

THE PAMPA NEWS

VOL. XIX

PAMPA, TEXAS, FRIDAY, OCTOBER 16, 1925

NO. 29

THAT FOOTBALL FANS MAY KNOW

It is not generally understood among the loyal football fans just why the condition of the team at Pampa at the present time.

We are not unmindful of the fact that you are deserving of a correct explanation, and think that you will be interested to know why, and what we are going to do about it.

Under the new ruling of the Inter-scholastic League a student must not only be regularly attending school and making three out of four courses, but he must also have attended school six months of last year, and have passed at least three courses for the whole term.

We wish to respectfully call the attention of the interested public to the fact that ten of the logical members of this year's team are ineligible, due to the ruling on last year's work and no amount of work can change that this year. Three more have become ineligible during the last month, due to lack of attendance.

By the time you read this we will have organized the little men around what of the old team there is left, and give them the advantage of football training as well as build a team for the future. We feel sure that you will agree with us that these boys as real bona fide, 100 per cent regular students are the backbone of our future hopes, and deserving of the best that we all can give them.

B. Q. GREEN, Coach.

ENGLISH CLASS THEME

Following is the theme from the English class of the local school this week, which was written by Lula Peters:

Clean Athletics

What will clean athletics mean for Pampa? Clean athletics will mean everything that will aid and build up the reputation and standard of our school. Clean athletics will arouse a closer bond between our football boys and the school as a whole. We will be proud of the boys who can win, and win fair and square. There will be a different thrill, when the final touchdown closes the game in our favor, if we know that it has been played clean. The defeat will not be so bitter, if we realize that our boys have played their best, and lost honorably. The opposing team will have a feeling of respect for the football squad that always plays on the level.

Clean athletics will be a very important value to our school. If a boy realizes that to play football he must make his work, he will do his best to pass. There will not be so much loafing, but more real brain work. There will be created a closer feeling between the football boy and his school. He will take an interest in the building up of its standard, and the progress of its work. If the athlete is required to pass his studies, we will not only boast a good football player, but one who is interested in the literary work of his school.

We can have clean athletics in the future, and it is up to the student body as well as the football coach to accomplish this. We can urge the boys to come to school, and really give their best to their courses. We can create real enthusiasm among the football squad, and make them want to gain esteemed honor by playing fair. By playing fair, the character of all the football boys will be benefited.

We will need the support of the whole town. If our citizens are really interested in the school, they will attend all the football games, and put into them some real "pep." Our boys will need "pep" when they are fighting a well matched team. They will well deserve our praise and yells, when they add honor to our school by winning honestly. They will need all the encouragement, and cheering we can give them when they taste the bitter drugs of defeat. The green and gold colors, that so proudly signify Pampa High school will really mean something to us then. We will understand that our school no longer wins unsafely, but plays straight and just. Our football coach is to be admired, for in the face of failure and criticism he is striving to put into our school the biggest thing in Pampa school history, clean athletics.

As a result of the extensive use of cosmetics you can't take a flapper at her face value any more. And wasn't that her chief value?

IF IN NEED OF LABOR GIVE IN YOUR ORDER

For the past two weeks many farmers in this vicinity have been calling for farm labor to help with the cotton picking and feed gathering. The demand became so insistent for men that the Pampa Chamber of Commerce took the matter up and has located a supply of white farm laborers at Fort Worth.

According to the Federal Labor Bureau of that city, they can furnish plenty of men and will send them up here in trucks, provided a sufficient number are wanted to make a truck load. Transported this way it means a cost of about \$11 per man, and it is necessary for the farmers to guarantee that amount for each man they may want. This transportation fee is to be taken out of the laborer's pay, hence costs the employer nothing in the end.

Those who are in need of farm labor of any kind should see C. P. Buckler at once and let him know how many men are needed and guarantee the transportation and the men will be sent for immediately.

Those who expect laborers to come up here at this time of the year of their own accord are going to be disappointed, as the Chamber of Commerce has investigated the matter and finds that many sections of the country, especially the South Plains, are clamoring for more cotton pickers, so the only chance to get men here will be to send to Fort Worth or some other point down-state and get them.

The Chamber of Commerce is more than anxious to be of service in securing help for all who need it, but arrangements must be made at once.

The men will be brought here with the understanding that they are to receive \$1.00 per 100 pounds for snapping and \$1.50 per 100 for picking cotton, and this will be found to be much cheaper than trying to handle the cotton short-handed and probably having to pay a much higher price later on.

ELECTED TO PLACE BY BAPTIST COLLEGE

Rev. H. R. Whatley of this city has received notice that he has been elected college evangelist and assistant teacher in the Bible department of Howard Payne College at Brownwood.

Rev. Whatley has not decided yet whether or not he will accept the new place, but should he do so, would go to Brownwood about Nov. 1 to take up the work. The position pays a nice salary.

Howard Payne College has an annual enrollment of more than 1,000 students. It is one of four senior schools owned by the Baptist denomination of Texas; the others being Simmons College of Abilene, Baylor Female College at Belton and Baylor University of Waco.

Brownwood is a live town of 12,000 population and has won the record more than once, of being the cleanest town in the State.

Rev. Whatley has been pastor of the local Baptist church for the past several years, and while he has not yet decided whether or not to accept the place, states that he is considering the offer favorably.

TEACHER TRAINING SCHOOL

There will be a teacher training class conducted at the Methodist church next week. Rev. W. H. Terry of Pleasanton, Texas, Sunday school field secretary, will be the instructor. He will preach at the 11 o'clock hour Sunday. The first recitation will be held at 2 p. m. Sunday and at nights during the following week. The book that will be studied is, "Organization and Administration of the Sunday School." This is one of the 12 units of the teacher training course. All the teachers and workers in the Sunday School are expected to take this unit. We are fortunate in getting Bro. Terry at this time. I hope that all will avail themselves of the opportunity.

