#### Carranza's Body Will Be Sent Home Wednesday

NEW YORK, July 16.—(P)—The body of Captain Emilio Carranza will be started on its journey to Mexico City Wednesday by one of the largest military processions New York has ever seen.

The coffin is to be borne through the streets on a gun caisson draped with the Mexican and United States flags and followed by 10,000 soldiers, marching to the beat of muffled drums. Representatives of the diplomatic and consular corps and representatives of the nation, state and city are to follow.

Leaving here at 3 p.m. Wednesday over the Pennsylvania system the special funeral train will make no stops Laredo, where it is expected at 5 p.m. Friday. There the body will be placed on a caisson and borne to the center of the international bridge where it will be turned over to the Mexican government. A detachment of 16 non-commissioned United States army officers will act as guard of honor for the body until Mexico city is reached.

Ten thousand persons, many of them Mexicans, yesterday viewed the body of Mexico's "Lone Eagle," killed last Thursday night in the pine belt of southern New Jersey when his plane crashed shortly after he had taken off from Roosevelt field for Mexico City.

No religious services will be held in this country, in line with the request of Artur Elias, Mexican consul general in New York.

Mr. and Mrs. Jack Lively and family of Amarillo spent Sunday here as guests of Mr. and Mrs. H. B. Lively.

John J. Raskob of New York, chairman of the finance committee of General Motors, the man who helped make 80 millionaires between 1923 and 1927, has been chosen as manager of the presidential campaign of Gov. Plans will be made of entertaining delegates to the 18th district convention of the 5th division to be held here August 11 and 12. More than 500 delegates are expected from the various posts in the Panhandle which make up the 17th and 18th districts.

#### Kellogg's Plan to Outlaw War Gets Approvals

WASHINGTON, July 16.—(P)—Secretary Kellogg's proposed treaty for renunciation of war today bore the approval of three great European nations.

To Germany's unqualified acceptance there was added over the week-end the endorsement of France and Italy. Neither nation mentioned any reservation or qualifications. Foreign minister Briand declared simply that France is "entirely disposed to sign" while Premier Mussolini set forth that Italy "is disposed to proceed" to placing its signature upon the covenant.

To add to the gratification of Washington officials, word was received that

#### SMITH DRIVE IN TEXAS WILL BEGIN AT ONCE

#### OPPONENTS TO CONVENE SOON

Dallas Pastor Declares He Cannot Vote for Catholic

DALLAS, July 16.—(P)—Plans for campaigns among Texas Democrats both for and against the election of Governor Alfred E. Smith were expected to be formulated within the next few days.

A statewide meeting of anti-Smith Democrats will be held here Tuesday when preparations will be made for carrying the fight against the New York governor into every precinct in the state.

With the return yesterday of Jed C. Adams of Dallas, Democratic national committeeman for Texas, from a national committee meeting in New York, plans for the state campaign on behalf of the national standard bearers was expected to assume definite shape soon.

Dr. Carl C. Gregory, pastor of the First Methodist Episcopal church, south of Dallas, added his name to that of the Texas church and political leaders who will not support the Democratic nominee when he said in a sermon here yesterday that "I cannot vote for a Roman Catholic as president of the United States."

Dr. Gregory's statement followed upon the heels of announcements Saturday by Cato Sells, former Democratic national committeeman, and Marshall Hicks, San Antonio Democratic leader, that they would not support Smith.

Attorneys in the case in which Thomas B. Love, candidate for Lieutenant-governor, is seeking to force the Cameron county Democratic executive committee to place his name on the primary ballot, expected the San Antonio court of Civil Appeals to hand down a decision today.

#### Creager Group to Bolt Republicans and Support Smith

FORT WORTH, July 16.—(P)—Declaring they controlled 250,000 votes in Texas, J. M. O'Hara, organization manager of the Republican state committee for an unopposed election, and W. M. (Goose-neck Bill) McDonald, negro leader of Texas negroes, today officially announced their bolt from the Republican party and their intention to support Governor Smith, Democratic nominee for president.

