PAMPA, GRAY COUNTY, TEXAS, FRIDAY, NOVEMBER 12, 1926

Price, Five Cents

JACKSON WELL IS SPRAYING OIL

Free Delivery To Begin December 1 Says Postmaster

The city has let a contract for the erection of street signs, and they are being installed as locations are made. The postal authorities require that the streets be named and signs erected before free mail delivery can be started.

At least one carrier will be working by December 1, according to A. Crawford, postmaster. Two more carriers will begin work by January 1, if a sufficient number of houses are numbered and all the streets are marked with signs.

"If everyone will see that their house is numbered and numbered correctly," says Crawford, "it will help to obtain free mail delivery at the earliest possible date. I will start one carrier to work by Dec. 1, and I want to work out a route whereby the greatest number of people will benefit from the service. When the other two carriers are started I believe that the town will be thoroughly covered so that everyone will be benefited."

The post office equipment will be moved into the new building on Kingsmill Avenue about the first of December, according to Crawford. Everyone that has a box rented in the present building will be given same box in the new building as far as possible so that there will be less congestion to the renters as well as to the postal employees.

The city carriers will be given a space in the new building so that they can handle the mail that they deliver and arrange it so as to give the best possible service to the patrons.

"Preparations are being made as fast as possible," says Crawford, "and it will not be long until the people of Pampa will be given a good mail service."

Costly Turkey Is The Forecast For This Thanksgiving

Thanksgiving turkey eating will be somewhat more costly this year than in the past two years, according to a holiday prediction made by agriculturists. The turkey crop is not as large as it was last year or the year before, and a prediction of 45 to 48 cents a pound for this year's Thanksgiving turkey is not considered pessimistic.

The cool weather this fall has been favorable "turkey weather." So long as the days and the nights are comparatively warm, turkeys continue to roam the country and fall to put on flesh. When the temperature falls, they are content to cease wandering off, and settle down to grain feeding which rapidly adds pounds of turkey meat. The crop generally is further advanced than at this time in several years, and reports from the county consistently tell of the high quality of the turkeys. In Texas, which is the big early state for turkeys, the crop is believed to exceed last year when many of the young poulters were lost during the hot dry weather. Oklahoma, Arkansas, Missouri, Kansas, Iowa and Ohio are expected to have fewer turkeys for the market this season while the other states report stocks of about the same size last year.

Stocks of turkeys in storage are less than half as large as at this time a year ago and 40 per cent below the five-year average. Reserves of frozen turkeys, therefore, will be less of a market factor this season than last. Holdings of chickens and fowls are five million pounds larger than a year ago and ten million pounds larger than the five-year average, however, offsetting to some degree the decline in turkeys.

W. M. Baker,
Minister in Charge.

Mrs. Belle Miller was in Miami last week.

Toll Bridge Over The Canadian River Opens

The bridge over the Canadian River a few miles north of Borger was officially opened to the public last Thursday. The bridge makes possible a direct route from Panhandle to Spearman. There is no other bridge for many miles in either direction from this one.

Various plans for building a bridge at this point over the river have been discussed for years, but it was not until the oil boom that any definite steps were taken. The Austin Bridge Co. contracted the bridge for \$135,000. It is being operated as a toll bridge.

Up to the time the bridge was opened, the Canadian River was a division point between the north and south oil fields of Hutchinson County. The bridge gives the two fields a direct connection.

6 Bids Received For the Paving Of Streets Here

Bids for the paving of streets here were opened at a special meeting of the city council at the American Legion Hall Saturday morning. Six bids were submitted by various contractors. Four of the bids are under consideration by the council and two bids were rejected.

The following are the bids that were submitted: Ward, Beckman and Brooks of Oklahoma City, brick pavement, \$112,040.84, paving to be completed in 45 working days; Panhandle Construction Co. of Lubbock, Texas, brick pavement, \$108,954.55, paving to be completed in 120 weather working days; Cook and Cones Construction Co. of Ottowa, Kansas, brick pavement, \$118,642.54, paving to be completed in 120 weather working days; Stuckey Construction Co. of Wichita Falls, Texas, brick pavement, \$100,940.09, concrete pavement, \$105,728.07, paving to be completed in 100 working days; Able Construction Co. of Lincoln, Nebraska, brick pavement, \$115,454.50, paving to be completed by June 1, 1927; Wyatt, Eberly and Richardson of Casper, Wyo., brick pavement, \$106,474.87, concrete pavement, \$98,100.85, paving to be completed in 90 weather working days.

The bids submitted by the Cook and Cones Construction Co. and the Able Construction Co. were rejected as being out of line with the other bids submitted. The council is now investigating the various companies as to their ability to carry out the contract, and investigating paving that the various companies have done.

The council will accept one of the bids, or reject all of the bids at their regular meeting Monday night November 15.

New Hardware Store To Open Here Monday

The Clark and Clausing Hardware Co. will formally open in the Holmes building south of the tracks Monday.

A. F. Clark, formerly of Cashion, Okla., and W. F. Clausing formerly of Tulsa, Okla., are proprietors of the new store. A full line of hardware and furniture will be carried in stock, according to the proprietors of the store. Both of the men have families who will move to Pampa to make their home.

Presbyterian Church

A Presbyterian Sunday school will be organized at the Legion Hall Sunday, 10:00 a. m. We are hoping to have a good attendance at that time.

The theme for the 11:00 o'clock hour is "Preparedness." We will try to make you feel at home among us. Worship with us.

W. M. Baker,
Minister in Charge.

Mrs. Belle Miller was in Miami last week.

YOUR SUPPORT ASKED AS THE NEWS BECOMES SEMI-WEEKLY

Fulfilling a promise made a short time ago, The Pampa News next Tuesday will become a Semi-Weekly newspaper. Additional equipment has been installed at a cost of many thousands of dollars and The News is now ready to make a sincere effort to increase its service to Pampa and the trade territory.

The initial issue of the Semi-weekly News will be published Tuesday, and it is hoped that the support will be liberal. Advertising will be sold on its merits, and the publishers hope that the results will be so good that space will be reserved regularly in the issue for the first part of the week, as so many local firms have done for the week-end issue.

The new Model 14 Linotype is in operation. A new 30 inch paper cutter and a new 12 by 18 jobber, additional type and other equipment have been purchased and installed by The News in their efforts to give the best possible service to this community.

A competent force of workers is ready at all times to serve you. W. E. Lowe, local manager, has had years of experience in advertising and should be of much assistance to local firms. Ben Reno, editor, will be in charge of news gathering and editorial work. Paul Stewart is mechanical Superintendent and has qualified workers to assist him.

The News wants to serve this community. Every department is ready to serve you. If you know of news you are asked to call us. When you need advertising or job work, we care at your service.

