PAMPA, GRAY COUNTY, TEXAS, FRIDAY, JUNE 17, 1927.

PRICE FIVE CENTS

Pampa Adds Two Policemen to Force

18 INDICTMENT BILLS FOUND

Attorney Is Asked To Require Depository Reports

Recommendations that officers make every effort to stamp out the "home brew" evil in Gray county, and that the county attorney remedy the negligence of the commissioners in not requiring the county depository to make proper reports and give bond, are major points in the final report of the grand jury, submitted this week to Judge N. P. Willis.

School trustees complained that funds due from the state are being withheld on account of the failure to submit certain reports.

General law enforcement conditions are said to be good.

The report:

To the Honorable Newton P. Willis, Judge of the 84th Judicial District Court of Gray County, Texas:

We, the Grand Jury of the 84th Judicial district court of Gray county, Texas, duly convened for the June term of said Court beg to submit to your honor the following final report:

We have returned eighteen true bills of indictment in felony cases to your court, among them being violation of the prohibition laws, forgery, robbery with fire arms, burglary, and other miscellaneous offenses of felony grade. In passing upon these matters, we have extended our best efforts to arrive at the true facts in each case, and at all times have strived to return bills of indictment where the evidence warranted same. It has not been our intention or desire to place the stigma of indictment against the record of any person unless, from the evidence presented to us, we conscientiously felt that the laws of this State had been violated.

At the time we were empaneled the Honorable Clint C. Small was presiding over your court and in his opening instruction to us he mentioned, among the many law violations that of the prohibition law, by it manufacturing, sale or possession of which is commonly known as "home brew". In every case of this connection presented to us, we have endeavored to cooperate with our officers in returning bills of indictment against law offenders of this line where, from the evidence presented, we believe a conviction could be had. Though we realize that it is more difficult to obtain convictions in these cases we especially suggest and recommend that our law enforcement officials use all lawful means and methods to stamp out this particular character of law violation.

We wish to comment and we heartily approve of the manner in which our sheriff, E. S. Graves, and his department has handled his office. We realize he has been exceedingly efficient and the good work he and his deputies have performed reveals to us the paramount reason for law enforcement in this county.

We find much complaint from school trustees of different districts.

See DEPOSITORY—Pg. 8, Col. 2.

Pampa Mutual Life Association Formed By Local Citizens

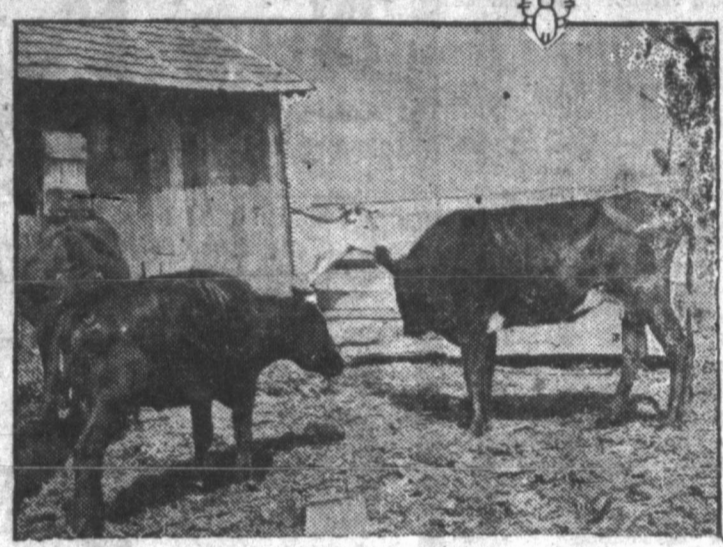

The Pampa Mutual Life association has been organized here, with W. A. Taylor as president.

Other officers are: vice-president, E. S. Graves; D. C. Moore, secretary-treasurer; and W. M. Moore, assistant secretary. Directors are DeLea Vickers, S. L. Anderson and C. McKnight.

The constitution and by-laws conform to the state laws of Texas governing local mutual associations. Bond has been arranged to cover all monies to be deposited.

According to D. C. Moore, the secretary, all deposits, as far as possible will be kept in local banks. He believes the organization will quickly become a community asset. It is locally financed and controlled, and intended to enable neighbors to help each other through cooperation. Low membership fees and death claims are features of the plan.

Better Cows Figure In Dairying Future

DR. C. W. LARSON

Top—Prize producers of Soldiers' Home herd, Washington, D. C. Lower Right—Typical scrub herd.

WASHINGTON, June 16. (AP)—Ask Dr. C. W. Larson, United States dairy chief, to picture a future for the dairy industry and he'll push across his desk this group of figures:

Four and a half million farms in America have dairy cattle.

The total number of cows approximates 30 million.

The annual farm value of dairy products is \$2,750,000,000.

Population in the United States, potential source of milk consumption increase, rise at the rate of 1,750,000 per year.

There are 837 active cow-testing associations in the United States, with an enrolled total of 360,000 cows, each producing an average of 6,500 pounds of milk annually.

"All of which means," says Dr. Larson, "that if every cow in the nation produced as much milk as the accredited cattle, the United States would not need even one additional dairy cow for a quarter of a century."

The conclusion is purely a scientific one, Dr. Larson explains, and is true in possibility rather than probability.

"As a matter of fact," he continues, "it's the number of individual owners and not the cows that is decreasing. The movement is toward a higher grade cow, and high production herds are, as a rule, increased."

"Dairying is the biggest American farm industry. The prime issue now is economy in production. The fact that the amount of milk a cow produces and its quality are the greatest factors in economy has led to the general development of better herds. Owners realize the overhead expense on a poor herd is as heavy as on a good herd. It takes as much time, labor and feed for a cow that produces only 4,500 pounds of milk a year as for one that produces twice that amount."

"While at times it may cost more to feed a high quality cow, true economy is in the increased production."

Dr. Larson calls attention to the work of cow-testing organizations. It has been found that the 300,000 accredited cows produce as much milk as 584,000 ordinary cows and as much financial profit as 640,000 average cows.

Better bred cows are the bulwark of the dairy industry, the dairy chief declares. And the purebred dairy sire seems to be the best solution of the dairy-breeding problem.

Proved bulls sire daughters that produce better than other dams. If five or more daughters of one bull record higher production than their dams, the sire is placed on the accredited list. In the whole nation there are now but 269 proved bulls. Where to find such sires and keep them until the production records of their daughters become available is one of the unsolved problems of the dairy world today, Dr. Larson says.

Hopkins Well Is Puzzle—Oil Goes High After Shot

Oil flowed 50 feet over the top of the derrick of the Riley-Heck No. 1 Mrs. J. M. Hopkins well, section 66, block B-2, this week, when a small shot was used to loosen the casing lost in the hole some weeks ago.

The company left six joints of casing in the hole and drilled around it. When about six feet from the bottom of the old casing, difficulty in drilling was encountered and the shot was used to loosen the obstacle. Oil commenced to flow as the result of the shot which was at 3,064 feet.

If the flow is great enough, it is the intention of the company to go no further at the present time, but if the flow is slight the well will be drilled deeper to prove that territory for further drilling operations.

This particular well has been the source of many disasters. Some difficulty was encountered during drilling, then the derrick burned down, and lastly the bradenhead parted and the entire length of casing was dropped into the hole and had all been removed with the exception of six lengths when the contractors decided to drill around it.

Hundreds Attend Formal Opening of Schneider Hotel

With more than 400 partaking of the bountiful dinner and offering congratulations, the new Schneider hotel was officially opened Saturday. Many were turned away for lack of facilities to provide for them in the limited time.

Last night every room in the hotel was taken. Hundreds of cars were parked about the big structure, and the porch and lobby and dining room scarcely could accommodate the crowds.

Mayor Reid commended the builders and operators for the wonderful expression of their faith in Pampa, and welcomed the many visitors.

Regular meals, family style, will be served hereafter and for the present the old building will be closed.

