BANK CASHIER FRUSTRATES HOLD-UP

Site for Adobe Walls Council Summer Camp On Canadian River

BOY SCOUTS IN AREA TO HAVE BIG PROGRAM

Activities Determine the Success Gained, Says Executive

TESTS TO BE GIVEN MANY Many Adults Will Be Present During Outing

What is said to be one of the most beautiful spots near the Canadian river was designated as camp site for summer outing to be held July 17 to 27, inclusive, states Scott Barcus, Scout commissioner, who with E. D. Melver, scout executive, Jepp Todd, chairman of the camping committee, and Roy Walker, member of the board of directors, located the place Monday and Tuesday.

The site is 30 miles northwest of Canadian in the southwest corner of Ochiltree county, on the Carl Freeman ranch. All boys of the council who are registered scouts are eligible for the camp.

While the site for this camp is as near the ideal as could be hoped for," Barcus quoted Melver as saying, "the real success of the camp is determined by the activities of the program, which will require the attendance of at least one adult for each 16 boys, and probably one for every eight boys."

Progress in Boy Scout tests is to be the chief aim of each Scout. The programs are to include signaling, using flags and Indian signs, first aid, fire building, cooking, tramping, nature study, astronomy, woodcraft, life saving, and various handicrafts. The instructions will be given primarily through the "play way" rather than the traditional school methods, Barcus said. In his way interest is stimulated and desire to learn is instilled.

Chicago Judges Bad Risks, Say Insurance Men

CHICAGO, June 21.—(P)—Criminal court judges who preside over trials involving gangsters are not regarded as good risks by fire insurance companies, Judge John McGorothy has discovered. A \$10,000 fire insurance policy on his home was cancelled by the company yesterday with the explanation that he was a "bad risk."

It was Judge McGorothy who presided at the recent trial of Eugene (Red) McLaughlin for attempted robbery. During the trial, at which McLaughlin was convicted, a plot to bribe jurors and intimidate a witness was discovered. The home of one of the jurors was bombed, and Judge McGorothy was threatened.

Since that time Judge McGorothy's residence has been under constant police guard. He said that with cancellation of the fire insurance policy he had taken out a civil commotion (bombing) insurance policy at a high premium.

The homes of several Chicago judges have been bombed during recent years.

Mrs. E. A. Vincent of Amarillo visited in the home of Mr. and Mrs. Will Crawford Wednesday.

Mrs. D. M. Lawrence is visiting in Erick, Okla., this week.

THE WEATHER

WEST TEXAS: Tonight and Friday generally fair.

Faulty Weather Advices Hinted by Miss Boll As Her Flight Collapses

Forecaster Says Carbon Copies Furnished Two Air Expeditions Were Identical

HARBOR GRACE, N. F., June 21.—(P)—Miss Mabel Boll took off here at 5:07 a. m., Eastern Standard time today in the monoplane Columbia for Curllis Field, N. Y.

At the controls was Oliver le Bouter, pilot, and also aboard were Arthur Argles, co-pilot and Andrew Surral, mechanic.

The Boll party had been here since June 12 awaiting favorable weather for a trans-Atlantic flight. The flight was called off at the instance of Charles A. Levine, owner of the Columbia, after Miss Amelia Earhart's successful flight to England.

Miss Boll said she intended to investigate an alleged difference in weather advices received by her and those furnished Miss Amelia Earhart at Trepassey last Saturday just prior to the latter's successful flight. She failed to elaborate on her charges.

NEW YORK, June 21.—(P)—The Boll trans-Atlantic air expeditions were furnished carbon copies of Atlantic weather forecasts made by him, Dr. H. Kimball, meteorologist of the local weather bureau said.

Dr. Kimball said he sent his forecasts directly to Captain Arthur Argles, navigator for Miss Boll, and those for the Earhart expedition were furnished George Palmer Putnam, their representative here, who forwarded them to Trepassey.

The weather report furnished the Associated Press last Sunday, the day Miss Earhart took off for England, by Dr. Kimball, and which he says was a carbon copy of that sent both to Trepassey and Harbor Grace forecast unfavorable weather in mid-Atlantic.

It was possible, he said, that Wilmer Stultz, pilot of Miss Earhart's plane, might have had some arrangements by which he received other reports from ice patrol or from ships at sea, but that so far as his office was concerned the two expeditions received exactly the same service.

FOSTER SUIT AGAINST M'LEAN CITIZENS WON BY DEFENDANTS

Boycott Found Illegal, but Paper Stopped Before Results Were Ascertained

Judgment for the defendants was rendered in 84th district court here yesterday in the suit of O. H. Foster against Mrs. Ted Glass and other McLean citizens.

The verdict was on a peremptory charge given by the judge, instructing the jury to find for the defendants. The court held that while the agreement signed by the defendants was unlawful, being in restraint of trade and commerce, the plaintiff failed to show that he was damaged thereby, having suspended operation of the paper before it could be ascertained that the defendants had carried out their purpose.

The suit grew out of a subscription campaign, in which disagreement over the rules arose and a number of McLean citizens signed a petition agreeing to boycott the paper. Alleging \$5,000 actual damages and asking \$25,000 exemplary damages the publisher brought suit against those signing the petition.

NEW YORK, June 21.—(P)—Friends of Governor Alfred E. Smith today threatened legal action to prevent the use of a news reel of the governor in a film dramatization of two prohibition books by Professor Irving Fisher of Yale.

The picture, titled "deliverance," was made for Professor Fisher and Robert E. Corridan, research secretary of the World Alliance Against Alcohol. It is being booked by the Young Men's Christian association for showing in Y. M. C. A.'s and churches throughout the country.

George B. Graves secretary to the governor, has written all news reel companies which have taken pictures of Governor Smith warning them against permitting improper use of the films. Counsel has informed him that a picture cannot be used for commercial purposes without the governor's permission, and that among the commercial purposes of "deliverance" is the advertising of Professor Fisher's two books.

