

THE PAMPA NEWS

VOL. XIX

PAMPA, TEXAS, FRIDAY, DECEMBER 4, 1925

NO. 36

ITEMS OF INTEREST FROM OVER THE STATE

San Antonio—Frank Lopez is dead; Mrs. Concho Abriego is dying and a garage owner is in the city jail as the result of a fatal automobile accident on South Hackberry street Monday.

Wichita Falls.—Elbert B. West, 35, agent of the internal revenue department in Wichita Falls, was arrested Monday afternoon by city police on a bench warrant issued in the District of Columbia. A copy of a federal indictment, charging West with non-support of his wife, accompanied the warrant.

Austin—A fossilized elephant's tusk which measures nine feet four inches was uncovered by Dr. E. H. Sellards of the University of Texas Bureau of Economic Geology. The prehistoric animal died more than 25,000 years ago, according to geologists who have examined the tusk.

Cisco—Hurlled 50 yards by gas pressure in a main on which he and others were working near here, C. L. Walker sustained severe lacerations, the other workmen escaping with only minor bruises. The men were hurled like rocks for great distances.

Dallas.—As the result of a spending orgy enjoyed by a negro servant who flashed \$100 yellow-backs, federal officers were of the opinion Tuesday they have uncovered one of the cleverest gangs of counterfeiters who, carefully and discreetly, have been flooding the country with the "stuff."

Breckenridge.—Johnny Howard and Bill Edleman, prisoners in the county jail, Monday night effected an escape by sawing through the bars separating their cell from the stone wall of the prison and forcing the window bars aside.

Post.—A gin belonging to the Winder Gin Company, seven miles west of Post, was destroyed by fire early Sunday morning. It was one of the best gins in the county and to date had ginned 1,800 bales. The total loss was about \$24,000, partly covered by insurance.

Claude.—The first carload of turnips ever shipped from Claude was billed out by Theo Hughtel, who had just returned from Fort Worth, where he made a deal with a commission firm to take the car. These turnips were raised on one acre of land in the Hughtel lots near the old flour mill site. The way the turnips grew, he could have shipped out another carload from the same acre had he been able to find a market.

Lubbock.—Shipments of building materials, dry goods, groceries and other goods went out over the new Santa Fe branch line west from Lubbock to Loveland and Hildose Tuesday for the first time. The western portion of Lubbock's trade territory has been patiently awaiting the coming of the first train, which left here at noon Tuesday.

Fort Worth.—Amon G. Carter, chairman of the board of directors of the Texas Technological College, whose resignation was requested Monday by Gov. Miriam A. Ferguson, will not accede to her request, he announced in a formal letter to her and in a statement to the public issued here Tuesday afternoon. The letter and statement deny all the charges made by the Governor, and declare that this is an effort on the part of the Ferguson to divert attention from the highway disclosures.

FINED FOR KILLING DEER TOO YOUNG

Special Deputy Game Warden C. W. Turman went to Paduandale Wednesday to investigate reports of killing young deer. The investigation resulted in Henry Deahl being fined \$61.75 for killing a young deer on the Canadian river recently.

Last week Billy Post of Miami was arrested by Deputy Turman for the same offense, and will go to trial in the near future.

The law states that only bucks with pronged horns and at least two points may be killed during the open season, and those killing young deer are finding it a very expensive sport.

Advertising is an investment.

VERMILLION REMANDED TO JAIL FOR ROBBERY

At a preliminary hearing held at Claude Wednesday, P. W. Vermillion was remanded to jail without bond, to await the action of the grand jury.

Vermillion is charged with holding up the First National Bank at Claude, Saturday Nov. 28, at noon, when a lone bandit got away with over \$4,500 in currency.

Vermillion took the train out of here for Los Vegas, New Mexico, and on order of local officers, was arrested at Albuquerque Sunday afternoon.

At the hearing Wednesday Vermillion, who was an oil field worker, was identified by the cashier of the Claude bank as the man who robbed it. W. F. Bennett, a farmer of near Claude, also identified Vermillion as the man he had talked to shortly before the hold up, and stated that he saw him enter the bank about the time the robbery is said to have taken place.

Sheriff E. S. Graves, City Marshal John V. Andrews, W. P. Davis, J. E. Murfee, Tom Rose, Frank Davis, Tom Latta, Jesse Fletcher and others of this city were summoned to the hearing, but all of them were not required to testify as to their knowledge of Vermillion and his whereabouts and actions following the robbery.

SCHOOL NOTES

We wish to call the attention of the patrons to the compulsory attendance law in Texas. The law requires that all students between the ages of 7 and 14 years inclusive must attend school at least 100 days, which is five months. Due to the fact that so many children have had to work this fall, we have set that time to begin in this school system, the first Monday in December.

As it is impossible for us to see every boy personally, as we would like to do, we are also taking this means of calling their attention to the fact that they must attend school six months and pass in three courses if they are to be eligible to play football next year. To get in this amount of time it will be necessary for them to start immediately. Let's look ahead to future success and not wait for, but make, opportunity.

Due to the fact that there has been some general misunderstanding about the "demerit" system we are using, we wish also to make it clear just what we are trying to do, and what the system really is. First of all, the entire faculty voted to have a demerit system, at our first faculty meeting. Then after considering all of the workable plans that we had seen work in other school systems, we decided to use this one, which is practically what the schools of Dallas, Ft. Worth, San Antonio, Houston and many others are using, except that we do not take action upon as few demerits as these larger schools do.

First, we set the maximum number of demerits at 18, which is three more than they are allowed at Ft. Worth. Second, we decided that when a student received 15 of these, that he should be talked to in the office and warned in a friendly manner as to just what he was headed for, and his parents notified of his condition that we might receive their cooperation. Third, we picked out all of the common disturbing influences in our particular system and announced to the students that they would be penalized and to what extent. Of course we reserve the right to take care of unusual difficulties with our own good judgment and common sense. Fourth, each student is corrected orally, thus letting him or her know that they have received a demerit and then it is posted upon the bulletin board that each student may know just where he or she stands. Fifth, the record will be cleared at mid-term and they start over with a clean slate for the last term.

If a student gets the 15 demerits and is talked to in the office and the parents notified, and then the student gets the last three, they are brought to the office again, where they check in their books and are sent home, but not necessarily permanently. We hope most sincerely that it does not mean that for a single student. But at the same time we must be assured of their future proper conduct. To get this assurance we want to talk to over permanently with the parent, to get their point of view and their cooperation. We ask that they bring the student back, or come alone with.

(Continued on Page Six)

COMMERCIAL HATCHERY BEING INSTALLED HERE

A carload of incubators were unloaded in this city Tuesday by C. C. Dodd, to be used in his new commercial hatchery, which is being established in the building formerly occupied by the Pampa Confectionery on east side of Cuyler street.

The new hatchery, which will be known as Dodd's Hatchery, will be equipped with two mammoth incubators, with a total capacity of 24,200 eggs.

Mr. Dodd, who is an experienced poultry man, states that he expects to be ready to start the incubators about Dec. 22, and hopes by that time to be ready to start both units up in full force.