Accident Nearly Results As Cars Are Double-Parked

A serious accident was narrowly averted Tuesday when double-parked cars on Cuyler street obstructed the passage of the new fire truck, which was taking a corner at a good rate of speed.

The siren had blown in sufficient time for the cars to have taken the curb as the law provides—omitting mention of the ordinance against double parking.

The fire was at the Mason and Cohen tourist camp on the south side, and the siren sounded at about 11:15 a. m. The blaze was extinguished before the truck arrived, although the new machine, out on its third run, made a good start and fast time.

Choral Club Of 28 Voices Will Be Formed Here

A choral society will be formed in Pampa soon, and will consist of 28 voices. Mrs. W. A. Bratton and Mrs. R. R. Jones will take a leading part in the forming of the club, and Mrs. Bratton has been selected to be director.

Practices will commence soon. As a choir, the club will sing at the different churches in the city and at recitals.

Child Is Injured By Car Plunging Into Farm Yard

Driving down the road at a high rate of speed, turning quickly into a farm yard where a small boy was playing, backing away and dashing wildly toward Pampa two men left the five-year-old son of Roy Tinsley lying injured Friday.

The father followed the car into Pampa and obtained the license number of the car, which he said is 21-629. The machine was a new model Chevrolet coupe. Officers are seeking it.

Too much liquor is believed to have caused the reckless act. The child was badly bruised, but is recovering.

Theo Post, who underwent an operation at the Pampa Hospital several days ago, is able to be at home.

CITY COUNCIL TO SUPERVISE DEPARTMENT

Experienced Oklahomans Begin Work On Traffic

ANDREWS WON'T ACCEPT SALARY

Marshall Leaves Word With Mayor—Now At Meeting

Taking further steps to bring local law enforcement under the supervision of the city government, the council has employed two police officers answerable only to this body.

The new officers are J. E. Downs of Elk City, Okla., former Berger policeman, and H. C. Cottrell of Oklahoma City. Cottrell was an officer from 1904 to 1917, and is a brother of Bob Cottrell of Pampa.

The men are now on duty, and Cottrell today is directing traffic at the corner of Cuyler and Foster, where a "no U" turn" sign has been placed. Both went to work yesterday morning, and have the official city badges.

The officers are under the supervision of the council, and specifically Baker Sausbury, alderman in charge of the police department.

They will cooperate with the city marshal, but the police department is separate and apart from the marshal's office.

City Marshall John Andrews has been in the city's pay since last fall, drawing \$115 per month in addition to his fees. The council has now made the proposition of offering him \$165 per month, with the provision that all fees, except those on the pound, revert to the city treasury.

Mr. Andrews, who is away attending the state firemen's convention, left word with Mayor Reid that he is unwilling to accept the arrangement. Mr. Reid reported this statement to the council, which decided to await Mr. Andrews' return before taking action.

The city marshal, an elected officer, if he does not accept the city's proposition, will likely resume his status under the general law, retaining his legal fees but not getting a salary from the city.

He is expected to return late this week.

Cars Damaged In Crash Here

None was injured when a Buick sedan and the Vogue Tailor shop delivery truck crashed at the corner of Foster avenue and West street Thursday evening about 6:30.

The truck was being driven east on Foster avenue when the sedan, driven by a woman, turned off West street, east upon Foster avenue.

The Buick was not badly damaged, but the delivery wagon had both front wheels broken, front axle bent, right front side crushed in, and the lights and windshield broken.

Bargain Days Are Extended

With the big number of Daily News readers who are taking advantage of the bargain day subscription as the time limit nears, it is a description rates showing no decrease that an extension of the bargain period is advisable.

Until July 1, the following rates will be in effect:

Pampa Daily News, year by mail, \$3.

Pampa Daily News, year by carrier in Pampa, \$4.

Subscribe now while these big reductions are effective.

For those who desire the Pampa News, the weekly publication, a special price of \$1 for a year will be made up to July 1. The weekly contains all the local and community news, plus the Associated Press farm and home features—an unbeatable combination.

McLean Road Bond Election Set For July 16—Pampa Vote Will Be Near August 15 Following Hearing

Gray county commissioners Monday set July 16 as the date of the \$250,000 road bond election in the special district of which McLean is the center.

No protests to the formation of the district were heard, and it is said McLean people expect the issue to carry with little opposition. Bond buyers already are opening negotiations for the purchase of the paper.

Pampa's special road district election petition was heard, and the commissioners set 15 days for any objections to the district to be presented. At the end of that time a hearing will be held, and the election presumably will be called for 30 days after that date. This would make the vote come soon after the middle of August.

The McLean district has gone through the preliminaries, and awaits only the necessary legal publication. Two bridges on the North Fork and a small one over McLeellan creek are included in that district.

The county commissioners will sit as an equalization board June 23 and 24.

American Legion Auxiliary Is Being Formed In Pampa

An American Legion Auxiliary is being formed in the city and will be open to mothers, daughters, sisters and wives of men who saw service in the American army or navy.

During the organization of the club, Mrs. N. M. Wells will be in charge and when the required number of members has been enrolled the club intends to affiliate with the national organization and will then elect officers.

Mrs. Wells has had experience in forming a legion auxiliary and the one in Pampa is expected to have a large following.

New Locations For Pampa Field

C. E. and W. E. Pollard of Amarillo have made a location in section 119, block B-2, and the Majestic Oil company has another in section 93 of the same block—both to be interesting semi-wildcats in the Pampa field.

Three new locations also have been made on Alex Chapman's land in sections 7 and 70, block 25. The rig is going up for the test on the south half of section 70.

The Mid-West Exploration company is plugging 3 wells in Wheeler county, the numbers 2, 3 and 4 Laycock. They have fallen in production to a point where they will not be profitable to operate.

SOCIAL NEWS Phone 72 Mornings

Lee Harrah Marries Kirkland Girl

Lee Harrah, oldest son of Mr. and Mrs. W. W. Harrah, and Miss Irene Denson of Kirkland were married Wednesday at Dallas.

The ceremony was soon after Mrs. Harrah received her A. B. degree at the Southern Methodist university graduation exercises. She was accompanied by Irene Moore, and a cousin, Mrs. S. G. Oppredek. The ceremony was performed by the Rev. Robert E. Dickenson of S. M. U.

The couple arrived in Pampa last night. They will live on Frost street, where Mr. Harrah has purchased a home.

The bridegroom is well known in this vicinity, his parents being pioneer residents.

Party Enjoys A Fish Fry

Paul Sheppard, Roy Bourland and Ralph Gardner entertained a few friends with a fish fry at Master's cafe at noon Friday. The fish were caught by the hosts the night before, when they took a little trip to a near-by lake.

Those enjoying the hospitality of the "fishermen" were Miss Bernice Chapman, Mrs. M. A. Hiestaud, Mrs. Paul Sheppard, William Gould, Tom Simmons, C. L. Peyton, Edward Peters, A. D. McNamara, Paul Sheppard, Roy Bourland and Ralph Gardner.

May Federate Coterie Club

The Coterie club was organized at the home of Mrs. W. E. Cobb Thursday afternoon. After the business session, Mrs. A. B. McAfee gave very interesting and valuable information regarding federation of clubs, consequently members voted to send in application.

Hostess served dainty refreshments to 13 members and eight visitors. Club will meet June 23 with Mrs. R. S. McConnell.

Child Study Club Formed

Some of Pampa's leading club women met at the home of Mrs. E. E. Finley Friday afternoon to organize a Child Study club.

The meeting was arranged by Mrs. Terry of the Berle school of New York and the Berle's Self Culture books will be studied.

The officers elected are: president, Mrs. C. T. Hunkapillar; vice-president, Mrs. Harry Barnard; secretary, Mrs. S. A. Hurst; treasurer, Mrs. Joe M. Smith; membership chairman, Mrs. B. E. Finley; musical director, Mrs. A. H. Doucette; chairman of program committee, Mrs. Ivy Duncan.

Work will be resumed about September 1, and the club will meet on the first and second Fridays of each month.