The governor's friends say the excerpt used, by implication, purports to show the governor signing the act repealing the Mullan-Gage state enforcement law and thereby allegedly contributing to evils which other parts of the picture depict. In reality, they say, Governor Smith is signing an income tax reduction bill.

Mr. Corridan said that anything unfair to Governor Smith in the picture would be taken out "if his representative come to us and show we are wrong." "The story," he added, "is not propaganda but a dignified dramatization of an historical event." He said one scene showing the Governor along with the title "The Acknowledged champion of the anti-prohibition forces," already had been deleted.

New Yorker Says He Speaks for Self, Not Smith

HOUSTON, June 21.—(P)—Denying he was speaking for Governor Alfred E. Smith in a statement issued Wednesday night, Norman E. Mack, national committeeman from New York, pointed out that he was expressing his own views when he said Governor Smith stands for state rights and personal liberty for the individual.

"I was not talking for the Governor," said Mr. Mack, "but for myself. In my statement I expressed my own convictions. I have stood all along."

He said he had no consultation with Governor Smith and his views were not those of Smith, but his own.

"Governor Smith will take care of that himself," he said.

NEW YORK, June 21.—(P)—The Boll trans-Atlantic air expeditions were furnished carbon copies of Atlantic weather forecasts made by him, Dr. H. Kimball, meteorologist of the local weather bureau said.

Dr. Kimball said he sent his forecasts directly to Captain Arthur Argles, navigator for Miss Boll, and those for the Earhart expedition were furnished George Palmer Putnam, their representative here, who forwarded them to Trepassey.

Police Department Investigated on Lynching Details

HOUSTON, June 21.—(P)—With rewards totaling \$1,250 for the arrest and conviction of persons responsible for the lynching yesterday of Robert Powell, 24, negro, who had been charged with murder of City Detective A. W. Davis, all available agencies today were attempting to discover the identities of the lynchers.

City Detectives Ira Nex and John where it was hanged from a bridge eight miles from town, were summoned to appear before the Harris county grand jury, which yesterday dropped all other investigations to study the hanging.

Meanwhile Texas Rangers, deputy sheriffs, city detectives and private agencies were exerting ever effort to identify the raiders who took Powell, who was suffering from a bullet wound in the stomach, from his bed and hanged him.

City attorney Sewall Myer told the Associated Press that investigators are "going through the police department very thoroughly." This action, it was thought, resulted from a statement by several witnesses to the raiding of the hospital who said that one of the lynchers wore a dark colored coat with gold braid on it.

The rewards were by governor Dan Moody, who promised \$250 and the National association for the Advancement of Colored People, who offered \$1,000.

Balkans Seething Following Killing of Two Deputies

BELGRADE, Yugoslavia, June 21.—(P)—The killing of two deputies during a session of parliament today was regarded as likely to bring grave consequences throughout the Balkans. A radical deputy fired 6 shots, that wounded four deputies besides the men killed.

Outright rejection of the Nettuno convention was predicted. This pact, which permits Italians to own land in the Delmatian coastal plain, has been the occasion of anti-Italian demonstrations in the past, straining Yugoslavia's relations with the Mussolini government.

The assassinations will probably result in the breaking up of the conference of the little entente—Rumania, Czechoslovakia, and Yugoslavia, now in session at Bucharest. Italy's penetration of Albania, Hungary's attempts to revise the treaty of Trianon, and the Nettuno treaty were on the agenda of the conference.

Democratic members of the cabinet resigned and it was indicated that their colleagues would follow suit. It was understood a new ministry would be formed with Stefan Raditch, fiery political leader who was wounded in the shooting as a member.

The whole of Yugoslavia was in a ferment of excitement today. The government issued appeals through the press not to let the crime inflame public opinion. Grave consequences were feared in Croatia, however, where the wounded deputies are popular.

All of Yugoslavia was draped in black flags. Newspapers appeared with black mourning borders.

Puniva Ratchitch, the murderer, a radical deputy, was under arrest.

WATERMELONS SAVE LIFE AS TRUCK BURNS

SAN ANTONIO, June 21.—(P)—The fact that his truck was loaded with wet goods probably saved the life of Frank Brown of Austin here late yesterday when his truck turned over and caught fire. The wet goods in this case were watermelons and for 30 minutes Brown, caught in the wreckage, broke melons and smeared the pulp over the wood which held him prisoner while flaming gasoline consumed other portions of the truck. Brown was taken to a hospital suffering from severe burns.

