FDR PROGRAM IRKS JUSTICES SAYS JACKSON

'BLIND FATE AND NOT HUMAN REASON' GOVERNS

WASHINGTON, March 11 (AP)—Assistant Attorney General Robert H. Jackson asserted today a majority of the Supreme Court had demonstrated the "great objectives" of the Roosevelt administration "offend their deep convictions."

Expanding his contention a majority of the Supreme Court was opposed to Roosevelt objectives, Jackson said: "The whole program overwhelmingly approved by the people in 1932, 1934 and 1936 is in danger of being lost in a maze of constitutional metaphysics."

"Nearly every newly organized institution of the government rests under a legal cloud. This is true of the Securities and Exchange Commission, the Social Security Board, the Public Works Administration, the Tennessee Valley Authority and the Labor Relations Board."

"The acts of Congress involving the hopes and fears of a great proportion of the American people are likewise clouded in legal doubt."

"Old age benefits, old age assistance, unemployment insurance, the securities act, the relief acts, the labor relations act, the public utility holding company act, the Tennessee valley acts—as well as many taxing acts—are involved in litigation, and there is no definite assurance what their fate will be."

"When he had concluded, Jackson was subjected to a barrage of questions from committee members."

Senator MacCarran (D., Nev.), so far uncommitted on the President's proposal, voiced fear that the addition of six new justices would break down the confidence of the people in the court."

"I have no such fear," Jackson replied. He conceded, however, that the confidence of the people would depend upon the character and conduct of their intention to take the examination."

It was the first time this session the house had voted to print any proposals on minority reports."

Sen. G. H. Nelson of Idaho, leading senate opponent of horse race legislation, was obtaining signatures to a resolution designed to bring about an early committee hearing on a bill to outlaw such betting. The senate had a race repeal proposal up but decided by one vote to send it to committee."

"O'Mahoney asked if the Roosevelt bill would 'meet the objection' raised by Jackson to split decisions. Jackson agreed there was "no assurance" divisions of the court would not continue, but he said with new blood on the court "the justices will have a viewpoint that is likely to be less divergent."

DISAPPOINTED DALLAS, March 11 (AP)—A youth who snatched the purse of Mrs. Clarence McDermott here early today was probably disappointed. Mrs. McDermott told police "there was a counterfeit 50-cent piece which I was saving, four pennies, two bank books which he can't use, and a prayer book which he wouldn't understand if he could read it."

COX TO BE DIRECTOR OF BAND THIS SUMMER A. C. Cox, director of the Junior high band, was named director of the summer band by the school board this week.

Winston Savage, director of the summer band last year, will take college band instruction this summer, and will not be in the city. Mr. Cox will announce his program soon.

MEXICANS SEEK CHANGE MONTERREY, Mexico, March 11 (AP)—A movement to have the Mexican constitution changed so President Lazaro Cardenas might run for re-election at the end of his six-year term in 1940 was launched today. State legislators of Durango asked Nuevo Leon lawmakers to join in petitioning the federal congress to seek an amendment to the constitutional clause prohibiting re-election of presidents for successive terms.

I Heard... A member of the First National bank staff being called Clark Gable this morning, although he didn't have a mustache. . . . Jet Brumley reading the glad news that the cast had finally been taken from Park's leg at the University of Arkansas. . . . Roy McMillen still laughing this morning after seeing "The Whole Town's Talking," high school play which will be repeated tonight in the new high school auditorium.

41 Italian Prisoners Are Displayed to Newsmen

MADRID, March 11 (AP)—Gen. Jose Miaja, commander of Madrid's defense forces, announced today "an undeclared international war has begun in Spain" in which 30,000 Italian soldiers are participating.

"Spain has been invaded by a foreign army!" the government generalissimo declared.

The government, in a communique, asserted evidence has been "uncovered to show that four full divisions of Italian troops" are taking part in the fighting.

The communique named "General Mangini" as the commander of Italian forces in Spain.

Individual divisions are commanded by "General Bergonzoli, Nuvoloni and Copi," the government reported.

"The Italian divisions are black-shirt militia," the communique said, "except for one which is of the regular Italian army."

Simultaneously with the statement on the alleged Italian participation in the civil war, the government reported that a counter-attack on the southern front had forced insurgents to retire two miles in fighting around Pozoblanco, Cordoba province.

Collapsing of a school building in the University City sector northwest of the capital killed 140 insurgents, official reports declared.

Government aviators also were said to have bombed the Guadalajara-Zaragoza highway in the rear of insurgent positions northeast of Guadalajara.

MADRID, March 11 (AP)—Forty-one Italian prisoners of war were displayed to foreign newspaper men at military headquarters today as captives taken on the Guadalajara front.

The Italian divisions—the "Temerarias" and "black feathers"—were reported by government officials to have taken up advanced positions among the insurgent troops battling northeast of Madrid.

Four of the prisoners were officers who wore nondescript uniforms and who posed solidly for photographers in an underground cell under close watch of bayoneted troops who lined the walls.

BILL LIMITS GRADUATE INSTRUCTION IN TEXAS AUSTIN, March 11 (AP)—The house today revived a bill to limit graduate instruction to the University of Texas A. & M. and Texas Tech. It voted 61 to 57, to print the proposal on a minority committee report. The education committee had rejected it, 10 to 9.

A bill to repeal the law requiring graduates of accredited law schools to take the bar examination was revived by a much larger majority. The bill also would force the state board of legal examiners to waive in certain instances its requirement that applicants must give 27-months notice of their intention to take the examination.

It was the first time this session the house had voted to print any proposals on minority reports."

Sen. G. H. Nelson of Idaho, leading senate opponent of horse race legislation, was obtaining signatures to a resolution designed to bring about an early committee hearing on a bill to outlaw such betting. The senate had a race repeal proposal up but decided by one vote to send it to committee."

DISAPPOINTED DALLAS, March 11 (AP)—A youth who snatched the purse of Mrs. Clarence McDermott here early today was probably disappointed. 2,200 STRIKE AT REO MOTOR FIRM'S PLANT

SCORES HURT IN RIOTS IN CHICAGO AND CALIFORNIA

(By The Associated Press) DETROIT—The United Automobile Workers of America and General Motors corporation near final agreement on issues growing out of strike; Chrysler corporation strikers face injunction.

LANSING, Mich.—2,200 workers made idle by sit-down strike in Reo Motor Co. plant.

PITTSBURGH—Carnegie-Illinois Steel corp. hike wages for 20,000 office and salary workers; Steel employ representative group maps plan to fight Committee for Industrial Organization.

ALAMEDA, Calif.—Police and pickets clash at California Packing corp. plant.

CHICAGO—Underground freight tunnel workers end sit-down strike but others start.

(By The Associated Press) New outbreaks of violence heightened tension in the fast moving drama of industrial conflict today.

Nearly a score of persons were injured in a clash between police and pickets at the California Packing corp. plant at Alameda, Calif.

In Chicago more taxicabs were stoned and non-striking drivers pursued and beaten in a dispute that has crippled cab transportation.

At the Lancaster (Pa.) iron works, scene of a strike, a crowd pelted workers with eggs.

Riot at Alameda Injunctive proceedings against Chrysler Motor Corp. strikers gave rise to fear of possible violence at Detroit.

The riot at Alameda started when non-union workers tried to pass a line of 200 union warehousemen pickets.

Police released tear gas bombs and firemen shot streams of water at the pickets. Clubs, fists and rocks were brought into play.

Circuit Judge Allan Campbell ordered Chrysler Motor strikers and union officials to show cause Saturday why an injunction should not be issued. The latter retaliated by announcing sit-down strikers would not permit corporation executives to enter Chrysler plants.

Approximately 50,000 employees were made idle by the Chrysler strike, which started after the corporation rejected the United Automobile Workers Union demand to be sole bargaining agent for the company's 75,000 workers. A dispute

Mrs. Simpson Is Surrounded by Quiet Beauty

NEW YORK, March 11 (AP)—Mrs. Wallis Warfield Simpson, guest in a pre-renaissance castle on a 1,000-acre estate in Monts. France, had a circular tower-room boudoir today in which to apply her make-up.

She could ramble, if she chose, through a thirteenth century underground passage, play golf on a course where the last hole requires a 190-yard drive across 90 yards of water, or visit a tiny chapel in a forest of ancient oaks and pines.

Whether the Duke of Windsor, former King of England, would join Mrs. Simpson, the woman for whom he gave up his throne, and Mr. and Mrs. Herman L. Rogers at her new retreat, the turreted Chateau de Casle, was unknown.

Charles E. Bedaux, New York industrial engineer who, with his wife, owns the estate on the River Indre and invited Mrs. Simpson to it, said one thing that prompted them to extend the invitation was the fact that "my wife and I are still in love with love."

In spring, wild flowers star the grassy slopes of the estate. Anemones and violets bloom in late March and later, wild strawberries.

Woman Smithy Forges Ahead

"The smith, a mighty man is he, with large and sinewy hands." HE, did Longfellow say? What a shock he'd get if introduced to Mrs. Martha Drew Smith, 33, daughter of a Dexter, Mich., blacksmith. She's New York's only woman smithy.

Livestock And Poultry Will Be Judged Here

The vocational department of the Pampa high school in conjunction with the Pampa Board of City Development will conduct a judging contest here on March 20. At least eight Panhandle schools are expected to send more than 100 boys to Pampa to compete in three divisions of judging.

Judging of dairy cattle, livestock and poultry will be held with F. R. Phillips of West Texas State Teachers college, Canyon, in charge of dairy cattle judging, Ralph Thomas, Gray county agent, Pampa, in charge of live stock, and T. M. Moore of West Texas State Teachers college in charge of poultry.

Registration will be at chamber of commerce headquarters in the city hall.

Teams are expected to compete from Canadian, Miami, McLean, Panhandle, Groom, Perryton, White Deer, Wheeler, Pampa and maybe other schools.

VAST ARMY OF CROWS RAIDING SOONER FARMS

OKLAHOMA CITY, March 11 (AP)—Vast armies of hungry crows—described as the largest in the nation—raided Oklahoma's freshly planted fields today as embattled farmers pleaded for dynamite bombs to repel the attack.

Game wardens, who have blasted as many as 50,000 crows from their roosts as bad as right now. The birds are following farmers up and down their fields, digging up oats and corn as fast as they are planted.

"I believe," said Game Warden L. D. Rickey, "Oklahoma has more crows than any other state in the union."

"Farmers are calling in from all sections of the state asking for help. They say they have never seen crows as bad as right now. The crows are following farmers up and down their fields, digging up oats and corn as fast as they are planted."

He estimated the state had killed 200,000 during the winter.

Rickey appealed to the Oklahoma legislature for help.

COMMON-LAW WIFE? DALLAS, March 11 (AP)—Mrs. Catherine Smith sought today to establish herself as the common law wife of Loy Smith, who was killed by a train near Willis Point last summer. She testified in her \$50,000 damage suit against the Texas & Pacific railroad. Parents of the deceased, Mr. and Mrs. T. I. Smith of Willis Point, claimed the plaintiff was not the common-law wife of their son.

Beauty Treatments Help Maniacs at Insane Asylum

NORMAN, Okla., March 11 (AP)—Marcel and makeup go a long way to aid women suffering from mental ailments, Dr. D. W. Griffin, superintendent of the Central Oklahoma hospital for insane, said today.

"We teach them to keep beautiful," said Dr. Griffin, referring to his 1,200 woman patients in the hospital, which also houses 1,600 men inmates.

"We wouldn't do without beauty treatments for anything in the world."

"When the women get their hair done and their fingernails fixed, you should see the change in them."

Dr. Griffin said most of the women patients were maniac-depressives, suffering mental depression and an apparent loss of hope and interest in their daily lives.

"Of course," Dr. Griffin said, "the beauty treatments are just a part of the general treatment."

NEW BILL TO HELP TENANTS PAY FOR LAND

COMMITTEE PUTS ITS APPROVAL ON NEW MEASURE

(Editor's Note: Farming has changed both in acre and in methods since Congress first appropriated \$1,000 for agriculture in 1939. Now the government hires 120,000 agricultural workers and has paid out since 1933 more than a billion dollars a year to the man with the hoe. The following article, first of a series of three, outlines the administration's current farm proposals.)

WASHINGTON, March 11 (AP)—A House committee, wrestling with proposals to convert thousands of the nation's nearly 3,000,000 farm tenants into land-owners, tentatively has approved a measure to provide \$50,000,000 yearly to assist them in purchasing land.

An additional \$75,000,000 would be authorized to keep small owners from slipping into tenancy.

A confidential draft of the bill showed, however, the committee has rejected Secretary Wallace's suggestion for a government land-control policy.

Wallace, who says the land is invested with public interest, urged that the government keep title and control for at least 20 years of farms it might sell to tenants on easy terms.

The committee's proposal would give the tenant-buyer title to his land as soon after a five-year trial period as he could make final payment.

Chairman Jones (D-Tex) of the agriculture committee argued the ambitious tenant farmer would want to pay for his farm as soon as possible and operate it without government supervision.

Fifty years ago, only one farmer in four did not own the land he worked. Today, two out of five are tenants.

The bill provides that part of the money should be used to help the masses of tenants, share-croppers and farm laborers improve their living standards.

The President's farm tenancy committee proposed a federal tax to take a large part of the profits from land sold within three years, as a means of discouraging land price booms.

AMERICAN FARMER HAS CHANCE TO SHIP WHEAT

CHICAGO, March 11 (AP)—The scramble for the world's dwindling wheat supplies, which has lifted prices to eight year peaks, gave the American farmer a golden opportunity today to resume the role of exporter this year.

Board of trade specialists predicted that if domestic wheat production in 1937 is as large as expected, vessels once again will be leaving United States wharves bound for Europe with large quantities of grain. The United States has not been a wheat exporter for many months because the cumulative effect of several seasons of short crops has reduced stocks in this country to the lowest point since 1919.

In direct contrast to conditions a few years ago when the bins of virtually every big exporting nation in the world were bulging with grain for which there was no market, returning European nations now find themselves scouring the southern hemisphere for wheat to feed populations and store reserves for possible war.

SCHOOLS TO BE CLOSED IN PANHANDLE FRIDAY

Schools here and over the Panhandle will be closed tomorrow, as teachers attend the annual Northwest Texas Conference for Education in Canyon. A number of other Panhandles interested in schools will also attend the meetings tomorrow and Saturday, several to take part on the program.

Mrs. C. T. Hunkapillar, president of eighth district Parent-Teacher associations, will give an address, "The Why of the P. T. A. tomorrow afternoon." Mr. Hunkapillar, president of Pampa school board, will join in a panel discussion of the 12-year school plan for Texas and L. L. Sone, high school principal, in a panel discussion of curriculum problems.

Ernest C. Caber of Pampa will be chairman of the social science section of the teachers' meetings tomorrow afternoon. The high school band directed by Winston Savage will furnish one of the musical programs tomorrow, and Supt. R. B. Fisher will lead singing in one of the section meetings.

Parent-Teacher associations and other groups associated with the schools will send delegates to the meeting, at which 2,500 teachers and laymen are expected. Irby Carruth of Canyon is president of the conference.

BAD LUCK STORY ABILENE, MARCH 11 (AP)—R. E. Ross of Lubbock, bookkeeper for the First National Bank, is followed by bad luck. Saturday he and his wife brought their young daughter, Charlene, to Abilene for treatment of an attack of pneumonia. Tuesday both Mr. and Mrs. Ross entered the hospital with pneumonia. The child's condition is reported "fine," while the parents are "doing fairly well."

I Saw... The opposite corner unable to say anything (for the first time in his life) yesterday afternoon when the NEWS force presented him with a set of woods so that he could not blame his punk golf game on his clubs. It was the occasion of his tenth year with the NEWS and the NEWS' tenth birthday.

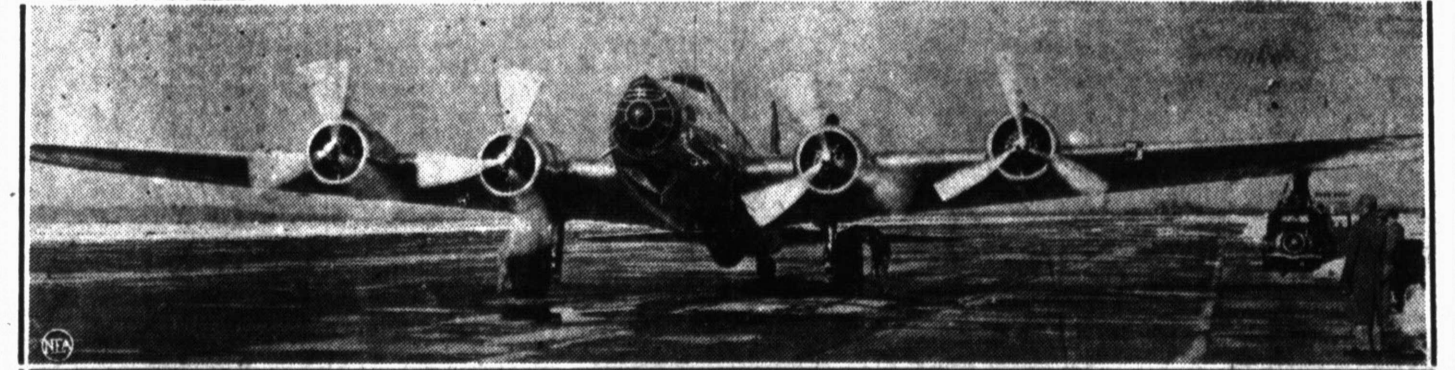

"We'll buy your car license with the purchase of 2 tires; no interest on tires, 5 months to pay on tires and the license. Motor Inn.

