

MANY WELLS SHUT DOWN AT PAY SEVEN MEN ARE BURNED WHEN TANK EXPLODES

TRUCK DRIVER LIGHTED MATCH WHEN TANK WAS BEING FILLED; FIRE PUT OUT WITH CHEMICALS

Seven men were severely burned Monday night when the gasoline tank on a burning truck exploded. The men were all given medical treatment as soon as possible and are expected to recover.

Clayton Husted, employed at the American Filling Station No. 3, was filling the gasoline tank on an International truck when the driver struck a match and the fumes from the gasoline ignited. The truck was pushed away from the gasoline station and a small water hose was put into operation in an attempt to extinguish the fire. The hose was too short and several men were attempting to push the truck back nearer the station when the tank exploded and burned them.

The men burned are: Clayton Husted, Jack Killebrew, Willie Williams, W. C. Northcott, W. H. Thornburg, W. W. Goddard and L. G. Bancroft. All of the men were burned on the face and hands and one was severely burned on the legs and shoulders.

The fire department was notified and arrived at the scene of the fire but a few seconds after the gasoline tank exploded. The flames were extinguished with chemicals in a few minutes. The wiring and body of the truck was burned but the motor was not damaged. The truck is owned by the Gooch Contractors.

The driver of the truck was working with the light fuse on the dash of the truck and lighted a match in order to see. Husted, who was putting gasoline into the truck says he cautioned the driver but did not notice him in time to prevent the fire.

Some of the men who were burned are employed in the oil field south of town and the others are employed in town.

Chamber of Commerce Voters To Build Fence

Several members of the Chamber of Commerce met at the city hall Tuesday night and voted to build a fence on the Borger road where it passes through the property of Henry Schaffer. The property was donated to the organization some time ago for a road. The cars and trucks have killed several of Schaffer's cattle, so the Chamber of Commerce will fence the road so that the stock cannot get into the road.

Only a few members were present at the meeting Tuesday night. Plans for the re-organization of the Chamber of Commerce were discussed, and will probably take place in the near future.

Third City Water Well Is Completed

The third city water well has been completed and the new engine is being installed. The low water pressure Wednesday and Thursday was due to changes being made at the pumping station. "Pampa will have plenty of water pressure after 6 o'clock Friday evening," says M. A. Turner, city secretary.

The four-inch water mains at the pumping station are being replaced by six-inch mains. A new booster pump is being installed and the water service here is expected to be very satisfactory in a short time.

George and Loren Parviance of Pleasant Plains, Ill., were here visiting their cousin, Dr. W. Parviance, and family this week.

J. T. Crawford Sr., has gone to Dallas and from there he will go to California to spend the winter.

Mrs. George Walstead and children left Tuesday for Dallas to attend the fair.

Work On Duncan's Building Progressing

The new building owned by J. N. Duncan, located at the corner of Cuyler St., and Kingsmill Ave., will be completed by Dec. 1, according to Duncan. The building is 45 by 90 feet and two stories high.

The lower floor is divided into two parts, each of which will be rented to business houses, according to Duncan. The second floor will be divided into rooms which will be rented for offices. The new post office building adjoins this building on the rear and will face Kingsmill Ave., when completed. J. L. Nalley is contracting both of the buildings.

18 Arrests Sunday Makes Record Day In Sheriff's Office

Last Sunday, Oct. 17, was a record day in the sheriff's department. Eighteen arrests were made, which is the largest number that has been arrested in one day since Sheriff E. S. Graves has been in office. All of the arrests except two were made Sunday night.

Those arrested were charged with drunkenness and gaming. One man was arrested during the week and charged with forgery. He is being held in the city jail. He cashed one check at the People's Store drawn on J. H. Meyers and made payable to H. A. Shepherd. The sheriff and his deputies recovered all of the money except \$9 which had been spent. Another check drawn on L. C. Jones and made payable to J. C. Morrow for \$90 was found in his possession. He admitted that he had tried to cash this check also, according to Sheriff Graves.

Twelve other arrests were made during the past week. The charges filed were for drinking, gaming and disorderly conduct. No stolen cars were reported during the week.

PAMPA'S FIRST POST OFFICE BUILDING BEING REPLACED BY A MODERN \$60,000 STRUCTURE

Work on a new building at the corner of Cuyler St., and Foster Ave., was begun last week. It will be a two-story brick building, 50 by 100 feet, with a full basement. It is being built by Dr. V. E. Bruno and contracted by W. M. Turner.

The frame building which formerly stood at this corner has been moved back. The old building served as the post office here for many years. The main floor of the new building, when completed, will be occupied by a department store of the C. R. Anthony Stores Co. The second floor will be divided into apartments and offices.

The frame building that has been removed was also built by Dr. Brunow. In 1903 he drove into Pampa from Gainsville, Texas, in a buggy. He had been here but a short time when he hired a few men and began work on the building that is now being replaced. "I had to send to Amarillo to have the frames for the building made," says Dr. Brunow. "At that time there were only six buildings in Pampa."

As soon as the building was completed the post office was opened there and Dr. Brunow was made postmaster. A part of the building was used as a post office until 1915. Dr. Brunow was postmaster until 1912. He was succeeded by Miss Claudine Barnes who was postmaster until 1921 when W. A. Crawford,

Cobb Motor Co., To Move Into New Home

T. B. Cobb of the Cobb Motor Co., says that he expects to move his business into his new building located on Somerville St., between Foster and Atchinson Avenue within the next two or three weeks.

"My volume of business this year has been three times that of last year," says Cobb, "and I can see no reason to keep it from doubling next year."

