BROWN TALKS TO BROTHER IN LONDON TODAY

Conversation Lasts 7 Minutes and Costs \$196

SENDS GREETINGS TO KING GEORGE

Call Placed On 24th Anniversary Coming To Pampa

"Congratulations to citizens of Pampa on the city's great importance, and best wishes for a continuance of its prosperity."

On the twenty-fourth anniversary of his arrival in Pampa, M. K. Brown today talked by telephone to Eustace K. Brown of London, who in reply to Mr. Brown's greetings dictated the above message to local people.

The conversation began at 11:35 a. m. today and continued for a net period of seven minutes at a total cost of \$196. The line was very clear at this end, but hearing in London was not quite so good, although the speakers, who during the period included Mrs. M. K. Brown of Pampa and Miss Gwendolen Brown of London, sister of the local man, understood each other distinctly.

Sends Pampa's Greetings
Mr. Brown opened the call with greetings from Pampa, and directed special greetings to King George, United States Ambassador Houghton, and Premier Stanley Baldwin. He also requested that the news of the conversation be dispatched to the ed-

(See BROWN—Page 4, Column 2.)

Many Speakers To Address Green Belt C. of C. Convention

(By The Associated Press.)
CHILDRESS, April 27. — Seven major addresses by prominent state and West Texas officials will feature the Green Belt-Lower Panhandle district convention of the West Texas Chamber of Commerce to be held in this city on May 5.

Speakers of the occasion include: Judge C. C. Small of Wellington; Judge C. Y. Welch of Quanah; Dr. J. W. Hunt, president of the McMurray college, Abilene; Rev. Lee H. Smith, Chillicothe; Mayor R. E. Shepherd, Wichita Falls; M. S. Henry, Crowell, and Colonel C. C. French, Fort Worth Stockyards company, Fort Worth.

A song by the "singing mayor of Wichita Falls", Mayor Shepherd, will be a distinctive feature of the district meeting. Other musical numbers will intersperse the program, including band music from visiting bands and special music by Childress local talent.

A. M. Bourland, better known to West Texas as "Andy", will be presiding officer of the Green Belt-Lower Panhandle convention. Following the invocation by Rev. Garland Shell, Fred A. Story of the Childress Chamber of Commerce will extend the welcome address, to which J. C. Wells of the Memphis Chamber of Commerce will respond.

B. M. Whitaker, exhibit-agricultural manager of the West Texas Chamber of Commerce, and Arthur E. Duggan, president of the organization, will take part on the program. Whitaker will speak on the "Object of District Conventions," and President Duggan will explain the "Needs of West Texas."

Points included in the Green Belt-Lower Panhandle district of the West Texas Chamber of Commerce, and which will probably send delegates to the Childress meet are: Aspermont, Bomarton, Benjamin, Chillicothe, Childress, Estelline, Guthrie, Hamlin, Haskell, Girard, Harrold, Knox City, Kirklind, Matador, Munday, Odell, Oklaunion, O'Brien, Paducah, Quanah, Roby, Rochester, Rule, Rodding Springs, Rotan, Stamford, Seymour, Swenson, Sylvester, Trencott and Walnut.

Fort Worth Boys Will Rule City

FORT WORTH, April 27. (AP)—Fort Worth will have a brand new set of city officials Thursday, May 5.

On that day boys who have been chosen in a regular election conducted by the city schools will serve as mayor, city manager and department heads and will preside in city hall offices. On May 3, the boys will be given a short training course when they will sit with Mayor Boyce and his colleagues in the council session.

The plan is a part of the program of Boys' Week.

Paralyzed Lad Exhausted, Yet His Friends Persevere

(By The Associated Press.)

ROANOKE, Va., April 27.—Complete exhaustion and traces of pneumonia today crept over Walter Boothe, farm youth, as he approached the 140th hour of his friends' attempt to keep him alive by artificial respiration.

The dramatic struggle against the physicians' prediction of certain death goes on unceasingly, however, with alternating pairs of companions swinging the lad's arms up and down, forcing breath into the tired lungs.

Gray Declares He Was "Hounded" Into Killing A. Snyder

(By The Associated Press.)

