VOL. 20 NO. 34

PAMPA, GRAY COUNTY, TEXAS, TUESDAY, NOVEMBER 16, 1926

Price, Five Cents

## PAVING CONTRACT IS AWARDED MANY NEW LOCATIONS MADE IN GRAY COUNTY

### STUCKEY CONSTRUCTION COMPANY IS LOW BIDDER AT \$100,940.09 AND RECEIVES PAVING CONTRACT

The City Council met Monday afternoon and voted unanimously to award the contract for paving of streets in Pampa to the Stuckey Construction Company. This company's bid on brick pavement which will be used, is \$100,940.09.

The bid of the Stuckey Co. was the lowest bid entered for brick pavement. The bids of the other companies were given careful consideration by the councilmen before any definite action was taken.

The exact date that the paving will be started is undetermined. Weather conditions are being considered as the only factor now that will determine the date.

### Santa Fe Making Improvements In The Pampa Yards

The construction of the new brick platform by the Santa Fe Railroad Co. will be started at once, according to S. W. Klein, local agent for the company. The platform when completed will be the longest one in this division. The new part to be built will extend the present platform 200 feet east. It will be built with brick.

The double track on the Santa Fe line from Canyon to Panhandle will be extended to Pampa in the future. Steel track is being laid here in the local yard almost daily, according to Klein. "We aim to develop our facilities faster than the business so that the best of service can be given at all times," says Klein. "Business is at its peak here so far in this division, and our volume of business at Pampa is at a maximum."

The new 30-inch water well of the company has been completed, and preparations are being made to move the large water tank nearer to the new well. A new water treating plant is under construction and will be completed within a short time. The new water equipment alone is costing \$100,000. "We expect the heaviest business that we have ever had on this division after the first of the year," says Klein, "and we are making the preparations for it now."

### Rig Worker Narrowly Escapes 120-ft. Fall

Lloyd Thomas, rig worker, barely escaped a 120-foot fall from the top of a derrick here Sunday in the field south of Pampa. Thomas and a fellow worker were on the derrick while a gas pole was being hoisted. When the pole was about half way up, it caught on the side of the derrick.

Thomas was thrown across the platform on top of the derrick and miraculously clung to a rail to save his life. One of his legs was skinned and bruised, and a part of his clothes were torn from his body.

### Ranchmen Ship In 10 Carloads Cattle

H. Skaggs and T. A. Hore shipped in two carloads of two-year old Hereford steers last week and have placed them on the wheat fields of their land near White Deer.

The cattle were purchased with the south plains. These may have been feeding cattle during the winter months for the past few years, and they say that they intend to keep in full stock this season.

George L. Stone of Panhandle was visiting in Pampa Friday.

Mrs. C. W. Mitchell of Elk City, Okla., has returned to her home after visiting her husband here.

### IMPORTANT NOTICE

Although this is the first issue of our Semi-Weekly Newspaper which was announced some time ago, we are not, at this time, increasing the subscription rates. The old rates will remain in effect until December 1, 1926, during which time each subscriber will have the opportunity to renew at the lower rate and the new subscribers can be placed on our mailing list at the saving of the difference between the old and the new rates. Effective December 1, 1926, the rates will be increased fifty cents per subscription per year. The present rates are \$2.00 per year in Texas and \$2.50 per year outside the state of Texas.

You are urged to take advantage of this saving, and thereby carry on with us in our efforts to serve Pampa and its surrounding territory. You, as a subscriber to your home town paper, showing your interest in things that affect the community as a whole, are promoting the best interest of the community. We appreciate your subscription and cooperation.

### Shipments Of Oil From Pampa Show A Rapid Increase

Approximately 1500 carloads of oil have been shipped from Pampa during the past 30 days. The loading racks of the Roxana Co. and the British-American oil Co. have been completed and the oil exportations are expected to make a rapid increase.

About 50 carloads of wheat are still being shipped each month, as well as 35 or 40 carloads of young livestock.

The shipments into Pampa, as well as the exports, are increasing daily.

### Slayer is Captured After Long Search

Paul Morrelos, confessed slayer of J. E. Newberry of Goodnight, was captured early Saturday morning as he was entering Claude. He shot Veri Hundley, a citizen of Claude, before he was captured. Hundley met the slayer on an open road and was shot three times in the head and chest. Morrelos was placed in the Amarillo jail for safe keeping. Threats of mobbing were made, and the jail was placed under armed men.

Morrelos quarreled with Newberry over wages, according to reports, and then shot and escaped. A posse was formed at once, but the slayer was not encountered until early Saturday morning.

### Service Is Crippled When Poles Go Down

The heavy snow between Canadian and Shaddock on the Santa Fe line caused considerable trouble and delay to the Railway Company last week. Snow plows were employed to clear off the track.

The wind blew down 50 telegraph poles on the line, which crippled the service here and at other places along the line.

### Jumping Jack Tire Shop To Open Soon

Dawson and MacMillan have let a contract to O. A. Davis for a \$2,500 brick building on West Foster Avenue. The Jumping Jack tire shop will open for business as soon as the building is completed, which will be in less than 30 days.

Both Dawson and MacMillan moved to Pampa from Denver, Colorado.

J. N. Duncan made a business trip to White Deer last Tuesday. Hugh Isbell came to Pampa last Saturday where he transacted business.

Mrs. Grace Bunting and children of Mattuck, Okla., are visiting Mrs. Katie Vincent and family.

### SEVERAL OFFSETS HAVE BEEN MADE TO THE JACKSON WELL; NEW PIPELINE IS COMPLETED

Many new locations have been made in the south part of Gray County during the past few days. Several offsets to the Jackson well have been made and it is rumored that many more will be made within the next few days.

The Sinclair Pipeline Co. has completed a four-inch flow line to the Parks well on the Jackson lease and will care for the oil from that immediate district.

The oil from the Jackson well is reported to be of high quality. Development of the acreage around LeFors will no doubt be rapid for the next few weeks.

The Pulaski Oil Company of Tulsa, Oklahoma has made an offset to the Jackson well. Their location is in the northeast corner of section 61, block B-2.

The Prairie Gas and Oil Co. is making a location in the Southwest quarter of section 60, block 3. This is also an offset to the Jackson well.

The British American Oil Co. is preparing to drill in the east half of the northeast quarter of the southwest corner of section 55, block 3.

A proposed location has been made by the Marland Oil Company in section 17 on the Chaney farm. This is an offset to the Roxana well.

Another offset to the Roxana well is being made by the Magnolia Oil Co. in the southeast quarter of section 10, block 3. Another offset to the same well is being made in section 11, block 3, but the Company making the location could not be determined.

The Humble Oil Co. has made a new location on the Short farm south of the Roxana well in section 17. The Texas Company is preparing to drill on the Barret place in the southeast quarter of section 131, block 3. The same Co. is also rigging up in the southeast quarter of section 137, block 3.

A new location has been made by the Empire Gas and Fuel Co. in the northwest quarter of section 19, block 1. This is on the Alex Chapman place south of LeFors.

The Cole Oil and Gas Co. is rigging up for their number 1 Williams in the southwest corner of the southwest quarter of section 17, block 1. This is about two miles south of LeFors.

The Humble Oil and Refining Co. is in the pay in their number 3 Merten in section 37, block 3. Their number four Merten in the same section and block which came in last week is reported to be making better than 150 barrels a day.

The Prairie Oil and Gas Co. has three wells in this county which are ready to bring in. Their number 3 Merten is running six and five-eighths casing at a depth of 3112. Merten number 4 is drilling at a depth past 3,27. Their number 2-A Merten well has been given a 320-quart shot to develop a fishing job.

The Gray County Petroleum Co. has spudded in on its Herndon number 1 in section 147, block 3. Eight inch casing has been pulled in the Wayshore Petroleum Company's number 1 Bradford. The hole has passed the 2700-foot mark and is now straight casing. This well is located in section 148, block B-2. Number 1 Morse of the Nabob Oil Company in Gray County is expected to come in at any time.

Several million feet of gas has been encountered and a small amount of oil has sprayed from the hole. This well is located in section 64, block 25.

Jerry Howard motored to Miami last Thursday.

W. S. Torbit passed through Pampa Friday with a herd of cattle which he purchased from the Jordan and Brown ranch. He was taking them to his ranch 14 miles east of here.

J. N. Duncan made a business trip to White Deer last Tuesday. Hugh Isbell came to Pampa last Saturday where he transacted business.

Mrs. Grace Bunting and children of Mattuck, Okla., are visiting Mrs. Katie Vincent and family.

### Program Is Given After Parade Here On Armistice Day

Armistice Day here was celebrated by a parade of school children, followed by an appropriate program given at the American Legion Hall at 11 o'clock. The following is the program that was given:

GENERAL SONG—America.  
INVOCATION—By the Rev. W. M. Baker.