The new garage building is being constructed of brick and tile. It will have floor space of 53 by 85 feet. Cobb has been in the garage business in Pampa for the past five years.

New Hotel And Two Garages Being Built In Block On Ballard

Three new buildings are under construction on Ballard Street between Foster and Kingsmill Avenue. The Adams Hotel building, which will contain seventy rooms when completed, is being built by Mrs. W. A. Adams of El Paso. Two garage buildings being built of brick and tile.

The hotel will be modern in every respect when completed. The lobby will be finished in old English, with a large open fireplace and a coat of arms. The coffee shop to be run in connection with the hotel will be colonial style. It is being equipped by Mrs. Florence Taylor of Miami, Fla. She has been in similar business in Florida for several years. The shop will give both counter and table service.

Several garages will be built at the rear of the hotel building to accommodate motorists who stop at the hotel. The hotel will maintain its own laundry.

The cost of the three buildings now under construction in this one block on Ballard Street is estimated at \$75,000.

OIL WELL TWO MILES NORTH OF LEFORS EXPECTED TO INCREASE GRAY COUNTY FIELD'S AVERAGE

Lack of storage and pipeline facilities is at present keeping the total production of oil in the Panhandle below its possible output. An estimate by oil authorities show that 132 wells are now shut down. Of this number, 100 wells are shut down at the top of the pay awaiting for arrangements to be made to care for the production.

The other wells have been shut down after being spudded or for casing a few hundred feet down. Twenty of the wells shut down are in Gray County, 75 in Hutchinson, 7 in Carson and 30 in all the other oil producing counties of the Panhandle. If the wells were all opened it is estimated that the production of the Panhandle would increase from 150,000 barrels to 200,000 barrels daily.

The Roxana Co. stopped drilling at 3000 to 3025 feet in their wildcat on the Finley land two miles north of LeFors with 900 feet of oil in the hole. They are awaiting further orders to continue drilling. This hole is being watched with particular interest by oil men. It is several miles from the nearest well and will, if it proves to be a good producer, open up a new link in Gray county's chain of wells.

The Sun Oil Co. is near the pay on two wells in this field, one of which is being delayed by a fishing job. The company's Worley-Reynolds No. 2 in section 83, block 3 is expected to come in soon. Drilling has passed the 3000 ft. mark, according to reports. The No. 1 well is fishing and the No. 4 well in section 82, block 3, Gray county is drilling near the 2400 ft. mark.

The Empire Gas and Fuel Company's Worley No. 1 which was shot last week is being cleaned out 100 ft. off bottom and is showing a good amount of production. The company's well in section 161, block 3, Gray county is nearing the pay. The Humble Oil Co. is getting an increase in the oil in the hole in their Worley-Reynolds No. 1. More than 900 feet of oil is now in the hole according to reports. This well is in section 83, block 3, Gray county. The 6 and five-eighths inch casing is being run in the company's Worley-Reynolds well at 2965 feet. Humble's Merten No. 1 in section 87, block 3, Gray county is drilling in a lime formation past 3050 feet.

The Phillips Petroleum Company has shot one of its wells in section 83, block 3, Gray county and showing for good results from another, according to reports. Their Merten No. 1 was showing a fair amount of oil before it was shot, but the 250-quart shot bridged it and it is being cleaned out. Their Merten No. 2 had 3000 feet of oil standing in the hole when it was drilling at 3170 feet.

The Magnolia Petroleum Co. has added production in two of their wells in Gray county after having been shot. Merten No. 4 is flowing 250 barrels a day after receiving a 210-quart shot placed at from 2872 to 2962 feet. Merten No. 11 is being cleaned out after it was shot with 60 quarts placed from 2996 to 3020 feet. The total depth of this well is 3150 feet. The well bridged when it was shot but is expected to come in for fair production when it is cleaned. Both of the company's Merten wells are located in section 82, block 3.

The Mound Valley Oil Co. has 20 million feet of gas in their well near White Deer according to A. M. "Bogus" Wilbanks, a stockholder in the company.

The Great Plains Petroleum Corporation has been incorporated under the Texas state laws listing five million shares of privately owned stock. The corporation, according to announcement, will begin drilling on two wells in Gray county within the next few days. One of the first wells will be started on the Rippey land, section 109, block 3.

Council Approves Ordinance Closing Railroad Crossing

An ordinance to close the crossing where Gillispie Avenue intersects the Santa Fe railroad tracks was approved by the city council at a meeting Monday night. The railway company is going to extend the loading platform further east so that the passenger trains can be stopped so as not to block the crossing on Cuyler St.

Another ordinance was approved to raise the water meter deposit from three to five dollars.

A sanitary ordinance was read before the council and was approved. The ordinance places restrictions on the manufacture and distribution of food to be used for human consumption. It also places restrictions on the operators of barber shops and beauty shops in caring for persons. Persons operating such places will be required to submit to a health certificate and obtain a permit from the city secretary to operate their business.

The ordinance to issue warrants for paving was discussed, and was laid over to the next meeting to be revised by the city attorney.

J. E. Murfee, Ike Lewis and A. J. Crocker were appointed on a committee to investigate the purchasing of a truck to be used in the city work. They will make recommendations at the next meeting.

The council voted to raise the salary of A. J. Crocker, superintendent of the water department, from \$165 to \$200 a month. The salary of his first assistant is to be raised from \$100 to \$125.

One plumber's and one electrician's bond, each for \$500, was approved. A motion carried to have a small restaurant located on Foster Ave. near Cuyler St. moved.

New Ware House Completed

G. C. Malone has just completed a new ware house near his No. 2 furniture store on the south side. The building is 24 by 70 feet. "With the new ware house and the one we now have we can keep seven car loads of furniture in stock," says Mr. Malone.