CASHIER SOUGHT FORT WORTH, March 11 (AP)—The search concentrated in Fort Worth today for Burns Kittrell, 25, cashier of the Lubbock National bank, who has been missing since Sunday. Hearing foul play, a Lubbock officer came here to direct the hunt. A man resembling Kittrell was seen Sunday in the bus station at Amarillo buying a ticket for Fort Worth.

U. S. TEMPERATURE READINGS (At Pampa)

Table with 2 columns: Time and Temperature. Rows include Sunset Wed., 60; 6 a. m. Today, 37; 11 a. m., 55; 7 a. m., 36 1/2; 12 Noon, 62 1/2; 8 a. m., 42; 2 p. m., 66; 9 a. m., 50; Maximum today, 68 degrees; Minimum today, 36 1/2 degrees.

New Champion of Uncle Sam's Fighting Eagles

Bristling with guns and bulging with bombs, the U. S. army's new flying fortress arrived at Langley Field, Va., from the Pacific coast. Above it is poised on the runway with all four of the 450-horsepower motors whirling 3-bladed propellers, the most formidable fighting eagle in Uncle Sam's cyrie.

MENU BALANCE IS STUDIED IN WOMEN'S CLUBS

Merten and McLean H. D. Clubs Meet Recently

Proteins, fats, carbohydrates, minerals, water, and vitamins are called foodstuffs. Merten Home Demonstration club members were told by Mrs. Julia E. Kelley, county agent, as she spoke at the home of Mrs. T. L. Sirman Wednesday.

Food is classified according to its composition and use; the most useful for dietary purposes are vegetables and fruit, meats, milk, eggs, fish, cereals, sugar and fatty foods, she said. These may be used to make up pleasing meals, and the menu planner should include at least one leafy vegetable and a fruit daily.

Mrs. Alva Phillips conducted the business session. Roll call was answered by 10 members. Mrs. Warner Roberts and J. C. Newland were visitors.

Mrs. M. Rake was appointed kitchen demonstrator in the club to replace Mrs. Fred C. Fisher.

Early Garden Suggested

A balanced diet is one that takes care of all the body. Mrs. Julia E. Kelley, home demonstration agent, said in defining the program topic to McLean club Friday afternoon at the home of Mrs. Barney Fulbright.

Health depends on a proper balance of proteins, starches and fats, vitamins and minerals, she continued, urging the use of leafy vegetables for necessary minerals. An early garden, planted on the south side of a building and covered with a paraffined cloth, was suggested to supply vegetables.

Balanced menus for a week were made by Mmes. J. A. Fowler, L. N. Mitchell, W. B. Andrews, J. H. Wade, C. M. Eddy, C. E. Hunt, R. F. Sanders, Luther Petty, Sam McClellan, Palesteen Gething, and Fulbright, to be corrected by Mrs. Kelley and then used by the club members.

Cinnamon rolls and coffee or cocoa were served to 11 members; a new member, Mrs. Walter Evans, and Mmes. Claude Brooks, J. C. McClellan, L. E. Ward, and M. C. Newman, visitors.

The next meeting will be with Mrs. Eddy on March 19 for an all-day program.

Alanreed News

ALANREED, March 11—The second quarterly conference of the Methodist church was conducted Sunday. The Rev. W. S. Barcus, presiding elder of Clarendon, presided. Reports showed that churches of Heald, Denworth, Ramsdell, and Alanreed are progressing. There were 23 present. The pastor, Rev. J. P. Cole, stated that dates for revival meetings had been set. Alanreed's revival begins the night of July 21, Heald's the morning of August 2. The third quarterly conference is to be held at Heald April 4.

Baptist W. M. S.

Mrs. S. T. Greenwood was hostess to the Baptist W. M. S. Monday afternoon.

Personals

Derwood Jones and John Roe of Fort Sill, Okla., were visitors in Alanreed last week.

Robert Dunkle and son, Robert, Jr., of Clovis, N. M., were guests in the Frank R. Crisp home this week.

Mr. and Mrs. Everett Hall and family were Amarillo guests Sunday.

Now Ease Neuritis Pains Fast

Bayer Tablets Dissolve Almost Instantly

In 2 seconds by stop watch, a single BAYER Aspirin tablet dissolves to disintegrate and go to work. Drop Bayer Aspirin tablet into a glass of water. By the time it hits the bottom of the glass it is disintegrating. What happens in the stomach... happens in your stomach.

For Amazingly Quick Relief Get Genuine Bayer Aspirin

If you suffer from pains of neuritis which you want quick relief, Genuine Bayer Aspirin tablets give quick relief, for one reason, because they dissolve or disintegrate almost instantly they touch moisture. (Note illustration above.)

Hence—when you take a real Bayer Aspirin tablet it starts to dissolve almost as quickly as you swallow it. And this is ready to start working almost instantly... headaches, neuralgia and neuritis pains start easing almost at once.

That's why millions never ask for aspirin by the name it starts alone when they buy, but always say "BAYER ASPIRIN" and see that they get it.

Try it. You'll say it's marvelous.

Girl Scouts Celebrate 25th Year as Tribute to Founder

BY WALTER C. PARKER, NEA Service Staff Writer.

NEW YORK—Twenty-five years ago an American woman, returning from England, embarked on the S. S. Arcadian, burning with an idea. On March 12 of this year nearly 400,000 members of the Girl Scouts will commence an eight-month celebration of the fruition of that idea.

The woman was Mrs. Juliette Gordon Low, founder of the Girl Scouts in America. Born in Savannah, Ga., during the troublous times of that war, she had married an Englishman and gone to live in his native land. There she became acquainted with Sir Robert Baden-Powell and his sister. They discussed his plans for the Boy Scout movement and Mrs. Low's imagination was fired with the possibility of organizing a similar project for girls.

Her first effort at "Girl Guiding," as the English called it, was among the girls of Glen Lyon, Perthshire, where her husband had a shooting lodge. The program included chicken raising and weaving the wool sheared from their parents' sheep. Other brief experiences with girls in London and Lambeth increased her eagerness to present the gift of scouting to American girls, and she lost no time in returning to Savannah.

Turned Party Into First Troop. Commanding the unenthusiastic aid of several somewhat bewildered friends, she gave a tea-party for 12 girls, and by the time the party was over, those girls were the first Girl Scout troop in America.

It is because Mrs. Low was the kind of woman she was that when the 1912 tea-party is commemorated by 16,143 troops and Brownie packs of Girl Scouts in 4,366 cities, it will be more than a birthday party to celebrate the Silver Jubilee of the organization. It will be a nationwide tribute to the success of Mrs. Low's great vision, to her faith in American girlhood and to her personal magic which transmuted apathy and dilletanism into energetic enthusiasm and sustained effort.

Mrs. Herbert Hoover, the president, and first Girl Scout to become a First Lady, will open the celebration with a national broadcast on March 12, the birthday evening. Mrs. Franklin D. Roosevelt, honorary president, will be the principal speaker at a Silver Jubilee dinner in New York on April 9. From August 9 to 23, girls from 30 foreign nations, members of the international Girl Scout movement, will be the guests of American Scouts during a great encampment at Camp Andree, Briarcliff Manor, N. Y. The climax of the jubilee celebration will be a national convention at Savannah, Ga., the birthplace of Girl Scouting.

Handicapped By Ill Health. Mrs. Lowe would seem to be the last person on earth to undertake the foundation of a great national movement—and what is more, practically single-handed carry it thru the early days of confusion and struggle.

Fifty-two years old when she brought the idea back from England, in ill health, handicapped by deafness, with no idea of experience in organizing, ignorant of office routine and completely helpless in financial matters, she had nothing but an indomitable will, a complete blindness to obstacles and a fervent faith in the worth of her idea.

She turned her deafness into an asset by using it to ignore refusals of co-operation. Never a wealthy woman, she financed the movement in its cradle days and when funds ran low, she sold her personal possessions. Her check-book was ever a puzzle to her and bills payable were filed in four bundles, marked "Next year," "Some time" and "Never." When the early committees of the Girl Scouts struck a snag, her invariable solution was "Let's put it up to the girls." If the girls like it, it was right. If not, out with it!

Juliette Low's great dream was of good-will between the world's races, with Girl Scouting as the medium. She considered Scouting as a game whose rules are: "To play fair. To play for your side and not yourself." Mrs. Lowe died in 1927, active almost to the day of her death.

And because the Girl Scouts recognize that they owe their very being to Mrs. Low's devotion to an idea, and the continued growth of the organization to her unbounded generosity of time, energy and money, the Silver Jubilee will be as much a testimonial to the careful stewardship of her ideals as it will be a celebration of the material well-being of the movement.

STUDY CLUB POSTPONED

The study club of Junior High P-TA will postpone a meeting scheduled for tomorrow, to Monday at 2:45. The change is made because school will be dismissed tomorrow and teachers will be in Canyon attending the educational conference.

HELP 15 MILES OF KIDNEY TUBES

To Flush out Acids and Other Poisonous Waste

Doctors say your kidneys contain 15 Miles of tiny tubes called nephrons which help to purify the blood and keep you healthy. Most people pass about 3 pints a day or about 3 pounds of waste. Frequent or costly passages with burning and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the beginning of rearing backaches, rheumatic pains, lumbago, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's famous kidney pills. They give happy relief and will help the 15 Miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

The evolution of the Girl Scouts from the voluminously uninformed youngsters of the organization's early years into the smart, high-spirited youngsters typified by the painting above marks fulfillment of the ideal launched by the late Mrs. Juliette Low (below), founder of the movement which this year celebrates its silver jubilee.

Club at McLean Reviews Book

By Mrs. Jim Back

McLEAN, March 11—Miss Helen Heath and Miss Ina Nell Still were hostesses Monday evening to Members of the Sigma Gamma at the D. C. Carpenter home. After a short business session, an interesting book review of "American Indian Life" was given by Miss Sarah Truitt. Miss Still was heard in a violin solo, with Mrs. Willie Boyett, special guest for the evening, at the piano.

The St. Patrick's Day motif was carried out in the refreshments and favors. Fruit cocktail was served in orange cup baskets with the handles tied with green cellophane ribbon. Green and white shamrock cups held the Irish candies.

Girls Have Spread

A Dutch spread was enjoyed by members of the Homemakers club Tuesday evening when members met at the high school for their weekly meeting.

Mrs. W. L. Campbell who has been ill in a Pampa hospital, was brought to her home Wednesday.

John Sparks, who has been sick for some time, is able to be on the streets again.

Magic City News

By Mrs. C. A. Hodges

MAGIC CITY, March 11—Mrs. W. N. Hodges, who has been visiting her son here, left Tuesday for a stay with her mother in Turkey before returning to her home in Portales, N. M.

Mr. and Mrs. Bernard and son of Oklahoma City visited in the C. B. McCoy home Friday.

Mr. and Mrs. Joe Lobough are spending a few days in Eastland this week.

Mr. and Mrs. Otis Johnson spent Tuesday in Amarillo.

Honor rolls for the fifth and sixth grades were announced recently for the past month. Mary Ellen O'Neal of the fifth grade, Alva Rae McDonald and Glen Dean King of the sixth grade were listed as honor pupils.

HELTON FUNERAL HELD AT CANADIAN TODAY

CANADIAN, March 11 (NC)—The funeral of Miss Carretta Josephine Helton, who died Tuesday night, is to be conducted this afternoon at 4 o'clock at the Baptist church here.

Miss Helton died at the home of her brother, Judge W. L. Helton, with whom she has long made her home.

Mr. and Mrs. Will Crows attended the funeral of his uncle at Spearman yesterday afternoon.

Mr. and Mrs. Jepp Todd, Dr. and Mrs. P. D. Teas spent yesterday in Amarillo.

FLAPPER FANNY

"What did Papa think of the new hat, Fanny?" "Said a man may not know what's stylish, but he knows what he's supposed to like."

Surprise Party Is Surprise for Surprising Group

LEFORS, March 11 (NC)—It all came about when a group of ladies from the T. E. L. class of the Baptist church at Lefors started out Monday morning for Skellytown to surprise a former member, Mrs. Tommy Dobbins who is moving on to Sunday, Mrs. Dobbins lives in a Magnolia camp near Skellytown.

When the guests arrived she was gone and the surprise was on them. Determined to carry out the party, they took their covered dish dinner, went inside and made themselves at home. Besides bringing their dinner each brought a tea towel for the hostess. Noon came but no hostess. The guests decided to eat.

Time came to leave, and still no hostess. The guests strung a clothes-line across their hostess' kitchen and with her clothes pinned the tea towels along the line, with names attached to towels. Then each wrote a note, and pinned and tucked them everywhere.

Leaving the house for their hostess' inspection they returned to Lefors to learn Mrs. Dobbins had come to Lefors to spend the day, but they missed her there.

Guests included Mmes. George Delver, J. D. Herrell, Wayne Hurt, E. W. Ammons, W. E. Thompson, J. M. Nix, Jack Frost, H. O. Mann, C. C. Hill, Rippey, and Courtney.

Shamrock Couple Marry Recently

By Mrs. Peyton Wofford

SHAMROCK, March 11—Dr. and Mrs. J. W. Shaddix announce the marriage of their daughter, Martha Faye, to Harry Dugger Sunday at Oklahoma City. The couple will be at home in Shamrock.

The bride is a popular young woman, was prominent in high school here before her graduation, and attended Texas State College for Women at Denton. Mr. Dugger, son of Mrs. Nellie M. Dugger of Sayre, Okla., has been associated with his brother in the management of a grocery store here. He is a graduate of Oklahoma University and has attended Washington University at Seattle.

A garage at the home of Mrs. T. J. Potts and a car belonging to Mrs. Margie Fleener were destroyed by fire late Saturday night. The fire started from a short circuit in the car.

Mr. and Mrs. E. G. Kromer, Mr. and Mrs. Percy Bones of Shamrock were among the guests at a dinner when Mr. and Mrs. A. B. Crump of Wheeler entertained Sunday.

Johnnie Marie Taylor, student at an Oklahoma City business college, was called home last week-end because of the death of her grandmother, Mrs. John Taylor of Wheeler.

Bridge Club Has Pre-Easter Party

A pretty pre-Easter party was given for Nephene bridge club at the home of Mrs. Roy Sullivan yesterday afternoon. Favors, tallies, and refreshments were in Easter motif.

Mrs. Jess Clay made high score and Mrs. V. J. Castka second for guests; Mrs. H. A. Peebles high and Mrs. E. S. Walker second for members. Cut awards went to Mmes. John A. Hall and Lloyd Miller, guests, and Mrs. Peebles. Mrs. Hall held the duce prize.

Other special guests were Mmes. Beulah Reid and F. H. Paronto. A handkerchief shower was given Mrs. W. A. Spoonemore, honoring her birthday.

IS HONOR STUDENT

DENTON, March 11—High scholastic attainments the first semester of this year won for Miss Blanche McMillen, daughter of Mr. and Mrs. Roy McMillen of Pampa, a place on the dean's special honor roll at Texas State College for Women (CIA). This distinction, accorded only 329 students in a student body of almost 2,400, will be officially recognized March 11 when a special honor's day program will be held at the college. Miss McMillen is a member of the sophomore class, and is working toward a bachelor degree in English.

ON HONOR ROLL

BELTON, March 11—Miss Muriel Kitchens, daughter of Mr. and Mrs. A. B. Kitchens of Pampa, was one of 80 Mary Hardin-Baylor students listed on the fall semester honor roll making not less than B 5 subjects.

Twenty per cent of the student body made the honor roll this year for the fall semester ending January 31.

Locomotives of the express type use about two tons of coal every 100 miles.

