The Man Who Fell From the Flying Trapeze says that what this country needs more than a good nickel cigar is a bunch of shade trees.

Old Sol took a swing at us Thursday as we walked along Somerville and nearly got to us before we could duck. It was a sucker punch, at that.

Gripping is the order of the day in these parts. Everybody has been gripping about the weather. Personally, we've been cool as a cucumber and think the weather has been swell.

What's your favorite gripe? If you wish to get it off your chest, we'll donate this space to you and you can go ahead and gripe to your heart's content. There are plenty of things to gripe about besides the weather. Why not be an original griper and cut loose on a new angle. Give the weather a rest. Anybody can beef about the heat. It takes a man to stick out his chin on almost anything else.

We're just in here from the country, trying to get along, knowing nothing of the machinations of politics, with the possible exception of what we hear and observe as we stumble along.

We have just been put on the carpet, laid out cold by some who have insisted that we have done wrong by Nell. We have been called to task on a charge that our gust of wind has been tossed favorably in the wrong direction. If so, it was unintentional.

We find, as we go along life's highway and per or occasionally into political lanes, that most public officials are fundamentally honest and try to do the best they can, without losing any votes when election time rolls around. The system makes them that way, so why blame the candidates.

We have been called one of the world's poorest political analysts, subject to a sucker punch at most any stage of the game. Usually, after we've been floored a couple of times, beams of understanding begin to creep in.

It always has been our policy to keep out of politics unless the issue is so cut and dried that it stacks up good government against bad, or the lines are so clearly drawn that it becomes a public duty to make a choice one way or the other.

Messing with politics is a dandy way to walk off the plank. You're a so-and-so if you do, or if you don't. It never fails.

So much for this line of griping. Now, who has another avenue they'd like to sink into? ... The bars are down. Now is the time to gripe if there's a good gripe left in you. Remember, the weather is taboo. The weatherman has been gripped at by professionals, so why should we attempt it?

Well, if there's no more of it for the time being, let's be gay ... Tomorrow is another day, and who knows what it will bring? ... A dispatch tells of paper being made from skunk cabbage upon which newspapers may be printed ... Just in time for the big campaign.

Do you know that bees will not drink nectar of flowers from which the petals have been removed? ... Well, they won't.

Iowa claims the greatest percentage of cultivated land in any state ... Tobacco is the most widely advertised commodity ... Butter was mentioned in writings dated 2,000 B. C. ... Hope we don't get a pound of it.

The original Constitution of the U. S. is kept in a glass case in the Library of Congress ... People who live in glass houses should not throw stones ... At, there!

Sue Vinson, of the society pages, has been your city editor this week in the absence of Archer Fullington, who is doing the Centennial in Dallas ... Miss Vinson is one of those rare newspaperwomen who can sit in on the "big desk" and do an excellent job of it.

The "impossible" is happening as these lines are written ... It's 4 p. m. on Thursday ... The mercury has dropped eight degrees in two hours to 104 ... And, of all things, a sprinkle of rain is falling—the first in ten days, and the fifth in nearly ten weeks. It lasted four minutes.

Genial Gene Worley, the representative man from Shamrock, came to town at 2 o'clock and predicted it would rain before the afternoon was over. Archer brought rain with him on his last visit here on Aug. 3.

I Heard ..

R. W. Lane announcing to the Kiwanis club today that an "Old Man's softball team" at Canadian wanted to play a team from Pampa. Before he could finish his report a voice from the rear of the dining room interrupted with the remark, "Why tell us? Take the challenge to the Rotary club."

HITLER CALLED FOE TO ACCORD ON NEUTRALITY

FRANCE GIVES SPAIN 'FRIENDLY' HINT ON GERMAN DEMAND

By EDWARD KENNEDY Associated Press Staff Writer PARIS, Aug. 14 (AP)—The French government was understood in diplomatic circles to have given Madrid the "friendly" suggestion that it grant German demands for satisfaction in the alleged slaying of German nationals in Barcelona and confiscation of Reich airplanes.

A Spanish government investigation of seizure of a German airplane at Badajoz was not yet complete, indicating a delay of at least a week before the incident could be settled. Germany made restitution of the plane a condition to its adherence to the neutrality accord.

The French ambassador to Rome was instructed to press for Italian approval of the accord. PARIS, Aug. 14 (AP)—French leftists charged Chancellor Adolf Hitler of Germany today with being the "obstructionist" delaying completion of the Spanish neutrality agreement.

The Reichswehr, they said, is withholding his answer to the French proposal to establish a "hands off" accord in the Spanish civil war so he may continue to aid the Fascist rebels as long as possible. Hitler's reply was the last expected from the original 13 nations which agreed in principle to non-intervention proposal.

In the face of what they considered an apparent deliberate delay, the barrage of leftist criticism urged the government to throw open the Spanish socialist regime.

Officials, however, declared France intends to continue the policy of prohibiting mass recruiting of Spanish volunteers but will permit private voluntary action for the present. LONDON, Aug. 14 (AP)—The British government today looked on the strife in Spain as a possible spark for setting off a general European war.

It took under "urgent consideration" the question of banning the internment of French in the aftermath of the departure yesterday of six British aircraft reported to be destined for belligerents in the peninsula civil war. Both Prime Minister Stanley Baldwin and Foreign Minister Anthony Eden kept in closest touch with the foreign office.

BURGLARY OF BEER PARLORS IS CONTINUED

Third of Nightly Raids Reported; Beer, Cash, and Cigarettes Taken.

Burglars continued their series of nightly raids in Pampa Thursday night when they visited Jack's Place, a beer parlor at the Five Points. Their loot this time comprised three cases of beer, two cartons of cigarettes and about \$4 in cash, according to a report made to the sheriff's office this morning. Entrance was gained by breaking a window. Authorities attributed the job to the same persons who broke into the Fox-Letterman liquor store Tuesday night and the Shorty Harris beer parlor on Wednesday night of this week. Attaches at the sheriff's office said today that tire tracks found at Jack's Place were similar to those discovered in the clay at the Fox-Letterman store.

Center of March On Capital City Is Battle Ground

Western and Southern Spain were pitted by shell fire today in renewed fighting between fascists and government loyalists for control of the general area from which the rebels are moving on Madrid. Government field generals asserted they still held control of Badajoz, capital city of the province bearing the same name. They also announced capture of the town of Atarfe, near Grande, occupation of strategic positions in the southern Sierra Nevada mountains north of Madrid.

The rebels announced capture of the ancient Roman town of Merida, in Badajoz province, but the government considered this offset by a victory at Navalmaral de la Mata in Caceres province. Many rebels were killed and wounded. Air bombardments on this, the 28th day of the rebellion, centered on Badajoz in an effort to replace the Madrid socialist regime with a dictatorial government, were becoming more frequent. Yesterday rebels bombarded San Sebastian, on the Bay of Biscay. Today military sources asserted the government was prepared to blast from the air the Alcazar at Toledo where a rebel detachment has been voluntarily imprisoned for more than 20 days.

Voting Transfer Limit Is Monday

Absentee ballots still were coming in today at the county clerk's office here. Next Tuesday midnight is the deadline for absentee voting. Only persons entitled to vote an absentee ballot are eligible voters who will not be in Gray county on election day. County Clerk Charlie Thut explained.

HEAT MAKING FINAL STAND IN PANHANDLE

COASTAL REGIONS ARE COOLER; DEATHS TOTAL 17

Scorching heat, which has taken 17 lives in Texas this week let up a bit today and apparently was making its last stand in the Pampa district, although the mercury stood at 106 at 1 o'clock this afternoon. A new high mark for the season, and possibly for a score of years, was reached here at 3 p. m. yesterday when the Santa Fe Railroad thermometer reading reached 112. This was followed by a 5-minute sprinkle of rain at 4 p. m. It continued warm last night, registering 87 at midnight. At 5 o'clock this morning it had dropped to 76, the lowest point in 24 hours. By 11 o'clock it had advanced again to 100, and at 1 p. m. today was 106, a climb of 30 degrees in eight hours. The Associated Press said that Memphis and Clarendon yesterday reported the state's highs of 114 degrees. Thermometers continued to register better than 100 degrees in north, east and south plains sections, but coastal regions cooled. Generally, temperatures were from five to 10 degrees lower than record-breaking readings of Monday, Tuesday and Wednesday. Galveston mercuries rose to 90 and stopped. Austin had 96, Corpus Christi 90, Fort Arthur 94. Hotter spots were Dallas with 100, Corsicana, 102; Paris, 105; Fort Worth, 101; Abilene, 104; and Big Spring with the same reading.

