

Pampa Daily News

VOL. 1. NO. 8.

PAMPA, GRAY COUNTY, TEXAS FRIDAY EVENING, MARCH 18th, 1927.

PRICE FIVE CENTS.

3 ACCIDENTS TAKE HEAVY TOLL

Hospital Funds are Growing Rapidly

CAMPAIGN IS WELL ON WAY AS MANY GIVE

At Noon More Than \$800 Had Been Raised

ONE MAN IS VERY LIBERAL

Goal of \$5,000 Is Expected To Be Reached

"Help the Hospital" tags were well sprinkled among the street crowds by noon today, when a total of more than \$800 had been donated to Pampa Hospital, Inc. Directors of the institution and Mrs. Beverly Barker, who has leased it, were optimistic of the possibilities of raising the goal of \$5,000 by tomorrow evening. It was expected that \$2,000 would be raised today.

The drive began at 10 o'clock today, and at 11:30 a parade in which an ambulance with a much bandaged patient, attended by a nurse, was the feature, passed through the business section.

Committees from all of the churches and several other organizations are canvassing this afternoon. Megaphones are announcing the new project. Women are prominent among the workers. The school children are to give much of their time tomorrow.

Oil companies, who have strongly felt the need of the hospital, are among the most enthusiastic contributors today. One local resident jokingly deplored the efforts of a woman solicitor, then gave her a check for \$250. Business men are not only being "tagged," but are taking out stock in the corporation.

The \$5,000 is much needed for incidental expenses which are piling up at the time of opening. Every effort is being made to receive the first patients by May 1. About \$35,000 of the \$60,000 of stock must yet be raised by subscription.

Equipment has been ordered to make the hospital one of the best in the Southwest of its size. It will have a capacity of 55 patients.

Elda Reed is confined to his home by illness.

WRITE OUT ARTICLE ON PAMPA'S FUTURE

A city with so many natural resources as Pampa has does not judge the future by the present or the past. The advantageous location of Pampa is not being overlooked by those who are seeking opportunities for profitable investments.

It is time to look beyond the present and to plan for the future. WHAT WILL HAPPEN IN PAMPA WITHIN THE REMAINING MONTHS OF THIS YEAR? What will be her outlook January 1, 1928?

The Pampa Daily News is offering \$5, \$3 and \$2, respectively, for the best three articles of 1,200 words or less in the form of prophecies on the Pampa of December 31, 1927.

Many of the best articles will be printed. Now is the time for students, physicians, lawyers, real estate men, railroad men, housewives, and others to write out their ideas and send them to the Daily News. Manuscripts need not be typewritten, but they must be received by April 1.

Write out your article on Pampa's future today.

The King Is Ill — Here's His Son

King Alfonso of Spain is reported seriously ill with bronchial pneumonia.

The Prince of Asturias, eldest son of King Alfonso of Spain, is the heir apparent to the Spanish throne.

Shanghai Laborers Call Strike And Prepare To Welcome Nationalists

(By The Associated Press)

SHANGHAI, China, March 18.—The general labor union today issued a communique calling a general strike to begin tomorrow noon.

The strike will continue until the Nationalists occupy Shanghai.

The communique calls on workers to maintain order and avoid becoming involved in any mob action, and notifies the public that the strike is purely of political nature, intended to show sympathy with the Nationalistic cause.

Detachments of Shantungese troops have been ordered along the Shanghai-Nanking railway to attempt to prevent workers from leaving.

FALL OF NANKING EXPECTED

(By The Associated Press)

SHANGHAI, China, March 18.—The fall of Nanking is hourly expected.

It is regarded as significant that the Shantung forces are not offering serious resistance to the southern army.

American Note On Disarmament Is Distasteful to the French Nation

(By The Associated Press)

PARIS, France, March 18.—France is not likely even to send an observer to the three-power naval disarmament conference proposed by President Coolidge, it was stated today.

Washington's strong disagreement with the League of Nations' disarmament commission was made apparent in a note made public yesterday in Geneva, and considerable resentment is felt here.

England and Japan have notified the American president of their willingness to attend, but the effect of the note on their attitude has not been ascertained.

Cotton Bureau To Make Distribution Of Final Checks

(By The Associated Press.)

DALLAS, March 21.—Several million dollars will be distributed to members of the Texas farm bureau cotton association within the next six weeks, Harry Williams, secretary-treasurer, said today.

Distribution of this fund will represent final settlement with members on the cotton to be marketed cooperatively.

Insull Named As Heavy Contributor To 1915 Campaign Fund

(By The Associated Press.)

CHICAGO, March 18.—Samuel Insull, recently cited to the Senate for contempt of its campaign fund investigating committee, was named indirectly today by the people's "Dever for Mayor" committee as a contributor of \$100,000 to William Thompson's 1915 campaign fund.

Reed Declares That Sapiro and Clients Controlled Tobacco

(By The Associated Press.)

DETROIT, March 18.—Resuming his statements on the activities of Aaron Sapiro, plaintiff in the million dollar libel suit against Henry Ford, Senator James Reed of Missouri, chief counsel for Ford, said he would show how Sapiro and his associates absolutely controlled the Burley tobacco associations referred to in yesterday's session.