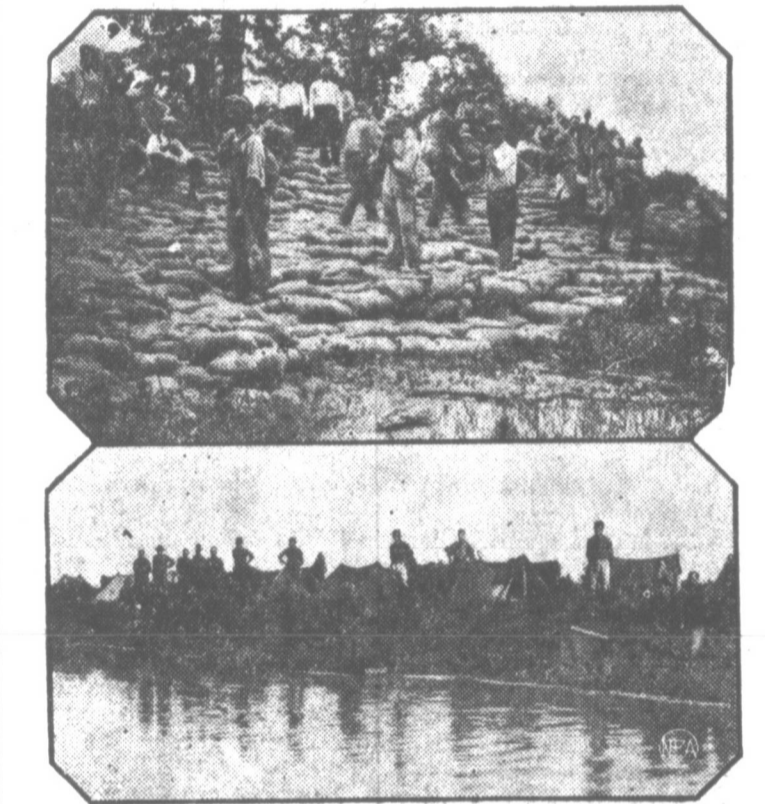

WORK TO QUIT CABINET SOON FOR NEW POST

WASHINGTON, June 21.—(P)—Secretary Work announced today that he would resign the interior cabinet post before the end of June in order to conduct the Republican National campaign, for which he has been made national chairman.

ALLEGED ROBBER ACQUITTED

MARIETTA, Okla., June 21.—(P)—Vernon Liddell, charged with robbery of the Love County National bank here several months ago, was acquitted by a jury here last night.

Fighting Flood in Missouri

Battling with a flood that forced thousands to flee their homes in the St. Francis river valley in Missouri, workmen are shown at the top building a levee of sandbags in the effort to save wide areas from inundation. Thirty thousand sand bags were used at this point, west of Holcomb, Mo. Below, troops from one of the five national guard camps along the river are shown on patrol.

Tenth Convention of W. T. C. C. Ends in Harmony

FORT WORTH, June 21.—(P)—After three days of hilarity, parades and play Fort Worth today discarded its tinsel and gaudy raiment and resumed business.

Thousands of delegates to the tenth annual convention of the West Texas Chamber of Commerce last night returned their homes virtually all happy because of the selection of El Paso for the 1929 convention. The convention which ended last night was acclaimed the greatest and most successful in the history of the West Texas Chamber of Commerce.

The final session was attended by approximately 300 persons but where it lacked numbers it did not lack enthusiasm. Those few that remained over realized there was serious business to transact before the tenth convention could pass into history and this business was dispatched rapidly. Every action taken was unanimous and result of every vote was cheered.

The only contest of the convention which loomed yesterday morning, that of selecting the next convention city failed and materialized after Waco withdrew to secondize the motion of May or R. E. Thompson of El Paso that the big meeting next year go to the border. Lubbock, Abilene and San Angelo cast their votes solidly for El Paso.

The convention adopted 15 major plans for the coming year after which A. N. Bourland of Vernon, newly elected president, was installed into office.

Briefly stated, program for the year follows: To follow up work in the matter of water rights, insuring just settlement of negotiations now pending in which water rights of west Texas counties are involved.

Work for conformation of titles to mineral rights on West Texas land, clouded by controversy over constitutionality of the relinquishment act. Steps toward formulation of a general legislative road policy and program, to be assisted by the East and South Texas Chamber of Commerce.

Support efforts on the part of federal government to create public parks or preserves in West Texas and to liberally support educational institutions of the section.

Make a constructive survey of the section, with a view of setting forth the industrial and agricultural advantages that obtain in West Texas.

SHOOTS ONE, CAPTURES ONE; SAVES MONEY

Arizona Banditry Gets Severe Setback at Clarksdale

HAD OBTAINED ABOUT \$50,000

Raid Is on Branch of Bank of Arizona

PHOENIX, Ariz., June 21 (AP)—One robber was killed and another captured by Davis Saunders, cashier of the bank of Arizona branch at Clarksdale today. His work was shortly after the two had held up the institution and attempted an escape with \$50,000 loot. The money was recovered.

General Nobile Is Cheered By Being Located

KINGS BAY, Spitzbergen, June 21.—(P)—Cheered by the 650 pounds of provisions dropped upon his camp off Northeast Land by Major Maddalena, General Umberto Nobile today sent further radio directions for the rescue of his stranded party.

The general and the five men with him who have been short of food and in difficult straits since May 25, when the dirigible Italia met with disaster on its return from the north pole, was in wireless communication with the base ship Citta di Milano concerning the present situation.

He gave some instruction about what further procedure is to be followed in rescuing his party and gave details as to what were the conditions on the ice where he is stranded and the exact position of his camp.

Before giving these directions concerning the rescue plans, however, General Nobile expressed his gratitude to Major Maddalena and the assistant pilot of the Savoia-Marchetti-55 as well as to Major Mercanti, director-general of the Italian aviation department, who organized the relief expedition and gave up his seat in the plane so that more fuel might be carried.

In fact, the first words of Nobile's message were "I kiss and embrace the two fliers and Mercanti."

Amundsen and Lieutenant Lief Dietrichsen started for Spitzbergen on Monday night from Tromsø, Norway, in a French seaplane piloted by Rene Guilbaud and manned by a crew of three. It had a radio but this was working imperfectly and their signals

(See—Nobile Page 6)

to every one and with no disposition to interfere with any state's right to vote for its favorite son. Van Namee's remarks were generally construed to mean that the Smith forces with assured votes, the New York public service commissioner, said of "more than 650 on the first ballot," will make no effort to gain the nomination on one roll call.

Announcement by national committeeman Norman E. Mack of New York that John W. Davis, the 1924 nominee for president, would be the New York representative on the resolutions committee, revived discussion of the possibility that the former ambassador to the court of St. James might be chairman of the important platform committee.

The Hi-League of the First Methodist church was entertained with a picnic on Wednesday evening of this week at LeFors. A number of games were played and quite a lively evening was enjoyed by all present.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the character, standing, or reputation of any individual, firm, concern, or corporation that may appear in the columns of the Pampa Daily News will be gladly corrected when called to the attention of the editor.

PAMPA IS THE BUSY CITY

of the North Plains—so busy, in fact that the parking problem has become a real one. Double parking is dangerous and a nuisance; triple parking at times blocks the streets momentarily.