READING—Mrs. T. F. Morton  
ADDRESS—By the Rev. F. H. Tippen.  
INSTRUMENTAL SOLO—Mrs. Tom Ross

ADDRESS—Col. Henry C. Richmond  
READING—Virginia Rose  
READING—Frances Campbell

CLOSING PRAYER—By the Rev. James Todd, Jr.  
"I am proud of the spirit of America," said Rev. Tippen in addressing the audience, "and I am glad that this true spirit is being held up by the schools. I want to point out the unselfish attitude that our country has taken in every war in which we have been engaged."

"By following the stars and stripes," he continued, "we follow history, and from the study of this history we become better citizens. I believe that it is very important that the teachers in our schools always teach history with the point in mind that a correct study of history will make us better citizens."

"The Pilgrims came here because of a desire for freedom, because of the desire to worship according to the dictates of their own conscience. They brought with them the spirit of liberty."

"Our first war was fought with an unselfish motive. If the British had treated the newcomers as they should, there would have been no Revolutionary war. The British taxed the colonists, but would not allow them representation. The British forced the war on; the American feeling of liberty would not permit such action to continue."

"In the war of 1812 we still have no selfish motive. The British used our citizens and forced them to fight against the French. Again it was for freedom that we entered another war."

"We might often wonder how the Americans have always won out in all the contests with the odds against them such and every time. I believe that it is God that has always guided us to victory, and because we were always on the right side and fighting for an unselfish motive."

"Next we come to the Civil War, the saddest page in all our history. Now that it has been years since the contest between our own people, we have all come to love the North, and we have all come to love the South."

"When we fought the Mexican War there is still no unselfish motive. The people who lived in this territory wanted to join the Union. The people of Texas acted of their own accord. They had reached a point where they were sufficiently organized to govern themselves. We did not fight the Mexican War to

PROGRESSIVE RED CROSS CAMPAIGN FOR HEALTH

Public Health Nursing, Nutrition and Home Hygiene Work Cover the Country.

Important contributions to public health were made by the American Red Cross through its Public Health Nursing Service, Nutrition Service, and its instruction in Home Hygiene and Care of the Sick.

The United States Public Health Service estimates that adequate rural health nursing services would cost \$24,000,000 annually, but would save a billion dollars in value of human life, earning power, and economic conservation.

The Red Cross, through its nutrition service, taught thousands what to eat for health. In this country, 24 States were served with from one to ten Red Cross Chapter nutrition programs in each State.

During the school year an average of 15,418 individuals a month, including parents, teachers, pre-school, and school children, were assisted to a better knowledge of food in its relation to health, and how to apply it to their daily lives.

The Annual Roll Call for Membership from November 11 to 25 is an invitation to all persons to assist in maintenance of such services through another year by enrolling in the American Red Cross.

RED CROSS SERVICES SHOW UPWARD TREND

Disaster Relief, Veterans' Aid Foremost in Fiscal Year. Services All Vital.

Expenditures by the American Red Cross for the last year showed a mounting curve as compared with those for the preceding year—\$11,892,889.33 as against \$10,321,679.50.

The disaster relief figures do not include the Florida operations, which occurred after the end of the fiscal year. In addition to the work for disabled veterans, the Red Cross continued its work on behalf of men in the Regular Army and Navy and Marine Corps.

The enrolled nurses' reserve, from which nurses for disasters and other emergencies are called, cost \$17,352,408, entirely by the National Headquarters. Public Health Nursing, a part of the Red Cross program of national health work, cost \$206,323.

The Red Cross campaign to reduce deaths from accidents and drowning, conducted by the First Aid and Life-Saving Service, called for \$352,335, and has shown tangible results in lives saved annually.

The Junior Red Cross, one of the foremost peace influences in the world, was carried on at a cost of \$581,952. All local Chapter activities of the Red Cross cost \$223,000, while other domestic operations of the Red Cross, borne by National Headquarters, amounted to \$358,950.

The remainder of the fiscal year's expenditures were accounted for by disaster and foreign operations, of which the American Red Cross served, amounted to \$287,976. Unpaid Red Cross Societies, \$180,000; Junior Red Cross foreign projects, \$74,000; assistance to transfer Chapters, \$60,000; other disaster and foreign work, \$54,700; supervision of service activities and general management, \$370,267.

The total expenditures for the year ended June 30 last were \$22,000,000. National Organization, \$7,200,000; local Chapters, \$14,800,000. In the Fourth Annual Roll Call, November 15 to 25, the public is invited to share in this vast work done in their name by enrolling in the American Red Cross in numbers.

ORDINANCE NO. 62 ORDINANCE OF THE CITY OF PAMPA, TEXAS, ORDERING THE IMPROVEMENT OF POSTER AVENUE IN THE CITY OF PAMPA, ORDERING PLANS AND SPECIFICATIONS PREPARED, AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE CITY OF PAMPA: THAT, whereas, the following street in the City of Pampa is in urgent need of improvement by excavating, grading, filling and paving the same, and other work in connection therewith, including curb, gutter and drains, if such be necessary; and

WHEREAS, the City Council deems it necessary to improve Poster Avenue from the east property line of Russell street to the east property line of Summerville street.

The street or portion thereof to be improved shall be and constitute an entirely and wholly separate and independent unit of improvement. The construction of said improvements on each particular street or portion thereof named to be improved shall be wholly independent of the construction of any other street or portion thereof named to be improved. The assessments to be levied on each street or portion thereof named to be improved shall be made according to the cost of the improvement on that particular street or portion thereof named to be improved, and in accordance with the benefits accruing to the property by reason of said improvements on that particular street or portion thereof named to be improved, wholly independent of the costs and of the benefits accruing by reason of the improvements on any other street or portion thereof named to be improved.

BE IT FURTHER ORDAINED BY THE CITY OF PAMPA: That A. H. Ducette, engineer employed by the city of Pampa be and is hereby directed to at once prepare plans and specifications for said work and file the same with the City Council.

That said improvements shall be of one or more of the following materials to be selected after bids are received: 3 inch Verticle Fibre Brick pavement of 5 inch concrete foundation. Reinforced Concrete. Rock Asphalt.

That the cost of improvements shall be paid as follows: to-wit: (a) The owners of property abutting upon the said streets named to be improved shall pay the whole cost of construction of curbs, and not to exceed three-fourths (3/4) of

the remaining costs of such improvements; that the portions of said costs to be paid by said property owners shall be assessed against them and their property after notice and hearing provided by law and the City Charter in accordance with the benefits thereto by the means of said improvements, and shall be apportioned among said owners in accordance with what is known as the Front Foot Rule providing that if in any particular case the application of the said rule shall be deemed by the City Council shall, at the time of said hearing, make such apportionment upon such basis as it shall decide to be substantially just, equal and uniform; that the said sums payable by the said property owners shall be payable as follows: one thirds (1-3) thereof one year after the completion of said work upon the improvements upon the said streets and the acceptance thereof by the City: One-third (1-3) thereof two years from said date, and one-third three years from said date, provided that any property owner shall have the right to any installment before maturity by paying the amount thereof accrued interest to date of payment; that the deferred installments shall bear interest at the rate of eight (8%) per cent per annum, and that the city will secure the same by Ordinance of assessment wherein the same shall be deemed to be a lien upon the owner of the property and a personal claim or demand against the owner thereof. Each Ordinance shall provide for the maturity of all the said installment upon default in the payment of any principal or interest or any of them when due, and said installments shall be evidenced by assignment certificates payable to the Contractor doing the work, and setting forth the facts in the premises.

(b) That all the remainder of said costs of the said improvement shall be paid by the City to the Contractor doing the work upon written estimates made up by the Engineer at least once each month, reserving 10% from each estimate to be paid upon completion and acceptance of the work.

BE IT FURTHER ORDAINED BY THE CITY OF PAMPA: That the fact that the improvement of the streets herein named is being delayed pending taking effect of

this Ordinance, and that the condition of said portions of said streets endangers the public health, safety and property and creates an urgent public necessity for the immediate preservation of public peace, property, health and safety, requiring that the rules providing that no ordinance shall be passed on the day on which it shall be introduced, and providing that no Ordinance shall become effective until ten days after its publication and requiring that said ordinance be published once a week for two consecutive weeks in some newspaper published in the City of Pampa, be and in the same are here by suspended and that this ordinance shall be and is hereby passed as an emergency measure, and shall take effect and be in force from and after its passage.

Passed and approved, this 2nd day of November, 1926.

F. P. REID, Mayor of the City of Pampa. M. A. TURNER, City Secretary

NOTICE OF ROAD BOND ELECTION

STATE OF TEXAS, COUNTY OF GRAY.

