### PLANS STUDIED

## Auditorium Cost Tag Set At 1.7 Million

Methods of additional financing for Pampa's proposed M.K. Brown Memorial Auditorium soon will be tackled by the auditorium executive and finance committees.

Members of the architect committee were told yesterday afternoon by a representative of the George Dahl Architects & Engineers of Dallas that an auditorium adequate for

Pampa's over all community needs would cost an estimated \$1.7 million.

The committee, comprised of Deane Heckman, chairman; Homer Johnson, Jim O'Conner, City Manager Charles Hill and Tex DeWeese, also was presented with preliminary drawings for the proposed theatre-type structure.

The architect committee is expected to meet at an early date with the general committee for a report on the preliminary proposal.

The initial sketches call for an auditorium with a lower floor seating capacity of 1064 and a balcony with 600 seats.

A large stage would also provide a closed-off dining area to seat 800 or 900 with kitchen service facilities at the rear. The sketches show large foyers in front and on the side, wide vestibule, a 60 by 25 museum, exhibit areas, plenty of area for art exhibits, meeting rooms, dressing rooms, orchestra pit, manager's office, ticket office, storage rooms, workshops and a basement area that would be flexible for many uses.

Approximately \$700,000 of the money needed to build the auditorium is available from the M. K. Brown Foundation.

The total \$1.7 million figure given to the architect committee by the Dallas firm would be a "turnkey job," meaning the project would be completed and furnished in every detail and ready to move into.

Atty. William Jarrel Smith, Foundation chairman, and E. L. Green Jr., chairman of the general auditorium executive committee, met with the committee and the architect yesterday.

The architect's preliminary plans, in no way complete as to details, were given tentative approval by the committee members and the Foundation chairman. Final approval and decision on any proposed building plan will be up to the larger executive committee.

Green told the committee members yesterday he planned to call a meeting soon of the finance committee to seek ways and means of raising the additional money needed to put the auditorium project over.

# Communications Satellites Are Launched By Mighty Titan 3C

## Direct Contact With Vietnam Is The Goal

CAPE KENNEDY (UPI) — A Titan 3C rocket packing the Air Force's mightiest space kick was launched today, carrying eight radio relay satellites to close the gaps in the Pentagon's direct link with Vietnam.

The 124-foot, three-barreled rocket leaped off its launch pad at the space center at 9:40 a.m. CDT with a ground shaking roar.

Two solid propellant rockets strapped to the side gave the three stage space machine a takeoff kick of nearly 2.5 million pounds of thrust and moved the big bird quickly into a hazy layer of clouds and out of sight.

Above the clouds, the orange glow of a trail of flame twice as long as the rocket glowed briefly as the Titan angled over the Atlantic, aimed at an orbit about 21,000 miles in space.

There was a four minute hold to check some instrument readings a half minute before schedule takeoff, but it was the only difficulty in a smooth, six-hour countdown.

It will be sometime after 4 p.m. EDT before the rocket completes a series of three tricky maneuvers and begins releasing the \$1-million each satellites.

With all of the 36-inch diameter satellites functioning properly, the Defense Department's communications agency will have 25 working space relay stations able to transmit voice and teletype messages between Washington and Vietnam.

The satellites also can transmit high quality reconnaissance photographs to give Pentagon strategists a direct hand in assessing North Vietnam troop concentrations and air strike targets.

The launch was the 10th for the Titan 3C, the nation's mightiest rocket under military control and a modification of the Titan 2 which launched the two-man Gemini astronaut teams.

## Time Schedule For City Budget Made Public

City Manager Charles Hill today released a time schedule for preparation of Pampa's 1968-69 budget for the fiscal year beginning next Oct. 1.

Hill said department heads have been asked to submit budget requests by Monday, July 1. During the July 8-12 period, the budget figures will be reviewed by the city manager and heads of various city departments.

During the week of Aug. 12-16 budget information will be studied and reviewed by the mayor and city commission in workshop sessions.

The proposed budget will be filed with the city secretary Friday, Aug. 23, and at their regular meeting Tuesday, Aug. 27 the proposed budget will be formally submitted to the mayor and city commissioners and a date will be set for a public hearing.

At the first meeting of the city commission in September it is expected the public hearing will be held and the commissioners again will review the budget figures and consider passing an ordinance approving the budget and setting the tax rate for the next fiscal year.

The city's current tax rate is \$1.72 per \$100 property valuation based on a combined real and personal property valuation total of \$48,991,940.

## Britain Authorizes Court Hearings On US Request To Extradite Ray

LONDON (UPI) — Britain today formally authorized court hearings on American requests to extradite James Earl Ray for the killing of Dr. Martin Luther King Jr.

Home Secretary James Callaghan signed the order telling London's chief magistrates to hold hearings on the American government case for extraditing the 40-year-old fugitive charged with the assassination.

The hearings and appeals might last through the summer. Callaghan's order made Ray liable for possible extradition not only for the killing of King in Memphis, Tenn., but for breaking out of a Missouri prison in 1967.

The order came as Scotland Yard hunted a shadowy man-or-men-and a woman with an American "twang" accent to learn what Ray was doing in Britain before his arrest at London International Airport Saturday.

The man stood near James Earl Ray when the 40-year-old accused killer checked into a London hotel.

Behind the hunt to piece together the last days of freedom of Ray was the desire of U.S. and British police to know who, if anyone, had helped Ray flee.

While the police hunted, American and British government lawyers moved on getting Ray extradited for the trial for the April 4 assassination of the civil rights leader in Memphis, Tenn. The U.S. case for extradition—completed in a wave of documents was expected to be handed to Chief London Magistrate Frank Milton today by the Foreign Office.

Milton was expected to read the case and then hold private talks with Ray's court-appointed defense lawyers and the legal attache at the U.S. Embassy. His ruling on extraditing Ray would come a week or 10 days from now after a hearing with the accused present.

Ray was locked up under 24-hour guard in South London's Wandsworth Prison. He was arrested Saturday at London International Airport for carrying false passports and a gun without permit. Milton ordered him held without bail until Tuesday and that was expected to be extended.

## Patient Dies As Sheep's Heart Transplant Fails

By PRESTON F. KIRK

HOUSTON (UPI)—A surgical team failed today in an attempt to implant the heart of a sheep into a man.

St. Luke's Hospital Administrator Newell France said the animal's heart was used as a last resort in an attempt to keep the patient alive until a suitable human donor was found.

The unidentified recipient, a 47-year-old man, was pronounced dead at 1:02 a.m. CDT today. The surgery had begun at 11:15 p.m.

Hospital officials said the recipient had been in extremely critical condition and probably would not have lived through the night had the implant not been attempted.

The man's family had consented to use of the animal heart, France said.

He said the heart of the 125-pound ram required "minimal fiddling" before it could be fit into the man's body.

"To my knowledge, the sheep's heart did not function at any time," France said.

The sheep heart was selected from a number of "species" because the size of the heart is similar to a human's and it was capable of pumping enough blood to support an ailing human for an unspecified length of time, France said.

France said the hospital did not intend to identify the patient.

It was believed this was the first attempt to implant the heart of an animal other than a man in a human being.

It was believed this was the type operation performed at the hospital. Dr. Denton Cooley headed the surgical team.

Two of the previous four Houston patients are still living.