It would appear that the question of limiting parking on the main thoroughfares, at least during certain hours, has reached a point of action. Parking limits mean enforcement and some disagreeable aspects, and possibly more expense to the city.

It is not wise to experiment with traffic regulations, but Pampa has a problem which might be solved through some of the methods used elsewhere.

"For Law Enforcement"

If all the dead wood were cut out of party and personal political platforms, there would not be enough live timber left to build a very large monument to party ambitions.

Thirty-three years on the bench has convinced Judge Marcus Kavanaugh of two things. The first is that there are 350,000 persons in the United States who live partly or wholly by crime.

For Achievement Achievement is being memorialized in almost every form these days. We of America perhaps spend too much time lauding ordinary ability, and not enough to preserving the memory of immortals through enjoyment of their works.

o a great musician, for example, a marble or bronze statue means not nearly so much as the intangible but more real monument in the hearts of those who enjoy his melodies.

Schubert died in Vienna in November, 1828. His is, therefore, the anniversary of that date, and will be so observed, beginning now and lasting through the rest of the year. A monster congregation of Austrian, German, Polish, American, and other singers is assembling in Vienna now.

Schubert, like so many of the great artists, died in virtual obscurity. He was only 32 years old, and his genius lay dead for longer than he had lived.

Every person ought to hear one or more Schubert concerts this year. His songs were written to be enjoyed.

WASHINGTON LETTER

By RODNEY DUTCHER Washington—The Society for Credit Where Credit is Due should be careful not to overlook the Hon. Clement Lawrence Shaver of Fairmont, W. Va.

If the Democrats do any real business next November, considerable thanks will be owed the Hon. Clem, the big peace and harmony man. It was he who showed them, in the face of utter doubt, that they could get together without clawing each other and wrecking the furniture.

The Hon. Clem's performance is unique. Nobody ever did it before. Chairmen of the party national committees, such as the Hon. Clem, are divided into two classes: those

who win campaigns and those who don't. The former are made postmasters general or given other juicy federal jobs where they can fulfill a few of their campaign promises and see that the most faithful supporters of the ticket are not neglected.

The unsuccessful national chairman at once becomes an object of pity and contempt. Crushed under a heavy campaign deficit he merely floats along until the next convention when he is tossed out into oblivion and never heard of more.

And that, had he been someone else, might have been the story of the Hon. Clem. Gosh, what a licking his candidate took! And what a dismal outlook the party had under his guardianship!

But instead of devoting the next four years to stalling off the creditors, he actually tried to pay them off—and did. He interested Jesse Jones, the angel from Houston. And today, for the first time within the memory of man, the Democratic party enters its convention unburdened with debt and expects to come out with \$150,000 above expenses.

But the real high spot of the Hon. Clem's career was the Jackson Day dinner.

The opposition to having any Jackson Day dinner at all was tremendous. Up to that time no one ever mentioned the Democratic party without pointing out that it appeared headed for the Madison Square row all over again.

Democrats in Congress were almost unanimous against the idea. Even after the Hon. Clem had gone ahead and announced it, they wanted to call it off, with a few compromisers demanding that only John W. Davis be permitted to speak. But the Hon. Clem told them: "If we can't sit around in a little preliminary affair and show some degree of tolerance toward each other, the sooner we know it the better."

And he went right ahead, inviting as speakers the leaders of the party's divergent factions—McAdoo, Smith, Ritchie, Reed and others. But he was careful to program Davis and Claude G. Bowers strategically to pound the keynote of harmony. The heaviest of the oratory was to come from the moderate middle group standing between the extremists.

He let the speakers know that this was a pep meeting, but no dog fight. He even went so far as to go over their speeches in advance to see that everyone kept on the reservation. The only one who de-

parted from his prepared speech and wandered into forbidden fields was Governor Ritchie of Maryland, whose speech was wet enough to be a little off key and who did not profit by the venture. Newspapermen and lots of the Democrats had come expecting to see a knockdown-dragout fight—and sat through till early morning to hear Senator Jim Reed finish his plea that the party unit on what it could agree upon.

That was the turning point. The downcast Democrats perked up. In the period immediately following total contributions of \$125,000 were poured in on the party. Men who had been ignoring and dodging requests for aid, believing the party's cause hopeless through dissension, began to kick in. Nearly everyone had come to agree with the Hon. Clem that it wasn't smart or necessary to cut and slash each other while the country looked on and snickered.

BARBS (By N.E.A. Service Inc.)

Some Pittsburgh telephone users protested the naming of an exchange "Brandywine" since it suggested liquor. Guess we had better change the name of that battle in our histories to the Battle of Lemon Phosphate or something.

A New York woman who died left \$1 each to her three former husbands. Death makes philanthropists of some of us.

Dispatches say that Hugh Leven of Pittsburgh is the world's greatest tyer of knots. Send the man to Hollywood.

Forty million tourists will travel the roads of the country this summer, according to the American Automobile Association. Such a crowd ought to get results if they'd boycott the goods advertised on those glaring billboards.

Citizens' associations find the crime situation in Chicago not so good despite Big Bill's ringing assurances. Sometimes we think that what Chicago needs is a few companionate hangings.

New York producers agree that the girl shows are the best summer attractions. The showman seldom have a falling out on a limb.

Those Phils Have Developed Mania for Winning Games

By William J. Chapman, Associated Press Sports Writer.

The ferocious Phils, hungry for game remain at large. They have developed an unaccountable tendency to slam their betters on the chin. Other teams may be fighting for mere pennants, but when the Phils so far forget themselves as to win seven out of nine they are news.

Not satisfied with Walter Lerman's triple, which outraged Dazzy Vance on Tuesday, the Phils jumped on Jumbo Jim Elliott and Doug McWeeny for enough hits to win the second game of the Brooklyn series Wednesday, 6 to 2. Hub Pruett, whose chief claim to fame is that he fanned Babe Ruth ten times one season, turned in a best game for the Baker boys, and Don Hurst helped with his eighth home run.