New Secretary Of C. of C. Will Be Welcomed Monday

Last evening at a meeting of the Chamber of Commerce it was decided to hold a mass meeting at the Chamber's rooms on Monday night at 8 o'clock to welcome the new secretary, W. S. Barcus, and also to discuss with the public the new fire truck which is to be purchased for Pampa. Other important matters also will likely be discussed.

CANCER TAKES STATE LEADER

Mississippi Governor Is Replaced by Dennis Murtree

(By The Associated Press.) JACKSON, Miss., March 18.—Governor Henry Whitfield of Mississippi died here this morning of cancer of the bone, which first attacked his left leg and made amputation necessary November 30. Thirty days ago, after having returned to his executive duties, he was again forced to his bed. Lieutenant-Governor Dennis Murtree automatically became governor.

Dr. Cook May Be Tried Under Federal Charge

(By The Associated Press.) CLEVELAND, March 18.—Possibility of Dr. Frederick Cook's being brought to Cleveland to stand trial on indictments charging use of the mails to defraud is seen today, provided he is released from Leavenworth penitentiary under the conditional parole granted yesterday. United States District Attorney A. E. Bernsteen today sent a telegram to the Leavenworth warden telling him of the federal indictment pending here.

(By The Associated Press.) FORT WORTH, March 18.—The order granting probationary freedom to Dr. Frederick A. Cook, serving a 14 year sentence in the Leavenworth penitentiary, is on its way to the prison and will be acted upon at once. The prisoner will be paroled to Erskine Williams, Fort Worth attorney and churchman, while the government is preparing an appeal of the case which may go to the United States supreme court. District Attorney Henry Zweifel filed formal notice of appeal.

The probation, which is for five years, was granted under a law passed March 4, 1925, which gives federal district judges authority to liberate defendants, and the present case is one of the few in which this authority has been exercised. Government authorities deny that a judge has power to grant probation after a prisoner has begun serving his term, and a few cases thus far tried appear to be in conflict, according to Assistant District Attorney J. Forrest McCutcheon.

In holding in favor of Cook, Judge Wilson stated that the new law is "a radical departure, without parallel," and gives the trial judge control over the prisoner until the termination of the latter's sentence. "The act gives District judges, in some senses, pardoning power not enjoyed by the president," said Judge Wilson.

He stated that in his opinion the original sentence against Cook was excessive, that Cook is now a pauper, and that if he served his full sentence he would be 75 years old when released.

Probation amounts virtually to suspended sentence. At the end of five years, he will be eligible for complete freedom by pardon and will be forced to return to prison unless the president commutes the sentence or grants pardon.

Probation differs from parole. Under parole a prisoner continues under observation until the limit of his sentence. Six previous probationary cases were cited by counsel in argument today. One of these is from Arkansas, one from Arizona, two from Nebraska, and two from California. The Arkansas case held that the judge did not have authority to grant probation after sentence had begun.

Mat Manager

Here's the only woman wrestling promoter. She is Mrs. Tom Law, of Wichita, Kas., who stages shows in that town with her husband and by herself when he is not around.

Tulane Student Kills Self As Result of Study

(By The Associated Press.)

NEW ORLEANS, March 18.—Harold Berget, 27 years old, a junior architectural student of Tulane university, shot and killed himself at his home today. His parents attribute his act to over-study.

Arkansas Towns Swept By Storm Which Kills Seven

LITTLE ROCK, Ark., March 18.—Half a dozen small communities of Southwest Arkansas today are recovering from the shock of twisting winds which last night left a toll of seven known dead and a score or more injured, some critically. The brunt of the storm centered around Klondike, where five lives were snuffed out and one person was seriously injured.

County Jail Is Full Following 2 Raids and Arrests

Officers last night made two raids which netted them a haul of seven gallons of corn liquor from a residence on the South Side, and three pints of the same beverage from the Ranger hotel.

One man, was taken for window peeping and twelve are charged with drunkenness. L. R. Jenkins became intoxicated and started up Cuyler street in his Chevrolet and before he was stopped he had hit and slightly damaged two cars parked on the street, officers said.

HIGHWAY ASSOCIATION WILL ROUTE ROADS THROUGH PAMPA IF COUNTY BOND ISSUE PASSES

If the Gray county road bond issue passes, the Atlantic Pacific highway will likely be re-routed to come through Pampa and thence to Tucuman and other Western points, according to information received by F. P. Reid.

The route now going from Canton, Okla., via Dalhart to Tucuman, would be made to come through this city either by joining the Southwest trail or by connecting with Highway 33-A at Elk City. The new way would be shorter and would combine the largest possible amount of hard surfaced road. This highway would be a fine one and would bring thousands of tourists through this county, it is believed.

"The Gray county bond issue if carried will be an investment to the taxpayers, rather than taxation," Mr.

100 CHINESE DROWN IN SHIP NEAR LUCHOW

Five Occupants Of Coupe Killed At Ottawa, Kans.

TEXAS WOMAN AND SON DIE

Three Men In Car Victims As Tree Is Hit

(By The Associated Press.) CHUNGKIAN, China, March 18.—More than one hundred persons are believed to have been drowned last night in the wrecking of a motor-driven vessel upon the Yangtze river near Luchow. Most of them were soldiers. The disaster is attributed to the soldiers' demand that the vessel undertake to navigate this dangerous stretch of river at night.

