VOL. 1. NO. 7.

PAMPA, GRAY COUNTY, TEXAS THURSDAY, EVENING, MARCH 17th, 1927

PRICE FIVE CENTS.

BORGER MAN BURNS, ONE IS SHOT

OFFICERS ARE ASKED TO FILE ALL OF DATA

Grand Jury Suggests Fines Be Taken By Courts

FORTY BILLS ARE RETURNED

Financial Status Of County May Be Learned

Recommendations for the appointment of a committee to investigate the financial status of Gray county and for a more close following of the statutes by officers of the county are contained in the report of the grand jury for the March term of the newly created 84th District Court.

After making careful investigations, the grand jury reported that search warrants and affidavits are not being properly preserved and filed, that testimony taken in examining trials in felony cases is not being reduced to writing as required by law, and that officers have been collecting fines from violators instead of taking an appearance bond and bringing the cases before the proper judicial authority. It is further recommended that the laws relating to butchering of animals be more closely adhered to.

The complete report follows:

Met Four Days.
"We, the grand jury of the 84th Judicial District court of Gray county, Texas, having been duly empaneled on the 10th day of March, A. D., 1927, and remaining in session for a period of four days, beg to make the following report to the Honorable Newton P. Willis, judge of the aforesaid court.

"We desire to recommend that the laws relating to butchering and slaughtering of animals, and the laws relating to the killing of cattle slaughtered, and the making of

(TURN TO PG. 4, COL. 2, PLEASE)

Moody Urged To Sign Emergency School Bill

Telegrams by members of the Chamber of Commerce and the school board have been sent to Governor Dan Moody urging him to sign the emergency school reapportionment bill now on his desk.

Borger interests trying to discredit certain Borger officials are, it is said, trying to block the bill through the governor's veto. They are urging that Borger's needs have been misrepresented.

The bill as passed would give aid to Borger, Pampa, and other rapidly growing towns.

The bill is as follows:

Be it enacted by the Legislature of the State of Texas:
Section 1.—That in each instance where the county superintendent of a county officially informs the State Superintendent that there is an independent school district within said county which, at the time this law becomes effective, contains a scholastic population of more than 100 percent in excess of the scholastic population of the same territory as ascertained on April 1, 1926, whether said district was then an incorporated or not, then in that event it shall be the duty of the Superintendent of Public Instruction to ascertain, through such means as he may deem expedient to employ, the scholastic population of such district, and to ascertain the excess of such population over the scholastic population as existed in the same territory on April 1, 1926, and to certify a statement of such excess of scholastic population to the State Board of Education.

Section 2.—It shall be the duty of the State Board of Education to make an appropriation for the benefit of such district, for the current scholastic year of 1926 and 1927, in the same per capita amount as has heretofore been made available for the several cities, towns, and school districts of the State, provided, however, in the event that said district has already received appropriation and is actually receiving funds of the State under the general appropriation, no additional payments shall be made under the provisions hereof.

Section 3.—Thereupon it shall be the duty of the Secretary of the State Board of Education to certify to the treasurer of such district the total amount of funds so appropriated to such district, which certificate shall be signed by the president, counter-signed by the comptroller, and attested by the secretary.

Three Attacks On Sapiro Are Basis of Suit

(By The Associated Press)
DETROIT, March 17.—William Gallagher, attorney for Aaron Sapiro in his million-dollar libel suit against Henry Ford, finished his opening address in court here today. He summarized his plea, which brought out three points. The first was the attack by the Dearborn Independent, Ford's publication, upon Sapiro's individuality; the second, an attack upon his professional career as a lawyer, infusing him with his clients; the third, the attack upon Sapiro's work in organizing cooperative marketing organizations.

Senator Reid then took the floor in behalf of Ford.

DR. COOK WILL BE RELEASED

Judge Listens To Plea For A Parole

(By The Associated Press)
FORT WORTH, March 17.—Dr. Frederick Cook won his plea for probation today before United States Judge James Wilson.

Cook was convicted here in 1923 on charges of misusing the mails for oil stock promotion. He has been serving on a 14-year term.

"It appears to the court harsh and unjust to keep Cook in the penitentiary," Judge Wilson said in announcing his decision.

Cook, self-styled but repudiated arctic explorer, was once one of the world's most popular figures, and still has many warm friends.

Although his claims have been denied by other explorers, his knowledge and skill have drawn much commendation. Numerous previous attempts have been made to obtain his freedom.

While imprisoned he has been at work on scientific and historical projects, and many who have interviewed him at his tasks have expressed their conviction that he should be given freedom and support.

He was convicted while trying to rebuild his fortune through oil promotion schemes such as were plentiful during the oil boom periods a few years ago.