R. J. OSBORN, Pastor.

Mrs. Clyde Fathorne, Miss Mary Hubert and Mr. and Mrs. Ross McCasland are spending this week at the I. A. ranch in Donley County. Mr. and Mrs. McCasland are old schoolmates of Miss Hubert and Mrs. Fathorne.

Dr. A. E. Barrett of Fort Stockton, Texas, returns and sends best wishes to his Pampa friends.

GRAY COUNTY WON SIXTH AT DALLAS

A telegram was received here Wednesday morning stating that the Gray County exhibit had won sixth place at the Dallas State Fair, which is now in progress at Dallas.

The message was from County Agent P. E. McMeans, who has the exhibit in charge at Dallas, and was sent to C. P. Buckler, secretary of the Pampa Chamber of Commerce.

The Gray County exhibit won fifth place at the Tri-State Exposition at Amarillo two weeks ago, and was awarded a \$100 prize. It is not known just what the sixth prize at Dallas is, but it should be around \$150 to \$200.

Mr. McMeans is also in charge of the Carson County booth at the Dallas Fair, looking after it for County Agent Tisdale of our neighboring county.

The showing of the counties in this section of the state at the Dallas Fair should prove good advertising for this part of the state, giving many Texans an opportunity to see just what is produced in the great Panhandle country.

RADIO PROGRAM BY PAMPA TALENT

Pampa business men, under the direction of the Pampa Chamber of Commerce, broadcast a radio program from WDAG at Amarillo Wednesday night.

The program, which consisted of readings, vocal and instrumental solos, and an address, was put on in the form of an advertisement for Pampa and community.

The program as broadcast was as follows:

Reading, "Life's a Funny Proposition After All"—Miss Leila Rorex.

Vocal solo, "A Dream"—Miss Rorex, accompanied by Mrs. T. E. Rose.

Reading, "A Nervous Chap"—Miss Rorex.

Piano solo, "Buona Notte" (Nevin);—Mrs. T. E. Rose.

Vocal solo, "Sorter Miss You"—Miss Rorex.

Following the musical numbers Rev. James Todd, Jr., of the local Christian church delivered an address in the form of a review of the natural resources of this section of the country and the conveniences and opportunities of the town as a place of residence. He set forth the wheat growing industry, as well as other cotton crops, and gave a comprehensive report of the oil and gas resources in this part of the Panhandle.

And in conclusion invited all his hearers who were seeking a healthy climate and a place of opportunities to come to Pampa to live.

Several telegrams of congratulations were received during the program, as well as several others requesting other numbers.

The Pittsburgh Pirates won the seventh and final game of the World Series Thursday afternoon by a score of 9 to 7. This was the deciding game of the series.

STUNT PARTY PROVED AN ENJOYABLE AFFAIR

A large crowd attended the "stunt party" at the school auditorium last Friday evening, and were very appreciative of the many stunts staged by the classes.

Seniors, Juniors, Sophomores and Freshmen, as well as members of the dramatic arts department, vied with each other in presenting the laugh provoking numbers.

Hardly a number was presented by any of the classes that did not bring forth merited applause.

At an admission price of only 10 cents the proceeds amounted to the neat sum of \$17.00, which will be used by the girls basketball team in purchasing equipment.

The program was in charge of Miss Whitely, who was assisted by other members of the faculty.

At the conclusion of the program the judges were asked to withdraw and decide the winning class. This resulted in the Freshmen being selected winners over their opponents, the upper classes.

Dr. A. Cole returned Tuesday evening from Kansas City, Mo., where he attended a medical meeting.

TO HAVE GAS BY SATURDAY NIGHT

According to the foreman of construction work on the gas system, if the weather remains favorable a few Pampa consumers will be burning natural gas by Saturday night of this week.

The pipe line to the well lacks only a few hours work of being completed and almost all the mains in town are finished with the exception of a small amount of intermediate line, and this is being rushed to completion. Workmen laid the pipe across the railway tracks Thursday and connected the country line with the city mains.

Service lines will be installed in a few instances Saturday, and those so fortunate to be at the top of the list will in all probability have an opportunity to turn on the gas and watch it burn Saturday night.

Manager Woodward stated this week that he intended to tie on the three stores which deal in gas stoves and appliances first, so that they might be able to show their stoves burning and demonstrate them, after they have been hooked on the other consumers will be taken in rotation as they applied for service. To date about forty have signed the service applications and made meter deposits. They will be connected up in the order in which they signed up.

Persons wanting to connect up with the system should make application for service at once, so that they will be connected up without undue delay.

OIL FIELD ACTIVITY IN THIS LOCALITY

Anderson et al Beavers-Bradford, section 124 block B-2 resumed drilling Saturday after a shut-down of several days. The well is approximately 3250 feet at this time.

Wilcox No. 2 Combs & Worley is awaiting the arrival of cement to be used in cementing off a cave just above the pay.

Young & Patrick's No. 1 Byrum, in section 188 block 3, six miles west of town, is drilling around 1,000 feet with standard tools.

Phil Engel's Ledrick Ranch test is reported drilling in sandy lime at 3865 feet, with some oil showings in the hole.

ITEMS OF INTEREST FROM OVER THE STATE

Dallas.—W. A. Martin, alleged Denton County gunman and bandit, must serve 99 years in the state penitentiary for the murder of Deputy Sheriff R. B. Parsons of Denton County.

Amarillo.—Are apples a success in the Panhandle? Ask A. L. Turner of Tascosa, 40 miles west of Amarillo. He has harvested 2,000 bushels from an 11-acre orchard. The crop was exceptionally good this year, but the output from Turner's orchard each year, is equal to that in the famous Roswell apple area. County Agent Harmon Benton reports.

