

OIL STRUCK 3 MILES SOUTH C. OF C. MAY REPAIR OIL FIELD ROAD

DEFINITE ACTION TO BE TAKEN BY THE MEMBERS AT A MEETING NEXT WEEK ON THE SOUTH SIDE

35 Arrested Here Within Past Week; Seven Cars Found

Seven stolen cars that have been recovered by Sheriff Graves and his deputies within the past few weeks, are being held at headquarters. The cars include one Studebaker, two Buicks, three Fords and a Chevrolet. One of the cars being held, a Ford roadster, has been stripped.

Two men are being held, charged with stripping a car. They were "caught in the act" by the officers as they were plying their trade to a Ford roadster.

A total of thirty-five persons have been arrested here in the past week. Four are charged with selling intoxicating liquor, two with stripping a car, and the rest are charged with being drunk.

Water dripping from a Ford coupe gave two men away. The officers noticed the dripping water, and as they are well acquainted with the modern methods, they stopped the car to investigate. The suspected sack of "home brew" and crushed ice was found in the rear of the coupe.

Postal Inspector Makes Favorable Recommendations

A. S. Pare, office inspector, was here last week to look over the mail situation here. He readily approved a free delivery system for Pampa, and the enlargement of the present post office quarters.

He has sent his recommendations to postal headquarters in Washington, D. C. Immediate action will be taken as soon as word is received from there. The number of clerks at the post office will probably be increased in the near future, according to W. A. Crawford, postmaster.

When men's clothes you do desire, for Kees & Thomas please inquire. The oldest Gent's Furnishing store in Pampa. (25-26c)

Pay Attention to Subscription Notice of News

Pay attention to the subscription notices of The News if you want to be assured of receiving your paper without interruption. It is only fair that The News should ask that its subscriptions be paid in advance.

The News is now \$2.00 a year in Texas, and \$2.50 a year outside the state. The rates will be advanced when the semi-weekly News is established. You can thus save money by renewing at once. Every one has been sent a notice about his subscription. All you need to do is to send your remittance at once and be assured of receiving The News.

Nine members of the chamber of commerce met Tuesday night to make future plans for the organization. Another meeting will be held next Tuesday night at 7 o'clock at Louis' Cafe.

The chamber of commerce has under consideration the repairing of the road west of Pampa, "the oil field road," as far as the Carson county line. There are several bad places in the road that will require immediate attention, according to the members. Suggestions were made that the worst holes be filled with dirt and that grading be done where needed. Definite action will probably be taken on this question at the next meeting.

The matter of eliminating the dust in the business district was brought up and discussed. One solution suggested was to oil the down town streets, but this did not meet with the approval of a majority present. A committee of three composed of M. A. Turner, Tom Rose and A. H. Doucette was appointed to inspect a water sprinkler. If this committee sees fit, a sprinkler will be purchased and put into operation. The members will report on the matter at the meeting next Tuesday night.

Mayor F. P. Reid brought up the question of supporting the Abo Pass Highway commission and the Fort Elliott Highway commission in buying and distributing maps. Both of the highways are of vital importance to Pampa, according to Mr. Reid, as they are both directing toward Pampa. The members voted to donate \$30 to the Abo Pass Highway and \$50 to the Fort Elliott Highway. Maps will be sent to Pampa to be distributed. "These maps will make a good advertisement for Pampa and surrounding community," said Mr. Reid.

Mr. Turner explained the condition of the electrical wiring that he has found in some of the buildings here. "I have found wiring in several buildings that I have condemned," he said. "In one building I found a wire on which more than twice the maximum number of lights were attached. The wire was so hot that I could not hold my hand on it. As soon as I called the attention of the owner to this he immediately had an electrician come and make the necessary changes to insure safety. Another case that I found was where an uninsulated wire was passed through a wall of one building into another. This was remedied as soon as I pointed out the danger. Every one is glad to repair or change the wiring in their buildings as soon as they are aware that there is possible danger."

The membership committee, composed of Tom Rose, Homer Koo, C. T. Wankapiller and M. K. Brown, decided to meet and make plans for soliciting for new members for the chamber of commerce. Members of this committee that were present at the meeting pointed out the difficulty of keeping up with all those who move to Pampa, and that many would no doubt be glad to join the organization if they were invited. The committee hopes to reach as many as is possible.

At present the Chamber of Commerce is composed mostly of men who have lived in Pampa for several years, although a few of the new comers are now members. "We want this new blood in our organization," said A. H. Doucette. "We want the new comers and old timers to cooperate. We want a spirit of genuine friendliness throughout the entire city."

M. A. Turner urged the members present at the meeting to endeavor to improve the attendance at the meetings. Several who would have

Big 30-Inch Cutter Received by News; Adds to Our Service

A thirty-inch Chandler & Price paper cutter was received by The News Saturday and was erected the same day. This cutter is one of the largest that may be found in any printing shop in the Panhandle-Plains.

The owners of The News, however, believe in Pampa and its possibilities, and hope that they have not over-estimated the city by purchasing so large a cutter.

Only two weeks ago a 12 by 18 job press was installed. This new press enables The News to handle larger orders for job work—and coupled with efficient workmen enables The News to give high quality printing and quick service.

A new Model 14 Linotype, generally considered the best machine manufactured for the small city newspaper, has been shipped and will reach Pampa in two or three weeks. Considerable new type has been ordered and will enable better service for job work customers and advertisers.

The News will soon be a semi-weekly and it will publish more often, depending only upon the support that can be obtained. Assurance is given the public that the owners of The News will absolutely keep step with this field.

Subscribers can save money now, for the rates will be raised as a semi-weekly. The News now costs \$2.00 a year in Texas or \$2.50 a year outside the state. Rates will be increased in two or three weeks, or just as soon as our semi-weekly is launched.

The News owners are giving ample notice so that readers may subscribe and save money. Notices have been sent to all persons whose subscriptions are expiring. Failure to take notice of these statements will mean prompt stopping of delinquent or expiring subscriptions.

Keeps Up With Pampa By Reading The News

"The best way to keep up with a town is to read its newspapers," said W. S. Pool of Omaha, Neb. "I have bought some property in Pampa and of course I have a real interest in the city."

Mr. Pool says that he is going back to Omaha, but that his son, Willie Pool, may later move to Pampa to make his home. Mr. Pool purchased four lots on Cuyler St. south of the railroad.

J. R. Nicholson of White Deer was in Pampa Monday on business.

Miss Nellie Bird Richey spent the week-end in Amarillo.

Many Improvements Made In County Seat

George M. Clardy of LeFlore was in Pampa on business last Friday. Mr. Clardy reports that considerable building is in progress in the county seat.

A new up-to-date school building will be completed in the near future. A hotel and a cafe are also under construction and will be completed in a short time. Gas fixtures are being installed in most of the business houses and residences. The city limits have also been extended several blocks.

"Pampa is certainly becoming a real city," said Mr. Clardy. "I believe that Gray County will soon develop into the richest county in the Panhandle."

ALEX SCHNEIDER, FIRE CHIEF, URGES STRICT OBSERVANCE OF FIRE PREVENTION WEEK HERE

Chief Alex Schneider of the Pampa Fire Department cites attention to the proclamation of Governor William A. Ferguson setting the week of October 3 to 9 as Fire Prevention week.

Governor Ferguson specifically requests the arrangement of public meetings, and requests editors and public speakers to proclaim everywhere in the great state of Texas the tremendous loss of life and property annually because of carelessness and lack of caution when dealing with fire.

