

THE PAMPA NEWS

VOL. XIX

PAMPA, TEXAS, FRIDAY, JULY 31, 1925

NO. 18

CONTRACT MADE FOR GAS SUPPLY

W. L. Woodward has gone to Artesia, N. M. to confer with Dancinger Bros. relative to securing a supply of gas from that company's well six miles south of town.

Mr. Woodward has experienced considerable trouble in signing up for his supply of gas, which necessarily is delaying the placing of orders for pipe, and will mean that the work must be rushed to the utmost to have the gas distributing system in operation before cold weather sets in.

Negotiations have been under way for several weeks between Mr. Woodward and Dancinger Bros., and also with the owners of the Tipton-McConnell well west of town, which was recently incorporated under the name of The Last Chance Gas Co. Some of the interest holders in this latter well have been slow to transfer their holdings to the new corporation, thus delaying the deal.

A letter was received in Pampa Thursday morning from W. L. Woodward, written from Santa Anna, stating that he and Dancinger Bros. had reached an agreement on the sale of gas from the Dancinger well south of town, and that he expected to receive a copy of the signed contract by Thursday or Friday, and that as soon as it arrived he would start for this city to make his future home, and to rush the work of piping the town for natural gas.

A telegram also has been received by Wm. McIntyre, Dancinger Bros. superintendent here, that they had signed up a contract for the sale of the gas to Mr. Woodward, so there is little doubt that the supply question, which has been pending for almost a month is at last definitely settled, and that the distribution plant will be put in as fast as materials can be assembled.

MAGNOLIA STATION TO OPEN SATURDAY

Preparations are being made to formally open the new Magnolia Drive-in Filling station on Caylor street next Saturday.

Everything is in readiness except the lighting and electric sign, and in all probability this work will be completed by the opening day.

The new station, which is located on the corner where the old White Deer land office was situated, is modern in every respect, with ladies' rest room and other conveniences. It was erected by the Magnolia Petroleum Company and will handle their products exclusively. J. S. Carter, local agent for the company, will supervise its operation and he announces that Jas. Q. Davis has been selected as manager.

During the opening day Saturday, each motorist who purchases five gallons or more of gasoline from the new pumps will be given free a quart of Magnoline lubricating oil.

The usual conveniences and service of free air and water will be given at the new station and a complete stock of tires and accessories will also be carried.

MINNESOTA MAN INTERESTED IN PAMPA OIL DEVELOPMENT

Evereth, Minn., 7-27-25. Postmaster, Pampa, Texas.

Dear Sir: Expecting that you probably have a newspaper in your town, I am enclosing check for \$2, which I would be glad to have you transfer to the editor and have my subscription entered to the extent of \$2. If there is no paper in Pampa, will you kindly forward to the nearest newspaper that will give information on oilings in the oil drilling game in Pampa and the neighborhood, especially in Gray county.

Thanking you for your trouble in the matter, I am,

Yours very truly,
CHAS. GRABOWSKY.

Mr. and Mrs. O. T. Smith of Cleveland and Miss Bebell of Tyler were guests of Mrs. Walter McConnell Wednesday night.

Mrs. Clifford Morgan and son of Rendon, Texas, left for their home Wednesday, after visiting at the E. S. Graves home.

Mrs. G. C. Malone returned Wednesday from a short visit in Amarillo. She was accompanied home by her sister, Mrs. Alma Mosley.

EARTHQUAKE FELT EARLY THURSDAY

BUILDINGS ROCKED IN THREE SEPARATE SHOCKS AT 6:15 THURSDAY MORNING

Three distinct earthquake shocks, followed by minor tremors were felt by Pampa residents at 6:15 Thursday morning.

Many persons who were up at the time noted the phenomenon with awe, and the many others who had not yet arisen were brought from their repose with suddenness. Very few slept so soundly that they failed to feel the shocks, which are estimated to have lasted for twenty seconds.

The first intimation of a quake was when windows began rattling as though a sudden gale had blown up. This was followed by more severe quivers, causing dishes to rattle and move about, water to slosh out of vessels and then houses began to sway with the tremor. The consensus of opinion is that the motion was east and west. The motion was felt by many and plainly seen by many other residents, some of whom rushed into the streets.

R. B. Thompson stated that he had opened up the Crawford hardware and was back at the desk when dishes and pans on the shelves began rattling. He started for the rear door and as he went out a horse collar fell from a rack and landed upon a newspaper, making considerable noise and causing him to put on full speed ahead.

Sheriff E. S. Graves stated that he had not yet arisen but was awake, and he at first thought some one had entered his room and was shaking his bed for a joke, but when he looked toward the wall and saw pictures swing two and fro that he realized it was an earthquake.

The tremors were plainly discernible in brick buildings and on concrete floors, and some state that there was a noise resembling a distant rumbling, which was evidently caused by the movement of the buildings.

Several other persons stated that the swaying motion caused a nauseated feeling in the stomach like riding on an elevator.

