(AP)—Associated Press

PAMPA, GRAY COUNTY, TEXAS, FRIDAY EVENING, SEPT. 16, 1927.

(NEA Service)

PRICE FIVE CENTS.

## TRUCK DRIVER KILLED NEAR CITY

### Gray County Valuations \$7,608,678 Above Last Year

#### FINANCES OF PRECINCT ARE VERY STRONG

Total for 1927 Reaches \$11,389,678 On Records

#### TO SELL ROAD BONDS OCT. 22

#### Doucette and Hazie To Supervise Hard Surfacing

Gray county is worth \$7,608,678 more now than this time last year. This interesting fact is revealed by the tax rolls just completed. Bond buyers have been especially eager to obtain the total, and having learned it, they declare Gray county is a specially desirable credit customer.

The valuations of the county this year reached \$11,389,678, as compared with \$3,781,000 last year, according to the report of Ewing Leach county assessor.

The valuations by precincts have not yet been estimated, but it is expected that Precinct 2, in which Pampa is situated, will have property of more than \$7,000,000.

The county commissioners met at LeFors yesterday and approved the county valuation total.

A. H. Doucette of Pampa and C. H. Hazie of Memphis were appointed as engineers to be in charge of the hard surfacing of the county roads. Chas. C. Cook was appointed to take charge of the legal affairs.

It was decided by the commissioners that October 22 would be the day set for the selling of the road bonds voted for precinct 2 last Saturday. The bonds will be advertised in the Bond Journal.

Those present at the commissioners meeting yesterday were Judge T. M. Wolfe, Clarence Bowers, precinct 1; W. A. Taylor, precinct 2; Thomas O. Kirby, precinct 3, and M. M. Newman, precinct 4.

#### Harvester Line-Up Is Announced For Quanah Battle

This afternoon at 4 o'clock the Harvesters, Pampa high school football men, will be seen in action for the first time at Ayres field. Coach Verde Dickey has his warriors all primed for the invasion of the Quanah high school eleven.

The team from the distant town is not being taken lightly by the locals, as reports from Quanah are to the effect that it will be a battle. The Pampa squad is composed of several of last year's men and some new players who look like speed artists.

The likely line-up of the Pampa squad is: Saulebury, le; Stalls, rg; Mooney, lg; Kahl, c; Seitz, rt; Herlacher, rt; Kennedy, re; Waldstad, lb; Carlton, rh; Roberts, fb; Jardine, qu. Substitutes: Clayton, Benton, Mullen, Barnett, Maness, Ayres, Robinson, Greene and Jones.

#### Pampa Daily News Tells It First

For the complete news of Pampa "While it is News," and while people are talking about it, you must read the Pampa Daily News. This observation is timely, as another good example shows. The Pampa Daily News was the only paper available in Pampa yesterday which contained the story that Frank Kell must start the Pampa-to-Cheyenne railroad by May 1 or lose his permit. Other facts of interest—route, cost, time limit for completion—were given by the reliable Associated Press.

Remember that the Pampa Daily News is the only daily newspaper with every effort bent toward the building of a Greater Pampa, and that timely, complete news of Pampa can only be obtained in Pampa's own daily newspaper.

#### Jardine May Not Allow Reports On Price Trends

(By The Associated Press.) WASHINGTON, Sept. 16.—In all probability the Department of Agriculture's bureau of economics has issued its last report on the trend of farm prices, it was said today at the office of Secretary Jardine. Wild market fluctuations were caused yesterday on cotton.

The officials held that although the long range indications were helpful to farmers, they also might be put to harmful use otherwise in market speculation, and that until the public had been better educated to the purpose of the statements, the part of wisdom dictated that they be discontinued.

Secretary Jardine was at his office early today to meet the barrage of protests from the south on the action of the bureau in issuing the report.

#### Cotton Drops Again

NEW ORLEANS, Sept. 16 (AP)—Cotton prices dropped from \$2.50 to \$2.75 a bale shortly after mid-session today, after fluctuating nervously throughout the morning. The new break carried the price to levels of \$17.50 to \$20.00 a bale below the highs established August 8 after the issuance of the last government forecast.

NEW ORLEANS, Sept. 16 (AP)—Commissioners of agriculture in Texas, Louisiana, North Carolina, Mississippi, and Georgia today adopted resolutions denouncing the action of the bureau of economics in predicting the future price trends.

LONGVIEW, Sept. 16 (AP)—The East Texas Chamber of Commerce today wired Secretary Jardine asking for facts as to the issuance of a statement on the cotton crop yesterday, which is said to have caused a decline in cotton prices.

It also asked for a statement on the present status of cotton trade, to the end that the market may be stabilized.

NEW YORK, Sept. 16 (AP)—Cotton prices dropped nearly \$3 per bale to below yesterday's level here today. The South sold "quite heavily" at times, and the market recovered most of the losses on covering.

#### PECOS COUNTY AGREEMENT REACHED BY PRODUCERS

FORT WORTH, Sept. 16 (AP)—Formal ratification of an agreement reached last week for pro-rating of 44,000 barrels of pecos capacity in prospect for the Pecos county area, equally among producers, was reached at a second meeting here today.

#### DUBLIN PLANE IN DARING TRY TO NEW YORK

MacIntosh and Fitzmaurice Take Off Today

#### FAIR WEATHER IS PREDICTED

#### Floral Offerings Cast Upon Pacific To Honor Dead

(By The Associated Press.) DUBLIN, Sept. 16.—Captain Robert MacIntosh and Lieutenant James Fitzmaurice, war products in aviation, this afternoon set out in a daring effort to make a flight to New York over a trail that has never been followed to its western end.

The plane, Princess Xenia, made a splendid take-off, getting into the air at 1:30 o'clock local time. It carried a heavy load, including 720 gallons of gasoline.

MacIntosh announced that he would head for Newfoundland, thence to New York, and said he expected to make the flight in 26 hours.

NEW YORK, Sept. 16. (AP)—Dr. James Kimball, meteorologist of the local weather bureau, said today that from meager reports from the North Atlantic he believed weather conditions were fair for Captain MacIntosh's flight.

#### TO THE DEAD

STEAMSHIP MAUI, Sept. 16. (AP)—This flower-laden ship halted today 700 miles out of San Francisco while the captain, crew and the passengers joined in a memorial service to the honor of the seven aviators who were lost while flying over the Pacific from San Francisco to Honolulu.

