

BANDITS FIRE AT, THEN ROB PAMPAN

AROUND PAMPA HOUR BY HOUR—(Being high-spots from the diary of one who goes round and round): Up at an unusual hour, about 6:15 a. m., not because of alarm clock beckoning but by virtue of finished sleep on the part of the boy wonder, who believes much in the Edison theory that four hours a night is enough shut-eye for anyone.

About the house to this and that... and a session in the kitchen where flap-jacks are decided upon to break the night's fast... The jacks were fine, but not abetted by the junior partner of that famous firm, Pancakes & Sausage... On a crisp morn nothing can be sweeter than pancakes flooded in molasses and weighted down by golden butter.

After leaving the table, much too tight a-bell, wandered around a bit before starting on a brisk walk... There found one other staff man on the job ahead of us, and the usual wait for the morning mail.

Opening Uncle Sam's delivery for the morning proves a big task, what with letters and packages of the globe begging us to subscribe to this and to that golden formula to lead us out of something, or into something as the case might be.

The day's mail we found, came from South Bend, Ind.; Washington, D. C.; Waynesboro, Ohio; New York City; San Antonio, Dallas, Kansas City, Chicago, Cincinnati, Ohio; Omaha, Neb.; Sioux Falls, Ia.; Denver, Colo.; Hobbs, N. M.; Los Angeles, San Francisco, Little Rock, Ark.; Cleveland, Ohio; and other points east, north, west and south.

Into the waste basket with 75 per cent of it, albeit much time is lost in the opening thereof... A bit of fall talk about the wheat and then off to the court where found assembled prosecution and defense to hear jury's verdict of "not guilty in case at bar."

Listened awhile to courtroom buzz, pro and con, and then to the judge warning that such and such are "no go" and that they must appear for trial, or else... Saw there in the court, man called to trial for what in substance is driving a motor wagon while a bit in his cups, all of which he denies through capable counsel... A jury was selected and they went about the business of trying one man before twelve good and true.

Below stairs, then, for a "good morning" with Charlie Thut, y clerk of the old court, who smiles ever so graciously and welcoming, he talking with C. H. Walker, the post executive... Back across halls for a few-minute chat with Sherman White, county judge come Jan 1, and to refuse answers to questions about his personal and fleet-fingered secretary.

Off again through marble halls and up the golden stairs once more where did hear a reporter asking about bonds, bondsmen and such things... And a jury being thanked graciously for rendering a service.

Down, down to the bottom of the building of justice into the office of the sheriff where was greeted by E. F. Young, the justice, and O. T. Lindsay, the deputy, both of whom have cheery salutations... Nothing of import in the night's records there.

And, now, turned into the great corridors once more to observe men going thicker and thicker... And other standing about in little groups talking politics and crops... Next, away into the streets were did pass and say hello to A. D. Monteith, hostelry clerk.

Back in the office and to work on the pounding-letter mill for a time, only to be called by a radio executive who invites us to lunch on hamburger and coffee... a palatable invitation, indeed.

Once more to the desk to pour over matters piled up through the day... More mail of little or no import... Dived into a matter of copy for the coming day's paper, going round and round, as they say... winding up with a decision to give readers a burning mystery story as the next serial.

Came a man to the office to meet and shake the hand of Pa Pampa... and he expressed disappointment that the picture of him in the Sunday print, does not do the old fellow justice... After which we concluded that life is full of disappointments, anyway, so both decided to forget it.

Did have a letter typed to an up-and-doing correspondent in nearby city, straightening out a matter which had been duly garbled by us several days ago, proving that even we can err at times... Hoping the while for forgiveness.

I Heard... From Wade Duncan, former Pampian but now a resident of the Mobeetie community and he writes: "Would like to match the Mobeetie Hornets with the Harvesters. Will give 21 points and bet you a fish (7 pound bass) against a year's subscription to the Pampa Daily News which we read daily down here." (How about it, coach? I'll split the fish with you.)

Swings 'Votes'

Taking time off from politics for a romp with his children, Gov. A. H. Landon found the recreation was good practice for his "swing" into the home stretch of the presidential campaign.

Below stairs, then, for a "good morning" with Charlie Thut, y clerk of the old court, who smiles ever so graciously and welcoming, he talking with C. H. Walker, the post executive... Back across halls for a few-minute chat with Sherman White, county judge come Jan 1, and to refuse answers to questions about his personal and fleet-fingered secretary.