According to wire reports the shock was felt from Higgins to Hereford, but no reports have been received of serious damage. Reports from Panhandle were to the effect that groceries were shaken from shelves in the stores of that neighboring city.

This is the first quake felt in Pampa by any great number of people, but some eight or ten years a shock was recorded in this section of the country, being more pronounced at Panhandle than elsewhere.

Many persons were heard to say today that it was their first experience with earth tremors, and they trust the experience will be the last.

POPULAR TENT SHOW COMING NEXT WEEK

Harley Sadler and his popular tent show will open here next Monday night for a week's engagement under their big new tent.

This show, which is considered the best one playing this part of Texas, will play under the auspices of the Pampa Fair Association, giving that organization a percentage of all proceeds taken in from the sale of seats.

Harley and his company of 35 people are now playing the second week of a two week's engagement at Amarillo, and will come here from that city. They played ten weeks at the Jefferson theater in Dallas and eight weeks in Wichita, Kan., just before coming to Amarillo.

In a telephone communication with Mr. Sadler this week he stated that they had been forced to add additional chairs to their big tent in order to care for the crowds in Amarillo. He also said that they had everything new this year—new plays, new vaudeville numbers, new and larger tent, and a larger orchestra than ever before.

Eddie See is director of the ten piece orchestra, which will render plenty of high-class music. Three to five good vaudeville acts are promised at each performance.

The W. M. S. will meet next Wednesday at the church at 3 p. m. for Bible study.

Mr. and Mrs. Sims and family of Mohrville spent Wednesday with Mr. and Mrs. S. L. Anderson.

Mrs. E. A. Shuckert is at Glen Rose where she went for her health.

COL. LEE'S PARTY WILL VISIT PAMPA

Word has been received by C. P. Buckler, secretary of the local Chamber of Commerce, that Col. R. Q. Lee, president, and Porter A. Whaley, secretary-manager, respectively, of the West Texas Chamber of Commerce, together with their wives and several newspaper men, would visit this city Aug. 12, on a tour of inspection of the Panhandle country.

For the past three weeks Col. Lee and his party have been visiting the various towns of West Texas and the Panhandle, and at a number of places public addresses have been delivered by Col. Lee in behalf of diversified farming and other topics pertinent to this section of the state.

Col. Lee, whose home is at Cisco, is president of a railroad, a bank director and owner of large farming and poultry interests, and comes prepared to speak from experience on topics of interest to West Texans. Mr. Whaley is probably one of the most widely known chamber of commerce workers in the entire Southwest, and is familiar with the conditions and problems of this country.

A committee has been appointed by the local Chamber of Commerce to meet the party at Miami at 11 o'clock on Wednesday, Aug. 12, and escort them to this city, and entertain them at a luncheon at the Schneider hotel. It is now being planned to have a meeting at the high school auditorium about 1 p. m., when music and other forms of entertainment will be enjoyed as well as short talks from the visitors. The public is not only invited but urged to attend this meeting, as it will indeed be worth while to all.

A more definite outline of the meeting and the entertainment will be given next week.

NINE MILLION EGGS MAKE UP TRAIN LOAD

A trainload of eggs passed through this city last Saturday morning, billed from Chicago to Bakersfield, Calif.

This solid train of "hen fruit" consisted of 50 refrigerator cars, each loaded with fresh eggs, 500 cases to the car, which equals 15,000 dozen eggs to the car, or 750,000 dozen in the train. In other words nine million eggs were contained in this one shipment.

From this it will be readily seen that the people around Pampa can still add a few more hens to their present flocks without overstocking the egg market.

Just a few hours before this egg train passed through here bound for California, a solid grape train, consisting of 71 cars of fresh grapes from California vineyards passed through here bound for Philadelphia and other eastern markets. This was the first train of grapes shipped through here by freight this year, but a number of through express trains of grapes have gone east.

For the past ten days the Santa Fe has been running a fast express train of 12 to 16 cars of grapes through here about midnight each night. The "grape special," as the railroad employees call it, is said to make some fast time.

OVER TWO INCH RAIN OF BENEFIT TO CROPS

The needed rain arrived first of the week, coming in installments just as had been ordered, so that it would be of most benefit to the growing feed crops and cotton.

Sunday afternoon almost half an inch of moisture fell, followed by another half inch Sunday night and early Monday morning.

Monday night another inch fell, which put a good season in the soil and almost insured a bountiful feed crop, as well as being of much benefit to cotton.

A half inch rain fell Wednesday night, followed by a fall of 25 degrees in temperature Thursday morning.

L. A. Ahersold of Savannah, Mo., is visiting his son, R. T. Ahersold and family, at Kingsmill.

Misses Martha Coffin, Mary Matess and Messrs. Troy Matess and Floyd Coffin were Clayton visitors Sunday.

Mr. and Mrs. J. B. Kinsman and son, Wayne, spent Sunday with Mr. and Mrs. Grover Morris in Amarillo.

