

Pampa Daily News

VOL. 1. NO. 107.

PAMPA, GRAY COUNTY, TEXAS, WEDNESDAY EVENING, JULY 13, 1927.

PRICE FIVE CENTS.

CITY BOND ISSUE IS APPROVED

Breckenridge Is Damaged by Fire and Flood Today

RAINFALL OF FIVE INCHES IS MAIN REASON

Blaze That Destroys Half Block Not Explained

LOWLANDS ARE UNDER WATER

Railroad Is Inundated North of The City

(By The Associated Press.)
BRECKENRIDGE, July 13.—Fire and flood struck Breckenridge today causing unestimated damage. Half a business block was destroyed by fire of unknown origin and damage estimated at \$20,000, while five inches of rain swelled Gonzales creek now overflowing the lowlands and washing into homes in the low-lying districts.
Railroad officials said the road bed north of the city was under water.

Wilcox Test To Be Drilled Into The Granite Wash

The Wilcox Oil and Gas company's No. 1 Mrs. Phoebe Worley, in section 40, block 3, which was shot yesterday at noon with 310 quarts of nitroglycerine and bridged after the shot, sprayed 270 barrels until 7 o'clock this morning after the bridge of about 10 feet of mud had been drilled through.

It is the intention of the company to drill through the present formation of lime to the granite wash which is probably 30 or 40 ft. deeper. It was in the granite wash that the Gulf No. 1 Saunders got heavy pay.

The Atlantic Oil company's No. 1 Combs-Worley, in section 39, block 2, which was shot Saturday afternoon with 560 quarts of nitro, without result, is being cleaned out and will be drilled deeper.

The Roxana Petroleum company has filed intentions to shoot their Roxana No. 2 Bryan in section 107, block 4, Carson county.

Kitchen Burns In Wilcox Townsite

The kitchen of a four-room house in the Wilcox townsite was completely burned this morning and the rest of the house slightly damaged when sparks from a stove ignited a pall of gasoline in the kitchen.

No one was injured, but the contents of the one room was destroyed. Workmen nearby rushed to the fire and with the aid of a line of hose and some chemicals confined the flames to the one room.

Case Construction Company Gets School Addition Contract; Burke Of Amarillo Lowest On Plumbing

H. L. Case, local contractor, yesterday afternoon was awarded the contract to build a two story addition to the local high school building. His bid was \$57,140.

Roy Burke and company of Amarillo, plumbers, got the plumbing work with a bid of \$6,750.

The total cost of the new structure is estimated at \$65,000.

The trustees of the Pampa Independent School district decided to add to the high school building, with the idea of later putting an audi-

Sets Her Wings for Rome Hop

Gladys Roy, pretty Los Angeles flyer, holds records for parachute jumps at both high and low altitudes. Now she has made up her mind to fly from New York to Rome. A special Ryan monoplane, of the kind that Lindbergh used, has been selected as the machine in which she hopes to make the trip. Her co-pilot is Lieutenant Delmar L. Snyder of Cleveland, O.

Lowden Asked To Be Candidate By 10,000 Republicans

(By The Associated Press.)
OREGON, Ill., July 13.—Frank Lowden, former governor of Illinois today received a petition bearing the signature of 10,000 Montana voters asking him to become the candidate for the Republican nomination for president.

Many Mexicans Being Deported

HIDALGO, July 13.—The deportation of 124 Mexicans is under way here today.

The Mexicans were caught while in their way to the cotton fields of Central Texas. The capture makes approximately 350 aliens arrested in the past two weeks.

MOTOR TRIP ENDS

CARLSBAD, N. M. (AP)—The West Texas Chamber of Commerce motorcade ended here today after an eight day trip through West Texas and touching New Mexico. The caravan disbanded.

Judge Ben S. Baldwin returned this morning from a business trip to Fort Worth.

HOBART BARN BURNS TODAY

Ignited by Lightning Accompanying Rain Of 1.3 Inches

Rainfall in Pampa before dawn today amounted to 1.3 inches, according to the government gage kept by the Daily News.

The rain was accompanied by lightning, and came in deluges at times. Firemen made a run this morning following an alarm at 4:45 a. m., to the large barn at the T. D. Hobart place. Damage of about \$2,000 resulted from the destruction of the barn, considerable hay and some chickens. Nothing could be done, in the mud incident to the rain, to lay four or five blocks of hose in time to extinguish the blaze. The barn was struck by lightning.

Reports to the News today indicate that Pampa was on the west edge of a strip of rain extending as far to the east as Waynoka, Okla. At Canadian a four-foot rise is expected, and many spectators are watching the rise to see its effect upon the bridges there.

The rain extended but a few miles west, north and south of this city, according to reports brought here.

Rain To The South.

TA FALLS, July 13.—Reports here today indicated rains general through this section but probably heaviest south of Wichita Falls.

Showers fell along the Missouri, Kansas and Texas railroad through Oklahoma with indications that it would continue. The precipitation will benefit crops very much, it was said.

FORMER DEMOLAYS TO HAVE DANCE THIS EVENING

Ex-Demolays of Pampa will have a dance tonight at the New Schneider hotel.

A similar even held two weeks ago was greatly enjoyed by those who attended.

Music will be furnished by Walker's Collegians, popular eight-piece orchestra of Amarillo.

BOY SCOUTS IN PAMPA GIVEN GOOD SUPPORT

\$700 Is Contributed Before Drive Gets Under Way

FIVE TEAMS OUT WORKING

Three Executives Are Here In Interest Of Program

Although really getting under way for the first time today, the Boy Scout membership drive here yesterday had more than \$700 collected by M. K. Brown, Tom Nelson and Edmonds Knittle, the last two of whom are executives.

The drive got under way in earnest today, with five teams working under the direction of M. K. Brown. These teams are:

1. Scott Barcus, George Custer.
2. The Rev. James Todd Jr., A. H. Doucette.

4. P. B. Carlson, Bert Curry.
5. H. Otto Studer, Bill Fraser.

F. D. Craft, assistant Scout executive of Amarillo, is here to assist in starting the movement in Pampa. Mr. Nelson and Mr. Knittle will spend most of the week here.

With B. E. Finley as general chairman, the Pampa program is rapidly taking form. The workers are having frequent luncheon meetings to lay their plans. Early efforts indicated hearty support from local people. There are enough boys of Boy Scout age in the city to provide from four to eight troops.

Keating Wins 24-Mile Swim In Cold Water

(By The Associated Press.)
LAKE GEORGE, N. Y., July 13.—William Keating, New York swimming instructor, won the 24-mile swimming marathon from Hague to this village today.

His time was 18 hours, 47 minutes and 18 seconds.

Chilling water kept the other entrants from finishing.

"Not Guilty" Is Plea In Trial Of Louisianians

FRANKLIN, La., July 13.—Pleas of "Not Guilty" were entered by Dr. Thomas Dreher, Mrs. Ada Lehouef, and James Beadie, charged with the murder of James Lehouef, a Morgan City business man, upon their arraignment here today.

James Parkerson, attorney for the three objected to the arraignment, arguing that insufficient time had been granted for him to prepare his motions.

PEKING, July 13.—The Peking government, after a verbal protest by the foreign office to the Japanese legation Monday, has sent a note to the Japanese which demands the immediate withdrawal of troops from Tsinanfu and Tsingta in the provinces of Shantung.

Lightning Fires Sanford Gusher

(By The Associated Press.)
AMARILLO, July 13.—The McMillan Oil corporation's Sanford well, where nine men lost their lives May 26, is on fire again.

