

LITERARY DIGEST CLAIMS NO ALIBI AND DOES NOT KNOW WHAT WENT WRONG WITH POLL

JOURNAL DISMISSES ALL REASONS AS INVALID

The Literary Digest said today: In 1920, 1924, 1928 and 1932, the Literary Digest Polls were right. Not only right in the sense that they showed the winner; they forecast the actual popular vote with such a small percentage of error (less than 1 per cent. in 1932) that newspapers and individuals everywhere heaped such phrases as "uncannily accurate" and "amazingly right" upon us.

Four years ago, when the Poll was running his way our very good friend Jim Farley was saying that "no sane person could escape the implication" of a sampling "so fairly and correctly conducted."

Well, this year we used precisely the same method that had scored four bulls' eyes in four previous tries. And we were far from correct. Why? We ask that question in all sincerity, because we want to know.

"Reasons"—Oh, we've been flooded with "reasons." Hosts of people who feel they have learned more about polling in a few months than we have learned in more than a score of years have told us just where we were off. Hundreds of astute "second-guessers" have assured us, by telephone, by letter, in the newspapers, that the reasons for our error were "obvious." Were they?

Suppose we review a few of these "obvious reasons." The one most often heard runs something like this: "This election was different. Party lines were obliterated. For the first time in more than a century, all the 'have-nots' were on one side. The Digest, polling names from telephone books and lists of automobile owners, simply did not reach the lower strata." And so on.

"Have-nots"—Well, in the first place, the "have-nots" did not elect Mr. Roosevelt. That they contributed to an astonishing plurality, no one can doubt. But the fact remains that a majority of farmers, doctors, grocers and candlestick-makers also voted for the President. As Dorothy Thompson remarked in the New York Herald Tribune, you could eliminate the straight labor vote, the relief vote and the Negro vote, and still Mr. Roosevelt would have a majority.

So that "reason" does not appear to hold much water. Besides—We did reach these so-called "have-not" strata. In the city of Chicago, for example, we polled every third registered voter. In the city of Scranton, Pennsylvania, we polled every other registered voter

And in Allentown, Pennsylvania, likewise other cities, we polled every registered voter.

Is that so? chorus the critics, a little abashed, no doubt. Well, they come back, you must have got the right answer in those towns, anyway.

Well, we didn't. The fact is that we were as badly off there as we were on the national total.

Cities—In Allentown, for example, 10,753 out of the 30,811 who voted returned ballots to us showing a division of 53.32 per cent. to 44.67 per cent. in favor of Mr. Landon. What was the actual result? It was 56.93 per cent. for Mr. Roosevelt, 41.17 per cent. for the Kansan.

In Chicago, the 100,929 voters who returned ballots to us showed a division of 48.63 per cent. to 47.56 per cent. in favor of Mr. Landon. The 1,672,175 who voted in the actual election gave the President 65.24 per cent. to 32.26 per cent. for the Republican candidate.

What happened? Why did only one in five voters in Chicago to whom The Digest sent ballots take the trouble to reply? And why was there a preponderance of Republicans in the one-fifth that did reply? Your guess is as good as ours. We'll go into it a little more later. The important thing in all the above is that all this conjecture about our "not reaching certain strata" simply will not hold water.

Hoover Voters—Now for another "explanation" dinned into our ears: "You got too many Hoover voters in your sample." Well, the fact is that we've always got too big a sampling of Republican voters. That was true in 1920, in 1924, in 1928, and even in 1932, when we overestimated the Roosevelt popular vote by three-quarters of 1 per cent.

In 1928 in Chicago, we underestimated the Democratic vote by a little more than 5 per cent, overestimated the Republican vote by the same margin.

We wondered then, as we had wondered before and have wondered since, why we were getting better cooperation in what we have always regarded as a public service from Republicans than we were getting from Democrats. Do Republicans live nearer mail-boxes? Do Democrats generally disapprove of straw polls?

We conducted our Poll as we had always done, reported what we found, and have no alibis. We drew no special satisfaction from our figures, and we drew no conclusions from them. The result was disappointing only in the sense that it threw our figures out the window,

and left us without even the satisfaction of knowing why.

Future—As for the immediate future, The Digest feels that in truth "the nation has spoken." The Digest hails a magnificent president against whom it never uttered one word of partisan criticism. The Digest can not support him, in the sense that newspapers support a president, editorially, because The Digest does not editorialize. But it can obtain genuine satisfaction from the knowledge that its several editors, as American citizens, and its millions of readers, as American citizens, will stand behind the First Citizen.

Speaking of the President, there is a spot of comfort for us in the knowledge that he himself was pretty badly off on his Electoral total, and that he "laughed it off" in his genial way. His last guess was 360 votes to Mr. Landon's 171. (On June 5 he had estimated his margin at 315 to 216.)

As for the more distant future, the questions have been asked: Will The Digest conduct another Poll? Will it change its methods? The answer to the first question we phrase in others. Should the Democratic Party have quit in 1924, when it reached a modern low-ebb in power and confidence, instead of going on to the greatest triumph in its history? Should the Republican Party have quit in 1912 when it carried only two states? Should the University of Minnesota, with the greatest record in modern football, give up the sport because it finally lost one game, after a string of twenty-one victories?

The answer to the second question is: We'll cross that bridge when we come to it.

Luncheon Marks Holiday Period For S. S. Class

A Thanksgiving luncheon entertained First Baptist Althean class Tuesday at the church. After lunch Mrs. W. H. Beasley and Mrs. L. L. Allen presented a program on Faith, with a devotional by Mrs. John Jett. Each member named the thing she was most thankful for.