NEW YORK, April 27.—Henry Judd Gray agreed to kill Albert Snyder because Mrs. Snyder "hounded" me and got me in a whirl with her love-making," he asserted in his confession, read in court here today.

Senator Beveridge Dies Suddenly At Indianapolis Home

(By The Associated Press.)

INDIANAPOLIS, April 27.—Albert Beveridge, former United States senator from this city, died suddenly here today.

Death came at his home here. He had been working for some time upon his latest book, a life of Abraham Lincoln.

Jury Is Selected In Bribery Case

(By The Associated Press.)

AUSTIN, April 27.—Selection of jurors consumed the morning session of the trial of H. H. Moore, indicted former member of the House of Representatives, from which he was expelled with F. A. Dale on charges of accepting alleged bribes.

Cadet Flyer Is Killed In Landing

(By The Associated Press.)

SAN ANTONIO, April 27.—Cadet Grady Farley of Nashville, a Brooks field flying student, was fatally injured while making a landing on the auxiliary field five miles north-east of here today.

ADAMS HOTEL COFFEE SHOP TO OPEN SATURDAY

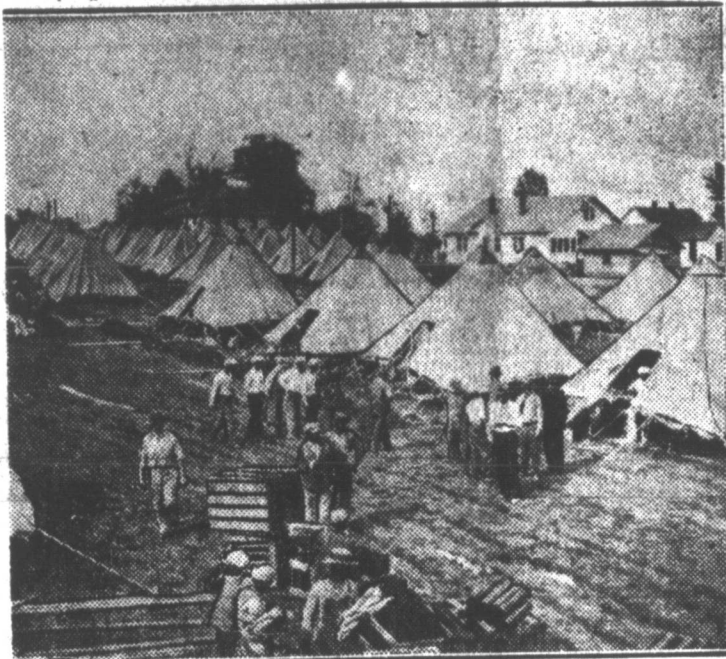

Taylor's Coffee Shop at the Adams hotel will open for business with a 6 o'clock dinner Saturday evening, and will give service nineteen hours a day.

The coffee shop will accommodate about 60 guests. It will be under the supervision of Mrs. Florence Taylor, formerly of Miami, Fla.

The shop is artistically decorated in orange and black. All cooking and baking will be done on the premises.

Mr. and Mrs. J. E. Shaw of Electra are here today for the funeral of Mrs. Post.

SCENES IN FLOOD AREAS

One of the refugee camps at Hickman, Ky. State militia tents were rushed to the scene to take care of refugees, most of which were from the Missouri side of the river.

One of the Missouri refugee flood women suffering from water poisoned feet. She is putting water on her face and head during a "faintish" spell at the camp.

Leading Men Define Good Citizen As One Willing to Give Some Time For Advancement of Public Welfare

This is the third of a series of four articles prepared by Scott Barcus, Secretary of the Pampa Chamber of Commerce.

Good Citizen Defined
Are you a good citizen? Some of the leading men of America have described you if you are.

"The test of a man's worth to his community is the service he renders it."—Theodore Roosevelt.

"The good citizen is an intelligent and judicious man who loves freedom, justice and mercy, and is prepared on occasion to sacrifice his own interests to the common good. The fact is, that in modern life, with its far-reaching political and industrial complications, the good citizen is not so common in free states as he used to be, because he needs to possess a high degree of intelligence and good judgment."—Dr. Charles Elliot, president emeritus of Harvard university.