J. M. Smith Lets Contract For New Brick Building

Joe M. Smith has let a contract for a one-story brick building to C. A. Sharpe, local contractor.

The building will be located between the Pampa Daily News building and the location opposite the new Schneider hotel, on property owned by Mr. Smith.

The architecture will harmonize in color of brick with the new hotel.

Work on the foundation for the new Smith structure has begun. The building will be leased to a local firm.

Narcotic Agents Make Very Big "Under-Cover" Haul

(By The Associated Press.)
NEW ORLEANS, March 17.—Thirteen men were arrested, a fleet of eleven automobiles was seized, and 2,500 rounds of pistol ammunition were confiscated here today by federal narcotic agents in a round-up of a ring with which they were "under cover."

The agents had arranged for the purchase of \$62,000 worth of morphine.

NEW GROCERY STORE
The Oil Belt grocery store, one of a series of chain grocery stores, will open in the new building of the post office next week. The fixtures are being installed now.

The Boys Who Discovered New Gold Field

The two boys whose discovery of gold at Weepah, Nev., brought in a new "rush" of prospectors are pictured here. They are Frank Horton Jr., 19, (left foreground), and Leonard Traynor, 19, (right). Among the thousands who have staked claims in the territory where the ore is reported to assay \$78,000 a ton, are many women. Note the girls in the left background of the picture.

FRIDAY AND SATURDAY ARE TAG DAYS FOR BENEFIT OF PAMPA'S HOSPITAL, A COMMUNITY ASSET

Pampa Hospital, Inc., destined to be a great asset to this community, will be taken to local people for support tomorrow and Saturday, which will be hospital tag days.

A goal of at least \$5,000 through the sale of tags for \$1 or more has been set, and representatives of churches, clubs, the Chamber of Commerce and Pampa high school will canvass the city during the next two days. Publicity stunts are being planned to call attention to the new institution.

Several women, representing Pampa churches, met this morning to discuss plans for the campaign with Mrs. Beverly Barker, who has leased the hospital. Another meeting was set for 4 o'clock this afternoon.

May Designate Rooms
Organizations may further help to finish the hospital by buying beds and furnishings at \$100, with the privilege of having the donor's name on a plate. Another plan is for clubs to furnish a room, which would be named for them. It is said this idea is meeting with favor.

Work on the building is progressing rapidly, but the recent hail and wind storm made it necessary to tear out part of a damaged wall. First patients will be received about May 1.

The Pampa hospital is locally financed, and is being built to serve one of the biggest needs felt in this

territory. There is no big hospital in the Panhandle which is not overcrowded at this time, according to directors of the local institution.

Wide Patronage Assured

The hospital will not only care for Pampa's ill people, but will serve the entire North Plains. It is non-sectarian and open to all physicians approved by the county and state medical associations. Originally it was planned to build an emergency hospital but the apparent needs were so urgent, that a larger company was organized and capitalized at \$60,000. A state charter has been obtained.

The building has two full stories and basement, is built of brick and tile, and has twelve private rooms, eighteen semi-private rooms, two four-ward and two eight-ward rooms, two operating rooms, an x-ray and developing room, sterilizing room, laboratory, kitchen, and equipment to care for 55 patients under the best of hospital conditions.

Furniture for patients is all-steel of mahogany finish. The laboratory and x-ray will be operated by experienced attendants, making possible prompt and thorough diagnosis available to all physicians. The directors, who are stockholders, will have general control over the institution.

About \$25,000 has been contributed by a few interested citizens, and most of this has been paid out on the building and equipment. The balance of \$60,000 must be raised by popular subscription.

TWO FIRES ARE EASILY EXTINGUISHED

Little damage resulted from two fires which the fire department made runs to yesterday afternoon.

The first fire, which started soon after 6 o'clock, was in a tent at the rear of the George Berry residence on North Cuyler street. An overheated gas plate was the cause of the blaze.

A second call at 7:20 p. m. sent the department to Harry Marber's residence on South Somerville Street, where a pot of pitch on a kitchen stove had caught fire.

BOND COMMITTEE MEETS TO PLAN FOR ELECTION

At a fully attended meeting of the bond committee of the Chamber of Commerce yesterday afternoon, means to assemble data on the coming election were devised.

The committee decided to meet Monday evening at 8 o'clock to plan means to bring about a large and favorable vote in this community.

TRAGEDIES ARE FREQUENT BUT SOME AVERTED

Shots To Announce Fire Are Perhaps Fatal

SHAMROCK MAN DIES OF BURNS

Cause Of Blast Is Undetermined Today

(By The Associated Press.)
BORGER, March 17.—Charles Corell was burned to death here early today when fire of undetermined origin destroyed the building in which he was sleeping. John Riley was perhaps fatally shot during the excitement caused by the blaze when shots were fired in the air.