Austin.—Seven inches of rain fell here Tuesday morning, and the rain resumed falling before 9 a. m. Tuesday. Heavy rains were reported all over central Texas within a radius of 15 miles of Austin. Creaks were flooded and the streets of Austin were littered with debris. Little material damage was reported, however, and farmers said that the downpour would aid fall field crops.

Amarillo.—The Amarillo Tri-State Exposition was not the only fair which lost money this year, according to reports received by fair officials in Amarillo. The 1925 State Fair, the Oklahoma City fair, the Houston, Kansas, fair and the Memphis fair all lost money and are having to make up deficit money, varying from \$200 to \$25,000. The rain and unfavorable weather is blamed for most of the losses.

Mrs. G. M. Cooper is in the sanitarium at Lubbock where she underwent a major operation. Mr. Cooper returned from there Monday and reports her doing nicely. Her sister, Miss Fannie Osborn, remained with her.

TIGERS DEFEATED LOCALS FRIDAY

The McLean High School Tigers journeyed over to this side of the county last Friday afternoon and defeated a patched up team from the local high school and ex-players, in a football game, 3 to 0.

While the game was ragged at times and was featured by a number of fumbles, it was a hard fought one, and neither side was able to do much in the way of scoring, the Tigers garnering the only score of the contest with a field goal. A number of times the locals were in striking distance to the Tiger goal line, but were unable to put the ball over for a counter.

Owing to the fact that it had been announced prior to the game that the Pampa Harvesters were ineligible to play in the Interscholastic Contest this year, the attendance at the game was not as large as it would otherwise have been, however, Coach Green states that they will probably come out about even on the contest, after paying McLean the \$75.00 which was agreed on.

The Harvesters lack sufficient material to put out a team this year and some ex-students were used to fill up the line-up in Friday's game.

WHEAT GROWERS CO-OP ASSN. REPORT

The Southwest Wheat Growers Association, the co-operative which handles Texas and Oklahoma wheat, has issued its annual comprehensive report covering the operations of the past year. The report bears the date of July 1, 1925, and shows that the associated office handled 8,710,275 bushels of wheat for the 1924 pool, or nearly three million bushels more than for the preceding year.

Wheat sales brought the co-op \$12,487,592.78, claims collected from railroads totaled \$18,353.14, and the laboratory for testing wheat for protein content brought a direct revenue of \$460, the total receipts of the associated amounting to \$12,596,405.92.

After freight and local elevator charges and operating expenses were paid and a cash reserve of \$82,947.99 deducted, \$10,324,975.62 was paid to growers for their wheat. In addition to this, \$132,433.31 was paid to growers for storage on farms. The latter is a unique feature of the southwest which enables the grower who is prepared to store his own grain to receive the fee for warehousing which would otherwise go to terminal elevators.

Local elevator costs were slightly reduced this year, carrying charges were cut and operating expense showed a reduction, the total amounting to slightly under 11c per bushel against a little more than 13c per bushel for the 1923 crop.

Freight took up another 13c on the average, leaving net to the growers an average price of \$1.18 per bushel, basis No. 1 grade. A premium of 10c per bushel was secured for soft wheat and 5c for soft mixed, on more than 600,000 bushels amounting to \$47,820. On the other hand, more than a half million bushels fell below grade No. 1, and took discounts amounting to \$113,741.

Due to freight tariffs Texas growers received \$1.22 net while their Oklahoma neighbors got \$1.18, the average for all being \$1.18 as before stated.

Freight charges amounted to more than a million dollars, inspection, weighing and storage (not including farm storage above noted) used up another \$300,000, 500,000 carling amounted to somewhat less than \$25,000 or about one-half of one per cent of the sales.

In round numbers, Oklahoma has 2,425,000 bushels, receiving respectively more than seven million dollars and approximately less than three million dollars. Oklahoma, Ohio, was the heaviest shipping point, handling 211,000 bushels into the river. Oklahoma, Texas state raised with 253,000 bushels. Growers at each of these points received more than a quarter million dollars from the crop.

The Southwest Wheat Growers Association is one of the most successful co-ops in the country, and so far as Farm and Ranch can learn the outstanding one among grain organizations. The policy of economical administration and comprehensive, clear cut reports that leave nothing of the workings to be guessed at by members, has been characteristic of the Southwest all along, and its great growth is an indication that it is meeting the approval of the wheat grower.—Farm and Ranch.

KANSAS CITY STOCK MARKET

CHAS. M. PIPKIN, Market Correspondent

Kansas City Stock Yards.—Receipts Monday, 43,000 cattle and 8,000 calves, were the largest thus far this season. The heavy killing frosts late last week was responsible for part of the heavy run, and for the next ten days receipts will be heavy. A large percent of the run was stockers and feeders. Prices were quoted steady to 25 cents lower, mostly 10 to 15 cents off on killing classes. The big decline in hogs that prevailed late last week was extended 10 to 15 cents Monday and the market passed into the lowest position of the year. Sheep and lambs were steady.

Monday's Receipts

Receipts Monday were 43,000 cattle, 7,000 hogs, and 13,000 sheep, compared with 33,000 cattle, 8,000 hogs, and 11,000 sheep a week ago, and 46,950 cattle, 18,350 hogs and 9,950 sheep a year ago.

Beef Cattle

The few good to choice fed steers offered Monday sold readily at fully steady prices. Three carloads of 1,450 pound steers brought \$14 and other fed steers brought \$9.50 to \$13.50. Some steers that had been warmed up from grass brought \$8.25 to 9.25. Grass fat steers sold at \$5 to \$8.50. Most of the fed steers under \$10, and the grass fat steers under \$8 were 10 to 15 cts lower. Average quality of the grass fat steers was the plainest of the season. Fed cattle were in limited supply. Cows and heifers were 10 to 15 cents lower. Demand was active at the decline. Veal calves were 50 cts lower.