SAL 'AH-H-H' — Fewer cavities are predicted for this hippopotamus which holds its mouth open for a daily brushing at the Munich, Germany, Zoo. Keeper Herman Nelz uses a scrub brush for the morning chore.

## Liquor-By-Drink Is Approved In Vote By House Committee

By ROLAND LINDSEY

AUSTIN (UPI) — Sponsors of Gov. John Connally's liquor by the drink bill won 11-9 approval in a House committee today by persuading two disgruntled wets to return to the fold.

The measure is eligible for a vote on the House floor Saturday, but Speaker Ben Barnes said he planned to wait until Monday.

Liquor by the drink proponents were unable to get the bill out of committee Wednesday, but overnight two votes switched.

Reps. James Clark of Dallas and Jake Johnson of San Antonio voted for the bill today after its authors agreed to consider amendments which would make the bill more acceptable to Clark and Johnson.

Rep. Dick McKissack of Dallas, not a member of the House committee but a co-author of the bill, appeared before the committee today and told mem-

bers the authors would be "happy to work with" Clark and Johnson to "work out anything that will help this bill pass."

Clark's Measure

The bill reported out by the subcommittee was a combination of the Governor's liquor by the drink bill and a bill by Rep. R. H. Cory of Victoria on liquor law reforms.

Johnson said the primary amendments he and Clark wanted in the bill are those forbidding legislators to appear before the Texas Liquor Control Board or its hearing agencies for pay, and requiring all permit and license holders to file annual financial statements with the TLCEB.

Clark, who apparently halted the bill Wednesday by switching his vote to oppose the bill, changed again today after he said a "change of attitude" had been noted on the part of the bill's authors.

"Obviously there has been a complete change of attitude on the part of the authors and on the part of the subcommittee," Clark said.

"Yesterday the authors were unresponsive to any amendments; today they are ready to sit down and talk with us about it."

May Change Mind

Clark said his vote to report the bill out of committee favorably does not necessarily mean he will support the measure on (See LIQUOR, Page 3)

bers the authors would be "happy to work with" Clark and Johnson to "work out anything that will help this bill pass."

## Reds Blast Ammunition Dump At Saigon; Terrorize Da Nang

By JACK WALSH

SAIGON (UPI)—The Viet Cong today blew up a Saigon ammunition dump with explosions that rocked the capital and spread their urban terror campaign to Da Nang with the bombing of a U.S. Navy office building.

Twenty-five 82mm. mortar shells fired before dawn set off the dump in blasts that lasted three hours and lighted Saigon's northern sky. A guerrilla platoon tried overrunning the dump but South Vietnamese guards stopped them at the barbed wire fence and drove them away.

In Da Nang, the key allied base city 360 miles up the coast from Saigon, a lone terrorist planted a suitcase timebomb in the Navy building. The explosion roared at the stroke of noon, throwing men into the air and mangling metal desks.

Seventeen U.S. servicemen and Vietnamese civilian employees suffered injury. It was the first terror in Da Nang in many months, as the Viet Cong spread the urban attacks the U.S. diplomats.

Communist gunners dropped 20 mortar rounds on the ammunition dump and followed the barrage with a platoon-sized attack against the enclosure's barbed wire. Government troops beat them off and chased them into the forest where a running fight continued today, the spokesmen said.

Saigon, a city of two million, waited under heavy clouds and misty rain for the new rocket and mortar attack that did not come. The previous night big Soviet-made rockets fell on Tan Son Nhut Air Base killing five persons and wounding 28.

At the Wednesday session the American and North Vietnamese delegates held to the positions they have taken since the negotiations opened a month ago. They scheduled their next meeting June 19.

Two other South Vietnamese cities—Phuoc Binh and Ca Mau—were shelled early today.

Viet Cong fired 200 mortar rounds into Phuoc Binh about 80 miles northwest of Saigon and then sent an estimated company of troops in an attempt to break into the town. South Vietnamese soldiers drove them off in a 15-minute battle, government spokesmen said.

At Ca Mau on the southern tip of Vietnam at least two civilians were killed and a third (See REDS, Page 3)

and it is due for an extremely close pass Friday afternoon. Scientists figure it will come within four million miles of San Francisco's Haight-Asbury district, give or take a mile. Haight-Asbury is the mecca of flower power.

Scientists aren't too concerned about the occasion, although if Icarus should happen to stumble onto the earth—and similar meteorites did so millions of years ago—it would hit with the force of thousands of multimegaton hydrogen bombs.

Now, hippies have nothing against scientists, but they are heading for Boulder by the hundreds. The word has been out for months that there's "a damn good chance" Icarus will hit the earth.

"We think California will slide into the sea, there will be violent earthquakes, there will be a violent change in all of society and maybe even Atlantis will rise," said "Don," a shaggy-haired native of Miami among the leaders in the rush to Colorado.

"We've come up here because this is the safest place in the world to be if it happens," he explained. "Here and Tibet." There were no immediate reports of an influx of hippies in Tibet, but hitch hiking in that direction leaves much to be desired.

The passing of Icarus will be noted with interest by scientists throughout the world—and hippies throughout the Boulder area. There is no indication that the citizens of Tibet care one way or the other.

Mrs. Joyce Hales of Boulder said she doesn't mind the invasion of the longhairs, so long as it isn't permanent.

"I'd rather have them up there than some of the Boy Scouts who have been here. The hippies keep a cleaner camp."

## Money Distributed 'Free' By Children

Police received a complaint around noon yesterday that two children were passing out money in the 300 block of Tignor.

An investigating officer discovered that the mother of the two young children works at night and sleeps late during the day.

The woman told police the children apparently took the money from her purse while she was sleeping. The purse reportedly contained about \$110 and \$73 was still missing yesterday, according to police.

## World Will End This Weekend, They Say

# Hippies Heading For The Hills

BOULDER, Colo. (UPI)—The world, save for Colorado and Tibet, will come to an abrupt end this weekend.

So say hundreds of hippies pouring into this mile-high "shelter." If you don't make the scene in Boulder or Tibet this weekend, they say, you won't be alive to make it anyplace next weekend.

This whole gloomy outlook can be traced to Icarus, a chunk of rock about a mile in diameter which spends its time circling the sun between the orbits of Mars and Jupiter.

The wandering asteroid passes earth once every 19 years

and it is due for an extremely close pass Friday afternoon. Scientists figure it will come within four million miles of San Francisco's Haight-Asbury district, give or take a mile. Haight-Asbury is the mecca of flower power.

Scientists aren't too concerned about the occasion, although if Icarus should happen to stumble onto the earth—and similar meteorites did so millions of years ago—it would hit with the force of thousands of multimegaton hydrogen bombs.

Now, hippies have nothing against scientists, but they are

heading for Boulder by the hundreds. The word has been out for months that there's "a damn good chance" Icarus will hit the earth.

"We think California will slide into the sea, there will be violent earthquakes, there will be a violent change in all of society and maybe even Atlantis will rise," said "Don," a shaggy-haired native of Miami among the leaders in the rush to Colorado.

"We've come up here because this is the safest place in the world to be if it happens," he explained. "Here and Tibet." There were no immediate reports of an influx of hippies in Tibet, but hitch hiking in that direction leaves much to be desired.

The passing of Icarus will be noted with interest by scientists throughout the world—and hippies throughout the Boulder area. There is no indication that the citizens of Tibet care one way or the other.