Blast Victim Dies
SHAMROCK, March 17.—(AP)—Bob Griffin, 24, died here today from burns received in yesterday's explosion at the plant of the Columbia Gasoline corporation near here.

His death brought the number of casualties to five. Previously killed were P. W. Melton, 53, Shamrock; Lefon Chance, 19, Shamrock; Roy A. Todd, 31, Hollis, Okla.; and C. B. Belk, 30, Alba, Texas.

The cause of the blast has not been determined. Seven employees were in the gasoline extraction plant at work on an absorption tank and one man was inside the tank when a gas main 100 feet away exploded. The force of the blast was terrific. The dead and injured men were enveloped in flames and suffered mostly from burns. The gas fire lasted more than an hour. Several hundred spectators watched efforts to recover the sizzling bodies.

First Baseball Practice Called

Having obtained temporary practice grounds on the Eller property on West Foster avenue, the Pampa baseball club has completed arrangements for practices to begin.

Manager Ed Gober has called his crew together to hold the first practice Sunday afternoon.

A grandstand and better ground will be built soon.

Portuguese Flyer Lands Near Brazil

FERNANUCO, Brazil, March 17.—Major Sarmiento Beiris, Portuguese aviator, arrived at the island Fernando Do Noronha off the Brazilian coast today, having flown across the Atlantic from Portuguese Guinea.

GOVERNOR WHITFIELD NEAR DEATH TODAY

JACKSON, Miss., Mar. 17.—Governor Henry Whitfield has lapsed into unconsciousness, and the end seems near, his physician stated in a bulletin issued this morning.

MOVEMENT TO KEEP GAS ON PLAINS BEGUN

Amarillo Realtors To Call a General Meeting

PIPE LINES DRAW FIRE

Plans Would Keep Out The Big Industries

A movement to prevent construction of gas lines to Kansas City, Denver and other out-of-state points has been launched by the Amarillo Real Estate board.

It is planned to enlist the support of the West Texas Chamber of Commerce and the various cities of this section. Judge J. W. Crudginton, leader in the movement, denounces the announced gas line plans as "exploitation of our greatest natural resource" and as attempts to take the gas to big industries rather than bring them to this section.

A general meeting of representatives from cities most interested is being planned.

Several years ago, when gas was first discovered in great quantities, a fight was made against carbon black plants, which would have been located in the fields. The gas line proposals, however, would take the gas out of the Panhandle without establishing any kind of industries here, it is pointed out.

Fortieth Legislature Adjourns After Passing Little But Very Important Business In Session

(By The Associated Press.)
AUSTIN, March 17.—A stack of bills on Governor Moody's desk today constituted the last visible remains of the 40th Legislature's regular session, which ended last night. Among the measures awaiting Moody's signature are the motor registration fee bill, a companion to the gasoline tax bill, which became a law yesterday with final approval. Differences between the House and the Senate were adjusted.

No great quantity of legislation was turned out during the past session, but several measures of wide importance were passed. Among them was the Beck bill, putting the Texas motor bus industry under the regulation of the railroad commission.

Governor Moody has indicated he will call a special session in about 40 days to take care of appropriations and special matters which he will present in his message.

Pampa Daily News

Published every evening except Saturday, and on Sunday morning by the Nantz-Warren Publishing company, at 156 West Foster avenue.

The only newspaper adequately covering Pampa and Gray county events and the Pampa oil field.

Application made as second-class matter at the Post Office at Pampa, Texas, under the Act of March 30, 1879.

OIL AND WHEAT

Oil is an important Panhandle cash crop; so is wheat. At the present time there is an over-production of oil, and the industry suffers just as the cotton industry has done in the past.

An analysis of the oil and wheat problems shows that this section is not at all endangered. While cotton depreciates greatly in storage and the surplus affects market futures, oil reacts to a somewhat different situation. A tremendous demand will wipe out the surplus in a few weeks if production declines.

It is no time for pessimism. A tremendous boom in this section this spring would have been detrimental, carrying prosperity into scores of little townships instead of to the larger towns where it belongs. Pinching in of wells will increase production eventually by increasing gas pressure, according to engineers.

Now is the best time of recent months to carry forward extensive building. Pampa needs to "catch up" with building of all kinds before the rush of capital starts. Good roads and public improvements of all kinds will bring to this city the scores of investors who have their eyes on this vicinity.

Now is the time to advertise, it has been decided by the Chamber of Commerce. The ultimate settlement of this section is expected to bring stable prosperity, and steady but not boom development is highly desirable.

A few self-styled experts are shouting in the rain barrels, believing this section will be ruined unless the oil work continues full blast. The idea is absurd. Oil depressions come and go, but rarely last but a few days or weeks.