The Great Plains Company controls over 89,000 acres in Gray, Hutchinson, Carson, Wheeler, Hemphill and Roberts counties in Texas. The company is expecting to develop all their land as rapidly as possible.

The improved conditions of the roads between Pampa and the Gray county field south have allowed the transportation of supplies during the past week, and with continued fair weather and adequate storage facilities, the various companies expect to have the oil activities develop rapidly.

U. S. Officers Seize 300 Gallons Liquor In Borger Clean-up

Many citizens of Borger witnessed a spectacular raid last Friday that was not common to the usual method of clean-up of a city of 20,000. Without a word of warning ten deputy United States marshals and federal prohibition agents led by United States Marshal Sam Gross of Dallas appeared on the streets armed with riot guns and search warrants.

With lightning-like action the officers forced entrance into "soft drink parlors," "domino parlors," etc., and uncovered the stocks of liquor and beer. Several of the officials had visited in town before and bought "some evidence" so that the warrants could be obtained. The raiding officers worked so fast that there was but little, if any chance for escape by the bootleggers.

More than 300 gallons of liquor and 5,000 bottles of beer were seized, slot machines were destroyed, padlocks dawning the doors of several business houses, and three automobiles loaded with prisoners were the outstanding results of the carefully planned raid. With this much accomplished, the officers say that only the first step in the clean-up has been taken. What they will do next will no doubt be done without warning.

The prisoners were taken to Amarillo and placed in the Potter county jail. Two federal narcotic agents were also in town and their plans will probably develop from what they found on their journey. The business houses that were padlocked will remain closed for a year and a day under the injunction orders that were placed on the operators.

Pampa Holds Pan- handle Team To Scoreless Tie

The Pampa High School football team held the Panhandle team to a scoreless tie in a fast game here last Friday. Most of the play was in neutral quarters, each team approaching the other's goal only at times.

Coach Verde Dickey and Oscar Dial are figuring on a game with the Wheeler High School team here this Friday. "Our team is doing fine," says Dial, "considering that we have but three experienced men in our line up. I believe that after they have played together a little more they will prove to be strong."

Childress to Have Street Lights

Construction work is now under way in Childress on a new residence lighting system. One hundred street lights will be installed in the residence district and in the business section each street intersection will be illuminated.

Most people will admit that you are right if you agree with them.

Now that the baseball season is over the grandma death rate will decrease.

"When a body meets a body coming through the rye," it's usually a sheriff and a bootlegger.

There's a great deal of good in the worst of us that hardly any of us notice about the rest of us.

Most all men would be glad to tip their hats to the women if they were not bald.

There are lots of men who haven't enough curiosity to wonder whether it is a boy or girl.

"Youth must be served," said Grover Cleveland Alexander as he whiffed three fast ones past Tony Lazzeri.

Life is one paradox after another. Women demand that they be treated as such but go around in boyish bobs and tom boy skirts.

Texas is now the leading oil state, producing 601,451 barrels a day to 600,000 for California and 467,110 for Oklahoma in September.

Thirty Coleman County girls who have never before cared for yards have this year grown beautiful flowers as part of their club work.

An electric bricklaying machine that has been recently invented is claimed to have a laying capacity of 1,200 bricks an hour.

HUMAN LIVES AT STAKE!

Firemen are usually aided in every possible way when they are risking their lives to save life and property, but there are times when some few apparently try to make the firemen's work as hazardous as possible.

Monday night a truck caught fire in the east part of town and the fire alarm was turned in. In a few seconds the fire chief was at the wheel and three volunteer firemen were on the truck. These men were taking a risk for which they would receive nothing except the knowledge of doing their duty.

Before the fire truck reached the main street only a block away an automobile pulled in front and a wreck was miraculously avoided. At the end of another block the firemen were everything but hurled from the truck when a ditch was crossed that had not been properly filled.

The next few blocks were covered without trouble. As the fire truck traveled toward the scene of the fire at a fast, yet reasonable pace for all purposes of its kind, an open, dangerous, poorly lighted ditch across the main highway was encountered. The fire truck crashed into the ditch. Two of the men saw the ditch in time to jump, only to be skinned and bruised; the driver was barely able to stay in the seat by holding to the steering wheel; another man on the rear platform was hurled to the ground.

Yes, the firemen reached the fire, and but one of those who started with the truck were able to help after arriving.

Kerosene is inexpensive; it is practically worthless when human lives are at stake. Instead of placing two dim lanterns at the end of a ditch, place them near the dangerous part. Probably a human life will educate the automobile drivers to hesitate a moment and let the fire truck have a clear passage.

THE MAIN INGREDIENT

Of all newspaper stories recently published the tragic tale concerning the death of the mother of Roger Hornsby, manager of the St. Louis Cardinals, has received more public attention. At the same time there has been more editorial comment on Mrs. Hornsby's death than any other topic for some time.

The world knows how Mrs. Hornsby, an invalid for many years, died just before the World Series in which her son staked his reputation as a baseball manager. It also knows of her heroic instructions to her son for him to go on with the game.

Newspapers have almost unanimously touched upon the pathetic but inspiring way in which Hornsby stuck to the game with the death of his mother lying heavily upon his heart. In eloquent and exalted language they have praised such a spirit as shown by mother and son.

The same was true many months ago when big Jess Petty, pitcher for the Brooklyn Dodgers, won a game for his team after he had received a telegram prior to the game telling of his mother's death. The accounts of that game told of Petty going through the greatest battle of his life sustained only by the thought that his mother wanted him to play the game.