"Under the leadership of R. B. Creager, national committeeman, patronage-peddling in Texas has been more pronounced than has been shown in the Senate investigation in Mississippi," O'Hara said. He predicted that Mississippi patronage sales will be "considered mild as compared to what develop in this state at the proposed Senate committee probe in Dallas."

The Santa Fe recently acquired the 40 per cent interest in the Orient held by an English group of capitalists, and is seeking to purchase the remainder from W. T. Kemper, president of the road, Clifford Husted, general counsel and their associates.

#### Amarillo Men Give \$10,000 to Keep Ball Club

AMARILLO, July 16.—(P)—Amarillo business men raised \$10,000 within a few minutes here today for the purpose of operating the local club of the Western league for the remainder of the 1928 season. The owners of the club, who yesterday surrendered their franchise to President Dale Gear, agreed to take the club back and shoulder any loss above the \$10,000.

Plans for refinancing the club for next year also were discussed at today's meeting.

#### Briggs Is Doing Intensive Study in National School

CHICAGO, Ill., July 16.—(P)—New movements in Chamber of Commerce work, such as industrial development and retail trade promotion which have come into the smaller communities of the country from the larger cities, may now be brought direct to Pampa, Texas and other towns and cities of the country from the National School for Commercial and Trade Organization executives now in session at Northwestern university.

Special study of these movements and various other community problems is being made at the National school by George W. Briggs manager of the Chamber of Commerce at Pampa, Texas. Two hundred and fifty secretaries from progressive towns and cities of America are taking intensive training under long experienced and successful secretaries from such cities as New York, Chicago and Kansas City.

The two weeks in Evanston are devoted to strenuous study under practical organization officials not only spend the major part of each day for six days in the week in attending lecture courses but they must study at night, and second and third year men have part of their examinations at night. Even the noon luncheon period is a lesson period, as every person in the school is required to attend the luncheons as part of his instruction in organization management.

#### Secretary Hoover Is Given Big Welcome at Superior Today

Superior, Wis., July 16.—(P)—Secretary Hoover arrived here today at 8:27 a. m., on board his special train from Washington to visit President. Coolidge. Sirens were blowing and bells ringing as the train pulled into the station with a large crowd awaiting.

The presidential nominee appeared on the rear platform of his car before the train came to a standstill. Loud acclamations greeted his appearance, coupled with cries of "he will give up the St. Lawrence canal."

Secretary Hoover smiled and waved at the crowd which pressed all around the car and prevented him and his party including Representative and Mrs. Tilson of Connecticut from descending to the platform.

Police reinforcements made a way through the crowd and enabled Mr. Hoover and his party to abandon the train.

#### Russian Pilot and Crew and Exploring Party Taken on Board Today

MOSCOW, July 16.—(P)—The powerful Russian icebreaker Krassin, which rescued seven of the marooned crew of the Italia last week, was pounding its way toward Advent bay today to fill up her bunkers with coal in preparation for further search for the missing Amundsen party and the six men carried off in the balloon of the Italia on May 25.

The Krassin, at 10 o'clock last night, picked up the Russian pilot Chukhono-vsky and his crew of four. The men had been stranded near Cape Platen since July 12 when they made a forced landing after sending out first word of Captains Alberto Marieno and Filippi Zappi, who had been given up for dead.

While Chukhono-vsky and his damaged plane were being taken aboard the Krassin, a searching party headed by the Norwegian guide Nois and three Italians which had been sent from the Braganza to aid the Soviet flier, approached the icebreaker and also was taken aboard.

After coaling at Advent Bay, the nearest port, the Krassin will press its search for the twelve men who are still swallowed up in the Arctic.