"Fire prevention is especially important in Pampa," says Chief Schneider, "because the town has suddenly sprung into the city class and has necessarily been difficult to patrol. With a limited equipment and limited funds for fire-fighting in Pampa, it behooves everybody to exercise the utmost care and caution at all times. Especially is this true in the use of kerosene and gasoline, or any cleaning preparation quickly inflammable."

"The wanton carelessness in discharging cigarette stubs is the cause of many fires. In a growing city of Pampa's size the matter of fire prevention is highly important. On the south side, especially, where so much building has been done with frame, there is constant danger of a conflagration. Too much warning cannot be given, else a heartily destructive fire will unexpectedly come."

Chief Schneider suggests that the matter of fire prevention be discussed in all the Pampa schools, that even in the churches and other public meeting places, such as the theaters and movie houses, Governor Ferguson's proclamation be read and given the most careful attention.

"In the state of Texas last year more than twenty million dollars worth of property and 284 lives were lost through fire," the governor's proclamation says. And it is estimated that 85 per cent of all fires could, with proper caution, be prevented.

GRAY COUNTY FIELD ENLARGED WHEN HOLMES NO. 1 SHOWS OIL; OTHER WELLS LOOK FAVORABLE

A showing of oil by the Young and Osborne-Holmes Well No. 1 increases the Gray county field to a still larger acreage. This well is located in the southeast corner of the northeast quarter of section 106.

The well tapped the pay at 3,160 feet. After drilling in a few feet in the pay the hole filled with 1200 feet of oil in less than 12 hours time. This well extends the field to within three miles of the city limits of Pampa on the south.

The Roger McConnell Gulf No. 1 in the northwest quarter of section 175, block 3, is drilling around 3000 feet and is making considerable gas. This well is between the Roxana Bryan No. 1 and the Young and Osborne Holmes No. 1, and if it comes in for oil as is expected, it will fill the gap in the field of production.

McMann-Phoebe Worley No. 1, southwest quarter of section 3, came in Monday evening for 45 barrels for the first hour. It then flowed by heads, but with more drilling it is expected to make a 1200 barrel well. This well is an offset to Clark's Worley No. 1, which after a period of two months continues to near the 1000 barrel mark.

Wilcox No. 8, located in the northeast corner of the southeast quarter of section 62, block 3, has 300 feet of oil in the hole at a depth of 2960 feet. The granite wash is expected to be removed within the next 30 feet.

Wilcox No. 10 has a showing of oil at 2955 feet. About 10,000 feet of gas has been obtained at this depth. This well is in the northeast corner of the northwest quarter of section 62, block 3. Wilcox No. 12 is spraying about 100 barrels a day. Gas was reached in Wilcox No. 14 at 2750 feet. The well is now down 2860 feet. Wilcox 8, 10 and 14 are expected to come in by the first of the week.

A new location has been made on the J. M. White ranch, section 212, block M-2. The Skelly Oil Co. has made a new location on the southeast quarter of section 175. The Magnolia Co. has just completed a derrick on the southeast quarter of section 182, block 3. Another derrick will soon be completed by the Sun Oil Co. in section 82.

Mrs. E. C. Adgate Dies Here Friday

Mrs. E. C. Adgate died at midnight Friday, Sept. 18 at her home in the south part of the city. Her death was due to rheumatic complications.

She was born in March 1863 in Tazewell county, Missouri. She later moved with her parents to Salina, Kan., where she was married to W. T. Adgate. They moved to Oklahoma where they lived for several years. Later they moved to Graham, Texas, where they lived until July 2, when they moved to Pampa.

Besides her husband, she is survived by a sister, Mrs. Ella Kelley, whose home is in Kansas. The funeral was directed by C. C. Malone of the Malone Furniture and Undertaking Co. The Rev. Tipton of the Baptist church conducted the funeral services at the home, and members of the local Rebekah Lodge had charge of the services at the grave. Burial was made in the Fairview cemetery.

Mr. Adgate wishes to extend his thanks to the members of the Rebekah Lodge and the many neighbors who gave such kind assistance during the sickness and death of his wife.

Santa Fe Employee Suffers Burns On Arms and One Leg

Lee Hickman, pumper for the Santa Fe Railway Co., suffered some severe burns on his arms and one leg Tuesday night when a tank of gasoline caught fire and the flames set fire to his clothing. He was sent to the Clovis Hospital for medical attention. A wire from the hospital Wednesday reported that he would recover unless further complications set in.

Hickman who was preparing to empty a 110-gallon tank of gasoline into an underground storage tank near the Santa Fe Railroad tracks, and had partially unscrewed the bung in the surface tank when it blew out.

Gasoline was thrown on a lighted lantern that was setting a few feet away. The gasoline ignited and the fire spread rapidly.

The Pampa fire-trucks reached the scene of the fire in a few minutes and soon extinguished the flames. Ten or fifteen railroad ties were partially burned before the fire was extinguished.

Clayman to Occupy New Duplex Within Next Three Weeks

S. C. Clayman, proprietor of the A. and C. Mercantile Co., is having a new eight-room duplex built. The new home, located on block 12, lot 11 in the Wright Addition, will be strictly modern in every respect.

The new home will be ready for occupancy within the next three weeks, according to H. W. Jones, contractor. A double garage will be built on the same lot.

M. W. Jones of the Jones-Everett Machine Co. was in Jericho last Saturday.

Miss Opal McKay, daughter of A. G. McKay of Pampa, has gone to Alpine where she will enroll for the second year in the State Teachers College.

When men's clothes you do desire, for Kees & Thomas please inquire. The oldest Gent's Furnishing store in Pampa. (25-26c)

Job Work That Is Guaranteed to Please You

Job work that is sure to please you is the policy of The News. This paper has been serving the people of Pampa and Gray county for nearly 29 years with quality printing.

Workmen, thoroughly competent to handle your orders, are employed by The News. When you are in need of job work, call at The News, one block west of Gray County State Bank.

How will you be prepared to handle the first of the month rush? Order your letter heads, statements, envelopes, notices and other stationery now so you will have plenty on hand October 1.

LETTER FROM CALIFORNIA

Editor Pampa News:

I wish in this letter to write more fully of my visit to Pampa during the last summer. In my letter last week I made mention of the great surprise which I encountered—although I should have been well prepared, for I have read the News every week with a great deal of interest. But there is a vast deal of difference between reading about a thing, no matter how correct the portrayal, and seeing it with your own eyes.

There were several articles in the paper which came yesterday that were of much interest to me. I was greatly impressed with the large attendance at school. This will be greatly increased, of course, before the end of the term.

I met your superintendent while at Pampa and was very favorably impressed. I think he is an excellent man for the place he occupies, and with the hearty support and cooperation of the patrons in particular and the community in general, your school will continue to be one of which you will justly be proud. But no matter how efficient he may be, without this support and cooperation your schools can never be what they should be. Now that you have the right man, you should retain him for years to come and show him that you appreciate his ability and the service which he is giving. One great trouble is that we change our teachers too often.

But the matter I wish to speak of particularly in this letter pertains to the proper planning and building the greater city of Pampa, for it is going to be a city in the not very far distant future and it is of the utmost importance that it be correctly planned from the start, for if mistakes be made in the beginning, it will be difficult and expensive to correct them later if it is ever done. I read in the papers that Detroit is considering the raising of \$75,000,000 to correct a mistake that should never have been made.

When additions are laid out, as in the case of Pampa, they should be planned and laid out so as to harmonize with the town in general. The whole scheme should be taken into consideration and not that particular unit only. The city should be properly zoned, that places of business may not intrude on purely residential districts.