The News has been enlarged to the extent that it can handle nearly every printing requirement. You can help to make Pampa grow if you realize the importance of having your printing done in Pampa. The greatest item of expense in job work is the labor—and surely it is better that the labor be done in Pampa. You are cordially invited to take advantage of the service offered by The News' Job Department.

Another important announcement: The News will raise its subscription rates in a short time as a Semi-Weekly. The present rates are \$2.00 a year in Texas or \$2.50 a year outside of the state. These rates will be increased 50 cents a year on account of the extra service given through the semi-weekly. Why not save money by renewing your subscription or subscribing now?

Borger Man Killed In Fall From Tank

John Zinn, 32 years old, was instantly killed at Borger last Friday when he fell from a steel storage tank on which he was working. His foot slipped and he fell backwards 30 feet, landing on his head and his neck was broken.

Zinn came to Borger from Fort Worth several months ago. He is survived by his wife.

G. C. Malone, who departed about two weeks ago for a tour of the southern part of the state, is now visiting his parents, Mr. and Mrs. J. P. Malone, in Hillsboro, according to word received by his mother J. P. Malone.

Mrs. Anderson Hurt When Car Overturns

Mrs. Walter Anderson suffered a broken arm as the result of an automobile accident last Monday night. Her left arm was broken in two places and her body badly bruised.

Mr. and Mrs. Anderson were driving home when the radius rod on their car broke. The car turned turtle and Mrs. Anderson was caught underneath. Mr. Anderson was thrown clear of the car and was able to raise the car enough so that his wife was freed.

Charles Sharpe of the Sharpe Construction Co. was in Kansas City this week on business.

ACREAGE TO THE SOUTHWEST OF WILCOX POOL IS PROVEN; RAPID DEVELOPMENT EXPECTED

The Canyon Oil Company's Number 1 Jackson was given a 540-quart shot of nitro glycerine and is spraying at the rate of 15 barrels an hour according to latest reports received. The well made from 250 to 300 barrels the first eleven hours after the shot was made. This well proves the field to the southwest of the original Wilcox pool.

The well is located in the northeast corner of section 80, block B-2. There has been several hundred feet of oil standing in the hole for some time, but the possible production of the well could not be estimated until the shot was made. The bottom of the hole is still 50 feet above sea level.

The Texas Oil Company's Number 1 Saunders, located in section 81, block 3, Gray County, has nearly 2000 feet of oil in the hole. It has been drilled to the total depth of 3295 feet, and is expected to be in for a flow of oil in a few days.

The Holmes Number 2 of this company is spraying oil, and the Holmes Number 1 is swabbing.

The Parks-Noel well located in section 193, block 3, Gray County is drilling at a depth past 2800 feet. Considerable gas is escaping from the well now.

The Marten number 1 of the Humble Oil Company, located in section 87, block 3 Gray County was swabbing 300 barrels a day according to the last report received.

The company's Marten number 4 in the same section and block came in this week and flowed a little over a hundred barrels the first day. With another shot these wells are expected to increase substantially in production.

The Sunrise Oil Company's well on the Eastern edge of the North River pool is expected to pump about 125 barrels a day regularly. The well was swabbing 100 barrels a day when work was discontinued because of trouble with the tools.

The latest reports from last weeks production in Gray County show an average of 12,123 barrels a day. With the large amount of acreage proven by the Jackson well extending the field to the southwest this production is expected to rapidly increase as the new territory is opened up.

Geologists from the various oil fields in the country are holding a field meeting here in the Panhandle. They attended the Panhandle Geological Society meeting in Amarillo Thursday night.

The general report from the Panhandle fields is that the oil development will be rapid, and that nothing but the most extreme weather will slow up work.

Verde Diekey and Oscar Dial spent the week-end in Amarillo.

50 Arrests Made By The City And County Officials

Forty arrests were made by Sheriff E. S. Graves and his deputies during the past seven days. The charges filed were for gaming, vagrancy and drunkenness. Those who were arrested for the first time are fined \$12.00 including costs, but those who appear for the second time are given larger fines.

The city officials arrested and fined 10 persons. One charge was for chicken stealing, 2 drunkenness, 5 gaming and 2 were charged and fined for adultery.

Several Shots Fail To Stop Automobile

Several shots were fired Tuesday night by Deputy Sheriff Smith in an attempt to stop a car in which two unknown occupants were riding. The man and the woman in the car had been driving around over town for some time blowing the horn on the car. Sheriff E. S. Graves left orders for them to be stopped if they came back to town and continued the disturbance.

The couple drove back into town a few hours later and again blew the horn while driving around over Pampa. Deputy Sheriff Smith drove his car close to theirs and ordered them to stop. They stopped but at the same time covered the deputy with a shot gun. They then drove off at a rapid pace. Smith fired several shots at the car. The gasoline tank was punctured and several other shots hit the car but they were not stopped. A search continued all day Wednesday for the car but it was not found.