Floral offerings were cast upon the sea at the approximate spot where the monoplane Dallas Spirit went down.

BELFAST, Sept. 16 (AP)—The trans-Atlantic plane, Princess Xenia, passed out to sea late today over Galway, flying about 100 miles an hour.

#### Firemen Will Be Hosts To Officials Of City Tuesday

A dinner for the members of the fire department and the city officials will be given at the New Schneider hotel Tuesday evening, it was decided at a meeting of the firemen last night.

These regular practice tonight will take the form of a round table discussion of fire fighting methods. All the members are requested to be present. On account of weather conditions the outside practice will be abandoned for tonight.

#### Pershing Greeted In Paris Today

PARIS, Sept. 16.—General John Pershing and leaders of the American Legion arrived here this afternoon and were greeted at the station by civil and military notables.

#### First Death In Football Reported

NASHVILLE, Sept. 16.—George Rice, Houston, Texas, quarterback on the football team at the University of the South at Sewanee, who suffered a fractured neck during a practice Wednesday, died this morning.

#### Oklahoma Faces Death Mystery

Following the sudden deaths of Mrs. Charles Bailey and one of her daughters, Mary Jane, 18, Enid (Okla.) authorities arrested Mary Atkinson, graduate nurse and companion of Rev. Charles Bailey, Enid pastor. Miss Atkinson and Rev. Bailey are pictured above.

#### Charter Commission Expects To Finish Work Monday Night And Lay Document Before Council

Pampa's new city charter, embodying, in the opinion of the charter commission, the best principles of a dozen sets of city regulations, probably will be completed Monday evening.

The charter commission will meet at 7:30 o'clock to take final action, and the draft of its work likely will be laid before the city council, which appointed the commission, on the same evening.

The charter is designed to give Pampa's city government the machinery and legal strength which the Texas constitution provides for a city of this size, but all local ordinances not covered by the new provisions will remain in effect.

Pampa now has no city charter, and it is believed that the heavy business of building the New Pampa necessitates a business foundation similar to that of other cities of similar size.

Two major provisions are provided: 1. A tax-supported Board of City Development to replace the present Chamber of Commerce supported by public subscription; and 2. substitution of the city manager-commission plan for the present aldermanic system.

Under the laws regulating the submission of charters, the city council will present the document in a special election, which requires a minimum of 45 days to advertise and hold.

#### Dallas Searched For Bank Robbers

(By The Associated Press.) DALLAS, Sept. 16.—A hunt for three or four men who Thursday held up and robbed the Plano National bank of more than \$1,000, shifted to Dallas today as city and county officers joined in combing resorts where undesirable ordinarily stay.

#### COMPANION IS UNHURT WHEN BODY PINNED

Youth Too Long Delays Use of Chains On Muddy Road

#### BODY BROUGHT TO PAMPA FIRM

#### Three Big Cars Are Damaged In Crashes Near Kingsmill

One minute's delay in putting on mud chains cost a young life near Pampa last night.

Clarence Townsend, truck driver for the Prairie Pipeline company, told his companion, G. A. Gonce, that they would use the chains after they got down a long hill about 20 miles south of Pampa.

Before they got half way down the hill the truck and trailer, heavily loaded with small pipe, skidded and tumbled over twice, crushing Townsend horribly about the face and body. Gonce was suspended head downward in the overturned truck cab, and a passing motorist saw the man's feet sticking out of the top and extricated him.

The G. C. Malone ambulance was called to bring the body to the undertaking establishment here, where the body lies today.

#### THREE CARS; TWO CRASHES

The rain of late yesterday, amounting in Pampa to .70 of an inch, directly or indirectly accounted for scores of minor accidents. Many cars went into ditches while trying to negotiate the slippery roads without chains.

Possibly a burst of speed occasioned by the relief of leaving the sea of mud between Pampa and Kingsmill, coupled with muddy lights, accounts for the fact that a Nash coupe, driven by an unknown man, crashed into the rear of a Safety First bus a few miles west of Kingsmill early last night.

The Nash, after crushing the gasoline tank of the bus, swerved to the left and skidded, tearing off its rear wheel housing and breaking the driving shaft.

Passengers and drivers escaped injury, and caught passing cars for White Deer.

Another Collision While they were gone, leaving the cars in the road, G. H. Pratt of Amarillo, Gulf Production company employe, driving a Buick coupe, came upon the abandoned cars. He dodged the Nash only to crash head-on into the rear of the big Hudson bus. The bus was crushed still more and shunted down the road about 50 feet, while the Buick dived off into a ditch.

Pratt went partly through the windshield at the moment of the impact, and received cuts on the face and hands in addition to bruises. He charged that neither car was lighted. The tail lamp of the bus had been crushed, and was found lying in the road by a large number of motorists who stopped to give aid.

The driver of the bus returned to the scene of the accident after making arrangements to have the vehicle taken to White Deer.

#### FORMER CANADIAN HERE

W. A. Thompson of the Grayburg Oil company of Houston, is in the city in the interest of his company which has holdings in Gray county. In a conversation with Mayor F. P. Reid yesterday, the talk turned to the game lacrosse, and it was learned that Mr. Thompson played in a game at Georgetown, Ont., in 1895 and that Mayor and Mrs. F. P. Reid and R. J. Hoars, father of Harry Hoars of the Daily News staff, attended.

### First Jury of Women In Colorado Convicts

(By The Associated Press.)  
 ALAMOSA, Colo.—Although Colorado was the second state in the Union to honor its women with the right of equal franchise, no provision has been made for enfranchised Colorado women to sit as members of juries.  
 Taking the silence of the Colorado constitution as consent, however, Charles M. Olehy a justice of the peace at La Jara, accepted a jury of three women to try a Spanish American accused by the Spanish wife of a Hindoo gardener as a bootlegger. The men folk were too busy in the potato and head lettuce fields to serve. Constable William Spencer explained to Justice Olehy in whose court three persons may constitute a legal jury.  
 Mrs. W. E. Jennings, beauty parlor proprietor; Mrs. O. W. O'Harran, wife of the town druggist and Mrs. Del Gee, wife of the editor of the La Jara Gazette, the members of the jury, scorned tasting the alleged liquor. They contented themselves with a quasi-laboratory test in which a quantity of the liquor was burned on blotting paper.