### Wall Street Chatter

NEW YORK (UPI)—C. B. The Wiesenberger Investment Report notes that selective market strength stems from psychological factors, but says there are risks as well as opportunities in the more speculative areas of the list. The firm says commitments in individually attractive issues are warranted although portfolios should continue to include defensive stocks and some liquid reserves.

E. F. Hutton and Co. says the increase in margin requirements is not expected to have more than a temporary impact on the market's upward trend. It says that historically any such setback from a margin hike is "brief and minor" and that the market soon makes up its loss and moves above the level it was when the increase was announced.

### Insurance Men Would Investigate Complaints, Inquiries On Industry

Texas' insurance industry has invited state legislators to report for investigation any complaints or inquiries which they or their constituents may have about insurance, according to information released today by the Southwestern Insur-

ance Information Service in Austin. E. C. Jones, Waco insurance firm executive and chairman of the Public Relations Co. in Texas today informed legislators by letter that the Service is prepared to make a thorough investigation into every inquiry or complaint brought before it. Jones stated, "We want to know about those situations where we can improve our service and we want the opportunity to clarify misunderstanding, correct possible errors and eliminate dissatisfaction." "Our membership," he pointed out, "has pledged to conduct business in a manner that will do the best job possible for the hundreds of thousands of policyholders and the public at large." The Waco insurance executive cautioned that complaints should be accompanied by names of the complainants and other pertinent information. He added that if the complaints are accompanied by facts, "we can determine whether the interests of the insuring public are being protected."

### Farm Bureau Requests Equal Time On Show

WACO (UPI)—A Texas Farm Bureau official says that the National Broadcasting Company was unjust to the American farmer during the May 17 "Today" television show, and asked that equal time be given to a spokesman for farmers. The show "left the American public with the idea that farm workers in the Lower Rio Grande Valley are starved by unmerciful, inhumane employers," Sidney Dean, president of the Farm Bureau, said in a letter to the Federal Communications Commission in Washington. Dean said that Cesar Chavez, director of the United Farm Workers Organizing Committee, appeared on the television program and left the impression that workers in the Valley "are paid starvation wages, as low as 40 cents an hour." He said fruit and vegetable growers pay the \$1.15 per hour federal minimum wage. A telegram was sent May 17 to the "Today" show, requesting equal time for farmers, but the show did not even reply, Dean said.

## Dear Abby

By Abigail Van Buren

DEAR ABBY: I work in an office. The management went to a lot of expense to put in music. It's supposed to increase your efficiency, but it doesn't increase mine. In fact, it slows me up. Those tunes bring back memories. Some are good, but some are depressing and my mind wanders off, and I start thinking about everything but my work.

I asked my boss to cut off the music where I work. It's a whole area so they took a vote, and I lost. So the music stayed. I work a lot better when it's quiet. Am I nuts? Or are they?

DEAR WONDERING: Nobody need be "nuts." You're entitled to your own preferences, but in a "democratic system," the majority rules. (P. S. If it will make you feel any better, I'd have voted with you.)

DEAR ABBY: We are going to a wedding where the bride will be 4-months pregnant. Both she and the boy are 18 years old and will have graduated from high school the night before. What is the proper thing to say to the young couple as well as to the parents when we go through the receiving line?

DEAR WONDERING: "Congratulations."

DEAR ABBY: How many chances do you think a person is entitled to? My wife was a nice, clean-cut girl from a good Christian home when I married her. (In fact, her Daddy was a minister).

When our first child was 10 months old I came home from work one day and found the baby wet and screaming and all alone. My wife came home in a taxi at eleven o'clock that night, dead drunk.

She said she went to the corner grocery store, met a friend, and they went out for a "drink." One led to another and before she knew it, hours had passed. She begged for one more chance, so I gave it to her.

This has been going on for 8 years, and it's always the same story. I can't count the "one more chance" I've given her.

We have two kiddies now, and my mother says she will take care of them for me if I decide to leave my wife. Abby, I love her. When she's sober, she's a wonderful, sweet person, but I can't go on like this. She's begging for "one more chance." What should I do?

BIG PROBLEM DEAR ABBY: Tell her you will give her one more chance if she agrees to give "Alcoholics Anonymous" a chance. A. A. has succeeded when every other

## Mrs. McCuiston is Named Miami Worthy Advisor

MIAMI (SpI) — Mrs. Alpha McCuiston was installed recently as Worthy Matron of Miami Chapter No. 98 Order of the Eastern Star.

Installing Officer was Mrs. Florence Dodson; Installing Marshal, John Shearer; Installing Secretary, Mrs. Faye Bean; Installing Chaplain Mrs. Tommie Maddox; Installing Organist, Mrs. Effie Jenkins; Installing Warder, Mrs. Mildred Cunningham; and Installing Sentinel, Glynn Dodson.

Following the installation, refreshments were served.

in the IOOF Hall with noble grand, Mrs. John Simmons presiding.

Three cards were reported sent and five visits were reported made.

Dutch Grant was reported ill and a patient in the North Plains hospital in Borger.

Rebekahs Attend Meeting in Hall  
SKELLYTOWN (SpI) — Skellytown Rebekah Lodge attended a regular meeting recently

## Horoscope Forecast

By Carroll Righter

Friday, June 14

GENERAL TENDENCIES: Now you have a wonderful day to be very, very social and whatever interests you where the public or the government is concerned can be very helpful to you for some time to come. Get out in the world of people and show you are a good friend and show appreciation for the country which has done so much for you.

ARIES (Mar. 21 to Apr. 19) Taking more interest in social things is good right now as you are still on your little veranda and get a touch with congenials. That aim you have been finding hard to gain is right in the palm of your hand now, smile.

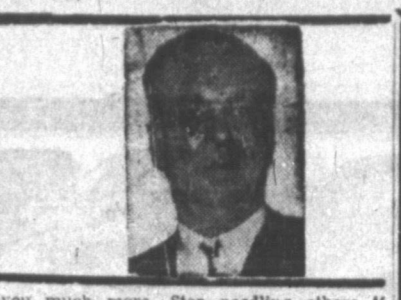

TAURUS (Apr. 20 to May 20) Since everyone around you seems to be busy with civic affairs you might just as well join in with them, since you have a lot of spare time. Don't neglect to get that important business affair handled first, though, be clever.

GEMINI (May 21 to June 21) You couldn't find a better day than this to plan that trip or look into some new and interesting avenue of expression. You can get a new idea now of what is important. Show that you are a smart, clever person.

MOON CHILDREN (June 22 to July 22) Search for those persons quietly who are experts in their field and yours and show you enjoy being allied with them. Don't neglect that important government affair. Taking chances could be very dangerous.

LEO (July 23 to Aug. 23) Showing loyalty in all, whether in business or personal relationships is your best mode of operation now. Forget your self and do what is best for family unit etc. Get a cheerful attitude and you make others happier, too.

VIRGO (Aug. 24 to Sept. 23) Show that you are conscientious by assisting those who are in real need. Try some new method and you find that others appreciate it.

Stop needing others if you want to be happy.

LIBRA (Sept. 24 to Oct. 23) You must take advantage of this day to have a really good time with your firm friends. Since you are always too busy for fun, put aside all those worries. Others close to you should assume some of them anyway. Don't be a fool.

SCORPIO (Oct. 24 to Nov. 21) It is important that all you accomplish now, either in business or at home, so do nothing that will upset the applecart. You can also get out a good day's work. Entertainment should be done at home in P.M.

