PAMPA ROAD BONDS ARE PASSED

Pampa Independent District Schools Open Tomorrow

50 TEACHERS IN CITY FOR 1928 SESSION

Formal Opening to Be Held at High School At 8:45 a. m.

TEACHERS WILL BE ENTERTAINED

Supt. Campbell Tells How Pupils Will Be Distributed

Pampa's young people, armed with school supplies and prettied up by careful mothers, will officially close their vacations tomorrow and surrender a big portion of their time to the more than 50 teachers of this independent district.

The Harvesters preceded their classmates by a fortnight in answering the call of school days, and are rounding into condition for the game with Quannah here September 16.

A formal opening of the high school division will be held at 8:45 a. m. tomorrow in the central auditorium. This will be for high school students and visitors only, as the high school auditorium is not large enough to accommodate the grade pupils.

Pupils below the high school will go to their respective buildings, and enrollment and classification will be given at once. High school seniors will be classified immediately after the opening program, and juniors, sophomores, and freshmen will appear for the purpose at 1 p. m.

New Books Added

Classes will begin Tuesday morning. It is believed that the supply of text books is ample. More than \$1,000 worth of reference texts have recently been added to the library.

Next Friday evening at 8 o'clock the P. - T. A. will have a reception for the teachers. It will be given at the I. B. Hughey residence.

Supt. R. C. Campbell yesterday issued the following statement concerning the distribution of pupils:

"All pupils living south of the San-

Pastor's Nurse Held After Death Of Enid Women

ENID, Okla., Sept. 10. (AP)—While Miss Mary Atkinson, nurse in the home of Rev. Charles Bailey here, awaited in her cell the outcome of an analysis of the viscera of Mary Jane Baily, 18 year old, officials today lifted again the evidence which caused her detention for questioning.

The pastor's wife also died about two weeks ago.

The minister yesterday denied he had any relations with the nurse other than such as were compatible with his position as her pastor.

Good News For The News Family

Mystery. Intrigue. Action.

The Pampa Daily News will release its first fiction story next Wednesday, and installments will appear daily thereafter.

It is a brand new mystery story by S. S. Van Dine, written for and copyrighted by Charles Scribner's Sons, famous publishers, who recommend it highly. It is released by the Newspaper Enterprise Association.

This story is going to be the talk of the community. Be sure you and your friends begin the story with the very first chapter.

PAMPA FIELD HAS FINE NEW WELLS

Sister Brides

A coup for cupid was the triple marriage in Brooklyn, N. Y., of three of the six pretty daughters of Mrs. Elizabeth Brennan. Their three sisters served as bridesmaids. Here you have the couples leaving the church (bottom to top): Mr. and Mrs. Warren Schneider, Mr. and Mrs. George Halter and Mr. and Mrs. Thorwald Brekka.

BROCK LANDS IN HONGKONG

Royal Windsor and Levine May Quit Attempts

SHANGHAI, Sept. 10. — The round-the-world plane Pride of Detroit arrived here from Hong Kong after a flight of 780 miles.

The plane landed at the Chinese national government airbase 10 miles outside of the international settlement.

WASHINGTON, Sept. 10. (AP)—Steps to prevent long distance flights over water by land planes were recommended in a report to the navy department by Lieut. Ben Wyatt, who served on the committee which inspected the Dole flight planes before the take-off from San Francisco.

LONDON, Sept. 10. (AP)—Chas. Levine announced today that unless weather conditions improve by Monday he would abandon his proposed westward trans-Atlantic flight to the United States.

WINDSOR, Ont., Sept. 10. (AP)—The flight of the Royal Windsor to England was definitely abandoned today. V. A. Schiller, the pilot, wired the local flight committee from Harbor Grace, Newfoundland. He said he and Phil Wood, co-pilot, would return here as soon as possible.

SHANGHAI, (Sunday) Sept. 11. (AP)—The monoplane Pride of Detroit, with pilots Brock and Schlee, hopped off at 5:32 a. m. today for Tokyo. The weather was favorable for the 1,200-mile flight. Most of it was over the water.

Gulf No. 1 Bowers Is Spraying 15 Barrels Hourly; Pollard No. 1 Has 300 Barrels Daily

The Gulf Production company's No. 1 Bowers, in section 92, block B-2 is spraying about 15 barrels an hour at 2,960 feet. First pay was reached at 2,908 feet and the second at 3,928 feet. As drilling continued the flow increased and the company is continuing drilling. The well is making 3,500,000 feet of gas and a large well is expected in today.

The Pollard Oil company's No. 1 Bowers, in section 119, block B-2, was swabbing 300 barrels at 3,160 feet. A shot of 460 quarts was used yesterday afternoon and cleaning out is in process. The well looks good for 1,500 barrels at the present time.

The Blackwell-McGee Oil company's No. 1 Bowers, in section 93, block B-2, is a few feet in the oil sand and swabbing 500 barrels a day. The company plans to go deeper and expects a larger well than its No. 1.

The Blackwell-McGee Oil company's No. 1 Bowers, in section 92, block B-b, is flowing more than 500

barrels a day and has not been cleaned out for some time.

The Gibson Oil company's No. 1 and No. 2 Bowers in section 92, block B-2, is drilling ahead at 2,290 feet. Each well had a heavy flow of gas.

The Operator's Oil company's No. 1 Bowers in section 85, block B-2, is drilling ahead at 2,700 feet with a flow of gas.

The Magnolia Production company's No. 1 Heiltholt, in section 152, block 3, Gray county, deepened its well from 3,286 to 3,288 feet and found an increased flow. It is drilling deeper and standing with 500 feet of oil in the hole.

One of the most important of recent wildcat completions was the Gray County Petroleum company's No. 1-A Chapman, section 70 of block 25, now making 250 barrels from the granite wash at 2,841-56 feet. The Prairie Pipeline company has run a gathering line to it.

Coolidge Avoids Agriculture In Speech; Stresses Value of Ideals In Education Offered In Colleges

(By The Associated Press.)
BROOKINGS, S. D.—Sept. 10.—Journeying toward Washington from the agricultural Northwest, President Coolidge stopped off in this city today to dedicate the Lincoln Memorial Library at the South Dakota State College with an address devoted almost wholly to education and marked by the absence of any reference to the farm relief fight or any other controversial problem.

Politicians who had confidently predicted that Mr. Coolidge in speaking at an agricultural college ceremony would take the opportunity to outline the farm relief plans of the administration were disappointed, for the President swung the trend of his speech around toward the spiritual value of education and a eulogy of the part played by Abraham Lincoln in this direction.

Science Is Stressed
"We have been excessively busy seeking information that could be turned to practical advantage in the matter of dollars and cents, rather than for that wisdom which would guide us through eternity," Mr. Coolidge said. "Our higher educational institutions have turned their thoughts especially to the sciences, and our secondary schools to vocational training. . . . How poor and weak and generally ineffective we should be without these advantages should be at once seen by the most casual observation of those nations among which they have been neglected.

"This is by no means all that is to be expected from American education and American institutions. I can not conceive that the object of Abraham Lincoln was merely to instruct men how to raise more corn, to feed more hogs, to get more money to buy more land, and so on in the expanding circle, as the story goes. Of course, he wanted to teach men to raise more corn. But his main object must have been to raise better men. We come back to the query that is contained in the concentrated wisdom of the ages, "What shall it profit a man if he gain the whole world and lose his own soul?"

Need Spiritual Values
"All of our science and all of our arts will never be the means for the true-advancement of our Nation, will never remove us from the sphere of the superficial and the cynical, will never give us a civilization and cul-

ture of any worthy and lasting importance unless we are able to see in the outward manifestation of a spiritual reality. Unless our halls of learning are real temples which are to be approached by our youth in an attitude of reverence, consecrated by worship of the truth, they will all end in a delusion. The information that is acquired in them will simply provide a greater capacity for evil. Our institutions of learning must be dedicated to a higher purpose. The life of our nation must rise to a higher realm.

