VOL. 1. NO. 86.

PAMPA, GRAY COUNTY, TEXAS, FRIDAY EVENING, JUNE 17, 1927.

PRICE FIVE CENTS.

## LINDBERGH FLIES TO ST. LOUIS

### TAXES NOT TO BE RAISED BY BOND VOTING

Pampa Is Unusually Fortunate Regarding Improvements

VOTE WILL BE HELD JULY 19

Water and Sewer Lines To Serve Whole Of City

(EDITOR'S NOTE: This is the first of a series of articles to appear in the Daily News relative to the approaching city bond election, and is intended as a matter of public information.)

Property owners in Pampa are to have the rather unusual opportunity of authorizing an expenditure of \$230,000 for public improvements without, at the same time, making it incumbent upon city officials to raise the tax rate.

The bond election called for July 19 totals \$355,000, but the voters should understand that \$125,000 of this has already been spent in the form of warrants, and the bonds to this amount will simply refund the warrants into longtime, or 30-year bonds, payable serially.

The \$230,000 actually to be expended is for much needed water and sewer extensions, and related work. How may this be spent without raising taxes?

Low Rate An Asset.

The answer is in Pampa's growth in valuations. The actual unencumbered valuations at this time are \$4,085,000, and some property—as the warehouses—is yet to be added. At the present tax rate of \$1.50—a rate unusually low for a growing city—ample funds are available for the contemplated improvements, with some to spare. Indeed, to refund the warrants, vote the sewer and water extensions, retire the old bond issue of \$80,000, and provide for the sinking funds will merely require \$1 of the \$1.50 rate. Or, in other words, the \$40,850 income yearly on the \$1 will retire all old and contemplated indebtedness, leaving 50 cents for the rate of income in the general fund.

This arrangement will leave the general fund in an excellent condition, and, taken with the water receipts, will give the city council ample monies for operating expenses, paving and similar activities.

Where will the \$230,000 be spent, and for what?

For All The City.

City Engineer A. H. Doucette is authority for the statement that the water extensions will go to every

(See VOTING—Page 8, Column 2)

### "Be a Lowbrow"

If you'd succeed as a dancer, be a lowbrow, advises Margaret Harney of E. St. Louis, Ill., dance instructor and member of the National Institute of Social Dancing. Highbrow conversation bores dance partners, she says.

### POSSE SEEKS NEGRO TODAY

Following Wounding of Farmer In Jester Community

(By The Associated Press.)

CORSICANA, June 17.—Tense feeling prevailed in the Jester community as a result of the wounding seriously yesterday of W. A. Bittner on a farm near here.

Neil Jackson, 26-year-old negro, is sought by an armed posse. He is said to have been ordered off the farm some time ago on account of previous trouble with other negroes.

### Farmers To Ask Own Price For Storage Cotton

(By The Associated Press.)

DALLAS, June 17.—To demand a price for cotton designated by the association has been agreed upon by members of the Farmers' Marketing Association of America.

T. W. Davidson, Dallas, general counselor of that body, announced today that members of the association have pledged themselves to warehouse their cotton and store it until they can secure the price they demand.

### DEPARTMENT OUTLINES CROP DEMAND OUTLOOK

WASHINGTON, June 17. (AP)—What the Agriculture Department says about domestic and foreign demand for the 1927 American grown crops:

"Domestic demand for farm products of the 1927-28 season is not likely to be materially different from the present. The domestic demand for the 1926 farm production yet to be marketed during the first half of 1927 is likely to continue less favorable than that of either the first or second half of 1926.

"Some improvement in the purchasing power of foreign countries for agricultural products of 1927 may be expected, but it is probable that larger foreign production of breadstuffs, fruits and animal products will reduce foreign demand for our exportable surpluses of these products."

I. Katch, part owner of the K. C. chain stores, is in Pampa and will remain here two months. Mr. Katch is well pleased with conditions here, and looks forward to prosperous times.

### OPINIONS ARE DIVERGENT IN LEGISLATURE

Failure of Bills In Special Session Due To This Fact

SAYS GOVERNOR LOST NO FRIENDS

Rep. Declares Some Measures Had Little Value

(By The Associated Press.)

AUSTIN, June 17.—Failure of the recent special legislature session to enact highway and civil service laws, does not denote any particular opposition to administration plans, but rather a "wide diversity of judgment among the legislators, making desired actions impossible," Rep. Leonard Tillotson of Sealy, thinks.

"The governor lost no friends and has gained many," he said.

"With the multiplicity of highway bills, some proposing radical reorganization of the highway department and its policies, it was inevitable that nothing constructive could be done," Tillotson continued.

"I introduced a bill which offered a constructive plan for strengthening and broadening of the authority of the highway commission in the development of a better correlated system of highways, with better provision for financing construction, but when a canvass disclosed the impossibilities of getting it passed without changes that would have destroyed its purpose and efficiency, I preferred not to present it in a contest with measures that dealt with either radical changes in organization or injudicious deviations from established policies.

"The failure of the bill to continue the three-cent gasoline tax after September 1, 1928, when it reverts to state is deprived of four million dollars with which to build roads next year, while numbers of counties that have been promised aid from the state must wait, and important gaps in principal highways are left unprovided for.

I regret the failure of the civil service legislation. It might be that had a more commendable and efficient measure reached the Senate, the result would have been different. Legislation establishing a state service must possess something more than a name."

Theory of the House bill sponsored by Representatives Stevenson, Kimble and Williams and killed in the Senate was that a too strict system should not be put into effect at first. Amendments strengthening the law could have been passed at a later session, the proponents said.

### Kidnaping Plot Alleged At Mary Pickford Home

(By The Associated Press.)

BEVERLY HILLS, Cal., June 17.—Armed watchmen guarded the home of Mary Pickford today.

The house is said to be marked for a kidnaping plot, according to police.

One of three men seated in an automobile near the place where Miss Pickford is working on a picture were heard to remark: "There she goes; she'll be worth \$100,000 to us."

### Another Flood Rise Approaches Peak Level Today

(By The Associated Press.)

NEW ORLEANS, June 17.—Continued rise of water in the Little river section of Arkansas has brought the level to within 2 feet of the highest stage in the first flood, reports from Blythville, Ark., to the general flood relief headquarters of the Red Cross, said here today.

### Ruling Favors Oil Men in Mexico

American oil interests in Mexico have been encouraged by the Mexican supreme court decision in 30 cases on petitions to restrain the government from enforcing the new oil laws. Chief Justice Manuel Padilla, above, is expounding a point of law during the sessions in which the cases were decided.

### Ochiltree County Wildcat Interests Oil Men Today

A gas lift is being installed in the Texas company's No. 1 McConnell, section 91, block 4, Carson county. The well has been on the pump but the company thinks production will be increased by installing a gas lift. There are few gas lifts in the Panhandle.

Much interest is being taken by oil men in the Burton No. 1, W. G. Burton in section 579, block 13, Ochiltree county. This well is nearing pay and is in wildcat territory. If a well is made it will prove an entirely new territory.

The Atlantic Oil Production company has made a new location on the Combs-Worley land in section 37, block 3, Gray county.

J. C. Neudigate, of Amarillo, has made a location on the A. Chapman holding in section 52, block 25, Gray county.

### Chaplin Reported Ready To Settle Family Dispute

LOS ANGELES, June 17.—The Times states today that it has well founded reports that Charles Chaplin is about ready to settle his marital differences with his wife for a million dollars or near that amount.

Actual negotiations toward a settlement have been resumed, the Times was informed in reports from the east.

(By The Associated Press.)

SAN FRANCISCO, June 17.—Gavin McNab, chief counsel for Charles Chaplin, today denied rumors that the comedian had reached an agreement with his wife.

### Hotel Manager Is Sentenced On Liquor Charge

John Frey, owner and manager of the Ranger Hotel here, convicted by a jury last night in the 84th district court, was given a one-year sentence in the penitentiary.

He was charged with having unlawful possession of liquor which was found by officers of the sheriff's department in a raid made February 19.

C. C. Cook, lawyer for the defendant, will appeal the case.

### PITCHER'S FATHER DIES

(By The Associated Press.)

NOCONA, June 17.—M. T. Robertson, 78 years old, father of Charley Robertson, pitcher for the Boston Braves, was found dead in his bed here today.

Heart disease is believed to have caused his death.

### BIG PLANE IS DESIGNED FOR TROOP CARRIER

Interest Centers Today In Army Test At Muskogee

ANOTHER SHIP IS A MYSTERY

Hawaii Reported Goal Of Official Fliers At Dayton

(By The Associated Press.)

MITCHELL FIELD, June 17.—Colonel Charles Lindbergh hopped off this morning for St. Louis in his monoplane, Spirit of St. Louis, after four days of unprecedented receptions in New York.

A large crowd of admirers was at the field to see him hop off. The flier expects to reach St. Louis at 4:30 o'clock this afternoon. The aviator appeared extremely tired as he answered questions of reporters. He renewed his thanks for his reception in New York, and expressed appreciation of the courtesies extended him by the army air service at Mitchell field. He thanked the press for its cooperation.