OIL FIELD ACTIVITY IN THIS LOCALITY

A cave-in at the Wilcox No. 2 is being cemented before drilling can be resumed. The big storage tank is completed and ready to receive oil, and as soon as cement has set in the No. 2 it will be drilled into the second pay.

Fishing is still going forward at the Dancinger Bros. well on section 85, block 3, but without success thus far. Workmen are able to get hold of the lost bit, but it is hung until they are unable to pull it out. It is understood that plans are being made to sidetrack the bit and drill on by it.

The Anderson et al well in section 124, block B-2, south of the river has not yet resumed drilling.

Reports are to the effect that an oil showing was encountered in the Phil Engel test on the Ledrick ranch, at a depth of 3670 feet.—This well is being carried on down for a deep test.

Drilling machinery and equipment was expected to be shipped from Corsicana first of this week with which to drill a new test well on section 188, block 3, seven miles west of town, on the Gray-Carson county line.

MAYOR WYNNE RESIGNS OFFICE

At the regular meeting of the Pampa City Council held at the fire station last Monday evening Mayor J. S. Wynne surprised the members of that body when he tendered his resignation as mayor.

In resigning Mr. Wynne stated that there was no friction among himself and the members of the council, or anything of that nature, but that he had grown tired of the many and varied duties devolving upon him, and felt that someone more interested in the work should hold that office. Mr. Wynne further stated that he knew when elected to that office that it would be impossible to please everybody, and that he felt he had done as well or better along that line than he expected.

Mr. Wynne asked that he be relieved of the office at once, but after discussing the proper procedure in the matter, he was prevailed upon to act in his regular capacity until the matter of filling the vacancy could be investigated and a full attendance of the board could be present at a called meeting.

Doubtless a special meeting will be held within the next few days to take the matter up and decide upon calling a special election to fill the vacancy.

POLITICAL LEADER EXPIRED SUDDENLY

Dayton, Tenn.—Wm. Jennings Bryan, who many years ago, as "the cross orator of the Platte," with the "boy of gold" speech, won a Democratic presidential nomination and a lasting place before the American public, died here suddenly Sunday.

The end came Sunday afternoon while the Commager was sleeping in the home of Richard Rogers, which had been assigned him during his stay here, when he came for the Scopes trial. Doctors who examined the body, stated that death was caused by a hemorrhage of the brain, resulting in apoplexy. He was 65 years old.

While a nation mourned the death of Wm. Jennings Bryan, great political and religious leader, and former national secretary of state, it was announced that he would be buried in the Arlington national cemetery at Washington, D. C. The body was sent to Washington Tuesday, and the funeral will be held Friday.

WHITE DEER YOUTH DIED AT AMARILLO

Thomas Leonard Coffey, 18-year-old son of T. L. Coffey, prominent stockman of White Deer, died in an Amarillo hospital at 5-20 o'clock Saturday afternoon, following an illness of ten days.

He was taken to Amarillo Friday afternoon for treatment, but his condition took a turn for the worse soon after reaching the hospital.

The remains were taken to Miami on the afternoon train Sunday where funeral services were held at the Baptist church, conducted by Rev. Whaley of that city. Burial was made in the Miami cemetery.

NEW COMPANY TO IMPROVE SYSTEM

24-HOUR SERVICE BEGUN; HIGH LINE TO BE BUILT; ICE PLANT PROBABLE

C. S. Makeig and H. E. Sampson of the Southwestern Public Service Co., were guests of the Pampa Chamber of Commerce Tuesday night at a called meeting at the White Deer office.

Mr. Makeig and Mr. Sampson are general manager and assistant manager respectively of the company electric system at Amarillo, and were down here in connection with business matters pertaining to the local plant, which the Southwestern company recently purchased from F. W. Grogan.

They expressed themselves as well pleased with the town and the light plant here and stated that plans were now under way for installing a high tension line from the Amarillo plant to Pampa, thus enabling them to have an almost unlimited supply of power and light at all times, and being able to furnish current to White Deer and other towns along the line.

They asked those present to make any suggestions they might have in mind relative to improving the local service, and several suggested the need of 24-hour service. Mr. Makeig replied that it was their intention to supply continuous service as soon as the high line was constructed, but that if local consumers thought that they needed and were entitled to 24-hour service now that it would be ordered started at once.

The question of more adequate street lighting was also discussed and it was decided that the company erect one of the latest type ornamental standards in front of their office here and burn it for a time in order to let local people get an idea of just what advantages would be gained from a system of modern street lighting.

The question of an ice factory for Pampa was also discussed and Messrs. Sampson and Makeig stated that their company operated a number of ice plants and would be glad to install a factory here provided the market here and in the neighboring towns would justify the expenditure. The question of how much ice could be sold here was referred to a committee of the Chamber of Commerce, who will assist the company in securing the necessary data.

