PAMPA, GRAY COUNTY, TEXAS, SUNDAY MORNING, JULY 3, 1927.

PRICE FIVE CENTS.

## PETITION OPPOSES ROAD BONDS

### Commander Byrd Announces South Pole Air Cruise

#### 2 COMPANIONS TO ACCOMPANY HIM ON TRIP

**Acosta Has Broken Bone—Other Men Bruised**

#### FRENCH NEARLY CRUSH FLIERS Plane Parts Will Be Salvaged by Crew

(By The Associated Press.)  
PARIS, July 2.—"I expect to fly over the south pole and Balchen and Noville will be with me," Commander Byrd said Saturday. "My plans are not yet complete, and I cannot announce when we will start," he added.  
After undergoing the violent shock of landing, joy succeeded anguish today as Commander Byrd and his companions began taking stock, but they found that victory over adverse elements had not been gained without considerable damage to the men.  
Bert Acosta had suffered a broken collar bone, which was set in an American hospital, while Byrd, after a thorough examination by a surgeon was ordered to take a complete rest.  
It is probable that Acosta's collar bone was fractured when the American landed in the water at Yer-sur-Mer, but he cannot vouch for it as he professes to have been unaware of the injury until it was discovered this afternoon.  
It is quite possible some of the damage might have been done at St. Lazare station today when a crowd of 10,000 persons risked crushing Byrd and his companions in eagerness to get sight of them to express admiration.

(By The Associated Press.)  
PARIS, July 2.—Bert Acosta, pilot of the trans-Atlantic plane America, is suffering from a fractured clavicle and must wear his arm in a sling, it was learned today after an examination of the aviators.  
Commander Richard Byrd, leader of the expedition, was so fatigued and nervous from the strain of the flight through storm and fog that he must forego all social affairs for the next few days and devote his time to complete rest and rehabilitation.

PARIS, July 2.—Comander Richard Byrd and his three companions on the trans-Atlantic flight in the monoplane America arrived in Paris from Caen today, receiving a tremendous ovation from the crowd that filled the railroad station.  
So dense was the throng that Commander Byrd and his companions, after a short reception upon their arrival on the station platform had to fight their way to waiting automobiles, while the crowd cheered wildly and threw flowers in their path.

#### Coolidge Learns Veto of Farm Bill Not Error

(By The Associated Press.)  
RAPID CITY, July 2.—President Coolidge is receiving his first soundings on the popular reaction to his veto of the McNary-Haugen bill from friends who are coming into the Black Hills to visit him.  
Those who have mentioned the veto to him thus far have declared that while the loss of the farm bill was deplored at first in some sections, it is no longer looked upon with so much regret.  
Misses Edna and Eva Clemens of Shamrock are visiting their sister, Mrs. D. W. Tillman.

#### Grace Plane May Hop Off Today—Failed to Rise in Sun-Heated Air

(By The Associated Press.)  
MANA, Island of Kauai, Hawaii, July 2.—The hop-off for San Francisco or Los Angeles is scheduled for tomorrow by Richard Grace, who failed today to force his heavily laden plane into the air.  
The plane, weighing more than

#### First Section Of Paving Program Is Finished Here

The paving on the first part of Pampa's extension program was completed last night when East Foster avenue was opened for traffic. The work of grading the streets commenced March 4, and the first bricks laid a month later. Since that time the work has been rushed to completion.  
According to A. H. Doucette and C. A. Stuckey, work on the second section of paving will commence Wednesday morning with the grading of Russell street in front of the new Schneider hotel. This program covers the paving of nine and a half city blocks.  
When completed, the entire downtown section of the city will be paved with the exception of Russell street from Foster to Kingsmill avenue. This block has no business houses on it. About Thursday the bookkeeping department of the Stuckey Construction company will have a statement ready for publication on the amount of material used in the paving of Pampa's streets which will be interesting.

#### Supreme Court Defines Banks Of State Streams

(By The Associated Press.)  
AUSTIN, July 2.—Claim of the state to royalties from sand and gravel in river beds has been strengthened greatly by two recent Texas supreme court decisions. Will J. Tucker, state game, fish and oyster commissioner, said today.  
Vagueness of what is a river's bed and what is its bank and inability to determine dividing lines between state and private ownership has caused several controversies. To this uncertainty was added the claim of the Grubstake Oil company, involved with the state in litigation, that the state does not own beds of streams fronted by Spanish grants.  
The supreme courts state stream definition specifically empowering the department to collect royalties, reads:  
"The bed is that part of the stream alternately covered and left bare as there may be an increase or diminution in the supply of water and which is adequate to contain it at its average and mean state during an entire year without reference to extra freshets of the winter or spring or the extra droughts of the summer or autumn."  
"The banks of a stream or river are the water-washed and relatively permanent elevations or acclivities at the outer lines of the river bed which separate the bed from the adjacent upland, whether valley or hill, and serve to define the waters within the bed and preserve the course of the rivers when they rise to the highest point at which they are still confined to the channel."

#### Man to Supervise Nicaraguan Vote Named by President

RAPID CITY, July 2.—In conference with regard to the Nicaraguan peace agreement negotiated by Henry Stimson, General Frank McCoy was nominated today by President Coolidge as chairman of the commission to supervise the presidential election in Nicaragua in 1928.