Commercial hatching has become an important business, and this new venture will doubtless prove an asset to the town, as many baby chicks will be shipped out to surrounding towns during the hatching season. Pampa citizens and farmers in this community should be elated at such a business starting up here, as it will be of much benefit to those in need of commercial hatching.

We predict a successful business for this new enterprise.

FAST SCHEDULE NOW IN EFFECT

Last Saturday night at midnight the new Santa Fe schedule went into effect, which materially changed the time of two of the trains on this division, and gives much faster service to and from California and Chicago.

No. 21 and 22 shortened the time between Chicago and Los Angeles six and one half hours, and No. 1 and 10 took ten and one-half hours from their running time between the two points.

Several changes were also made on the Sweetwater line out of Amarillo. The new schedule for Pampa is as follows:

No. 1 (westbound) 5:17 p. m.
No. 21 (westbound) 3:48 a. m.
No. 22 (eastbound) 4:57 p. m.
No. 10 (eastbound) 2:52 a. m.

The new schedule make the Santa Fe trains through here among the fastest being operated in the state.

GIN STILL RUNNING LONG HOURS DAILY

The local cotton had turned out 395 bales of cotton up to Thursday morning, and is running full time and considerable over time almost every day. Local buyers are paying 20 cents per pound for cotton at this time, and report about 35 bales of cotton from Mobeetie, in Wheeler county, marketed here Wednesday.

Notwithstanding the serious damage suffered from early freezes, cotton is making a fair yield here, ranging from one quarter to over half bale per acre.

According to B. L. Webb of this county, special agent of the Department of Commerce, bureau of census, there were 3,116 bales of cotton ginned in Gray county from the crop of 1925 prior to Nov. 14, 1925, as compared with 694 bales ginned Nov. 14, last year.

WILL PRINT LETTERS TO OLD SANTA CLAUS

Santa Claus is now the most popular public character, and will in all probability be elected with an overwhelming majority about the 25th of this month.

The little folks and some of the larger one are deeply interested in this amiable gentleman, and not a few letters are being written to him at this time. From now until Christmas The News will be glad to publish letters to Santa Claus, in order to help him out, as no doubt his mail is becoming quite burdensome.

Write to Santa and sign your name on the letter, then bring it or send it to the News office, and we will see that he gets it in plenty of time.

TRI-STATE POULTRY SHOW

The 5th annual Tri-State Poultry Show that is to be held at Amarillo, Dec. 3 to 8, from all indications will be one of the best poultry shows in the Southwest, both in quality and number of birds shown.

Miss Nellie Bird Richey spent the Thanksgiving holidays with her sister, Mrs. Will Braving, in the Carson-Hutchinson oil field.

OIL FIELD ACTIVITIES IN THIS LOCALITY

The Wilcox No. 2 producer was given a 100-quart shot of nitroglycerin Tuesday in order to try and increase the production. As is the usual custom when shot, the well bridged over, and is now being cleaned out in order to give it a test.

Tex Thornton, expert "soup" man of the U. S. Torpedo Co., shot the well.

The derrick for Wilcox No. 3 is almost completed and rigging up will begin soon. This location is 1300 feet west of No. 1, the discovery well.

Young & Patrick's No. 1 Byrum, in section 188 block 3, west of town, got gas at 2940 feet Monday, and Wednesday noon had some slight oil showings. This well is being drilled by Cady & Conners, standard drilling contractors. Mr. Cady stated Wednesday noon that it was looking good and they were very much encouraged over the prospects of getting a producer. This well is almost three northeast of the Tipton gas well, and is much lower on the structure, indicating that it may be setting in the right place to tap the oil.

Between three and four million feet of gas is now coming from the well from a total depth of about 3940. The gas has a strong sulphur odor, similar to that encountered in the Smith-Capers well in Hutchinson county.

The Empire Co. No. 1 Heltholt, section 152, is drilling around 800 feet with standard tools.

Phil Engel's Ledrick Bros. ranch test is shut down at 3921 feet, but it is believed that drilling will be resumed Monday or Tuesday. Showings continue in the well, which is an incentive to go on deeper. This is the deepest test yet drilled in this section of the field.

CROWD LARGER THAN EXPECTED

The Thanksgiving dinner served by the ladies of the Methodist church in the new church basement was a most decided success. Fully one hundred more persons attended than were expected, resulting in the supply of food running short.

Many compliments were expressed regarding the dinner, and especially the coffee, which was prepared by E. P. Johnson of Amarillo, a special representative of the Folger Coffee company. Mr. Johnson was kept busy and many returned their cups for a second helping. The ladies feel greatly indebted to the Folger company and doubly so to Mr. Johnson, not only for the excellent coffee, but for his untiring efforts in making it a success. Approximately, \$195 was taken in at the dinner.

GAS RATE REDUCED BY SHAMROCK COMPANY

A reduction in the rate for natural gas for domestic use from 75 cents to 60 cents per thousand cubic feet was announced by R. F. Holmes, secretary-treasurer of the Shamrock Gas Company. The new rate went into effect Dec. 1. The minimum charge of \$1.50 per month will remain the same.

The franchise granted the Shamrock Gas Company by the city specifies a 60 cent rate after 400 connections have been made. The company now has slightly more than 300 customers.

The principal reason for reducing the rate before the number of connections required by the franchise had been reached is the refusal of the city council to grant a franchise to the Miller Gas Company of Pittsburgh, Pa.

GAS COMPANY STILL MAKING CONNECTIONS

W. L. Woodward of the Pampa Gas Company, states that they now have 125 gas meters connected up, and are still running service lines, but are not as crowded as was the case for the first month.

With weather being November-like, it is expected that business for the gas men will "pick up."

Those who have been using the gas since its inception Oct. 29 are loud in their praise of this nature's favorite fuel, and would not return to the use of coal under any circumstances if it could be avoided.

NEXT LYCEUM NUMBER A CHINESE OPERATTA

The second number of the Home Talent Lyceum, under the auspices of the Parent-Teacher Association, will be presented at the high school auditorium Friday night, Dec. 11.

The title of this number, which is a Chinese operatta, is "Crimson Eyebrows." It consists of a delightful love story as well as having plenty of humor. The stage settings and costumes are said to elaborate.

Mrs. Tom Rose, Mrs. Carson Loftus and Miss Leila Rorex are in charge, and they, together with those taking part, have been working diligently on the program for some time.

The leading characters of the play are as follows:

Princess Ting-Ling Miss Rorex
Wang (the usurper) B. Q. Green
Star-Eye Roy Johnson
Ah-Me Miss Richey
Hing-Lee Alex Rainourd
Pen, Fanchong DeLea Vicars
Buddha Mrs. Stowell
Neptune Dude Bathrope

The chorus consists of 11 girls and four men.

Reserve seats will be on sale Friday and Saturday of this week at the Patheux Drug store.