Others present were Mmes. R. V. LaRue, P. K. Stephens, Louise Prestidge, R. D. Yowell, J. E. Matthews, Paul West, H. H. Threatt, Max Robinson, Eddie Gray, A. C. Crawford, N. B. Franks, O. C. Summers, Maurice Robinson, Ira Pearson, Haskell Dill, Billie Martin, Clyde Spear, W. B. Holder, Owen Johnson.

A survey showed there were no horses on 34,571 of 174,589 Kansas farms.

P-TA Program To Be This Evening

Junior High Parent-Teacher association will have an evening meeting today, open to the public and with fathers of pupils especially invited. Principal R. A. Selby will be in charge of the program, and Supt. R. B. Fisher will be the speaker.

His subject will be Young Lives in a Modern World. Entertainment will be by boys of junior high and high school. Eugene Finkbeiner will play piano solos and the Junior High Boys Glee club will sing two numbers.

The hospitality committee, Mrs. W. B. Murphy and Mrs. Roy McMullen, will direct the serving of refreshments. The meeting is to start at 7:30.

Costumes Add to Dance Program

Attractive new costumes added color to the program given by pupils of the Vincent studio of dancing at a Magnolia safety meeting Wednesday evening at the city hall auditorium. Kathryn Vincent Steele, teacher, was master of ceremonies, and Mrs. Frank Keehn accompanist.

Tamara Arwood and Mary Jo Gallimore of Skellytown, costumed in blue satin and silver, opened the program with a clever dance. Spirit of Armistice, a military buck, was danced by Gloria Robinson, who wore red, white, and blue. Marjorie Ruth Gayler gave two humorous readings.

Patsy Rhodes, in a gold and silver dress, danced to accompaniment by her mother. A song and dance, Lesson in Love, was by Marian Hoover and Gloria Robinson, also in patriotic colors. "Ginger" McNaughton wore black lace for a personality song and dance.

The last two numbers were danced by Frankie Lou Keehn, advanced pupil, who appeared in a swagger costume of silver and black.

ADDITIONAL DEBT IS OPPOSED BY BAPTISTS

MINERAL WELLS, Nov. 13 (AP)—The Baptist general convention of Texas had the recommendation of its executive board today against the imposition of additional debt.

The board proposed a \$600,000 budget, a 25 per cent increase, for the convention and urged that immediate steps be taken to retire all debts. "Texas Baptists have emerged from a grievous period of depression and we are convinced that insofar as our denominational affairs are concerned, we have come upon the

hour of recovery," the annual report said. George Mason of Dallas, treasurer, reported the value of Baptist property in Texas exceeded \$31,000,000.

QUEEN OF THE COOP WASHINGTON, Pa., (AP)—Old age overtook a hen that ruled Mrs. L. M. Swihart's coop for 16 years. She said the reason it escaped early death was that it was a special hen—it had 17 toes instead of the usual eight.

# PLAINVIEW BELIEVES BULLDOGS NOW HAVE CHANCE AGAINST HARVESTERS

## NEXT GAME TO BE PLAYED IN PAMPA FRIDAY

### WAYS AND MEANS TO STOP FUMBLING SOUGHT

Bruised and sore after their 14 to 7 victory over the Borger Bulldogs on the caliche playing field at Huber Stadium Wednesday afternoon, the Harvesters went through a light workout yesterday afternoon in an effort to wear off the soreness. No practice was scheduled for this afternoon but work will be resumed Monday in preparation for the invasion of the Plainview Bulldogs next Friday afternoon at 2:30 o'clock.

A badly torn finger kept Cox, end, out of yesterday's workout. The digit was injured in the final quarter of the game Wednesday. Woody Woodruff reported with a sore head, suffered from elbow contusions and being hammered into the ground. J. W. Graham's face was also unpleasantly sore from a foot pressure. Noblitt and Maxey were both limping but were in the practice.

Plainview, so reveal reports from the Hale county metropolis, is all "hopped" up over the game. They expected the Harvesters to take the Borger eleven by a much larger score and now believe their Bulldogs have a chance against the Harvesters.

Borger downed Plainview while the team was at its lowest point after losing five players through ineffectiveness. Since then the Bulldogs have been on the up until Wednesday they took a 7 to 6 game from the Olney Cubs.

Ways and means to stop the disastrous fumbles which have hit the Harvesters the last few weeks will be dealt with next week even if it is necessary to make the backs carry footballs around with them wherever they go. Eight fumbles in the Borger game and seven in the battle with Olney is the record of the Harvester backs in their last two games. Two of the fumbles cost the Harvesters touchdowns and one cost them a football game.

## USLA IN DOUBT OVER NUMBER 1 WOMAN ACE

NEW YORK, Nov. 13 (AP)—The delicate task of selecting Alice Marble or Helen Jacobs for the No. 1 spot in the 1936 national tennis "first ten" is troubling members of the U. S. Lawn Tennis Association's six-man ranking committee.

With precedent to work on, the committee are deliberating carefully to determine whether Miss Marble, conqueror of Miss Jacobs in the final of this year's U. S. championship, or Miss Jacobs, four times American titleholder and reigning all-England champion, should get the lead-off position.

Twenty-two years ago the solons were confronted with an almost identical situation after R. Norris Williams defeated Maurice McLoughlin, 6-3, 8-6, 10-8, in the final of the 1914 tournament.