### Fabrics of Cotton A Craze In London

(By The Associated Press.)  
 LONDON, Sept. 15.—Cotton fabrics are the craze of the hour. The velvet fashionable in Paris is cotton velvet, made in the Lancashire cotton district. Opera wraps, shawls, the new short coats and long coats are all being made in the richest shades of cotton velvet and lavishly embroidered in silver, gold and multi-colored silks. Fur collars finish them off.  
 Because of the demand for well-made cotton fabrics, the material has become quite costly, a yard of the fabric bringing \$6. A coat seen at the recent Ascot races, which cost more than \$150, was of cotton in an Egyptian color scheme of pastel green, blue and pink on white, lined with white fur.

### Heavy Runs, Poor Stock Lower Fort Worth Market

FORT WORTH, Sept. 16.—Receipts were moderate Tuesday following the heavy runs, and prices were about steady with yesterday's decline. Bulk of the receipts here have been common and trashy kinds of cattle, which shows the bulk of the decline. Choice fed steers are about steady, the best here this week selling at \$9.50, though good cake-fed steers are quotable from \$9.75 to \$10.25. Bulk of the choice grass steers selling from \$8.00 to \$8.50; medium to good kinds, \$7.50 to \$8, common, \$6.50 to \$7.25.  
 Stocker steers are about 25 cents lower this week, the better kinds showing the least decline. Two cars of white-faced, dehorned, medium to good quality steers, averaging 768 pounds went at \$8.50. Choice, light-weight, dehorned Herefords would bring up to \$9, bulk of the white-faces selling from \$7.75 to \$8.25. Bulk of the red steers, all ages, selling from \$6.75 to \$7.25; fair kinds, \$6 to \$6.50; common and Jerseys, \$5 to \$5.50.  
 Butcher cattle are 15 to 25 cents lower for the week, bulk of the good cows selling from \$5.75 to \$6.25, a few prime kinds up to \$7; medium to good cows, \$5.25 to \$5.75; common \$4.75 to \$5; cutters, \$4.25 to \$4.50; canners, \$3.65 to \$3.85. Medium to good grass heifers selling from \$7 to \$8, fair kinds, \$6 to \$7; common kinds \$5 to \$5.50. Choice suckling yearlings still selling up to \$9.50 to \$10. A car load of extra choice, white face, dehorned, stocker heifers sold at \$8.25. Bulk of the white-face stocker heifers selling at from \$7.25 to \$7.75 and red heifers, \$6 to \$6.50. Stock cows were about steady, good to choice white face cows bringing \$5.50 to \$6, red cows and aged white-face cows, \$4.50 to \$5.  
 Calves were steady to strong, best heavy and medium weight calves quotable from \$8 to \$8.50; choice kinds up to \$8.75. Veals steady, best veals around \$10 to \$11. Fat bulls were \$5.50 to \$5.75.  
 Hog market continues upward, top today, to packers, \$12.10, bulk of the best butcher hogs selling from \$11.85 to \$12 with 280 pound butcher hogs selling up to \$11.50. Stocker pigs were around \$9.50. Choice butcher pigs sold \$10 to \$10.50.  
 Sheep were steady with choice wethers around \$8, choice yearlings around \$10.00. Strictly fat lambs were up to \$12.

Mill Lulu M. Wilkin and Mr. and Mrs. Alexander attended the fair in Amarillo Thursday.  
 Dick Hughes of White Deer transacted business in Pampa Thursday.

IF OLD FASHIONED GIRLS WERE LIKE THEY SAY GOSH! WHAT WOULD'VE HAPPENED TO SOME O' US FELLERS.

### Women Will Continue Welfare Work When Federal Support Ends

(By The Associated Press.)  
 WASHINGTON, Sept. 16.—Saving mothers and babies will be "unfinished business" to patriotic women voters of the United States, predicts Mrs. Madu Wood Park, counsel on legislation for the National League of Women Voters, reviewing the action on the Sheppard-Towner maternity and infancy act in the last Congress.  
 Although Congressional action fixes June 30, 1929, as the date of its expiration, Mrs. Park foresees no let-up in the work even at that date.  
 "We believe the work done under this law, which has proved beneficial to thousands of women and children, will not be permitted to lapse," Mrs. Park said.  
 By the provisions of the act which was passed in 1922, an annual appropriation of \$1,240,000 is divided among those states whose legislatures appropriate an amount to match the allotment offered by the federal government. The offer was made for a five-year period with a two-year renewal clause.  
 Excepting only Maine, Connecticut, Illinois, Massachusetts and Kansas, all states took advantage of the bill. Hawaii accepted the offer, however, as late as 1924. The money is spent on maternity welfare with special attention to prenatal care

of mothers and babies.  
 "Whether carried on by community, state or nation," says Mrs. Park, "efforts to lessen the death rates of mothers and babies will go on. The world has moved too far for the great majority of women to lose sight of the fundamental needs of their own sex, or for the average well-meaning man to dismiss their plea with indifference or contempt. "Until every mother has an opportunity to learn how to care for herself and her children, the 'Baby

THE  
 Amarillo College of Music  
 ANNOUNCES  
 Mrs. Nina McSkimming  
 Pianist and Teacher At Our Branch Studio In Pampa

We are standardizing our work by putting a score of branch studios throughout the Panhandle. The "Progressive Series of Piano Lessons" is used as text. Through this text and the supervising of the teaching of it we are able to give a definitely graded course of musical education. Credits given all who study in branch schools and on same basis as those at the main studios, and in 20,000 schools throughout the country.  
 Mrs. McSkimming will come to Amarillo every two weeks during the teaching season to attend a three-hour normal class session in the teaching of the "Progressive Series." This class will be a "clearing house" of ideas and teaching methods for a large family of music teachers all working to the same end. We stand for a bigger and better program of music in Pampa and want to be of service in every possible way.  
 Our faculty with Mrs. McSkimming will be in Pampa soon to give you a FREE Faculty recital. Call on Mrs. McSkimming at her studio or write, phone or call on us direct.  
 EMIL F. MYERS, Director  
 1104 Polk St. Amarillo College of Music, Amarillo, Texas

### what price HEALTH?

Just how much does the well-being of these little ones entrusted to your care mean to you? Now that they are entering school you should be even more careful about their food. We are food specialists and stand ready to serve you with the best—and surely nothing else is good enough for these.  
 Save where you can—but be sure that it is a real saving. Don't sacrifice quality—and your children's health—for a few cents saved on a Grocery bill. Better yet, call 30 and let us show you what a combination of real service and the best in foods at live-and-let-live prices can do for the happiness of the whole family.