House Was Damaged By Fire Monday

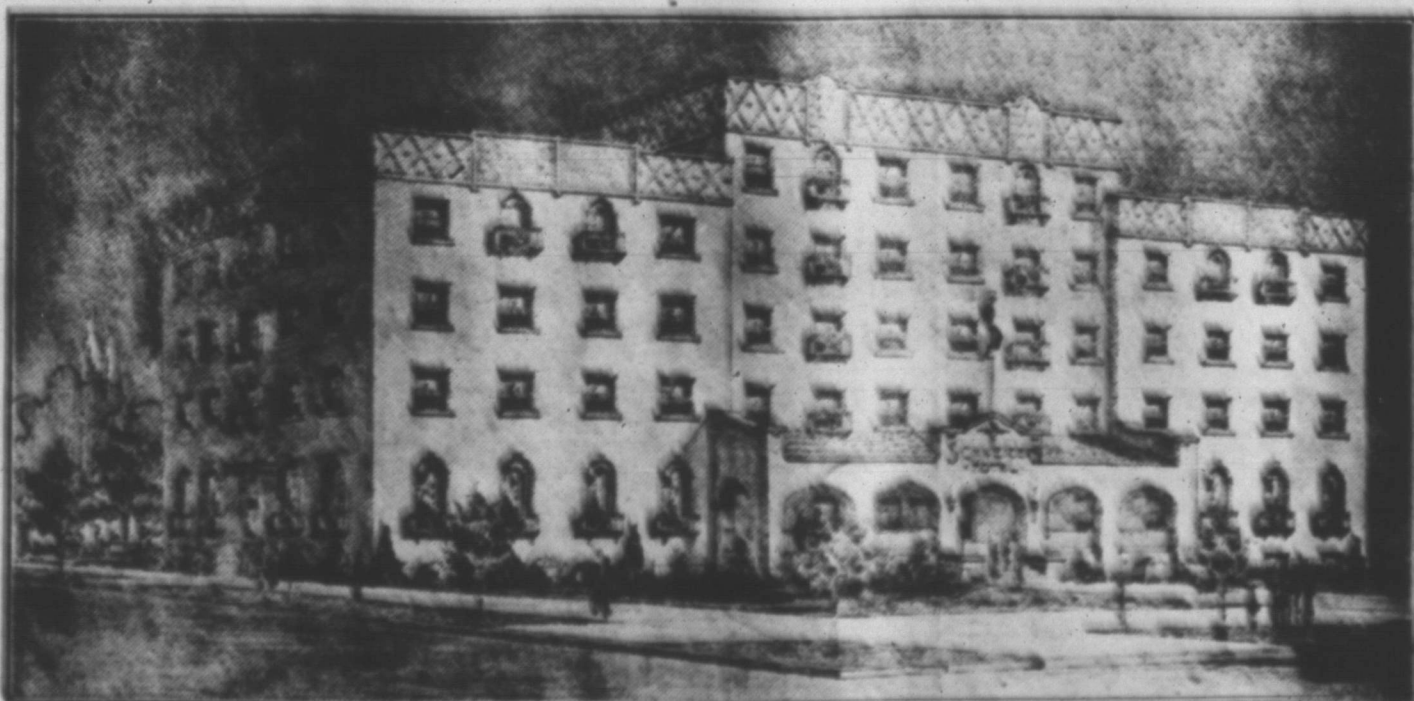

A house in the east part of town was damaged by fire Monday. A gas stove that was setting against the wall caused the fire.

The fire alarm was turned in by the neighbors who noticed smoke coming from the house. There was no one home at the time the fire broke out, but the gas stove had been left burning. The damage was estimated to be about \$300. It is covered by insurance, according to John and Otto Scuder who own the property.

Hand of Brakeman Cut When Caught In Pipe

W. H. O'Neal, brakeman on an extra west-bound freight train, suffered severe cuts on four fingers of his left hand Sunday. He was on a car of pipe, and when the train shifted his hand was caught. He was given medical attention here but no reports have been received as to his present condition.

J. M. Smith Able to Sit Up
J. M. Smith, who has been confined to his bed for several weeks suffering a fractured hip, was able to sit up for a short time this week. Mr. Smith fell at the corner of Foster Avenue and Caylor St. September 29. He was taken to the home of his son, Joe Smith, in an ambulance and has not been able to walk since.

New Schneider Hotel To Be Built Here

The plans and specifications for the new Schneider Hotel will be completed by Monday, November 15, and work on the building will begin by November 25, according to O. K. Baker, Secretary and Treasurer of the hotel company.

The new building will be located one-half block west of the present Schneider Hotel. It will be a five-story brick building with full base-

ment. The estimated cost is placed at \$150,000. There will be 100 rooms 60 of which will have both tub and shower bath.

A barber shop and four offices will be on the first floor as well as a spacious lobby, dining room and kitchen. An elevator will be installed, and the officers of the company say that there will be nothing sacrificed in making the hotel strictly modern in every respect.

The following are the officers of the Schneider Hotel company:

Alex Schneider, Jr., President.
M. C. Parker, Vice-President.
O. K. Baker, Secretary and Treasurer.
In the active management of the hotel Alex Schneider will be general manager and will be in charge of the catering, assisted by O. K. Baker, who will be in charge of the rooms and front office.

School Lunches Very Important To The Children

This from Miss Lola Blair Will Help Children in school have problems and tests to meet. Their chief difficulty is not lack of food, but lack of physical energy, lack of proper growth and lack of mental ability. Nothing is more humiliating to a child than to be beaten in contests or to stand always at the foot of the spelling class because the mental equipment is not functioning. Probably in no other place does nutrition mean such a handicap as in early childhood. Pale, sallow children, with little energy and pep do not stand at the head of their classes or make the various teams.

A few suggestions may help to solve the problem of feeding children taking the noon meal away from home.

Daily Requirements

The school lunch should not be considered as separate and apart from the other meals served during the day. The meals should be planned in units of three, meals of foods hardest to pack reserved for supper or breakfast. During the day each child should have:

1 quart milk, 2 raw fruits or vegetables, 1 leafy vegetable, 2 servings of cheese, beans meat or eggs, whole wheat bread, whole wheat or oat flake cereal, and tomatoes or oranges three times per week.

Don't Forget Milk

It is not easy to pack a leafy vegetable nor a salad in a lunch. The days plan then should include the oat flakes and milk for breakfast and probably one egg. The lunch

should contain one or two pieces of raw fruit or vegetable, a meat or cheese sandwich and several cookies or a piece or two of candy. Milk should be taken to school or served in bottles there if the children have far to carry it. Milk is essential and should be supplied. It is not an easy task to use this amount of milk in the two meals served at home.

The other raw fruit or vegetable and cooked leafy vegetable should be served in the evening with probably beans, cheese dishes or a small portion of meat. With this could be served a milk soup or custard. Tomatoes raw could be included in the lunch or served stewed or with rice or macaroni in the evening.

The lunch box then should contain milk, raw fruits, one or two meat or cheese sandwiches, 1 sweet sandwich and sweets. The milk may be in a bottle, in a custard or bought at the school. The sandwiches should be wrapped separately, have the bread thin and filling heavy. The sweets should be natural, that is, Cookies with dates, raisins or figs furnishing most of the sugar. These are delicious, too, ground with nuts for sweet sandwiches. Occasionally a few pieces of candy should be added. Layer cake or other cakes are best eaten at home.

Boxes Beat Sacks as Containers

The lunch should be carried in a box even if the children do dislike any container except a paper sack. It should be easily cleaned and ventilated. The ideal box has a pint thermos bottle for milk, soft custard or soup. The school room should have a shelf for lunch boxes so that they will be out of the dust and dirt.

Every household should prepare for packing lunches by purchasing paper napkins, waxed paper, pap-

er cups for baked custards, beans, etc., and a screw top jar for liquids if no thermos bottle is provided.

Home Atmosphere Desirable

The lunch should be eaten in the class room. One teacher, a man, has this plan. At the close of the morning session the desks are cleared, the windows opened and the lunches brought in. Paper napkins are passed from the teachers desk, two to each pupil. One of these was spread on the desk, the other kept in the lap. The lunch was spread on the desk and a glass removed from the box. This was placed by the inkwell. One boy passed about and filled them all. Milk in bottles could have been passed as easily. When all were ready the teacher returned thanks. While eating they discussed items of interest in the paper the day before. This was also the time for a joke contest once each month. The children saved them and received a small prize for the best. The entire time consumed 25 minutes, the lunch was not hurried, the conversation interesting and instructing and therefore the digestion good.

H. C. Powell of Elk City, Okla., manager of the Diamond "C" Dry Goods Chain Stores Corporation, was here last Thursday and Friday looking after business interests of the store here. He was accompanied by R. C. LaRue, manager of the Diamond "C" Store at Sayre, Okla. Mr. Powell said that he was well pleased with the business outlook of Pampa and vicinity.