A bolt of lightning struck the well this morning and all operations nearby have been suspended until the well is shot out.

Seventy at Banquet of C. of C. Decide to Aid Grays—Haines Speaks

Described as one of the best meetings ever held in Pampa, last night's membership session of the Chamber of Commerce resulted in reviving of the Pampa Grays, endorsing of the city bond election July 19 and building a strong public spirit.

A high point of enthusiasm was created by the strong address of Col. H. H. Haines, manager of the Amarillo Board of City Development. More than 70 persons attended the dinner at the New Schneider hotel.

"This is just the beginning of what these meetings will become," declared President C. C. Cook of the Chamber of Commerce, who presided.

Doucette Explains Bonds.

The program opened with an address by City Engineer A. H. Doucette on the expenditure aspects of the coming bond election. Relative to the sewer extensions; he said the proposed system will include 38 blocks in South Pampa, to cost approximately \$53,107. It will include a district three blocks west from South Cuyler street, then three blocks south; one block west of Cuyler for three blocks south of the above portion, which will take the service to Albert street. On the east side of South Cuyler the sewer main will extend east to Barnes street and south to Albert street, and include eight blocks off the west side of the Wilcox addition. The system in South Pampa will be approximately twice as big as the whole present system, and will include a separate disposal plant two miles east of the city.

The North Pampa sewer extensions will cost approximately \$101,893 and will include, with the present system, about 43 blocks. One tier of blocks west of Hobart will be served, in addition to the Cherokee, Central, West End, North, East End, White House and Channing additions.

"Water for All." Water extensions will parallel the sewer system and serve the entire city, giving fire protection to many parts now endangered by fire hazards. The North Pampa extensions will cost \$37,796 and the south Pampa system \$30,600.

The amount of money to be spent totals \$230,000; \$70,000 for waterworks extension and \$160,000 for sewer extension. In addition, the old debts will be refunded into \$125,000 in bonds, making possible a cheaper rate than is possible while the debt is in the form of warrants. The does not represent a new expenditure.

Based upon a city valuation of \$4,000,000, an assessment of 53.6 cents on the \$100 for the sinking and interest funds to retire the entire issue in 30 years will total \$21,466 annually. Since the present tax rate of \$1.50 will easily absorb this demand, the voting of the bonds will not raise the tax rate, but will merely enable the city to use the accrument from greatly increased valuations.

Moreover, the present objectionable dumpgrounds, Mr. Doucette said, would be removed along with the new North Pampa disposal plant to a point about a mile east of the present location.

Amendment Opposed. Following Mr. Doucette, Olin E. Hinkle, editor of the Daily News, spoke against the proposed constitutional tax amendment which will be voted upon August 1. He declared that the amendment would empower the Legislature to single out corporation or other choice property for state taxation only, and might work out to the great detriment of Pampa and Gray county.

Baseball was the next subject, and J. M. Dodson aroused interest in the game by suggesting that the Chamber of Commerce sponsor the Grays for entrance in the coming Amarillo tournament, in which most of the Panhandle communities will enter teams.

"Nothing gives a town more publicity than good baseball, in addition to bringing the boys up in the great American game," said Mr. Dodson.

He pointed out that Pampa, being near to Amarillo, can enter the tournament for little expense, whereas towns like Lamesa must spend hundreds of dollars. Should the team win as much as fifth place, it would get a substantial cash prize and bring much valuable publicity to the city.

Big Prizes Offered. Harry Hoare, sports editor of the Daily News, explained the needs of the baseball club, estimating the fund desired at \$400. The entrance fee in the tournament is \$100. A good line-up of players will be brought in to bolster the team. The prize money possible to win ranges from more than \$2,000 for first place to about \$650 for fifth place. If the team finishes among the leaders, it will be able to complete the local baseball park and make the grounds suitable for football this fall.

Mr. Hoare, C. C. Alexander and C. O. Busby were appointed by President Cook to raise the necessary funds. Nearly \$200 was subscribed in a few minutes when a pledge sheet was passed around.

A Republican Speaks. Col. Haines, introduced as a "good Republican," made an analytical and often humorous address. He compared the number present with some of his audiences during his campaign for governor, and declared that those at the meeting can put over any good issue by working hard for it. He especially commended the presence of a number of women, asserting that women's inquisitiveness in city affairs is a valuable asset.

The speaker's approach to his subject—the place of Chambers of Commerce in public affairs—was through an analysis of the governmental structure. In spite of the myriads of laws and the various offices created under federal, state, district, county, precinct and city governments, many things were left undone.

"For example," said Col. Haines, "none is charged with the responsibility of sponsoring the baseball club, of educating the citizens in their civic duties, of bringing in industries, and of promoting the best interests of agriculture."

Much Left Undone. "No agency was provided to spread the news of a community's advantages. In fact, it sometimes looks like as much was left undone as was provided for. And this makes the Chamber of Commerce vitally necessary. It takes up what the other agencies fail to do. 'Nobody's business' is now the business of the Chamber of Commerce."

Continuing, the speaker pointed out the multitude of duties which are thrust upon commercial organizations from finding lost dogs to performing the most formal of organ-

(See BANQUET—Page 8, Column 5)

Pampa Quiz

1. Who is vice-president of the Chamber of Commerce?
2. Who is a prominent officer of the state Forty and Eight society?
3. Who is city health officer?
4. Who is county attorney?
5. Who is secretary of the school board?
6. How do the numbers of Gray county farms in 1920 and 1925 compare?

Now Comes the 60-Passenger Flying Boat

The huge new all-metal "Super-Wal" flying boat, with capacity for 60 passengers, is pictured above. The plane was tested recently at Friedrichshafen, Germany. It is capable of maintaining a speed of 180 kilometers an hour and is equipped with two 500-horsepower Rolls Royce Condor motors in tandem. A plane similar to this will be used by Captain F. T. Courtney, British flyer, in his trans-Atlantic flight scheduled for the near future.

Legal Delays Are Handicapping Business, Justice Too Slow, Declares Bar Association Head

(By The Associated Press.)

HOUSTON, July 13. — Industry cannot afford to go to court in this age of legal delays if the litigation involves a question on which its business policy depends, T. Whit Davidson, of Dallas, president of the Texas Bar association, told that organization at its state meeting here.

"Industry must either pay the price of peace to its adversary or face disaster while waiting for justice," said Mr. Davidson in explaining some of the laws' delays.

He told his fellow lawyers that the responsibility for the remedy lies with them.

"I tell you, gentlemen of the bar," he declared, "it is up to you to give the people a legal but rational, sane and business-like administration of justice. You need not be surprised when the incompetent undertake, with baleful results, that which the more competent have neglected or refused."

No Proper Protection

"You fool yourselves when you say that our courts are able to satisfactorily or even reasonably give proper protection to either person or property. I could cite you to a case where a tenant breached the terms of a lease for a brick building. Instead of installing a candy and confectionery store as he had agreed, he opened up with fish and "hot-dogs". The landlord exercised his right of "re-entry" under the contract but before he could get pos-

session through the courts the lease had practically expired by its own terms.

"Not only are there delays seen and known by jurists and statesmen, but they are known to the masses. You hear it upon the streets, you see it in the press. You hear it echoed in the howl of the mob. You do not have to remind me that so recently as four years since a secret (hooded) political "law and order" society almost overwhelmed our country. The state house and court house were its special objects of attack. Hundreds of thousands of high class American citizens were bound under "the infallible bond" to an emperor. With what choice piece of argument were its adherents won? In what fertile soil were the seeds sown to have brought forth such a harvest? Under every flaming cross sounded the slogan: "The arms of the law are too short." "There are too many crimes which the courts don't reach." The vigilantes said: "We will do it in short order, where only 100 per cent Americans will participate and where lawyers cannot interfere."

