SUNDAY GUEST EDITORIAL

By FARIS ODEN, President of the Pampa Rotary Club

EDITOR'S NOTE: This is another in a series of "guest editorials" by prominent residents of Pampa and the northeastern Panhandle.

FAITH IN PAMPA'S FUTURE

In spite of the fact that a very small number of the citizens of Pampa have faith in its future, it has grown to a thriving, little city. Just why haven't we faith in Pampa's future?

Wichita Falls, Texas, was a small town before oil was discovered. The skeptics there said it was foolish to try to build a permanent city.

In Pennsylvania, where the industry had its beginning almost a century ago, these same skeptics said the boom towns would not last.

Just why the people of Pampa lack faith in its future is difficult to understand. Pampa is the capitol of the oil industry in the Panhandle of Texas.

Then, we do not need to fear that our city will dry up overnight. We do not need to fear that our investments will sink to small proportions in a short time because the oil industry will be with us for many years.

In addition to a sturdy oil industry, Pampa's trade territory is rapidly expanding and will continue to expand as we extend and improve our highways.

With faith, courage and a will to do among our citizens and business men, we can secure the things we want. We can build a city of which we can be really proud.

DAILY WASHINGTON LETTER

WASHINGTON—There is just a chance, in case anyone wants to be optimistic, that the country won't go to the dogs, regardless of who's elected.

This is said with full realization of the gravity of assertions that Roosevelt's re-election means chaos and dictatorship and that Landon's election would lead to black reaction and Fascism.

While it may be that there is more general worry about the future this year than practically ever before, conclusive evidence shows that such worry is by no means unique.

Early food and drug legislation badly needed to curb poisonous medicines and putrefied meat in cans, was denounced as unconstitutional, an infringement on state rights and, by Congressman Bartless of Georgia, as part of the "onward march to centralization and bureaucracy... inefficiency and corruption."

The celebrated Joseph H. Choate, attacking the income tax before the U. S. Supreme Court, said it was being "defended here upon principles as Communistic, Socialistic, and Populistic as ever have been addressed to any political assembly in the world."

Twenty-five years ago, lobbyists were opposing the parcel post law and telling congressional committees that "our government already has approached the halting line of Socialistic and paternalistic legislation."

Parcel post, it was said, would drive the small country merchant out of business and was an extension of bureaucracy.

This administration's references to "private Socialism" also seem to be old stuff. In 1888 President Grover Cleveland was warning against "the Communism of combined wealth and capital" in connection with proposed anti-trust laws.

Years later the American Bankers' Association was warning that the Clayton anti-trust bill would be injurious to business and the National Association of Manufacturers said "unless there is a cessation of hostility to legitimate business, the vitality of our commerce and trade will be critically impaired."

The Federal Reserve System bill was "revolutionary, Socialistic, and unconstitutional," according to Senator Aldrich of Rhode Island, and practically all the bankers insisted it was ruinous.

A western farmer caught in the rain without an umbrella, and was he mad with glee.

There have been few campaign speeches so far, so Mother Nature must accept full blame for all that hot air.

THIS CURIOUS WORLD By William Ferguson

BUTTERFISH LAY THEIR EGGS IN SEA SHELLS... THEN COIL THEMSELVES AROUND THE EGGS UNTIL THEY HATCH.

IT TAKES ABOUT 20,000 BEES TO BRING IN ONE POUND OF NECTAR.

ACTUAL weighings show that about 20,000 bee-loads are necessary to bring in a pound of nectar, which will make about one-fourth of a pound of honey.

MAN ABOUT MANHATTAN

By GEORGE TUCKER NEW YORK—It is paradoxically a truism that the lay-off season is when actors and actresses groom themselves for their big chances.

It is, of course, September that inaugurates any new theatrical season, but the selections of plays that are crowds are at the resorts and the Broadway sidewalks are tenanted mostly by players hopeful of new assignments.

One prominent star recalls that his "break" came as a result of crashing a party. Not that you can wheedle your way past the doorman, collar a prominent producer, and talk yourself into his graces.

Encountering him on frequent occasions, the producer became interested in the fellow and one day offered him a part. It was a much meatier role than he had hoped for, but he played it to the hilt.

But the "break" really came during the sultry summer season when the theater was snoozing.

The decision—and a startling one it was—of Elsie Janis to give away her fortune and devote the rest of her life to charity is reminiscent of "Mr. Deeds Goes to Town," starring Gary Cooper, which edified the citizens no end recently.