The members are Mesdames Harry Barnard, C. M. Bryson, Archie Cole, Frank Davis, A. H. Doucette, Ivy Duncan, Guy Farrington, B. E. Finley, Marion Howard, C. T. Hunkapillar, S. A. Hurst, W. M. Lewright, R. S. McConnell, Floyd McConnell, L. C. McMurtry, W. M. Merten, J. E. Murfee Jr., W. S. Price, W. Purviance, T. E. Rose, Alex Schneider Jr., and Joe M. Smith.

Missionary Society Elects Officers

The Missionary society of the Christian church met Wednesday for a Bible lesson from John 14, 6. The leader was Mrs. Hugh Ibbell and the hostesses were Mrs. Lee Ledrick and Mrs. Stander.

The following officers were elected: president, Mrs. V. E. Fatheree; vice-president, Mrs. Lee Ledrick; secretary, Mrs. Hickman; treasurer, Mrs. James Todd Jr.; librarian, Mrs. C. L. Thompson; reporter, Mrs. Roy T. Wilson.

All members are asked to remember the next meeting, to be held July 6 at 2:30 p. m.

CHRISTIAN ENDEAVOR DELEGATE RETURNS

Miss Ratha Lester returned yesterday from a week spent in Fort Worth where she had gone as a delegate to the state Christian Endeavor convention.

She reports a very pleasant and profitable meeting. The Panhandle district won more banners than any other in the state.

The next state convention will be held in Amarillo.

Mrs. McSkimming To Teach Music

Mrs. Forest McSkimming will open a music class here Tuesday in connection with the Meyers School of Music of Amarillo, and will have a class one a week and private lessons the remainder of the week.

Tuesday afternoon Mrs. McSkimming with Mr. and Mrs. C. E. Young of the Arts Progressive society of St. Louis who are also with the Meyers School of Music, gave a recital at the High School for the parents to see and know of what the work consists. That evening Mr. and Mrs. Young gave a talk on musical education.

Mrs. McSkimming was Miss Nina Clift before her marriage two months ago and is well known here among music lovers. She is pianist for the Presbyterian church and before coming here taught for three years in Augusta, Kans., and was connected with the Three Arts conservatory in Wichita, Kans., from which she was graduated.

El Progreso Discusses Work

El Progreso club met Tuesday afternoon at the home of Mrs. Lee Ledrick for the closing meeting of the present season.

There was no study program, and the entire afternoon was given over to a discussion of various details of Club business.

At the close of the session the hostess, assisted by her daughter, Mrs. Frank Shriver, served dainty refreshments to the following members: Mesdames Andrews, Hobart, Claude Ledrick, McMurtry, Pope, Walstad and Woodward.

Brown-Stafford Wedding Announced

Miss Jessie Brown and H. C. Stafford, both of Pampa, were married June 16, and spent their honeymoon in Oklahoma City.

Mrs. Stafford is the daughter of Mr. and Mrs. Wilson Brown of Pampa. Mr. Stafford is connected with the Wilcox Oil and Gas company.

The couple will make their home at the Wilcox camp.

Amusu Club Has Husbands At Adams

The Amusu club entertained the husbands of the club with a five-course dinner at the Adams Coffee shop Tuesday evening, and bridge was played later.

During the dinner hour music was furnished by Bob Perry, pianist, and Le Roy Harlee, whistler. This came as a surprise to the club from F. L. Robinson, and was thoroughly enjoyed.

Mrs. W. M. Craven welcomed the husbands in behalf of the ladies and W. M. Lewright responded in behalf of the husbands.

Those enjoying the occasion were: Messrs. and Mesdames Morris Finney, Joe M. Smith, W. A. Bratton, Neal McCullough, W. L. Woodward, W. M. Craven, C. Kingsberry, C. T. Hunkapillar, L. C. McMurtry, W. W. Merten, Siler Faulkner, A. H. Doucette, W. M. Lewright, Alex Schneider, Jr., Lester Chiles of Fort Smith, Ark., Miss Marguerite McDonald of Fort Smith, Ark., and Mrs. George Walstad.

L. G. and F. L. Robinson were given a rising vote of thanks for the excellent service and music rendered during the evening.

Akers-Dean Wedding Announced

Miss Florence Akers and S. J. Dean were married here at 6 o'clock Thursday afternoon by the Rev. Tom W. Brabham, pastor of the First Methodist church.

Miss Akers, who formerly lived in Lubbock, was accompanied by Mrs. Roy J. Gillispie.

Mr. Dean formerly lived in Anita Falls.

The couple will make their home here.

Methodist Society Studies Voice

The Methodist Missionary society met Wednesday afternoon at the church with fifteen members present. One new member was enrolled. Mrs. W. Purviance was the leader of the voice lesson. The next meeting will be next Wednesday with a social in the form of a kitchen shower with Mrs. J. E. Ward as hostess.

Miss Eloise Van Kirk is in Amarillo visiting friends.

Drew Heads Crew

FREDERICK DREW

ITACA, N. Y., June 16. (AP)—The Cornell crew leader this season has the distinction of being the tallest oarsman in the boat, with the longest name—Frederick Albert Charles Drew II, and of having served under three coaches during his four years in the Red and White shells.

Drew is six feet four and weighs 178 pounds. He is 22 years old and was born in California. Last year he was No. 3 in Cornell's starboard stroked varsity. This year he rows No. 2.

Mrs. W. A. Adams Is Hostess

Mrs. W. A. Adams made a charming hostess when she entertained with a 1 o'clock bridge luncheon at the Adams Coffee shop Tuesday, honoring Miss Marguerite McDonald and Mrs. Lester Chiles of Ft. Smith, Ark., the house guests of Mrs. Morris Finney.

Mrs. Robert Gilchrist won the high score prize, which was a lovely embroidered guest towel, and Miss McDonald was presented with a beautiful embroidered towel as guest prize while Mrs. Chiles received a lovely leather telephone book. Miss Beiman was awarded consolation prize, a hand-painted powder puff.

A most enjoyable luncheon, consisting of fruit cocktail, cream of tomato soup, fried chicken, whipped potatoes, English peas, hot rolls, salad, sherbet, and coffee, was served to the following guests: Miss Marguerite McDonald, Miss Beiman of Wichita Falls, and Mesdames Morris Finney, Lester Chiles, Arthur Holloway, Robert Gilchrist, Jack Gatton, James Ensign, Don Davis, Charles Going, and the hostess, W. A. Adams.

Jack Walstad Entertains

Jack Walstad celebrated his ninth birthday by entertaining a few of his playmates with a party at his home Wednesday afternoon.

Games of various kinds were played, and at a late hour in the afternoon cakes decorated with animals, punch and sandwiches were served to Floradee and Warren Finley, Tom and Rex Rose, Mickey Ledrick, Loney Lyons, Chester and Harriett Hunkapillar, Jeanice Purviance, Wayne Winkler, Sonny, Cook, Jeanette Cole, Carolyn Kingsberry, Glen Twiford, Poppy Reynolds, Louise Walstad, Jack Walstad, Francis Finley and Virginia Rose.

Women's Auxiliary To Raise Funds

The Women's Auxiliary of the Presbyterian church met Wednesday afternoon with Mrs. J. M. McDonald at the Walberg apartments. Mrs. W. W. Merten presided.

The ladies voted to take a dollar, which they will turn as many times as they can for a month. This method of raising money is for all the ladies of the church, as well as the Auxiliary. The program on Porto Rico and Spain was led by Mrs. Horace Oakley.

At the close of the meeting enjoyable refreshments were served.

Mrs. J. Ely, who has been visiting Mr. and Mrs. George Walstad, has returned to her home in Graham.

Miss Deaton, one of the head nurses of the Pampa Hospital is somewhat improved, after several days of serious illness.

Mr. and Mrs. W. P. Masters are expected home today from Colorado Springs, where they have been enjoying a vacation.