SAGITTARIUS (Nov. 22 to Dec. 21) You can find the time you need to meet with persons you like. If you plan your work wisely and go through with it sensibly, there is no reason why your day has to be so dull, full of tension. Be wise.

CAPRICORN (Dec. 22 to Jan. 20) You have to think along more up-to-date lines if you want to get finances where they really should be. Time spent at bookkeeping could also net you some extra money. Know what your real position is, and then you can succeed.

AQUARIUS (Jan. 21 to Feb. 19) This is one free day you have for doing all those things you've delegated to the back ground but that are most fascinating and could be very lucrative. See some of the people you've held in scorn whom you had little time lately. Give 'em a boost.

PISCES (Feb. 20 to Mar. 20) You have to do some private angling and this is one day when you can have a regular day at it. Some very close the now loosen up and give you the data you want. Don't blow your top at some information of a personal nature, though.

IF YOUR CHILD IS BORN TODAY, he or she will be one of those charming young people who is almost a mind reader and can and will do much to help and please others and for that reason will be very successful in established businesses, etc. Be sure you permit your progeny to have many buddies around early.

## NEW WAY TO A BEAUTIFUL BUSTLINE

Los Angeles—Are you a woman whose figure is on the good side but might look perfect if your bustline were improved? You'll be thrilled by the new easy way science has discovered for you to acquire this kind of figure perfection. If your bra size is less than 32 and larger than 36, A, B or C, then this new idea is not for you. If your bra size falls within this range, then you can realize a new, youthful, naturally rounded bust silhouette without special exercising or heavy, unnatural padding.

Young Secret is an all-new kind of weightless wonder bra constructed of science fibers. One startling innovation is the manner in which this bra, once put on, feels just like you. It actually moves as if it were you and looks perfectly natural in every possible way.

The bra itself is of a beautiful nylon lace over a polyester fiberfill that retains its natural shape for the life of the bra. The straps are comfortably stretchable and easily adjusted. The band is also stretchable for maximum freedom and comfort. This bra gives your figure everything that's possible with a bra.

"Young Secret" bras are the peak achievement of the designer-genius, Olga. They are available in both fully padded (sizes 32-34-36, A and B) and contour shell cup (C cup size, too) styles. In white, black and fashion shades. They can be found in our area at

**HOW TO DISPLAY THE FLAG ...**  
Respect should always be shown for the flag and the following practices are recommended:  
The flag should always be raised and lowered by hand. It should be displayed only between sunrise and sunset. When raising the flag, it should be unfurled. First after unfurling, hoist it quickly to the top of staff. When lowered, it should be done slowly and with dignity. When the flag is displayed other than being flown from a staff, it should be displayed flat, whether indoors or out. When displayed in a window, it should be displayed with the stars uppermost and to the flag's own right (to the left of the observer). It should not be allowed to touch the ground or floor, nor to brush against objects. Place no objects on or over the flag and do not use the flag as part of costume or uniform.

# Pampa Rebels Rally In Sixth Inning For 8-3 District Win

By WES DUMONT  
Daily News Sports Editor

The Pampa American Legion baseball team won its second home game in a row when the Rebels scored five runs in the sixth inning to top Wheeler American Legion 8-3, in a district contest here Wednesday night.

In the sixth inning, the Rebels batted around as nine players went to the plate. Five hits including John Jenkins' triple and Alvin Achord's double led to the victory margin.

Although Jenkins' triple was recorded as the longest hit for the winning Rebels, Achord's double was easily the hardest-hit and longest base hit of the game.

The ball caromed off the right field wall, some 350 feet away from home plate, and looked as if it would be a home run when hit. Wheeler right fielder Dave Britt played the ball like a major league outfielder—getting it quickly on the hop and rifling it to second base.

Mark Robinson led off the second inning with a triple for

Wheeler. Britt also tripled in the third inning, a hit which accounted for two of Wheeler's 3 runs in the third inning.

Pampa scored single runs in the first, second and fifth innings. Larry Turcotte's sacrifice fly in the first inning was good for an RBI and plated Jenkins, who had previously singled.

In the second, starting pitcher Jerry Heasley helped his own cause when he singled home Scotty King, who had previously singled.

In the fifth, third baseman Tommy Hawkins' single aided in scoring Alvin Achord, who had previously walked.

Pampa got hits every inning. The Rebels had a total of 11 hits. Wheeler had a total of six hits including two triples.

**LAST LOOK**  
BOSTON (UPI)—Owner Peter Fuller announced Wednesday that his controversial 3-year-old Dancer's Image will make his final appearance on a race track June 19 when the colt will parade around the course at Suffolk Downs in a prelude to the 34th running of the \$50,000 added Massachusetts Handicap.

Disqualified first to last in the Kentucky Derby and dropped from third to eighth after a bumping incident in the Preakness, Dancer's Image will soon be put out to stud.

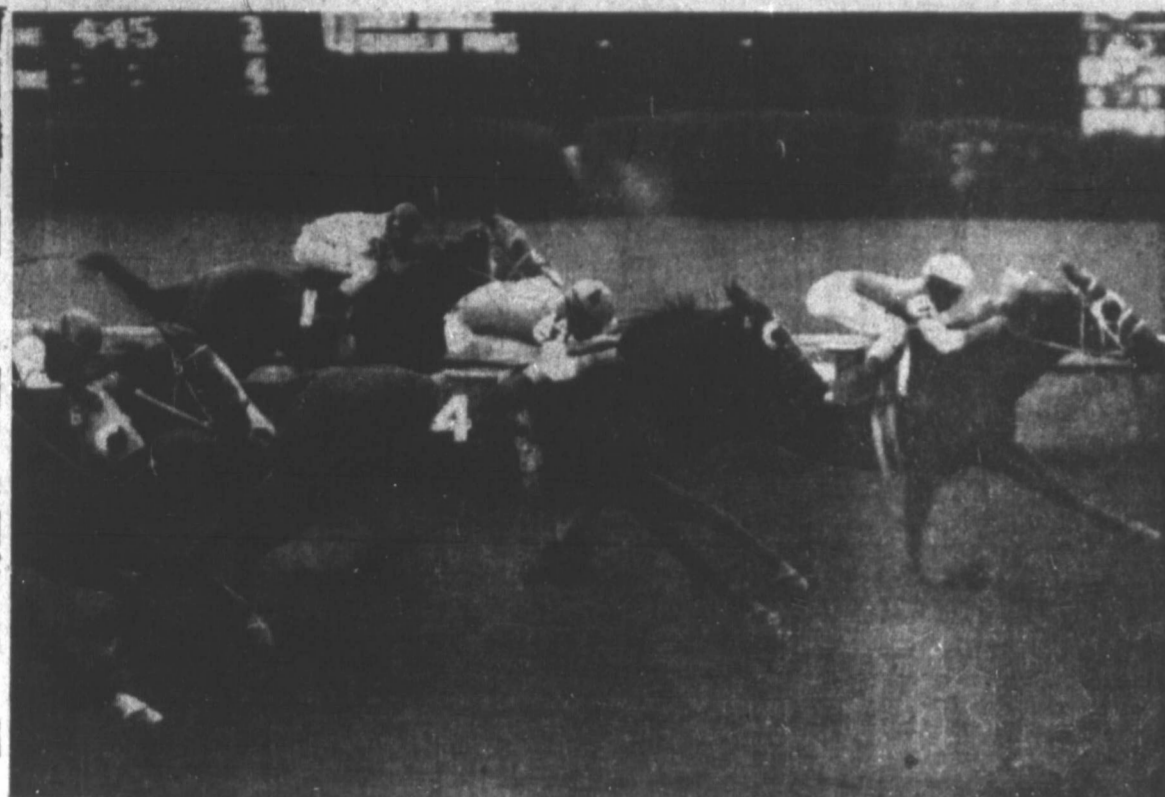

Wheeler, which has no high school baseball team, is playing in the northern division American Legion baseball program for the first time this year. The high school, which has about 140 students, certainly fielded an excellent club for their first year in the American Legion baseball circuit.