The Cardinals made it ten out of eleven and increased their lead over the Reds to four full games by taking the series opener from the Cubs in Chicago, 8 to 2. Jess Haines outpitched both Percy Lee Jones and Guy Bush, and a majestic home run by Grimm, Chicago first baseman, was purely decorative.

The Reds slipped back towards the Giants as the Pirates made up a bit of ground by shading Eppa Rixey.

The Giants, scheduled in Boston, probably did not expect to play. They did not play at any event—for the fifth time in six scheduled days in the Hub. The club, McGraw now faces for eight games in four days at Braves Field in September.

After the first two skirmishes of what has been facetiously referred to as a "crucial" series, the Yanks and Athletics are just where they were before it started—which the Yanks can very well afford to be, but which the Athletics can not. Connie Mack astounded the Bughers by permitting old Jack Quinn to remain in the box through a five-run fusillade by the champions in the third round of the opener at the Yankee stadium and old Jack rewarded his master by coming through to a 10 to 5 victory.

The Athletics reached Herb Pennock for thirteen hits in five and one-third innings, but just were ahead, 6 to 5, until Wiley Moore crumbled in the ninth. Old man Quinn, who once was jerked from a two hit game by the impatient Connie, was strong in the pinches after the one Yankee flurry.

George Pipgras and Ossie Orwoll made as if to go through with a pitchers battle in the second game, but the stadium was saved from this indignity when the batters finally came to life. Grabowski slugged a home run for the Yanks in the seventh after Lazzeri and Robinson had songed and Al Simmons repeated the process in behalf of the Athletics after a pass to Cobb in the eighth.

The Yanks put the game completely on the loose in the home eighth when Orwoll was knocked out by a five run splurge, which clinched the decision 9 to 3. The victory was Pipgras' twelfth this season, but the first of his career over the Athletics.

In the battle of the lower depths, Washington consolidated its hold on fifth place and menaced fourth by trimming the Red Sox 1 to 0.

The tall-end white Sox divided a pair with the slipping Indians in Cleveland, winning the first, 6 to 4, and lapsing back into normalcy in the second, 4 to 3.

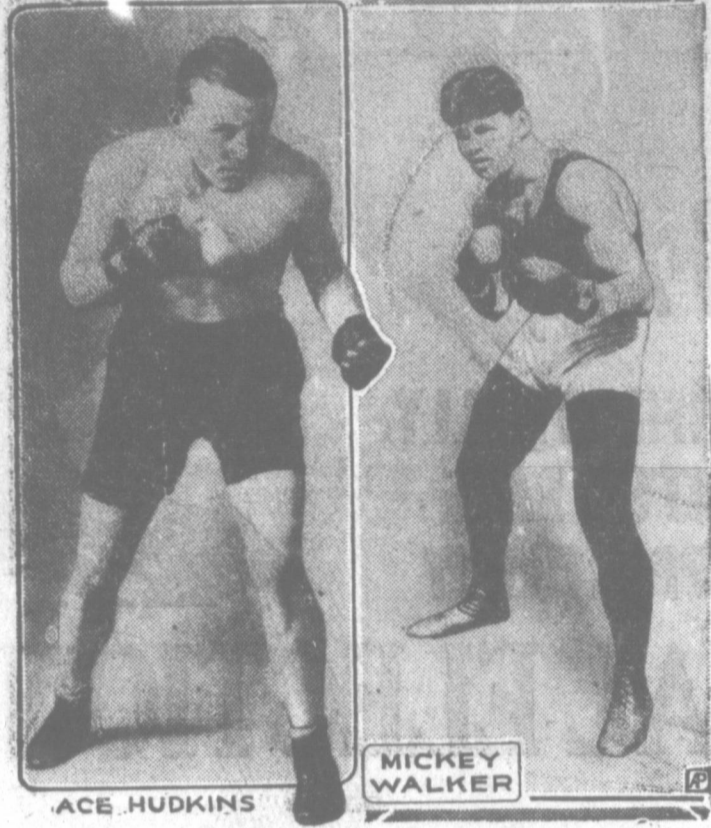

World's Best in Golf Line Up For Chicago Tourney

CHICAGO, June 21—(AP)—The best golf players in the world from every clime lined up today for the long, tortuous four rounds of the fourth course at Olympia field country club in quest of the National Open Golf championship.

Toeing the mark at the start were such representative stars as the British open champion, Walter Hagen, an American; the National amateur champion, Bobby Jones of Atlanta; a premier British Golfer, Archie Compston, the leading French linksman, Aubrey Boomer, the star of the Antipodes, Rufus Stewart, Australian titleholder; and 130 other stars of the royal and ancient kingdom. Good golfers all, long with the wood, straight with the iron and exact with the putter.

Hagen, holder of the British open and the professional golfers' titles and eager to add the American open, stood face to face with Compston, who gave him the beating of his life, 18 and 17 in a 72-hole match. And it is here recorded that Compston with the power of his muscular frame of more than six feet in height set a record of 69 in the final practice round for the 6,226 yard links of woods and creeks and bluffs, while Hagen shot a splendid 70 on the par 71 course.

'Ace' Gets His Chance In Walker Bout; Both Pack Finishing Punch

Fur is bound to fly when Champion Mickey Walker defends his title against Ace Hudkins in Chicago, June 21. Ace deserted the welterweight ranks to qualify for a crack at Mickey's crown. Both boys are hard hitters and a quick, spectacular knockout would not surprise the critics. Walker expects to dispose of Hudkins promptly and decisively as he has an engagement to defend his title in New York, July 4, against Leo Lomski.

Los Angeles 3, Oakland 4.	