4,000 pounds, careened along the rough runway and punctured the tire on one of the wheels. Before the repairs could be made the mounting sun had heated and thinned the atmosphere so that Grace's postponement for the take-off was necessary.

#### Jack Dempsey's Brother Kills His Wife, Then Self

(By The Associated Press.)  
SCHNECTADY, N. Y., July 2.—John Dempsey, 38 years old, of Los Angeles, said by police to be a brother of Jack Dempsey, former heavyweight champion, today shot and killed his estranged wife, Edna, 31 years old, then turned the gun on himself, dying almost instantly.  
The landlady, Mrs. Frank Prievio, said she was talking with Mrs. Dempsey when the latter's husband appeared. Dempsey whom she said appeared to have been drinking, engaged in an argument with his wife. The couple entered the house and the shooting followed in a few minutes.

SCHNECTADY, N. Y., July 2.—(AP)—Jock Dempsey, arrived here this afternoon from his training camp and directed his brother's body to be sent to Salt Lake City for burial.

#### Chickens Stolen From Farm House

Fifty plump Rhode Island Red hens and a number of choice fryers disappeared from George Roberts' chicken house sometime during Friday night.  
Roberts lives on the Harley Talley farm about eight miles north of Pampa. When Mrs. Roberts went out to feed the hens yesterday morning she found a door open and all the flock gone with the exception of a few chickens.  
The sheriff's department was immediately notified, but no trace of the missing poultry has been discovered.

#### Aviator Escorting Lindbergh Killed While Landing

(By The Associated Press.)  
OTTAWA, Canada, July 2.—Lieutenant Thad Johnson, a member of the escort airplanes accompanying Colonel Charles Lindbergh here, was instantly killed today when his plane crashed as he was making a landing.  
Johnson, who was stationed at Selfridge field, Detroit, was the only occupant of the plane. His home is said to have been in Texas.

#### 27 Deaths Result From Heat Wave In Michigan Cities

(By The Associated Press.)  
DETROIT, July 2.—At least 27 deaths in Michigan during the past three days has been laid to the record heat wave which has gripped the state since Wednesday. The Detroit death toll today was seventeen while ten deaths were reported, five from other Michigan cities.  
Officers of the sheriff's department visited the residence of J. W. Armstrong at Holmes City yesterday afternoon and found a ground plant which contained 36 gallons of beer. Armstrong was charged with having illegal possession of beer. He paid a fine, officers said.

#### PRODUCTION OF PANHANDLE IS OFF SLIGHTLY

1,310 Wells Average 92 Barrels Over Section

#### GRAY COUNTY TOTAL IS 9,986 Big Companies Seek Pipeline Connections Near Pampa

Panhandle production for the past week fell off 4,325 barrels in spite of the bringing in of fifteen new wells. The Panhandle total was 131,051 barrels from 1,310 wells, or an average of 92.40 barrels per well. Gray county likewise fell off somewhat, making 9,986 barrels from 139 wells. The county average was 71.84 barrels per well.  
There are about 188 wells drilling in the Panhandle, many of them in Gray and Carson counties. Production for the week before this was off 3,346 barrels. The decline represented aging wells, in part. A sharp increase in tank car shipping is noticeable, with Pampa and Borger being the heaviest shipping points. From June 12 to 19 428 cars left Pampa loading racks.  
According to the Oil and Gas company reporter for this area, pipe line companies are looking the Gray county for connections, rather than Hutchinson county.  
Hale county's wild cat, Engleking Drilling company's No. 1 Mullikan, in rank wildcat territory is still interesting oil men. The well is good for about three to ten barrels, apparently and geologists differ as to the origin and significance of the strike. Reports of Tex Thornton's half million dollar purchase there have been denied, although the well shooter is known to have bought a huge tract of leases.  
Pampa Oil company's No. 18 Worley Reynolds came in for 30 barrels last week from granite wash. It is in section 62, block 3.  
Booth and Flynn, sub-contractors laying the 20-inch pipe for the Empire Gas and Fuel company from Pampa to Kansas, have more than 100 men at work.  
The huge ditching machine, capable of ditching 7,200 feet a day excepting where roads have to be crossed, is making short work of getting ready for laying the pipe.  
The men employed on the work live in the camp situated 6 miles east of the city.

#### Acting-Governor Miller to Retire

(By The Associated Press.)  
AUSTIN, July 2.—Acting-Governor Miller, who for two weeks has been holding down Governor Moody's chair, bid it good-bye today.  
He was non-committal as to his prospects for becoming a regular occupant next year if Governor Moody does not run.

#### Miller Refuses To Help Preacher Held In Flogging Cases

AUSTIN, July 2.—Executive clemency was denied Rev. A. A. Davis, Georgetown Baptist preacher, today by acting-Governor Miller, who Thursday heard Davis' plea for relief from a two year perjury conviction in connection with the testimony in purported Ku Klux Klan flogging cases in 1925.

#### NO PAPER TOMORROW

Members of the staff of the Pampa Daily News will observe July Fourth by taking a day off and consequently no paper will be issued on the holiday.