A big boom at this time would result in scores of new townships, several spur railroads and an influx of people at a time this community is not prepared to make its best impression or to receive them adequately. Good roads and a through trunk line are Pampa's needs, and a slight depression in oil may prove to be a blessing in disguise.

Far-sighted business men who have money to invest are not going to be blinded by a few slashes in crude oil prices and temporary suspension of some oil work. They are going to realize that now is the best time to get ready for the resumption of rushing activities. Labor will be plentiful and of better quality than otherwise would have been available.

It is not yet spring, and by mid-summer harvest will be on and there will be a different story to tell in the oil industry. The only way Pampa stands to suffer at this time is by wild propaganda, which should be combated vigorously. Spring announcements of city growth will soon offset the oil market slump and the community will be busily engaged in making water and sewer extensions, street paving, road building, school construction and other work.

It is no time for pessimism. There were 12,000 suicides in France last year, neurasthenia being the main cause.

A New Jersey policeman, about to become a father, killed himself because he thought himself unfit to be one.

His Day In The Sun

WASHINGTON LETTER

BY ROBNEY DUTCHER
NEA Service Writer.

WASHINGTON.—The Hon. William D. Upshaw, lately separated from the congressional payroll by the voters of his district in Georgia, has got himself a job. And a good job, too, from all appearances. Upshaw challenged John Philip Hill of Maryland, during the closing days of Congress, to a series of debates on prohibition. Hill turned him down. But the people of the country will not lose their opportunity to hear Upshaw.

An organization has sprung up to give Upshaw a job. It would not be fair to suggest that giving Upshaw a job was the sole purpose of this organization, of course. But that is its chief accomplishment to date.

After eight years in Congress, Upshaw will now uphold the cause of the recently-founded National Home Betterment Foundation.

"Better Citizens Through Better Homes" is the slogan. Here is a complete list of the "Rules of Membership" as outlined in the foundation's pamphlet, "A Call to Every Citizen:"

"Life, \$100; Extension, \$25; Sustaining, \$10; Active, \$5; Contributing—"

"All members are supplied with the official publications and literature of the organization."

Simple, isn't it? Anyone can belong.

The president is Dr. John P. McConnell, president of the Virginia state normal school; the general secretary is Dr. J. E. McCullough, former student secretary at Vanderbilt university, and the executive secretary is Jacob Taylor, director of the National Speaker's Bureau.

The purpose is "To exalt and enrich the Home as the institution of basic importance in American life, aid in raising the standards of community environments, inspire the youth of the nation with the spirit of patriotism, create respect for authority and foster lay-abiding citizenship, build health, physical strength and character as the basis of substantial accomplishment and create in every home an atmosphere of reverence that will build an altar to God as the foundation of an enduring civilization."

Upshaw is announced as "the central figure in a program of nation-wide activities." Of him, the Foundation

says: "No man is better, or in fact, so well equipped to carry a message to American youth and around whom to build a campaign for Better Citizenship through better homes."

Christian Church To Have Missionary Convention Soon

(By The Associated Press.)
CORNICANA, March 17.—Some of the outstanding leaders of the Christian church will participate in the program of the Texas Christian Missionary convention which is to be held in Houston April 26 to 29 inclusive, it has been announced by the Rev. Paul J. Merrill, pastor of the First Christian church of Corsicana, executive secretary of the state organization.

The convention will be held in the First Christian church of Houston, with the pastor Dr. Claude L. Jones filling the office of convention pastor.

All agencies of the church, benevolent, educational, and missionary, will take part in the program and leaders of their respective departments will address the convention.

There are over 500 churches in the state that are members of the convention and over 1,000 delegates are expected to attend.

Mike H. Thomas, Dallas, is president of the organization; Edwin C. Boynton, Huntsville, vice-president and Rev. Paul J. Merrill, Corsicana, executive secretary.

Mrs. O. O. Hammonds, called "the Col. House of Oklahoma," has refused to resign her job as secretary to Governor Johnston despite open criticism.

The schoolhouse in which Walt Whitman was a pupil and which was sold last week for \$18, has been repurchased by a group of the poet's admirers.

TWINKLES

An American traveler can boast of his country's having the most scientific bandits in the world, which is something.

A fortune evidently awaits the sunburn remedy manufacturers if tan can be made really unpopular, to judge by the style plates.

If you wish to hear your own affairs explained, get famous and travel a bit.

Schuman-Heink thinks the world needs more men who can boss their homes. How about having a few more who can boss their children?

It is strange how an incapable but loud spoken individual can often defeat the most reasonable logic in effect.

Tragedy Told By Master Of British Ship

(By The Associated Press.)
HOUSTON, March 17.—The story of a tragedy at sea has just reached here from the British ship, Defender, which encountered the burning coast guard schooner Lincoln while the Defender was enroute to Port Houston last December.

