another great problem of the republic was that she had no money to carry on the new government.

Lamar was elected second president of the republic. During his administration two unsuccessful and unwise expeditions were lead against Mexico.

It must be remembered that it was during Lamar's administration that the famous "homestead law" was passed.

It is of great interest to all school children to know that during Lamar's term a provision was made for a public school system.

When Houston became president the second time he again established peace with the Indians and understood how to handle them.

GREENVILLE, March 26 (AP)—Judge Charles Berry postponed today for the second time a habeas corpus hearing for Mrs. Velma Patterson.

The woman was accused last week of poisoning Billie Mae McCasland, who died in January reportedly from influenza.

TEXANS "FAIL" AUSTIN, March 26 (AP)—Governor Allred remonstrated Texans today that they had shamefully failed in Red Cross flood relief contributions.

Habeas Corpus Hearing Delayed

GREENVILLE, March 26 (AP)—Judge Charles Berry postponed today for the second time a habeas corpus hearing for Mrs. Velma Patterson.

The woman was accused last week of poisoning Billie Mae McCasland, who died in January reportedly from influenza.

THE woman was accused last week of poisoning Billie Mae McCasland, who died in January reportedly from influenza.

Fair Booster

William W. Loomis, National Editorial Association secretary, predicted a heavy attendance at the Mid-West at the Texas Centennial Exposition when he visited Dallas recently.

10th Birthday of East Texas C-C Is Celebrated

LONGVIEW, March 26 (AP)—This thriving East Texas city today welcomed 500 representatives from 70 counties in celebration of the tenth birthday anniversary of the East Texas chamber of commerce.

Plans called for a luncheon at noon for officers, directors, and members of the East Texas chamber and local chamber managers throughout the area.

Six hundred were expected to attend the banquet for Mr. Kelly tonight. The program called for discussion of a decade of East Texas progress by R. L. Thornton, Dallas, and W. N. Blanton, Houston.

Reservations for the banquet have been made by Attorney General William McCraw, Railroad Commissioner Lon Smith and Ernest Thompson, State Comptroller George Shepard, and many other persons prominent in Texas and Louisiana public life.

For Tax Assessor-Collector: F. E. LEECH (Re-election)

For District Attorney: LEWIS M. GOODRICH (Re-election)

For Commissioner Precinct 11: ARLIE CARPENTER (Re-election)

For Justice of the Peace, Precinct No. 1: CHAS. L. HUGHES

For State Senator: 31st Senatorial District CURTIS DOUGLASS

'Eye' Leaves on Trip to Coast

CORNING, N. Y., March 26 (AP)—A six-million dollar piece of glass, bound for the California Institute of Technology observatory, left here at sunrise today on a freight car specially equipped to carry the 300-inch telescope "eye" on its transcontinental journey.

The 30-ton glass casting, which will be used as a mirror of the world's largest telescope, was drawn by a slow moving locomotive which will go no faster than 25 miles an hour during the 3,300-mile trip to Pasadena, Cal.

Political Announcements

The Pampa Daily NEWS is authorized to announce the following candidates subject to the action of the Democratic Primary, July 25.

For County Judge: C. E. CARY (Re-election)

For Representative 122nd District: EUGENE WORLEY (Re-election)

For State Senator: 31st Senatorial District CURTIS DOUGLASS

# PAMPA AND WHITE DEER TO MEET IN DUAL TRACK MEET FRIDAY AFTERNOON

## BUCKS STRONG THIS SPRING REPORTS SAY

AYER AND HARTMAN HOLD ATTENTION OF PAMPANS

A dual track and field meet between Pampa and White Deer track teams will be staged at Harvester park tomorrow afternoon, beginning at 3 o'clock. No charge will be made and the public is invited to see the cinder artists in action.

The meet will be informal, coaches agreeing to do some experimenting with their prospects. E. N. "Dick" Dennard will be in charge of the Harvester team with Coach Gene McCollum handling the Bucks, said to be strong this year.

Coach Dennard has been working his charges only a few days and he doesn't know how they will perform. He believes that competition will give him the best line on his prospects. Some of the boys are showing much promise. Albert Ayer has been looking particularly promising in the 100-yard dash and in some of the field events where Moose Hartman is looking better than last season.

Many newcomers will make their first appearance before Pampa fans tomorrow. In fact, most of the team will be made up of new material. Included among those back from last season are Hartman, Drake, Brown.

Probable Pampa entries in the various events will be:

100-yard dash—Albert Ayer, W. J. Brown.

200-yard dash—Bob Drake, Leo Strickland, Junior Strickland, Elzey Vanderberg.

400-yard dash—Bob Bailey, Marvin Morgan.

800-yard run—Mage Keyser, Marvin Morgan, Junior Strickland, Elzey Vanderberg.

1 mile run—Howard Hendrix, E. W. Hogan, Jack Walstad.

3200-yard low hurdles—W. J. Brown, Bob Drake, Leo Fletcher, Scott Mullins.

120-yard high hurdles—Junior Strickland, Albert Ayer.

High jump—Albert Ayer, Junior Strickland, Bob Bailey, Elzey Vanderberg.

Discus—Moose Hartman, Arthur Bowsher, Mage Keyser, Bob Bailey, Broad Jump—Albert Ayer, Leo Fletcher, W. J. Brown, Bob Drake, Scott Mullins, Elzey Vanderberg.

Pole vault—Bob Bailey, Leo Fletcher, Scott Mullins.

Javelin—Albert Ayer, Moose Hartman, Marvin Morgan, Leo Fletcher, Junior Strickland, Arthur Bowsher, Elzey Vanderberg, Mage Keyser, Leo Fletcher.

Relay—Bob Drake, Leo Fletcher, W. J. Brown, Bob Bailey, Albert Ayer, Marvin Morgan.

## Boxing, Wrestling Card To Be Presented At Wheeler

### Bob Clark's Boys to Show Stuff Tonight

WHEELER, March 26.—Coach Bob Clark of the Wheeler high school will give sport fans of this section a new thrill tonight when he will present 12 boxing and wrestling matches between high school boys. The big program will begin promptly at 7:30 o'clock with admission 10, 15 and 25 cents, according to location of seats.

A 20 by 20 ring, two feet off the floor, has been constructed and on that "squared circle" the boys will battle. Another meet will be staged next week when eliminations will be held in each division. Proceeds will go to pay expenses of the boys sent to the Fort Worth Fat Stock show track and field meet last weekend. Any money left over will go toward buying basketball sweaters.

Many of the boys have been showing remarkable ability in practice and Coach Clark expects a packed gymnasium. Two or three boys from Shamrock will appear on the card.

The program, in order of events, follows:

### CELLAR LEASE AGAIN FACING CONNIE MACK

#### CLUB HAS SPIRIT BUT PITCHING TALENT IS MISSING

BY PAUL MICKELSON  
FORT MYERS, Fla., March 26. (AP)—Old Connie Mack didn't know he didn't know there existed such a big shortage of good young ball pitchers today; he didn't know that pitchers with even a fair knowledge of how to throw weren't waiting at every cross roads town for a big league chance; he didn't know that the Philadelphia fans, who never seemed to give a hoot, would take the sale of his last cluster of stars to heart.

Connie Mack knows now. He's worried and sad, as grand a fighter and as shrewd as he is. A long lease on the American league cellar faces him once more.

Some 50 ball players, recruited from everywhere, are drilling hard and talking it up under the keen blue eyes of the old master down here at Fort Myers.

Spirit? There isn't a club in baseball with more of it. Philadelphia fans are bound to be impressed with a bunch of youngsters who will never stop trying and fighting for a chance.

Class? With Jimmie Foss, Eric McNair, Roger Cramer and John Marcum gone from a team that surrendered and finished in the cellar last year, there couldn't be much left. A nucleus is present with the leftover from the December sale, but the one big ingredient, pitching, is missing.