Ill. Man Invents New Ford Gas Saver & Quick Starter

Walter Critchlow, 4441 P. street, Wheaton, Ill., has patented a new gas saver and quick starter that beats anything ever gotten out. With it on, Fords show as high as 66 miles on 1 gallon. Other makes do equally as well. This new invention saves gas and oil. Makes a Ford start instantly in any weather and completely de-carbonizes the engine. Mr. Critchlow offers one free to advertise. Write him for one. He also wants County and State distributors who can make \$500 to \$2500 monthly.—Adv.

If your children turn out bad perhaps it is because you paid no attention to what time they turned in.

We meet up with a lot of drivers who have a full gas tank, but their think tanks seem to be empty.

The best of all maxims is just be true to your word and your work and your friends.

There's no use "raising the roof" just because your wife gets hers "shingled."

The gentle art of cooking, acquired in a practical way by helping the tired mother at home, also is an interesting and useful course to add to any daughters curriculum.

Things do happen sometimes so that a fellow gets a good look into his own face. But he doesn't see any great sight, now, does he? Most of us wish the looking glass had been smashed before we took our peek into it. But it is good for us sometimes after all.

We are told that the radio has added some 2,000 words to the dictionaries. It has also given us several kinds of noises besides static that we can't understand, and added words to our vocabulary that we would not want our neighbors to overhear.

Some people are eternally chasing around in "pursuit of happiness," and to our notion they have the wrong idea and are on the wrong trail. Happiness is a blessing that comes to a peaceful mind and a contented heart. We gain happiness, not by pursuing it, but by doing our best every day to do our duty to our fellowmen and to ourselves.

According to a florist famous for color combinations "there are no jarring notes in nature's colorings."

Learn the great game of life and taste the zest in its give and take. Temporary defeat but locates one's weak spots. That discovered and guarded against make one strong. There is a satisfying sense of superiority in rising above it.

On November 25th 305 years will have elapsed since Pilgrim Fathers at Plymouth instituted the great American Holiday, Thanksgiving day. That those stern pioneers were thankful for their frugal fare eaten in constant fear of savage onslaught on the rock bound New England coast should be an object lesson in this age of soft and easy living.

The question "What's the matter with the youth of today?" is sometimes heard in Pampa. Indeed from outward appearances, young people of today seem more frivolous and giddier than those of other days. To some it is a matter of great concern. But at heart, are they greatly different from those of other ages? Human nature changes very slowly if at all. The young today merely have more toys with which to play and are somewhat bewildered with their splendor.

LOW WIRES AND HIGH TRUCKS

Almost every day there are trucks that pass through Pampa hauling tanks or other material that extend high into the air. Either the loads are too "high" or the wires across the streets are too "low." As a result the wires are caught by the protruding load and are either torn down or loosened which makes them sag lower than ever.

There is no doubt but the trucks will pass over the streets of Pampa for years to come, and the logical time to remedy the low wires seems to be now.

Did you ever hear anything more contagiously joyous than the happy laugh of childhood's innocence.

We marvel at the wisdom of Solomon, but the fact must not be overlooked that he had sufficient advice from his numerous mother-in-law.

Football is still being denounced as a terrible menace, but we notice that it still retains its kick and draws capacity crowds about this time each season.

Time and progress even changes dictionary definitions. For instance a pedestrian used to be one who walked. Now he jumps.

LADY LUCK WAS HERE

The proverbial old lady we all call 'luck' was a caller in Pampa again Tuesday morning. A house caught fire; one of the fire trucks was at the fire a few minutes after the fire alarm was turned in, and the chemical fire extinguisher which it carries was exhausted almost as soon as it was turned on.

Water was carried in buckets and thrown on the fire which luckily had not made as much headway as it might have. When the fire was all extinguished, the other fire truck appeared on the scene, but not by its own power for it was towed behind another truck.

As long as the damage by fire here is not great, there is not much to say about fire equipment, but as soon as a big fire breaks out there will be a long story to write.

Our farmers not only "feed the nation," but they give our politicians most of their food for thought.

An optimist accomplishes the impossible while the pessimist is busy explaining how it can't be done.

Another good reason for not going to church. A Texas minister shot a man in his church. Fellow isn't safe anywhere nowadays.

Homes were never so comfortable as in the present age. And it never was so difficult to find families at home.

SOCIETY NOTES

Ladies Auxiliary Organized Here

Several members of the Presbyterian church met Thursday afternoon with Mrs. W. W. Merton and further plans to organize a Sunday School, and a few of the teachers were selected.

The ladies Auxiliary was also organized at this time and the following officers were elected: Pres. Mrs. John V. Andrews, Vice Pres. Mrs. W. W. Merton, Rec. Sec. Mrs. Joe Smith, Treas. Mrs. David Pope Cor. Sec. Mrs. H. W. Johns.

The Auxiliary will meet Wednesday Nov. 17th with Mrs. P. C. Ledrick.

At the close of the meeting delicious refreshments were served by Mrs. Merton.

P. T. A. Meeting Last Friday

The Parent Teachers Association met Friday afternoon at the High School Auditorium.

A very enjoyable program was rendered by the primary pupils followed by an interesting talk by Mrs. B. E. Finley on "How to prevent Disease."

Several business matters were attended to, and the Association adopted the plan of raising money by having each family donate a small amount, and the proceeds to go toward buying necessary equipment for the school.

Mrs. Duncan Hostess To El Progreso Club

The El Progreso club met at the home of Mrs. Ivy Duncan Tuesday afternoon with Mrs. Lee Woodward in charge. "Pottery" was the subject for discussion, it being discussed in all its stages.

Mrs. George Walstead read several articles on the evolution of clay modeling from prehistoric days in different countries up to the present time. She also explained the tedious methods employed in the making of chinaware by the use of clay. European and American china was ably discussed by Mrs. Carson Loftus. Articles pertaining to priceless china used in Royal Palaces

were read and many picture illustrations shown.

Mrs. Lee Woodward gave an interesting talk on "Pottery of Today" explaining the methods of imprinting the designs and coloring. Several vases and rare pieces of china were shown, one of which was a beautiful, delicately made Dresden china bowl belonging to Mrs. Woodward.

Refreshments of pie, whipped cream and coffee were served to the members.

Mrs. Charles Hodges Hostess to Kingsmill Club

The "Kingsmill Club" met with Mrs. Charles Hodges last Thursday. Delicious refreshments were served to the six members and one visitor who were present.