FIVE KILLED AT CROSSING OTTAWA, Kans., March 18.—A railroad crossing accident at Wells-

ville last night claimed all five occupants of a coupe counting the death today of Dale Gregory, 4-year-old son of Mrs. Paul Petrel of Wellsville, in a hospital here. Mrs. Petrel, 22 years old; Mrs. Besie Jarrett, 21 years old, and her 11-month-old son, of Jacksonville, Texas; and William Hayes, 22 years old, died almost instantly when a Santa Fe train struck the car.

BATTLE CREEK, Mich., March 18.—Three men were killed instantly today when their automobile skidded and crashed into a tree near Bronson.

The victims were Roy Gibbs, John Hazel and Max Lehrke, all of Centerville, Mich.

Part of Fight Receipts Will Go To Hospital Fund

A percentage of the receipts of the boxing card to be offered Wednesday evening by George Hellman will be donated to the hospital fund, it was announced today.

Walter Varner, well known Ponca City, Okla., fighter, who was read out at Baird, Texas, will meet Joe Kopecky in the main bout. There will be two four-round preliminaries and one six-round exhibition. Kopecky is a Texas man, and is a wrestler as well as a fighter.

The matches will be held at the skating rink beginning at 8:15 p. m. Workouts by the principals will be held at 5:30 p. m. next week at the rink.

Mr. and Mrs. J. H. Lavender have moved to their new residence in the Lavender addition.

Wanted—A Name For The Pampa Baseball Squad

Sport fans of Pampa will have their first chance to see Ed Gober's baseball material in action Sunday afternoon at 2:45, when a practice will be held on the temporary diamond, Eller Field, just below the Schaffer hotel.

Gober has ordered uniforms and they will be here in a few days. The uniforms are to be dark gray with "Pampa" across the front of the shirt. The cap is blue and the socks blue and white. This combination makes a snappy looking uniform and the boys will sport them at their first game a week from Sunday in Amarillo.

A prize of \$5 is being offered by the management of the club for the most suitable name for the club. Those names must be in by Saturday noon, March 26. Names are to be submitted to Ed Gober care of Thompson Hardware company, North Cuyler street. The name decided upon will be picked by the baseball committee.

MANY PRESENT AT LEGION BENEFIT DANCE

More than 100 couples attended the American Legion dance last night.

Proceeds of the dance will be applied toward Legion drum corps equipment.

FISHING TIME HERE

With Spring definitely on the way, followers of the angling pastime are talking of tackle, fishing holes, and big stories of past achievement.

Several parties are planning fishing excursions for the week-end.

JAMES TODD Jr., Minister

CLASS PLAY TO BE GIVEN IN WHITE DEER
The Junior class of Pampa high school will take its play, "The Arrival of Kitty," to White Deer for presentation this evening. The play was much enjoyed here Tuesday.

Scenery, the Chamber of Commerce orchestra, and supporting between-act features will make the play substantially the same as given here.

Many of the teachers will make the trip, in addition to other local people.

P. H. Carlson and John Studer are erecting a two-story tile and brick hotel on South Cuyler, two blocks below the tracks. The building is to cost about \$9,000 and will have thirty rooms.

Miami Wins In A Play Contest

CANYON, March 17.—Fifty schools of the Panhandle recently entered a contest in the production of one-act plays. This is the first one-act play contest ever held as a part of the Inter-Scholastic league activities. Matador, Plainview, Floydada, Miami, and Canyon High schools entered plays. Matador and Miami reached the finals, when the Miami team coached by Professor Plumer Bailey was victorious.

The general meet of the First district Inter-Scholastic League will be held at Canyon, April 22 and 23, with W. E. Lockhart, head of the Department of Commerce of the West Texas State Teachers College, as director general.

MOODY FOR PRESIDENT IS TALK IN EL PASO

EL PASO, March 18.—The possibility that Governor Dan Moody may become a Democratic presidential candidate was voiced by Congressman Claude Hudspeth Thursday morning before the Texas and Southwestern Cattle Raisers' association, in convention here. The Congressman declared that Eastern politicians the now seriously considering the young Texan in this light.

"Tammany Hall men came to us in Washington," said Hudspeth, "and offered to let Texas, which has always been an overwhelmingly Democratic state—not occasionally, but always—and said that we might name the tail end of the national ticket. Our reply was that we would go them one better by naming the head of it, and we named Dan Moody."

"We said they could put McAdoo or anyone else on it, but we would name the head. They now have this under consideration."

Representative Brown, being author of the resolution calling for the committee, declared that he would accept no pay for his work.

"Tell it to the Marines"

GROUP SELECTED TO CODIFY SCHOOL LAWS
AUSTIN, March 18.—(AP)—Speaker R. L. Bobbit, has named Representatives Harman, Duval and Brown to serve in a committee, to include also an appointee from the attorney general's department, to codify school laws passed at this legislative session.

Representative Brown, being author of the resolution calling for the committee, declared that he would accept no pay for his work.

"Tell it to the Marines"

FIVE COUNTRIES LEAD U. S. IN ELECTRIFIED HOMES

The United States, birthplace of the electric industry and richest country in the world, does not rank first in the proportion of homes equipped for electric service. Neither does this country rank second, nor third, nor fourth, nor fifth, but sixth.