Stockers and Feeders

Receipts of stockers and feeders comprised an unusually large percent of the total cattle run and available supplies were the largest of the season. Prices for the best were fully steady, and the plain and medium kinds were slightly lower. Volume of demand was large, as the buying side realizes that the heavy runs will prevail for only a short period.

Hogs

A 10 to 15 cent decline in hogs Monday, in connection with the sharp decline that prevailed late last week took the market into a new low position for the season, and about 65 cents lower than a week ago. The market seems to be adjusting itself to a lower basis for the beginning of the winter packing season which starts Nov. 1. The top price Monday was \$11.80, and bulk of sales \$11.40 to \$11.75. Packing sows brought \$10 to \$10.30 and stock hogs brought \$11.50 to \$12.30.

Sheep and Lambs

Most of the fat lambs sold early at steady prices, but later some sales were offered 10 to 15 cents lower. The bulk of the western lambs sold at \$15.40 to \$15.55. Some native lambs, sold at \$14.75, and fat range ewes \$7.50.

Horses and Mules

Fairly liberal supplies of horses and mules are finding a ready outlet at steady prices. Southern demand is active.

DENVER ROAD OFFERS REDUCED RAIL RATES

Reduced rates are to be given home-owners coming to the North Platte county after Oct. 16 by the Fort Worth & Denver City Railway. It was recently announced by that road.

The rate from Dallas and Fort Worth will be cut one-third for round-trip tickets. The reduced rate can now be secured at all points on the Fort Worth & Denver from Amarillo to Texline, inclusive. However, tickets will be on sale in Fort Worth and Dallas two days out of each week from Oct. 16 to Dec. 27.

The rate is open only to groups of five or more adults. Eight-day stop-over tickets of at the destination, but no stops at intermediate points, are allowed.

Industry officials expect a good number of farmers in central Texas to take advantage of the low fare and come to the Panhandle seeking homes this fall. The Amarillo Board of City Development has decided to ask other lines to make excursion rates to this part of the state.

The Ladies of the Methodist church will serve turkey dinner with all the trimmings Thanksgiving. The patronage of the public will be greatly appreciated.

Some people don't keep up enough
steam in their train of thought to
keep ahead of the procession.

Every other business man in a com-
munity is said to be a fool if he dips
his fingers in all controversies that
come along. But if the editor wishes
to stay out of one once in a while they
say, "He hasn't any backbone."

Saturday promises to be one of the
most notable days in the history of
Pampa, when natural gas is turned
into the mains to supply this city with
the best and cheapest known fuel. It
will truly be a day of rejoicing.

No wonder it is hard for the aver-
age man to understand international
affairs. Now that France has told us
that she is willing to start paying us
a small fraction of what she owes, she
thinks it is about time to negotiate
another loan.

A movement should be started in
this community to preserve all the
seed from the early cotton which is
now coming in for use as seed next
year. Seed from the cotton now open,
if of sufficient high quality for plant-
ing, will no doubt grow cotton next
year which will mature equally as
early in the season, if not earlier, and
that is one of the things to be desired
in this section is early varieties of
cotton. Not alone that, but seed from
cotton grown here is acclimated, and
will yield more abundantly than seed
brought in from other sections and
lower altitudes. Let's save all the
earliest seed for planting.

A news item recently appeared in
the daily press to the effect that a
gigantic bakery combine had brought
together under one control bakeries
valued at \$400,000,000. This may be
dangerous, or it may be beneficial. If
these big bakeries in the combine
merely seek ways to gouge the public,
then both the consumer and the wheat
grower will suffer. For high prices
limit the market. If on the other hand
the new combine will seek to imitate
the Henry Ford method of making
money, then the margin of profit will
be small, the gross profit large, and
the national consumption of wheat
will be materially increased. To de-
cide whether it is good or bad is not
within the power of any man who is
not in a position to conduct an invest-
igation, but it should be kept under
careful scrutiny of the public and
government commissions created for that
purpose, in order to determine just
what the policy of the new combine
will be.

Did you ever stop to think that
America with its new republic, as de-
scribed by the framers of the Consti-
tution of the United States, was the
first really successful government in
7,000 years.

Did you ever stop to think that the
fundamental principles upon which
this government was established were
individual personal liberty, and op-
portunity for the pursuit of happiness
with health, wealth and prosperity.
In the direction which man may choose
for himself?

Did you ever stop to think that
when we advocate the overthrow of
these principles and the institution of
that foreign idea as propounded by
Karl Marx, for the solution of our
problems, we surrender uncondi-
tionally, that that the principles upon
which this government is founded are
wrong, and admit that America is a
failure?

Is the man who has not the
courage to say, "We in America can
solve our problems in an American
way as we have always done. We
can still continue this best country in
the world on the same principles upon
which it was founded. We Americans
can do this without class conscious-
ness, without class hatred, without na-
tional enmity, without socialism. We
can do all these things as the design-
ers of our republic would have had us
do them."

Among Our Exchanges

Claude News: The Childress Post,
one of the good Panhandle news-
papers, has entered the semi-weekly
class and we wish to offer our hearty
congratulations for this forward move.
There are towns trying to support a
daily paper that should have a good
live semi-weekly newspaper.

Sayre Journal: Who is it that pays
for the Booster Club, the Fourth of
July celebrations, the fairs, the taxes,
the schools, the highways of Beckham
county? It isn't the solicitor of dry
goods, hosiery, printing and other
lines of goods from other places. If
there is no relief by law the people
should co-operate by refusing to buy
and thus help the local business man
who helps the town.

