Cattlemen Face Future With Optimism Typical of Conquerors of Frontier

Very typical of the cattle industry was the address of T. D. Hobart of Pampa yesterday to the Texas and Southwestern Cattle Raisers association at Corpus Christi.

The cattlemen has always been tough as the country he tamed, and it is not surprising that optimism prevailed despite the admittedly slow market affecting the industry. The men of the range believe, and rightly no doubt, that when better times return their business will be one of the first to reflect it.

People must eat, and while the depression has reduced consumption of beef steak and other meat products, the return of normal employment conditions will make good meat all the more popular and consumption thereof will mount overnight. The cattlemen are close followers of the market and do not have the overproduction problem to the extent that other groups have. They are fewer in number and confined to a smaller territory.

The session finds the cattlemen without serious problems. The members of the association are favoring validation of land titles and passage of the butchers bill, but most other problems are being handled by the official staff without aid of the state government.

Mr. Hobart, dignified and stately chairman of the cattlemen, has been honored signally through two selections to the presidency, and is slated to retire after two successful administrations. He also is prominent in affairs of the national association.

WASHINGTON—
"Life is short,
Like the three days' glory
Of the Cherry Blossoms."

Thus does the Japanese poet describe what has grown to be one of the most distinctive things the national capital possesses.

With the great dome of the capitol, the beautiful simplicity of the Lincoln memorial, the stateliness of Washington monument, the three miles of Japanese cherry trees, symbols of happiness or the sakura spirit of Japan, have found their place in the Washington scene.

And it will soon be cherry blossom time again.

Again people will be coming from far and near to get a glimpse of them in bloom along the Speedway and around the Tidal Basin. Artists will be setting their easels under the blooming trees, endeavoring to put on canvas the reality of their blossoms. And girls, clad in oriental costumes, will walk along the sea wall, holding over them And it is at this season of the year that the capital shows itself in all its fullness.

Mrs. William Howard Taft is credited with responsible Japanese sunshades.

Soup Kitchen to Be Closed Soon

The Welfare board's soup kitchen at the Moose hall on West Francis will be discontinued after April 1. It was decided yesterday at a meeting of the board. It is believed that the unemployment situation will be somewhat relieved by that time, it was said.

Since the kitchen opened Jan. 13, a total of 17,549 persons have been fed. Last Sunday, 307 were given food. The approximate cost to the board of feeding one person was seven cents.

Where the board's money goes was explained by Mrs. W. H. Davis, manager of the board, in pointing out that 5470 of this cost was paid by merchants, business institutions, business men and other individuals, and that the rest was taken out of the Community Chest's appropriation to the Welfare board. A cook who began work at 4 o'clock in the morning and worked until late in the evening drew \$3 per day. Not just everybody who came to the kitchen was given a meal. The board had to "check and double-check for the dead-beats," Mrs.

David said. No food would be issued unless persons who asked for it had a card. If a man had a family of six, that number was written on the back of the card, and soup for six persons was dished out. This card was punched for three days and the man was issued another card. At first some of the "destitute" people came to the kitchen in automobiles. The board soon cut these off after deciding that if the person could buy gasoline they could buy soup. They then began parking their cars in block away, but the board caught on to that, also.

The scaler Ungava had described three men having been located on the ice, all suffering from injuries and exposure. One of these was believed to have been Alfred Keen, mate of the Viking. One of those who had not been accounted for was W. Johnson, master of watch of the Biking.

It was not clear whether the three men who were picked up had any relation to the party of 10, five on the ice and five in a dory, which Captain Carter of the Beothic previously had reported having sighted.

Three Survivors Of Viking Found

ST. JOHNS, N. F., March 13. (AP)—Three additional survivors of the wreck of the sailing vessel Viking off Horse Island were rescued from the ice floes by the sealer Beothic today, radio messages received here announced. All suffered severely from exposure. The messenger report failed adequately to identify the men, describing them simply as "Johnson, Keen, and Best." Previous reports from

Conley Appointed To Succeed Champion

E. M. Conley, manager of the Montgomery Ward store, was appointed to fill the unexpired term of R. L. Champion as a member of the Board of City Development, by city commissioners in regular session yesterday afternoon. Mr. Conley has been a resident of Pampa since the Montgomery Ward store was opened here more than a year ago. Mr. Champion resigned from the board last month.

Allred Inquiry On Oil Industry Has New Connections

AUSTIN, March 13. (AP)—Attorney General James V. Allred said today he was investigating "from a new angle" the waste of oil and gas in the Reagan county field.

Allred intimated his investigation was separate and apart from any other investigation and attempt at proration in other Texas fields. The attorney general said wastage of resources had been going on in the Reagan field several years. Allred will investigate with a view of establishing the landowners' rights to halt the oil companies' wastage of gas.

In addition, he said he was making an investigation of waste of oil and gas on state-owned lands.

Smith Criticized On Proration Stand

KILGORE, March 13. (AP)—East Texas oil men and others meeting here last night passed resolutions praising Railroad Commissioner Nelt and Terrell, criticizing Commissioner Smith for "burning" against his East Texas home "tribe" in saying that proration would be enforced here if ordered, and offering to accept proration if petroleum imports were curtailed. One resolution condemned the call for a meeting in Dallas today, denying that the meeting would be one of independents.

Carl Estes, Tyler editor, John Alcorn, former vice-president of the Marland Oil company, Rene Allred Jr., attorney for East Texas interests before the railroad commission, and the Rev. George W. Wilburn, Baptist minister, were among the speakers.

Klein Believes Depression Over

DETROIT, March 13. (AP)—Business men were described today by Dr. Julius Klein, assistant secretary of commerce, as free from "economic shock" and "panic" psychology while business climbs upward. Depression has reached or passed its bottom, Dr. Klein told the Detroit board of commerce, although "we may bump along" for a while in returning to higher trade levels.

ODNEAL TRIAL IS OVERTURNED

AUSTIN, March 18. (AP)—The court of criminal appeals today reversed and remanded the murder case of Cecil Odneal of Tarrant county.