The next regular meeting will be held at the home of Mrs. W. E. Cobbs on November 18. The hostess asks that the members come in the morning and she promises to keep

BAPTIST CHURCH

The pastor will bring messages on the following themes Sunday: "Following Jesus" and "Calvary." The services last Sunday were encouraging for the blustery weather. Our Sunday school is running around the 200 mark. He a booster by being present at the service Sunday. Nothing speaks better for a community than for its churches to be filled with people. Very few things are more encouraging to a preacher than a large audience of prayerful hearers. Sunday school at 10:00, Preaching at 11:00 and 7:30. B. Y. P. U.'s at 6:30. W. M. U. Wednesday at 2:30 and prayer meeting at 7:15. We shall be happy to greet you at the Baptist Church. F. A. Tippen, Pastor.

everyone busy throughout the day by quilting. There will be an election of officers during the afternoon of the next meeting.

METHODIST CHURCH

The Rev. B. J. Osborn, pastor of the church, departed Monday for Childress, Texas, where he attended the Annual Conference of the Methodist Church of the Northwest District.

A splendid report was made by the pastor for the local church. Forty-five new members have been taken into the church and 16 have been dismissed, making a net gain in membership of 29.

The pastor's salary and all other claims have been paid in full. The basement story of the new church has been completed at a cost of \$12,182 besides the cost of the lot. \$8,198 of this amount was raised this year. The total amount raised this year is \$16,875. Of this amount the Womens Missiary Society raised \$1500.

You can't square yourself with another by getting even with him.

J. C. Zell of Mobeetie has moved to Pampa where he is employed. Jinsky Brashears departed Saturday for Borger where he will be employed on the Hutchinson County Herald.

George L. Coleman, secretary-treasurer of the White House Lumber Co., was in Pampa last week. He is making a tour of the lumber yards owned by the company. He came from Miami to Pampa. His headquarters are in Canadian.

James Irvin Drops Dead
James Irvin, real estate dealer, dropped last Thursday in a farm house near Wilcox. The body was taken in charge by the G. C. Malone Co., funeral directors, and shipped to Kiowa, Kansas for burial.

Society owes us nothing except a reasonably safe place in which to live.

Oil Co. Engages Negro Boy For Fishing Tool

Drilling at the I. S. Brown test of the Sanger Oil and Refining Company, four miles east of Abilene was under way Tuesday because of the daring of a small negro boy who went down into the hole for a depth of 110 feet, attached a cable to a lost bit and made possible the clearing of the trouble.

The boy, Dick Rawleigh, first stayed in the fifteen-inch hole twenty minutes, but was unable to attach the cable. He was hoisted to the surface, given further instructions and once more made the descent between the crumbling walls of shales and limestone. This time he was successful and received \$25 for his work.

The only request he made was that he be "guaranteed" there were no snakes or spiders in the hole.—Stamford Leader.

Infant Died Here Tuesday

The infant son of Mr. and Mrs. Elder Reed died at three o'clock Tuesday afternoon. Funeral services were held at three o'clock Wednesday afternoon. Mr. Elder is employed at the Rice Brothers store.

NOTICE OF ROAD BOND ELECTION

STATE OF TEXAS, COUNTY OF GRAY.

To the resident property tax-paying voters of Gray County, Texas: TAKE NOTICE that an election will be held on the fourth day of December, 1926, within Gray County, Texas, to determine if said county shall issue bonds and if a tax shall be levied in payment thereof, in obedience to an election order entered by the commissioners court on the first day of November, 1926, which is as follows:

On this the first day of November, 1926, the commissioners court of Gray County, Texas, convened in Special Session, at the regular meeting place thereof in the courthouse at Lefors, Texas, the following members of the court, to-wit:

- T. M. Wolfe, County Judge. C. W. Bowers, Commissioner of Precinct No. 1. Thomas O. Kirby, Commissioner of Precinct No. 3. M. M. Newman, Commissioner of Precinct No. 4.

Being present, came on to be considered the petition of E. B. Hedrick and one hundred twenty four (124) other persons, praying that bonds be issued by said Gray county in the sum of \$1,200,000.00 bearing a rate of interest to be fixed by the commissioners court not exceeding five and one-half (5 1/2%) percent, maturing at such times, as may be fixed by the commissioners court, serially or otherwise, not to exceed thirty years from date thereof, for the purpose of constructing, maintaining and operating macadamized, graveled or paved roads and trunklines, or in aid thereof, and whether or not a tax shall be levied upon the property of said Gray county, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity, and praying that the funds derived from the sale of said bonds be expended according to the following schedule:

- Highway No. 33, otherwise known as the Southwest Trail, 14 miles at \$16,500.00 per mile, or \$231,000.00. Highway No. 75, otherwise known as the Postal Highway, 22 miles at \$14,000.00 per mile, or \$308,000.00. Highway No. 88, otherwise known as the Clarendon Highway, 12 miles from Pampa, South, at \$16,500.00 per mile, or \$198,000.00. Highway No. 33-A, otherwise known as the Fort Elliot Highway, 8 miles from Pampa, East at \$16,000.00 per mile, or \$128,000.00.

Highway No. 88, otherwise known as the Clarendon Highway, 16 miles, beginning at the end of the section mentioned above, at \$7,500.00 per mile, or \$120,000.00.

Highway No. 33-A, otherwise known as the Fort Elliot Highway, 20 miles, beginning at the end of the 8 mile section mentioned above, at \$7,500.00 per mile, or \$150,000.00.

The sum of \$65,000.00 to be used for the construction of lateral county roads; in addition thereto, any premium or premiums derived from the sale of said bonds to be used for the construction of lateral county roads; and

It appearing to the court that said petition is signed by more than fifty of the resident property tax-paying voters of said Gray County; and

It further appearing that the amount of the bonds to be issued will not exceed one-fourth of the assessed valuation of the real property of said Gray County; and

IT IS THEREFORE CONSIDERED AND ORDERED by the court that an election be held in said county, on the fourth (4) day of December, 1926, which is not less than thirty day from the date of this order, to determine whether or not the bonds of said county shall be issued in the amount of \$1,200,000.00, bearing interest at a rate to be fixed by the commissioners court not exceeding five and one-half (5 1/2%) per cent, and maturing at such times as may be fixed by the commissioners court, serially or otherwise, not to exceed thirty years from date thereof, and whether or not a tax shall be levied upon the property of said county, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity; and whether or not the funds derived from the sale of said bonds shall be expended according to the following schedule:

Highway No. 33, otherwise known as the Southwest Trail, 14 miles at \$16,500.00 per mile, or \$231,000.00.

Highway No. 75, otherwise known as the Postal Highway, 22 miles at \$14,000.00 per mile, or \$308,000.00.

Highway No. 88, otherwise known as the Clarendon Highway, 12 miles

from Pampa, South, at \$16,500.00 per mile, or \$198,000.00.

Highway No. 33-A, otherwise known as the Fort Elliot Highway, 8 miles, from Pampa, East, at \$16,000.00 per mile, or \$128,000.00.

Highway No. 88, otherwise known as the Clarendon Highway, 16 miles, beginning at the end of the section above mentioned, at \$7,500.00, per mile, or \$120,000.00.

