

Allies Strike First In Tunisia Battle

17 Jap Planes Downed As Yanks Inflict Damage In South Pacific

Foes Hit Hard On Ground, In The Air

Nips Have Lost Over 500 Ships In The Solomons Campaign

WASHINGTON, Nov. 12. (AP)—Destruction of 17 Japanese bombers and fighters which tried to attack American positions on Guadalcanal in the Solomon Islands was announced today by the navy.

Seven United States fighters were lost.

In addition to the planes definitely destroyed when the American fighter planes intercepted two enemy dive bomber formations over Guadalcanal on Wednesday (Guadalcanal time), five Japanese bombers and fighters were reported as probably destroyed.

Those definitely shot down raised the total of Japanese planes listed in Navy communiqués as having been shot down or otherwise destroyed to 566 in the Solomons campaign.

A navy communiqué said the first attack on Wednesday was made by the enemy dive bombers and 12 fighters.

Our interceptors—Grumann Wildcats—shot down six bombers and five fighters.

The day's second attack, also by dive bomber formation, was made by 25 bombers and five fighters. This time the Wildcats bagged six bombers.

On ground and in the air American and allied troops are slamming hard at the Japanese, inflicting heavy damage on equipment and driving back enemy land forces on New Guinea and Guadalcanal.

The aerial attacks for the most part are of a harassing nature intended apparently to prevent assaults on allied positions and forestall the bringing up of reinforcements or supplies.

But on the ground, official reports indicate the action is a strong offensive, pushing back the Japanese attempt to recapture Henderson airfield on Guadalcanal and encircling enemy positions on the northeast coast of New Guinea.

At Oivi on New Guinea, Gen. Douglas A. MacArthur's headquarters reported the enemy has been forced from his main positions with heavy losses.

A flanking movement there by Australian troops has cut off the Japanese retreat and "he is endeavoring to cut his way through to the rear," the allied high command communiqué reported.

But American troops are on hand to prevent that maneuver, flown by aerial transport to the vicinity of Buna, 85 miles north-east of the Oivi battleground in the Owen Stanley mountain area.

Simultaneously on New Guinea, another force of allied jungle fighters wiped out enemy troops surrounded south of Gorari. No details were given, nor was there any indication of the number of enemy casualties.

The aerial warfare again reached beyond the south Pacific to the far north Aleutians and resulted in the shooting down or destruction of 16 additional enemy planes, and possible damage to warships, cargo vessels and shore installations.

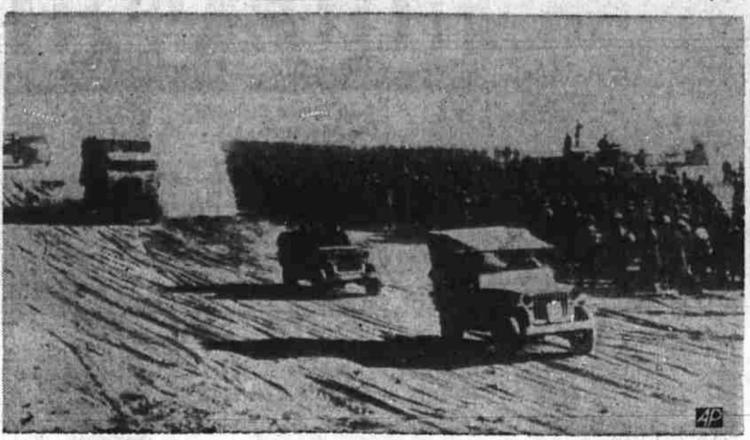

At Kiska, there has been virtually no action for several weeks, army bombers attacked and damaged two Japanese cargo vessels. One of the planes was damaged by anti-aircraft fire but returned to its base.

Army planes also roared down on Holtz bay on Attu island near the end of the Aleutians Archipelago and destroyed seven float-equipped Japanese fighting planes. They encountered no opposition.

Brady Newspapers Are Consolidated

BRADY, Nov. 12 (AP)—Two local newspapers, the Brady Standard and the Heart of Texas News, have been consolidated under the publishers of the Standard—H. F. Schwanker, Dennis Reed and L. R. Smith.

E. C. Olds and George Olds, owners of the Heart of Texas News, transferred their holdings to the Standard publishers.

Prisoners March To Rear—A large group of axis prisoners moves back to detention camps in Egypt, passing a British truck convoy speeding in pursuit of Rommel's army. This is a British official picture. (AP photo by radio to New York from Cairo).

FD Proclaims Thanksgiving As Prayer Day

WASHINGTON, Nov. 12 (AP)—In an unusual proclamation, President Roosevelt called upon the American people today to observe both Thanksgiving and New Year's as days of prayer.

"Devoid of the 'whereases' of customary presidential proclamations, this one started with a quotation from the 92nd Psalm:

"It is a good thing to give thanks unto the Lord."

After reciting the 23rd Psalm, Mr. Roosevelt said in his proclamation:

"Inspired with faith and courage by these words, let us turn again to the work that confronts us in this time of national emergency; in the armed services and the merchant marine; in factories and offices; on farms and in the mines; on highways, railroads and airways; in other places of public service to the nation; and in our homes."

The proclamation of two national days of prayer followed numerous requests from religious organizations and church leaders throughout the country asking that this step be taken. The last day of prayer proclaimed by Mr. Roosevelt was last New Year's day.

The president directed the attention of the people to a joint resolution of congress designating the fourth Thursday in November as Thanksgiving day, requesting that both November 26 and January 1 "be observed in prayer, publicly and privately."

Thanksgiving thus will be back on the old basis throughout the nation after having been observed in some states on the third Thursday in November in recent years in response to presidential proclamation.

GETS PROMOTION

COLORADO CITY, Nov. 12 — Upon his completion of training in a radio school of the marine air corps, H. L. Crout, Jr., was advanced to the rank of private first class. Pfc. Crout is now training in an aerial gunnery school and will be assigned a new station after two weeks there.

Ship Losses Much Lower In The Western Atlantic

NEW YORK, Nov. 12 (AP)—Enemy submarines, which destroyed 11 allied and neutral merchantmen in the western Atlantic during June, the highest monthly total, sank only 11 in October, their lowest in that area, recorded announcements showed today.

But the battle of the Atlantic entered a new phase with opening of the North African front pressing heavier United Nations supply ship traffic through submarine-infested North and South Atlantic waters.

Navy Secretary Knox foresaw "an ocean of subs" awaiting supply ships or convoys headed for Africa.

The British air ministry reported two months ago that the majority of U-boats spotted were in

Ickes Calls For A New Cut In East's Oil Consumption

WASHINGTON, Nov. 12. (AP)—Petroleum Coordinator Harold L. Ickes disclosed today he had recommended a cut of nearly 12 percent in petroleum consumption in the 17 rationed east coast states.

The recommendation was made to War Production Board Chairman Donald M. Nelson, who has authority to direct the Office of Price Administration to make the cut.

Ickes said "I think it has been accepted."

The coordinator declined to discuss methods of effecting the cut.

Ickes, at a press conference, said his recommendation would reduce rationed consumption of all oil and petroleum products on the east coast by 129,000 barrels a day.

The reduction in gasoline consumption, he added, would save about 80,000 barrels a day, or "something like 20 to 25 per cent," and reduce consumption of light and heavy fuel oil by 49,000 barrels a day.

The reduction is necessary, Ickes said, because shipment to the east by railroad, pipeline and barge are now running almost 200,000 barrels a day below the requirement of approximately 1,400,000 barrels a day under present rationing, and need of oil for military purposes is increasing greatly.

Berlin Claims The Queen Elizabeth Has Been Torpedoed

BERLIN (from German Broadcasts), Nov. 12. (AP)—The German high command said today the 85,000-ton British passenger ship Queen Elizabeth, sister ship of the Queen Mary, had been torpedoed in the north Atlantic.

The Queen Elizabeth is the largest ship in the world, her 85,000 tons exceeding the Queen Mary's 81,235 and the Normandie's 83,423. She was never completely finished for civilian passenger service. Her maiden voyage, in dull war paint, was made in a secret, wartime dash from her Clyde-side construction dock to New York where she arrived March 7, 1940.

Freighter Finished In Less Than 5 Days

RICHMOND, Calif., Nov. 12 (AP)—Henry J. Kaiser's shipyard here will launch the 10,500-ton Liberty freighter Robert E. Peary at 3:30 p. m. (PWT) today—exactly four days and 15 1/2 hours after her keel was laid, yard officials announced.

That would make the Peary less than half as long a building as the present record-holder, a similar ship launched by another Kaiser yard at Portland, Ore., in September.

The Peary's keel went down at 12:01 a. m. Sunday. By 9:50 Tuesday night 98 per cent of the ship's tonnage was on board. By last night the masts and mast housing, final major pieces of construction, were being installed.

Farm Workers Are Urged To 'Stay Put'

Deferments In Prospect For Those On 'Strategic' Farms

Farmers and skilled farm workers should cease to make plans for quitting agricultural work, the Howard County War Board said in a memorandum released Thursday, because "the Manpower Commission considers their services on the farm more important in the war effort than anything else they might do."

Deferment for those not already deferred by reason of dependency may be asked where men involved are located on "strategic farms," the memorandum said.

The Manpower Commission, under new regulations, shall request that the Selective Service System instruct its local boards to classify into 3-B the dairy, livestock and poultry farmers and farm workers who are deferred on grounds of dependency and to grant occupational deferment to such farmers and farm hands without deferment because of dependents, but who are "necessary men."

Since only laborers for "strategic farms" may be considered, labor shortages for all others seemed to be in store. Fortunately, according to County Agent O. P. Griffin, there are comparatively few farms in Howard county that cannot be classified as a balanced program of farming and livestock, dairy and poultry raising will be made.

Factor for determining a "strategic farm" is based on dairy cows, or the equivalent contribution of other items to the war effort. If dairy cows are the sole determining factor, the farm must contain eight good dairy cows now, 10 in three months and 12 in six months from now. If sheep alone are considered, there must be 125 ewes; if beef cows, 26 head; if poultry alone, a flock of 600 hens or the raising of 2,000 chicks; if hogs alone, 68 hogs in a year. Feeding out of certain numbers of beefs and lambs also will qualify as a "strategic farm."