Language of Mob

"What was it all about? Much of it was the protest of an unthinking public speaking in the language of the mob against the delays of the laws. Those who wrote the rules of procedure and invoked law delays had sown the seed. The Vox Populi were about to help us to reap a whirl-

wind. Like the blind Sampson, it was about to pull the pillars of destruction upon the heads of friends and foe alike.

"The delays of the law are not peculiar to Texas. It is found to a greater or less degree in all the states—in the North and in the South and in the West and in the East.

"The judicial council of Massachusetts caused a survey to be made and found by its tabulated report of February 13, 1925, that Essex county was 3 years, 7 months behind; Lawrence, 3 years, 2 months; Fall River 3 years, 5 months, and in New Bedford it was 3 years, 9 months from the filing of the suit before a trial could be had by jury. These facts are not from an alarmist but are compiled under the direction of the judicial council, a select body of jurists and lawyers appointed by the Chief Justice and Governor of Massachusetts.

Delays Too Long

"If the litigants of New Bedford must wait three years and nine months for a trial he must wait for a period of from five to seven years before his case is finally passed on by the Supreme Court of Massachusetts, and if it should be reversed he is back where he started, i. e., if all parties are living and out of the hands of a receiver.

"The practice of law is the most beautiful of all the sciences, the science of administering justice among men. The very nature of their labors should bring the members of the bar to an exalted station of honor. The lawyer, though, is a human being. He, too, likes the popular acclaim and the laurels of victory. Success! Success at any price is not a triumph of justice, but is a triumph of the advocate's skill or ability to manipulate his cause to a successful finish.

Practices Need Change

His future depends upon success, and success he must have. In fairness to the lawyer himself, our methods of practice could well be changed. To many a lawyer, and in the eyes of the public in general, victory and only victory, spells success. To the judge, on the contrary, every righteous decision rendered by him is success. As our English forebearers have already done we, too, must take some of the responsibility away from the counsel and impose more upon the court.

"Society, itself, has yet a deeper and more persuasive interest. It is calling for protection from the criminal. It demands that every possible element of chance be eliminated from our court trials; that the arm of justice be swift and powerful, filling the offender with fear and inspiring the peaceful, honest man with a wholesome respect for the majesty of the law."

AN HONEST ROGUE

PONCA CITY, Okla., July 12. (AP)—An honest man's picture will offset the rogue's gallery in the police station here. G. A. R. Ratcliff of Fort Smith, Ark., parked his motor car in a forbidden spot and was tagged. He was in a hurry and left the city, but sent back a check for \$2.50 to pay his fine. Sam Tulk, police chief, returned the check to Ratcliff and asked for his photograph. It will framed, Tulk says.

An "oppressed" men's association to oppose the activities of the "militarist" women has been established at Yuenmeng, a rural town in Hupeh province, say Chinese press reports.

English socialists, in their latest move to abolish nobility titles say titles no longer mean anything because the holders have sold the feudal lands that gave the appellations.

West Texas Notes

Lockney—Work on the gas distribution lines over Lockney and Floydada will be underway here soon.

Shamrock — An expenditure of \$16,000 for improvements in the Shamrock yards has been authorized by officials of the Rock Island Railroads. Included in the improvement program will be three additional spur tracks, two north of the depot and one south.

Rule—Contract for the bridge over the Double Mountain Fork of the Brazos west of here has been awarded. The contract price was given as \$13,727.

San Antonio—Traffic experts of the West Texas Chamber of Commerce have completed an analysis of the recent decision handed down by the Interstate Commerce Commission with reference to what is known as the Common Point Freight Case after six weeks of intensive study. U. S. Pawkett, traffic manager, states that

the sum-total of West Texas freight Southwest will be very considerably reduced under the new rates, and that distribution of the reductions spreads out over the entire territory, excepting for more or less considerable increase to points in Arkansas and Louisiana. The new order is to become effective December 5.

San Saba—San Saba's new hotel-ry, Hotel San Saba, will be erected at a cost of \$96,000 and will contain 35 rooms. The building as suggested would have a space on the first floor for a drug store, barber shop, and a telegraph station.

Lamesa—Approximately 400 acres of the Weaver Ranch, west of Lamesa, is being planted to sunflower seed the mammoth Russian variety being sown. The average yield expected is about a ton to the acre, and during the last ten years, the average price per ton for this seed has been \$90. It is thought a new industry will receive impetus from the Weaver Ranch project.

Fort Worth—An all-Texas exhibit, to be a part of the Dairying-in-Dixie Exhibit of the South, will be collected and sent to Memphis, Tenn., in October for the fall session of the Na-

tional Dairy Show which will be shown south of the Mason and Dixon year. The exhibit will be sent through cooperation of the East, West, and South Texas Chambers of Commerce. B. M. Whiteger, Exhibit-Agricultural Manager of the West Texas Chamber of Commerce who arranged the prize winning Sesqui-Centennial exhibit last year, will arrange the All-Texas display, working in conjunction with J. E. Etanford, exhibit-manager of the East Texas Chamber of Commerce, and with other members of the special Texas committee.

Petersburg—Contract has been let and work is under way on a light and power plant for this place. A Throckmorton contractor has charge of the work.

Big Spring—Farmers of Howard county are milking more cows, feeding more chickens and hoeing more gardens than at any previous time. Neither the acreage usually sown in cotton nor that of feed is as large as this section for 1927 as it was for 1926, due to the lateness of the rains.

Gov. Len Small of Illinois has signed the "Fish Fans' Bill" carrying a \$20,000,000 appropriation.

QUIET LIMEHOUSE NIGHTS DISGUST AMERICANS IN QUEST OF ADVENTURE

IT MIGHT HAVE BEEN LIKE THIS

BUT NOW!

LONDON, July 13. (AP)—American tourists who come to London with an idea of finding adventure in "wild and woolly" Limehouse are doomed to disappointment.

That picturesque section of the London dock district is no longer the place Hollywood motion pictures portray. The Shanghai Cafe, one of the last business establishments to sell Limehouse "atmosphere" to tourists has nailed up its front door on Limehouse Causeway and moved to Soho where it can depend on a regular clientele for its chop suey.

Americans report to their tourist agencies that they are disgusted with the quiet evenings they have wasted in Limehouse looking for excitement.

Coster boys with dirty necks and muffers instead of collars and ties are the most picturesque things they see and an evening spent in the neighborhood is as quiet as a Sunday school festival.

Those who hanker for "the good old days" when crimes were frequent should blame it on Inspector Hall, who has just retired from the criminal investigation department of Scotland Yard. He is known as the man who cleaned up Limehouse. Ten years ago Inspector Hall took charge of the dock district. At that time Limehouse was infested with criminals of every nationality, and every street had its opium dens and white slave dives.

What does ROUGH CUT mean to you?

THIS rich full-flavored old Burley is a particularly cool-smoking tobacco to begin with... Wellman's Method makes it cooler—but the "rough cut" supplies the finishing touch.

For remember, this is PIPE tobacco, hence it is cut in the one way pipe tobacco should be cut—in large, coarse, shaggy flakes that burn slower, smoke cooler, and last nearly twice as long. Smokers tell us

it's the coolest cut of all!

The half-pound vacuum tin is forty-five cents. The foil-pouch, sealed in glassine, is ten cents.