DAYTON, June 17.—The flight from Wilbur Wright field here yesterday of Lieutenants Lester Maitland and A. F. Hagenberger was for an unannounced destination, field attaches said today, and possibly has Hawaii for a goal.

The flight was awaiting the approval of Major General Patrick, chief of the army air service, it was said today.

### COUPLE TRAMP U. S. SEEKING NATIVE ARTS

NEW YORK (AP)—Carrying as baggage only sketching materials and some quaint musical instruments, Jan and Cora Gordon, noted English painters, are setting out on an expedition to discover the folk-arts of America. Mr. and Mrs. Gordon have just completed 20 exhibitions of their painting in the leading capitals of Europe.

"Traveling on foot in out of the way countries of Europe," says Mrs. Gordon, "we saw the American influence brought back by former immigrants. We are anxious to see how the cultures of the old world have changed American life.

In Sweden and Lapland, she said, nearly every peasant home is decorated with are objects of home manufacture. They also found art treasures in southern Spain and Jugoslavia.

The Gordons are authors, lecturers and musicians, as well as artists. They play on native instruments the folk-music they have gathered from all over the world.

They have been loaded with sand-equaling in weight 30 men. The men denied any intention of flying across the Pacific ocean.

### Grand Jury Will Probe Floggings In Harrison County

(By The Associated Press.)

MARSHALL, June 17.—Judge Beard today charged the special grand jury to investigate the assaults and floggings committed here last week against members of two Harrison county families.

Meanwhile, four men are being held in jail here, having been denied bond.

No motive for the floggings can be ascertained.

### Vehicles Must Have Two Tags— Trucks Must Bear Texas Plates, Declares Highway Officer Here

Warnings to Gray county motorists were given today by Hume Graves of Amarillo, state highway officer, who was here conferring with the sheriff's department.

Local officers will soon begin enforcing state laws relating to motor vehicles. Particular attention will be given to license plates, which must be used in sets, one at each end of the vehicles.

Those who have lost one plate may obtain a duplicate from the sheriff upon payment of \$1.

Out-of-state cars, after, after 30 days in Texas, must show some kind of state tag. This may be a visitor's license tag good for 60 days and obtainable for \$1. After the 60-day period is up, regular Texas licenses must be purchased and displayed. Out-of-state trucks must, without

exception, be licensed in Texas. This ruling, under a recent court decision, applies to inter-state hauling, making it necessary for Pampa-Oklahoma City truck line vehicles to have both Oklahoma and Texas license plates.

The revenue in automobiles is in the fee, and officers will enforce the license laws to the extent of the law, it was said at the sheriff's office today.

Enforcement also is of value in checking automobile thefts. Officers consider this story sufficient warning, and within a short time will begin making arrests in Gray county.

According to the highway officer, the efforts along this line in the Panhandle will amount to a campaign during the next few weeks.

### TWO WOMEN IN CREW OF SWEDISH STEAMER

BEAUMONT, June 17 (AP)—When the steamer Nils Gorthon docked here recently the tars along the water front were confronted with a sight which threw them into confusion. Two of the members of the crew were women.

Miss Ebba Dahlin, stewardess, and Miss Hilda Johansson, cook, were the two women who have carried the emancipation of their sex onto the high seas via merchant steamer.

Miss Dahlin said she signed largely because she heard the ship was coming to Texas and she wanted to see the country. Miss Johansson has been cooking for ship's crews for 19 years.

Capt. Ake Kosterman attributed the tidy appearance of his vessel to the feminine portion of his crew and explained their duties were really women's jobs and he saw no reason why women should not have them.

### Wurzbach Bill On Primary Revision Lost In Session

(By The Associated Press.)

AUSTIN, June 17.—The Wurzbach faction's bill designed to diminish control of the Creager-Nolte faction of the party in Texas by revising the method of primary elections, was one of the "casualties" of the special session of the legislature, recently adjourned.

Although the measure was reported favorably by both the Senate and House committee, it was caught in the jam of the last few days, and died on the calendar with more than 100 bills.

Congressman Harry M. Wurzbach, who disagrees with Eugene Nolte, Seguin, chairman of the state Republican executive committee, and R. B. Creager, Brownsville, Republican National committeeman, over distribution of federal patronage in Texas, appeared before the committees in advocacy of the bill.

One of the main changes it sought to make was the basis for county representation in state and district conventions, one delegate for each 25 votes, and if less than 25 were cast, one-fifth of a vote for each five votes or major faction.

Another proposed change would have provided that vacancies in the county executive committee of county chairmanship should be filled by county conventions called by five per cent of the voters of the party.

These two innovations were designed to prevent appointments by the Creager-Nolte controlled state executive committee.

Leonard Withington, secretary of the committee, told the legislature committees here, however, that the delegates basis plan would "deprive at least 78 out of 254 counties of a full delegate, and some of them of all delegates, thus breaking the universal rule that all counties shall have at least one delegate."

Regarding the county chairman question, Withington declared that 177 counties elected chairmen in the primaries last year and that 10 or 12 others were elected in precinct conventions in counties not holding primaries.

"We never appoint a county chairman, except where the local party-men persistently refuse to organize," he said.

### Locomotives Must Earn Feed Through Very Long Hauls

(By The Associated Press.)

HOUSTON, June 17.—Powerful railroad locomotives cost approximately \$90,000 and in these days of high cost of railroad operation must earn their living.

One of the important transcontinental lines passing through Houston, accomplishes it by using but two engines in hauling its trains between New Orleans and El Paso.

"An efficiency we pride ourselves on," said J. A. Power, superintendent of motive power for this particular line, "is in operation of our passenger train locomotives great distances. Not many years ago since it required seven locomotives to haul our trains between New Orleans and El Paso. On the assumption that an idle engine was a liability and only earned her feed when working, the length of the engine run was increased so that only five were required between the two terminals. These were reduced to three and finally, as at present, only two locomotives are used in the long haul of 1,193 miles—one between New Orleans and San Antonio, 573 miles, and another between San Antonio and El Paso, 620 miles. Two other trains between Houston and El Paso, 831 miles, are operated with but one locomotive each. Trains between El Paso and Los Angeles are hauled between the two cities, a distance of 850 miles, with only one engine.

"This is a great advance over old conditions, but as a powerful passenger engine costs approximately \$90,000, there is some excuse for making it earn its living."

### Maybe You Can Understand This

AUSTIN, June 17.—The Supreme court recently refused to sustain an error the trial court's ban on two special charges inconsistent with his own main charge, in affirming the case of G. W. Isbell and others, plaintiffs in error, against H. H. Lennox and other, from Red River county.

Isbell sued for damages in connection with alleged injuries to his land by construction of a dam and levee on Boggy creek.

The appeal involved a contention that two special charges prepared by plaintiff counsel should have been presented to the jury.

Nothing that the trial court's main

### OUT OUR WAY

—By Williams

charge was not challenged, the Supreme Court said "to reverse and remand a cause because the lower court refused a special charge which was inconsistent with the courts charge, is to give the special charge the status or effect of an objection to the court's charge. Either course would relieve the party of his duty of making objection to the court's charges conflicting with the main charge and the appeals court properly did not consider them."

#### STRANGE IDEA

SHERMAN (AP)—After engaging more than 100 young women to conduct baking powder demonstrations and hiring a flock of taxicabs to carry them about the city, a stranger disappeared and to date police have been unable to locate him. It is believed that the man was demented.

#### WITH LEAGUE AS SECRETARY TO ECONOMIST

GENEVA, June 17. (AP)—Diplomatic life as her environment since infancy has helped prepare Mlle. Renee de Lucy-Ferrarieu for her office of secretary to Sir Arthur Salter, director of the economic and financial section of the League of Nations.

Born in Paris, she later lived in Ceylon and in Japan where her father was French consul. Returning to Paris she worked with the ministry of foreign affairs in 1912 and was one of the three women officials who followed the French government when it moved to Bordeaux. Later she was with the American General Staff at Chaumont and with the Reparations Commissions. Mlle.

de Lucy attended both the allied conference at Spa and the International Financial conference at Brussels in 1920.

#### LONDONERS SKATED ON LARD

LONDON (AP)—Skating on artificial rinks was popular in London long before artificial ice came into existence. The "ice" at a rink opened 85 years ago was a compound of alum, soda and melted sulphur, mixed with lard.

The surface was satisfactory for figure skating, but ploughing through the cheese-like substance was too exhausting, save for the most robust, and a fall on the greasy rink was ruinous to clothing.

Each man, woman and child in the United States paid an average of \$72.56 in taxes in 1926.

## Culberson-Smalling Chevrolet Co. QUALITY AT LOW COST

## These cars stand up!

EVERY General Motors car is built to represent General Motors quality and value throughout its life. Whether its potential mileage is to be used up by one owner or several owners makes no difference.

That is the reason for the high resale value of the current series of the General Motors cars. It is also the reason why USED General Motors cars offer real opportunities.

General Motors dealers are dependable merchants and will give you, if you wish to buy out of income, the advantage of the low rates of the GMAC Plan of time payment.