Mr. Makeig stated that they were taking over the operation of the local plant Aug. 1, and that Mr. Grogan had consented to manage same for them temporarily. They expect to put in a complete stock of electrical appliances and fixtures, as well as offering an attractive power rate when the high line is completed.

Before leaving these gentlemen assured hearers that the new company was anxious to be of service to Pampa and its citizens and to do their part toward the upbuilding of the town and community.

The Southwestern Public Service Company owns the plants at Roswell, Artesia and Carlsbad, N. M., Flagstaff, and other points in Arizona, and have recently acquired the Amarillo and Pampa plants, and are negotiating for the purchase of several other properties in this section of Texas.

TO OPEN BARBER SHOP NEXT WEEK

Fred Walker and Joe Kinsman are making arrangements to open a new barber shop in the Pipkin building on the east side of Caylor street, formerly occupied by the Gettich-Hopkins News-Courier Co.

The new fixtures will be installed first of next week and the boys hope to be ready to welcome their friends and patrons within a few days.

Mr. Kinsman has been on the front chair at the Wise & Brown shop for the past several years.

EXTENSION OF KELL'S RAILWAY EXPECTED

Officials of the C. & O. W. Railroad contemplate, it is said, extending the C. & O. W. from Claymore, the present terminus of the road to the oil fields in the Texas Panhandle.

Frank Kell, president of the C. & O. W. has just recently made a trip over the line, and it is generally believed that the extension of the road will be made this fall to a connection with the Santa Fe in the Texas Panhandle.—Savage (Okla.) Journal.

KANSAS CITY STOCK MARKET

CHAS. M. PIPKIN, Market Correspondent

Kansas City Stock Yards.—Sheep receipts Monday were 19,000 and the largest this year. This run came from a dozen states. Prices ruled 25 to 50 cents lower on lambs and steady on sheep. The hog market continued the decline started last week by extending the loss 25 cents, and falling 35 to 40 cents under the high point last week. Receipts were fairly liberal. Fed cattle were scarce and fully steady. Other grades were steady to weak, medium grades in some cases showing a decline. Fleshy feeders were higher.

Monday's Receipts Receipts Monday were 27,000 cattle, 8,000 hogs, and 19,000 sheep, compared with 27,000 cattle, 8,000 hogs and 9,000 sheep a week ago, and 17,500 cattle, 6,750 hogs and 4,350 sheep a year ago.

Beef Cattle About a dozen loads of cattle that had been fed grain on grass and sold at \$12.50 to \$13.50 made up the supply of the better classes of steers. On the basis of quality and flesh these prices were quoted strong. Prime fed steers would have brought \$14.25 or better had they been available. Some steers fed corn on grass two or three weeks and of the well wintered kinds sold at \$11.50 to \$12.50. The wintered straight summer grazed steers sold at \$9 to \$10.75, and the best feeders at \$8.50 to \$9.25, most of them steady. Plain and medium grassers at \$5.50 to \$7.50 were 10 to 15 cents lower. Canner and cutter cows were down 10 to 15 cents, but other grades of female cattle were steady. Fed grassers were lacking. Veal calves were steady to 50 cents higher, top \$9.50.

Stockers and Feeders Active demand for good to choice fleshy feeders and the best stockers prevailed at strong to 15 cents higher prices. The fleshy feeders are being taken for a short feed lot finish. Indications are that demand will continue active.

Hogs Hog prices were down 15 to 25 cents compared with Saturday and 25 to 40 cents compared with last week's high point. All markets received fairly liberal supplies and quoted declines. The top price was \$12.80, bulk of sales \$12.50 to \$12.75. The bulk of the 160 to 285 pound hogs sold with the bulk and the 140 to 160 pound grades brought \$12.25 to \$12.60. Packing sows sold at \$12.25 to \$12.75, and stock hogs and pigs \$12 to \$12.50.

Sheep and Lambs Lambs were 25 to 50 cents lower and sheep steady. Colorado and Idaho lambs sold up to \$15; Arizona lambs \$14.50 and native lambs \$14.25. Some Colorado ewes brought \$7.25, and Mississippi and Louisiana wethers \$5.90 to \$7.50. Feeding lambs brought \$11.50 to \$13.

Horses and Mules Trade in horses and mules is still limited by the light receipts. Inquiry as to fall supplies is developing.

"BEYOND THE VEIL"

This will be the general subject of a series of special studies of the word of God to be given on Sunday evenings during the month of August at the Christian church.

The first of the series will be given Sunday evening under the subject, "Where Are Our Dead?" In the discussion of this subject and kindred questions such as, "Will we know each other after death? Do those who have passed on have any knowledge of our affairs? What about second marriages? What about spiritualism, etc.?"

All who are interested in these subjects are urged to hear this subject Sunday evening. This series has been heard for the past six or seven years, both in the pastorate and the evangelistic field, and has been well received.

The other subjects in order will be: "The Devil and Hell Fire," "The Second Coming of Christ," and "The End of the World."