Huskies Uphold American Record

Associated Press Sports Editor GRUNAU, Germany, Aug. 14 (AP)—Coming from behind in the last 500 meters, the University of Washington today won the Olympic eight-oared rowing championship. After Italy had maintained the lead from the start to the 1,500 meter mark, the Huskies came through with a brilliant spurt to win the title and kept unbroken American domination of eight-oared rowing competition. Starting with 1920 when the United States first entered eight-oared Olympic competition, American college crews have won each time—Navy in 1920; Yale in 1924; and the University of California in 1928 and 1932. The Americans' spurt in the final 500 meters gave them the championship by a one-length margin over Italy, the 1932 runner-up, with Germany third and Great Britain fourth. Washington was clocked in six minutes, 25.4 seconds, far behind the course and Olympic record of 6:00.8 the Huskies set in Wednesday's trials. Water and weather conditions, however, were bad today.

"Hot Oil" Menace Takes on New Form

KILGORE, Aug. 14 (AP)—A Texas railroad commission agent whose duties include taking daily gauges of open pits of oil, reported his special thermometer registered 148 degrees while he attended his work on a raft just above the surface of the oil. The mercury sank to a mere 126 when he lowered the thermometer into the oil, he added. C. F. Sullivan, the commission's administrative chief, promised to look into the new hot oil situation.

Wheat Supplies In Country Said To Meet Demand

WASHINGTON, Aug. 14 (AP)—Total wheat supplies in the United States were said today by the agriculture department to be "large enough for the usual domestic requirement." In its mid-summer wheat outlook, the department predicted that shortages in red spring and durum wheat would require continued imports of these types. The shortages were attributed to the drought and the department foresaw a possibility that mills using spring wheat for the 1936-37 season might use a larger percentage of hard red winter and pacific northwest wheat than last year. Larger use of soft red winter wheat in making bread flour might reduce imports of milling wheat, the department said. The prediction was made in the survey that wheat prices in this country would continue to average higher than world wheat prices at Liverpool. Last season the price here of number two hard winter wheat at Kansas City was 15 cents above that at Liverpool, the survey said.

HOOVER IN WEST, KNOX IN EAST ATTACK NEW DEAL COST

SAN FRANCISCO, Aug. 14 (AP)—Ex-President Herbert Hoover charged the democratic administration today with forcing the nation to a "precipice of reckless monetary and credit policies which jeopardize your savings." In his first public address in support of the candidacy of Governor Alf Landon, the former presidential candidate asserted the presidential campaign "is a contest of two philosophies of government. It is in a sense the echo of the gigantic contest raging all over the world." Briefly tracing the history of the government since he left the presidency, Mr. Hoover said: "We have seen congress reduced

ARSON SUSPECT CLAIMS HE HAS PERFECT ALIBI

Relief Supervisor's Story of Fatal Fire Told

DALLAS, Aug. 14 (AP)—A. Norman Baines, 47, charged with arson in the tragic Aug. 1 Greenville commodity warehouse fire which killed two, told a reporter here today he could furnish a "perfect alibi." "I left the warehouse at 11:50 a. m. Aug. 1," British-born Baines said. "I spent the entire afternoon with my wife and my son Edgar, 15, leaving home only to accompany my wife to the grocery. "A little after 6 p. m. a negro came to tell me the warehouse was on fire. Just before this Edgar had smelled smoke. I went to the building and did everything I could to aid in putting out the fire and advising officers in their investigation. "I do not know why they accused me. I do know there were more than four tons of records relating to activities of the Texas Relief Commission in that warehouse. "Perhaps they suspect me because I was the only one with a key to the warehouse." Baines was district supervisor of commodity distribution for Hunt county. He said he was born in India, a British subject, but had taken out American citizenship papers and was "as patriotic as any native-born American." He said he had worked for the commodity distributing organization for two years and ten months at a salary of \$53 monthly. He came to the United States 36 years ago, he said, and had lived in Greenville five years. Two firemen were killed in the warehouse blaze when explosions trapped them in the burning building.

ARRESTS MADE AFTER FINDING VICTIM'S CAR

STATION OPERATOR IS MISSING SINCE TUESDAY

SWEETWATER, Texas, Aug. 14 (AP)—Two men and a woman were in the Nolan county jail today, charged with murder while a posse scoured the flat country east of here on the theory that a shallow grave holds the body of G. H. Jones, 58, filling station operator of Trent, Taylor county, who disappeared Tuesday night. The murder complaints name Clarence Duncan, 28, of Trent; his wife, Billie Lrene Duncan, 19, and her brother, Winfred Allen, 22, of Stamford. They were taken in custody Wednesday afternoon at Stamford, where they had gone earlier in the day to visit relatives. Officers said they also seized a new roadster, which is being held as evidence, while tests are made to determine if dark stains on the running board are blood. Arrest of the trio followed the discovery of Jones' car, an old model coupe, beside the pavement at the White Flat school Wednesday noon, the lights of the machine burning. Constable O. L. Bishop of Trent said he found Jones' false teeth and his hat about 20 feet in front of the machine. Beside the sandy ground and grass showed evidence of a severe struggle. County Attorney A. F. Nemir of Sweetwater said there recently had been trouble between Duncan and Jones. Duncan and his wife, formerly an employe of Jones at a beer stand near here, were married about a month ago.

The team was scheduled to line up with Bill Harwell at No. 1, Joe Bowers at No. 2, Hub Burrow at No. 3 and Jack Cooper, acting captain, at No. 4. The Pampans signed Bub Humphries of Plainview as a substitute, none of the Pampa relief players having been able to make the trip.

# SOWING AND REAPING

International Uniform Sunday School Lesson for Aug. 16  
Golden Text: Be not deceived; God is not mocked: for whatsoever a man soweth that shall he also reap—Galatians 6:7

BY WM. E. GILROY, D. D., Editor in Advance.

Many practical problems faced the Christians in the pagan communities in which they lived. Different Christians met the problems in different ways. Some thought it was wrong to eat meat that had been offered to idols; others did not feel that offering it to the idols affected the meat, and they ate with good conscience.

In the midst of such problems men were apt to judge one another, not always with graciousness and understanding. Even those had their faults who had become Christians under conditions where one would think that to do so would imply almost perfection of life.

In the church at Galatia, some apparently were censorious and unsympathetic. Possibly there was some real criticism, but Paul very definitely stated what the Christian attitude ought to be.

If a man has been overtaken in a fault, others should manifest their own goodness by restoring him in a gentle spirit, remembering that they themselves may be subject to temptation. To bear one another's burdens is to fulfill the law of Christ. Pride and self-will are sources of self-deception.

There is an apparent conflict in Paul's statement here, because, after saying that we should bear one another's burdens, he is equally explicit in saying that each man shall bear his own burden.

Both statements are true. Every man must bear his own burden, but it often becomes intolerable if there is no mutual help in the bearing of burdens. And when, along with his burden, a man must bear the adverse judgments and unkindnesses of his fellow men, his load is far greater than it ought to be.

We are living, as Paul says, in a moral world where wrong-doing brings its consequences. "Whatever a man soweth that shall he also reap." There is a great deal in life that seems to up that idea, but history, as well as religious teaching, shows that it is true.

The Christian life is a life of well doing. Continuance in that life brings its reward. He who would live as a Christian must meet all men in a spirit of good will, and this spirit ought to be particularly manifest toward his fellow Christians.

Here is good, common sense, practical counsel for life. It applies to all men and would live well in our day as it did to these early disciples. No man's life would be without improvement if he would give heed to these wise words and put them into practice in his daily life and contacts.

**CHRISTIAN SCIENCE**  
901 N. Frost St.  
"Soul" is the subject of the lesson- sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 16, 1936.  
The Golden Text is: "Bless the Lord, O my soul, and forget not all his benefits. Who forgiveth all thine iniquities; who healeth all thine diseases" (Psalms 103:2, 3).  
Among the citations which comprise the lesson-sermon is the following from the Bible: "The Lord God is a sun and shield; the Lord will give grace and glory; no good thing will he withhold from them that walk uprightly" (Psalms 84:11).  
The lesson-sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Man, governed by his Maker, having no other Mind—planted on the Evangelist's statement that 'all things were made by Him (the Word of God), and without Him was not anything made that was made'—can triumph over sin, sickness, and death" (page 231).  
Sunday 11 a. m.  
Sunday school 9:30  
Wednesday 8 p. m. Reading room open Tuesday and Friday 2 to 4 p. m.  
The public is cordially invited to attend our services and use the reading room.