To the resident property taxpayers voters of Gray County, Texas: TAKE NOTICE that an election will be held on the fourth day of December, 1926, within Gray County, Texas, to determine if said county shall issue bonds and if a tax shall be levied in payment thereof, in obedience to an election order entered by the commissioners court on the first day of November, 1926, which is as follows:

On this the first day of November, 1926, the commissioners court of Gray County, Texas, convened in Special Session, at the regular meeting place thereof in the courthouse at Lefors, Texas, the following members of the court, to-wit:

- T. M. Wolfe, County Judge. C. W. Bowers, Commissioner of Precinct No. 1. Thomas O. Kirby, Commissioner of Precinct No. 3. M. M. Newman, Commissioner of Precinct No. 4.

Being present, came on to be considered the petition of E. L. Hedrick and one hundred twenty-four (124) other persons, praying that bonds be issued by said Gray county in the sum of \$1,500,000.00 bearing a rate of interest to be fixed by the commissioners court not exceeding five and one-half (5 1/2 %) percent, maturing at such times, as may be fixed by the commissioners court, serially or otherwise, not to exceed thirty years from date thereof, for the purpose of constructing, maintaining and operating macadamized, graveled or paved roads and trunpikes, or in aid thereof, and whether or not a tax shall be levied upon the property of said Gray county, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity, and praying that the funds derived from the sale of said bonds be expended according to the following schedule:

- Highway No. 33, otherwise known as the Southwest Trail, 14 miles at \$16,500.00 per mile, or \$231,000.00. Highway No. 75, otherwise known as the Postal Highway, 22 miles at \$14,000.00 per mile, or \$308,000.00. Highway No. 88, otherwise known as the Clarendon Highway, 12 miles from Pampa, South, at \$16,500.00 per mile, or \$198,000.00. Highway No. 33-A, otherwise known as the Fort Elliot Highway, 8 miles, from Pampa, East at \$16,000.00 per mile, or \$128,000.00. Highway No. 88, otherwise known as the Clarendon Highway, 16 miles, beginning at the end of the section mentioned above, at \$7,500.00 per mile, or \$120,000.00. Highway No. 33-A, otherwise known as the Fort Elliot Highway, 20 miles, beginning at the end of the 8 mile section mentioned above, at \$7,500.00 per mile, or \$150,000.00.

The sum of \$65,000.00 to be used for the construction of lateral county roads; in addition thereto, any premium or premiums derived from the sale of said bonds to be used for the construction of lateral county roads; and

It appearing to the court that said petition is signed by more than fifty of the resident property taxpayers voters of said Gray County; and

It further appearing that the amount of the bonds to be issued will not exceed one-fourth of the assessed valuation of the real property of said Gray County; and

IT IS THEREFORE CONSIDERED AND ORDERED by the court that an election be held in said county, on the fourth (4) day of December, 1926, which is not less than thirty days from the date of this order, to determine whether or not the bonds of said county shall be issued in the amount of \$1,500,000.00, bearing interest at a rate to be fixed by the commissioners court not exceeding five and one-half (5 1/2 %) per cent, and maturing at such times as may be fixed by the commissioners court, serially or otherwise, not to exceed thirty years from date thereof, and whether or not a tax shall be levied upon the property of said county, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity; and whether or not the funds derived from the sale of said bonds shall be expended according to the following schedule:

- Highway No. 33, otherwise known as the Southwest Trail, 14 miles at \$16,500.00 per mile, or \$231,000.00. Highway No. 75, otherwise known as the Postal Highway, 22 miles, at \$14,000.00 per mile, or \$308,000.00. Highway No. 88, otherwise known as the Clarendon Highway, 12 miles

from Pampa, South, at \$16,500.00 per mile, or \$198,000.00.

Highway No. 33-A, otherwise known as the Fort Elliot Highway, 8 miles, from Pampa, East, at \$16,000.00 per mile, or \$128,000.00.

Highway No. 88, otherwise known as the Clarendon Highway, 16 miles, beginning at the end of the section above mentioned, at \$7,500.00, per mile, or \$120,000.00.

Highway No. 33-A, otherwise known as the Fort Elliot Highway, 20 miles, beginning at the end of the 8 mile section mentioned above, at \$7,500.00 per mile, or \$150,000.00.

The sum of \$65,000.00 to be used for the construction of Lateral county roads; in addition thereto any premium or premiums derived from the sale of said bonds to be used for the construction of Lateral county roads.

The said election shall be held under the provisions of article 627 in 641, inclusive, of Chapter 2, Title 18, Revised Statutes, 1911, as amended by Sectional, Chapter 203, Acts of 1917, Regular Session.

All persons who are legally qualified voters of this State and of this county and who are resident property taxpayers in this county, shall be entitled to vote at said election, and all voters desiring to support the proposition to issue bonds shall have written or printed on their ballots the words:

"For the issuance of bonds and the levying of the tax in payment thereof."

And those opposed shall have written or printed on their ballots the words:

"Against the issuance of bonds and the levying of the tax in payment thereof."

The polling places and the Presiding Officers of said election shall be respectively as follows:

- Precinct No. 1 at Lefors, the regular polling place of which is at the courthouse, with Mr. M. B. Davis as Presiding Officer; Precinct No. 2 at Pampa, the regular polling place of which is at the office of the White Deer Land Co., in the White Deer Land Co. building, with Mr. J. E. Murfee, Jr. as Presiding Officer; Precinct No. 3 at Steed, the regular polling place of which is the Grandview Schoolhouse, with Mr. Lee Fortenberry as Presiding Officer;

Precinct No. 4 at Alanreed, the regular polling place of which is the S. L. Ball Building, next door to the Post Office on the South, with Mr. S. R. Loftin as Presiding Officer;

Precinct No. 5 at McLean, the regular polling place of which is at the Office of Mr. M. L. Bentley in the West end of the Montgomery Drug Co. Building, across from the Post Office, with Mr. A. A. Callahan as Presiding Officer;

Precinct No. 6 at Laketon, the regular polling place of which is the Laketon Schoolhouse, with Mr. W. S. Paris as Presiding Officer;

Precinct No. 7 at Farrington, the regular polling place of which is the Farrington Schoolhouse, with Mr. C. C. Gillis as Presiding Officer;

Precinct No. 8 at Hopkins, the regular polling place of which is the Hopkins Schoolhouse, with Mr. W. E. Ginn as Presiding Officer.

The manner of holding said election shall be governed by the general laws of the State of Texas, regulating general elections, when not in conflict with the provisions of the Statutes hereinabove referred to.

Notice of said election shall be given by publications of a copy of this order in the Pampa News and in the McLean News, newspapers published in the county for four successive weeks before the date of said election, and, in addition thereto, there shall be posted other copies of this order at three public places in the county, one of which shall be at the court house door, for three weeks prior to said election.

The county judge is hereby directed to cause said notices to be published and posted, and hereinabove directed, and further orders are reserved until the return of said election are made by the duly authorized Election Officers and received by this court.

Given under my hand, with the seal of the commissioners court affixed, this first day of November, 1926.

T. M. WOLFE, County Judge. (SEAL) STATE OF TEXAS, COUNTY OF GRAY.

PAMPA DRUG STORE advertisement with image of a medicine bottle.

GRAY: I Charlie Thut, Clerk of the County Court of Gray County, Texas do hereby certify that the foregoing is a true and correct copy of the original order of the Commissioner's Court of Gray County, Texas, passed on the 1st day of November, 1926. As same appears of record in my office in Book 2, pages 268-269, Commissioner's Court Minutes, Gray County, Texas. Given under my hand and seal of said Court at my office in Lefors, Texas, this 1st day of November, A. D. 1926.

CHARLIE THUT, County Clerk. (SEAL) 32-4t-c

NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS: To the Sheriff or any Constable of Gray County, Greeting:

YOU ARE HEREBY COMMANDED to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Gray, State of Texas, and you shall cause said notice to be printed at least once each week for a period of ten days exclusive of the first day of publication before the return date hereof:

NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS:

To all persons interested in the estate of R. A. Burgess, Deceased, A. A. Callahan of McLean Texas has filed in the County Court of Gray County, an application for the Probate of the last Will and Testament of said R. A. Burgess Deceased, filed with said application and for Letters Testamentary.

As above stated the last will and testament of the said R. A. Burgess is filed with said application for the probate thereof, and the number of said cause is No. 191 on the Probate Docket of the County Court of Gray County, Texas.

Which will be heard at the next term of said Court, commencing on the 3rd Monday in November, A. D. 1926, the same being the 15th day of November A. D. 1926, at the Court House thereof, in Lefors, Texas, at which time all persons interested in said Estate may appear and contest said application, should they desire to do so.

HEREIN FAIL NOT, but have you before said Court on the said first day of the next term thereof this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Lefors, Texas this 23rd day of October, A. D. 1926.