Up to that time victory in the championship virtually carried with it the No. 1 ranking. Taking into consideration McLoughlin's previous triumphs over the Williams and his victories over Tony Wilding and Norman Brookes of Australia in the Davis Cup challenge round, played in New York, the committee ranked McLoughlin No. 1 and Williams No. 2.

Miss Jacobs' victory over Miss Marble in an eastern invitation tournament before the nationals only serves to complicate the situation, strengthening the prospects of Miss Jacobs' holding the No. 1 ranking she has held for the last four years or, at least, sharing it with Miss Marble.

## BRADDOCK-LOUIS BOUT NEARS SIGNING STAGE

NEW YORK, Nov. 13 (AP)—The Braddock-Louis heavyweight championship fight negotiations hung today upon the ability of promoter Herman (Mugsy) Taylor of Philadelphia to raise \$100,000 quickly.

The upshot of all the talking yesterday was that Joe Gould, Jimmy Braddock's manager, said he would sign as soon as Taylor put up the \$100,000 as evidence of his good faith in offering the champion four times that amount to meet Louis in a 12-round exhibition in the big Atlantic City convention hall in February. Taylor said he expected to get the money without difficulty.

Mike Jacobs, who handles Joe Louis' affairs, said he was ready to sign as soon as he sees Braddock's name on a contract. President John Reed Kipstick of Madison Square Garden decided to take no steps until something actually were done about the signing.

The Garden has a contract with Braddock to make his first title defense under its promotion against Max Schmeling.

## Declares Notre Dame Should Whip Army

By HERBERT BARKER

NEW YORK, Nov. 13 (AP)—Totally disregarding the vaunted evil influence of Friday the 13th on the theory that things couldn't be any worse, this football guesstimate arises from the resin and leads again with the chin:

Princeton-Yale: Slow to get under way this year, the Tigers apparently are ready to roll along now while Yale, with not much reserve strength, has looked tired in its last two engagements. This ballot to the Tigers.

Army-Notre Dame: Notre Dame teams habitually reach their peak against the Cadets. The nod, not too emphatic, goes to Notre Dame.

Nebraska-Pitt: A real dog-fight in prospect here. With a hasty glance at the nearest shelter, Pitt.

Minnesota-Texas: The Texans have no luck and they'll need that and plenty more here. Minnesota.

Washington-Southern California: Washington gets the call.

Auburn-Louisiana State: Auburn's plenty tough but the Plainsmen seem to have done entirely too much traveling the last three weeks for their own good. Louisiana to maintain its undefeated status.

Georgia Tech-Alabama: There's danger for the Crimson Tide here but Alabama must be picked.

Michigan-Northwestern: They're all aiming at Northwestern now but Michigan seemingly doesn't have the weapons to stop the undefeated, untied Wildcats. Northwestern, decisively.

Marquette - Mississippi: Marquette.

Harvard-Navy: Navy but it should be close.

Cornell-Dartmouth: Dartmouth.

Columbia-Syracuse: Columbia.

Duquesne-Carnegie: Duquesne.

Illinois-Ohio State: Ohio State.

Iowa-Purdue: Purdue.

Chicago-Indiana: Indiana.

Southern Methodist - Arkansas: There's no rhyme or reason to the Southwest conference. Out of the hat, S. M. U.

Vanderbilt-Tennessee: Tennessee.

Kentucky-Clemson: Kentucky.

Penn.-Penn. State: Penn.

Temple-Villanova: Spinning the coin, Temple.

Catholic-North Carolina State: Catholic.

New York U.-Rutgers: N. Y. U.

Furman-South Carolina: Furman.

Montana-Idaho: Out of the hat, Montana.

Utah-Texas Aggies: Two games in four days for the Aggies but we'll take 'em anyway.

Utah State-Corvallis: Utah State.

Greely-Colorado State: On a coin flip, Colorado State.

Texas Christian - Centenary: Christian to pierce Centenary's tough defense.

Kansas-Michigan State: Michigan State.

Oklahoma-Missouri: The coin says Oklahoma.

Kansas State-Iowa State: Kansas State.

Baylor-Oklahoma A. & M.: Baylor.

Santa Clara-St. Mary's: Throw out past performances in this one but it still looks like Santa Clara.

U. C. L. A.—Washington State: Hoping for the best, U. C. L. A.

California-Oregon: California.

Oregon State-Stanford: On sheer guess-work, Stanford.

North Carolina-Duke: The objective game for both and the winner is almost certain to annex the Southern conference championship. On the records, Duke looks the more powerful and gets the nod.

Tulane-Georgia: Tulane on the rebound.

## PUNTS AND PASSES

(By The Associated Press)

UNIVERSITY OF ALA.—While they've been boasting the strength of that forward wall at Fordham, the defensive power in the front line of another Rose Bowl hopeful, Alabama, has been more or less overlooked. But you can't get away from the statistics, which show only two teams—Loyola and Tulane—have been able to score a total of only 14 points against the Crimson Tide, while 'Bama has been rolling up 134 points.

DETROIT—Coach Dorais at Detroit still is amazed. As is his annual custom, he sent out questionnaires to all the Titans' rivals at the beginning of the season. The general rule is for the opposition to do a lot of "moanin' low" in replying. Dorais almost fell out of the chair, however, when North Dakota came up with the flat statement that the material was fine and the prospects best in years.

STATE COLLEGE, Pa.—Introducing intercollegiate football's "pony backfield" for the year—Penn State's quartet of little fellows, averaging 153 pounds, probably the smallest major college ball carrying squad in the country. Individually they are: Harry Harrison, halfback, 144; Sam Donato, halfback, 145; Red O'Hara, quarterback, 153; Joe Metro, fullback, 161.