**Children to Give Public Program of Songs, Drill**  
"I wonder if you realize the seriousness of this thing we call religion?" was the opening question in the sermon by Evangelist P. H. Elliott last night at the First Christian church.  
A church can put on a special evangelistic effort, and yet people who are members, stay away for the most foolish reasons," he continued. "They stay away in order to go to the show, to a ball game, bridge game or something like that. You can live your life without Jesus Christ, but let some bitterness come to you, let some great sorrow overtake you and the first thing you think of is to send for a minister. God help us to come to the place where we will give of our time and our talents and really do some work for His kingdom."  
"Why is the message of God going unheeded in Pampa today? Because of the careless ness and indifference of the church members who are supposed to be Christians. The unconcern and indifference of church members is sending hundreds to hell every day."  
Tonight at the beginning of the services, the children will give their public Bible drill. They will sing several songs and a fine program is promised. R. L. Alston will sing "The Holy City" by special request and Howard House will make a crayon picture which will be given away to the largest delegation.  
Mr. and Mrs. J. M. Hill of Fort Worth, are visiting here at the home of the former's brother, Frank Hill, district court clerk.

# FIGHT OVER ENDORSEMENT OF LEMKE FACES CONVENTION OF REV. COUGHLIN'S FOLLOWERS

## MEETING COINCIDES WITH VISIT OF PRESIDENT

CLEVELAND, Aug. 14. (AP)—The Rev. Charles E. Coughlin's National Union for Social Justice, opening its first national convention today coincident with President Roosevelt's four-hour visit to Cleveland, faced a clash over its course in the current political campaign.

The question will be, Father Coughlin said, whether to give full endorsement to Rep. William Lemke of North Dakota, the Union party's candidate for president, or to restrict the convention's endorsement to congressional candidates.

"It will be for the delegates to decide," the Royal Oak, Mich., priest said in a press conference. "The fact that I am a committee to Lemke does not commit the National Union."  
Any endorsement of Lemke, he emphasized, would be of the Union party candidate as an individual and would not include the party itself.

Mr. and Mrs. J. E. Tindall left this week to visit the Centennial exposition at Dallas.  
Miss Hazel Burrell is a patient in a hospital at Shamrock.  
J. O. Hudson of Shamrock and Miss Bonita Worrell drove to Magic City Sunday.

## Breakfast Given In Coonrod Home

Mrs. C. L. Coonrod was hostess at a three-course breakfast yesterday morning with Mrs. R. E. Gatlin, who is leaving for a vacation in the mountains, as honoree.

Walter D. Davis, convention marshal, had fought against a speech by the author of the old age revolving pension plan, saying "This is not an open forum" and that he thought the convention should be kept free of politics.

## Eastern Star Will Conduct Food Sale

A cooked food sale will open at 8 o'clock tomorrow at the Piggly-Wiggly store, conducted by women of the Order of Eastern Star. In charge will be Mrs. Madge Murphy, worthy matron of the chapter here. Food for Sunday dinners will be featured, and housewives are invited to visit the booth while they are doing their week-end shopping.

# First Testimony In Hewitt Case Expected Today

SAN FRANCISCO, Aug. 14 (AP)—The mayhem conspiracy trial of two surgeons involved in the sterilization of Ann Cooper Hewitt, young heiress, was headed toward first testimony today before a jury of nine men and three married women who have no children.

Assistant prosecutor August Fourtner said his first witness would be Dr. Irwin Wallace, anaesthetist at the operation which resulted in Miss Hewitt filing a \$500,000 damage suit against her mother and the doctors, Tilton E. Tillman and Samuel G. Boyd.

Dr. Wallace testified at the preliminary hearing that Miss Hewitt had forever been denied the experience of motherhood.  
Miss Hewitt, who charged she was tricked into the surgery in a plot by her mother, Mrs. Maryon Cooper Hewitt, probably will not be called to testify before Monday, Fourtner said. SHE IS IN SECLUSION.

# RELIEF HEAD FACES CHARGE IN FATAL FIRE

TWO FIREMEN DIED IN WAREHOUSE BLAZE AT GREENVILLE

GREENVILLE, Aug. 14 (AP)—A. Norman Baines, British-born relief commissary supervisor, today faced a charge of arson in the fire which destroyed a Texas relief commission warehouse and claimed the lives of two firemen August 1.

He was taken to the Dallas county jail shortly after his arrest Wednesday night. Officers said feeling was high in Greenville.  
The arson charge was filed before Justice of the Peace E. W. Hagan yesterday. Baines lived in Greenville five years and had advanced to the position of supervisor through a series of minor tasks since the relief program started. He told officers he was born a British subject in India.

The charge was based on a fire in which W. R. Daugherty and Earl Jenkins were burned to death when two explosions barred their exit. They died struggling to escape thru a barred window.

**PROTEST MADE AS ASTOR SAYS "I WON" CASE**  
**Petition to Reopen Hearing Planned By Thorpe**

LOS ANGELES, Aug. 14 (AP)—Counsel for Dr. Franklyn Thorpe planned to reopen today "for a complete and thorough hearing" the

court contest which resulted in an order giving Dr. Thorpe and his ex-wife, Mary Astor, alternate custody of their daughter, Marylyn. Several hours after Superior Judge Goodwin J. Knight approved a settlement Joseph Anderson, attorney for Dr. Thorpe, announced his intention to reopen the case. Angered by a statement Roland Rich Woolley, Miss Astor's attorney, issued after Judge Knight approved of the custody agreement, Anderson declared: "I will petition to reopen the case because in the interest of my client I feel that the signature which he (Woolley) placed, and which I thought was in good faith, to the stipulation, was apparently insin-

cered, and if so, in order to protect the rights of my client, I feel that the case should be immediately reopened for a complete and thorough hearing." He would also petition to the court, he declared, "to determine if it was contempt of court for Mr. Woolley to prepare in advance of the decision a typewritten copy to be handed out immediately after the decision." Dr. Thorpe, Anderson said, was "gracious enough, fortified as he was with an abundance of evidence, to yield partial custody rather than introduce the evidence which might materially harm the mother and thereby indirectly cast a reflection upon the child."

Anderson, asked if he would try to have Miss Astor's famous purple-linked diary brought into the case, said he would seek to have Judge Knight read the diary as a basis for his argument that the case should be reopened. "However, I do not think its contents should be made public," he added. Dr. Thorpe agreed to surrender his former wife's diary to the court. This is the diary in which Miss Astor kept a log of her thoughts and deeds and formed the basis for a sharp cross-examination during which Anderson quizzed her regarding her relationships with several prominent men. George Kaufman, playwright; John

Barrymore, film actor; Daniel Silberg, New York banker; John Eldredge, film actor; Bennett Cerf, former husband of Actress Sylvia Sydney; Dr. Mortimer Rodgers, New York physician; Carlos Paraga, Cuban tobacco magnate; Count Alfonso Carpegna, squire to screen beauties—these were some of the men about whom Miss Astor was questioned. Miss Astor made this statement about the settlement: "It is all over. I have won the custody of my little girl for at least nine months each year. A month ago I reached the decision that conditions under which Marylyn and I were forced to live were intolerable. I started to fight for custody of my baby, to make any sacrifice

necessary to insure her future happiness and welfare which is the God-given, unalterable right of every mother."  
**Companies Must Decide on TVA**  
 NEW YORK, Aug. 14 (AP)—Senator Kenneth McKellar of Tennessee said yesterday the extension of federal power activities, such as the Tennessee Valley Authority, "depends upon the power companies themselves." The Senator, who was one of sev-

eral leaders from southern and "border" states who conferred today with Democratic Chairman James A. Farley, said, "if the power companies make sufficient reductions in their charges, the extension of the TVA policy will not be necessary." Senator McKellar said the Tennessee Valley Authority "has been one of the most valuable activities of the federal government."  
**KILLED IN COLLISION**  
 TRINITY, Tex., Aug. 14 (AP)—R. M. Dooley was killed last night when an automobile he drove collided with another car, plowed 300 feet down a ditch and stopped against a tree. A. D. Cheek, a passenger in the car, suffered critical injuries.

## "MONEY IS NO OBJECT"

Mrs. Violet van de Elst, England's one woman crusade against capital punishment, will come in September for a whirlwind campaign, with money no object. To date, she admits, she has spent \$120,000 a year on her English crusade, half for the cost of campaigning and half for losses on her anti-capital punishment magazine.

This wealthy widow is a determined woman. Frequently she has demonstrated outside British prisons where hangings have been scheduled. So far her efforts have netted nothing except a \$15 fine for refusing to stop her car when ordered to do so by the police. But she is coming to America with a corps of assistants and already thinking of engaging Madison Square garden for a meeting.