Jerry Heasley was the starting hurler and pitched the first four innings leaving the contest with Wheeler in the lead by a score of 3-2. Al Gomez was credited with the win in hurling the final three innings when

**FOOTBALL TRADE**  
FAIRFIELD, Conn. (UPI)—The New York Giants dealt speed for size Wednesday when they acquired 6-foot-3, 235-pound Barry Brown of the Baltimore Colts in exchange for 6-3, 195-pound defensive back Henry Carr.

A former Olympic sprint champion, Carr was a regular in 1966 but was hampered by injuries last season. Brown, a linebacker and tight end, played in all 14 Colt games last season, but saw duty primarily on the special teams.

by the Colts, scored 1,462 points in his three year career for the Bonnies, and last season averaged 20.9 per game for the nation's third-ranked quintet.

SEA NYMPH was awarded first prize money in the Oklahoma Derby last Sunday at La Mesa park in Raton, New Mexico, after the track disqualified Go Far Far Bob and placed him seventh for interference in the running of the contest.

## Casper Rated 5-2 Choice Over Field In US Open Golf Event

By MILTON RICHMAN  
UPI Sports Writer

ROCHESTER, N.Y. (UPI)—The new motto here is, "look out for the young lions," but the "mart money" will still be riding on Billy Casper, a member of the old guard, when a 150-man field tees off today in the first round of the U.S. Open golf championship.

Casper, the leading money-winner of the year and winner of four tournaments on the regular tour so far this season, will be 37 in two weeks and the odds-makers believe he will have his third open title by that time.

They have installed him a 5-2 favorite, as solid a choice as Weiskopf, Bob Lunn, Marty has been ever named for this

annual golfing classic, with defending champion Jack Nicklaus pegged the second choice at 3-1 and Arnold Palmer and Gary Player bracketed together at 4-1.

**Casper Ready**  
"I'm playing the best golf of my career," offered the relaxed Casper, who came here straight off a victory at Indianapolis, "and I'd rather win this tournament than any other one I know. I feel fine mentally and physically and I'm ready for this course which I realize is a difficult one."

All the competitors, including Palmer and Nicklaus and some of the young lions like Tom Weiskopf, Bob Lunn, Marty Fleckman and Lee Trevino,

realized the same thing after finishing their final warm-ups over the heavily-trapped, 6,962-yard, par 70 Oak Hill Country Club course.

"The golf course is beautiful but I don't like the sand traps," declared Palmer.

He wasn't alone. There are 66 traps on the course and there wasn't a man in the entire field who didn't forget to include his sand wedge among the 14 clubs in his bag.

**Boros Contender**  
With the sand being so much a factor another member of the old guard, 47-year-old Julius Boros, also was given a decent chance. Boros, one of the six former K.S. Open champs in the field, generally is considered the finest sand player in the game today.

Put the young sluggers on the tour, "kids" like Fleckman, Weiskopf, Lunn and Trevino also were drawing considerable support among that segment of the gallery which glories in following the potential winner.

Fleckman led the field after the third round in last year's U.S. Open at Baltusrol in Springfield, N.J., but saw his chances go down the drain with a final day 80.

"I said I didn't think he could win last year and it turned out I was right," said Palmer. "But this is a different year. If he was in the same position again coming into the final round I wouldn't be so sure he couldn't win. He has the experience now

**White Deer Junior Rodeo Completed**

**SKELLYTOWN (Sp1)** — A total of 137 contestants enjoyed the thrills and spills of the White Deer Junior Rodeo during two performances last week. The show was opened by American and Texas flag bearers Virginia Mooney and C. W. Freeman; pivots were set by the White Deer Junior Riding Club. The Grand Entry was led by Miss Cindy Jordan. Invocations were given by the Rev. Oland Butler and Rev. Joe Blakney. Livestock for the show was provided by Baxter Haley of White Deer. Rodeo officials were arena director, Don Pohnert; riding judges, Peeler Haney and Dave Lane; field judge, Guy Andis; peck-up men, Tooter Henry and Bill Hext. Time-keepers, Dusty Rhoads, and Jack Houston; clown, Mike Smith of Canadian; stock contractor, W. R. Hext of Canadian; announcers, Hunter-Boughan and Grady Milton; and

**Housework Is Good For Figure, It Says Here**

by PATRICIA MCCORMACK  
**Woman To Woman**  
**NEW YORK (UPI)** — Look kindly on your mop, broom, scrub brush and dust cloth. These things can be beautifiers—for your figure. Or didn't you know: Your can scrub, dust, sweep and mop your way to a better figure while doing housework. Granted, surroundings aren't as posh as those in \$500 to \$700 a week beauty spas. But the benefits of housework properly done, can come terribly close to being equal. **Housework Recommended**  
The Cleanliness Bureau, which suggests considering the housework way to beauty, recommends also that dusting, sweeping and scrubbing be done with windows open. This helps you derive maximum effects from breathing in and out deeply while working at the dirt-chasing chores. **Some hints:**  
—When you reach up to dust a high shelf or wash the woodwork, stand on toes and stretch body upwards. This is good for ankles, legs, posture.  
—Scrubbing floors with gusto helps firm up arms, shoulders, back, stomach, waistline.  
—Washing dishes firms arms and upper back.  
—When sweeping, pull your stomach in, hold your shoulders back. Swing broom with long, free movements so you can feel the pull.  
—Grab handle of broom at each end, stand with feet apart, raise broom high and stretch up. Then lower broom and repeat this over and over. Add a few stretches each day. When you can do it 15 times, you'll be in the winner's circle. But there's more than housework exercise to being your nicest and most beautiful self. You also must feel nice inside, the bureau reminds in a new booklet, "Beauty is Easy... At Any Age."

**List of Habits**  
To achieve this nice feeling, authorities recommend:  
—Be pleasant and cheerful. Develop a good sense of humor and smile a lot.  
—Praise your husband and children a lot.  
—Speak softly and kindly. When you scream, scold and use cross words, it puts ugly creases in your face.  
Good eating habits also help to beautify. Try to eat and have your family eat some of each of these types of food daily:  
—Meat or fish or poultry or eggs; vegetables or fruit and salads; milk or cheese or other milk products; bread or cereals.  
Birthdays really won't count for much if you do all of these things, the experts promise. Millions of women from 16 to 66 look and feel young because they eat sensibly, feel nice inside and keep fit with exercise.  
P.S.—This includes television and movie stars.

**FAT OVERWEIGHT**  
Available to you without a doctor's prescription, our product—Orlistat (Orlistat). You must lose 10% of your body weight. Orlistat is a fat tablet and easily swallowed. # The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license, nor anarchy. It is control and sovereignty of oneself. No more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

## Fly Flag for Freedom

No matter how Americans divide themselves—politically, religiously, ethnically, geographically—they are, or ought to be, united beneath one symbol that is common to them all—the flag.

