PAMPA, GRAY COUNTY, TEXAS, FRIDAY, OCTOBER 28, 1927

PRICE FIVE CENTS

COUNCIL PASSES MILK ORDINANCE

Experienced School Nurse Is Employed for The District

EMPLOYMENT TO BE BASED ON ONE MONTH

May Be Continued If Minor Illness Is Prevalent

ENROLLMENT IS GROWING FAST

Completion of Addition to Central High Imperative

The school board authorized the hiring of a school nurse for a one-month term at a meeting this week.

The nurse will be engaged immediately as numerous cases of whooping cough and other illnesses have been reported.

Continuation of the service of the nurse will be discussed at the end of other month's term.

On account of absence the meeting was adjourned until this afternoon, when further business will be discussed before the football game.

Supt. R. C. Campbell reports the enrollment of 20 new pupils in the Baker school, 24 pupils in the Lamar school, and one additional pupil in the Central high school.

He reports that all available rooms have been occupied, but that the new addition of twelve rooms to the high school building will be completed within the next two months.

At the rate of increase, the cottages will still be needed.

Sheriff's Slayer Soon to Learn Fate From Jury

ANSON, Oct. 27.—Joyce Sheppard, alias Bill Smith, was found guilty here this afternoon of the murder of Jake Owens, deputy sheriff of Fisher county, with the death penalty assessed against him.

ANSON, Oct. 27.—The case of Joyce Sheppard, alias Bill Smith, who is on trial here for murder in connection with the slaying of Sheriff Bob Smith and Deputy Jake Owens of Fisher county, went to the jury at noon today.

LEG BROKEN
 A. L. Little of White Deer, a tracking contractor, was brought to the Pampa hospital last night with a fractured leg. The accident occurred when Little was unloading some building material, which fell on his leg.

New Ordinance On Night Parking

City officials are anxious that all Pampa residents and others of this vicinity shall know and observe the new ordinance prohibiting the parking of cars, trucks, motor vehicles, wagons, and conveyances of every kind on the pavement between the hours of 1 and 4 a. m.

The new street sweeper is here, and it will be used nightly after midnight. It is imperative that cars shall be cleared off the streets at 1 o'clock in order that the sweeper may not be hampered.

A pound fee of \$2.50, and possibly a fine will be assessed for violations of the ordinance.

Galloways And Yak Crossed To Produce Beef Cow For Alaska

The yak of the Himalayas and Galloway cattle from Scotland have been crossed at Fairbanks, Alaska, to produce a beef cow hardy enough to stand the Alaskan climate. The bull yak is shown above, and one of the Yak-Galloway calves in the center. Dr. W. H. Evans (below), chief of insular experiment stations in the department of agriculture, says the hybrid has been proved capable of enduring Alaskan winters.

WASHINGTON.—Scotland's cool altitudes and the vast mountain ranges of Tibet have pooled their staunchest elements of bovine hardihood to provide a beef enterprise for Alaska.

The key to the novel project is the "cattleyak," a hybrid animal in whose veins flows vigorous blood of the Asiatic polled yak and the Galloway cattle of Europe. It is a cross breed, that defies all the rigors of Alaskan temperatures and at the same time gives promise of excellent meat qualities.

Bred to the Himalayas, the yak is rugged and self-reliant. In a state of elemental domesticity he is used as a work animal by the farmers of western China. Of the same genealogy as cattle, the yak is the basis of Tibetan meat, milk and packing industries. The Galloways, native to the hilltops of heather and blue-bell resembles the yak in hardiness, but it a decidedly better beef animal.

Increasing demand for market supplies has created a remarkable opportunity for Alaskan beef breeders. Almost every ship from Seattle and Pacific ports carry frozen meats from the United States to Cordova, Seward, Anchorage and around the rugged northwest coast to Nome and St. Michael, for distribution to both seaboard and interior settlements.

Realizing that a local beef industry was contingent upon development of cattle hardier than any then known, the federal experiment station at Fairbanks evolved the cattleyak theory and made the first cross four years ago, using one bull yak and two cows obtained from Canadian government herds at Wainwright. The result was a calf with the guttural grunt of the yak instead of the prolonged bawl common to cattle. Hair on the lower body was shaggy and the tail short and bushy, all yak characteristics. Otherwise the Galloway resemblance was preponderant.