#### MYSTIC ORDER OF PROPHETS IN MARDI GRAS

G. JEROME BRENNER  
CLEVELAND, July 2. (AP)—Three days of hilarity are in store for 50,000 members of the Mystic Order of the Veiled Prophets of the Enchanted Realm when they invade Cleveland for the thirty-eighth yearly session of the supreme council.  
Representatives from 172 grottoes will attend the meeting of the order, one of the recreational branches of the Masonic lodge.  
G. Jerome Brenner of Saginaw, Mich., deputy grand monarch, will be elevated by rotation of office to grand monarch of the realm, succeeding Judge Frederick P. Walther of Cleveland.

#### For the Bonds

The \$400,000 road bond issue, petitioned to be held in the Pampa special road district, is advocated by the following 132 persons, who signed documents filed June 13 in the county court:  
R. H. Field, M. K. Brown, F. P. Reid, Lynn Boyd, Chas. C. Cook, J. H. Blythe, C. Moore, Charles T. McCarty, C. E. Shelton, V. Platt, F. T. Mason, E. Gibson, Roy Means, Waymen A. Stevenson, C. S. Rice, James F. Young, H. W. Park, R. H. Park, S. D. Park, C. P. Buckler, C. B. Barnard, W. E. Fletcher, A. Holmes, C. F. Wood, T. H. Bowman, P. O. Saunders, John W. Poe, L. I. Williams, M. J. McGarrity, J. N. Patton.  
J. L. Lester, Clyde F. Fatheree, Roy Sewell, T. E. Rose, W. J. Brown, Ernest Medkief, Bonnie W. Rose, Earl Talley, E. F. Adams, G. H. McAllister, O. C. Perkins, L. L. Lavender, Chas. M. Spurlock, N. L. Brown, A. C. Webb, W. G. Walden, C. W. Russell, B. W. Kelly, J. H. Lavender, C. A. Schafer, P. B. Carlson, J. F. Studer, C. S. Boston, J. G. Christy, R. R. Jones, G. A. Delaplain, C. T. Hunkapillar, A. B. Keaher, L. W. Barrett, T. B. Solomon, J. W. Elliott, M. A. Graham, L. W. Webb, J. E. Chapman, W. C. Upton.  
Alex Schneider, Jr., S. L. Anderson, E. S. Graves, W. B. Henry, A. G. Post, C. G. Rogers, C. V. Gott, Margaret Schmidt, Wm. Fraser, C. W. Copeland, E. B. Stevens, C. C. Dodd, J. E. Wright, M. W. Jones, Clyde Smith, G. R. Hassell, Roy Loosler, R. E. Johnson, J. P. Younger, John B. Smith, F. E. Leach, Ike Lewis, W. W. Wallis, F. D. Eberett, Walter Butler, T. K. Underwood, A. B. White, M. E. Coxe, A. J. Crocker, L. M. Bal-  
low.

A. M. Duncan, H. Phillips, Otto C. Rice, H. A. McDonald, Mary J. Purvis, V. S. Keaher, Mrs. J. N. Strickland, O. A. Davis, I. S. Jamison, M. P. Taylor, J. R. Roley, J. E. Rea, F. A. Cary, M. S. Wise, C. C. Barrett, H. R. Kees, S. B. Kinkad, C. F. Woodward, Mrs. T. V. Lane, E. E. Pankow, C. E. Haley, B. L. Moore, A. L. Roddy, W. C. Mitchell, J. N. Strickland, Lee Graham, Joe M. Smith, C. C. Alexander, L. C. McConnell, R. S. McConnell, A. J. McAllister, John B. Ayres, L. N. Nally, Laura G. Nally, T. V. Lane, Marvin Lewis, and two illegible signatures.

#### OBJECTORS TO ELECTION ASK YEAR'S DELAY

Dividing of County Into Districts Is Decried

#### "BOOSTERS ARE TO BE BLAMED" Commissioners To Decide Whether Vote Will Be Held

A counter petition containing 86 names has been filed with the county clerk at LeFors in opposition to the holding of a district road bond election.  
The county commissioners, who recently created a special road district of which Pampa is the center, will consider this petition at their next meeting, which probably will be the regular one on the second Monday in July. The effect of the petition will be determined by the commissioners themselves, in relation to the claims presented and the attitude of those opposed to an election and those advocating one.  
The creation of a McLean special road district and the calling of an election without opposition also will affect the petition, since a favorable McLean vote will automatically divide the county into sections and preclude any possibility of a whole-county issue. The McLean election will be held July 16.  
The Pampa election has been called on the same grounds as the McLean vote—that the interests of the two sides of the county are so divergent that separate votes are expedient, and it is said the south county vote will very likely be favorable.  
The petition to halt the Pampa election, circulate in three parts, follows:  
We, the undersigned citizens and taxpayers of Gray county, take this method of expressing to you our objections to a district road bond issue, the plan which you now have under consideration. Our objections are as follows:  
1. We believe that if the county is cut into road districts and each district is bonded that it will impair the credit of the county to the extent that if the county ever wished to vote a bond as a unit it would  
(See ELECTION—Page 8, Col. 2)

#### Accidental Gun Discharge Injures Austin Citizen

(By The Associated Press.)  
AUSTIN, July 2.—Estanillado Gutierrez was badly wounded in the legs and shoulders here today when a shot from a gun discharged accidentally in the crowded market plaza.  
The gun was in the bottom of a truck and was discharged when the driver moved it.