Howard county selective service board announced today the reclassification from 3-A to 1-A of seven registrants, and the classification for the first time of two more who have been placed in 1-A.

Included are Charlie L. Boren, Byron W. Johnson, Paul F. Soldan, David E. Roberts, Juan Ramirez, Glynn O. Atherton, Booker T. Cotfield (col.), Clifford C. Johnson and William N. Riley.

The following registrants have enlisted and been classified 1-C: Harvey Lee Adams, Jack Weems Henderson, Steve Joe Kloesel, Albert Cleveland Pettus, William E. McLaughlin Jr., Thomas Johnson Jr., Raymond Douglas Cramer, Garland Howell Woodroof, Howard Pierce Forister, Woodrow Wilson Harris, William Elms Ramsey, Jr., Grovelle Eldon Molane, William Bernard Harmon, Walter Lovel Cundiff, E. C. Bell, Emery Ray Knight Jr., and Aubrey William McCluskey.

Other changes announced in classification are Edward B. Low from 1-A to 3-B; Ray A. Cline, Elmer C. Dyer, James R. Tonn, Robert R. McKinney and Robert H. Henry, from 3-A to 1-C; Floyd W. Lewis from 3-A to 1-A. P. E. (awaiting physical examination); Dalton D. Johnston from 3-B to 3-A; Oliver Reed (col.) from 3-A to 4-F.

Classified for the first time are Rawleigh J. McCullough and Iva D. Wilson, placed in class 1-A. P. E.; James C. Woods, 1-C; and Curtis Wood, 3-B.

Peace Terms For France?

NEW YORK, Nov. 12. (AP)—A report reached the Associated Press today from a reliable source that Pierre Laval carried terms for an immediate German-French peace settlement when he flew back to Vichy yesterday from his three-day meeting with Adolf Hitler at Munich.

The informant, who may not be identified, said the report originated in sources which, while non-diplomatic, had close Vichy connections.

The reported terms, which lacked official confirmation, involved points which the French people were deemed not likely to accept. These are the supposed terms:

1. France will regain her 1939 frontiers except for Alsace-Lorraine which will be given autonomy;
2. France will keep her empire;
3. Her fleet will cooperate with the Germans to regain the empire;
4. Italy will renounce her territorial claims on France.

Brooks Takes Oath As County Judge

The new county judge, Jas. T. Brooks, was sworn into office Thursday morning in a special meeting of the commissioners court after the court had approved his bond.

Commissioners also scheduled a meeting for Saturday when they will receive bids on purchase of gasoline for county trucks and vehicles.

HAROLD G. COOKE

Harold Cooke New President Of McMurry

SWEETWATER, Nov. 12 (AP)—McMurry College at Abilene has a new president, the Rev. Harold G. Cooke, of San Angelo, whose selection was announced by S. M. Jay, president of the board of trustees.

Approval of Rev. Cooke's appointment was given at a board meeting held coincident with the Texas Methodist conference.

He has held pastorates at Grace Methodist church, Dallas, and in Tulsa, Okla., Phoenix, Ariz., Knoxville and Nashville, Tenn., and Paris, Tex. For the past year he has been district superintendent of the combined Llano and San Angelo districts.

Plane Engine Output Hiked

INDIANAPOLIS, Nov. 12 (AP)—Allison division of General Motors corporation, currently well ahead of its initial schedules in the production of water-cooled fighter plane engines, disclosed plans today for a further expansion of its output of aircraft power plants.

Figures on unit output are being withheld. It may be said, however, that the precision built engines that power the high speed pursuit craft of the American air force are rolling off volume production lines at a rate approximately 50 per cent greater than they were at this time last year. Early next year output probably will be stepped up another 50 per cent.

Anticipating the time when manpower shortages will arise to handicap the production effort, officials of the Allison division already are laying plans to swing from three eight-hour shifts to two 10-hour working shifts.

Allowing for the lag between shift changes and the enforced idleness while equipment is being serviced, the two 10-hour shifts will mean an increase rather than a reduction in over-all production volume, said F. C. Kroeker, vice-president of General Motors and general manager of the Allison division.

AAA Committee Balloting Will Start On Friday

Balloting on the 15 AAA community committees in Howard county will be held Friday at Garner, Gay Hill and in the district courtroom in the courthouse.

Garner school at Knott will be open for voting at 10 o'clock and the Gay Hill school at 2 o'clock Friday afternoon. Votes will also be cast at the district courtroom at 3 o'clock Friday afternoon.

Saturday the election for three county committeemen will be held by the delegates at the AAA office.

The committeemen, elected each year, will assist in administering the AAA program in the county.

Dramatic, Secret Mission Preceded Move On Africa

ALLIED HEADQUARTERS, North Africa, Nov. 12 (AP)—Lieut. Gen. Dwight D. Eisenhower disclosed today the story of one of the war's most amazing undercover exploits by a commando staff of American officers who made a tour of French North Africa and gained essential military information three weeks before the American occupation began.

Major Gen. Mark W. Clark, the American commander-in-chief's 46-year-old right hand man, was the leader in this mission, as surprising as any created in the imagination of an E. Phillips Oppenheim.

Following are the characters

Hitler Decides To Keep Hands Off The French Fleet

By The Associated Press LONDON, Nov. 12.—The air battle for Tunisia was under way today, with allied bombers getting in the first blows, while German and Italian forces rushed to battle positions in southern France and Corsica in desperate fear of American invasion of Europe from the south.

Thus were the battle lines drawn in the western Mediterranean:

1—French naval chiefs pledged their Toulon battleship squadron to "resist all aggression" and their move kept the Toulon naval base out of Hitler's hands—for the time being at least.

2—Twin-engine bombers of the RAF, striking from Egypt, fired 19 planes and damaged as many more in a raid on an airfield near Tunis where an allied spokesman declared axis forces were marshaling despite their denials.

3—United States troops sweeping toward Tunisia from the west were expected at its borders today and a spokesman in London said he could not say whether they already had moved into the French protectorate for their test with the axis.

4—The Italians announced the occupation of Corsica, French Mediterranean island which Rome long has coveted, and said their troops had passed Nice and reached the Rhone in their part of the occupation of southern France.

The Germans announced that three panzer divisions had reached the French Mediterranean coast—but it became apparent quickly that something had gone wrong with the Nazi fuhrer's scheme to take over the Toulon fleet, three battleships and a powerful flotilla of cruisers, destroyers and light craft.

Broadcasts from the French radio at Vichy, official French news agency, announced: "Inasmuch as French naval chiefs at Toulon have pledged themselves to resist all aggression, German authorities have decided that Toulon shall be a separate region. Toulon will not be occupied, and French warships will be safeguarded."

Since virtually the only safeguard for the long idle fleet appeared to be its option to steam across the Mediterranean to join the allies if Germans moved into Toulon, it seemed very likely that only such a threat kept the fleet out.

Has, now German controlled, added that Hitler himself decided that the Germans should not move into this one bit of France—but even this dispatch despaired of any effort to explain the fuhrer's magnanimity over this point.

Berlin broadcasts quoted German dispatches from Vichy saying the French radio had appealed for all French merchant ships to call immediately at the nearest Mediterranean port of France. It gave no indication what response the appeal had brought. French sailors, of course, know that Vichy broadcasts now are German.

An authoritative source in London said at noon (7 a. m. eastern war time) that the British had no information of any movement of French fleet units from Toulon.

He pointed out, however, that such a movement might have occurred without knowledge of the allies. He said it would be possible for the warships—ranging from battleships to sloops—to put up a good fight if the personnel chose to resist axis attempts to board them.

Even the prospect of a mighty air struggle took shape across the narrows of the Mediterranean, an allied headquarters spokesman said there was no sign of a reply from the Bay of Tunis to President Roosevelt's request that allied troops be allowed in the country, other than a Paris radio report that the Bay had granted such permission.

The Paris radio denied axis forces had landed in Tunisia, but this denial was dismissed here as false.

The allied spokesman declined to say whether the American troops of Maj. Gen. Charles Ryder, pushed such a movement might have occurred without knowledge of the allies. He said it would be possible for the warships—ranging from battleships to sloops—to put up a good fight if the personnel chose to resist axis attempts to board them.

Backed by decisions from the general staff that younger fighting men were needed at once to invigorate the steadily growing army, Senator Gurney (R-SD) announced he would call up the bill at the first opportunity today to speed it toward the White House.

"I feel strongly," said Gurney, who introduced the bill in the senate, "that the senate must go along now in giving the army the tools quickly so there will be no stoppage in the fine offensive program already started."

The last apparent hazard to the legislation faded away yesterday when a group of senators, who had succeeded in writing in an amendment requiring a year's pre-announced training for the "lean-age," decided to abandon efforts to restore the proviso, which was eliminated by a joint senate-house conference committee.

ing eastward in Algeria alongside the British First army, had yet entered Tunisia.

He said he could neither confirm nor deny a radio report that the French commandant in Tunisia had welcomed the Germans.

Asked whether there was any information about Dakar, the Senegalese capital on the bulge of west Africa, the spokesman said grimly: "I think they are in a rather hopeless position." He refused to amplify the remark.

He asserted the allied situation everywhere in French North Africa is "extremely satisfactory."

The RAF attack upon the Tunisia airfield was coupled with a continued advance by Lieut. Gen. B. L. Montgomery's Eighth army in Egypt and bombing of axis bases in Sardinia.

These blows were aimed at German-Italian positions on the flanks of Tunisia, upon whose ports and airfields the axis is apparently basing its attempt to halt the allied conquest of North Africa's shores.

The German-Italian invasion of unoccupied France was reported in axis broadcasts to have been virtually completed and the Italians began occupation of Corsica.

Political echoes persisted. But pro-Nazi Pierre Laval appeared to have prevailed upon the Vichy government to continue its opposition to the allies.

Amid a welter of conflicting reports and rumors, the whereabouts of the main French fleet, long impounded at Toulon, remained a mystery.