The price ranges of the new General Motors cars are given below. Pick out the car which interests you most. Then clip and mail the coupon. We want to tell you all about that car and also why General Motors cars, used or new, offer real value to their purchasers.

8 models—\$525 to \$780. The quality car of the low-priced field. 3-speed transmission. Dry-disc clutch. Smooth, powerful engine. Fisher Bodies. Duco finish. Fully equipped. CHEVROLET TRUCK CHASSIS: 1/2-ton, \$395; 1-ton, \$495.

6 models—\$775 to \$975. Has largest 6-cylinder engine in its price class. Fisher Bodies. Duco finish. Beautiful, stylish lines. Value proved by unprecedented sales. PONTIAC 1/2-TON CHASSIS, \$585; with screen body, \$760; with panel body, \$770.

11 models—\$875 to \$1,190. Gratifies your finer taste. Satisfies every need. Fisher Bodies. Duco finish. 8-cylinder motor. Harmonic balancer, 4-wheel brakes and other new features.

7 models—\$1,095 to \$1,295. The "six" that is winning and holding goodwill everywhere. Fisher Bodies. Duco finish. Rubber silenced chassis and other tested improvements. 4-wheel brakes.

18 models—\$1,195 to \$1,995. Everybody knows Buick's worth. Now finer than ever. New models vibrationless beyond belief. 6-cylinder valve-in-head engine. Fisher bodies. Duco finish.

LaSalle

6 models—\$2,495 to \$2,685. The new and beautiful car designed and built as a companion car to Cadillac. Has V-type 8-cylinder engine. Bodies by Fisher. Duco finish. Now on display.

50 body styles and types—\$2,995 to \$9,000. The pioneer in the 8-cylinder field. Standard of the world. Duco finish. Bodies by Fisher and Fleetwood. 500 different color and upholstery combinations.

## "Unchanging East" Is Misnomer, As Conditions Improve Yearly Says Foreign Trade Commissioner

(By The Associated Press.)  
HOUSTON, June 17.—D. C. Bliss, United States foreign trade commissioner, will be invited to come to Texas and tell domestic exporters about conditions in the far east, Ernest L. Tutt, Houston manager of the Department of Commerce, announces.

Mr. Bliss has been in the service of the department in Tokyo, Batavia, Bombay and Alexandria for four years and has just returned to this country.

The "unchanging East" of tradition is changing steadily, according to Mr. Bliss, not only socially but economically, and adds that the process of transition from the old to the new is being accompanied by a growing demand for American products.

"Increasing world demand for the products of the Orient," he writes Mr. Tutt, "has improved the living condition of the inhabitants of the vast territory that extends from Japan to the Suez Canal. Higher wages are being paid to the natives and a surplus is thus provided for the purchase of the commodities which formerly were regarded as luxuries.

American goods are finding wider markets among people where once it was thought that bare poverty presented an insurmountable obstacle in the way of marketing such things as raisins, chewing gum, canned goods, cigarettes and dozens of other articles."

Trade contracts and interest in marketing possibilities have displaced much of the "mystery" of the east, according to Mr. Bliss. The peoples of the Orient, he says, are model-

ling themselves more and more according to the Continental and American standards and the easy tempo of tropical life is being quickened. The process is slow, the trade commissioner asserts and in many respects the wide gulf fixed by radical and climatic conditions will never be bridged but the observer, he thinks, cannot fail to be impressed by the many evidences of modern development.

American merchants and exporters, he says, are availing themselves of the opportunities presented by larger Oriental purchasing power. He has noted considerable success in marketing such American products such as petroleum products, automobile, sewing machines and many others which have been given a trade prestige through popular motion pictures. They are competing, successfully, Bliss asserts, with British products in Indian and with Dutch manufacturers in Java, even securing government contracts in those countries where once the goods of foreign countries, other than the dominating nation, were given scant consideration.

Mr. Bliss expects that this tendency will continue for many years and that eventually the tropical regions of Asia will become the great producers of raw material and of manufacturers for which cheap and abundant labor is required.

"As this development progresses," he said, "the United States will find in those regions one of the best markets for the higher grade articles, for the production of which this country has shown itself especially fitted."

## Major League Recruits Hold Spotlight With Old Timers

(By The Associated Press.)  
New York—The major league spotlight has been focused chiefly this season on the come-backs of the veterans, the feats of such warriors as Ty Cobb, Rogers Hornsby, Tris Speaker, Babe Ruth and, lately, Walter Johnson; but its rays now may be shifted to include a number of recruits who have jumped in to keep pace with the old-timers. The hopes of many newcomers have been blasted during the first two months of the baseball campaign, but from their ranks at least ten have emerged so far with the hallmarks of stardom.

The rise of none has been more dramatic than that of Lloyd Waner, 20-year-old outfielder, who jumped from the South Atlantic Association to a permanent job in Pittsburgh's outer cordon alongside his brother Paul. Lloyd was about to be turned loose during the training season when he got into a few exhibition games at San Francisco, clubbed the cover off the ball and clinched his post.

The success of Waner, obtained for the proverbial "song" by the Pirates, has been more conspicuous than that of Fred Schulte, St. Louis Browns' outfield acquisition. Schulte has, however, measured well up to the \$100-

000 price tag attached to him when he left Milwaukee.

By winning five of his first six starts, Horace Lisenbee, who came to Washington from Memphis, proved the big winner of the Senator's pitching staff during the enforced absence of Walter Johnson. Lisenbee led in the Southern Association in effectiveness last year, winning 17 games and losing 9.

Walter Stewart, a young southpaw who came to the St. Louis Browns from the Toronto Leafs, has won the confidence of Manager Dan Howley, who has made him a regular starter. Stewart won 18 and lost 9 last year in the International league and captured three of his first four starts for the Browns.

Alphonse Thomas of the White Sox won seven of his first nine games for the Sox and is ranked as the ace of the Chicago staff. Thomas really earned his spurs with the Sox late last year but his showing this season has drawn the stamp of approval from baseball men, who predict a great career for the Baltimore flash.

Willis Hudlin has warmed the hearts of Cleveland fans by his great pitching. While Uhle failed to deliver consistently at the start, Hudlin stepped in and became a consistent winner, taking five of his first six games. Hudlin is 21 years old, 6 feet tall, weighs 190 pounds and comes from Wagoner, Okla.

## War On Mosquito Declared In Texas

AUSTIN, June 17.—A 30-day war on the mosquito has been declared by the state department of health.

During June, the department will disseminate information on the most approved methods of mosquito control and seek co-operation of smaller towns in eradication programs. Most of the larger cities are fighting mosquitoes through their local health department.

"The mosquito is not only a peace disturbing pest," Dr. J. C. Anderson, state health officer, said, "but is a costly insect requiring the expenditure of several million dollars each year by citizens of the state."

"Health department figures show that there were approximately 75,000 cases of malaria in Texas last year and 143 deaths from the disease."

"The minimum financial loss of each case is estimated at \$25, which is a very low estimate."

"Sanitary science made possible the construction of the Panama Canal by elimination of the malaria menace, and malaria can be banished from every section of the state. This is not accomplished by killing mosquitoes outright, but in the elimination of their breeding places."

"Every town should have a budget set aside for mosquito control work, as money thus spent is a profitable investment. Any town desiring to start such work will be given assistance by the state health department."

## Slays Octopus

Armed with a pike pole, A. E. Hook, a diver at Port Townsend, Wash., battled an octopus on the sea's floor for an hour—and won the fight. The diver was repairing a fish net when he sighted the devilfish, which was carrying off one of five men who sank with a tugboat a few days before. The fish was cut to ribbons before the struggle was ended and Hook brought the body to the surface.

## Amusements

### AT THE REX

All the pomp and circumstances of an Old World court are embodied in "The Climbers," the Warner Bros. production starring Irene Rich, which comes to the Rex theatre Sunday.

During the reign of King Ferdinand VII, the court of Spain became guilty of prodigal expenditure, clandestine love, reckless gaiety and dark intrigue. There it was that a pitiless social "climber" caused the banishment of the beautiful Duchess of Arrogan.

Irene Rich as the Duchess has an opportunity to portray one of the most colorful and romantic roles of her career. She merges from the character of a gentle-mannered woman of high degree to the tempestuous and fiery-spirited "hell-cat" of New Spain, a woman whose mind and heart are embittered for all men.

Then into her life comes a dashing, light-hearted cavalier who lays siege to her heart with a restless and charming persistence. Discovery that she loves him also brings the revelation that he was the man who unwittingly caused her exile. Hate and love are at war in her heart.

Paul L. Stein directed and Tom Gibson wrote the adaptation of the Clyde Fitch drama. The supporting cast includes Clyde Cook, Forrest Stanley, Flobelle Fairbanks, Myrna Loy, Anders Randolph, Rosemary Cooper, Dot Farley, Hector Sarno, Joseph Striker, Max Barwin and Martha Franklin.