ENGLISH CLASS THEME

(By Bonnie Carr, English IV)

Naming the Baby

"Sweetest I'll feller everybody knows, don't know what to call him but he's mighty lak' a rose." This was the topic which confronted the entire neighborhood; the Jones family had a new baby and there was not a single title which seemed to fit the wee newcomer. Mrs. Jones wished to call him "Samuel Ebenezer" for her great grandfather, while Mr. Jones insisted that he be named "Cornelius Algeron." Big sister declared that she would not wash another dish in the Jones domain if the child were not named "Thackery Orangeblissom."

Then the neighbors took a hand, Miss Lucinda Perkins, the old maid of the village, said that the little darling must be named "Percival Archibald" because that was the name under which her first, last and only love had suffered. The positive nod of her head indicated that her decision was a final one.

A messenger arrived with a message from "dear" Aunt Eue Ella Clark. The message read as follows: "For goodness sake give him a sensible name. Call him Josiah."

Widow Snodgrass went to see the baby and her first words were: "Oh, he looks exactly like little Moses! Why don't you call him that?" Then Pa Jones arose and strongly voiced his objection. He stated that he had fond hopes of his son's becoming president of the United States, and that if he were named for some great Bible character he would probably be a preacher.

Now to make a long story short, the three-year-old daughter of the Jones' began shrieking so loud that the neighbors became alarmed. When asked to explain her trouble she sobbed that she wanted the baby to be called "Bruvver." Now as you know a woman's tears will drive anyone to almost anything, and so "Bruvver" he is to this very day. It's a queer life, isn't it?

HAYHOOK RANCH SOLD TO WICHITA

Last week George Theis of Wichita, Kan., purchased the American Cattle Co. ranch north of this city from Dr. Rickles and associates of Denver. This ranch, which has been commonly known as the "Hayhook ranch," lies about twelve miles north of Pampa, extending on toward the Canadian river, and comprises 47,000 acres.

The price paid by Mr. Theis was \$7.58 per acre, making a total of \$354,200 for the holdings.

The American Cattle Company has had no stock on the ranch for the past year or so, and it is not known whether or not the new owner will stock up the place.

MAY FETE NOTICE

Everyone who is on the Gray County May Fete committee please meet at the LeFors school building Dec. 5, at 1:30 p. m. We have important business and every member must be there.

MARY ROSE TURCOTTE, Chairman.

KANSAS CITY LIVE STOCK MARKET

CHAS. M. PIPKIN, Market Correspondent

Kansas City Stock Yards—Though some weakness was evident at the start the trade in fat cattle later was active and in the average fully steady. Stockers and feeders were strong to slightly higher. Receipts here were moderate, but Chicago had the largest supply of fed cattle since last spring and quoted a 25 cent decline. That market will continue to get large supplies through December. Hogs were 10 to 25 cents lower, rounding out a six day period of sagging prices. Lambs were in active demand and fully 75 cents higher than a week ago.

Monday's Receipts
Receipts Monday were 19,000 cattle, 10,000 hogs, and 6,000 sheep, compared with 20,000 cattle, 7,500 hogs, and 3,000 sheep a week ago, and 23,400 cattle, 9,525 hogs, and 5,000 sheep a year ago.

Beef Cattle

Steady prices prevailed for fat steers. At the outset there was some weakness in bids; but later there was a free movement over the scales and prices were well in line with last week's average. The bulk of the fed steers sold at \$8.25 to \$9.75. The better grades brought \$10 to \$11. Some steers fed cotton seed cake on grass brought \$7.50 to \$8.50 and practically no straight grass fat steers arrived. Chicago received 30,000 cattle, the bulk being short fed steers. Prices there were quoted 25 to 35 cents lower. Here butcher classes were fully steady and a close clearance was made. The runs of range cows are over and killers are finding current receipts short of requirements. The bulk of the cows sold at \$4.50 to \$6.50. Fed heifers brought \$7 to \$9.50. Veal calves were stronger, best light light weights selling at \$9.50 to \$10.

Stockers and Feeders

Trade in stockers and feeders remained active. Prices were quoted strong to 15 cents higher. Good weather has been a material factor in maintaining demand. The bulk of the good stockers and feeders is coming from Texas.

Hogs

Hog prices Monday were down 10 to 20 cents. This decline took the general market 35 to 40 cents under a week ago. The top price was \$11.40 paid for light lights. The bulk of the offerings sold at \$11 to \$11.20. Packing sows sold at \$9.75 to \$10.25; pigs \$8.50 to \$8.85; stock hogs and pigs \$11.25 to \$11.75. Chicago had 65,000 hogs Monday and expected 48,000 Tuesday. Other markets had moderate runs, but the Chicago situation will probably force further declines before the week end. Local prices are relatively higher than Chicago.

Sheep and Lambs

Lambs are 75 cents higher and sheep 50 cents above a week ago. Choice fat lambs are \$11 to \$12.25; good lambs \$11.85 to \$12; and plain to fair ewes \$7.50 to \$8.

Horses and Mules

Good horses and mules remain in active demand at firm prices, but the plainer kinds sell slowly.

HEALTH ASSOCIATION DOING GREAT WORK

Austin, Texas.—J. W. Butler, Galveston, president of the Texas Public Health Association in a recent statement said that this organization had reached over 170,000 people personally with a health message. This is extensive of the large centers of population.

A large amount of work was done among the school children. Nearly 8,000 were given a complete physical examination and 4,000 children were taught health habits through the Modern Health Crusade. This is a system that teaches health by having the children do the things that will help improve their health.

Nearly a quarter million pieces of health literature was distributed. A lecture and a health lecture worked among members of their work. Joint work was also carried on with other health agencies.

Mr. Butler further stated that it was estimated that there was at present 72,000 active cases of tuberculosis in Texas. The work of the Texas Public Health Association is entirely financed by the sale of Tuberculosis seals and the entire proceeds are used to fight preventable disease.

Friday and Saturday are Double Green Stamp days at Murfee's.

ADVERTISING RATES—Local readers, when run among personals, 10¢ per line; classified ads, 1¢ per word, each insertion. Display advertising rates upon request.

We are coming to the place where a President must make a speaking tour in order to force somebody's resignation.

Government inefficiency is astounding. The mints are making more nickels and dimes, when what we need are more dollars.

The man who says he runs things at his own house is probably referring to the furnace and the vacuum cleaner.

As the number of people who are willing to become poor—quick grows less, the number of people who will get rich quick likewise diminishes.

Educators claim that children of today can read as well as most adults could a generation back. That probably explains why some daily papers have such tremendous circulations.

Probably some of the people who have much to say about the foreign countries funding their debts, have very little to say about paying their own.

No doubt but that we are enjoying the best business year since 1920. But the farm problem is not yet entirely solved. A 3,000,000,000-bushel crop of corn, the production cost of which was 75 cents a bushel, will probably go onto the market for 50 cents a bushel or less. It is the old story—a bumper crop and a glutted market. There is much truth in a remark we once heard a farmer make: "When prices are good the farmer has little to sell—when crops are good the farmer gets little for what he has to sell." But this condition—like the poor and taxes—we shall always have with us. No body of law makers in the world can repeal the economic law of supply and demand. A very small surplus means a tremendous drop in market prices, and a very small shortage means a sharp incline in markets. Unfortunately the farmer has little control over agricultural production. The manufacturer can lay off some of his men and reduce the volume of his output when he finds markets slow, but the farmer cannot stop good corn growing weather, even if he wanted to do it.