## DISTRICT TITLE WILL BE AT STAKE TONIGHT

Two red hot Class B football games will be played in the Panhandle tonight when the Clarendon Bronchos invade McLean and the LePors Pirates go to Wheeler.

A win tonight over LePors will clinch the district title for the Mustangs of Coach Bob Clark. The full Wheeler lineup will take the field against the fighting Pirates of Coach Francis Smith.

McLean will take the field against Clarendon with Bogan and Jones missing from the starting lineup. Jones will be out for the rest of the season because of a head injury. Bogan has a badly bruised leg which will keep him on the sidelines.

Humphreys has been showing up well in Bogan's place but the kicking of the back will be missed.

## Sports Roundup

BY EDDIE BRIETZ

NEW YORK, Nov. 13 (AP)—Jack Dempsey, now refereeing wrestling matches in the south, is going to open a restaurant in Miami if he can find a spot. . . . Close friends of Lou Little definitely spike reports he is going to Penn. . . . Despite the defeat by Northwestern, Minnesota still is the No. 1 team in Ozzie Simmons' book. "Their blocking is simply terrific," said Iowa's negro star. . . . Date for the Joe Louis-Johnny Risko Cleveland fight for the News' Christmas fund has been moved back from Dec. 7 to Dec. 14.

ADD GOOD COACHING JOBS: Doug Dashiell at University of Nevada. . . . In his first year he's giving Nevada its best season since 1926, including its first win over a Pacific Coast conference team. . . . Also "Hooks" Mylin of Bucknell, who bit off a large hunk when he stepped into Carl Snavely's shoes. . . . Oof ten games played against Bucknell's toughest opponents, it has lost only one.

## BEAUMONT REFUSES TO PLAY PORT ARTHUR IN GRID RACE

DALLAS, Nov. 13 (AP)—Texas Intercollegiate league football teams prepare today for eighteen more conference games that will close out the busiest week's schedule of the season.

Fifteen will be played today and tonight, headlined by the clash at San Antonio between undefeated, untied Kerrville and Thomas Jefferson, a game which will have a bearing on the district 12 championship.

Beaumont and Port Arthur finish their conference schedule in district 14 this week, each doped to win and remain undefeated in the championship race. Beaumont plays Goose Creek and Port Arthur meets Galveston.

Indications are that if both teams hurdle their opponents this week, Port Arthur will win the title via the forfeit route, according to E. C. McDonald, Beaumont, district chairman.

Beaumont has refused to play Port Arthur because the latter has a twelve-grade school and eligibility starts a year later than at other institutions.

McDonald says although no action has been taken by the committee, he assumes that by declining to play the game Beaumont forfeits to Port Arthur and he supposes it will be so decided when it comes time for the committee to pass on it.

Three games were played last night, one of conference nature. Masonic Home and W. C. Stripling played a 6-6 tie in the Fort Worth district. The result merely increased North Side's leadership. The games count a half-game won, half-game lost in this district.

San Jacinto (Houston) defeated Kirwin (Galveston) 6-0 and San Antonio Tech won over Laredo 6-0 in non-conference games.

District 2—Friday: Wichita Falls at Electra, Childress at Graham.

District 4—Friday: Fabens at Bowie (El Paso).

District 5—Friday: Paris at Denison.

District 6—Friday: Highland Park (Dallas) at Sulphur Springs.

District 7—Friday: North Side (Fort Worth) vs. Riverside (Fort Worth), Mineral Wells at Poly (Fort Worth).

District 8—Friday: Dallas Tech vs. Woodrow Wilson (Dallas); Saturday: North Dallas vs. Forest (Dallas).

District 11—Friday: Corsicana at Temple.

District 12—Friday: Kerrville at Thomas Jefferson (San Antonio).

District 13—Friday: Milby (Houston) vs. Sam Houston (Houston); Saturday: Reagan (Houston) vs. Jeff Davis (Houston).

District 14—Friday: Goose Creek at Beaumont; Saturday: Galveston at Port Arthur.

District 15—Friday: Kingsville at Corpus Christi.

District 16—Friday: Harlingen at San Benito, Pharr-San Juan-Alamo at Edinburg.

# MUSTANGS TO SHOOT WORKS AGAINST HOGS

## LONGHORNS IN SIMILAR MOOD FOR GOPHER GAME

DALLAS, Nov. 13 (AP)—Pass crazy Arkansas, now best known as the team that beat Texas A. & M., comes to town tomorrow seeking a first mortgage on the Southwest conference title.

They couldn't claim full ownership but a triumph over Southern Methodist's steeds would put them in a good spot to contest other claims, notably those of Texas Christian and Texas A. & M.

The only conference game of the day but slightly overshadowed by two of the other five skirmishes booked by circuit clubs. The Southwest and the nation will be watching the spectacular marathon march of the Texas Aggies against the University of Utah and the University of Texas' bid against mighty Minnesota.

Texas Christian fires its passes against Centenary at Fort Worth; Baylor invades Stillwater, Okla., to engage the Oklahoma Aggies and Rice, halted in its gallant comeback by Arkansas last week, has a setup in the Sam Houston Teachers at Houston.

The Arkansans, their pass-chunking backfield intact with the return of Fullback Jack Holt, will unpack the nation's most dazzling aerial unit at Owenby stadium for the Methodist clash. Fourteen of their touchdowns this season have floated across the goal lines while 1,155 yards have been picked up in the air. Handsome Jack Robbins, fine triple-threat quarterback, is the generator of the Razorback machine.