CHARLIE THUT, Clerk. County Court, Gray County, Texas. 31-4t-c

WHAT'S DOING IN WEST TEXAS

Stamford—The West Texas Chamber of Commerce is making an effort to check a new form of unscrupulous hog dealers who are spreading hog cholera through their careless introduction of infected and exposed swine into West Texas and federal aid is being sought by the regional organization in the matter.

Graham—A novel storage system has solved the cotton problem for a farmer in this section. Asa Vaughan and sons of Wilbarger County are using a hay baler to put up their seed cotton as it is picked. Dispensing with the cost of ginning and storage, the cotton seed bales are to be held in Vaughan's barns during the present crisis, and will be released to the market at a later date. When ready for marketing, the cotton seed bales will be loaded and taken to the gin.

Fort Worth—The committee named by the West Texas Chamber of Commerce to investigate the cotton situation in Texas went on record at its recent meeting here as endorsing the Texas Cotton Corporation to be organized with a \$5,000,000 subscribed capital stock by a special cotton committee of the Texas Bankers Association in accordance with the plans adopted by six southern states for the retirement of 1,250,000 bales of Texas cotton. The committee also adopted a resolution relative to a plan for cotton acreage reduction in the state of Texas to an extent of not less than 25 per cent.

Ballinger—The More Feed, Food and Conservation Campaign of the West Texas Chamber of Commerce is to be launched at the Central Texas District Convention of that organization which meets here Nov. 15th. The movement for living at home and encouraging thrift through more livestock for West Texas farms, involves a contest in which prizes aggregating \$25,000 will be awarded by the Regional Chamber of Commerce to farmers in its territory.

SCHNEIDER'S Commercial Hotel advertisement with address: PAMPA - TEXAS, A First-Class Hotel, CUISINE A-1 - GOOD ROOMS

Plainsview—A new addition to the Missouri hotel here at a cost of \$5200 has been planned by its proprietor to consist of ten rooms of brick and tile construction. The improvement program will make the Missouri hotel a first rate structure, fireproof throughout.

Tulla—In line with the increasing business in the local postoffice, a second regular clerk has been employed by the Tulla postmaster.

Robert Lee—Lights in this community are to be installed upon receipt of a transformer which was ordered some time ago.

Paint Rock—A new produce house has been opened up in this section. It will handle poultry, pecans, wool, mohair, furs and other products.

Big Lake—Conditional acceptance of a bid for the construction of City Hall was made recently by the city officials, and work upon the building will start soon.

Man is never too old to look.

The people of Spearman are considering the sale of their city water and light plant.

We all ought to be as near right as we can, so right that others will find it hard to be wrong.

Some women have a good understanding, and it doesn't matter about men.

Several persons are wondering if the Pampa man who bet on Wellington last week and lost will want to place another hundred on Miami.

A preacher said to his congregation: "There is a man among us who is going with another man's wife. Unless he puts five dollars in the collection box his name will be read from the pulpit." When the box came in there were nineteen five-dollar bills in it and a two dollar bill with the note attached saying, "This is all the cash I have, but will send the other three dollars Wednesday."—Miami Chief.

AN OBJECT LESSON IN OIL

Probably no industry has ever had to meet a greater consumption demand under as rapidly changing conditions as has oil. That it has done this in an orderly fashion and has been able to hold down prices of petroleum products, even to new low levels in many instances, on top of paying taxes of "57 varieties," speaks volumes for the management of this industry.

If our oil production had been under the thumb of government domination as in most foreign countries, it is probable that we would not have had the automotive development which we have enjoyed. The deadly parallel on which to base this opinion is found in the lack of electric power and telephone service in most European countries, and the few automobiles used where government ownership and development of basic industries and natural resources prevail.

Who pays for advertising? We all know that it is the merchant that does not advertise.

A merchant can advertise a sale and often doesn't sell but a few cents cheaper than his competitor. The customer will probably spend more in gas and carfare than she will save, but what draws her to that merchant's store? The fact that he advertised.

Regular advertising also keeps the merchant's name before the public, and when in need of an article the customer never thinks of the merchant who does not advertise, or advertises spasmodically.

The merchant that does not advertise can not sell his merchandise as cheaply as the merchant that does advertise, as he does not get the volume of business and must depend upon larger profits.

The merchant that advertises can sell his merchandise for less money and offer fresher and more up-to-date stock because of the quicker turn-over.

In this day of automobiles and quick travel the customer will go miles to buy from a merchant that advertises when they could buy the same goods nearer at home. But what is the reason? The merchant at home didn't advertise the merchandise.

The merchant doesn't necessarily have to carry a full-page advertisement 52 times a year keeps his name before the public and causes the customer to pass the un-advertising merchant's store to get to the one whose name or firm name has been before her eyes so regularly and often.

The non-advertising merchant is, therefore, paying for the advertising, as he has to pay interest on carrying charges on the goods he does not sell.

ROTATION GOOD AS FERTILIZER

That crop rotation is as good in increasing soil fertility as the use of manure or commercial fertilizers has been demonstrated by numerous experiments carried on in country and England, says the U. S. department of agriculture. Furthermore, crop rotation as ordinarily practiced does not entail any additional cost. The extra yield due to this practice is therefore a profit that may be credited to the farmer's managerial ability.

Corn at the Missouri agricultural experiment station yielded 22.4 bushels per acre from cultivation alone. When the crop was manured the yield was increased by 14.7 bushels, or to 37.1 bushels per acre; when it was grown in rotation with other crops the production was 15.1 bushels greater, or 37.5 bushels per acre. When both manuring and rotation were practiced, the acre yield was increased by 25.3 or to a total of 47.7 bushels per acre.

THE BETTER RAILROAD ERA

A railroad authority, in discussing the changed attitude of the public toward the railroads, says:

"Recognition of an obligation to the public has grown upon and has been accepted by the railroads. Recognition has grown upon, and has been accepted by the public of the truth that an exercise of power carries with it a correlative obligation of justice, and that aside from justice to the carriers, the interest to the public can be served only by a policy which will enable the carriers to provide adequate and efficient transportation.

"The ownership of the railroads has passed from the few to the many. Stockholders of steam railroads in 1910 totaled 416,508. On December 31, 1925, it is estimated that there were 910,000. It would look conservative to say the total number of railroad security holders, bond and stock, is today practically 2,000,000.

"This better public understanding marks a new era in the field of transportation.

TURKEY TALK

When you select your turkey for Thanksgiving, one of the chief considerations is the amount of flesh and the quality of the body, especially on the breast, back and hips. Plenty of flesh means plenty of meat for carving, and there should be a generous amount of fat to insure a moist, tender, turkey. The French always expose a turkey in the market with the back up so the housewife can better observe how plump the bird is.

Feeling the breast or keel bone and examining the spurs or the feet may give some idea of the age of the turkey, but these tests are not infallible so far as picking out a good tender turkey is concerned. Almost any turkey can be cooked so that it is tender, but it is, of course, easier to roast a young bird. The best method of cooking a turkey is that by which the flesh is kept moist and juicy. Cooking it in a covered roaster with a little water in the bottom in a carefully regulated oven will keep it from drying out. The time for cooking varies according to the age of the turkey and its size.

The custom of having a turkey for Thanksgiving dinner dates back to the Early New England settlers, who found turkeys wild and highly recommended by the Indians. Domestic turkeys are at their prime in the fall and their size makes them suitable for serving to a good many people, so that the custom, for practical reasons has continued down to the present.

HOME OWNERS STABLE CITIZENS

A nation of home owners will never become Bolsheviks or anything like that. The ranks of such organizations do not contain those who own land and have by their own exertions built up a home. James J. Hill said many years ago that "land without population was a wilderness, and population without land is a mob."

Every encouragement should be given those who aspire to own land and build up homes for themselves and posterity, for it is the land owner who becomes the stable citizen. The Bolshevik thrives in the slum of crowded tenements in the large cities, not in the suburban or rural homes occupied by their owners.

Nowhere in America where immigrants have gone on the soil have the weeds of socialism been sprouted.

Our many millionaires who may fear for the stability of their fortunes under the upheaval of socialist theories might well divert a large percentage of their incomes to help in every way home building and land owning for the deserving and those ambitious for such safeguards as family life.

Land ownership is the key to stable citizenship, and at the same time the death knell of Bolshevism.

RECKLESSNESS AND REGULATION

Only a relatively small per cent of automobile drivers are careless. But they are sufficient in number to make driving on highways hazardous. On a Sunday or holiday many people refrain from driving because of the hazard. It is neither fair or is it necessary that careless drivers should drive others off the highway, to which anyone has an equal right.

Automobiles are safe, highways are safe and driving practices must be made safe. An oil company, operating several hundred trucks, has not had an accident or collision on the highways or at a railroad grade crossing for a number of years, although during that time its trucks crossed railroad tracks more than 31,000 times.