The five countries which lead the United States and the percentage of their homes wired for electric service are listed as follows:

Switzerland 96.5 per cent, Japan 73.4 per cent, Denmark 72 per cent, Canada 62.3 per cent, New Zealand 59 per cent, United States 56 per cent.

This country with more than sixteen and one-half million electrically equipped homes, has approximately as many as all the rest of the world, and consumes yearly about as much current as the rest of the world combined, but our tremendous areas of sparsely settled country have retarded the electrification of our homes in these areas, whereas the countries of the Old World have dense populations. Canada and New Zealand, while having large un-

CONFESSOR BANK BANDIT TO KNOW FATE SOON

ENID, Okla., March 18.—(AP)—Dave Brown, youth who has confessed to Garfield County officers of participation in the \$1,100 robbery of a bank at Jet, in Alfalfa county, late last year, will be sentenced at Cherokee Saturday by Charles Swindall, district judge.

Brown has indicated that he will plead guilty.

Beware — of the "Just as good"

WHEN you want Conoco Motor Oil for motor lubrication be sure that you get it. Beware of the unnamed, unbranded "just-as-good" which is a good profit-maker for the seller but which is apt to prove most costly to the unsuspecting motorist who buys it.

Let a reliable Conoco dealer or Conoco service station attendant drain your crankcase. Then you will be sure of getting genuine Conoco—the tested motor oil.

Conoco protects every moving part with its fine lubricating film. It is clean—full bodied—thoroughly tested. There's a grade for your type of motor.

To cut down repair bills, ask for Conoco and get it.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the character, standing, or reputation of any individual, firm, concern, or corporation that may appear in the columns of the Pampa Daily News will be gladly corrected when called to the attention of the editor. It is not the intention of this newspaper to injure any individual, firm, or corporation, and corrections will be made when warranted, as prominently as was the wrongfully published reference or article.

CITY ELECTIONS

Four of six city council offices are to be filled in the election of April 5, and the school trustee election comes three days earlier.

The trustee election will take care of itself, as usual. The job is one in which a public-spirited man gives of his time without hope of remuneration, and trustees are often drafted for the places.

The city council election should be as free of politics. Pampa is issuing warrants and further funds will be available by a bond issue which must be voted next summer. This money should be spent by men who have the public interest in mind and who are progressive.

It is time for announcements for the council offices to be made. The people need time to consider the qualifications of the candidates. A matter as vital to the city as the coming election should not wait until a few days before the ballots are to be cast.

If the present councilmen wish to run for re-election, their announcements should be forthcoming within the next few days. There is much discussion of the importance of the city election.

Now for the announcements.

CHINA FOR CHINESE

News of the Chinese situation is very much in the press, but mere facts of troop movements are not very enlightening. Beneath the events is the current of national feeling, now becoming workable for the first time in that far-flung, heterogeneous country.

The Chinese anti-foreign feeling is based very largely upon the economic domination which the better educated and more shrewd aliens hold over Oriental commerce. In a country so densely populated as China, political independence and stability is much a matter of financial stability among the masses. Naturally, the evident prosperity of the foreigner is odious to the Chinese.

Under the intense feeling of the time, mob violence in isolated cases is not to be taken seriously; the miracle of the matter is the small number of such instances. Recently an American missionary was killed and dragged through the streets. The government at once arrested 20 of the leaders of the mob and executed them—20 died for one. That is not a bad average in any country.

About 800 missionaries have left the field. But there are more than 7,000 others who are still at their posts. With millions of ignorant people to control through steps taken in scores of dialects, the Chinese government is more stable than most people believe.

The Nationalist movement is that of young China. One of the purposes is to establish a school system modeled after that of the United States. A better tariff scale is desirable, but Great Britain, whose Chinese policy is a black mark upon the pages of that nation's history, has blocked nearly every move to better financial conditions.

Young China eventually will triumph. In the meantime the "foreigners" will have to use diplomacy to safeguard their holdings. And diplomacy is almost an unknown weapon in China.

OUT OUR WAY

—By Williams

WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer.

WASHINGTON. — Nearly all our congressional lawmakers have hied themselves away to rest from their labors, but there is no let-up for Washington's alibi squad.

The alibi squad is the secretarial corps remaining in the Senate and House office buildings.

The boys and girls were frightfully busy all through the session, answering constituents and others who sought to sway votes for some bill or other with the reassuring assertion that the senator or congressman was studying the measure carefully with the best interests of the home folks ever in mind.

Theoretically, they would have a chance to stop for breath following the lamented demise of that last Congress, but actually they have enjoyed nothing of the sort.

What happened was that the senators and congressmen went away and left the secretaries to do the explaining. Under the circumstances attending the wind-up of the nation's affairs on March 4, there are plenty of explanations to make.

The mail bags that once contained requests and recommendations for legislation are now filled with inquiries as to what happened to this bill and that bill and if not, what the heck was the reason.

Some of the northwest states know perfectly well what happened to the McNary-Haugen bill, but many of their citizens are writing to learn what became of the Norbeck seed-grain loan bill for benefit of drought-stricken regions. The mix-up is due to the fact that Congress voted to appropriate, the appropriation being lost when the deficiency bill was filibustered to death.