MIND your MANNERS

Test your knowledge of correct social usages by answering the following questions, then checking against the authoritative answers below:

1. May we write letters to very good friends on the typewriter?
2. Should a woman sign a letter "Miss Jane Ford"?
3. Is it correct to send engraved cards to thank friends who have sent flowers or personal notes to a bereaved person?
4. In a friendly letter may the date be written in the lower left hand corner?
5. Is it more formal to begin a letter with "My Dear Mr. White," than "Dear Mr. White"?

What would you do if—
You were choosing an ending to a letter you have written to a newly made friend? Use—
(a) Lovingly?
(b) Sincerely?
(c) Yours truly?

Answers
1. Yes, but always write social notes in longhand.
2. No, use "Miss Jane Ford" if necessary.
3. No, only a short note is necessary but it should be personal.
4. Yes, but it is unnecessary to include the year.
5. Yes.
Best "What Would You Do" solution—(b).

DOUGHNUT SALE

Rainbow Girls will conduct a doughnut sale Saturday, and will deliver doughnuts to those who place advance orders. The orders should be telephoned to Mrs. W. B. Murphy or Mary Frances Hamlett. Funds from this sale, one of a series, will help send a member to a state meeting.

Degree Team Goes To Berger Rebekah Lodge This Week

The degree team from the Rebekah Lodge here, led by F. H. Paronto, went to Berger Monday evening to assist in a program initiating eight new members there. After the meeting, the visitors enjoyed with Berger members a social and delicious refreshments.

Those who went from Pampa were Messrs. and Mmes. Paronto, J. W. Crisler, V. J. Castka, W. A. Spoonemore; Mmes. John A. Hall, Owen Young, Jess Clay, R. S. Walker, Otis Brinkman, Hub Burrow, Shoemaker, John Killian, Wells, Davis, Jim King, Harold Baer, Carl Baer, Roy Kretzmeier, Bob Roberts, Laura Brown, Joe Brown, Irene Kilne, Roy Sullivan, Emory Robbitt, Tom Roberts, H. A. Peebles, R. B. Miller, Fliche, Gantis, Zona Donnell.

SHELL GAME

ASHTABULA, O. (AP)—Raymond Herrman may be the man who coined the saying this pedestrian is just a motorist looking for his car. He reported theft of his machine to the police. Then he found it and asked officers to cancel the theft report. When he went back to get the car, it had disappeared again.

Miss Ballard Is Recent Bride of Mr. Roy Burgess

Mr. and Mrs. H. B. Burgess announce the marriage of Miss Louise Ballard to their son, Roy Burgess, in a ceremony solemnized at Sayre, Okla., February 25. The couple is now at home at 608 E. Kingsmill.

The bride has made her home in Pampa with her uncle and aunt, Mr. and Mrs. Clyde Bobbitt, and has been employed at the telephone office here. Mr. Burgess owns and manages a farm near Kingsmill.

Club Girls Model Garments They Made

Slacks and shirtwaists were modeled by girls of the County-Wide 4-H club, who made the garments, Saturday afternoon in a meeting at the county home demonstration agent's office. The group sang songs and planned the next meeting, on March 20. Mrs. O. G. Smith, sponsor, led a parliamentary drill. Six were present.

TANGEE GIVES MOTHER ADVICE ABOUT DAUGHTER

Tangee, psycho-analyst appearing this week at the LaNora theater, today answers another weighty problem for a Pampa mother. He gives some advice to a woman who falls of understanding her 17-year old daughter.

Interviews are being given by Tangee each afternoon and evening on the mezzanine of the LaNora. There is no charge for the service and he has nothing to sell.

Here are today's questions and answer:

Q. I have been reading some of your articles in the Pampa Daily NEWS and feel that you may be able to advise me concerning a situation that exists in my home. What can I do to get the companionship and confidence of my 17 year old daughter? It seems that she seeks personal advice from outsiders. Advice I feel should be discussed between mother and daughter only. She is irritable and does not seem content at home. Her rebellious nature causes harsh words which I am afraid will lead to greater difficulties in our relationship. Please tell me what I can do. Mrs. A. L. W.

A.—Have you ever taken the time to analyze the relationship between you and your daughter? Just how much do you do to understand your daughter and help her think through problems that might be disturbing her? You must understand that youth has its problems the same as adults. Perhaps it is a problem that has to do with school, perhaps a love affair, or perhaps money.

Do you send your daughter off to school in the morning with a cheery word of departure, or do you remain in bed and let her grab a glass of milk and start off without, perhaps the proper nourishment? Does she have some change in her purse that will give her independence in her relationship with her schoolmates? She will remember and appreciate a definite allowance for the expenditures. If it is impossible for you to give her a small allowance—wouldn't it be better to sit down and explain to her why, rather than tell her no without an explanation?

What are you doing toward developing your child's initiative? Do you encourage her to work out her own problems with an occasional suggestion from you, or do you try to deliberately solve her problems and live her life for her? Do you insist on choosing her friends as well as her evening gowns for her?

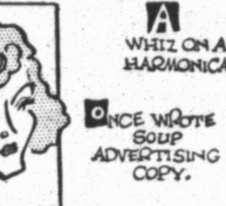

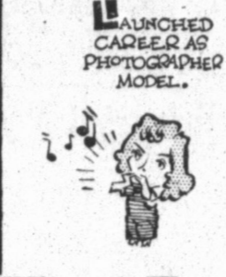

Perhaps if you would invite your daughter's confidence in a friendly manner and let her know that her interests are your interests, you would get some place in her esteem and admiration. Soon she would be saying to her girl-friends, "My mother is the most understanding person in the world. She is a pal. I don't have to seek outside counsel. I get mine first hand from my mother."

Safety And First Aid Form Subject Of Company Meet

A division of the Texas company in the south oil fields of which Paul McNamara is superintendent, met in joint session with Chapter 77 of the Phillips production department Wednesday evening in the community hall.

Showing first aid as it should and should not be applied was well brought out in a one-act play. Charles Barrett and Richard Wilson also from the Texas co., sang two songs.

City Manager C. L. Stine and Fred Thompson from Pampa took part in the Phillips program. Mr. Stine talked on "Safety practices and gadgets used to further promote safety." Fred Thompson gave a more lengthy talk on the three E's of safety, Education, Encouragement and Enforcement.

A first aid team made up of Polly Simpson, Ray Franklin, Foy Hadlock, Ben Romine, Walter Chium and D. Farridge gave a demonstration of an accidental problem showing proper method of applying safety first.

"Deacon" Jones gave a report on traffic-minded accidents. Refreshments were served by the committee. Red Owens, Lewis Neyland, and H. S. Hunt.

Treble Clef to Aid Program of Amarillo Club

Practice for a program in Amarillo Monday occupied Treble Clef club at its weekly meeting yesterday, and also in a called meeting Monday. Philharmonic club of Amarillo has invited the Pampa club to be program guests at an open meeting in the crystal ballroom of the Herring hotel Monday.

Treble Clef club members will present one number, and will also sing in a combined chorus with the hostess club and the music club from Hereford.

Denworth News

By Mrs. Earnest Dowell
DENWORTH, March 11—Gwynne Carpenter, who attended Baylor college at Dallas, spent the week-end at home.

Mmes. L. L. Morse and R. L. Marshall attended the county P-TA council meeting at Woodrow Wilson school in Pampa Saturday.

Mr. and Mrs. Jesse Roberts have sold their business here and plan to leave for the South Plains by April 1.

The Rev. J. P. Cole, Methodist pastor at Alanreed, is teaching a study course, Life of Christ, at the church this week. Final sessions will be on Monday and Tuesday of next week. Everyone is invited to attend the entire course or any of the classes.

Fourteen women were present for a meeting of the Missionary society Monday afternoon. All women of the community are invited to these weekly meetings.

J. A. (Frenchy) DeGrace is seriously ill in an Amarillo hospital.

Messrs. and Mmes. Vester Dowell, C. B. Copeland, L. T. Jones, Linzy Cotham, and Mrs. P. B. Kratzer and children heard Miss Blanche Groves, missionary from Soochow, China, speak at the LeFors Baptist church Sunday night.

MAKES TEST.
OAKLAND, Calif., March 11 (AP)—Amelia Earhart planned a series of short flights from Oakland airport today for final tests of her trim, \$80,000 "laboratory" plane in which she intends to start a 27,000-mile world-girdling adventure Monday. She awaited the arrival from Los Angeles of Capt. Harry Manning, navigator who will accompany her as far as Port Darwin, Australia, before beginning the tests.

FOR PACKING UP FOR WARM SPRINGS VISIT

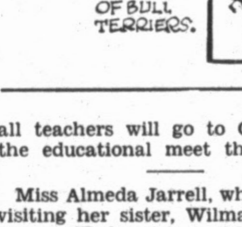

WASHINGTON, March 11 (AP)—President Roosevelt ordered everything but his fishing tackle put in suit cases today for a two-week visit to Warm Springs, Ga.

Large tarpon spinners will be held in reserve for a sea vacation late next month in the Gulf of Mexico. A special train of a half dozen cars was made ready at union station to take the chief executive and a White House party of 11 late in the afternoon to the southland.

The first book printed in America was the "Escala Espiritual de San Juan Climaco"; no copies are known to be in existence.

all teachers will go to Canyon for the educational meet there.

Miss Almada Jarrell, who has been visiting her sister, Wilma, here, returned Wednesday to Memphis for a few days visit with her parents. She will return to Corpus Christi soon.

Hulen Laycock and family plan to spend this week-end with his sister, Mrs. Nash Thompson at Canyon.

BRITAIN TO HAVE 148 SHIPS ABUILDING SOON

LONDON, March 11 (AP)—Sir Samuel Hoare, first lord of the admiralty, told the House of Commons today that Great Britain, by the end of the year, "will have under construction the remarkable number of 148 warships."

Sir Samuel introduced the 1937 naval estimates. These call for 80 more new ships to cost \$525,325,000. With the ships already started, these will bring the total to be under construction by the end of 1937 to the 148 figure, he said. They will include 5 capital ships, 4 aircraft carriers, and 17 cruisers.

TEX. COMPANY FOUNDER DIES OF PNEUMONIA

FAMOUS OIL MAN AND CAPITALIST DIES IN CALIFORNIA

PALO ALTO, Calif., March 11 (AP)—A cold contracted by a leap from bed because of an earthquake shock, resulted in the death today of J. S. Cullinan, 76, capitalist and oil enterprise founder of Houston, Texas.

Cullinan's death was caused by pneumonia, hospital physicians announced.

Friends said Cullinan was stopping in San Francisco last Monday while enroute here to visit friends. An early morning earthquake occurred and Cullinan, frightened, leaped from bed. He caught cold, his condition quickly became worse, and he was brought to a hospital here.

His daughter, Nina, flew from Houston Tuesday, and a son, Craig, was enroute from New York. Funeral arrangements were pending.

Cullinan, who had been in the oil business since starting work in the Pennsylvania fields as a youth, was head of the Republic Production corporation, a major firm in the oil industry.

He laid the groundwork for the Magnolia Petroleum company, now a subsidiary of the Standard of New York, in Texas' first oil field at Corsicana in 1898. He was a major figure in the famed Spindletop field at Beaumont, where he helped form the giant Texas company. He organized the first pipeline and refinery units in Texas.

Born in Sharon, Pa., of Irish stock, Cullinan was a fighter all his life and figured in several "capitalists' feuds."

About 10 years ago while he was head of the American Republic corporation he successfully waged a war for control of the far-flung enterprise, defeating a powerful group of stockholders.

Opposing him were such leaders in the oil industry as T. P. Lee, a founder of the Yount-Lee company which was sold about two years ago for about fifty million dollars; E. F. Woodward, big-time independent operator, and the late Will Hogg.

In 1897 he went to Corsicana from Pennsylvania, where he had spent 13 years with the Standard company.

Oil activity was just getting underway at Corsicana. He was among the pioneers who persuaded investors of the practicability of putting their money in the Texas petroleum industry.

Cullinan's first pipe line and refinery company in Texas was known as J. S. Cullinan & Co., later as the Corsicana Refining company and finally as the Magnolia Petroleum company.

Severing his connection with the Corsicana enterprises, Cullinan went to Beaumont in 1902, where he formed the Texas company. He was president of that company from 1903 to 1913 and developed it into one of the largest oil companies in Texas. It was shortly after leaving the Texas company that he organized the American Republic corporation.

BCD HAS SUPPLY OF HIGHWAY BOOKLETS

A limited supply of booklets on Texas laws relating to motor vehicle highway traffic and registration, enacted by the legislature, including the regular, first and second called sessions of the forty-seventh legislature has been received by the Board of City Development. Any person interested in securing one of the interesting books should call at BCD headquarters in the city hall immediately.

The booklet contains facts every motorist should know, facts every truck driver should know, Texas highway laws and much other valuable information. Articles from revised statutes, both civil and criminal, make interesting reading.

Eugene Field Was Impatient Wooer

NEW YORK, March 11 (AP)—Love letters of Eugene Field, revealing the gentle poet as an impatient wooer, came to light here today.

Long held in private ownership, the letters show that even Field—a master of lyric expression in verse and prose—struggled and sighed in despair of finding words to depict the tender emotion he felt for his innamorata.

"This, at the height of one glowing outburst, he lamented:

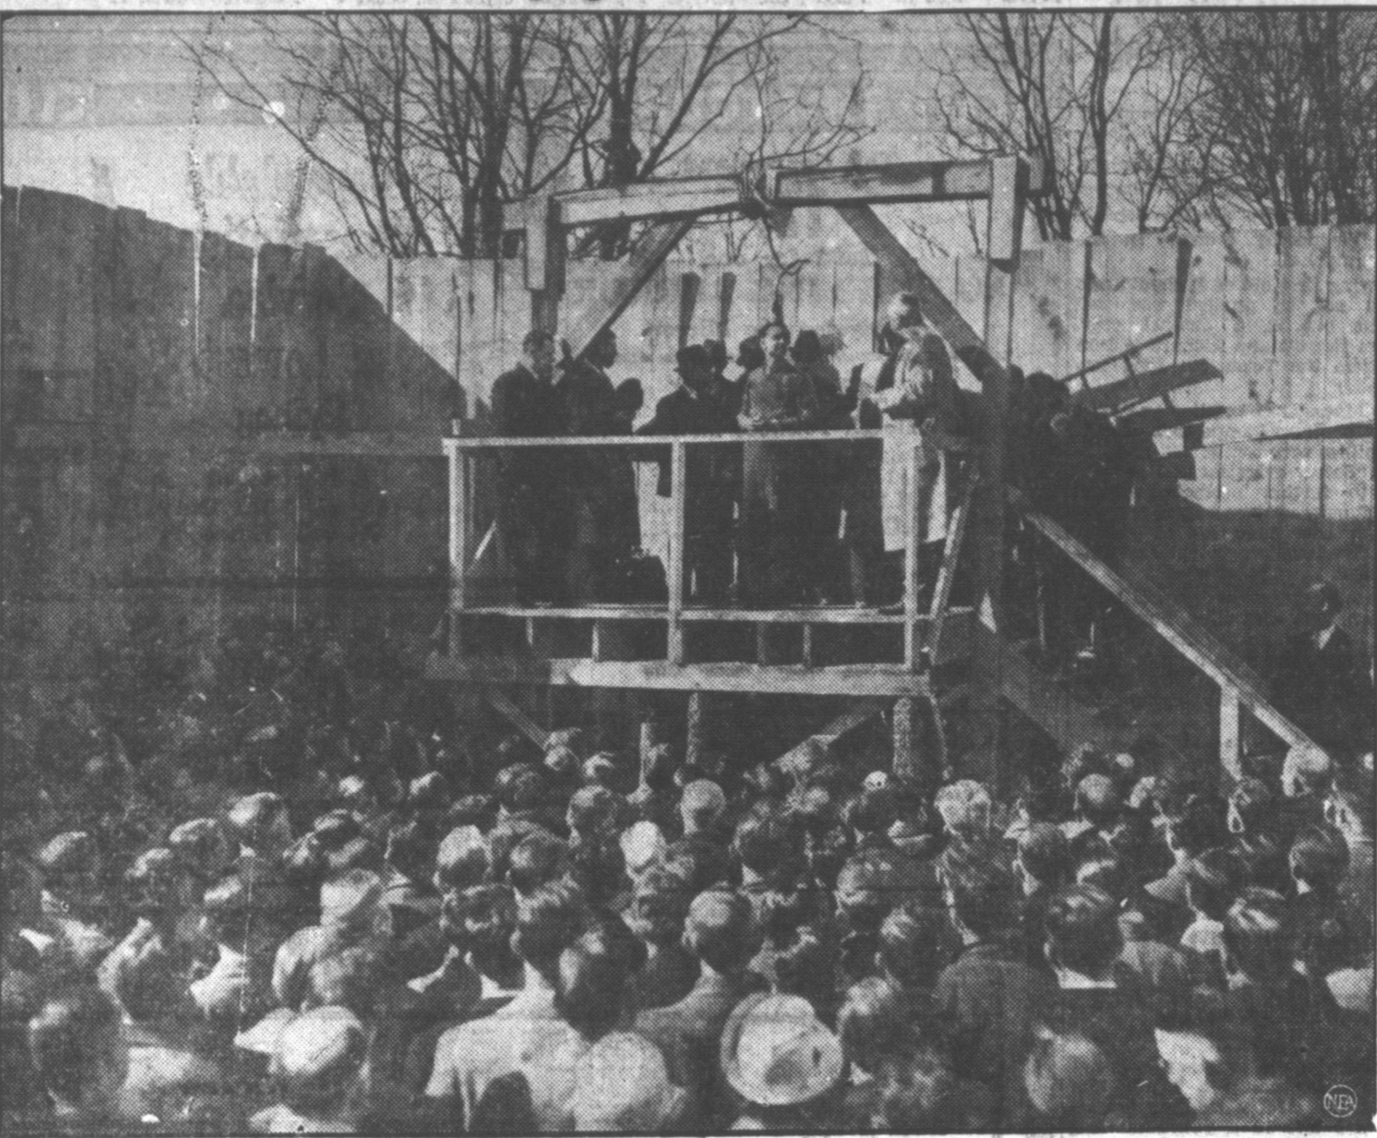

"... How coldly these words seem, upon paper! How I wish I could hold you in my arms and tell you all the deep and strong love I bear for you."