There are 20 hurlers in camp but injuries and lack of pitching knowledge among the rookies have made the task hard and difficult. Connie probably will depend on Bill Dietrich, Whitely Wilshire, Dusty Rhodes, Charles Lieber, and Henry Johnson.

Defensively, except for pitching, and offensively, Connie should fare well. Working the infield will be Fluky Higgins, third; Hal Warlick, second; Lemar Neysome, short, and Jim Oglesby, a hard hitting rookie from Los Angeles, at first. Lou Finney may be shifted from the outfield to take over first should Oglesby flunk out. Finney, Bob Johnson, Wally Moses and George Pucinelli, 28 year - old rookie with a great punch from Baltimore, will comprise the outfield. Catching is another serious question. Connie may yet swing a deal for an experienced catcher to help out the veteran Charlie Berry.

"No, it doesn't look so good," reflected Connie. "We haven't much pitching. It's a big surprise to me that a lot of young baseball players don't even know how to throw that ball any more."

"I learned long ago that nothing is quite hopeless," Connie mused. "I'll never forget one day when we were trailing Cleveland 15 to 3. It looked hopeless, so I turned to my boys and said: 'Well tomorrow's another day.'"

"What's the matter with today?" demanded Walter French, an outfielder.

"Well, by golly, if we didn't get going and win that game, 17 to 16. No, nothing is hopeless except a person who is hopeless."

Connie knows.

### He's Ace Swiss Flag Thrower

LEDFORD, DILBECK ARE NEW AT LOCAL PARK

Veterans and rookies, lefthanders and righthanders, tall and slim, thin and fat, they all appeared at Road Runner park yesterday afternoon despite a miniature guster which blew out of the southwest. Twenty-five players answered the opening call for the first practice of the Pampa-Daniger Road Runners.

Manager Sammy Hale warmed up a few pitchers and sent the rest of the flock in to do some batting and shagging balls. The practice lasted more than an hour despite the dust and wind and the players didn't want to leave when Manager Hale called time.

Practice sessions will be held every afternoon at 2:30 o'clock. That is every afternoon the weather is at all suitable. Sunday afternoon will see a long session. The gates at Road Runner park will be thrown wide open to fans who are urged to attend practices and see the team developing.

Back from last year were Grover Seitz, outfielder, and Ben McMary Al Summers, infielders. Floyd Lisle, catcher, Lee Daney, George Bulla, Carl Stewart, pitchers.

Also back in a Road Runner uniform again was Don Bailey who may be switched to the outfield where his speed will be needed. Bailey showed some great hitting power with Amarillo last season. In a Road Runner uniform appeared Gene Ledford, last year one of Coilex's outstanding hurlers. Each an outfielder with the East Ohio's of East Ohio, during the early part of 1935, and with Coilex at the close of the season, also was on hand. Each can take a turn at several infield positions.

The veteran Road Runner manager, recently secured to replace Fred Erickson, called tonight promising looking catcher out of a hat in presenting an Oklahoman by the name of Rennison. He showed power at bat and a good arm in a brief infield workout.

An elongated, lefthander took a turn on the mound and the tall birds saw plenty of promise. His name was turned in as Dilbeck, with his home Nevada, Mo. A kid brother, an outfielder, also will try out for the team. From the same town appeared a little pitcher, the name of Lamb. He showed lots of speed and a great throwing arm. An infielder named Price might develop into a valuable man.

Several members of teams in the Two-I league were on hand and it would be surprising to outsiders if some of them made the grade this year.

Several other players are still to report. They figured that it was too bad to drive here yesterday but were expected to be on hand this afternoon.

Any American baseball fan knows what "flagging a throw" means. But the Swiss, it seems, love "throwing a flag." In London, with a party of youngsters, Frank Hug, Switzerland's champion flag-thrower, gives this exhibition of his skill, hurling stiff his nation's banner.

## NE HURLERS WORKING WITH ROAD RUNNERS

### LEDFORD, DILBECK ARE NEW AT LOCAL PARK

## U. S. Expected To Win 12 Out Of 23 Olympic Firsts

Likely to Take All Foot-Racing Events

(Note: This is the last of a series of stories on American Olympic track and field prospects, written by the sports editor of the Associated Press in collaboration with this country's foremost coaches.)

BY ALAN GOULD.

NEW YORK, March 26 (AP)—They are probably keeping their fingers crossed since such can happen between now and the first week of August, but the best minds of our track coaching profession figure the United States will capture a majority of the Olympic championship events at Berlin. To be exact they expect Uncle Sam's lads to take 12 out of 23 first places in the track and field competition.

The consensus is that we will sweep the hurdles, the relays and the foot-racing events from 100 to 800 meters, inclusive. This is something America has not done since the 1902 games at Stockholm. In the field events the coaches rate Americans as "best bets" only in the high jump, broad jump, pole vault and shotput.

Based on the coaching consensus which also includes the views of Dean Cromwell of Southern California, Lawson Robertson of Pennsylvania, Bernie Moore of Louisiana State, and Larry Snyder of Ohio State, here are the Olympic best bets, together with other outstanding prospects:

100 and 200 meters—U. S. to sweep, with Ralph Metcalfe and Jesse Owens doubling up. Yoshioka, Japan, next best.

400 meters—Eddie O'Brien, U. S. to win, with Shore of South Africa and Roberts of England rated strong.

800 meters—Ben Eastman, U. S. to win, with Stothard of England next best.

1,500 meters—Jack Lovelock, New Zealand, a slight choice over Glenn Cunningham, U. S., and Luydi Becalli, Italy.

5,000 and 10,000 meters—Finn to dominate, with Lehtinen, Virenanen, Sallinen and Askola best prospects; Norman Bright only U. S. hope in 5,000.

3,000 meter steeplechase—Joe-Hollo, Finland, to repeat, with Joe McCuskey, U. S., a sure point-getter.

Marathon—Juan Carlos Xabala, Argentina, to repeat, with Japan furnishing outstanding challengers.

Hurdles—U. S. to sweep 110 meters highs, with Al Moreau, Louisiana, our best bet, and Finlay of England a contender; Glenn Hardin or Tom Moore to recapture 400 low hurdles for U. S.

Relays—U. S. to repeat in both 400 and 1,600 meters events.

Shotput—Jack Torrance, U. S., to win.

Discus—Anderson, Sweden, world record holder, or Schroeder, Germany, best bets; Dunn and Carpenter, U. S., contenders.

Javelin—Matti Järvinen, Finland, to repeat.

Hammer—Dr. Patrick O'Callaghan, Ireland, to repeat, but U. S. strongly represented, led by Henry Dreyer.

Broad jump—Jesse Owens and Eugene Peacock, U. S. to finish one-two, despite Japanese opposition.

High jump—Cornelius Johnson, U. S., to win.

Pole vault—U. S. to sweep three places, unless Japan pulls surprise.

Hop, step, and jump—Japan's entry, best bet, with Australia's Jack Metcalfe a leading challenger.

Decathlon—Hans Stevert, Germany, world record holder, to win.

50,000-meter walk—Name your own ticket.

## Wichita Girls Cage Tourney in Semi-Final Round

WICHITA, Kas., March 26 (AP)—The women national A. A. U. basketball tournament moves into the semi-final round tonight.

The top favored Eldorado, Ark. Lions meet the seeded No. 3 Des Moines A. I. B. team at 8 p. m. while the champion Tulsa Stepos, ranked second, take the floor with the Wichita, Kas., Thurston at 9:30 p. m.

Credit for the most decisive victory in the quarter-final round went to the Wichita Thurston, who smoothly over the Salt Lake City set-up over a 47-11 decision.

The Eldorado team fared almost as well in pinning a 44-10 defeat on the Shreveport, La., Meadows. Led by Vera Dunford, one of the twin-sisters on the team, the Lions had little trouble piling up the goals once they troved the tactics of Evah Mae Stirlen, the Meadows' 6 foot, 2 1/2-inch guard.