"A good citizen is one who is willing at all times to make some sacrifice of his time, means and convenience to advance the common welfare, and has such an abiding interest in this that he is always watchful and needs no urging to do his duty."—Hon. Judson A. Harmon of Ohio.

"Zealous in business, not permitting his daily task to obscure his vision of life's great problems, honestly liquidating his debt to the community by spend time, or thought, or money, to elevate both social and civic standards; he, whether rich or poor, is a good citizen."—Harry A. Wheeler, former president, United States C. of C.

The members of the Chamber of Commerce in Pampa are pulling the load up hill. Are you pulling or riding?

Here are ten reasons why you should join the Chamber of Commerce:

First. Its purpose.—The Chamber

This Negro Wants To Stay In Jail

TEMPLE, April 27. (AP)—The old adage of "Think twice before you act," will be taught a Temple negro soon when he is tried on a charge of malicious mischief.

This was promised the dark by Justice Williamson when he promised to get the negro a \$200 fine for throwing a rock through a plate glass window. The negro had surrendered to police—with the declaration:

"Here I is—arrest me and lock me up! I can't eat no more at home—they done turned me out, so I want to go to jail to have some place to stay."

BIG WELL IN WILCOX POOL

Johnson Test Flowing 50 Barrels An Hour

The Wilcox Oil and Gas company brought in another 50-barrel an hour well yesterday. Situated on the Mrs. A. F. Johnston property, section 61, block 3, the well looks like a fine producer.

The main flow was reached between 2,816 and 2,842 feet, and a good quality of oil was found.

The Wilcox company have three other wells nearing the pay and expect to bring them in within the next two weeks. They are also expecting to make several new locations in the near future.

Drilling contractors have replaced the burned derrick on the Mrs. M. A. Hopkins well and will commence drilling today.

The well is situated on section 66 block 3, and is at a depth of 2,885 feet with a good showing of oil.

The McGee-Blackwell well on the Joe Bowers property section 92, block 3 is standing with 2,000 feet of oil in the hole.

The company intends to drill until a break is reached in the sand, and then to use a shot if necessary. The well is in wildcat territory being about four miles from the Wilcox field.

Filling Station To Cost \$6,500 Will Be Completed Soon

Graham Bros. filling station, to be completed soon at the corner of Foster and Frost streets, will cost approximately \$6,500, according to the permit taken out at the city hall.

The building is of brick and tile construction.

Telephone Crew To Rebuild Outside System In Pampa

A big crew of telephone men will come to Pampa May 1 to begin rebuilding the outdoor system of the city. Equipment already has arrived.

T. J. Ball, construction foreman, was here Monday to make preliminary survey of the work to be done.

The work will begin 60 days ahead of the company schedule, and will be pushed to completion. It is expected to give Pampa a greatly improved service, besides enabling applicants for phones to obtain installations.

Contract For Ward School Will Be Let Very Soon

Sites for the South Side ward school board this week and one school will be considered by the board, members have indicated.

It is practically necessary to have a site to which sewage may be extended readily.

The building will have eight rooms for class use, in addition to a library. Bids will be received soon and the contract placed. The plant will be constructed according to best school plans.

MANY TREKING FROM FLOOD MENACE TODAY

Engineers Prepare To Cut Levee Below New Orleans

THEATRES WILL AID IN RELIEF

Hoover Says General Crisis Has Probably Passed

(By The Associated Press.)

NEW ORLEANS, April 27.—Two members of the crew of the tugboat Independence are missing today after the sinking of the tug in the Mississippi river here.

Five members of the crew were saved.

LITTLE ROCK, April 27. (AP)—A message from Gould today said 20 feet of the South Bend levee on the Arkansas river had caved in and that workmen were trying to repair the crevasse.

A big break there would flood a large area, including Gould and Varner.

NEW ORLEANS, April 27. (AP)—Evacuation of Poydras section began in earnest today as citizens piled household goods and all movable articles upon any available conveyance and began trekking toward New Orleans.

The town of Saint Bernard, now menaced, alone has a population of about 300. The entire area to be flooded is farming and trapping land.

CRISIS NEARLY PASSED

NEW ORLEANS, April 27. (AP)—The crisis probably has been passed in the Mississippi river flood situation, and no more extensive hard-

(See FLOOD—Page 4, Column 3.)