Among Our Exchanges

Claude News: Now that 52 members of the house have signed a petition asking that a special session of the Legislature convene, two more than are necessary for the call, we wonder what Governor Miriam A. Ferguson, who so strenuously opposed this meeting, will do about it. It seems that every time Ma opens her mouth she gets her foot into it.

Higgins News: Towns and cities do not "grow" like Topsy. They are the product of human endeavor, of initiative, of perseverance, a desire to do something and get somewhere. And the idea that the good Lord will take care of the shiftless and do-nothings is a very erroneous one. The town that gets anywhere must dig, must do, must dare, must get out of the beaten track, must be ever and eternally at it. To do otherwise is to stagnate and decline.

Randall County News: It was a clear-cut victory for Attorney General Dan Moody, when he secured a plea of guilt from the American Road Co., and secured a return to the state of \$600,000 in excess profits. Some people feared that Moody was jumping into a battle in which he would entirely lose out, but the Attorney General seemed to be perfectly sure of himself all the way through. This saving of \$600,000 was merely a pittance as to the real amount of money that would have been obtained by this so-called "road company" had not Moody stopped its operations.

Friona Star: We don't wish to try to tell any man or woman in Friona their business or estate to them what they shall or shall not do, but if we know of any method by which they can do themselves a service and add materially to their happy state of mind, we surely will not withhold it from them. And to this end we wish to suggest that when the alluring mail order advertisements reach you—with their offering of something nice for Christmas, you go first to your home merchant and see if he can not supply you with just as good an article, or maybe better. If he hasn't got it see if he can't get it for you. Get his price if you wish and compare it with the mail order advertisement and see if quality considered, it is not to your advantage financially to buy at home. Of course if you can't get what you want at home then send away, but you will have the satisfied feeling of having done your duty to your neighbor and your home town. If there is an easier way of making your Christmas happy than buying at home we don't know it. Your home merchant is your neighbor and "Whatsoever ye would that men should do to you, do ye even so to them."

To Our Friends and Patrons: Owing to poor collections we are compelled to run on a strictly cash basis. Please keep this in mind and it will be appreciated. 324tc

CALIFORNIA LETTER

(From J. E. Vicars, 85 Hester Ave., San Jose, Calif.)
Just as I took my pencil in hand this morning to write this letter I heard the Mrs. calling from somewhere outside: "Jim, oh Jim." I got up and walked out in time to hear her say, "Don't you know it's time to plant the sweet peas? They should have been planted two or three weeks ago. Get the garden tools and let's plant 'em." And I said, "Yes, ma'am."

"Now," she says, "the directions for planting sweet peas are to dig a trench in well-prepared soil to a depth of about four inches, then plant your peas in the bottom of the trench and cover them to a depth of about one or one and one-half inches."

I said, "Yes, ma'am, but what will we do with the dirt that is left over and with the unfilled trench?" "Oh," she says, "we'll fill that in as the peas grow. Don't you see that is the sensible way to do it?"

And I says, "Yes, ma'am." Then we just kept finding one thing after another to do till we put in the whole day with plants and seeds and bulbs and the like. And so it is evening now; but if nothing happens, I shall finish this letter without further interruption.

Yesterday was Thanksgiving Day, which was observed in the usual manner; that is with church services, ball games, movies and good and plentiful dinners.

Our kind-hearted sheriff had bountiful dinners served both at the county hospital and the jail for all the inmates of these institutions. There being no county funds, for this purpose, he bore all the expense himself.

We had our election Tuesday in the Hester district which increased the area of San Jose about one-third and added about 15,000 more people to the city's population. There are only seven larger cities in California now, than San Jose, which comes next to Long Beach.

There is a possibility of Santa Clara County becoming an oil field soon. Leases have been procured in the last few days a few miles south of San Jose and an "imperial oil drilling rig" and standard combined with a capacity of drilling to a depth of 7,500 feet is in the freight yards now in San Jose, shipped to Alfred Tinally, a wealthy oil man of Los Angeles with an abundance of financial backing.

The Imperial is the latest complete perfected oil drilling rig and the third of its kind in the state. The derrick will have a 26 foot base and will be 126 feet high. There are three 70-horsepower steam boilers, the first of this type ever used in oil drilling. He has no stock for sale and asks no assistance from local men.

The leases provide that he must continue drilling until the entire field is developed with at least one well on each ten acres included in the lease.

WISE & BROWN

I do not know how deep he proposes to drill on these leases—certainly not 7,500 feet unless indications continue favorable to that depth. But no well so far has ever been drilled to that depth. The deepest oil well in the world is now located south of the Los Angeles city limits where the E. J. Miley Oil company has drilled a hole 7,422 feet, and 200 feet into producing oil sands.

Engineers had declared that such an achievement was next to impossible as the machinery could not stand of drilling at so great a depth. The previous deepest well is at Santa Fe Springs, where the Standard Oil Co. drilled to a depth of 7,200 feet two years ago. This well was abandoned.

In my last letter I said that crime had become so common as no longer to be considered news. Perhaps that is putting it a little strong; but there are two sides to almost everything. If there is much crime here, there is also much of goodness. Our churches are as well attended as in other cities of other states, and though we have no Sunday laws, the Sabbath is as well observed here as in other states.

We have 26 benevolences here that are supported wholly or in part from what is known as the community chest. A drive is put on each year to raise a fixed sum as a goal. This year it was fixed at \$161,000, and within three days it was oversubscribed by \$11,000. And all that does not include aid that is given by the churches, the Salvation Army and individuals.

San Jose is a beautiful city and a lovely place to live, but a very poor place to come to to find work. There are about two men here now for every

What the Neighbors Are Doing
Some neighbors who plan to build houses, And of course would have them look well, Came down to our yard and found it not hard To find one in which they would dwell. In turning the leaves of our plan books One lady was heard to observe, "This one is fine, but not just my kind—I prefer one that's not so superb." Then as they looked through the volumes, Their comment on this one and that, Brought fresh to our mind that we've every kind That a reasonable person might want. "This one," they said was so pretty; The next one was charming or smart; Another, a Southern colonial, Was plainly the best of the lot. The choice of homes offered surprised them— They each selected a plan, For at our yard we try very hard To help everyone that we can.

GET YOUR CAR READY FOR WINTER DRIVING

Prepare the car now against the coming of cold weather and be protected against any sudden drops in temperature, is the text of the warning broadcast by the Ford Motor Company to Ford car drivers in cold climates. To eliminate as far as possible the annoyances of winter driving, the service department of the company has outlined a set of simple precautions against freezing.