The Tulsans, seeking their third straight title, put on another great passing demonstration in eliminating the Little Rock Flyers, 37-18.

Jo and Gene Langerman, twin sisters on the Des Moines team, proved to much for the Lambuth college girls from Jackson, Tenn., who lost, 28 to 34.

## TULSANS SHUT OUT 10 TO 0 BY LONGHORNS

(By The Associated Press)

The Tulsa-Oilers faced the Pittsburgh Pirates in an exhibition game at Segun today as the other seven league teams continued training at their respective camps.

The Oilers, clouted for 17 hits, were shut out, 10-0, yesterday by the University of Texas Longhorns at Austin. It was the Longhorns' second victory over Tulsa.

The Oklahoma City Indians ched out a 2 to 1 victory over the Halliburton Capeters of Duncan, Okla., at Shreveport.

The Dallas Steers continued to show strength as they defeated the Houston Oilers, 4 to 0, at Longview.

Jack Jakucki, star hurler for the Galveston Buccaneers, is having trouble with the hard hitting newcomers to the club. Third baseman Kirschner, an Evangelical League product, helped the Yainnigh defeat the Regulars, 8 to 7, by hitting one of Jakucki's pitches over the left field fence with two on base.

Influenza kept three Houston players out of action. Justin Stein, young second baseman, was released from the hospital but will not join the club until Saturday. Oscar George and Vernon Taylor, pitchers, were the other on the sick list.

Beaumont, San Antonio, and Fort Worth continued routine practice.

## Determined Repenter

CHICAGO, (AP)—The detective who arrested Leo J. Curtin said it came about like this: Curtin stole a bottle of whiskey at a Loop department store, drank it and grew remorseful. He decided he should repent and that to repent he needed a Bible. So he went to another department store and stole a Bible. A detective seized him.

### So The Managers Say

BY PIE TRAYNOR  
Pittsburgh Pirates

SAN ANTONIO, March 26 (AP)—I'm not predicting a National league pennant for Pittsburgh. In fact, I see by the papers where there is hardly a chance for the Pirates to win the pennant. Bill Terry says his Giants will win it; Frankie Frisch is certain the Cardinals will win it, and Charlie Grimm believes the Cubs will repeat.

Somebody isn't telling the truth. There doesn't happen to be four pennants available this year so I'll not pick the Pirates.

Stick Work Improved

I do believe we will have a better hitting club than we had last year when we finished third in the league. We have a great bunch of natural hitters who look good to me in spring training.

The biggest part of our troubles of last year will disappear, I believe, when Al Todd, obtained from the Phillies, starts working behind the plate. We are counting heavily on him to save a lot of ball games for us by his handling of the pitching staff.

I look for Cy Blanton, my rookie sensation of last year, to have an even better season with Todd behind the plate. Bill Swift, second to Blanton in the league in effectiveness, looks better than ever and the rest of the staff has been showing good stuff in training.

We won 66 ball games last year and finished in fourth place, which is quite unusual. I believe we had the best club in the league during the last five weeks of the 1935 season, outside of the Cubs, perhaps, and should give them all a scrap this year.

Brubaker for Traynor?

We know we have a lot of "ifs," but with the breaks, we have just as good a shot at the pennant as any other club.

Consistency will help our ball club. We had a "hot and cold" team last year. We'd win five games in a row and then drop three or four. I believe our pitching, hitting and line-up in "double plays" will remedy that.

It looks like Todd behind the plate, Gus Suhr at first base, "Pep" Young at second, Arky Vaughan at short, and I believe my arm is improving and will allow me to play third. Wilbur Brubaker, a good looking prospect from Kansas City, might play a lot of third base.

Paul Waner will be in right and Forrest Jensen in left. Fred Schulte, from Washington, and Daniel Hafey will fight for centerfield, vacated temporarily by centerfielder of Lloyd Waner's recent illness.

Besides Blanton and Swift, I'm counting on John Kling, a rookie, Mace Brown, who should be a regular, Jim Weaver, and Alton and Guy Bush, at my best pitching material.

Having finished in fourth place

### LESTER WILL NOT ATTEND WEST POINT

All-America Center to Coach At Fort Worth; Stamps To Coach At Graham.

By FELIX R. M'KNIGHT  
Associated Press Sports Writer

Various reasons led Darrell Lester, Texas Christian university center who made all-America teams of 1934 and 1935, to consider a coaching job over an appointment to West Point. He has been named assistant coach at Riverside high in Fort Worth.

Reports that Lester would pass up the academy appointment were virtually verified when Flein Hall, Fort Worth Star-Telegram sports editor, commented that "Lester is tired of athletics, would like to coach or enter private business and has no ambition to become an army man."

Romance also is a strong factor, well-founded reports say.

One of Lester's mates on the Christians' sensational 1935 eleven, Wilson Groselove, also has been named to an assistant coaching position. The tackle will be at Paschal high in Fort Worth this fall.

Billy Stamps, who wound up three years at the guard position for S. M. U. in the Rose Bowl game with Stanford Jan. 1, has signed a one-year contract as assistant coach at Graham high school.

Billy Edwards, villain of the wrestling game, may never leave another opponent over the ropes. He is in a Dallas hospital, suffering from injuries received in a recent Fort Worth automobile accident. A fractured hip, crushed knee and cut head may force his retirement.

Football Coach Homer Norton of Texas A. & M., who arose from a sick bed to conduct spring grid training at Aggieland, is back in bed and recuperating at Birmingham, Ala., his former home.

Where are yesterday's stars? Charles Barnabe, crafty old lefthander of the Texas league, in the Waco section and still unsigned by any team. . . Redman Hume, ex-S. M. U. backfield star, coaching Highland Park high at Dallas. . . Speedy Mason, one of his running mates an insurance salesman, Shiro Hoke Aggie case phenom of six seasons ago, working at Houston.

### Sooner Favored To Win Olympic Wrestling Bout

HOUSTON, March 26. (AP)—Port Robertson of the University of Oklahoma was picked today as a favorite to win first honor in the 174-pound division in the Olympic semi-final wrestling bouts here.

Robertson won a decision over Orville Nickerson of the Weatherford Okla., athletic club last night in a second round match at contestants from Oklahoma continued to hold the spotlight in the tourney.

Other results included:

174 pound class—Irvine Poole, Houston, defeated Hollis Wilson of Louisiana; Port Robertson defeated Orville Nickerson.

129 pound class—Sam Barnes, Oklahoma, defeated Harry Miller, Houston. Harold Donnel, Houston, won by default from Ray Brown, Texas university.

Heavyweight class—Ralph Teague, Oklahoma, defeated Bennett Anderson, Texas U.; Babe Bick, Houston, defaulted to Roy Schenkenberg, Dallas.

### President Begins Fishing in Earnest

MIAMI, Fla., March 26 (AP)—Fishing has begun in earnest for President Roosevelt and his companions far out in the Atlantic off Great Tusnaga island and with the sun heating down, the campaign against the southern waters reports of sturgeon are expected soon.

The blue and white presidential flag was hoisted on the U. S. S. Potomac yesterday at Matthews town for the first time as Mr. Roosevelt boarded the small, new presidential ship of the navy.

A little later Mr. Roosevelt set out for his second day of fishing and today the first try for big game was expected in the waters where barracuda and marlin rule.

### President Begins Fishing in Earnest

MIAMI, Fla., March 26 (AP)—Fishing has begun in earnest for President Roosevelt and his companions far out in the Atlantic off Great Tusnaga island and with the sun heating down, the campaign against the southern waters reports of sturgeon are expected soon.

The blue and white presidential flag was hoisted on the U. S. S. Potomac yesterday at Matthews town for the first time as Mr. Roosevelt boarded the small, new presidential ship of the navy.