Numerous other appropriations similarly failed of provision and pensioners and other beneficiaries are frantically

communicating with their representatives to find out where they stand. All departments of government were more or less affected by the filibuster, and what makes the alibi squad's work so tough is that, in many instances, the departments don't know just how they are going to operate in the particular respect which the deficiency bill would have covered. The first days of figuring were rather chaotic.

It appears that the folks back home lose track of nearly everything that goes on here in the last few days of a session, and then depend on the senatorial and congressional offices to give them a fill-in. A surprising number of queries is being received regarding the fate of the postal rate reduction bill, which was passed in different form by both houses and died because the conference report was only made at the last moment.

PRESS FORUM

The Best In Life.
Wellington Leader: A man whose mental agility we admire furnished an interesting discussion of a materialistic aim in life. A man's main object in life should be the acquirement of wealth and power, and this is a good standard by which to judge his success.

We said we admire his powers of thought, but we have no flattery to waste on his philosophy of life. Likewise we have no fault to find with the man who wants to make money and lots of it, but the individual who makes the creation of wealth his primary aim is simply missing a lot of the best things life has to offer. Too many people make money at the expense of other powers, and their cultural life suffers as a result. Too many spend their best years in piling up dollars only to find in later years that their only satisfaction lies in acquiring more money. Too many fail to sense the importance of developing their powers to enjoy leisure at the same time they increase their estate.

What good will money do a man who has developed only one side of his nature? Good books, music, good plays and other arts can bring him no solace from the monotony that

afflicts all of us. The memory of a pleasant youth, the enjoyment of a well balanced middle age and the prospect of a happy dotage are denied the man who makes the dollar his sole aim. This is not written to discourage anyone from trying to make money, for it is a splendid ambition, but it is written in the interest of a balanced life.

Home Town Standards.

Collingsworth Standard: One of the greatest forces for community development is the feeling that one's own home town must come up to a certain standard. In a place which has had good traditions, the people say they have never done things in a stingy or cheap manner, and they object when anything appears to be below their old standard. When you get that feeling

TWINKLES

Maybe Florida needs a crime wave to make the people keep their money in the banks.

It is peculiar that those interested only in their own affairs seldom have much to boast about.

The human adding machine is dead, as all human machines become when the chemical laboratory called the body gets out of adjustment.

In a city it operates against any condition that is below par. People say it is inconsistent with their ideals and habits, and they will give their time and money to improve such conditions.

Life is a marvelous prescription, and richly mixed if you fill it rightly.

Civic note: It is reported that rents are dropping slightly. Nothing but high rent has kept 5,000 people several miles beyond the city limits this winter.

It is all right to build oil field roads, but how about the oil field streets beyond the paving project?

They have drained our curb lake, folks, and our Lizzie has been crowded out of town by the Packards and Cadillacs.

A brilliant Jew is brilliant indeed, and we would give a lot to see Reed and Sapiro tangle in the Ford case.

Chevrolet stands unchallenged as the world's largest producer of gearshift trucks.

With its powerful valve-in-head motor—now equipped with AC oil filter and AC air cleaner; with a 6-inch channel steel frame, super-rugged rear axle and modern 3-speed transmission, recently improved—it is praised by users everywhere as the greatest commercial car value of all time.

Only the economies of tremendous volume production make possible such super quality at Chevrolet's low prices.

Come in and see the truck that has won worldwide leadership. Learn why it has given such supreme satisfaction to so many users of every type—big fleet operators and individual owners.

For Economical Transportation

—at these Low Prices!

- 1-Ton Truck Stake Body \$680
- 1-Ton Truck Panel Body \$755
- 1-Ton Truck Cab and Chassis \$610
- 1-Ton Truck Chassis \$495
- 1/2-Ton Truck Chassis \$395

All prices f. o. b. Flint, Mich. In addition to these low prices Chevrolet's delivered prices include the lowest handling and financing charges available.

Mrs. M. E. Keith of South Somerville street, who has just returned from the Mayo Bros. hospital at Rochester, Minn., suffered a relapse Tuesday evening. A considerable period of treatment under their direction seemed to affect a remarkable improvement. For the past two days she has been very ill.

Automobile owners who are members of the Pampa unit of the Panhandle auto club may now get their A. A. A. insignia by calling at the Chamber of Commerce.

Prominent business man: "I don't think a cut in oil production is going to hurt business at all."

February Weather Was 6.1 Degrees Warmer Than Usual

(By The Associated Press)
HOUSTON, Texas, March 18.—Probably a real summer day in Eagle Pass, February 22 when the thermometer reached 98 would cause no great stir in that border city and an eight-degree temperature in Dalhart 12 days earlier in the month would be the subject of little gossip in the Panhandle, but figures offer considerable contrast for other Texas cities with in-between thermometer readings.

They have just been placed in the weather record here by H. L. Daingerfield, government meteorologist. Even in the face of these extremes in temperature Mr. Daingerfield finds that February weather in Texas was 6.1 degrees warmer than usual. Mercedes averaged more pleasant weather than any other point in the state. The monthly mean there was 64.9 degrees, which was highest average at 123 reporting stations. Dalhart was at the other extreme with the lowest monthly average of 40.2, degrees. The monthly range within the state was 90 degrees and the greatest daily range was 57 degrees at Memphis on February 21.