#### FAST PROGRESS IS MADE UPON PIPELINE WORK

Construction of the 132-mile Wichita to Ottawa extension of the Cities Service Gas company's 20-inch natural gas pipeline, initial work on which was started June 2, will be given added impetus within the next few days when the third main line gang, now being organized, begins construction on that section of the line running in a north-easterly direction from Wichita. This section, as well as the entire extension will be a combination welded project similar to the construction between Pampa and Wichita, completed last year, and which had for its purpose the direct linking of the Kansas City area with the famous 6666 ranch west of Pampa, the center of hundreds of thousands of acres of gas reserves owned and controlled by the Empire and affiliated companies in this area.

To date 6.2 miles of ditch has been uncovered, 7.2 miles of pipe painted and 4.4 miles of 20-inch pipe laid and ditch backfilled by the two main line gangs. Material is arriving daily and to date the following has been shipped: 34.6 miles of 20-inch main line pipe, approximately 183 carloads; 22 cars of paint, sufficient for about 92 miles of line; 6,150 twenty-inch couplings, about 11 carloads; 3.2 miles of 12-inch pipe for river crossings, about 17 cars; 4.2 miles of 16-inch pipe for river crossings, about 16 cars; and 60,000 coupling bolts, enough for 36 miles of pipe.

The Ottawa main line gang, working in a southwesterly direction from the Marias des Cygnes river, has laid 1.5 miles of 20-inch pipe, backfilled a like amount of ditch and uncovered about 6 miles of additional ditch. Ditch will not be uncovered too far in advance of the pipe laying crew due to the possibility of losing the ditch on account of rains.

The Emporia main line gang, working in a southwesterly direction from the Neosho river, has laid about 2.7 miles of 20-inch pipe, cleared about 10 miles of right-of-way, strung about 9.1 miles of pipe, painted 3.8 miles and completed about 3.8 miles of ditch. The exceptional progress made by this gang is partly due to the favorable condition of the right-of-way.

Deputy Sheriff C. E. Pipes appeared before Justice of the Peace I. S. James Saturday and paid a fine on a charge of affray. Previously he had had an altercation over local politics.

#### M-SYSTEM IS LOSER OF \$900 AND BIG SAFE

Heavy Box Is Carted Away Without Opening

#### CLUES EXPECTED TO SOLVE CASE

Robbery Discovered by Employees Early Today

BORGER, July 16.—Robbers looted the M-System grocery store No. 1 here last night and escaped with a safe containing about \$900, employees learned on coming to work this morning.

Entrance was gained through a window at the rear of the store. The safe, weighing between 400 and 500 pounds, was wheeled back to the rear and evidently loaded in a truck. Apparently no attempt was made to open it at the store.

City and county officers were notified immediately after discovery of the robbery and it was indicated later in the day that substantial clues had been found. Officers of the sheriff's department said they expected to make arrests before night-fall.

WASHINGTON—"Al's Our Pal" is the name of a new song which probably will tire many of us before the campaign is over.

But heaven only knows how many voters consider Al as their "pal".

"Al" is a new sort of candidate. The last two presidents had certain types of political "it", as they say in the movies. Harding was advertised as "just folks" and Coolidge was cheered as just plain, ordinary Cal, who had worked on a farm and never put on any airs.

But now here's Al. The appeal of men like Harding and Coolidge went to the great middle class. Smith is going to draw votes from another class which ordinarily doesn't give a whoop about presidential elections.

Hoover probably will beat him on the farms. Most of the foreign extraction vote is expected to go for Smith.

We get back to the white collar boys and the middle class vote, so-called. There, Smith and Hoover will have to fight it out. This vote probably will decide the election.

Can he get to the people of the nation as he has to the people of New York? Will that "he's one of us" stuff do him enough good now and can he use that remarkable political sixth sense of his to meet national scale and requirements?

Indications are that he will especially undertake to sell the new voters. There will be several millions voting this year for either the first or second time.

Current information is that the site, according to W. R. Irwin, treasurer of the Hilton Hotel corporation.

he will employ the tactics that have always won for him to date. He's going to lay off the bunk and "talk down" to us.