FLOWER SHOW OPENS TO PUBLIC TOMORROW

Single Specimens, Bouquets To Be Entered

Opening to the public at 1:30 tomorrow, the Garden club's annual Fall Flower show will display not only the choice show specimens from Pampa gardens, but will also feature beautiful arrangements of flowers and fruits, arrangements that would be suitable for home decoration. The show will be in Presbyterian church annex.

The display divisions will inspire entries of near-perfect blossoms, and also of flowers which are not of prize winning but which lend themselves to attractive arrangement. Bouquets in this division may be of one variety of flowers, or mixed varieties.

Judging will be based on color harmony, which counts 50 points, relation of interest to receptacle, 25 points, point of interest, 15 points, and distinction, 10 points. A similar basis for judging will be used for the fruit arrangements. Fruit may be of any kind, and may have been purchased anywhere.

Another division new to flower shows here will be the "thimble bouquets" for children.

Choice blossoms will be shown in two divisions—one for single specimens, the other for three flowers of a kind. Judging points will be color, size, stem, form, and foliage. In the groups of three flowers, five points will also be given for relation of the bouquet to receptacle.

Entries must be made by noon tomorrow. No entry free or admission fee is charged, and everyone is invited to enter flowers and to visit the show.

General supervision of the show is in the hands of Meses. R. F. Dirksen, Fred Cullum, and R. J. Hagan. Out of town judges have been secured by Meses. F. E. Leech, Lee Waggoner, and Tom Rose.

Entries will be received and registered by Meses. Cullum, Lynn Boyd, and H. C. Schofield. The arrangement committee includes Meses. Charles Thut, Joe Gordon, and J. M. McDonald. This latter group will assist entrants in securing suitable receptacles for their flowers. If members are called before tomorrow. Since receptacles will be judged as part of the flower arrangements, those who do not have suitable vases for their flowers are invited to ask for assistance.

Publicity for the show is in charge of Meses. Hagan, W. H. Davis, and Glen Pool.

CENTRAL BAPTIST CHOR. Choir practice at Central Baptist church is announced for 7:45 this evening by C. H. Chitrap, director. All members are asked to be present, and others in the church who sing are invited to join the group.

M. E. YOUNG PEOPLE A wafers roast will entertain young people of First Methodist church tomorrow evening. The group will meet at the church at 7 o'clock and go to Hoover for the supper.

### THE QUINS STAGE FALL FASHION SHOW

Copyright, 1936, NEA Service, Inc.

They would grace the co-eds' section at any football game, these well-dressed misses, but that, perhaps, will come some 15 years hence. Just now the Dionne quintuplets are showing off their fall finery the steps of their nursery at Callander, Ont. Yvonne, left, is arriving a bit tardily. That's Emilie clinging so interestedly over Cecile's shoulder. Annette stands up to show her outfit to the best advantage, while Marie seems a bit doubtful about the wisdom of having tilted back her bonnet. Nurse Yvonne Leroux smiles fondly on her charges.

# LANDON TRAIN PASSES FOR'S IN MICHIGAN

## GRAND RAPIDS URGED TO RECALL FOUR YEARS AGO

ABOARD ROOSEVELT TRAIN, EN ROUTE TO DETROIT, Oct. 15 (AP)—President Franklin D. Roosevelt, making his first bid for Michigan's 19 electoral votes, told an audience at Grand Rapids today that "you have here a pretty good example of what happened in four years."

In the same city, Gov. Alf M. Landon, the republican nominee, disputed last night the President's contention that real recovery was a progress in the nation.

Approaching Grand Rapids from Chicago, where the President received a mammoth demonstration last night, the presidential train passed the "Sunflower Special" which had carried Gov. Landon on a two-day tour of Michigan.

Supt. of Police Frank O'Malley estimated the crowd gathered along the route of the President's parade and at Campau square, where Roosevelt spoke, at 150,000.

Roosevelt told the crowd that "action had to be taken to bring prosperity back."

"The first thing in 1933," he said, "was to stop persons from starving and to give relief, to give work. After we had done that, then came the next step, to take measures to enable people to improve their living conditions."

"You in Grand Rapids have an example of how we saw things through."

The presidential train left at 10:40 a. m. (eastern standard time) with a stop at Lansing, the state capital, scheduled for 12:30.