"The letters, written several years before he penned the lines of his famous poem "Little Boy Blue," were mailed from Nice, France, in 1873, and addressed to "My Sweet Julia,"—Miss Julia S. Comstock, of St. Joseph, Mo., who later became his wife.

Abyssinian natives greatly prize empty soup cans and catsup bottles. They will give as much as a dozen eggs and a chicken for each empty can or bottle.

Awed Crowd Views Hanging of Missourian Who Killed for Love

Fascinated onlookers watched a corded noose go around the neck of smiling Hurt Hardy, 31, a few seconds after the above picture was taken of the public hanging in Ste. Genevieve, Mo. Then they saw the swift movement of a sheriff's arm, the springing trap, the plunging body. There was an uneasy stir in the crowd of 200. A man fainted. Outside the pine board walls, 500 persons barred from witnessing Missouri's first public execution in a century, milled noisily. The farmhand who had killed blond, 19-year-old Ethel Fahnestock "so no one else could have her," was pronounced dead 20 minutes after his body dropped through the trap.

McFARLANE APPOINTED TO HOUSE COMMITTEE

WASHINGTON, March 11 (AP)—Texas had a new member on the House appropriations committee today, succeeding the late Representative James P. Buchanan.

The ways and means committee chose Representative W. D. McFarlane of Graham to fill the vacancy on the committee which originates all legislation pertaining to government expenses. Buchanan was chairman of this group but McFarlane's name is at the bottom of the democratic list in keeping with the committee's policy of ranking of its new members.

McFarlane resigned his position on the naval affairs committee. "I asked for the transfer to the appropriations committee because I think I can do more good for my district and state in that spot," McFarlane said. "I hope that I may be given a place on the agriculture department sub-committee."

Hospital Notes

Mr. and Mrs. W. H. Ponder announce the birth of a daughter at Worley hospital.

Mrs. Ray Anderson and baby were taken to their home from Pampa-Jarratt hospital yesterday.

Mr. and Mrs. M. I. Schaffer of Skellytown are the parents of a son, born at Worley Hospital.

Mrs. C. H. Shearer is a patient in Pampa-Jarratt hospital.

Misses Irene and Florence Jackson are patients in Worley hospital.

Mrs. B. L. Roberson is a patient in Pampa-Jarratt hospital.

Nancy Morse, infant daughter of Mr. and Mrs. E. A. Morse, is a patient in Pampa-Jarratt hospital.

Lloyd Ataway, infant son of Mr. and Mrs. L. V. Ataway, was admitted to Pampa-Jarratt hospital Wednesday.

Mrs. W. L. Hill was admitted to Pampa-Jarratt hospital last night.

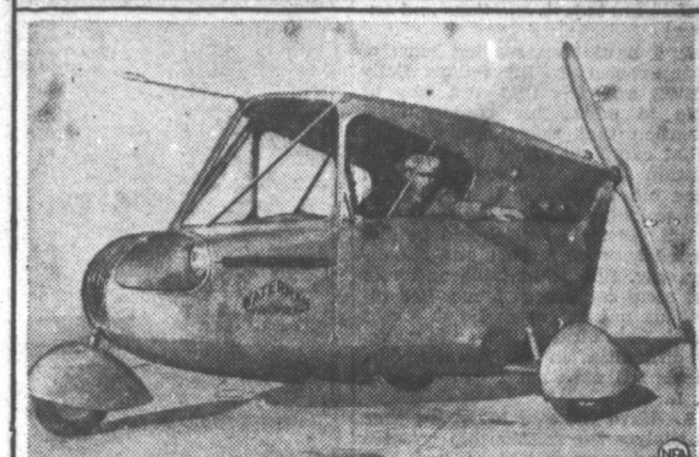

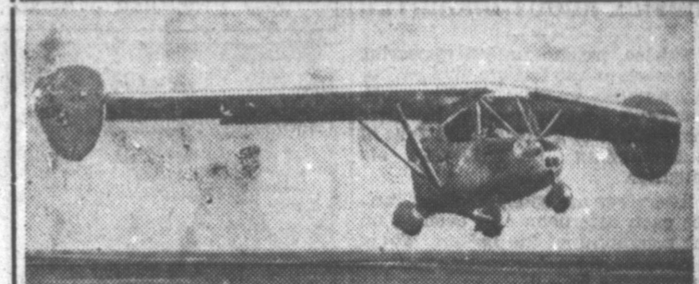

Francis Shell, daughter of the Rev. and Mrs. L. Burney Shell, was to be brought home from St. Anthony's hospital in Amarillo today if her condition remained favorable.

Around Hollywood

HOLLYWOOD—My night—or yours if you come and get it: Din and tucker, both shining, are done and we sail forth through a skiddy drizzle to Victor Hugo's to dine and dance... Well, dine anyway, and maybe a dance or two... Estelle and Leroy, dance team, are opening there tonight... They're to be in "Vogues of 1938"—a title which shows how far-sighted some producers are...

The dining room is green and gold and ferny, the music sweet, and the lights soft... Let's look around... Can this be Hollywood? These diners all look so substantial, so un-cinematic, un-everything Hollywood has a name for... But look, there are some celebrities after all... That's Karen Morley and Charles Vidor dancing... and Gene and

Flying Auto and Motoring Plane

Above it's an airplane and below it's an auto. And that's about the exact status of this "Arrowbile," the invention of Waldo Waterman, Santa Monica (Calif.) plane builder. Above the ground it flies. On the ground at the airport, Waterman merely parks the wings and chugs away. The craft makes 125 miles an hour in the air, 55 on the ground.

Kathleen Lockhart... No. I don't know the man... I'll find out later... But I can't, because they're soon gone, and besides the Hollywood atmosphere has come, in the person of Adolphe Menjou... Adolphe is swathed in overcoat and scarf, but he's thrown these off now.

A dinner role... He's with his agent, and he sits there talking, for all the world as if he couldn't shake off those recent eccentric roles of his... Gesticulating and running hands thru his hair... Deanna Durbin's here too... A waiter says Miss Bennett—Joan—is to come with a party of 18...

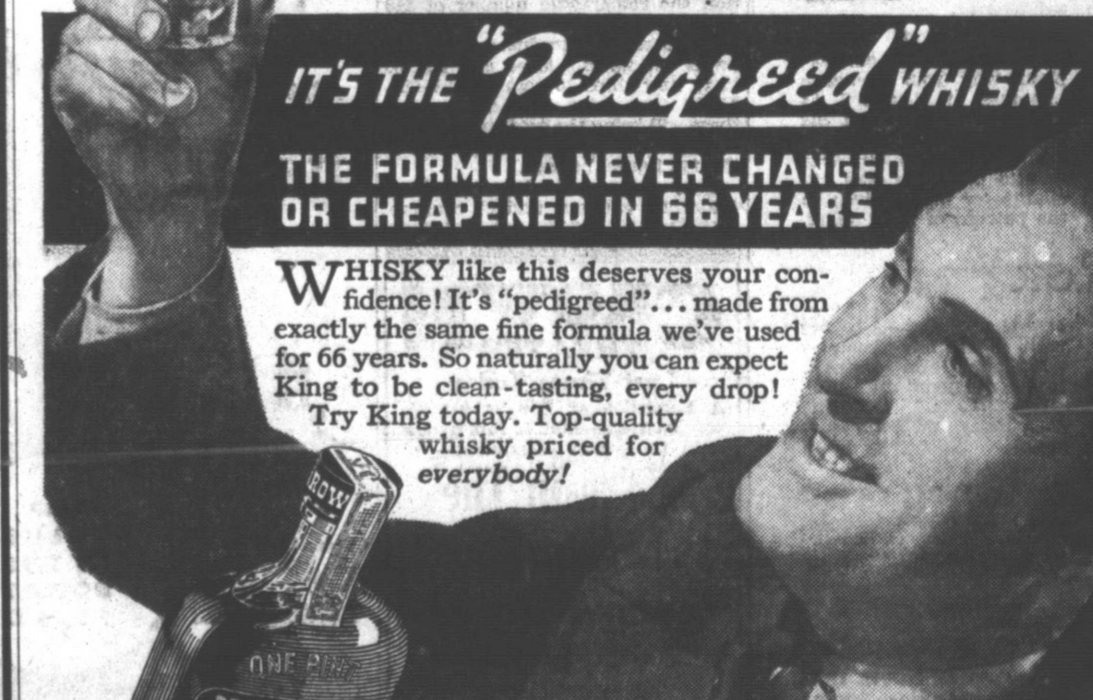

Food, and talk of this and that, and it's 11 o'clock and Estelle and Leroy go on... even though Miss Bennett—Joan—and party have not arrived... Estelle is pretty, and the team has grace and what it takes... The angle on them is that neither can marry, because when they teamed they posted \$10,000 bonds against it... That way neither would forsake the team for matrimony... So what do they do?... They marry each other... Well, it's a pretty story.

HOW TO BE SURE OF CLEAN TASTE Clear Through GET KING...

IT'S THE "Pedigreed" WHISKY
THE FORMULA NEVER CHANGED OR CHEAPENED IN 66 YEARS

WHISKY like this deserves your confidence! It's "pedigreed"... made from exactly the same fine formula we've used for 66 years. So naturally you can expect King to be clean-tasting, every drop! Try King today. Top-quality whisky priced for everybody!

Modern Menus

BY MRS. GAYNOR MADDOX, NEA Service Staff Writer.

A slice of nut bread added to what you had planned to serve for dinner, will give a touch of surprise to the plainest meal. This is a quick-bread recipe and rates a permanent place in your loose-leaf cook book.

Hurry-Up Nut Bread.

(1 regular size loaf.)
One egg, 1/2 cup brown sugar, 1/2 cup dark molasses, 1 1/2 cups milk, 1 teaspoon salt, 3/4 teaspoon baking powder, 4 cups flour, 1/2 cup chopped nut meats, 1/4 cup currants.

Beat egg well and add sugar and milk and beat some more. Add molasses. Into this egg mixture, sift together, a little at a time, the flour, baking powder and salt. Stir until lightly mixed. Dust nuts and currants with flour. Add to batter. Line bread tin with wax paper and butter evenly. Pour in bread batter. Stand 25 minutes. Bake in slow oven (300 degrees F.) one hour.

Hot muffins can brighten a dull dinner. Try these tender, moist little nuggets of golden flavor. They begin with oatmeal left over from breakfast. The soft, almost sloppy oatmeal makes a better muffin.

Oatmeal Muffins.

(About 18 small ones.)
One and one-half cups scalded milk, 1 cup cooked moist oatmeal, 2 eggs, 1 1/2 tablespoons melted butter, 1 scant cup flour, 2 teaspoons baking powder, 1/2 teaspoon salt, 1 1/2 teaspoons sugar.

Combine scalded milk and oatmeal. Add the well-beaten eggs and stir in melted butter. Sift flour, salt and baking powder together. Add to milk and oatmeal mixture and stir until mixed with quick strokes. Add sugar. Fill greased muffin tins 3/4 full. Bake in hot oven (400 degrees F.) for about 15 minutes.

Hotted Bread.

Less odd than it sounds. One loaf of stale bread. With a sharp knife, cut a row of 2-inch thick slices the

Tomorrow's Menu.

BREAKFAST: Canned cherries, hot rice with brown sugar, whole wheat toast, coffee, milk.

LUNCHEON: Split pea soup, nut bread, baked apple, tea, cocoa.

DINNER: Panbroiled hamburger steak, lemon and butter sauce, mashed potatoes, buttered carrots, oatmeal muffins, lettuce and green pepper salad, pears, cheese, crackers, coffee, milk.

length of the loaf, but do not cut through the bottom crust. Soften butter, then spread the inside of each slice thickly. Moisten top, sides and bottom of sliced loaf with a little cold water. Then place in very hot oven and leave there for 10 minutes.

Serve at once, pulling off slices which will taste like fresh rolls. This is a grand and very effective way to expand the dinner when unexpected guests arrive.

CONVOY FEES ARE NOT SHARED BY COUNTIES

TEXARKANA, March 11 (AP)—The sixth court of civil appeals ruled today that automobile convoy license fees are not shared by the counties collecting them. The appellate court affirmed the decision of the lower court in the case of Bowie county vs. W. N. McDuffie, et al.

Bowie county collected approximately \$5,000 in convoy fees. The county claimed half, filing suit against the county tax collector, Mc. Duffie, the state highway commission and the state highway engineer.

The fifth district court ruled the provision of the statute that the fees be paid "into treasury" meant into the state treasury.

LIGHTNING BOUNCES FORESTERS ARE TOLD

ALBUQUERQUE, N. M., March 11 (AP)—Lightning, said Dr. E. J. Workman today, strikes upward as well as down—in effect, bounces.

And, the University of New Mexico physicist told the Society of American Foresters here, the upward stroke in this sort of lightning, is usually the more severe.

"Bouncing" lightning, Dr. Workman explained, originates in a single, relatively weak down stroke, or "path maker," which literally blows a trail through the air.

The return stroke, generally of far greater intensity and speed, almost instantaneously flashes from ground to cloud, following in reverse precisely the same crooked path of ionized air which the first down stroke pursued.

The effect is much like that of a bouncing ball, except that the lightning bounces back harder than it comes down.

The return stroke, in fact, may be a succession of flashes—Dr. Workman said as many as 40 have been counted—all occurring so swiftly that to the human eye they appear as a single, shivering bolt.

BABY BEEVES WILL BE AUCTIONED AT SHOW

AMARILLO, March 11 (AP)—The Amarillo Fat Stock Show came to an end today with the annual auction sale of the Panhandle Baby Beef club.

Nearly 150 well finished baby beeves, fed by 4-H and vocational club boys, were sold by Earl Gartin, auctioneer.

At the twenty-first annual Panhandle Hereford Breeders association auction yesterday, 82 animals were sold for \$14,354—which was \$519 higher than the 1936 sale and within \$1,700 of the largest sale since 1930.

Seventy-one bulls brought an average price of \$173.31 and 11 females brought an average of \$188.30.

Super Avondale, a 23-month-old bull bred by J. M. Bivins, brought the top price of the sale, P. M. Love of Dumas paid \$450 for him. Next best price was paid for Creamette 19th, 5-year-old T. E. Seigler cow, bought by Bill McSpadden of Amarillo for \$360.

SITDOWNERS MOVE OUT OF HOUSTON FACTORY

HOUSTON, March 11 (AP)—Sit-down strikers waited in a "hopeful" atmosphere today for resumption of negotiations between union leaders, federal mediator Edwin A. Elliott and officials of the Emasco Derrick and Equipment company.

Last night the sitdown strikers peacefully moved out of the company plant here under an agreement which also stipulated the company would not resume operation of the factory during the peace talks.

The strikers have asked wage increases and recognition of their union, an American Federation of Labor affiliate, Dr. Elliott said it was the first A. F. of L. member to employ the sitdown technique.

The first conference ended last night with no agreement announced. Negotiators were quoted as saying, however, that the atmosphere was hopeful for quick settlement of the dispute.

CCC WORKERS AGAIN ELIGIBLE FOR JOBS

Former CCC members who were honorably discharged from the service are again eligible for enrollment in the April Civilian Conservation Corps quota, it was announced today by Gray county relief officials.