More moisture fell than usual, Mr. Daingerfield found. Average precipitation as shown by records at 220 stations, was 2.08 inches, which was .22 of an inch greater than the state normal. Most of the downpour was at Marble Falls, where 6.58 inches fell in February. More than half of it came on February 9, at that place where the rain gauge showed 4.05 inches. February snow-fall was heaviest at Perryton with 8 inches.

The sun showed for 11 days, a part of the time for 8 days and none at all for nine days, the average shows, while the prevailing direction of the wind was from the south. It blew hardest at Galveston on February 18, when it reached a velocity of 60 miles per hour from the north.

OVEN COOKED MEALS

DENTON, Texas—It frequently happens that for one reason or another it is desirable to serve a meal that can be cooked principally in the oven. Perhaps the top of the stove is being used for other things, such as preparing for guests later in the day or week. Missy may wish to be away and has an oven regulator or can accomplish the same thing by the way she sets the burners or she may simply desire the convenience of less careful watching. If one has never tried making one fire do several things it is an interesting experiment to prepare an oven meal. The dinner for the menu this week has been planned with this in view by an expert in the household arts department of the College of Industrial Arts.

- Breakfast
- Cream of Wheat
- Eggs cooked in shell
- Muffins Orange Marmalade
- Coffee and Milk
- Luncheon
- Potato croquettes
- Creamed chipped beef
- Buttered spinach
- Fruit salad
- Cocoa
- Dinner
- Veal roast
- Baked potatoes
- Corn bread sticks
- Head lettuce
- Buttered spinach
- Thousand Island dressing
- Apple pie
- Tea and milk
- Buttered Spinach

(Baked in oven in casserole.) Use canned spinach. Drain juice from it. Add seasoning of butter, salt, and pepper. Put in casserole and garnish with slices of hard-boiled eggs. Cook with lid on dish.

Marmalade
1/2 orange, 1 lemon (large), 1 grape fruit, 1-2 t salt.
Wash and slice the fruit very thin, add three times the volume of water, boil for 15 minutes and let stand overnight. Next morning boil 10 minutes and let it stand again. Measure and add equal volume of sugar and boil rapidly until jelly stage is reached.

PRESBYTERIAN CLASS HAS ST. PAT PARTY

The Young People's class of the First Presbyterian church held a St. Patrick's party at the home of Mr. and Mrs. J. E. Corson Wednesday evening. Mrs. Horace Oakley was hostess to about 30 guests. A short program including a vocal solo "Rain and the White Prophet," by Mrs. Everett Fisher, and a violin solo by Laverne Twiford, was followed by games. Decorations, favors and refreshments carried out the St. Patrick's color and idea.

Mr. and Mrs. L. D. Lane of El Reno, Okla., were the guests of Mr. and Mrs. J. S. Carter Tuesday.

Oil Production Decrease Small For Last Week

(By The Associated Press)
NEW YORK, March 17.—The daily average gross crude oil production in the United States decreased 3,000 barrels for the week ended March 12, totalling 2,461,050 barrels according to the week-end summary of the American Petroleum Institute. The daily average production east of California was 1,822,550 barrels, an increase of 4,100 barrels.

Daily average imports of petroleum at principal ports for the week ended March 12 totalled 194,572 barrels compared with 204,286 for the previous week. Daily average receipts of California oil at the Atlantic and Gulf coast ports for the week ended March 12 totalled 141,000 barrels compared with 79,143 for the previous week.

- Oklahoma; 708,850; increase 7,450.
- Kansas; 116,350; decrease 850.
- Panhandle Texas, 130,350; increase 2,150.
- North Texas, 90,150; decrease 1,350.
- West central Texas, 174,850; decrease 3,400.
- East central Texas, 43,000; decrease 450.
- Southwest Texas, 36,900; difference 600.
- North Louisiana, 52,400; decrease 150.
- Arkansas, 124,050; decrease 1,600.
- Coastal Texas 141,050; increase 1,100.

Coastal Louisiana; 13,800; decrease 400.
Eastern 105,000; decrease 1,000.
Wyoming, 59,050; increase 2,300.
Montana; 13,600; increase 50.
Colorado; 7,850; decrease 500.
New Mexico, 5,300; increase 550.
California, 638,500; decrease 7,100.
Totals 2,461,050; decrease 3,000.

The fire chief wants to thank car owners for the way they 'thiked to the curb' to give the fire trucks the right-of-way.

KAFFIR BEING DISTRIBUTED

STAMFORD, March 17.—(AP)—One hundred and twenty-five sacks of pure bred, high grade Black Hull Kafir are finding their way to West Texas farmers through the mails. The eight pound packages are being distributed by the West Texas Chamber of Commerce to parties in its territory who took advantage of the offer of the organization to send out seed for the cost of mailing. The Kafir seed came from the Lubbock Experiment Station.

Social Welfare Conference to Hear Noted Speakers

(By The Associated Press.)
HOUSTON—March 17.—Dr. J. C. Carstens, director of the Child Welfare bureau of America, and many social workers of national prominence are on the program for the Texas State conference of Social welfare to be held in Houston March 23-25.

The list also includes such notables in this field of social uplift as Dr. Howard R. Knight, general secretary of the national conference of social welfare; Miss Sara E. Brown, assistant field director of the American association for organizing family social work, and Miss Virginia McMechen, field representative of the National association of Travelers Aid societies.