Even persons sympathetic to Mrs. Van de Elst's cause might admit that emotional demonstrations never will persuade the world that capital punishment is one of civilization's worst evils. Yet there is the kernel of truth in what the campaigner said in her latest interview. "Murderers are insane," she declared. "We should send them to a hospital for 15 or 20 years, not kill them."

Unfortunately, most murderers are not insane, even though many defending attorneys seek to create that impression. Yet it cannot be denied that most murderers—most criminals, in fact—are emotionally unstable persons whose motivations should be understood as well as condoned. That criminologists and psychiatrists increasingly are thinking of crime in terms of remedial rather than punitive terms is a hopeful sign. The time has not been reached when society can hospitalize all its criminals, but the day is approaching when crime prevention through understanding will decimate the annual toll exacted from society by anti-social outcasts.

## SAFE FOR DICTATORSHIP

The reason for American interest in Spanish trouble is widespread suspicion that nothing momentous can happen in Europe without affecting the United States. Just how momentous is Spain's revolution, therefore?

For an answer it is best to look elsewhere than Madrid. In Rome there sits a powerful dictator who has not attempted to conceal the fact he is sympathetic with the rebels.

In Berlin there sits another dictator who probably has found time between Olympic thrills to notice that Spain's leftist government has been threatened by revolutionists who, like him, are opposed to communism.

In France there sits a Socialist premier who would like to help the Spanish government discipline its opponents, for the sake of keeping alive the fluttering flame of popular government in Europe.

In London there sits a prime minister who believes in parliamentary government and he, too, must be aware of the possibility that Spain, if the revolutionists are successful, may be added to Europe's growing list of dictatorships.

In the Balkan countries and in the capitals of the other smaller governments of Europe are men keenly aware of the importance of the Spanish struggle.

How momentous is that struggle? The answer is that it will be as momentous as the dictators wish it to be. Americans, who once gave their lives and their money to make the world safe for democracy, are being visited once more by disturbing evidence that the job never was done.

## SNIP, SNIP

Russia is planning to open 1500 barbershops, with approximately 6,000 barber chairs and barbers to work at them, in 1937. In the meantime, 2,800 chairs will be distributed over the Soviet Union.

The idea, of course, is to do something about the legendary Russian whiskers. Ivan is going to be encouraged to stand before the world in a bare face. This is an extremely important matter.

Many persons in various parts of the world think whiskers are funny. Take Americans, for instance. The heavily bewiskered Russian "red" with a smoking bomb in his hand is as essential to cartooning as Uncle Sam.

A whiskerless Russia—which couldn't happen for a long time—would be a nation more like the nations it is inviting to imitate it. Clean shaven Russians would be easier to understand. It is, in the final analysis, a matter of salesmanship.

Persons with something to sell try to be as attractive as possible to their prospects. It so happens that whiskers aren't considered attractive as possible to their prospects. It so happens that whiskers aren't considered attractive in this particular period of the 20th century. The "red" baiters will need to redouble their vigilance when those new Soviet barbers start to go "snap, snip" in previously unmolested Russian beards.

The New Yorker who is raising a corn crop in a pent-house apparently wasn't satisfied with the one he raised during the elevator strike.

American politics seem to be something of an animal act. If politicians aren't throwing the bull, they're passing the buck.

A Michigan prisoner tried to hang himself with his shirt. A cumbersome technic, when he might have tried to put on a wing collar.

The walking Democrats assembled in Detroit during a barber strike there, so they should have plenty of hair to tug over administration doings.

A candidate in Quebec is promising 100 acres of land to every family of 12. Hardly more than the youngsters of each of the families would yield every Saturday night.

The movie actor who complained that fame was fleeting would have something to cry about, if he were the 1,000,000th visitor to an exposition.

An absent-minded Norfolk, Va., bandit, who tried to rob a shooting gallery, learned that the proprietor knew his business.

A Pittsburger has blue eyes that turn to brown when the moon is full, but a local housewife has brown eyes that turn to black and blue when hubby is.

The Ohio "hypnosis birth," in which the mother was hypnotized, was unusual, though new fathers usually appear to be in that state.

IT has been found that about 88 per cent of a toad's food consists of insect pests, and in a period of three months, about 10,000 injurious insects will be destroyed. Of this number, about 16 per cent will be cutworms, and counting each cutworm's annual damage at the low figure of 1 cent, each toad would be worth about \$20 for this one service alone.

## MAN ABOUT MANHATTAN

By GEORGE TUCKER

Amid a welter of legends that swing like gay Chinese lanterns in the lives of New York's more intriguing personalities is one that means more to Bob Reud than all the others. It concerns Fannie Hurst, and his mother!

Bob's mother was one of those singularly fortunate persons who remain untouched by the disharmonies of a changing world. She knew, truly, the secret of a vast tranquility.

One day there was delivered to her apartment at the St. Moritz a red lacquered box from Sicily. It was from Miss Reud, who was vacationing between novels on that island. The handkerchiefs it contained were a delightful surprise, but it was the note accompanying them that remained a charming vignette for Mrs. Reud and revealed Fannie Hurst as the genuinely superior person that she is.

"I had sat at the knee of the nun who made these handkerchiefs," Miss Hurst wrote, "endeavoring to learn from her something of the serenity which is yours."

Today in Bob's apartment are tumbled heaps of trinkets and curics gathered on pilgrimages to many far ports. There are autographed novels, and photographs, and knives, and stones. . . . But the one he prizes above all the others is a red lacquered box that came from Sicily with a note for his mother!

Dianna Ward, brunette pretty who was a little page girl in a Pittsburgh theater five years ago, is currently the whole surface with iodine.

On the other hand, deep wounds are handled better when they are first washed with soap and water, and then are treated by the instillation of a small amount of iodine.

Adhesive tape has many uses. The evident ones are to tie up bandages and to keep in place various applications, adhesive tape, however, may also be used to bring in close approximation the edges of wounds. Adhesive tape may also be effectively employed in protecting denuded surfaces of the skin. For example, a blister formed on the heel after a few hours of hiking might, however, be washed either an exfoliating task or entirely impossible. But by protecting the blistered surface with a cover of adhesive tape the discomfort may be reduced to a minimum. In applying adhesive for such a blister, care must be taken that the underlying surface is not infected.

Adhesive tape can serve in an emergency for a tourniquet, to fix a temporary splint to a fractured limb and in numerous other ways.

## Talks to Parents

DIGNITY OF LABOR By Brooks Peters Church

Work that is done grudgingly and with a sense of shame can never receive the respect which may well be its due. The woman who looks down on housework as menial and disgraceful, is very apt to see her attitude reflected in the reactions of her family.

Mrs. Brown keeps saying, "Any maid could do this as well as I, or better. It is sheer waste for me with my brain and education to be washing dishes and cooking." Her husband and children quite naturally develop contempt for the work, and in time, perhaps, for the worker as well.

It takes brains and personality to

## Rich and Reckless

Chapter IV

The newspaper front pages were filled with details of a bank robbery. Molly read them, but despite the headlines, she was sure it was going to be a dreadfully dull day.

The leaves of her date book were filled with minute recordings, very minute recordings in order to cram in all the special events—luncheons, teas, tea dances, cocktail parties, large evening functions, even breakfasts that hostesses were giving for one debaucher or another.

"Why a breakfast?" Brent had inquired once. "You can have breakfast at home—in bed."

"You can have luncheon and dinner at home, too, and in bed if you're sick or lazy." Molly's tone held feminine scorn for masculine reasoning. "Unless," she continued, "you're against entertaining in general I'd say you argument is full of holes."

"Might be a good idea, at that," Brent had answered. "All that entertaining does for you is to breed a habit for excitement."

A habit for excitement. That must be true. Everybody was taking a cruise or hurrying away to some resort to escape the seasonal social slump. "And even I," Molly thought with characteristic honesty, "waken up wanting something to happen these days. Only it never does."

Something did happen! Bored with herself, Molly yawned over the newspaper with its headlines about the bank robbery. She answered a telephone summons indifferently. Then her pulses leaped at the sound of a deep, strange voice. Almost strange, for there was something familiar about that voice. It was not casual like Wick's. Not cool and composed like Donald's, or silly and cheerful like Hubert's. It lacked Brent's teasing superiority. This voice was low and reserved and—yes, she was certain of this—a little unsure of itself.

Her interesting stranger. He said, "Hello, Molly Milford." "Hello, Sam Smith."

"That isn't my real name. It's Nelson—Whittaker. My friends call me 'Nelson.' Won't you? There had been a slight pause between the first and last names, which Molly scarcely noticed.

"Am I a friend?" Molly asked, glad the blue-eyed stranger could not see the rush of color to her face.

"I hope so, Molly." "Nelson is a nice name. Not hard to say."