Al has always been a politician. Hoover isn't, though he has learned an awful lot about politics in the last eight years.

Most of us are credited with distrusting politicians. How many of us will favor Hoover simply because he isn't? Roughly speaking, Roosevelt was a politician, Taft wasn't, Wilson wasn't, Hughes wasn't, Harding was, Coolidge was, Hoover isn't, and Smith is.

JACK HOLLAND SEES FAILURE Says Amarillo Should Give Up Baseball Effort

OKLAHOMA CITY, July 16.—(AP)—Efforts to retain the Western league baseball franchise in Amarillo, Jack Holland, president of the Oklahoma City club of the circuit, believes, can lead only to further financial loss. While plans were going forward for a mass meeting at Amarillo today to finance the club for the remainder of the season, Mr. Holland remained skeptical. Business men who may be persuaded to underwrite the club's expenses, he said, would lose from \$25,000 to \$35,000. "The Amarillo situation," he added, "is hopeless. They might as well throw their money into the river and save the suspense of losing it. Having a franchise that nobody wants they will be holding the sack when the season ends." Mr. Holland last winter attempted to drop the Oklahoma City franchise with the Western league and to obtain a Texas league franchise. He failed to obtain a release from the Western league. At that time he indicated that the Oklahoma City club also was not making money. Dale Gear, president of the league, and four Amarillo business men, invited 20 other business men and all other persons interested in keeping the Amarillo club alive to today's meeting. Former owners of the club have handed the franchise to Mr. Gear, saying they had put all the money they cared to into the team.

Bissonnette Is Complicating Race in National League

By HERBERT W. BARRET, Associated Press Sports Writer. Thanks to Del Bissonnette and the Brooklyn Dodgers, the National league runaway affair with the St. Louis Cardinals has not yet developed into a race doing the running, the rest of the field panting along a city block or two to the rear. The Dodgers in general and Bissonnette in particular contrived, to upset the league leaders Sunday for the second successive day, 3 to 1, and the New York Giants, defeating Cincinnati again, moved up to within four and a half games of the Cardinals. Bissonnette has been responsible for most of the misery of Cardinal pitchers the last two days. On Saturday his home run and triple were the blows that spelled defeat for the leaders, Sunday the slugging first baseman lounded in the third to score the first run against Clarence Mitchell, the aged pitcher, whose left handed spitball offerings usually are too much for most clubs. He followed this achievement with a single in the ninth that accounted for another tally. He didn't have anything to do with the other Dodger run which was scored in the sixth when Clarence passed one man and then made a mistake by letting two men hit safely. While the entire game was being dashed madly about the bases, the Cardinals were pitched into almost complete submission by Doug McWeeney. Freddy Fitzsimmons won his own game at Cincinnati when he doubled in the eighth inning, scoring Mel Ott with the run that gave the Giants a 2 to 1 victory over the Reds. Taking over the Phils, 6 to 3, for their sixth straight victory the Chicago Cubs clung to their third place spot, two percentage points back of the Giants. Bush was hit hard but asted until the ninth. With two out and two runs in, Percy Jones entered the box to retire the side. Babe Ruth and Lou Gehrig made it 3 home runs for the year as the New York Yankees captured both ends of a double header with the Cleveland Indians, 3 to 2, and 6 to 4. Herb Pennock ran his string of consecutive scoreless innings to 26 in the first encounter and his single in the sixth drove home two of the three Yankee runs. Ruth hammered out his 34th homer of the year in the first inning of the nightcap and Gehrig got his 19th in the fifth. Ruth now stands fifteen games, 13 days and four home runs ahead of his 1927 record. The St. Louis Browns found Washington a stubborn foe but the Senators finally yielded in the 12th inning when the Browns pushed across two runs and won, 6 to 4.