"There is something more in learning and something more in life than a mere knowledge of science, a mere acquisition of wealth, a mere striving for place and power. Our colleges will fail in their duty to their students unless they are able to inspire them with a broader understanding of the spiritual meaning of science, of literature, and of the arts. Their graduates will go out into life poorly equipped to meet the problem of existence, to fall an easy prey to dissatisfaction and despair.

Ideals are Outlined
Many of our older universities were founded by pious hands at a great sacrifice for the express purpose of training men for the ministry to carry the light to the people on the problems of life. Unless our college graduates are inspired with these ideals, our colleges have failed in their most important function and our people will be lacking in true culture. Abraham Lincoln, who was the most spiritual of our presidents, had a true appreciation of this principle.

The President paid high tribute to the pioneering spirit that had developed in the state of South Dakota and the West generally.

"We cannot fail to stand in respectful admiration for a people whose courage and ability have been crowned with such remarkable accomplishments," he said in speaking of South Dakota, adding: "But this is only typical of the growth and progress of the West, and the West is only typical of the growth and progress of America."

BALLOON RACE STARTS
DETROIT, Sept. 10. (AP)—Bearing the colors of eight nations, fifteen balloons floated from the Ford airport here today and began the sixteenth international balloon race.

To Hunt Redfern

Richard Marsh, of Brockport, N. Y., discoverer of the "white Indians" of Central America, who is to head an expedition to the delta of the Orinoco river in search of Paul Redfern, lost Georgia-to-Brazil airman. With the search Marsh will combine exploration for the Smithsonian Institute, Washington.

Satterwhite In Speech Declares For State Rights

(By The Associated Press.)
WASHINGTON, Sept. 10.—There is a need for restoration of self-government through a check-up on centralization of power in the federal government, Lee Satterwhite, former speaker of the Texas Legislature, today declared in an address before the committee preparing the program for the annual convention of state legislatures.

"There are many steps to follow in the march back to re-adjustment on the basis of sanity and justice between federal and state governments," he declared in outlining a series of alleged problems of state rights.

"The immediate aim of the conference's program should be the repeal of the federal estate tax," he urged, adding that "to levy an inheritance tax is no federal right and it has ever belonged to the states and never has been granted by the states to Congress."

Refuses Use of Surplus to Use In Flood Relief Work

(By The Associated Press.)
WASHINGTON, Sept. 10.—Comptroller-general McCarl today again refused to authorize the war department to use \$2,000,000 of the 1927 unexpended rivers and harbors appropriation for Mississippi flood work.

COL. WORTHAM DIES

GREENVILLE, Sept. 10. (AP)—Col. Louis Wortham, author-journalist, and former member of the legislature died at the hospital here today following a short illness. He is survived by his widow and a number of relatives.

413 FOR ISSUE AND 195 WERE IN OPPOSITION

23 Votes More Than Necessary For Two Thirds

SEVEN BALLOTS ARE MUTILATED

Low Tax Rate Will Be Necessary, Figures Show

The road bonds carried by 23 votes more than the necessary two-thirds majority.

The vote was 413 for and 195 against. A total of 390 favorable votes would have given exactly the two-third majority. Seven votes, most of them for the bonds, were thrown out because the ballots were wrongly marked.

One more step in the forward march of Pampa's progress toward a real city was taken Saturday in the voting of \$400,000 in bonds to pave approximately 42 miles of roads leading in six directions from the city.

Supporting the claims of proponents of the issue, it was learned by the News Saturday that the valuations in Gray county will run close to \$12,000,000, of which about \$6,800,000 is in oil properties or related values. The tax to pay off the interest and principal of this relatively small issue could be as low as 30 cents on the \$100, it was stated by one tax authority.

It also was learned that the state and federal authorities are ready to go forward with their part of the Pampa paving, and likely will have as much as \$15,000 a mile to use in this special road district. These officials are eager to help form a connected system of paving in the Panhandle. When the Randall and Carson county paving programs are completed, Pampa will then connect near Kingsmill with a solid stretch of paved highway from Canyon.

News of the passage of the bonds spread rapidly last night as many persons called the Daily News for the result.

"Good, isn't that just fine?" was a favorite expression in answer to statements of the vote.

French Take Davis Cup, Winning Both Singles Matches

PHILADELPHIA, Sept. 10.—The Davis cup, most highly prized tennis trophy, passed today from America to France for the first time in its history.

In a dramatic uphill fight to victory France's youthful stars broke through the defense of America's veterans, Tilden and Johnston, capturing both morning singles matches.

Trade Day To Build Pampa

Trade Day, as a Pampa institution, is not merely a shopping day like some of the oldtime events. It is a get-acquainted-with-Pampa occasion which will be held one day each month.

Pampa's future depends upon its becoming the trading center of this oil area. Trade Day has been organized to make this possible. Special bargains will appear in the News tomorrow, showing positively how it will be to the advantage of everyone to trade in Pampa next Wednesday. There will be special entertainment features during the day.

Tell your friends to come to Pampa next Wednesday.

Battles Are On For Player Leadership In Baseball

HEILMANN IS WELL IN LEAD

American Association Has Aggregation Of Hitters

(By The Associated Press.)

CHICAGO, Sept. 10.—Harry Heilmann's fourth batting championship of the American league is almost within his grasp. With only three weeks to go, the Detroit veteran, champion in 1921, '23, and '25, has a lead almost safe enough to carry him through, only one point shy of .400.

Heilmann's only rival among those who have played more than 100 games is Lou Gehrig who just now is having his hands full in keeping up with Babe Ruth's terrific home run pace. In averages compiled today, including Wednesday's games, Ruth had cracked out six homers for the week, two more than Gehrig, and the Babe had a lead of four on Columbus Lou. Just ten more shoots over the fence and Ruth would equal his 1921 season record of 59.

Al Simmons, who had been on the Athletics bench for quite a while, played one game this week and three points was shaved off his batting percentage. He has second place in the standing but has played only 90 games, and so is unlikely to become the first right-hand hitter in many years to win the batting crown.

In a Group

These three are in a group by themselves, thirty points ahead of the others in the first ten batting list, with Babe Ruth the nearest of the field to them.

The top of the pitching list reads like the roster of the New York Yankees' moaned staff, starting with Waite Hoyt, first among the regulars, who has won 19 and lost five. Then come Shocker, Reuther, Piggas, Thomas, Moore and Pennock, followed by the rest of the flingers in the league.

Ted Lyons of the White Sox has chalked up the most victories, 20, and Eddie Rommel of the Athletics has the highest percentage, though he has won but eight games. Lyons has pitched almost the equivalent of thirty full games, with less than a run per inning off his shoots.

Leading American league batters: Heilmann, Detroit, .399; Simmons, Philadelphia, .391; Gehrig, New York, .381; Ruth, New York, .352; Combs, New York, .350; Fothergill, Detroit, .349; Meusel, New York, .346; Cobb, Philadelphia, .345; Speaker, Washington, .352; Goslin, Washington, .340.

Hornsby Managing Well

The cares of managing a pennant contender, while John McGraw is ill or otherwise occupied, this time have not affected the batting eye of Rogers Hornsby. The former Cardinal and heir apparent to the control of the Giants, having unseated one of the three musketeers of the Pittsburgh Pirates, has now ousted a second one. Today Hornsby is himself in second place in the National league batting race.

Another batting championship, for Hornsby, though, is unlikely unless Paul Waner, the foremost of the Pirate trio, suffers a complete collapse, for Brother Paul today enjoys a 27 point lead on Hornsby with only three weeks left of the season.

Joe Harris followed Clyde Barnhart down the ladder when Hornsby staged his upward rush, and Barnhart kept on slipping until he is now in ninth place. Brother Lloyd Waner has climbed upward to take the burden of regaining the laurels of the Pirate trio. Harris is third and Lloyd fourth, just back of Paul Waner and Hornsby.

Shedding a few points each week, Frankie Frisch has fallen to seventh place in the standing, and now his leadership in stolen bases is threatened. Frisch failed to connect this week while Hendrick of Brooklyn gathered five, and is only five more behind Frisch's mark of 34.