Miss Bonnie Jo Pool of Dallas will arrive Sunday to spend two weeks with her parents, Mr. and Mrs. C. T. Pool.

Some of the young girls of the city will meet at the home of Miss Francis Finley this afternoon to organize a junior club.

**DRY SPRING MEANS
LITTLE TO A HOG**

Parts of the Panhandle will make 6 to 8 bushels of wheat to the acre on two inches of rain from the time of planting — a remarkable example of Plains fertility, but not an argument for the one-crop system.

Dry springs determine a wheat crop, but they mean little in terms of diversified methods. The hog, chicken and cow, for which feed may be raised for use at any time of the year, are sources of frequent cash profits, regardless of the rainfall.

It is a poor year, indeed, in the Panhandle when a good feed crop cannot be raised. Panhandle soil is very fertile, but it can be abused or misapplied. Like many other sections, this one is destined to undergo wide changes in the next decade, with many betterments.

The principal trouble with agriculture in Texas has been that it was built upon a faulty foundation. There were three corners to the structure; one of these was built on cotton, one on wheat, and the other on beef cattle. Cattle crashed a few years ago and the industry is just now beating back to stability. Cotton has gotten into a situation that amounts almost to a national crisis. Wheat has its good and bad years, which make up a rather poor average in this section.

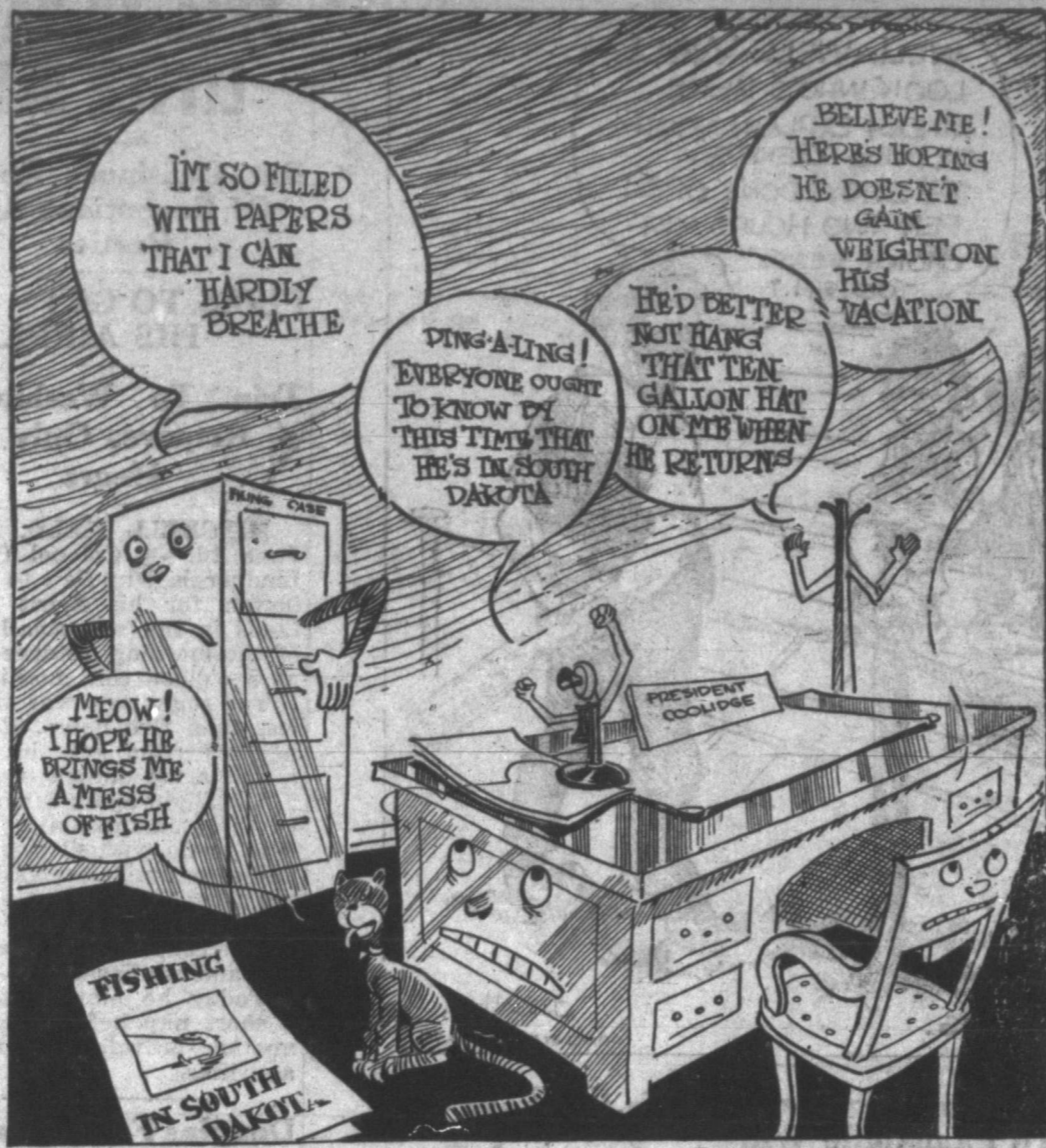

A good agricultural structure would appear to be one with livestock as one corner, and the dairy cow the principal figure; with poultry the second; with fruit and vegetables being given more recognition; and better farming and economic methods the last corner of the platform.

Of the 500,000 farms in Texas, 200,000 do not have a good milch cow. The whole state has little more than a million cows, and half of these are "boarders" — not paying for their upkeep. Thirty per cent of the cows are unprofitable because of mismanagement. This is a serious matter, for the cow is the most important single factor in good agriculture.

A husband-calling contest was the feature of an Iowa fair recently. We thought from the headline that there had been some trouble somewhere over a bridge game. — McAlester News-Capital.

Farmers who have streams running through their property and who cultivate their land to the water's edge, frequently find the banks eroding and valuable soil washing away during high water periods. A fringe of trees and vegetable growth along such streams will help materially in keeping the banks intact.

Lonesome Days At The White House

WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer.

WASHINGTON. — Senator J. Boonboom McWhorter is sorely miffed over the failure of the cigaret companies to approach him for permission to use his name and comment in their ads.

Not that Senator McWhorter is a grasping person, you understand. The money the cigaret people might pay him means nothing to him. Nor is the senator so anxious to get his topography into the newspapers that he must sink to such means as that.

But it is just a bit humiliating to see the pictures of other senators in the papers, alongside their assertions that Mucky Bites cigarets help them in public speaking and that they are bringing up their families on Mucky Bites.

Just as soon as he saw the first of these ads, Senator McWhorter dictated an elaborate encomium to these cigarets and had it all ready to send upon request. But although such senators as Wadsworth, Curtis and Watson made their bows to the public and contributed each his praise to this brand, there was no call for McWhorter.

The culminating blow came when a cigaret ad appeared quoting "Senator" Ralph Cameron of Arizona, who is no longer a senator. Surely the tobacco trust had no idea what an enthusiastic and loyal customer it had in McWhorter.

"Why, I might even have given the \$1,000 to charity," said Senator McWhorter to your correspondent, with what sounded suspiciously like a snaffle.

Your correspondent held the senator's hand, patted him on the shoulder and asked if he couldn't read the tribute to the senator's favorite cigaret.

"Yes," replied McWhorter, reaching toward his desk, "I'll read it to you."

And the senator began: "When I was but a lad, I had a helluva time learning to smoke. From the age of three to the age of nine years and seven months, life was constant agony for me through stomach sickness brought on by trying to join the other boys and girls in this diversion and through the shame of my weakness. The other children would laugh heartily at me and finally I was too embarrassed to join them in their play.

"Then, one glorious day, I discovered Mucky Bites. From that day to this a cigaret has never made me ill, but I shudder to contemplate what might happen were I to try another brand.

"Every night I retire with a package under my pillow. Supreme happiness for my children is to have their daddy return home from a trip with a cartoon of Mucky Bites."