A little later Mr. Roosevelt set out for his second day of fishing and today the first try for big game was expected in the waters where barracuda and marlin rule.

### Where's George?

Want to sell a race horse? . . . Raoul Epinoza, who owns the track in Panama City, is in the market. . . He's been on the Rue Royale only two weeks but already has bought and shipped 15 thoroughbreds to Panama. . . Jack Dempsey says Fred Dighty isn't his man; that his boy, Red Burnham, is a sure shot to beat John Henry Lewis if and when they meet. . . Dighty also tells you not a penny has been bet in the winter books on Ben Hilly and Bow to Me, the E. R. Bradley Kentucky derby eligibles. . . What's the matter? Doesn't the Colonel like 'em?

Can't imagine a football coach in a nicer spot than Carl Staveley at Cornell. . . He's got the freshmen, he's getting good dough and he may get some distinction out of the thought that the teams he turns out can't possibly do worse than the ones that immediately preceded him. Japan's favorite ball player is not Babe Ruth. . . But "Lefty" O'Doul of the San Francisco Seals, "the ace in the green sack" to you New Yorkers. . . Fresh State's great middle distance runner, Eroy Robinson, teaches a Bible class on Sundays.

### BOMBERS LEAVE

SAN ANTONIO, March 26 (AP)—Nine army bombing planes, en route to the Panama Canal Zone, hopped off from Duncan field here at 9:50 a. m. today for Brownsville, their first stop south through Mexico. The flight of army ships was the second to be ferried to the Canal Zone over this route in recent weeks. The first flight, made up of bombers and pursuit ships, reached army fields in the Canal Zone without difficulty and were used to replace worn out equipment.

### Double Benefits For Farmers Is Proposal of RRA

WASHINGTON, March 26. (AP)—More than half a million growers of farm products may receive double benefits from the government if a plan disclosed by Rexford G. Tugwell is finally approved.

Tugwell's announcement last night that a special committee is studying a plan under which rural rehabilitation clients may also receive soil subsidy payments created much interest.

As head of the rural resettlement administration Tugwell is in charge of the granting of government loans to put rural families on their feet. There are now 450,000 recipients of such loans.

The rehabilitation rolls are composed of rural families who were on relief, or about to go on relief, and who are granted loans to make them self-supporting.

Under the new plan, they also would obtain full subsidy payments in connection with the soil conservation program now getting under way as a successor to the invalidated agriculture adjustment act. These payments are made to farmers who transfer land from commercial crop production to soil conserving growths, or who resort to other "economic" farm practices.

### MRS. FRASER

(Continued from page 1) Mrs. Fraser, Clarence Kennedy, Dr. R. M. Johnson, Biggs Horn, John P. Sturgeson, H. L. Polley, O. K. Gaylor, Marvin Lewis, John Sturgeson, Biggs Horn, H. Otto Studer, Clarence Barrett, and W. J. Smith, Howard Buckingham, P. O. Sanders, A. M. Teed, John F. Studer, Clarence Kennedy, and Jim Collins. Cars for the family group will be in charge of Marvin Lewis, Bob Fuller, Carl Benefield, H. L. Polley, Guy E. McTaggart, and W. A. Bratton.

### SPAIN

(Continued from page 1) It might be repeated in other provinces. SEVILLE, Spain, March 26. (AP)—A mob of students virtually wrecked the school of commerce here today.

They stormed through the buildings in a riot of protest against the removal of several of their professors for political reasons.

The students shouted: "Death to the republic!"—then tore down doors and threw furniture out through the windows.

Police arrested a number of youths.

The News' Want-Ads bring results.

### Hearst Is Called Worst Menace To Press Freedom

WASHINGTON, March 26. (AP)—Senator Minton (D., Ind.), a member of the senate committee, today accused William Randolph Hearst, the publisher of "prostituting" his newspapers for his own private interests.

Minton made his accusation in a speech on the senate floor as the committee was preparing to file its report to a suit brought in District of Columbia supreme court by the publisher to prevent use of certain of his telegrams seized by the committee in its investigation into lobbying.

"He is the greatest menace to freedom of the press in the country," the Indiana said, as he interrupted the senate's routine "business hour" to attack Hearst.

"Instead of using his newspapers to disseminate news," Minton said, "he is using his chain of newspapers to prostitute the freedom of the press to his own interests."

### Lusby Boy Is Taken by Death

Pneumonia claimed James Fletcher Lusby, 19 months, early this morning in a local hospital. He was the son of Mr. and Mrs. H. P. Lusby and the grandson of pioneer residents of Carson county.

The child had been ill for several weeks preceding death. The parents have resided in Pampa for more than five years, Mr. Lusby being manager of the International Supply company.

Mr. and Mrs. C. E. McCray of Panhandle community for more than 40 years. Mr. and Mrs. P. Lusby of Los Angeles, Calif., paternal grandparents, were longtime residents of Carson county before moving to California to make their home.

The Rev. W. C. House, pastor of the First Methodist church, will conduct services at 2 o'clock tomorrow afternoon in the chapel at Pampa Mortuary. Burial will follow in Panhandle cemetery.

Mrs. Charlie Williams and daughter left Worley hospital for their home in Kellerville yesterday.

### MARKET BRIEFS

NEW YORK, March 26. (AP)—Late realizing in today's stock market the starch out of many industrial specialties that had given a display of strength during the greater part of the session.

Table with market data including Am Can, Am Rad, Am Tel, etc.

### TOWNSEND

(Continued from page 1) signed this week as secretary of the Townsend organization in California. A throng of spectators crowded a big caucus room as the 41-year-old Californian began his reply to questions of James R. Sullivan, committee counsel.

### NEW ORLEANS COTTON

NEW ORLEANS, March 26. (AP)—Buying in May and July held their two positions around 18 cents a bale higher during forenoon trading on the market. May sold at 11.06 and July touched 10.65 on the advance.

### BUTTER

CHICAGO, March 26. (AP)—Butter, 7.90c steady, prices unchanged. Eggs, 28.81c; extra firsts local 18 1/2c; cars 19c; fresh graded firsts local 18c; cars 18 1/2c; current receipts 17 1/2c; storage packed extra 20c; storage packed firsts 19c.

### COTTON STATISTICS

There were 3,298 bales of cotton ginned in Gray county from the 1935 crop, compared with 1,386 bales from the 1934 crop, according to R. H. Wilson, special agent of the bureau of the census.

### CHICAGO GRAIN

CHICAGO, March 26. (AP)—Although establishing a new bottom price record for the season today, 83 1/2c September delivery, wheat rallied at the last, and in some cases scored slight net gains.

### GRAIN TABLE

Table with grain prices: Wheat, High, Low, Close; July, Sept.

### KANSAS CITY LIVESTOCK

KANSAS CITY, March 26. (AP)—U. S. D. A.—Hogs, 2,000: opened steady to strong; closing, 5-10 higher; desirable 160-260 lbs. 10.40-50; 270-350 lbs. 10.00-10.45; better grade 130-150 lbs. 10.10-40; sows 9.00-9.50.

### LIQUOR STORES CLOSED

AUSTIN, March 26. (AP)—Liquor stores in the 19th senatorial district were ordered closed Saturday because of a special election by an attorney general's ruling today which permitted beer dealers to continue sales.

### Free Lecture on Diesel Scheduled

Traveling in a unique car, Harrison E. Moore, staff lecturer for the Diesel Institute of Los Angeles, will deliver free lectures tonight, tomorrow night and Saturday night at 8 o'clock in the basement of the Schneider hotel.

Mr. Moore will talk on the evolution of the Diesel motor. He works in connection with leading manufacturers and his talks cover features of this new industry including the development, upkeep, cost of operation and its possibilities as a vocation for the mechanically minded man.

### TOWNSEND

(Continued from page 1) He said he first became acquainted with Dr. Townsend about 1926 or 1927 in Long Beach, Calif. Townsend, Clements testified also was engaged in some real estate promotion work.