Bennett Believes Pampa To Reach W. T. C. C. Quota

The West Texas Chamber of Commerce membership campaign will close tonight in Pampa. J. Frank Bennett, assistant manager of the W. T. C. C., with office at Amarillo, has been in charge of the drive and is pleased with the number of memberships taken in Pampa.

Up to noon today the memberships here have nearly reached the hundred mark, which was the quota set for Pampa, and Mr. Bennett is sure that this city will go over the desired total. Members of the local organization have been assisting Mr. Bennett in the campaign.

Tax Assessor Asks for Renditions To Be Made Before Books Close On May 1

Local people who have not rendered their property valuations with the tax assessor are requested to do so at once, inasmuch as the rolls will be closed May 1.

Said C. O. Busby, tax assessor, in discussing the valuations:

"County, state, city and independent school tax assessors are required by law to close their books on the first day of May so they can get their total valuations into the state department before the rates for the current year can be determined.

"Although the city of Pampa has grown until the assessing has more than doubled in the last year, extra help has made it possible for the assessor of both county and state and independent school to have their work practically complete at this time. However, there are always a great number of people who defer making their renditions until the last week, and if these people would call at the office at once, or mail their rendition in, it would be a great convenience to the assessor.

"We find that most people wish to make proper returns of their taxes and want to take care of their proportionate part of the taxes, and if these people would make their renditions properly, it would save a good deal of time for the assessor to use in running down those who attempt to evade paying taxes."

SIX-POINT CHILDREN

Gray county has oil, fine wheat land and unlimited agricultural possibilities, but her most valuable crop is her children.

Despite modern conditions, the average child will not grow up into its full possibilities without attention to its all-round development. Counties which are examining their school children are finding ample reasons for health programs.

It is undeniable that every child in Gray county has the right to:

Be born under proper conditions.

Live in hygienic surroundings.

Have properly selected and prepared food.

Be given prompt and efficient medical attention.

Receive primary instruction in the elements of hygiene and good health.

Every state in the nation is taking steps along these lines, but the county response is scattering. While efforts of the various states differ, there is one common aim—to develop the six-point child.

By six-point is meant that the child has a minimum health standard of normal vision, normal hearing, good teeth, clean throat, correct weight and proper posture.

Eighty-five per cent of the defects in children are related to malnutrition, defective vision, impaired hearing, enlarged tonsils, adenoids and decayed teeth. It is a proud boast of many counties that they have hundreds of certified six-point children. No school system is complete unless its records show, from the results of examinations, that the children are physically normal or are taking corrective treatment.

To the average person a definite program may seem unnecessary, yet examination of any group of school children will prove the contrary. Attention to growing children provides the soundest basis of future good citizenship.

TWINKLES

Personally, we are in favor of putting "Indian Jim" to work as quickly as possible and letting him break a record every day as long as the bricks hold out.

Artistic sincerity is a great thing and is usually conceded, or there would be more tragedies.

"Blondes Prefer Gentlemen" who prefer blondes, this new book moves us to suggest.

Law schools are reducing their courses. Now if there were only some way to reduce the number of laws and lawyers.

Naghty Vassar had decreed that her girl athletes may not smoke while in training.

You can more safely call some people an ape than refer to their ancestors in that light.

It is reported that the Pampa Bachelors club is the latest civic organization.

One of Gray county's needs is a few county-wide interests.

PRESS FORUM

EVIL DAYS HAVE FALLEN

The old-time Texas sheriff conformed to a sartorial pattern as standardized as a dress suit. He wore a broad-brimmed, high-crowned hat of the two-gallon variety, a flannel shirt, nondescript trousers stuffed into stitched-top boots and in summer he sported a vest which, for some reason, preferred to let hang unbuttoned. His armament consisted of a bulky .45-caliber six-shooter or sometimes two, swung from a heavy cartridge belt. His method of locomotion for any distance longer than around the courthouse square was on the back of a horse.