Benton Going Great

Though Rube Benton may not have been able to do much for the Giants, he has been going great in the hill for the Braves, and is now in first rank among the National league pitchers, with a score of fifteen victories and only four defeats. None of the regular moundmen can show as low a figure in losses. Another graduate of the Giants, old Jesse Haines, now of the Cardinals, is second among the tollers in the turret, and his list of 22 victories is also second highest in the league for the season.

Charley Root of the Cubs leads in games won with 24, but he was split for a loss in his weekly turn last

Puts Cubs At Top In Two Seasons

CHICAGO, Sept. 10. (AP)—In two seasons "Fighting Joe" McCarthy, manager of the Chicago Cubs, has taken a tail-ender in baseball's big show and landed it at the top of the list.

McCarthy's fighting personality, his ability to instill a never-say-die spirit in his men, his close study of the game and his firm handling of his players are said to be the reasons for his success. He is known as a boss without strings from the "higher ups."

McCarthy is always found down

on the third base line, watching every opening. If he thinks he will be able to put across a run by pulling out a pitcher, out comes the pitcher.

The bench is the Cubs' classroom. McCarthy demands that horse play and kidding cease there, and insists that every player concentrate on the game and make suggestions. He wastes no time on a player who doesn't do what he wants him to do. Study the game and play to win is McCarthy's maxim.

Leading batters of the National league: P. Waner, Pittsburgh, .388; Hornsby, New York, .361; Harris, Pittsburgh, .359; L. Waner, Pittsburgh, .340; Stephenson, Chicago, .339; Traynor, Pittsburgh, .337; Frisch, St. Louis, .335; Farrell, Boston, .332; Barnhart, Pittsburgh, .330 and Harper, New York, .327.

High Averages

With all the first division clubs in the American association clouting better than .300, it is no wonder there are 57 batters in the circuit hitting above .300. But Toledo has the edge in top notchers with four of her regulars counted among the first ten.

The lowly Colonels at last have a representative in that select crowd. Guyton gaining twelve points in averages compiled today including Wednesday's games to take seventh place. That crowded out the Millers' old delegate, Ollie Tucker, but on the heels of the first ten, the Kels have five slingers, all hitting above .340, which may suit Manager Kelly better than only one hitting above that mark.

Three of this quartet of Millers have all the home run honors in sight in the association. Frank Emme leads with 29. They nearly match the New York Yankees' wrecking crew.

Russell Steams Up

While the contenders were fading in the stretch, Reb Russell put on a bit more steam and has a lead in first place among the sluggers of fifteen points. His pitching arm may have gone back a bit, and there was some talk of his legs showing their age, but the figures prove his eye is growing keener with the years.

A three game lead in victories is Oscar Orwoll's margin of eminence among the association pitchers, with Palmero of the Hens in second place. Each won his start this past week, while Zinn of the Blues broke even in two tries. Sheehan chalked up another victory, to keep one in front of Zinn in games won, with 23 victories for the season.

Leading batters of the American association are: Russell, Indianapolis, .390; Grimes, Toledo, .375; Orwoll, Milwaukee, .373; Hauser, Kansas City, .368; Kirkham, Columbus, .360; Veach, Toledo, .358; Guyton, Louisville, .357; Ricoda, Milwaukee, .356; Lebourveau, Toledo, .355; Heving, Toledo, .355.

Langford at .400

To make his .400 average safe for the rest of the season, Langford of Des Moines added one more point this week, reaching .408, which is likely to be one of the very, very few such marks extant when the gloves and bats are put on the shelf for the win-

ter. Pete Casey, back in the game again this week as a regular, dropped to even .400 and may slump out of hat class entirely if he keeps on playing.

The only other candidate for the .400 class, Adam Comorosky, late of Wichita, has gone to try his bludgeon against big league twirling, with Pittsburgh, leaving behind him a record of .395.

A league mark is stolen bases is being hung up by Joe Rabbit of Omaha, who has 47 to date, besides a batting average which gives him seventh ranking in the circuit.

Homers in Western

It seems to be the fashion this year for each league to have a home run hitting trio, and the Oilers have one which compares favorably with any league. Munson and Sturdy each got two this week and Bennett got four. Combined, they have driven the ball out of the park 74 times this year, Munson holding the lead now with 21. His regular weekly victory has raised George Blaeholder's total of wins this year to 26, with only nine defeats, but the season closes too soon for him to reach the charmed figures of thirty victories for the year. Black of Tulsa leads the league pitchers in percentage with twelve wins and two defeats. Ortman of Des Moines is runner-up to Blaeholder in victories with 21, and Davenport, who shares the pitching burden with him, has reached 20.

Besides the wizardry of Blaeholder's pitching, the Tulsans in gaining the pennant this year have had remarkable hitting. Their club average is .331, with an average of 5.5 runs per game. Des Moines, destined to finish third is runner up for batting honors, with their .303 the only other mark in the league better than .300.

Leading batters of the Western league: Langford, Des Moines, .408; Casey, Tulsa, .400; Comorosky, Wichita, .398; Bennett, Tulsa, .385; Munson, Tulsa, .380; Sturdy, Tulsa, .371; Rabbit, Omaha, .355; Cunningham, Des Moines, .350; Reagan, Denver, .348; Bliss, Wichita, .388.

Chick Takes Two Out of Three Falls On Mat

It took Bobbie Chick, champion middleweight wrestler, 25 minutes to take the first fall from Teddy Waters at the Pampa Athletic club Friday night. Chick lost the second in eight minutes, but won the last in half a minute with a body slam.

For the first 15 minutes things were pretty even, but Waters was having a shade the better of the argument, as he had Chick crawling for the ropes. The Pampa wrestler

Tunney Every Inch A Champion Says Sports Writer

By EDWARD J. NEIL (Associated Press Sports Writer at Tunney's Training Camp)

CHICAGO, Sept. 10 (P)—Has possession of the heavyweight title given Gene Tunney additional power even though his body has not gained a whit of additional strength since he won the title from Jack Dempsey last fall? Gene thinks so.

"Into the return fight with Dempsey at Chicago I shall carry the subconscious conviction that I am the master of my division, that I am the champion—to put it frankly; that I am good and have demonstrated my class.

"It is an instinctive reaction that probably never will form as a definite thought in my mind during the heat of the contest. But that knowledge of power, now a part of my subconscious mind as a result of my fight with Dempsey, has increased my confidence tremendously and made me a far better fighter."

The bearing of a champion shows in every move Tunney makes in the training camp. Seekers of autographs, determinedly storming his door, meet Gene's polite smile, a word or two, and the desired signature no matter what important matters may be pressing.

In training, Gene is every inch a champion. A sense of security, not at all affected, envelopes him as he smiles, swaps banter with his punch catchers, and then hammers home blows with ease and confidence. The dogged seriousness of pre-title days has disappeared in the realization that someone else must worry about winning the championship now that his own ring mastery has been proven. The burden of proof has passed into other hands.

had Chick in distress several times with leg scissors, arm holds, and head locks. Chick, strong and fast broke all holds. The first fall came at the end of 25 minutes on headlocks, three body slams, and a Japanese arm bar.

In the second fall Chick got tangled up in the mat and tore it from end to end. He then proceeded to pull Waters under with him and all that could be seen was the heaving of the mat. That piece of frivolity on the part of Chick probably lost him the second fall in 9 minutes, as he could not wiggle out on the sawdust floor.

The final fall came in a half minute. Waters took one body slam and was out. It was then that Chick proceeded to illustrate his superiority by stepping on Water's face.

SPORT TALK

Fight fans of Pampa have seen several wrestling matches but Friday night was the first time a wrestler has stepped on his opponent's face after he was out.

Joe Newton won another game for himself Friday when the Texans defeated Oklahoma City, 4 to 1. Gunter had a perfect day at bat with four hits.

The Giants and Pirates are still neck and neck for the leadership of the National league, with the Cardinals fighting and dangerous third. The Giants are taking the Cubs into camp daily, while the other two teams have to fight for their wins.