Only requirements are that they meet all other eligibility rules and that they have been separated from the CCC for at least one full year prior to the date of acceptance for new enrollment.

The announcement applies to both junior selectees and others who are selected as cooks, officials stated, and there is no requirement regulating length of previous service.

ALLRED WILL GRANT FURLOUGH EXTENSIONS

AUSTIN, March 11 (AP)—Governor Allred decided today to break the long enforced illness of the state's democracy machinery although he admitted opinion differed as to his authority to do it.

The governor said he had determined "not to let the paroled convicts with jobs nor the volunteer parole boards down" and would grant extensions of furlough.

The voters last year adopted a constitutional amendment transferring much of the governor's clemency power to a board. The amendment became effective February 1 but the legislature has not passed enabling legislation. The main difference between the houses is whether the new board should be domiciled at Austin or Huntville.

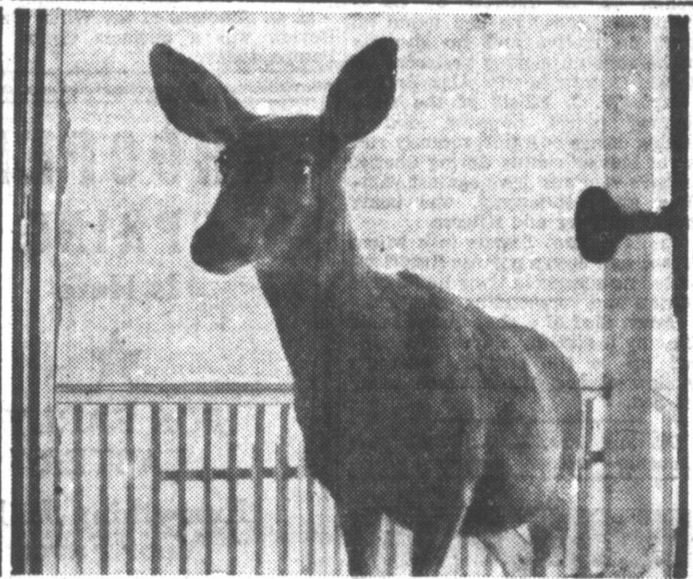

FIRE PUT OUT. Fire had been extinguished by the time firemen arrived shortly after 7 o'clock this morning when an alarm was received. The call was to the corner of Kingsmill avenue and Gillespie street where a truck was on fire. Damage was slight, Chief Ben White said.

He's a Power With the Women!

Life these days is just one romance after another to Tyrone Power, shown above with Loretta Young in a love scene from a new picture. Recently reported engaged to skating champion Sonja Henie, young Power is now said to be romantically inclined toward Miss Young. Hollywood dopesters, who rate Tyrone a "Power-ful" threat to the Gable and Taylor "heart-hold" on the nation, scoff at the new rumor.

Park Doe Pays a Formal Call

This hungry doe strolls upon the front porch and pays a midwinter call on a ranger in Yellowstone Park, but it's probably the odor of food from the kitchen of the ranger's wife in which the deer is interested. Heavy snow makes foraging difficult, and herds of deer gravitate toward park headquarters, where they are always sure of a "handout."

WALLIS RECEIVES 3 AMERICAN REPORTERS

MONTS, France, March 11 (AP)—Mrs. Wallis Simpson received three American reporters today to tell them she was enjoying to the utmost her stay in the Touraine Chateau country.

She is likely to stay at the Chateau de Candé at least a month. She is looking forward to some golf as soon as the course dries out. Mrs. Simpson received the press on the condition that questions asked would be agreed upon in advance and that she would not be quoted directly.

She looked well and very contented. Mrs. Simpson's accent appeared more British than American. She sipped a glass of sherry, but declined a cigar.

DONATION RECEIVED. Another donation to the flood relief fund was received yesterday at Red Cross headquarters in the city hall. The donation of \$2 was from Miss Mary Adams, treasurer of the Rainbow Girls.

UNEMPLOYED WILL GO ON A HUNGER STRIKE

SPOKANE, Wash., March 11 (AP)—Unable to sit their way to victory, over the federal government, 88 unemployed pledged themselves to go on a hunger strike today for WPA jobs, after breakfast.

For 15 days they sat and ate in Spokane WPA headquarters in a futile effort to force extension of WPA employment rolls and recognition of the Workers Alliance as sole bargaining agency. Now they will just sit, without eating.

Insomnia is increasing in England, where one person in every 20 suffers from sleeplessness. This is four times the figure for 30 years ago.

GAYLOR WOULD USE STABLES AS BATH HOUSE

Could Then Walk to Nearby Lake in New Suits

Has O. K. Gaylor discovered a use for Fairground park, or at least a part of it, should horse racing be outlawed in Texas?

Nearing completion at the park are two large stables, each of 100 stalls, in which it was planned to house race horses. Gaylor's idea is to use the stalls for individual bath houses where swimmers in the nearby lake could undress, leave their clothes and stroll in their latest purchased bathing suits down to the water.

"Well," said someone, "the stables will be 600 or 700 feet from the water and there sure are a bunch of stickers on route."

"What about the stickers, etc., along the shore of the lake," remarked another bystander. Again O. K. had an answer and it was to make a beach of sand and gravel for the bathers.

"Where will the water come from to fill the lake? We can't control the rain," was still another question. And still Gaylor had the answer which was to drill a well or two if necessary to provide water for the lake.

"Don't you think the stables are too far away from the lake shore?" queried one of the listeners, to which Gaylor answered that they could easily be moved closer to the water.

NO CLUES FOUND IN SLAYING OF SHERIFF

JEFFERSON, March 11 (AP)—Sheriff G. H. Barrett of Camp county said today he had found no clues, no motive and no suspects in the shotgun slaying yesterday of Marion County Sheriff Alex Brown.

Capt. W. J. Elliott of the state highway patrol, however, said a gaming device operator, recently run out of Marion county during Sheriff Brown's vigorous drive against gambling and bootlegging, was being sought at Tyler and Kilgore.

Poses of East Texans with whom Brown had been a popular sheriff reported no success in their hunts over Marion and surrounding counties.

Brown died of a shot in the back, fired by a stealthy slayer who slipped up to the sheriff's bedroom window as the officer made ready for bed.

AMARILLO JUDGE NAMED

AUSTIN, March 11 (AP)—The Senate in executive session today confirmed Governor Allred's nomination of Judge W. H. Stokes of Vernon to the Amarillo court of civil appeals to succeed Judge A. B. Martin, effective April 1. It ratified also the appointment of C. Y. Welch, former Hardeman county judge, to succeed Stokes and Dr. M. C. Blair of Kernes and D. F. Youngblood of San Antonio to the state board of education.

Mrs. A. C. Green were in Amarillo yesterday.

DR. AND MRS. R. A. WEBB WERE AMARILLO VISITORS YESTERDAY.

ACCOMPANIES SON'S BODY

LAREDO, March 11 (AP)—Hugo de Pena, Uruguayan minister to Mexico, passed through Laredo today with the body of his son, Hugo, Jr., 14, who died at Mexico City Jan. 3 of infantile paralysis. The minister was taking the body to Baltimore.

Fred M. Roberts, Scout executive, made a business trip to Borger today.

At one time Boston had an ordinance which made it unlawful to bathe in a bathtub.

H. C. Simmons of the White Deer Review was a business visitor in Pampa today.

TOM MOONEY MAY BE CALLED BEFORE SENATE

SACRAMENTO, Calif., March 11 (AP)—Thomas J. Mooney may be called before the California state Senate when it considers the assembly's overwhelmingly approved pardon resolution, some legislators said today.

The legislators, in discussing the "full and complete" pardon proposal, said it was also probable the judge, district attorney and others who figured in Mooney's bombing conviction would be called.

Passed by a 45 to 28 assembly vote, the resolution which would exonerate Mooney of the 1916 San Francisco preparedness day bombing, goes on the Senate file today.

GERMAN ENVOY SHAKES HAND WITH ROYALTY

LONDON, March 11 (AP)—Joachim von Ribbentrop, German envoy to London, amazed his fellow ambassadors today by shaking hands with King George VI.

The other diplomats at a Buckingham palace tea party had expected von Ribbentrop to do like he has done on his two previous appearances at Buckingham palace—give Nazi salute.

Instead, he and Frau von Ribbentrop emulated the other ambassadors, stood in line, shook hands with both the king and queen, and stayed for tea.

LITTLE THINGS, OUR TROUBLE

We are in the present dilemma due to the fact that people have failed to attend to the little things. So many of us are inclined to think that what we can do is of so little importance that it is not worth doing. As a result, fundamental principles and big things are not done properly.

As an example, if every community in the past 25 years would have made an honest effort to intelligently enlighten its citizenry on fundamental ideas of right and wrong and cleaned up its own door-step, we would not have had the national breakdown that we have had compelling us to financially ruin millions of good, honest citizens.

So many people are inclined to want to enlighten the world, but make no effort to become enlightened themselves or enlighten their neighbor. The biggest thing we can do is to try to enlighten ourselves before we try to enlighten the world. We become enlightened by association with people, and by thinking of cause and effect. We should be willing to devote some time and energy in passing on the ideas that others have been good enough to pass on to us.

Let us do the close-at-hand things which seem so trivial and the big things will automatically take care of themselves!

WASHINGTON LETTER

By RODNEY DUTCHER

WASHINGTON—It took one of the strangest of dinners to bring into the open one of the least discussed but most widely held concepts: That when the Philippines are free they nevertheless will remain a de facto protectorate—a sort of American Belgium.

The dinner was the meeting of the National Association of the Carabao (water buffalo), composed of veterans of the Philippine occupation and insurrection. What lent it special significance was the presence there of President Manuel Quezon of the Philippine republic.

That pint-size diplomat and politician spoke straight from the shoulder to 200 or more men, many of them now colonels and generals who once had fought him, and they liked him more for it than they ever liked him or his race before. In English exact but staccato, he told them that even after full Philippine independence is obtained, there will be "bonds of friendship" stronger even than existing ties. Simply he was stating that Philippine independence wouldn't mean a thing without United States guardianship.

Senator Pittman of Nevada, chairman of the senate foreign relations committee, although not an official spokesman of the government, made the reply. He couched it in diplomatic language, at which this miner-lawyer-politician has become proficient. But in effect he said: "All right, little fellow. If you see yourself getting in trouble give us a word and we'll see what can be done about it."

Incidentally another unusual relationship—that between labor activities in the field and governmental activities here—often escapes the casual eye. Note this:

When last spring there was big talk of labor trouble in the coal fields, administration leaders pushed the revised Guffey bill.

When the General Motors strike was on, the senate labor spy investigation was whipped up to new activity and turned on General Motors Corporation itself.

While John L. Lewis has been talking steel organization, the National Labor Relations Board has been hearing testimony on alleged infractions of the Wagner labor act by Carnegie Steel.

When Lewis turned his attention to negotiating a new coal wage agreement, the Carnegie hearing suspended two weeks and house committees began consideration of the revised Guffey coal bill.

Before Lewis again turns his attention to organizing steel, Isador Lubin, commissioner of labor statistics, will publish a study on company unions.

It is not all coincidence.

This nation has not yet decided whether it wants peace or war. We are going to trade the same as we did in 1914.—Stephen Rauschenbush, secretary, Senate Munitions Committee.

I think it is a splendid tribute to his work.—Mrs. Ernest Greasley of England, to 300 laundry girls who protested transfer of her hand-some husband.

No man yearns to kiss lips goony with lipstick.—Mel Berns, Hollywood make-up artist.

It feels delightful to be 55.—Geraldine Farrar, former opera star, on her birthday.

TEX'S TOPICS

The strangest of subject matter is likely to bob up in this column. . . . Just like life—this space is definitely uncertain as to content. . . . And quite a bit more negative than positive. . . . Only two days ago, T. E. Johnson, of Amarillo,

reminded us he still was chucking over our recent dabbling into man's forbidden realm of women's fashions.

This leads into the confession that since there has come to town this week a psycho-analyst, who is not a fortune teller, we have been doing a little research work along—not particularly psycho-analysis—but, along the lines of "peering into the future" via the routes of astrology, palmistry and such, as well as thumb-nail study of the significance of dreams, signs, omens and superstitions. . . . As usual, there's very little, if any, sense to it. . . . But, at least, it's different.

For instance: We went right to the mat with Mr. Sagittarius, the Archer, who is supposed to rule our personal life, due to the fact we were born on a Nov. 27, which falls between Mr. Sagittarius' allotted space from Nov. 22 to Dec. 21 in anybody's year. . . . He informs us that our governing planet is Jupiter and that our principal governing element is Fire. . . . Which, if you ask us, is getting off to a poor start.

So, with that handicap to begin with—Mr. Sagittarius further informs that we sons and daughters (this includes you, too, if your birthday falls between Nov. 22 and Dec. 21) of his are truly fortunate people. . . . Ah, here it comes. . . . Jupiter has endowed us with a charming personality, a keen intuitive mind and a positive talent for accumulating wealth. . . . That's what HE thinks. . . . Many of us, he says, have a genius for business and are happiest and healthiest when working out many of our schemes.

He adds that we prefer to carry out our own plans and resent any interference and meddling. . . . A vivid imagination may lead us to exaggerate at times, and our habit of plain speaking gives offense where none is meant, he says, and the gambling spirit is strong within those born between these dates and we can rarely resist the impulse to place a bet. . . . Fortunately, we almost always win, according to his line of reasoning.

Sagittarius asserts that suffering affects us deeply and that we have the impulse to help those in distress. . . . He admonishes us to be careful in the choice of friends and those in whom we place a confidence. . . . For a motto, he says we should have this: "Slow Down—Take It Easy." . . . And there you have the things that Mr. Sagittarius sets forth for one born on Nov. 27. . . . So what?

We always had supposed that to see a black cat was considered to be luck of the worst kind. . . . However, our rambling research reveals that to see a black cat is an exceedingly lucky omen, especially if it is on a white fence when you see it. . . . Here's another odd superstition: to stroke a black cat's tail seven times insures good luck at cards. . . . And this is a honey: If you lose your dog, whistle for him three times through a knot-hole and he will return.

Out here where rainfall is "few and far between," it is interesting to read that nine inches of rain fell recently in 35 minutes at Assam, India, which is just a bit too far away for the Panhandle to get much benefit from it. . . . Well, it won't be long, now. . . . The north pole is moving southward at the rate of six inches a year. . . . A news story reports that thieves robbed Paul Whiteman of \$4,000 worth of clothes. . . . Probably his best suit.

What a day was Wednesday. . . . It was difficult to remain on the inside looking out. . . . Spring was in the air. . . . Blue skies. . . . Balm temperatures. . . . Uncoated pedestrians. . . . Here and there a tip on what to expect in the Easter fashion parade. . . . Men talking of golf. . . . A hatless theater manager, another sign of spring. . . . Everybody asking: Isn't this a lovely day? when they knew all along it was. . . . And, now, the let-down—Tomorrow it may be snowing, or dusting.

Overcome by the balm of spring-like weather, so away from the typewriter for a time, out and around the town, seeking a nationally-advertised brand of something which is nowhere to be found in Pampa. . . . No calls for it, is word from the clerks. . . . Next, meet up with Ex-Postmaster Cecil who comments on a lovely day and offers a good suggestion about weather broadcasts via radio.

In connection with Pampa News' tenth birthday as a daily newspaper yesterday, Mrs. E. E. Reynolds called to say that her mother, Mrs. P. A. Worley, was first subscriber's name to go on the list. . . . Subscription was paid for with butter and eggs. . . . Mrs. Worley has taken paper every day since. . . . She now is confined to hospital, and for Subscriber No. 1 we wish speedy recovery.

Yesteryear In Pampa

TEN YEARS AGO TODAY
Six firms were ready to occupy two new buildings just completed on W. Kingsmill-st., adjoining the postoffice.

A Little Theater was organized in Pampa, and Laverne Lavender was named director for the first program of four one-act plays.

LeFors, then county seat of Gray county, was mentioned in a short feature story as the smallest county seat in Texas, the only one without a jail—the jail had been moved to Pampa—and a place with possibility of oil development.

FIVE YEARS AGO TODAY
Chief of Police J. I. Downs ordered a large group of transients to go to work or leave town, and many left on freight trains.

Coach W. O. Workman of the Gorilla squad presented sweaters to 15 graders.

A safety meeting sponsored by the Kiwanis club at city hall was attended by many oilfield workers, students, Boy Scouts, and other residents.

Some Reasons Why State Rights May Be Lost

Man About Manhattan

By GEORGE TUCKER

NEW YORK—Quotations: "I was not born in the grand tradition of the theater. My mother did not leave the stage and rush into her dressing room to give me birth, shortly thereafter to cry on in the play that had so inconveniently been disrupted by my arrival. Nor did my parents own a traveling circus or marionette show, so I can not claim to have first opened my eyes upon the robust world of the peripatetic theater."—Joseph Verner Reed.