### A. and M. Expects Large Enrollment

COLLEGE STATION, Sept. 16.—Student enrollment for the new year at A. and M. College here is expected to reach 2,700 as compared with 2,499 last year, an announcement from the college here said.  
 The freshman class is expected to be the largest in the history of the institution. Applications already received indicate 1,100 new students, Dean C. E. Friley, college registrar, said.  
 Mrs. Park once made a trip around the world for the purpose of studying the condition of women in other countries. She also has done neighborhood work in Boston and in San Francisco, living in settlements and tenement quarters for 11 years.

Freshmen are expected to report at 8 o'clock Sept. 19 for scholastic aptitude tests which are expected to give the college authorities a line on the ability and talent of the prospective students. This information is intended to be used in aiding the student to select the courses for which he seems best fitted. Registration assignments to military quarters will follow the same evening and President and Mrs. T. O. Walton plan an informal reception on the lawn of their residence for them.  
 On ensuing days of the week "Freshman Week" will be observed as it was last year when the success of the program caused college officials to make it a permanent institution. The purpose is to acquaint the new students with college ideas and traditions and to permit him to become familiar with his new surroundings.

FOREIGN ASPECTS — Apparently the even tenor of the Coolidge administration is going to be disturbed in the late months, and Coolidge partisans may yet see virtue in the president's choice to retire.

The tariff question, subdued in recent years by the farm problem and the farmers' desire to be protected and succored by the government, has abruptly been thrust forward by France, whose statesmen have hiked import duties on a scale which will seriously affect American export trade. Exchange of products with France is desirable if that country is to pay her war debt to us, and from her standpoint our tariff wall is too high to permit a trade balance on France's side of the ledger.

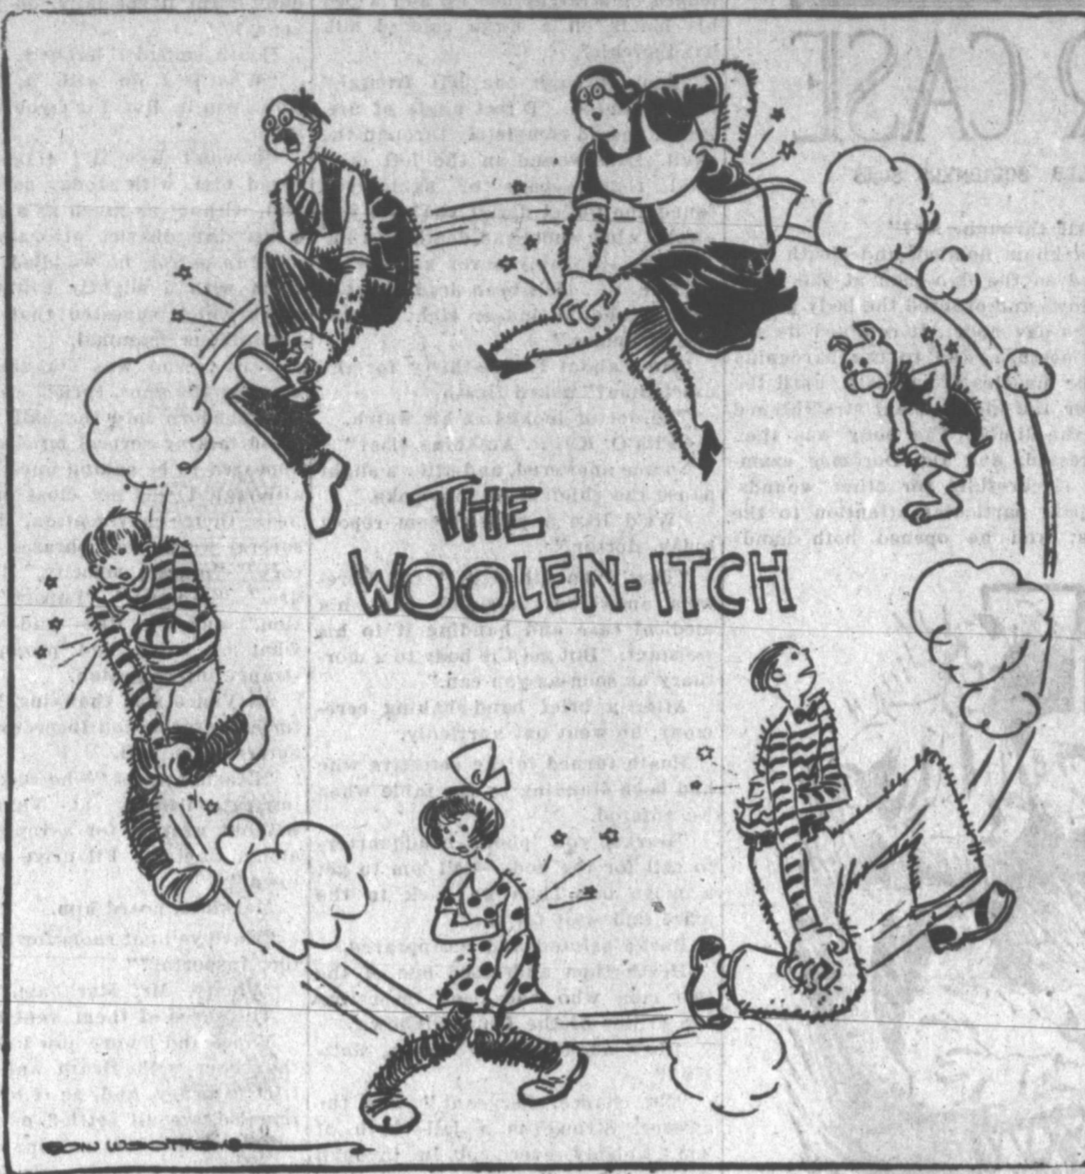

Reciprocity in tariff conflicts with the American principle of fixing duties largely on the basis of competition with home business. Reciprocity may be satisfactorily worked out, but in the doing of it campaign thunder for the opposition party is apt to develop in plenty.