### Britain Stands Back of Treaty

LONDON, March 26. (AP)—Anthony Eden, foreign secretary told the House of Commons today that the British government would back up the Locarno pact.

### Each Puff Less Acid

Each puff of Lucky Strike Cigarettes is less acid than other popular brands. This is because the tobacco leaves used in Lucky Strike are the top leaves of the plant, which are naturally less acid.

### Time for Study Of Treaty Urged

WASHINGTON, March 26. (AP)—A feeling that the new tri-power naval treaty should be studied closely before the senate votes on the question of ratifying it was expressed today by Chairman Pittman (D-Nev.) of the powerful senate foreign relations committee.

### TAX PROGRAM

(Continued from page 1) that \$620,000,000 of additional federal revenue be obtained through taxes on corporation dividends and undistributed net income and \$517,000,000 more over two or three years from the windfall and new, broader processing levies.

### PLANTING TREES

WASHINGTON, March 26. (AP)—The forest service reported today that tree planting in the great plains shelterbelt is now progressing at the rate of from 30 to 35 miles of 100-foot strip daily.

### EAGLE SCORES GOVERNMENT

WASHINGTON, March 26. (AP)—A charge that "government men should have known those sand pits were not safe places" was made today by Rep. Eagle (D-Tex.) as a result of a bill which began investigating the deaths of 299 veterans in relief camps on the Florida keys.

### PAMPA TOPICS OF OUR CITY

To Plan Beauty. Making of a more attractive community will be the goal of a meeting of filling station operators at the city hall Friday at 10 a. m.

Lions in Mourning. Pampa Lions met as usual this noon but adjourned, without presenting a program, out of sympathy for bereaved members.

### Licensee Slur

Issuance of driver's and automobile licenses at the office of F. E. Leech, county tax assessor-collector, is steady but below the volume necessary to avoid a serious last-minute congestion.

### SHIP SINKS

SEKOGNESS, Lincolnshire, England, March 26. (AP)—The French S. S. Boree went down today 20 miles off the coast with the probable loss of nine lives after colliding with an unidentified ship.

### COLUMN

(Continued from page 1) Here's another newspaper special edition. This is a creditable achievement of the Crosbyton Review in the form of a 28th birthday edition.

### IN CONNECTION

With the statewide clean-up week to be held beginning March 29, Dr. John W. Brown, state health officer, urges citizens of the state to give special attention toward destroying the breeding places of flies and mosquitoes.

# POWERS STUDY NAVAL BASES WITH JAPAN

## NEGOTIATIONS ARE BEGUN AFTER JAPS ASK INFORMATION

BY ALBERT W. WILSON (Copyright, 1936, By The Associated Press) LONDON, March 26.—The United States and Great Britain followed up today the signing of the new London naval treaty, a British spokesman said, with diplomatic conversations with Japan concerning fortifications and naval bases in the Far East.

The new pact failed to renew article 19 of the Washington naval limitations treaty, by which the three powers agreed that no new fortifications or naval bases should be established in designated Far Eastern territories and possessions. The British naval spokesman said the diplomatic negotiations over this question were undertaken in answer to a Japanese request for information as to the future intentions of the other great sea powers toward the Far East.

Japan did not sign the new treaty, having quit the naval conference after its demands for full fleet equality were opposed by the United States and Britain, whose delegates believed a common upper limit would give Japan eastern superiority.

American, British and French delegates, however, after signing yesterday the accord to replace the expiring Washington treaty of 1922 and the London pact of 1930, expressed hope that Japan, as well as Italy, would enter the fold later.

Ambassador Dino Grandi declared at the signing ceremony that the mutual assistance agreements concluded by Britain with other Mediterranean powers to meet any unprovoked fascist attack barred the way for Italian adherence to the treaty.

British sources pointed out, however, that the new agreement did not contain the old 5-5-3 ratio for the United States, Britain and Japan—to which the Japanese objected most strenuously—leaving some hope for Japanese participation.

The United States and Britain were agreed privately, however, to maintain their navies on an equal level.

Norman H. Davis and other members of the American delegation bade farewell to their associates in the three and one-half months of negotiations for the new treaty before sailing for home at midnight aboard the S. S. Washington.

# Britain's Eden Goes 'Top Hat'

During the European crisis brought on by Hitler's resumption of the "Watch on the Rhine," Anthony Eden, who played an important role in steering the Continent away from war, seems from this picture to have gone "high hat" literally. Anyway, the natty British foreign minister is shown leaving, not a ball, but a conference of the Locarno powers on Germany's rearmament of the Rhineland.

# BRUNO STILL HAS A CHANCE, BELIEVE AIDS

## BUT HOFFMAN CLAIMS THERE WILL BE 'NO REPRIEVE'

TRENTON, N. J., March 26 (AP)—With little prospect of executive intervention, Bruno Richard Hauptmann's chances of escaping execution next Tuesday night rested today with the court of pardons and the judge who sentenced him to death. Governor Harold Hoffman, a member of the court, planned to consult Chancellor Luther A. Campbell today on the advisability of a hearing on the convicted slayer's new plea for clemency.

Should the court turn thumbs down on the convicted Lindbergh kidnaper, as it did two and a half months ago, judicial intervention remained his only hope and appeared remote.

Attorney General David T. Wilentz's most recent comment on the case was that its status has not changed and there is no reason why Hauptmann should escape.

The governor set forth his stand on the question of saving Hauptmann again in these words:

"I stand on my January 17 statement that I would not grant a further reprieve unless a situation arises which the attorney general would agree warranted asking the court for another extension."

Failure in the court of pardons and failure to convince Supreme Court Justice Thomas W. Trenchard, trial judge, they have enough new evidence to ask for a new trial means Hauptmann will probably die. The governor was asked if this is so and replied:

"It looks much that way." Again when he was asked if his decision not to grant Hauptmann another reprieve was "final," he replied:

"Nevertheless, he said he had faith the attorney general would agree with him a judicial stay of execution was in order should there be a confession of such a nature as would

make it necessary to continue a man's life to prove the statements or should there be other important developments. Hauptmann fixed his signature to

the pardons court application in the death house yesterday in the presence of his counsel, C. Lloyd Fisher, and his wife, Anna. Fisher said he told him the date

of his execution had been fixed, but that he said nothing and Hauptmann's face revealed no emotion. He said he was still confident "everything would be all right."

SIDNEY ASKS DIVORCE LOS ANGELES, March 26 (AP)—The Examiner said a divorce suit will be filed today by Sylvia Sidney, screen star, against Bennett Cerf

New York book publisher. He's proceeding has been contemplated by the actress since she announced a separation recently because of "differences in temperament."

City of Waco vs. W. M. McCraw, attorney general.

Motions for rehearing submitted: Texas-Louisiana Power company vs. R. B. Webster et al, Grayson.

# 20 Are Killed In Explosion Of Dynamite Car

MEXICO CITY, March 26 (AP)—Twenty persons were known dead and nearly sixty were injured today after an explosion of a car-load of dynamite at the railroad station of Tultenango, in the state of Mexico.

The passenger and freight stations, a water tank, ten freight cars and several houses in the small railroad junction town 125 miles northwest of the capital were destroyed.

Rails were torn up for hundreds of yards, and traffic over the National lines between the capital and Acambaro, Guanajuato, was interrupted for more than three hours.

Both railroad employes and townspeople fell victims to the explosion, caused when a coal car in which a fire had started broke loose yesterday, rolled along a siding and crashed into the car laden with dynamite, which was awaiting shipment to a mining company.

# Land Grant Is Recorded Century After Issuance

BONHAM, March 26 (AP)—Failure to record a Texas land grant until nearly a century after it was issued, is the champion "slow" story, says C. F. English, news editor of the Bonham Daily Favorite.