It is not puzzling to find that the world still yearns for such news. A mother's love to her son is still the

main ingredient of the character of men themselves. The world realizes that the success of mankind is commensurate with the quality of the mothers of humanity. And the world still wants to think that the mothers of today and their sons are possessed of the same heroic fibre as those of yesterday.

WHO IS RESPONSIBLE?

Some of us look back a few years, some of us must look back many years, but all can remember the evening hour when school was out.

If one stands near the school building in Pampa at 2:30 o'clock in the afternoon a feeling of former years cannot be forced back. A group of happy youngsters without a care bid each other good bye and hurry home to see what mother has baked, or probably to prepare for a few hours of play.

This is how some remember school days, but today there are children who cannot join in the merry group of children. Some are put to work and deprived of both an education and play that is rightly theirs. Who can justify this?

There is no question but that any child should be taught to work, but again every child should enjoy their proportion of play that is rightly entitled to them by birth. In normal lives work and play go hand in hand. Let's see that every child in this district is given their birth-

rights. Children between the ages of seven and fifteen years are required to attend school by law. There is probably no child in this community of this age who would not attend school if he were given the opportunity. Who, then, is responsible for the child who is out in school?

People who live in the past might take comfort in the present in the knowledge that the act of chewing gum is no longer considered an evening's outing.

W. W. Collins, 35, electrician and lineman for the Texas Utilities Company of Plainview, was killed by a high tension wire which he came in contact with while repairing a high line this week.

World War Veteran Stops Here; Expects To Win \$2500 Prize

Sergeant James A. Duffey, a soldier of the World War, stopped in Pampa last week. He is hiking over the United States.

He left Baltimore seven years ago with seventeen other world war veterans to test the theory advanced by the medical men at John Hopkins University. At that time Duffey was paralyzed on the left side from the waist up and could walk but a few miles a day carrying an eight-pound pack.

The John Hopkins University put up a prize of \$25,000 to act as an incentive to the men. Duffey and one other veteran are the only ones who have not given up the hike, and he claims that he is leading.

He works at odd jobs and sells post cards bearing his picture to pay his expenses. His appearance is that of a man in perfect health today. He carries a pack weighing sixty-five pounds and never stays in the smaller towns very long. He has visited every state in the union and has the official seal of all the governors.

Duffey first served with the Canadian forces, and joined the Rainbow division of the 177th Engineers when the United States entered the war. He was gassed and shell-shocked in the St. Mihiel offensive and spent six months in the hospital.

He intends to complete his trip by July 1, unless the American Legion decides to go to Paris, then he will complete it sooner so as to be able to make the trip. From Pampa he left for Oklahoma City.

Mr. and Mrs. Sam McCullough have gone to California to spend the winter.

Mrs. Charles Sohns of Miami was the guest of Mrs. Alex Schneider last week.

Mr. and Mrs. Jack Keathy and family moved to Pampa this week from their farm north of town.

The Rev. B. J. Osborn returned from Clarendon Wednesday where he has been for several days.

Four Big Gushers In Southwest Texas

San Antonio, Texas—Completion of three 500-barrel wells by the E. L. Smith Oil company and one 500-barrel well by the Magnolia Petroleum company in the Randado pool in Jim Hogg county, with two wells in the Bruni tract extension and one in the Mid-Ojuelos section added a total of the Mirando district last week. In addition to these oil wells there were three gas wells completed, one by the Houston Oil company in the Cole field, good for 40,000,000 feet, and two in the Randado pool for 1,000,000 and 2,000,000 feet, respectively. There were a total of ten completions in the Mirando field for the week.

Magnolia got the biggest well for the week in its No. 6, Palacios, in block 6 of survey 291, location being in the northwest corner of the block, 150 feet each way from the lines. It came in swabbing about 500 barrels a day. Depth is 1,280 feet. E. L. Smith Oil company and C. O. Mad, dox completed three wells each swabbing about 500 barrels daily in the forty-acre tract out of the northeast corner of the northwest quarter of survey 291. The No. 11 at 1,291 feet, the No. 12 at 1,229 feet, and the No. 14 at 1,309 feet.

Simms made a 2,000,000-foot gas well out of its No. 15, Palacios, at 1,289 feet, located 750 feet from the north line of its block. Grayburg, which deepened its No. 6 Well, in the northwest corner of block 61, of survey 51 to 1,542 feet is said to have a gas well making 1,000,000 feet.

In the Cole field Houston Oil company's No. 1 "A" reported first as No. 6, was completed at 1,630 feet and is estimated at 40,000,000 feet of gas. It is in block 1 of survey 15, and is about a mile south of the Clin-Texas discovery oil well.

Murchison & Fain in the Mid-Ojuelos territory of the Mirando field got a 150-barrel well in their No. 2 on survey 55. Crown Central and Staley & Wynne No. 4 in block 14 of the Bruni tracts at 1,732 is a fifteen-barrel well. Sun Oil company's No. 5, Bruni survey 44, of the Bruni tracts, is completed and reported swabbed at the rate of 350 barrels.

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of M. A. Turner, City Secretary of the City of Pampa, Texas, until 10 o'clock A. M. on November 6, 1926, for paving, curbs, gutters, grading and all necessary incidentals or appurtenances thereto, on the following named streets and alleys in accordance with the provisional orders by the City Council of the City of Pampa, dated October 11, 1926.

Cuyler Street from the North Property line of Brown Avenue to the North property line of Francis Avenue, Kingsmill Avenue from the West property line of Cuyler Street to the East property line of the alley between Cuyler and Russell Street, Kingsmill Avenue from the East property line of Cuyler Street to the West property line of the alley between Cuyler and Ballard Streets, Foster Avenue from the West property line of Cuyler Street to the East property line of Russell Street, Foster Avenue from the East property line of Cuyler Street to the West property line of the alley between Cuyler and Ballard Streets, and Atchinson Avenue from the West property line of Cuyler Street to the East property line of the alley between Cuyler and Russell Streets, and Atchinson Avenue from the East property line of Cuyler Street to the West property line of the alley between Cuyler and Ballard Streets.