TWINKLES

Kimes' receptions may not be as cordial, but he still gets on the front pages, nearly as consistently as Lindbergh.

Over in Germany you can charter a special train for \$25; in this country you can just about pay for a flivver for an outing at that price.

The French are using air ambulances, which probably kill or cure in some cases.

The oldtime serenaders would not have a chance in competing with the auto horn for ladies' favor.

Reformers have changed the world so that now there is mighty little that we want to do that we can do," says Clarence Darrow. "The only valuable thing one can possess is a sense of humor." Well, if they'll leave us in peace with that, we can afford to let them have the rest. — Muskogee Times-Democrat.

PRESS FORUM

From the Newark News: Mrs. Edward W. Bok's munificent gift of \$12,500,000 to endow the Curtis Musical Institute in Philadelphia and the gifts of Thomas D. Jones, and his niece, Miss Gwethalyn Jones, of Chicago for scientific research at Princeton do more than reflect the whim of these benefactors. They show the readiness of men and women of wealth to provide the facilities to satisfy a demand. Mrs. Bok's gift is not the only indication of a musical awakening throughout the

country. There are signs of it from coast to coast. To appreciate it no more is needed than to recall what music we had in this country 50 or 25 year ago, or even less. The radio is given credit for a good deal of the increased appreciation, and some of the credit is due to this instrument, which has carried good music into hundreds of thousands of homes. But the change had set in long before the coming of the radio and there are other explanations, including the contribution that has been made to our cultural life by the continental people migrating here from a more musical atmosphere.

The spirit of scientific research has appeared almost spontaneously in Princeton and other colleges, and that, too, is an evident reflection of a nationwide interest in pure science. The General Education Board recognized it by a

gift of \$1,000,000 to Princeton contingent upon the raising of \$2,000,000 more, of which the Jones gifts are a part.

Although music and science research seem miles apart, the quest for truth and appreciation aid taste, intelligence and general culture of the American people.

A New Jersey woman had her husband arrested because he held out 50 cents of his pay. A capital offense. — Frederick Leader.

The man who places his mark in life as the dollar mark most often obtains only a vaccination mark. — El Reno Democrat.

BROWNEVILLE (AP)—Because of the recent increasing demand for frog's legs citizens of the Valley are planning on opening big bull frog farms.

Enforced Thrift — of A Kind

By TAYLOR

Economy Necessary To Aid Flood Work, Warns Coolidge

(By The Associated Press.)

WASHINGTON, June 16.—While declaring that the administration is serving as always to pave the way for further lowering of the public debt and of taxes, President Coolidge warned that hope of further tax reduction was futile unless federal expenditures were held approximately to their present level.

Speaking before the semi-annual budget meeting of heads of government departments, the President said that a surplus of \$599,000,000 was certain for the present fiscal year ending June 30, and estimated that the surplus for next year would reach \$338,000,000.

As a guide to the future, he said, however, that this year's surplus was of doubtful value, because it included a number of extraordinary receipts that could not be counted on for more than a limited period. He cited among these extraordinary items—delayed income tax payments, railroad receipts, the capital stock tax and collections from farm loan bonds.

"In considering the possibility of tax reduction," he said, "we must keep in mind that our revenue laws cannot be written from the standpoint of a single year, but must be expected to yield adequate revenue over a period of years. It is essential therefore to discount temporary and non-recurring items and to base the estimated revenue on those resources which can be looked upon as essentially permanent in character."

"We have no fear our present revenue laws will not produce ample income to carry on the business of the government. But this does not justify an enlargement of our expenditure program. Rather does it dictate and demand that we make renewed effort to keep within our present expenditures. One thing is certain. Unless we succeed in holding expenditures at about their present level, hope of further tax reduction will be gone."

"In the face of each of the three reductions in taxes since the fiscal year 1921 we have continued to accumulate surpluses at the end of each year. We should not overlook, however, the great influence these surpluses have had in making tax reduction possible. Their application to the further reduction of the public debt has permanently reduced our interest charges. It has been an investment for the people of their own money. It is the business of government, as in private business, the time to liquidate indebtedness is in the time of prosperity. The reduction of fixed charges serves a two-fold purpose. It materially assists in maintaining prosperity and would be particularly helpful in adversity."

Discussing the benefits of the budget system the President said that "elimination of non-essentials and direct savings have about reached their limit."

Referring to the Mississippi Valley flood, Mr. Coolidge said that "all that possibly can be done to alleviate distress and suffering is being done."

"As it develops that additional funds are required for this purpose I am confident they will be provided," he declared. "Control measures that were considered by all as ample to full protection have proven inadequate. Such a disaster must never happen again. A survey is now being made to determine what it needed. That survey will be laid before the Congress."

"From a business standpoint we must anticipate from this disaster a reduction in our prospective revenue and an increase in our prospective expenditures. I am confident this will be an added incentive to effect savings elsewhere."

TURKISH GIRLS WOULD SAVE OLD CALLIGRAPHY

CONSTANTINOPLE (AP)—Turkish women are trying to revive calligraphy, the purest form of Turkish art, and within the last two years the Stamboul School of Calligraphy has admitted five Turkish girl students.

Moslem women calligraphists have been rare. The only famous one until modern days lived in the time of Haroun-al-Raschid and wrote and embellished 15 Korans with her own hand.

Derle Hanoum, one of the pioneer five, has adapted Turkish writing to designs for embroidery, thus creating a new commercial value for calligraphy and opening up a new field to her countrywomen who must earn a living. She is a clerk in a government office and attends school after office hours.

BUTTERFLY HORDE

BROWNSVILLE (AP)—Great hordes of butterflies, mottled brown in color, producers of the cotton leaf worm, recently swarmed the highways and all parts of the Valley after a hard rain.

On Ocean Trail

Captain E. L. Janney, Canadian flying ace, will follow Lindbergh's transatlantic air trail. The flyer will leave Ottawa June 30 on a 3,000-mile non-stop flight to London. The stunt is part of Canada's jubilee celebration, the flyer planning to be in London July 1, Dominion Day, marking the 60th anniversary of the Dominion treaty with England.

"INSIDE" INFORMATION

Under ordinary use a floor needs re-waxing only two or three times a year. Applying too much wax is a common mistake. Oil never should be used on a wax floor as it softens the wax.

The secret of juicy fruit pies with a crisp undercrust lies in prebaking the undercrust until it is delicately browned before putting in the fruit, thickening the fruit mixture slightly with flour or cornstarch, and having the fruit mixture hot when it is poured into the prebaked crust.

Ginghams come in so many attractive patterns that there is a wide variety to choose from, from the plainer, thicker kinds for aprons or morning house dresses, to the thin, dainty tissue ginghams for afternoon dresses. Plain ginghams are coming back in many pleasing designs.

Don't leave any cereals about when closing the house for summer vacations. Weevil will breed in them, and will migrate from one cereal food to another, and get in the crevices of cupboard shelves and various receptacles so that it is hard to get rid of them. Buy in small quantities just before going away and leave all cereal containers empty and get rid of all cartons in which cereals were bought.

Dress the children this summer so that they will get the full value of the sunshine. Short sleeves, or no sleeves, low necks, and half hose or no hose, and few other garments will assure the beneficial effect of the sun's rays.

To make some unusual cookies, roll out the dough very thin, cut out round cookies and then on half of them make three holes with a thimble, arranged like a clover leaf. When the cookies are baked spread the plain ones with jelly and put the others on top so the jelly shows through.

To make old-fashioned creamy rice pudding put a tablespoon of washed rice in a baking dish with 1 quart of milk, 1/3 cup of sugar, 1/8 teaspoon of nutmeg or cinnamon and 1/2 teaspoon salt. Cook very slowly in the oven for 2 or three hours, stirring often. A cup of raisins may be added.

Bus Lines Battle, Patrons Ride Cheap

(By The Associated Press.)

CHICAGO, June 16.—Price wars have made travel cheap for thousands of motor coach line patrons in the middle west.