GRANGER ROUGH CUT IS MADE BY THE LIGGETT & MYERS TOBACCO CO.

Better Printing

In step with the progress of a great City and a great community—keeping up with the demands for a bigger and better standard of living and activity—meeting every demand for the finer and more artistic—

Putting forth a greater effort to create something better and more attractive with type, ink and paper—

The Pampa Daily News Job Printing Department has taken the forward steps for years as creators and designers of a higher type of printing. The new, artistic and novel have always come out of the News office. The leadership established through years of service can be seen in the class of work today.

PREVENTIVE DENTISTRY IS SCHOOL NECESSITY

Many of the school systems of the Middle West have obtained the services of nurses and dentists, often volunteers, who make complete surveys of pupils soon after the opening of the fall terms.

Preventive dentistry has become something of a public responsibility, for dentists are demonstrating that children of the present generation are apt to lose their valuable teeth unless care is given.

SEEING THE WORLD EVENTS THROUGH WIRE

A roll of paper tape, about 350 feet long, five-eighths of an inch wide, and perforated crosswise with a multitude of tiny holes was rushed into a newspaper office.

Remarkable, that, from a strip of paper. The perforations were cabled and radioed across the Atlantic. The process is complex, but interesting.

It is remarkable too, that in-

Just Buzzing Around

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON.—The Anti-Saloon league and the Methodist Board of Temperance, Prohibition and Public Morals are taking us back to the good old days.

In their own pure way, that is. Plowing through the last month's mail, your correspondent discovers with the utmost astonishment that John Barleycorn, supposedly deceased, apparently is stirring in his grave.

The league and the Methodist Board, recognizing this fact, have gone back to the golden days before prohibition and resurrected some of their old standbys in the effort to keep old Jawn from squirming out.

If you do not remember the old-time temperance posters and cartoons which were used in the general onslaught on rum, depicting with awesome strokes the besotted workman, the skinny wife and the wizened children brought to their pitiful plight by Demon

Individual papers through the country may receive the photographs by Western Union lines, and the perforated tapes thus received, when run through a machine, throw a light on a sensitized film through the perforations and makes a picture to be reproduced in the usual manner.

As remarkable as this accomplishment is, it perhaps is not far distant when moving pictures may thus be sent, and a projection auditorium may be some day a part of every newspaper's equipment.

Rum, then don't feel badly about it. You are about to enjoy the treat for the first time.

Comes for instance, by post, one of Wayne B. Wheeler's bi-weekly messages of gloom for the wets and good cheer for the dries. One half of the surface of the long envelope is devoted to a cartoon entitled "Shall He Enter?"

TWINKLES

A \$63,319 certified check has disappeared mysteriously in Wall Street, but no one is held to blame for it.

Cal rode a horse 10 miles the other day, which in this age does not prove that he is a dirt farmer.

Gray county has many human thoroughbreds, but she needs a lot more of the elite among animals—chickens, hogs and cows.

Pampa's harvest isn't over; just wait until our Harvesters get into action this fall.

A new device shows advertisements in the clouds. And when it hails we suppose the ice companies will rush up an ad.

Aimee is being sued for \$100,000 for calling a cabaret a "trap door to hell." She should have called it something like "an unsavory social influence."

A well-known Texan says the All-Texas Special was purely for political purposes. This will certainly be news to most of those who made the trip, and altogether unbelievable to readers of the accounts of the journey.

Former "pro" officers are busy writing their experiences, but at that they are amateurs compared with the dries.

PRESS FORUM AGRICULTURE PULLING OUT

The end of the first half of 1927 finds the agricultural situation much better than at the corresponding date a year ago.

The great bulk of the wealth created in the Missouri River Valley comes from livestock, grain, dairy and poultry products. Winter wheat dominates in the minds of those interested in the prosperity of Kansas, Oklahoma, Nebraska and eastern Colorado at this season of the year.

Beef cattle which turn pasture grasses into marketable form and provide the means for utilizing much of the surplus corn are higher than at any time, except under war conditions. Sheep and lambs which serve the same purpose, are returning a profit to their producers.

Poultry and poultry products are temporarily in an unfavorable position. This is felt keenly by those who have engaged in their production as a specialty.

Cotton prices have improved more than the statistical position last fall indicated. Planters look forward to a profitable year.

will get much better returns for his land and labor than at any time in the last three years.

Added to the generally favorable outlook in income is the fact that farmers are producing crops this year at less expense than heretofore. Fertilizers are cheaper than at any time in recent years.

The other side of the story is equally interesting. Prices of things which the farmer has to buy have not increased with those which he has to sell.

The last five years have been trying to those engaged in agriculture. But it is apparent that conditions have improved.

While farmers are most directly concerned, bankers, manufacturers and those engaged in industries which depend upon agriculture as a market for their products have a deep interest in farm prosperity.

Russia claims 1,673 peasants are slain, reads a headline. If such a report should originate here all the game wardens in Oklahoma would be out looking for the hunters.

Youngsters Hosts to Parents In City's "Children's Hour"

(By The Associated Press.)
HANFORD, Cal. —The spirit of Henry Wadsworth Longfellow has inspired the innovation of "The Children's Hour" for those of school age in Hanford.

Children's meetings are held by Mrs. Cleo Lee Aydelotte to "develop among children their normal instincts for self-expression" have expanded into a community activity. The children are the hostesses of their hour each week. Parents and other children are invited guests.

Municipal authorities have placed the city auditorium at the disposal of the children on Sunday afternoons.

Through a five-cent contribution from each hostess—aided by some of the seniors of the community—refreshments are provided for all guests. They present regular programs, some including pretentious juvenile plays.

"The movement has awakened a true democratic spirit and a larger interest in social welfare," says Mrs. Aydelotte. "A new interest in recreation other than the movies has been aroused. Mothers note that the children are practicing the "golden rule" and not just reciting it. The youngsters develop self-reliance, self-expression and an invaluable resourcefulness."

FEATURES FROM OTHER LANDS

LONDON DAILY EXPRESS WOULD MANAGE TELEPHONES

LONDON (AP)—Newspaper enterprise in London has taken a new direction. The Daily Express has challenged the government to place the telephone system of the kingdom in its hands, guaranteeing to increase profits by 500 per cent, and insuring a more efficient service.

The London newspaper compares the British telephone service very unfavorably with that of the United States and Canada. The engineering staff and the operators are the equal of any, the Express says, but the higher control is not equal to its task.

The creation of new residential sections around London, the newspaper says, "has far outstripped the vision of the telephone administrators. New districts have been created of recent years without any adequate telephone service. Instead of foreseeing the development, the Post Office vainly tries to catch it up."

The Express suggests that the government, which operates the telephones through the Post Office, should advertise its telephone facilities, as is done in the United States and should create more public telephone stations.

AMERICAN INDIAN MUSIC POPULAR IN MAYFAIR

LONDON (AP)—Concerts by American Indians are a popular part of private entertainments of Mayfair society. The Countess Lutwaz started the fashion recently when she gave a dance in her house of Chesham Place and offered an Indian concert as a feature of the entertainment.

On-Ke-Non-Ton, an Indian chieftain, sang four songs which were followed by primitive American Indian music with tom-tom accompaniment. Since then the "heap big chief" has had "heap big" demand for his services.

LORD MAYOR DISCOVERS HE IS ALSO ADMIRAL

LONDON (AP)—The Lord Mayor of London, Sir Rowland Blades, while looking through some dusty old records, discovered that he is also an Admiral.