To combat this machine, Matty Bell plans to fight fire with fire. Woefully weak against a Texas Aggie passing game that smothered them last week, 22-6, the Methodists have drilled into nightfall to perfect means of stopping the Porkers' raid—the raid that felled A. & M., 18-0 only two weeks ago.

They're still wondering how Arkansas squelched an Aggie team that has, in five days, walloped Southern Methodist and San Francisco's Dons, 38-0. On the longest single jaunt in conference history, the Aggies move against the University of Utah at Salt Lake City Saturday favored to knock the perennial Rocky Mountain conference champions kicking. They left Dick Todd, ace halfback, in a Dallas hospital, before starting on the journey but still hung up the most lop-sided intersectional victory in the coast's history Armistice day.

Led by Coach Jack Chevigny, who announced on the eve of their departure that he would not seek re-appointment next year, the smouldering powerhouse that is Texas' oft-defeated football team, rolled into Minneapolis determined to shock—if not defeat—Minnesota's Gophers. Able to score in all but one game this season, but losers of four straight conference games, the Longhorns announced a "shoot the works" program for the Gophers.

Likewise, Minnesota, defeated by Northwestern, has announced it is out to crush everything else in its path. They started with a 52-0 defeat of Iowa last week.

Nine seniors, including the redoubtable "Slingin' Sam" Baugh, will start in Texas Christian's homecoming day game against Centenary. Baugh will be flanked by Robert, McCall and McClure in the backfield for the seniors' final home game of their T. C. U. careers.

## Two Engine Sizes - One Wheelbase AND A NEW LOW PRICE

THE New Ford V-8 for 1937 is the most beautiful Ford car ever offered. It is built in only one size—with one standard of roomy comfort and modern appearance. But you may have either the improved 85-horsepower V-8 engine for maximum performance—or the new 60-horsepower V-8 engine for maximum economy. The smaller engine makes possible a lighter car—with lower operating costs.

Improved 85-horsepower V-8 engine—Drive it and watch the speedometer!

When you drive the 1937 Ford powered with the 85-horsepower V-8 engine, you are master of a modern power plant that gives you everything you can possibly demand in speed and acceleration. It is a better engine than ever—with a better cooling system and new smoothness of operation. Yet improved carburetion enables it to deliver its thrilling performance with unusually good gasoline mileage.

New 60-horsepower engine—Drive it and watch the fuel gage!

The new 60-horsepower V-type 8-cylinder engine is almost an exact replica of the "85"—except for size, weight and power. It delivers V-8 smoothness and quietness—even at speeds up to 70 miles an hour—with gasoline mileage so high that it creates an entirely new standard of economy in modern motor car operation.

We invite you to see this new Ford car, and arrange to drive one equipped with the engine that fits your own needs.

## Two Engine Sizes - One Wheelbase AND A NEW LOW PRICE

THE New Ford V-8 for 1937 is the most beautiful Ford car ever offered. It is built in only one size—with one standard of roomy comfort and modern appearance. But you may have either the improved 85-horsepower V-8 engine for maximum performance—or the new 60-horsepower V-8 engine for maximum economy. The smaller engine makes possible a lighter car—with lower operating costs.

Improved 85-horsepower V-8 engine—Drive it and watch the speedometer!

When you drive the 1937 Ford powered with the 85-horsepower V-8 engine, you are master of a modern power plant that gives you everything you can possibly demand in speed and acceleration. It is a better engine than ever—with a better cooling system and new smoothness of operation. Yet improved carburetion enables it to deliver its thrilling performance with unusually good gasoline mileage.

New 60-horsepower engine—Drive it and watch the fuel gage!

The new 60-horsepower V-type 8-cylinder engine is almost an exact replica of the "85"—except for size, weight and power. It delivers V-8 smoothness and quietness—even at speeds up to 70 miles an hour—with gasoline mileage so high that it creates an entirely new standard of economy in modern motor car operation.

We invite you to see this new Ford car, and arrange to drive one equipped with the engine that fits your own needs.

### LET'S KNOW TEXAS AND TEXANS

BY WILL H. MAYES.

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquiries must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q. What reasons did President Houston assign for the removal of the capitol from Austin in 1842? B. M.

A. The extra cost of transportation to Austin and the danger from Indian and Mexican raiders, together with "the expense and inconvenience attending its remote and detached situation."

Q. What became of Estabanico, the negro slave who accompanied Cabeza de Vaca from Texas to the Pacific coast? G. N.

A. Estabanico, or Estavancio (Stephen), the Arab Moor (negro), was bought by Viceroy Mendoza, because of his supposed knowledge of the fabulous Seven Cities of Cibola, or Quivira, and sent ahead of the friar, Marcos de Niza, to investigate and report the rumors along the northern route from Mexico. He was killed on the trip at the entrance of an Indian pueblo.

Q. What member of Nolan's party was executed in Mexico, when and in what way? G. S.

A. When Nolan's party was attacked by Spaniards near the present site of Waco, March 21, 1801,

By WILLIAMS

Every man, woman and child in Texas should know the principal events of the momentous period of Texas history from March 1 to April 21, 1836—events that changed the shape and the destiny of the United States.

The facts essential to this understanding are briefly set forth in a 32 page booklet, entitled "Texas Empire Builders of '36," telling of the stirring days which all Texans, native and adopted, are celebrating in 1936.

The booklet will be mailed postpaid for 10 cents. Send all orders to Will H. Mayes, Austin, Tex.