Captain E. Maycock, master of the British ship, writes to W. C. Hunt of the International Mercantile Marine here that six lost lives might have been saved, had the men heeded an appeal to jump overboard.

As the Defender approached the Lincoln, then a mass of flame, the latter said, both masts went overboard. Eight members of the crew were gathered on the stern of the Lincoln, using a small boat as a shield from the heat. The wind was

strong and the sea was rough. But six of the Defender's crew in command of the Second Officer W. A. Short put out from the steamer in a life boat. As the life boat came within 10 feet of the Lincoln's stern, the second officer shouted to the imperiled men to jump into the sea and he would pick them up. They refused and tried to get a line to the life boat but failed. By this time the vessels had drifted apart. The fire meanwhile had forced the men to lower themselves by lines into the water. The life boat could not reach them, but Captain Maycock tied several life buoys to a line and lowered them over the steamer's side. Two of the men floating in the water caught them and were hauled aboard exhausted. The burning vessel sank while effort was being made to rescue the remaining six. One body, which the survivors said was that of

the Lincoln's captain, was seen floating in the water but the others had disappeared. "The strong wind and sea," the statement from Captain Maycock greatly but more lives would have been saved if those on the stern of the burning vessel had jumped for the life boat when it passed. I understand from the survivors that the captain ordered them not to jump, which is greatly to be regretted. The effort to rescue them was entirely nullified by their failure to do so.

Police investigations of the cooking of edibles in non-housekeeping apartments are said to be causing a numerous exodus of artists from Greenwich Village.

From Memphis, Tenn., comes the first application from a woman for a federal license as an airplane pilot.

THE "SECOND A. E. F." MOBILIZING

HERE'S DIGEST OF PREPARATIONS FOR IT; 30,000 WAR VETS TO ATTEND PARIS CONVENTION

By NEA Service
INDIANAPOLIS, Ind., March 17.
—September 20 is to be one grand holiday in Paris.

Shops will close and the populace will turn out in formal welcome to 30,000 of Uncle Sam's veterans of war—members of the American Legion—in the French capitol for the ninth annual convention of the Legion.

Americans will stream into Paris several days before the opening of the convention, finding their temporary homes in the many hotels of the French metropolis.

But on the 20th they all will be there to make a grand march down the Champs d'Elysees, before the eyes of their war-time commanders, who will sit in the reviewing stand near the Arc d'Triomphe.

The convention opens on the 19th in the Palace Trocadero, on the Seine, across the river from the tower.

Two Years' Preparation
For two years a France convention committee, of which Bowman Elder is national chairman, has been working on plans for the movement of the peace-time army. Travelers will go on chartered ships from Montreal, New York, Boston, Hampton Roads, Charleston, New Orleans and Galveston. Landings will be made at three French ports—Havre, Cherbourg and Boulogne—and one Belgian port—Antwerp.

Upon arriving in debarkation ports the army of Legionnaires will board special trains, numbering more than half a hundred, to speed on to Paris.

Foch and Pershing
In the reviewing stand in parade day will be General Ferdinand Foch, General John J. Pershing, General Gouraud, military governor of Paris; Howard P. Savage, national commander of the legion and commander-in-chief of the "Second A. E. F.," and many other note worthies.

The Trocadero, in which the convention sessions of the legion are to be held, was built in 1878 by the French government and is used as a place for all sorts of exhibitions. The Palais d'Orsay, one of Paris' best hotels, has been obtained as the convention headquarters for the "40 and 8". The Continental hotel, long familiar to American travelers in Europe, will turn over its ballroom for convention sessions of the American Legion Auxiliary. General headquarters of the legion will be at the Hotel Crillon.

Hotels Cut Rates
Twenty-five thousand Paris hotel rooms have been contracted for. Most of the rooms obtained are in the smaller hotels of the city. Rates for Legionnaires for the week of the convention range from \$10 to \$49 per person. These prices are about half what similar accommodations in hotels in the United States would cost.

Ninety per cent of the Legionnaires who have already made reservations for the France trip have made arrangements to make battlefield and cemetery tours.

The tours have been divided into five districts, comprising 20 separate itineraries. All trips can be made from Paris in a day. They will be made both by train and automobile and will cost from \$5 to \$18.50.