The court denied appellant's motion for rehearing in the case of Odneal. Odneal was charged with killing his father, Rufe Langford, near Goldsmith Feb. 4. He claimed the death was an accident. The trial judge had refused him bail. The appellate court set bail at \$2,500.

Odneal was sentenced to five years imprisonment for murder in the killing of A. C. Fentress during an alleged drinking party at Lake Worth. Odneal and Philo Hooper were charged with the killing.

The appellate court held that the trial court improperly refused a second severance. It also stated prosecutors were in error in expressing surprise at the testimony given by state witnesses when they already knew the testimony would be different from that given to the grand jury. Notwithstanding that state attorneys improperly introduced the statements made before the grand jury to strengthen the case, the court held.

Mrs. Leech discussed the Margaret fund, which is for the purpose of educating the children of missionaries, and Mr. Lancaster told of the meeting of the Palo Duro association which will be held here March 31 and asked the women of the church to serve the luncheon.

Mrs. W. B. Murphy presided for the Royal Service program which was presented by Circle 4 in the early afternoon.

Devotional readings were given by Mrs. A. C. Shaw, Mrs. E. F. Brakes, Mrs. John Brown, Mrs. C. L. Stephens, Mrs. J. E. Hamilton, and Mrs. Clyde Garner.

After a song, "Rock of Ages," the following topics were discussed: "Forgotten Jew," Mrs. Frank Johnson; "Forgotten Mountaineer," Mrs. W. B. Henry; "Forgotten Indians," Mrs. F. E. Hoffman; "An Indian Princess," Mrs. P. D. Gross; a parable, "The Forgotten Flower," Mrs. C. E. Lancaster.

The program was closed with a song, "Jesus Saves."

Those attending were the Rev. and Mrs. C. E. Lancaster and Mesdames Bert Brewer, Charles Barrett, R. L. Chapman, C. L. McElmer, J. H. Ayres, A. C. Shaw, C. L. Stephens, R. E. Malone, P. D. Gross, John Brown, T. E. Rose, W. O. Workman, Frank Johnson, W. B. Henry, Ewing Leech, J. E. Hamilton, George E. Nix, W. B. Murphy, F. E. Hoffman, Clyde H. Garner, E. H. Kitchings, E. F. Brakes, Ernest Fletcher, W. Rose, J. McFarland, Walter Davis, John Anderson, Charles Gilmore, L. H. Greene, J. C. Barnard, Miss Ines Barrett and Miss Geneva Osborn.

ODNEAL TRIAL IS OVERTURNED

AUSTIN, March 18. (AP)—The court of criminal appeals today reversed and remanded the murder case of Cecil Odneal of Tarrant county.

The court denied appellant's motion for rehearing in the case of Odneal Herrera, assessed the death penalty for the killing of Sheriff A. T. Murray of Mason county.

Charles Langford was ordered released on bond from the Mills county jail. Langford was charged with killing his father, Rufe Langford, near Colevath Feb. 4. He claimed the death was an accident. The trial judge had refused him bail. The appellate court set bail at \$2,500.

Odneal was sentenced to five years imprisonment for murder in the killing of A. C. Hendrix during an alleged drinking party at Lake Worth. Odneal and Philo Hooper were charged with the killing.

The appellate court held that the trial court improperly refused a second severance. It also stated prosecutors were in error in expressing surprise at the testimony given by state witnesses when they already knew the testimony would be different from that given to the grand jury. Notwithstanding that state attorneys improperly introduced the statements made before the grand jury to strengthen the case, the court held.

MURDER PLOT BARRED

DENVER, March 18. (AP)—Four men were held today in connection with an alleged plot to assassinate three members of the district attorney's office. They were arrested in raids last night.

TEMPLE BANK CLOSED

TEMPLE, March 18. (AP)—The City National bank, Bell county depository, was closed today while a group of business men attempted to effect a reorganization. It's affairs temporarily were in the hands of national bank examiners. It failed to open for business yesterday. Officials said several large withdrawals had depleted the bank's cash reserve to a point where an impending run would have wrecked the institution. They claimed the bank was solvent and depositors could be paid in full.

THE CRIME IN THE DUTCH GARDEN

SYNOPSIS: Ted Green, Annabelle Querling's chauffeur, is found a suicidal note beside him taking the blame for her murder in a fit of temper. Dr. Netherton, previously blamed by Superintendent Richmond on the theory that he had plotted to share the spinster's wealth through marriage to marry the Blake, proves to have been engaged to Audrey Winford. Marjorie, Jimmie Haswell discovers, is secretly in love with Captain Stirling, whose car was near the murder scene. Evelyn Blake, Marjorie's sister, engaged to Lionel Duckworth, reports that she has found her aunt's missing will. Because unsigned, she is threatened to disinherit her niece, should they wed, is invalid. Audrey tells Jimmie that Netherton has not renewed their broken engagement. Two days later an important letter sends Jimmie hurrying to Richmond.

Chapter 24 MARJORIE MARRIED! Jimmie met Richmond by appointment at police headquarters and noticed that he looked much happier than when he had last seen him at the time of Green's confession.

Chapter 25 "So it was Stirling! That means when he went there that night in his car he had really come to see her!" "Perhaps," suggested Jimmie, "you'd better hear the letter." Richmond agreed and Jimmie unfolded the several sheets of paper dated from a hotel at Dover.

Dear Mr. Haswell, the letter began, "by the time you get this, I shall be Captain Stirling's wife. My marriage has made our marriage possible, but both Dick and I feel that there are things we should tell you.

"My main object is to explain about Dr. Netherton. First, it is necessary to remember Aunt Annabelle's views as to marriage for Evelyn and myself. That explains why Dick and I had to keep our love secret.

"Dick was disabled and could not do much to make a home. I always thought that Aunt Annabelle would provide for Evelyn and myself. Dick and I did not want to lose our happiness, yet we did not wish to lose what she could do for us.

"Then, somehow, I thought of Dr. Netherton. I knew that I could not tell Aunt Annabelle of my love for Dick, but I recalled that his father had been her physician and that he had inherited the professional standing and influence that sometimes gives one the right to speak in matters of this kind. It was not easy to ask to interpose for me, but we had always been pals, and he knew of Aunt Annabelle's views.