They are in brief:
 Add anti-freeze solution to radiator. Be discreet in use of choke. Conserve battery current.
 Drivers are cautioned against patent solutions for radiators of unknown formulas. The safest to use is denatured or wood alcohol. The amount of alcohol necessary to prevent freezing is given below, which includes all winter temperatures:

Alcohol 20 per cent, water 80 per cent, freezing point 13 above zero.
 Alcohol 30 per cent, water 70 per cent, freezing point 3 above zero.
 Alcohol 40 per cent, water 60 per cent, freezing point 20 below zero.

Fifty per cent alcohol, 50 per cent water, freezing point 34 below zero.
 Evaporation of the alcohol after the engine is warmed up may be considerably reduced by the addition of a small amount of glycerine, equal to about 10 per cent of the total capacity of the radiator.

Present-day gasoline does not vaporize readily in cold weather, starting necessitates use of the choke. Discretion should be used, however, because of the fact that the raw fuel sucked into the combustion chamber condenses and passes the piston rings into the crank case, making for oil dilution. Protect radiator with blanket or cover to minimize delay in the "warming up."

Care must be exercised to see that the battery is not discharged by long periods of cranking the engine. If the battery is allowed to stand idle in a discharged condition it will freeze. A table showing the freezing points follows:

Fully charged, 1300, 94 below zero.
 At 1270, 82 below zero.
 At 1250, 62 below zero.
 At 1230, 40 degrees below zero.
 At 1200 17 degrees below zero.
 At 1150, 5 degrees below zero.
 Inasmuch as winter driving exerts a greater drain upon the battery than summer driving, it is frequently the part of wisdom to have the charging rate of the generator setup to meet the added demand, especially if frequent stops and starts are made.

INCREASING HOME USE OF SOFT WHEAT FLOURS

It behooves the housewife to learn to tell the difference between hard wheat and soft wheat flours, and to know the particular use for which each is best adapted. She can then select a flour well suited to her needs, often at a distinct saving in price and to the benefit of local industry.

The increase in the production of baker's bread and in the use of machine mixers in the bakeshops has greatly increased the demand for hard wheat flours. Their higher gluten content gives them greater ability to absorb water and stand the severe punishment given the dough by power machinery. The result is that in many sections hard wheat flours command a higher price than soft wheat flours.

For many home uses soft wheat flours are just as good or better than the hard wheat product. It is easier to make tender cake and flaky pie crust with soft wheat flour. For thickening sauces, gravies, and the hundred and one other small household needs one kind is as good as another.

The housekeeper, however, sometimes has difficulty in telling what type of flour she is buying. The U. S. Department of Agriculture suggests the following simple tests for distinguishing hard wheat and soft wheat flours:

The flours from soft wheats have a velvety texture somewhat like corn starch, and those from hard wheat are usually more gritty, but it requires some experience and a fine sense of touch to detect this difference. Experts usually do it by taking a pinch of flour and rubbing it lightly between the thumb and third finger. Another way to tell is by squeezing a handful of it tightly and noticing whether as the hand is opened the flour remains in a mold and shows the impression of the fingers. In this test a hard wheat flour acts more like a powder and the molds break up more readily than that of a soft wheat flour. Weighing is still another measure used to distinguish hard-wheat flours from soft. A quart of hard wheat flour that has been sifted once, dipped lightly into the measure, and then leveled off, weighs about 16 or 17 ounces or even more. A quart of soft wheat flour sifted and measured in the same way weighs only about 14 or 15 ounces.

Reports are that \$25 worth of Bibles were recently stolen at Amarillo.

THE PASSING DAY

By WILL H. MAYES

(Former Dean Department of Journalism, University of Texas)

Rural School Graduation Exercises

Here is a suggestion that is worth much. It is not my idea, but came to me from Mrs. George R. Felter, county school superintendent of Travis County, and is not copyrighted. It was adopted unanimously by 70 teachers of rural schools when it was proposed in that county. It is merely to hold graduation exercises for all county schools at one time and at some central point in the county. It is a wonder that it has not been done before. Think what a crowd of happy county school graduates and still happier parents it will bring together, and with what pride each school will show to others its achievements of the year. Such a thing would not have been possible anywhere in Texas a few years ago, but good roads and automobiles make it altogether practical now.

Paganry and Pies

It is proposed to include in the exercises, which will continue all day, an impressive historical pageant, in which each school will have a part. Schools having bands will bring them along for single band and massed band concerts. There will be some speech-making, of course. There will be a big picnic dinner of fried chicken and homemade pies and such things. The children will be dressed in their best. They will proudly wear their school colors with the school names on armbands and hatbands. The delivery of diplomas will be impressive. Good-natured rivalry will exist between schools and the less ambitious will be stimulated to greater effort. It will be an event to inspire every child who sees it to strive for a coveted county school diploma and to make every parent eager to sacrifice, if need be, that the ambitions of their children may be gratified. There is plenty of time for this county to start such a movement.

The Headlight Law

It is stated that in some counties 90 per cent of the car owners have complied with the headlight law while in others 48 per cent have ignored it. That observance of the law increases

safety of night travel all agree, and it is also easily seen that the driver of a car with lights properly adjusted is at a disadvantage when meeting a car with lights out of adjustment, and is then in greater danger than if he were violating the law instead of observing it.

Public sentiment and public safety demand that this law be observed and that indifferent officers be invited to see that it is enforced. Observers of the law. Public officials owe it to them.

Confidence in Officials Weakened

Charges and counter-charges are made with such frequency in regard to State Highway transactions these days that weekly papers can hardly keep pace with them even if they should try. The average man hardly knows what to think under such conditions, for he can not be sure that he knows the facts on which to reach a conclusion. The questions now being most closely studied are: Is the State, of which we are every one a part, paying too much for maintaining its highways, in which we are all interested? If it is paying too much, to whom is his money going, and why? What can be done to prevent the waste of public monies and to insure efficiency in public officials? Will grand jury investigations and court actions or legislative inquiries secure best results?

Since the grand juries are already busy, the general feeling seems to be that before reaching any decisions

 SERVICE, QUALITY AND HONEST LEATHER

J. N. DEAN, Proprietor
 PAMPA, TEXAS

ourselves we should wait to learn what those bodies discover and decide to do. Then, if any further action seems necessary, Texans can "do-a-plenty." That is the conservative view of good citizenship.

Making the Streams Work

Down Cotulla way they have worked out preliminary plans for spending \$7,300,000 to make the Nueces river get to work in the interest of the valley instead of allowing its waters to go to waste. It is the same old story so much heard lately of conservation, irrigation and water power in the operation of manufacturing industries. This writer can't think hard in terms of millions, but he knows that it means that Texans are deciding Texas hasn't been doing all that it should have done with Nature's gifts, and that they must be no longer wasted, but used.

Deserves Compliments, But—

Although the Dallas News deserves all the compliments being paid it and reproduced in its columns, readers are beginning to wonder if it will get through publishing the nice things said about it on the occasion of its 40th anniversary before it has another birthday and has to start all over again.