"You're not angry because I called?" "No. Why should I be?" There was a moment of silence. Then, "I thought you might be bored."

"I am. Terribly." "So am I. I was wondering if you'd have dinner with me. But I suppose that's impossible."

"Not impossible," Molly spoke in a firm tone.

"You mean you'll try some French cooking?" "The word fluttered in her throat. Brent would be furious, but what right had he to dictate to her? "I'll come out about 6. Or would you rather meet me some place down town?"

Molly considered this a moment. It might be wiser to meet him down town. "I could meet you at the side entrance of Wilson-Marx's around 6."

"I'll be there."

For dinner at Frenchy's—wherever Frenchy's might be—she would wear her new pleated blue crepe with the white patent belt and a cluster of patent-leather flowers at the neckline. A small white hat and a white coat with the white fox collar.

The chauffeur would drop her at Wilson-Marx's around a quarter to 6. He didn't want even the chauffeur to know of this engagement.

"Why the excess energy?" Donna asked, finding Molly attacking her soft shining hair with a vigorous brush.

"Oh, just something to do," Molly admitted, smiling. "I'm fed up with sitting around waiting time."

"What's become of the Four Horsemen?" "Wick bores me. Hubert bores me. Donald bores me."

"What about Brent?" Donna asked, surveying Molly with amused eyes.

"Brent bores me more than any of them." Molly spoke vigorously. "Brent is the original cave man. All he'd need would be an excuse to drag a woman about by her ear. Anyway, I've a new man on my mind. He's handsome and stimulating."

"I can't quite believe you've topped for a new man," Donna drawled. "Not topped! Just leaping over a little like the Tower of Pisa."

Molly put down the brush, sat on a stool near Donna and looked up at her out of lovely, candid eyes. She said slowly, "You wouldn't understand, because you've always been conventional. When I'm married I'll settle down and be a model wife, too. But since I'm not, I'm going out hand have dinner with a man I ran across last week at the Red Poppy."

"Molly!" Donna's voice was startled. "What could Brent have been thinking of to take you there?"

"I was Wick."

"For Wick? You must have given him the devil of a time. He surely believes self-preservation is the first law. Honestly, you aren't serious about going out with this—this Bohemian?"

"He isn't a Bohemian," Molly spoke slowly. "He's much more attractive. Donna, haven't you ever known the time when you were so eager for something different you'd have gone one out with—her eyes fell on the headlines of the paper—a bank robber, if he'd asked you?"

A girl was standing there. A girl who was so much like Molly as her own reflection in a mirror.

"I suspect he's an iconoclast," Molly smiled a little.

"I seem to have heard the word." "People who pull down things." "People who pull down things. Full down inherited ideas such as caste, conceived to protect the privileges of the few," Molly supplied helpfully.

"Goodness, what would your father say if he knew you were going out with a man like that?"

It was 20 minutes to 6 when Molly stepped from her car and dismissed the chauffeur. She stood for a moment, watching the long, shining car gradually lose itself in the sea of traffic. It occurred to her, as she stood there, that it might have been wiser to send a message by Davis telling Donna where she was going to dine.

But that was a silly thought. Frenchy's might be a name Nelson Whittaker had given the restaurant, because of that broken-down old Frenchman who ran it. The real name of the place might be something quite different.

She turned and started toward the side entrance of Wilson-Marx's, but before she reached the wide, swinging glass doors she stopped abruptly. A girl was standing there. A girl who was as much like Molly as her own reflection in a mirror.

Molly walked closer. "It's not believable," she said, "but it's true, isn't it?"

The other girl smiled a little cynically. "Yes," she replied. "I've often seen your picture in the paper. Once I cut it out and asked a boy friend if we weren't as alike as two peas. He said I had a crush on myself, but I knew we were alike. Not that it made any difference. You can't clothes. I did have my hair cut like yours, but I couldn't really look like you do."

"Clothes," said Molly slowly, "make a difference." Her voice was bewildered. This was one of the things that couldn't happen—yet it had.

Talking with this girl with the golden-brown hair was almost like talking to herself. Because unless horrible and cruel things had happened to you, your voice could never sound so cold, so hopeless, as this girl's did.

Molly studied the other girl. The same slender nose, slightly tipped. The same shade of hair, the same eyes, the same contour of face. They were about the same size, too, a difference of two or three pounds, at the most.

"Well," Molly said shakily, "I guess I've met my double. They say everyone has one."

"So what?" the other asked sarcastically. "We're a million miles apart in these clothes, aren't we?" Moved by a sudden impulse, half compassion and some other feeling she didn't stop to analyze, Molly said: "I'd like to change clothes with you. I'd soon be wearing yours as mine."

"Oh yeah!" "Please believe me. I'm in earnest. I want to change with you."

The girl's laugh rang harshly. "Tell that to someone who hasn't cut her wisdom teeth yet. Besides," she added, "I won't need clothes much where I'm going."

"You're going away?" "Yes."

"Then please take these with you—just these some place where we could change? We must hurry because I'm meeting a friend here at 6."

"I can't say I have ever felt that low. What queer ideas you have sometimes, Molly. As a matter of fact, you don't know anything about this new man. He might be anything."

## Claims Made on Mexico in U. S. Nearly Settled

WASHINGTON, Aug. 14 (AP)—Representatives of the United States and Mexico lacked today what they hope is the final phase of an attempt to settle over \$700,000,000 of long-pending general claims between the two countries.

Benito Flores, special claims arbitration commissioner for Mexico, arrived yesterday with a staff of assistants, and today he and Oscar W. Underwood, Jr., the United States commissioner, went to work on a mass of data that extends back to 1867.

Under a 1934 convention, the commissioners must file a joint report before next August 1. Upon that detailed statement it is hoped to base a lump sum settlement or an agreement otherwise to dispose of the several thousand remaining cases resulting from crime, violence and other causes on both sides of the Rio Grande.

The special claims grew out of damage from revolts of Mexico between 1910 and 1920, when General John J. Pershing and Pancho Villa were in the headlines. To determine the share of each American claimant a special Mexican claims commission of three, headed by Edgar E. Witt, has been at work for 11 months.

# PRIZE CHECK CHEERS BRDS FOR GAME WITH PARROTS

## STEAK WILL BE PITCHED IN RUBBER GAME

### EDGE GIVEN VISITORS WHO HAVE ADDED TWO PLAYERS

Business Manager Harold Miller of the Pampa-Danciger Road Runners this morning received a check for \$955.62, winnings of the team in the Denver Post baseball tournament where they split fourth and fifth money with the Blackwell Oilers of Shawnee, Okla.

Tonight at Road Runner park at 8:30 o'clock, the Road Runners will tangle with the Phillips Parrots of Amarillo. Carl Stewart, who hurled his best ball of the year in Denver, will be on the mound, opposed by Jim Hadley, who accompanied the Pampa team to Denver and pitched good ball although losing.

Manager Sam Hale will send his "old gang" against the Amarilloans. Each team has won two and lost two games. Both are determined to break the leadership tonight.

Dope points to an Amarillo victory following a 9 to 1 win over Huber of Berger Wednesday night in Amarillo. Phillips presented a pair of new players who played sensational games. They were Filbert, first baseman, and Bork, catcher, formerly with Phillips of LeFors. Filbert will be on first tonight. Either Bork or Joe Surface will be behind the plate.

Lefty Cox, Grover Seitz and Sam Hale, who showed plenty of power with the timber in Denver, will lead the Road Runner attack. All three hit 300 or better with Cox leading the parade with a mark of .412.

On Sunday afternoon the Road Runners will go to Berger for a game with the Huber Blackfaxes. Either Lefty Winkler or Yodie Clements will be on the mound. For the birds, it was rumored this morning.

Another crack Oklahoma City team will invade Pampa Tuesday night when the Oklahoma City All Stars, one of the leading teams in the Oklahoma City Sandlot tournament, will be here for a single game.

Fans hopes to see the birds with more strength when the Oklahoma men arrive.

"Myers told me to go take a bath, that he was going to bed," Daugherty said. "I went into the bathroom and closed the door. I didn't hear a thing, and when I finished bathing, I came out and yelled that I was going to turn in."

"I walked to the bedroom door and saw him lying on the floor by the bed."

## Tourney Games Are Tight At Skelly, One-Sided In Pampa

### CAMP SITE IN COLORADO IS PICKED TO TRAIN HARVESTERS

Eighteen innings were required to play two seven-inning games in tournament fixtures last night at the Skelly-Schafer plant. Both encounters at Road Runner park were runaway affairs with Pampa teams swamping Amarillo tents.