Bus lines from Chicago and Detroit have become so numerous that many have resorted to rate-slashing in which fares have fallen to \$2.50 for the Detroit-Chicago trip—less than a cent per mile for the 10-hour journey and only a quarter of the rail fare.

Long haul rates have been cut proportionately, with bus travel between Chicago and Los Angeles as low as \$35. Competition for Detroit-Toledo travel reduced the \$1.50 rate for a one-way trip finally to 45 cents.

Officials regard price-cutting as temporary, and some say profit can be made even at the low rates if buses are filled to capacity of about 25 persons. Regulatory laws add to the expense, however, an example being a Michigan rule requiring each bus to have two licensed drivers on duty at the same time.

MAKE BOTH BRICKS AND BRICKLAYERS IN PRISON

LANSING, Kans., June 16. (AP)—When Warden W. H. Mackey of the Kansas state penitentiary here decides to build a new building all he needs is the ground to put it on.

The new "C" cell house at the institution, a modern, well-lighted, five tier building, was erected by bricklayers who were "made" on the grounds, the bricks were manufactured in the prison kilns and most of the lumber was sawed and trimmed by the convicts. The building, finished, cost only \$95,000 and most of that sum was spent for plumbing fixtures, steel doors and a modern cell locking system.

The J. & J. Vaudeville company is scheduled to play at the Crescent theatre Thursday and Friday. The company includes an acrobat and comedian, as well as musicians. The program consists of several native Hawaiian selections on the steel guitar, singing, and acrobatic stunts.

Inaugural Dress

NASHVILLE, Tenn., June 15. (AP)—The elaborate gown of pale rose, brocaded satin worn by Mrs. James K. Polk at the inaugural ball in honor of her husband in 1845 is preserved in the Tennessee War Memorial building here.

The dress, on a wax figure and encased within glass, is the center of feminine attraction. An old family clock and other White House relics of the Polk days are in the section of the building devoted to the Polk Museum.

Milling and baking investigations are being made by the Federal Bureau of Agricultural Economics with a view to the development and production of superior wheat.

New Prices For Panhandle Crude Oil Expected Soon

The Panhandle field has passed the low point of depression in crude oil prices and field operations, and is definitely on the upgrade, in the opinion of Paul Hedrick, oil writer of the Amarillo News, who was in Pampa while making a tour of the field early this week.

While he expects crude prices to rise gradually, the posting of a new schedule for the Panhandle area is looked for soon. Although storage facilities and pipelines are overtaxed at this time, the field shows stability and wildcat operations are going forward unchecked.

Mr. Hedrick believes overproduction is limited to a few fields, of which Seminole is the chief offender, but that this situation is already correcting itself as the demand meets the production. Less oil than usual is being run to storage over the country.

The oil scribe is much interested in the Morton well in northeastern

Moore county, which is regarded as an extension of the Panhandle horizon. This test is making about 100 barrels a day in three headflows from a total depth of 3,379 feet. It has been deepened twice. Storage is being erected for a thorough test of the well's possibilities. Two 250-barrel tanks are full.

Dumas, county seat of Moore county, has a population of 250 persons and modern facilities; but is expecting the oil strike to bring a rapid growth. Oil leases are selling high and townsite developments are under way.

AFRAID OF HUSBAND

BEAUMONT (AP)—A Negro woman afraid to go home because of an irate husband called police and requested them to get her trunk for her. They did. They also moved the trunk to the woman's new address.

ANIMALS SLAUGHTERED

HOUSTON (AP)—More than 600 dogs and 236 stray cats have been killed in Houston during a rabies scare. Twenty-three dogs showed symptoms of rabies and one rabbit also was mad.

Empire's Huge Pipeline System

The above map shows the Pampa terminus of the Empire Gas and Fuel company's huge pipeline system, on which nearly \$20,000,000 is being expended this year. The Empire Companies Natural Gas division and affiliated companies are engaged in a program of main pipe line extensions and the connection of vast production areas in central Oklahoma and the Texas Panhandle with their Kansas, Missouri and Oklahoma markets. A total of \$5,000,000 will have been spent in the 1926-27 biennium on the enlargement of pipeline and compressor facilities on the exist-

ing main lines, the extension into (1) the Davenport-Lindley-Dewey fields, (2) the Drumright-Cleveland "loop," (3) the enlargement of the Petrolia compressor station at Chautau, on the Kansas City twin-16-inch line, (4) building Craig compressor station, near Kansas City, (5) the Otstot compressor near Blackwell, (6) the Bristow compressor, (7) the extension into the Seminole, Beardon and Earlsboro fields, (8) enlargement of the Talant compressor station near Bernsdall, Okla., the building of the (9) Winfield compressor and (10) the Eastman compressor.

These improvements together with the previously announced construction of the big 20-inch line from Pampa costing approximately \$15,000,000, constitute one of the largest gas extension programs ever attempted in the history of the business by any one company. It will practically double the carrying capacity of the Empire's main gas lines which now deliver an average of better than 100 million cubic feet of gas daily throughout the year, and will open markets for gas production over large areas which heretofore had no outlet of any consequence.

PRESIDENT NOW AT NEW HOME

Will Live In Hills Of South Dakota Two Months

RAPID CITY, S. D., June 16.—Far from centers of population, President Coolidge turned to new life today in the Black Hills of South Dakota, where pine covered mountains full of wild, game almost hedged him from the outside world. In the center of 36-square miles of forest he has set up his summer White House in the state game lodge, where for the next two months he will live in the region skirting the great farming regions of the northwest. The president rested today from his two-day journey from Washington and acclimated himself to his new surroundings. He first tried his luck in a mountain stream filled with trout and was equipped with hip boots, rod and reel.

RAPID CITY, S. D., June 16. (AP)—Scores of granite pinnacles which rise in grotesque formations along the Needles highway in the Black Hills are waiting for names.

Around and between these Needles and through tunnels, the Needles road in the state park winds northwest from the game lodge, where President Coolidge will make his summer home, to Sylvan Lake, 20 miles northwest of the lodge.

And if the President and Mrs. Coolidge care to name a few of the strange rock shapes during their summer sojourn, South Dakota will be glad to have them do it.

The Needles were once huge granite slabs, left standing on their sides by nature's upheaval in the Black Hills. Parts of the rock softer than others yielded to wind and frost, and centuries of erosion have left a vast wilderness of the stone columns, hewn by the elements into every conceivable shape.

Only a few of the more notable structures have been named. Some of these are the Needle's Eye, where time has pierced a hole through one of the columns; the Traffic Cop; the Mitten and the Guardian of the Pools. Balanced rocks and "stone faces" abound.

Strangler Escapes, But Is Recaptured

WINNIPEG, Man., June 16.—The man who escaped from the Killarney jail last night, 15 minutes after being lodged in a double-locked cell on suspicion of being the "Gorilla Man," slayer of a score of women and children in the United States and Canada was re-captured today by a posse of citizens and police.

Chief of Detectives George Smith of Winnipeg declared he was certain that the prisoner was the man who strangled to death Mrs. Emily Patterson, 27, and Lova Cowan, 14, here several days ago.

Three Hijackers Get \$20 From Dixie Service Station Friday

"Give me that money in your hip pocket!" was the demand of a hijacker, Friday night about 11 o'clock to Arbie Miller, who with his brother, Earle, operates the Dixie service station on West Foster avenue. Miller had just taken the money from the cash register, placed it in his pocket and climbed into his car to go home when a car containing three men drove into the station. They turned off the lights of their car and two of the men got out and walked over to Miller's car. Then one drew a pistol and turned a flashlight on him. The men took the tire patch can containing the money and sorted about \$20 in bills from the checks, which they returned to the owner.

with the pistol still covering Miller, the men got into their car and drove toward Amarillo. In the excitement, Miller did not notice the make of the car, but said it was a high powered coupe or roadster. The man who held the gun was tall and slim and his confederate was short and stout. Miller could not see the third man nor the car on account of the rays from the flashlight, which blinded him for a minute after the car had driven away. Officers of the sheriff's department were soon on the scene, but no trace of the bandits could be found. The officers believe the men had their car parked across from the service station and had watched young Miller count the cash.