Spudders Gain on Runner-Up, Taking Couple of Games

(By The Associated Press) Port Worth and Wichita Falls are having a nip and tuck race for the post of runner-up to Houston in the first half of the Texas league pennant chase.

Both clubs won Wednesday but the Spudders gained half a game on the Panthers when they took a double header from San Antonio, 9 to 3, and 3 to 2.

The Spudders roundly outthrew the Bears in the first game, getting eleven safeties to the Bear's eight, and the fourth inning when they scored five runs had the contest on ice.

The second contest was closer and was undecided until the final frame when the score tied at two and two the Spudders pushed across the winning rally.

Manager Gibson was ejected from the first game after he had protested a decision that ruled Roetz drive over the left field fence a fair ball. Roetz' clout came with three on base.

With Ken Penner in invincible form, Houston easily defeated Shreveport, 3 to 0, and held its big lead in the percentage column. Penner allowed 4 safeties and kept them widely scattered. Karpp gave up six hits and until the eighth held the Buffs runless.

In the eighth, Walker got on base on a bunt and the bases were loaded when Abbott and Powell bunted in succession. Penner then cleaned the bags with a double to right.

Walkup held Waco to three hits and Fort Worth defeated the Cubs, 2 to 0. Behind the excellent twirling of Hubbell, who allowed four safeties and was master of the situation from start to finish, Beaumont administered a 9 to 2 lacing to Dallas and evened the series.

BIG FIGHT SATURDAY

NEW YORK, June 21—(AP)—George Godfrey, the current "black menace" of the heavyweight division, and John Riske, the ex-backer of Cleveland, will have to wait until Saturday to settle their differences.

Fighters in Shape For Double Main Program Tonight

When the gong sounds tonight for the double main boxing event at the Pla-Mor auditorium at 8:30 o'clock, the fighters will enter the ring in pink of condition and ready to put up a fact, slug-as-slug-can battle. Daily work-outs have been held for several days.

Kid Granite, 138, the vicious fighter of Pampa, and who has been stacking up some noteworthy victories of late, and Jack Daugherty, 140, of San Antonio, the fellow who proposes to meet Granite, using Granite's own style, will tangle up in a ten round go. This fight, since both fighters use practically identical methods, has promise of being a tough affair. Neither of them knows anything about retreating.

The other part of the double main event will be taken care of by "Rusty" Cahill, Pampa, the 138 pound slugger and a natural born fighter, and Art Vilton who hails from Old Mexico and is considered a worthy opponent from every angle. Doubtless it will take considerable hard fighting to decide the winner between these boys for both are in good shape and each has had lots of experience in the ring.

A six-round spat between Lloyd Moore of Berger and Roy Welch of Amarillo; and a four round go between O. D. the Pampa Newey and Battling Simmons are framed to liven up the program in the preliminaries. Two other preliminaries, as yet unannounced, will be on the program.

Despite Seeing An Ace, Watts Gunn Plays for Win

BROOK HOLLOW GOLF CLUB, DALLAS, June 21—(AP)—Watts Gunn, the stellar Atlanta, Ga., young golfer, threw off the psychological effect of seeing his opponent score the first ace in the history of the Southern Golf association today and went on to down M. L. ("Happy") Massingill of Port Worth, Texas, 4 and 2. Gunn will play Fred Lamprich of New Orleans tomorrow in the quarter finals.

Latest of Hahn

Here is the latest and favorite picture of Lloyd Hahn, America's star runner, who is certain to be a member of the American Olympic team. Hahn is now training in Boston under Jack Ryder, veteran coach who predicts that his star runner will win the 800 and the 1500 meters races in Amsterdam.

"FLYING CLOUD" WINS REDWOOD INDIAN RACE

GRANTS PASS, Ore., June 21—(AP)—Flying Cloud, Karook Indian entry of the Oregon cavemen, finished first in the 482-mile Redwood Indian marathon today when he flashed across the tape at 10:30 a. m. The race was 482 miles from San Francisco to Grants Pass. Melika, 58-year-old Zune, seemed a certain second, being but ten miles out at that hour and going strong with Chief Ukiah three miles to the rear. The marathon started a week ago. Try a News Classified ad for results.

Middleweight Title at Stake Tonight in Chicago Battle

CHICAGO, June 21—(AP)—The world's block at Comiskey park tonight when Mickey Walker answers the challenge of Nebraska's wildest of the ring, Ace Hudkins.

If weather conditions permit, the fight, which is billed to go ten rounds to a decision, is expected to attract from 30,000 to 40,000 fans and probably the largest gate receipts in the history of the middle weight division.

It will be Hudkins' first shot at a boxing title in the eight years of his boxing career in three divisions and, while Walker was a 7 to 5 betting favorite, the challenger was radiant with confidence. Walker, too, was confident in top form and impatient for the bell.

Radio stations WGN, WOR and WEBB planned to radiocast the fight blow by blow. The main event is scheduled to start between 8:30 and 9 p.m. Central Standard time. Six preliminaries will support the main event.

McLarnin Will Try For Comeback—Lost to Sammy Mandell

NEW YORK, June 21—(AP)—"Baby Face" Jimmy McLarnin, who made himself the sensation of the lightweight division by a one punch knockout of Sid Terris, tonight will start on the road to a comeback from the drubbing he received at the hands of Sammy Mandell. He meets Phil McGraw in a ten-round battle at Madison Square Garden. The bout is scheduled to start at 10 o'clock daylight time. McLarnin has not picked an easy opponent for his comeback attempt. The Detroit has a record of never having been knocked out, and nothing less than a smashing victory such as he scored over Terris will bring McLarnin back to his former status in the lightweight division.

Crank Letters Are Worrying Girl Who Flew the Atlantic

LONDON, June 21.—(AP)—Miss Amelia Earhart went shopping again today in company with Mrs. Frederick Guest, sponsor of the trans-Atlantic flight of the Friendship, while crowd stood vainly in front of her hotel in a drizzling rain hoping to catch glimpse of the young woman who flew the Atlantic.