### AT THE CRESCENT

There is nothing unusual about a girl having two suitors, but when one is an ex-prizefighter and the other a hypochondriac, she at least has a variety that is unusual as well as startling. This is what happens to the girl in "Her Father Said No," an F. B. O. Gold Bond Special which is coming to the Crescent theatre Sunday and Monday. Father has an active dislike for pugilists, and his daughter has a healthy aversion for a crabbed and complaining youth, so the story revolves around their mutual efforts to convert one another. The girl's choice scores first by giving up his profession and buying a health resort. There he handles obese and run-down millionaires, and it is here that the Father, unaware of the owner's identity, comes for a series of treatments. From then on the comedy is a riot of mirth—for the boy's helpers are no other than Al Coowe and Kit Guard, and for all who love laughs, no more need be said. Mary Brian and Danny O'Shea play the youthful and ingenious sweethearts. The cast includes: Frankie Darro, Betty Caldwell, Eugene Stone and John Stepping. The picture was directed by Jack McKeown. The story is by the famous humorist, H. C. Witwer, and the adaptation by Al Boasberg.

A special review of the picture will be shown Saturday night at 11:15 with special music.

Sacred cows have the right-of-way in all cities in India and all motorists must await the pleasure of the privileged beasts.

WHAT ABOUT THAT VACANT CITY BLOCK?

Pampa's civic organizations are quickly starting to function for the betterment of the city, and their support of progressive measures, plus individual effort will be an important factor henceforth.

An opportunity for the organizations, singly or collectively, to accomplish a worthwhile public deed is to cooperate with the city in improving part of the vacant block opposite the city hall.

Visualize there a beautiful city hall and fire station, gracing a square of lawn set with trees, shrubs and flowers. No prettier spot could be found, and the opportunity for a miniature city park is one which local citizens should not overlook.

While it is not possible this year to build there the kind of city hall to be desired, preliminary steps toward improving the spot can be taken. City Engineer Doucette gives the suggestion that the north half or third could easily be fenced off and put in trees and grass.

Furthermore, while the south part is of much value for parking purposes, it is being misused. Huge pieces of machinery, trailers and old cars are often left there for several days at a time, making an unsightly appearance of what promises to be the beauty spot of Pampa.

Development of the north part, with perhaps the erection of a speaking pavilion and band stand, and restricting and regulating of the south portion, would be a commendable enterprise.

TWINKLES

Life in some uptown places is exasperating, as the lady said who slammed the revolving door.

These days a stripping does not mean a boy necessarily.

Some of this present-day music isn't jazz, but it is worse.

Our pampas offer fine landing fields, if the fliers don't land too hard.

A Prince of Champions

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON.—The capital city is all of a-twitter over rumors that Senator J. Boomboom McWhorter has contracted a case of presidential rabies.

The local local of the Political Wiseacres Union, at its bi-weekly meeting, voted almost unanimously that there were grounds for such a rumor and the rumor was promulgated with a union label.

Hardly any other construction, it is generally agreed, can be placed upon Senator McWhorter's ringing declaration of war against calf's-foot jelly.

Senator McWhorter came out flat-footedly. He denounced calf's-foot jelly in such scathing terms that he stamped himself as one of the most advanced dries in public life.

When the nation first heard of Senator McWhorter's opposition to calf's-foot jelly, the question was at once asked why Senator McWhorter did not direct his ammunition against pickled pig's feet. Many substantial persons expressed the opinion that pickled pig's feet should be abolished first and that calf's-foot jelly could wait.

"After copious research and consultation with the best authorities, I believe it is now fitting to declare myself upon one of the gravest issues that confronts our times.

"What is it that wiggles today like a great octopus luring our children to their destruction? What insidious institution guides them out upon the primrose path which leads first to the speakeasy, then to the gutter and then to the grave?"

"What wolf in sheep's clothing leers at them under the

guise of harmless delicacy, and beckons them toward the debauch of Backus?"

"You will be astounded, my good people, when I tell you that I refer to none other than calf's-foot jelly—the great menace which now confronts not only our youth but many of our silly grownups who believe that they can play with fire and still not be singed or worse.

"I take this opportunity to make solemn vow, by every principle which I hold dear, to let not the grass grow under my feet until this smelly jelly is all shipped back to Moscow, where it belongs."

Observers here agree that a candidate must go far to prove himself drier than Senator McWhorter.

PRESS FORUM

(From Manufacturers Record) A group of bankers visiting the Georgia State College of Agriculture were shown a Holstein cow whose milk during the course of a year actually sold for more than 19 bales of cotton would bring at 12 cents per pound. During the past year that cow produced 16,461.8 pounds of milk, weighed and recorded daily; or the equivalent of 1,914.16 gallons.

The market price of 19 bales of cotton at 12c per pound, the price at which a considerable part of the last crop changed hands, is \$1,140, or \$8.49 less than the milk from the single cow. That cow's record furnishes the starting point for some calculations that should prove interesting for every cotton planter. How does the cash productivity of a good Holstein cow compare with the cash productivity of cotton? Let every cotton farmer fill in the following questions according to his own land and local conditions, and draw his own conclusions:

1. How many acres are required to produce 19 bales of

- 2. What is the value of the land?
3. What is the cost of making the crop?
4. At the best price reasonable to expect, what is the profit?
5. How many Holstein cows could be supported on this land, supposing all possible feed for them to be grown at home?
6. What profit could reasonably be expected from such a herd?
7. If the market for whole milk is not good, what other stock could be raised on the skim milk after selling the

cream?
8. What profit could be expected in this way?
9. In view of the foregoing figures, does it seem advisable to begin withdrawing land from cotton in order to start building up a dairy herd as rapidly as money can be found for the investment?
The Augusta Chronicle, discussing this comparison said: "The lesson to be drawn is of course; obvious. For us of Georgia helplessly to talk about agriculture being prostrated when we have the cow, the hog and the hen, to say nothing of fruits, vegetables, grains, etc., to supplement cotton, is a confession of impotency and cowardice that should make us ashamed of ourselves. We need to wake up."

Sweetwater has a little Lindy, but he may not think the title very sweet.

You can't be contented these days—the ads are always suggesting some other brand of goods better than the one you are using.

If gambling spreads to the classroom, the poor frosh can hedge against flunks and save enough back to pay for matriculation in the next college.

Lots of folks are having trouble with the Rev. Brabham's name, but the boys of the Methodist church are reported to agree that he is a regular fellow. That's name enough.

If it's a constructive idea, tell it to the Daily News, folks—the home daily that's on the job 24 hours a day—if necessary—and six days a week.

Have you tried a want ad?

### Woodcarver Busy At 82

MRS. ADELAIDE SAMUELS BASSETT

LOS ANGELES, June 17. (AP)—Although past her 82nd birthday, Mrs. Adelaide Samuels Bassett is a proficient woodcarver. Several of her woodcarvings, including "Rip Van Winkle," "The Old Woman Who Lived in a Shoe," "Oliver Twist," "Hickory Dickory Dock," and many conventional designs in book ends, are exhibited here. The figures are carved with great attention to detail and require the use of specially constructed and exceedingly fine tools, which she employs deftly and without wearing eyeglasses.

"Old age need never be a deterrent to accomplishment," says Mrs. Bassett. "In the hours not employed in my professional woodcarving I am a gardener." Mrs. Bassett is also an author of several children's books and has published many poems.

### Miss Stone Has Birthday Party

Miss Adelle Stone celebrated her 15th birthday Thursday evening when she entertained a few friends at her home with dancing and games.

A most enjoyable evening was spent and at a late hour ice cream and cake were served to Hazel Fletcher, Ruby Brown, Georgia Sanders, Mable Turner, Garnet Pool, Naomi Dennis, Avis Heiskell, James Saltzman, Donald Saulsbury, J. D. Powell, Noel Reynolds, Eugene Neal, Lloyd Lowery, Henry Reynolds and Edgar Eldridge.

### Cox-Donathan Wedding At Noon

Miss Mary Cox and E. A. Donathan were married at high noon today by the Rev. A. F. Johnson, minister of the First Baptist church at Panhandle. The couple were unattended.

Mrs. Donathan is the daughter of Mrs. Sallie Cox and has been connected with the Underwood Motor company here. Mr. Donathan is the son of Mr. and Mrs. C. H. Donathan of Dustin, Okla., and is with the General Motors acceptance corporation in Pampa. The couple will make their home here.

### Mrs. Morris Finney Entertains

Mrs. Morris Finney entertained the Thursday Bridge club, also honoring her sister, Miss Marguerite McDonald, and Mrs. Lester Chiles of Fort Smith, Ark., with a breakfast at the Adams coffee shop Thursday morning.

After a delicious breakfast was served tables were arranged for bridge. Mrs. J. D. Sugg won high score club prize and Mrs. Jack Gattton second high, while Mrs. Neal McCullough won high guest prize and Mrs. W. A. Adams second high guest prize. Lovely guest prizes were presented to Miss McDonald and Mrs. Chiles.

The following members and guests were: Mesdames W. A. Adams, J. D. Sugg, Walter Coffee, Jack Gattton, Raymond Harrah, P. B. Carlson, John Studer, Robert Gilchrist, Charles Goling, Neal McCullough, Don Davis, Arthur Holloway, Lester Chiles, Miss Beiman of Wichita Falls, and Miss McDonald.