The Bible school at 9 a. m. with classes for all members of the family. The newly organized mixed class for young married people began last Sunday. This should prove to be a very popular class.

The preaching of the word of God at 11 o'clock will be especially interesting and helpful to all Christian people who are endeavoring to gain a fuller knowledge of the Christ.

JAMES TODD, Jr., Minister.

Probably the part of an auto that causes more accidents than any other is the nut that holds the steering wheel.

Hanson Post, No. 54, American Legion of Amarillo, is going to the state convention of the Legion in Fort Worth in September with the avowed purpose of landing the 1926 convention for Amarillo. During the past few years Amarillo has gained an enviable reputation as a hospitable convention city, and we trust that the Legion members will be successful in their efforts to bring the state convention to Amarillo in 1926.

It is predicted that America will be the first nation to outlaw smoke, soot and ashes by using gas fuel instead of solid fuel for heating processes in shops and factories. It will be the first to have its homes heated by gas, thermostatically controlled. The increasing use of gas is an inevitable result of modern demands for comfort and efficiency, to which must be added the growing conviction that human life and property are suffering incalculable damage from the smoke evil. The progress of fuel conservation depends upon the progress of gas utilization. The public is beginning to see this truth and act accordingly. The gas industry has grown because it has saved coal, labor, and money for the public.

We have always maintained that a town worth living in is worth defending and supporting in its efforts to advance with the rest of the world. Yet in almost every community you will find people who can see nothing good in their surroundings. They can not recognize the fact, that though it may be humble, yet it is home—that it has clothed them and fed them and cared for them in sickness and in health, and has furnished them friends who have been steadfast and true. They magnify the towns imperfections and spread clouds wherever they go. They often make life miserable for others and invariably make it a reproach to themselves. But we are glad to say, the abuse these short-sighted people heap upon their place of abode generally falls upon unsympathetic ears. Their neighbors and friends know them as they are—as people who might have been valuable citizens, capable of constructive work, but whose dispositions have been warped, possibly through no particular fault of their own. The views of the chronic kicker and faultfinder have less weight than those of any other adult element of the human race.

The United States has only 6 per cent of the population of the world and 7 per cent of the land, yet we produce 29 per cent of the world's supply of gold; 25 per cent of the world's supply of wheat; 40 per cent of the world's supply of iron and steel; 40 per cent of the world's supply of lead; 40 per cent of the world's supply of silver; 50 per cent of the world's supply of zinc; 52 per cent of the world's supply of coal; 40 per cent of the world's supply of cotton; 40 per cent of the world's supply of copper; 40 per cent of the world's supply of aluminum; 40 per cent of the world's supply of oil; 50 per cent of the world's supply of corn; 85 per cent of the world's supply of automobiles. We also refine 80 per cent of the paper and operate 40 per cent of the world's railroads. We have 40 per cent of the world's telephones, and 50 per cent of the world's electric generating plants. We use more coal and have more electric street railways than the remainder of the world. Before the war we owned over seven billion dollars. We not only had this debt, but foreign countries now owe us two billion dollars. We now hold the largest amount of money in the world. Why shouldn't we be proud to be citizens of the good old U. S. A.?

Among Our Exchanges

Higgins News: A man remarked the other day that he wished he had the gift of gab, but if he had, he would want to do more than just gab, he would want to say something. As a usual thing the gabber seldom has much to say that really is worth saying.

Panhandle Herald: The railroad bearing at Plainview this week developed the fact that keen rivalry is now on for rail control of the Plains country. This effort to control the territory is because of the rapid development of the agricultural resources of the South Plains during the past few years. Some of the country's biggest railroad men participated in the hearing and it was plain that their judgment anticipates the Panhandle-Plains section as one of the most successful farming sections in the State. And they are right about it.

Clarendon News: There hasn't been a movement in Clarendon in years that has received so general and so wholehearted support as our new Municipal Band. The band is being financed by the business men of the city until Jan. 1, at which time it is hoped that a city tax rate of one mill on the dollar will be available under the new state law for maintenance. What is wholehearted support now will turn into open and rampant enthusiasm when our band goes to the Tri-State Exposition at Amarillo in late September to cop the blue ribbon in the infant-band class.

Randall County News: It is stated that England will pay her war debt to the United States by increased prices of rubber and by selling booze to Americans. Those who have bought rubber recently are paying considerable tribute to England, which country controls the crude rubber supply. The automobile tire industry alone will pay a tribute of several million dollars annually by the sudden and tremendous increase in rubber prices. The American people will pay the English war debt to their own country through this means. Most of us won't kick much at that, however, as we like to burn up the tires. However, there seems to be a certain class equally as anxious to pay the other tribute to England through the medium of the illicit liquor traffic.