Miss Earhart already has bought a thousand dollars worth of clothes, but needs more. She has been proceeding with her shopping scientifically, buying necessary frocks first and then doing miscellaneous purchasing.

While Miss Earhart shopped, Wilmer Stultz, pilot of the Friendship, and Louis Gordon, mechanic, spent several hours at Croydon airdrome where they inspected the British airplanes used in the London-Paris service. Gordon, who had never seen a British airplane engine previously, was particularly interested and asked the airway officials and mechanics many questions.

Following on the heels of hundreds of letters, poems have now begun to flock in upon Miss Earhart. One begins: "Good Eve of the air, glorious woman fair" and then goes on in praise of the flier.

The American woman has now recovered from the first strain of the flight and the tumultuous welcomes which the crew of the Friendship received in Southampton and London and said today that she felt much better.

Scotland Yard took Miss Earhart under its protection today to guard her from too ardent admirers and cranks.

She has been nearly rushed off her feet by admiring crowds, mostly women and girls.

The number of crank letters alarmed her friends. Therefore, unknown to her, an agent of Scotland Yard was assigned to watch over her.

Miss Earhart asked Mrs. Guest to make it plain to the public that she is distressed at the attention she has attracted. She declared that she did not want hero worship and that Stultz should have the full burden of his fame instead of unloading it on a girl who has done nothing to deserve it.

The thoughts of the trio have turned toward home. They will fly to the continent for the week-end, visiting Amsterdam and Paris. This flight will probably be made in a plane placed at their service by the Dutch Air Line while the Friendship is being crated for shipment to America.

They intend to return to England on Tuesday and sail for the United States on Wednesday or Thursday.

CHICAGO, June 21.—(AP)—Finding of black rust in wheat fields near Mitchell, S. D., led to a moderate early upturn in wheat values today. Ideal harvest weather, though, and absence of further crop damage reports southwest tended to check buying.

Opening unchanged to 1c higher wheat scored a general advance, but afterward reacted. Corn, oats and provisions were easy. With corn starting 1-2c off, and subsequently showing a sag all around.

The Pampa Daily News

JUST because most motors are built to withstand terrific abuse is no good reason for carelessness with regard to lubrication. Lack of oil or the use of the wrong oil sends many a good engine to an early grave.

Reason enough why you should use Conoco Motor Oil—regularly. This tried and tested oil is of the same high quality whenever and wherever you buy it. Stands up under extreme engine heat. Saves gasoline. Reduces friction to a minimum. Does a thorough lubricating job and hence assures extra life for your car.

There's a grade for your motor. Ask your dealer for the chart.

NOBILE (Continued From Page 1)

were heard only a few hours after their hopoff.

What hope was held for their safety was placed in the men themselves and their plane. Amundsen and Dietrichsen were missing in the Arctic for almost a month in 1925 when they attempted to reach the north pole with Lincoln Ellsworth. Then they had shown their resourcefulness and skill when faced with conditions which to some would have meant death.

Abandoning one of the two planes in which they had set out and come down between the ice floes far to the north, the six members of the expedition flew back to Spitzbergen in the other plane. Guilbaud is held to be one of France's most capable air-men and the plane had been prepared for a trans-Atlantic flight and has a cruising radius of 2,800 miles.

May Be Searching There was a possibility that they had come down at Advent Bay or some isolated spot on the Spitzbergen archipelago and been unable to inform the Kings Bay searchers of their predicament. It was also possible that they might be operating independently in search of the survivors of the Italia. Before leaving Norway, Amundsen had said that the wide flying radius of the French plane offered an opportunity to search for the men in the balloon part of the Italia.

Nobile reported that he had seen the Italia drift to the eastward and disappear after the cabin was torn off by striking the polar ice cap. If this group succeeded in landing without accident, they may have been able to resist the cold longer than the others since the balloon part of the Italia was well stocked with supplies. They had neither radio nor nautical

WALL PAPER All Kinds

Big Price Range—50 Patterns in Stock 500 Samples to select from GEE BROTHERS MORRIS DRUG PHONE 271

instruments however although they had flares which might be used to guide searching parties.

Planes Can't Land Hope of bringing Nobile and his companions to safety seemed to depend on the ice breakers or dog teams reaching them. Although there are five planes now available, the ice in the vicinity is not sufficiently broken to permit them landing near Nobile. These planes are the two piloted by Captain Riser-Larsen and Lieutenant Luetzow Holk, a Dronier-Wal seaplane with an Italian Expedition under Major Penzo, the Swedish upland and the Savoia S-55 piloted by Major Meddalena, which located Nobile.

Major Madelena used the wireless apparatus of the sealing ship Hobby to guide him to Nobile. Intalling it in his plane, he made a number of tests at Kings Bay and finding that it functioned perfectly as a guide set off in search of Nobile. He passed over Nobile's camp once without seeing him. As a result of signals, however, he returned to the spot and saw five persons clearly. It was thought that the sixth member of the Nobile party was under cover since one of the men has a broken leg. He dropped 650 pounds of food and supplies to them by means of parachutes. The supplies included spirit lamps, rubber boots, gloves, and guns.

Revision of Laws Great Need Says Judge N. P. Willis

Discussing the subject, "What Rotary Could Do for the Law," Judge Newton P. Willis of Canadian, guest and principal speaker at the Rotary luncheon Wednesday said the greatest thing the Texas system of laws need is revision at a constitutional convention having the representatives chosen from all the people.

He explained that the present law system was adopted from the English and that England had long ago discarded the original.

The beginning of a movement for such a convention likely will come about through the influence of such organizations as the Rotary International, he said.

L. N. McCullough, manager of the local Panhandle Lumber company, gave a short talk on lumber classification.

Entertaining numbers were given by members of the Harley Sadler show. Miss Garrett and Master Bobbie Sickles entertained with vocal selections, Jerry Shean gave a demonstration of buck-and-wing dancing, and Lee Whitchee played the piano.