Princess Stalinsky used to be Elvena Rowe, loveliest of Georgia debutantes and regarded by critics as one of our lovelier sopranos of light opera.

Now the girl from the Savannah rose gardens is vacationing in the city where her greatest triumphs were gained. It seems ironic that she should have arrived on the day that Juan Sacasa lost his political head.

Q. How much do the railroads spend on fuel and equipment? W. R. A. Direct expenditures of the railroads of the United States for material, equipment and fuel during the first six months of 1936 totaled approximately \$432,000,000.

Q. When was the first Florence Crittenton Home for Girls opened? E. J. A. On April 19, 1883, the first Florence Crittenton Mission was opened at No. 29 Bleecker Street, New York City.

Q. Please give an easy way to figure what a parlay will pay at the race track? E. A. The Morning Telegraph says to multiply together the two winning mutual prices and divide by 4 to find what 1 pays. Thus: if two horses pay \$6 each—6 x 6 equals 36. Divide by 4. The answer is 9. The winner receives \$9 including the \$1 bet. If \$10 was bet, he would receive \$90. For a three-horse parlay, multiply the three mutual prices together and divide by 8.

Q. How much snow and ice was removed from the streets of New York last winter? G. E. A. The Sanitary Department in 30 days carted away 55,000,000 cubic feet of snow and ice.

Q. How many papers in the United States use color in their magazine sections? E. G. H. A. According to a survey made by the Chicago Tribune, 63 newspapers print their own magazine supplements and offer color to advertisers. To this total should be added 17 newspapers that include the American Weekly and 111 West Coast dailies which buy the Five Star Weekly supplement, making a total of 191 newspapers in 169 cities offering magazine color.

Q. How does climate affect the size of animals? H. S. A. Warm-blooded animals grow to a larger size where the temperature is low. But cold-blooded animals—snakes, alligators, and lizards, for example—grow larger in places where the climate is warm.

Q. How long is the Walling Wall? F. T. A. It is 156 feet long and 59 feet high. It is in Jerusalem near the Mosque of Omar. For many generations, Jews have gathered there

outstanding characters, Monroe H. Rosenfeld, newspaperman, gambler, and successful writer of such songs as "Wedding Bells Shall Not Ring Out and Her Golden Hair was Hanging Down Her Back. He is said to have suggested the name as covering the whole popular song-writing and publishing profession to Harry Von Tilzer.

Q. When was rhubarb first planted in this country? E. R. W. A. The first plantings were brought to America about 150 years ago.

Q. What is the origin of Flisco, meaning a failure? R. W. R. A. In the making of Venetian glass if the slightest flaw was discovered the article was rejected and converted into a common bottle by the glass blower. What was to have been Venetian glass was a flisco, or common bottle. Thus the idea of failure became associated with it.

Q. Where was Mary Gaden born? K. S. A. The famous soprano was born at Aberdeen, Scotland.

Q. Do many of the boys in the CCC camps obtain jobs outside? E. A recent survey shows that during the 12-month period ending May 31, 1936, 145,383 men left the camps to accept private jobs.

Q. What is the musical selection which recurs throughout the picture, "The Walking Dead"? M. P. A. It is Kamensky's "Ostrov" by Anton Rubinstein. The rest of the score is original music composed by staff writers.

HOW'S your HEALTH

Edited by DR. IAGO GALDSTON for the New York Academy of Medicine

PAIN Pain is a "cerebral function." While we refer the pain to stomach, tooth or limb, the "appreciation" of pain is really located in that portion of the brain known as the optic thalamus.

The German scientist, Karl Ludwig Schleich, demonstrated that even the injection of water in the region of the pain transmitting nerves could block the sensations.

Because the sensing of pain is a cerebral function, disease in one part of the body sometimes gives rise to pain in another part. Thus, irritation of the diaphragm will cause pain to be felt under the shoulder.

Atmospheric conditions also exercise an influence on pain. Humidity and rain aggravate it, while fair weather usually has a favorable influence.

AROUND HOLLYWOOD

BY ROBBIN COONS.

HOLLYWOOD—"Hand-me-down Gretchen" is a young lady the movie fan would not recognize now, unless she were billed as Loretta Young.

Loretta is clothes conscious in extreme, even clothes-mad—and she admits to an extensive wardrobe as her principal extravagance. If it needs justifying in her case, she is prepared: not only on the premise that all women are happier and hence more attractive and successful when well groomed, but also because her clothes represent a rebellion against the years she was "hand-me-down Gretchen" and wore the things Polly Ann and Sally Blaine outgrew.