It selects its drivers with proper care, instructs them in safe practices and given them to understand that failure to stop look and listen before crossing a railroad track, or failure to properly observe traffic rules and safe practices on the highways, will result in dismissal from the service. It logically follows that public regulation of the same character would accomplish a like result, and with automobiles increasing in number, with proportional increase in congestion and hazard of accident, the point has been reached and the time has arrived for affirmative legislative action in this regard.

But compulsory automobile insurance is not the solution; it will not reduce accidents; it will tend to increase them by removing the last vestige of personal responsibility from persons already careless.

USE A WANT AD

NEED SOAKING UP

In the time of the Civil War they gave the soldiers a cracker called hardtack. It was pretty nearly as hard as stone, but when you soaked it up a while in cold water, it was pretty good eating. Lots of folks are just like those old time hardtacks. Gruff, outspoken sort of people they seem to be; but soak 'em up in love and they are just fine.

INSIDE INFORMATION

Why not put up some cranberry jam like all the other preserves, in sterilized glasses covered with paraffin?

Wild rabbits have a good, gamey, flavor, but the domestic rabbits are even better, and are very similar in taste to chicken.

Stout people should not wear shiny fabrics, which seem to increase their size. Soft, clinging materials should be chosen rather than stiff ones, and coarsely woven, thick or fuzzy materials should be avoided.

W. A. Taylor was in Pampa Saturday on business.

Mrs. Jim Cloud was visiting friends in Pampa Saturday.

CAN YOU BEAT IT?

Seventy people who formerly lived in Colby, Kans. are now residing in Pampa, according to L. C. Volain, a former resident of Colby. The population of Colby is about 1800, or at least that is what it was before they started moving to Pampa.

Mr. and Mrs. Harlan of White Deer visited friends in Pampa last Sunday. W. L. Woodward, manager of the Pampa Gas Co., is in Fort Worth on business.

## THE BUTTERFLIES

"HELLO, Cecropia," said the Cabbage Butterfly to the big moth, "I've got some news to tell you."

"Do tell me the news," said the big moth, whose name, as the Cabbage Butterfly had said, was Cecropia.

"How do you happen to be awake at this time of day?" asked the Cabbage Butterfly. "I thought you moths liked to rest and nap in the daytime and fly about by night."

"We do," said the Cecropia, "but the day seemed a lovely one and I like this seaside place where I am. The air

"Yes, I see," said Cecropia.

was warm and sunny and I thought I might spend the day in dozing and taking little snoozes rather than in actually sleeping."

"I see, I see," said the Cabbage Butterfly. "Well, at any rate I'm glad to have found you awake. I will feel sleepy when nighttime comes, especially after my adventures."

"Adventures?" said Cecropia. "So you've had adventures?"

"I've been to the city," said the Cabbage Butterfly, "and this is morning, too."

"Dear me," said Cecropia, "you're like a business man. I hear them talking on the porches at night and they speak of catching a boat or a train so they can go to the city in the morning and work at their business."

"Well," said the Cabbage Butterfly, "I'm like a business man perhaps as far as going to the city this morning is concerned. But not in any other way."

"For I didn't catch a boat or a train and I didn't do any work and I'm back before it is nighttime."

"So you see it is quite different."

"Yes, I see," said Cecropia.

"But I went to the city, and how strange it was. I flew up and it seemed to me that the sky was hidden. I wondered for a time if they had a sky in the city!"

"There were such high buildings. Dear me, Cecropia, they were high!"

"They were much higher than trees and as for bushes—well, bushes would get lost in the city, completely lost, Cecropia."

"Dear me," said Cecropia, "how very strange."

"Very strange indeed," said the Cabbage Butterfly. "You are right. It is very strange in the city."

"But I found at last there was a sky in the city. Yes, it was over the city just as it is over the country."

"But, dear me, Cecropia, I flew so high up and all I saw were windows of apartments and things like that."

"It was quite exciting and interesting, but no sort of a place for a butterfly to live in."

"I heard on my way home that there were nice parks where butterflies would find bushes, but I didn't happen to see any."

"And then, too, I wouldn't leave the country for anything. Some might, but not I."

"Still it was fun to see so many different sights and to have adventured into the big city with its buildings and its people."

"Dear me, Cecropia, there are lots of people in the city."

"As many as a hundred or so?" asked Cecropia.

"But I believe there are more than a hundred people in the city."

"I fancy you must be right," said Cecropia.

"Well," said the Cabbage Butterfly, "I must rest now, for I'm beginning to feel quite tired."

"I should think you would feel tired," said Cecropia, "but I'm glad you went, for it has been interesting to hear of such a visit."

"Yes, it's all right to visit the city, but I like the country for my home," ended the Cabbage Butterfly.

## Schafer Buys 71 Carloads Cattle From New Mexico

Mr. Henry Schafer returned home this week-end from a three week's buying tour of New Mexico on which he purchased 71 carloads of very fine Hereford cattle which he is having shipped to his ranch located just north of White Deer.

The large herd of cattle will be shipped into White Deer in four consignments, the first of which was received last Thursday and consisted of four carloads. The second consignment of cattle will be received on the 17th day of November. In this shipment will be 17 carloads. 35 carloads will be shipped on the 18th day of November, and 15 carloads will be received on November 28th or December 1st, stated Mr. Schafer early this week.

In the large herd of cattle just bought Mr. Schafer says that he has secured 3500 head of the finest big bone Herefords obtainable. He will place the cattle as they arrive on wheat land and in his large ranch located near White Deer, where they will be pastured and fed out during the winter months.

This is the largest consignment of cattle coming to our attention this fall and indicates that the local ranchman has great faith in ranching conditions this season.—The White Deer Review.

H. Phillips was a business visitor here Saturday.

## One Switch Controls Service For Big City

The supply of electricity for the people of San Antonio which is distributed through six substations is now controlled by a single dial switch at a central location which will control switches at most remote places. This control equipment works on the same principal as the dial on an automatic telephone, says the magazine of the San Antonio Public Service Company.

The new equipment will make it unnecessary to have operators at each of the substations to handle the switches with the varying demands for electric service.

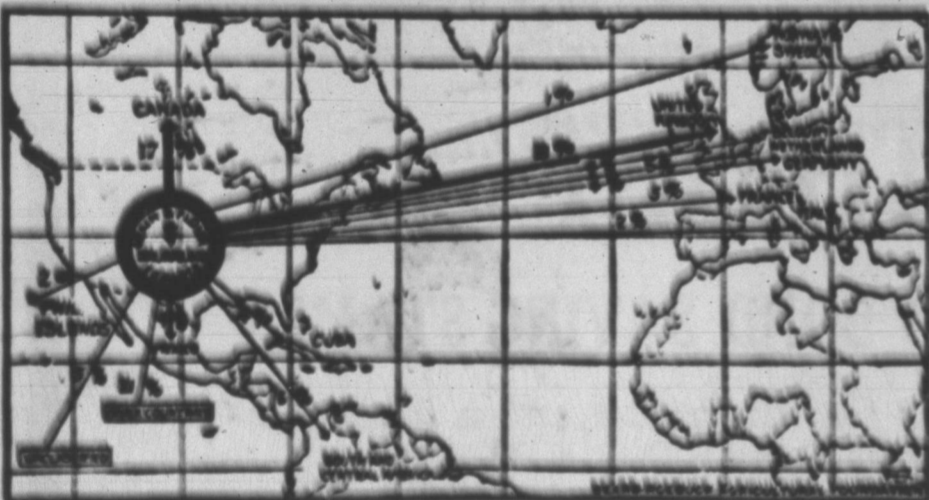

## Attempt To Lynch A Negro Unsuccessful

Memphis, Tennessee—A negro in the employ of a local hotel came near being the principal actor in a lynching here last Saturday afternoon. The reason he was not the principal actor was that he hid out and was found by the officers and taken to Clarendon where he was lodged in jail for safe keeping.

It seems that a waitress in the hotel had been insulted by the negro a few days before and told her relatives about it when they came to town Saturday. A crowd of some three hundred people gathered at the northeast corner of the square and were rather determined in finding the negro. Peace officers and others finally quieted things down, but for a while it looked as though something might be doing in Memphis.—The Memphis Democrat.