"The way George Bernard Shaw believes in himself is very refreshing in these atheistic days, when so many men believe in no god at all."—Israel Zangwill.

"Paris is a beautiful city, but they run it like a carnival. I decided to try the Riviera, but I didn't like it so much. Deauville is just another Coney Island in dinner clothes. I went to Budapest and the principal thing I discovered there was that the best Hungarian food is still served in 46th street on Manhattan island."—Bill Rood.

"An actress is only an actress, and there are only a few with brains enough to be director and producer too." Talullah Bankhead.

"The canyon of lower Broadway rings with that noise peculiar to skyscraper streets, for they are more hollow and reverberant than others, and have a different color, too."—Paul Morand.

"I never knew a golfer who had a bad character."—John D. Rockefeller.

"I take up my pen with the painful suspicion that in the eyes of the world I rank as one of Europe's bad boys. Ask almost any one of my royal relatives and he will probably tell you that, with the possible exception of my sister Luisa of Tuscany, I am the worst infamously in existence today."—Leopold Wolfing.

"Book collecting makes me neglect my music, which is more important and vital to me. I went to Europe to rest and work on my compositions. Instead, I found myself browsing about all the bookshops of Europe in the hope I might find an undiscovered rare volume."—Fritz Kreisler.

People You Know

By ARCHER FULLINGIM

DEATH—Did you come today? Did a set of screaming brakes throttle the merciless. Ghost of the highways just in time? Did you miss someone by just a hair? Did someone miss you similarly? Did you notice how quickly it happened? You saw how easily you could have been killed in a flash? We did! It was on the Berger road last Sunday while the duster was at its height. We (three boys and I) looked up the road before driving onto the highway and there came a big pipe truck with a trailer on behind. It did not look to be coming fast, but it was and I thought I could beat him to the road, and we did but he either had to take to the ditch or else. He thought I was going to turn into the ditch, and the great truck roared and rumbled by, its youthful driver holding his steering wheel with a grip of iron. The truck did not bobble as he drove it back to the pavement and turned around and grinned, his white teeth gleaming and shining in his tanned face. How that boy held his head! How he handled that truck! Was he good, or just a boy, he thought I had! Not everyone can. . . . Not everyone can cover up the other fellow's fault as he did mine.

How near Death did you come today?

Talks to Parents

FIRST TEETH
By Brooke Peters Church

By the time a child is five he should be acquainted with the dentist and be accustomed to the dentist's chair.

To wait until the first toothache comes on before taking him to the dentist is to court trouble. Of course in this case his first experience in the dentist's chair will hurt and the child will be unwilling to go again.

If he is taken to the dentist early when his teeth are just reaching the place where he can gnash them, he may escape tooth trouble entirely, and he will not be likely to develop a lasting aversion to dentists.

Every six months, as regularly as he changes from summer to winter clothes, he should repeat these visits. No amount of brushing can keep the teeth clean and free from decay. Only a thorough cleaning by the dentist twice a year guarantees that they are in perfect shape.

If the first teeth are carefully guarded and kept in place until they are pushed out by the second, the later expense and discomfort of straightening the teeth and widening the bite which so many children have to go through, may well be avoided.

BREATH OF LIFE
PLACERVILLE, CALIF. (AP)—Frank Coster has a recipe for longevity, but its users won't be popular at kissing games. His advice is to eat frequently and fully of garlic and onions. He gives these odoriferous vegetables credit for his 101 years, as well as the ripe old age reached by his father, now dead. "Pop ate onions and garlic all the time," Coster said, and died at the age of 127.

How's Your Health?

Edited by DR. IAGO GALDSTON
for the New York Academy of Medicine

THE CHILD'S THROAT

There is nothing to lose and much to gain by knowing what the inside of a child's mouth and throat looks like. This knowledge is not for the purpose of becoming a home-made physician, but to have a normal against which to gauge conditions when the child is ill.

A mother must frequently decide whether the sore throat of which her child complains warrants medical attention. It is a hard decision for her to make, but she may be helped by having some knowledge of what the throat looks like when it is free of inflammation.

Under no condition should the mother take it upon herself to make a medical diagnosis. She should merely confine her judgment to a determination of whether the throat "looks sick."

Should she venture to learn more heavily upon her untutored judgment, should she for example try to estimate the gravity of the inflammation, its type and nature, she is quite likely to prove the wisdom of the old saying that a little knowledge is very dangerous.

The ordinary case of sore throat requiring medical attention presents a picture of enlarged, swollen tonsils protruding beyond the folds of flesh which, turning down from the soft palate are to be seen in front of the tonsils.

The uvula, that finger-like projection hanging down from the back margin of the soft palate, as well as the margins of the soft palate, appear red and possibly swollen. The tonsils may be covered by an exudate of pus or "white-head" like projections may be seen in the crypts of the tonsils.

The back of the throat, the pharynx, to be seen when the tongue is depressed and the soft palate is lifted, is likely to be inflamed or covered with mucus and pus dripping from the nasal portion of the pharynx.

In addition, if the mother should feel around the child's neck about the jaw, she will discover tender and painful spots, and may even feel the enlarged lymph glands located there.

This picture is typical, but there are cases in which the tonsils are quite small and buried.

ANSWERS TO QUESTIONS

BY FREDERIC J. HASKIN

A reader can get the answer to any question of fact by writing The Pampa Daily News Information Bureau, Frederic J. Haskin, director, Washington, D. C. Please enclose three (3) cents for reply.

Q. Was horse racing ever banned in California? M. F.
A. It was banned in 1909 and legalized again in 1934.

Q. What is the name of the university in the middle west that is to have a police course leading to a B. A. degree? E. W.

A. Such a course is given by the University of Indiana in cooperation with the state police. It is a resident four-year college curriculum. After the first two years the students concentrate on police tactics and administration, criminal investigation, criminal law and psychiatry. Satisfactory graduates will be placed on a preferred list for positions with the state police force.

Q. Please mention a few points of interest to tourists in Central Florida? W. R.

A. Such a list would include the Cypress Gardens near Winter Haven; the Singing Tower at Lake Wales; Silver Springs at Ocala; Highlands Hammock Sebring; St. Anne's Shrine, Lake Wales; and the Carpenter's Home at Lakeland.

Q. Why does bread when exposed to the atmosphere become hard, while crackers become soggy? J. W.

A. Bread is a porous mass full of large holes. After it gives off water it dries out. Crackers are baked dry. After they are stored they take moisture from the air which makes them soft.

Q. Please give some information about the Panama railroad. C. R.

A. The Panama railroad and the steamships run in connection with it between New York and Colon are owned and operated by the United States government. The road virtually parallels the canal nearly the whole distance. It is 46 1/2 miles long and runs between the cities of Colon and Panama.

Q. Where is Clarence Saunderson who developed the Piggy Wiggly stores? W. B.

A. He is in Memphis where he has built an electrically operated store called the Keedoole.

Q. What are the dimensions of the ice-sinking pond at Radio City, New York? W. B.

A. The pond is 100 feet by 45 feet. Q. How many workmen lost their lives on the San Francisco-Oakland bridge? H. M.

A. Twenty-four lives were lost during the construction of this bridge.

Tell Your Own Fortune

"Even the most serious-minded must relax occasionally, so why not tell fortunes?"

Divination is as old as the human race because we all like to peer into the future.

Through the centuries there has grown a vast amount of material on fortune-telling, and here is a new booklet in which the methods that have the greatest popular appeal. The approach to the subject is in no sense scientific.

You can get this novel publication on Fortune Telling, for the mere cost of handling and postage, because you are a reader of the Pampa Daily News. Send in your name and address, with a dime, and your copy will come to you at once.

USE THIS COUPON
The Pampa Daily News Information Bureau, Frederic J. Haskin, Director, Washington, D. C.
I enclose herewith 10 cents in coin (carefully wrapped in paper) for a copy of the booklet Fortune Telling.

LET'S KNOW TEXAS AND TEXANS

BY WILL H. MAYES

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of the fact that answers will be given to inquiries, send in your name and address, but only your initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q. Where was Captain Robert M. Coleman stationed after the battle of San Jacinto?
A. Captain Coleman, who was made a colonel because of distinguished service at San Jacinto, was stationed at Ft. Prairie, originally called Ft. Colorado, which was near the NW corner of the Tannehill League five miles east of Austin on the north side of the Webberville road.

Q. Was Thomas J. Gazley a signer of the Texas Declaration of Independence, and where was he from?
A. Dr. Thomas J. Gazley was one of the two natives of New York who were members of the convention that drafted the Declaration of Independence. He represented Bastrop, where he then lived, later serving in the Texas Army and the same year moving to Columbus where he was county judge; was a member of the Second Congress of the Republic. He was born in New York state, Jan. 8, 1801, came to Texas in 1832 as a physician and died near Smithville in 1878. His remains were recently buried in the State cemetery.

Q. What prominent educators petitioned Gov. O. M. Roberts and the

This, That and Everything

By JESS KELLEY

Certain would-be destructive critics of the Bible have been those who knew the least about it. Robert Ingersoll, attempting to disprove the Bible, declared in one of his well known lectures, "I cannot imagine of nothing being made into something, any more than I can of something being changed back into nothing." This criticism was hurled at the biblical record of creation. The only reason Ingersoll offered for rejecting the scriptural account of creation was the fact that he could not understand it. It seems strange that anyone would refuse to believe a certain fact just because he is unable to comprehend it, yet at the same time, take without question other conclusions equally as obscure to his understanding.

There are many mysteries involved in the chemical and biological processes which will take place all about us, and you do not expect to hear intelligent people questioning the facts of these scientific results merely because they cannot explain the mysteries involved. If he could not understand it, it seems strange that anyone would refuse to believe a certain fact just because he is unable to comprehend it, yet at the same time, take without question other conclusions equally as obscure to his understanding.

There are many mysteries involved in the chemical and biological processes which will take place all about us, and you do not expect to hear intelligent people questioning the facts of these scientific results merely because they cannot explain the mysteries involved. If he could not understand it, it seems strange that anyone would refuse to believe a certain fact just because he is unable to comprehend it, yet at the same time, take without question other conclusions equally as obscure to his understanding.

We do not deny the fact of gravitational force just because scientists cannot explain all about it. Just because the creative act of God is beyond explanation is no reasonable ground for rejecting the fact.

AROUND HOLLYWOOD

HOLLYWOOD—Film fame is so fleeting that even a name engraved on silver is no guarantee of permanence.

Part of the ballyhoo for the opening of the Carthy Circle theater—the local road show movie house—in 1926 was the glorification of seats occupied by the stars of the day. Wherever a star sat the opening night, a silver plate bearing the name was attached to the seat.

Even Garbo!
Times change, and managements, and stars. Part of the ballyhoo for the current run of "The Good Earth" at this house is a new silver-plating for posterity, that today's great ones may not be forgotten. At this writing Lionel Barrymore, Joan Crawford, Claude Rains, George Brent, Myrna Loy, Spencer Tracy, William Powell, Robert Taylor and Garbo—she slipped in one evening, sat 'way off to the side—are among those assured of this particular brand of immortality.

These are the stars of '26 whose plates are being tenderly, we hope—from their arms: Olive Borden, Vera Reynolds, Marguerite de la Motte, John Bowers, Sally Olmstead, Robert Edson, George Sidney, DeWitt Jennings, Kathleen Key, Huntley Gordon, June Marlowe and Alan Brooke.

How many can you place, off-hand?
Bedrooms Decline
The bedroom, after all these years, has dropped from top spot on the list of movie sets most used. In its place is the cocktail bar, says Jack Holden, a Warner art director. Bedrooms have dropped to second place. After them come, in order, drawing rooms, hallways, hotel lobbies, dining rooms and kitchens.

This matter-of-fact summary should be fraught with some great sociological significance. Among other things, it probably indicates the ease with which the Hays office crusade for "clean" films has prospered.

But Holden is concerned only with the immediate photographic effect when he explains the rise of the cocktail lounge as a setting—directors like it because it has "light and movement—the shimmer of glassware, the mirror effects, the activity of well dressed people, distinct photographic advantages.

Legislature to proceed with the building of a State University.

A. Appointed by the State Teachers' Association in 1930, the committee was composed of Oscar H. Cooper, chairman, William Cary Crawford, B. G. Sneed, Smith Ragsdale, J. G. James, R. W. Pitman, and O. N. Hollingsworth. This committee prepared a memorial and recommendations, which were submitted to the 17th Legislature by Gov. Roberts, and the bill organizing the University was passed March 30, 1931.

Q. When was the University of Texas opened?
A. The academic and law departments were opened at Austin in the fall of 1883, the medical department at Galveston in 1887.

CENTENNIAL SONG BOOK
In the homes, to the schools, in public gatherings of all kinds, Texans are singing the best known typical songs of Texas—songs of the past, songs of the Texas home, patriotic songs—songs every Texan should know and delight in singing.

Twenty-eight of the best songs sung in Texas have been carefully selected by competent musicians, set to music, and published in a new 64 page book on heavy coated paper with covers in colors.

The booklet will be mailed postpaid for 25 cents. Send all orders to Will H. Mayes, Austin, Texas.

Benjamin Franklin did the first electric cooking in America.

DICKY HARRIS MAY SURPRISE HIS OPPONENTS

ALL HE NEEDS IS A FINE PITCHING STAFF

ORLANDO, Fla., March 11 (AP)—Give Bucky Harris a well rounded pitching staff and he may come up with the big surprise package of the American league pennant festivities this year.

Bucky's got a big flock of apple chuckers in his hustling Washington camp here at Orlando with Shanty Hogan, the reformed eater, to advise and catch them. They've got to show remarkable improvement if the Senators are to upset the flag fight.

The team otherwise shapes up much stronger than the club nosed out of second and third places last year. An infectious spirit has Clark Griffith so delighted with his club that he's got half a notion to make a comeback himself.

"Never saw anything like it," beamed the Old Fox of the Senators.

Buck Newsom again will head the mound corps and should at least duplicate his 1936 record of 17 victories. Jimmy Doherty, Pete Appleton, and Joe Casarella are figured to round out the "big four," of the staff.

Most promising of the pitching nominees are Jack Salveson, big right hander from Los Angeles, and Dick Lannah, a southpaw from Chattanooga.

Harris professes no worries about catching with Big Hogan behind the plate. Cliff Bolton is slated to play second fiddle to Shanty. The infield of left handed hitters will be unchanged with Joe Kuhel at first, Buddy Myer at second, Cecil Travis at short, and Buddy Lewis on third.

Fred Sington, former Alabama football star, will get a real chance in the outfield. With him as outfield regular will be Jonathan Stone and fleet Ben Chapman. Jesse Hill and Tat Wright stack up as the garden reserves.

Harry Phillips Coaching Miners

EL PASO, March 11 (AP)—With their Border Conference basketball season closed, athletes at the Texas College of Mines and Metallurgy have turned their attention to track. Seven meets have been scheduled for the Mines thinly-clad by Coach Harry Phillips.

The season schedule:

March 13—Intra-squad meet.

March 20—Annual freshman-varsity meet.

March 27—Dual meet with New Mexico A. and M. in El Paso.

April 10—Dual meet with the University of New Mexico in El Paso.

April 17—Invitation meet at State College, New Mexico.

April 24—Triangle meet with Northern Arizona State and New Mexico Aggies at State College, N. M.

May 8—Border Conference meet at Albuquerque, N. M.

RUTH PICKS YANKEES AND ST. LOUIS TO WIN

NEW YORK, March 11 (AP)—Babe Ruth viewed the coming major league baseball races from a bunker along the St. Albans golf course today and predicted the New York Yankees and St. Louis Cardinals would win by at least a half game.

"You can't beat the Yankees' power," said the Babe. "They've got it from top to bottom. They may not win by as many games as they did last year, but they should win."

The Cleveland Indians is "the team the Yankees have to beat," he said. "How they keep from winning, I don't know. They've got power and they should have pitching."

Ruth doesn't give Detroit much of a chance. Washington, Boston and Chicago follow in order in his American league list.

In the National league, after the Cards, he picks the Pittsburgh Pirates, New York Giants and Chicago Cubs in that order.

NATIONAL BASKETBALL TOURNEY OPENS SUNDAY

DENVER, March 11 (AP)—Basketball's "national open," the A. A. U. tournament, which begins in the Denver auditorium Sunday, will present some of the best shotmakers in the game.

Bullet-like passing, speedy dribbling and iron-clad defensive work all have important places in the cage sport, but nothing tickles the fans quite as much as the field goals arched into the hoop from somewhere beyond the free throw circle.