"On the night that Aunt Annabelle was killed things came to a point. I waited for him while he was seeing Mrs. Frater and then took him into the garden. Aunt Annabelle's words made me desperate. Why she said that we should get nothing when we married, I don't know. She may have suspected something between me and Bill, or it might have been only for my benefit. Anyway, it determined me, and I went to the bottom of the garden with Bill and told him everything, of our love and our desire to avoid losing the things that Aunt Annabelle could do for us. Though Bill and Dick had never been good friends, Bill said he would help me.

"So that is what Bill and I were talking about, I don't blame the policeman for being suspicious, but I did not feel we could reveal our secret.

"Pretty cunning to get out of it like that," commented Richmond, "but now we know the truth we can forgive them."

"Then Bill left me," the letter continued. "I did not tell him that I was expecting Dick to come along. After a while I waited a few minutes, I thought I had better see if Aunt Annabelle was ready to go in. You know what I found. Despite her hardness, I was fond of my aunt and it was terrible to discover what had happened to her, although I honestly thought it must have been an accident.

"Dick is not a liar, but he did deny that it was his car at the bottom of the garden. That was wrong. It was his car—and he is anxious to put the truth right.

"Dick must have reached the bottom of the garden shortly after I left it, and then, as I did not come, he went toward the house. He was coming through the Dutch garden and he actually saw Aunt Annabelle lying on the ground with the broken figure beside her. Then, hearing voices, he slipped into a covered place and could hear me tell Evelyn and the others what I had found. His first impulse was to join us—but how could he explain his being there? Finally he decided it would be best to get away. So Green saw a car when he crossed the links and it was gone when he came back. No doubt he made the most of it to divert suspicion from himself.

"When I heard a car had been seen, I knew it must have been his, I was horribly frightened, although I would not allow myself to suspect him. Bill was splendid all this time, refusing to say anything that would make things worse for me, even though his refusal made them drag him into it. After the funeral Dick and I decided to marry as soon as possible. I telephoned Bill about it, and he advised us to wait until things were clearer. I felt happier than in many days.

"I was at the Nethertons' when she phoned," said Jimmie. "I noticed after that that she seemed more cheerful, but I could not guess the exact reason."

"I observed it too," said Richmond. "I put it down to the effect of the will. She stood to get a tidy fortune.

"She refers to that. Apparently she had left home before it was discovered. She says—"

"I think there is little doubt Aunt Annabelle destroyed the will. If Morgan told her the conditions would not be binding, she would have attached her and some other way, but Green's wicked act prevented her doing so.

"I want you to do what you can to prevent people thinking wrongly about Bill Netherton. I do not mind what is said about myself.

"Give my love to Nancy and Donald, and thank you, Mr. Haswell for all you did. This long letter has been written a bit at a time. So, now, I can sign myself "Sincerely yours, "Marjorie Stirling."

"So that's that," observed Richmond as Jimmie concluded. "It

clears up a good deal. However, the talk about Netherton can't amount to much now that we have the guilty party."

"That," said Jimmie quietly, "that is where you are wrong."

"Wrong, and if you suggest we can help Netherton? How is it to be done?"

"Where you are wrong," Jimmie continued, "is in saying you have the guilty party and the truth is known. Your view is that Green killed Miss Querling and that his confession settles the matter beyond doubt."

"Certainly, I suspected him from the first, and his confession only confirms what we already knew."

"The letter I have just read you is only part, the much less important part, of my reason for coming to see you this morning. What I have also to tell you is this—Edward Green did not kill Miss Querling, and he did not confess. The confession is a forgery and he himself is the victim of attempted murder."

"I observed it too," said Richmond. "I put it down to the effect of the will. She stood to get a tidy fortune.

"She refers to that. Apparently she had left home before it was discovered. She says—"

It's the same fresh, good-tasting cigarette whether you light up in the north woods or in Hawaii! For what you taste in Chesterfield is milder, better tobacco—nothing else—blended and "cross-blended" to bring out a flavor and fragrance you'll never find in any cigarette but Chesterfield. FOR NINETEEN years, our Research Department has kept intimate touch with every new development of Science that could be applied to the manufacture of cigarettes. During this period there has been no development of tested value or importance to the smoker which we have not incorporated into the making of Chesterfield cigarettes. Ligon & Myers Tobacco Co.

STERLING HELPS IN RAIL MOVE

AUSTIN, March 18. (AP)—Governor Sterling today wired the interstate commerce commission requesting the granting of the application of the Texas and Pacific railroad to build a new line from Big Spring to Lubbock, Amarillo and Vega. Meanwhile the railroad commission, which was represented at the I. C. C. hearing on the application, was preparing a letter detailing the reasons for its support of the project. The governor speaks of "the exciting necessity of this road which would penetrate a vast, virgin agricultural area," and said the road would afford additional needed railway outlet to the competitive marketing sections. The governor sent the telegram after Governor Woodward of Big Spring had conferred with him regarding the need for the new line. C. V. Terrell, chairman of the railroad commission and Louis A. Gueringer, chief engineer, attended the hearing at Lubbock last December. Members of the commission said the recommendation made was based on the study and facts introduced at the hearing, "supplemented by our personal acquaintance with the facts and conditions existing in the area through which applicant proposes to construct its line of railway, so as to warrant and authorize in our opinion its construction."

TRIAL OF NEGRO SLAYER BEGINS

AMARILLO, March 18. (AP)—Three jurors had been selected at noon in the trial of Will Moore, negro hotel porter, charged with murder in connection with slaying of Pete Moore, cowboy, during the cattleman's convention here March 4. More than two dozen of the 150 special veniremen had been examined, many being excused because of scruples against the infliction of the death penalty and because of opinions already formed. At least 50 of the special veniremen were absent because of illness in their families. Glen Calhoun, formerly district attorney at Borger and Abilene, appeared as special prosecutor in the case. Two former district attorneys of Potter county, E. T. Miller and W. J. Flesher, represented the negro, who will plead self-defense.

AMARILLO, March 18. (AP)—Potter county's new jury wheel ground out some frank results when a special venire was being drawn for the trial of Will Moore, negro, charged with murder. A woman, a negro, a Chinese, Sheriff Bill Thompson, and three of his deputies were chosen as veniremen. The woman was excused, the negro is on the panel and the Chinese was not located for service.