"Before Polly Ann's birth," Loretta reminisces, "mother made 14 baby dresses and petticoats, all beautifully ruffled and hand-embroidered. The durable material and fine needlework survived washings and served Sally when she was born, and when I came along, they were passed on to me.

"It seemed to me that most of my life was spent in hand-me-downs, and I remember as a little girl wanting desperately one 'brun-new' dress without any mendings on it."

Talks to parents

ROOTS OF EVIL. By Brooke Peters Church.

Juvenile delinquency, of which so much is written and talked, is not something which has sprung up overnight. Nor can one lay one's finger on any one thing and say "This is what caused it."

Half the boys and girls who turn up in the courts are children who have no ideals, no mental pictures of what is good or beautiful. They are out for themselves and what they can get of money, adventure, popularity or fame.

Every town in the country is faced with the problem of these children whose power for evil is tremendous in a world of speeding cars and machine-gun technique.

Perhaps these boys and girls can be reached individually—some of them at least. More important is the need to reach the children who are still little, many of whom will grow up into a new generation of thugs and bandits.

It is here that visiting nurses and teachers can be of value to link home and school and learn the child's special needs by a personal knowledge of his environment.

And so Loretta Young buys clothes—instead of yachts and cars and airplanes.

FIRST BAPTIST CHURCH CLASS ENTERTAINED

MRS. FLORA MITCHELL IS HOSTESS TO MEMBERS

The 3-H Class of the First Baptist Church was entertained at the home of Mrs. Flora Mitchell, Thursday afternoon from 3:00 to 5:00. The living room was made beautiful with vases of gladioli and sweet peas. A miniature drug store, with Mrs. Tom Duvall at the fountain, proved to be the most popular attraction of the afternoon. A brief business session was held, under the direction of Mrs. A. N. Baxter, newly elected President of the 3-H Class. A devotional and inspirational talk was given by Mrs. Hattie Bush, after which the session closed with prayer led by Mrs. Duvall. Cubes of ice was served throughout the afternoon. At the close of the social, vanilla ice cream and Southern cookies were served to the following members: Sachse O'Keefe, Ethelyn Solomon, Ruth Baxter, Pearl Slaton, Mississippi Johnson, Elsie Cone, Estella Lancaster, Marjorie Lancaster, Jane Mitchell, Pat Mitchell, Lucille Duvall and the hostess, Flora Mitchell.

Gillhams, Wolfes, Will Be Honored By M. E. Church

The congregation of the First Methodist Church will hold an appreciation service in honor of Mr. and Mrs. J. O. Gillham and family and Judge and Mrs. Phillip Wolfe, who are leaving Pampa in the near future. These two families have served the First Methodist Church and city of Pampa long and faithfully. This service will be on the lawn of the First Methodist Church immediately following the evening preaching service and will conclude with a social hour and refreshments served by the circles of the Women's Missionary Society. Rev. Chester Carson will deliver the evening sermon and the service will begin at 8:15. All members are cordially invited.

MRS. KUHN IS SURPRISED ON 70TH BIRTHDAY

FIFTY FRIENDS GATHER ON PURLSLEY LAWN AT MIAMI

MIAMI, July 23 — Mrs. John Kuhn (Aunt Fannie to all who know her) was pleasantly surprised Thursday evening with a lawn party in honor of her 70th birthday at the farm home of C. P. Pursley. The host of friends gathered on the lawn about 6:30 and Mr. Pursley went after the guest of honor, telling her that he wanted to show her his garden. When she arrived and saw about fifty of her friends gathered on the lawn, with a long table spread with everything good to eat, and nearly another table covered with beautifully wrapped gifts, and a large birthday cake, she was indeed surprised and very happy. Aunt Fannie is one of the old timers of the Panhandle, and is loved by all who know her. Mrs. Berta Francis, Supervisor of Relief in this district, was transacting business in Miami Friday. Earl Mead has gone to Seymour, Texas, to take the position of game warden there. Mrs. Meade will join him there in the near future. Mrs. Jim White of Tampa visited this week in the home of Mrs. J. A. Mead. Mr. and Mrs. Buford Low have as their guests Mr. and Mrs. Roy Pickens and son of Greenville. Emmett Coble, who used to live in Miami and is well known to most of the people, visited in town a few hours Thursday en route to Oklahoma City.