### Textbooks for Whites Kept Apart From Those for Negroes

(By The Associated Press.) AUSTIN, June 17.—State free textbooks used by white children must be kept separate from those studied by negroes in rebinding operations, bids for which will be called for soon, Dr. H. H. Harrington, chairman of the board of control has announced. Students at the Texas deaf and dumb school here will be allowed to work on part of the books, thus affording them additional opportunity to learn bindery and at the same time effecting a saving to the treasury.

### Hillsboro Students Win A. & M. Honors

(By The Associated Press.) COLLEGE STATION, June 17.—Hillsboro students in vocational agriculture won first in three out of the five major competitions in the tenth annual state Smith-Hughes A. and M. contests held here recently under the direction of the plant production, entomology and live stock divisions. Hillsboro contestants took first in three of the minor contests, these being the small grain and the propagation divisions, of the plant production competition and the insect identification division of the entomology contest. Hillsboro contestants added further to their laurels by tying the Academy school team from Little River for first place in the grain judging division of the plant production competition. On drawing for the trophy in this event, Academy won.

SIX TOES: ONE FOOT WACO (AP)—Of three kittens, belonging to Mrs. Charles Smith here, one has six toes on its two forefeet and another has five toes on all four feet.

SOME FISHERMAN PALESTINE (AP)—J. L. Thompson, age 8 years, with a troll caught three big bass, one measuring 18 inches, another 14 and one half inches and the smallest 11 inches. He brought home his catch without a boast.

ON MAMMY'S PLEA DENISON (AP)—A black mammy's eloquent plea in police court here won the freedom for her 200 pound, six-foot boy who was arraigned on a charge of affray.

### Matches Sandal

One of fashion's newest whims is a flower of kid to match the pastel kid sandal.

### FORM CLUB TO TEACH AVIATION TO WOMEN

CHICAGO, June 17. (AP)—Six women flyers of Chicago have organized a club for women who wish to learn air navigation under competent—and masculine—tutelage. There are no dues and the club will have no profits, explained Mrs. E. Lewis Campbell, president.

The sole purpose of the club is to recruit aviatrixes. Mrs. Campbell's husband heads the Chicago Flying club.

### WINS VALLEY DASH TITLES

LAWRENCE, Kans. (AP)—Lowell "Bud" Grady, University of Kansas sprinter, has taken unto himself all of the Missouri Valley conference dash titles for 1927, donning the crown worn last year by Roland Locke of Nebraska.

Grady won the conference 100-yard dash in 9.6 seconds, aided somewhat by a breeze, to equal the conference record set last year by Locke. Grady also won the conference 220-yard dash in 21.3 seconds. And to prove his right to the title of Valley speed king, he won the 50-yard indoor dash in 5.4 seconds last winter to equal the conference mark.

Grady has been anchor man on the noted Kansas sprint relay teams in the relay carnivals this spring, and also ran anchor when the Kansas team won the half mile relay at the conference meet. His feet legs were a big factor in bringing the Missouri Conference outdoor title to Kansas May 21 in the University of Nebraska stadium for the first time in 17 years.

### OFFICERS MAKE ARREST

Pampa's new police officers made their first arrest yesterday when the participants of a fistie encounter were taken into custody.

The new officers, H. C. Cottrell and J. I. Downs, have moved to Pampa to make their homes and say they wish to cooperate with the public in every way to keep law and order. They have had wide experience as police officers.

### READY TO PAVE

Indian Jim is "rarin' to go" at laying the bricks on Foster avenue. He has had about two weeks lay-off since finishing Atchison and will try to make a Pampa record on Foster avenue.

According to Mr. Stuckey, the work of "brick throwing" will commence Wednesday morning in front of the Rex theatre and should be finished on West Foster by Monday. Then comes east Foster avenue and the completion of the present contract.

### NOTICE

I am opening my studio, April 21, at Mrs. Ed Wrights, Browning and Frost avenues. For information or enrollment please call from 2 to 4 p. m.

Nina C. McKimming. (87-2tc)

See The Classified Department.

### Chenille Flower

A new flower made of loops of pink chenille and red lacquered leaves is especially suitable for a tailored suit.

**Brains and Meals**  
It takes wise planning and careful working out of plans to serve a meal delightfully. One must first study out a balanced ration—enough of sweet, enough of sour, enough of hearty, enough of light; enough of proteins, carbohydrates, vitamins and bulk. Then one must see that each dish is as it was planned to be; the hot ones hot, the cold ones cold.

It is necessary to begin in time and to estimate accurately how long it will take to prepare each dish, that they may all come out ready for the serving at the same moment. Many a meal is spoiled because it was not ready on the dot and the cook got flurried, and the rest of the household got cross while they waited.

It is not a light matter to set a table in an orderly and artistic fashion, with everything on it which is needed and nothing on it which is not needed. Have you ever been at a table when half the family were getting up in turn, to replenish the salt or sugar, or get a large spoon or a napkin. These should have been

provided in advance.  
A burned or disorderly or disappointing meal may start the family off on the wrong foot for the day. "His cook once spoiled the dinner for an Emperor of men; The dinner spoiled the temper of his Majesty and then The Emperor made history—and no one blamed the cook."

### IN DEATH CELL

BROWNWOOD (AP)—John Barleycorn is in the death cell—that's where they keep confiscated liquor at Brownwood. However, many of John's blood brothers are hiding out in the hills, the sheriff says.

### MANY CONVERTS

DALLAS (AP)—Converts to the ancient game of golf are increasing rapidly in Dallas as shown by a report issued by the park director. A total of \$11,100 was taken in at municipal golf links last month.

### AUTOMOBILE DEALERS

Bill of Sale blanks can be secured at Pampa News.

## Grays To Play Borger—Pitcher Now Available

The Grays, with Patterson, an ex-big leaguer pitching, will go to Borger Sunday afternoon to do battle with Mayor Pace's nine.

Manager Ed Guber will make several changes in the line-up and the Grays are going out to win.

The home club is in financial difficulties, which necessitates them playing away from home until funds can be raised to complete the park. If any person in Pampa has a position open, Guber can get a good pitcher to move to Pampa—then watch the Grays travel.

A tub of butter churned in Little Falls, Minn., Lindbergh's home town, was sent by airplane to Washington the other day for the aviator's reception there.

## Kelly Suspended, And Texans Lose Another To Demons

DES MOINES, June 17.—The Texans lost again here yesterday, while Manager Kelly, under a seven-day suspension, sat on the bench.

The score was 8 to 3. The change in the line-up was further altered when Nick, shortstop, returned to his home in Omaha.

Kelly's suspension resulted from a disagreement with an umpire, and Gunther was fined \$25 in connection with the affair.

The teams clashed in a double-header today.

The box score:

Player	AB	R	H	PO	AE
Amarillo	5	0	0	9	1
Swanboro, 1b	3	1	1	2	2
Connelly, rf	3	1	1	2	0
Fiedler, 3b	3	1	1	4	3

## SPORT TALK

The Grays, with a good pitcher signed up for the game Sunday in Borger, expect to pull a win. The Borger crowd likes to play the local club because they are so evenly matched.

The Oilers will be the home club for Sunday, with Claude supplying the opposition. The Claude crew beat the Oilers in their home lot, but will be lost in the regulation size park here.

See where the Texans lost another game yesterday and slipped into sixth place. Also Kelly got suspended, Nick quit and went home, and Gunther was fined \$25 for talking to the umpire. If that kind of baseball keeps on the Texans will have to get some more of the Grays to fill the team.

Dallas won two yesterday, placing them a half game behind second place and Houston beat the fast travelling Shreveport team in 12-innings. Things are getting interesting in the Texas league.

Amarillo Metros are scouring the country for good players in the hopes of winning a game. They have lost their last five starts and have a good team to play Sunday. The Grays are ready to play the tie game with the Metros any time. Each team has won two games and that championship title, bestowed upon the Grays by the "Tackless Texan" is now to be regained by the Grays.

## Claude Will Be Here Sunday To Play the Oilers

Claude will be here Sunday to play the Pampa Oilers and a good game is sure. The local team has been considerably strengthened and can put up a real battle.

The Oilers will use the same batteries that defeated McLean last Sunday, and with Thompson at third the infield is well fortified. Then Hearndon, the slugger of the outfit, will be there ready to pound the pill.

Fans are asked to be out and see the re-organized Oilers play ball.

**GOLF FOR WORKERS**  
BINGHAMTON, N. Y. (AP)—Believing that golf should be made available to working men and women, George F. Johnson, sportsman and industrialist, has begun an 18-hole course and club house on the banks of the Susquehanna River near here, with membership restricted to men and women working in the factories which he controls. "There is no room for snobbery in sports," says Mr. Johnson, who previously provided a public race track adjacent to his factories.

A New Jersey police chief had to arrest his own son on charges of arson.

## WOMEN'S INVASION OF BRITISH SPORTS MEETS WITH OPPOSITION

ALARM AND INDIGNATION HAS BEEN EXPRESSED BY MEN AT THE INVASION BY WOMEN OF REALMS OF SPORT.