Highway No. 33-A, otherwise known as the Fort Elliot Highway, 20 miles, beginning at the end of the 8 mile section mentioned above, at \$7,500.00 per mile, or \$150,000.00.

The sum of \$65,000.00 to be used for the construction of Lateral county roads; in addition thereto any premium or premiums derived from the sale of said bonds to be used for the construction of Lateral county roads.

The said election shall be held under the provisions of article 627 to 641, inclusive, of Chapter 2, Title 18, Revised Statutes, 1911, as amended by Sectional, Chapter 703, Acts of 1917, Regular Session.

All persons who are legally qualified voters of this State and of this county, and who are resident property taxpayers in this county, shall be entitled to vote at said election, and all voters desiring to support the proposition to issue bonds shall have written or printed on their ballots the words:

"For the issuance of bonds and the levying of the tax in payment thereof."

And those opposed shall have written or printed on their ballots the words:

"Against the issuance of bonds and the levying of the tax in payment thereof."

The polling places and the Presiding Officers of said election shall be respectively as follows:

Precinct No. 1 at Lefors, the regular polling place of which is at the courthouse, with Mr. M. B. Davis as Presiding Officer;

Precinct No. 2 at Pampa, the regular polling place of which is at the office of the White Deer Land Co., in the White Deer Land Co. building, with Mr. J. E. Murfee, Jr., as Presiding Officer.

Precinct No. 3 at Steed, the regular polling place of which is the Grandview Schoolhouse, with Mr. Lee Fortenberry as Presiding Officer;

Precinct No. 4 at Alanreed, the regular polling place of which is the S. L. Hall Building, next door to the Post Office on the South, with Mr. S. R. Loftin as Presiding Officer;

Precinct No. 5 at McLean, the regular polling place of which is at the Office of Mr. M. L. Bentley in

the West end of the Montgomery Drug Co. Building, across from the Post Office, with Mr. A. A. Callahan as Presiding Officer;

Precinct No. 6 at Laketon, the regular polling place of which is the Laketon Schoolhouse, with Mr. W. S. Paris as Presiding Officer;

Precinct No. 7 at Farrington, the regular polling place of which is the Farrington Schoolhouse, with Mr. C. C. Gillis as Presiding Officer;

Precinct No. 8 at Hopkins, the regular polling place of which is the Hopkins Schoolhouse, with Mr. W. E. Ginn as Presiding Officer.

The manner of holding said election shall be governed by the general laws of the State of Texas, regulating general elections, when not in conflict with the provisions of the Statutes hereinabove referred to.

Notice of said election shall be given by publications of a copy of this order in the Pampa News and in the McLean News, newspapers published in the county for four successive weeks before the date of said election, and, in addition thereto, there shall be posted other copies of this order at three public places in the county, one of which shall be at the court house door, for three weeks prior to said election.

The county judge is hereby directed to cause said notices to be published and posted, as hereinabove directed, and further orders are reserved until the returns of said election are made by the duly authorized Election Officers and received by this court.

Given under my hand and seal of the commissioners court aforesaid, this first day of November, 1926.

T. M. WOLFE, County Judge STATE OF TEXAS, COUNTY OF GRAY: I Charlie Thut, Clerk of the County Court of Gray County, Texas do hereby certify that the foregoing is a true and correct copy of the original order of the Commissioner's Court of Gray County, Texas, passed on the 1st day of November, 1926. As same appears of record in my office in Book 2, pages 268-269, Commissioner's Court Minutes, Gray County, Texas.

Given under my hand and seal of said Court at my office in Lefors, Texas, this 1st day of November, A. D. 1926.

CHARLIE THUT, County Clerk.

C. S. Beckman of the Ward, Beckman and Brooks Co. in Oklahoma City, was here this week. He entered bids for the paving of streets in Pampa.

Rangers Withdrawn From Borger Friday

The Company C Rangers who have been stationed at Borger since early in October were ordered withdrawn last Friday. The city of Borger has been incorporated and the police there are now in charge.

The Rangers were ordered to Borger by Governor Miram A. Ferguson at the request of district and federal authorities following the death of a 14-year-old high school girl at the hands of hijackers. Reports from Borger are that the city officials have the city under control.

Mrs. Joe Godwin was in Mobetta last week visiting her son and daughter, Mr. and Mrs. Jess Godwin.

Experiment Shows Denton Wheat Is Drouth Resistant

Denton wheat is a new find of the Texas Experiment Station which bids fair to become very popular, particularly in the North Texas soft wheat belt. The new variety has averaged 3 bushels per acre more than other strains and varieties of winter wheat tested at the Denton Station since 1923, and it has shown an average test weight of slightly more than 60 pounds per bushel. It has medium large soft red grains. The heads are long, compact and bearded, and shows no tendency to shatter when full ripe. The chaff is brown. The straw is strong and stands up well during the wet periods on heavy lands. The plant is dark green in color with flat winter growing habit and is drouth resistant. It is one or two days later in maturing than the average Mediterranean types.

Denton wheat is a selection from the Mediterranean wheat found in general use on North Texas wheat farms, but which is found, in fact, to be a mixture of many strains. The type was purified through the head-to-row process beginning with with some 600 heads selected at random in a field of supposedly pure Mediterranean wheat. After six years of systematic testing of the most promising of these selections, one strain was found to possess more desirable qualities than the others and it was accordingly increased and distributed to the farmers through the usual Station channels. It is sufficiently distinct from the general field-run Mediterranean to require a variety name and has officially been named "Denton" wheat. Special precaution has been taken by the growers under the guidance of the Denton County Pure Bred Grain Association to keep the variety pure. Reports to the Station indicate that all of the pedigreed seed of this variety has been sold for planting this season and that the average in Denton wheat will be considerable throughout North Texas from Texarkana to the Panhandle and from Hill County to Central Oklahoma. The growers are expected to preserve the purity of their seed supplies and growers in the soft wheat section should, within another season, have access to seed of this superior variety for their general plantings.

The average annual salary of the 26,488 school teachers in Texas is \$934.92.

Safe or Sorry

There are no cut prices to health. The best is none too good. So, when you buy cheap plumbing fixtures, and think you are saving money, you are not. You are losing money. And what's worse, you are making your home a breeder of disease.

The only kind of plumbing worth having is the best. Anything else is dead loss.

When you buy "Seconds," "Damaged," "Defective" plumbing goods, you buy trouble, sickness, death.

A crack in a home for disease germs. A leaky pipe leaks away health.

Buy only quality plumbing—quality fixtures, quality materials, quality workmanship—the kind that is guaranteed.

NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS:
To the Sheriff or any Constable of Gray County, Greeting:
YOU ARE HEREBY COMMANDED to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Gray, State of Texas, and you shall cause said notice to be printed at least once each week for a period of ten days exclusive of the first day of publication before the return day hereof:

NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS,
To all persons interested in the estate of R. A. Burgess, Deceased, A. A. Callahan of McLean, Texas has filed in the County Court of Gray County, an application for the Probate of the last Will and Testament of said R. A. Burgess Deceased, filed with said application and for Letters Testamentary.