#### Pampa Quiz

Little questions bring out interesting information. Try your knowledge on these, then turn to the answers on the last page for confirmation:  
1. What railroad project under way is advantageous to Pampa?  
2. How many affiliated credits has Pampa high school?  
3. Who did a big work in organizing the Chamber of Commerce during boom days of last year?  
4. What new factory is operating in the Wilcox pool of the Pampa oil field?  
5. What are the names of Pampa's two leading baseball teams?  
6. Who is the city attorney of Pampa?

# In the Realm of Women

SOCIETY

Mr. and Mrs. J. M. McDonald spent Friday in Amarillo.

M. A. Graham spent Saturday in Amarillo on business.

Mrs. D. V. Douglass and daughter will leave Sunday for Shreveport, La., where they will visit relatives.

Mr. and Mrs. I. B. Hughey and daughter, Miss Fern, motored to Amarillo to spend the week-end.

Jack Hunter is spending the week-end in Amarillo.

Miss Annie Laura Sawyer will spend the week-end in Canadian with friends.

Miss Elizabeth Proctor and Mrs. Jack Rine have returned from a month's vacation in Oklahoma.

Misses Lillian and Willie Newton left Saturday evening for Erick, Okla., to spend the fourth of July.

Mr. and Mrs. H. Lewis left Saturday for Fort Worth to visit with relatives.

William Hunter of Elk City, Okla., spent Friday here on business.

Fred Massey of Elk City, Okla., was a visitor here Friday.

Mrs. W. A. Adams will leave the first part of this week for Dublin to visit with relatives and friends.

Mr. and Mrs. Ben Renshaw will spend the week-end in Amarillo.

H. C. Rush left Saturday for a short vacation in Oklahoma.

A. B. Zahn has purchased part interest in the meat market in Woodward-Lane's grocery store.

Mr. and Mrs. J. Thomas left Saturday morning for Oklahoma, where they will spend the fourth with relatives and friends.

Mr. and Mrs. Paul Hill returned Saturday from a week's vacation in Enid, Okla.

A. Judd, attorney for the Republic Supply company of Houston, spent Saturday here transacting business.

Miss Jewel Flanigan spent Friday with friends in Amarillo.

William Fraser has returned from a business trip to Dallas.

Mr. and Mrs. Lynn Boyd and little Patricia Ouell have gone to Oklahoma to spend two weeks with relatives and friends.

George Newton of Fort Worth and Marianna McAfee of Perryton are visiting Mr. and Mrs. A. B. McAfee and family.

Mr. and Mrs. C. A. Stuckey will leave today for Wichita Falls, where they will spend a few days before leaving on an overland trip to various points in California.

Mr. and Mrs. J. Warren Sparks and Mrs. Grace Higgins are spending the week-end in Wichita Falls.

Earl Stuckey of the Stuckey Construction company, is in Tulsa, Okla. He will return to Pampa Tuesday, accompanied by his wife and family.

## WOMAN EDITOR CALLS PRESS CONVENTION

OPELOUSAS, La. (AP)—Newspaper work offers women a great opportunity to serve their communities, believes Mrs. W. F. Nolan, editor and publisher of the Clarion-Progress.

"I didn't know a three-em dash from a stick of type when I began," she says, "but now my paper is ranked with the three best weeklies in Louisiana."

Besides managing her paper, she is organizing the South Louisiana Press Association, which meets in August.

## AMERICAN PAINTER HONORED IN PARIS

PARIS (AP)—The jury of the Salon of the Society of French Artists has awarded a silver medal to Mrs. Leslie Cotton, American painter, whose work is widely known in Europe and America.

Mrs. Cotton specializes in portraits and has painted some well-known people in Europe.

## CLUBS TO NAME MOST NOTABLE OF AMERICAN BUSINESS WOMEN

Left to right—Emma Dot Partridge, New York, national executive secretary; Dr. Bertha Maxwell Williams, Port, Pa., correspondent secretary; Elizabeth Fitzgerald, Salt Lake City, first vice-president. Below—Lena Madesta Phillips, New York, president.

NEW YORK (AP)—Who is America's outstanding business woman? Who is America's most noteworthy professional woman?

Although the National Federation of Business and Professional Women's Clubs admits the bewildering character of such queries, it promises that an answer will be made at the annual convention to be held July 17-22 at Oakland, California. More than 2,000 women delegates from 44 states will help answer the questions.

All states belonging to the federation have had preliminary contests within their own bounds to determine which two women they would commend most highly.

"With some 90 women, representative of every phase of business and every professional interest to choose from," says Miss Emma Dot Partridge, national executive secretary of the federation, "it may seem a formidable task. But we are all sure the choices will be satisfactory. The winners will be awarded a trip to Europe and to New York City."

Two other problems will confront the convention, says Miss Partridge. A cooperative council composed of delegates from all women's national organizations will be proposed, whose sole duty will be to eliminate duplication of efforts by existing clubs, nearly all of which cover approximately the same comprehensive field.

"Without disparaging results already obtained," she explained, "many women believe that some basis of specialization in effort should be reached.

"Why not have women lawyers concentrate, for instance, on women in jury service? On the same principle medical women could deal with health problems.

"The national council idea does not presuppose that women not engaged in particular fields must lose interest in those subjects. It merely provides a sort of clearing house of ideas and efforts. Eventually it would widen the scope of accomplishment of American clubwomen."