'FURY' TO BE ATTRACTION AT LANORA TODAY

SPENCER TRACY AND SYLVIA SIDNEY CO-STARRED

A new co-starring romantic team—a European director who has delivered some of the most widely discussed pictures ever shown here or abroad—and a dynamic screen story. These are the ingredients that have audiences everywhere awaiting the new Metro-Goldwyn-Mayer picture, "Fury," opening today at the LaNora theater. The new team brings together Sylvia Sidney and Spencer Tracy—the sensitive brunet who recently scored in "The Trail of the Lonesome Pine" and the punchy, genial, typical American "guy" who has the critics still cheering over his performances in "Whipsaw" with Myrna Loy, and "Riff-Raff" with Jean Harlow. The director is Fritz Lang, who makes his American debut with this picture after creating such hits abroad as "M" and "Metropolis." Lang is internationally famed for his realistic directorial touches and his genius in achieving unusual photographic values. Norman Krasna authorized the original story. The strong cast numbers hundreds, with important assignments played by Walter Abel, Bruce Cabot, Edward Ellis, Walter Brennan, George Walcott, Frank Albertson, Arthur Stone, Morgan Wallace, George Chandler, Roger Gray, Edwin Maxwell, Howard Hickman, Jonathan Hale, Lella Bennett, Ester Dale and Helen Flint. Tracy is a hard-working young garage owner, enroute to a distant town to join his sweetheart and be married, when arrested in a small town as a kidnap suspect. A mob, fed on hysteria and whispered rumors, storms the prison to seize him and administer murderous "justice" without waiting for the law to take its course. Unable to break into the cell block where he is imprisoned, the rioters burn the buildings to the ground. Tracy, unseen, manages to escape. Shattered mentally by the ordeal, he plans a fiendish vengeance getting his two younger brother to press charges that result in the indictment and trial of twenty-two men and women. Walter Abel, as the district attorney, uses newsreel shots, filmed during the riot, to prove the identity of the lying defendants. Twenty are convicted of murder in the first degree—and face death! But Tracy finds his victory a bitter triumph, one that will sentence him to a worse death than that of his persecutors. He makes a surprise last-minute move that gives the picture an unforgettable finale.

Funeral for Mrs. Montgomery To Be This Afternoon

Funeral services for Mrs. Eliza Jane Montgomery, 59, who died at her home here Thursday night, will be conducted by the Rev. W. C. House in the First Methodist church at 2:30 o'clock this afternoon. The body will be sent to Tulsa, Okla., by Pampa Mortuary, where the remains lie at rest.

LEONA BOWERS GIVEN PARTY ON BIRTHDAY

PARENTS ARE HOSTS FOR CHILD AT RESIDENCE

Miss Leona Bowers, daughter of Mr. and Mrs. J. L. Bowers, Jr., was honored at an eight birthday anniversary party in her home Friday. News Of Interest From Nearby Towns

Nurses and doctors at Deaf Smith County hospital wanted to hang out the SRO sign—or better, a no admittance sign, early this week. It all started when four babies were born in less than four hours, an appendix operation was performed in 13 minutes, two patients were brought in to be treated for burns, and one was already there receiving treatment. Four persons were brought in for treatment of injuries received in an automobile accident—and then the final blow, 11 more crash victims came in.

They had them on cots in the office, in the operating room, waiting room, and in the basement ward. But the nurses didn't complain until the hallways became jammed with visitors.

Imprisoned Again by Roosevelt Edict

Released from prison during good behavior by President Harding's provisional commutation, Ignazio Saitto (above), known as "The Wolf," was returned to the Federal Penitentiary at Atlanta on an order signed by President Roosevelt following complaints of Brooklyn bakers that the convict had exacted hundreds of thousands of dollars from them in a racketeering enterprise.

Their purchases had been made after cashing a check belonging to the Brummett girl's father.

Among the highly prized gifts to the Clarendon Museum this week is a gavel bearing the following inscription: "This gavel is made from lumber taken from the steam-

boat house in which Sam Houston died." The gavel is a gift from Mr. and Mrs. Roy Wells of Huntsville.

The 8th carved walking cane was added this week, the last being a Mexican pattern coming from Mrs. C. E. Griggs, and used more than 50 years ago.

Visitors from fifteen states have registered at the Donley County Museum. It is rapidly becoming a mecca for those seeking knowledge of the historical past.