Phillips of the South Pampa field defeated Killary All-Stars of Canadian in a 12-inning struggle which was filled with arguments and squabbles. Both teams claimed illegal pitching. Canadian's manager, Doc Moss, announced during the game that he would play the rest of the distance under protest. He has 24 hours to file his protest in writing to Jack Kretzinger, commissioner.

The final score was 7 to 4. In an eight inning battle, Cockerill-Lokey of Amarillo won a 5 to 4 game from a Cities Service team which appeared overconfident.

King Oil swamped Borden's of Amarillo, 18 to 2, while the Baptists treated Elks of Amarillo in a like manner for a 16 to 7 victory, in games at Road Runner park.

Borden's and the Elks, both of Amarillo, left the tournament through losses last night.

No games will be played tonight because of a baseball game between the Pampa-Danciger Road Runners and the Phillips Parrots of Amarillo at Road Runner park at 8:30 o'clock.

Schedule for Saturday night follows:

At Road Runner Park  
8:00—Norse Sluggers vs Phillips Flyers (8-15)  
8:15—Skelly - Schafer vs Gulf of Berger.  
At Skelly-Schafer  
8:00—Whitburn vs Texas of Amarillo.  
9:15—Panhandle Laundry vs Canadian.

Longest Game  
Phillips got to Lefty Wilson for only three hits until the third extra inning when a pair of singles, coupled with two walks and an error, let in three runs and gave the Pennants a 7 to 4 win over the Canadian Irishmen who collected only four hits off Chisum in the same distance.

Slim Wilson again led Phillips' attack with a pair of blows. McGill got half of Canadian's hits.

Wilson fanned 15 Phillips batters when nine of his teammates whiffed the air.

Phillips won the game in the tenth. R. Dewey walked and went to second on a wild throw. Romines walked. Chisum singled to send what proved to be the winning run home. Tip Windom forced Romines. Gibson doubled sending both runners home. He died on base when the next two men went out.

Phillips . . . 200 201 100 3-7 5 3  
Killary . . . 900 400 300 0-4 4 4  
Phillips-Chisum and Dewey Canadian-Wilson and Blackmore.

Amarillo Wins  
Cities Service played carelessly and saw Cockerill-Lokey of Amarillo jump into a lead which they were unable to until the fifth inning. The visitors then tightened and won in the eighth after two were out. Seymour blasted out a single, went to second on an error and scored when Clark singled. Cities Service went out in order in their last half.

Cockerill-Lokey . 200 020 01-5 7 4  
Cities Service . 200 020 00-4 6 2  
Cockerill-Lokey-O'Brien and Wilson. Cities Service-Munsey, Campbell and Word.

Elks Go Some  
The Baptists showed new life in downing Elks of Amarillo 16 to 7 to send them home last night. Nine Amarillo errors, mixed with 16 base hits, helped the churchmen, who were held scoreless until the fifth when they opened up with their big guns to score eight runs. The Elks were leading 5 to 0 at that time.

Baptists . . . 000 082 6-16 16 2  
Elks . . . 003 201 1-7 11 9  
Baptists-Barfield and Becke. Elks-Garrett, Kelly and Verplank.

### CAMP SITE IN COLORADO IS PICKED TO TRAIN HARVESTERS

Color Colorado will be the haven of Harvester prospects for their fall camp. Coaches Odus Mitchell and J. C. Prejan announced this morning upon arrival of Bill Anderson, business manager, who made arrangements for the team to go to Monument Lake, 30 miles west of Trinidad, Colo.

The 30 eligible boys, accompanied by Coaches Mitchell and Prejan, Gorrilla Coach Bob Curry, Junior High Coach Tom H. Anderson, and Onan Barnard, will leave next August 23. Camp will last 10 days and every day will be work day.

Monument Lake and surrounding camp site belongs to the City of Trinidad which is donating the site, cabins, mess hall and kitchen, and heating and fishing privileges to the Harvester athletes and their mentors. A cook, who has been in charge of large groups of boys and men for 17 years, will also be furnished. Only expense will be food which is being secured at wholesale prices.

The camp is located in a beautiful valley at the base of a large mountain, the lake is many miles in circumference and is Trinidad's water supply.

Coaches are preparing a list of eligible players who will be called to meet with their mentors early this week. It will be a green squad which will make the trip, the Harvesters having lost 26 letters through graduation on the new age limit. Not a single starter from last year's squad will be available this year and only six reserves will report.

The trip to camp will be made in the Harvester bus. Equipment will be taken in a truck loaned by Pampa Hardware and Implement company and driven by Onan Barnard.

New uniforms arrived yesterday. They are solid green with large gold numerals front and back. Socks are green and gold. New helmets are also green with gold fronts.

The new uniforms will be issued for the opening game, Sept. 18, with Central high school of Oklahoma City. The game will be played at night under the lights at Harvester field.

The wire fence around the playing field will be torn down and a pipe fence substituted. The wire will be used for a fence on the north side of the plot.

Water is being soaked into the turf daily to keep it green and lush during the terrific heat. The playing field will be in much better condition this fall, keeps an announcer.

### Champ Secures Friend's Release By Parole Board

ANAMOSA, Iowa, Aug. 14 (AP)—Johnny McGrath shook off the memory of 25 months in the state reformatory today and turned to this job promised by the friends who got him out—James J. Braddock, the world heavyweight boxing champion.

The state parole board, mainly on the strength of a plea by Braddock, yesterday let McGrath off from the balance of a 10-year sentence he drew for breaking into a Shenandoah, Iowa, cafe to steal a bottle of beer.

Braddock, a friend of McGrath in their New Jersey boyhood, appealed in person to Governor Clyde L. Hoey several months ago and followed it with a letter promising to "employ John McGrath in my publicity department" at not less than \$35 a week, and to supervise "his social activities."

The 34-year-old McGrath disclosed he unwittingly started the chain of events leading to freedom when he communicated with Braddock in an effort to prove to the other prisoners that he knew the champ.

SUN DANCE OF SIOUX WILL BE PLEA FOR RAIN

Tribal Drums To Be Beaten After 57 Years

FORT YATES, N. D., Aug. 14 (AP)—Ceremonial drums of the once mighty Sioux nation—stilled for 57 years—were brought out today for a ritualistic appeal for rain to end the devastating drought.

They will be beaten on Aug. 22 at Little Eagle, S. D., when Indians of four states gather to revive the ancient tribal sun dance.

Strike Suspends Publication of Seattle Paper

SEATTLE, Aug. 14 (AP)—Publication of the Post-Intelligencer was suspended today by a strike called by the Seattle chapter of the American Newspaper Guild, supported by the Seattle Central Labor Council.

The newspaper failed to publish its morning editions after picket lines swung around the Post-Intelligencer building and members of the mechanical unions refused to pass through.

An executive of the Hearst newspaper said plans were not completed for resuming publication and he did not know whether its Saturday editions would appear.

Out of 80 employes in the newsroom, 22 entered the walkout in protest against the discharge of two Guild members and in a demand for recognition of the Guild as a collective bargaining agency, the executive said.

Richard Sells, president of the Seattle Guild chapter, said 40 of the 68 newsroom employes eligible for membership in the Guild reported themselves on strike this morning.

The Guild called the strike yesterday asking the re-instatement of its two members who it contended, were discharged because of Guild activities.

DALLAS, Aug. 14 (AP)—Texas and Louisiana bankers and oil men turned their attention today to bi-state problems created with development of the Rodessa pool.

A group of prominent Texas bankers and oil men planned to leave late today for the meeting, arranged by President W. B. Jacobs of the Louisiana Bankers' Association at the suggestion of Nathan Adams and Tucker Royall, Dallas bankers.

The meeting grew out of a suggestion at a Texas Bankers' Association committee meeting here last Saturday.

Kerosene Blast Fatally Injures Foundry Foreman

TEXARKANA, Ark., Aug. 14 (AP)—The explosion of a 2,000-gallon kerosene storage tank near Fulton, Ark., last night fatally burned Raymond Newman, 29, Hope foundry foreman, and injured two others.

The railroad station and several frame buildings in the small town, 18 miles north of here were threatened.

Newman, blown 30 feet into the air and landing in the flaming mass of fuel, retained enough strength to scramble to safety.

"I'm as good as dead, but take my pocket knife and cut my clothes off," he mumbled to Charles Roland, neighbor, first to reach him. Newman died in a hospital at Hope.

Roy Cox, 40-year-old blind man, attempted to dash straight into the blaze after the explosion shocked him. Kenneth Cox, 21, brother, caught him and pulled him to safety. Both were burned superficially.