## \$262,896,309 Grain Export—Wheat and Flour Top List

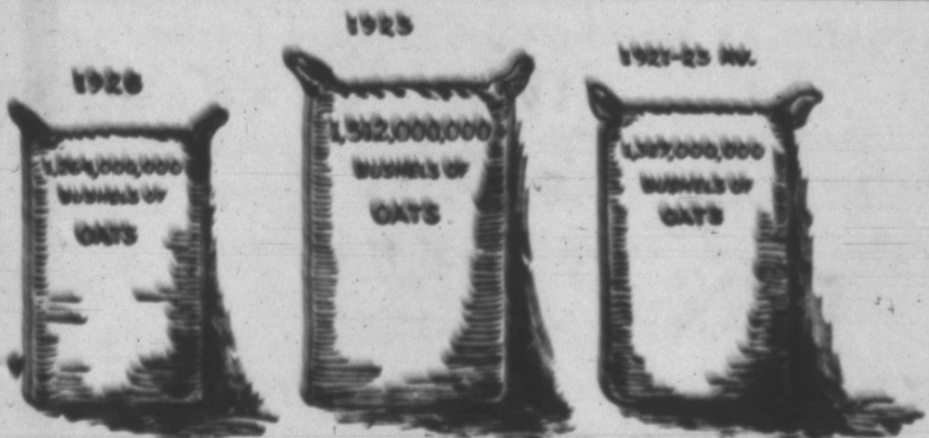

The value of grains and grain products exported from the United States in the fiscal year ending June 30, 1926, is placed at \$262,896,309 by the Sears-Roebuck Agricultural Foundation just issued. Wheat and flour topped the list, making up nearly two-thirds of the total. Other exports in the order of value were barley, corn, oats, rye and oatmeal and rolled oats.

Investigation of the export figures makes Canada appear as the second

largest receiver of American grain. This is due to the fact that much of the grain is shipped via the Great Lakes and the St. Lawrence river and is cleared to Canadian ports. The bulk of it, however, is destined for Europe. The leading buyer of American grain was Great Britain, with a record of 18 per cent of the total export. Next in order, following Canada, were the Netherlands, Cuba, Germany, Belgium, Mexico and Italy.

## Gasoline Runs Oats Out of Gas

GASOLINE has cut in on the run as a source of power on the farm, according to the Sears-Roebuck Agricultural Foundation. The increase in tractor farming and the decline in farm horses of 302,500 head from 1920 to 1925 has greatly reduced the demand for oats. The crop this year will be only 1,264,000,000 bushels, according to the latest official estimates, the Foundation states. Last year the crop totaled 1,512,000,000 bushels, while the five-year average is only 1,327,000,000 bushels. About 45,000,000 acres were devoted to oats this

year, and it is expected that the yield will be around 27.5 bushels per acre. Like corn, most of the oats is consumed by live stock. Very little of it is sold and not more than 2 per cent of the crop is exported, as a rule. Since the demand as a horse feed has declined, a larger percentage is being consumed by hogs and cattle. The carry-over from the 1925 crop was large because of the bumper crop last year and due to the general scarcity of live stock, so in spite of the short crop this year, there will be ample to meet the demand.

ORDINANCE OF THE CITY OF PAMPA, TEXAS, ORDERING THE IMPROVEMENT OF PORTIONS OF CUYLER STREET AND KINGSMILL, FOSTER AND ATCHINSON AVENUES IN THE CITY OF PAMPA, ORDERING PLANS AND SPECIFICATIONS PREPARED, AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE CITY OF PAMPA: THAT, whereas the following streets in the City of Pampa are in urgent need of improvement by excavation, grading, filling and paving the same, and other work in connection therewith, including concrete curb and gutter and drains, if such be necessary; and

WHEREAS, the City Council deems it necessary to improve: Cuyler Street from North property line of Brown Avenue to the North property line of Francis Ave., Kingsmill Avenue from the West property line of Cuyler to the East property line of the alley between Cuyler and Russel Streets, Kingsmill Avenue from the east property line of Cuyler Street to the West property line of the alley between Cuyler and Ballard Streets, Foster Avenue from the West property line of Cuyler Street to the East property line of Russel Street, Foster Avenue from the East property line of Cuyler Street to the West property line of the alley between Cuyler and Ballard Streets, and Atchinson Avenue from the East property line of Cuyler Street to the West property line of the alley between Cuyler and Ballard Streets.

Each street or portion thereof to be improved shall be and constitute an entirely and wholly, separate and independent unit of improvement. The construction of said improvement on each particular street or portion thereof named to be improved shall be wholly and independent of the construction of any other street, or portion thereof named to be improved. The assessments to be levied on each street or portion thereof named to be improved shall be made according to the cost of on that particular street or portion thereof named to be improved, and in accordance with the benefits accruing by reason of said improvements on that particular street or portion thereof named to be improved, wholly and entirely independent of the costs and of the benefits accruing by reason of improvements on any other street or portion thereof named to be improved; therefore,

BE IT ORDAINED BY THE CITY OF PAMPA: THAT A. H. Doucette, Engineer employed by the City of Pampa be and is hereby directed to at once prepare plans and specifications for said work and file same with the City Council.

That said improvements shall be of one or more of the following materials to be selected after bids are received:

- 3 in. Vertical Fibre Brick pavement of 5 in. concrete foundation;
- Reinforced Concrete;
- Rock Asphalt;

That the width of Cuyler Street and Foster Avenue is hereby fixed at seventy-two feet between curbs; the width of Kingsmill Avenue is hereby fixed at sixty feet between curbs and the width of Atchinson Avenue is hereby fixed at fifty feet between curbs.

THAT the cost of said improvements shall be paid as follows: to wit: (a) The owners of property abutting upon the said streets named to be improved shall pay the whole cost of constructing curbs and not to exceed three-fourths (3/4) of the remaining costs of such improvements;

that the portion of said costs to be paid by said property owners shall be assessed against them and their property after notice and hearing provided by law and the City Charter in accordance with the benefits there to by means of said improvements, and shall be apportioned among said owners in accordance with what is known as the front foot rule, providing that if in any particular case the application of said rule shall be deemed by the city council as unjust or unequal, then the City Council shall at the said hearing, make such apportionment on such basis as it shall decide to be substantially just, equal and uniform; that the said sums payable by the said property owners shall be payable as follows: One-third (1/3) thereof one year after the completion of the said work of improvement on the said streets and the acceptance thereof by the City; One third (1/3) thereof two years from said date, and one third (1/3) thereof three years from said date, provided that any property owner shall have the right to pay any installment before maturity by paying the amount thereof with accrued interest to the date of payment; that the deferred installment shall bear interest at the rate of eight (8) per cent per annum, and that the City will secure the same by Ordinance of assessment wherein the same shall be declared to be a lien upon the property and a personal claim or demand against the owner thereof, which Ordinance shall provide for the maturity of all said installments upon the default in the payment of any principal or interest on any of them due, an said installments shall be evidenced by assignable certificates payable to the Contractor doing the work, and setting forth the facts in the premises.

(b) That all the remainder of the said costs of the said improvements shall be paid by the City to the Contractor doing the work upon written estimate made by the engineer at least once each month, reserving the 10 per cent from each estimate to be paid upon completion and acceptance of the work.

BE IT FURTHER BY THE CITY OF PAMPA: That the fact that the improvement of the streets herein named is being delayed pending the taking effect of this Ordinance, and that the conditions of the said portions of said streets endangers the public health, safety and property

and creates an urgent necessity for the immediate preservation of public peace, property, health and safety, requiring that the rules providing that no Ordinance shall become effective until ten days after the date of its last publication and requiring that said ordinance be published once a week for two consecutive weeks in some paper published in the City of Pampa, be and the same are hereby suspended and that this ordinance shall and is hereby passed as an emergency measure, and shall take effect and be in force from and after its passage.

PASSED AND APPROVED, this 11th day of October, 1926

F. P. REID  
Mayor of the City of Pampa.

ATTEST:  
M. A. TURNER,  
City Secretary.

Mrs. Hale and daughter, Miss Williams, returned to their home in Claremore, Okla., Friday after a short visit with their son and brother, Ted Williams.

Mayor F. P. Reid has accepted a place on the tri-state fair board for the year 1927. He has represented Pampa and vicinity for the past several years on the board, and through him this vicinity has always been well represented.

Has Been Preaching More Than 50 Years

Rev. B. T. Hayes of Fort Worth is only one of the "forgotten men" who enjoyed the sessions of the annual conference of the Methodist Church at Wichita Falls last week. He has been a church member for 59 years, licensed to preach in 1873 at Waxahachie, did effective work until several years ago, when he was compelled to retire because of ill health. He is agent for the Texas Christian Advocate for the Polytechnic Methodist Congregation of Fort Worth. For 29 years his average salary was \$250.

Rev. S. W. Miller of Frisco, Texas is 80 "years young" and was also an attendant at the annual gathering of Methodists for the He has a wife and seven children and managed to "scratch" along on \$406.—Fort Worth Star Telegram.

Rev. W. M. Baker of McLean, Texas is 80 "years young" and was also an attendant at the annual gathering of Methodists for the He has a wife and seven children and managed to "scratch" along on \$406.—Fort Worth Star Telegram.

Miss Mary Vivian Cecil of the Amarillo high school faculty, and her brother, Gowan, were weekend visitors with their parents at the Cecil farm.

Mr. and Mrs. Henry Dahl returned Monday. Mr. Dahl has been on a business trip to Fort Worth, and Mrs. Dahl has been visiting friends in Amarillo. Mr. Dahl is representative for the Smith Co.