It would be an easy matter now while the town is new and just beginning to build up, to correct a great mistake which will be almost impossible of correction later on. I mean the complete elimination of all alleys. Time was when they were perhaps a necessity, but that need no longer exists. We no longer keep horses and cows and build a barn on the rear end of city lots and have feed to them. That time is forever past.

Alleys now serve no useful purpose whatever. No one seems to feel responsible for their upkeep. They are unsightly; a place for cats and dogs and obnoxious weeds; a convenient place to dump offensive rubbish which should be hauled

away or burned; a handy place where the bootlegger can ply his trade and the burglar make his escape; a place where flies, multiply and disease and pestilence have their source. By discarding the alley seven to ten feet can be added to the rear of each lot which can be used to great advantage by the owner. I hope this matter will be considered by the city manager, the city officials, the chamber of commerce and the business men generally with a view to their complete elimination. If they will look Pampa over with this thought in mind as I have done, they will see how easily it can be effected, and how much it will add to the beauty and attractiveness of the town.

San Jose has an estimated population of eighty thousand and enjoys the reputation of being one of the most beautiful cities in the world, and yet in its entire extent there is not one alley.

No one would think of laying out an addition to San Jose with alleys planned for in the scheme, and if he did lay it out, most probably he would never sell a lot, for no one would care to live where there would be a dirty lane at the rear of his property, where his neighbor on the other side could and probably would make it an unsightly nuisance and dangerous to his health and peace of mind. A board fence down the centre of the block too tall to be seen over is the usual thing.

When I returned home from

Pampa I was met by a complete surprise. When I left here most of the women had their faces tinted or painted with some kind of coloring matter. This had been going on so long that I had ceased to notice it. In Pampa I noticed it was even more pronounced than on the coast. But when I came back here I could hardly believe my eyes for all the paint or whatever you call it (for I am not an authority on such matters) had literally disappeared. I walked along First Street and saw the faces of hundreds of women, not one of which was painted, all of which looked good and sensible to me. But fashions change so quickly that there may not be a painted face in Pampa today.

I read in the papers that the skirts of women are to be shorter than ever so that the caps of the knees will be visible, and that's to be this winter too, it will work all right in this beautiful climate of California, but I'm afraid somebody's legs are going to get cold in Pampa.

I have just been down town to see the 101 Ranch Wild West Show. It has grown wonderfully since I first knew it at Bliss, Okla., where it had its origination. Will Rogers was part of it.

J. F. VICARS.

Goos Downstate

Grover C. Malone and daughter Charlotte Rhea left during the weekend for Hillsboro to join Mrs. Malone and their son for a brief visit. Mr. Malone also planned to visit Dallas on business and expected to return to Pampa by the middle of the week.

J. E. Murfee III
J. E. Murfee was ill during the latter part of last week and the first part of this week and unable to be on at the store.

Safe or Sorry

THERE are no cut prices to health. The best is none too good. So, when you buy cheap plumbing fixtures, and think you are saving money, you are not. You are losing money. And what's worse, you are making your home a breeder of disease.

The only kind of plumbing worth having is the best. Anything else is dead loss.

When you buy "Seconds," "Damaged," "Defective" plumbing goods, you buy trouble, sickness, death.

A crack is a home for disease germs. A leaky pipe leaks away health.

Buy only quality plumbing—quality fixtures, quality materials, quality workmanship—the kind that is guaranteed.

**NOTICE OF TRUSTEE'S SALE
THE STATE OF TEXAS)
COUNTY OF GRAY)**

Whereas, by virtue of authority vested in me, as trustee, named and appointed in a certain deed of trust, recorded in volume 12, on page 412, records of real estate mortgages of Gray County, Texas, executed and delivered to me on the first day of January A. D. 1923, by A. B. Renner for better securing the payment of one certain promissory note, for Eleven Hundred dollars, (\$1100.00), and more fully described in said deed of trust, executed by the said A. B. Renner, and payable to the order of A. M. Renner at the First State Bank of Miami, Texas, due on the First day of October, A. D. 1924, bearing eight per cent interest per annum, from date until paid, interest due and payable annually as it accrues, and providing for the payment of ten per cent additional on the principal and interest, if default is made in the payment of said note at maturity, and it is placed in the hands of an attorney for collection, as collection fees, and also provides that all past due interest if not paid, shall draw eight per cent interest per annum. Said note given for money advanced to pay part of purchase price, for the following described tract of land, viz: All of the West half of Section 67, Block A. 6, of the H. & G. N. R. Co. surveys in Gray County, Texas, containing 320 acres of land.

And, whereas, the said A. M. Renner is the holder and owner of said note, and the said A. B. Renner has made default in the payment of said note, and the same is now past due and unpaid, principal, interest and attorney's fees, by reason thereof and as provided for in said note and in said deed of trust, the said A. M. Renner, has declared said note and all of said indebtedness immediately due, and has notified the said A. B. Renner; and whereas, said note is long past due and unpaid now aggregating, principal, interest and attorney's fees, Sixteen Hundred Fourteen and 82/100 dollars, (\$1,614.82).

And, whereas, I have been requested by the said A. M. Renner, to enforce said trust, I will offer for sale, between the legal hours thereof, to wit: between the hours of 10 o'clock a. m. and 4 o'clock p. m., at public auction, to the highest bidder, on the First Tues-

day in October A. D. 1926, the same being the fifth day of said month, at the courthouse door in the town of Le Fors, in Gray County, Texas, the following described property, to wit: All of the West one-half of Section No. Sixty-seven (67) in Block A6, of the Houston & Great Northern Railroad Company surveys, containing 320 acres of land, more or less situated in Gray County, Texas, with all rights, members and appurtenances thereto in anywise belonging.

Witness my hand this 1st day of September, A. D. 1926.

H. E. BAIRD,
Trustee.

Baptist Church.
The message Sunday morning will be "The Acid Test". The evening preaching service will be dismissed for the Methodist revival. Rallies will be held in all the churches of the Canadian Baptist Association during October in the interest of the General Denominational work. Dr. L. J. Mims, our stewardship secretary, will be with us.

Sunday school begins at 10, preaching at 11, B. Y. P. U.'s at 7:15, and W. M. U. Wednesday at 3 o'clock. New people and visitors are always welcome at the Baptist church.

F. A. Tippen, Pastor.

Mr. and Mrs. A. R. Anderson returned Saturday after spending a few days in Amarillo.

**Attention Called To
Coffee Adulteration
By State Health Man**

Attention is called by Dr. E. H. Golas, director of the pure food and drug division of the state board of health, to the necessity of buyers of coffee demanding that it be sold in labeled bags or other containers that they may be certain that the product is not adulterated.

According to Dr. Golas, the high price of coffee affords an opportunity for unscrupulous dealers to place on the market coffee which has been adulterated with ground cereals, chicory or other substitutes, and which is sold to the unsuspecting public in unlabeled containers. Several complaints as to substitutes flooding the market in different sections of the state have recently been received by the state board of health.

Missing Girl Found

A 15-year-old girl, who is said to have run away from her home in Fort Worth a few weeks ago, was found last week working in a restaurant in Amarillo. She was turned over to the juvenile authorities who made arrangements for her return home.

Mrs. A. H. Doucette and her sister, Miss Louella Lefors, have returned to Pampa after spending several days in Wichita, Kans.

**Insurance Firm
In New Building**

Fraser & Upton, who recently purchased the Studer & Studer insurance business, have moved their offices from the ground floor of the White Deer Land Co., building to the new Sharp building.