Moscow Fliers Wait High Tide For Taking Off

NOME, Alaska, Aug. 14 (AP)—The powerful Moscow-bound pontoon-equipped monoplane, piloted by Sigmund Lewanewski and Victor Lechenko, awaited high tide today on a sand bar near Nome where it ran aground yesterday on an attempted takeoff for Siberia.

The Russian fliers completed a 600-mile flight from Fairbanks in three hours, 10 minutes without difficulty and landed on Safety Island, 20 miles east of here, at 2:37 p. m. Nome time, yesterday.

They were taking off for Whalen Cape, Siberia, on another lap of their 10,000-mile flight from San Pedro, Calif., to Moscow in quest of an air trade route when their planeplane ran aground.

Cook Confesses Actress' Death

LOS ANGELES, Aug. 14 (AP)—A 39-year-old cook's alleged confession that he killed Mimi Takako, Japanese stage beauty, in a jealous rage was held for submission to a coroner's jury today.

Raymond E. Johnson, former sutler of the 25-year old actress in a triangle of east and west, was captured yesterday in a Corona rooming house and jailed on suspicion of murder.

"I'm glad it's over," Deputy Sheriff F. F. Labrum quoted Johnson as saying, "Maybe I've lost—but the other fellow didn't win."

The third principal in the triangle was William J. Bachand of New York, who told police he wooed the Oriental beauty on a trans-continental bus trip west last week and intended to marry her.

The nominee, speaking before his party's state convention and an overflow crowd of several thousand persons, added:

"And in November, the American people will give all those new deal performers the go."

Knox declared there had been a strong movement in the direction of wider stock distribution among workers, but that this had been halted "only temporarily" by the depression.

He also amplified his party's position on labor matters, saying: "The relentless forces in the American system are moving toward shorter hours and higher wages. Our republican administration will encourage this trend."

Outlook Is Good For Dairy Prices

BOISE, Idaho, Aug. 14 (AP)—Dr. E. W. Gaumnitz, dairy section chief of the Agricultural Adjustment Administration, said today the outlook appears to be for higher butterfat and butter prices during the next few months.

In an address prepared for delivery at a meeting of the Dairy-men's Cooperative creamery of Boise Valley, Dr. Gaumnitz said: "The immediate outlook appears to be for butterfat and butter prices during the next few months to average somewhat higher than last year."

"However, it seems likely that the drought conditions already have been largely reflected in prices and it appears somewhat doubtful that prices next winter will show such marked increases from current levels as the unusually large increase of 12.6 cents in the farm price of butterfat and 13 cents in the wholesale price of 92-score butter from July to February last season."

# REPUBLICANS CRY 'POLITICS' AT DEMO TAX ANNOUNCEMENT

## 'LOOK OUT FOR COMING YEARS' SAYS SENATOR

### DEMOS' PROMISE OF NO NEW TAXES IS HOOTED

WASHINGTON, Aug. 14 (AP)—The Roosevelt administration's announcement that it planned to propose no new taxes at the next session of Congress evoked accusations of "politics" today from Republicans.

"A political gesture—pure and simple" was the way Rep. Bacon (R., N. Y.), eastern campaign manager for the Republican congressional committee, described the move in a formal statement.

Melvin C. Eaton, Republican chairman of New York state, said the tax announcement was a "political campaign statement," while Harrison E. Spangler, vice chairman of the Republican national committee, said the public could place no reliance on such assurances.

When Republican National Chairman John D. M. Hamilton heard of the Roosevelt administration announcement he laughed and said he would comment "in the words of Senator Walsh of Massachusetts—'there may not be any new taxes this year, or the year after, but oh boy, look out for the years to come.'"

There were no further statements from Democrats, beyond those issued after an early morning conference at the White House yesterday.

At that time Secretary Morgenthau, Senator Harrison (D., Miss.), and Rep. Doughton (D., N. C.) said a survey was being ordered to determine whether tax reductions can be made by repealing some "nuisance taxes."

Harrison, chairman of the Senate finance committee, said business improvement would enable the government "to reach a balanced budget much earlier than we expected."

## Probe of Cattle Feed Price Hike Asked by Texans

WASHINGTON, Aug. 14 (AP)—Spokesmen for Texas livestock interests asked Secretary Wallace yesterday to investigate the cotton seed cake industry after they charged the industry with "taking advantage of the drought" to charge excessive prices.

The group, here to discuss application of the soil conservation act to the range lands, laid a formal protest against increased prices before Wallace and prepared to discuss it with him later.

Jay Taylor of Amarillo, president of the Panhandle Cattle Raisers' Association, declared "present prices are unjustified and the cotton seed cake men are taking advantage of distressed conditions resulting from the drought to raise their prices."

The delegation said prices for the livestock feed concentrates had increased more than \$100 a ton since the drought began to sear the range lands in Texas, Oklahoma and other western states.

Accompanying Taylor were Roger Gillis of Del Rio, Tex., president of the Texas Sheep and Goat Raisers' Association; H. F. McGill of Alice, Tex., and W. R. Nesbit of College Station, Texas.

The request for an investigation was the first action in the group's conference with agriculture department officials dealing with livestock problems. They will continue discussions for several days.

Immediate application of the soil conservation act to the range was sought in a conference with W. B. Camp, assistant director of the

## WHAT YOU EAT HAS A LOT TO DO WITH HOW YOU FEEL

### Correction of Constipation\* Is Often a Matter of Menus

For years, the medical profession has insisted that proper diet is more effective in promoting health than the indiscriminate use of patent medicines. Today, they are using their teachings bear fruit.

For instance, millions of families have learned that common constipation is largely due to insufficient "bulk" in meals. Many of them correct this condition by the regular use of Kellogg's ALL-BRAN.

This delicious cereal supplies generous "bulk" in effective form. Within the body, its "bulk" absorbs moisture, and forms a soft mass. Gently this clears out the intestinal wastes.

Kellogg's ALL-BRAN also supplies vitamin B and contains iron. It may be served as a cereal with milk or cream, or cooked into tempting muffins, breads, etc.

Two tablespoonfuls daily are usually sufficient. Stubborn cases may require ALL-BRAN oftener. If not relieved this way, consult your doctor.

Kellogg's ALL-BRAN is not a "cure-all"—but it does correct common constipation.\* It is guaranteed by the Kellogg Company. Sold by all grocers. Made by Kellogg in Battle Creek.

southern division of the agricultural adjustment administration, and other officials of the government agency.

Camp said conferences had not reached a point where definite proposals could be made. The Texans were particularly interested, he said, in determining regulations of the act as they would be applied to ranges in Texas and Oklahoma.

Two Kansans are presidential nominees in the 1936 race—Governor Alf M. Landon, Republican, and Earl Browder, Communist.

## AROUND HOLLYWOOD

By HUBBARD KEAVEY

HOLLYWOOD—There are 100 odd dancing schools for children in and around Hollywood.

Ten thousand-odd children, aged from 18 months to 18 years, keep the schools going.

Object: Motion pictures. A dancing school is the key to the studio gates. Shirley Temple and

Jane Withers and Billie Lee and practically every other child player owes his movie start to attendance at a dancing school. The word has spread and not unintentionally, either.

When casting directors need a group of youngsters—they must have juvenile talent that isn't self-conscious—they don't call up the neighbors or the board of education. As a rule, they contact a school of the dance, where they can get as many trained youngsters as they need.

Schools Fatten On Movies In addition to tap, ballet and acrobatic dancing, the schools also include instruction in singing and dramatics.

The knowledge that the studios prefer dancing school-trained children is responsible, the head of one of them admitted, for 80 per cent of the business the schools do.

Their fame in this respect has spread. Every year at least 5,000 children—this is a conservative estimate—are brought to Hollywood from other parts of the country for the sole purpose of getting them into pictures. They apply first to the schools where, if they pay the tuition, they may have lessons.

The legitimate schools don't make any direct promises, but they point with perhaps justifiable pride to their many pupils who have made good in the movies.

Snub Child Actors An informant said that when a dancing child gets a movie contract, whether it is for six months or two weeks, he quits taking dancing lessons. The schools don't like that.

When 100 schools can keep up an active enrollment of 10,000 (the average pupil spends less than a year in school) it means that a very large percentage of parents are convinced they have exceptional offspring.

The average Hollywoodite holds child actors in high contempt. But many scoffers would, if they could, welcome the opportunity to show off his child—for a consideration.

### WHAT'S NO LOAFING

NEW ORLEANS (AP)—Superintendent of Police George Reyer tells this one on himself:

"Walking along Canal street recently, I happened to stop a few minutes at a corner.

"'Move on,' said a new policeman, 'no loitering around here.' 'I moved.'"