Income Taxes Are Less This Year

WASHINGTON, March 18. (AP)—Confronted with a government income tax cut, taxpayers are today looking for a method of shortening the distance between the two. On the other side of the ledger was lagging income tax receipts. The first day's collections dropped \$5,000,000 under the first day of a year ago, despite a one per cent increase on normal income taxes. The report for Monday, March 16, showed \$13,100,000 as compared with \$18,100,000 for the last filing day last year. This, however, was not considered by officials as indicative of the trend of the local receipts will follow. Referring to the records for the second and third days after the closing date last year, the pointer to tomorrow and Friday on the day which would give a better indication of the trend.

Chest Pledges Are Much Needed Now

Citizens who have not paid their pledges to the Community Chest fund are urged to do so at once, says E. Duncan, member of the Welfare Board, said this morning. Total amount of gift subscriptions to the chest fund was \$10,000, but all of this amount was not paid, it was said. In order to allocate the funds according to the original agreement it is necessary for subscribers to keep their pledges paid.

TUNNEL CAVES IN JULIEN, Calif., March 18. (AP)—Five men were reported killed in a cave-in of a tunnel under construction for the Western Pacific Railroad northwest of here early today.

WELL TO BE DEFERRED NACOGDOCHES, March 18. (AP)—A contract was signed today with the Pace Petroleum company of Oklahoma to resume drilling in the Pioneer Burke-Latimer well, taking it down to a depth of 800 feet. It now is 4,100 feet deep.

ROOKIE SLUGGING IMPORTANT PART OF SOX STRENGTH

POOR HITTING DETRIMENTAL LAST SEASON

With Luck, Shano Collins May Get Club Out of Cellar Rung; Pitching Staff Beyond Criticism

By GARY TALBOT
PENSACOLA, Fla., March 18. (AP) A couple of slugging rookie outfielders, a young shortstop who looks like he might hit, and a pair of pitching veterans salvaged from the minors form the foundation for an intensive rebuilding program in the camp of the Boston Red Sox.

Forty-four athletes reported to Shano Collins, the new pilot, but the five star newcomers are the ones who promise to hoist the Sox out of cellar status, if such is possible. Collins, up from a successful managerial career in Des Moines, isn't predicting a penny's worth. If the five live up to his expectations, he thinks they might do pretty well, and so be ought.

The pair expected to add batting power to the outfield are Albert Van Clump, a 344-pounder from Des Moines last year, and Cecil Bue, the diminutive one who hit .307 for Waco in the Texas league. Bue, who poked three homers in one inning, is out for the time being with a broken wrist, but Collins is counting on his return before the season begins.

A. E. Montgomery, a sweet fielding shortstop who hit .254 for Nashville in the Southern, appears the best prospect for getting more robust hitting in the infield. It largely was the failure of the inner guards to hit their weight that kept the Red Sox in the cellar last season.

Wiley Moore, one time world series hero with the Yankees, and another "Lucky" Brillhart, a former Sox, come back from Minneapolis and St. Paul, respectively, to add strength to an already capable mound staff. They promise to fit in well with the veteran group, Matt Gibson, Dan MacFayden, Ed Morris, Horace Lazenby, and Jack Russell. All five pitched good ball last season, losing many a game in the late innings for Sox as a timely hit behind them.

Bill Sweeney, who hit .309 last year, at first, the veteran Bob Reeves at second, Marguerat at short, and Jack Rothrock, a converted outfielder, at third, form a tentative infield.

Treated with Rye and Van Clump in prospecting, outfield is Earl Wingo, the only regular in the season to hit over .300. Oliver and Russell Scarritt, who hit .303 and .285, respectively, are the other holdovers.

Collins finds the club well fortified behind the plate, with Charles Berry, Artie Russell, and Connolly ready to divide the honors.

Chick Hafey May Quit Baseball If Demand Not Met

BRADENTON, Fla., March 18. (AP) Chick Hafey's shrewdness today caused Manager Gabby Street to start a search for a capable left-fielder with a punch in his bat. Chick is demanding \$15,000 for 1931 which President Sam Bronckson says is too much.

Hafey's friends say he has a salary demand which is far from sane, and that he is in a position to enforce his demands or quit baseball. Right now Artie Russell appears to have the inside track for left field should Hafey fail to come into the club.

Radio Day by Day

NEW YORK, March 17. (AP) The new network made up of southern cities of the Columbia Broadcasting system, is to be started Monday, March 22, at Charlotte, N. C., as the key station for the group, plans have been made to provide entertainment in keeping with the policies of the network. Programs are originating in New York, and stations of Chicago will be available to the chain except when regular CBS programs are confined to northern or certain other stations at those times programs will come from Charlotte.

On the night of the first day's schedule, Senator Joseph R. Robinson of Arkansas is to deliver a new network in a five minute slot from Washington.

A description of the grand national fashion steeples have, is to be carried from Andrew Engle, head of a NBC network beginning on March 27. English steeples reports are expected to be heard and Clem McCarthy, NBC news announcer, who has gone to England, may deliver a brief summary of the event.

A program in observance of the 25th anniversary of the birth of Grover Cleveland is to be given under the auspices of the Grover Cleveland association, WREAP and others at 8 p. m. Speakers will include Harry Johnson, secretary of the association.

TO NEW PASTURES

SPORT SLANTS

The boys from Broadway were very much depressed this winter by the failure of Miami and its neighboring social colonies to become excited over the heavyweight festivals arranged in the interest of stimulating the trade.

The prospective customers manifested an extreme apathy indeed, with the result that the Walker-Risiko and Carnera-Maloney affairs showed an aggregate net deficit of nearly \$50,000. As the season has gone, this was very important money and discouraging to the artistic gentlemen seeking to uphold the arts and sciences of fist-cuffing.

Of course, the boys from Broadway made the big mistake themselves of trying to force two flat flowers to bloom where there was barely enough financial soil for one to break even.