The following is an estimate of the work to be done as compiled by the City Engineer.

Square Yards Paving ----- 31,000
Lin. Ft. Comb. Curb and Gutter ----- 6,500
Cu. Yds. Earth Excavation 5,000

The City reserves the right to accept or reject any or all bids.

Each bidder will be required to deposit with the City Secretary to the credit of the City of Pampa, without indorsement, a certified check of deposit in the sum of \$5,000.00 as a guarantee that he will file all bonds required and enter into contract, if awarded to him, according to the terms of his bid, within ten days after the certification of the award. Should the contractor fail to file bonds in an approved surety company or enter into a contract with the City of Pampa, then the certified check shall become forfeited as liquidated damages and the money realized therefrom be turned into the treasury of the City of Pampa.

Plans may be seen and specifications and blank form of proposal procured at the office of A. H. Doucette, City Engineer, Pampa, Texas.

Bids will be received on Brick,

Concrete and Rock Asphalt pavements.

F. P. REID, Mayor.

ATTEST:
M. A. TURNER, City Secretary.

Notice of Change in Store Policy

On and after November 1st, 1926 it is our intention to sell on a strictly cash basis and after that date our books will be closed to charge accounts.

We believe it will be to the best interests of both ourselves and to our customers, to adopt this policy, as it will allow us to sell on a little closer margin of profit, thereby passing on to our customers any saving made possible by this change.

We are always ready to serve you and are better prepared now, than we have ever been, to give you the service you should expect, and the cleanest and best brands of merchandise that the markets afford are here assembled for your inspection.

Respectfully,

J. E. Murfee & Co.

"OUT-FITTERS TO THE WHOLE FAMILY"

The BUICK Vacuum Ventilator... Keeps the Crankcase clean... just as your vacuum cleans your rugs at home

The Buick Vacuum Ventilator pulls noxious engine vapors out of the crankcase.

New luxury is added to Buick ownership by this remarkable device. It keeps the air inside the car free from disagreeable engine fumes.

And it prevents dilution of crankcase oil.

Every Buick model has the Vacuum Ventilator, and many other vital improvements including an engine vibrationless beyond belief.

Several Deaths Here Within The Past Two Weeks

J. R. Hales died at a rooming house here Wednesday, Oct. 13. He had been sick but a short time previous to his death. He is survived by his wife and one daughter who lives in New Orleans. He had been in the insurance business here.

Funeral services were conducted Friday, Oct. 15 at the Christian Church by the Rev. James Todd Jr. Burial was in the Fairview cemetery.

Robert Terrill Jones, infant son of Mr. and Mrs. R. S. Jones died Tuesday Oct. 12. Funeral services were conducted at the grave by the Rev. James Todd Jr. Burial was in the Fairview cemetery.

The infant child of Mr. and Mrs. J. H. Warren of Pampa died Tuesday Oct. 12. Funeral services were

conducted at the Fairview cemetery by the Rev. James Todd Jr.

The body of Mildred Pootham who was shot to death in Borger Tuesday, Oct. 12, was brought to the Fairview cemetery for burial. Funeral services were conducted in Borger.

A Surprise

An old boy drove down to town and purchased a new suit of clothes, which he carefully placed in the wagon box. On the way home, he decided to surprise the wife by dressing up, so he pulled off his overalls and jumper and threw them in the creek and reached back for his new outfit. It was gone. "Well," he said, "I'll bet the old woman will be surprised to see me anyway."

Mrs. C. C. Sloan is attending the Dallas Fair.

Jinksy Brashears spent the weekend in Amarillo and Panhandle visiting friends and relatives.

SOCIETY NOTES

Mrs. Bert Isbell Hostess Last Week

Mrs. Bert Isbell entertained a number of friends last Thursday afternoon, with forty-two as the favored diversion.

The rooms were tastefully decorated with Halloween colors. After several rounds of games, with Mrs. Hugh Isbell winning high score, dainty refreshments were served to the following guests: Mesdames A. M. Doucette, Roy Johnson, Emma LeFors, S. Thomas, James Todd, Jr., H. Barnard, T. B. Solomon, I. Kinzer, C. W. Lawrence, J. Brown, H. Isbell, W. Purviance, J. E. Ward, J. Keahey, Bob Morris, Edwin Vicars, B. Taylor, Mrs. Cecil and Miss Rena Belle Smith.

Miss Eula Nell Seelbach Is Praised By Friends

Honoring Miss Eula Nell Seelbach, Mrs. B. E. Finley entertained a number of her friends Saturday night, October 2. The evening was enjoyed with music, singing, games and contests. Mrs. Finley was assisted by Misses Alfred, Whiteley, Smith and Richey.

The guests were Misses Cook, Reed, Reives, Morrison, Durenberger, Nail, Carriker and Hogan; Mesdames George Walstead, B. J. Osborn, W. L. Woodard, H. L. Ledrick, S. Faulkner, W. Parviance, A. Daniels, J. McCracken, Stowell and Joe Smith.

County Demonstrator Praised By Friends

Miss Eula Nell Seelbach who has been county demonstrator for this county for the past two years, has gone to Travis County where she will be county demonstrator. Her headquarters will be at Austin.