One of the best shots in the Missouri Valley A. A. U. circuit—regarded as independent basketball "big league"—is Jack Osburn of the Kansas City Trails.

Osburn posted the best average in the league this season—12.55 points per game for nine league contests, in which he rang up 133 points.

Bob Gruening, Denver Safeways star, topped all sharpshooters of the league by scoring 124 tallies for an average of 12.4 per game.

Kansas City Trails added a dangerous scorer to its ranks when it signed on Frank Groves, Kansas State center, who set a Big Six scoring record with an average of more than 15 points per game.

SPLASHKETBALL NOW

Dr. James A. Naismith never thought it would come to this when he tucked up a peach basket in the gymnasium of the Springfield, Mass., Y. M. C. A. back in 1891 and got a bunch of the boys to play his new-fangled game of basketball. Now look what's happened—here are some students of Emory College, Atlanta, Ga., splashing around, dunking one another, in a game of water basketball.

GARDEN HAS LOST ITS HOLD ON HEAVYWEIGHT INDUSTRY

(What's behind the current fistic furor? Who's who and why since Tex Rickard ruled the boxing business. The answer to these and other questions arising from latest developments in the science of scrambling will be found in a series of Associated Press stories, of which this is the first.)

BY ALAN GOULD. NEW YORK, March 11 (AP)—Nothing could reveal more strikingly the shift in heavyweight fistiana's "balance of power" than the present set-up for the Jim Braddock-Joe Louis title match in Chicago, with the Madison Square Garden on the outside for the first time since the late George (Lewis) Tex Rickard interested Wall Street in pugilistic playthings.

The Garden still has the privilege of tossing a few legal punches in behalf of its contract for Braddock to fight Max Schmeling for the title in New York June 9. Despite the novel efforts of Schmeling himself to promote a title fight with Braddock this year in Berlin, the multiple interests backing the Chicago bout are going right ahead because they have the inside track, and they know they have the biggest heavyweight money-maker available.

Which means that Madison Square Garden seemingly has lost its exclusive hold on the heavyweight industry, including the titleholder. The blow is more severe to the Garden's pride than its balance sheet. The heavyweight title has been more of a gold brick than a gold mine since Rickard died in 1929. Boxing nowadays comprises less than five per cent of the Garden's financial operations, due not alone to the decline of its fistic interests, but also to a policy of building up prestige in other spheres of sport.

STOMACH GOES DOWN SIX INCHES; VAN-TAGE WORKS OUT AWFUL GAS & BLOAT

Well-Known Texan Says: "I was Terribly Bloating with Gas. Kidneys were So Sluggish They Got Me Up All Night. But Now My Swollen Stomach Has Gone Down and My Other Suffering Is Relieved. Van-Tage Is Wonderful!"

"I never saw ANYTHING act like Van-Tage! The way it cleans a person's system—the way it eases gas and bloat misery—the way it helps weak, sluggish kidneys—the Blessed Relief it gives from headaches, rheumatic pains, backache, clogged bowels—oh! it's simply WONDERFUL! May many others take it and get relief like I did!" All over this section people are talking like that about VAN-TAGE, the Amazing New Medicine now being introduced to the local public at Cretney Drug Store. For instance, just a few days ago, Mr. W. I. Hedrick, of 411 Olive St., Dallas, Tex., said:

"Swollen, Gassy Stomach Kept Him in Misery" "I don't think I'll ever be able to praise Van-Tage enough," said Mr. Hedrick. "For many years I had a gassy, upset stomach. My food wouldn't digest, but fermented and turned into gas and regular rolls of bloat would form around my waistline. I even suffered with gas pressure around my heart and had a miserable feeling at the pit of my stomach continually. I had weak, sluggish kidneys which kept me rising all night long."

"Works 6 Inches of Gas From Swollen Stomach!" "Well, finally I found Van-Tage, and I want to endorse it for I think it would be awful for any such miserable person to not know about it. It worked so much gas and bloat from my stomach organs that

Training Camp News

PASADENA, Calif., March 11 (AP)—In addition to showing interest in the batting of Steve Mesner, rookie third sacker, Manager Dykes of the White Sox is enthused over Henry Steinbacher, outfielder up from St. Paul who hit .356 last season.

CATALINA ISLAND, Calif.—Manager Charlie Grimm put his Cubs through a long limbering up, pepper-game workout today. The only absentee was Frank Demaree, who refused to come to terms yesterday.

SAN BERNARDINO, Calif.—The Pittsburgh Pirates' captain, Gus Suhr, said he had agreed to terms and would report Monday for training.

HAVANA—Manager Bill Terry is giving Lefty Al Smith a chance today to see if he will be ready to become number one relief hurler for the New York Giants again this season. The southpaw may be starting his only game of the year against the Habana-Almendares team, for if Terry's plans work out, Lefty Al will star in the bullpen during the regular campaign, to be called out only for relief duty.

CLEARWATER, Fla.—Any lingering doubt that Van Lingle Mungo hasn't his fireball handy for the Brooklyn Dodgers this year can be forgotten. The big right-

hander turned his speed loose in batting practice yesterday and had the Dodgers' breaking their backs.

DAYTONA BEACH, Fla.—The Cardinals concentrated on hitting today, preparing for the two-game series with the New York Giants in Havana, Cuba, Saturday and Sunday.

SAN ANTONIO—Rogers Hornsby may watch most of the Browns' games this year from the bench. The diamond veteran indicated pinch-hitting might be his only playing role.

MEXICO CITY—Alton Benton, right-hand pitcher, was the first casualty in the Philadelphia Athletics' training camp. Benton hurt his hand fielding a hot smash in yesterday's 18-1 victory over the Mexican Agrarians.

LAKELAND, Fla.—"Schoolboy" Rowe, in his first show of form for the Detroit Tigers, let Hank Greenberg hit only one ball out of the infield in batting practice yesterday and Manager Mickey Cochran said his star pitcher is in "great condition."

DOWN, NOT OUT.

NEW YORK, March 11 (AP)—Joe Falcato, undefeated in match bowling titular competition, may be down but he's not out. Joe sprained his right wrist in an automobile accident on the eve of the opening of the thirty-seventh American Bowling Congress in the 212th Field Artillery Army last night, but he's just as cocky as ever. Despite little encouragement from his doctor he's sure he'll be in there before the tournament ends May 4.

NEW BASEBALL PLAYERS HAVE COLLEGE DEGREES

WASHINGTON, March 11 (AP)—It's getting so a baseball player can't say "ain't" without some college-bred teammate lifting an eyebrow.

At the rate college athletes have been invading baseball, it apparently won't be long before a majority can tag a degree after their names.

Not so long ago players were judged somewhat by the forcefulness of their language and the size of their chew of tobacco. Now managers are interested in their college experience and who coached them. Several youngsters getting trials at major league spring camps came straight from university campuses.

Ace Parker, Duke's all-America football ace, and Floyd Yount, Wake Forest star, are being inspected by Connie Mack of the A's. Morris Sands, who batted .448 against Southwest conference pitching, is trying for a Pittsburgh outfield job.

Many American league stars are college men. Luke Appling, Chicago shortstop who won the batting championship last season, played at Oglethorpe in Georgia.

Horschel, Germany, requires newly-married couples to plant two fruit trees for the municipality to celebrate their wedding.

Sports Roundup

By EDDIE BRIETZ

TAMPA, Fla., March 11 (AP)—Ten of the 11 pitchers in the Philly camp at Winter Haven are six feet tall, or over. (Which is about all Manager Jimmy Wilson has to brag about) . . . The Tigers, who had to struggle along without one all last year, have five southpaws at Lakeland. . . Bill Terry gives Carl Hubbell three more years as a tops pitcher.

Chicago big shot loafing here says Braddock and Louis will not go on in the windy city, in June, anyway. . . Bill McKechnie really means it when he says he may start Vince DiMaggio at third base. . . Dope at St. Petersburg is Baxter Jordan, Bee first sacker, is about to relent and will sign at the club's terms. Nine Detroit Tigers reported at Lakeland any where from three days to two weeks before they were due.

Old Goose Geolin, about to start his 17th season as a major leaguer, is taking a final whirl at the bang-tails in Miami. . . Doing all right, too. . . Frankie Frisch's hardest job is to get the Cardinals to stop batting practice and go back to the hotel.

Paul Trout, Detroit rookie pitcher, who shows signs of becoming as eccentric as Dizzy Dean, was introduced to Harry Heilmann, the old Tiger slugger. . . "Are you a ball player?" Trout asked. . . Heilmann, looking

HILLSBORO IS DEFEATED BY ALLISON 49-11

PLAINVIEW WINS 73-15 IN OPENING ROUND OF TOURNEY

HILLSBORO, March 11 (AP)—Plainview defeated Highland 73 to 15 last night in the opening round of the state A. A. U. girls' basketball tournament.

Results in other games of the meet, played here, at Abbott and Itasca, were: Newsome 48, Mesquite 25. Bullard 64, Cranfills 20. Allison 49, Hillsboro 11. Van Horn 27, Lott 25. Blum 49, Pearl 47. Newton 45, Itasca 30. Munday 33, Barry 26. Celeste 40, Covington 16. Abbott 55, Lone Oak 30. Forfeitures were: West to Blooming Grove, Bellas to Friendship and Bardwell to Irene.

almost as young as ever, is visiting with the Tigers at Lakeland. . . Col. Ruppert is due at St. Petersburg tomorrow. . . In addition to signing Gehrig and DiMaggio, the Yanks hope he can do something about the 25-cent beer situation.

THE FINANCIAL WHIRLIGIG

By LOUIS SCHNEIDER

AVOIDING.
Because of the recent wage increase the automobile manufacturing cost has been lifted \$12 a car. Should unions succeed in their demands for slower production the increase will run another \$2 a car. With steel, tire, cotton and other costs mounting, another \$6 per car cost is estimated.

Altogether automobile manufacturing costs are expected to be up \$20 a car. For that reason a retail price increase is expected. Some say it will average about \$25 a car. Trade insiders say there is a fly in the ointment.

It is believed by the informed that Henry Ford will resist any price increase. Should he hold off, it would set the standard for the industry. Manufacturers will be forced to absorb the increase costs. It's because of such a possibility that investment managers are avoiding the motor securities.

CERTAIN.
New York Central is to do refunding. The road is to redeem its outstanding convertible 6s. The plan calls for an offering of \$55,000,000 and is expected to carry a 3 1/4 per cent coupon.

Since the public is interested in common shares the new issue will be of a convertible type. Stockholders of New York Central are to vote on the proposed issue on March 30. Approval is regarded as certain.

FACTS.
In anticipation of increased public buying merchandising organizations are expanding inventory commitments. Germany has a "secret" debt of over \$2,000,000,000—so the S. E. C. officially disclosed. Corporate reports show that earnings ran about 50 per cent ahead of 1935. For the last three-month period of 1936 earnings were near the 1929 record level.

Investment managers who accumulated gold shares on fears of inflation are now liquidating. Allied Chemical owns more than 50 per cent of the outstanding Sloss-Sheffield common stock. London stock prices have resumed their downward trend which has suspicious earmarks of a full-fledged bear market. General Foods' sales for 1936 were greater in volume than those of 1929—this is an authentic news-behind-the-news disclosure.

ESTIMATES.
Eagle Picher insiders look for a production this year of 145,000 tons of zinc and 30,000 tons of lead concentrates. In acquiring the Mary M. Mining Company Eagle Picher's output was expanded by 18,000 tons of zinc and 3,000 tons of lead. It is estimated that on the basis of prospective production and the current selling prices for the commodities zinc and lead, Eagle Picher will show a net of \$2.50 a share or better for 1937.

EXPANSION.
Boeing recently received orders for six giant 40-ton flying boats from Pan-American Airways. From the same company it also received an order for two 4-engine land transport planes. Transcontinental and Western Air also ordered six of this model. In addition the Dutch KLM line has given Boeing some extra large bookings.

Informed circles disclose that Boeing Airplane will do new financing for expansion purposes. The company will offer additional common shares to stockholders of record. At present there are only 521,883 shares outstanding with no preferred stock or bonded debt ahead.

CHANGED.
A couple of days ago your correspondent disclosed why paperboard manufacturing equities were liked by the trades' insiders. Since then the picture has taken a turn for the worse. Here's the latest on the situation.

The Apparel Industries Interstate Bureau has filed a complaint with the paper box industry that prices were high. The Bureau demanded that the last price increase be rescinded. A spokesman for the Bureau said that if the request is refused "other remedial action will be taken." Paper box manufacturers have the matter under consideration.

If the demand is denied retail

merchants will use wrappers instead of boxes. If the demand is met the price increase will be revoked. In either event it doesn't give the paper box manufacturing industry a healthy outlook.

UNUSUAL.
American Chain & Cable's remarkable comeback reads like a fairy tale. The company operated at a loss of \$3,006,106 in 1932. In 1933 the shares sold below \$1.75 and the company reported \$538,378 in red figures. In 1936 American Chain's income was \$2,967,789 or a net of \$9.45 a share.

REPORTS ARE THAT:
Union Pacific holds a 29 per cent voting control in Illinois Central—former benefits from price advance of latter. For first quarter Flintkote will show a net of 75 cents a share—or better. Those buying Texas & Pacific are fully aware of wide price movements of shares. Underwood Elliott Fisher going into investment accounts. Textile industry headed for another boom. Standard Tank Car has orders on its books for 299 tank cars. Because of increased earnings National Biscuit insiders expect a stock price advance. At current levels Bell Telephone of Canada is amply priced. Seaboard Air Line's February income ran better than \$800,000. Speculative interests expect Union Carbide to stage a sharp price spurt—this from chartists.

Penick and Ford's profit margin is narrower. National Cash Register's sales continue to expand as business activity increases. Louisville & Nashville again in demand by investment managers. Rubber shares being "mentioned" as due for a spurt. Western Union would be hurt should child labor amendment pass. Investment accounts switching Consolidated Edison into North American and Columbia Gas. And, that Allied Chemical has a

wealthy buying following because of its increased bookings from steel industry and because of increase in market value of its security holdings.

MUNITIONS SHIP SUNK, INSURGENTS NOW CLAIM

SALAMANCA, Spain, March 11. (AP)—The insurgent Spanish regime officially announced today that the government munitions freighter Mar Cantabrico had been sunk, contrary to previous assertions it had fallen a prize of war to insurgent warships.

No details were given. The vessel carried more than \$2,700,000 worth of munitions from New York and Veracruz, Mexico, to the aid of the Valencia government.

(The Mar Cantabrico previously was reported to have been taken to Ferrol, fortified insurgent port on the northwest tip of Spain after being shelled and captured by the cruiser Canarias while attempting to run the insurgent blockade.)

(It was not known whether the insurgents had removed the huge cargo of war stores and then scuttled the freighter or whether it had sunk en route to Ferrol in contradiction to the report of its arrival.)

The loss of the Mar Cantabrico's cargo was considered in insurgent circles one of the most crushing blows delivered to the government.

In addition to the lost materials of war, it was officially pointed out, the ship itself was the main unit of the merchant fleet supplying the northern government forces.

Some aquatic whirligig beetles have one pair of eyes, so divided that half of the eye turns upward to keep a lookout for danger, while the other half scans the water in search of prey.

Sequel to a Crossing Crash

Turning the track, plowing down a steep grade and turning over, the engine and tender of the Baltimore and Ohio passenger train running between Washington and New York, are shown here as they piled up in a ditch near Dorsey, Md. The engine struck a truck, demolishing it and killing one of the passengers. The engineer died at the controls, his fireman was injured. Four coaches left the tracks, but did not turn over.

RACE BETTING IS GIVEN NEW LEASE ON LIFE

HEARINGS TO BE HELD BY COMMITTEE IN SENATE

AUSTIN, March 11 (AP)—Foes of horse racing planned renewed assaults today to abolish the "sport of kings" in Texas after moves of anti-repealists had staved off final decision in the Senate. The upper legislative chamber, giving ear to pleas of a hearing for track operators and horse breeders, yesterday swung the issue back into committee by the slim margin of a 15 to 10 vote with one pair. By a vote of 20 to 8 last week, the Senate hung onto a minor racing proposal the bill to repeal legalized wagering. Horse racing opponents found solace in the words of Governor James V. Alford who yesterday declared "I shall continue to fight for a clear cut vote and for repeal of the race track gambling law."

QUALITY OF OKLAHOMA AND TEXAS COTTON HAS DROPPED, SAYS CLAYTON

HOUSTON, March 11 (AP)—W. J. Clayton, rated one of the world's foremost cotton merchants, believes Texas and Oklahoma cotton has deteriorated in recent years. Inferior and drought-weakened seed have caused a drop in quality, he said, and soil erosion funds might well be spent for improving the staple. He suggested that to Secretary of Agriculture Wallace last autumn, he said.