W. T. Fraser, son of John Fraser of Gray County, is one of the owners of the business. He was in the home office of the Fidelity Union Fire Insurance Co., at Dallas, as also was W. C. Upton, the other member of the firm.

Oil Official Dies.

Charles W. Day of the Tittle Oil Co. died at 6:30 o'clock Tuesday morning at the Canadian hospital. Death was due to acute appendicitis. The body was sent to Tulsa, Okla., for burial.

Must Report Certain Cases.

"All communicable disease cases must be reported to the county health officer," said Dr. V. E. von Brunow this week. "Some of our doctors have been lax along this line, and there should be more cooperation in reporting these cases."

May Broadcast Returns.

Wade's Store will broadcast returns of the Dempsey-Tunney bout Thursday night, if weather conditions are favorable, said Wade Duncan, proprietor, early this week.

Louis Cox was in Amarillo on business last week.

The keynote to the political campaigns is generally "dough".

Burning the midnight oil is more expensive than it once was.

Some men, when they are down, blame the law of gravitation.

It's possible that the oldest families may have the biggest skeletons.

Many a gardner has sworn he'll never raise another one.

They say love is blind, doubtless due to reading love letters.

The men at the top are at the bottom of a lot of things.

It is hoped that every woman with two children will not think she can swim the English channel because one did.

America alone can save the world, says Lloyd George. But the fate of a reformer is about the same as a peacemaker in a family fight.

COMMERCIAL SPORTS

Some complaint is heard about the commercializing of sports. Two women who recently swam the English channel are reported to have offers which will make them rich. Suzanne Lenglen, credited with being the woman tennis champion of the world, will tour the United States as a professional on a contract calling for a big sum. The case of Red Grange, Illinois football star, was the first one to focus the attention of the public on the question.

There is some doubt about whether criticism of any athlete who tries to profit from his or her athletic ability is just. There are still plenty of young men and women in this country who will follow sports for the love of it.

As long as the public is willing to pay, professional sports will flourish. There is no more reason why a tennis player or a football player should not get some financial return, than that baseball players or prize fighters should receive fabulous sums for entertaining the public.

The question resolves itself into one of public demand. If it continues to exist and people are willing to pay them, professional athletes are as much within their rights as any who get paid for public entertainments.

HERE'S OUR DUTY!

Citizens of Pampa—newcomers—old timers! Have you ever stopped to think of the future of your home town? Have you ever talked to the sincere, deep-thinking individuals who thus far made Pampa what it is? Realize the situation. Don't merely gaze upon the past. Investigate the present and then carefully figure the future.

A second Tulsa! The city that is now looked upon as having grown over night. But it took hard work and forethought to build Tulsa. The people who were there a few years ago when it was in the midst of its growth will readily testify to that.

Here's our duty, the creation of a city. The fundamental principles on which it is built will never die. We are the foundation for a great project. Let's co-operate so that each may carry a proportionate part of the load.

Refineries! Factories! Nothing but encouragement can be extended to those who might anticipate launching them in Pampa. Let's stimulate an interest that will create a business from which the masses can derive a livelihood.

Let's go, citizens. There's no limit for Pampa.

SLEEP TO AWAKEN

Dust is returning to the chairs in the court room.

For a few short weeks it returned to life. The dust was brushed away and the seats were filled with eager expectant people. The old silver horn that sat upon his majesty, the judge, of the court's desk was moved away. Pleas of lawyers echoed for a few short hours through the building. Juries sat and conferred and listened to the testimony of nervous witnesses. Occasionally a stream of tobacco juice was ejected into a convenient cuspidor. The court house returned to life and for a time it breathed and experienced all the emotions and feelings that are deepest in human life. Now it is becoming dormant, to sleep like the tree through the cold winter months, till the spring term of court.

Vacant walls echo as though offended at the trespassing of human beings upon its peaceful sleep. The wind offers a lullaby as solace as it softly whistles around the eaves.

What a similar picture life presents. For a day we live, we feel, we dream, then like the court room, we sleep for awhile that we may live again. Transient perhaps is life but magnificent in its service and complexity. Grim perhaps is death but peaceful is the sleep that comes after life. Greater than either of these, the awakening. Mystery, enchantment, love, are promised us as our eyes open on another day.

God has entrusted us with a great handiwork. Shall we betray the trust?

SURVEY OF TEXAS

Texas is the greatest producer of raw material of all the states. Oil, gas, coal and lignite are abundant in Texas thus making the fuel resources of the state equal to its resources in raw materials.

By the use of native fuels the power supply of Texas is adequate and efficient. It is capable of very good expansion and is being expanded to meet growing industrial needs.

The labor resources of Texas are diverse, and climatic conditions are conducive to industrial development.

Texas has excellent transportation, is well situated with reference to markets, and there is much Texas capital available for investment in Texas industries.

Joe Smith Says He Wouldn't Own Daily Newspaper

"A daily newspaper is one business that I wouldn't own," said Joe Smith Jr., former joint owner of The Pampa News. "If I had the money to equip a daily newspaper, I would ~~own~~ it, I certainly would not invest it in the publishing business."

"I worked on a daily at Rock Island, Ill., for several years. That paper had practically paid no dividends, although it had been in operation 50 years."

"A daily newspaper has lots of work—too much work—and I don't believe the rewards are worth the time and money. If Pampa depended on me for prospects of a daily newspaper, the city wouldn't get it."

USE A WANT AD

160 Acres Is Leased For \$1000 Per Acre

The Roxana Petroleum Co. has leased 80 acres of land in the southeast quarter of survey 106. This land joins that on which the Roxana Bryan No. 1 well is located. The 80 acres was leased from Jordan and Brown of Pampa for a consideration of \$1000 per acre.

Another 80 acres has also been leased from the same parties by the British-American Oil Co., whose headquarters are in Toronto, Canada. The consideration on this land was \$500 per acre in cash, and \$500 per acre to be paid in oil.

Miss Elsie Cobb has been appointed bookkeeper at the Pampa Gas Co. office. She succeeds Miss Bonnie Carr who has gone to Denton to enter the College of Industrial Arts.

RADIO NEWS STAND IS OPENED ADJOINING NEWS

The Radio News Stand has been opened in the building adjoining the News to the west. L. F. Williams and P. B. Carlson are the owners.

In addition to handling radio and equipment, the firm will have a news stand.

R. C. Latimer and R. D. Johnson of the Clarendon News motored to Pampa Sunday. They report the roads to be in good condition.

W. M. Craven, formerly of Shamrock, has moved to Pampa where he is making his home. He is connected with the Galbraith-Foxworth Lumber Co.

JONES-EVERETT MACHINE CO. HAS MODERN EQUIPMENT AND EIGHTEEN MEN WORKING HERE

Beginning as an employee in a machine shop in Dallas, M. W. Jones now has machine shops in several towns in Oklahoma and one here in Pampa. It is known as the Jones-Everett Machine Co.

He established his first business in Ardmore, Okla., in 1902. When the Hilden field in Oklahoma came in for oil production in 1913, he established a shop in Hilden which is still in operation.

Mr. Jones took as his partner, C. H. Everett, and the business was a partnership until 1919 when it was incorporated under the laws of Oklahoma with a capital stock of \$100,000. "We incorporated so that our employees might have an opportunity to own an interest in the business."

A shop was established in Dillard, Okla., in 1920. Three years later the equipment of the Dillard shop was moved to Graham, Oklahoma. This shop is still in operation.

In May of this year the company established a shop here in Pampa. The company bought out the Todd-Whitlock Equipment Co., of Ardmore in July, and some of that equipment was moved to the Pampa shop, while the rest was installed in the Ardmore Machine Shop.