As above stated the last will and testament of the said R. A. Burgess is filed with said application for the probate thereof, and the number of said cause is No. 191 on the Probate Docket of the County Court of Gray County, Texas.

Which will be heard at the next term of said Court, commencing on the 3rd Monday in November, A. D. 1926, the same being the 15th day of November A. D. 1926, at the Court House thereof, in Letors, Texas, at which time all persons interested in said Estate may appear and contest said application, should they desire to do so.

HEREIN FAIL NOT, but have you before said Court on the said first day of the next term thereof a Writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Letors, Texas this 23rd day of October, A. D. 1926.

CHARLIE THUT, Clerk.
County Court, Gray County, Texas.

**ORDINANCE NO. 62
ORDINANCE OF THE CITY OF
PAMPA, TEXAS, ORDERING
THE IMPROVEMENT OF FOSTER
AVENUE IN THE CITY
OF PAMPA, ORDERING PLANS
AND SPECIFICATIONS PRE-
PARED, AND DECLARING AN
EMERGENCY.**

BE IT ORDAINED BY THE CITY OF PAMPA: THAT, whereas, the following street in the City of Pampa is in urgent need of improvement by excavation, grading, filling and paving the same, and other work in connection therewith, including curb, gutter and drains, if such be necessary; and

WHEREAS, the City Council deems it necessary to improve Foster Avenue from the east property line of Russell street to the east property line of Summerville street.

The street or portion thereof to be improved shall be and constitute an entirely and wholly separate and independent unit of improvement. The construction of said improvements on each particular street or portion thereof named to be improved shall be wholly independent of the construction of any other street or portion thereof named to be improved. The assessments to be levied on each street or portion thereof named to be improved shall be made according to the cost of the improvement on that particular street or portion thereof named to be improved, and in accordance with the benefits accruing to the property by reason of said improvements on that particular street or portion thereof named to be improved, wholly independent of the costs and of the benefits accruing by reason of the improvements on any other street or portion thereof named to be improved.

BE IT ORDAINED BY THE CITY OF PAMPA: That A. H. Ducetto, engineer employed by the city of Pampa be and is hereby directed to at once prepare plans and specifications for said work and file the same with the City Council.

That said improvements shall be of one or more of the following materials to be selected after bids are received.

3 inch Verticle Fibre Brick pavement of 5 inch concrete foundation, Reinforced Concrete, Rock Asphalt.

That the cost of improvements shall be paid as follows: to-wit:

(a) The owners of property abutting upon the said streets named to be improved shall pay the whole cost of construction of curbs, and

not to exceed three-fourths (3/4) of the remaining costs of such improvements: that the portions of said costs to be paid by said property owners shall be assessed against them and their property after notice and hearing provided by law and the City Charter in accordance with the benefits thereto by the means of said improvements, and shall be apportioned among said owners in accordance with what is known as the Front Foot Rule providing that if in any particular case the application of the said rule shall be deemed by the City Council shall, at the time of said hearing, make such apportionment upon any basis as it shall decide to be substantially just, equal and conform to the said sums payable by the said property owners shall be payable as follows: one third (1/3) thereof one year after the completion of said work upon the improvements upon the said streets and the acceptance thereof by the City: one-third (1/3) thereof two years from said date, and one-third three years from said date, provided that any property owner shall have the right to any installment before maturity by paying the amount thereof accrued interest to date of payment: that the deferred installments shall bear interest at the rate of eight (8%) per cent per annum, and that the City will secure the same by Ordinance of assessment wherein the same shall be declared to be a lien upon the owner of the property and a personal claim or demand against the owner thereof, which Ordinance shall provide for the maturity of all the said installments upon default in the payment of any principal or interest or any of them when due, and said installments shall be evidenced by assignment certificates payable to the Contractor doing the work, and setting forth the facts in the premises.

(b) That all the remainder of said costs of the said improvement shall be paid by the City to the Contractor doing the work upon written estimates made up by the Engineer at least once each month, reserving 10% from each estimate to be paid upon completion and acceptance of the work.

BE IT FURTHER ORDAINED BY THE CITY OF PAMPA: That the fact that the improvement of the streets herein named is being delayed pending taking effect of this Ordinance, and that the condition of said portions of said streets endangers the public health, safety and property and creates an urgent public necessity for the immediate preservation of public peace, property, health and safety, requiring that the rules providing that no ordinance shall be passed on the day on which it shall be introduced, and providing that no Ordinance shall become effective until ten days after its publication and requiring that said ordinance be published once a week for two consecutive weeks in some newspaper published in the City of Pampa, be and in the same are hereby suspended and that this ordinance shall be and is hereby passed as an emergency measure, and shall take effect and be in force from and after its passage.

Passed and approved, this 2nd day of November, 1926.
F. P. REID,
Mayor of the City of Pampa.
ATTEST: M. A. TURNER,
City Secretary

Make your wants simple.
We have noticed that when a mule is working he cannot kick.
Yes sir! If it wasn't for the running expenses we might catch our breath.
Visitors to Pampa will form their impressions of our city from the worst things they see in it as well as the best.
Is there anything more beautiful than a grassy meadow, kissed by the morning dew, a thousand gems in the early sunlight.
No good has ever come to Pampa from knocking. Honest criticism with an effort to remedy the complained of deficiency has helped.
Pampa is not the largest city in the country—but it is only in the lesser places that one may get the real joy of simple living.
The surrounding in which the article is presented to the public. Clean, bright, attractive showcases go a long way toward moving a stock of merchandise.
"In their efforts to achieve striking and bizarre effects of costume, girls will stop at nothing," says an exchange. Yes, and unless our eyes deceive us they have pretty nearly reached the place where they will stop.

PIANO TUNING

Mr. Vera Springer of Amarillo, Mechanic, Member National Association Piano Tuners will be in Pampa during the next week, receive tuning orders at Pampa Music Co. in rear of Thornton's Dry Goods Store. Adv.

A Waterloo, Iowa, dealer seized an artificial limb from one of his clients last week because she had failed to pay for it. The police made him return it on the grounds that it was a part of her person.

School was dismissed here Thursday and Friday on account of changes being made in the heating system in the school building. Gas will be used for heating purposes exclusively in the future, and the coal-burning appliances will be removed.

To the patrons of the Pampa Independent School District:

In view of the fact that we are needing some five hundred dollars worth of maps, charts and supplies for the first six grades; and about two hundred dollars worth of apparatus and supplies for the High School sciences, etc., we are asking that all patrons, who can and are able to do so, please give one dollar per pupil to the Parent Teachers Association. This can be done by depositing the funds in the First National Bank to the P. T. A.; and they will account for every dollar so donated. This appeal is made not only to the old, but to the new patrons, who are not paying any taxes to run this year's school. This is the critical year and we again ask that you aid us all that you can.