It was a curious split-up. Frank J. Bruen, the race track executive, had Carnera's contract and refused all bids for it after his break with Madison Square Garden. He went ahead, despite all obstacles, with his own show, although with the aid of such well known Garden aides as Mike Jacobs, the ticket broker, and Frank Albertanti, the energetic publicity man. Meanwhile, with "Pa" Stribling ostensibly as front man, Garden interests backed the Walker-Risiko show.

It was all very confusing and the boys had no one but themselves to blame, after all, showing that credulity in this world of sport is not confined to the outlying precincts by any means.

Mickey Gets Boost
So far as the heavyweight situation is concerned, the Miami fights helped at least to boost Mickey Walker's stock, besides making Carnera safe for the big shot against the winner of the Stribling-Schmelzing championship races.

The merits of the decision in Carnera's favor over Jimmy Maloney are not highly important and the circumstances, if any, will be forgotten shortly. The main business of squaring accounts with the Boston Tri-State was accomplished with neatness and dispatch. The build-up, therefore, will be easier, especially as to speculation on good news known how much damage this "Yesman" Villa may be able to inflict, once he is sound again in the ring.

One Wants Sharkey
There may be a lot more maneuvering behind the scenes before the heavyweight program is definitely laid out for the year. Bill Carey, the New York Garden's chief executive, has not entirely abandoned hope of arranging at least one big shot for the outdoor campaign in the Yankee Stadium, featuring the form and outcast Jack Sharkey.

If Jack Dempsey could be persuaded to have another fling, the ballyhoo would be easy, but Dempsey's services come at a very high figure for these disturbing days.

Carnera has been sought earnestly by Carey but it would cost the Italian's managers \$2,000, as well as the championship shot, should they forsake the present lineup with Stribling and Schmelzing for a new deal with the Garden organization.

Spring football practice at Oklahoma is in the drive 75 candidates.

One athletic exhibition, featuring wrestling, attracted more customers at Amarillo than three grand opera programs.

CHAMPS HOLD FIRE, WINNING FEW GAMES

American League Has Margin Over Other Circuit; Indians Set Beat Pace of All Major Outfits

By HERBERT W. BAKER
Associated Press Sports Writer
NEW YORK, March 18. (AP)—The Philadelphia Athletics may be champions of the baseball world during the regular season but they're just "cousins" to other clubs now playing the Grapefruit circuit in Florida, California and other training camp states. There's a possibility Connie Mack and his titleholders prefer to hold their fire until it counts.

The champions have won only three games out of eight in the spring training exhibition program and the American league might well be in a bad way in its competition with the National were it not for the New York Yankees.

The Yankees have won six games out of seven with National league opponents and thus enable the American league to show a slight margin over the older circuit in games played so far. The actual count is nine victories for the American against seven for the National. The St. Louis Cardinals have helped the National's cause by whipping the Athletics three games out of four.

In games of all descriptions, whether against major or minor league opposition, the Cleveland Indians set the pace with five successive victories, all against New Orleans of the Southern association. The Pittsburgh Pirates have won three straight and the Boston Red Sox two in a row.

The Boston Braves, perennial champions of the Grapefruit league and down among the tail-enders in the regular season, have won only four games out of ten this year.

San Antonio Has Promising Recruit

SAN ANTONIO, March 18. (AP)—Cy Cottey, a tall right hander who makes his debut in the Texas league this year after a season in the Western league, arrived here from El Reno, Okla., last night, to begin spring training with the San Antonio Indians today.

Manager Claude Robertson's Indians will get into action for the first time this season next Saturday and Sunday against the Missouri Pacific team at Kingsville. Ted Blankenship and Cy Smith will exhibit their pitching wares for the Tribe. The Indians are still minus the services of outfielder Al "Monk" Edwards and infielders Larry Gallagher and Carl Boston.

Rockne Is Silent On Football Row

CHICAGO, March 18. (AP)—Talk of over-emphasis in football has made a silent majority of the one and only Knute Rockne today. When a reporter asked the famous Notre Dame coach in Chicago this week, he rushed up to find out the reason.

"I came up here to buy a football," Coach Rockne said today. "I'm going back to South Bend to show it to the boys later this week. I'm not going to speak above a whisper during spring practice lest I get accused of over-emphasis."

Two Smiles Adorn Camp of Pirates

OAKLAND, Calif., March 18. (AP) The biggest smiles were today among the Pittsburgh Pirates as they prepared to begin spring training with their new manager, Ben Baker, who can play the outfield and also do a little hitting, has been catching the eye of Manager Ebbets with his fine batting.

Baker is passing the cigars in honor of the newly arrived Benjamin Turpin Sankey Jr., down in "ol' Alabama."

KLEIN IS STUBBORN
WINTER HAVEN, Fla., March 18. (AP)—Chuck Klein has turned down three invitations to come to the Phillies training camp to confer with officials of the club concerning his salary. Pres. L. C. Ruch revealed today.

Such said Klein replied to the bid he would not leave his home until his demands are met.

YANK HITTING POWERFUL
ST. PETERSBURG, Fla., March 18. (AP)—Not even in the palmy days of "murderers row" have the New York Yankees shown so powerful a hitting punch as they're exhibiting this spring training season.

In their last six games, all of which they won, the Yanks have pounded out 83 hits, good for 54 runs. That's an average of nine hits and a fraction under 14 hits a game.

The new California boxing commission has ruled that main events must start before 10 o'clock at night and a 4 o'clock in afternoon events.

HAS COMPETITION
BILOXI, Miss., March 18. (AP) Wally Dashiell, who hopes to win himself a place on the Washington senator's staff as utility infielder, has one fly in his ointment. He may lose his place to Baxter Jordan, a much better hitter. Since the utility man will not be called upon for a tremendous amount of fielding, the job may yet go to Jordan.

Playing two seasons with a team of mediocre ratings, Troy Donnell has been high boxer of the Texas Intercollegiate cage loop.

Traveler Warner, cousin of Bill and Lloyd Warner, big league ball players, is an independent basketball star in Oklahoma.

ATHLETICS WITHOUT CAPABLE ROOKIES

FORT MYERS, Fla., March 18. (AP)—The Athletics, twice world champions, need to be stirred up, in the opinion of Capt. Eddie Collins and Manager Mack, to get into the National indoor tennis championships.