# ENRAGED CAPTIVE BEAR MANGLES AND KILLS 2

ELLSWORTH, Me., Oct. 15 (AP)—A captive 350-pound bear mangled and killed two men at the Whistle Inn, near here today.

The animal went berserk as James Langley, proprietor of the inn, entered a cage to give it its breakfast.

The other man killed, James Burchwell, 68, of Fort Fairfield, Langley's helper at the inn, was attacked as he went to his employer's rescue.

There were no witnesses.

Police believed the enraged killer bear pushed the 60-year old Langley through the pen door as he entered with food. As the animal attacked Langley, his assistant apparently struck the bear with a shovel and he in turn met death.

The bodies of both men were torn and their limbs broken.

Mr. and Mrs. Langley had operated the inn in the North Ellsworth district for the past 10 years and kept the bears as a trade attraction. Both animals were believed to have been tame and, as far as police could ascertain, never before had caused trouble.

# GAS SHELLS HURLED IN SALINAS LETTUCE RIOT

SALINAS, Calif., Oct. 15 (AP)—Violence broke out again today in the lettuce workers strike and police hurled between 40 and 50 gas shells to drive back 400 pickets from a barricaded shed.

The shouting strikers, Police Chief George Griffin said, hurled rocks at lettuce trucks. Officers arrested 60 persons on charge of unlawful assemblage and violating the anti-picketing ordinance.

After the gas attack the strikers attempted to march in a demonstration through the downtown streets but were turned off Main street by police.

They reformed their ranks to parade through another street but again the officers broke up and scattered the marchers.

The strike of 3,200 workers began Sept. 4 when the employers refused the demand of the Fruit and Vegetable Workers' Union for preferential employment.

The workers contended they should have the jobs of preparing lettuce for shipment in preference to itinerant labor from the drought areas.

# CCC OPENINGS AGAIN AVAILABLE FOR YOUTHS

Due to shortage of CCC enrollees in other states, Texas has been given an additional quota for enrollment on Oct. 27 and 28 for white youths only.

Eligibility requirements for the new enrollment will be the same as in the past, and information can be obtained at the relief office on the third floor of the courthouse.

All boys eligible and interested in enrolling are requested to call at the relief office immediately.

# SIMULTANEOUS STRIKE? SAN FRANCISCO

A simultaneous strike of all maritime unions on the Pacific coast looms as a possibility today in the event differences between waterfront employers and employees are not settled peacefully by October 28. To a federal maritime commission demand for an indefinite waterfront strike, executives of the several maritime unions answered with appeals to their 38,000 members to vote them authority to call a strike at midnight, October 28, "if no satisfactory agreement is reached" before then.

# STYLE TIP FROM EMILIE

"Wear your hat down like this," Emilie suggests to Sister Marie, who seems just a little dubious as to how far this matter of helpful advice should go. Once tiniest of the quins, but now as robust as her sisters, Marie is right out in front for the quintuplets' fall fashion parade. Even in northern Ontario, there occasionally comes an Indian summer day with just enough warmth for fall coats to be laid aside. That the Dionnes are enjoying this treat you can see in this picture.

# DAILY-NEWSPAPER HAS GROWN 'INCOMPARABLY'

CHICAGO, Oct. 15 (AP)—Stephen Bolles, editor of the Jamesville (Wis.) Daily Gazette, declared today that "nothing in the history of any development, except perhaps the radio and automobile, has compared with the growth of the daily newspaper in the city of from 5,000 to 25,000 in the last two decades."

Speaking at the twenty-third annual convention of the Audit Bureau of Circulations, Bolles said that mechanical marvels and expansion of press association reports had enabled the small city paper to grow overnight "from a baby... to husky manhood."

Bolles asserted that the community newspaper "must be clean, it must be happily welcomed by woman and children. It should be purged of dirt and breathe more than crime and disaster. It must be more discriminating than the metropolitan newspaper..."

# FASCISTS HUNTED IN BUILDINGS OF MADRID

MADRID, Oct. 15 (AP)—Government police trapped through Madrid streets today in a house-to-house search for hidden fascists.

Disturbed by a repeated claim of Gen. Francisco Franco, insurgent dictator-designate, that a secret "fifth column" of fascist sympathizers actually within the capital to aid his four lines of marching men, the socialist administration began a frenzied attempt to clean up its rear guard.

Many persons, suspected of disloyalty to the regime; were thrown into prison.