With the passing of years this picturesque garb has been modified, except, perhaps, in a few of the western counties that still retain a semblance of old frontier customs. But to experienced eyes the Texas sheriff wherever he may be located, still betrays himself by his manner of apparel. Even the city sheriff, whose duties consist chiefly of directing the activities of a numerous corps of deputies, clings to the broad-brimmed hat, though the suit beneath it may be ever so fastidiously tailored. The familiar horse and saddle have been abandoned in favor of the automobile. But, all in all, the Texas sheriff is still a personality whom the social metamorphosis has not altogether forced into the metropolitan mold.

With that imposing personage in mind, let us glance at the figure which an unromantic statute contemplates shall typify the high sheriff. His approach is heralded by the roar of a motorcycle, and bestride that ultra-modern broncho we see an individual natively uniformed in dark gray, wearing a cap of military cut and sporting on his tunic a diamond shaped badge. Can this be the sheriff? It must be for the attorney general has ruled in construing the recently enacted law that in order to make arrests for speeding on the highways even sheriffs and sheriff's deputies must wear the prescribed uniform by which the speeder may identify his nemesis. But no; this can never be, not while a breath of the Texas that was filters through the reek of gasoline fumes. We can not imagine the 251 sheriffs of Texas submitting to any such infringement of their time-honored sartorial prerogatives, in the more populous counties where the apprehension of law-breakers is entrusted exclusively to the sheriff and one or two deputies, we reckon the speeders will just have to speed, by heck, if the sheriff must get himself up in a uniform before he can arrest them. —Galveston News

West Texas Notes

Stamford—A plea for chambers of commerce to function as agencies in raising funds for Rock Spring's relief has been issued by the West Texas Chamber of Commerce to towns in its territory. Rock Springs now left in widespread suffering and destruction with not a bit of tornado insurance, though an inland town, always carried its quota in memberships in the West Texas Chamber of Commerce. Sister towns in the regional organization are therefore being asked by Manager Wade and President Dugan to organize Rock Springs Relief drives.

Denton—Denton, queen college city of North Central Texas, has voted to affiliate with the West Texas Chamber of Commerce. Secretary-Manager G. R. Warren of that place, in making announcement of this, pointed out advantages of holding membership, one among which was benefit to local educational institutions.

The Denton Chamber of Commerce at the time this action was taken, also voted to take membership with the East Texas Chamber of Commerce, and to observe Industrial Development week. Denton is the home of the College of Industrial Arts and the North Texas State Teachers college.

ACCIDENT VICTIM IMPROVES

T. M. Guy, who received injuries in an automobile accident recently, is improving. He was taken to the Hillcrest hospital after the accident.

Mr. and Mrs. Homer Hulme have gone to Oklahoma City for a few days on business.

Enlarged Stadium Is Second Biggest

CHICAGO—The only major league baseball park owned entirely by a single individual has ready for the fans the biggest baseball stadium in the country except that of the New York Yankees.

Charles A. Comiskey, sole owner of the Chicago White Sox, has enlarged the American League park to hold ordinarily 60,000 persons. The park's old capacity was 35,000. The Yankee park seats normally 65,000 patrons. The 12 foot right field wall, one time home run target, is now 75 feet high. The new plant is worth \$2,000,000.

"Cheap" house paint is a luxury for the rich man only

If you have loads of money . . . if you can afford to buy twice as many gallons . . . if you can pay the cost of burning or scraping off the old paint every two years or so—and the added cost of frequent repainting . . . then you are rich enough to use a "cheap," low price house paint.

But if you want to make every dollar count—to get value for your money—then you'd better buy the best house paint money can buy—SWP. It costs no more in the beginning—and much less in the end.

Come in and let us tell you the truth about the exorbitant cost of "cheap" paint.

GUARANTEED!

SWP is guaranteed to look better, last longer, cost less per job and less per year than any house paint on the market.

Thrills In Golf—Voight's "Discovery"

BY LINCOLN A. WERDEN
PINEHURST, N. C., April 27.—George Voight, who got his start in Scotland's favorite pastime by chasing balls for members of the old Columbia Country club of Washington, is enjoying the sensation of "being discovered" and his greatest thrill in golf.

All of which gives George a good laugh, for as age goes in this game of golf he is not a young man—30 years old—and has been playing since he was a mere lad. But George has just won the United North and South amateur championship.