McLean News: Practically no ad-
vertising was done for the McLean
fair other than the booster trips to
nearby communities, and all the visit-
ors at the fair were home folks. In
former years we have spent from four
to eight times as much on advertising
and have enjoyed the patronage of
many visitors from nearby towns.
Perhaps the happy medium could be
reached in future fairs, so that we
might attract both home folks and
neighboring visitors.

Clinton Post-Dispatch: The editor
of this great moral, religious and po-
litical weekly believes in standing
four-square for his friends. We are
just naturally built that way. If there
is an unpardonable sin, we will never
hear the rustle of a wing. A friend is
a person who is for you always, under
all circumstances. He likes you just
as you are. He would not change you.
Anyone can stand by you when you
are right. A friend stands by you
when you are wrong. A friend is the
one who comes in when the whole
world goes out.

Randall County News: Most every
merchant believes that it pays to ad-
vertise, but does not stop to realize
that it pays to advertise in the right
medium. He thinks nothing of letting
a grafter talk him out of \$10 to put a
few words on a few cards. Advertis-
ing in the right way is as necessary
as being convinced that advertising
pays. The newspaper is the cheapest
and best way to reach the people.
That is why the big and most success-
ful business houses use space in news-
papers and refuse to fall for the graft-
ers.

Wellington Leader: An Amarillo
judge will have to decide whether or
not it is unlawful for women to go
bare-legged on the streets of Amarillo.
Everyone concedes that girls in their
early teens have a perfect right to go
barefooted if they want to, says the
Amarillo News. Furthermore just
what difference there is between a
leg with rolled sox on it and one with-
out any hose at all is something that
will be hard to decide. Whether it
is unlawful or not it is certainly not
very refined for grown women to go
without hose, but if women ever de-
cide that it is the stylish thing to do,
regardless of what some judge may
say, it is going to be just too bad for
the hose manufacturers.

Collingsworth County Standard: A
postage stamp, honoring Woodrow
Wilson, is to be issued shortly, which
is interesting news to the admirers of
Wilson, and to the reactionary Republi-
cans and the so-called intelligentsia
of the nation, who have effected to de-
spise Wilson and his efforts. How-
ever, the casting of this stamp doesn't
answer the question of why it wasn't
done when it should have been done,
immediately following his death.
Nevertheless, those who rightfully be-
lieve that Woodrow Wilson was what
history will prove him to have been,
a great statesman, will derive a cer-
tain satisfaction from this action
which was apparently forced upon
those who appear to have the least of
that quality for which they are elect-
ed, fair mindedness.

THE BEST MEDIUM
People go to theaters to be enter-
tained; not to read advertisements.
An advertisement thrown on a screen
is more apt to be an annoyance than
an appeal. Billboard advertising can
not tell much of a story. A majority
of those who see it pass so swiftly
that they catch only a few words.
Rarely does anyone stop his auto-
mobile to read a billboard ad. Dodgers
and circulars cast around promiscu-
ously or jammed into mail boxes, end
up usually as street litter or stuffing
for wastebaskets. Less than half the
riders in street cars and busses ever
read the ads that are carried over-
head on in end space. Eight of every
ten of these riders are engaged in con-
versation or in reading newspapers.
Advertising by electric signs is effica-
cious only at night. Direct mail ad-
vertising has some considerable ad-
vantages when done properly, but a
large proportion of it receives no at-
tention.

All the above mentioned mediums
combined do not reach as many read-
ers as do the local newspapers. Every
successful merchant prefers news-
paper advertising. It is the only med-
ium that gets his publicity into the
homes. Newspaper advertising car-
ries a considerable amount of the
good will, authority and prestige of
the newspaper in which it appears.
No other medium carries more than a
negligible degree of these highly desir-
able qualities. No other medium
lends the news quality to advertising.
In newspapers it becomes store news
and part of the process of keeping
readers posted. It is exceedingly val-
uable news to the careful housewife
interested in making the family in-
come go as far as possible.—Publish-
ers Auxiliary.

HENESQUE
One of the prettiest homes in Texas
is dedicated to hens. The palatial
home is near Bowie, Texas, and cost
about \$100,000. Twenty years ago a
Mr. Johnson started in the chicken
business with one rooster and five
hens. He now does a business of
more than \$150,000 annually. Out of
the proceeds of the sale of eggs and
chickens Mr. Johnson has built the
palatial home mentioned and dedicat-

ed same to his hens. Nothing is said
about his rooster. It is the old story
—poor pa gets no honorable mention.
—Honey Grove Signal.
Well, the flock was started, you
see, with five hens and one rooster.
If it had been started with five roos-
ters and one hen, there would be no
\$100,000 to be dedicated to either
group. There would be neither flock
nor house. The rooster has his mor-
tals, pride being one of them. But no-
body ever knew a flock of roosters to
produce a fortune for the owner,
whereas a flock of hens, though they
be out of the sound of the nearest
rooster's voice, will make their own-
ers prosperous. The hen has sup-
planted the American eagle in the es-
teem of the American people. The
gloomy, lonely and unproductive eagle
gets his picture on our dollars but
never earns any dollars for us. He is
almost a total loss and should never
have been adopted as emblematic of
our Nation. The image of a nesting
hen beside a basket of eggs should oc-
cupy the place now held by the
spreading eagle on our silver dollars.
The hen represents a fact, the eagle
a fiction. State Press, being a mater-
ialist, favors facts over fictions, hens
over eagles. There are hundreds of
thousands of poultry farms, many tur-
tle farms, fish farms, snake farms,
skunk farms, dog farms and pig farms,
but never an eagle farm. This is be-
cause the eagle represents nothing of
merchandise value. He rides high,
and lives in stately altitudes, but he
is a loafer and an unimportant as loaf-
ers usually are.—State Press in Dal-
las News.