NEW BAKERY OPENS

ON W. FOSTER AVENUE Offering a dough-bake bread which is claimed to be the whitest on the market in this section of the country and a full line of bakery products, the Lewis and Burrow Bakery, West Foster avenue, opened for business Saturday.

Ike Lewis, formerly in the cafe and hotel business on the South Side and a member of the city council, and Fred Burrow, who has been with the Wright and Burrow bakery until recently, are associated in the operation of the new bakery.

The most modern and up-to-date equipment has been installed and all forms of French pastry and baking products are being made. The new bakery has two trucks making deliveries in Pampa and will add two more soon.

LATEST FISH STORY IS REAL GOOD ONE

Hamp Brown, sport extraordinary, has released this one for publication and swears it to be true. It is a fish story, but Hamp is some fisherman as all his friends know.

Accompanied by some friends, he went on a fishing trip through Kansas and reports a great time. The feature of the trip was the catching of a six-pound trout on the last day out. The party also caught several three- and four-pound native trout which made a regular banquet for the party.

Several fishermen around town would like to know the spot where fish that size can be caught, and intend making the fisherman tell them the location.

W. Ellington Dies Here After A Long Illness

J. W. Ellington, 47 years old, who had been ill several months, died Monday morning at his home here.

Mr. Ellington had been a resident of Pampa for more than a year, coming here from Gilmore, Texas. Besides his wife, he leaves four children; two boys, T. C. and W. J. Ellington, and two girls, Leona and Annie.

His parents, Mr. and Mrs. W. M. Ellington live at Gilmore, and four brothers, Douglas at Oklahoma City, E. A. at Borger, S. L. at Fort Worth, and Pascal of Gilmore, survive him. Funeral arrangements will be made when word from his parents is received.

SHOUSE IS GRATEFUL

W. S. (Shorty) Shouse is able to be up and is very grateful to local people for the help they gave him during his recent illness.

He was given hospital care and other aid for himself and two small sons.

Have you read the classified ads?

Judge Clements Of Plainview Is Now At LeFors

Charles Clements, district judge of the 64th judicial district at Plainview, is presiding as judge at LeFors this week in an exchange of benches with Judge Newton P. Willis.

Judge Willis is at Childress this week. Judge Clements was formerly district attorney of the 64th district, and was attorney for the state in certain cases—which disqualified him as judge and brought about his exchange with Judge Willis. Judge Reese Tatum of Dalhart as presiding officer of this administrative district under a law passed by the last Legislature, ordered the exchange.

The new judge at LeFors has lived in Plainview for the last 27 years. Yesterday he expressed his appreciation of the opportunity to be in this fast developing section for a time.

Deputies Find Liquor in Room

Thirty-one pints of bonded liquor were taken by the sheriff's department in a raid Saturday evening.

The liquor, officers said, was found in the room of Robert Barrington, who made \$750 bond.

The bottles were packed in a trunk, which is said to have been filled from the contents of a travelers' trunk of an automobile used in transporting.

Mr. and Mrs. V. N. Campbell and family of Washington, D. C., have arrived to spend the summer here with Mr. Campbell's brother, R. C. Campbell and family.

FARM GIRLS PREFER WORK IN PROFESSIONS

WASHINGTON, June 16. (AP)—Even the girls won't stay "down on the farm."

In a report to the Federal Bureau of Agricultural Economics, only four per cent of the girls who said they liked farm life expressed a preference for farming as a livelihood.

Teaching is preferred by 55 per cent, seven per cent prefer nursing or social work, 15 per cent choose business, two per cent choose the arts and nine per cent express a wish for other miscellaneous occupations.

Finley Will Board All Texas Special

When the "All-Texas Special" train leaves Dallas next Sunday night for a tour of 15 cities of the states, B. E. Finley, president of the First National bank at Pampa, will be on board.

This trip is open to anyone wanting to make the trip and Mr. Finley has said he would attend. A wire was sent to J. L. Geer, chairman of the transportation committee, that Mr. Finley would be there from Pampa.

The train will be a deluxe special consisting of 10 pullman's dining car, observation and baggage car. Stops will be from two hours to two days at the following cities: Kansas City, St. Louis, Chicago, Detroit, Cleveland, Buffalo, (Niagara Falls), Boston, New York, Philadelphia, Baltimore, Washington, Pittsburgh, Cincinnati and Memphis.

The train is attracting national attention.

W. D. Howren of Amarillo was a visitor here Wednesday.

CREAMERY TO ENLARGE PLANT HERE SOON

The Gray County Creamery, managed by H. A. Gerhard, will enlarge its plant immediately with an \$8,000 refrigeration system. A pasteurizer and a brine freezer will be added,

which will enable it to produce three times the capacity of milk and five times the capacity of ice cream as at present.

George Courtright spent Wednesday in Amarillo on business.

Cities Service Oil isn't "just oil"

CITIES SERVICE OILS
ONCE - ALWAYS

As you drive up to a filling station for oil—be sure it's a Cities Service station. Then you can drive away with the assurance that your motor is being properly protected by the finest oil experience and money can produce. Cities Service oils are super-specification—a plusage in quality. That's why they withstand heat longer, providing a safety never found in "just oil."

CITIES SERVICE OILS

Sport Columns

Grays Lose To Wheeler Team By Score of 10 to 0

The Grays lost a 10 to 0 battle Sunday in a wind and rain storm to Wheeler, or rather against a team representing that town but wearing Shamrock uniforms. Wheeler had a pitcher from Childress that had even Ed Gober swinging at the air, and the reliable Sam Scaling went without a hit.

Rowe had all the luck for the Grays, getting a single and two walks. Clayton, Gober, Shaw and Weeks were the other Grays lucky enough to get hits. The Pampa infield had an easy day, the ball being hit to the outfielders, who were lost in the long grass.

Seeds was again the star of the supposed Wheeler team, both on the field and at bat. He got two doubles and a single, while Blake had four hits to his credit. "Doc" Abbott was behind the bat for the Wheeler club after three years out of the game. He caught a real game.

Shaw went into the box for the Grays but was hit freely, and Reynolds relieved him in the seventh and looked good. Jeffries for the home club pitched a great game.

Wheeler scored one in the first on heady playing. Dean singled, went to third on an error, and scored on a neat sacrifice bunt. Another was added in the second and five in the third inning, when Blake and Seeds hit doubles and Mryan a triple. The Wheeler bunch finished their scoring in the sixth inning with three runs.

The Grays had a good chance to score in the third when Weeks singled, and Rowe walked. But Jeffries tightened up and got the next three men to hit out to the infield. Their next chance came in the sixth with Rowe and Reynolds getting free tickets to start off, Scaling hit into a double play and Gober fanned to end all chances for the Gray's scoring.

Batteries: Pampa—Shaw, Reynolds, and Clayton; Wheeler—Jeffries and Abbott.

Cahill K. O.'s McMillan With 3rd Round Blow

"Rusty" Cahill, Pampa boxer and baseball player, won a K. O. Victory in the third round of this week's scheduled 10-round bout at the Pampa Athletic club. Cahill was too clever for Tuffy McMillan of Breckenridge and the end came in the third round after Cahill had landed a two fisted barrage from the beginning.

The new-boy preliminaries were fast and furious, the kids standing toe to toe and hitting and missing to the best of their ability.

The semi-final was a real fast affair with Paul Pone a little faster than Dutch Hust, who put up a real battle against a faster and more experienced boxer. Hust took a count in the third round but was up before the count and gamely finished the bout with a rally that nearly earned a draw.

In the final, after one minute and ten seconds in the third round, Cahill connected with his hay-maker and McMillan took the count. McMillan is a clever boxer but Cahill is faster and can stand more punishment. Cahill has boxed some of the best and is a hard man to hit in the ring, being shifty and fast on his feet.