George captured the 36 hole qualifying round of the tournament with a 67 and 68, establishing a new American amateur record in competitive golf. Bobby Jones reeled off a 66 and a 68 last summer in qualifying for the British open in Sunningdale, but in this country Voight's mark only has been lowered for two rounds, and over the length of courts he played by professionals.

Only on one hole was he over par. "Those two rounds were the finest thing I have done," George relates. "And I got a great thrill when Walter Hagen came to congratulate me and said he never heard of anything like them. Back in Washington there is a group of us who always consider Bobby Jones and Walter Hagen as our great golfers."

William C. Fownes Jr., president of the United States Golf association and a spectator of the matches, classed Voight as "one of our four best amateur players in the country today."

Voight has never had a golf lesson. He started to play more intensely after winning the public links championship in Washington in 1925 and 1926. He won five of seven tournaments around the District of Columbia in 1925 and became district champion in 1926 and 1927.

Roland McKenzie, Walker cup player, has fallen before Voight in five of the six matches they have played. George was runner-up in the Middle-Atlantic open and the Maine open this year and won the Palm Beach championship and the amateur-pro tournament here with Bobby Cruickshank last fall.

Crandall To Manage And Pitch West

WICHITA, Kans.—Otis (Doc) Crandall, who for ten years has been with the Los Angeles and Oakland clubs of the Pacific League, will be the field manager of the Wichita

Western League club this season. He is a pitcher and will take his regular turn in the box. Crandall first played baseball with the New York Giants and later jumped to the

Federals. In 1917 he went to the Coast. Sam Ralley left Tuesday night for Amarillo on a business trip.

Sam Scaling, 3b, Is Leading Hitter On Gray Roster

With the high average of .435, Sam Scaling, Gray third baseman, is the leading batter of the Pampa nine.

Close behind him is Bob Clarke, whose figure of .428 is unusual for a pitcher who would be valuable without the ability to hit once a month.

Reynolds has scored the most runs, and has two homers to his credit. Clayton is the best bet for a three-bagger, and Weeks for a double.

The batting averages to this time are as follows:

PLAYER	G	AB	R	H	2b	3b	HR	Av.
Scaling	5	23	4	10	0	1	0	.435
Clarke	4	14	4	6	2	0	1	.428
Rowe	4	23	4	9	0	1	0	.391
Reynolds	4	18	8	5	0	0	2	.385
Weeks	5	21	7	7	3	0	0	.333
Cahill	5	16	2	5	1	2	0	.312
Martin	2	4	0	1	0	0	0	.250

SPORT TALK

Sam Scaling is pounding the pill these days and is closely followed by Bob Clarke. Scaling is batting .435 and Clarke .428.

It is going to be a different baseball team that the Metros will meet next Sunday.

Anyone having room in his car to take a player to Amarillo Sunday, call Ed Gober at 43, or the Sports Editor at the Pampa News office, phone 100.

Get the banner for your car at the Chamber of Commerce any time before Sunday. Let Amarillo know the Grays are coming.

The golf course was popular yesterday afternoon. Several business and office men got spring fever and took it out on the little white pill. They report the course in good condition.

C. H. and E. B. Clark of Wichita Falls spent Tuesday here looking after business matters and visiting Joe M. Smith and family.

The O. E. S. club of the Eastern Star met in a business and social meeting Tuesday afternoon at the home of Mrs. W. H. Johns. The president, Mrs. T. H. Barnard led the lesson, also the study of the constitution and by laws.

After the business session, delightful refreshments of cake and punch were served to Mrs. G. C. Crocker, Mrs. Mack Graham, Mrs. L. P. Yoder, Mrs. T. H. Barnard, Mrs. Clem Davis, Mrs. T. B. Solomon and the hostess, Mrs. W. H. Johns.

Missionary Sees Friend In Chang

BERKELEY, Cal.—American missionaries in China are hopeful the faction headed by Chang Kaishek will succeed in maintaining control of the Nationalist forces, says Miss Jane Lawrence, missionary and instructor in the Riverside Girls' Academy at Ningpo, south of Shanghai, who is here for a visit.

"Chang Kai-shek leads the more conservative wing of the victorious Cantonese," says Miss Lawrence. "Opposing him is the radical group influenced by Borodin, the Russian, and the element that is against all foreigners. Chang is friendly towards Americans and we in China hope he will prevail."