According to the Darwinian theory
it took several generations to make a
man out of a monkey. But it's a
proven fact that a man can make a
monkey out of himself in half an hour.

CALIFORNIA LETTER

BY J. F. VICARS
San Jose, California

There are numerous things I could write about—the difficulty is in selecting matter that is interesting to your readers.

Last Saturday was the annual picnic for the numerous state societies of San Jose. A native of any state except California is entitled to membership in one of these societies, and if a Californian has ever acquired citizenship in some other state and later come back, he, too, is entitled to membership.

This picnic was held at Los Gatos, a beautiful little town about fifteen miles away on the road to Santa Cruz and the sea.

The various societies met in a splendid park where there are great old trees hoary with age, and a beautiful stream of running water and the Santa Cruz mountains nearby. A great crowd of people was there representing every state. I would suppose. There were games and music and a bounteous dinner was spread on the tables in the shade of the trees. Altogether, it was a happy gathering on a perfect day.

Numerous automobile accidents occur here. There is an average of one violent death per day in Santa Clara County and about one-half of them, according to the daily papers, is blamed on the automobiles. Speeding and driving while intoxicated seem to be the chief causes. The roads are so good they are very tempting, and wine, I think is easily procured. But sometimes an accident occurs when there does not seem to be any reason for it. A few days ago the Mrs. and I went down town to attend the funeral of a friend. When we alighted from the street car we walked across the street in the direction of the undertaking parlors where the funeral was to be held. A gentleman who sat just behind us in the car and followed us out, stood in his tracks until the car had passed on. Then, when he started to go across, a few steps behind us, I heard the sound of an impact and the squeaking of brakes and, looking back, I saw a man struggling in the street, partly under a big new auto which was being brought to a standstill by a handsome and well-dressed woman, the only occupant of the car. She immediately left the automobile standing where it had stopped and walked to and entered a store on the other side of the street. She never even glanced back to see if anyone was hurt, or if anything had happened. In fact, she did not seem to know that anything had happened.

In the meantime some men ran into the street and picked up the unfortunate man and carried him over to the undertaker's. The woman's conduct was so strange that I asked a man if she had made any explanation. He said he had asked for one, and got it. She told him she was fully apprised of what had happened and deeply regretted it, but that she was in a delicate physical condition and did not wish to see any blood or a mangled corpse. I saw no account of this accident in the daily papers, and I do not know how serious were his injuries.

Since writing the above a fatal accident occurred to one of our neighbors that has cast a gloom of sorrow over the entire community. Mrs. Rena Smith was returning home from College Park when, in crossing The Alameda, a beautiful boulevard, extending from San Jose to Santa Clara, she was hit and instantly killed by a young woman who was speeding in an auto from night school in San Jose to her home in Santa Clara. Mrs. Smith lived only a block from us, and she was one of our dearest friends, and was a leader in every good work in this part of the city.

Just two evenings before her death

she acted a leading part in a play given at College Park church in which she won great praise. The play had been acted two weeks before and was liked so well that it had been repeated. Rev. Dr. Whitaker, pastor of the Centella Methodist church was present and asked that it be given soon in his church, but since the death of Mrs. Smith, none of the players will ever have the heart to give it again.

Another brave man was killed here Sunday at the race track in a daring auto race. This is the third man killed at that particular curve in the track.

I could write a long letter about the auto accidents that occur here in a week's time and another one about the burglaries, robberies and murders that occur in the same length of time, but let us turn to something more pleasant. Mr. and Mrs. Barnett Swafford of Amarillo, Texas, are visiting with us. Mrs. Swafford, before her marriage about a year ago to Mr. Swafford, was Bobbie Vicars of Pampa, and is a sister of DeLea and Edwin Vicars of the First National Bank of Pampa. They are very much pleased with the city and its wonderful climate. Alex Smith and wife of Pampa were also visitors for a short time in San Jose recently. Mr. and Mrs. W. R. Beydler of Phoenix, Ariz., paid us a very pleasant visit this week. Mr. Beydler has been granted a vacation with pay, and when he returns to his job it will be on an increased salary. He will probably be transferred to

Los Angeles. I have been anxious to know how Mrs. Beydler came out with her chickens ever since I read about her venture in the Pampa News. She succeeded beyond her fondest hopes, making a most satisfactory profit on the investment and the work was very much to her liking. She went out of the business only a few days ago when Mr. Beydler was granted his vacation. Her ambition is to start a chicken ranch on a larger scale at some future time in a location to her liking.

I was interested to learn from Mrs. Beydler that a picnic has been planned for and by the Pampa folk living in, or not far from Los Angeles, to be held in that city next Sunday. Following are the names of some of those who are expected to attend: Mr. and Mrs. O. J. Ashburn and son, Mr. and Mrs. H. D. Montleth, Frank Thomas, Miss Bessie Brown and her parents, Mr. and Mrs. Gould Jennings and parents of the former, Mr. and Mrs. Isam Cunningham, Mr. and Mrs. E. C. Lytle, Mrs. Thelma Lytle Melville and her husband, W. P. Latham and family, John Hamilton, Mr. and Mrs. John Tate, Mr. and Mrs. Sewell Corbin, Mr. and Mrs. Hosea Barnard, Mr. and Mrs. Kermit Vicars, Miss Blanch McClure, and probably others whose names she mentioned, but I don't recall at this moment.

Kermit Vicars paid us a brief visit a few days ago. It was just after his return from his voyage with the battle

feet on the Idaho to Australia, New Zealand and other far away points. With best wishes to the News force and all who read this letter, I conclude for this time.

They Get That Way
"Why is it that a red-headed woman always marries a very meek man?"
"She doesn't. He just gets that way."—Dry Goods Economist.

Knew He Could
"Do you think you can make my daughter happy?"
"Do I? Well, I wish you could see us in the parlor some night!"