Q. Under what names is Galveston Island shown on the early maps? B. M.

A. The island appears to have had several names. In one it is called San Louis, said to have been given by La Salle; on another Isle de Calabras (Snake Island); on still another Punta de Calabras. Later it became known as Pirate Island. The present name is for Count Bernardo de Galves, a Spanish governor of Louisiana, who was afterward viceroy of Mexico.

### THE FINANCIAL WHIRLIGIG

By LOUIS SCHNEIDER

**LOWER.**  
As forecast here steel corporations have increased wages and salaries an average of ten per cent. It was also mentioned in these columns that a wage increase would call for a lift in steel prices. Trade insiders look for such an announcement being made most any day. The increase will run from \$2 to \$3 per ton on finished and semi-finished steel. Insiders see the new price schedules going into effect with 1937 first quarter deliveries.

Trade insiders say that steel corporations will not benefit from the new prices during the last quarter of this year. It was also said that the industry's carryover of filled orders from 1933 to 1937 will be so large that the new price benefits will not be had until about March. That is why first quarter 1937 steel company financial reports may be no better than those of the last quarter of this year. In fact, because of the higher wage schedules earnings may run below those shown for the third quarter of 1936.

**GE EXTRA.**  
About the middle of next month General Electric directors meet for dividend action. Insiders say that in addition to the regular 25 cent payment an extra of 25 cents will be declared. The total 50 cent payment will be received by share holders before the close of the year.

For the first nine months the company netted the equivalent of 92 cents a share. Earnings for the fourth quarter are expected to cover the anticipated 50 cent distribution. That would make a 1936 net of about \$1.40 a share.

**PRODUCING.**  
Trading popularity of oil shares has brought activity in American Cyanamid and Pittsburgh Plate Glass. The former is a chemical organization. The latter's name discloses just what line of business it is in. But why move along with the oil shares? Strange as it may sound these companies quite involuntarily ran into the oil business.

Here's the story: Both companies require natural gas and brine as essentials in their business activities. During the depression years they formed and joined the Southern Minerals Corporation. The company went to the Sacket Field in Corpus Christi, Texas, to sink a few wells. They dug for gas and salt water. The oil just happened!

The Southern Minerals Corporation—jointly owned by Pittsburgh Glass and American Cyanamid—owns 2,400 acres of land. Geologists say that 1,100 acres are proven oil land. The other 1,300 acres are natural gas producing property. There are thirty-one wells producing 2,280 barrels daily as allowed by Texas laws.

**FORESIGHT.**  
In anticipation of labor difficulties Pittsburgh Glass prepared large quantities of supplies. These were distributed throughout the country in the company's warehouses. Because of this insiders say that favorable earnings will be reported for the balance of the year.

The glass business is a funny thing. Once the fires are banked it takes about thirty days to heat the furnaces to the temperature required for continuous production. And so even if the strike is settled it will be a full month before production gets going again. That's why the management rushed output during the summer months.

**MORE CUT.**  
An informed international money source believes that the end has not been seen of the French currency devaluation. It is thought possible that the new franc will again be cut. It is pointed out that the American and British currencies stood for several cuts and so will the French franc. This is substantiated by recent weakness of the franc.

**REFUNDING.**  
Bankers say that within the next few months Gulf, Mobile & Northern Railroad will announce a plan for refunding of its 5 1/2s of 1930. There are some \$4,000,000 of this issue outstanding. Since traffic has sharply improved fixed charges will be covered this year by a wide margin. The issue is currently priced slightly below the call price of \$107.50 which confirms the probability of the anticipated refunding operations.

**REPORTS ARE THAT:**  
Half the total of unsold lead in this country is owned by St. Joseph Lead—current prices add 41 cents a share to this year's income . . . Kroger Grocery's last six months' net will triple the 54 cents shown for first six months—makes about \$2 for year . . . Wheeling Steel's 1936 net privately estimated at \$2.50 a share—last year it was \$3.12 . . . Pullman accumulation for those who see company in line for large orders . . . Increased automobile shipments

### CROWDS ARE HUGE AT NATIONAL AUTO SHOW

NEW YORK, Nov. 13 (AP)—The news at the national automobile show is not cars. It's crowds.

At a tariff of 50 cents in the afternoon and a dollar at night, spacious Grand Central Palace is jammed. The visitor lucky enough to find space enough to stand is tempted to ask for a lease for the duration of the eighty day show.

And, more important, the management announced that those dividend announcements on the front pages of the nation's newspapers of late seem to be reflected in the orders for new automobiles.

The trailer exhibit—this is the first year it has had a floor in the show—was full of people getting in and out of houses on wheels which were vest pocket counterparts of cottages and mansions.

The biggest article in this section is the "land yacht," made by the Arrow Car Co., of Detroit. Seating 15 passengers and sleeping six, this Pullman of the pavements measures 28 feet, 6 inches in length and costs as much as three fine automobiles.

It has telephones both fore and aft to communicate with the driver of the coupe which hauls it. It even has a brace of upper berths.

### AROUND HOLLYWOOD

By HUBBARD KEAVY

**HOLLYWOOD**—Real and unreal: Beverly Roberts learned from her masseuse that she wasn't being "pounded into shape." Instead she was being re-contoured, which is Hollywood's new name for taking off flesh here and putting it on there.

Miss Roberts is shapely, but the camera plays tricks. She was re-contoured to the extent of three inches at the waist and 15 pounds generally.

Motion picture audiences will have as much trouble telling the Mauch twins apart when they appear in "The Prince and the Pauper" as Hollywood does. Their mother is the only one here who knows which is Billy and which is Bobby, although some of their friends in Peoria, where they were born, know which is which.