Friday night in Berger, Rusty Cahill took an easy victory from Kid Butler, who outweighs him more than ten pounds. In fact, Butler will be unable to meet Battling Walker Monday night here, as both his eyes were closed by a couple of Rusty's rights. The boy Butler is tough. Cahill worked on him steady, but he refused to go down for a count.

The Yankee steam roller is still on the warpath and St. Louis has gone down 20 times this season without a win. The Chisox, with Teddy Lyons pitching, allowed the Senators only three hits in Friday's battle.

G. C. MALONE Ambulance Service. Phone 181.

Twelve-Round Bout On Monday's Card At Athletic Club

What is expected to be one of the best cards put on by promoters Goben and Bolen of the Pampa Athletic club is all set for tomorrow night.

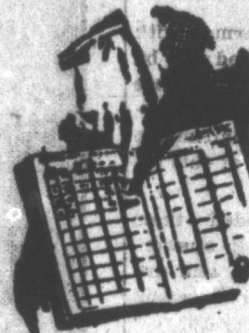

In the main event Kid Granite, 135 pounds, of Oklahoma City, is to meet Dick Bowers, 135 pounds, of Breckenridge, in a battle scheduled to go twelve two-minute rounds. Many local fight fans are looking for a K. O.

For a semi-windup, Frankie Farrell and Chief Gonzales will go 10 rounds to a newspaper decision. Both will seek a decision.

A battler, yet unnamed, will meet Battling Walker in a 6-round preliminary. Butler was to meet Walker, but Cahill spoiled that exhibition by sending Butler home with a pair of closed eyes.

FAIR WEEK SEPTEMBER 11th to 17th

**Welcome—Visitors From PAMPA
TUESDAY, SEPTEMBER 13th IS OIL FIELD DAY**

—AT THE—

AMARILLO TRI-STATE FAIR--BE THERE

By far the greatest and most interesting Tri-State Exposition ever held! And for Oil Field Day, a number of wonderful special events have been arranged that will make this occasion a big event for you and your city.

Plan now to spend Tuesday in Amarillo at the Fair—come early and look forward to a hearty welcome!

The events listed below are only a part of the hundreds of events and exhibits you can't afford to miss.

**AUTO RACES!
FEATURE OF
TUESDAY'S PROGRAM**

Automobile races will be a big Oil Field Day feature—famous drivers from all over the country are entered — records will be broken — and you are assured of the thrill of your life as these speed demons compete for the valuable prizes. Motorcycle races also on the program.

Something
Happening
Every Minute!

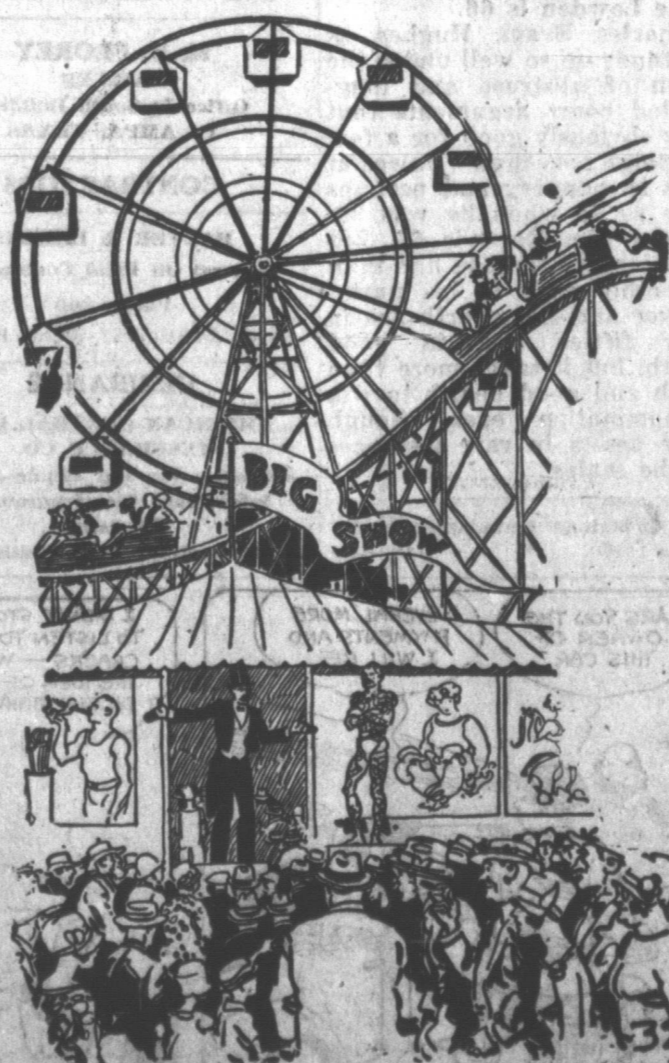

**BAND CONCERTS, FIREWORKS
DISPLAY, MARVELOUS LIVE-
STOCK AND AGRICULTURAL EX-
HIBITS, INTERESTING GOVERN-
MENT OLD STAMP AND
COIN EXHIBIT**

Daring! Thrilling!

SCHOOL CHILDREN! GET FR. E TUESDAY TICKETS FROM CHAMBER OF COMMERCE SECRETARY

**SPECTACULAR
Midway Attractions
8 RIDING DEVICES — WATER
CIRCUSES—JAZZ BAND —
15 SHOWS**

The Lackman-Carson shows, one of the most complete fair entertaining companies known, are bringing their thirty carloads of equipment to the Tri-State Fair. These big shows have a group of beautiful bathing girls. Among the many riding devices you will find many new to Panhandle folks, including the Hey-Dey, Caterpillar, Butterfly, Merry Mix-Up, and the old reliable: the Whip, Ferris Wheel and Merry-Go-Round. Special riding devices for the little tots, too.

**Ernie Young's
Revue**

**YOUTHFUL, BEAUTIFUL GIRLS
MUSIC—MIRTH**

Over 80 artists make up the company of Ernie Young's great Revue, brought to the Fair at a cost of over \$6,000.

Entertainers de luxe, this mammoth company has created a sensation wherever they appear. Their twice daily programs before the grandstand will be one of the feature attractions for the week. And it is an absolutely FREE grandstand attraction for every Fair visitor.

**2 MAGNIFICENT PROGRAMS
DAILY—BEFORE THE
GRANDSTAND**

ABOUT OIL—The nation at large has accepted the over-production theory of the malady hurting the oil industry. The Seminole pools have been pointed out as the production straw which broke the back of the industry.

But Seminole has cracked, statistics show that the oil stocks are not alarming, and the general opinion is that the long looked-for strides toward recovery should begin.

Oil barons and their motives are being given a searching investigation. Wild statements are being made. The truth is probably not to be found in the extremes of any argument.

The question which now occurs to anyone studying the oil situation is whether, when a similar readjustment occurs in oil, the prices will go up in similar fashion. The possibilities of such a happening are much smaller than in cotton.

It remains to be seen whether, after voluntary curtailment of production is fully accomplished, the oil industry will be competitive enough to recover its stability rapidly.

OLD TIMES—Gone, largely, are those good old days when the community pie supper brought out all the young bloods for miles around and many of them got "pied" in the modern sense.

The affair got under way, apparently, when a partizan pie server switched delicacies—and probably the affections of the baker fair—on a young man not in good standing in the immediate community circle.

Hearts, fingers and ribs

Thank Goodness, That's Over

suffered in the resulting altercation.

The good old days were good in many ways, yet the passing of the neighborhood feuds and the substitution of clean sports is an improvement. Modern sportsmanship is on a higher plane, except when some provincials, armed with the spirit—and perhaps spirits—of those olden days try to take a hand in school contests.

TEXAS EXPORTS — The nation at large is taking notice of Texas' growing importance as a manufacturing state. The facts speak for themselves. New York and Texas were pre-eminent among the states in furnishing commodities for export during the first quarter of 1927.