The wheat harvest, which has continued for the past two weeks, will draw to a close this week.

While the yield was light, the elevators have shipped 45 cars from Miami and 30 cars from Codman, amounting to a total of 75 carloads. Averaging about 1500 bushels to the carload, this would be around 112,500 bushels shipped from this county.

Childress will be host city for the 1937 district conference. It was decided at a meeting of presidents and secretaries of Rotary clubs at Stamford last week.

OIL NEWS -- From Panhandle and Other Southwest Fields

OUTPUT SENDS TAX VALUES UP IN EAST TEXAS

Oil Brings Increase Of \$200,000,000 In Valuations

BY H. J. STRUTH, Petroleum Economist.

Tax values assessed in four East Texas counties have increased \$200,000,000 as a direct result of the discovery of prolific oil production...

The East Texas oil field has in five and one-half years produced more than a billion barrels of oil...

1930, has been 86 cents per barrel. The reported production to date has shown a combined market value of about \$790,000,000...

WHEELER STIRS OVER PROBABLE BIG PRODUCER

Heavy Deposit Is Reported at Porter Oil Well Test

WHEELER, July 26.—Passing silently and swiftly from person to person here this week a rumor of discovery of a heavy gas deposit in the Porter No. 1, oil test well 5 1/2 miles south of Wheeler...

Scratching a blue shale formation, drilling was halted at 4,802 feet while officials of the company were consulted regarding further operations.

After a few hours delay, orders to underream and let the larger casing on down were given. Some 20 to 30 days will be required, it is said to complete the operations...

Drilling operators are silent on what may be the outcome of this latest discovery—if they know, which is problematical.

However, escape of gas from the top of the hole Monday night—plainly evident through smell and hearing—indicates that something worthwhile may be expected when the heavy column of water is dipped from the hole and it is cleaned out ready for possible production of oil or gas or both.

PANHANDLE GETS SIX LOCATIONS IN PAST WEEK

Gray County in Lead With Four New Intentions

Six new locations were made in the Panhandle field last week according to filings with the Railroad Commission. Gray county led the way with four intentions.

Locations were as follows: Niagara Oil Corporation, M. B. Leopold No. 3, 330 feet from south line and 990 feet from east line of SW 1/4 of section 141, block No. 3, I&GN survey, Gray county.

H. E. Rodgers Moore and Langdon No. 1, 330 feet from the west and 330 feet from the south line of NW 1/4, section 10, block 3, BS&F survey, Hutchinson county.

NEW ORLEANS COTTON NEW ORLEANS, July 25 (AP)—A sharp upturn in the July position that carried the option to the 14-cent level featured dealings today on the New Orleans cotton market.

Resulting from a technical condition in the market, rather than any outside development, the last of the old crop months caused a flurry of activity at the opening.

A belated short, waiting until the last day to fill his commitments in anticipation of a last-minute decline in July, was forced to pay 14 cents at the opening. Subsequent sales place at 13.87, 12.95 and 12.83. The month went off the board at the 12.85 level at 9:30 this morning.

The lone transaction at 14 cents was for one 100-bale lot and represented the highest price paid for the staple since June, 1930.

Other months did not move forward as speculatively, ending from 12 to 16 points higher. Favorable Liverpool cables, unfavorable weather reports, and the growing opinion that the crop is suffering in many sections induced speculative and trade support.

October closed 16 points higher at 12.46. January gained 12 points to 12.35 and spots advanced 75 cents a bale, with middling at New Orleans 13.05.

AIR-COOLED TRAINS OF WEST CHANGE MILADY'S TRAVELROBE

THE engineering brethren who developed air-conditioning are also the fathers of a revolution in travel fashions, according to Harry G. Taylor, Chairman of the Western Association of Railway Executives.

MARKET BRIEFS

NEW YORK, July 25 (AP)—Stocks moved forward in a quiet but persistent rally today with market attention centered principally on the motors, steels and specialties.

Chrysler, buoyed by the record earnings report of the company and the unexpected generous dividend voted by directors, led the rally.

Chief gainers were up to 1 to 3 or more points, a number at new highs for the past several years, but the general run of the market was limited to fractional gains.

Business and industrial news continued to furnish the main inspiration for buyers. The fact that the list has recently been able to absorb realizing without difficulty was an added stimulant for bullish forces.

The Associated Press average of 60 stocks held a net gain of .4 of a point at 67.9, another top since the summer of 1931. Transfers totaled 611,840.