Claude News: At Clarendon Saturday we noticed signs on most every window in town, reading: "Ford Sedan Free." These merchants are giving away tickets on a new Ford sedan and the lucky number will draw this car, so we were told. This is quite different to the way we do things at Claude. Some of the Claude merchants are afraid that they would be thrown in jail in 15 minutes if they offered to give away something that belongs to them. Others are not. We are of the opinion that one or more merchants of Claude can buy and give away anything they wish and never violate any kind of a law, and we hope they will do this in the next few weeks in order to stimulate business, as other towns are doing at this time.

Snyder Signal: A traveling shirt peddler was working Snyder Wednesday, and dropped in on the Times-Signal force and proceeded to tell us how much we could save and what perfect fits he could give us. We informed him without hesitation or equivocation that we have a number of good shirts right here in Snyder that sell the best quality of trade-marked shirts made and that we believe in spending our money with those who help support our schools, churches and other institutions and particularly with those who trade with us. We positively refused to allow him to open his sample case in our office. The Times-Signal is now wondering how many of our merchants and professional and business men will treat the next outfit of town with the same way, or who will place their order for envelopes with the peddler. Remember that the editor is the only person in Snyder who has Uncle Sam for a competitor.

MUST SPEND TO MAKE
There are a lot of people in this world who lack the knowledge of the fundamental principles of business success. They go on the theory that every nickel they get must be salted away, buried in the old sock or tin can. It's this class that has kept thousands of small towns, made wide places in the cow trails or stations at which the trains do not even whistle as they roll by.

Saving is one of the greatest habits man or woman can form, but saving in the broad sense, not in the niggardly and parsimonious manner many, too many adopt. It's necessary to spend money to make money, and if horse sense is put into effect in the spending the returns will produce a per cent right along which will permit of the putting away for the serene and yellow time of life dollars where pennies only can be put away by the squeezing method. Years ago the man who spent \$5 for a pair of shoes was considered a spendthrift, as was the man who paid more than \$16 or \$18 for a suit of clothes. Years ago we wore home-spun clothing, copper-toed boots and used the tallow dip to read by.

Today we pay a lot more for our shoes, for our clothing and enjoy the luxuries of electric lights and other advancements which have made life a pleasure rather than a simple existence, as it was years ago. The world has progressed. We have a higher and better civilization. A better manner and mode of living. We are more enlightened. Get more out of life.

This was all brought about and in existence through the fact that we have learned to spend money, learned to spend it sensibly, sanely and in a manner which brings the greatest delight and most pleasures. One has only to study slightly the progress and advancement of the great marts of trade throughout this land of ours to ascertain and be convinced of the fact that progress, advancement and the improvements were brought into existence and made possible because the citizens of those places spent their money intelligently, but spent it.—Tucumcari News.

A strange anomaly is that the one man in the United States who could best afford to pay for advertising gets most of it for nothing.

From the foreign dispatches, there seem to be other industries besides laundries in Canton, Shanghai and Peking. This is real news.

CHANGED HER NAME
A story is going around of a young lady near Crookston who went to the twin cities. On the farm she was known as Jessie, but about the fifth letter she wrote home she signed Jessica. Her brother replied as follows:
"Dear Jessica: Dadica and Mamica have gone to visit Lizica. Uncle Jimica is talking about buying a new autica but he doesn't know whether to get a Fordica or a Chevica. The old cow has a calfica. I was going to call it Nellica, but changed it to Billica because it was a bullica.—Walterica."

LOYALTY
There is no finer human attribute than loyalty. It covers even more sins than darkness. The world may openly condemn a man for crime, but will, secretly admire him for loyalty to a "pal." Loyalty is the real test of friendship. Loyalty means sticking—sticking through thick and thin, in lean times and fat times, in times of evil and of good report, in fair weather and foul. Loyalty in the commercial world is pride of profession. Loyalty to a job is a strictly American characteristic. As exemplified by the American workman it is most inspiring. It gets the newspaper to press on time in the

face of break-downs and other discouraging emergencies which are almost heart-breaking. Loyalty pushes the train to its destination with its precious burden through difficulties seemingly insurmountable. Loyalty is the irresistible force which moves the immovable body. Loyalty is the cement which holds the commercial structure together. Without it life would be an utter failure.—Southwestern Machinery.

Just when the world was hoping to abolish war by abolishing the cause of war, along comes Admiral Flske and says that women are the cause of war.

HOME SERVICE CLUB

Mrs. Welmer Tolbert was hostess to the Home Service Club on Tuesday of last week. Miss Seelbach was leader of the afternoon and gave two demonstrations, one on alterations of patterns also the latest embroidery stitches. Plans were made to raise funds to send the three girls to the short course at A. & M. Refreshments of punch and cake were served to the eight members present.