The department of commerce places the total merchandise exports for the quarter at \$1,175,020,509, and credits New York with furnishing \$193,190,065 and Texas \$172,035,780.

The nation's exports for July were the lowest for any month since 1925, but the slump was ascribed to a fall in prices, rather than in quantity of commodities.

The trade field is expanding, and carrying of both exports and imports in American owned ships is advocated. At the same time, Coolidge favors abandonment of the government operation of the merchant marine, declaring the industry is now able to care for itself.

The man who is continually cracking jokes about women's clothes, has very little to talk about.—The Harrisburg Patriot.

The man who hunts the dodo has a wife who tries to buy cotton stockings at Atlantic City.—The Lafayette Journal and Courier.

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON. — Certain statistics have been cited tending to prove that most of the current crop of presidential possibilities is likely to be disqualified because of age, but such a contention is not very convincing.

A presidential candidate is as old as his functions and the country has had five of them in their sixties. Furthermore, men live longer in this day and none of the possibilities are exactly feeble.

Governor Al Smith is said to have told some of his friends that his health wasn't so good and there is some question as to Lowden's physical fitness for a campaign.

Charles Evans Hughes at 65 stands up so well under the strain of abstruse and long-winded court arguments that he is obviously good for a few campaign speeches. Dawes at 62 is as peppery and perhaps more so as when he was 30.

Hoover and Longworth are in their fifties and in good health, but it takes more than youth and good health to win a nomination even though these assets in rare instances tip the scales.

G. C. Malone Ambulance Service, Phone 181.

JURY SYSTEM — The Children's Lions club is going to assist in law enforcement, says the index, by helping to improve the jury system.

Their methods, it is implied, will be to seek more effective sentences and militate against the suspended sentence. The index concurs when it says: "Educate men to render honest service when called as jurors."

So good so far, but remember that hardboiled justice consists in getting 12 men to think alike. The jury room is about the only place where unanimity of opinion is sought and the time will come when the majority will rule there as well as in other governmental affairs.

Too much now hangs upon the mere assumption of guilty

or not guilty, and not enough upon the opinion of a majority of examiners as to the fitness of a defendant to maintain his place in society.

Sureness of imprisonment, rather than fear of capital punishment, would deter many of the habitual criminals. Is not a man who commits misdemeanors repeatedly as much in need of segregation as the first offender who commits his first felony?

The thoughtful juror is apt to be hardboiled over many a case in which he is powerless to do what he thinks best.

TWINKLES

Every man ought to take out some life insurance. He might otherwise turn up missing and no one would pay any attention to the fact.

Partizans of Mr. Dempsey probably see in Mr. Tilden a quality on which to build their hopes. But Big-Bill doesn't let his arm or his skill get cold, and his "shell" just isn't.

Don't forget our need for an airport. Without one we might not appear any more hospitable than the middle of the ocean on a dark night.

Civic note: Trade Day specials will fit any pocketbook. Tell your friends to shop in Pampa next Wednesday.

West Texas girls will be warned not to get too friendly with Lindbergh. But Lindy shouldn't worry; our hero worshippers are not of the Bronx type or Parisian mood.

This is the time of year when it is positively dangerous to show ignorance of a hot pennant race, or to fail to remember where you read the name of Waner.

Uncle Sam's cotton estimators were the bug-bears of the south last year, but now they are more welcome than Santa Claus. Why can't Uncle Samuel prognosticate a little more accurately about oil?

A man isn't licked until he begins to blame his wife for his failures. — The Rochester Times-Union.

PRESS FORUM

Pampa News: Hard is the life of the trial court reporter in Gray county. Driving through heavy mud over roads filled with great holes made by oil field trucks two or three times a day to take down testimony and file it for the Associated Press and Panhandle papers is the task imposed by the isolation of the Gray county seat.

But the trial court reporter has it so easy, as compared with the lawyers and witnesses and jurors in the courthouse, he may be entitled to a bit of hardship on the road. Being a court reporter looks to State Press like the ultimate of good things.

HOME

In the Realm of Women

SOCIETY

Menus for the Family

By SISTER MARY

BREAKFAST — Peaches, cereal, cream, French toast, syrup, milk, coffee.

LUNCHEON—Bouillon, toast sticks individual potato salad, brown bread, baked apples with whipped cream, milk, tea.

DINNER — Chicken with mushrooms, candied sweet potatoes creamed corn, tomato surprise salad, peach ice cream, milk, coffee.

As long as tomatoes are in market there is no salad that can surpass them in form. When an elaborate salad is wanted smooth tomatoes of uniform size are delicious filled with any preferred combination of fruits, vegetables or fish jellied or plain.

The dinner suggested would make an ideal company luncheon of seasonable foods. The addition of a soup or cocktail would make the menu answer for a formal dinner. The sort of cocktail used will be determined by the stuffing used for the tomato salad.

Individual Potato Salad

Four or six cold boiled potatoes, 1 sweet green pepper, 1 cooked beef, 1 hard cooked egg, 1 small slicing cucumber, 1/2 onion, 4 tablespoons broken nut meats, tart cooked salad dressing, lettuce.

Chop potatoes quite fine. Remove seeds and pith from pepper and chop fine. Chop beet and egg. Pare and chop cucumber. Mince onion. Combine potatoes with pepper, beet, egg, cucumber, onion and nut meats. Sprinkle with salt and add salad dressing to make quite moist. Pack in custard cups rubbed lightly with salad oil and chill for several hours. Unmold on a bed of lettuce and mask each mold with mayonnaise. Serve at once.

Special Meeting Of P. T. A. Held

A call meeting of the Pampa Parent-Teacher association was held at the Central high school building Friday afternoon for the purpose of planning work for the ensuing year.

Owing to the growth of the school a number of changes were necessitated in order to facilitate the business of the organization. The members present voted to give the executive board power to transact the various business matters of the association.

A program will be presented at each meeting hereafter relating to child welfare, which should prove interesting and instructive both to patrons and teachers.

The association decided to sponsor a reception next Friday evening at the I. B. Hughey home in West Pampa, honoring the teachers in the several schools of the city. The general public is invited to attend and get acquainted with the teachers.

Mary Ellen Cook Entertains Friends

Miss Mary Ellen Cook was a charming little hostess to a number of her friends Friday afternoon. The time was pleasantly spent in playing forty-two. High score was won by Miss Virginia Rose and second prize by Miss Inez Barrett. Miss Lorena Qualls was awarded the consolation prize.

A delicious salad course and pie were served to the following guests: Lorena Qualls, Virginia Rose, Inez Barrett, Yvonne Thomas, Wanda and Pauline Barnard, and Margaret Schmidt.

WOMEN STUDY POLITICAL ISSUES AS FALL CAMPAIGNING STARTS

Mrs. Casper Whitney (left) of Irvington, N. Y., director of the National League of Women Voters; Mrs. Harris T. Baldwin (center) of Washington, chairman of its living costs committee; and Mrs. Emily Newell Blair (right), one of the founders of the Woman's National Democratic club, agree that now is the time for all politically minded women to begin studying probable campaign issues.

WASHINGTON, Sept. 9. (AP)—In the fall the voter's fancy turns to thoughts of politics, platforms and parties. Women are no exception, it seems, to this rule, and organizations interested in the political expression of women are laying plans for approaching campaigns.

Announcement has just been made by the Woman's National Democratic club in Washington, D. C., that during the early autumn it will stage a national contest for the best Democratic slogan in 1928. This is the outcome of the widespread interest aroused by a local slogan contest held by the club in May, which brought in not only a large number of entries from club members but comments and suggestions from all parts of the country.

The National League for Women Voters is not affiliated with any party. Its members, however, study the programs and accomplishments of each. Suggestions for political study are being made now to members and chairmen of its committees are choosing the topics which they will discuss with their colleagues before the primaries begin.