The Jones-Everett Machine Company here has the latest model Lincoln arch welders, which are standard equipment in all of their shops. With these welders they can do any kind of welding and heavy forging.

A special tool patented by the Jones-Everett Co., is the J. & B. Casing Coupler. Many of these tools are sold to the Standard Oil Co., each year and are exported to many foreign countries. A complete line of well drilling and fishing tools are also manufactured by the company.

In addition to a well equipped shop for doing cable tool work, they have special equipment for straightening drill pipe. With their special machinery they are able to straighten double links without taking them apart. "This is a great saving," said Mr. Jones, "for the threads are very easily ruined when they are uncoupled."

A special hydraulic press is used for removing rotary drums from

shafts. The plant here has a complete set of grinders for grinding cylinder blocks and crank shafts. They also have a milling machine for making all kinds of gears.

A new building will be erected in the near future, according to Mr. Jones, and equipment for caring for automobile and tractor repairs will be installed. Men who have specialized in this branch of repair work will be placed in charge.

The company has machines here that will thread pipes from 44 to 15 1/2 inches in diameter. Larger pipe than this is threaded in a lathe. The man in charge of this department has had twelve years experience in this line of work. "We do pipe threading at any hour of the day or night," said Mr. Jones. "We have built a place nearby so that our workmen are attainable at all times."

A large stock of bar iron, steel, bolts, nuts, babbitt, bronze, smithering coal, oxygen, carbide, stay bolts turbo generators, pipe couplings and nipples are carried in stock here. A force of eighteen men are now employed in the Pampa plant, and more are to be added soon, according to Mr. Jones.

Mr. Jones and Mr. Everett each have four children. Mr. Everett makes his home in Ardmore, and Mr. Jones lives in Pampa.

METHODIST PRESIDING ELDER VISITS PAMPA

Rev. J. T. Griswold of Clarendon, presiding elder of the Clarendon district, was a visitor in Pampa Tuesday in behalf of his church work. He was accompanied by Mrs. Griswold.

Dr. Griswold said that he was expecting a real work to be done by the Pampa church during the coming year. He will hold his next quarterly conference at Pampa Oct. 10.

The presiding elder is completing his third year as head of this district. Previously he had spent two years as pastor of the Methodist church at Clarendon.

3 Switchboards Added to Local Phone Exchange

Three switchboards are being installed at the Pampa office of the Southwestern Bell Telephone Co., according to George H. Hill of Amarillo, district manager, who was in the city this week.

Every effort will be made to keep up with Pampa or even ahead of the city, Mr. Hill stated. Every bit of space available between Amarillo and Panhandle is now being used either by the Santa Fe Railway, Western Union or the telephone company, he said. It is probable that the phone line will be forced to build it sown pole line, he added.

More room will be available for the phone exchange when the addition to the First National Bank building is completed.

West Half Block 12 Within Fire District

The west half of block twelve of the city of Pampa was included within the fire district at a meeting of the city council Monday night. This section is on the extreme south side of the city.

Dr. Aticus Webb will make an address concerning the obedience of law at 11 o'clock Sunday morning at the Methodist church.

Mrs. Hobart Hostess To El Progreso Club

Mrs. Hobart Hostess El Progreso Club

The work of the El Progreso Club for the year was opened with a meeting at the home of Mrs. Hobart. The response to the roll call was very pleasing.

Talks by Mrs. Duncan, Mrs. Buckler and Mrs. Faulkner were especially interesting as they had all been out of the state. The constitution of the club was read for the benefit of the new members by Mrs. Fathree, Secretary.

The members paid their dues, and year books were distributed to each. After discussing several items of interest, the meeting was adjourned. The hostess assisted by her daughter, Mrs. Clyde Fathree, served a delicious lunch.

There's One in Every Club

"When I was in India," said the club bore. "I saw a tiger come down to the water where some women were washing clothes. It was a very fierce tiger, but one woman, with great presence of mind, splashed some water in its face—and it slunk away."

"Fellows," said one of the brothers in an armchair. "I can vouch for the truth of this story. Some minutes after the incident occurred I was coming down to the water. I met this tiger and in my habit, stroked his whiskers. Fellows those whiskers were wet."—Purple Cow.

Oklahoma Woman Is Struck By Car Here

Martha C. Carroll was knocked down by an automobile Tuesday evening when she was attempting to cross the street near the fire station. The front wheel of the car passed over her leg.

Mrs. Carroll was given medical attention at once, and her injuries, although painful, were found to be minor. Her home is in Wilson, Okla.

"People downstate are talking about Pampa," said Wade Duncan, who spent several days in Dallas last week. "When people learned I was from Pampa they wanted to learn more about this city, which is regarded as one of the liveliest places in the state."

The Maiden's Complaint

The young woman traveling with her stern-looking father evidently not in the best of health. She was decidedly pretty, but her cheeks were pale.

A kind—if inquisitive—passenger sitting opposite leaned forward and addressed the stern parent.

"Your daughter seems very ill," he remarked sympathetically.

"Yes," replied the father "it is an affection of the heart."

"Dear me! Aneurism?"

"Oh, no! Only a lieutenant in the Navy."—Pittsburgh Chronicle Telegraph.

Plans are being made whereby the students in the Pampa schools may write articles and have them printed in The News. Miss Whitey, head of the English department, will supervise the writing of the articles that will appear each week. An editor of each English class will be elected in the near future who will supervise the writing. The following articles were written by students:

Boost For Harvesters
Come on students and townspeople, the fight is on for the district championship. The Harvesters are out to win and nothing will stop them if the students and citizens of Pampa are on the side lines rooting for their home team.

The boys will put more vigor in the game if they know that their fellow students are behind them. It is only fair that the team receive our support from the side lines. It may sound funny to hear someone say, "Boosting is the main part of the game," but it is very helpful to the team to hear the cheers of those who they represent.

Coch Dickey is working hard with the team and Captain "Chuck" Lewter is doing his best to make his team a winning one. The support of the students and townspeople is necessary to make the team the best.

Come on out and fight for the Harvesters!

A Better School
An oil boom is said by some to be harmful to a town, but it is helpful in different ways. It helps a town by bringing new pupils into the school and helps financial matters of the town.

The new students that come into a town from some other part of the country bring new ideas and different methods of studying different subjects. They also bring new school songs and yells. The new students help in the athletics because some of them are good athletes.

When new students come in the school and make good grades, this causes the old students to try to make as good grades as the new students. When all the students strive to learn, then the school is a success.

—By Donald Zimmerman, (Soph.)

Not Enough Water
Teacher asked her class if they could compose a rhyme using the word "Nellie." Johnny Jones, being called upon, rose, much embarrassed and said, "There was a pretty little girl named Nellie, who fell in the water and wet her feet."
"Why Johnny! That doesn't rhyme."
"I know it don't. The water wasn't deep enough."

—Taos Valley News.

Mr. and Mrs. Charles Gull of McLean were visitors in Pampa last week-end.

More Teachers Are Elected; Equipment Added at Schools

Four new teachers were elected at a meeting of the school board last week. The new teachers are: Miss Wilma Pyron of Blossom, Texas; Miss Helen Dubois of Wichita Falls, Texas; Mrs. Floyd Hill of Oklahoma, Texas; and Mrs. George Harwell of Happy, Texas. All of these will teach in the high school. Four grade school teachers and another high school teacher will be selected in the near future. This will make a total of 41 teachers in the Pampa schools, according to R. C. Campbell, superintendent.