WILL BOXING BECOME A POPULAR SPORT WITH WOMEN. AND THIS!

LONDON, June 17. (AP)—Eve's headway in the arena of sports has kicked up a row which has been smoldering for months. The fact that men do not like to beat women at games nor on the other hand be beaten by them has brought the co-sport question to a head.

Alarm and indignation has been expressed by men at the increasing invasion by women of realms of the "social sport" which, until a few years ago, were regarded as the exclusive preserve of their husbands and brothers.

Some of the golf clubs have already considered protests that there were too many women members, while the increasing participation of horsewomen in steeple-chasing and point-to-point races is reported by objectors to be incompatible with the keen competitive spirit which enters into these contests.

The latest outcry is against women bowlers. It is contended by one authority that women should not intermingle with men on the bowling greens, but should form their own clubs.

In this connection it is pointed out that the Wells (Somerset) Bowling club has banned women from the greens on the ground that they have proved "an absolute nuisance."

E. E. Moore, former president of the English Bowling association, and a former English champion says: "Men do not like to play with members of the opposite sex, chiefly because we do not like to beat or to lose to a woman. This applies particularly to competitions. Women should form their own clubs."

A Sussex women's bowling club applied recently for affiliation to the Sussex County Bowling asso-

ciation, but the men turned them down.

George Hills, secretary of the English Bowling association, says there is no reason why women should not play bowls, so long as they don't encroach on men's preserves.

The one branch of sport in which women are not unwelcome appears to be tennis. "The more merrier" is the slogan of the players on both sides.

## REMOVAL NOTICE

We wish to announce to our friends, patrons and the general public that we have moved to the rear of the First National bank building where we are better prepared than ever to replace broken glass in your auto.

### Club To Occupy Homestead Of Vice-President's Birth

Left — Mrs. Betsy Gates Mills. Above—left, home of the Betsy Mills club; right, William W. Mills.

MARIETTA, O., June 17. (AP)—On the site of the old Gates homestead, rich in history of the Dawes family, a \$250,000 women's club dedicated to the memory of its founder, Mrs. Betsy Gates Mills, will be formally opened with special services on June 13.

Mrs. Mills was an aunt of Vice-President Dawes.

The new structure has been donated to the community by William W. Mills, her husband. It includes the Gates home, in which Mrs. Mills was born, and which was also the birthplace of the vice-president. The rooms in which they were born have been preserved exactly as they originally were, and that portion of the Gates home has been incorporated in the manner of a museum in the main building of the "Betsy Mills club."

Mrs. Mills founded the club in 1911 as a tribute to the womanhood of Marietta. It was her desire that the club should be a "source of comfort and happiness to its members and a force for good in the community." The organization has increased until it has 1,500 members.

Rufus C. Dawes of Chicago, also a nephew of Mrs. Mills, and Vice-President Dawes, will take part in the dedicatory exercises. An address will be delivered by the former.

#### CHEAP PAINT ISN'T CHEAP, FIRST OR LAST

If you have a house that hasn't had a new "make up" for a long time, and if you want to get some real, sound, and, at the same time, unique advice on the best and most economical house paint to use, there is a paint dealer in this town who is waiting to greet you.

One look at this merchant's store and display window will convince you that he is loaded with facts on the way to save money and get best results on house paint.

"For years," this dealer says, "people have been hoodwinked by 'cheap' paint. Thousands of them have been led to believe that a 'low priced' paint can be just as good as a high grade paint and at the same time sell at a low price.

"As a matter of fact," this dealer points out, "'cheap paint' is usually the costliest paint a man can put on his house.

"It takes nearly twice as many gallons of inferior paint to cover the surface. Then where a high grade paint will look good for four or five years, the inferior paint usually has given up the ghost in one and a half or two years. This means frequent repainting, which is costly.

"The good paint costs no more in the beginning even at a higher rate per gallon because fewer gallons are needed. It lasts several years longer and reduces re-painting expense—which means more saving. That is why a good paint actually costs less per job—less per square foot—less per year than even the cheapest paint because the cheaper it gets the more is needed and the shorter its life.

"But for the average man, who wants to make every dollar count, the cheapest paint by far is the best paint money can buy."

For advice on your paint problems call at the Panhandle Lumber company.—Adv.

TOKYO, June 17. (AP)—Various societies in Japan are now waging a campaign for the better protection of babies.

Pamphlets, public lectures and the radio are used to instruct mothers in the proper care of their children. Infant mortality in Japan is the highest of any country in the world, 170 deaths being recorded for each 1,000 births. Neglect, poverty and ignorance of the parents are given as the prime causes of the high death rate.

### Temperatures Are Available In Texas For All Tastes

(By The Associated Press.)

HOUSTON, June 17.—In no state in the union probably do such extremes in temperatures exist as in Texas. Frequently sweltering weather is encountered in towns on the Mexican border and almost freezing temperatures registered in the Panhandle on or about the same date.

The May weather report, issued here by L. H. Daingerfield, government meteorologist, shows that the highest daily temperature was 115 degrees at Ft. McIntosh on May 7 and three days later the mercury fell to 31 at Dalhart. Each represent temperature extremes for the month in the state. The monthly range within the state was 84 degrees and the greatest daily range was 57 degrees at Clint on May 28. The monthly mean for the state shown at 128 recording stations, was 77.6 degrees which was 4.5 degrees above normal.

May weather, according to this showing, was not only warmer than the average May but less rain also fell. Reports to Mr. Daingerfield from 225 stations showed a state average of but 1.64 inches, which was 2.03 inches less than the state normal. Even 6.09 inches at Bon Wier during the month could not bring the average up to the usual figures because no rain fell at 12 stations and only a trace at two others even though 4.22 inches fell at Hico on May 12, which was the greatest precipitation in 24 consecutive hours of any point in the state. Sixteen days were clear, 11 partly cloudy and four cloudy. Prevailing directions of the wind was from the south and the highest velocity was 57 miles an hour at El Paso on May 7.

RANKIN TO CELEBRATE  
RANKIN, June 17 (AP)—Celebrating the opening of Rankin Beach, a big natatorium and pleasure resort, the establishment of its new First National Bank and the near completion of two modern fire proof hotels, Rankin will stage a mammoth jubilee on June 15.

Official of the West Texas Chamber of Commerce and the citizenship of its territory have been invited to the fiesta. Gala events will feature both day and night programs. At noon a big free barbecue will be served at Rankin Beach. The afternoon program calls for swimming, baseball, goat roping and athletic contests. A climax of the celebration will be a dance in the evening.

HEN'S CACKLE IS MUSIC TO JAPANESE  
TOKYO, June 17. (AP)—The cackling of the hen is music to the ears of the Japanese, who, it is announced, consume more than 2,200,000,000 eggs each year. The native poultry is not able to supply the demand, and approximately 600,000,000 eggs are imported annually from China.

Statistics show that more eggs are eaten in the cities than in the country districts. Tokyo leading the list with a consumption of 260,000,000 in 1926.

Jack Wood of Dallas is in the city today.

#### BLONDE OR BRUNETTE?

PHILADELPHIA (AP)—If you are a brunette, wear "warm" colors such as brown, red, orange and purple.

If you are a blonde, choose the "cold" shades, including blue, green and violet.

You may wear white whether you are a blonde or a brunette, provided your skin is fair and your figure not too heavy. But remember that both white and black make the facial features stand out in relief.

If you are stout, choose smooth materials.

If you are slender, select the wooly, fuzzy stuffs.

These are bits of advice offered the American women by Miss Grace C. Dimelow, clothing expert of Temple University, Philadelphia.

#### YOUNG ARTISTS SWARM TO NEWSPAPER'S SHOW

LONDON (AP)—More than 3,000 younger British artists have made application to exhibit pictures at the Young British Artists' Exhibition being held this month by the Daily Express. All have agreed to place low prices on their work to encourage the purchase of pictures by art lovers of limited means.

Mrs. Dod-Proctor's "Morning," representing a sleeping girl, one of the most discussed works in this year's British Academy, was purchased by the Daily Mail for \$1,500 and will be offered to the Tate Gallery. The price was far below that which prominent pictures brought in pre-war times and is indicative of the difficulties young artists now face.

Germany may furnish a cruiser to carry Chamberlain back to the United States.

## CHURCHES

**Presbyterian Church**  
The usual Presbyterian church services will be conducted at the Rex theatre Sunday.

Sunday school is at 10 a. m. Preaching is at 11 a. m. We are hoping to make the next two Sundays at the Rex theatre excellent in point of attendance and enjoyableness. We expect to be in our new building the first Sunday in July. Worship with us Sunday. W. M. BAKER, Pastor in charge.

**Methodist Church**  
Sunday school at 9:45 a. m. You are invited to be in one of our classes during Bible study.

Preaching at 11 a. m. and 8:30 p. m. Themes for discussion by Rev. Tom Brabham: morning, "The Church—the Secret of Its Power"; evening, "A Fighting Man's Experience With an Ancient Flapper."