Expansion of the federation to international size will also be considered at Oakland. Many foreign clubs, especially in South America and in Canada, have requested membership. Clubs have been organized in Europe along the same lines as the American group, which would be absorbed if the national convention accepts the idea.

The National Federation of Business and Professional Women's clubs has a unit membership of 824 with about 47,000 women.

## CHILDREN'S HOSPITAL INSPIRED BY WOMAN

MADRAS, India, (AP)—After Dr. Muthulakshmi Ammal, a woman physician had reported to the Madras Municipal council that one third of the children of Madras Province died before they cut their teeth the council voted to investigate a children's hospital here.

"Out of 22,000 babies born each year in Madras, 8,000 die of disease," she told the council. "Eighty per cent of the mortality could be controlled."

## FEATURES FROM OTHER LANDS

### LINDBERGH PREFERS HIS OLD SILVER WATCH

PARIS (AP)—Lindbergh went back with his old silver watch in his pocket, preferring it to eight others, one a beautiful platinum timepiece from a famous European house. These were among the many gifts sent to him at the American embassy here.

The big old watch was his grandfather's and his father's, and Lindbergh spoke of it as an "old friend." It was with him in his four air accidents. "Besides," he added, "I made the chain myself." The "chain" is of leather.

### GUITRY'S WAR RECORD ATTACKED BY VETERANS

PARIS (AP)—Sacha Guitry, theatrical social pet, famous as writer and player of society comedy, has bumped up against war veterans.

Guitry, his critics remark, didn't go to war. They protest publicly against his selection as auctioneer of Marshal Joffre's great "Order of the Day" on the battle of the Marne for the benefit of the "Broken Mugs."

"Comœdia, leading theatrical newspaper, announced editorially its opposition to Guitry figuring at a veterans' benefit. It published defenses from his friends, showing he did his military service before the war and that medical boards twice rejected him during the war. Guitry's name was taken off the benefit announcement, but it took days for the storm to die down.

### PUT GERMAN AIRBRAKES ON ALL FRENCH TRAINS

PARIS (AP)—Thanks to the Dawes plan, French freight trains will have air-brakes instead of the present primitive hand-brakes. The change will take five years and will cost \$64,000,000.

The necessity for the change has long been recognized. Plans had been drawn up, but owing to lack of funds they seemed doomed to slumber until Andre Tardieu, Minister of Public Works, had the idea of using France's rights under the Dawes plan. By the program drawn up by M. Tardieu, a large part of the work will be carried out by German industry under the heading of payment in kind, and the rest by French industry.

### PARIS TRAFFIC COPS MUST LEARN TO DRIVE

PARIS (AP)—Traffic policeman of Paris who tell automobile drivers what they must do, must themselves know something of driving.

The new prefect of Police, Jean Chiappe, recently ordered traffic officers to learn to drive, so that they will realize that drivers also have troubles, and will treat them accordingly.

Commenting on this, newspapers suggested that life would be better for everyone if the small town mayors and the members of the various

city traffic commissions also would get behind the wheel of a car occasionally and see what happens when they try to obey the many regulations they adopt.

### SUGGEST STATE PROFIT FROM AUTHOR'S RIGHTS

PARIS (AP)—Government ownership of authors' rights after a certain period is proposed again in France as a new source of revenue. Chambers of Commerce oppose the legislation.

The plan, sponsored by deputy Paul Constans, would give the government royalties on works that are about to become public property. Heirs in France get royalties for fifty years after the writer's or composer's death. At the expiration of the fifty years the proposed law would convey the ownership to the state and fix a royalty of 10 per cent.

### HOUSING CONDITIONS IMPROVE IN PARIS

PARIS (AP)—Police investigations show that there are at present 1,500 empty flats in Paris. This shows an amelioration of housing conditions, which have been acute since the war. Despite the number of vacant apartments the records show there is still a great shortage of houses for working class families.

A large portion of the empty flats are in de luxe apartment houses. Many of the apartments are held for sale and cannot be rented.

### HIGHER SIDEWALKS FOR SHORT SKIRTS

PARIS (AP)—Higher skirts justify higher sidewalks, say the scientific members of the city traffic commission. They think many sidewalks and the safety islands are so low as to be too easily climbed by excitable automobile drivers.

The commission delved into records and found that the sidewalk and pedestrian refuges—called in French "Foot Protectors"—were made low in days when women's skirts dragged the ground. Now that skirts are higher there seems to be no reason why women can't step a few inches higher.

### FEW OUNCES OF STAMPS WORTH MANY MILLIONS

PARIS (AP)—Probably the most valuable collection of stamps ever gathered was the recent exposition at Strasbourg during the Philatelic Congress. The few ounces of old paper were valued at 100,000,000 francs.

A commemorative issue of five and ten franc stamps, limited to 50,000, was printed by the French government in connection with the congress.

## WOMAN'S IDEA HELPS YOUNG TO FACE LIFE

(By The Associated Press.)

PHILADELPHIA—Prevention of delinquency and behavior problems in later life by helping children to "find themselves" while in school is the work that has been inaugurated in Philadelphia by Mrs. Anna Beach Pratt.

Miss Pratt, now director of the White-Williams foundation, had the idea in 1916 when she directed a special social service study at Elmira College.

After a survey of delinquency among girls she suggested going into the public schools to remedy the individual problems before they had become so acute that girls had to be sent to institutions.