Several teacher's desks, student desks as well as other office and school-room equipment, has been installed. Some new swings and a giant slide have been added to the play-ground equipment.

More than 1100 children have applied for entrance to the schools, but 65 or 70 that were not yet seven years old have been turned back because of lack of room. Mr. Campbell says that these children will be notified and admitted as soon as available room is made. Two more two-room cottages will be started at once. Each room will accommodate 36 pupils, or 72 to a cottage.

Besides those regularly enrolled in the schools, there are ten older persons enrolled as special students. Their studies closely follow those of a business course.

Mr. and Mrs. Bee Everett of McLean visited friends here last week.

Clara Brown Leads Senior Class Here

Miss Clara Brown was elected president of the senior class of the Pampa high school last Friday. There are twenty-eight enrolled in the class this year.

The other officers that were elected are: Vice-president, Willard Daisy Dean; class reporter, Juanita Johns; secretary and treasurer, Fubright; sergeant-at-arms, Albert Lewter; class sponsor, Mr. Dial; father and mother sponsor, Mr. and Mrs. C. P. Buckler.

Mayor and Councilman of White Deer in Pampa

J. C. Jackson, mayor of White Deer, and W. J. Stubblefield, a member of the White Deer city council, were in Pampa Tuesday.

"Pampa is certainly growing," said Mr. Jackson, "there's plenty of prosperity in view for Pampa and White Deer."

"It looks like in the years to come that Pampa and White Deer will be practically continuous," said Mr. Stubblefield.

Diamond Shop Has Opened In Pampa

The Diamond Shop has opened a splendid store in the Fatheree Drug Store. This firm has been in Pampa for several months and believes in the future of Pampa.

In addition to handling all lines of jewelry, the firm also does guaranteed repairing and manufacturing of jewelry to order.

George A. Dye of the Wilcox Oil and Gas Co., Tulsa, Okla., has been spending a few days in Pampa.

DODGE BROTHERS MOTOR CARS

Eight Values of Football Given By High School Coach

Panhandle Herald:

R. H. Gay, head coach of this year's football team at the high school and former star half back for Texas A. and M., offers the following reasons why football is so valuable to young men:

"First, we have found it necessary to offer some inducement to young men to keep them in school. Every young man should have something in mind to follow as a life vocation by the time he reaches the high school age. But, we find under the present system of education that there are few at this age who really have a definite goal to reach. Most boys want a side line to show their manhood as they go along.

Compared With Game Life
 "Secondly, the game of football is played as the game of life. It is a character builder. Clean coaches strictly drill clean athletic into their players. The game of football is played fair and square and according to rules and if the athletic plays the game of football according to rules, he will play the game of life accordingly.

"Third, football retains the physical and mental side and the co-operation of the two to meet a crisis. A real athletic, who has fairly accepted his opportunities, thrown himself into the game and done more than his part never has any trouble finding a place in life. Football develops a mind that thinks quickly. It is necessary to visualize plays as they are called by the quarterback. Then in some instances it is necessary to shift as the signals are called. In this way the training on the football field develops speed in the thinking of the boy.

Develops Leaders
 "Fourth, football makes fighters out of cowards. Some boys are made cowards in their early boyhood days by being teased or laughed at. If he continues in his adolescence with the same class of boys, he might continue his cowardice. But, if he finds the game of football and loves it and becomes a winner, he will change from a coward to a leader for cowards cannot long be football players.
 "Fifth, football develops leaders.

A football man is not only a leader on the field, but is a leader in his school and in the activities that surround it. They are offered opportunities that are not afforded other boys in the same classes.

"Sixth, football develops self control. A player that loves the game, his school and his teammates has a desire to stay eligible. The player practices self control on the field when consulting his officials. He has a fear of being ineligible and studies harder.

Physical Development
 "Seventh, football serves as exercise. Every growing boy needs exercise in abundance. The boy that stays in school seven or eight hours daily needs to work his muscles if he intends to stay healthful. Most of the illness of students is attributed to lack of exercise.

"Finally, football takes away the desire for the use of tobacco and intoxicants. When a boy hits the ground charging hard, continually denies himself of these things and learns to stay away from them for awhile, he soon realizes that such evils are foolish and unnecessary."

Miss Lucille Burris Is Bride of Toy Johnson

Toy Johnson and Miss Lucille Burris were married Sunday morning at the study of the Rev. E. W. O'Malley in Amarillo. They departed Sunday afternoon for El Paso and other points west.

Mr. Johnson is the son of R. E. Johnson of Pampa. The bride is the daughter of Mrs. Cecil of Durham, Okla. Mr. and Mrs. Johnson will be at home in Pampa in about two weeks.

New Town Opens
 A new town, Amerada, was formerly open Saturday and Sunday. It is located about five miles south of Pampa. Lieut. C. H. Gray, aviator, performed with several stunts in the air on the opening day.

Steve Stevenson, special representative of the Western World, and Jack Cora, advertising and circulation manager for the same paper, were in Pampa for a few days last week.

Such a home of happiness and contentment is the fountain head of satisfaction and enjoyment with the entire family—the place of happy, healthy, thriving children and parents proud in their ownership and independence. You can own such a home in Pampa.

Plan every detail of it yourself and let us furnish the material.

White House Lbr. Co.

THE ORDINARY MAN

By DOUGLAS MALLOCH

I'M JUST a man like Bob or Ben,
Just plain and ordinary men—
The kind you see on trolley cars,
Of smoking seven-cent cigars
Because they rather hate to blow
The money for a ton, you know,
On just themselves—the kind you meet
In every crowd, on every street,
Who wear a thing a year or two
Because they like to make it "do."
(It leaves a little more to spend
For household needs, or home to send.)

I'm just a man like Bill or Dan,
A plain and ordinary man,
Who has a job downtown somewhere,
And does some task with so much care
They keep him at it year by year,
And say that he's "a fixture here."
But there's a day his name they note—
They call it "getting out the vote";
And then next morning he may read
Which fellows won, which parties lead,
(And realizes he's again
One of the ordinary men.)

The world is full of Ben and Bob,
Who have the ordinary job.
Their wives can tell you men who
made

More wealth, or had a better trade;
But all the ordinary man
Has done, it seems, or ever can,
Is just to raise some girls and boys,
And give them ordinary joys,
And keep a roof above their heads,
And put a Bible by their beds,
(Grow just the ordinary way,
In just the ordinary way.)
(© by McClure Newspaper Syndicate.)

The young lady across the way says
If people must smoke, why can't they
have sense enough to make sure that
the tobacco is thoroughly denatured
and rendered harmless first?
(© by McClure Newspaper Syndicate.)

SAWS
By Viola Brothers Shore

FOR THE GOOSE—

FOR some people it's hard to remem-
ber, in clear weather, that it's
gonna rain some day. And for some
it's hard to remember, when it's rain-
in', that it's bound to clear. And yet
everybody knows that both invariably
happen.

You never think you got too many
hats, too many parties or too many
kids. But sometimes the neighbors
do.

Tears is a sure sign of weakness.
But even tears, if well directed, is a
powerful kind of stren'th.

FOR THE GANDER—

Even people that wouldn't think of
tallin' you how to run your business
or bring up your children, 'll give you
a lotta good advice when you're build-
in' a fire.

You ain't got a very high opinion of
turkey the week after Thanksgivin'.

You can run better if you stop
arguin' and argue better if you stop
runnin'.