What About the Quality

Some of the largest cities of Texas are quarreling about the number of people the census bureau is crediting them with having; all of them claiming more than the bureau found in them. Why complain of a little thing like that? I know some towns of a 1,000 or so people that are far more delightful living places than any of

By MRS. PHEBE K. WARNER
State's Greatest Asset

What is the greatest asset in Texas today? Is it her soil, her mines, her oil and gas wells, her ranches, her crops and livestock, her climate, her sunny skies and starlit nights? Is it her railroads and highways, her sea coast and rivers, her canyons and mountains and all her commerce added together?

No; it's none of these, although every one is great. Most of these things have been here a million years or more. But nothing ever happened in Texas until just a few hundred years ago. Nothing ever happened anywhere much until there was a home there and a baby in it. That's what makes a country great. Homes and children. A place to live and something to live for. That's the secret of all national development.

The greatest asset in Texas today is her homes and her children. Without them there would be no Texas. There would be only 172 million acres of bare earth here that would be of no financial value to anybody unless there were homes and children somewhere else to use it. Evidently that's all God made this beautiful earth for, Homes and Children. And it is a beautiful world. Texas is a beautiful world all by herself. Can you think of anything that is needed for a home and a child that Texas does not have? We could build a wall around Texas and live in it if it were necessary. But it is a lot better for the rest of the world as well as ourselves, not to do it.

But who would suffer most if such a thing were done? Texas or the outside world? Just think of the boots and shoes and clothes and blankets and food that the world would never have if somebody were to build a wall around Texas and shut everything in Texas in!

What's It All About

But why all this work and thought and food and clothing in Texas? The ultimate end of it all is and should be to produce the greatest generation of future citizens the world has ever known. And those future citizens are already here. They have already been born. Nearly two million of them is Texas' quota for the nation and in this Texas has surely gone over the top in bringing up her quota. It is our children. One million three hundred and forty-five thousand of them are of school age this very day. The others are the little tots not yet old enough to go to school. How many of us ever go off by ourselves and sit down in some quiet corner and try to think out our duty as a citizen of this State to all the two million children in it? Do you think very much of this kind of thinking has been done in the last hundred years? Somebody thought long years ago of all the children of the future or there would not be \$19,000,000 in our State treasury this year for the education of all these children. But those thinkers of the past are gone. Who is thinking for all the Texas children right now?

That \$19,000,000

Yes, that 19 million dollars will be divided democratically. But it is not nearly enough to do all that our children of this day need to have done. But there are a few folks thinking still of all the children of Texas. In fact, there are more thinkers in Texas today than ever before. And more than a hundred thousand of the children of our State. But there are over 50,000 who have organized themselves into a great body of mothers, fathers and teachers for the special purpose of thinking and working together for the welfare of every child in Texas.

Best Generation Ever

Now some folks think the children of today are the "awfullest" little scoundrels the world ever produced. That's a terrible slander on our grandparents and ourselves. For we are the parents of this generation of children and the Good Book says "By their faults ye shall know them." If the children of today are not the greatest generation of children the

world has ever known why aren't they? Here is a lot of room for argument. Perhaps as parents we have forgotten our greatest mission in the world. The greatest responsibility that ever overtook any man was that of becoming a father. How many men appreciate that fact? The greatest responsibility of any woman in this State is that of being a mother. How many of us appreciate that fact? How many of us, both men and women, be honest now, have made the welfare of our children our first concern in life? How many of us have ever felt any responsibility for the welfare and education of our neighbor's children? How many of us take an interest in the education of our renters' children? Are we willing to be taxed for a good school for the children on our farms when we have the means to send our own children somewhere else to school?

The children of all Texas is the greatest asset in our State. Upon them depends the future. That future is just a few years in the distance. Are we the three million adult citizens of this State using Texas in the very best way possible to prepare our two million children to fill our places more efficiently or are too many of us using Texas to gratify our own selfish ambitions regardless of the inalienable birth rights of our native-born children to life, liberty and the pursuit of happiness? What does the standard of our homes and our schools say? Don't blame the children. Remember whose they are.

WOULD TAKE OBEY OUT OF MARRIAGE CEREMONY

Why is it proposed to take the word "obey" out of the marriage service? In my judgment because modern society has lost all sense of proportion which lies at the foundation of the home, and in order to justify itself, which to accommodate the word of God to palliate the situation.

The idea that the word "obey" connotes servility is the heresy of modern parents and the schism of modern families. The word "obey" is limited always by the circumstances of its use. When a woman is asked to "obey" her husband, she does not lessen the glory of her womanhood. A family is a corporation, and either the man is the head of the family, or else it is presided over by a committee of two, which has no way of determining a majority vote except by the endurance test. It is now proposed to endorse a headless family in the interest of accommodating truth and prejudice. God made man to be the head of the family because it is his duty to provide and protect. The church exists to set forth ideals, not to justify the perversion of ideals.—Rev. P. I. Johnson.

We'll have a better country yet when everyone learns that equality of opportunity doesn't mean a chance to get a living without working for it.

DOINGS IN WEST TEXAS

Furnished by the West Texas Chamber of Commerce

Albany.—More than \$100,000 in new buildings are immediately planned for Albany, including the enlarged Russ-Webb garage, to one of the finest appointed in the oil district, and the new addition to the Presbyterian church.

Brownwood.—Howard Payne College, one of the largest denominational institutions in the Southwest, is now raising a \$250,000 endowment fund. Citizens of Brownwood have already subscribed \$90,000 of the desired amount.

Quanah.—According to information secured by the Quanah Tribune-Chief, this city shipped nearly 20,000 pounds of dressed turkeys to the New York market in three days just prior to Thanksgiving. One man in Quanah employed by a produce house here killed for shipment 1,054 turkeys in work \$54.

Plainview.—100,000 acres of wheat have so far been planted in Hale County according to estimates of the Harvest Queen Mills here. This represents an increase of 10 per cent over last year's plantings.

Lubbock.—So crowded are Lubbock schools that a bond issue is proposed for \$170,000 to build new structures and \$130,000 for additions and repairs to present structures. The enrollment in the Lubbock schools recently passed the 3,600 mark.

Tahoka.—Notwithstanding 30 new homes have recently been constructed here there is an acute house shortage and demand for many new residences.

Haskell.—The postal receipts of Haskell for the month of October

1925 were \$1,635.27 compared with \$1,073.46 the same month in 1924, making a net gain of 52 per cent.

Hereford.—W. M. Cogdell, owner of the Cordova Hotel has just let contract for the erection of a \$35,000 addition to his hotel and work will begin immediately. The addition will cover a space of 75 by 34 feet and is to be two stories high. The building will be steam heated and modern in every respect. This will greatly assist in solving Hereford's hotel problems.

Plainview.—In order to stimulate dairying in the South Plains, 3,000 dairy cows of standard average milking qualities will be imported into this region under the auspices of the local Chamber of Commerce.

Do you remember the hullabaloo about "The Jungle," Upton Sinclair's drama of the stock yards? The robust Theodore Roosevelt, moved by an aroused public conscience, sponsored a law establishing federal inspection of the meat packing business.

The Chicago packers were denounced as a wicked monopoly. Much was changed during these few years. The trust is no longer an ogre.

Strangest of all, however, is the conclusion of a group of Russian investigators sent to this country by the soviet government. Having inspected the Chicago Stock Yards the Bolshevik emissaries remarked that Russia needs something like it.