Babe Ruth Hits 35th Homer Today NEW YORK, July 16.—(AP)—Babe Ruth hit his thirty-fifth home run of the season in the third inning of the first game of today's doubleheader with Cleveland. Bayne was in the box for the Indians. The homer put the Yankees ahead two to one as Combs was on base. Today's homer put the Babe twenty days, 22 games and five home runs ahead of his 1927 schedule. On July 16, last year Ruth had 30 homers to his credit. Mr. and Mrs. M. B. Davis and children are spending a vacation in New Mexico and Colorado. The visit here Sunday.

Tunney Believes Himself at Top Form for Fight

SPECULATOR, N. Y., July 16.—(AP)—Believing himself almost at the peak of fighting form, Gene Tunney decided to omit all boxing from his training program today. A few miles of road work was the only exercise he was willing to undertake to fit himself for the defense of his world's heavyweight title against Tom Heeney, the New Zealand blacksmith, on July 26 at the Yankee stadium. Tunney's decision to forego his daily ring session with sparring partners and punching bags followed close on the heels of Tex Rickard's statement that the champion was a bit too fine for this stage of his training with the titular bout still ten days away. Rickard saw Tunney work out for the first time yesterday when he made his initial visit to Speculator, where Gene's secluded training quarters are located. Rickard was accompanied by a large party of business executives and newspapermen and the combination made it a unique occasion. For their benefit, Gene went through all his training routine, omitting only the roadwork, and his physical appearance as well as his boxing impressed the visitors. Though Tunney was hit often by Harold Mays, his Bayonne, N. J., heavyweight sparring partner, the champion flashed impressively. Mays caught him with several left hooks to the head in the first session of their three-round bout and one of these blows opened a slight cut on Gene's lower lip. Tunney then settled down to business and rushed Mays about at a furious pace, landing blows from all angles. Mays said after the workout that Tunney was hitting harder than ever and was more accurate than he has been since he started training for the coming conflict.

Mickey Walker Is Impressed With Heeney's Showing

PAIRHAVEN, N. J., July 16.—(AP)—This is Tom Heeney's day of rest, his last before engaging Gene Tunney for the world's heavyweight championship in the Yankee stadium a week from Thursday night. The stubby New Zealander, after working an equivalent of nine rounds last night will pick up his training tomorrow night and carry further lay-offs. When Heeney resumes boxing he may have the opportunity of trading punches with Mickey Walker, middleweight champion. Walker watched the challenger in action last night and seemed to feel the urge of scrambling into the ring with him. He made no definite promise, however, but said he would like to work out at least a couple of rounds. He may box tomorrow. The middleweight title-holder was impressed with Heeney's workout and predicted that the invader would give Tunney dangerous competition. On the eve of his final ten-days of training, Heeney is confronted with managerial discussion that may become an open break at any time unless his American and English managers decide to patch up their differences. The friction is between Charlie Harvey and John Mortimer, brother of Bardard Mortimer of London, who holds a five year contract for Heeney's services expiring in July, 1929.

Latzo Hopeful as He Prepares for Loughran Tonight

WILKESBARRE, Pa., July 16.—(AP)—Pete Latzo, pudgy Scranton miner, gets his second shot at the light heavyweight crown in six weeks when he takes on Tommy Loughran, clever Philadelphia title-holder, in a ten-round bout here tonight. Pete is hoping for a little better luck than he had in his first tangle with Loughran at Ebbets field, Brooklyn, June 1. The coal miner entered the ring that night conceding no chance of even making the champion work hard enough to perspire, but Pete astonished the experts by carrying the fight to Loughran the whole way. For ten rounds Latzo held an edge on points but Tommy speeded up to get a close decision.