Credentials of every student were examined in the systematic search. Those without papers or those whose documents seemed forged were arrested.

Fortification of the capital continued apace.

# TO FIGHT CHARGES. KENOSHA

WIS., Oct. 15 (AP)—Mrs. Ruth Moran, whose anxiety to "get it over with" led her to plead guilty to first degree murder in the slaying of her lover, Herbert Winter, decided today to fight the charges. The decision to withdraw her plea of guilty and ask for a jury trial was reached after a conference between Mrs. Moran, 21-year-old mother, and Edward J. Ruetz, former president of the Kenosha County Bar Association, who was named her attorney by Circuit Judge E. B. Belden late yesterday.

# 546 DEAD. MANILA

OCT. 15 (AP)—The number of known typhoon dead rose to 546 today and the official tabulation showed 1,045 missing as reports came in from isolated northern Luzon island provinces swept by wind and flood Friday, Saturday and Sunday.

# Community House To Be Built at Houston Gardens

HOUSTON, Oct. 15 (AP)—A \$9,500 community house was promised Houston Gardens today as a quarrel over administration of the Resettlement colony of 99 persons headed toward court.

John Caulfield, official of the Resettlement administration who came here from Dallas to try to settle the squabble, said construction on the community house would start within a few weeks. Funds for the house were granted by the Resettlement administration, he said. The house will have an auditorium, library, sewing rooms and a kitchen suited for home demonstration.

Caulfield said a suit had been filed in district court asking eviction of H. R. Cox, a homesteader who refused to sign a permanent contract. Caulfield said the case would be set for Nov. 2.

Houston Gardens was started in March, 1935, as the Resettlement administration's first project. Later, administration was shifted to the Houston Homestead Association, an organization composed of residents of the colony, and the residents were asked to sign permanent contracts.

The residents split into two factions over the shift in administration and proposed increases in monthly payments. Thirty-eight residents objected to the shift and refused to sign new contracts. The others claimed they were entirely satisfied with the change. Leaders of the dissatisfied group said they welcomed a court test and that they would fight the change in administration and resist eviction.

# House of Papal Nuncio Searched

MUNICH, Germany, Oct. 15 (AP)—Nazi secret police today searched the house of Vasolla di Torragnosa, papal nuncio to Bavaria, confiscating a number of letters.

The search, which was the second this month, resulted in the arrest of one employe.

Gestapo officials maintained secrecy in connection with the incident, but it was understood the raid was in connection with alleged reorganization of the prohibited Catholic youth movement.

# HOUSTON BARS SPEAKERS FOR WORLD PEACE

## Communitistic Mirage Raised by School Heads

HOUSTON, Oct. 15 (AP)—Members of the emergency peace campaign sharply criticized Houston public school officials today for cancelling, because of "rumors of communitistic leaning," speaking engagements of two peace campaign leaders.

Dr. Robert Morse Lovett of the University of Chicago and Dr. James W. Workman, district superintendent of the Methodist Church, South, of Fayetteville, Ark., were not allowed to speak in the schools.

"It looks like some people are going crazy," said Ewing Werlin, member of the peace campaign. "They're seeing mirages, raising horrible straw men where nothing at all exists. The rumor that the peace campaign is financed by Communist forces is too absurd, too idiotic, even to warrant an answer."

W. A. Combs, chairman of the planning committee of the campaign, sharply criticized the action of J. O. Webb, director of the high schools, in cancelling the speeches. "Mr. Webb fails to give the names of these people he says have complained of the Communist leaning of Dr. Lovett and Dr. Workman," he said. "The speakers were sent to us by the national head of the peace campaign. The national speaking campaign was inaugurated last spring on the steps of the White House. Mrs. Roosevelt herself participated in the ceremony which launched the campaign. I feel perfectly safe in presenting to the advocates of peace in Houston these two men."

## GOLD RESERVE HIGHEST

WASHINGTON, Oct. 15 (AP)—America's huge gold reserve crossed the \$11,000,000,000 mark today for the first time in history. Bullion holdings for October 13—the day of the new tri-power gold exchange agreement went into effect—were reported by the treasury at \$11,001,712,764, or about \$15,000,000 above the previous day.