No matter how they may dispute among themselves—about the priority of problems facing the nation or the solutions of them, or about the wisdom of this or that decision by the government—they are, or ought to be, united on one goal—the preservation of the nation which the flag represents.

This is elemental patriotism, and it is shared alike by the conservative on the right and the liberal on the left and everyone in between. The flag is broad enough to cover all Americans, says Don Oakley of News-Enterprise Assn.

## Lawn Valets' Heyday

America's love affair with the internal combustion engine has moved from the highway to the driveway.

From a \$62-million annual volume five years ago, the power mower industry has soared to a hefty \$234 million estimated for 1968.

Center of all this are riding mowers and lawn and garden tractors, which are expected to account for a third of the industry's sales this year—some 900,000 units—while manufacturers compete in a horsepower, options and styling race that would do Detroit proud.

Standard equipment for the new tractors includes tires, parking brakes, fuel gauges and, on many models, electric starters. Horsepower has inched up from four or five a few years ago to seven to 12 today.

# The American Way

By D. R. SEGAL

When the other cats ask me how I feel about Ronald Reagan I tell them, "Cool it, man. Let's see what's in his bag." I confess to something less than palpitations at the mention of his name, although I have nothing much against him. I do recall that in my Hollywood days (ah, Ben Turpin!) he was known as a noisy and bumptious organizer of a union known then and now as the Screen Actors Guild. We cannot hold this youthful adventure against the mature and thoughtful Governor Reagan; we may put it down to hyperactive adrenals or some sort of itch he couldn't quite scratch.

Governor Reagan's present position viz a viz unions parallels almost exactly that of the late David Stern, the publisher from Philly. Mr. Stern helped create the American Newspaper Guild. When it grew up, it put him out of business. We never will learn the lesson of Doctor Frankenstein.

What held me back from lending my full support to Governor Reagan, even though it might have meant his nomination, was his connection with the business of acting. Actors I have known are an incredible lot. They're always looking in mirrors, even when there aren't any mirrors around. They gaze into your eyes not to discover the message of your soul but to check how their hair looks.

Now, the business of acting poses a menace but, as I have

## GLOBAL VIEW

# Blame Czech Defiance On the U.S.

By LEON DENNEN Foreign News Analyst

UNITED NATIONS, N. Y. (NEA)—The Russians have finally "discovered" that American imperialists are behind Czechoslovakia's unprecedented experiment in liberalism.

An editorial in Krasnaya Zvezda, mouthpiece of Moscow's marshals and generals, assets the United States is seeking "to exploit for its own dirty purposes" the "internal processes" in Czechoslovakia.

It was inevitable that the Russians and their frightened puppets in Poland and East Germany should blame the Americans for the reforms currently under way in Prague.

But the tone of the Krasnaya Zvezda editorial shocked even East European diplomats familiar with Communist double-talk. They interpreted it as a Soviet threat to employ armed force against Czechoslovakia.

"If and when the Russians and their allies decide to invade Czechoslovakia they will use the danger of American subversion as the pretext," one diplomat said.

Anticipating Moscow's charge of American complicity, Yugoslavia's leading newspaper Politika warned the Russians not to turn the clock back. The West, especially the United States, can no longer be blamed for the ferment in Czechoslovakia, Romania and elsewhere in East Europe.

Politika's editor said, "The time has come for the Communists to credit or blame themselves for everything good or bad that happens in their countries."

But the Russians and their puppets must find a scapegoat for their troubles in East Europe. The essentially anti-Soviet upsurge in Czechoslovakia is too bitter a pill for them to swallow.

What's happening in Czechoslovakia may be the biggest crisis that the Brezhnev-Kosygin regime in Moscow has had to face since it came to power in 1964.

Premier Kosygin, seems to be opposed to the use of force against Czechoslovakia, is even reported in some diplomatic circles to be on the way out.

The latest crisis in the Kremlin has actually been brewing since last June when Israel defeated the Arabs. Brezhnev and Kosygin were blamed for the failure of Soviet policy in the Middle East.

But in June the Kremlin's "collective leaders" were still working as a united team. With the support of the Red army they were strong enough to beat back the challenge of their opposition led by former Police Chief Alexander Shelepin.

Now Moscow's marshals and generals are believed to be backing the opposition. The military and Communist party hard-liners in Russia, Poland and East Germany fear that Czechoslovakia's eventual defection would result in the total disintegration of the Warsaw Pact military alliance.

More ominous for Czechoslovakia is the reported rift between the dovish Kosygin and Communist chief Brezhnev who is among those, in and out of Russia, who want to deal harshly with Czechoslovakia.

We are thus, witnessing only the first act in the unfolding East European drama.

So far, the new Czechoslovakia leader, Alexander Dubcek, has played his cards cannily. He assured the Russians of his eternal friendship. He agreed to take part in Warsaw Pact military maneuvers. But he bluntly rejected Moscow's proposal to station 12,000 Russian and Polish troops in Czechoslovakia.