He immediately assumed the ancient role of "Admiral of the Port," his hereditary right, and journeyed in his robes of office to the Royal Albert Dock to lend official importance to the Port of London as a landing and embarkation port of passengers. He was piped aboard the liner Arandora, last of the five new vessels in the London-South American service, with all the official ceremony given to an Admiral of the Fleet.

WHY SOLOMON ISLAND DOGS ARE CALLED "MAOLA"

LONDON (AP)—Most of the dogs in the Solomon Islands are called Maola.

If the visitor calls out "Maola" he may expect to be a second Pied Piper. All the dogs within earshot will follow him.

"Why?" one asked R. F. Thomson, English Acting Deputy Commissioner of the Western Pacific, who is visiting in London.

Because Maola means stomach-ache, and the Solomon natives have the curious belief that if they are suffering some ailment they can get rid of it by calling their dogs the name of the illness. Hence, most of the dogs bear the name Maola. Some few are called Tohi Malos, which means headache, and other Lua Maola, which means pain in the neck.

QUIT-RENTS TO KING GEORGE FORM CURIOUS COLLECTION

LONDON (AP)—King George would possess a unique collection of "odds and ends" if he enforced all the quit-rents to which he is legally entitled.

A "quit-rent" is a contribution in kind made to Britain's reigning sovereign by holders of country estates granted to them by English kings in ancient times.

Some, like the miniature Napoleonic standard presented on the anniversary of the battle of Waterloo by the Duke of Wellington, in respect of his estate at Strathfieldsaye, are re-

quired annually. Others are due on demand.

The Duke of Atholl holds his lands on condition that he present a white rose to the King whenever honored with a Royal visit at his residence, Blair Atholl. The Munros of Foulis, in similar circumstances, are under the much more difficult obligation to present a snowball.

When His Majesty passes through the town of Creden in Buckinghamshire, the owner of the land on which it is situated has to tender red roses. Should the King visit the village of Amesbury, Wiltshire, the owner of the land on which it is situated is called upon to furnish straw for the royal bed. The holder of the Corber estates in Shropshire is obliged to supply the King's table with bacon when England is at war.

BRITISH GIRLS MARRY EARLIER, MEN LATER

LONDON (AP)—British girls are marrying younger than before the war, but men at a later age, according to statistics by the Registrar General.

After the war many women married between the ages of 25 and 30. Thousands of marriageable girls lost their sweethearts during the war. Figures show that the majority of brides are now between 20 and 25. They were children during the war.

Many of the men now marrying were youths during the war.

Rainbow Division To Meet In Iowa

(By The Associated Press.)
DES MOINES, Iowa—Memories of the battle of Champagne, in which the Germans made their last great drive of the world war with Paris as their objective, will be revived among the members of the Rainbow division in their annual reunion here July 14 to 16.

The Rainbow unit was the only American division in the battle of Champagne and its successful repulsion of the drive has been said to mark the only time American troops were on the defensive during the war.

At the reunion more than 1,000 former members of the division expect to entertain as guests Gen. John J. Pershing, Maj. Gen. Charles P. Sumerall, Col. Hanford MacNider, assistant secretary of war and Maj. Gen. Douglas MacArthur.

Originally composed of national guard unit from 27 states, the Rainbow division saw more than nine months of continuous service in the line, sharing with the First and second divisions the honor of being the longest in front line service. It went into the line on Feb. 20, 1918, and was withdrawn when the armistice was signed. During those months 60,000 men passed through the division as replacements, so that former members of the outfit are scattered throughout the country.

Not an Ad for a Sofa Factory

Eddie Rabbitts has fifty-three (count them) curls in his permanent wave, and if that isn't the nation's record for a masculine permanent wave, then what is it? Eddie leads an orchestra at Connaughttown, Pa. They call him Eddie Hair.

NATIONAL AIR DERBY PROMOTED TO FOSTER COMMERCIAL FLYING

Terminus of the national air derby will be the Spokane air port, shown above. (U. S. Air Corps Photo). Lower left—Officials inspect the field. Major John T. Fancher, manager of races, in flying togs, Walter Evans, president of the derby association and Charles R. Heberd, treasurer. Right—Nick B. Manner, an entrant, winds up for a trial spin.

PRIZES, SUMMARY OF RULES, AND ROUTE FOR FIRST TRANS-AMERICAN AIR RACE

CLASS A (Civilians Only)
Prizes
First, \$10,000; second, \$5,000; third, \$2,000; fourth, \$1,000; fifth, \$500. Also cash prizes and silver trophy to first enclosed cabin cruiser to reach Spokane.

Planes Eligible.
Open or closed stock models with seating capacity for two passengers besides pilot.

Engine Displacement.
Greater than 510 cubic inches up to and including but not exceeding 800 cubic inches.

Start.
From Roosevelt field 5:30 a. m., September 20.

Routes.
New York to Chicago (five minute stop); Chicago to St. Paul (overnight stop); St. Paul to Fargo, N. D. (five minute stop); Fargo to Glendive, Mont. (five minute stop); Glendive to Butte (five minute stop); Butte to Spokane.

Planes will leave stopping points in order of arrival.
There will be intermediate control stations where gas and oil will be available.

CLASS B (Civilians Only)
Prizes.
First \$5,000; Second, \$3,000; Third, \$1,000; Fourth, \$500; Fifth, \$250.

Planes Eligible.
Open or closed stock models with seating capacity for at least one passenger besides pilot.

Engine Displacement.
Up to and including but not exceeding engines of 100 horsepower.

Start.
From Roosevelt field 5:30 a. m., September 19.

Route.
New York to Chicago (overnight stop); Chicago to St. Paul (five minute stop); St. Paul to Bismark, N. D. (overnight stop); Bismark to Billings, Mont. (five minute stop); Billings to Butte (five minute stop); Butte to Spokane.

Planes will leave stopping points in order of arrival.
Intermediate stations will be equipped for supplying gas and oil.

SPOKANE, July 13. (AP)—Encouragement of commercial aviation and demonstration of the feasibility of an air mail route from New York direct to Spokane prompted promotion of the National Air Derby from Roosevelt Field to the Spokane airport September 20 to 22.

More than \$50,000 to finance the Derby and for prizes was subscribed by business men of this city.

National Aeronautic association approved the transcontinental race. At the same time it authorized a similar contest from San Francisco

to Spokane together with national air races consisting of speed contests here September 23 and 24. All are to determine supremacy of commercial or military planes.

The idea of developing commercial aviation was carried out in the conditions for the New York-Spokane race, which provide for daylight flying and overnight stops at fields that would constitute natural landing points for a commercial or an air mail route.

As prizes for the larger machines, \$18,500 has been offered, divided among \$10,000 for first, \$5,000 for second, \$2,000 for third, \$1,000 for fourth and \$500 for fifth. Smaller planes may be entered for prizes totaling \$9,750, to be divided into five awards from \$5,000 to \$250.

For the San Francisco-Spokane air race, prizes of \$5,000 have been posted, and as awards in the national air races over the local course \$15,000 has been provided for prize money.

Major John T. Fancher, commander of the aviation squadron of the national guard of Washington, is manager of the races. Walter Evans is president and Charles R. Heberd is treasurer of the National Air Derby association, which is in charge of financial arrangements for the flights.

UNITE ALIEN FAMILIES ASKS SOCIAL WORKER

CHICAGO (AP)—Uncle Sam has unconsciously become a home wrecker, believes Mary E. McDowell, 72-year old social worker who is called "the angel of the stock-yards."