Miss Ethel A. Claxton, president of the Houston social workers club, announces that meetings will be held morning, afternoon, and night. Time will be allowed, however, she said, to see Houston, visit the different social institutions and local agencies and for small conferences among individual workers.

Plans call for the meeting to be held in six sections, according to the different types of social work and allied branches. Among them, the program indicates, is child welfare, Miss Claxton, chairman; family case work, Miss Gladys Pettinger, Fort Worth, chairman; probation, Mrs. I. Mack Wood, Waco, chairman; delinquency, Prof. H. L. Pritchett, Southern Methodist university, Dallas, chairman, traveler's aid, Miss McMechen, chairman.

The traveler's aid section is due to hold an institute beginning Tuesday, March 22, one day in advance of the state conference. Miss McMechen is on the program to address it on organization, inter-city service, relations to other agencies, records and statistics and traveler's aid publicity.

The program calls for a large luncheon as guest of the Houston Social workers club on the opening day. Automobile rides are planned for some part of the afternoon with visits to the local institutions. For Friday afternoon the Houston Chamber of Commerce has arranged a boat ride down the Houston ship channel.

BURNING COAL RAW IS WASTE OF 80 PER CENT

When coal is burned in furnaces or stoves not more than twenty per cent, and sometimes not more than five per cent of the heat is utilized. The remaining 80 to 95 per cent is wasted.

Before coal can be burned it must be partially gassified by the application of heat. Only part of the coal burns. The remainder consists of ashes and valuable noncombustibles which are lost when coal is burned raw. Much of the heat is also wasted.

By modern gas-making methods, each ton of coal will produce approximately 11,000 cubic feet of gas, 1,400 pounds of coke which contain

as many heat units as a similar amount of coal. 5 lbs. of ammonia liquor, 1 1-2 gallons of benzol, 10 gallons of tar and a considerable amount of sulphur and naphthalene.

The gas can be burned with an efficiency of 80 per cent, the coke can either be used as fuel or converted into additional gas by the carburetted water gas method; the sul-

phur, ammonia liquor and naphthalene can be converted into chemicals and fertilizer, and from the tar innumerable dyes, perfumes and drugs are extracted.