Clayton returned yesterday from a 15,000 mile air tour of Latin America, where, he said, cotton production was trending upward. Cotton production there, however, was less of a price factor than U. S. government control measures, he said. Texas, he pointed out, still grows more cotton than all of Latin America together. Clayton predicted world consumption of cotton in 1936-37 might reach the all-time high of 29,500,000 bales. The cotton year ends July 1. A mile of wire is required in the manufacture of a full-size window screen.

SEVEN TOWNS FALL BEFORE REBEL DRIVE

ENTIRE BATTALION IS WIPE OUT, CLAIM INSURGENTS

SORIA, Spain, March 11 (AP)—Insurgents swarming along both sides of the Aragon-Guadalajara highway in a big push toward Madrid reported today they wiped out an entire battalion of "Red Lions" seeking to block the way.

Seven villages were reported to have fallen before the broad fronted offensive which, after three days of intense fighting, had carried the vanguard of Gen. Francisco Franco's troops to within 48 miles of Madrid.

One column was reported officially to have battered its way into Brihuega, an important highway junction about six miles south of the main highroad.

An unconfirmed report placed another column at Torija, only 10 miles above Guadalajara.

Still another column continued to advance along a railroad line to the west.

Twelve government tanks were reported captured.

Besides Brihuega, the towns reported captured are Castilblanco, Bujulara, Jadraca, Villanueva de Argucilla, Miralrio, Valfermoso de las Monjas.

Under virtual slaughter, the government resistance appeared to collapse.

Heavy government losses in another segment of Madrid's front were reported simultaneously from the insurgent side of the Jarama river sector, southeast of the capital. Fighting there was preventing Madrid from sending reinforcements to Guadalajara province.

Gains on this, the fourth day of battle, brought the insurgents within sight of Guadalajara. Insurgent commanders claimed their men had carved a sector 100 miles square from the government's central Spanish front.

An official report of the day's action said 400 of Madrid's defenders were killed.

CAPITOL JIGSAW

By HOWARD C. MARSHALL

AUSTIN, March 10 (AP)—The Senate at last has settled a weighty question. It decided that four-fifths of 31 is 25.

The matter is more important than it seems for the membership of the Senate is 31 and several types of decisions must be made by four-fifths votes.

Lieut.-Gov. Walter F. Woodulf once held that four-fifths of 31 is 26, but reversed himself.

There is more than one way to kill a bill, says Senator Claude Westerfeld of Dallas.

In a vote on a measure to authorize street car companies to operate buses, Westerfeld offered an amendment to strike out everything before the enacting clause.

"There is more than one way to kill a bill," he said. "You can cut off the head or the tail."

His amendment was rejected.

During the debate of the bill Westerfeld demanded that street railway companies fix their rates on true property values, something he charged some did not do.

He alleged the Dallas company was including in valuations street cars it had brought from Palestine 30 years ago and which had not run in 20 years.

"It reminds me of a Chicago company," Westerfeld told the Senate. "They included for years the value of mules to draw street cars."

"What I want to do is to get the mules out of street car valuations."

Senator T. J. Holbrook of Galveston is willing to get out of the way of a man whose house is on fire. He said as much the other day.

Senator Grady Woodruff of Decatur was trying to obtain consideration of a local bill pertaining to Wise county while Holbrook wanted to take up another matter. Woodruff said the situation in his county was "serious."

"All right, all right," Holbrook rejoined, turning to his seat; "go ahead. If your house is on fire, I'll get out of the way."

There was a bit of comedy in the Woodruff directing the board of edu-

cation to purchase French texts for the public schools.

Senator Will Pace of Tyler moved to include Kiddish which he termed the "father of all languages." Manley Head of Stephenville proposed economics and Holbrook threatened to include Chinese.

Woodruff said he didn't mind having a little fun "at my expense" but asked them to take the resolution seriously.

"But the expense is on the state," replied Pace.

Woodruff said the present law authorized the board of education to purchase the French texts but the board had not done so.

The return of pre-depression quotations is attributed in Wall Street

to a combination of forces. Mentioned among the most important are world-wide currency depreciation, driving speculation into commodities; government spending for war preparations and relief expenditures during the depression; improvement in buying power of commodity producers as prices went up; a big gain in new gold production and widespread industrial recovery.

The orders placed naval and aerial units of the west and south coasts on an uninterrupted duty status after four attacks by Spanish warships in the international shipping lanes.

French vessels were commanded to defend the lanes bordering France from invasion and watch constantly for belligerent vessels until the international control cordon was erected.

The rapidity with which the French navy acted to aid the Spanish government freighter Conde de Zubiria yesterday when an insurgent warship made a daring attack within sight of the French coast, was taken as evidence of French determination "to force respect for French waters."

Officials launched an immediate investigation to determine whether the shelling occurred within the three-mile limit.

The armed insurgent trawler surprised the freighter in the very center of the ship lane off the Island of Quessant.

Sailors declared "only pure chance" saved neutral vessels from being within range of the 30 to 50 shells the warship fired before fleeing before the approach of French seaplanes and a sloop.

TRUCK KILLS MAN
DENTON, March 11 (AP)—S. M. Cowan, about 60, was injured fatally early today when he was struck by a Dallas bread truck. The truck driver said the lights of an automobile blinded him. Cowan, a newspaper carrier, was struck as he pushed his bicycle along the highway. He is survived by his widow and three daughters.

NIGHT SPOTS RAIDED
FORT WORTH, March 11 (AP)—Four night life resorts were raided by ten Texas liquor control board agents last night. Four arrests were made.

A Melting Welcome to Oncoming Spring

With little sympathy for the dying winter, spring flaunts its joyous dance signifying the coming of gentler weather. Such seems to be the spirit of these excerpts from a gay "spring song" interpretation on the ice of Lake Placid, N. Y., by Melitta Brunner, Austrian skater. While to confirmed cold-weather enthusiasts the exhibition was another ultra example of skating skill, the figures Miss Brunner cut added up, for most of us, to just this—birds, flowers, beer, and warmer weather not far ahead.

Waitresses Striking Happy Pose

Forty waitresses in a Detroit restaurant hadn't lost a bit of enthusiasm for their sitdown strike when this picture was taken of them in conference with the management. The girls struck during the noon hour and those in another cafe immediately followed suit. Customers went unfed or waited on themselves. Food cooled unheeded in the kitchen. Unpaid checks were numerous. The waitresses want more pay, shorter hours

and a little fun "at my expense" but asked them to take the resolution seriously.

"But the expense is on the state," replied Pace.

Woodruff said the present law authorized the board of education to purchase the French texts but the board had not done so.

Sailors declared "only pure chance" saved neutral vessels from being within range of the 30 to 50 shells the warship fired before fleeing before the approach of French seaplanes and a sloop.

TRUCK KILLS MAN
DENTON, March 11 (AP)—S. M. Cowan, about 60, was injured fatally early today when he was struck by a Dallas bread truck. The truck driver said the lights of an automobile blinded him. Cowan, a newspaper carrier, was struck as he pushed his bicycle along the highway. He is survived by his widow and three daughters.

NIGHT SPOTS RAIDED
FORT WORTH, March 11 (AP)—Four night life resorts were raided by ten Texas liquor control board agents last night. Four arrests were made.

STAPLES NEAR PEAK OF 1929

WALL STREET HAS ITS OWN REASONS FOR RETURN

NEW YORK, March 11 (AP)—American farmers and other producers of basic staples envisioned a golden harvest of billions of dollars today as pre-depression prices staged a comeback, under the impetus of a world wide upswing.

The lean years from 1929 to the spring of 1933 when prices skidded to new historical lows faded in memory as the almost uninterrupted rise since last June restores to the boards of commodity markets quotations unseen in eight years.

Metals, rubber, wheat and other big items of trade between town and country, measured in the American dollar, have recouped, in a four year period, the disastrous losses of the depression.

The story is sharply delineated in these prices—\$1.40 a bushel for wheat—14 cent cotton, 16 cent copper—to mention a few.

By one yardstick—the Associated Press index of prices for 35 leading commodities—prices have risen 32 per cent since last May, to a point a little above 94 per cent of the average price in 1926.

The effect of this rise on the cost of living is being studied closely. Many manufactured goods have been marked up so far, as some statisticians figure it, mounting payrolls and improvement in the buying power of commodity producers have kept a lap or two in front of retail prices.

The return of pre-depression quotations is attributed in Wall Street

to a combination of forces. Mentioned among the most important are world-wide currency depreciation, driving speculation into commodities; government spending for war preparations and relief expenditures during the depression; improvement in buying power of commodity producers as prices went up; a big gain in new gold production and widespread industrial recovery.

The orders placed naval and aerial units of the west and south coasts on an uninterrupted duty status after four attacks by Spanish warships in the international shipping lanes.

French vessels were commanded to defend the lanes bordering France from invasion and watch constantly for belligerent vessels until the international control cordon was erected.

The rapidity with which the French navy acted to aid the Spanish government freighter Conde de Zubiria yesterday when an insurgent warship made a daring attack within sight of the French coast, was taken as evidence of French determination "to force respect for French waters."

Officials launched an immediate investigation to determine whether the shelling occurred within the three-mile limit.

The armed insurgent trawler surprised the freighter in the very center of the ship lane off the Island of Quessant.

Sailors declared "only pure chance" saved neutral vessels from being within range of the 30 to 50 shells the warship fired before fleeing before the approach of French seaplanes and a sloop.

It's our family's whiskey, neighbor—and neighbor, it's your price!

Look at the joke they played on us!

This photo shows the front yard of a family living way up on the further side of Leechburg. The young fellow pointing and laughing is showing us how they built a snow man that's supposed to be me.

Harry E. Wilken

Folks act like they've found a Long Lost Friend—the way they're making so much of us and this Family Recipe of ours!

My brother-in-law was just remarking to me the other day, Harry, he said—it looks like folks had found a long lost friend, the way they're acting about our Family's whiskey! And I guess in a way you might call The Wilken Family whiskey a long lost friend at that! For our family has sure been at it a long long time—making whiskey for three whole generations. But we never put up this personal Family's Recipe of ours for everybody to enjoy till only just lately.

And folks are taking to it like as if they'd never found a really mild and tasty whiskey in their whole life. And I guess the neighborly price being asked for our Family's whiskey is pleasing everybody pretty much too!

Copyright 1937, The Wilken Family, Inc., Houston, Pa. Executive offices: N.Y.C. The Wilken Family produces, bottles and distributes its straight whiskey in this product are 15 months or more old, 25% straight whiskey; 75% grain neutral spirits, 30% straight whiskey 15 months old, 5% straight whiskey 4 years old.

SUPERVISED BY THE WILKEN FAMILY

JACKSON GIVES ARGUMENT FOR COURT CHANGE

OPPONENTS MAY TRY TO AGREE ON AMENDMENT

WASHINGTON, March 11 (AP)—Robert H. Jackson, trim assistant attorney general with the stride of a track star, followed up today at Senate hearings the argument of his chief that the Roosevelt court bill alone would assure "an enlightened interpretation" of the constitution.

The dark-haired, 45-year-old attorney, widely mentioned as a possible appointee to the high tribunal, worked late into the night to complete his reply to objections of some foes on the judiciary committee that an amendment was preferable.

The red leather witness chair was placed for him as it was yesterday for Attorney General Homer Cummings—across the long table from the 18 committee members.

Seven in that group—among them Senators Austin (R., Wis.), Connally (D., Texas), and Borah (R., Idaho)—have expressed opposition to the President's bill. They were primed to fire questions at Jackson as rapidly as they did at Cummings.

Outside the hearing room, two aspects of the situation occasioned speculation.

First, there were indications opponents of the administration course might try to agree on a specific constitutional amendment to meet criticism that no agreement could be reached.

Second, the conference on constitutional amendment to be headed by Senator Norris (Ind., Neb.) was postponed until Congress has acted on the President's proposals.

The testimony of Cummings urging enactment of the bill to prevent "torturing" the constitution produced frequent sharp exchanges.

First, the veteran Borah asked: "Suppose six members are added to the court as proposed in this bill they should still divide eight to seven, would not this entire plan fall?"

"It would depend on which side the eight were," replied Cummings. His wife, seated among the spectators, smiled.

James M. Landis, chairman of the Securities Commission, argued the

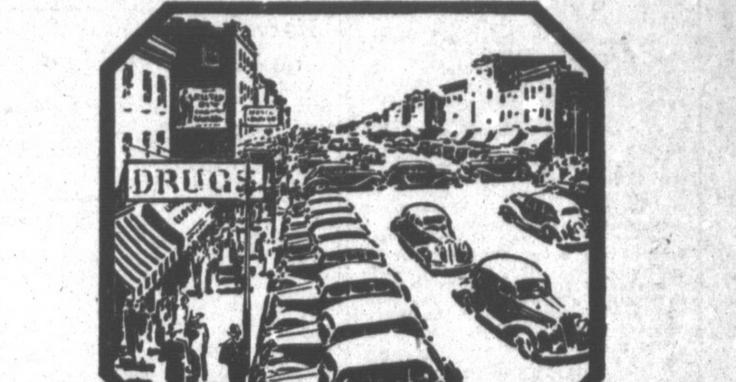

administration's case in Chicago last night against one of the liberal opponents of the bill—Senator Wheeler (D., Mont.).

Landis contended the balance between the three branches of government had been "subtly and increasingly upset" in the last 35 years, and Roosevelt was the only one to restore that balance.

Wheeler, charging that Roosevelt preached "haste and hate," denied the opposition to the administration on this issue as in the 1936 election.

Full daylight is about 600,000 times brighter than full moonlight.

PLEADS FOR RE-ENTRY
CHICAGO, March 11 (AP)—"The Woman in Red" who lured bandit John Dillinger to his death pleaded today from her exile in Rumania, for re-entry to the United States. Writing from the Balkan town of Timisoara where she is known as Dona Anna Cumpunasi, Mrs. Anna Sage asked a Chicago attorney to take the necessary legal steps to expedite her return. The 45-year old woman wrote she did not believe the U. S. government, which banished her 10 months ago, would oppose her re-entry.

RETAIL TRADE FOLLOWS CONCRETE STREETS

SMART MERCHANTS DEMAND THIS BUSINESS-BUILDING PAVEMENT

Your street looks bright, modern, attractive when you dress it up with a concrete pavement. Concrete is clean, stays clean, drains easily. Its true and even surface makes parking easy. Its gritty texture is skid resistant.

Concrete stands up under rough usage and heavy traffic. Maintenance expense is low.

Yet with all these advantages concrete costs less than any other pavement of equal load bearing capacity. Pave with concrete and watch business increase.

For concrete pavement facts, write to

1301 Norwood Bldg., Austin, Texas

A national organization of engineers and scientists, working in laboratory and field to improve and extend the uses of concrete.

Noted Metropolitan Opera Star finds Luckies easy on her precious throat—

Marjorie Lawrence says:

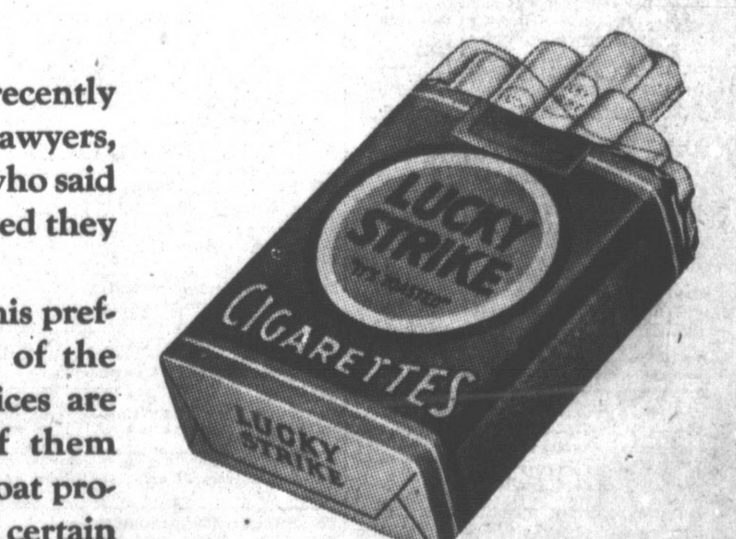

"You must have a big voice to sing Wagner. My favorite role of 'Brunnhilde' in Wagner's 'Götterdämmerung' is a very exacting one. Yet—when I am back in my dressing room after I have finished singing, there is nothing I enjoy more than lighting up a Lucky. It is a light smoke—so gentle—so smooth—that it does not irritate my throat in the least. I agree with the others at the Metropolitan that a light smoke is a wise choice."

Marjorie Lawrence
BRILLIANT SOPRANO OF THE METROPOLITAN OPERA COMPANY

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Lawrence verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.