She is trying to influence congress to "humanize" the immigration laws. Foreigners are offered alluring prospects of establishing homes in the United States upon American standards, and the heads of families are admitted, she explains, but the immigration law breaks up the family circle by not giving preference in immigration quotas to dependents left behind in the mother country.

For a two-year period beginning July, 1928, Miss MacDowell seeks preferential treatment which will bring separated families to join husbands and fathers in the United States. Several thousand social workers have pledged their support.

SMALL BOYS ENVY HER

NEW LONDON, Conn., July 12. (AP)—Anita May Andrews' idea of a perfect summer vacation is to travel with a circus as an acrobatic clown—and she's having the idea fulfilled this summer. Mile. Anita is eight years old. While Anita comes naturally by her talent, since her father has been a circus clown for years, it is not intended that she shall spend her life in the sawdust ring. Her father believes acrobatic "work" is beneficial for a child.

Dictators of Styles Unheeded by Women

(By The Associated Press.)
CHICAGO—When Mussolini attempted to set styles for the women of Italy he undertook a task which was too great for dictators and monarchs of ancient days, Mrs. Minna Schmidt, Chicago costumer, asserts.

For the 50 years Mrs. Schmidt has studied the history of feminine attire.

Cromwell, she finds, tried to shroud his women followers in austere garb but at his demise they went to extremes in dress which far surpassed those which Cromwell sought to abolish. Several French kings too, banished frills and furbelows.

"All to no avail. Women will wear what they please," she says. "Neither king nor modiste can change them unless they want to be changed."

A hundred dolls dressed by Mrs. Schmidt represent famous women of the ages. The gown of each, she says reveals an individuality which was a factor in the personality and achievement of its wearer.

Cleopatra made her attire add to her voluptuousness, and with her physical charms she disarmed warriors and statesmen.

Catherine of Russia and Elizabeth of England owed their prestige as monarchs to their dignity of dress. Mrs. Schmidt believes, and Louisa May Alcott and Elizabeth Barrett Browning in the field of literature were distinctive for their attire as well as for their writing.

The cave woman, with a raw furbel wrapped about her, is the earliest exponent of customing in the Schmidt collection—and the latest is "Trudy" Ederle.

"Trudy finally demonstrated that woman's quality of endurance is equal to man's," says Mrs. Schmidt. "Her attire, the bathing suit, is symbolic of the modern girl, dressed in scant clothing which gives her body a chance to grow and to become healthier."

LOST—NIAGARA FALLS

NIAGARA FALLS, Ont., July 12. (AP)—A native of this city, while standing on a hillside overlooking Niagara Falls, was startled when two young men asked:

"But where is Niagara Falls?"

"Right there," said the native, pointing.

"Well," exclaimed one of the young men, doubtfully, "that's the American Fall — and that's the Horseshoe Fall, but where is Niagara Falls?"

GOD'S MOTHERS

By DOUGLAS MALLOCH

YOU can't believe in mother much
And not believe in God,
For there is something in her touch,
Yes, even of her rod,
That makes a mother seem to me
An agent of Divinity.

So much a mother can forgive,
So often has the need,
So much like God she has to live
She seems a living creed.
Though man may preach some creed
Of his,
Her creed she lives, her creed she is.

Men preach forgiveness, yet they hate,
But mothers day by day
Leave open every door and gate,
Inviting feet that stray
To come returning—first to greet,
And last your sinning to repeat.

The Good Book tells us God is love;
Well, so is mother, too.
Believing in some God above
Is not so hard to do,
With mothers here to prove the worth
Of heaven's love with love on earth.

THE WHY of SUPERSTITIONS

By H. IRVING KING

PARSLEY

IN SOME sections of the country it is considered most unlucky to replant old parsley in the garden—that is to set out a parsley root which you have had growing in a box in the house all winter—as it endangers the life of the head of the family. Always sow fresh seed. This superstition we inherit, along with parsley itself, from the days when Greece and the gods were young together. Parsley was an indigenous plant in Greece, growing wild and with special profusion in Argolis, where was the vale of Nemea, in which stood the temple of Nemean Zeus, and where Hercules killed the Nemean lion.

Parsley—possibly from its availability in making wreaths and garlands for his shrine—appears to have come to be regarded in the valley as the specially favored plant of Nemean Zeus, and so when, some five hundred years before the Christian era, the Nemean games were instituted in memory of a local young hero, Archemorus, who died from the bite of a serpent on the expedition of "The Seven Against Thebes" was passing through the place—a crown of wild parsley was the reward of the victor.

Now wild parsley being dedicated to such purposes was naturally protected: probably the penalty for the profanation of rooting it up was death. And here we get the modern superstition that the planting of an old parsley root in the garden is likely to cause the death of the head of the family. Only three columns of the temple of Nemean Zeus remain standing; yet many a man today hesitates to plant an old parsley root in his garden, and you will find in many of the modern books of "Dreams and Omens" a warning against doing so.

Billy Expected More

Little Billy's mother was phoning a friend about the boy's case of chicken pox. She informed the friend that Billy was broken out on his body but his face was still comparatively unaffected.

"Tell her they're still hatching," interrupted Billy.

Tough Luck

"So you hiked from Erie to New York in eight days!"

"Yes, I should have made it in seven, but I had to walk ten miles."—Life.

College Herd To Furnish Sires For Panhandle Dairies

CANYON, July 13.—T. C. Bennett, farm specialist of the Amarillo Board of City Development, has spent most of last week inspecting the dairy herd of the West Texas State Teachers college. With Professor Frank R. Phillips, head of the department of agriculture, Mr. Bennett has worked out a long-time breeding program which will enable the Teachers college herd to furnish sires for fine Jersey herds throughout the Panhandle.

The Teachers College dairy herd contains a number of cows with very high butter fat records.

It is the opinion of Bennett and Phillips that the college herd, which is maintained primarily to furnish milk for the college dormitories, can be of great help to the people of the Panhandle by helping them to build up their dairy herds.

As a result of the visit of T. C. Bennett, the Teachers College at Canyon has become a member of the first cow-testing association of the Panhandle. By memberships in this organization, the herd will be carefully investigated at regular intervals; all milk will be tested for butter fat, and only cows that are paying their way will be retained for the herd. The cow tester, who is an expert, will also furnish advice to members of the association regarding rations for dairy animals, care of sick animals in case of epidemics, and other matters which are involved in the building up of a great herd.

The Jersey herd of the Teachers college farm has done more than any other single feature of the farm to keep it on a paying basis. The farm has consistently shown a profit for several years.

Interest On Texas University Royalties Invested As Received

(By The Associated Press.)

AUSTIN, July 13.—Although oil royalty collections from the University of Texas lands, principally in West Texas, hit their last year's stride during June, the average receipts for the first six months this year fell several thousand dollars below the monthly averages of 1926.

Figures compiled by State Treasurer W. Gregory Hatcher show that of the total oil moneys collected up to July 1, last, \$4,499,079.09 was taken in during 1926, and 1,169,261.80 so far this year.

Of the former sum, \$2,310,262.15 was taken in during March 1926. Other collections for the year, after that, ranged from \$194,000 to \$266,000.

Receipts so far this year range from \$190,000 to \$230,000.

The money is invested almost as quickly as received in federal bonds, from which the interest goes in the University building fund.

Following are the 1926 collections after March:

April \$266,051.53, May, \$269,555.96, June \$263,504.98, July \$256,409.01, August \$249,408.15, September \$241,007.09, October \$227,702.95, November \$220,397.41, December

Receipts to July 1927, are: January \$190,930.88, February \$188,244.41, March \$181,753.85, April \$171,979.22, May \$205,663.26, June \$230,690.18.