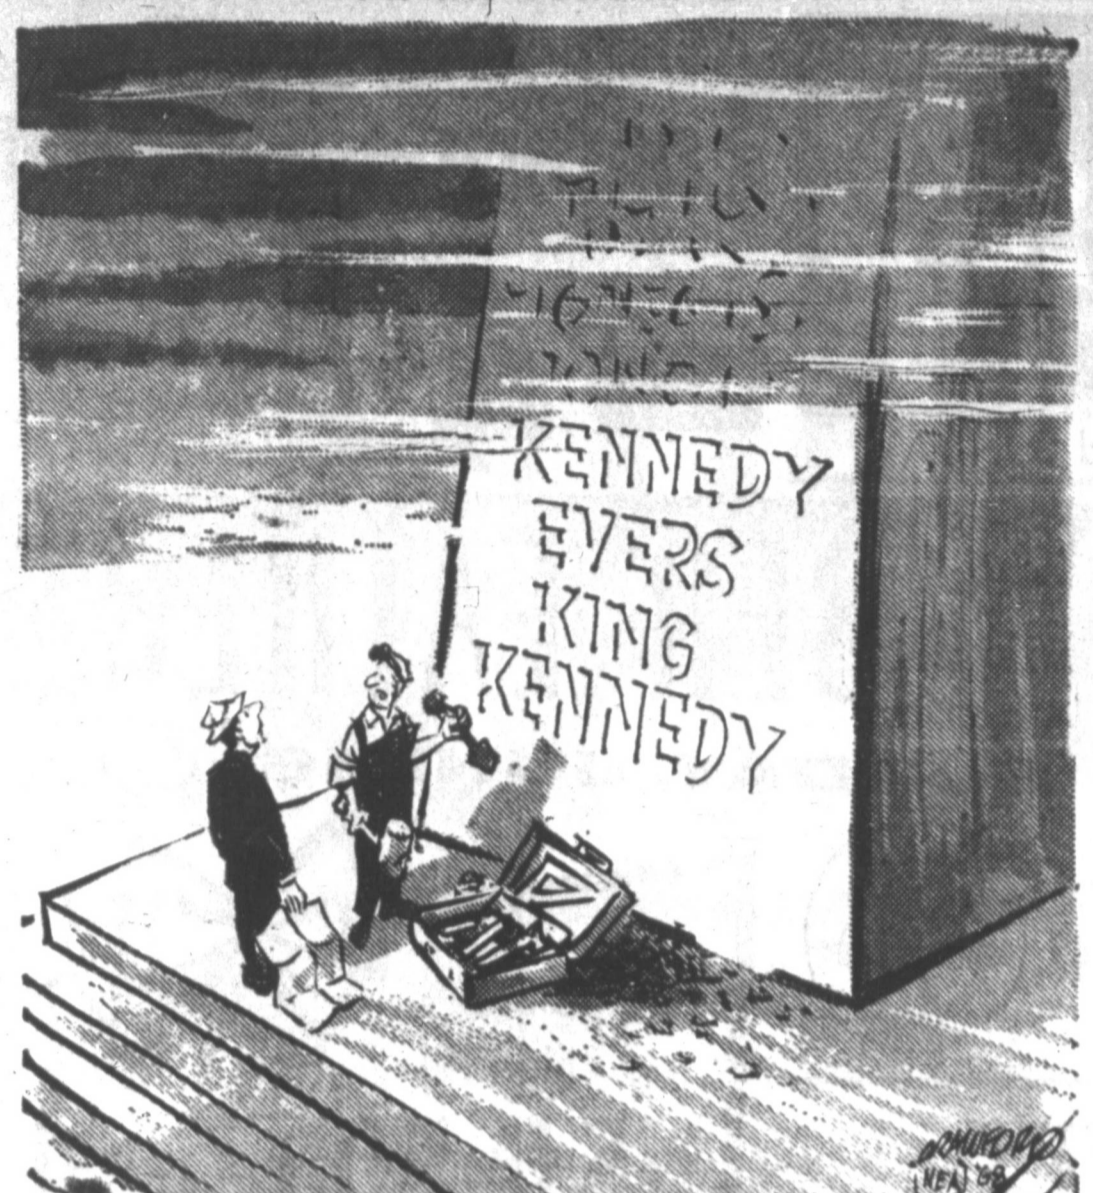

Dubcek is playing for time. But time may not be on his side unless the NATO allies warn Moscow not to embark on military adventures in East Europe.

## Wit and Whimsy

Bill (as he caught up with Gus on the way back to camp) — Gus are all the rest of the boys out of the woods yet?  
Gus — Yes.  
Bill — All six of them?  
Gus — Yes, all six of them.  
Bill — And they're all safe?  
Gus — Yep, they're all safe.  
Bill — (with a cheer swelling) — Then I've shot a deer.

Financial Wizard — Where in the world does all that grocery money go that I give you?  
Wife — Stand sidewise and look in the mirror!

## Backstage Washington

Clark Memo Urges First 'Reason,' then 'Ultimate Force' for Disorderly Demonstrators June 19

ROBERT ALLEN PAUL SCOTT

WASHINGTON—Despite the massive damage caused in the nation's capital during last April's violent rioting, Attorney General Ramsey Clark is still insisting on kid glove handling of militant demonstrations in or near federal buildings.

In making preparations for the massive June 19 protest of the "Poor People's" campaign, Clark is stressing that government officials should first try to reason with demonstrators to find out what they want before making arrests or clearing them from federal installations.

Instructions now being circulated by the attorney general to heads of all government departments and agencies caution that "care should be taken to deploy building guards and other law enforcement personnel in the least provocative manner" during protests.

Clark's security memorandum in setting down strict guidelines for making arrests, states: "If demonstrators attempt to enter, or after entry refuse to depart, or if there is otherwise a threat to government functions or property, the official-in-charge should talk to the leaders of the demonstration to find out exactly what they want or propose to do."

"If the demonstrators are disorderly or if they will not agree to a voluntary departure from the building, the official-in-charge should take steps to require their withdrawal."

"The official-in-charge should determine that sufficient law enforcement personnel are on hand and then inform the demonstrators that they must leave the building within some brief period of time or face arrest."

THE LAST RESORT—If these methods of peaceful persuasion aren't effective, the heads of government departments and agencies can then order the arrest or removal of the demonstrators from their buildings.

But they are cautioned by Clark that "the minimum amount of force necessary to accomplish the purpose should be employed."

In the case of "lie-in situations"—where the protestors lie down in buildings and refuse to leave, the government officials are instructed that the "use of stretchers and wheel chairs can help insure use of minimum force."

If any government official is convinced there are reasons why he can't follow these procedures the federal official must consult immediately with Clark or the assistant attorney general in charge of the Justice Department's Criminal Division.

According to the latest information gathered by the Federal Bureau of Investigation, thousands of radical students plan to penetrate and try to seize control of government buildings during the coming massive "Poor People's" demonstrations.

## REDUCTION OF VIOLENCE

Once more the Establishment, with great show of piety and concern over another assassination, has rushed forward in an apparent effort to enact the legal measures which are said to represent the latest martyr's wishes.

But there's a curious failure to make comment right where it ought to be made, the matter was overlooked to a degree when Martin Luther King was struck down, and it has been entirely overlooked since Robert Kennedy joined him in death.

Indeed, ever since the assassin's attempt and even while Robert Kennedy lay mortally wounded but still breathing, the Establishment was moving as frantically as possible to focus everyone's attention on fire-arms in an effort to obtain some kind of anti-gun legislation.

But this was not really the major concern of Robert Kennedy. Indeed, he had had some misgivings about too broad an approach to anti-gun laws, although he favored every legal device that could be contrived which he thought might serve to reduce crime.

But the major cause which had enlisted Robert Kennedy and had served to push him into the presidential race was his hostility to the Vietnam war. Curiously, this was also a major objective of Dr. King.

And while the Establishment is most eager to make it appear that it can't do enough to end violence and attain whatever objectives and aims these American martyrs sought, there has been little evidence that anything will be done to halt the making of war as a governmental policy.

So, while the nation mourns the death of Robert Kennedy, little is said about the deaths of more than four hundred equally fine Americans who were killed on foreign soil during the week of the California primary. We dramatize and put on nine-day funerals for the great and the would-be great, but the unsung heroes are those who were drafted and forced into servitude on foreign soil. If there were a shred of decency in Establishment hearts, the responsible parties would now join hands at once to stop this violence. And one can't help but

The Justice Department's memorandum points out that before the end of the month a riot-control command center at the Defense Department will be in full operation.

It will be headed by Lt. Gen. George R. Mather, who was in charge of deployment of federal forces in Chicago during the violent April civil disturbances and riots.

The good old days? Floorwalker — Just act surprised and tell them you didn't think they were old enough to remember back that far.

Fifty years ago a man finished a day's work and needed rest. Today he needs exercise. can be deployed in the area.

# The Doctor Says:

By DR. WAYNE BRANDSTADT

## Child's Home Atmosphere Plays Part In Tantrums

Sometimes a previously well-behaved child of 5 or 6 will throw a tantrum. Although very few parents will consult a physician when this happens, if the episode suggests a marked change in the child's personality, it should be investigated. In some cases, the child has become a perfectionist too early in life. He may be setting for himself such high goals that he simply cannot achieve them.

Usually this is a child who prefers the company of adults to that of children his own age. Because he cannot handle his frustrations, he cries easily, goes into seclusion or has a tantrum. If corrective measures are not applied, he may become an obsessive-compulsive neurotic within three to four years. If this happens, consultation with a child psychologist will be necessary.