Needed No Assistance
Kind Traveler (seeing parked car)
—Do you need any help?
Voice from Within—We are getting along very nicely, thank you.

Would Share Her Troubles
"If I take the place, mum," asked the prospective cook, "will you get a cat?"
"Why, I think so, Bridget. Are you so fond of dumb animals?"
"Well, I ain't gonna have everything that happens blamed on me."—Courier-Journal.
Advertising is an investment.

THE WINCHESTER STORE

Firestone

**Safety and Mileage
For All Roads and Seasons**

OPERATORS of large truck, bus and cab fleets must have rugged, long-mileage tires if they are to make money. That is why so many of them have standardized on Firestone. Experienced race drivers, almost to a man, equip with Firestone. Car owners can have this same extra safety and economy—by using Gum-Dipped Cords.

Gum-Dipping, the Firestone extra process, impregnates and insulates every fiber of every cord with rubber—insures greater safety and comfort over rough and sandy roads—builds extra strength and flexibility into the sidewalls—an exclusive feature that adds thousands of miles to the life of a tire.

Come in—let us save you money by equipping your car with a set of these wonderful tires—prices are still low.

Society and Clubs

BY MRS. JOE M. SMITH

Phone Local News and Society Items to No. 72

WILLING WORKERS CLUB

The Willing Workers Club met Wednesday afternoon with Mrs. Petty as hostess. After the business meeting Miss Seelbach gave the demonstration on "Planning an Economic Wardrobe," which was very helpful and interesting. The club members also gave the yearly report of the work done through the club since November, such as fruit and vegetables canned, home sewing done, furniture reupholstered, etc., and each member had a splendid report to give. Delicious refreshments of sandwiches, pickles, potato chips, cakes and lemonade were served the nine members and one visitor present, after which the club adjourned to meet with Mrs. C. W. Bowers, Nov. 4.

BAPTIST CIRCLES

Circles Nos. 2 and 3 of the Baptist church met Wednesday afternoon with Mrs. Orville Davis, when devotional was led by Mrs. L. H. Greene, and the business session presided over by Mrs. John McKamy. The lesson was conducted by Mrs. Harvey Haynes. At the close of the meeting delicious refreshments were served the six members and four children present.

Circles Nos. 1 and 4 met Wednesday afternoon with Mrs. T. B. Solomon. Devotional was led by Mrs. T. H. Barnard, and the business session presided over by Mrs. T. W. Johnson. The mission study was conducted by Mrs. H. R. Whately. The hostess served pie and coffee to the five members and one visitor present.

EL PROGRESO CLUB

El Progreso Club met at the home of Mrs. Chas. C. Cook Tuesday afternoon at 3 o'clock with the president, Mrs. V. E. Fatheree, presiding. A short business session was held and the winner of the \$5 prize for the prettiest yard was announced. Mr.

and Mrs. DeLea Vlears were awarded first prize, with a score of 94 1-3. Dr. W. Purviance and E. S. Graves, second and C. W. Lawrence third. The yards were judged from four standpoints: First, the trees and their arrangement in the yard; second the flowers, the artistic placing of them; third, the lawn, and fourth the general upkeep of the whole yard. The judges, Miss Seelbach, Mrs. V. S. Keahy and Prof. Geo. E. Voss, wish to state that many yards were judged and several were judged and several were very pretty, but when the final score was counted the above named proved to be the winners. The meeting was then turned over to the leader, Mrs. Siler Faulkner. The subject was "The Life of Edith Wharton." Mrs. Faulkner gave a sketch of the life of Mrs. Wharton and several criticisms from other famous writers on her work. Mrs. John V. Andrews gave a brief sketch of some of her works, including some of her most popular books. Mrs. R. B. Thompson concluded the lesson by giving a criticism on her latest book, "The Mothers Recompense." Mrs. Wharton is one of America's greatest women writers, her first book being published at the age of 37 years. Since she has written a number of books and short stories. Delicious refreshments were served the following members: Mesdames V. E. Fatheree, Dave Pope, T. D. Hobart, H. L. Ledrick, G. C. Walstad, John V. Andrews, P. C. Ledrick, R. B. Thompson, Siler Faulkner and Chas. C. Cook.

We have bought the Morris Cafe in Pampa, and expect to operate a first-class cafe in every respect. Best of service, highest quality goods, prepared by an experienced cook. Special chicken dinner with all the trimmings Sundays. Give us a trial—if we please you, tell others, if not tell us.—P. E. Graham.

DR. C. V. McCALLISTER CHIROPRACTOR

Announces the opening of an office at the Nels Walberg residence in Pampa, three days each week: Mondays, Wednesdays, Fridays.

Office Hours 2 to 5 P. M.

LOCAL GOSSIP

M. A. and John Lewis took first prize of \$60 for the first bale of cotton ginned at the Miami gin.

The W. M. S. of the Methodist church will meet next Wednesday at the church for voice program.

The Pipkin Produce Company wants to skin you—wants all your chickens, eggs and hides. 51 lbs

Mrs. Tom Rose and Miss Lella Rorex were Amarillo visitors Wednesday.

C. T. Hunkapillar left Tuesday night for Wichita, Kan., to purchase holiday goods.

We are glad to assist you in planning that new home you have been contemplating building. Our motto, "Service that Satisfies." White House Lumber Co., Pampa, Texas. 11 lbs

Mr. and Mrs. J. E. Ward and Juanita Osborn spent Saturday and Sunday in Amarillo. Mrs. Ward remained over for a few days visit with her daughters.

Miss Jenkie Collins, who is teaching at Childress, spent the week-end with Mrs. J. L. Stroope and family.