Excepting Hank McDonald, big pitcher obtained from the Coast league, there isn't a rookie in the camp who Mack thinks will help the A's this season. Recruits who make two stabs at a grounder and swing blindly at time pitching aren't kidding their boss.

"They don't impress me much," Mack said, "except, maybe, McDonald. The rest don't look like anything. Butcher may come along, possibly Cain, too. But if we get one prospect out of the 21 we will maintain the average."

REYNOLDS TRAINS AS HOLDOUT—HITS FINE FROM START

SAN ANTONIO, March 18. (AP)—Unlike most of the other members of the holdout colony, Carl Reynolds kept in training during his arguments for more pay with the White Sox.

Reynolds joined the White Sox squad two weeks late because of salary differences but has been hitting the ball hard from the first time he stepped up to the plate. In yesterday's game against the University of Texas he cranked out four hits in four trips to the plate and it was with the University of Texas team that he kept in training this spring.

FAYOR HIGHWAY BILL
AUSTIN, March 17. (AP)—Termed by Rep. Petch as a left handed slap at the highway bond issue, a bill by Rep. Stevenson of Junction to set up a sinking fund out of current revenue to assume outstanding bonds voted by counties for highway construction was voted out favorably tonight by the house committee on highways and motor traffic.

YOUNG SON KILLED
HOBBES, N. M., March 17. (AP)—The six year old son of George T. Harris, justice of the peace, was killed this afternoon when a stack of boards fell and pinned him down, as he was playing in a lumber yard. His skull was fractured.

The Los Angeles Athletic club basketball five won 20 straight games this season.

Thrilling Exhibition of Wrestling

Speed Is Expected Thursday Evening

Flashy skill of the kind that makes audiences stand up and yell is promised when Otis Clingman and Wildcat Pete meet on the mat Thursday evening.

Pete is a former wrestling instructor at the University of Oregon and is a graduate of that school. He is heavy and has a vast assortment of holds which can be applied in whirlwind fashion.

It is well known that Clingman is at his best when pushed to the limit. His tactics match those of his opponent, and anytime a good man is placed against him a thriller is assured.

In the semi-final will be Basanta Singh, Hindur, and Rob Roy.

About New York

NEW YORK—New York is called everybody's town. But it might well be termed a bachelor's city.

Bachelors, at least, get around more. A half-dozen names around come to mind—George Jean Nathan, Alexander Woolcott, Charles B. Dillingham, Charles Hanson Towne.

All know their New York. Some write about it, expressing affection for the city. Few of them were born in the pavements. Nathan, Dillingham, from Hartford, Conn., Woolcott from Phoenix, N. J., Towne from Louisville, Ky.

Townsmen Towne
Towne, magazine editor and poet, has even grown lyrical about the bigger town. His verse beginning, "What is your power, O City that blooms like a terrible flower?" is almost famous.

"I will come back again—because I must. The gasp of the grass may soothe my heart. But somehow of this city's grime and dust I am a part."

Those lines of his contain the real New Yorker's sentiment. Towne has just written a book, "This New York of Mine," a teadec narrative of his years on the avenue, teeming with celebrities, past and present. At the age of 11 he stood outside a stage door for a glimpse of Lily Langtry and he has peered eagerly behind the scenes of the theater, art and literature ever since.

Unlike most busy townfolk, he loves the telephone, and is never able to keep from answering when it rings. He also likes fan letters—he receives many—Dickens, delicatessen shops, old apartments, the walk across Brooklyn bridge, and people.

He hates crowds and night clubs and dislikes to throw away old things, like old shoes. He usually has about 20 hats hanging around his apartment. He never goes to cocktail or tea parties and is not a night owl.

He insists on punctuality. He dines out almost every night.

Diner's Out
He regrets the passing of New York's old charm when dandies walked up Fifth avenue on a Sunday afternoon to somebody's tea.

He is grateful for hostesses like Mary Hoyt Wiborg, a Cincinnati girl who came to New York several years ago... meeting Mrs. Cornelius Vanderbilt, Lucretia Bort and Marc Chagall in her candle-lit rooms... Ernest Schelling playing the piano at the Charles E. Mill-hell's with two oranges in his hands... Mrs. Graham Fair Vanderbilt's Christmas eve dances... and Conde Nast's penthouse parties.

Nor is the duty of such a party guest light.

Oliver Herford, he recalls, stopped going out years ago because a stupid hostess would invariably giggle: "Oh, do be funny, Mr. Herford! You're so amusing!"

Towne was once at dinner where a lady had placed a general on her right and a poet on her left.

"Do say one of your lovely little verses, Mr. L," she begged, when upon the poet answered, "And why, dear lady, don't you ask the general to fire off a cannon?"

SHIELDS AND BOROTRA ARE DOING WELL

New York Boy Loses But Five Games in Playing Three Opponents; French Star Drops Nine

NEW YORK, March 18. (AP)—Step by step, Jean Borotra, French sensation, and Francis Shields, New York youngster, moved toward a clash in the final round of singles of the National indoor tennis championships.

Shields and Borotra, along with Ferrine Rockefeller of New York, and Cliff Sutter of New Orleans, were in the fourth round today, a step ahead of the rest of the field.

Borotra had lost only nine games in turning back three successive rivals in straight sets. Shields' three opponents had succeeded in winning only five games all told.

Borotra meets the winner of a third round match between Frank Bonnett and Frank Bowden late today. Shields will not play his fourth round match until tomorrow when he will face either Pierre Landry of France or Herbert L. Bowman of New York.

This Fish Story Is Vouched For

LOS ANGELES, March 18. (AP)—Uncle Sam's guard vouches for this fish story.

J. D. Jeanes and his son, fishermen, said they hooked a 350-pound sea bass and, during the battle, the motor of their 46-foot boat became disabled. The bass started toward shore, towing the boat, and they hooked distress signals and a coast guard cutter answered. They bit into the fish.

YANK HITTING POWERFUL

ST. PETERSBURG, Fla., March 18. (AP)—Not even in the palmy days of "murderers row" have the New York Yankees shown so powerful a hitting punch as they're exhibiting this spring training season.