Houston Boosts 27 Innings Without Allowing Score

The Texas league race looks like a two-club affair between Houston and Wichita Falls. Twenty-seven consecutive innings without permitting a score is the record the Buff pitchers hung up in a series just closed at Fort Worth. Wichita Falls hoping that such slab work won't last, kept pace with the loop leaders by bowling over Beaumont in a trio of games, one of the victories being scored against Carl Hubbell in his Texas league finale before leaving to report with the New York Giants. The San Antonio Bears, who were only a half a game behind Houston when they opened their series in Dallas, regained third place by defeating the Steers Sunday 8 to 6. Chief Najos' homer with the bases loaded in the third helped turn the trick but San Antonio had to use three hurlers to bag the contest. Elliott had slightly the better of Thompson in a hurlers' battle at Shreveport and Waco won 2 to 1. The Cubs have won four straight games after losing 13 of their first 15 contests, 8 of them to Houston. "Buz" Phillips and Eberhard could not muzzle the Wichita Falls swat-smiths and the Spudders pleased the Sunday home crowd with a 9 to 3 victory. Cobb was nicked for 12 safeties but he kept them well scattered and was aided by good support. Mrs. W. C. Montgomery, who has spent the past two weeks visiting relatives and friends in Oklahoma, is expected home tonight. Mr. and Mrs. H. G. Twiford and sons and Mr. and Mrs. Raymond Earrah left Saturday to spend a vacation at Red River, N. M.

# BUILDERS OF PAMPA

The progress and development of any city is the result of the energy and effort of the business men and firms who make it up. The businesses listed on this page are permanent institutions and have contributed in many ways to the upbuilding of Pampa.

This page will appear in the Daily News once each week and will contain something new and interesting each day. A study of its stories will give a new knowledge of the reasons for the individual successes.

## Pampa Laundry One of the Best in State

**MARION HOWARD, PROPRIETOR, HAS MADE THE MOST RAPID SUCCESS OF ANYONE IN TEXAS**

**PAMPA IS HEADQUARTERS FOR CHAIN OF LAUNDRIES; OWNER IS A STRONG BELIEVER IN THE PLAINS**

Marion Howard came to Pampa about two years ago and established the Pampa Laundry. Today it is one of the most modern laundries in the state and one of the leading businesses of Pampa.

When the laundry was first opened 8 people did all of the work and one service car called for and delivered the clothes. Today 22 persons are regularly employed and three trucks run continuously all day to serve the majority of the families of the city.

The equipment used is the best that is obtainable and only efficient labor is employed. A. E. Cunningham is superin-

tendent of the Pampa plant. Mr. Howard is known throughout the state as the one man who has made a complete success out of the laundry business in so short a time. He owns another laundry at Wink, Texas, of which his brother, Arthur Howard is superintendent. Mr. Howard departed for Kermit today where he will supervise the installation of another laundry. G. C. Walters will be superintendent of the Kermit plant.

Laundries will be established in other Texas towns as soon as possible. Mr. Howard intends to keep all of his chain of laundries within Texas. "I've been living in these plains since 1909," he says, "and I believe in them."

Pampa is the headquarters for the chain. Mr. Howard recently moved into his new home in the Cook-Adams Addition. He has been a hard worker for the city of Pampa and is always ready to do anything that will help the city.

Before moving to Pampa he was in the laundry business in Amarillo and Plainview. Hunting and fishing and the laundry business are his hobbies, and he proves to be as successful a sportsman as he is a laundryman.

"My success is greatly due to being able to select efficient superintendants," says Mr. Howard.

**Larger Limit in Oil Production Is Proposed Today**

AUSTIN, July 16.—(P)—A suggestion that the production limit in the Settle oil pool of Howard and Glasscock counties be set at 25,000 barrels daily instead of the 15,000 proposed in the call for hearing on proration measures to prevent waste, was made Monday before the state railroad commission by F. J. Winters of the Vieux Oil company, with the concurrence, he said, of about 12 other operators and representatives.

Winters said the group had gotten together before the hearing opened and tentatively agreed upon the larger figure.

F. G. Harmon of the Marland company said he favored any limit consonant with good production practice, possibly 60 per cent of the potential production.

"I'm sure that proration will help prevent water encroachment," Harmon said.