### Bloody Fight Is Waged in Quiet Western Spain

MADRID, Aug. 14—Pierce battles between Fascist rebels and government militia shattered the pastoral quiet of the ancient district of Estremadura in western Spain today.

The principal line of defense against the attacking insurgents was established at Hovy, a town near the Portuguese frontier, the government declared.

Bloody engagements drew the opposing forces together at three other points in the old Herding district, now constituted as the provinces of Badajoz and Caceres.

Rebel commanders claimed capture of the ancient Roman town of Merida in Badajoz.

Troops of the socialist Madrid government, fighting to suppress the Fascist rebellion now in its twenty-eighth day, reported they occupied Navalmaral de la Mata in Caceres. "Many" rebels were killed and wounded in the clash, the commanders said, and 42 rebel prisoners were taken.

### LARGEST PRIVATE MUSEUM IN STATE IS COLLECTION MADE AS HOBBY OF CLEBURNE PLUMBER

CLEBURNE, Aug. 14 (AP)—The four corners of the earth meet in a museum housed in the W. J. Layland plumbing shop here.

Layland tramped east, west, north and south, in his hunt for curios and antiques and assembled a collection he values at hundreds of thousands of dollars, and regarded as the largest and most complete private museum in Texas.

A Chinese gong lies at the feet of an Indian idol, the peacepipe of the Sioux and the broad war ax of an ancient Rome rests side by side on a shelf. The granary of the Aztecs, a papoose case of a million beads, wooden shoes of the Hollanders—all are grouped together.

Here East meets West and South meets North for the curious to gaze at.

More than 50 years ago Layland was fascinated by some arrowheads found on the Illinois farm where he was born and reared. His mother had for several years the hobby of collecting curios and when Layland was six years old he began his own collection—stamps. That led to an interest in assembling extraordinary things.

He says the value of his collection would run into many thousands of dollars. "I would not want to sell it," he says, "but I would be glad to give it to some city if a suitable building to house it were provided and proper care taken of it."

By profession Layland is a plumber but his place represents about ten per cent shop and ninety per cent museum. Relics of early Americanism predominate in the collection although virtually every country is represented. The collection might be classed roughly into three divisions, prehistoric, Indian and Colonial American.

Outstanding are such antiques as a clock, Layland says was on the ship that brought Columbus to the new world, a Roman cross-bar, a blunderbuss of the Spanish Main, the long-barreled rifle of the Deer-slayer, an English Bible printed in London in 1570, and a grandfather's clock made in Cincinnati in 1777.

In the center of these things lies the skeleton of an ancient cliff dweller. Layland is also adept at taxidermy. There are stuffed birds and animals of various hues and climes. He has a collection of butterflies worth thousands of dollars.

Fifteen thousand dollars worth of his relics are on exhibit at the Dallas and Fort Worth Centennials.

BODIES SOUGHT IN GAS-FILLED COPPER MINE

SIX FAIL TO REPORT AFTER SHIFT IN BOOM CAMP

MOUNTAIN CITY, Nev., Aug. 14 (AP)—Lethal fumes balked determined attempts by grim-faced miners today to recover remaining bodies of six men from the black, gas-filled depths of a copper mine. A P. Lofquist, Mountain City Copper Co. mine superintendent, impatiently awaited additional oxygen equipment from Salt Lake City. "We can't do much until we get it," he said. "The air's getting plenty thick down there and gas is pouring in from somewhere—a fissure probably."

'Red Madonna' Girds for War

The "Red Madonna," who has risen to unusual power in the Spanish government during the struggle to subdue the Fascist insurgents, is seen at Toledo, Spain, where she rallied forces to repel an expected rebel attack from the south. The "Red Madonna" is one of several women who by bravery and daring have risen to responsible posts from the government's volunteer ranks.

THROUGH COMES FOR MILES TO VIEW HANGING

HOOD IS TORN FROM NEGRO'S FACE FOR SOUVENIRS

BY DILLARD STOKES, OWENSBORO, Ky., Aug. 14 (AP)—Souvenir hunters ripped the hangman's hood from the face of Rainey Bethea immediately after the 22-year-old negro was hanged here today before a huge throng for an assault upon Mrs. Eliza Edwards, 70-year-old woman. Bethea still breathed when a few persons from the crowd rushed the four-foot wire enclosure about the scaffold and scrambled for fragments as mementoes of the spectacle. The crowd, estimated at upwards of 10,000, was for the most part orderly, except for a few hoots during administration of the last rites by a priest.

Mrs. Florence Thompson, sheriff, who directed preparations for the hanging staged in a three-acre lot, left to Arthur Hask, former Louisville policeman, the throwing of the trigger which dropped the negro to his death. She did not appear publicly.

Hash sprung the trap upon signal from Consulting Executioner G. Phil Hannit at 8:28 a. m. CST. Dr. W. L. Tyler and Dr. B. H. Seigler, Owensboro, pronounced Bethea dead at 5:44 a. m.

The hanging climaxed a night of excitement in Owensboro, whose normal 25,000 population was swelled by many thousands from Indiana, Illinois and surrounding Kentucky counties, lured by the first public hanging ever held in this county. The crowd came in automobiles, wagons and by hundreds on freight trains. Bethea, after confessing to ravishing Mrs. Edwards, was convicted and sentenced to hang July 31. Falling to obtain a new trial in the state court of appeals, his negro attorneys delayed the execution by obtaining a temporary writ of habeas corpus in federal court. When a permanent writ later was denied, Bethea's counsel gave up the fight to save his life.

Three Negroes Go to Chair in Sixteen Minutes

NASHVILLE, Tenn., Aug. 14 (AP)—The state, within the space of 15 minutes, electrocuted three negroes today for as many murders. First to go to the chair was C. H. (Curley) Ballard, 56-year-old one-legged brick mason of Kingsport, convicted of killing another negro to collect \$192 insurance. Second was James Smith, 27, who, along with another negro, was convicted of murdering Hugh Matlock, 65-year-old marble cutter of Fayetteville. Matlock was killed last year. James Clark, 23, of Memphis was last. He was convicted of fatally shooting Richard Sheehan, 27, a former Memphis high school football star during a burglary of the Sheehan home early in the morning of August 7, 1935.

East Texas Oil Land Owner Dies

LONGVIEW, Aug. 14 (AP)—Ernest R. Allen, 52-year-old field contractor whose choice of a country estate reputedly brought him a fortune, died yesterday of a heart attack. Funeral services were set for today. In 1930 Allen bought a country estate in East Texas to get away from the oil fields he had known for 25 years. Shortly after he retired there he discovered his estate was part of the world's largest oil field. He was reported to have made a fortune. He had worked in some of the southwest's important oil fields, including those in west and south Texas and in Louisiana and Arkansas. His widow, two daughters, Mrs. W. D. Slay of Houston and Mrs. G. B. Kennedy of Louisiana, a son, Ernest Allen Jr. of Longview, three brothers and a sister survive him. New York City's new 1.4-mile subway will cost \$57,000,000 and take almost five years to complete.

Winds Help Fire Fighters Check Worst of Blazes

ST. PAUL, Aug. 14 (AP)—A stubborn host of fire fighters took swift advantage of a favorable change in the weather today to bring major forest fires under control. Minnesota's three principal conflagrations were checked for the time being at least as winds subsided and humidity rose. A wireless dispatch to the Duluth national guard from Kabeogama Lake, 50 miles west of International Falls, said the flames had burned out on a peninsula after blackening 30,000 acres. Rangers in the Grand Portage state forest near Pine Lake advised 400 men had halted the fire there for the first time. State forestry department officials here assumed that the third big blaze, which threatened to cross the international boundary above Warroad and drove several settlers from their homes, had been controlled since they received no reports to the contrary.

CHUTE SAVES ONE OF ARMY PLANE'S CREW

Three Are Killed in Burning Ship's Crash NEW KENT COURTHOUSE, Va., Aug. 14 (AP)—An army plane, catching fire in flight, crashed on a farm near here last night, killing three of its crew of four. The fourth man, Private N. D. Flinn, 21, of McGuffey, Ohio, jumped to safety with a parachute. Langley Field officers said the three killed were Lieut. Willard S. Marvin, Riverside, Calif.; Private John J. Maher of McCleesport, Pa., and Private James E. Crittenden of Richmond, Va. They said the plane, a bomber, was on a practice flight from Langley field. C. T. Crump, a resident near here, said he saw the plane fall. He said it resembled a huge comet, with a tail of fire. The bodies were burned beyond recognition. One of the victims was Flinn was "shaky" after his narrow escape and was not able to give many details. Officers said he landed with his parachute about 300 yards from the spot where the plane struck, and dashed to the burning wreck. He said the heat was so intense, however, that he could not reach the crew.