Lieut. Gen. Dwight D. Eisenhower, commander of the North American AEF, himself appealed to French naval crews by radio to "join the United Nations in the fight for freedom" by sailing for Gibraltar.

Marshal Petain's protests against the axis occupation waned and the Vichy radio announced last night that both he and his cabinet called upon colonialists in North Africa to fight the allies "to the limit x x x in the interests of France and the empire."

But Algeria and Morocco were already secured.

Movement of heavy German forces from the Russian front toward Italy and the Balkans was reported at Ankara, the capital of Neutral Turkey.

Action Asked On Draft Bill

WASHINGTON, Nov. 12. (AP)—America's war leaders asked the senate today to stamp its formal approval on a bill permitting induction of 18 and 19 year old youths without restrictions on the length of their training.

Backed by decisions from the general staff that younger fighting men were needed at once to invigorate the steadily growing army, Senator Gurney (R-SD) announced he would call up the bill at the first opportunity today to speed it toward the White House.

"I feel strongly," said Gurney, who introduced the bill in the senate, "that the senate must go along now in giving the army the tools quickly so there will be no stoppage in the fine offensive program already started."

The last apparent hazard to the legislation faded away yesterday when a group of senators, who had succeeded in writing in an amendment requiring a year's pre-announced training for the "lean-age," decided to abandon efforts to restore the proviso, which was eliminated by a joint senate-house conference committee.

Overtime Pay In Bonds Suggested By Senate Committee

BOMB HITS

OUT AT THE
BIG SPRING BOMBARDIER SCHOOL
815th School Sqn.

M-Sgt. "Porky" Flynn, of the 815th school squadron, had all the members of the 815th organization worried Tuesday morning, for they thought that the line chief was floating around and coming in for a landing. It appeared that he had a few lightning bugs in his hands and was coming in cross wind. As it turned out, though, it was only a navy blimp sailing over with its lights blinking.

M-Sgt. Edgar R. Johnson received a nice present from his good friend, M-Sgt. Flynn. The present turned out to be a small red wheel barrow with a yellow tag attached. Inscribed on the tag were the following words, "Belly-tank holder, type 6-7-8, and size, large." Why was Sgt. Flynn giving it away when he needs one so badly himself?

The Romeo of this squadron are having quite a time with their

HOW famous QUINTUPLETS relieve coughing of **CHEST COLDS**

At the first signs which may warn of a cold—the Dione Quintuplets' chests, throats and backs are rubbed with Musterole—a product made especially to promptly relieve coughs due to colds. Musterole gives such wonderful results because it's MORE than just an ordinary "salve". It's what so many Doctors and Nurses call a modern counter-irritant. Since Musterole is used on the Quintuplets you may be sure it's just about the BEST cold-relief made!

MUSTEROLE

women. Two of them are especially in the "dog house" these days. It seems that Sgt. Henry W. Harris went all the way to Colorado Springs Sunday, only to find that his girl had been married that same morning. Sgt. Lyons is also in a bad fix for when he reported for a date, the girl was gone and all that could be found was a note saying "When you make up your mind, I will be at home."

Sgt. M. H. Walker is seen walking around the squadron area and speaking to all of the boys. His favorite by-word is "Hi Boy". The members are wondering how big men grow in Georgia, and also what these stripes on the sleeves stand for. Does he have such words as Corporal or Sergeant in his vocabulary?

Sgt. Strickland on the daily rounds. Sgt. James J. McDade was especially surprised when they caught him in his underwear and not ready for the ordeal. All personnel are seen limping around and complaining of their aches and pains for they have just started taking daily exercises. The men are not in as good physical condition as they were while playing high school football.

Sgt. Orthor F. Littlejohn is still having quite a few difficulties getting his ship to flying. One of the members composed this short poem:
Littlejohn's Super-Duper Flying Machine
Ferry, ferry, quite contrary,
How does Littlejohn's AT-11 go?
It goes with cylinder shells,
And cracked wheel wells,
And red crosses, all in a row.

Is Left With A Good Motorcycle
HIGH POINT, N. C. (AP)—Eugene Swanyer helped a passing motorcyclist repair his machine after the drive chain had broken. He then asked the owner if he might ride the machine around the block. The owner assented. When Eugene returned the owner had left. Now, Eugene told the police department, he doesn't know what to do with a perfectly good motorcycle.

Would Extend Work Week To 48 Hours

WASHINGTON, Nov. 13 (AP)—The senate defense investigating committee today recommended lengthening the work week in industry to 48 hours, with retention of present overtime rates in war plants, coupled with payment in bonds for any overtime in excess of that worked in 1943. It advised strongly against compulsory manpower controls.

Hugh Fulton, committee counsel, said the proposed suspension of the 40-hour week in non-war industries included a provision that any overtime being paid in time and a half at the time of the suspension should be continued at that level in cash, but any other hours in excess of 40 worked any because of the suspension would be paid for at regular rates in bonds.

Fulton said that in recommending bond payments for additional overtime brought about by inauguration of the 48-hour week, the committee desired to prevent inflationary cash increases in present wages.

The bond payments would apply only to the hours worked in excess of the 1942 average, he said. Thus, if a company engaged in war work now works its men 44 hours per week and pays them time and one-half for the four hours above 40, it would continue these cash payments under the 48-hour week. Payments for the additional four hours worked, however, would be made in bonds, at time and a half.

If a non-war industry works its employees 42 hours a week now, paying time and a half for two hours, and extended its week to 48 hours, it would continue to pay cash for two hours a week at time and a half, but would pay for the other six extended hours at only basic rates, in bonds.

Fulton granted that this appeared to be a discrimination in favor of non-war industries, but said the decision was reached on the theory that the government, in effect, paid the overtime for men working on war contracts while in non-war industries the price ceilings and other factors would make it impossible for manufacturers to pay time and a half or premium rates.

Waste kitchen fats make glycerine, which is the propelling force for bombs and bullets. Save your waste kitchen fats and help fire the guns.

Diplomats Call On President

WASHINGTON, Nov. 13 (AP)—American diplomats and foreign officials, from three continents were on President Roosevelt's calling list today.

Joseph G. Grew, America's last ambassador to Japan, was first on the engagement roster. His White House call was a prelude to a month's lecture tour arranged by the Office of War Information.

Manuel Quezon, president of the Philippines, whose seat of government now is in Washington, was given a place to arrange final details of the president's participation Sunday in ceremonies commemorating the seventh anniversary of the inauguration of the government of the Philippine commonwealth.

From South America, Dr. Eduardo Santos, former president of Colombia, was put on the engagement list prior to a luncheon to be given in his honor by under Secretary of State Welles.

Mr. Roosevelt's luncheon appointment was with Lieut. Gen. W. S. Knudsen, who has just returned to Washington from a month's inspection of war production activities around the nation.

The cabinet, which for several weeks has been meeting with the chief executive on Thursdays instead of Fridays, was asked to come this afternoon.

Anderson Rites Are Said Today

Funeral services for Eugene Anderson, who died Tuesday, were to be held in the Eberley chapel this afternoon at 3 o'clock with the Rev. P. D. O'Brien, pastor of the First Baptist church in charge of the service.

Anderson, who has resided in Big Spring for the past 20 years, died suddenly Tuesday evening.

Survivors include his wife, Abbie Culwell Anderson, his mother, Mrs. M. E. Anderson of Stanton, two brothers, Mike and Charlie Anderson of Stanton, three sisters, Mrs. Margaret Hanley, Mrs. Estelle Blevins of Byars, Okla., Mrs. Allie Mae Barnett of Big Spring, Mrs. W. J. Culwell, Anna Mae Culwell, Mrs. J. F. Millaway, Newt Culwell of Houston.

Eternal Punishment Of Sinners To Be Delafield's Topic

"Will the God of Justice Punish Sinners Through Eternity?" will be the question which Evangelist R. E. Delafield will answer tonight at the Voice of Prophecy auditorium, on East 3rd, at 7:45 p. m. Delafield will be heard over KBST at 5:45 p. m. on the topic "God's Answer to Evolution."

In answering the question "Where are the Dead?" last night the Evangelist stated after reading John 5:28, 29 and Ecclesiastes 9:5, 6: "the dead either rest in their graves until Jesus calls them at the first resurrection or else they sleep till the second resurrection after the millennium," according to whether they have done good or evil."

RR. Commission Told To Rule As A Body

AUSTIN, Nov. 11 (AP)—The supreme court today ruled in two cases that the railroad commission should act as a three-member body and not as individuals in passing on applications for permits to operate as common carriers.

"It is but right that all parties and interests to be affected by the result should have the benefit of the counsel and judgment of all persons to whom have been entrusted the decision," said the opinion of Chief Justice Alexander in the case of M. R. and M. S. Webster versus the Texas and Pacific Motor Transportation company.

The case was an appeal from an order of the railroad commission granting the Texas and Pacific Motor Transportation company a certificate of convenience and necessity to operate a common carrier service over the highways from Fort Worth to Sherman.

SENT TO NEW YORK
COLORADO CITY, Nov. 13 — Dr. William E. Rhoads, Colorado City physician who has been stationed at El Paso since his commission in the medical corps, has been sent to New York where he was assigned duty on Staten Island. Mrs. Rhoads and their daughter, Susan, went with him to his new post.

Louis Not So Good At Double-Time

FORT RILEY, Kas. (AP)—Sgt. Joe Louis appeared recently at the army hospital with a cramp in his leg.

the attendant.
"Out marching on the parade ground," said the sergeant.
"Why, I thought you used to run 15 miles a day when you were in training?" said the attendant.
"Sure I did," responded Joe.
"But man, that ain't nothing like double time on the parade ground!"

By the end of 1942, it is estimated that four and a half million women will be engaged in direct war work in this country. The number may well rise above six million by the end of 1943.

Soldier Invitations Should Go Through Local Churches

Big Spring families desiring to invite soldiers into their homes for Sunday dinner should make the necessary arrangements through their churches immediately, the committee has urged, in order that plans may be worked out as soon as possible for the Sunday visitation sponsored by city pastors.