**FILM FOLK SUSPENDED**  
NEW YORK, Oct. 15 (AP)—Twenty four motion picture actors and actresses, among them Lionel Barrymore, Rosalind Russell, Alice Brady and Jack Oakie, were under suspension from the Actors Equity today for failure to join the Screen Actors Guild. The Council of Equity, leading theatrical protective organization, ordered the suspensions, an announcement said, after the 24 ignored a warning to adhere to an agreement between the Equity and the Guild.

### GIRLS PULL HAIR AND SCRATCH AT A RALLY

NORTHAMPTON, Mass., Oct. 15 (AP)—Powder and rouge covered the bruises today which several Smith college girls received when rival political groups indulged in a little hair-pulling and nail-scratching before a rally for Massachusetts republican candidates was held on the campus.

With red and green torches flaring and a band blaring a hundred or so republican supporters marched across the campus of the exclusive college to John M. Greene hall to hear the candidates, headed by John W. Haigis, candidate for governor.

There they were met by a group of about 25 democratic enthusiasts carrying brightly painted signs. A highly pitched soprano hoot pierced the air. Carmine painted finger nails went into play. Tufts of hair from carefully marcelled heads drifted in the night air.

Signs bearing such sayings as "Sunflowers die in November" and picturing a drooping flower; "Don't be dumb, be a democrat;" "Are you a man or a mouse?" with a picture of President Roosevelt on one side and a mouse on the other topped.

### NON-SALUTING PUPIL BARRED FROM SCHOOL

ATLANTA, Oct. 15 (AP)—The Atlanta school board holds that religious belief is no excuse for a pupil's refusal to join others in pledging allegiance to the American flag.

It supported Supt. W. A. Sutton yesterday in his ruling that 12-year-old Dorothy Leoles could not return to school until she is ready to conform. The child has been under suspension since last June on Sutton's orders.

George Leoles, Dorothy's father, appeared before the board yesterday and said Dorothy had not joined in saluting the flag during the morning school exercises because it was against his religion.

He said he was a naturalized Greek and had not pledged allegiance to the flag when he became an American citizen in 1922.

Radio Typewriter  
WASHINGTON, Oct. 15 (AP)—Development of a radio typewriter, which reproduces written weather reports in airplane cockpits, was announced today by Secretary Roper.

A single broadcasting station can operate the automatic typewriters simultaneously in a score of airplanes, Roper said, halting the new device as a "great step forward in the act of communication."

Oklahoma spent \$51,007 during the fiscal year 1935-36 in a typhoid fever prevention campaign.

In contrast to large federal reserves in Hawaii and Alaska, all the land in American Samoa is privately owned.

### CAPITOL JIGSAW

By HOWARD C. MARSHALL

AUSTIN, Oct. 15 (AP)—The outlook for outstanding achievements by the current special session of the legislature was not bright at the end of the first week.

There is talk of a second session of 30 days, to be called at the end of the first, but the attitude of Gov. Allred toward it was distinctly in doubt.

From time to time, the governor had intimated he planned to give the legislature one more chance to provide adequate financing for pensions and then drop the matter until the regular session in January.

Frank Bane, director of the National Security board, gave the House of Representatives clean-cut answers to question about old age assistance. He was a witness at the House inquiry into the pension situation.

Unlike many persons who testified at other hearings, he seemed to have the information wanted and to be

unafraid to give it in plain language.

Among many things, he said the federal government would not match retroactive pension payments nor would it in effect lend money to match anything not in the state treasury.

Two consistent domino fans are Claud Teer, chairman of the board of control, and Rep. Albert K. Daniel of Crockett. They were observed in a foursome in the House of Representatives hall one day when the legislature was not in session.

In fact, most of the House members enjoy the game and miss few opportunities to play it, usually at the press table in the center aisle of the big chamber. Rep. Lon E. Alsop of Carthage good-naturedly remarked that an item on his domino playing during legislative sessions was circulated by opponents in his campaign for re-election. He was re-nominated.

There were several fumbles in the Louisiana State-Texas football game but Governor Allred didn't make one.

At the half-way intermission, Gov. Richard Leche of Louisiana presented the Texas governor with a football autographed by all members of the Louisiana squad.

He called on the crowd to witness

### Rotary Governor Visits City Club

"Keep moving and don't slip," was the advice given members of the local Rotary club yesterday when Fred A. Wemple of Midland, district governor of this the 41st district of the international organization, made his official visit to the club.

"I am well pleased with what you are accomplishing as a club and compliment you on your fine attendance record which shows the interest of members in the club."