PARIS IS RACING CENTER

PARIS, July 13. (AP)—In spite of more and more motors, Paris is a greater center of horse racing than ever before. Not other city in the world can compare with it in this respect. Each year, on the courses in or near Paris, there are 320 race-meetings.

There are two race-tracks within the city walls, Auteuil and Longchamp, both in the Bois de Boulogne. Within half an hour's ride of the Opera are five others, St. Cloud, Le Tremblay, both flat courses, the flat and hurdle course at Maisons-Lafitte and the trotting tracks at Vincennes and Englihen.

WIMBLEDON'S "DARK HORSE"

WIMBL.—England, July 12.—They are calling T. Harada, Japan's premier tennis player, "Wimbledon's 'dark horse.'"

Harada, who played nearly all his tennis in the United States, where he ranks high, created a deep impression here by his style. He never betrays the slightest emotion. His expression is sphinx-like. From first to last he never smiles or speaks on the courts.

"What is your impression of the match," he was asked after one of his victories at the Queen's club.

"Thank you," replied the Japanese, and—walked away.

By court decree Gov. Len Small of Illinois will pay into the state treasury \$650,000, alleged to have been earned on state funds while he was state treasurer.

Delegates To Pacific Parley

Upper left—H. S. Pritchett. Right—E. C. Carter. Lower left—Fletcher S. Brockman. Right—Ray Lyman Wilbur.

HONOLULU, July 13. (AP)—Matters affecting the friendly intercourse and trade relationship of Pacific countries will come within the scope of the convention of the Institute of Pacific Relations at Honolulu, July 15 to 29.

Ray Lyman Wilbur, president of

Stanford university, is chairman of the convention and E. C. Carter is secretary. Among the American delegates will be Fletcher S. Brockman, Far East secretary of the Y. M. C. A., and H. S. Pritchett, president of the Carnegie Foundation for Advancement of Teaching.

Experiments in London show that if a pianist could collect the force he expends in a recital of an hour and a half he could push a street car with ease.

THREE MEN IN A BOAT

MOSCOW, July 12. (AP)—Three men in a boat have left Moscow for a 2,000 mile voyage to the Caspian Sea. They are artists from the Moscow Art Theatre. Their route will be the Moscow and Oka rivers to Nijni-Novgorod, thence down the Volga to Astrakan. They expect to complete the trip in a month.

Flogged

Mrs. Anselmy Bowers, a widow (above), and her son, Lloyd, 15, were flogged by a band of hooded men.

TOCCOA, Ga., July 13. (AP)—The flogging of Mrs. Anselmy Bowers, a widow, and her son, Lloyd, 15, by a band of hooded men has resulted in the arrest of 10 men, an investigation and the revelation of other beatings in Stephens county.

Mrs. Bowers was whipped on June 15. When Lloyd rushed to her defense he also was beaten. After they had sworn out warrants for the arrest of four men, Mrs. Martha Finley, Miss Elsie Williams and Bart Singleton swore to affidavits for the arrest of others, claiming they had been flogged and threatened with death if they revealed the fact.

Mrs. Finley and Miss Williams left town under orders of the band, but returned when Mrs. Bowers preferred her charges. Mrs. Bowers attributed the attack upon her to gossip. W. G. Acree, a school principal; T. R. Lowry, Bart Lowry, J. H. Ferguson, Mose Jordan, James Aberholdt, Hendrix Wiley, Fletch Means, Elmer Clarke and Charlie Thomas were the men arrested.

Many Oil Stocks Jump In Values

WASHINGTON, July 13.—Stocks of oils, crude and refined, increased 6,791,000 barrels during May, according to the bureau of mines. Gain was chiefly in crude oil storage, which increased 8,710,000 barrels, totaling 424,448,000 barrels on May 31. Gasoline stocks decreased 3,770,000 barrels, totaling 48,609,000 barrels end of May, compared with record stocks of 52,410,000 barrels end of March. In April stocks of all oils gained 8,809,000 barrels, while gasoline storage declined 31,000 barrels.

May gasoline production totaled 26,787,000 barrels, average of 864,000 daily, compared with 26,577,000 barrels, average of 886,000 daily, in April. May gasoline imports of 490,000 barrels, compared with 377,000 in April; exports were 4,468,000 barrels against 3,611,000 in April.

Stocks of all oil, crude and refined were 559,386,000 barrels at end of May, compared with 552,595,000 barrels end of April. Domestic crude oil production

during May of 76,264,000 barrels, compared with 72,590,000 barrels in April. May daily average of 2,470,000 barrels was a new high record and compared with previous high of 2,429,000 barrels daily in March, and an average of 2,420,000 barrels daily, or 21 per cent over May, 1926.

Gasoline stocks May 31 represented 48 days' supply at May rate of consumption, compared with 58 days' supply at end of previous month and 47 days' supply a year ago.

Runs to stills of both foreign and domestic crude petroleum in May amounted to 70,148,000 barrels, a daily average of 2,263,000 barrels and an increase over the previous month of 31,000 barrels. Refinery figures were compiled from schedules of 32 refineries, with an aggregate daily crude oil capacity of 2,877,900 barrels. These refineries operated during May at 78 per cent of capacity in April.

Five hundred firemen attended the third annual firemen's short course given under the auspices of the College of Engineering of the University of Illinois.

WHEN I WAS TWENTY-ONE

BY JOSEPH KAYE

At twenty-one Scott Fitzgerald wrote the book that brought him fame.

AT TWENTY-ONE I was in an officers' training camp and while there started on a novel. I would begin work on it every Saturday afternoon at one and work like mad until midnight.

TODAY—At the age of thirty-one, when others are just starting out to make their way, Fitzgerald is already a famous author, commanding both the attention of the public and substantial checks from the publishers.

When "This Side of Paradise" was published it became the leading novel of the time almost immediately, and the future of the young writer was assured.

It might be no exaggeration to say that Fitzgerald started the "flapper" literature that inundated this country up to a year or two ago.

What Does Your Child Want to Know?

Answered by BARBARA BOURJAILY

ARE ANY TWO THINGS EVER EXACTLY ALIKE?

No two things ever are alike in each minute detail; And if examined closely Show difference without fail.

Do You Know That:??

"MIDAS-EARED" is an expression which has come to us from an old Greek myth. Midas, King of Phrygia, was appointed judge in a musical contest between Apollo and Pan.

"BIG BEN" INSPIRED BY TUNNEY, GOES AFTER HEAVYWEIGHT TITLE

TAMPA, Fla., July 13. (AP)—Gene Tunney, who has a liking for things literary, as well as pugilistic, appears to have inspired a young collegian to become the world's heavyweight champion.

Benjamin Pound is his name. He grew up in the same Greenwich Village which now boasts of Tunney. Two years ago, when Gene was in Florida, Pound, a student at Rollins college, met him and then there decided to follow a ring career.

"Big Ben," as Pound is best known, came to Florida the year before. As a football star and leader of the college boxing team he did not want to lose his amateur standing. He permitted Tampa promoters to match him with eight oppon-

ents, however, with the understanding he was not to "knock down" any money. Only one fight lasted more than one round. "Big Ben" knocked them out.

"K. O." Brennon, of New York, who remained a round and one minute with Pound in their first fight came back for a return engagement. "Big Ben" broke his left hand in the second round, but with his right knocked down Brennon three times in the remaining four rounds and won the decision.