Non-church-goers may make arrangements through J. H. Greene, chairman of the committee, if they prefer, and the invitations will be handled directly with Capt. H. W. Nolen, special services officer at the bombardier school.

"We are not trying to make the boys go to church," Greene added, "and if there are some not affiliated with any church we can arrange for them to go directly to the homes." The main idea is to entertain the boys and help them get acquainted with local people.

Final plans will be worked out at the chamber of commerce at 10 o'clock Friday morning.

City Shows Big Gain In Taxes

Current city taxes in the amount of \$74,804.74 were collected during the month of October, representing \$8,969.13 more than received during the same period last year. It is shown in City Secretary J. D. McWhirt's report to the city commission.

Total general fund revenues for October amounted to \$96,906.44 of which \$9,152.01 was from water receipts.

Water receipts brought in \$453.00 more than for the same month last year.

A discussion of the ordinance governing storage and charge for slaughtering was held following a request from representatives of those engaged in the work to have the prices raised. The commission requested a report on the proposed changes to be prepared by the interested parties and submitted to the body.

City Manager Boyd McDaniel said some members of the group doubted the prices could be raised in view of existing price ceilings.

Final Rites For Mrs. Franklin Slated At 5:30

Funeral services for Mrs. Gertrude Ann Franklin will be held at 5:30 o'clock Thursday evening from the Nalley Funeral chapel.

Mrs. Franklin, who succumbed to a heart attack Tuesday morning was a member of the Episcopal church and the Episcopal rector, the Rev. R. J. Snell, will be in charge of the late rites.

Mrs. Bernard Lamun will sing a group of songs requested by Mrs. Franklin including "Beautiful Isle of Somewhere," "Rock of Ages," "Nearer my God to Thee" and "Going Home." Mrs. Charles Kelsey will play the organ accompaniment.

Survivors include her sister, Mrs. Ann Strohm of Limon, Colo., who is in charge of the funeral, another sister, Mrs. Elizabeth Walm of Colorado Springs, Colo., one nephew and a niece.

Mrs. Franklin, the widow of Jack Franklin, who succumbed here two years ago, had lived in Big Spring for the past thirteen years. She was a nurse by profession and served in the army nurse corps during the first World War. She was born May 12th, 1882, in Murphysville, Ill.

Funeralbearers will be Ross Boykin, O. L. Williams, John Nutt, Jack Cain, Bill Bates, and Arvis Walker.

Transient Harvest Laborers Will Get Sufficient Gas

Notices to cotton pickers The Office of Price Administration has made provision for transient crop workers to receive enough gas to enable them to return to their homes after the cotton picking season is finished, the ration board announced today.

Many of the pickers have made inquiries as to whether they will be able to return home or will be left stranded in whatever county they are in at the time of gas rationing on December 1st.

OPA's announcement is to the effect to urge cotton pickers to keep on with their jobs as they will receive sufficient gas to provide transportation to their homes.

Former Boxing Champion Dead

NEW YORK, Nov. 12 (AP)—"Philadelphia Jack O'Brien," 64, former world's light heavyweight boxing champion, died today in Polytechnic hospital after an operation. He was a resident of Ventner, N. J.

O'Brien, whose real name was Joseph F. Hagan, won the light heavyweight championship by knocking out Bob Fitzsimmons in the 18th round of a match in San Francisco on Dec. 30, 1905.

ter chairman; Fern Smith, materials sub-committee; Constance Cushing, chairman of the sub-committee for investigation; Mrs. R. E. Blount, promotion chairman; and Mrs. J. G. Garner, sub-committee chairman of organization. Each chairman will complete appointments on her committee soon and this work will require the services of many volunteers.

During the meeting of the executive committee, a brief study of the manual put out by the State Nutrition Committee was made and the duties of each sub-committee were discussed. Each of the sub-committees will meet soon to map out further plans to spread nutrition information to every person in the county.

Nazi Air Activity Greatly Reduced On Red Front

MOSCOW, Nov. 12 (AP)—A sharp reduction in German air activity over the Stalingrad front was reported today in Soviet military dispatches, which noted that the Nazis were using outdated planes and dropping only small bombs. (This might indicate a shifting of first line air units to other fronts, perhaps southern Europe.)

During the past twenty-four hours, barely two hundred flights over the lines were observed, the newspaper Pravda said, by comparison with a previous daily average of 1,500 to 2,000 daily.

Back From Meeting On Conservation

Gordon Stone, one of the supervisors of the Martin-Howard Soil Conservation District has returned from Dallas where he attended the annual meeting of the Texas Soil Conservation Districts Supervisors association.

J. R. Mims, Water Valley, supervisor for the North Concho district, was named to the board and was made its secretary, Stone reported. Among other officers named was Tom D. Manford, Smlay, representing the Middle Gaudalupe Basin district, president. Supervisors from over the state told how various districts were pooling equipment to raise, gather and market crops; and how conservation measures were returning immediate benefits in almost every instance.

Armistice Day Is Quiet For Police

Crime and violence took a holiday Wednesday too, a check with city and county officers showed today as authorities reported one of the quietest holidays on record.

Two automobiles and one bicycle were reported stolen, although the bicycle and one car were later recovered by the owners. A 1940 black Ford coach stolen here at 10:40 p. m. Wednesday from A. E. Boyd of Coahoma still is missing.

Two men were fined on charges of fighting and two men and a woman were picked up on an affray charge during the day, along with one case of assault. All were fined \$14 each in justice court.

Fines of \$15 each were assessed in corporate court this morning on five charges of drunkenness and two on vagrancy counts. Two men held for possession of liquor for sale were turned over to the liquor control board.

J. L. March was fined \$50 for dangerous driving.

Accidents and violence were down from last year when one serious automobile accident and a robbery, which netted only \$2, were recorded. Several speeding tickets were issued last year on Armistice as against none for the holiday just past.

Nutrition Group Has Conference

The chairman of the five sub-committees of the Howard county nutrition group met with Fostilla Johnson, county nutrition chairman, Tuesday night to discuss plans for immediate activities to be carried out by the committee. The committee is a part of the Civilian Defense Council.

Those present for the meeting were Lillian Jordan, subject mat-

Here 'n There

Claud Gun Griffin, Jr., son of Mr. and Mrs. C. G. Griffin of Big Spring, has been selected for training as a naval aviation cadet and will be ordered to active duty shortly. He graduated from Big Spring high school in 1941 and was on the staff of the school paper. Recently he has been working for the Esasit Shipyard company in California.

Joe R. Myers, son of Mr. and Mrs. J. A. Myers, 709 Main, and now stationed at Goodfellow Field, army air corps basic flying school at San Angelo, recently was promoted from the rank of sergeant to the rank of staff sergeant. Sgt. Myers is attached to the 68th school squadron.

Mr. and Mrs. Todd Craine of San Angelo spent Armistice Day here with her mother, Mrs. J. E. Nail.

Earl Essell has been stationed at Camp Berkeley, Tex., his mother, Mrs. Mary Essell, learned today after receiving a card from him. Essell was inducted into the army last week.

Lieut. J. F. Bewley, who received his wings and commission the first of the week at Lake Charles, La., arrived in Big Spring last night for a visit with Mr. and Mrs. A. E. Woods before proceeding to Love Field, Dallas, where he is to be stationed as a ferry pilot.

Mrs. Woods and son, Odell, and Mrs. Lula Satterwhite accompanied by Lieut. Bewley, left this afternoon for a several days' visit in Fort Worth and Dallas. Lieut. Bewley is a graduate of Big Spring high school and was formerly assistant manager at Wacker's.

Examinations for those interested in securing Civil Service Commission appointments, O.P.A. stenographers will be held at 7 p. m. today in Sweetwater. Information on the examinations may be had from the civil service clerk here. Positions pay up to \$1,440 per annum.

Members of the Mullan lodge of the I.O.O.F. are being urged by officials to attend the meeting set for Monday evening. Work in various degrees is planned for the occasion, according to an announcement from W. L. Nowell, secretary.

FSA Supervisor May Be Moved

Almarine Nunnally, FSA, home management supervisor for Howard, Martin and Midland counties, may be transferred in about 10 days.

This was indicated Thursday on the basis of a communication from Mrs. Ruby DeLong Matthews, assistant regional supervisor in charge of women's work. Under a decision from the Amarillo office, Miss Nunnally, who succeeded Mrs. Gladys F. Flachs here, would be sent to Tahoka to serve as supervisor for Lynn and Garza counties. The two have a considerably heavier case load than her present district.

BIG SPRING BUSINESS AND PROFESSIONAL REVIEW

PRESENTING EACH WEEK NEWS ABOUT LIVE PROGRESSIVE FIRMS AND INDIVIDUALS OF BIG SPRING

Butane Gas Brings Modern Conveniences To Rural Residents

Like the radio and good roads, butane gas service is eliminating any disadvantages in modern comforts that living in the rural areas might have had.

Contributing to this popular service is H. W. Smith, Continental agent, who now operates an extensive butane service which extends over Howard county and into edges of some surrounding ones.

"Our customers need have no fear of our curtailing service just to effect economies in operation," said Smith. "We are going to give service just as long and as well during this period of emergency as we are able to give. Scores and scores are depending on us for fuel for refrigeration of poultry

and dairy products, for automatic heating systems in the farm homes and in farm buildings, and for preparation of foods. Those who do business with us may be assured that so long as we can get materials and tires on which to deliver them, we will get butane to them."

Unlike most butanes in this area, that which Smith distributes is made from a "sweet" gas, which experts contend gives a more desirable fuel.

Driver for Smith is Gordon Montgomery, member of a long-time Howard county farm family. Gordon knows most of the people in the rural areas and knows their problems, pointed out Smith.

Farm Bureau Meet Set Next Saturday

J. A. Bishop, president of the Howard county unit of the Texas Farm Bureau, announced he was calling a meeting of all members of the organization for 1 p. m. Saturday.

The session, slated for the county agent's office, is for the purpose of securing delegates to the state meeting of the bureau Nov. 17-18, said Mr. Bishop.