"Children must be helped to find themselves before habits have become firmly fixed," says Mrs. Pratt.

"When citizens realize they may reduce the cost of crime and insanity by coordinating the work of home and school, they will place a school counselor in every school in the United States."

The Foundation now has "counselors" helping children work out their problems. They declare that maladjustment in school tends to bring about maladjustment in life. So valuable has their work proven that they are now working among schools of all grades and children of all ages.

Children without funds to continue their education are aided financially through a scholarship committee.

## BEIGE AND GRAY WORN BY ENGLISH SOCIETY

LONDON—Beige and gray are the prevailing colors women of fashion are wearing this year at the English race courses. These colors are seen in various tones, each with a different name.

Queen Mary is fond of gray and often blends it with silver. Queen Maude of Norway, in England for the racing season, prefers brown. Her sister Princess Victoria, also wears brown often, regardless of the fact

## Society Editor

MRS. JOE M. SMITH JR.

Mrs. Joe M. Smith Jr. tomorrow will become society editor of the Pampa Daily News, taking over the work of Mrs. H. C. Dahl, who with her husband, has moved to Seminole, Okla.

Mrs. Smith is well acquainted with the duties of society editor, having had that activity for several years on the Pampa News when the paper was a weekly publication. The society telephone of the Daily News will continue to be 72.

As one of Pampa's most active club women and church workers, Mrs. Smith has a wide acquaintance in the community. She is the new president of the Parent-Teachers association. Last year she was vice-president. In 1926 she helped to organize the Presbyterian church here.

that it is not among the ultra-fashionable colors this season.

The preference the Duchess of York has always shown for blues of varying shades has influenced the taste of the younger women in Great Britain so much that blue seems likely to remain in favor indefinitely.

## The Cornerstone of Prosperity

### Exhibits From Many Notions To Feature Texas Exposition

AUSTIN, July 2. (AP)—A rich variety of exhibits from far flung quarters of the globe will be on display at Foreign Exhibit hall of the Texas Exposition here October 4 to 8.

W. J. Wille, secretary-manager of the exposition, who has just returned from an eight-day trip to Houston Galveston, and other points in connection with the fair, said that very little foreign space is left.

Display booths have been contracted for by companies representing Mexico, Sweden, Japan, Hindustan, and France, while several others are negotiating.

Arrangements are being made to present a group of Hindus in an entertainment feature.

Among companies which have arranged for space recently are:

Sweden Importing company, Chicago, which, through the Swedish Chamber of Commerce at New York, is planning exhibits of Swedish marmalade candy, Swedish health bread, Swedish cheeses, sardines, and other products.

Mexican Fruit Importing company, Mexico City, promoters of the lime industry.

Companies negotiating for exhibits include:

Norway Government Railway, which intends to have an exhibit of the pleasure spots of Norway.

Jacquet company of Mexico City, displaying olive oils and fish products of France, and also Mexican products.

Building material companies from Iowa, Michigan and other states will occupy one whole building with displays of construction materials.

### Nature Study Is Matter of Theory And Facts in Camp

AUSTIN, July 2. (AP)—Literature and nature shook hands at the four-county Arrowhead Council Boy Scouts near San Marcos through the medium of 100 books furnished by the state library to 74 scouts, whose "library" was a big tarpaulin under a pecan tree, and reading table a 14 foot shelf improvised by the boys themselves.

An average of 12 books were always in use during waking hours, W. D. Bryan, scout executive, with headquarters at San Marcos, reported. The boys compared their discoveries about camp with contents of the nature lore and conducted a back-and-forth study in that connection. The books of cowboy songs they used for campfire songs.

The Arrowhead Council is composed of Hayes, Comal, Caldwell and Guadalupe counties. Besides the 74 Scouts, the encampment included 8 leaders and 4 soldier cooks.

Returning the books to the state library, Scout Executive Bryan borrowed 20 to take to the Mishimokwh camp at Uvalde.

### Good Looking Pool May Contain Germs

AUSTIN, July 2. (AP)—The "old swimming hole" of tradition is not so bad if it is properly selected and used, Dr. J. C. Anderson, state health officer said here in commenting on possibilities of typhoid in that connection.

"Many cases of typhoid fever are traceable to some swimming hole whose cool, inviting depths have lured the unwary," Dr. Anderson reminded.

"Do not take chances on entering a pool just because it looks like a good place to swim, as water may be clear and sparkling and yet contain numerous germs."

He also warned against drownings which he said could be prevented by ordinary caution, especially as to depths into which children are allowed.

Some rules he advocated are: Do not swim too soon after a hearty meal; best to wait two hours after eating.

Do not try to swim when overheated or tired.

Do not stay in water so long that you get chilled or exhausted.

Do not bath in polluted water.

Do not take chances with heavy waves.

Supervise the bathing of children.

Do not dive unless you know the water is sufficiently deep.

### TEAMS MAY PARK

DENISON, July 2. (AP)—The automobile does not hog all the parking space in this town. On one of the prominent streets a 40-foot space has been marked off and banned by sign in bold letters, "This space for teams." On the curb is a line of hitching posts.

### DAKOTA WOMAN SAVED SWANS FROM WOLVES

SYLVAN LAKE, S. D. (AP)—If President Coolidge cares to hear a tale of western wolves and bobcats during his summer vacation, Mrs. Myra K. Peters, keeper of Sylvan Lake Inn, in the Black Hills, can tell him one.