America's position as one of the world's bankers and one of the leading trading countries of the world has destroyed much of that "splendid isolation" which simplified commercial pursuits. This is an age in which Americans must become international in thought and grasp. The small town farmer and business man may no longer frown upon mention of foreign affairs; which do much to determine the size of his income.

Another vexing problem is that of sovereignty in the Panama canal zone. Panama, says Dr. Eusebio Morales of that country has never relinquished full claims to control of the zone, and he threatens to take the matter before the League of Nations unless America voluntarily recognizes Panama's position.

The difficulty to this country is the problem of arguing a matter of national defense before a tribunal not completely recognized by Congress, but which the United States unofficially respects. World Court judges are sure to base their decisions upon historical facts and precedents and they might take the attitude of Morales that the Monroe Doctrine "is now useless" and that the strategic authority held by America in the Canal Zone is not advisable under modern conditions. The American government.

Now for a Little Scratchy Autumn Dance

of course, will not be moved by strategy or threats to give up rights believed essential to the nation's welfare. On the other hand, it cannot ignore the dictates of the nations assembled. Talk of a New World League of Nations is not popular in the South American countries, which feel that they would be dominated by the United States.

These are problems for the statesman and fodder for the political sharpshooter who can by sufficient effort, get red in the face about it.

TWINKLES

See you at the Harvester-Quannah game, folks, and hope to hear you.

There are worse things than a few broken laws. We doubt the wisdom of the advice to officers to shoot first and investigate afterward. Things ought to be very suspicious in that case, for modern folks come and go at all hours, and a motorist in distress sometimes has the appearance of a dangerous rum-runner.

Now, now, Samuel; first you run cotton prices up, then your experts run them down. Nobody is quite so impossible as he who would always stick to the bald truth as he sees it. But our Uncle believes in test tube accuracy.

Where is the old-time Democrat who would crack his heels in glee over France's attempt to drive down our tariff wall?

Despite Dempsey's prediction that the coming bout may be a beauty contest, Tex Rickard's crowd seems to think there is going to be a fight. This oracle predicts that a big man is going to get his face pushed.

Some people think tennis is a girl's game, and it does look like that the United States could furnish enough men to beat these terrible Frenchmen.

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON.—President Coolidge's return to Washington means that the existence of Washington correspondents is again justified.

Mute testimony of the deference the Coolidge presence makes to journalism in this fair town was afforded by a glimpse into the White House press-room a few days in advance of the executive's return.

Empty as a candidate's promises. Not a soul in sight. The country's biggest news font was deserted. On a small table in the center of the little room lay a scattered and disheveled pack of cards, convincing proof that things were very dull indeed.

Now all will be changed. The press cubbyhole will be packed and on Tuesday and Friday scores of reporters will overflow into the lobby outside, waiting for the hand-clap which sends them dashing into the president's office to learn for the world what the president has on his mind which he is willing to confide.

About those cards. Gambling in the press-room has been an intermittent affair, first tolerated and then forbidden. Everyone who comes to see the president must pass through the executive office entrance, right alongside the press-room and it has been suggested that it didn't look quite nice for the president's guests, especially the strait-laced ones, to get a glimpse of a card game just as they stepped into the White House.

For a long time the card games had been barred on this premise. When the put-and-take top became popular a correspondent brought one in and the boys started spinning it for nickels or some such coinage. This lasted for 10 minutes before a White House cop ended the game.

The top incident was all that brightened a long, tedious period of chess, the only game allowed. Then, recently, after Congress had adjourned someone started a bridge game and it was allowed to proceed.

Bridge has been played ever since whenever a quorum was present and will continue unless some reformer steps in. Only two can play chess—though not every two at that—and the job of correspondents who have the White House beat consists largely of waiting for news to develop and tagging occasional visitors to the president.

Paris fashion news indicates that women's gowns are to be lower and higher, if you get what we mean.—The Casper Tribune.

PRESS FORUM CONSUMMATE FOLLY

A real estate deal was made in New York, and after the transaction was completed, a real estate agent went to the office of some other real estate agents to see about a division of the commission on the sale. They talked the matter over for a time, but things did not seem to be going to suit the visitor, so he decided to hasten the settlement. He did. He settled the dispute permanently, so far as two members of the real estate firm were concerned, and at the same time he settled all the problems this life holds for another man who chanced to be present in the capacity of attorney for one of the real estate brokers. Another man on the street, nine stories below the room in which the settlement was taking place, received a fractured skull when struck by the body of one of the disputants which left the room by way of a window after it had been perforated by one of the arguments the visiting real estate man used to settle the quarrel. And that's that. The settlement for the visitor is yet to come. He is in the hands of the police department.

Just about everyone will agree that the course pursued by the visitor was too foolish to be defined by the term folly, yet a few substitutions would change the case into one of the kind that the world, after all the centuries, still thinks it can't get along without. Just substitute for the commission on that real estate sale a strip of real estate, itself, and for the real estate man who started out to settle the quarrel with his gun a nation with its army and navy, and you have as pretty an example of war and its effects as one could wish. All the features of war are represented in that occurrence in the New York real estate office, except that the attack was so sudden and unexpected and the affair was over so soon that one party to the quarrel didn't have time to get its artillery unlimbered. There was a settlement which didn't settle anything and by which both parties to the quarrel lost. There was the damage sustained by those who had nothing to do with the original quarrel. There is the settlement that is yet to come. We are all agreed that the attacking par-

ty in the private quarrel was guilty of a piece of consummate folly. Some people believe that the same thing is true when the quarrel is big enough to be dignified by the name "War". Maybe there is a difference, but a lot of us are not trained to make such fine distinctions. That is why we keep on building warships. —Blackwell Tribune.

CHURCHES

First Baptist Church
Sunday school, 9:45 a. m. We are working overtime in order to complete the Sunday school annex for Sunday, so we hope every teacher will be on hand early Sunday morning to assist us in directing the pupils to their new class rooms. Up until this time we have been as crowded in our Sunday school as is the public school.

Sermon, 11 a. m.
Morning subject, "The Questions Questioned." This will be a direct question from the pastor to the congregation, and we hope every member of the church will be present. We invite everybody to hear this sermon.

B. Y. P. U.'s, 7 p. m. One or two of the Unions will meet in the new Sunday school building. Announcements will be made Sunday morning. We invite the young people to attend our B. Y. P. U.'s.