Like Home— Food prepared by women cooks in the manner one associates with real home cooking is the attraction at the Home Cafe, operated at Third and Runnels streets by Mrs. Louise Lebkowsky. Open from 8 a. m. to 10 p. m., the Home Cafe thus is proving a popular eating place for soldiers and civilians alike, and a pleasant atmosphere is maintained to add to the attraction of well-prepared food. Booths, tables and counter seats all are available to patrons. (Kelsey Photo.)

Christmas Stocks Complete Firestone Store Shows Gifts

If you hadn't realized that Christmas is only a little more than six weeks away, you can be awakened to the fact by taking a look at the new gift stocks that are now on display at the local Firestone store at 507 East Third street.

Special holiday items are among the many which have been added by Firestone in its broad expansion as a home supply store. On the shelves and display floor at the

store, one may now find household appliances, items of work clothing and a variety of selections which go to meet the needs of modern living. And particularly being given display now are the Christmas gift numbers.

Firestone's toy line is one of its features, and the youngster's every desire can be filled from the wares to be found there. There are sports equipment, such as

footballs, basketballs and games; See FIRESTONE, Page 7

77 Taxi Bows To War; Using Woman Driver

That all taxi driving will sooner or later be up to women is the opinion of Odie Moore, owner of the 77 Taxi Company, who, for the first time in his eight years experience in the cab business, has a woman driver.

She is attractive Mrs. Zora Carter, whom he hired about a month ago to beat the labor shortage, and she is one of the most efficient, careful and capable drivers on the force, usually making as much money as any of the men.

Moore started in the cab business here in 1935 with his father, H. T. Moore, operating the 33 Taxi Company at the Busy Bee Cafe. About 14 months later they established the 11 Taxi Company at the Settles, and in February 1937 bought and added to the system the 77 Company.

Dividing the partnership in May 1938, the elder Coore took the 33 company and his son the other two, which he consolidated and now operates as the 77 Taxi Company at 312 Runnels.

Starting in 1935 with one "very much second-hand cab," Moore now has four almost new cabs in service, and his business has about doubled since the bombardier school was located here. Except for war-time restrictions on the service because of the tire shortage, Moore finds the taxicab business has changed little during the past eight years.

How will gasoline rationing affect the business? Moore hasn't the slightest idea, for the government

See 77 TAXI, Page 7

Real 'Home Cooking' At The Home Cafe

Home cooked food, prepared by women cooks, is the main attraction at the Home Cafe, at Third and Runnels streets, soldiers and civilians alike have found out.

The cafe, owned and managed by Mrs. Louise Lebkowsky, is open at 8 o'clock in the morning and until 10 o'clock each night for the large number of customers who stream in.

Along with well-cooked meats and tasty vegetables in season, the cafe makes a specialty of hot rolls that have the customers asking for more.

The cafe, which is arranged with both booths and tables in light

colored leather and with large windows giving the place a well-lighted look, is headquarters for many townspeople and soldiers.

For quick lunches, there is the counter service which accommodates any person in a hurry for his lunch, breakfast or supper.

Waitresses, who dress in spruce white uniforms, add to the pleasing surroundings that contribute to the pleasure of eating the Home Cafe's meals that taste like "home cooking."

Money in circulation has doubled since 1938 to a total of \$18,200,000 at the end of August, the department of commerce reports.

BUTANE GAS

We offer the users of Butane Gas in this area a complete sales and service organization. Furthermore, the Butane sold by us is the ONLY SWEET GAS distributed in this territory. Let us take care of your needs.

Editorial - - Democracy Still Working

What has become of those dire predictions that the 1942 elections in the United States would be "overlooked"? The people who made them, sincerely or for sinister purposes, sadly misjudged the nature and strength of democracy. They feared—or pretended to fear—that the normal processes of self-government would be overthrown amid the stresses and strains of war.

Washington Daybook— Teen Age Draft To Have Sweeping Effects On U.S.

(Second of two articles on the "teen-age draft.") By JACK STINNETT WASHINGTON—The 18-19 draft (capital observers are unanimous in the opinion that it will be passed in one form or another) is probably going to have more effect on U. S. manpower and domestic life than legislation since the first Selective Service law became operative.

Out of the more than 2,000,000 'teen-age youths who will become subject to military training under the law, there are, it is estimated, a half million now in war industries. Because these lads are young and lack years of experience and training, it will be difficult to exempt them under the "necessary man" clause.

The effect it will have on universities and colleges is something that educators here shudder to think about and refuse to be quoted on. There is a rumor that several of the nation's universities are planning to "fold up" before the spring semester opens. That may not be necessary. The delay in getting the 18-19 draft bill to the President's desk may result in the bulk of the 'teen-agers not being called before next summer.

What You Buy With WAR STAMPS

Barbed wire used by Uncle Sam's fighting forces is vastly different from that used in American farms. Army and Marine barbed wire is much heavier and the bars, about three inches in length, are more vicious than ordinary barbed wire.

Manhattan— Gals Invade The AP Offices As Copy 'Boys'

NEW YORK—Always one to see the bright side of things, particularly with a war on, I would like to report that things around The Associated Press offices here in town are considerably more interesting now than they were very young—taking the places of editors and copy boys who have gone into the armed services or have become war correspondents.

For instance, there's pretty Fr Lewis, who files the outgoing night wire to Great Britain for APOB. She is a rare combination of brains and brunette beauty, being a product of U.C.L.A. and the Columbia School of Journalism, and I am sure that no other news-stand in town has anybody to match her.

Hollywood Sights and Sounds— One Movie Man Thinks He Can Manage On \$25,000

By ROBBIN COONS Hollywood.—How will Hollywood get along on that "\$25,000 top" income? Hollywood generally won't talk about it, it is afraid to stick its neck out. So I went to William Perlberg, the producer. From past experience I guessed Bill would talk. He did.

Perlberg makes movies like "Remember the Day" and "Meaning in the World." He draws down something over \$100,000 a year. He'd be hit. He said, first thing, that he wouldn't mind a tax like that, and that folks in Hollywood wouldn't mind. He threw in a commentary about human nature and money. "I start off making \$25 a week and think it's great, but then I'm sure if I made \$50 all would be rosy. So I do, and I spend more, and—Gosh, I say, if I made \$100 I'd be on top of the world. When I do, I'm willing to settle for \$200, by which time I'm buying better shirts, living in finer quarters, driving a bigger car. I'm making more, but I have no more. It's the same when it's \$10,000 a year, or \$25,000, or \$100,000.

Car-Sharing May Help You— Gas Registration Must Be Done On Dates Specified

Passenger car owners must register for basic A ration books on the dates set aside for the registration, November 12th-14th at the local and county schools, or wait until after the 23rd of November, the War Price and Ration Board officials warned today. A steady stream of car owners were visiting the ration board this morning to receive necessary applications to be filled out and presented along with car registration papers in order to qualify for the basic A ration book.

The machinery for registering the cars will be set up for the three days and car owners who fail to observe the dates will find themselves without a book or without a chance to register for a book until the day after gas rationing takes effect. Also, autoists who expect to apply for supplemental rations to enable them to drive to and from work should make plans now to share rides with others needing transportation to their jobs, the board said.

Car sharing, which has been made an integral part of the mileage rationing program, enables a car owner to receive more gas provided that he agrees to carry at least three other persons to and from work, or prove that he cannot do so. The ration board suggests that car owners get together with their neighbors on some car sharing plan or with fellow employees at the plant or office. If two or more cars are to be used in the club, members may divide up the use of those cars to suit their convenience. Supplemental rations will then be issued each vehicle for mileage to meet its obligations.

Savage To Get Commission As Chaplain

A reserve commission as a chaplain in the armed services likely will come soon for Rev. O. L. Savage, pastor of the First Presbyterian church in Big Spring. Rev. Savage said Saturday that he had passed all tests for the commission, and that he expected the appointment soon. The date of his call into active service is problematical, however, since the Presbyterian church quota is filled for the year and there are some applications ahead of his. There is a possibility, Rev. Savage said, that he would be summoned to uniform in January.

First Chaplain Stationed At Flying School

Chaplain James L. Patterson arrived Saturday at the Big Spring Bombardier school, the public relations office announced, as the first chaplain to be stationed at the newly activated post. Chaplain Patterson, who was born in Roanoke, Va., was formerly stationed at Fort McClelland, Ala. He attended chaplain school at Harvard, Cambridge, Mass., and entered the service on June 8th.

Big Soldier Crowd At Variety Show

More than twice as many soldiers were in attendance at the variety show Sunday afternoon in municipal auditorium as were present the preceding Sunday, and grateful sponsors of the event announced that plans are already in the making for the remaining Sundays this month. The committee, working with the city pastors' association, will meet at 5:15 o'clock Wednesday afternoon at the chamber of commerce to arrange next Sunday's show. Not previously publicized but an outstanding success with the audience was the guitar duet of Mrs. Fay Waldrop and her sister, Miss Clara Galle, of Lubbock.

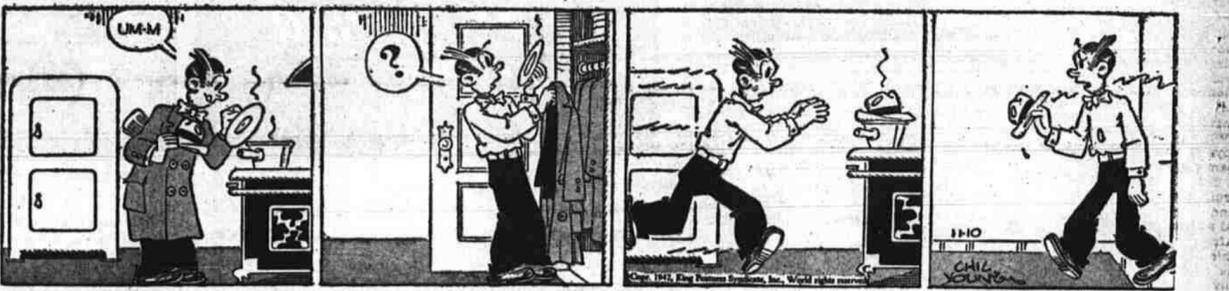

Pays \$60 Fine On Driving Charge

Woodrow Wallace pleaded guilty and was fined \$60 and costs and six months suspension of driver's license on a charge of driving while intoxicated by County Judge Walton S. Morrison in county court Monday. Wallace was arrested Friday night by highway patrol officers after his car was in collision with another car on the east highway.