Mrs. Peters has two pet swans at the inn, a few miles from the president's vacation home. One winter evening, when the lake was frozen over but the ice offshore was fragile, the swans escaped from their pen and waddled far out onto the thin ice. Mrs. Peters, alone at the hostelry, could not coax them in. She dared not go after them lest she break through the ice.

In the rocky hills encircling the lake, wolves and bobcats caught the scent of the birds. Ravenous from lack of food, they moved in the dark toward the lake shore. Anticipating the invasion, Mrs. Peters had built a big bonfire on the bank.

"Throughout the night," she relates, "I could hear the prolonged howl of the wolves and the fear-some screeching of the bobcats. Whenever they screeched I yelled and beat a stick on the boathouse. They came almost to the lake edge but never ventured onto the ice. At dawn they slunk away."

But even daybreak did not bring the swans to shore, and for another night she kept her vigil, without sleep, guarding her pets from the preying beasts. On the second day the swans got hungry and shuffled ashore into their pens.

### CAN CROSS RIVER

BEAUMONT, July 2. (AP)—The Mississippi river can be crossed at Vicksburgh, Miss., about July 1, according to information received here. Vacationists have been informed by the chamber of commerce here that the Mississippi can be crossed at only one point at present that being Helena, Ark. Reports state that, the road to New Orleans and Baton Rouge is closed and the old Spanish Trail road is passable only to Franklin, La.

### TO RACE HOUNDS

GALVESTON, July 2. (AP)—Races between grey hounds is to begin here July 4 and add another attraction to "The Treasure Island"—races are to be run at night, the Galveston Kennels and Fair association announces. An electrically operated rabbit spurs the hounds on.

### Plans Ready To Submit On Remodeling of City Hall

The new American La Franco fire truck now rests in the fire hall on West Foster avenue, being placed there yesterday after the street was opened. From the present quarters, fire calls can be answered much more quickly than when the truck was at a garage.

Plans and specifications are ready to present for the erection of a new fire hall where the present one stands. The remodeled hall will provide quarters for the men and room for the two old fire trucks.

### RESOLUTIONS

Whereas, God in His infinite wisdom has called from our midst our beloved friend and co-worker, Mrs. Ella C. Keahey, and;

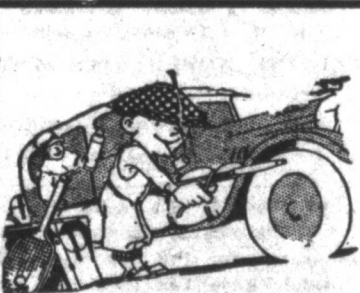

Whereas, she has been for so many years a loyal and faithful worker in the Parent-Teacher association, as well as a former teacher in the public schools of Pampa.

Therefore, be it resolved, that we, her co-workers in the association, do hereby express our profound regret at her loss, and extend to her loss, and exfamily our deepest sympathy.

And, be it further resolved, that a copy of these resolutions be published in the local papers, that a copy be spread upon the minutes of the Parent-Teachers association, and that a copy be sent to the family.

### Highway Commission Will Accompany The W.T.C.C. Motorcade

AUSTIN, July 2. (AP)—The state highway commission and R. A. Thompson, highway engineer, will be among delegates on the West Texas Chamber of Commerce "Motorcade" leaving Abilene July 1 for an eight day tour.

Thompson said today that the commissioners — R. S. Sterling, Houston, Chairman; Cone Johnson, Tyler; W. R. Ely of Abilene — and himself have accepted invitations to go on the trip.

The itinerary include numerous West Texas points from Abilene to El Paso and stops also will be made in Las Cruces and Roswell, New Mexico.

### WISH LESS RED TAPE

BROWNSVILLE, July 2. (AP)—Louis Dendon, secretary of the Matamoros, Mexico, Chamber of Commerce, announces that a general convention of border chambers along the entire frontier will be called soon to plan elimination of what is described as "a great deal of unnecessary red tape" in connection with tourist crossing the border to Mexico for short visits. Proposals to appeal to both the Mexican and American governments will be laid before the meeting, Dendon said, in a communication to the chamber of commerce here.

### Amusements

#### SAVES EYE FROM BEING PIERCED BY SWORD IN DUEL

A quick eye saved itself when Ramon Navarro fought his famous duel in "Lovers," the Metro-Goldwyn-Mayer production coming today to the Crescent theatre. For if Ramon's eye hadn't been quick he would have had a sword point through it.

His antagonist, John Miljan, slipped during the duel and his sword flew for the actor's eye. Navarro parried the flying blade with in three inches of the threatened optic.

The new Metro-Goldwyn-Mayer feature is a vivid drama of modern Spain, with Alice Terry, heroine of "Mare Nostrum" and "The Magician" in the principal feminine role, and Edward Martindel, Edward Connelly, George K. Arthur, John Miljan and other notables in the cast. John M. Stahl directed the new picture. It is a vivid modern tale based on Charles F. Nirdlinger's famous stage play of the perils of slander.

#### BREW INJURIES SHERIFF

BEAUMONT, July 2. — While destroying bottled home brew he had found in a vacant house Deputy Sheriff Allen Wheat was cut about the face by flying glass. The noise from the explosion caused a number of persons to rush to the scene in alarm.