Mrs. B. L. McCandies of Redmond Beach, California departed for her home after visiting her sister and brother-in-law, Mr. and Mrs. L. J. Williams of the Radio News Stand.

Ben White returned from Oklahoma City Friday where he accompanied his wife who underwent an operation. Mrs. White is reported to be recovering from the operation very nicely.

SHE TELLS THE STORY OF MANY OTHERS

Dr. W. C. Roushree, Texarkana, Texas.  
Dear Doctor:—About 8 years ago I was taken with a bad case of stomach trouble. It was better in Winter and worse in Spring and Summer. I suffered from indigestion, took many kinds of medicine, but found no relief. At last your "Vitamin" met with success. It was like a new life to me. I have taken your "Vitamin" and am entirely relieved of all symptoms of indigestion. I appreciate the kindly and friendly words which you have dealt with me, for I have found everything that you told me about the treatment to be just the way you said. I want to ask all who have this disease to not put off ordering your treatment like I did for while they are waiting the terrible disease is stealing their life away.  
(Signed) Savannah Taylor, Rt. 1, Box 500, Naples, Texas.

VETERANS STILL NEED RED CROSS

Aid to Disabled Men Increases as Problems and Legislation Bring Complications.

20,000 MEN DIE EACH YEAR

Many Entitled to Benefits Still Uninformed of Just Claims to Compensation.

Eight years after the World War ends service to disabled veterans still a major responsibility of the American Red Cross.

This situation is due to the increasing problems involved and the complex character of veteran legislation. There is also an increase in numbers of "death cases" handled, as compared with claims for living veterans, though the work for the latter remains heavy.

In a majority of cases, Red Cross Chapters find their assistance is needed in helping dependents present their claims for death compensation, insurance payments, bonus, burial allowances, and other government benefits due them.

Another discovery in Red Cross assistance to veterans and their families is that many dependents of these men unquestionably entitled to Government aid, have struggled along, ignorant of their rights.

Approximately 2,658 Red Cross Chapters carry on Home Service work, in assistance to veterans and their families. The Chapters also conduct campaigns among veterans for reinstatement and conversion of their term insurance.

In the United States the Red Cross assisted an average of about 80,000 disabled veterans and their families every month in the past fiscal year. National Headquarters of the Red Cross expended \$1,851,175.15 on disabled veterans alone, and \$699,881.75 on assistance to men on active duty with the Army, Navy and Marine Corps.

Help for veterans covers many demands, from temporary aid until Government claims are adjusted or until the ex-soldier is properly hospitalized, to extending capital loans to rehabilitated veterans endeavoring to become self-supporting in business.

Contact with veterans in hospitals is maintained by Red Cross personnel which doctors agree influences the veteran's welfare and improvement. The Veterans Bureau was planned to carry on social work in its hospitals for mental cases, and in many cases the Government and the Red Cross are co-operating for the welfare of the men suffering war disabilities.

ALWAYS AT WORK TO RELIEVE DISTRESS

Since 1918 the American Red Cross has given relief to the distressed in the United States about a year before the war without a major change in the number, character, life or food. The Red Cross in each case has remained on the job until relief was complete.

That year the United States which during the war was the outstanding relief operation by the Red Cross. The Florida hurricane in September created a problem which required in proportion the disaster relief of the Red Cross.

By joining the American Red Cross every American can do his part to make the service continuously effective. The annual Red Cross drive from November 11 to 15, this year, is your opportunity.

More than 4,000 homes are visited in the American Red Cross. They are over ready to volunteer help. Every American can do his share to humanity by joining the American Red Cross during the Fourth Annual Red Cross drive, November 11 to 15.

Pampa vs. Wellington

The Pampa team scored a touchdown in the first three minutes of play. The ball was taken from their own thirty yard line to Wellington's thirty-yard line by completing a pass, and a series of effective line plunges completed the remaining distance. Goal was kicked.

Pampa kicked off and Wellington recovered the ball on their own 20 yard line. Wellington hit the line for two small gains. They fumbled the following play and kicked the next. Pampa returned the ball to their own 35 yard line. They attempted a pass but were off side.

The next pass was completed for a 15 yard gain. Two end runs were for a gain of 15 yards. It was Pampa's ball on the five yard line. They gained one yard on the next play and lost three on the next. They attempted a drop kick but failed.

Quarter, Pampa 7 Wellington 0. It was Wellington's ball on their own 20 yard line. Wellington made 20 yards by an end run. They failed to make the next down and it was Pampa's ball on their own 43-yard line. Pampa made a gain of 8 yards in two tries and kicked. Wellington recovered the ball on their own 20 yard line. They failed to gain through the line and kicked. The ball went out of bounds at the 50 yard line. It was Pampa's ball in the center of the field. They made a gain of 15 yards in two tries, then made a 35 yard end run for a touchdown. The extra point was kicked and the whistle for the half blew.

Pampa kicked and Wellington returned the ball to their own 30 yard line. They gained 3 yards in two line plunges and completed a pass for a ten yard gain. Pampa intercepted the next pass. Pampa failed to complete a pass, but gained 30 yards around the end the next play. Pampa gained 17 yards through the Wellington line the next two plays. It was Pampa's ball with two more yards to go. The ball went over the next play and the goal was kicked. Score, Pampa, 21, Wellington 0.

Wellington received Pampa's kick on their own 20 yard line. They made 17 yards in the next two plays. The third quarter ended with Wellington holding the ball on their own 37 yard line. Score, Pampa 21 Wellington 0.

Wellington kicked and recovered the ball from Pampa the next play. Wellington passed and Pampa intercepted and made a 40 yard open field run. They failed to gain the next two downs and tried to drop kick without success. It was Wellington's ball on their own 20 yard line. Wellington made a first down in the next two plays. Wellington's pass was intercepted by Pampa. Pampa failed to make the next down and it was Wellington's ball on Pampa's 37 yard line. They made a gain the next play which was intercepted and it was Pampa's ball on their own 20 yard line. A series of line plunges were made for another touchdown. The try for extra point was unsuccessful. The final whistle blew before the ball was put in play again. Final score, Pampa 27, Wellington 0.

Wellington kicked and recovered the ball from Pampa the next play. Wellington passed and Pampa intercepted and made a 40 yard open field run. They failed to gain the next two downs and tried to drop kick without success. It was Wellington's ball on their own 20 yard line. Wellington made a first down in the next two plays. Telephone Contains More Than 200 Parts

An ordinary desk telephone set, which apparently only consists of a receiver and transmitter, when taken apart will be found to have no less than 201 parts. One hundred and fourteen of these, however are small, consisting of nuts, screws, washers, bushings, insulators, etc., while the remaining 87 are those parts that are held together by the smaller units. All of these parts must be made so nearly alike that they will go into their respective places without any additional fitting. No variation in size beyond one-thousandth of an inch (plus or minus) is permissible.

With a daily output of 8500 sets in one factory, no less than 1,100,000 parts must be handled in the assembling of these instruments. To maintain the accuracy necessary 30,000 gauges are used in the manufacture and testing processes.

KNOW TEXAS

Texas produces more than one-fifth of all the natural gas gasoline made in the United States.

Texas is the largest natural gas well in the world.

Texas produces about one hundred billion feet of natural gas a year which is about one-tenth of all the natural gas produced in the United States.

Texas now leads all the states in production of petroleum. California is second.

Texas farm crops and Texas manufactured products are each valued at approximately one billion dollars a year.

Mr. and Mrs. R. V. Price and little son of Garber, Okla., have moved to Pampa to make their home. Mr. Price is manager for the Gibson Supply Co.

Postmaster At White Deer To Be Appointed

It is expected that President Coolidge will soon announce the new postmaster at White Deer, the position having been vacant for about two months following the resignation of William Massey of White Deer who held the position for a number of years.

His son, Paul Massey, appeared before the Civil Service Examining Board Wednesday and underwent an examination to determine his fitness for the place. White Deer now is rated as a fourth-class postoffice but because of the great volume of mail incidental to the oil industry at that place, is expected to be designated as a second class postoffice shortly.

—The White Deer Review.

Mrs. Joe White has returned from a ten days visit with relatives in Kansas and Nebraska.

### Athletic Director Urges Scholarship Rule Be Observed

As some high schools are members of the Interscholastic League of the University of Texas, are overlooking the necessity of strict adherence to the scholarship rule regarding football. Athletic Director Roy Henderson has called special attention to the part in school activities which the sport occupies. He says:

"Football should be fostered in the school for the good of that school, for the benefit of the students, for its citizenship training values, and for the opportunities it affords for developing character, ideals, morals and the like. It should never be conducted primarily for the purpose of interesting the patrons in the school, for the advertising of a town, or for the reputation of a coach or school official. Nor should the fans ever come first.