**One Wears Glasses**

One wears glasses sometimes, but only they and their mother seem to be aware of the identity of that one.

Incidentally, "The Prince and the Pauper" has been filmed twice before, in 1915 and in 1922. The names of the boys who played the dual roles aren't in the records.

Ruby Keeler was surprised no end when she got a check for \$925 for the lemons she grew on her five-acre ranch. She looks for five or six pickings a year, but regrets that half of the price she gets for the crop goes for pruning, watering, fertilizing and picking. Other farmers have similarly complained.

The crew's and captain's quarters of a sailing ship, reproduced on a sound stage for "Captain Courageous," are balanced on a byroscope. A system of levers can tip the set in any direction, from side to side and up and down, to simulate the rolling of the vessel in a heavy sea. But when the levers are released, the set settles back on an even keel, due to the gyroscopic principles of its construction.

**Sneezed For the Camera**

Fred P. Ott, who died the other day at the age of 76, was America's first movie actor by virtue of the fact that he happened to be handy when Thomas A. Edison was ready to conduct his first film experiments. Ott, a workman in Edison's laboratory in the early 90's, went through the motions of sneezing for the benefit of the camera.

Franchot Tone took his first screen test on the Cornell campus, 10 years ago. When he saw the test, Tone says he ran out of the theater, convinced he never would be an actor. Nor did the company making the test seek him out.

### CAPITOL JIGSAW

By HOWARD C. MARSHALL

AUSTIN, Nov. 12 (AP)—Mrs. John Nance Garner, wife of the vice-president, still is holding a job she assumed about 40 years ago.

That job is secretary, No. 1 confidential advisor and close business associate to the man who a few days ago was re-elected to the second highest political office in the country.

Soon after they were married in

1895, Mrs. Garner who had studied shorthand, became her husband's secretary and, throughout his long and distinguished career, she has retained the position.

Commenting on the way the team functions, a friend said recently that Mr. Garner sometimes would look at a letter, remark "Well, him, no," and then Mrs. Garner would dictate to a stenographer a polite epistle, perhaps a page long, explaining why so-and-so could not be done.

Mrs. Garner still is skilled in shorthand and uses it on occasion as illustrated by an incident the morning after the general election, Nov. 3.

Mr. Garner had gone downtown, about five blocks from his residence, to get a shave, and at 8

o'clock his wife, his clerk, Louis Friday, and a press correspondent were waiting his return.

Someone saw Mr. Garner walking rapidly across the back yard, heading for his "office," located in a small frame house at the rear of the handsome two-story brick residence. That small house was the Garner's first permanent home after they married.

"There he is now," said Friday.

Mrs. Garner arose immediately and with Friday hurried to the "office," arriving on Mr. Garner's heels.

The vice-president, still in overcoat and hat, was at his desk going through a stack of telegrams and letters. Without a word, Mrs. Garner picked up a regulation

stenographer's notebook and placed herself ready for work.

"We always were working members of Congress," she explained on another occasion.

Mrs. Garner, however, is more than her husband's secretary and close business partner; she is the guardian of his health and general comfort.

Election day, the vice-president was ready to go to the polls soon after they opened. It was so early it still was fairly dark, and a cold north wind was blowing.

Mr. Garner first left the house without an overcoat, although his wife had suggested one was needed. After going a short distance they learned the polls would open an hour later than they had thought and returned home.

On the second start, a press correspondent started to help Mr. Garner don a light overcoat, but Mrs. Garner, without saying a word, whisked that coat aside and substituted a much heavier one.

No one knew where the second coat had come from, although they had a good idea Mrs. Garner had brought it down for use at the right time.

**MURDER REUNITES 12 FAMILIES**

SACRAMENTO, Cal. (AP)—Attempts to identify a tattooed woman found murdered near Clarksville had an unusual by-product. Various parents wrote in describing missing daughters bearing tattoo marks and the state bureau of criminal investigation have located 12 and put them in touch with their families.

**REUNITED AFTER 52 YEARS**

SALT LAKE CITY (AP)—In 1884 Anne Nelson, 14, and Ellen Ross, 8, girlhood chums, came from Sweden to join relatives in America. They became separated and met again in Salt Lake City only this year. Then they discovered that for nearly the entire 52 years they have lived in Utah within a few miles of each other.

**SOW WINTER LEGUMES**

HALEIGH, N. C. (AP)—J. F. Criswell, of North Carolina State college, advises the sowing of winter legumes. He says legumes may be counted as all conserving crops under the 1936 soil conservation program.

Along with other branches of modern military science, carrier pigeon training is now being studied by the Chinese army.

# CONCLAVE TO STUDY LABOR LAWS CALLED

## FEDERAL REGULATION OF INDUSTRIES PLANNED

WASHINGTON, Nov. 13. (AP)—In at least three sectors of the capital plans and studies, looking toward federal regulation of industrial activities or labor conditions or both, were in progress today.

President Roosevelt's coordinator for industrial cooperation, Major George L. Berry, explained that a conference of business and labor leaders which he has called for Dec. 10 would draw up suggestions for "industrial legislation looking toward long time stabilization of recovery."

"Creation of employment opportunity, and improvement of competitive and labor conditions in industry," will be other aims of the parley, Berry announced. The objectives of the conference, as described, were similar to the aims of the old NRA, but there was no announcement as to just what new methods may be urged to attain those aims.