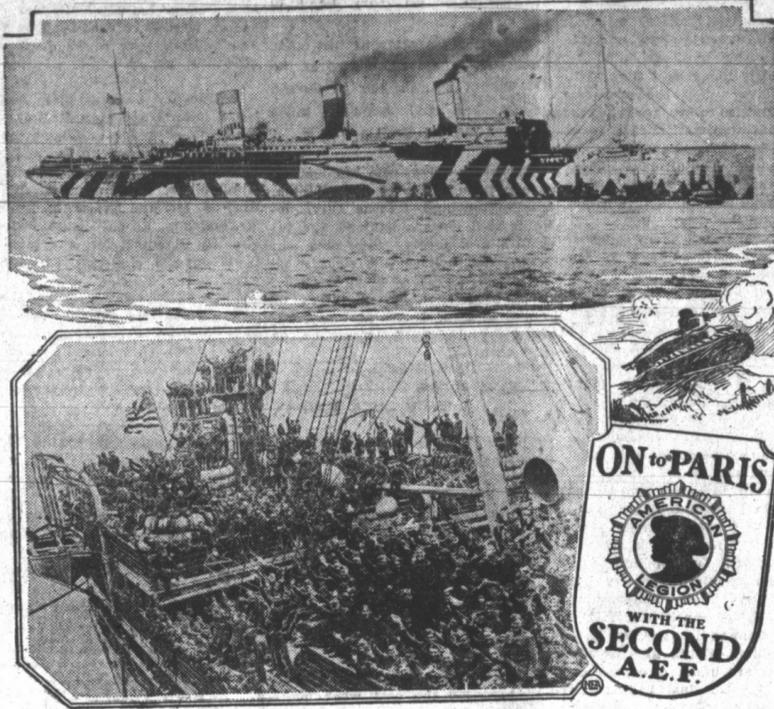

Half Fare on Railroads
Through arrangements made with foreign governments, the American Legion will save its European going members something like \$5,000,000. The steamship companies have given extremely low figures for trans-Atlantic travel to the veterans.

Railroads of the United States are offering half-fare rates to the ex-soldiers. Railroads of France and other continental countries are cutting their fares in half, while the railroads in the British kingdom have reduced prices one-fourth.

All European governments, with the exception of Russia, will make no passport charges. All Legionnaires are required to do is purchase an identification certificate for \$1. This entitles them to enter all countries on the continent without paying the ordinary passport visa charge, which in some countries, runs as high as \$10.

The landing charge of \$5, made at French ports, also has been eliminated through the efforts of the France convention committee of the legion. Congress recently passed a bill exempting Legionnaires from the regular \$5 steamship ticket tax.

It is estimated that a man from the middle west can make the trip to France and back to his home city for approximately \$300, allowing

Will they be as glad to go as they were to get home? Above is pictured the Leviathan, flagship of the fleet, in war paint; below is a boatload of returning soldiers aboard the Agamemnon, shortly after the war.

\$42.50 for incidentals. This figure also includes the cost of a trip to the battlefields and an American military cemetery. It will take about four weeks to make the trip to France and return. Employers throughout the country are promising veterans long leaves of absence.

The Steamship Rates
Rates for the round trip, offered by the steamship companies, range from \$148.50 to \$370 on most of the vessels. Of course higher classes of passage may be obtained. However, the ordinary accommodations permit veterans freedom of the ship.

The food will be of the best. Staterooms will be far different from the bunks of war days.

The legion has arranged insurance for Legionnaires going to France. There will be free medical, surgical and hospital treatment. All ships will have surgeries in which major operations may be performed.

Savings Clubs Help
Savings clubs have been formed throughout the country and Legionnaires have joined them by thousands. As soon as the veterans have deposited \$50, the banks send certificates to national headquarters of the legion here, advising that the veterans desire reservations on particular ships.

The veterans continue their deposits until a short time before they are to leave their home cities for embarkation ports. Then the money is presented to them, with the \$50 reservation charges deducted and applied to the tickets.

Americans who cannot speak French will not have much difficulty getting around or in obtaining what they want.

French cops are learning to speak

English, as it means good assignments for them during the week of the legion convention. Interpreters will be everywhere.

Plenty of Music
Bands and drum corps of legion posts throughout the United States are planning on making the Parisian trip. All these will participate in the grand parade through Paris on Sept. 20. Contests will be held and prizes given to the best musical outfits. Special steamship rates have been granted them.

Welfare organizations will do work similar to that performed by them in war days. Legionnaires will find Salvation Army stands in Paris and other French cities and towns during their stay in Europe. Hot doughnuts and coffee will be served. The Red Cross will give first aid. Others will do their part.

British Legionnaires have asked Americans to come across the English Channel and see the British Isles while in Europe. The invitation

comes from legion leaders in Britain.

Attractive two-color "On to Paris" folders giving maps of battlefield and cemetery tours and information concerning steamships to be used in the movement are being mailed to Legionnaires requesting them.

Letters asking for these booklets should be addressed to the American Legion France Convention Committee, National Headquarters, Indianapolis, Ind.