BROWN—

tor of the London Daily Sketch, to which he subscribes, and said that the editor of the Pampa Daily News was listening in. The two newspapers will exchange copies of papers telling of the event.

It was cold, foggy and generally disagreeable in London today, with snow threatening, according to Mr. Brown of London. At the time the call was in progress it was after 6 o'clock in the evening in London, and many of the shops were closed for the night. The bank rate in the English metropolis was 4 1/2 today, it was said by Mr. Brown, who is a bill broker.

Service Fine

"This is great" was an expression heard many times as the voices came in clear across a space of about 5,500 miles, much of which was by wireless telephone. According to K. S. Boehm, manager of the Pampa telephone exchange, who helped to complete the call, the voices were carried from Pampa by wire to New York by way of Amarillo and Dallas, then transmitted from the American Telephone and Telegraph company station at Long Island, N. Y. At London the sounds are transmitted to a big station at Rugby and are picked up at Houlton, Me., and relayed to New York—all simultaneously and without any breaks. It was the first trans-continental call placed from Pampa, and one of the few filed in Texas since the remarkable service was inaugurated.

Had Made Arrangements

The local Mr. Brown made arrangements for the conversation several days ago, and cabled his brother to confirm the hours. This morning near 7 a. m. he was notified that all arrangements for the call were made. Eleven o'clock was set at the time to be ready to speak. At 11:10 Mr. Brown and a small group in his office in the White Deer Land company building heard the telephone ring and the New York operator, asked if all were ready, and at 11:32 a test call was made with fine results by the telephone company. The two parties were connected at 11:35 and their lively conversation continued unbroken for more than seven minutes.

Others Hear Talks

The two brothers exchanged information about public and personal affairs and relatives, and relinquished the phones intermittently with the women folk. Several extra headphones arranged for the occasion permitted five persons to hear at one time. Mrs. Mary Hobart made stenographic notes of the conversation.

Twenty-four years ago today Mr. Brown arrived in Pampa from New Orleans, where he landed three days before after a voyage from London. He has been in Pampa with the land company since that time except for a trip back to England in 1914, just before the war.

PRESIDENTIAL ANNIVERSARIES

An election won through a war record but an administration of eight years held through a firm peace policy was the achievement of Ulysses Simpson Grant, Civil War general.

The 15th president was born at Point Pleasant, Ohio, April 27, 1822, and died July 23, 1885, near Saratoga, N. Y. Trained at West Point, he was a natural choice for leader of the Union troops. After his successful campaigns under Lincoln his popularity gained for Grant unanimous nomination on the first ballot at the republican convention of 1868. His administration, 1869-1877, was concerned with reconstruction, with the problem of bringing peace to the country and adjusting by arbitration and peaceful methods difficulties with foreign powers.

The 15th amendment, granting equal suffrage "without regard to previous condition of servitude" was passed in 1869, and Grant urged the enforcement act which enabled congress to make laws guaranteeing the 14th and 15th amendments. The Alabama claims against Great Britain were settled in the Treaty of Washington, 1871.

During Grant's administration the balance of trade was changed from \$130,000,000 against to \$130,000,000 in favor of the United States. Amnesty was granted in 1872 to all but 350 of the most conspicuous confederate leaders.

America's first transcontinental railroad, an important link in the cohesion of the war-torn country, was completed under President Grant.

FLOOD—

ships and suffering, with loss of life and property, are anticipated by Secretary Herbert Hoover.

Hoover arrived here today after completing his tour of the area from Memphis to New Orleans.

In Mississippi, Hoover said, he found no unsatisfactory conditions and only necessity for continuing adequate relief measures. He said, however, that his view of the end of the flood danger may be upset by later developments.

The cabinet official asserted that he believes the flood dead will not greatly exceed 200 and the homeless probably will not be more than 150,000 in number.

DALLAS, April 27. (AP)—Backed by Motion Picture Theatre Owners of Texas, Inc., and film exchanges throughout the state, entertainment house managers Sunday will devote their energies to the cause of flood relief.

To Give Benefits.