This is termed the age of flappers. Did flappers ever live in the other ages of the world's history? Come and hear at the Methodist church. Rev. TOM BRABHAM, Pastor.

#### Baptist Church

Rev. D. H. Truhitte

"Men Wanted"  
Father's day will be observed at the first Baptist church Sunday.

Sunday School is at 9:45 a. m. Preaching is at 11 a. m. A special sermon for fathers and sons. Special music will be provided. Evening service, 8:15 p. m. Hear the new Pastor, Rev. D. H. Truhitte of Oklahoma. Everybody is welcome. Rev. D. H. TRUHITTE, Pastor.

#### Christian Church

At the morning service at 11 o'clock the Odd Fellows and Rebeccahs will be present in observance of the anniversary of Odd Fellowship. They will occupy a section especially reserved for them and the sermon will appropriate for the occasion.

The evening service will be evangelistic. The song service begins promptly at 8:30. The service will last one hour.

Bible school is held at 10 a. m. Men's bible class meets in the Crescent theatre. Three young men's meetings are held at 7:30 in the Bible school annex.

If not a member of, or attending one of the other churches, come to the Christian church Sunday. A welcome awaits you. J.S. TODD, Jr., Minister.

## How old is your car?

DON'T let your car's old age worry you! The older it is the younger it will seem when you use Conoco Ethyl Gasoline. In fact, this magic fuel makes old engines run like new.

Automotive science worked seven years to perfect this one real anti-knock fuel. It really turns carbon into power—and it has no substitute.

Fill your tank at the Conoco sign.

FOOTBALL 478 B. C.  
ANN ARBOR, Mich. (AP)—A duplicate of the oldest known football illustration is sought by Fielding H. Yost, director of athletics, for the eastern facade of the new University of Michigan stadium.

The bas-relief which Yost wants copied is a panel on a block of marble in an Athens museum, showing six youths playing football. Forward passes are older than the Ceasars. The marble shows a player catching the ball and preparing to throw it. Two forwards are about to follow the throw with a charge.

Scholars do not know the exact age of the carving, but it is older than a wall built before 478 B. C.

into which it was set. Its presence in the wall indicates the truth of Herodotus' statement that ancient builders, when material was scarce, used in their structures any old tombstones or statue bases they could find.

#### BROKE AGAIN

BEAUMONT (AP)—Percy Davis' nose was crooked for six years. He refused to permit doctors to break it and set the bone. But while driving from Orange the automobile in which he was riding crashed into a barbecue stand—Davis' nose again was broken and now it will be straight.

Mrs. W. Newton of Lawton, Okla., was a visitor here Thursday.

## A cheap tube can cost you 10 times its price . . . . .

THIRTY-NINE YEARS of tube-building experience has proved to Dunlop that "cheap tubes" do not pay.

That is why Dunlop tubes are made casing shaped. It costs a little more than to build them on a straight pole, as cheap tubes are built.

But a casing-shaped Dunlop tube is strong everywhere. The outside edge is not weakened by excess stretch. The side next to the rim has no wrinkles to crack with age and blow out. A Dunlop tube protects your casing, because it fits. And your casing is worth ten times the cost of the tube.

We strongly recommend a Dunlop tube for every casing

Next to overstocking, too early grazing is chiefly responsible for deterioration of forage on cattle range lands. The yield of forage is small if the plants of the bunch grass or sod grass type are cropped when the average height is less than four inches.

Grazing too early in the season stunts the vegetation and does not satisfy the hunger of the animals because of the low nutritive value of short forage. Grazing closely twice, or even three times, during the season is not detrimental provided the first cropping is late enough and the intervals between are sufficiently long for the vegetation to recover.

Rheumatism in hogs may be caused by absorption of toxic material, but exposure to cold, wet weather is an important predisposing cause. The animals thus afflicted move in a slow, painful way. Sometimes there is lameness, and if more than one leg is affected the hogs are disinclined to walk. The appetite is impaired. Treatment for rheumatism is of little avail. The hogs should be kept comfortably housed away from cold drafts, be fed a laxative diet and made to exercise as much as possible under favorable weather conditions.

Cucumber growers are urged to destroy milkweed, wild cucumber, pokeweed, wild ground cherry and catnip found in or near their patches. They are host of mosaic disease of cucumbers. When they have been removed infection has dropped from 40 per cent to three per cent.

David M. Warren of Panhandle was in the city today.

**VOTING**

part of the city which is reasonably well settled. Main lines will not be less than six inches in diameter, and supply lines tangent to the big lines will be two inches or greater in size.

The lines have been drawn on the plans to connect easily in every part of the city; they run as far west as Faulkner street in the Broadmoor addition on the Berger road and as far east as Rusk street in the Channing addition, and virtually to the limits north and south.

The fire lines will give protection on the south side to within two blocks of the south city limits, with 16 new fire plugs. The north side will have about the same number of new plugs. Together with private lines, this system will reach every sector which justifies the expenditure, and can readily be extended as the city grows.

**Sewer Lines Large.**

The sewer system is designed to care for every present and future part of the city, from the standpoint of elevation. On both sides of the city the big lines will follow low draws so that the additions lying on hillsides may connect.

The present disposal plant on the north side will be extended northward approximately one and one-half miles, and a big 15-inch line will be carried to it from the north side. The present sewer system will tie into this new line near the outfall, and in the event that the present line becomes overloaded, they may be tapped and cut into the new pipe further west, greatly increasing the capacity.

**Many Lateral Extensions.**

The big lines will be made large enough to accommodate the demands of a city of 20,000 or more. Furthermore, lateral lines will be made into every part of the city where there are enough houses to justify that work at this time. There will be 10 such extensions on the south side and 12 on the north portion.

These improvements have been decided upon and the city engineer is working on the plans and specifications to be used by the bidders for the contracts. In calling the bond election, the city council has allowed some flexibility, so that the construction may follow the best engineering lines as it proceeds.

**MARRIED STUDENT WINS 1927 LITERARY AWARD**

MISSOULA, Mont. (AP)—Mrs. Dorothy Marie Johnson Peterkin won the University of Montana 1927 Joyce Memorial Award for her story, "And One Came Back", published in the university magazine "The Frontier". This prize is awarded each year to the graduate of undergraduate student who contributes the best prose of poetry.

Mrs. Peterkin, who was married in her sophomore year, has lived in Troy, Mont., in the Kootenai forests in which setting she has placed her story.

**WOMAN MAYOR**

SEATTLE, Wash. (AP)—Intelligent citizenship is the one ideal women must strive for if their contributions to a community are to be valuable, believes Mrs. Bertha K. Landes, mayor of Seattle.

Weekly meetings at luncheons and clubs are held for Seattle women in order to train them for civic activity and improvement. Mayor Landes is a frequent speaker at these meetings of nearly 1,000 women where the operation and status of the civic departments, finances and other problems are discussed.

**A LITTLE LINDY**

WICHITA FALLS (AP)—The first baby in Texas to be named for Lindbergh was born here June 3. The boy who was named after the intrepid flyer was born to Mr. and Mrs. G. L. Trim. His name is Harry Lindbergh Trim.

**SAILS MILLION MILES BUT CAN'T QUIT SEA**

PORTSMOUTH, Eng. (AP)—The call of the sea proved too too strong after five months' idleness, so at 60 years of age Miss A. Dale, a New Zealand government matron in emigrants' ships, is once more on the ocean.

Just before starting on her 60th trip for New Zealand she said:

"Five months ago I felt a sense of supreme gratification at the thought of settling down in my home. I quickly changed my mind. I was restless and found a house too cramped and lonely."

In her round trips to the Dominions Miss Dale has traveled nearly 1,500,000 miles.

**International Sunday School Lesson**

BY DR. J. E. NUNN

General Topic: Peter Teaches Good Citizenship.

Scripture Lesson: I Peter 2:11-17; 4:1-5.

(Temperance Lesson.)  
I. 2:11. Beloved, I beseech you as sojourners and pilgrims, to abstain from fleshly lusts, which war against the soul.

12. Having your behavior seemly among Gentiles; that, wherein they speak against you as evil doers, they may by your good works, which they behold, glorify God in the day of visitation.

13. Be subject to every ordinance of man for the Lord's sake; whether to the king, as supreme;

14. Or unto governors, as sent by him for vengeance on evil-doers and for praise to them that do well.

15. For so is the will of God, that by well-doing ye should put to silence the ignorance of foolish men.  
16. As free, and not using your freedom for a cloak of wickedness, but as bond-servants of God.

17. Honor all men. Love the brotherhood. Fear God. Honor the king.

1 Pet. 4:1. Forasmuch then as Christ suffered in the flesh, arm ye yourselves also with the same mind; for he that hath suffered in the flesh hath ceased from sin;

2. That ye no longer should live the rest of your time in the flesh to the lusts of men, but to the will of God.

3. For the time past may suffice to have wrought the desire of the Gentiles, and to have walked in lasciviousness, lusts, winebibblings, revellings, carousings and abominable idolatries:

4. Wherein they think it strange that ye run not with them into the same excess of riot, speaking evil of you.

5. Who shall give account to him that is ready to judge the living and the dead.

Time: Peter's first Epistle was written about A. D. 65 or 66, and his second Epistle perhaps in A. D. 88, just before Peter's martyrdom. Others give these dates two or three years earlier.