Sincerely,
R. C. CABELL
Sup't.

Miss Triste Lee Wilbanks of Amarillo spent Saturday in Pampa visiting her sister, Mrs. Paul F. Stewart.

Coach Verde Dickey went to Wellington last Friday where he scouted the football game.

Sheriff John R. White of Roberts County resigned his office last week and has moved with his family to his ranch in Gray County. The commissioners court of Roberts county met and appointed J. G. Ramsey, sheriff-elect, to the office.

Just as the Ford is "DIFFERENT" so must the Oil be

THE OILING system of the Ford motor is so designed that a single oil must lubricate the motor and the most intricate transmissions and brake bands.

Neither motor or transmission is designed for a special oil. It is the special oil that does the proper job of lubrication. In addition to this the Ford motor depends upon the splash system of lubricating and connecting rod bearings. This requires a viscosity lighter oil than that which can find its way be-

ween the ends of the bearings and crank checks through very small clearances.

Motors Super Motor Oil for Fords is the proper oil to do all these things—designed and refined for this special purpose. It thoroughly lubricates transmissions and brake bands, keeping them soft and pliable. This eliminates all jolting and jacking in starting and stopping.

You will actually notice the difference in the use of Motors Super Motor Oil for Fords.

MAKING AND REFINING UNDER EXCLUSIVE PATENTS

ORDINANCE NO. 69
ORDINANCE OF THE CITY OF PAMPA, TEXAS, ORDERING THE IMPROVEMENT OF PORTIONS OF CUYLER STREET AND KINGSMILL, FOSTER AND ATCHINSON AVENUES IN THE CITY OF PAMPA, ORDERING PLANS AND SPECIFICATIONS PREPARED, AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE CITY OF PAMPA: THAT, whereas the following streets in the City of Pampa are in urgent need of improvement by excavation, grading, filling and paving the same, and other work in connection therewith, including concrete curb and gutter and drains, if such be necessary; and WHEREAS, the City Council deems it necessary to improve: Cuyler Street from North property line of Brown Avenue to the North property line of Francis Ave., Kingsmill Avenue from the West property line of Cuyler to the East property line of the alley between Cuyler and Russell Streets, Kingsmill Avenue from the east property line of Cuyler Street to the West property line of the alley between Cuyler and Ballard Streets, Foster Avenue from the West property line of Cuyler Street to the East property line between Cuyler and Russell Streets, and Atchinson Avenue from the East property line of Cuyler Street to the West property line of the alley between Cuyler and Ballard Streets.

Each street or portion thereof to be improved shall be and constitute an entirely and wholly, separate and independent unit of improvement. The construction of said improvement on each particular street or portion thereof named to be improved shall be wholly and independent of the construction of any other street, or portion thereof named to be improved. The assessments to be levied on each street or portion thereof named to be improved shall be made according to the cost of on that particular street or portion thereof named to be improved, and in accordance with the benefits accruing to the property by reason of said improvements on that particular street or portion thereof named to be improved, wholly and entirely independent of the costs and of the benefits accruing by reason of improvements on any other street or portion thereof named to be improved; therefore,

BE IT ORDAINED BY THE CITY OF PAMPA: THAT A. H. Doucette, Engineer employed by the City of Pampa be and is hereby directed to at once prepare plans and specifications for said work and file same with the City Council.

That said improvements shall be of one or more of the following materials to be selected after bids are received:

3 in. Vertical Fibre Brick pavement of 5 in. concrete foundation:

Reinforced Concrete:
Rock Asphalt:

That the width of Cuyler Street and Foster Avenue is hereby fixed at seventy-two feet between curbs; the width of Kingsmill Avenue is hereby fixed at sixty feet between curbs and the width of Atchinson Avenue is hereby fixed at fifty feet between curbs.

THAT the cost of said improvements shall be paid as follows: to-wit: (a) The owners of property abutting upon the said streets named to be improved shall pay the whole cost of constructing curbs and not to exceed three-fourths (3/4) of the remaining costs of such improvements:

SHE TELLS THE STORY
OF MANY OTHERS

Dr. W. E. Bushnell,
Pampa, Texas.
Dear Doctor:—About 8 years ago I was taken with a bad case of stomach trouble. I got better in Winter and worse in Spring and Summer. I suffered until I was nearly blind. I was told of medicine and found that it was for four years I tried out everything that was recommended. I was told to use Waffle Irons, Table Stoves, Table and Bed Lamps, Toasters. I used them all but I got no relief. I was told to use Waffle Irons, Table Stoves, Table and Bed Lamps, Toasters. I used them all but I got no relief. I was told to use Waffle Irons, Table Stoves, Table and Bed Lamps, Toasters. I used them all but I got no relief.

that the portion of said costs to be paid by said property owners shall be assessed against them and their property after notice and hearing provided by law and the City Charter in accordance with the benefits there to by means of said improvements, and shall be apportioned among said owners in accordance with what is known as the front foot rule, providing that in any particular case the application of said rule shall be deemed by the City Council to be unjust or unequal, then the City Council shall at the said hearing, make such apportionment on such basis as it shall decide to be substantially just, equal and uniform; that the said sums payable by the said property owners shall be payable as follows: One-third (1/3) thereof one year after the completion of the said work of improvement on the said streets and the acceptance thereof by the City; One third (1/3) thereof two years from said date, and one third (1/3) thereof three years from said date, provided that any property owner shall have the right to pay any installment before maturity by paying the amount thereof with accrued interest to the date of payment; that the deferred installment shall bear interest at the rate of eight (8) per cent per annum, and that the City will secure the same by Ordinance of assessment wherein the same shall be declared to be a lien upon the property and a personal claim or demand against the owner thereof, of which Ordinance shall provide for the maturity of all said installments upon the default in the payment of any principal or interest on any of them due, and said installments shall be evidenced by assignable certificates payable to the Contractor doing the work, and setting forth the facts in the premises.

(b) That all the remainder of the said costs of the said improvements shall be paid by the City to the Contractor doing the work upon written estimate made by the engineer at least once each month, reserving the 10 per cent from each estimate to be paid upon completion and acceptance of the work.

BE IT FURTHER BY THE CITY OF PAMPA: That the fact that the improvement of the streets herein named is being delayed pending the taking effect of this Ordinance, and that the conditions of the said portions of said streets endangers the public health, safety and property and creates an urgent necessity for the immediate preservation of public peace, property, health and safety, requiring that the rules providing that no Ordinance shall become effective until ten days after the date of its last publication and requiring that said ordinance be published once a week for two consecutive weeks in some paper published in the City of Pampa, be and the same are hereby suspended and that this ordinance shall and is hereby passed as an emergency measure, and shall take effect and be in force from and after its passage.

PASSED AND APPROVED, this 11th day of October, 1926