War Has Upset The Routine In The Christmas-Greeting Card Business; You'll Find New Designs This Year

Christmas cards are just not what they used to be. Like many another good old American custom, the war has played havoc with the traditional Christmas greeting, but there are few lamentations.

This year's Christmas cards, thanks to the new demand and a \$100,000,000-a-year business, are designed for individual situations and are personalized to the nth degree.

If you are an average American, statisticians have figured you will receive from 15 to 20 cards this Christmas, and, according to our own personal survey, not one of them will faintly resemble another.

The traditional holly, hells, candles, Santas and poinsettias still decorate greetings, but the card you send or will receive is just as likely to bear flags, insignias, eagles or the picture of a soldier or sailor.

Many still carry out the old-fashioned theme—with fireplace, stagecoach and snow scenes. But the new trend is apt to bring you a greeting with a Southwestern motif of one strictly patriotic.

Large cards are in demand, and one of the most popular sellers, say local merchants, is an eight-by-ten number that sells for a dollar. Service men are great senders of cards, and service men like 'em large.

Three-dimensional and multi-fold cards are popular, too. The latter are tricky and give the receiver a run for his money—the sender's money—with 99 unfoldings before he finds the final phrase of the message.

The greeting you receive may have a satchel attached for use long after the card has been forgotten. Or it may be a war stamp booklet to encourage you to buy more stamps until the card is completely filled.

One huge greeting—"To My Angel Husband" with a tinselled halo around husband's head—says: "With lots of love at Christmas."

To one who's not a saint
From someone who adores him
And is mighty glad he ain't
The mate—designed for the little lady—comes back with
"Christmas greetings to my wife"

From one who takes a chance
And signs this card with fingers crossed,
The one who wears the pants,"

Greeting card printers and engravers have missed a great opportunity, however, in one respect. Not a single one of the sample cards has a picture or cartoon drawn to Hitler or some slant-eyed pal. Most cards designed for service men have a sentimental or friendly theme such as "Wishing the best of Christmas joys to one of the finest of Uncle Sam's boys."

The Christmas-card industry is truly keeping step with the times, and whether your friend is in Alaska or Panama, England, Africa, India or the South Seas this Christmas, the Christmas card he receives will be just as prettily decorated and as snappily worded as those in San Francisco and Atlanta.

St. Nicholas is an international figure, second in rank to Uncle Sam.

Lid Lifted On Some Foods

WASHINGTON, Nov. 7. (AP)—Stores got permission today from Price Administrator Leon Henderson to increase the price of potatoes, onions and turkeys.

These and a number of other foods were placed under temporary price "freezes" October 8. Today's order is the first of a series designating permanent price controls.

For the housewife, Henderson said the effects of the order would be noticeable within a week, will be: About one cent a pound increase on Maine potatoes, but probably no change on western potatoes, about one half cent a pound increase on onions; no material change on turkeys during the holiday season but about a three per cent increase in February.

Meanwhile, the labor department reported that the food bill of the average American family rose 2.4 per cent between Sept. 15 and Oct. 15.

At the mid-October levels, foods in retail grocery stores sold 6.6 per cent above the level of mid-May and 16 per cent above the October 1941 levels. The cost index stood at 129.6 per cent of the 1935-36 average in mid-October, the highest point since May, 1935.

Most of the Sept. 15-Oct. 15 rise occurred before the OPA brought under price control an additional 80 per cent of the family food bill.

L. D. Pattersons' Infant Succumbs In Clarksville

Word was received here Saturday of the death of Freddie Dean Patterson, 15 month old son of Mr. and Mrs. L. D. Patterson, 1201 E. 13th, who succumbed Friday afternoon while on a visit in East Texas with his parents.

Funeral services will be held here but are pending arrival of the parents.

The Pattersons were visiting in Clarksville, Texas, with Mr. and Mrs. R. S. Patterson and in Sulphur Bluff with Mr. and Mrs. I. H. Hair.

Survivors include the parents, grandparents, Mrs. W. R. Patterson of Big Spring and Mr. and Mrs. Hair of Sulphur Bluff a sister, Shirley Ann Patterson, several uncles and aunts, and two step brothers, Duane and Duane Patterson of Brownfield.

Sailor Misses His Cake, But It Brings \$65 For Red Cross

STANTON, Nov. 7. (Sp1)—Sailor Stanton Stamps' bad luck is good luck for the Martin county Red Cross chapter.

His mother, Mrs. Sam Stamps, made his fruit cake, but the postoffice ruled that it could not be sent to where he is in the Pacific with the Navy. So she decided to present it to the Red Cross for auction. Marshall Parker bid it in at \$65.

Perhaps Stanton, who has been in the Navy since August, 1941, and who has seen service in the Midway and Coral Sea battles, may get some consolation that his cake did so much good.

NEGRO FINED

T. Miller, negro, who is being held on a charge of selling whiskey on Sunday, pleaded guilty Saturday and was fined \$100 and costs amounting to \$125.85.

\$1300 Raised To Date In Army Drive

A little more than \$1,300 in cash and pledges was reported received in the annual Salvation Army drive for funds as Major L. W. Canning and forty volunteer workers made preparations for closing the week-long campaign.

"More than half that amount in cash," Major Canning added, "and several of our best donors are yet to report." He considered prospects as good as or better than last year.

Subsequent reports of volunteer workers should be made as soon as possible to R. B. McEwen, chairman, or J. E. Greene at the chamber of commerce, as final report is pending the outcome of last-minute contributions received.

The drive started Tuesday morning with a breakfast at the Salvation Army Citadel. Funds will be used for general operations here in Big Spring, with a small percentage to be expended for divisional upkeep.

During the past five years when Major Canning has been in command here, an average of \$1,711 a year has been used in assisting needy transients, and \$2,800 has gone to Big Spring families for groceries, clothes, drug supplies and hospitalization expenses in addition to 520 Christmas baskets.

Halloween Affair At Stanton Net \$325 For P-TA

STANTON, Nov. 7. (Sp1)—The Parent-Teachers Association has cleared over \$325 from their Halloween carnival here.

Jean Davis of the eighth grade was queen of the grammar school and was escorted by Gordon Meaburn, Christine Mims, Junior, was high school queen and was escorted by Bobby Joe Hill. The program for the coronation was directed by Mrs. John F. Fryday, assisted by Miss Gill, Mrs. Strawn and Mrs. F. F. Daniel.

Stanton Minister To Take Tests For Chaplain's Duties

STANTON, Nov. 7. (Sp1)—The Rev. Arthur A. Kendall, pastor of the First Methodist church here, left Saturday for Washington, D. C. to take final examinations for entrance into the armed services as a chaplain.

He passed all other tests and the physical examination, which was given him at the Big Spring Bombardier School last week. He is to take his test in Washington Friday, and if he passes, probably will have from 80 to 60 days leave to return home and arrange his affairs preparatory to entering the service.

Blankenship Attends Session In Dallas

Supt. W. C. Blankenship was in Dallas Thursday, Friday and Saturday attending sectional meetings of the State Teachers' Association at the Adolphus hotel.

The general meeting, usually drawing 4,000 teachers from over the state, was cancelled in view of war conditions in favor of the house of delegates session, composed of 500 odd members of the profession.

No formal program was presented and only routine business was discussed.

\$5,000 Offer To Be Delafield's Topic

"Five thousand dollars for a text of Scripture" will be the sermon topic of Evangelist R. E. Delafield, his evening at 7:45 as he reads a letter from a minister in which the \$5,000 offer is made.

"This lecture has created considerable interest," states the evangelist, "and the public is invited to hear it at the Voice of Prophecy auditorium, 409 East 3rd street. The meeting will close 8:15 and the hall is comfortably heated."

Mrs. R. L. Beale Hostess To Her Club Saturday

The Hydrus Club met with Mrs. R. L. Beale Saturday afternoon and Mrs. Cuth Parsons was in charge of the program.

Mrs. James T. Brooks spoke on "What Price Control Means to the Housewife," and Mrs. Parsons, "Post War Conditions."

Those present were Mrs. V. Van Geison, Mrs. Agnes V. Young, Mrs. Lee Hanson, Mrs. Shine Phillips and Mrs. J. H. Greene.

77 Taxi

ment has not stated what amount taxi will be allowed. He is optimistic, however, and feels that provisions will be made to enable them to render the same efficient service as in the past.

Operation of a taxi service is just about the same as any other line of business, but the routine is more often than not relieved by some human interest incident. There is also the occasional surprise and thrill of driving a famous person, and quite a number of movie actors and actresses have been among Moore's fares. The most recent was Douglas Corrigan, the wrong-way flier.

WALTON MORRISON

JAS. T. BROOKS

Morrison Resigns As County Judge; Brooks Appointed

Now in the service of Uncle Sam, Walton Morrison Monday afternoon resigned as county judge of Howard county, and the commissioners court named to succeed him a veteran of the first world war, James T. Brooks.

Brooks accepted the appointment to assume duties immediately, and will serve out Morrison's unexpired term.

Morrison last week was accepted as an air corps specialist, and is stationed at the local bombardier school. Morrison for some months had sought military duty, and said in a statement Monday that when the army began to call married men he felt that he should enlist for service: "I have enjoyed serving as county judge for 23 months I have been in office," he said, "and I am leaving office only because I feel my place is with the armed forces."

Judge Brooks, widely known attorney, is returning to a familiar role as public official. He was county judge here in 1920-25, served as district attorney in 1927-28, and as district judge in 1931-32. He, too, has wanted to return to military duty, but said Monday evening that he was accepting the judgeship in an endeavor to "serve my best in helping meet the problems at home."

In sitting at the commissioners court table with Raymond L. (Pancho) Nail, Judge Brooks will be renewing a relationship reminiscent of the former wartime. Nail was one of the Big Spring men in the supply train company which Brooks organized and commanded as captain.