Benefit performances will be given in more than 250 theatres, W. S. Wade, manager of the theatre owners' organization, announced today. The entire proceeds of these performances, without deductions for expenses of any kind, will be turned over to the Red Cross.

NEW ORLEANS, April 27. (AP)

With the definite decision that the breach would be made in levees below New Orleans Friday to save the city, officials today turned their attention toward formulation of plans for the operation.

A series of conferences is in progress between state and federal engineers and Major-General Edgar Jadwin, chief of the army engineers.

WASHINGTON, April 27. (AP)—The Red Cross flood relief fund reached a total of \$2,546,800 today.

Mrs. Jessie Hansen of Noelton spent Wednesday here.

H. C. Berry is in the city on business.

Raw onions are valuable for their minerals, vitamins and bulk, but no particular effect on the

CITIZENSHIP—

of Commerce is organized to forward those public interests, civic and commercial, which have long been neglected because "everybody's business is nobody's business." The sale object of the acts of the Chamber of Commerce is the public good.

Second: Its membership—Because membership in the Chamber of Commerce is open to everybody without distinction of any sort—a democratic institution in the best sense of the word; the town meeting restored.

Third: Its method—Free speech and open-handed dealing are employed on the public questions, large and small, which arise in the community.

Fourth: Cooperation—Membership in the Chamber of Commerce shows your sympathy with an organized effort to better the city and the life within it. The things that are worth doing are brought to a successful issue, only through united demand and interest.

A \$25 Investment

Fifth: Your duty—If a man can afford \$25 for the annual dues of the Chamber of Commerce it is a public duty to make that investment for the development of Pampa.

Sixth: Reaction on you—A man in business is broader and more successful when he has a more active interest in municipal affairs, civic and commercial.

Seventh: A chance to work—As a member of the Chamber of Commerce you are afforded an opportunity to work for the conditions you have, as a good citizen, long hoped for; you can help things to happen.

Eighth: You get out what you put in—If one gives his best efforts he is justified in looking for results favorable to himself, material and ethical. He profits in dollars and cents through the increased prestige of his city, but best of all in personal satisfaction at having come out of his shell of self-interest and broadened his horizon.

Ninth: For future generations—He is a small man, if not mean, who cares only for his own success and for the prosperity of his own generation alone. Therefore the broadminded citizen seeks to ally himself with those forces which are building the city of the future; for his children and his children's children.

Tenth: In Short—The Chamber of Commerce movement ought to prove a big impetus to the growth of the city in every phase of life.

Come now! Break through the ice! A crowd of mighty good fellows, fired by an ambition to put the good old town over in big shape, are giving extra time unselfishly to this effort. And, best of all, once they get in it, they enjoy it. They feel that they are accomplishing momentous projects for themselves and for you.

Pure bred sheep commanded higher prices last year than the year before. There were 14,376 sheep of the ten leading breeds reported sold. Rambouillet predominating with 8,078. Those selling below \$15 comprised 11.4 per cent, from \$15 to \$100, 86.7 per cent, and those at \$100 and above, 1.9 per cent.

Museums May Buy On Part Payments

NEW YORK—Museums with budgets too small for the cash purchase of pictures are now given the opportunity to buy on the installment plan. The originator of the new method of purchase is Mrs. Edith G. Halpert, of this city, owner of one of the newest galleries "Intimes."

Mrs. Halpert's plan is an extension of her method of placing pictures in private homes. Her gallery is arranged like a small apartment, each room hung with appropriate pictures. "Every home has as least one book," Mrs. Halpert says, "but most persons seem to think it a luxury to own originals of modern artists. Yes I studied art, but I don't consider myself an artist. All I got out of it was a husband—and an appreciation of art."

British Royal Lady Writes Travel Book

LONDON—Princess Marie Louise, who despite her relationship to the royal family—she is a cousin of King George and a granddaughter of Queen Victoria—travels about democratically in foreign hotels. When in England, she sometimes lives at a Dover Street club.

Princess Marie Louise is now writing a travel book about Corsica to succeed her volume about her travels on the African gold coast. The Princess is president of the Forum club.

A bantam hen will consume from 25 to 35 pounds of feed in a year, about half as much as a hen of the Mediterranean breeds, or about one-third as much as a hen of the larger breeds.