In their last six games, all of which they won, the Yanks have pounded out 83 hits, good for 54 runs. That's an average of nine hits and a fraction under 14 hits a game.

The new California boxing commission has ruled that main events must start before 10 o'clock at night and a 4 o'clock in afternoon events.

Southpaw Is Asked To Show His Pace

WICHITA FALLS, March 18. (AP) Plenty of hustle and spirit are shown in every corner of the Spidder, Bill Skoppor, Co. While fans have been forced to issue restraining orders to one player.

He is E. K. Martin, southpaw first baseman who learned his baseball ABC's at Texas A. and M. college. Martin reported in camp Saturday afternoon and has been placed in first base ever since. This morning Williams issued orders to the youngster to take regular rest periods or he would be worn to a frazzle before the training stage is half finished.

The second intra-squad game of the spring campaign was scheduled for this afternoon's workout.

MASCOT IS THRIVING
ST. PETERSBURG, Fla., March 18. (AP)—Manager Bill McKeon of the Boston Braves likes this training camp for many varied reasons. One is the effect the climate has on the tribe's mascot. Three years ago the latter was a chubby little fellow just big enough to wear one of Babe Ruth's cast-off uniforms. Now he fits George Blum's old uniform a bit too tight.

ONLY MAJOR CLUBS ARE TO BE BATTLED

Catcher Changes Side in Batting

PENSACOLA, Fla., March 18. (AP) Acting on advice of coaches, Eddie Connelly, Boston Red Sox catcher, has switched his batting activities from the right side of the plate, where he enjoyed but mediocre success last season, and is wrangling the ball with extreme gusto from the port side.

Connelly started in baseball as a natural left-handed hitter but changed over when some misguided adviser told him he would never make the grade as a big leaguer catcher if he did not "bat" right handed.

IMPROVES STICKWORK
SAN FRANCISCO, March 18. (AP) Baseball scouts predicted last fall that Marvin Owen, Pacific Coast league infielder, would be good on defense but a weak hitter among major leaguers. Owen is with the Detroit Tigers now, and not only is fielding up to standard but also has stepped out in front with brilliant stickwork.

Chicago Cubs Already Are Planning This Move for 1932—Fans Demand that Shows Be Good

LOS ANGELES, March 18. (AP)—To satisfy the demands of the customers, the Chicago Cubs will engage only major league clubs during spring training exhibitions next spring.

President William Veeck said arrangements would be made to play Pittsburgh, Detroit, and Cleveland during the 1931 training grind.

"The fans seem to want all major league shows and we've been in favor of that for several seasons," Veeck said. "After our stay at Catalina Island next spring, we'll come to Wrigley field here and meet nothing but major league clubs. If the American league will waive its rule against exhibitions between American league clubs, we will try to play a round robin among the four teams out here."

Cattlemen Urged To Obey Economic Laws In Industry

CORPUS CHRISTI, Texas, March 18. (AP)—A former Texas Panhandle cowboy who went to the market and became a national figure in livestock circles, returned to the heart of the cow country today to urge the Texas and Southwestern Cattle Raisers' association, in 35th annual convention here, to "shake off the shackles of economic slavery" by obeying the laws of economics.

Charles A. Ewing of Chicago, president of the National Livestock marketing association, told the ranchers the most basic need of the industry was for "stable markets at reasonably profitable prices."

"We have but one customer," he said, "and he is ready and willing to pay a good price for what he needs. But we cannot expect him to pay a good price for what he does not need."

"We must bring about better correlation of our supplies with market demands. Only by common effort could we obtain better conditions."

He cited instances to show increases in sheep, cattle and hog production had brought corresponding decreases in the price to a point where the lowest production actually brought the highest gross return. He said the policy of individualism of some cattlemen was the "law of the jungle and not law of cooperation and economics."

"The decade of 1921-31 was the darkest in our history," Ewing said. "We lost one-half the inventory value of our farms and ranches and our farm debt trebled. If at the beginning of this new decade we can go forward united, all our trials and tribulations of the past decade will not have been in vain."

Ewing, in his youth, punched cows on the old L. E. ranch in the Panhandle, a tract of 250,000 acres adjoining the famous X-T ranch.

Rev. Lancaster is heard by Rotary

In a classification talk before the Rotary club today, the Rev. C. E. Lancaster told of the qualifications, the variety of work, of the temptations and the rewards of pastoral life. He explained the many names by which pastors are known, many of them erroneously, and the specific meanings of each.

"The work of a pastor included many things other than his sermons. He must look after the spiritual welfare of his congregation, counsel with his members in their problems, lead them in the right directions, and keep himself at all times able to give assistance in worthwhile community projects."

A quartet composed of Tom Ross, Dan Gibbons, Roy Cornillon, and Deane Wiers, sang two numbers, and Harry Cornillon, Forrest Lindquist, and Ned Dille, gave short life histories of themselves. The program was in charge of Marshal Oden.

A number of Rotarians will attend an inter-city meeting of the Clarendon club Friday noon.

Markets Self Defense Is Plea at Lubbock Trial for Murder

NEW ORLEANS, March 18. (AP)—Cotton today had a steady opening. Cables were about as due and first trades here showed no change to one point gain. Although prices eased off a point right after the start, they soon improved on better support from trade buying and regular early today. Wheat reached to 11.54, or none to three points above the opening figure.

At the end of the first hour the market was quiet and steady at one point under the highs.

GRAINS IRREGULAR

CHICAGO, March 18. (AP)—Moist weather, bearish on wheat and bullish on corn, made grade prices irregular today. Wheat reached a new low price record for the season, but corn scored advances. Opening at 1-2 cent decline to 3-8 gain, wheat afterward held near the initial limits. Corn started unchanged to 1-4 up, and subsequently rose all around.

Veterans Loans Create Need For Gigantic Fund

WASHINGTON, March 18. (AP)—Demands of World War veterans for loans have thrust before the treasury the necessity of raising \$200,000,000 in less than a month.

Likewise, Director James of the veterans' bureau, believes that within a short time loan checks will be going out at the rate of 200,000 weekly, a sharp increase, as the new machinery limbers up with use.