FAMILY REUNION

A family reunion was held at the home of Mr. and Mrs. S. M. Pipkin on Sunday, July 26, this occasion being the first time in 20 years that the family were all home. A photograph was taken and a big chicken dinner served followed with ice cream and cake. Those present and enjoying the get-together were: Mrs. Myrtle McMahan and daughter of Blackie, Alberta, Canada; Mrs. Lula Sims of Springtown, Ark.; Mrs. Beattie and Velma Mesdor, of Miami; Knox Pipkin and family of Perryton; Miss Gladys Pipkin of Dallas; Mrs. Dewey Mitchell of Dalhart; Susie Pipkin of Canyon and Hobart Pipkin of this city. The occasion was a most enjoyable and all expressed the wish that they might come together more often around the family hearth.

Mr. and Mrs. J. I. Duckworth and two children of Mineral Wells are visiting Mr. and Mrs. J. M. Fitzgerald in this city.

Mrs. F. T. Swafford returned home Sunday morning after a week's visit with her parents, Mr. and Mrs. A. L. Simmons. She was accompanied to Plainview by Mrs. Jack Killbrew, who is visiting Mr. and Mrs. John Young this week.

John Deere 3-disc tractor plows, \$90 at Crawford Hardware Co.

Mrs. Myrtle Lewallen of Amarillo and friend Miss Kate Davis of Clovis, N. M., are visiting with Mrs. Lewallen's cousin, T. B. Cobb, in this city this week.

Dr. A. R. Sawyer will go to Miami next Monday to spend the week, returning probably Friday or Saturday.

We are glad to assist you in planning that new home you have been contemplating building. Our motto, "Service that Satisfies" White House Lumber Co., Pampa, Texas. 11-tfc

A crew of linemen are working out of here stringing four new copper wires from here to Amarillo for the Southwestern-Bell Telephone Company. Large new cross arms are also being placed upon the poles to take part of the load from the other arms.

J. D. Edgar and family are expected home soon from Glenrose, where they went for Mrs. Edgar's health.

John Deere 3-disc tractor plows, \$90 at Crawford Hardware Co.

Mrs. W. L. Herbin and children of Wichita Falls arrived Saturday night to visit Mrs. J. W. Campbell and son, Robert.

Mr. and Mrs. W. B. Saulsbury left Sunday night for Shreveport, La., on receipt of a message stating that one of their sons, who is visiting relatives there, had to undergo a mastoid operation. They are expected to return home last of this week.

John Deere 3-disc tractor plows, \$90 at Crawford Hardware Co.

Miss Delbert Stewart has returned from a visit in Gainesville.

Mrs. Bert Moore of Fargo, Okla., arrived Wednesday to visit her brother, S. L. Pearson, and family.

S. M. Wise and Delbert Stewart returned Wednesday from a visit in Dallas and Commerce.

Twelve-hole Peoria wheat drills for \$120 at Crawford Hardware Co.

Mrs. Clinton Henry left Monday for Palo Duro after visit at the home of her parents, Mr. and Mrs. Dave Pope. She was accompanied home by Mr. and Mrs. R. M. Brown, Miss Beattie O. Brown and Mrs. P. C. Ledrick.

Mr. and Mrs. T. D. Hobart, daughter, Miss Mary, and son, Fred, went to the J. A. Ranch last Friday.

Mrs. C. E. Burnard, who has been ill for the past week, is reported better.

Twelve-hole Peoria wheat drills for \$120 at Crawford Hardware Co.

Someone placed a "detour" sign at one of the muddy street crossings down town Wednesday. The sign was appropriate, to say the least of it.

Rev. E. J. Osborn has returned from San Saba, where he visited relatives and held a revival meeting.

Geo. Greene, son of Mrs. L. H. Greene east of town, had the misfortune to have a horse fall with him Sunday. He was unconscious for sometime following the accident. He received a gash on the head, but is able to be up and about now.

MRS. MOREHEAD ENTERTAINS

Mrs. George Finch was given a farewell party by the Home Service Club at the home of Mrs. Oscar Morehead. Games of forty-two were played throughout the afternoon. The club presented Mrs. Finch with a beautiful set of teaspoons as a remembrance of her love and esteem. Cake and cream were served the 15 guests present.

MRS. COOPER ENTERTAINS

The home of Mrs. C. J. Cooper was thrown open to her many friends Thursday afternoon. No games were played, but each guest enjoyed the companionship of friends. Miss Gladys Cooper and Mrs. Will Lester gave several musical numbers. Those present to wish Mrs. Cooper happiness in her new home were Mesdames Lester, Blanton, Frank McAfee, Leo and Wheeler Paris, A. B. McAfee, Talley, Morehead, Finch, Crossman, Ingram, Davis, Garretson and Sanders. At a late hour cake and cream were served.

BAPTIST CIRCLES

Circles Nos. 1 and 4 met Wednesday with Mrs. Park Brown. Devotional was led by Mrs. Harry Barnard and the business session presided over by Mrs. Cass Phillips, the latter being followed by a social hour. During the social hour the circles gave Mrs. Brown a miscellaneous shower, and later ice cream and cake were served the 11 members and four visitors present. Next Wednesday all the circles will hold their general monthly business meeting at the church.