The chief advantage resulting from the green sprouting of seed potatoes in the light, is that of indicating the strongest eyes. In cutting such tubers it is possible to discard the weak and blind or dead eyes, thereby insuring a practically perfect stand of plants of uniform vigor. When grown for an early crop the plants from sprouted seed are usually ready to dig a few days earlier than those from unsprouted seed and the yield is usually greater.

Mrs. Ed Moore, who underwent an operation at the emergency hospital Sunday morning, is improving rapidly.

E. I. Rigdon, who was injured Saturday by a glancing blow from a sledge hammer, has been taken to Amarillo by his company. He is a driller.

Two arrests on charges of transporting liquor and four arrests on charges of drunkenness were made by officers here last night.

J. Ed Schmitz, Jr., representative of the American-La France fire engine company, is here to arrange a demonstration of his line of fire trucks. He is from Dallas.

A. C. Clayman was found "not guilty" this morning in the mayor's court on a charge of permitting unsanitary conditions at the rear of his grocery store. The case was heard by a jury.

"Optimism: "The slight cut in the price of crude oil will not affect Pampa's prospects," said an oil man today. "While overproduction may keep away the wild boom pictured by some enthusiasts, continued and ever increasing prosperity for this section is certain."

"How Can So Much Value Be Possible?" Say the Men Who Have Seen

Hart Schaffner & Marx

CLOTHES FOR SPRING

They wonder at the good looking styles, the new and good looking colors, the fine quality in the fabrics—and they wonder, of course, how it's possible to give so much for so little.

Big volume, specialization, immense resources, very small margins of profit are the answer. We'll show you some outstanding values at—

Notice to Well Drillers

Sealed proposals will be received by the City Council of the City of Pampa, Texas until 3 a. m. of the 21st day of March, 1927, for the furnishing of materials and drilling two 16-in. water wells in the City of Pampa.

Proposals must be addressed to C. H. Fisher, secretary, Pampa Texas and must contain a certified check or its equivalent, made payable to J. M. Dodson, treasurer, for \$100. Specifications may be seen and blank form of proposal procured at the office of A. H. Doucette, city engineer, Pampa, Texas.

The right is reserved to reject any and all bids.

F. P. REID, Mayor,
C. H. FISHER, Secretary,
D7-1tc City Council

Morris Johnson, formerly of the Crystal Palace confectionery, is now with Rice Bros., tailor shop.

Henry Berry, 19, of Kingsmill, was admitted to the Hillcrest Hospital yesterday suffering from pneumonia. He spent a very restless night but his condition is somewhat improved today.

Tax assessor: "The laws of Texas require property owners to list their property for taxation by January 1, but this is not being done in Pampa."

If your suit is well pressed, You're pretty well dressed. South Side Tailors.

Officers Are Asked To File All of Data

(CONTINUED FROM FIRST PAGE)

butchers' bonds be reported to the county commissioners, and the inspection of hides and the laws relating thereto be strictly adhered to.

"We further recommend that Your Honor appoint a finance committee for the purpose of investigating the financial status of Gray county, Texas.

"It is further recommended after a careful investigation that all search warrants issued and the affidavits forming the basis for the issuance of same be preserved by the officers serving the same and be sealed in an envelope and delivered to the clerk of the district court of this county to be held by him until the grand jury convenes, at which time same shall be placed in the custody of the grand jury.

About Felony Cases.

"After careful investigation of the felony cases on the docket of Gray county, it is apparent that the testimony adduced in the examining trials of these felony cases was not reduced to writing. In view of this condition, we recommend that all testimony and evidence adduced on these examining trials be reduced to writing, as provided by our statutes, and carefully preserved for the grand jury's inspection. It is suggested that this testimony be placed in the hands of the district clerk, the same as search warrants and affidavits.

"It has been brought to our attention that our local officers have been collecting fines from various law violators of the misdemeanor laws of our state. While we do not in the least question the good intentions and integrity of our officers, we suggest that they exact of these law violators an appearance bond until they can be brought before the proper court having jurisdiction of their case, to the end that the court presiding over such cases can render a proper judgment according to law.

"We wish to commend our sheriff, E. S. Graves, and his department and the other peace officers of Gray county for the efficient and trustworthy manner in which they have performed the duties incumbent upon them. We realize full well the situation confronting them and we feel that they have performed their duties remarkably well under the circumstances.

"We have returned 40 true bills of indictments, among them being two misdemeanor cases and 38 felony cases.

"We wish to thank our new district judge, Honorable Newton P. Willis; the new district attorney, Curtis Douglas; the county attorney, Mr. Studer, for the services they rendered us during our investigation.

"Respectfully submitted,
GEO. THUT, Foreman."