He told of the work which Rotary clubs were doing to promote peace throughout the world with the 4000 clubs in some 90 different countries. More than 170,000 business and professional men are now members of the organization and each month shows an increase.

He explained the method of operation, for the special benefit of newer members, and emphasized the fact that Rotary's plan is to develop its members for participation in community activities.

Visitors at the meeting yesterday were Art Holland, Jack Rodgers of Amarillo, and Rotarians R. M. Matthews of Canadian, Ben Anderson of Amarillo, J. R. Phillips of Borger, H. J. Harnley of McPherson, Kas., H. H. Kaderli of Midland and L. L. Wiles of Sand Springs, Okla.

I. B. Hughey was introduced as a new member.

### JUNEAU, ALASKA, HAS 1,000 REFRIGERATORS

JUNEAU, Alaska, Oct. 15 (AP)—When those salesmen get together again in Atlantic City to sing the praises of their number one they've got to think up a better one than "Why, he could sell ice-boxes in Alaska."

That old phrase is getting to be a pretty lame commendation, Juneau residents say.

For if Juneau hasn't more electric refrigerators per thousand families than any other city in the world, the men who sell them here want to know what city holds that record so they can knock it over.

Completing a census today of the 2,000 residences in Juneau, W. P. Johnson of the Alaska Electric Light and Power company found the city had more than 1,000 electric refrigerators in service.

"The interesting feature of this is that far from nearing what might seem the saturation point, the sale of these units has been steadily building up," Johnson said. "It looks like the score is going close to 100 per cent some of these years."

Other courtesies were exchanged. The Louisiana band marched into a formation that spelled "Allred" while the Texas musicians similarly spelled "Leche."

Bantam cars will not be offered while other low-priced models are selling as easily as they are. "Why kill a good market?" It was also said that it would take an enormous sales volume to show profits. In fact, it is doubted whether the country is ready to absorb bantams.

**PROGRESS.**

American Type Founders insiders say that the company's sales volume shows constant betterment. For the fiscal six-month period ended Sept. 30 a net of slightly better than 50 cents a share was booked. For the fiscal year ending March 31, 1937, a net of over \$1 a share is expected. Since the company's reorganization, rehabilitation of its business has advanced rapidly. Insiders anticipate further progress.

ORANGE, N. J.—Here's a dog that knew its way around but got into trouble because he lacked the gift of prophecy.

The seven-months old terrier hobbled into Orange Memorial hospital with a deeply lacerated foot, limped down the hall to the dispensary and scratched on the door for treatment.

An interne bound the foot, then sent the pup to the dog pound because there wasn't any sign of a license.

The owner had 72 hours to claim the terrier.

More than two-thirds of the total 1935 commerce at Gulf of Mexico ports was handled through Texas cities.

Abbe was originally the French word for abbot.

**GOOD FAIRY.**

Chesapeake & Ohio officials have found a new way to distribute earnings so that taxes on undistributed profits will be avoided. Here are the dividends it will pay—if approved by stockholders: In addition to the regular annual \$2.80 in cash there will be a \$1 extra. Then another \$2 per share dividend will be paid in new four per cent non-cumulative preferred stock. All told this will total in dividends \$5.80 a share or about as much as the road will net for 1936.

The plan has Allegheny Corporation shareholders all excited. They see—as a result of the C. & O. dividends—the Chesapeake Corporation declaring a 20 per cent stock dividend. It is expected that Allegheny Corporation will in turn offer the Chesapeake Corporation shares to its bondholders on an exchange basis. If that it so it would leave Allegheny with only preferred and common shares outstanding.

"Chesapeake & Ohio is the Good Fairy to all its numerous affiliates."

**OILS.**

According to oil trade insiders the industry is in excellent statistical condition. It is also said that the outlook for the balance of the year is reassuring. Barring unforeseen developments the following 1936 per share nets are anticipated: Standard Oil of New Jersey, \$4; Texas Corporation, \$4; Phillips Petroleum, \$4.25; and Standard Oil of Indiana, \$3. These optimistic figures account for recent insiders' buying.

Real Silk Hosiery's last half year showing will be better than the first half deficit of \$66,771. But Indianapolis quarters are not interested in the shares. That's where the corporation's main plants are located.

There are reasons for the lukewarm feeling. One is the deficit reported for the first six months. But the big reason is that the board of directors is split into two factions. It's felt that Real Silk's progress will be retarded until these groups adjust their differences.