Miss Seelbach's activities here have been highly satisfactory to those with whom she has worked, and they feel her loss greatly. One of her friends has expressed the feeling of the community by saying, "Miss Seelbach is the ideal type of young American womanhood, with beauty of soul, character and refinement, and she will be a splendid example for the girls in her club work. While her friends here regret to lose her, they cannot but help to rejoice over her advancement. One may indeed feel honored to be among her friends as she goes to Travis County, highly recommended by the people of Gray County."

P-T. A. To Hold Membership Drive

The Parent-Teachers Association is holding a membership drive this week, and are urging that every one interested in the school will join.

The association is planning an extensive program this year and ask that they receive the cooperation of every teacher and patron. A reception will be held Friday afternoon at the high school building and everyone is cordially invited to attend. The newcomers to the city are especially to attend the meeting and get acquainted with the personnel and policies of the school.

AT THE METHODIST CHURCH

The attendance at all the services last Sunday was the best that it has been for several months. It is encouraging to note the increasing interest in the church. There are only two more Sundays in this conference year, and we hope to have the church filled to its capacity on each of these Sundays. If the conference should move us to another field, we would appreciate the opportunity to preach to the entire membership at each of the remaining services.

The church has made wonderful

progress during the past year. It is very probable that the church will meet every financial claim. The prospects for the future are hopeful in every department of the church.

A hearty welcome is extended to everyone to attend our services. Sunday school at 9:45 a. m., preaching at 11 a. m., and 7:30 p. m., prayer meeting and choir practice at 7:30 o'clock Wednesday evening.

Mrs. A. B. Murry and Mrs. Johnny O'Day of White Deer were here on business last week.

Mr. and Mrs. Arthur Kirkwood of White Deer spent last Sunday in Pampa visiting friends and relatives.

Frank Miller was in Panhandle Sunday visiting friends.

White Deer Business Men Discuss Franchise

Several business men of White Deer met last week and held round table discussions in "Municipal owned gas plants" and "Individual owned gas plants." No definite action was taken as to a gas franchise for White Deer was taken at the meeting.

Dr. Bullock, former secretary of Chamber of Commerce of Borger, the Rev. Wallace of Hale Center and Mr. Duncan of Dallas met with the business men and made interesting talks.

Mr. and Mrs. H. E. Kreiger of White Deer were here last Sunday visiting relatives.

Unseen Sources of Long Life

The basic sources of automobile value are not always apparent to the eye.

A motor car, like a house, may LOOK a great deal more substantial than it really is.

Because of this difficulty, more and more thousands are turning to Dodge Brothers product for insurance against disappointment.

The years have proved, and each year proves anew, that Dodge Brothers are as deeply concerned with the UNSEEN goodness of their motor car as with the seen.

The mileage it will deliver, the safety it will provide, the expense and trouble it will save the owner over a period of years, are quite as important to Dodge Brothers as the more obvious details of equipment and style.

SUPERINTENDENT R. C. CAMPBELL PRAISES ALL THE TEACHERS IN PAMPA SCHOOLS IN HIS REPORT

The general statement recently submitted to the school board of the Pampa Independent School District by R. C. Campbell highly recommends the teachers in all of the schools.

R. C. Campbell, superintendent of the Pampa schools, has a B. A. Degree from the Southern Methodist University, and is an M. A. undergraduate student of the University of Texas. He has had twenty-five years of experience in school work, and has placed three schools with which he was affiliated on the All-Southern list of schools. He says that he expects to place the Pampa school on this list this session. He is serving his second year as superintendent here.

J. T. Glass, principal of the Pampa High School, is a graduate of the Southwest Teacher's College at San Marcos and is working on an A. B. Degree at the University of Texas. He has had seven years experience in school work and says that his job as principal here must go over big.

Other teachers in the high school department are: J. L. Lester, Bernice Whitely, Gladys Carter, Hazel Lewis, VeLora Reed, Verde Dickey, Harriett Reeves, Mrs. W. F. McCracken and Ina Kale.

Rex McKay, principal of the intermediate department, has had three years of college training and three years experience as principal of the Wheeler High School. The other teachers in the intermediate department are: Josephine Cariker, Louise Durrenberger, Finis Allred, Nan Berry, Mrs. Ferguson, Miss Richie, Mrs. Hunter and Miss Merlacher.

Mrs. Anna Daniels is in charge of the primary department. Other teachers in this department are: Mrs. Stowell, Mrs. Cockre, Misses Stalls, Morrison and Pyron, Mrs. Jesse-Bland, Mrs. Massey, Mrs. Samuel Irwin, Mrs. Mancock, Mrs. Lester and Mrs. J. P. Austin.

R. C. Campbell in his statement to the school board asked that he be given the support of all in putting

over a first class school here. "The Board is doing its part, and we ask that the patrons see that their children attend school regularly and do as much home-studying as the cards call for," says Campbell. "All schools are in session all of the time, and there has been but one day that when a school was closed, and that was due to gas in the southside cottages. There will be enough desks for each and every pupil to have a comfortable seat, and we will soon have all of the necessary supplies that each room will need. Most of the rooms are now well equipped and are doing first class work."

"There are less than three crowded rooms in the entire system. These rooms have been over crowded by the rapid influx of new pupils. Before long we hope not to have an over-crowded room in any of the buildings."

PRESBYTERIAN CHURCH

Presbyterian Church services were conducted last Sunday at the High School Auditorium. There will be a "get-together" meeting for Presbyterians at 7 o'clock Thursday night at the home of Mrs. Nettie White, two blocks east of the Christian Church. All Presbyterians and others who want to see a Presbyterian church in Pampa are urged to attend the meeting.

Church worship will be conducted again at 11 o'clock Sunday morning at the High School Auditorium. Everyone is invited to attend the services. The theme will be "What Presbyterians Stand For."