As Told by
Irvin S. Cobb

CAUSE AND EFFECT

IN A certain company of the Seventy-
seventh division, which was largely
made up of draft troops from New
York city, was an East side boy of
Irish antecedents with a pretty wit of
his own. In front of Chateau Thierry
a machine-gun bullet passed through
one of his knee joints. When he was
able to get about on crutches, a sur-
geon at the base hospital said to him
one day:

"Hogan, how far can you walk on
that leg now?"

"Well, sir," said Hogan, "I'm doin'
pretty well. I can hobble up to the
end of the ward and read the pre-
scriptions on the medicine bottles and
figure out the causes. Then I hobble
to the cemetery out here and read the
epitaphs and look at the effects."

THE WHY of SUPERSTITIONS

By H. IRVING KING

FRIDAY'S NOSEBLEED

IT BRINGS good luck to have the nosebleed on a Friday—especially in matters of love. This old superstition is a relic of Norse mythology and originates from the fact that Friday is named from the Norse goddess of love, who was confounded with another goddess of the same name—or of so nearly the same that it is not always certain which goddess is meant—who was the wife of Odin and was the bestower of good fortune. At any rate, Friday was dedicated to Freya who, among other things, was the goddess of abundance. Now the gods of the olden time, especially to the northern gods and goddesses, there was no more acceptable offering than blood. In high-vaulted and ancient temples on the Asian shores and on the hills of Greece votaries drew blood from their own bodies before the marble altars and human blood likewise flowed before the grim idols on wild Norwegian coasts and in the depths of Teutonic forests. So when one has the nosebleed on Friday it is, of course, the offering of one's blood to the great goddess to whom the day is dedicated. And such an offering might reasonably be expected to bring good luck. In the great world of shadows, the land of "superstition," there are not many things that one may safely do on a Friday, but he can have the nosebleed, and that with the most beneficial results. Freya's altars are no more, but human blood is still an acceptable offering to the goddess of Friday, as it was in long, dim centuries before the Viking keels found Vineland.

THE WHY of SUPERSTITIONS

By H. IRVING KING

THE OSIER-WITHE

TO CARRY about in your pocket an "osier-withe" will prevent people from telling lies about you. This superstition is quite common and is based entirely upon sympathetic magic. In some parts of the country a small willow with is used. Now a withie is a flexible twig which is used for binding something. By having this binding article about you you bind, by sympathetic magic, the tongue of the slanderer, as it were—you are armed against lies. For things associated in thought are associated in fact "according to primitive ideas." Among most, if not all, savage peoples there exists a similar or analogous custom the object of which is to curb the lying tongues of one's neighbors—for scandal flourishes even among the "gentle savage," and lying tongues still wag in wilderness and city in spite of all the osier-withes which have been carried in breech-cloths and breech-pockets for thousands of years. But from this prevalent affliction of being lied about the withie-carrier believes himself to be exempt and sympathetic magic is sympathetic magic. Beneath our thin crust of civilization it holds today subconsciously, a place in the minds of men which is astonishing.

THE WHY of SUPERSTITIONS

By H. IRVING KING

IN FRONT, OUT BACK

THAT going in a house at the front door and out by the back door brings strangers is a superstition practically universal in this country and Europe. Doors were most serious matters to the ancients and a decided tinge of superstition hung about them. Among the Romans, Janus, a most esteemed deity, was the god of doors. He was double-faced and, looking both ways, could watch the front and rear entrances. The door of his temple was opened only when there was war. At such times it was necessary to release his full influence to guard the entrances—the doorways—of the country. But our superstition that going in the front door and out at the back brings strangers is evidently a survival not from any mythology, but arises from an actual experience of our barbarian ancestors, an experience not infrequent even in our own day. A barbarian fleeing from the avengers of blood or of other deities of his tribe, and taking shelter in a friendly hut, would sneak out by the back way to the safety of the forest which he heard his pursuers approaching and the trackers, strangers to the owner of the hut, would trail him to the front door by which he had entered. If the hut had no back door—as was probable—the fugitive's necessity for avoiding observation impelled him to make one by going through the back of the building. In the middle ages, when houses generally had two doors, men were literally hunted and a fugitive going in at the front door of his friend's dwelling when literally "brought strangers" to perils.

Walter Cambern Succumbs Sept. 1

Funeral services for Walter Cambern, who died Wednesday Sept. 1, were held Thursday Sept. 2 at the Fairview cemetery. The Rev. James Todd Jr., conducted the services. The pall bearers were R. H. Joyce, Lee and Claud Ledrick, George Walstad, Sam MacDonald and Ben Lockhart. Walter Cambern was born December 8, 1883 about eighteen miles southwest of Ft. Worth. Nine years ago he came to Pampa as manager of the Joyce Landand Cattle Co. His ability to handle cattle was unsurpassed, and his death came at a time when his services were most needed. Besides his mother, Mrs. N. D. Cambern, he is survived by four

brothers: Wayne J. of Denver, Col.; Clarence J. of Ft. Worth; Dan of Millet and Athol of Pampa and one sister, Mrs. Wooten of Moran. The grave was decorated with many beautiful floral offerings.

In a car accident rolls-over he glided up to the filling station and called out, "Let's have some gas please!"

"How much you want?" asked the man in the stalls, eyeing the car admiringly. The motorist struck by a sudden thought, put his hand in his pocket. Thirty cents was all he had in his clothes.

"One gallon!" he sneered, "watch 're trying to do, wean it?" Everybody's Magazine.

Dr. W. Purviance and son, John, have gone to Dallas where John will enter the Southern Methodist University.

Mother's Cook Book

He came up smiling—used to say
He made his fortune that a way
He had had luck a plenty, too,
And settled down and fought her
through.
And every time he got a job,
He just took on a tighter hold,
Slipped back some when he tried to
climb,
But came up smilin' every time.

SEASONABLE FOODS

**A GOOD main dish for lunch-
eon is:**
Luncheon Eggs.

Wash and chop one-fourth of a pound of mushrooms, melt one tablespoonful of butter in a saucepan, add the mushrooms and stir until all the moisture has evaporated; add one tablespoonful of flour, blend well, then add one-half cupful of chicken stock, one-fourth of a teaspoonful of salt, and a little pepper, let cook two minutes. Cut into halves six hard-cooked eggs, remove the yolks and mix them with the mushroom sauce. Fill the eggs with this mixture and set them into a baking dish, surround with tomato sauce and heat thoroughly. Just before serving place a fillet of sardines on each stuffed egg. Serve from the baking dish.

Sour Cream Salad Dressing.

Whip the cupful of sour cream, add one tablespoonful of sugar, a teaspoonful of lemon juice and a dash of cayenne. Serve on sliced onions, lettuce, cucumbers or any other vegetables. On cabbage it is especially good.

Spread dry bread with butter, sprinkle with finely cut or grated cheese (a rich cheese that will not become stringy when heated), put layers into a baking dish until enough has been prepared to supply the family, cover with the following custard: One egg to a cupful of milk, with a pinch of salt. See that enough egg and milk is used to well soak and cover the bread. Bake in a slow oven and serve at once when the custard is set.

Sardine Salad.

Skin and bone a dozen sardines, add a cupful of mashed hard-cooked egg yolks, two tablespoonfuls each of chopped olives and celery, a pinch of dry mustard, and lemon juice to moisten. Mix and form into balls, roll in boiled rice. Arrange around a mound of stuffed olives and serve garnished with roses of mayonnaise.

THE WHY of SUPERSTITIONS

By H. IRVING KING

SHOE ON, SHOE OFF

IN SOME sections of the country they say that it is "bad luck" when putting on your shoes and stockings to completely dress one foot before beginning on the other. But in most places the superstition is that bad luck is brought on by having the left foot shod and the right foot bare; though there is a feeling among the superstitious that having one foot shod and one not, should, without reference to right or left, be avoided on general principles, even though right bare and left shod is the most orthodox form of the superstition.