Sermon, 8 p. m.
Evening subject, "Following a Vision"—Acts 26-19. In his wonderful defense before Agrippa, Paul recounts the events of a vision he had on the way to Damascus.

A short report of our meeting at Higgins last week will be given, and a vision of the possibilities for the church of Pampa. Come and bring a friend with you. At almost every service we are having additions to the church, and we hope before this year's work closes that many may be saved and added to the church.
D. H. TRUHITE, Pastor.

First Methodist Church

The Missionary department of the Methodist Sunday school will have charge of the 11 o'clock service in the absence of the pastor. A fine program has been prepared.

There will be no services Sunday evening, and all Methodists are urged to visit other churches at that time.

Menus for the Family

By Sister Mary
BREAKFAST—Orange juice, cereal, cream, soft cooked eggs, oven toast, milk, coffee.

LUNCHEON—Cucumbers with rice, brown bread, grape preserves, milk, tea.

DINNER—Fricassee of lamb, mashed potatoes, creamed carrots, fruit salad, toasted crackers, cheese, milk, coffee.

The breakfast suggested is one of the quickest and easiest the housekeeper can prepare. If the cereal has been cooked the night before, the morning work is reduced to merely reheating. The bread will toast while the coffee is "perking" and the oranges are being squeezed and the table is being set. The eggs will cook in three to five minutes.

Cucumbers With Rice

Two good sized cucumbers, 3 cups white sauce, 3 hard cooked eggs, 2 tablespoons grated cheese, 4 to 6 strips of toast, 4 rolls of rice.

Parse cucumbers and cut in three-inch lengths. Remove seeds. Stand on ends in a sauce pan in a little hot water and simmer closely covered for 15 to 20 minutes until tender. Run yolk of one egg through sieve and set aside. Cut remaining three eggs in neat dice. Add to one cup white sauce. Add cheese to sauce when ready to fill cucumbers. Arrange cucumbers on toast and fill cavities with egg mixture. Cover tops with rice egg yolk. Fry rice rolls an appetizing brown in hot, well buttered frying pan. Arrange on platter with cucumbers and pour remaining sauce around rolls and toast, not over them. Reheat in hot oven if necessary and serve.

Joe Smith has returned from a business trip into Oklahoma.

Miss Gladys Wyrick of Panhandle has been the guest of Miss Lottie Bonds.

Biggs Horn returned Wednesday from Terrell where he has been visiting friends.

Mr. and Mrs. J. L. Stroope and daughter, Miss Donnie Lee returned Thursday after an enjoyable vacation in Saliga, Colo.

Jack Dean attended the fair in Amarillo Thursday.

Mrs. Harry Edinborough and Mrs. J. C. Jackson of White Deer were visitors in Pampa Thursday.

Mr. and Mrs. J. O. Morrow were in Amarillo Thursday on a business trip.

Mrs. Ruth Sewell is visiting in Miami today.

L. T. Hill, president of the Hill department stores of Oklahoma City, is in town on business. He is accompanied by Mr. Wellon, advertising manager of the firm.

Miss Manetta Bingham, who has been visiting Mrs. N. A. Helstand, is returning to her home in Denver, Colo., today.

Mr. W. D. Benson of Lubock was in Pampa on business Thursday.

Mr. and Mrs. N. A. Helstand are visiting in Amarillo today.

Tom Hughton of Dallas was here Thursday.

Mrs. J. H. Clay is very ill following an attack of appendicitis.

Briggs Kersey made a business trip to Amarillo Thursday.

Albert Lewter is leaving today for Waco where he will enter Baylor university.

Mrs. John Lewis Is Club Hostess

Mrs. John Lewis delightfully entertained the Thursday Bridge club at her home Thursday afternoon. High score for the club was won by Mrs. John Studer and high score for the guests was awarded Mrs. P. O. Sanders. The cut prize was won by Mrs. Childs.

After several interesting games, delicious refreshments of pie and coffee were served to the following guests: Mrs. P. B. Carlson, Mrs. Walter Coffey, Mrs. John Studer, Mrs. Morris Finney, Mrs. P. O. Sanders, Mrs. Stalls, Mrs. Childs, Mrs. C. T. Hunkapillar, Mrs. DeLea Vicars, Mrs. B. L. Thomas, Mrs. Charles Cook, Mrs. Raymond Harrah, Mrs. John Cram, Mrs. Holloway, Mrs. J. D. Sugg and Mrs. Ashby.

Embroidery

Black embroidery on tan silk draws the interest to the knee in new hose for fall.

Looks the Part

Marie Scheling of Philadelphia not only has grand opera ambitions but she has often evoked comment by her resemblance to Madame Jertiza, the diva. Critics say that Marie's dramatic soprano eventually will win fame in the world of voice.

The Intermediate Christian Endeavor will hold a cooked food sale at the Woodward-Lane grocery Saturday, at 1 o'clock.

Miss Euritha Henry returned Thursday from Saliga, Colo., where she has been visiting for the past month.

Local Man Wins Prizes On Dogs At Tri-State Fair

J. N. Dean, local dog fancier, made a creditable showing with his German police dogs at the Amarillo Tri-State fair in Amarillo this week. His dogs would have received higher reward no doubt if Mr. Dean had been present at the time of judging but he was not notified when that event would take place.

Mr. Dean's Gorman police dog, Billo Von Trankfeld, a black and tan pedigreed dog he received from Germany eight months ago, took third place in its class.

Victoria of Pampa, a thoroughbred silver gray police dog, received third prize in the class for American bred police dogs and also a third prize in the novice class.

Peggy, a snow-white dog, was not placed on account of bad condition due to strange handlers.

BIG PAVING PROGRAM

CENTERVILLE, Sept. 16. (AP)—Preparations are now being made to pave two state highways and to build lateral roads into Leon county from the proceeds of a bond issue of \$1,350,000 which was carried by a vote of 3,039 to 727. Only two votes were cast against the proposition at Buffalo where 362 were cast for it. County Judge W. C. Lacey said the vote was the largest ever recorded in the county.

The two state highway projects total 25 miles. One is State Highway No. 43, known as the "cut-off" from Houston to Dallas, and runs north and south, and the other is highway number 32, which traverses the country from east to west.

Extra Miles without a knock

YOU expect extra miles from Conoco Gasoline—and you get them.

And now—for just 3 cents more per gallon—you can make these extra miles absolutely knockless—no matter how choked with carbon the engine may be.