"The tariff is a subject that all thinking women should be studying," says Mrs. Harris T. Baldwin of Washington, D. C., chairman of the living costs committee of the National League of Women Voters. "When viewed in terms of Paris gowns and luxuries, the tariff seems far away and vague, but when seen in terms of necessities of life such as sugar, salt, cotton thread, knit goods, and cutlery, it becomes a grim reality," Mrs. Baldwin pointed out.

"Our sugar tariff bill is yearly about \$216,000,000. Is it too high or too low? Women as purchasers should consider this seriously."

"Women as voters must consider the tariff earnestly also when they cast their ballots because the party in power to a great extent controls the tariff maintained by the United States."

Mrs. Baldwin has had extensive governmental training in matters dealing with living costs. She also attends all Congressional hearings and floor debates on legislation related to subjects in the Living Costs program.

Before her marriage in 1922, Mrs. Baldwin was an expert in the U. S. Department of Agriculture, and in three years traveled in virtually every state conducting special campaigns.

"Wet or dry?" is another question for which many enfranchised women believe they must find an answer.

Members of the Women's Christian Temperance Union throughout the country will pay special attention to the question of prohibition in all elections. At its annual convention just held in Minneapolis, Miss Laura Volstead, daughter of the author of the Volstead Law, urged the assembly to pay attention to the political fields.

When platforms begin to be laid, the National League of Women Voters says one of the questions most frequently asked is "what do women voters expect of the political parties?"

"Just plain honesty of pronouncement and of action," answers Mrs. Casper Whitney of Irvington-on-Hudson, N. Y., in behalf of the league of which she is a director. She bases her conclusions on first-hand experiences gained in party activities and in league work since women were enfranchised.

"I cannot, of course, pretend to speak for all women, but I believe that I can speak for a very large number of serious-minded, thinking women voters," Mrs. Whitney said.

"What women expect of the parties is perfectly simple. They expect parties to put the welfare of the country before anything else. They expect decency in cam-

Many Swimmers Will Compete In Southern Title

(By The Associated Press.)

BILOXI, Miss. Sept. 10.—Scores of amateur swimmers from Texas, Louisiana, and Mississippi will compete in the Southern swimming championship of the Amateur Athletic association at the Edgewater Gulf hotel, at Biloxi, Sunday, Sept. 18, it was announced.

The events will be held in the huge pool of the resort Spa. According to Secretary Bonedetto the major events of the championship will include the following:

Girls' events—Fifty-yard and 100-yard free style and dive.

Mens' Junior events — Fifty-yard and 220-yard free style.

Mens' Senior events — Hundred yards free style, and 440-yard free style and diving, 100 yard breast stroke, 100 yard back stroke.

The largest swimming team ever entered by the city will be sent to the meet by New Orleans. The events are open to registered swimmers in the three states mentioned. Gold, silver, and bronze medals will be awarded the winners.

Swimming which means sticking to principles, and not befogging vital issues with personalities.

"They expect parties to keep faith, to live up to party pledges, not merely to make pledges in order to get votes at an election.

"They expect laws to be enforced—not one law, but every law on the statute books."

Mrs. Walter Coffee Is Charming Hostess

One of the most delightful parties of the season was given Friday afternoon by Mrs. Walter Coffee in entertaining the Thursday Bridge club.

Sunflowers were used as the scheme of decorating the house in fall colors, and was carried out in the party itself.

The hours from 2:30 to 5:30 o'clock were spent in playing bridge, high score for the club being won by Mrs. Carlson, and high score for guests by Mrs. Walters. Mrs. Cram was awarded consolation. The prizes consisted of novel sunflower vases. The cut prizes, awarded Mrs. Younger, Mrs. Willis, Mrs. Griffith, Mrs. Catterton and Mrs. Pierson, were dainty sunflower powder-puffs.

Delicious refreshments of individual sunflower cakes and sunflower ice-cream were served to the following guests: Mrs. John Studer, Mrs. Phil Carlson, Mrs. Raymond Harrah, Mrs. Morris Finney, Mrs. John Willis, Mrs. John Cram, Mrs. Frank Catterton, Mrs. P. O. Saunders, Mrs. Marion Howard, Mrs. J. M. Dodson, Mrs. Sherman Pierson, Mrs. Chiles, Mrs. Edwin Vicars, Mrs. Walters, Mrs. Bradford Griffith, Mrs. Holloway. The White Deer guests of the club included Mrs. Dick Hughes, Mrs. Dennis Barnard, Mrs. H. D. Dickens, and Mrs. Harry Younger.

Refreshing golden punch was served.

International Sunday School Lesson

BY DR. J. E. NUNN

General Topic—Solomon Dedicates the Temple.
Scripture Lesson—1 Kings 8:1-11, 62, 63.

- Then Solomon assembled the elders of Israel, and all the heads of the tribes, the princes of the fathers' houses of the children of Israel, unto king Solomon in Jerusalem, to bring up the ark of the covenant of Jehovah out of the city of David, which is Zion.
- And all the men of Israel assembled themselves unto king Solomon at the feast, in the month Ethanim, which is the seventh month.
- And all the elders of Israel came and the priests took up the ark.
- And they brought up the ark of Jehovah, and the tent of meeting, and all the vessels that were in the Tent, even these did the priests and the Levites bring up.
- And king Solomon and all the congregation of Israel, that were assembled unto him, were with him before the ark, sacrificing sheep and oxen, that could not be counted nor numbered for multitude.
- And the priests brought in the ark of the covenant of Jehovah unto its place, into the oracle of the house, to the most holy place, even under the wings of the cherubim.
- For the cherubim spread forth their wings over the place of the ark, and the cherubim covered the ark and the staves thereof above.
- And the staves were so long that the ends of the staves were seen from the holy place before the oracle; but they were not seen without and there they are unto this day.
- There was nothing in the ark save the two tables of stone which Moses put there at Horeb, when Jehovah made a covenant with the children of Israel, when they came out of the land of Egypt.
- And it came to pass, when the priests were come out of the holy place, that the cloud filled the house of Jehovah.
- So that the priests could not stand to minister by reason of the cloud; for the glory of Jehovah filled the house of Jehovah.
- And the king, and all Israel with him, offered sacrifice before Jehovah.
- And Solomon offered for the sacrifice peace-offerings, which he offered unto Jehovah, two and twenty thousand oxen, and a hundred and twenty thousand sheep. So the king and all the children of Israel dedicated the house of Jehovah.

Time—The temple was dedicated, B. C. 1011.
Place—The temple hill, on the east of Jerusalem.

Golden Text—I was glad when they said unto me, Let us go unto the house of Jehovah.—Ps. 122:1.

Description of Solomon's Temple

This great edifice, for its beauty, splendor, cost, and size, easily obtained rank among the Seven Wonders of the ancient world. Thirty thousand workmen were required to cut the timbers for the building, eighty thousand to quarry and trim the stone, seventy thousand to transport it, more than three thousand to oversee the work.

The temple faced the east. The sacred inner portion, or sanctuary, was small. On the east was an oblong room, the Holy Place, measuring 20 by 40 cubits, (30 by 60 feet), and back of it, to the west, was a square room, thirty by thirty feet, the Most Holy Place, where the ark was kept. In the Holy place were the golden candlesticks (the room was lighted only by windows high up and admitting little light), the table of the shewbread, and the golden altar of incense. The Most Holy Place had no windows, but was full of dazzling light from the Presence of Jehovah above the ark. Everywhere the woodwork was richly carved and was overlaid with gold, and the heavy hangings, of costly cloth, were brilliant with beautiful colors and adorned with rare embroideries. In front of the Holy Place was a great porch, its chief feature being two lofty pillars of bronze with ornamental capitals.

Value of God's House to Communities
The dedication of a house of worship to the glory of God and to the

service of man's higher life was a great hour in Israel's history. It is a great hour in the life of any community. Many of us still associate with certain houses of worship some of the richest experiences of our lives. There little children dear to us were consecrated in baptism. There brides and bridegrooms have pledged their fealty. There our dead have been brought for the last sweet, sad words of comfort and committal. There we first confessed our faith in Jesus Christ. There we have sat at his table, communing with him and with our fellow believers through the medium of the broken bread and wine poured in our behalf. As long as we nurture faith in our hearts we shall be impelled to embody it in stone and mortar, in glories of stained glass and nicety of carving, all of which shall combine in convincing the world of the reality of our faith.