In 1838, the Republic of Texas granted a patent to a parcel of land on the Red river in what became Fannin county to a man who must have thought there was plenty of time to get in on record regionally. Mr. English's historical research revealed:

He put the document in the family bar trunk and the rats ate it. Eighty years later a descendant of the original patentee decided to obtain a certified copy of the patent. The descendant, who owned the property, wrote to J. T. Robison, land commissioner at Austin, and J. H. Walker, chief clerk and present land commissioner, issued the certified copy, which, explains Mr. English, also came to rest in the bar trunk.

After 18 years repose, the copy of the ancient instrument was brought forth and placed on record to establish title in a sale of part of the land, 98 years after quill of the functionary of the republic delimited the agent on parchment.

## CUSHIONING OF HARD KNOCKS

Life cannot be made free of major emergencies. A study of insurance company statistics shows that such emergencies may be expected by the average family every eleven years.

Illnesses are as certain for most families as the change of seasons. Pneumonia and stomach ulcers occur most frequently, the survey shows, and the costs for a doctor, nursing, and hospitalization average \$343. The most expected operation is for appendicitis, with an average cost of \$258; the most likely accident is a motor mishap with a cost of \$240 involved. The average cost for each emergency was \$318. Births are financial emergencies for most families, although the cost is well below the average for other things involving medical care.

Statistics, if available on the number of families unprepared financially for these emergencies, would be illuminating. In the average home are appliances bought on credit which require the family surplus from month to month. In instances of unemployment, debts are more common than bank accounts. Borrowing on insurance policies is one of the most common means of meeting emergencies and this step illustrates about the only instance of enforced saving in this country.

Currently, however, we as a nation are launching unemployment insurance and old age pensions as means to cushion the hard knocks which must regularly be expected. And to the extent that individuals are thus cushioned, the nation will be able better to weather depressions which are to be expected as long as present conditions prevail.

## BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER

NEA Service Staff Correspondent

WASHINGTON.—The candidacy of Col. Henry Breckinridge against President Roosevelt in certain state Democratic primaries is causing more pugilism than excitement—or alarm—in Washington.

Other evidence may turn up later, but thus far no one has been able to discover that there's anybody behind it except Colonel Breckinridge. Neither the Liberty League nor any of the prominent anti-Roosevelt Democrats seem to be linked with the colonel.

The only possible effect of the colonel's bid for delegates would be to measure the strength of anti-Roosevelt feeling in the Democratic party in a few states or possibly to poll enough votes to build up the psychology that Roosevelt can be licked and encourage formation of such a third party of "walkers" as the Liberty League leadership has been considering.

Democratic party leaders are not worried that Breckinridge will receive any vote worth talking about and aren't even taking the precautionary measures they would consider advisable if a more widely known Democrat had entered against the president. But they're speculating a bit.

Breckinridge is a Wall Street lawyer, the friend and intimate adviser of Col. Charles A. Lindbergh.

Some time ago Breckinridge sent to Ohio for primary application papers, saying they would be filed in the name of a candidate who hadn't been mentioned yet. The man who wiled was Breckinridge, but some politicians have wondered whether he might not originally have had Lindbergh in mind.

It is considered more likely, however, that Colonel Breckinridge is merely fired with the traditions of an old fighting, conservative Kentucky family, and feels that it is now up to him to carry the torch of protest against New Dealism when others fail.

It was a Col. John Breckinridge who became presidential candidate of a ticket named by slave-state bolters from the Democratic convention of 1860 and who, along with Stephen A. Douglas—candidate of northern Democrats—was defeated by Abraham Lincoln.

Crampton Harris, Birmingham lawyer brought to Washington by Senator Hugo Black of Alabama to defend his lobby committee's right to look at telegrams received by Silas Strawn's law firm in Chicago, wasn't the least bit awed by the prominence of the case or the limelight which shone upon him.

More than inferentially, he threatened that the Senate committee would defy the district supreme court if it were enjoined.

He had a brief which he never had a chance to file, because, instead of taking the case under consideration, Justice Alfred A. Wheat broke in and gave an injunction against the committee.

Judge Wheat was appointed to the bench by President Hoover and at one time was a special assistant to Attorney General Harry M. Daugherty in the Harding administration.

The brief had its hot spots. Insisting that there was no conflict of interest between the Strawn firm and the Western Union, Harris tried to show by a decision of Chief Justice Taney's that the two were "punishable for contempt of court."

# BARBS

To escape heat prostration, says a Dayton physician, eat salt. He didn't reveal how much to take, but a grain for every campaign statement should suffice.

A Smithsonian authority says age makes the nose longer, the mouth broader; but since life is short, there may never be a rival for Durante or Joe E. Brown.

Joe Louis has been elected director of an insurance company. Just before their bout, he should have little trouble selling a policy to Braddock.

Politicians may make it a dirty campaign, but no one can deny that with it, they are sure to furnish plenty of soft soap.

If the Manhattan elevator strike had continued, the usual apartment "no-dogs-allowed" rule might have ceased to apply to St. Bernards with brandy casks.

You can't tell Europe that the United States isn't preparing for armed conflict. Haven't they heard about all these training camps?

Just so as not to attract undue attention during the campaign months, the Cincinnati baseball team might temporarily let themselves be known as the Pinks.

## CAPITOL CHATTER

BY CHARLES E. SIMONS

AUSTIN, March 26. (AP)—Gibb Gilchrist, Texas highway engineer and president of The American Association of State Highway Officials has turned his talents to composing music.

Gilchrist's "Texas Over All," a march with a lilting air, was published by request of the highway commission on the state official Centennial Year highway map. He composed it for his own entertainment, he said, laboriously pecking out the notes on a piano. He also wrote the words.

The march is being arranged by Burnet Pharr, director of the University of Texas band, who expects to play it soon. A Galveston bandmaster also is arranging it for presentation at the annual Shrine convention here in May.

Gilchrist has traveled thousands of miles over Texas during his service as highway engineer and is perhaps more familiar with all sections of the state than most citizens. He said he composed the march with the idea of expressing Texas' vast size, its friendliness, and its history and beauty.

Those who have heard it played say it is a musical invitation to residents of other states and citizens of Texas to visit the Lone Star's wonders.

The Centennial map is an original presentation of the highway system and marks the first time the department has published a map in colors. It also is illustrated with about 160 pictures.

Grouped about the face of the map are several pictures of typical highway scenes and views of the old Spanish missions. The back is covered with pictures that portray every part of the state from the wheat fields of the Panhandle to the orange groves of the Lower Rio Grande Valley and from the pines around Texarkana to the scenic beauties of the Grand Canyon of the Rio Grande.

The cover corner for the map carries a brief history of Texas under six flags, with the flags printed in true colors.

The department expected approximately 3,000,000 copies would be published. There was an unprecedented demand from all parts of Texas and other states immediately after announcement of its publication.

# NEW ZEPPELIN IS DAMAGED IN FIRST FLIGHT

## GIANT BAG FLIES TWO HOURS AND THEN DESCENDS

FRIEDRICHSHAFEN, Germany, March 26. (AP)—An accident marred today the start of a spectacular proposed double air tour, begun this morning by Germany's two zeppelins as propaganda for next Sunday's Reichstag election in the Rhine-land crisis.

A sudden descending air current struck the new zeppelin, the LZ-129, carrying its new name the "Hindenburg" for the first time, as it was being taken out of its hangar. The current forced the vertical stabilizer to the ground, damaging it seriously.

Capt. Ernst A. Lehmann, nevertheless, gave the signal to cast off the Hindenburg, named after Germany's late President Paul von Hindenburg, and the giant airship cruised over Lake Constance for two hours while the Graf Zeppelin headed for Stuttgart.

Although the facilities for maneuvering the Hindenburg appeared unaffected by the accident, Captain Lehmann decided to descend later for a closer investigation of the damage and for repairs.

The repairs were expected to be completed within a few hours, so that the new ship could resume its flight.