STANTON, Nov. 7. (Sp1)—Starting Monday Stanton schools have moved opening time back an hour to 10 a. m. and closing time to 5 p. m.

It was announced that two days would be given for Thanksgiving but that Armistice Day would not be observed since the high school will be closed Friday to aid in the gas rationing program.

One week will be allowed for Christmas holidays—closing on Friday, Dec. 18 and reopening on Monday, Dec. 23. The school board has under advisement a proposal for operating the schools six days a week in order to end the regular term earlier and free students for farm and ranch work in the late spring.

During the past week the school hot lunch program went into effect whereby under-privileged children could have lunches free and others get the service for 10 cents. It is made possible through cooperation with WPA and the Surplus Commodity Corporation and the school district.

Lead Club Observance

Onah Jacks, left, and L. L. Johnson, right, are leading a state-wide observance by farm boys and girls as a part of the National 4-H Club week which started Saturday. As Girls and Boys State Agents, respectively, they direct the work of 70,000 members in Texas, which is especially interested because the first boys 4-H club was organized in Jack county in 1908. Purpose of the week, they said, is to afford club members the opportunity of reporting to the nation on their war effort contributions. Among achievements of Texas clubs, they reported, is the saving of a million and a half quarts of food by the girls, collection of 20,000,000 pounds of scrap metal, by all members in the state, three million pounds of scrap rubber, and another million and a half pounds of hemp, paper, etc. In a division, 4-H members have bought \$400,000 in war bonds and stamps, and have done heroic work in helping relieve the acute labor shortage.

Colorado Wolves Play A New Game; It's Called 'Who's Got The Coach?'

COLORADO CITY, Nov. 7. —The Wolves, Colorado City high school football team, with no game over the week-end took to playing "now we've got one, now we haven't" with a coach as their goal. It's now fourth down—since September with the season to go.

Coach Carroll Benson, hired away from Merkel only last week, came, saw, and departed. After one day he went back to Merkel. Friday evening the Colorado City school board got busy and elected Coach "Gob" Walker who had resigned at Cross Plains to take over Merkel when Benson came here. Walker, Daniel Baker graduate, has been at Cross Plains four years.

New the score card reads like this: Walker begins with the Colorado City Wolves Monday in the place of Benson who came (briefly) to take the place of Merrick Fyatt who took the place of Coach C. B. Roland who took the place of John Dibrill Jr. The substitutions got under way when Dibrill went to Big Spring as physical education director. Roland is instructor in Stamford Flying school. Fyatt is on his way to train as a Naval Reserve. Benson is at Merkel.

New Bombardier Instructors Are Stationed Here

Fourteen bombardier instructors from the Midland Flying School arrived today for assignment to the Big Spring Bombardier School and include 2nd Lieut. Eugene Broussard of New Orleans, La., 2nd Lieut. Price E. Surratt of Spencer, N. C., 2nd Lieut. Bob B. Thacker of Waleaska, Ga., 2nd Lieut. John B. Quigley of Rutland, Vermont, 2nd Lieut. Andrew J. Hau of Kane, Pa., 2nd Lieut. Allen K. Trobaugh of Brunswick, Ga., 2nd Lieut. Edward J. Aherns of Dunkirk, N. Y., 2nd Lieut. William R. Griffiths of Pennsylvania, Pa., 2nd Lieut. Charles P. Lehman of La Placa, Ill., 2nd Lieut. Alvin Herschberg of Cincinnati, O., 2nd Lieut. Robert O. Ford of Rochester, N. Y., 2nd Lieut. Peter J. Huggard, Jr. of Bayside, N. Y., 2nd Lieut. Norman W. Shannon of Atlanta, Ga., and 2nd Lieut. Alfred P. Phillips of Warburth, Pa.

Special Awards To Cub Scout Group

Special Scout awards were received Saturday to be given to Cub scouts of Pack 13, sponsored by members of the Rotary Club.

W. D. Willbanks, scoutmaster, announced that Robert pins have been awarded to Paul Jenkins, Jerry Choate, Allen Roy Cloud, George Edward Clark, Robert Bell, Richard Laewell, Pat McDaniel, Jimmie Hobbs, Luther McDaniel, Robert Reed, and Billy Wheeler.

Wolf pins were earned by Perry Wayne Burleson, James Boatman, Don R. Pickle and Edward Boatman.

Merit badges will be awarded to Tommy Hubbard, who will receive a gold and silver wolf arrow point, a gold and silver bear arrow point and a gold service star. Billie Montgomery receives a gold and silver wolf arrow point, and Jimmie Jenkins, a gold and silver arrow point.

Australia is producing optical glass of a quality equal or superior to that formerly imported, according to the department of commerce.

Harvest Kept At Slow Pace By Weather

Damp, autumn weather added to the woes of cotton farmers the past week and the harvest for the week was slowed to around 1,800 bales. Five Big Spring gins, now handling around 45 per cent of the county's ginning volume, reported a total of 8,126 bales up to Saturday evening, which would mean about 17,800 for the county. Possibly over 18,000 bales would be Howard county cotton.

While pickers were not as plentiful as most wanted, ginners predicted that fair weather this week would see the harvest hit a new pace. The second picking is opening well, but a frost followed by dry weather would help a lot.

Prices held firm, seed staying at \$49.50 on the ton while lint was stronger up to 18.50 and 19.00 on better grades. Snags were averaging 17.50 and poorest grades drew down 15.00.

School Hours Changed At Stanton

STANTON, Nov. 9. (Sp1)—Starting Monday Stanton schools have moved opening time back an hour to 10 a. m. and closing time to 5 p. m.

It was announced that two days would be given for Thanksgiving but that Armistice Day would not be observed since the high school will be closed Friday to aid in the gas rationing program.

One week will be allowed for Christmas holidays—closing on Friday, Dec. 18 and reopening on Monday, Dec. 23. The school board has under advisement a proposal for operating the schools six days a week in order to end the regular term earlier and free students for farm and ranch work in the late spring.

During the past week the school hot lunch program went into effect whereby under-privileged children could have lunches free and others get the service for 10 cents. It is made possible through cooperation with WPA and the Surplus Commodity Corporation and the school district.

Greene To Attend C-C Men's Meeting

J. H. Greens, chamber of commerce manager, was in Abilene Monday to attend a meeting of the Chamber of Commerce Managers Association of West Texas.

He plans to remain over for the referendum convolve of the West Texas Chamber of Commerce on Tuesday. B. Reagan, WTCC director from Big Spring, also will be on hand for this meeting. Ben LeFever, chamber president, is in Abilene for an oil convolve, and he and Mrs. LeFever may stay over for the WTCC meeting.

What You Buy With WAR BONDS

The "handle talker" is the newest product of the Army Signal Corps... a hand sending and receiving set, compiled into a small, extremely portable unit. The antenna telescopes into the back of the set when it is off the air. It is called a Transceiver.

Firestone

There are mechanical toys by the score, to include tractors, tractors and even models of the implements of war. And of course, the little girl's desires are not overlooked, with such displays as dollhouse furniture, paint sets and mechanical animals that make "ideal" pets.

Firestone also is featuring many practical household items as Christmas merchandise, these including kitchen equipment such as mixers, coffee makers and cutlery; and other lines that take in door chimes, clocks and radios.

"In broadening our household lines, we feel that we are meeting the needs of our patrons who find it convenient to shop for necessities and gifts while having their car serviced," said D. E. Sheppard, local Firestone manager.

"We invite the public to give special attention at this time to our large gift stocks."

Iva Kitchell's Dances Make Fun Of Nearly Everybody, And Audience Has A Lot Of Fun Watching The Satire

20 New Homes For Park Hill

Twenty more new homes are in prospect for the city through the building program of the Big Spring Housing corporation, it was said Saturday by Fox Stripling, who has been associated with C. C. Eroyles in the development of the company's units to date.

In process of construction now are six dwellings, all five-room houses. Plans are up on some six or seven of these Stripling said. These are along 16th street in the Park Hill addition—a Stripling development—and the 20 new units will be in the same neighborhood.

Stripling said that it was hoped some of these homes could be placed on the market soon. While federal regulations require that housing accommodations give priority to defense workers, Stripling said the homes might be purchased by others for rental to defense workers.

He also said that some tracts in the southwest area would be submitted to the board of trustees for possible future elementary school sites, in case a school unit were added in the future to care for children in the Edwards Heights and Park Hill additions.

Trades Action In The Aleutians For A Brief Furlough

Excitement comes in plentiful doses for Boyce Hale, son of Mr. and Mrs. R. T. Hale, who is home on a brief furlough from his station with the U. S. Navy at Kodiak, Alaska.

But Boyce is willing to forego some of the action for a time to look under a West Texas sun and back up into clear skies.

Some of his duties have taken him into the Aleutians, but how many times and to what point he could not say. Similarly, his comment on whether his unit had come in contact with Japs was limited to the admission that "we see action every once in a while."

He enlisted as apprentice seaman in August 1940 at Abilene and now holds the rating of yeoman second class. Boyce has been in the Aleutian and Aleutians theatre for the past 18 months, and despite some pretty bad weather, thinks the navy is tops.

More People Are Raising Turkeys, But Supply About On Par With '41

Howard county's turkey crop shapes up on a par with last year, which means that there will probably be a sufficient number of the festive birds to go around to them as ever, foot the bill.

More people raised turkeys this year, but for some reason more difficulty was experienced in getting the fowls off to a good start so that the gross crop will be about the same, said O. P. Griffin, county agent.

H. M. Neel, feed store and hatchery operator, says on this view, only he felt the crop might be just a little short. He knows of only one large flock in the area, that of Hub Phillips, Lomax, who has around 150 birds.

The steady increase in the number of farmers going in for turkey production indicates that henceforth more and more of them will be raised here, believed Griffin. The attributed frailty of baby turkeys over chickens has no basis in fact and is the result of unfamiliarity with turkeys. As soon as farmers raise them for a while they will have as much luck as they do with chickens according to this agent.