Solomon's Prayer of Dedication

Solomon's prayer at the dedication of the temple is remarkable for many blessings; and then for a good country, with a providential history, full of God's guidance, of answered prayer, of fulfilled promises. "There is no God like thee," Solomon said; and then, filled with awe at the thought of the majesty of the Most High, he added: "But will God in very deed dwell on earth? behold, heaven and the heaven of heavens cannot contain thee; how much less this house that I have builded!"

Petition for Temple and People

Solomon's prayer began with adoration and thanksgiving, as all prayers should and only then passed into the realm of petition. Moreover, the petitions, when he came to them, were not for himself, for his power and happiness and the prosperity of his throne, but they were for all of his people and for the honor and glory of God's house. He acknowledged the sinfulness of the nation, "for there is no man that sinneth not." Over and over he prays, "Hear them in heaven thy dwelling place, and when thou hearest, forgive." The prayer looks forward to days of national defeat, to days of famine, of pestilence, and of siege; it remembers the captives; it does not forget the foreigners, when he shall come out of a far country for thy name's sake," and asks for him the same blessings as for Israel, "That all the peoples of the earth may know thy name, to fear thee, as doth thy people of Israel." Nor is it a prayer for the great emergencies only, but for the constant upholding of divine aid "as every day shall require." It is a wonderful prayer, an evangelical prayer, a New Testament prayer before the New Testament. That prayer was Solomon's crowning glory.

Our Love for God's House

Reverence the empty church, it is never fuller than when it seems to be empty. As you have entered before now the house of a friend, and waited for his approach, you have noticed how he expressed himself in the furniture with which he has clothed his room, the books he reads, the pictures that hang on his walls. So is you look around the empty church, see the expression of the life of God. It is hung with beneficence, it is paved with reverence, it is roofed with majesty.

We are to show our love for God's house in essentially the same way in which Solomon showed it, namely, by our gifts to God's house and its work, gifts of time, of thought, of prayer, of careful planning, of ardent testimony, of zealous advocacy, with generous gifts from our possessions. These are proofs of our love, and if the proofs are not given, it may well be doubted whether we have any love to prove.

"O living Church! thine errand speed,
Fulfill thy task sublime;
With bread of life earth's hunger feed,
Redeem the evil time!"
—Samuel Longfellow

Malone Ambulance Service, Phone 181.
121-tfc

CHURCHES

REVIVAL TO CLOSE TODAY

Today will mark the close of a revival campaign at the Methodist church, which has been in progress for the last two weeks. The Rev. Tom W. Brabham, pastor of the church has been doing the preaching. He has had assisting him in this campaign a quartet from the Moody Bible Institute of Chicago.

The quartet has rendered a great service to the church and to the town and community.

The great need of our country is for young men who know their Christ and who are not ashamed to tell the world of the fact. The Moody Bible Institute is doing a most remarkable work in sending out young men and young women that have the courage to walk out on the streets and the stores and testify that there is a reality in the religion of Jesus Christ.

Rev. Brabham has preached great sermons from the very first. Time and again it has been said he preaches more Bible than any other preacher of his day. He has fought sin from the very beginning without fear, or favor. In the church or out of the church, his position is that sin is sin. His style is unique; his knowledge of the Bible, especially of the New Testament, seemingly is unlimited. Time and again he has stood in the pulpit saying that it didn't matter what he thought about a thing, he could be wrong—but when Jesus speaks or the Bible speaks a person had better sit up and take notice. Then he would begin with a Scripture and let the rest of his sermon be one verse of Scripture after another. His conception of Christ is great. He says that he is old fashioned enough to still believe that the Bible of his mother is good enough for him, and that the critics can tear it apart if they want to; but he will take it just as it is found.

The town has been helped in a remarkable way and Christianity placed on a higher plane. We have the wrong conception. Some have been heard to say that people will not stand for the Gospel preached as it was once preached. That is a mistaken idea. Rev. Brabham has proven that beyond any doubt.

Something like 75 family altars have been established. Up to the time this goes to press, 45 or 50 have been received into the church, a great number by vows and baptism.

The services will close tonight. Every person is invited to be present. Get there early if you want a seat. The boys will start singing at 7:45 o'clock.—Contributed.

CHRISTIAN SCIENCE

Christian Science services are held in the First National bank building.

The subject for today at 11 o'clock is "Substance." Sunday school is held at 9:45 a. m., and the Wednesday evening service is at 8 o'clock.

You and your friends are invited to attend these services.

BILLY EVANS Says

Teams Not Consistent

For utter lack of consistency, the season of 1927 will go down in baseball history as one of the most unusual races ever staged in the big league.

With the exception of the New York Yankees, no other club in the majors has been anywhere close to being consistent, not even the four-pennant contenders in the National League.

The Chicago Cubs have come nearest to holding to a steady gait but even McCarthy's club has had its un-

pleasant moments, such as the loss of double-headers and the dropping of a number of important games by having the opposition score three or more runs in the ninth to win.

Both the St. Louis Cardinals and New York Giants were slow starting. While Pittsburgh slipped up several times when an opening presented a chance for the Pirates to take the lead.

The Boston Braves, aided by pitcher Kent Greenfield, have played havoc with Pittsburgh. Since the Smith-

Bancroft fight, the Braves have been a thorn in the side of Pittsburgh. Queer revenge.

Tigers, Nats Suffered

All the first division clubs have had their good and bad periods, the New York Americans excepted.

Early in the season, Detroit looked bad. Slowly the club began to strike its stride. Getting above the .500 mark, it proceeded to startle the baseball folks by 13 straight victories, a season record. Just when it seemed as if the club was invincible, six straight defeats followed.

For six weeks during July and August, Washington played about .700 baseball and had hopes of making things interesting for New York in the stretch. Then followed the worst trip of the year in the majors.

Opening at St. Louis, Washington won the first game. During the re-

mainder of the trip not another victory was recorded. The closest was a 15-inning tie with Detroit. The Nats' record for the western trip was one victory and 12 defeats.

On form, Washington is far too good a ball club to show such a reversal, yet just such inconsistency has featured the play of most of the major league clubs this year.

Macks Going 'at Last

Take the case of the Philadelphia Athletics as further proof of the general unsteadiness of the clubs. Picked to win the pennant by many of the experts, the A's played second division ball for some time.

Connie Mack was flabbergasted. He felt that he had a pennant contender and it seemed as if his very excellent judgment was all wet. Then, after a floundering around,

going nowhere in particular, the Athletics started a winning streak about the same time Washington began to lose. As a result, Philadelphia in fourth place, about six games behind Washington in second, quickly erased that margin and as September started, enjoyed a three-game lead as runner-up to the Yankees.

You also wouldn't think one ball club could lose 18 straight to another, yet that is what St. Louis has done to the New York Yankees.

Inconsistency of play in baseball can generally be traced to erratic pitching, so possibly it has been an steadiness on the part of the hurler that has caused so many form reversals this year.

Soviet Puts Royal Jewels In Kremlin

MOSCOW (AP)—Forty-six valuable toys and pieces of jewelry belonging to Czar Nicholas II have apparently escaped sale and will be placed in the state chamber of arms in the Kremlin as objects of artistic interest.

Among other exhibits is a beautifully modelled gold train with a platinum engine, an exact replica of the first Trans-Siberian express, presented to the Czar to commemorate completion of the great trans-continental railway.

The collection contains also a golden egg with miniature portraits of all the Romanoff dynasty, and a platinum egg embossed with precious stones to represent old Russian hand-made embroideries.

Folks are writing us these days!

Gentlemen:—

A word of appreciation for your Lucky Strike cigarettes.