Place: The first Epistle of Peter was written probably at Babylon and for the Christians of Asia Minor.

Golden Text: Love worketh no ill to his neighbor.—Rom. 13:10.

**The Close of Peter's Life**

The last mention of Peter in the Acts is in the account of the first church council in Jerusalem, held to discuss the relations of the Christian church to Gentile converts to Christianity—a question full of difficulty and of peril to the church, which Peter's wisdom and courage did much to settle. (Acts. 15:6-11). Tradition tells how Peter became an apostle to Syria, and how, nearing the end of his life, he went to Rome, where he suffered martyrdom under Nero, asking to be crucified head downward as it was too great an honor to be crucified in the same way as his Lord. There is a beautiful little story to the effect that when Peter's friends urged him to preserve his valuable life, he yielded and fled from Rome, but as he left the city he had a vision of Jesus hastening toward it. "Domine, quo vadis?" Peter asked (Lord whither art thou going?) Jesus replied, "I go again to be crucified in thy stead." Whereupon Peter at once answered, "I go to obey thy command," and returned to Rome to meet his doom.

**Life, A Brief Pilgrimage. v 11**

"Beloved, I beseech you as sojourners and pilgrims." In the beginning with these words, a new section of his Epistle, Peter returns to its opening words (1 Pet. 1:1), for the letter is addressed to the Christian Jews scattered everywhere over Asia Minor. Here, however, the thought is more general, reminding the reader that, wherever he may be, in this life he is only a pilgrim journeying to his permanent home in heaven. Let him, then, possess the pilgrim virtues of strength, firmness, perseverance, simplicity, and hardihood. A sojourner tarrying for a few days in a strange country, must not adopt the vices of that country or its habits of ease and luxury. If he does, he will settle down there, and never get to his journey's end, the fair, rich land he has set before him as his goal.

**Christian's Setting a Good Example**

"Having your behavior seemly among the Gentiles." Let it be beautiful and upright, irreproachable and winsome, and the world will be won to the Savior. They are to be known by their faults. Every Christian has in charge the reputation of his Master and of the entire church. "They may by your good works, which they behold, glorify God." Peter must have been thinking of his Master's command which he heard him give (Matt. 5:16.), that his followers should let their light shine so that men might see their "good works"

and "glorify" their Father in heaven. There is no better way to answer calumnies than by a good life. "Christians would prefer that Christianity should not be judged by their conduct. But there is no escape. The Christian must be better than other men. If he is not better, Christianity breaks down."

**Law Abiding Citizens vs 13-17**

"Be subject to every ordinance of man." Paul insists upon the same thing, at greater length; Rom. 13:1-7. If in those days when law so often originated in tyranny, the Christians were urged to obey them implicitly, that Christ's good name might not be tarnished and that their enemies might have no hold upon them, how much more should the principle be obeyed in our free republic, where the laws are made by the people's representatives, and where all government is so promptly responsive to the will of the people! "For the Lord's sake". Not for your own sake, that men may honor you as a model citizen, but for the honor of Christ, whom you represent. "Whether to the king, as supreme." The reference is to Nero, Emperor of Rome, a monster in human form. If Christians of Peter's day were bidden to obey one of the most cruel and despicable of sovereigns who ever sat on a throne, how much more should we of today honor the men almost always honorable, well-meaning and able, whom we select as our public officials!

**Honor All Men. v. 17**

But what if the men are not honorable? Still every man, however wicked or degraded, bears about the image of God, though sadly defaced, and that image is to be honored in him. God had taught Peter in a wonderful way, on the house-top in Joppa, "not to call any man common or unclean." The apostle had not forgotten the lesson. "As Michael Angelo sees in the rough block of marble the winged angel struggling to be free; as the artist Flaxman, walking in the slums, sees the beauties and possibilities of the 'human face divine' even under the dirt and squalor of the gutter child, even so with pity and reverence the true Christian sees even in the lowest the marred work of Him who breathed into man's nostrils the breath of life."

**Law Enforcement Needed Today**

"A government which does not enforce its laws is unworthy of the name of a government, and cannot expect to hold either the support of its own citizens, or the respect of the informed opinion of the world. These problems (of prohibition enforcement) must be taken directly to the American people. This government is their government and these laws, their laws. They have formed their government and enacted their laws, with all due solemnity, to promote their welfare and protect their liberties. They are not a nation of enervates; they are not a people who can be charged with being hypocrites. They have no patience with anarchy. They are a sober, frank, and candid people. They have respect for reverence and for duly constituted authority. To them the law is a rule of action. These fundamental characteristics are not going to be changed. The great body of people are thoroughly law-abiding. This great law-abiding element of the nation is entitled to support and protection."—President Calvin Coolidge.

**The Great Day of Accounting v. 5**

"Who shall give account to him that is ready to judge the living and the dead." The Christian's enemies call him to account, quite forgetting the terrible day when they themselves

**NOTICE**

An Ordinance repealing Ordinance No. 40, and Ordinance No. 39 and re-enacting both with amendments and regulating traffic during fires, and prohibiting the drivers of automobiles, wagons, motor vehicles, etc. from driving over the fire hose while same is in use and prohibiting the parking before fire plugs or hydrants and providing a penalty.

Be it ordained by the City Council of the City of Pampa:

1. That hereafter, after the fire alarm is sounded, and at any time during the progress of a fire within the corporate limits of the City of Pampa, Texas, if the fire department is attempting to extinguish, all drivers or operators of automobiles, motor vehicles, carriages, wagons or any other kind of vehicles shall immediately upon hearing said fire alarm, or upon hearing of or discovering said fire, drive their automobiles, motor vehicles, carriages, wagons or any other kind of vehicle they may be operating at the time, to the curb or edge of the street where they are then situated, turning to the right, and remain stationary at said place until the fire engine or fire fighting apparatus has passed on said public street.

2. That it shall be unlawful for any person operating or driving an automobile, motorcycle or motor vehicle of any character, or any wagon, carriage, buggy or other kind of vehicle whatsoever, to pass over or drive over the fire hose belonging to the City of Pampa, Texas, at any time when the same is in use by the Fire Department or any other person in fighting fires or watering the public streets of the city of Pampa, Texas.

3. That it shall be unlawful for any person or operator of any automobile or motor vehicle of any kind whatsoever, or any wagon, carriage, buggy or any other conveyance or vehicle whatsoever to park the same before or within ten feet on either side of any fire plug or hydrant within the corporate limits of the City of Pampa, Texas.

4. Any person violating any provision of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine not to exceed \$100.00.

Passed and approved this 15th day of June, A. D. 1927.  
F. F. REID, Mayor  
C. H. FISHER, City secretary.

shall be called to account for the deeds done in the flesh, and among other deeds for the ridiculing and reviling of God's servants. Peter had heard his Master many times picturing the judgment, when "all men ranged before him, shall be compelled to give account of their stewardship (Luke 16:2). That accounting, with its resulting penalties and rewards, is proceeding among the living from day to day, and the sum of accounts will be cast on the last day for the eternal condemnation or the eternal blessedness of the dead.

**The Eighteenth Amendment**

The Eighteenth Amendment to the Constitution of the United States was adopted by the necessary three-fourths of the States by January 16, 1919, and went into force a year from that date. It was the first Amendment to have a time limit for its adoption, seven years being set; but it was adopted within one year and twenty-nine days. It has been ratified by forty-six states, all but Rhode Island and Connecticut, with 1.8 per cent of our population. At the time when the Eighteenth Amendment became effective thirty-three States had adopted State prohibition, nineteen having put it into their constitutions. The Volstead Act has defined an intoxicating liquor to be one containing more than one-half of one per cent of alcohol by volume. This definition had been for many years in use by the United States Government for the enforcement of the Internal Revenue laws, and had been suggested by the liquor dealers themselves. Thirty-four States had adopted this standard. Wine and beer are intoxicating and can never be sold legally unless the Eighteenth amendment is repealed and that repeal is impossible. If any State should attempt to bring back beer and wine, the Supreme Court, in harmony with its former decisions, would declare such a law unconstitutional.

Frank Seliger and family are visiting in Colorado, Kansas, and Arkansas. He has written his brother Morris that they are having an enjoyable time. Mr. Seliger is connected with the K. C. store here.

**DIDN'T FORESEE ARREST**

WICHITA FALLS (AP)—They foretold the future of others, for themselves they could not penetrate the veil of time as attested by the two women arrested on a charge of fortune telling.

Paradichlorobenzene and naphthalene flakes are both effective in protecting stored clothing against moth damage, if the clothing is first thoroughly cleaned by brushing and beating, and if possible, sunned. The articles to be stored must be wrapped in tight bundles in paper, with ends securely sealed so that no moths can enter, or stored in tight boxes or trunks with the flakes scattered through the container. Placing these substances in bureau drawers or on shelves does no good, because the fumes which kill moth larvae, are not confined.