The two zeppelins will meet over Wurttemberg southwestern Germany, to resume their joint four-day flight around the Reich.

The Hindenburg carried 305 persons, and the Graf 70 persons, including the members of their crews.

Commander Lehmann said the Hindenburg would start its first trip to South America March 31, regardless of internal conditions in Brazil, where martial law has been declared in the aftermath of the November extremist uprising.

# CRUISE TO NOWHERE

by Deck Morgan

Chapter XXIII

The shooting of Dutch Lenz brought about panic among the passengers. Their murmurs rose crescendo, but the fresh onslaught of the storm battering another life boat from its davits and hurling it out to sea, brought about a more active sense of their danger. They began to mill about aimlessly.

They had been calm, but now they moved about, chattering like shrill monkeys. Rumors flew. Why had there been no reports from the bridge? Had the ship been driven off the course—inside the reefs? Were they all doomed?

It was suddenly every man for himself. It was a mad scene of fear, stark and in some cases, abject. For some reason the men crowded out of the bar. The alcoholic spirits inside them no longer compensated for the lack of life preservers about their waists. Some of them looked menacing.

Instinctively the family groups drew closer together, clutching their life belts as if they were afraid of having them torn away. But no such move came from the men. In the moment of greatest danger they merely sought the companionship of human beings in the lounge. There were perhaps a hundred men who had given up their preservers to the women and children.

Two of the ship's officers, their oil-skins dripping water, circulated about and tried to calm the people. There was no relaxation in the stern discipline—the crew maintained, but the passengers misinterpreted these gestures. They thought the ship was doomed.

But the orchestra played on. Ken Martin, recovered from his blow and sensing renewed panic in the crowd, began to sing. Linda Bayes watched him. She joined him, and hand in hand they sang, high above the huddled groups of people. Some of their courage went out to the audience.

Two lovers in the storm, they had come together. Linda had her hand over her face as if she were crying. When she looked at Ken she saw that he was content.

The detective wanted to ask Linda if she knew anything about the person who had started to strangle her in her stateroom, but he questioned Jane instead.

"You didn't recognize the man?" he said. "Are you sure it was a man?" He looked at Madame Doremus. "You're sure it wasn't Millie?" Madame says the girl had a neurotic background.

"Of course it was a man!" Jane said, "but he was masked, and had a cap pulled down. I couldn't tell whether I had ever seen him before. It all happened so quickly, and the lights were dim. He had on a heavy coat, and he looked rather large, bulged out. I don't think he knew I was in the stateroom with Linda. The roll of the ship flung him against the wall, and saved her from..."

"I believe there's only one man in this," Snowshoes said. "The man who killed Mannie Jackson, stole the Kokinor diamond, and then to cover up his crime made attempts on the lives—successful in one instance—of Dutch Lenz and Linda Bayes, is that man. He's abroad on the ship."

"Dutch Lenz may have committed the first crime," Dirk said obstinately. "Now he's dead. The Kokinor may have changed hands."

But then Snowshoes looked more puzzled than ever. Jane watched him, for her own mind was racing along impossible channels. The detective said suddenly, "If Dutch Lenz didn't send that note to Linda Bayes, who did? Who else could it have been? Somebody ashore in Nassau," he added quickly. Then his eyes had a sudden light in them, and he said, low: "There is a passenger on board this ship who is not a passenger. He is the culprit! And he's walking around on two legs like any of the rest of us."

Jane was aghast. "You mean, a man came on board in that long black box? Somebody ashore..."

"That's just it!" Snowshoes said. "It could have been arranged. We'll have to question the ship's officers, who had the body in charge, but they're on heavy duty now, trying to maneuver this ship through the storm."

"But if there is another man in the crime, who stole the Kokinor diamond from Nora Lane's suitcase?" Jane said. "Where is Millie?"

Snowshoes was rubbing his bald spot again, and he had to grin with discouragement. "I think I'll just go round up the corpse and let the rest go hang until the storm is over. I don't like the idea of a corpse running around below."

With Dirk at his side the detective went down to Deck B, and cautiously approached the stateroom where Linda had been attacked by the masked man. The ship took a bad roll once, and they

whether he followed me or not, I was so scared."

Madame was murmuring, "You poor child, you risked your life to save my jewels!" when Millie broke down. "I don't want to drown," she sobbed, brokenly. "I haven't got a life preserver. Everybody else has one but me. The ship's sinking, I know. And I was locked up in the black hole, going to drown, drown—"

The detective said, sighing, "Well, at least we don't have to find your jewels, Madame? They're safe."

They paused while the ship went through one of those herculean shudders again. The waves rolled over the bar-deck, and drowned out the sound of the orchestra, still playing. The ship's cabaret went on; Linda and Ken in their roles, carrying on.

But suddenly the detective knit his brows closely together. "We haven't a single clue. I wouldn't be surprised at anything. Let it be this man, interested in the diamonds and won't stop at murder to get them. But we've stumped. It may be any one of these suspicious-looking touts on board. We can't keep track of them in this storm. And it may be the corpse that walks like a man, and throws his coffin overboard in the storm," he ended unhappily.

The old dowager scoffed. "There have been queer doings on this ship since I came on board. I wouldn't be surprised at anything. Let it be that man, interested in the diamonds and won't stop at murder to get them. But we've stumped. It may be any one of these suspicious-looking touts on board. We can't keep track of them in this storm. And it may be the corpse that walks like a man, and throws his coffin overboard in the storm," he ended unhappily.

"The old dowager scoffed. "There have been queer doings on this ship since I came on board. I wouldn't be surprised at anything. Let it be that man, interested in the diamonds and won't stop at murder to get them. But we've stumped. It may be any one of these suspicious-looking touts on board. We can't keep track of them in this storm. And it may be the corpse that walks like a man, and throws his coffin overboard in the storm," he ended unhappily.

"We won't find the murderer until we find the Kokinor diamond," Snowshoes insisted stubbornly. "And it may have changed hands on shipboard. And it's probably show up in a diamond cutter's shop in Amsterdam, in a dozen pieces."

# ABOUT NEW YORK

BY GEORGE TUCKER

NEW YORK, March 26. (AP)—Three of us, inasmuch, went up to see the great Chamara the other night—Gregory Chamara who commanded the respect of all Europe 20 years ago. After he played Christ in a German film in 1919 he became such an idol that riot cars had to precede him wherever he went.

So we went up, the three of us, and knocked on Chamara's door.

It was, I assure you, not quite what we expected. There sat Chamara, the great Chamara, in white shorts, a monocle in his eye, quite surrounded by commonplace things and yet somehow untouched by them. . . mending a hole in the seat of his pants.

The police sergeant from a west side station tells of the Harlem riot which arrived the other night with a badly hatched head. A cornet player, "for no reason at all," had just crowned him.

"I was singing my number, Judge," he explained, "and first thing I knew half Lenox avenue seemed to rise up and swat my face."

"That doesn't make sense," the magistrate wagged sternly. "You must have annoyed him in some way."

"He did, Judge," cried the cornet player. "He got personal about my Dixie—that's my girl—and I don't take that from no mush-mouthed crooner."

"What'd he do?"

"Judge, he looked at me and started singing that song 'Is It True What They Say About Dixie?'"

There's a colony of barge-dwellers up around 120th street, who live the year round in houseboats that are no longer sea-worthy.

Now and then an attempt is made to eject them but nothing much ever comes of it. The men and their wives and broods are a defiant lot if approached, but they never cause any real disturbance; all they ask is to be left alone. In summer dozens of children sprawl over the decks, scantily and raggedly clad. They dive and swim like young seals, often in the puds, and live almost entirely in the open where the cooling breezes of the harbor take the sting out of the sun.

But in winter no more drab and bleak dwellings could be found. Often ice-locked, or riding the slow swells of the river, the only sign of life to be seen is a curl of smoke from some hidden rusty stove. Some of the bontmen live all winter without coming ashore.