Adjournment Soon.
The petit jurors were called back into court today but court officials believed little work remained for this term. Many of the criminal cases have been transferred to the Carson county term, which will open Monday in Panhandle.

Fewer divorces than usual have been granted at the March term of Gray county courts.

District Clerk Charles Thut has been rushed with work in two courts meeting in close order, but expects to complete his records of the work within a week.

We live to dye—South Side Tailors.

LOCAL BUILDING AND PROGRAMS OF OIL COMPANIES EXTENSIVE—MAGNOLIA STARTS CARBON PLANT

Much city building, street work, and very extensive construction programs by oil companies operating in the Pampa field are expected to make crude oil price cuts of little moment in this territory.

Oil officials today said they looked with favor upon the prospects for opportunities to prepare for great future production, rather than to be rushed now with competition for crude supplies. The oil development program this spring is expected to take the trend of manufacture rather than exploitation.

The Magnolia Petroleum company is receiving machinery here for the construction of a carbon black plant southeast of Pampa. This plant may be located on section 64, block 3, where an irregular survey of ten acres was made this week in the 'breaks'.

The size of the Magnolia plant has not been announced, and may be enlarged soon after completion of the first unit. Its site is believed to be at a point where no inconvenience or annoyance will result.

The Magnolia company already has one of the best gasoline plants in the country in the south Pampa pool, large local holdings, and is said to be planning still further buildings.

In the Roxana-Bryan pool of the Pampa field the Skelly company on the large Schafer ranch has started one of the Panhandle's greatest projects. Gasoline plants and carbon black plants are under construction. Announcement has just been made of the floating of a \$15,000,000 bond issue by the Skelly company to benefit the Panhandle projects.

Nearer Pampa the Roxana Oil company has extensive plans and is expected soon to begin gasoline plants on its leases. The Continental Oil company is making plans for big Pampa field operations, it is said here.

LATE OIL REPORTS

The Piney Oil & Gas company is plugging its well in the NE 1-4 of the SW of section 58, block 24, in Wheeler county.

Picking up the granite wash after having a spraying hole several days, the McMann Oil and Gas company has brought in the production of No. 1 Binkley, NE of the NW of the SE of section 86, block 3, I. & G. N. survey, as more than 150 barrels from 3,145 to 3,164 feet, in Gray.

SERVICE AND MERCHANDISE THAT'S RELIABLE

G. C. MALONE FURNITURE AND UNDERTAKING CO.

ESTABLISHED 1924

MRS. McCULLOUGH IS

HOSTESS AT BRIDGE

On Monday afternoon, Mrs. Nell McCullough gave a "42" party in honor of her sister, Mrs. J. W. Chenault. Those attending were Mrs. Archie Cole, Mrs. Gene Shackleton, Mrs. Otto Rice, Mrs. Ike Lewis, Mrs. Henry Thut, Mrs. DeLea Vicars, Mrs. William Mullinax, Mrs. J. S. Wynne, Mrs. Jack White, Mrs. C. C. Dodd, Mrs. Carson Loftus, Mrs. Alex Schneider, Mrs. C. L. Thomas, Mrs. Weldon Wilson, Mrs. H. H. Allen and Mrs. J. E. Mears.

Wednesday evening Mrs. McCullough entertained at bridge for her sister. During the evening a dainty luncheon was served to Mr. and Mrs. C. P. Buckler, Mr. and Mrs. C. T. Hunkapillar, Mr. and Mrs. W. A. Bratton, Mr. and Mrs. J. M. Dodson, Mr. and Mrs. Edwin Vicars, Mr. and Mrs. H. H. Allen, Mr. and Mrs. W. L. Woodward and Mrs. Finney of Amarillo.

There are two sides to the raise in the price of a shave, say the barbers. When the rent was \$75 a month shaves were 25 cents. Now rent is \$200 a month and shaves are but 35 cents.

T. M. DeSpain and son of Altus, Okla., successors to the Pampa Poultry Mercantile company expect to incorporate a market in the near future. They are now open for business as a grocery and meat market.

ST. PAT'S DANCE TONIGHT

Tonight is the date of the big St. Patrick's dance at the Legion hall. The boys have the hall decorated with green and white and the orchestra raised on a dais at the end of the room. They also have Irish confetti hanging on the walls, and are providing caps, confetti and streamers for the occasion.

Oil man: "The big companies are going to do extensive building in the next few weeks. Things look good for Pampa's future."

If you tear 'em when bending, We're-experts at mending. South Side Tailors.

Southwestern Bell Tel. Co.

TWENTY-SEVENTH DIVIDEND
The regular quarterly dividend of one dollar and seventy-five cents per share on Preferred Stock will be paid on Friday, April 1, 1927, to stockholders of record at the close of business on Saturday, March 19, 1927.