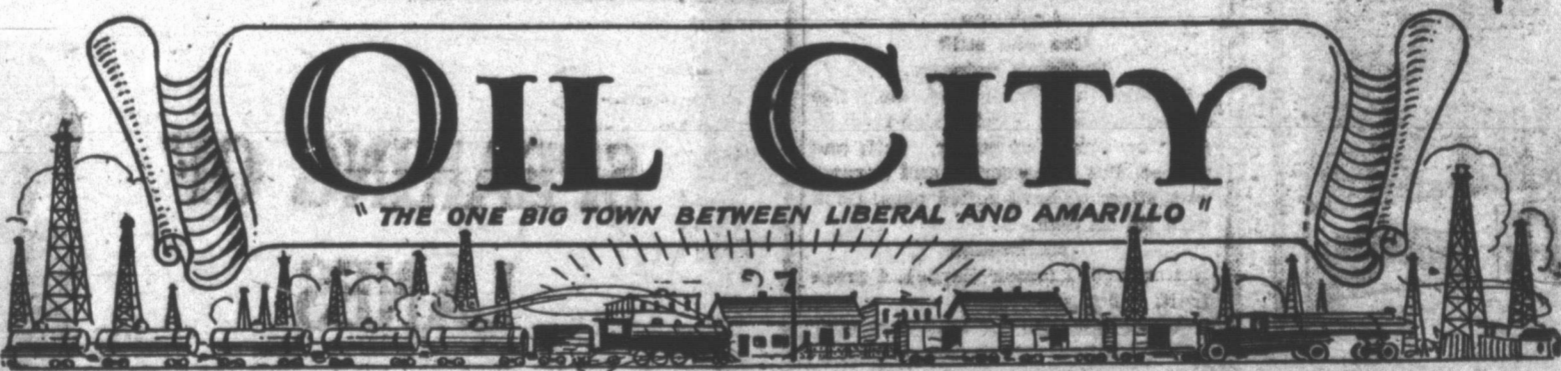

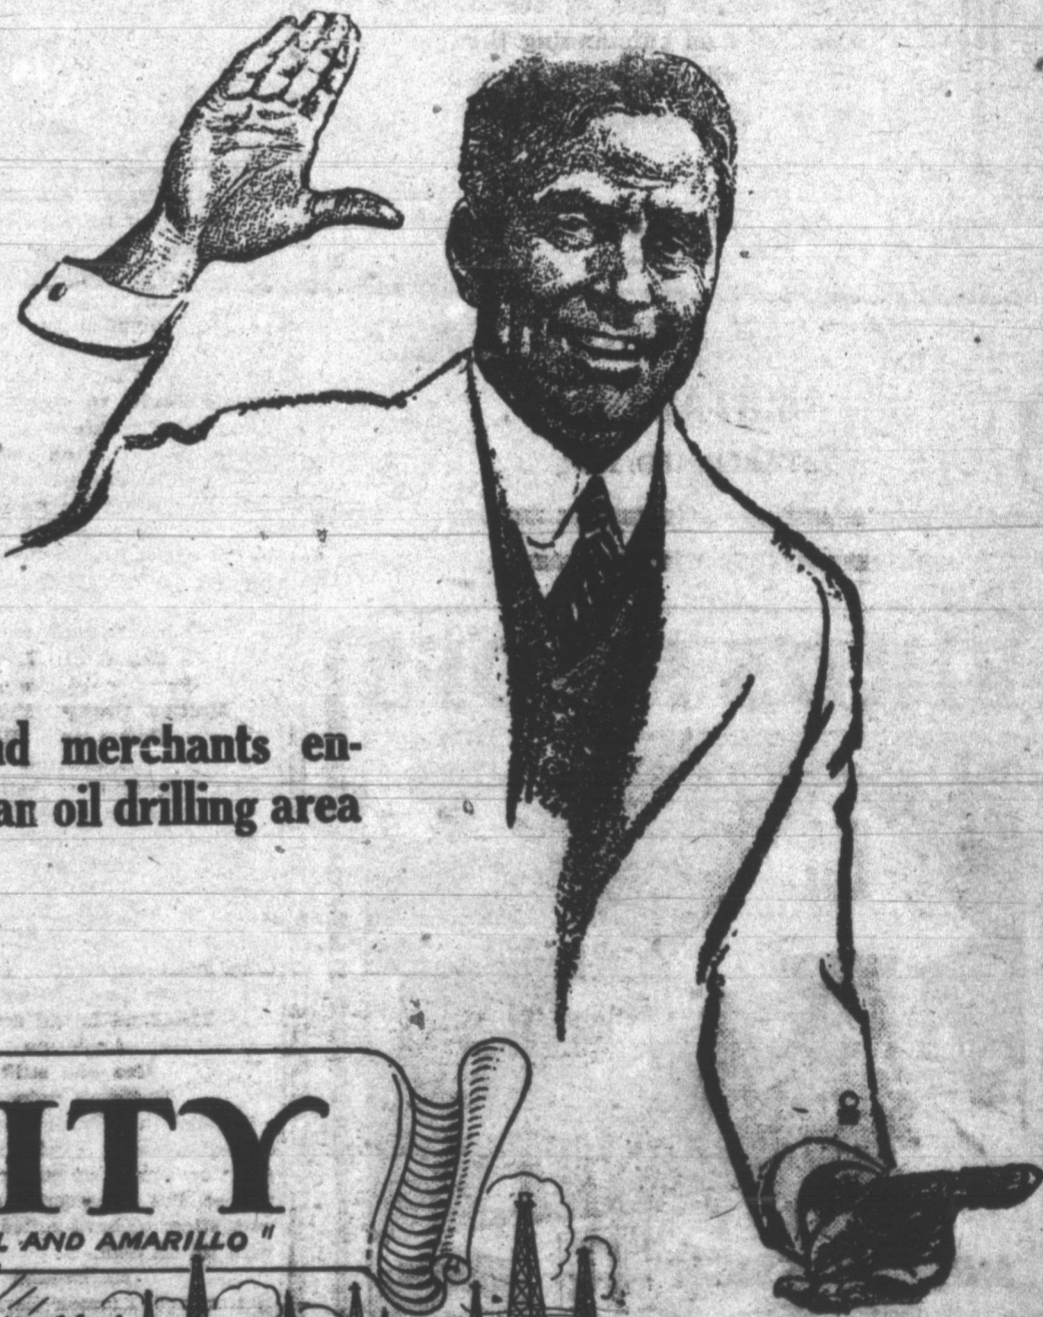

Practically nothing is lost and 80 per cent of the heat energy in the raw coal is used.

Have you read the classified ads?

Mr. and Mrs. W. H. Johns and Miss Margaret Kenady attended the Shrine dance in Amarillo Tuesday night.

A CHANCE TO MAKE MONEY!

—For investors; and for business men and merchants engaged in all lines of activity suitable for an oil drilling area and a permanent, live railroad town.

Oil City Townsite is just north of the Canadian at the bottle neck for the tremendous railroad and highway traffic which will go over the new Rock Island Bridge of the Amarillo-Liberal main line. This will be the only bridge for scores of miles, and will concentrate an immense commercial and industrial activity at Oil City. Furthermore, this new station opens up and is the nearest railroad point for a great, fertile agricultural empire of hundreds of square miles.

The Chicago, Rock Island and Gulf Ry. Co. has entered into a definite contract with the developers of Oil City to construct their line through the town in accordance with the survey and townsite plat, and to establish a station at this point.

One well almost within a stone's throw of Oil City making over 900 barrels a day, and never been shot. The three Marland and Prairie wells located in adjacent sections, just southwest are making better than 2,000 barrels and three offsets will soon be in. 39 locations for immediate drilling between them and the Cadman well in Moore county—and all served by Oil City.

Excellent building sites, \$50 up, on easy terms—30 per cent down and balance in 10-monthly payments. Also good industrial trackage at reasonable prices. An abundance of good fresh water, through a six-inch line, and plenty of gas from a four-inch line already laid and buried through the main street.

DRIVE OUT TODAY!

Oil City is located in Sections 35 and 36 of Block 47, H. and T. C. Ry. Co. Survey, Hutchinson county, Texas, just north of the wagon and railroad bridge under construction. Take the Marland river crossing a few miles east, drive 3-4 miles north, and turn west direct to Oil City. Signs mark the way from Pantex north. Drive out today.