There also used to be a colony of "squatters" over by East river but they aren't there any more. It got so cold, and firewood was so scarce, that gradually they burned themselves out. A door here, a piece of shingling there—it doesn't take long to burn down a shanty place-meant. Now they're scattered and nobody knows where they are.

The original June Knight is now June Hart, who dances with Holland at the Rainbow Room. When Miss Knight retired several years ago Holland gave the name to his new partner and she went on to make that name famous in Hollywood and on the stage. Now she has legal title to the name.

# Grand National Race Is Tomorrow

LONDON, March 26. (AP)—Thousands of Londoners began their annual exodus to Aintree, site of the Grand National steeplechase to be raced tomorrow.

Close to 200,000 turf lovers, and many who ordinarily wouldn't cross the street to see a horse race but are lured by the glamor of the Grand National, will be gathered tomorrow around the 4 1/2 mile Aintree course.

Golden Miller, Dorothy Paget's 1934 winner which dashed the hopes of countless thousands last year by falling just beyond Valentine's brook, again is the favorite. The Miller was quoted at 4 to 1 in the last course, while Major Noel Furlong's Reynoldstown, 1935 winner, was quoted at 7 to 1.

### Exposition's \$230,000 Hall of Foods and Beverages

The \$230,000 Hall of Foods and Beverages for the Texas Centennial Exposition is rapidly nearing completion on the Dallas grounds. A permanent structure, its exterior is finished. Workmen are hurrying the interior, to have it ready long before the Exposition, first South-west World's Fair, opens June 6.

### Dusting The Covers Of Texas History For THE TEXAS CENTENNIAL CELEBRATION OF 1936

AUSTIN, March 26.—Cotton had already become one of the staples of Texas agriculture by the time the Republic was well established. Arthur Ikin, consul from England to the Republic, cited this commodity as one of the major products of the country in a chapter in his "Guide to Emigrants," published in London in 1841. A copy of this book is in the rare book division of the Texas Collection in the University of Texas library.

Ikin wrote: "The main staples of the Texian farmer are, in the lower country, cotton and maize; sugar and tobacco will soon become objects of equal importance. In the upper country, sugar will only be grown in particular localities; but the smaller grains will be added to the list."

"In every part of Texas, cattle and horses will always be great sources of profit. Most kinds of fruit and vegetables will grow every where in the greatest abundance. Negro labor will probably continue to be chiefly employed on the low alluvial lands, but throughout the upper country there are many reasons for believing that free white labor will predominate."

"As a cotton-growing country, Texas is now generally admitted to be superior to the United States, one of the strongest proofs of which is the number of planters who continue emigrating thither."

"The climate is more congenial, and the deep rich soil, strongly impregnated with fertilizing salts, is far more productive than the best cotton states of the Union; the result of which is an average of fully one-third more on the acre, and a decidedly finer and longer staple."

There are several rivers in Texas, the valley of any one of which is capable of producing more cotton than all the present plantations of the Union together. The lower country will unquestionably produce the finest staples of the long staples. In the rolling country the "short staple" will almost everywhere flourish.

"On some lands, 4,000 pounds weight of seed cotton have been raised, and the plant has been known to reach the extraordinary height of twelve feet, and to become perennial. Texas is, in short, peculiarly the region of the cotton plant; and the advantages of the planter are signal. He has, in the first place, cheaper lands. Secondly, a larger crop. Thirdly, a better staple. Fourthly, an earlier season to plant, and therefore to pick; likewise a longer season for the latter precarious operation prior to the rains and frosts doing injury. Fifthly, by the superior facilities for raising stock, he can feed his laborers about 50 per cent cheaper than in the United States. Sixthly, their clothing, owing to the lower tariff, will be far less expensive. Seventhly, the more salubrious climate will make their life a better purchase."

"The planting season commences in February, and the picking begins in June. The mode of culture is very simple and easy. One good hand can raise ten or even twelve bales of 400 lbs. to 500 lbs. each, (worth, in the Galveston market, say 40¢ per lb.) and grow corn enough for his own support besides. The fallacy that a white laborer cannot raise cotton, is in Texas already partially exploded."

"The sugar now produced there, from its excellent quality, offers every encouragement for a more extended culture. The cane sweets much higher than on the Mississippi, and yields a richer juice. There are tracts eminently suited to the growth of sugar, that could easily support more than the consumption of all Europe."

"Tobacco will in all probability become a very important staple. The finest Havana leaf has been frequently raised; and the cigars that have been already manufactured from it, in the opinion of many judges, require only age and better twisting to equal those of Cuba export."

"Maize, or Indian corn, produces everywhere large crops, under the rudest modes of agriculture. Fifty to seventy bushels an acre are frequently raised, and two crops are often obtained the same year."

"Rice would find a congenial soil and climate near the estuaries of the rivers."

"Throughout the upper country, wheat, rye, barley, and oats, will become staple objects with the farmer. Fine crops of wheat, sown in October, and reaped in May, have already been obtained."

"Hemp and flax are likewise eminently suited to the higher regions."

"The morus multicaulis thrives well wherever planted, and the climate offers every inducement for the cultivation of silk."

"In some parts, native mulberry trees are numerous, but I could not ascertain whether a species of silkworm, as has been asserted, is actually indigenous."

"Indigo might become a great object to the cultivator. The immense profits which the culture of this plant yields in favorable localities are well known."

"For the labors of horticulture every part of Texas is admirably adapted."

"Irish potatoes, planted early,

succeed well, frequently yielding more than 500 bushels per acre. Sweet potatoes produce yet more abundantly; a single root of this excellent vegetable has here been known to attain the extraordinary weight of 10 pounds.

"Beans, peas, turnips, carrots, beets, yams, tomatoes, cucumbers and almost every other species of esculent vegetable, delicate and hardy, grow with wonderful rapidity and field prodigious crops."

"Melons more especially suit the soil and climate, and attain a very superior size and flavour."

"Figs and peaches are at present most commonly cultivated fruit trees, and, perhaps, in no other part of America do they flourish so surprisingly. Their flavour is delicious, and the quantity obtained from an orchard of well-grown trees is scarcely credible."

"Olives, almonds, nectarines, ap-

### Insanity Defense For Paul Carroll Seems Probable

CHEYENNE, Wyo., March 26. (AP)—The groundwork for an insanity defense for Paul H. Carroll, charged with the first degree murder of C. E. Barnard, Union Pacific division superintendent, was started today by Carleton Lathrop, defense attorney.

Mrs. Maude Shloty, former member of the state department of education, testified she had given Carroll an intelligence test early this month. Her testimony was interrupted, however, when prosecution attorneys objected that she was not

sufficiently qualified as an expert to give an opinion as to Carroll's intelligence. Barnard was shot last October 27.

Lathrop told the jury that Carroll, prematurely gray at 36, had lapses of memory after he had been drinking and that he was discharged from the railroad after a drunken fight at Laramie.

Lathrop said the defense will show that Varroll's grandmother and aunt had been committed to insane asylums and that on the day Barnard was killed Carroll remembered nothing that transpired from early that afternoon until two or three days later when he came to a hospital in a critical condition from a self-inflicted wound.

Carroll's father, E. E. Carroll of Beaumont, Texas, was seated beside the defendant in the courtroom today.

*It's an out and out Gamble*

**WHEN YOU BUY THE unknown**

Most everyone "takes a chance" once in a while—but why gamble when you buy razor blades? Probak Jr.—made by the world's largest maker of razor blades, selling at 4 for 10¢—is a blade of known quality. It is automatically ground, honed and stropped by special process that guarantees your money's worth in shaving comfort. Made to romp through even the toughest, most stubborn whiskers without irritating the tender spots... this blade never pulls or burns. Your dealer has Probak Jr. Buy a package today, and start tomorrow with a cool, clean Probak Jr. shave.