Secretary Mellon announced yesterday a request by Veterans Administration, Hines for \$500,000,000 to cover payments on 1,372,066 applications received to March 15. It had been estimated \$300,000,000 would suffice, and 11-2 per cent treasury certificates were issued to get that sum.

Hines said, however, the half-billion would be needed by April 11. How the \$200,000,000 will be raised was not announced yesterday.

The veterans administrator also told Secretary Mellon \$1,000,000,000 would be required to pay all loans. He estimated 75 per cent of the \$500,000,000 adjusted compensation certificate holders would take advantage of the opportunity to borrow half the face value of their certificates.

Hines asserted \$200,000,000 would be required this week to meet loans and \$100,000,000 weekly for the next three. Since congress overrode the president's veto and increased the borrowing value of certificates, loans have been granted 282,874 veterans for sums totaling \$104,935,366. James disclosed that checks were issued much faster between March 7 and March 15 than in the preceding week, with a total of about 169,000 against 100,000. He expressed the belief 200,000 would go out weekly unless "the brakes are applied."

Bureau officials said 1,700,000 veterans had borrowed on their certificates under the former law, which allocated them 22.5 per cent.

Roosevelt Given Walker Charges

NEW YORK, March 18. (AP)—Charges against Mayor Walker seeking his removal from office were before Governor Roosevelt today.

The city affairs committee, represented by John Haynes Holmes, attorney, and Rabbi Stephen S. Wise, filed specific accusations of inefficiency and neglect with the governor last night. The governor planned to review them on his return to Albany.

While the full report was not revealed, newspapers said they were similar to charges lodged against District Attorney Thomas G. T. Crain by the city club. Under the city charter the governor may suspend the mayor 30 days pending an investigation.

Buster Brown To Be Here Saturday

Joe Lazarus, manager of the Pampa Broadway show store, has arranged for the return of Buster Brown to Pampa next Saturday. He will make a personal appearance with his pal "Tige" at the La Nora theater at 10 o'clock Saturday morning.

More than a thousand children visited the theater when Buster was here last November. Many children were unable to obtain seats before, so Mr. Lazarus arranged for the La Nora theater so that all the children can be admitted.

MENU For the FAMILY

BY SISTER MARY NTA Service Writer

Maybe "an apple a day keeps the doctor away," but by the same token, a salad a day keeps us youthful and gay.

Every salad is just that much clear gain on the vitamins side of the ledger. It's the fresh, uncooked vegetables that make the profit for health and everyone should have a good "balance on hand."

Too often salads are regarded as just a fussy extra and their merits as a valuable food are overlooked. Vegetables, fruit, fish and meat salads: all have their places in well chosen menus and supply necessary nutrients in an attractive fashion. The desirability of using as many uncooked vegetables and fruits in our menus as possible is constantly being urged, and salads provide a most satisfactory means to this end.

Undoubtedly there's a fine art in combining salad materials and often a clever and artistic person makes the salad a veritable picture. But every woman, no matter how busy she may be, can make her salad inviting and good to look at by following a few simple rules.

FIRST—Remember that a salad made of uncooked materials should be absolutely clean and free from any suspicion of sand. The "green" whether it be lettuce, endive, cress or some other plant, must be perfectly clean. Any salad garnish such as radishes and celery must be carefully washed and prepared.

SECOND—A salad must be crisp. The greens must be tender and dry. Water clinging to the leaves ruins any salad dressing and detracts from the flavor of the other materials.

THIRD—A salad must be cool. This is one of the reasons for a salad. The contrast in temperature with other foods tends to whet the appetite.

FOURTH—A salad should be neat.

Hoover Asked for Loan by Farmer

WASHINGTON, March 18. (AP)—A Kentucky farmer needing cash to make his next crop would like to borrow \$100 from President Hoover.

In a letter to the president he offered a lumber stand of 200 pine and poplar trees "and three times that amount in soil," as security so he can "make my family something to live on."

Furthermore, he wrote the president that "if you don't believe I have got the timber you can send my man, you want to come and count the trees." He added the loan would be a great accommodation to him and "will make you safe."

good with head lettuce and other variety. A lighter, less rich dressing is made by adding bits of cut fruit such as strawberries, pineapple, cherries or whatever is at hand to a well seasoned French dressing.

DAILY MENU

BREAKFAST—Oranges, oatmeal, cream, shirred eggs, toast, milk, coffee.

LUNCHEON—Fish chowder, crisp crackers, radishes and carrot, straw, rice and fig pudding, lemonade.

DINNER—Broiled club steak, baked Idaho potatoes, creamed vegetable oyster, head lettuce with Russian dressing, vanilla junket, ice cream, fudge, cake, milk, coffee.

Itself is a so-called "combination" salad, the materials should be cut in definite, uniform pieces.

FIFTH—The dressing must be suitable to the salad and the salad suitable to the meal. Elaborate salads with rich dressings are out of place in the dinner menu, but are often liked for luncheon where they fill a prominent place.

Most men will eat a lettuce salad with piquant dressing. Russian Thousand Island, Roquefort cheese and chiffonade dressings are all

Gas Service

(This is the first of a series of advertisements to give you true facts regarding the natural gas situation in Pampa. It is a responsibility that we owe you at this time to tell you about our business, which, in the final analysis, is also your business. We accept the responsibility gladly.)

If you will clip the advertisements as they appear from time to time, you will eventually have sufficient information to regard yourself as well posted on the natural gas business. It is our hope, thereby, that you will not be susceptible to erroneous statements that might jeopardize your future comfort and the welfare of Pampa.

Adequacy and dependability are the first requisites for good gas service—plenty of gas when you need it.

What would a few cents less per 1000 cu. ft. have meant to you last winter for instance, if there had not been plenty of gas at our burner tips during that bitterly cold weather?

To carry thru such an emergency successfully required plenty of gas coming from adequate wells and fields thru pipelines of capacities above anticipated needs, and at pressures more than sufficient to carry it to its god—your home, and above all, it required an experienced organization of men and women who are dedicated to your service.

The warmth and comfort of your homes last winter did not just happen so, but had been and is being provided for continually.