Circles 2 and 3 met Wednesday afternoon with Mrs. Vandeburg. Devotional was led by Mrs. Lawrence Taylor, followed by study of Intercessory Prayer, conducted by Mrs. W. B. Henry. Later lemonade and cake were served the 13 members and eight children present. On Aug. 12 these circles will meet with Mrs. L. H. Greene in an all-day meeting.

Miss Thelma Burleson is visiting in Panhandle this week.

Everything Depends On Your Start

A SOUND BUSINESS grows slowly. IT shows progress from day to day—from week to week—but it shows steady, unvarying progress.

One year is better than the next, the next better than that—this is business building and a banker sees in the management of such a business a future active account, an employer—a property owner; you are in his class.

He wants to help start and build your little business—the more business you do the more he does.

Your "Selective-Ringing" Telephone Rings Only for You

Every "selective-ringing" telephone in Pampa has a "one-party-line" bell ringing service. This means that your bell rings only when your number is wanted.

The subscriber who shares your line has no means of knowing when you are being called, and you are not disturbed by the ringing of HIS bell.

In fact, unless you use your telephone much more frequently than the average householder, the only substantial difference you will note between the two forms of service will lie in the size of your monthly bill. By changing over your residence telephone to a "selective-ringing" telephone you save 25 cents a month.

SOUTHWESTERN BELL TELEPHONE COMPANY

NOTICE OF APPLICATION FOR ORDER OF SALE—ESTATES

The State of Texas:
To the Sheriff or any Constable of Gray County—Greeting:
You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Gray, State of Texas, and you shall cause said notice to be printed at least once each week for the period of twenty days exclusive of the first day of publication before the return day hereof:

Notice of Application for Order of Sale—Estates.

The State of Texas:
To all persons interested in the Estate of E. M. McCracken, deceased, A. C. Husted has filed in the County Court of Gray County, an application for an order to sell the following property of said Estate, to-wit:

The south one hundred twenty acres of the east one-half of section number one hundred seventy-two (172), Block B-2, H. & G. N. Ry. Co. located in Gray County, Texas, to pay off and discharge the mortgage indebtedness against said 120 acres and the taxes assessed against the same and now unpaid; but in case that said 120 acres shall not sell for enough to pay off and discharge said indebtedness then in that event that said order authorizing petitioner to sell the north 200 acres of the east one-half of section 172, block B-2, or so much thereof as may be necessary to discharge the liens now existing against the same, or within the discretion of the court if it becomes necessary to sell any part of the said north 200 acres to order whether a part or the whole of the same shall be sold at said sale, which will be heard at the next regular term of said court, commencing the third Monday in August, A. D. 1925, at the court house thereof, in the town of Lefors, Texas, at which time all persons interested in said Estate are required to appear and show cause why such sale should not be made, should they choose to do so.

Herein fall not, but have you then and there before said court this writ, with your return thereon endorsed, showing how you have executed the same.

Given under my hand and the seal of said court, July 22nd, A. D. 1925.
(SEAL) CHARLIE THUT,
Clerk County Court, Gray County, Texas. 17-31c

ITEMS OF INTEREST FROM OVER THE STATE

Groesbeck.—Fire, which Monday at midnight destroyed the Oliver Garage here, with 30 automobiles and all equipment, caused a loss of \$150,000, the largest in the history of the city.

Houston.—Overcome by the heat Monday night while at work an electric motor near the ceiling, S. L. Perry fell 12 feet and died a few moments later. At an inquest Tuesday heat prostration was blamed for his fall.

Vernon.—Ike Pippin, 73 years old, of Rockwall County, died in a local hospital Tuesday from shock sustained in a hold-up at a local railway station Sunday night, according to officers who investigated the affair.

Taylor.—Death resulted when Wane Kinser, 17, son of L. C. Kinser, fell from a heavy transfer truck driven by Chas. Pennick early Tuesday morning. He was thrown under the truck and crushed by the heavy wheels.

Houston.—Robert Edmiston, 70 years old, died at a local hospital from injuries sustained when the automobile he was driving rolled over three times on the Lynchburg road between San Jacinto battle ground and the ferry.

Austin.—No decision will be announced by the State Highway Commission on the application of Wichita County for a re-allotment of \$163,000 State and Federal aid for the construction of a free bridge across Red river at Burkburnett, until the next meeting of the commission, Aug. 10.

Austin.—That the fire which destroyed "U" building at Camp Mabry, May 27, entailing a loss of approximately \$585,000 in military property and equipment, was of incendiary origin, was indicated Tuesday evening when Adj. Gen. Mark McGee offered a reward of \$300 for the arrest and conviction of the person or persons responsible for the conflagration.

Olney.—Burglars broke the combination lock on the safe of the Olney Steam Laundry Monday night and robbed it of a little more than \$100. Entrance was through the front door. No clues have been discovered as to the identity of the robbers.