W. M. Baker, Minister in charge.

Sarah Wigham, 84, Died Oct. 7 At Her Home in White Deer

Mrs. Sarah Elizabeth Wigham, 84 years old, died at her home in White Deer, Oct. 7. Funeral services were conducted by the L. A. Roll of the First Baptist church at White Deer Oct. 8. He was assisted by Rev. B. J. Osborn.

She was born Dec. 1, 1838 in Boone County Missouri. She was married to Joseph Wigham in 1856 and moved from Missouri to Maye County Texas.

She is survived by five children, J. W. Wigham and Mary Jefferson of Rush Springs, Okla., George W. Wigham of White Deer, Jim Wigham of Ringling, Okla., and Fanny Johnson of Euld, Okla. She is also survived by sixty-four grandchildren

Coach Urges Athletes To Keep Up Standard

Athletes in the Texas Technological College must be students of good literary standing, according to a statement made by Coach E. Y. Freeland before the student body this year. The athletic committee passed a series of regulations last year governing the literary work of the athletes, and a greater effort is being made to enforce this year last.

In his short appeal to the student body for co-operation in encouraging athletes to keep up the standard of their work, Coach Freeland called attention to a number of good athletes who were not eligible to participate in athletics this year, because of their literary work.

MIAMI, TEXAS—HARRY A. NELSON

Big Celebration and Barbecue!

SUNDAY, OCTOBER 24th

Eight miles straight north of White Deer in the heart of the Marvelous New Roxana Field on the Main Connecting Highway between Borger and Pampa.

SKELLY

Where Oil Highways Cross

Opening of Second Unit

The original townsite of Skelly practically sold out last Saturday and Sunday.

And in celebration of the success of the new town, John Snider, renowned throughout the Southwest for his barbecues and famous barbecue sauce, is to conduct an all day barbecue party. You and your friends are invited as the guests of Henry Schafer, owner of the famous Henry Schafer Ranch, upon which Skelly Townsite is located.

All you need to do is bring a knife and fork—John Snider and his barbecuers will do the rest! Mr. Schafer has selected his fattest beeves—there will be plenty to eat for everybody—and the guests will be entertained with speeches, reminiscences, and stories by some of the Panhandle's best known men.

Sunday will also be the date for the opening of the Main Street extension of Skelly for two blocks east to the new direct highway connecting the Borger-Pampa road with the Roxana well district just north of Skelly Townsite.

Building sites in this second unit, made necessary by the rapid selling out of the original townsite, will be open for first selection on Sunday—and prospective investors and business site seekers are urged to be at Skelly early Sunday in order to secure desirable lots.

Prices will not be increased, in spite of the high valuations which now obtain for Main Street and First Street lots a block west. Instead the building site seeker will find desirable lots at only \$75 up, with terms of only 25 percent down, and five months in which to pay the balance.

A warranty deed goes with every lot, only the mineral rights being reserved; every street is graded; and gas and water is being piped immediately to every lot.

In other words, the same opportunity will again be available that enabled dozens of people to double and treble their down payments within a few hours last Saturday and Sunday. And the business man will be able to get a building site equally as good as those sold in the original townsite, and have the advantage of buying after the town is an assured success.

No Charges—Be Our Guest For The Day!

To go to Skelly from the main line of Santa Fe, turn north for eight miles at White Deer. From Pampa take Borger road straight west for fifteen miles; and from Borger take the Pampa road east for eighteen miles. Skelly is the crossing point for these main highways. White Deer is 50 miles northeast of Amarillo, on the Panhandle Highway.

NEW POST OFFICE BUILDING IS UNDER CONSTRUCTION; DELIVERY SERVICE AWAITS IMPROVEMENTS

Plans for the new post office building which will be located on Kingsmill Avenue near Cuyler St. have been completed and work has started. The building will be completed by the first of December, according to J. N. Duncan who is building it.

The new building will be 30 by 75 feet when completed, and will be built of brick and tile. It will contain 800 mail boxes and about 1300 square feet of working space. The present post office building contains 531 boxes and has 1183 feet of working space for the employees.

A. S. Page, post office inspector, was here some time ago and drew up the specifications for the new building and made the location. At the present time the post office here employs eight people. There will be no additional inside help added, according to W. A. Crawford, postmaster, when the equipment is moved to the new building. Three city carriers will be added though as soon as the street signs are installed and sufficient side walks are built.

The following letter was received by Crawford in regard to free delivery in Pampa:

Postmaster,
Pampa, Texas:
Receipt is acknowledged of your letter of September 15, relative to the establishment of village delivery service at your office. You state that it is not the proper time to put up street lights and signs, but that this will be done just as soon as street paving is completed. The provision of street lights and signs is one of the essential requirements for the establishment of village delivery service, and you will please advise the Department when this has been done. Action will then be taken on your application.

Respectfully yours,
John M. Bartlett,
First Assistant.

"As soon as the requirements are met by the city," says Crawford, "I will wire the postal authorities and free delivery here will be started at once. It will greatly relieve the con-

gestion caused by the Christmas mail if the carriers can be started by that time."

Business Men Offer To Install Signs

Several business men in town have offered to purchase street signs and pay for having them installed, according to W. A. Crawford, postmaster. As soon as the street signs are installed free delivery will be started says Crawford.

"I now have the money from the Government to pay the city carriers," says Crawford, "and unless free delivery service is started I will have to send it back. If this is done Pampa will have a desperate struggle to ever get any more money from the government to pay city carriers. As soon as the city authorizes the installation of the street signs we can have free delivery within a short time."