A large crowd of ring enthusiasts were on hand when the bell rang for the first go, and were entertained with fast and clever bouts.

Oilers Hit Stride To Defeat McLean In That City

Allowing only three hits, Robinson and Voss pitched the Oilers to a 12 to 3 victory over McLean Sunday. This was the first win for the Oilers.

The Oilers were hitting the ball and taking advantage of the breaks, scoring 12 runs on 10 hits. The game was featured by the work of Thompson, at first base for the local club, and the great hitting of Sherrod, diminutive catcher, Thompson and the reliable Heardson, who hit far and often.

McLean has a fast ball club, but the Oilers have hit their stride and were a little too good for the small town boys. Ellis pitched a nice game but his support was not the best in glasses.

SPORT TALK

The Oilers are all set for the Claude team Sunday and expect to win another game. They are out to practice every night and will spring a surprise on Claude.

And the Texans lost two more yesterday. If they keep on losing they will be in the same place as Fort Worth in the Texas league. Guess the Amarillo team will have to use Bob Clarke again to win another ball game.

Chicago Cubs won their eleventh game in a row yesterday and Charles Root, Cub pitcher, won his eleventh game. At the present time the cub look like pennant contenders.

The Giants have hit a slump that cannot be understood by baseball followers. The giants have the pitching, hitting and fielding to win ball games but they are still losing. When the break does come watch out for the Giants. It is rumored that Rogers Hornsby will pilot the Giants in 1928. Maybe he will, but old Jawn McGraw will have to be out of the limelight if he does.

The Grays will go to Borger for a game Sunday and expect to show the Pace crowd that Pampa has a winning ball club. A pitcher has been secured for the game and Manager Gober is all set for game and Manager Gober is all set for a win from the Borger nine. It is likely that there will be a change at short and a shake-up in the outfield that will considerably strengthen the team.

DEPOSITORY

over the county to the effect that funds due the common school districts are being withheld by the state because of the fact that the county depository has not made out certain reports required by law and has not made a proper bond, we further find that our county commissioners have been negligent in not requiring this report and bond, and we suggest that our county attorney make a careful investigation of this matter and take such steps as are necessary to bring about a proper and hasty remedy in regard to the school and county funds.

Rumors have reached us relative to county and city peace officers accepting money from law violators to give them immunity from the law. All these rumors seem to be unfounded.

We wish to thank you and the Honorable Clint C. Small for the cooperation and assistance you have rendered us during our recent session.

Without elaborating in detail, we desire to state that lawlessness is reduced to a minimum in Gray county. We know full well that there will always be law violation in every community, and the time will never come when the law will be enforced as to every person everywhere. Our county is now in the center of a great oil field. We are a fast and rapid community; naturally there will be a great influx of inhabitants, and with such there will be a lawless element. From our investigations during the last 5 days we feel convinced our officers have done their duty, that the county is in the hands of safe, sane, honest, and courageous officials, and that law violators will be apprehended and brought before the bar of justice as great a per cent as humanly possible.

With this report we request your Honor to discharge us finally for the term.

Respectfully submitted,
I. B. Hughey, foreman.

Pampa Postoffice To Go Second Class

July 2 has been the day set for the Pampa post office to be rated as second class, which means that the post office employes will have eight-hour days and there will be no Sunday nor Holiday service at the windows.

Postal clerk examinations will be conducted here June 18 and there will be ten or twelve candidates. The exams will be under the supervision of a postal inspector.

E. Sweeney of San Antonio and Fred Hudziets of Fort Worth are in Pampa on business.

The Oilers will play the fast Claude outfit here next Sunday and expect to get revenge for the loss there.

Batteries: Oilers—Robinson, Voss and Sherrod, McLean, Ellis and Bentley.

SCIENTISTS FIND HOG UNABLE TO CONTROL OWN TEMPERATURE

"Contented hogs." They have warm houses for winter and a shaded pool for the summer.

Life is what somebody else makes it, if the hog could tell his side of the story.

In winter he freezes and in summer he smothers—all of which he is powerless to prevent.

Unlike other animals, the hog has no way of regulating his own temperature. Horses, cows and kindred farm stock react to the weather as humans do. Their pores close when it's cold and open for perspiration when it's hot.

The United States Bureau of Ani-

mal Industry has found that the hog is virtually devoid of this function. Beneath his skin is an adipose tissue that apparently is without feeling.

Even the process of tattooing for identification in the slaughterhouse has no effect on the hog. The instrument, pointed and barbed, may be thrust into his back with extraordinary force and he will not bother to grunt.

His queer constitutional makeup, scientists say, is responsible for the fact that a hog may freeze to death in sub-zero weather, or drop dead by the roadside if carelessly driven through summer heat to the market.

Thirty-Nine Pupils Have Enrolled In Summer School

Thirty-nine pupils have enrolled in the summer school classes at the high school and are taking their studies under members of the school staff.

Miss Velora Reed and Verde Dickie are in charge of the high school classes with 22 pupils enrolled.

Miss Mellie Bird Ritchie is in charge of the intermediate classes with an enrollment of 10 students.

Miss Ellen Smith, formerly of Childress, is teaching the elementary classes with seven pupils.

All classes are under the supervision of the superintendent of the high school.

Mrs. C. E. Clem spent Thursday in Amarillo.

Barrett Well Is Big Gasser—New Locations Made

Three new locations were made in the Pampa oil field Saturday. The Atlantic Oil Production company made a location on the Coombs-Worley lease section 37, block 3. The Skelly Oil company made two locations in the west Pampa field, both on the Henry Schafer lease. One of the locations is in section 87, block 4, and the other in section 85, block 4.

Texas Company's No. 1, J. B. Barrett has a showing of oil at 3,137 feet with 22,000,000 feet of gas. The boiler had to be shut down yesterday on account of gas blowing over it.

Miss Mattie Gwynn spent Wednesday evening and Thursday in Amarillo.

Bankers Return From Meeting Of Eleventh District

B. E. Finley and DeLea Vicars of the First National bank and J. M. Dodson of the Gray County State bank have returned from Dallas, where they attended a membership meeting of the Federal Reserve banks, of which the two Pampa institutions are members.

At the meeting 520 banks were represented out of the 832 members in the eleventh district, which includes all of Texas and parts of Louisiana, Oklahoma, New Mexico and Arizona.

This is the first meeting of this district and it was decided to make it an annual affair. There are just three districts in the country which meet annually.

The reserve funds in the eleventh district amount to about \$60,000,000.

Prospective Baptist Pastor Here, And Will Speak Sunday

The Rev. and Mrs. D. H. Truhitte of Oilton, Okla., are in the city today in regard to the call to the pulpit of the First Baptist church.

Rev. Truhitte met with a large number of members of the church last night. He has not accepted the call, but will meet soon with the board of deacons to discuss details.

The Oklahoma man today expressed the opinion that he will accept the local pastorate, pointing out that he held a meeting here a few weeks ago, became acquainted with local people and learned of local needs and opportunities.

He also expressed satisfaction that Panhandle Baptists are cooperating in denominational work and have well defined programs.

Rev. Truhitte will preach at the local church next Sunday.

Peek's Company To Drill Well In McIlroy Oil Pool

F. A. Peek, of Amarillo, was in the city today in the interest of the El Rio Oil company, of which he is vice-president. Until recently he lived in Pampa.

Other officers of his company are Fred B. Manley, president; S. A. Meyer, secretary; and E. W. Little, treasurer. All of the officers are Amarillo men.

The company, incorporated in Texas at \$200,000, has 1,930 acres of proven gas land in northeastern Potter county, 80 acres of lease in section 91, block 46, H&TC railway survey, Hutchinson county, and 40 acres in section 4, block 23 of Hutchinson county. It is preparing to spud in a well in the southeast part of the 40 acres. This is the center of the sensational McIlroy pool, surrounded by wells making 1,000 barrels upward. Nearest production is only 600 feet from the location for the first well.