The custom of having one foot bare and one shod at solemn or critical times existed from the dawn of history and many learned men have disputed over its significance. The fighting races of antiquity went, many of them, thus to battle. The oracle warned Pelias, king of Iolcus, to beware of the man with his left foot shod and his right foot bare and when Jason appeared thus attired Iolcus knew that the "Jig was up." On an ancient Greek vase is a picture of a man with his bare right foot on a sacrificial victim, his left foot shod and on the ground. When Dido was seduced by Aeneas and prepared her funeral pyre she appealed "to the gods and the stars" with her dress and hair loosened, one foot bare and one shod.

Professor Frazer of Cambridge thinks the explanation is to be sought in the belief in the magic virtue of herbs, which the ancients—as they say to this day—put in their shoes; and the learned Roman, Servius, in his commentary on Virgil, says that Dido went with one shoe off and one on in order that Aeneas might be entangled and herself released. But whatever the explanation it was practiced only at times of part or distress and it is that fact which has brought it down to our own day as a "bad luck" custom.

Child Progress Due To Physical Fitness Says State Officer

That physical fitness of children has much to do with their school progress as well as their ultimate success in life, is the opinion of Dr. H. O. Sappington, state health officer, who urges parents to see that condition before their entrance into their children are in good physical school.

"Bad eyesight, adenoids, diseased tonsils, decayed teeth, and other remediable physical defects should be corrected, as they are handicaps that prevent a child from keeping pace with other children who are free of such defects, imposing a hardship on the child as well as a tax on the community.

"Many hundreds of children in Texas fail each year to make their grades through no fault of their own, but because of some physical handicap. This entails a heavy economic loss, as it is estimated that it costs the state approximately \$50.00 for each child that repeats a grade. For the sake of all concerned, take your child to your family physician for a physical examination before the opening of school.

WHEN I WAS TWENTY-ONE

BY JOSEPH RAYE

At 21: Owen Davis Was Already a Playwright

AT THE age of twenty-one I was already writing plays and had decided that my aim in life was to continue doing just that.

"I was, however, still a student at Harvard then and did not leave college until I was twenty-nine. In the meantime I had married, so that I was well established for a professional career.—Owen Davis."

TODAY—Owen Davis is the phenomenon of the theatrical and literary world. Until a few years ago his reputation as dramatist was not high; he had written about a hundred plays, practically all of them melodramas and most of them thrillers of the good old ten-twenty-thirty days. He was the author of "Nellie, the Beautiful Cloak Model" and plays of a similar type without end. About fifty of them were produced by A. H. Woods, who began his producing career with these melodramas, and got them down to such a system that he used to print the posters—great glaring, lurid affairs depicting hair-raising climaxes—and then call in Owen Davis or Theodore Kramer, another melodramatic specialist, and tell them that he wanted a play to fit the posters. In two or three weeks the play was ready.

But suddenly Owen Davis wrote "Icebound," a purely literary production, a serious interpretation of life, and so arresting a picture of American life that it won the Pulitzer prize as the best American play of the year. "Icebound" came without warning. Only a year or two ago he had written "Forever After" for Alice Brady, a play of the typical Davis brand, and Broadway was astonished to put it mildly.

Since then Davis has written several other plays, all of them in his new style and he has won such acclamation as to be classed with Eugene O'Neill as one of this country's greatest playwrights.

(© by McClure Newspaper Syndicate.)

The Hotel Stenographer

"POOR EMILY," sighed the Hotel Stenographer, looking after a girl who had just left her desk.

"What's her trouble?" asked the House Detective.

"Second-handness," answered the girl. "She was born that way. Like being born a Chinaman, it's something you never get over."

"She was born a year after her brother Shamus and when she came into the world her people were kind of poor. She never had anything but second-hand clothes, second-hand toys, and a second-hand baby buggy."

"By the time she was old enough to go to school her big sister had finished a couple of grades ahead of her. She always wore her big sister's old clothes made over, used her big sister's school books and even her dolls were the ones her big sister had dragged around for a couple of years."

"When she was sixteen her sister turned into a beauty and left a trail of discarded lovers behind her. Emily felt left out of most of them. I always hoped she would marry before her sister, but it seemed they didn't do nothing when they were with Emily but tell how much she looked like her sister when she wore said sister's old clothes."

"About six months ago sister got married, leaving Emily all by herself. I had given up hopes of her marrying because she hadn't caught any of her sister's sweeties on the first bounce after she bounced 'em."

"She was here to tell me she is going to be married. She was entirely consistent, too; she's getting a second-hand husband and sister is going to give her her wedding dress to be married in. Properly to finish up the picture her second-hand husband should buy her a used car and she will be happy, I suppose."

(Copyright by the McClure Newspaper Syndicate, Inc.)

Why We Wanted Story

Editor—You bought a story of mine ten years ago for \$25.

Editor—Yes, but we haven't printed it yet.

Editor—Well, let me have it back for \$250. I've got a reputation now and don't want to spoil it.

Necessary

Novelist—My hero is a hard, stern man, with a strong face.

Editor—He needs it! In the first four chapters his face falls a dozen times.

Well, We and Clo—

First Student—I wonder how old Mrs. Jones is.

Second Student—Quite old, I imagine. They say she used to teach Cuzco.

Supreme Test

Howard—Are you sure that you really love Florence?

Frank—Absolutely, my boy. I've seen her bob done up in curl papers!

THIS IS CRIMSON CLOVER TIME

The best months for sowing crimson clover are August and September, the exacting date depending upon the condition of the soil. Unhulled seed give somewhat greater certainty of a stand than hulled seed.

The best protection against killing of the young plants by drought is the preparation of a fine, moist, and firmly compacted seed bed. Combinations of Crimson clover with oats, hairy vetch, or other fall sown forage crops give somewhat higher yields and surer stand than crimson clover alone. No insects trouble crimson clover seriously, and the only severe disease is the tem-rot, or wilt.

THOSE LOUSY HOGS

Hog lice, which are generally prevalent wherever hogs are raised,

cause considerable loss to the swine industry. This loss takes the form of increasing quantity of feed consumed per pound of gain, arrested in weight of fattening hogs. Only one species of lice commonly affects hogs, and this parasite obtains its food by puncturing the skin of the animal and sucking its blood. The lice can be eradicated by hand applications, spraying, and dipping. Dipping is the best method of applying treatment. Crude-petroleum and coal-tar-cresolite dips are effective remedies.

THE SHEEP'S CUD

When a sheep drops the cud, disease of the teeth or sore mouth may be looked for. In other cases it is due to acidity of the stomach or to inferior feed.

The contents of the stomach are nor-

mally returned to the mouth for mastication, but owing to acidity, bad taste, or to pain in chewing, the feed is dropped from the mouth. This accounts for quantities of half-chewed feed sometimes found on the ground. The mouth or teeth should be attended to if found diseased. Baking soda in from one to two teaspoonful doses will counteract excessive acidity of the stomach. A purgative, such as Epsom salt in 4-ounce doses, may be given. A good quality of feed should be provided.

Positively FREE ~ a week's washing

WITHOUT obligation or expense we will send a Maytag to your home and do a complete week's washing FREE.

This is the Maytag plan of selling—the Maytag must actually sell itself in service—it must make you want it, or you don't keep it.

Remember—there is no expense nor obligation—if the Maytag doesn't sell itself, don't keep it.