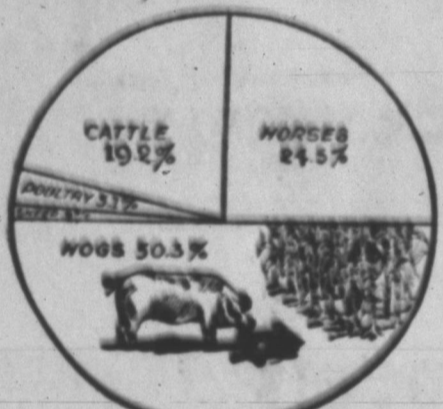

"High school football should raise the standard of scholarship. The scholarship rule is, accordingly, the most essential of all, as it is the foundation of the whole structure. A superintendent, principal, or teacher who makes the least concession to a student in applying this rule loses the greatest thing that athletics can be made to do in the school."

As there is no rule in the constitution of the Interscholastic League which cannot be met by any average high school student, a boy who cannot make a reasonable amount of scholastic work has no right to represent his school on the gridiron, Henderson believes.

Mrs. H. T. Dickens of White Deer visited friends here last Sunday.

#### Cutting Down Corn Surplus

(Sears-Roebuck Agricultural Foundation)

Whether you prefer your corn nicely buttered on the ear, or in the form of roast pork with fried apples, there are on the average 25 1/2 bushels of corn coming to each person in the United States every year, according to experts of the Sears-Roebuck Agricultural Foundation. In 1925 there was a bit more; this year there will probably be a few ears less apiece but plenty for all of us just the same.

Less than a fifth of all this corn leaves the farm. Exceeding a small fraction of the best grade that is kept out for seed purposes, 81% of those 2,850,000,000 bushels runs around on legs in the following forms: Hogs, 50.3%; horses, 24.5%; cattle, 19.2%; poultry, 5.1% and sheep, 0.9%.

#### BUFFLING OFF

THE cause for the increase of suicide among women has been variously accounted for. Some illogical reasons have said that it was because women had taken up the work of men and found it too great a strain.

That is all foolishness. The brain of the ordinary woman will stand a good deal more strain than the brain of the ordinary man before it yields to some impulse of self-destruction.

If all the problems which face each morning every wife and mother and demand solutions before nightfall were presented every twenty-four hours to the average business man he would quit inside of a month.

If he thought he had to be smilingly pleasant, as the ordinary wife, to a fault-finding companion, he would after a while begin to consider what was the easiest way out of the world and how soon he had better start on the journey.

It is not at all illogical to believe that the increase in the number of suicides among women is directly traceable to the increased prosperity among the men.

Men who a few years ago were earning moderate salaries, staying at home nights, and at the insistence of their wives and through their wives' economy saving a little of their earnings, are now making from four to ten times as much as they did then, have lost their sense of necessity for saving and acquired the idea that there are better places to spend the evenings than at home, and not infrequently have decided that there are other people more congenial than their wives.

It is pretty nearly certain that if a careful analysis were made of the circumstances surrounding the marked increase of women suicides it would be found that very many of them were led to take their lives because the increased prosperity had robbed them of their husbands.

If you know of a woman suicide, inquire as to the circumstances of her death and see if this is not true.

In the last analysis suicide is a confession of cowardice.

It says to life, "I dare not face you any longer. Your problems are too great for me. I cannot bear what you threaten and there is only one way out."

Do not ever acknowledge defeat in anything.

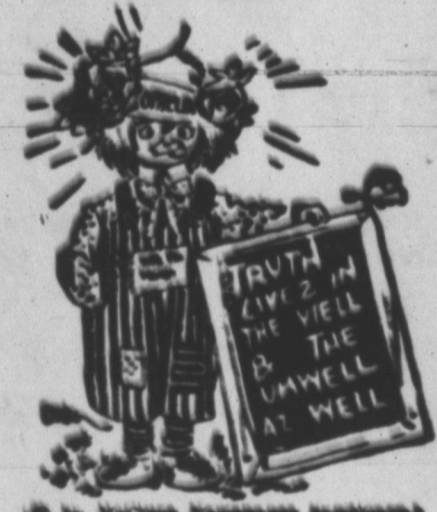

There is always a way to victory if you fight hard enough.

Suicide never earned honor or respect for any man or woman.

Live and fight. Fight and win.

That is the spirit with which to meet every problem and face every seeming disaster.

J. C. Studer of Canadian was in Pampa last week. He received a herd of steers for the Jordan and Brown ranch.

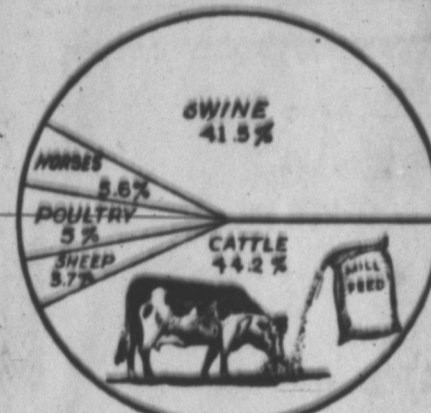

### U. S. Consumes 95 Per Cent of Natural Gas

While natural gas has been known for over 100 years in the United States, the first natural gas company was organized in 1865. It was known as the Fredonia Gas, Light and Water Company. In sixty years the natural gas industry has grown to a \$4,000,000,000 industry, with more than 66,000 miles of pipe lines serving 2000 communities and more than 3,400,000 consumers, or about 17,000,000 people—one seventh of the entire population of the entire country.

It is estimated that the United States is consuming 95 per cent of the natural gas used in the world.

George Walstad, Mr. and Mrs. King and Mrs. Marion Walstad have returned from Ft. Cobb, Okla., where they spent a week visiting.

#### Cattle Eat Our Mill Feeds

(Sears-Roebuck Agricultural Foundation)

Two-fifths of our enormous wheat crop is annually left on the farm to be fed to farm animals, according to the findings of the Sears-Roebuck Agricultural Foundation. In addition, 28% of the wheat that is shipped off or 17% of the total wheat crop comes back to the farm as mill feeds, where it is made into human food in the form of meat.

Mill feeds are a valuable and important feed item, especially in the dairy section. Cattle consume on an average 44.2% of all mill feeds. These are rich in protein and used in connection with corn and tankage make a balanced hog ration. Swine are the next greatest consumer of mill feeds, with 41.5%. Besides, 5.6% goes to horses, 5% to poultry and 3.7% to sheep.

### PROGRAM IS GIVEN AFTER PARADE HERE ON ARMISTICE DAY

gain, but we fought to give others the freedom that was rightly theirs. Our government is such an institution that it not only insures freedom to the ones who live within the bounds of the United States, but it stretches out and protects the weaker ones who are not receiving a fair deal.

"We entered the Spanish-American war because it was not right to stand by and see the Cubans mistreated. It is true that we took Cuba, but it is also true that as soon as the Cubans were able to govern themselves we gave them their own government as they wanted it. The United States Government taught them how to be independent, and gave them the stars and stripes for protection; then as soon as the Cubans were educated Old Glory was brought back to the United States and the Cuban flag was raised. Again it was the spirit of freedom that prompted the U. S. to enter into the contest."

Next we come to the World War, a war in which our entire country sacrificed. But there floats a flag over our country that is worthy of our last drop of blood, and it was in protection of this flag that our American sons and brothers gave their lives.

"The American flag floats, not only in time of war, but at all times. It is a flag of peace, not only in America, but in the entire world."

Col. Henry C. Richmond gave a short, but effective address. "I am reminded of a great array of white monuments over the graves of soldiers," he said, "and I am too reminded of the mothers and fathers, of the brothers and sisters of the boys who sacrificed their lives that we might retain our freedom."

Col. Richmond explained how many persons were agitating war at all times. He gave examples of how many persons were for peace, but would not take a definite stand for peace, and would indirectly take steps toward warfare. He drew a vivid mental picture in closing his address by reciting "The Flag."

H. B. Taylor was in Pampa last Saturday on business.

#### PRESBYTERIAN CHURCH

Services were well attended at the Legion-Hall Sunday morning. A Sunday school was organized. The following persons were elected as elders: Tom Clayton, E. S. Carr, O. D. Cobb, T. D. Hobart, B. E. Finley, W. W. Mertens, E. W. McJunkin, H. W. Johns and C. L. Mullens.

Officers and teachers for the Sunday School will be elected Nov. 28. There will be no preaching

service Nov. 21, but the Sunday School will convene at 10 o'clock in the morning. The Rev. W. M. Baker, field secretary, who is in charge of the Presbyterian Home Mission work in the Panhandle country, is away from Pampa for ten days, having been called to McLean, Crowell, Rochester and Wichita Falls. He will return next week and will continue services at the Legion Hall Nov. 28.