Visiting Rotarians were C. H. McClelland, Wichita Falls, and Clifford Braly, Dalhart. Other visitors were Reese Allen, Amarillo; C. N. Thompson, Winchester, Ky.; Curtis Douglass, Borger; Judge Newton P. Willis, Canadian; E. H. Maupin, Dallas; and Lee Woodward, Plainview.

Injunction Halts Miss Theo Rasche

NEW YORK, June 21.—(AP)—A temporary injunction today stood between Theo Rasche, German girl flier, and her projected flight to Europe.

The injunction was obtained by Harold W. Hartell and his assignees, the Hollis corporation. The proceedings revealed them as the backers with which Miss Rasche recently served relations.

The injunction, returnable tomorrow, restrains Miss Rasche from using the plane purchased by her new backer, Mrs. James A. Stillman or from making any flight from north America or Europe.

A similar injunction was served upon A. R. Martine, banker and aviation enthusiast, from whom Mrs. Stillman purchased the plane.

Miss Rasche and Mrs. Stillman were at Curtis field making arrangements for a flight this morning to Old Orchard Beach, Me., when the papers were served.

"I'm not worried a bit over this," Mrs. Stillman said. "The plane is now in my name, the insurance papers are in my name and I don't see how they can stop us."

Calvin Harris, flight manager for the Hollis corporation, and Harry Heckheimer, its attorney, charged Miss Rasche with breaking relations with their company at the instance of Mr. Martine to accept more advantageous terms from Mrs. Stillman.

WOMAN GIVEN LIFE TERM IN MURDER CASE

BARSTOW, June 21.—(AP)—Mrs. Leah Bailey, charged with murder in the death of Dan Horn, Ward county deputy sheriff, at Monahans, was found guilty and sentenced to life imprisonment by the jury in her trial here today. The jury had been out since 3 o'clock Tuesday afternoon.

Outgoing Officers of Lions Club Are Lauded by Members

H. Otto Studer and W. T. Fraser, retiring president and secretary, respectively, of Pampa Lions Club, were honored today in appreciation of their work during the last year.

Lion Carson Loftus spoke briefly of their services, then presented each with a fine cigar lighter. Resolutions of appreciation also will be placed on the minutes of the club.

President I. E. Duncan today outlined a number of activities and customs which will be inaugurated at once. These are intended to make the local club one of the model organizations of this district.

Lion Shorty Williams of Terrell was a visitor today. Among the guests were R. Tisdal, Lloyd Price, and Eugene Lary of Fort Worth; J. Dean Walker, Pem Denton, and J. R. Walker of Amarillo; and Dick Hughes, Edwin Vicars, and Julian Barrett of Pampa.

AIR TAXIES PLANNED

CORPUS CHRISTI, June 21.—Corpus Christi may have a regular air taxi service in the very near future and be the landing point between Houston and Brownsville according to Lowden C. Doney of Houston who is of the South West Air Services, Inc., and who recently visited Corpus Christi in a Ryan monoplane of the exact type used by Col. Charles Lindbergh.

Doney was accompanied by Lieut. J. C. Davis, chief pilot for the company. Their trip was in the nature of a re-making a careful survey of their proposed route and were checking the mileage and other factors.

According to Doney, his organization

Merger of Trade Organizations Is Voted at Meeting

MACKINAC ISLAND, Mich., June 21.—(AP)—Merger machinery was in gear today for what was described as one of the largest trade organization combines in the automotive history of the United States and Canada.

Delegates to the annual convention of the Automotive Equipment association of Chicago last night voted unanimously to merge with the Motor and Accessory Manufacturers' association of New York.

More than \$3,000,000,000 in trade volume and almost 2,000 separate business organizations and trade activities covering every part of the civilized world are involved in what was said to be the largest consolidation in the automotive industry.

The name of the new organization and readjustments of personnel and finances were to be settled by a joint committee of five members of the Chicago organization and three members of the New York association. The committee will meet in both cities this month for preliminary discussions of merger problems and requirements. The present offices of the two probably will remain as they are, the work of market study and trade surveys being conducted from New York and the administrative work centering in Chicago.

CONFEDERATE VETERAN DIES

DALLAS, June 21.—(AP)—Moses Pre-witt, 83, Confederate veteran and pioneer citizen of Dallas, fell dead on the street here today while walking to visit a friend. His death resulted from heart disease.

is planning to start their air taxi service around July 1 and if the patronage justifies it, two or more round trips will be made weekly. The Ryan monoplane which has a capacity for four passengers in addition to the pilot will be used for parties of three or four. In addition to this plane, five smaller ships of two-passenger capacity will be used.

Your Trash Hauling Solicited CALL 555—A. S. CLARK

Wayland College, Summer Roll Is Largest of History

PLAINVIEW, June 21.—(Special)—The doors of Wayland opened June 4 to receive the largest enrollment in the history of the summer school, according to Z. T. Huff, dean of the college. One hundred and sixty-one have enrolled making the regular college curriculum at least one-third larger than last year.

President O. W. McDonald is very jubilant over the splendid enrollment and this with many other favorable circumstances point to a large enrollment this fall. The boys dormitory on the third floor of the administration

building is being renovated and equipped. The Nunn Library is nearing completion and with the new floor walls redecorated, new book cases, tables and chairs is going to be the most attractive place on the college grounds.

The board of trustees have recently placed a field men, Marcellus Watkins formerly of Lubbock on the field and by his efforts Wayland will continue to find new supporters from all parts of the Plains country. Mr. Watkins is a strong spiritual man and is loved by the young people. He is now visiting high school graduates in surrounding counties and taking the spirit of the college to the individuals. His salary has been cared for by one individual and he is now offering his services in revivals. He goes any place at any time he can be of service and any donations given him come to Wayland college.