The Junior Sunday school of the Baptist church will hold a food sale Saturday afternoon at the Woodward-Lane store. Anyone wishing to place an order for cake, pie or chickens, phone Mrs. W. B. Henry. 1 lb

Mrs. Cecil Noel visited in Amarillo the latter part of last week with Miss Mildred Hurley. Miss Hurley returned with Mrs. Noel for a few days' visit.

Mr. and Mrs. Clyde Fatheree of Canadian, and their guests, Mr. and Mrs. Rosa McCausland of Wichita, Kan., visited Mr. and Mrs. T. D. Hobart Saturday and Sunday.

Miss Ama Barnard is spending a few days in Denver, Colo.

Mr. and Mrs. Fred Hobart of Canadian were guests at the T. D. Hobart home Saturday and Sunday.

Several ladies of the Methodist church met Wednesday with Mrs. Nels Walberg and spent in the afternoon hours quilting. At the close of the meeting Mrs. Walberg served delicious pie and coffee.

CHRISTIAN CHURCH

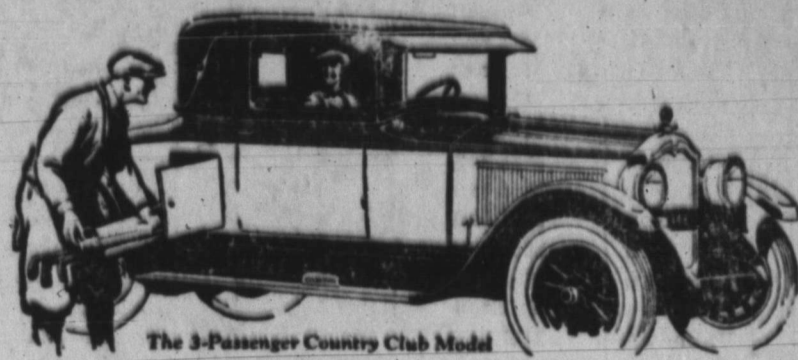

"Godliness is profitable for all things, having promise of the life which now is, and of that which is to come." The truthfulness of this statement of the Apostle Paul to the young evangelist, Timothy, is realized today. We all have this consciousness. Godliness is obtained by a knowledge and practice of the Word of God. The obtaining of this knowledge has been left largely to the work of the preacher. The minister of this congregation is earnestly endeavoring to faithfully minister in the Word of God to the congregation at both services so that both a true knowledge of the word and a burning desire to practice it at all times will be given every auditor. Your physician attends your physical needs. Your counselor at law attends your business and legal matters. Don't neglect to give the minister of God's Word an opportunity to help you regarding your soul's needs. Come with us next Sunday at 11 a. m. and 7:30 p. m. Also Bible school at 10 a. m.

JAMES TODD, Jr., Minister.

Mrs. Francis Williams arrived the latter part of last week from Portland, Ore., to keep house for her brother, M. A. Lewis.

Mrs. Earl Meade of Canadian came in Wednesday night for a short visit with Mr. and Mrs. Sam McCullough and Mr. and Mrs. Neal McCullough.

The Better Buick is a Man-sized Motor Car

The 3-Passenger Country Club Model

People appreciate a smart-driving, easily-handled, but full-sized, man-sized car. The Better Buick, for instance.

Each Buick model seats its capacity of full-grown people—in relaxed ease—without cramped legs or necks. Tall people, especially, enjoy its extra head-room and leg-room.

American men and women are above the average stature. And a smaller car than Buick is apt to be tight-fitting, low-ceilinged, crowded!

Drop in and try the ample, arm-chair comfort of a car that is right in size. Bring some of your six-footer friends. You will find another big reason why Buick is so widely considered a better motor car—another reason why there are a million and more enthusiastic Buick owners.

Or telephone, and we will send a Better Buick to your home or office for you to try.

Six Reasons Why

- you should own a Willard Threaded Rubber Battery:
- 1—It has more power to start a stiff engine;
- 2—It requires less recharging;
- 3—It suffers less from overheating in summer;
- 4—It saves you a \$10 or \$12 bill for re-insulation;
- 5—It lasts much longer;
- 6—It gives more all-around satisfaction.

8 HOUR SERVICE
Keep your battery charged. Better lights; quicker starting; more power; better mileage; come from using our 8 hour charging service. Results guaranteed.

The Value of COURTESY

The biggest word in the language of business is courtesy. No man in the business of selling will ever accomplish notable results without it. In the successful use of the telephone, whether for business or personal matters, courtesy is of paramount importance.

Courtesy is simply the application of common sense to the problems of business.

The voice with the smile is only one of the cardinal virtues of the successful telephone user.

Steel Eclipse Windmill

Runs in the Lightest Wind

Self-Oiling

THE Fairbanks-Morse Steel Eclipse Windmill is the most efficient and useful of any. It is the only one that will run in a three-foot wind. No possible chance for dirt, snow or sleet to blow in and clog the mill. Working parts are few—no chains, no gears, no belts, no pulleys, drop-forced crankshaft with ground and polished surfaces; bushed worm gear and pinion with machine-cut teeth. Every part running in oil, with no chance for a grain of sleet. A high-grade machine-precision job throughout—no rough cast spur gears used, as is common practice in many mills.

Simple, all-steel construction—built for a lifetime of service. Quick disassembly, also built around standard piping two-thirds the time. Wheel is fitted to take advantage of lightest wind. Speed is self-regulating. Costs no more than the ordinary type of windmill. Shows 8 feet and larger.

For further particulars, write to the nearest distributor of this windmill, or ask for latest descriptive literature. Send THREE without obligation to you.

Other Fairbanks-Morse Products are
42" Engines, Iron-Water Pumps, Feed Grinders, Hoops, Light and Power Plants, Washing Machines, Electric Motors, Power Pumps, Pump Jacks, Power Tools, etc.