On May 29th last, I was operated upon for gastric ulcer and appendicitis. The day after I wanted a smoke real badly and asked my doctor. He advised strongly against it stating that even a slight cough would "rip me open" and cause additional pain, and if you've had the experience you know that to be so. However, I had a package of "Luckies" in my coat pocket and persuaded my nurse to get them. She did and I smoked eight that day. To make it short I smoked all the two weeks at the hospital with nary a cough or throat irritation or the least discomfort, and by the way, smoking was prohibited at the hospital but nurse kept my door closed and window open so I enjoyed my smokes to the full extent.

I am just a school teacher in a small town and not setting a good example to my pupils because I smoke, I suppose, but there is certainly "pep" in Lucky Strikes.

Sincerely yours,

J. A. McPherson

FIND SOUTHWEST TEXAS OIL FIELDS VERY QUIET

Mr. and Mrs. Len J. Williams of the Radio News Stand arrived home Friday from a motor trip through the southwestern oil field, El Paso, and old Mexico.

The oil field and towns in Southwest Texas were disappointing to the tourists. There is no extensive drilling going on and the towns are small and living cost high.

Amusements

Intimate glimpses into the life of the "tin can tourists" are provided by Alan Hale, director of "Rubber Tires," featuring Harrison Ford and Bessie Love, which will be on view at the Crescent theatre today and tomorrow.

This human comedy of the auto camps, which Zelta Sears and Tay Garnett adapted from a story by Frank Condon, chronicles in a highly humorous vein the motor jaunt overland of a typical New York family via the auto tourist camps.

Enroute she meets the hero, portrayed by Harrison Ford, and the experiences encountered during the trip from the Atlantic to Pacific furnish laughs galore. The family, composed of an indolent Irish father, a veritable laxy bones, the mother, portrayed by May Robinson and Mary Ellen's kid brother, never agree on any subject—save that all hope eventually to reach the run-down Stack farm in California, which is about to be sold for delinquent taxes.

"Rubber Tires" was filmed during a trip of several thousand miles, with all of the scenes taken in various auto camps at which the company stopped en route. In addition to Miss Love and Ford the cast includes May Robison, Junior Cogrhan, John Patrick, and Erwin Connelly.

"Children of Divorce." All of them young in years—might have been twenty or twenty-three—but the amount of thrills they jammed into those two short decades is worthy of record. For instance, Jean and Kitty were first introduced while attending convent. At that time both were cute little things. They hadn't reached their teens yet.

Years later they meet again and became close friends. Jean had seen her parents ruining their lives and determined to steer clear of marriage until she was sure love had come to stay. Kitty was a wild jazz orphan, hurrying from one party to the next. Then Ted Larrabee proposed to Jean and she hesitated. But her very hesitation was enough to lose him because a few weeks later, while on a drunken rout with Kitty, Ted married her.

Jean, heart-broken, immediately left for Paris. A year passed and all Europe was agog over the news that Prince Ludovico de Sfax, an impoverished nobleman, was about to marry the beautiful American heiress, Jean Waddington. Suddenly Ted and his entourage arrived.

From that point you are directed to the Rex's screen Monday. Frank Lloyd's new Paramount drama "Children of Divorce" co-stars Clara Bow and Esther Raiston, Gary Cooper as Ted; Einar Hansen, the Prince and Norman Trevor, his guardian are featured.

SCHOOLS

ta Fe railroad and to the extreme southeast corner of the district, and who are to be in the first seven grades will report to the B. M. Baker school.

"All pupils of the same territory, who are in the eighth to eleventh grades (high school) will report to the Central high school building.

"All pupils that are in the vicinity of the Kingsmill school and who are in the first to fifth grades will report to the Kingsmill school.

To Transport Over Tracks "All pupils north of the railroad in Pampa and who are classed as second grade pupils will be housed in the two cottages south of the railroad for the first two months (until the central ward extension is finished.) These pupils will first report to the central campus, from where they will be taken by bus to their rooms.

"All pupils living in the city and north of the tracks (except the second grade) will be housed at the central campus.

"All pupils in the vicinity of Kingsmill, and the transferred pupils from Carson county, and who are above the fifth grade, will report at the central campus.

"Each of the local pupils and new pupils will be expected to bring in his report card or transcript.

U. S. Polo Team Routs British

(By The Associated Press.) WESTBURY, N. Y. Sept. 10.—The United States polo team, uncovering a brand of coordinated play which surpassed even its friends and shocked the challenging British team, rode away to a 34 to 13 victory today in the first game of the international challenge cup series.

(By The Associated Press.) GENEVA, Sept. 10.—The status of the Canal Zone, a question deemed here to be vital for the United States because it is connected with the problem of American national security, was raised suddenly at a session of the Assembly of the League of Nations tonight.

Dr. Eusebio Morales of Panama suggested that unless United States accepted Panama's claim to sovereignty over the Canal Zone this controversy should be submitted for settlement to an impartial court of justice.

Dr. Morales advocated the move in opposing the creation of a special League of Nations for the American continent, which would, he said, offer no greater guarantees of impartiality than the Hague court of justice.

Canal Zone Status Before League of Nations by Panama

Cotton Futures Break As South Starts Hedging

(By The Associated Press.)

NEW YORK, Sept. 10.—Cotton futures broke about \$4 a bale on the New York Cotton exchange today, practically wiping out the gains previously recorded on publication of the reduced government crop estimate Thursday.

December contracts, which Thursday sold for as high as 22.72c, dropped to 22.70c as the result of heavy liquidation, accompanied by southern hedge selling inspired by weakness in the technical position of the market.

The board showed general improvement of weather conditions over the cotton belt, with indications of great benefit to growing crops.

Judge W. E. Spell of Waco, W. L. McConnell, of Panhandle, and District Attorney Curtis Douglas, of Panhandle, were visitors in Pampa Saturday.

B. E. Finley, president of the First National Bank, who underwent an operation for appendicitis at the local hospital Friday morning, is doing nicely.

Richard G. Hughes of White Deer was here yesterday having dental work done.

Professor J. L. Lester was in Amarillo Saturday in the interest of the county exhibit at the Tri-State fair.

Baseball Results (Saturday)

(By The Associated Press.)

Western League Des Moines 6, Denver 4. Omaha 8, Lincoln 9. Wichita 4, Tulsa 7. Oklahoma City 10, Amarillo 11.

Texas League Houston 8, San Antonio 3. Beaumont 2, Waco 7. Fort Worth 4, Wichita Falls 12. Dallas 14, Shreveport 15.

American League St. Louis 6, New York 1. Detroit 4, Philadelphia 6. Cleveland 3, Boston 1. Chicago 6-1, Washington 5-11. New York 1, Chicago 2.

Brooklyn 2, St. Louis 5. Philadelphia 6, Pittsburgh 4.

The results of yesterday's games gives the first four teams the following standing.

Table with 4 columns: Team, G, W, L, Pct. Pittsburgh 131 78 53 .595. New York 130 76 54 .585. St. Louis 130 75 55 .577. Chicago 135 77 57 .574.

School Principal Says Masked Band Threatened Family

(By The Associated Press.)

COVINGTON, Sept. 10.—Sheriff G. Atalas of St. Lamary parish went to Talisheek late today to investigate charges of Prof. George Wingo, principal of Talisheek high school, that he and his wife and baby had been forced to flee from their home after being threatened by a band of masked men.

Prof. Wingo drove into Abita Springs early this morning and told of the visit to his home of fifteen masked men, whom he said gave him only 15 minutes to pack his belongings and get out.

GAINESVILLE, Sept. 10. (AP)—N. A. Howell, 40, assistant postmaster, was found dead in the basement of the postoffice late Friday night. There was a bullet wound in his head and a pistol near his body.

Chas. C. Cook returned Saturday morning from the Rotary convention in Abilene. While there Mr. Cook is said to have made one of the best speeches of the conference. W. C. Upton and Lynn Boyd will return in a few days.

Mr. and Mrs. J. M. Saunders and son, Maurice, have returned from a six-week trip into the Western states. They spent some time in Washington and returned by way of California.

Mayor F. P. Reid is in Amarillo over the week-end.