It also came to the defense of the turkey as a deprecator. Admitting that it is sometimes true that a turkey will "either eat up the farmer's grain shocks or else his neighbors" Griffin said that this was solely because the birds were not fed enough grain at home. Unlike a chicken which almost will starve in his own backyard if the feed is not available, the turkey will range far and wide to get feed when he is hungry, and it doesn't make any difference who owns it.

Griffin felt that turkeys and a cotton patch were the natural complement of each other. The birds will go to the patch for their protein supplement in the form of worms and grasshoppers and also will find there a sufficient amount of tender grass as the base of the plants for vitamin purposes. No matter how much grain is fed in the pen, when turned into the cotton patch, the turkey still goes after insects. Mating never makes him "lasy" either.

Too many people make the mistake of housing turkeys like chickens, said Griffin. They grow so fat that they are crowded as baby turkeys in a coop before the owner realizes it and the result is that those on the inside become overheated and then develop a rot. Similarly, roosting turkeys in a closed house as with chickens is all wrong. By the time a turkey is a month old, he is about ready to be put on a roost—right plenty exposure on all four sides. Crowded interior roosts afford the larger turkeys forced on the inside similar to the younger ones in a coop, their sinuses fill with fluid and their eyes water only to blast back below the eyes, and not infrequently the birds die. The ideal roost is one in the open if some protection can be devised from predatory animals.

A comparatively easy creature to raise, the turkey may return a pretty fair investment. Some reports here have prices ranging up to 25 cents a pound on foot and one concern has been selling the dressed turkeys at 40 cents a pound. That adds up to a right good chunk of money on a 25-pound tom.

50 Young People Here For Rally Held At Methodist Church

Fifty young people from surrounding towns which are included in the Sweetwater district rally were represented when the group convened at the First Methodist church Sunday with the theme "For the Facing of Those Days," as subject of the rally.

The afternoon schedule included registration from 2 to 3 o'clock with the business session from 3 to 4 o'clock.

Refreshment hour was at 4:30 o'clock and was followed by an impressive worship service led by Reta Bigony, district young people's director and secretary of the Sweetwater district rally.

Neyland Hester of Lubbock, and president of the convention, presided over the business meeting. He was assisted by Charles Lutzick, vice president, and Lela Catherine Morrison of Abilene, treasurer.

Lela Francis Walker was elected as a sub-district president and plans were discussed for the summer assembly.

New Scout Troop Organized Here

Wesley Methodist church is the sponsor of a new Boy Scout troop organized the past week. H. D. Norris, field secretary for the Buffalo Trail council, said Saturday.

About 14 boys have been enlisted as charter members and the church will be the meeting place.

John Garrison is the troop committee chairman and Cy Norrison is scoutmaster with J. C. Pittard and W. D. Lovelace as assistants. Other committeemen are J. B. Apple, Thrift; Ike Lowe, outdoor activities; J. D. Stenbridge, activities; the Rev. John English, advancement.

Mass production of shoes was originated and most early developed to a high degree in the United States, says the Department of Commerce.

From where I sit...
by Joe Marsh

Went I drop into Sam Abernethy's store, I usually come away with something worth remembering.

Sam's our town's most successful storekeeper and he's not one to do much talking, unless he figures he's really got something to say.

Last evening he said plenty.

Stranger was in the store. And Ben Ryder, Homer Bentley and some others were talkin' about the scrap collection when this fellow sort of horned in...

"I hear these scrap collections are a lot a bunk," he says. "Fact of the matter is, this junk they're gathering ain't no use for makin' steel. Just a waste of time gettin' it together..."

"At that point Sam steps in.

"Just a minute," he says, fixing him with a cold and steady eye. "May I inquire where you got them so-called facts?"

The stranger hems and haws, and Sam advances on him grim and unsmiling.

"Name your authority, sir," he says. And he wasn't kiddin'! "Tell us, where did you get all this inside, private information?"

Well, sir, I never saw Sam so mad since Lem Martin's dog chased the cat into the pickle barrel. And I guess I never saw a man crawfish out of a place fast as that fellow did.

Thinking it over afterwards, I came to the conclusion that Sam's got the real system for handling folks who throw facts and figures around free and easy like.

Prinately, I've noticed there's some pretty fancy fact and figure jugglin' done by some of those who oppose the right enjoyed by millions of decent people to drink a friendly glass of beer when they want to.

Lately I've been asking these folks the same kind of questions that Sam asked that rumormongerin' stranger. Try it yourself, next time you hear anybody making derogatory remarks—whether it's against the war effort... or just against beer.

Joe Marsh

Sorghum Serves As Sugar Substitute

ASHEVILLE, N. C. (AP)—As old Dobbin remembers it, sorghum-crop making isn't much fun. Slashed to a balanced tree-trunk, with an ingenious rope attached to urge him onward, he goes wadd and round, pulling the cane tress.

But whether Dobbin likes it or not, he and thousands of his fel-

lows are treading the sweeten' road in North Carolina. It's sorghum b'lin' time, and in this year of sugar-rationing that means extra sweetening for many a Tar Heel farmhouse. Sorghum, grown throughout the state, is mostly used as silage for cattle, but this year, more of it than ever before is finding its way into the cane press for the sake of its sugar.

Housewives! How To Make A Pound Of Meat Serve Six

A FAMOUS CHEF shows you how to make the best of meat rationing. Start with one pound ground beef or lamb.

STRETCH IT by adding one cup cooked rice, 1 medium chopped onion, 3 tablespoons chopped parsley, salt and pepper.

STUFF mixture into green peppers, tomatoes and macchinali squash, bake one hour in moderate oven.

SERVE with applause, advises George Mardikian, of San Francisco, who calls this dish Victory Garden Dolma.

GET LOVELY TABLEWARE THIS EASY BARGAIN WAY!

Think of it! You get two Super bargains! All the extra healthful benefits of America's Super Breakfast Food—plus lovely tableware with every package! Delicious Mother's Oats is naturally "triple-rich" in the great "anti-fatigue" Vitamin B1! It's rich in food-energy. In Phosphorus for strong bones, teeth! In Iron for rich, red blood! And Oatmeal leads all other whole-grain cereals in body-building Proteins! Be sure you get both these Super bargains—the extra, healthful values of America's Super Breakfast Food, and handsome tableware as your grocer's today!

These Soldiers Discover Columbus

COLUMBUS, O. (AP)—If you tried to tell a soldier about a service man's dance where the girls outnumbered the fellows two to one, the chances are he'd think you were spoofing him.

But that's just what happened at Columbus recently.

Officials of nearby Lockbourne Air Base and members of the Mirrors, a sophomore women's society at Ohio State University, arranged the dancing party, calling for girl volunteers from the campus.

More than 350 co-eds dolled up in dancing frocks, climbed into 10 big army trucks and were driven

off to spacious Memorial Hall where 150 soldiers and a dance band awaited.

Each of the 150 service men became the "beau of the ball" as many of the co-eds were forced to "cut in" to get into the swing of things.

It didn't last though. Word soon spread and a hundred or so soldiers stationed at Fort Hayes in downtown Columbus trickled in to even things up a bit.

Marine Likes Eggs
SAN DIEGO, Cal.—Pvt. Freeman B. Johnson, Jr., 18, after only three weeks training as a Marine, decided to show his superiors what he could do even without training. He gulped down for breakfast 26 boiled eggs. He explained to the alarmed officers that it was an old habit of his and that he often took 17 eggs at one sitting. The Marine officers put their heads together and came out of the huddle with the calculation that Johnson had eaten the egg rations of 13 men.

COUNTY BUYS BONDS
COLORADO CITY, Nov. 12 — The Mitchell county commissioner's court this week authorized the purchase of \$24,000 worth of war bonds with county funds, according to announcement made by County Judge W. W. Porter.

Hard Way To Learn That Pigs Squeal

NOBLE, Okla. (AP)—A midnight commotion that awakened most of the citizens of Noble and brought their heads out of windows the better to see what the trouble might be, was caused by a city farmer. He'd decided to vaccinate all his pigs and night time was the only time he had to do his farm chores.

Capetown To Get Larger Docks

CAPTOWN, (AP)—F. C. Sturrock, Minister of Railways and Harbors, has announced that in addition to the graving dock to be built at Capetown, another 680 feet long will be built at East London with 16,000 tons capacity at Durban.

He said East London dock, he said, would be able to take the largest type of British cruiser.

Here's Testimonial To British Cooking

LONDON, (AP)—Reginald Allen, a government construction worker, and apparently something of a rugged individualist as well, drove an eight-ton power grader 24 feet long and nine feet wide three-quarters of a mile—to lunch.

He was fined \$8 for driving an uninsured vehicle, and \$4 for unwarranted use of gasoline.

Now Many Wear FALSE TEETH

With Little Worry Eat, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. FASTEETH holds plates firm and more comfortably. This pleasant powder has no gummy, gooey, pasty taste or feeling. Doesn't cause nausea. It's alkaline (non-acid). Checks "plate odor" (denture breath). Get FASTEETH at any drug store. (adv.)

THERE IS NO CEILING ON SAVINGS AT SAFEWAY

AND there is no ceiling as to the number of War Bonds and Stamps you should buy, regularly.

Stop early in the week...avoid crowds...and save money, too!

READ Why Safeway Ceiling Prices Are Low

FIRST, WHAT IS A CEILING PRICE? A store's ceiling price is the highest price that may be charged by that particular store for those items governed by the ceiling price law.

SECOND, WHY AREN'T CEILING PRICES THE SAME IN ALL STORES? Under the regulations each store establishes its own price ceilings within the limitations of the law. The ceiling price law fixes an amount above which prices may not go, but without restrictions as to how low prices may go.

WHY SAFEWAY CEILING PRICES ARE LOW? Because every Safeway price has been a very low price month after month, Safeway ceiling prices are naturally very low. For years Safeway has waged war on needless waste in distributing foods...cut out unnecessary expense...eliminated frills. And the savings thus made have been shared with our customers by giving them low prices. The ceiling price regulations will not, in any way, alter Safeway's policy of bringing you the finest foods the markets offer at the lowest possible prices.

Safeway is cooperating with the Government's effort to prevent inflation by rigidly adhering to the spirit as well as the letter of the ceiling price regulations.