This revolutionizing motor fuel is a combination of Conoco, the extra-mile gasoline, and Ethyl Brand of Anti-Knock Compound—a product developed in the great research laboratories of General Motors Corporation.

There is no fuel comparable with Conoco Ethyl Gasoline. It absolutely knocks out that "knock" and turns carbon into power.

CONTINENTAL OIL COMPANY Producers, Refiners and Marketers

## SPORT TALK

Monday night is wrestler's night at the Pampa Athletic club and two champions will be seen in action. Bobbie Chick, champion of five states will meet Hinson Hussan, the terrible Turk, who is the undefeated wrestling champion of Turkey and almost all of the states in his class.

With the eighth straight win yesterday, the Pirates crept nearer the National league pennant. The Giants and Cardinals continued to split doubleheaders. For the past three days those two teams have split their games and for the past five days have been tied for second place honors.

Don't forget the Grays' fight party next Thursday night. The Grays ended the season with a deficit and rather than ask for donations, the team, which has been self-supporting all season, is putting on a party with the assistance of the Pampa Daily News.

The Yankees haven't succeeded in winning that 100th game yet. The Indians took another yesterday with a home run in the sixth.

Tyrus Cobb, that old man in baseball, was up to his old tricks again yesterday when he engineered a double steal in the seventh, defeating Chicago for the third game of the series.

Mr. and Mrs. W. B. Henry, and daughters, Miss Ruth and Mrs. Lloyd Bennett left this morning for Abilene, where Ruth will enter Simmons college.

have "it," which in baseball means "power," batting strength that makes for runs.

## BILLY EVANS Says

**Lot of Bush**  
What a lot of piffle this talk about the New York Yankees trading some of their best players in order to equalize the playing strength of the American league.

For 20 years the New York Americans annually waged a losing battle for honors in the American league, a goodly portion of the time finishing in the second division.

During those years the New York Giants were meeting with unusual success and the National league enjoyed a commanding prestige with the followers of baseball in Gotham.

It was a well-known fact that strong representation in New York by the American league would be a fine thing for the organization as a whole, particularly in a financial way for in the biggest city in its circuit the American league had only an ordinary team that didn't draw any record breaking crowds as did the Giants.

During the final stages of the race Washington got into a position where the players believed they offered a threat. When the two clubs met, New York won three out of four games and started Washington on a slump that didn't end until that club had lost 12 straight.

A little later, Detroit, with 13 straight victories to its credit, met New York in a three-game series. The Tigers expected to continue at the expense of the Yanks, make their second place berth more certain, and retain a stronger mathematical chance for the pennant.

New York won all three games and started the Tigers on the road to ruin, Detroit suffering eight straight defeats before winning a ball game. The Yankees certainly seem to

At various times it was hinted, always erroneously, that other clubs in the American league would turn over some of their reserve strength in an effort to bolster the New York Americans.

**Yanks Not to Blame**  
With a very few exceptions, any of the players ever turned over to the Yankees by other clubs was material that just couldn't be used.

Twenty years of waiting and plugging was a long time but in 1921 the efforts of the Yankee officials were rewarded with a pennant. Three of them have followed since, while another is just a few weeks away.

True, the New York club does to a certain extent outclass the rest of the field in the American league, but the Yank management can't be blamed for that. The responsibility rests with the other seven clubs, including magnates, managers and players.

New York has built up a machine that should travel in high speed for several years more. When the club slipped in 1925, Manager Huggins saw the hand writing and added new material that came through.

Such players as Combs, Gehrig, Lazzeri, Koenig, Moore, Pipgras and others have been developed by a good scouting system and proper coaching. Try to get any of them from the genial Colonel Ruppert and the wise Miller Huggins.

**Have Powerful Club**  
It is a baseball proverb that in order to win pennants you must knock off the closest contenders.

The Yankees, in the runaway race the club has made in the American league, has been able to do that very thing in a most convincing manner. So-called crucial series have been soft for Huggins & Co.

## Gene Tunney Gaining Steadily In Height, Weight and Muscle

By EDWARD J. NEIL  
(Associated Press Sports Writer at  
Tunney's Training Camp)

CHICAGO—It is difficult to think of Gene Tunney as a "growing boy" at the age of 29, but the heavyweight champion of the world has yet to reach the peak of his physical development.

At an age when non-athletes are turning to golf and stars of other sports are watching grimly for signs of "slipping," Tunney is growing taller, adding to muscular development, and gaining steadily in weight.

In the past two years, Gene has stretched his height to 6 feet 2 inches, a gain of half an inch since reaching the age of 27. In 1919, shortly after Tunney returned from overseas service with the Marines, he scaled a bare 168 pounds.

Today the conqueror of Jack Dempsey weighs around 192 pounds and is a bit fearful that the steady development of his body will force him to enter the ring for the return battle with the Manassa Mauler, Sept. 22, at least two pounds over the 186 he weighed at Philadelphia last fall.

The heritage of Irish forbears who matured late in life, a healthy outdoor existence, and scientific pursuit of size and strength are the three reasons Tunney assigns for his unusual development. Gene does not believe he will reach the peak of his prowess for at least another year.

To Tunney's mind, the most important factor in his steady growth since passing the normal age of maturity has been the steady application of every thought and act toward the development of the body of a heavyweight—and the skill and strength of a champion.

Every minute of the titleholder's spare time is spent in the open, tramping when possible in the woods around Speculator, N. Y., or hunting and fishing in the Maine woods. Gene is never really out of training. Even days of relaxation contain exercise of one sort or another calculated to build him up physically.

Already the champion is planning the "bigger and better" edition of Tunney that will make its appearance in 1928, for Gene has no immediate

thought of quitting the ring. "Boxing is the ideal career for me," he says. "It fits my temperament. My body has been moulded to its most exacting demands. Some day I must retire from the ring and seek a championship in some other line of endeavor. Certainly I will not be fighting when I am 33 or 35 years old regardless of my physical condition."

"But for the time being, this is my life, my livelihood. I love it and I can never take into any other venture the consuming desire for success that has carried me to the head of my chosen profession."

## Madrid Pins Medal On Street Sweeper

(By The Associated Press.)  
MADRID, Spain—Jose Lopez Espasandin has been awarded a medal of labor by the city of Madrid—an emblem just like one which General Primo de Rivera, Spanish dictator, wears.