After finishing his junior year in college with a scholastic average of 52 1-2, Pound decided to become a professional. In his first fight for money he knocked out Bumbo Myers of Canton, O., in two minutes and three seconds.

"Big Ben" weighs 195 pounds and stands six feet two inches. He will be back next September for his senior year.

Grays Will Be Entered In Coming Baseball Tourney

The return of the prodigal, Bob Clarke, and the entry of the Pampa Grays in the Amarillo tournament is the chief talk of sport enthusiasts on the streets today.

At an enthusiastic meeting of the members of the Chamber of Commerce last night at the new Schneider hotel, the local baseball question was discussed and those present were unanimous in the decision to enter the local ball team in the Amarillo tournament and to raise the necessary funds by public subscription.

The president, C. C. Cook, selected a committee with Harry Hoare as chairman and C. O. Busby and C. C. Alexander as other members to assist in the raising of the necessary \$400 to put the team in the tournament. All checks are to be made payable to J. M. Dodson and expenses will be handled by him.

Anyone who wishes to help finance the club may send their checks to J. M. Dodson or any other member of the committee.

Bob Clarke will leave the Texan payroll today and will be in Pampa tomorrow. Manager Ed Gober has wired for Sam Sealing and C. Shaw two pitchers with long records. Also Red Gaither and George Seeds, two of the fastest fielders in independent baseball can be depended upon to hit in the pinches.

Each club can carry sixteen players and Gober is confident his team will be well up in the tournament money. Daily practice will commence within the next few days and it is likely the club will play Borger Sunday.

If the Grays win money in the tournament, the park will be completed and Pampa will take on all comers.

SPORT TALK

Pampa baseball fans will be ready to welcome Bob Clarke back to Pampa tomorrow. The big fellow sent word he would be here ready for the Amarillo tournament.

Manager Gober is burning up the wires to get the good news to his stalwarts and tell them to report for early training.

The Washrites and the Oilers put up a fair brand of baseball last night. Tonight the Magnolia team and the Rig Builders clash.

The Babe went into the lead in the home run race yesterday when he chalked up number 30. Now it is Gehrig's turn to hit one today.

Outbit and outfielded, the Texans won a game yesterday when Sanders tightened in the pinches. He is the second Amarillo pitcher to last a full game in some time.

Tulsa and Wichita are still battling for first place with the honors about even. The race is getting tight and more interesting. One team will have to break soon.

Fedor Chalapin, Russian singer, when critics recently grumbled at the \$3,000 paid him for a single appearance, revealed that he supports 26 dependents, including 10 children, his relatives, and his servants.

Washrites Defeat Oilers, 15 to 8

The Pampa Washrites took a fall out of the Oilers last night at Magnolia park by a 15 to 8 score. The winning team was strengthened by having Shaw and Jack Gober in the lineup.

Lefty Reynolds pitched his usual good game, the Oilers getting eight hits, while the laundrymen collected 19 off Voss. Besides pitching a great game, Reynolds hit a triple and a homer. "Hook" Shaw had four for four and Jack Gober three for five.

Cahill's fielding was the high light of the game. He covered worlds of ground and is getting his old time sped back. Jack Gober also covered a lot of territory.

Voss was hit freely but good fielding by McClendon and McKay saved him several times. Again Chief Herndon of the big bat was on duty and parked a triple and a single. Middleton had a pair to his credit.

The city leaguers put up a good brand of baseball and to help swell the attendance, they have tickets for sale that entitle the holder to attend ten games for \$2. Tickets may be purchased from members of the various teams.

Batteries for yesterday's game: Washrites, Reynolds and Shaw; Oilers, Voss and Sherrod.

COP DOES RODEO ACT

CHICAGO, July 13. (AP)—Even a former plainsman may find a task right to his liking on the Chicago police force. When a steer ran away from the stockyards down a business thoroughfare, Sergt. Anthony Huber, former cowboy, bulldogged it and held it down until attendants arrived in pursuit.

First Big Inning Gives Amarillo's Team a Victory

AMARILLO, July 13.—Three hits and five runs in the first inning won a game for the Texans yesterday. They could never get a counter after that inning, but the Indians were held to a lone run.

Sanders for the Texans allowed eleven hits, but kept them well scattered.

The victory raised Amarillo to sixth place, within half a game of the Indians, who are in fifth place.

ization duties. "A few years ago," said the veteran of 20 years public service, "a Chamber of Commerce secretary was judged largely by his ability to lie about conditions in his community. But that wouldn't do; we must deal in facts, not fancies. And the accomplishments of a Chamber of Commerce are not measured by the calibre of the manager or the president; the ability to be effective lies in the individual's willingness to cooperate.

"The American people are lacking in civic energy. Often they do not vote on matters with which they are in sympathy, but depend on others to decide for them. It doesn't always come out that way. Do your part by voting as you think."

In urging approval of city-building projects, he showed that Houston, with a bonded debt of \$200 per capita, is one of the most prosperous cities in the nation.

"And are the taxpayers burdened with this debt of \$54,000,000? Not at all. The tax rate is the same as at the beginning, for the expenditures, meeting the public needs, so increased the valuations that it was never necessary to touch the rate. The same should be true in Pampa. Houston has never turned down a bond issue and the majorities have been four or five to one every time." Turning to agriculture, the speaker said 26 counties of the Panhandle offer tremendous opportunities. The farms are reaching but 6 per cent of the possibilities, for only 15 per cent of the available soil is being cultivated and the methods are but 40 percent efficient. He showed that agriculture made Dallas, and is to make the Panhandle cities of the future. By cultivating more land, communities will be more prosperous and small industries will be attracted it was claimed.

A Russian, who says he is 132, a volunteer in the Russian army which followed Napoleon's army on its retreat from Moscow in 1812, is the oldest voter in the Soviet Union.

"Tell the world, but you must have something to tell about," said Col. Haines. "You can get what you need by coordinated efforts."

"There is competition between towns today just as there is between business, and the Chamber of Commerce is indispensable as a public representative in these affairs."

Many people were killed, the city gates and two pagodas, 2000 years old, were demolished in an earthquake at Liangchow, near the Mongolian border, on May 23. In the same area in 1920, occurred an earthquake which killed over 100,000 persons.

Negro Slayer Is Identified Today As An Ex-Convict

(By The Associated Press.) DALLAS, July 13.—Finger print experts here have identified the negro giving his name as Willie Robinson, held here and charged in connection with the slaying of J.C. Terrell, Justin farmer, as Jesse Binkley, who escaped from a Texas prison near Houston.

He was serving a 75-year sentence on conviction of burglary, assault, and murder.

The negro yesterday signed a confession that he participated in the Terrell slaying, but claimed his confederate actually did the shooting. A posse of 100 men today continued the search for the other negro.

The belief is, that the negro sought by officers in connection with the Terrell slaying near Justin Sunday, has escaped the officers thrown about Justin and is now hiding in Fort Worth, expressed by County Attorney Elbert Hooper of Denton today.

Do your bit toward keeping Pampa clean.

FALL DRESSES SHOWN IN MIDSUMMER HEAT

PARIS (AP)—In the heat of midsummer, mannequins are modeling the styles of fall and winter.

The dress salons are busy places where buyers from all over the world are gathered for a peep at Paris' latest tyranny.

Jean Worth, one of the most conservative of the style leaders, is using much gray and black in his collection for winter. He shows much velvet for evening, particularly in black and white. Many of Worth's models show woollens of small geometrical patterns woven in metal thread.