Here are the lion and the lamb, or the capitalist and the communist, dozing peacefully together. The explanation is simple. Whatever else the packers did, at least they learned how to feed a great nation.—Collier's Weekly.

Texas may get petticoat government fastened on it—a Dallas woman also wishes to be governor.

Too Much Scotch

One of Irving Cobb's best stories concerns an appraiser who was sent to a home to appraise the contents. The entries in the appraiser's book halted when he came to a table on which was a full bottle of old Scotch, and then continued:

"One bottle of old Scotch whisky partly full."
The next entry was: "One revolving Turkish rug."

The ways and means committee will have to disappoint a good many; all the taxes cannot be abolished.

Before Luther Burbank retires, he should make one last supreme effort at uncrossing the pumpkin and the cantaloupe.

A friend tells us he stays at home every night and listens to his wife or to the radio, whichever happens to be broadcasting.

The Finished Job Is The Only Standard By Which Achievement Is Measured

YOUR bank book will show if you are getting on.

The story of BIG DOINGS and BIG GETTINGS of men who have gone highest is the story of men who did not despise the day of small things—

- they had vision
- they had eyes in their minds
- they maintained a bank account.

After All the Range is the Oven

No one would think of buying a two-cylinder automobile when they could buy a four-cylinder car better made—more power—and with added conveniences for the same price. This is equally true of gas ranges, isn't it?

The reason that there is only one gas range on the market with the four-way circulating oven is because that method of heating the oven more quickly, evenly, with less gas, is patented.

There is no need of placing the baking on a higher rack to bake in this range. Don't you owe it to yourself to enjoy now these conveniences as well as proved economy? That's why our store is featuring the newest, finest range made by makers of Good Goods Only for more than a half century. There are two and a quarter million Round Oaks in use.

ROUND OAK GAS RANGES

We want you to actually see and examine this range

Revolutionary!

The front and back of oven bottom is cut away. By this new principle the oven is heated more quickly, uses less gas, and bakes top and bottom without shifting pans. Investigate!

Society and Clubs

BY MRS. JOE M. SMITH

Phone Local News and Society Items to No. 72

L. T. D. CLUB

Thanksgiving evening the members of the L. T. D. Club delightfully entertained their husbands at the J. N. Duncan home with Mrs. J. Wade Duncan as acting hostess. Forty-two was the favored diversion of the evening. Ladies high score was won by Mrs. W. E. Coffee and the men's high score went to Ralph Arnold. At a late hour delicious refreshments of sandwiches, fruit salad, pumpkin pie with whipped cream, and hot chocolate were served by Mesdames W. E. Coffee, Ralph Arnold and J. Wade Duncan, to the following: Messrs. and Mesdames Roger McConnell, Floyd McConnell, W. E. Coffee, S. C. Pearson, Raymond Harrah, Ewing Williams, Ralph Arnold, John Williams, J. Wade Duncan and Miss Freda Archer and Frank Catterton.

WAYSIDE CLUB

The Wayside Club met Tuesday with Mrs. F. J. Hudgel as hostess. Miss Ahmend gave a very interesting lecture on "Color in Costume and Interior Decorations." The five members and one visitor present were served delicious refreshments of sandwiches, pumpkin pie and hot chocolate.

PIE SUPPER

Wednesday night, Nov. 25 the members of the Home Service Club gave a pie supper at the Snowden Lake school house. They were assisted by Miss Jones, teacher of the school, and her pupils, who gave a splendid program. W. S. Paris auctioned the sale, which netted the neat sum of \$33.25, which will be used in purchasing improvements for the school building and yard.

BIG FOUR CLUB

Mrs. W. W. Merten was the charming hostess Friday afternoon to the Big Four Club. Mrs. Carson Loftus favored with several enjoyable readings and a Thanksgiving contest was held. Most of the afternoon hours were spent with needlework, and later delectable refreshments were served

Mesdames C. C. Dodd, Irvin Cole, Lewis Meers and the special guests of the club, Mesdames Horace McBea, DeLea Vlears, Carson Loftus, W. L. Woodward and Miss Parish of Connecticut.

FAREWELL DINNER

Mr. and Mrs. J. E. Seitz gave a farewell dinner Nov. 22 in honor of Rev. H. R. Whitley and family. Besides the Whitley family Misses Vera Cruz, Ruth Henry, Ethel Wilson and Jones Seitz and Ernest Medkief were present. Dinner was enjoyed, after which pictures were taken with which to remember the happy occasion.

HONORING DAUGHTER

Mrs. R. C. Campbell delightfully entertained a number of friends Friday night of last week in honor of her daughter, Mrs. Baxter Johnson of Crowell. Upon the arrival of the guests a musical program was rendered as follows:

Pianologue—Frances Campbell.
Solo—Christian Campbell.
Pianologue—Mrs. Baxter Johnson.
Piano solo—Mrs. Tom Rose.
Reading—Miss Lella Rorex.

These numbers were followed by several games of progressive forty-two, and at a late hour delicious refreshments were served. The guest personnel included Messrs. and Mesdames L. C. McMurtry, Tom Rose, Siler Faulkner, G. C. Walstad, A. R. Sawyer, R. B. Thompson, W. Purviance, C. T. Hunkapillar, C. P. Buckler, C. C. Cook, B. E. Finley, C. C. Dodd, Joe M. Smith, and Mrs. A. H. Doucette, Misses Rorex, Ahmend, Christine Campbell and Katharine Clark, the latter of Crowell, M. B. Q. Green and the honoree, Mrs. Johnson.

BAPTIST CIRCLES

Circles No. 2 and 3 of the Baptist church met Wednesday afternoon with Mrs. L. H. Greene, with Mrs. Jno. McKamy in charge of the devotion exercises and business session. Mrs. S. L. Anderson was the leader of the afternoon. These two circles are try-

ing to close the year's work by reviewing all the mission study books which has been taken up during the past year. Twelve members and three children were present. Next Wednesday the meeting will be held with Mrs. J. H. Ayres.

Circles No. 1 and 4 met Wednesday with Mrs. T. B. Solomon. Mrs. T. H. Barnard led the devotional and the lesson in Royal Service was conducted by Mrs. T. B. Solomon. This was followed by business session presided over by Mrs. T. W. Johnson. Eight members were present. Next Wednesday these circles will meet with Mrs. Fred Temple.

MISSIONARY SOCIETY

The W. M. S. of the Methodist church met Wednesday afternoon at the home of Mrs. B. J. Osborn for Bible study, which was led by Mrs. C. T. Nicholson. There will be no regular meeting next Wednesday on account of the revival meeting.

CHRISTIAN MISSIONARY

The Women's Missionary Society of the Christian church met Wednesday afternoon at the home of Mrs. Lee Banks, with Mrs. Hugh Isbell as leader. The subject was "Our Guests, the Children and the Aged." A very interesting discussion was entered into. At the conclusion of the program a social hour was enjoyed at which the hostess served dainty refreshments. Next month's meeting will be at the home of Mrs. Lee Ledrick.