What is needed when a child shows signs of becoming a perfectionist is a more relaxed home atmosphere. This can often be accomplished by arranging more recreational activities that involve the whole family—outings, games, or reading and singing together. It is also wise to encourage more friendship with other children by having them in your home and allowing him to visit them in theirs.

## At the opposite pole, tantrums are sometimes caused by the parents demanding too little of a child. If he does not know what is expected of him and has not yet learned to differentiate right from wrong, he will feel that he has been cast adrift in a complex world that he does not understand and his frustrations will mount to the breaking point.

Q—My 16-month-old son has fibrous dysplasia of his left tibia. What causes it? What is the best treatment? Is it hereditary?

A—In children with this developmental defect, bone cysts occur. They are limited to one side of the body. The affected bones are fragile and easily broken. For this reason a brace or other form of support for the affected leg will be necessary. In some, but not all persons, overactivity of the parathyroid glands is the cause and removal of these glands will effect a cure. The condition is not hereditary.

Q—Is it safe for a 1-year-old child to watch television most of the day?

A—It is physically safe, but what an early age to start depriving your child of the many other good things life has to offer!

## Question Box

(We invite questions on economic and the proper functions of government which will not insure anyone.)

QUESTION: Human Events said Washington is sending LeRoy Jones \$400,000 for "his" poverty program. Will this money be used to help the poor people, or will it be used to kill off the white people as he advocated on the Les Crane TV show?

ANSWER: We have no way of knowing how the money will be spent. From past experience with the use of governmental programs designed to end poverty, most of the funds have gone either to employ high-paid poverty workers or to finance people in activities which tear down rather than build up the nation.

However, late accounts indicate that Jones may be changing his tactics. After Dr. King's death, he was quoted by the Washington Post as saying: "I'm in favor of black people taking power by the quickest, easiest, most successful means they can employ. Newark is where the ballot seems to be most advantageous. I believe we have to survive. I did not invent slavery; I didn't invent the white man. What we are trying to do is deal with him the best way we can. . . . Black men are not murderers. . . . What we don't want to be are die-ers."

We repeat that government largesse cannot solve poverty. Whether the "middleman" is LeRoy Jones or Sargent Shriver. Poverty can be alleviated by individuals working in their own self-interests, which includes helping others because it's good business.

marvel at the hypocrisy of those in power who plead for non-violence on hand and plan future military forays during the same day. Pretending to be shocked and stunned over an assassination would lose its phinness if an equal amount of shock and grief accompanied the Vietnam war.

I have noted that Mr. Johnson has appointed a commission, headed by Milton Eisenhower, to study the causes of violence in the nation. Whenever public anger and disgust reach a dangerous level, the President takes off some of the pressure by appointing a commission to do something.

But if Mr. Johnson and the others who express great concern over the violence in our streets really want to conduct an honest study, they can begin in the White House and include the halls of Congress, and come right on down to state and local government operations. We are a culture that has erected its structure on violence. That it may crop up privately on occasion is certainly not surprising. Indeed, it is predictable that there will be more of it. We have lived constantly with the violence of government pressing upon us. Americans are taxed, regulated, suspected, charged, investigated, fined, drafted, and jailed. And who does all this? Their government, which for many years has been a government of the government, and for the government.

If you would like to see an end to assassinations, let the

## Clearing House

Articles for this column are preferred to be 200 words or less in length. However, longer articles may be printed. All letters must be signed with name and address.

Editor:

But for the shocking tragedy the night following his sensational primary victories in California and South Dakota, Senator Robert F. Kennedy was the probable nominee of his party for President. I feel the Democrat Party should nominate for President either able Senator Edward M. Kennedy or Sargent Shriver Jr., U.S. Ambassador to France, both stalwarts throughout the 1960 John F. Kennedy campaign and subsequently in service to the nation.

The electorate should be given the opportunity to show their approval of the personalities and practices of the Kennedy family. For Vice President the convention should choose a proven vote-getter such as Illinois Governor Otto Kerner, Iowa Governor Harold E. Hughes or U.S. Senator Stephen M. Young of Ohio, all in important areas. My announced support of President John F. Kennedy in the 1960 election campaign may have been the deciding factor in Illinois and Missouri, where my relatives have been well known Republicans for 90 years.

Both major parties owe to the American people and the democratic processes to offer the electorate good choices for President and Vice President. For the Republican Presidential nomination, former Vice President Richard M. Nixon, who has won 5 elective offices and lost 2, would be a strong nominee and for Vice President Ohio Governor J. A. Rhodes or House Republican leader Gerald R. Ford of Michigan could serve their party nobly.

H. L. Hunt  
1401 Elm St.  
Dallas, Texas

government begin by stopping the ar. cutting the taxes, and abolishing investigations, so that average, normal people can be let alone.

## WORLD ALMANAC FACTS

The World Almanac reports that a "missing link" in the evolution from wasps to ants was found recently on the shores of Raritan Bay, N.J., preserved in amber or fossilized tree resin. Study of the insects, half-wasp and half-ant, indicates that the world's first social insects date from 100 million years ago, a time when dinosaurs were becoming extinct.

## Television In Review

By RICK DU BROW

**HOLLYWOOD (UPI)** — That coast-to-coast thud you heard on a network television Tuesday night was the signal that summer's musical-variety replacement series have arrived with a vengeance.

CBS-TV presented a new one-hour series called "Showtime," and NBC-TV countered with a 30-minute entry named "Showcase '68," and the proceedings were every bit as thrilling as the titles.

"Showtime," which replaces the Red Skelton program for the summer, is produced in London, for the American audience, which means it's really not here nor there, but rather a show without a country. Swinging London it ain't. Maybe they like it somewhere in the mid-Atlantic.

Shelley Bombs  
 There are guest-star hosts each week for this series, and the first was Shelley Berman, a comedian with a sharp sense of focus who, alas, found himself

on a program with no focus at all. It affected him, and he wasn't the same Shelley we know, as he opened with a dreadful monologue about London time and failed to recover.

There were also a dated jazz band, a vocal-instrumental group from Paraguay, a German juggler and two British singers, Shirley Bassey and Matt Monroe. I have always heard good things about Miss Bassey, but the way she strained and hollered her way through "If Ever I Would Leave You" made one wonder: Pity.

Future hosts will include George Gobel, Phyllis Diller, Eddy Arnold, Liberace, Steve Allen, Juliet Prowse, Godfrey Cambridge, Frank Fontaine and Terry Thomas. Terry, or Thomas, or Terry-Thomas, whatever you call him, is British. How did he sneak in

Poor Execution  
 "Showcase '68" is an imaginative idea, executed with no imagination at all. The notion of

presenting professional regional entertainers in their first national television outings is a wise way to uncover some talent for the networks. But the format is stone-age television.

A regular host, Lloyd Thaxton, who used to have a syndicated series in which he did pantomime mouthings of hit records and the like, introduces the acts, and that's all.

One group, the Jade Set, rocked and ruined "Summertime." A few acts were enjoyable, including the Craig Hundley jazz trio, composed of amazingly young boys. But all in all, the show came across like a sort of semi-pro version of the long-running "Amateur Hour."

The settings for both of Tuesday's shows were nice enough. But one was reminded of the recent magazine article in which S. N. Eberman told how Ira Gershwin met Sam Goldwyn, who is over 80, at a party and complimented him: "You're looking very well, Sam." And Goldwyn replied, "What good does it do?"