**JUDGE LINDSEY HAS NOT FINISHED WORK**

"My work here is not done." With these words, Judge Ben Lindsey of the Denver Juvenile court sums up his retirement, which comes following ouster proceedings and the appointment of Robert W. Steele, son of a famous lawyer, to the office.

The fighting judge, whose work has drawn as much study and applause as any other jurist in American and lately as much criticism, is stepping down gracefully an aiding his successor.

Lindsey has had a great career. Young people are his subject matter. He understands them. He helps them by analyzing with them the ways of living and then balances their judgment by advocating a workable philosophy of life.

For years Lindsey's court was a model of achievement. Juvenile judges of many nations studied the methods used. The juvenile offender became, in the eyes of the law, an evidence of society's neglect of its young life, and many a boy and girl has been given a new chance to make good. The pioneering work of Lindsey assures him of an established place in history. He is on the right track.

But the judge, although a keen judge of mass thinking, in recent years made several broad errors. He began to write and speak on marriage. No subject is more dangerous. This is especially true in relation to the break-down in marriage relations. In the last few years marriage questions have begun to creep into the juvenile court. Problems of early marriages and early divorces began to demand Judge Lindsey's thought.

The marriage philosophy of the juvenile judge is an encroachment upon creeds and practices of most church groups. This fact is enough to cause a loss of prestige, and necessarily of votes. The point in the matter seems to be that the straight-laced church creeds are not popular with certain modern types of young people, with whom Lindsey has apparently allowed himself to seem in sympathy. To Lindsey, rather than see life tragedies, it is better to alter traditions to have a kind of experimental marriage, with relations to be based upon a full knowledge of life and living. His suggestion is intended to be a workable happy medium between two ex-

**WASHINGTON LETTER**

BY RODNEY DUTCHER  
NEA Service Writer.

WASHINGTON.—There is at least one government bureau in Washington which manages to be efficient and human at the same time.

No doubt there are several, but one may point with certainty to the local office of the U. E. employment service on Pennsylvania avenue.

Strangely or naturally enough, as you wish, this agency is managed by a woman, Miss Cecil R. Chittenden, with a staff of woman assistants.

Last year, without charge, these women found jobs for 30,000 persons who needed work. There are other federal employment offices over the country and many private agencies, but this one seems to be unique. It finds positions for civil engineers, architects, chemists, stenographers, secretaries, salesmen, carpenters, plasterers, machinists, lawyers, paper hangers, electricians, draftsmen, preachers, landscape gardeners, welfare workers, chauffeurs and dozens of other varieties of clerical, professional and manual workers.

From many parts of the world the temporarily jobless wind up at this bureau which the Department of Labor maintains in co-operation with the District of Columbia.

With the constant reduction of the government personnel tremes.

To the average person this position is odious. Any compromise is regarded as wickedly dangerous. But so, for that matter, is frequent divorce, which gives the effect of trial marriage. Lindsey is ahead of his time, and most of his critics hope that his time will never come.

But his monumental juvenile work will live on, despite criticism which, temporarily at least, has unseated him.

here since the war, many thousands have been faced with the necessity of job-seeking. The great majority of these have made every effort to remain in Washington, according to Superintendent Chittenden.

Their applications are not treated perfunctorily. The staff actually goes out and hunts jobs for them. Prodigious efforts are made in behalf of those who are most seriously in need of work.

Miss Chittenden finds that a person past middle age, regardless of his or her background, qualifications and experience, is "very hard to place."

Many of these come, of course. It often appears that the job-seeker had stepped out of a satisfactory job to devote his time to invalid members of the family. When the need was passed, it was difficult to rejoin the procession. Miss Chittenden pointed to one such man who had made and lost three fortunes and who had been associated with the most prominent financiers, but who was now finding difficulty in gaining even another foothold in the business world.

Occasionally a member of the former Russian nobility drifts in. Professional organizers and politicians are frequent registrants. Sometimes a new reform movement begins, solidifies in an organization with a paid executive secretary and then goes broke, leaving the executive secretary unpaid and high and dry.

University graduates are common among the stream of people which enters and leaves the agency through the day.

Miss Chittenden herself is a former newspaper woman and author from Anderson, Ind. She spent several years in the Department of Labor itself, in both employment and immigration divisions. Perhaps her best qualification is that she likes people and thinks it's a "horrible thing" to be out of a job. And she hasn't the attitude of one doling out charity.

**TWINKLES**

Yes, we must have a Secretary of Aviation, and Bill Mitchell would be a good man to congratulate our soaring youngsters.

Amarillo may not be a two-gun town, but her officials surely do not know now to

frown on smart bandits.

Hot? Cheer up, or go down state a bit and come back.

With 50 teachers, Pampa ought to be a smart place. But modern teachers are so practical they blend with the general population, which is well.

Canada has more golf links per capita than our own country, but they don't call it "golf" in winter.

"Thirty days hath Sep . . . And June had just 30 days, although some local people made it 31.

Borger may be a fast town, but they are going to have a turtle race July 4.

Well, we still are to have the thrill of a girl crossing the pond.

Definitions are slippery. Considering where some people spend much of their time, how can one say that home is where the heart is?

This level country should be popular with aviators in the future—if they can dodge the oil derricks.