MITCHELL'S
THE LADIES STORE

Transportation Co., To Increase Advertising

Advertising and publicity, an infant feature of local transportation five years ago, today is a \$5,000,000 baby, a report made to the American Electric Railway Association showed. This amount has been spent through local sources this year by transportation companies operating electric lines and busses. It is expected that \$6,000,000 will be spent next year.

Not only has display advertising increased. The whole theory of relations between electric railway companies, and the press and the public has changed. Today the most progressive companies are talking frankly about their business. The old

closed door policy, pursued once by some utilities, is as far behind the times as a horse car.

Thomas Fitzgerald, vice-president of the Pittsburg Railway Co., urged the convention delegates to continue their open door policy.

"Placing newspapers in possession of the complete facts regarding matters in which the public is interested offers a valuable field for efforts to inform," he said.

H. F. Florey of Henderson, Texas has been in Pampa for the past few days looking over the town. He may move here later and practice law.

Masters Cafe opened for business Wednesday night in their new building on West Foster Ave.

Grading Streets At Night
Due to the traffic during the day, the street department is grading the streets at night. Work begins at midnight and continues until morning. The deep mud near the curbing is being pulled out with a grader little by little so that it will dry.

Mr. and Mrs. P. O. Sanders spent the week-end in Amarillo.

J. M. Smith Slowly Improving
J. M. Smith, who fell on the sidewalk some time ago and hurt his hip, is slowly improving. He is able to sit up for a short time a day, according to his son, Joe Smith.

Miss Annie Laurie Sawyer of Amarillo spent the week-end with her father, Dr. A. R. Sawyer, and family.

CITY ORDINANCE NO. 58
An Ordinance to Amend Section 7 of City Ordinance No. 37 which was Passed and Approved by the City Council of the City of Pampa, Texas, on the 12th day of March, 1928 and Entitled (An Ordinance Prescribing Rules and Regulations for Governing the Consumers of Water from the Water Works System of the City of Pampa, Texas, Etc.) by Requiring that each Consumer make a Deposit of Five Dollars (\$5.00) for each Water Meter installed by the City of Pampa, Texas.

Be it Ordained by the City Council of the City of Pampa, Texas, Section 1: That Section 7 of City Ordinance No. 37 be amended so as to read as follows:

Section 7: "The city will furnish all meters to be used in measuring the water used by consumers and will maintain such meters at the expense of the city. That the deposit paid by the consumers to the City of Pampa will be Five Dollars (\$5.00) for each meter. Said deposit to be returned to the consumer upon termination of water service and upon payment of consumers water bill and any damage any meter may sustain.

This ordinance shall be in force and effect from and after its passage by the City Council of the City of Pampa, Texas, and its approval by the City Mayor.

The foregoing ordinance was passed by the City Council of the City of Pampa, Texas, on the 18th day of October, A. D. 1928 and approved by the Mayor of said city on the same day.

(SEAL) F. P. Reid, Mayor.

Attest: M. A. Turner, City Secretary.

ORDINANCE NO. 59
An Ordinance Authorizing the Closing of Gillespie Street a Distance of Approximately 200 feet Between Atchison Avenue and Tyng Avenue in the Town of Pampa, Texas.

Be it Ordained by the City Council of the City of Pampa, Texas, That approximately 200 of Gillespie Street shall be closed. Said portion of said street that shall be closed is described as follows to-wit: Being that part of Gillespie Street between the northerly line of the P. & S. F. railway company's property line and being that part of Gillespie Street between Atchison Avenue and Tyng Avenue, as shown by the map of the Town of Pampa, Texas, which is on file in the office of the clerk of Gray County, Texas.

This ordinance shall be in force and effect from and after its passage by the City Council of the City of Pampa, Texas, and its approval by the City Mayor.

The foregoing ordinance was passed by the City Council of the City of Pampa, Texas, on the 18th day of October, A. D. 1928 and approved by the mayor of said city on the same day.

(SEAL) F. P. REID, Mayor.

Attest: M. A. Turner, City Secretary.

There were 122 bales of cotton ginned in Gray County from the 1926 crop prior to Oct. 1, as compared with 133 bales for the same time last year, according to B. L. Webb, special agent for Gray County.

Contract has been let by the Texas Gas Co. for the construction of its line from the Panhandle gas fields to the South Plains. Cities already under franchise are Lubbock, Slaton, Plainview, Floydada, Lockney, and Tulla. Distributing systems are to be located at Canyon, Abernathy, Happy, Kress, Hale Center, and other points.

Mrs. E. B. Finley and Miss Finis Alford were Amarillo visitors Saturday.

It you have never eaten robin pie don't begin now, is the advice of the Biological Survey of the United States Department of Agriculture. The department now has several cases for prosecution under the migratory bird treaty act for possessing or purchasing robins. Robins are among the birds that are protected in all states.

Mrs. Emma LeFors and daughter, Moleta, of Los Angeles, have moved into their new home at 234 Front Street.

PAMPA DRUG STORE

A GREAT POULTRY REMEDY
Given freely in drinking water or mixed in feed thoroughly with them all blood-cleaning, kills all intestinal worms and parasites. Its formula is sulphur and other ingredients known remedies for improving the appetite, purifying the blood, toning the system and preventing disease. Better prevent than try to cure. Contains no alcohol or toxins. Can be given to all ages of chicks, old fowls and turkeys. Any kind of weather with good results.
Its cost is very small—a few dollars' worth will last 100 fowls more than 120 days. The manufacturers are anxious for all poultry raisers to try it 60 days at their risk on the following conditions: After using 60 days, if your flock has not improved in health, produced more eggs—eggs that hatch strong and healthy young chicks—come back to your dealer—he is authorized to refund your money.