Senator O'Mahoney (D., Wyo.) disclosed he was preparing a new bill to regulate interstate corporations through a federal licensing system. Corporations doing business over state lines would have to obtain licenses, which could be revoked if the corporations employed child labor, discriminated against women in wage scales or interfered with union activities.

Revised legislation to give the government increased power to stabilize the soft coal industry is another prospective problem awaiting the next congress.

Senator Guffey (D., Pa., co-author of the original coal control act wiped out by the Supreme Court, repeatedly has announced his intention of reintroducing a substitute bill.

**GOOD REASON**  
NEW YORK—The audience in a Bronx theater protested vigorously when the pictures flickered and the playhouse went dark. They stamped, whistled, hooted.

The ushers announced the show would not go on, and would the audience please pass out quietly, getting tickets for another performance on the way.

The 150 spectators complied, grumbling. It was only after they were all outside that some one noticed smoke coming from the projection booth where theater employees were stamping out a fire.

Comparative tests made at Brownwood, Tex., showed moisture penetrated 19 to 20 inches deeper on ridged pasture land than on unridged land.

## Takes Over Office

Clifford Braly, associated for two years with Walter M. Lewright in the practice of law in Pampa, has taken over the business of the firm. Mr. Lewright has gone to Corpus Christi where he has opened a law office.

## ATTY. LEWRIGHT GOES TO CORPUS

### Clifford Braly Takes Over Law Office In Pampa

Clifford Braly, former law associate of Walter M. Lewright in the Combs-Worley building, has taken over the entire business of the firm, he announced today. Mr. Braly will continue practice in the same location.

Mr. Lewright has left Pampa to rejoin the law firm of Lewright and Lewright at Corpus Christi. He will be in charge of the Corpus Christi branch, and will again be associated with his father, J. B. Lewright, who will continue in charge of the firm's offices in San Antonio.

Mr. Lewright, who has engaged in the law business for nine years in Pampa, came here from San Antonio where he was at that time associated with his father.

Mr. Braly, a graduate of the University of Texas law school, and Mr. Lewright were associated here for two years in the general practice of law. Mr. Braly, former University of Texas grid star, is widely known throughout the Panhandle of Texas.

were absent last night, and they were greatly missed.

Assistant Scoutmaster Jimmy Sackett had charge of patrol meetings and the closing of the meeting. The boys enjoyed some hot ping-pong matches before and after the meeting. Mr. Sackett announced that at the next meeting plans would be made for a patrol to be in charge of the play and business program for each meeting.

Visitors included Jack Cunningham and Odell Frier.

Members of the troop present were as follows:

Wildcat patrol—Howard Jensen, Bennett Wray, Bobby Fraley, Glenn Roberts, Eugene Haynes, Buddy Wilson, was absent.

Road Runner patrol—Bill Coons, James Archer, Ray Boyles, Jack Smith, Carl Brown, Billy Mounts, Jack Baker.

Thunder Bird patrol—Franklin Baer, Soren Jensen, Jimmie Sanders, June Roland, Keeton Rhoades, Richard Keuhl, Roy Lee Jones, Omer Harrell. Three were absent.

White Mustang patrol—Junior Green, Jack Crout, Bert Isbell, Ed Terrell, Max Roland, Edward Wilkins. Two absent.

Buffalo patrol—Harry McMahan and Jimmie Berry. Five absent, including the leader, R. G. Candler, and assistant, Arthur Harding.

**LOYAL**  
LENOIR, N. C. (AP)—R. K. Courtney, local alumnus of Duke University, won't see Duke's football team play North Carolina at Chapel Hill Saturday, even though he could make the trip with all expenses paid.

He figures he's a jinx. He was not all in that thought—his offer to pay his expenses came from North Carolina grads.

On the eve of last year's game at Durham he received a telegram from Duke alumni pleading: "Please do not come to Durham tomorrow. Duke won."

## Brandeis Observes His 80th Birthday

WASHINGTON, Nov. 13 (AP)—Greetings from friends in America and abroad were received by Supreme Court Justice Louis D. Brandeis today as he observed his 80th birthday.

Oldest member of the supreme bench, Brandeis has long been a spokesman for liberal doctrine, a supporter of social experimentation and an upholder of much new deal legislation. Recently he passed his 20th year on the bench.

While the justice has been eligible for retirement for ten years, there was no indication that he planned soon to retire. Although he is the dean of the court in years, two other associate justices, Van Devanter and McReynolds, have served longer with the tribunal.

Private individuals are not allowed to acquire land in the Panama Canal zone.

## LEFORS YOUTH NAMED COMPANY'S HONOR MAN

Eliza F. Huffaker of LeFors has been selected as the honor man of his company by instructors at the U. S. Naval training station in San Diego, Calif., for the week ending November 6, 1936.

Huffaker enlisted in the Navy at the Navy recruiting station at Dallas last August. Since that time he has been studying the necessary qualifications to fit him for a career as a man-o-wars man.

It is the custom to select every week the one man of each company of 140 recruits among whom he has shown by outstanding ability, zeal, and loyalty, that he is worthy of special designation. He is the son of C. B. Huffaker.

The fact that certain varieties of ants keep slaves has been known since 1810, when it was discovered by the scientist, Pierre Huber.

Just plain old Common Sense

You know that a cigarette can be mild; that is, when you smoke it it's not harsh or irritating.

You know that a cigarette can have a pleasing taste and aroma.

When you smoke a cigarette and find that it has the right combination of mildness, good taste, and aroma, it just seems to satisfy you... gives you what you want.

I smoke Chesterfield all the time, and they give me no end of pleasure.