A gift shoppe will be opened at the home of Mrs. Neal McCullough Saturday, Dec. 5. Hand made and hand painted articles suitable for Christmas presents, will be on display. Everyone cordially invited to call in and inspect the gift goods. 1tc

NOTICE TO TRAPPERS

I wish to announce that all trappers who trap for fur-bearing animals must have trapper's license. Such license only costs \$1.00, and no one should attempt to trap without them. The season includes all fur-bearing animals except coyotes.

E. R. TURMAN,
Special Deputy Warden.

AT THE METHODIST CHURCH

Sunday school at 9:45 a. m. Le Harrah, Superintendent.

H. Phillips and family spent Monday evening at the Jud Wilson home.

E. W. Hogan and family spent Thanksgiving evening at the J. E. Seltz home.

Mrs. L. R. Taylor's father from Oklahoma is visiting her.

BOX SUPPER WAS GRAND SUCCESS

The Farrington box-supper Saturday night was a decided success—from the auctioneer to the last penny.

A total of \$80 was taken in by the sale of 25 boxes, and more than that, every check and bill came in with a smile.

Guy Farrington, although an amateur at selling boxes, proved himself a true salesman. He smiled, they looked, he spoke and they bid. Out of the community people included several from Miami, Hoover, Laketon and Pampa.

The program consisted of a song from the Farrington Junior Glee Club, "Pack Up Your Troubles," and a reading given by Miss Josephine Lewis. After supper, "Wash Your Face and Jump Into Bed," was very effectively rendered by the Primary Glee Club, dressed in nighties and pajamas and carrying candles.

The proceeds from the sale are to be used in replenishing the school library, buying a drinking fountain and securing window shades.

FOR CHRISTMAS

Get wife or mother a New Singer Sewing Machine for Christmas. We have them in electric or treadle machines. See them at Garlach-Hopkins Merc. Co., Pampa. 1tp

I have moved my cream station and shoe shop to the first floor south of the Pampa Drug store. Bring me your cream and shoe work. C. E. Shelton. 24-2tc

Now that the league of nations has been so successful in preventing war in the Balkans, we suggest that it be given a real job—like settling our coal strike.

Young Wife Afraid to Eat Anything

"I was afraid to eat because I always had stomach trouble afterwards. Since taking Adlerika I can eat and feel fine." (signed) Mrs. A. Howard. One spoonful Adlerika removes gas and often brings surprising relief to the stomach. Stops that full, bloated feeling. Removes old waste matter from intestines and makes you feel happy and hungry. Excellent for obstinate constipation. Sold by all leading druggists. 1tc

Six Reasons Why

- 1—you should own a Willard Threaded Rubber Battery;
- 1—It has more power to start a stiff engine;
- 2—It requires less recharging;
- 3—It suffers less from overheating in summer;
- 4—It saves you a \$10 or \$12 bill for re-insulation;
- 5—It lasts much longer;
- 6—It gives more all-around satisfaction.

8-HOUR SERVICE

Keep your battery charged. Better lights, quicker starting; more power; better mileage; come from using our 8-hour charging service. Results guaranteed.

SCHOOL NOTES

(Continued From Page One)

er, to talk with us. We will in all probability be able to find some means of remedying the situation. The main thing is to understand each other and, still more, the student, that he may be properly dealt with, for justice to himself and the school as a social group.

In the main the system is working excellent. In every case where it has been brought to a test, (and only two have been sent home), we have received the unlimited co-operation of the parents, with the result that we now receive the co-operation of the student involved and they are still with us and doing good work. We trust that we may have the same results with any others whom we may have in the future.

With co-operation, peace and harmony, we may accomplish anything.

R. C. CAMPBELL, Supt.
B. Q. GREEN, Principal.

Indians on the Navajo Reservation in Arizona use prairie dogs for food, and consequently object to the usual methods of killing these pests by the distribution of poison baits. They are willing, however, to co-operate with Government and State officials in eradication campaigns carried on by running water down the prairie dog burrows after a heavy rain, forcing the rodents into the open, where they can be caught or killed.

The president was about the only person who Mitchell failed to have summoned as a witness.

CHRISTIAN CHURCH

The evening service will be suspended during the revival services at the Methodist church. All Christian people should manifest an interest in the special effort to strengthen the faith of Christians and reach the unsaved.

Bible school at 10 a. m. Departmental conferences at 9:45. Every superintendent and teacher should make a special effort to be in their conference.

Preaching at the 11 o'clock service. A portion of God's Word will be discussed that will be of interest to all. If you do not attend one of the other churches of Pampa we cordially invite you to attend these services.

JAMES TODD, Jr., Minister.

If it is true that our minds broadcast, there are a lot of silent stations.

The BULL'S EYE

Editor and General Manager
WILL ROGERS

Another "Bull" Durham advertisement by Will Rogers, signed "Folks and screen stars and leading American humorist, Mr. Rogers. Watch for them."

If You Want to Look Like This—Don't Smoke

You are going to be disappointed when you look at the face in this Advertisement. It will be such a shock from the type of Faces you always see in Advertisements. They generally get some Guys face to use in a Collar or Underwear Ad that looks like he was just born for that Ad. You never see him in real life or anything that ever looked like him. These "Bull" Durham people conceived the idea of something new. They felt that you were tired looking at such handsome faces in Ads, it was so discouraging to men who looked at them because they knew they could never look like these fellows themselves. So they wanted a homely face that would be an inspiration to other homely men, (because there is a terrible lot of hard looking Birds among you readers). So after looking the World over they picked on me. I don't smoke "Bull" Durham, so the Moral is IF YOU WILL SMOKE IT, YOU WILL NEVER LOOK LIKE ME. I am the horrible example of a man not using it.

Will Rogers

P. S. There is going to be another piece in this paper soon. Look for it.

Steel Eclipse Windmill
Runs in the Lightest Wind

Self-Oiling

THE Fairbanks-Morse Steel Eclipse Windmill is designed differently and built differently. It is the most advanced mill of the day. Working parts are few—mechanism is simple and enclosed in a dust-proof cast-iron case. No possible chance for dirt, snow or sleet to blow in and over the oil. Working parts and bearings of high quality materials drop-forged crankshaft with turned, ground and polished surfaces; finished worm gear and pinion with machine-cut teeth. Every part running in oil, with no chance for a growth of rust. A high-grade machine precision job throughout—no rough cast-iron gears used, as is common practice in many mills.

Simple, all-metal construction—built for a lifetime of service. Quick down-locks, slow lift means actual pumping you through the storm. Wheel is fitted to take advantage of lightest wind. Speed is self-regulating. Costs no more than the ordinary type of windmill. — Sizes 3 feet and larger.

Let us show you the many remarkable features of this windmill, or ask for latest descriptive literature. **SENT FREE** without obligation to you.

Other Fairbanks-Morse Products are

42" Engines, Home Water Pumps, Feed Grinders, Home Light and Power Plants, Washing Machines, Electric Motors, Power Pumps, Pump Jacks, Power Heads, etc.