Jose is 81, and for 64 years he has been a street sweeper on Madrid pavements. The decoration is in tribute to his homely philosophy—a conviction that he has found happiness in life because he likes his work and because he earns enough to satisfy his meager needs.

At 17 Espasandin had the same ambitions that other boys cherish the world over. He started out to find fame. But he never got farther than the streets of Madrid, and the highest honor life has brought to him save only the decoration with a medal has been his selection by the city council to head the gang of city cleaners which labors in the vicinity of the Central Market.

Jose was born in the village of San Andres, and when he reached 17 his father thought it time for him to go out into the world to seek his fortune. With the paternal blessing and \$7 he and a younger brother set out on foot for the city of Madrid.

Instead of finding streets paved with silver the boys found their funds dwindling, and the city was heedless of boys seeking fame. Jose worked as a bricklayer's helper and quit that task in 1863 to sweep the streets at 38 cents a day.

## Penn's Punter

Here's Paul Scull, star kicker of last year's eleven at Pennsylvania, showing Coach Lou Young he can still handle the punting job for the Penn team. It's quite a nifty outfit Scull is using these warm days, isn't it?

The years have brought him some increases in his meager pay, but more notably they have brought him contentment. His employment is constant, and before him is a constant panorama of life. He remembers, as if it were yesterday, the excitement in 1866 at the outbreak of the sergeants of San Gil, and tells proudly how as a city functionary he was

## New Orleans Man Is Commissioner On S. American Trade

(By The Associated Press.)  
HOUSTON, Sept. 16.—Appointment of Charles M. Ehninger of New Orleans as American lumber trade commissioner to South America is of considerable interest to Texas lumbermen, in the belief of Ernest L. Tutt, manager of the Houston office of the Department of Commerce.

Mr. Ehninger is fully equipped for his job, Mr. Tutt indicated. He has been associated, he said, with export business in New Orleans for a long period. Previous to the World War he was employed by a New Orleans general exporting house. In 1919 he entered the service of a New Orleans lumber firm and finally was made export manager. In 1922 he entered business as a lumber exporter for himself and two years later became superintendent of Latin American agencies for another lumber concern.

Mr. Ehninger, according to Mr. Tutt, is thoroughly familiar with various Latin American markets and problems North American exporters are apt to meet in those areas. His information is first hand which he secured through extensive travel in the West Indies, Mexico, Central America and countries of South America.

For the next year it is expected that he will devote his attention almost entirely to the River Plate countries of Argentine and Uruguay which is regarded as the largest and most important outlet for American woods and by far the most important American market for coeprage products.

commandeered to clear the streets of barricades and to erase the signs of slaughter.

### DANCING CLASS NOTICE

Some of my advanced pupils have urged me to continue my classes in Pampa one day a week, while I am in Amarillo. Therefore, if there are enough new pupils interested in organizing a beginners class to make it possible for me to do so, I will conduct classes every Saturday afternoon at my home in West Pampa. These classes will be organized Saturday, September 25, or not at all, so every one interested please call Mrs. C. T. Hunkapillar for particulars within the next week.

MRS. L. C. McMURTRY

## Why we sell the DUNLOP TIRE

FOR 39 YEARS Dunlop has been building the world's supreme tire. Dunlops wear longer because Dunlop knows how to build better at each vital point.

Take the hidden carcass beneath the tread. Dunlop owns its own cotton mills for no other purpose than to spin the best long-fibre cotton into the famous cable-twist cord that goes into this carcass.

The extra strength in these cords means an added factor of safety against constant load and pounding of roads—longer life and greater mileage.

The extra "stretch" enables the carcass to give under severe blows, and to come back into its original position without internal injury.

The Dunlop tread—the toughest rubber development known—wears slowly and smoothly, making sure that you get out of your Dunlops, all the extra mileage that added care and longer experience have built into them. We recommend that you put Dunlops on your car.

**Assault Charges Against Babe Ruth Dismissed Today**

(By The Associated Press.)

NEW YORK, Sept. 16.—Charges of assault brought against Babe Ruth by a man who asserted that the baseball player attacked him on Broadway were dismissed today.

**CARLSON IS HONORED**

In recognition of service to his company P. B. Carlson has received a pass for a trip to the home office of the American Central Life Insurance company at Indianapolis. He left today and will attend the Tunney-Dempsey fight in Chicago as the guest of his company.

**SEE TOWN BY MOVIE**

LONDON (AP)—A score or more of men sit daily in a darkened room off Edgware road looking at lantern slides projected on a screen. They are learning London so they can pass police examinations for chauffeur and taxicab licenses. By means of 3,000 slides they study the 51 square miles of London thoroughfares, learn to locate buildings, clubs and public places and find out all a chauffeur needs to know to know how to get about the town.

**Women Are Listed As Speakers For National Safety Council**

(By The Associated Press.)

CHICAGO, Sept. 16.—A home maker and a professional woman will tell the National Safety Council at its annual meeting in Chicago, September 26-30, how women may help in preventing accidents.

Mrs. Bertha Winter Mahoney of Erie, Pa., will outline the housewife's hazards and tell how safety may be obtained in the kitchen. Her subject is "Home Safety as the Home Maker Sees It."

Dr. Bernice Neuberger of Cleveland will talk on "Developing a Community Program for Home Safety."

Mrs. A. H. Reeve, president of the National Congress of Parent-Teachers association, will be another speaker.

**SMART GIRL**

(By The Associated Press.)

MOSCOW, Sept. 16.—Wilmer Hooper is an up and coming girl, judging from her leadership of Polk county garden club girls who work under the leadership of agents for the A. and M. college extension service.

At one time during the growing season one of the agents reported she was distressed about her cabbages, turnips, radishes and mustard, which were being stunted by insects. "I told her to spray them with nicotine sulphate," the agent said, "which she used with good results. She told me that the results were that she sold \$15 worth of cabbages and onions each and \$13 worth of lettuce in a nearby market."

Girls, club and otherwise, might be interested in the concluding sentence of the report which said: "She does her own plowing."

**LOTS OF TOURISTS**

SAN ANGELO, Sept. 16 (AP)—A tourist crop has become so great here that the Board of City Development has taken official notice of it. It has created a tourist division and has directed its efforts toward erection of facilities for securing and taking care of tourists while traveling through here.