Successive cross-breeding has produced a total of six hybrids, one of them a bull calf, which is zealously guarded by the prospective sire of true cattleyak type. He will be mated with the cattleyak heifers, whose reproductive ability was proven by breeding the oldest hybrid heifer to yak bull for an offspring that, three-fourths yak, bore greater resemblance to the maternal Galloway strain.

Dr. W. H. Evans, chief of the division of insular experiment stations, declares the hybrid to be absolutely hardy and capable of self-maintenance in a temperature 60 degrees below zero. It is significant, he says that the little herd went through the entire winter in 1926-27, browsing solely on willows, birch and stacks of wheat straw. Their only commercial feed was a cake of linseed meal once a week. Unlike the cattle, they ignored wind and snow, seeking the crude shelter of an open straw-covered shed only in event of a sleet storm of unusual proportions.

A final severe test is to be made this winter, Dr. Evans declares, in which the hybrids will be left entirely to their own initiative. If they prosper it will be positive proof of the sturdy character needed for beef breeds in Alaska.

Roxana Boy Loses Part of Hand

Little Elwood Ryland lost the thumb and three fingers of his right hand and his chum may lose the sight of one eye, as the result of an explosion Sunday afternoon.

Following treatment in Roxana, the Ryland child was brought to Pampa for further care and his playmate was taken to Denver for attention.

Clayton Hears, attorney of Shamrock, was in the city today on legal business.

Fireman Clement Suffers Broken Leg, Cockrell Is Injured in Truck Crash

Struck by a Ford sedan which crashed into the big city fire truck which was returning from a run, Fireman Jack Clement suffered a compound fracture of the right leg, and Fireman Younger Cockrell received bad bruises on the left leg early last night.

The sedan was driven by Mrs. R. J. Kiser, who was driving south on Cayler street. The collision oc-

curred as the Ford was passing other cars going in the same direction. The fire truck, returning after extinguishing a motor truck fire in Southeast Pampa, was going northward.

The firemen were thrown from the fire truck as the truck was side-swiped. They were placed on the truck and taken to Pampa hospital for treatment.

GOOD PRICE IS ANTICIPATED IN LARGE ISSUE

Special District Very Strong in Tax Values

42 MILES OF PAVING VOTED

City Bids Will Be Opened at Hall Nov. 7

Deals involving two big public improvement projects—road paving and sewer extensions—will be consummated here soon.

Bids on the \$400,000 road bond issue will be received Monday at 2 o'clock at LeFors when the county commissioners will offer the entire amount for sale.

Bids on construction of the Pampa sewer extensions and new disposal plant will be received at the city hall at 7:30 p. m. November 7. There is about \$150,000 available for this work.

The road bonds are issued by the Pampa special road district, which comprises 230 square miles. The purpose is to construct approximately 42 miles of macadamized, gravelled, or paved roads in the district.

Payment Schedule
 The date of the issue is October 1, 1927. The interest rate is 5 1/2 per cent payable semi-annually April 1 and October 1 of each year. Ten thousand dollars is payable on April 1, 1929, and on April 1 for each of the four years following. Two've thousand dollars per annum is payable on April 1 of each following five-year period; \$10,000 is payable on April 1 annually for five years thereafter; and \$10,000 per annum is payable on April 1, 1952 and annually thereafter until April 1, 1955, when the issue will be retired.

Many bidders are expected to be present Monday, and a good price for the bonds is anticipated. The total value of the real and personal property in the road district is \$8,467,690, as compared with \$11,394,877 for the entire county. The newly created district has no tax base except this bond issue, and its population is about 11,000, as compared to the county total of 14,000.

Fifteen Miles of Sewer
 Approximately fifteen miles of sewer lines will be added to the present sewer system under the new contracts to be let. Of this, 6 miles will be of 6-inch laterals, 3 miles of 8 inch, 1 mile of 10 inch, 3 miles of 12 inch, and 2 miles of 15 inch.

The 3-mile string of 15-inch main will carry the full load to the plant and new dump ground recently purchased. A sedimentation tank with sprinkler-filter will be built there.

The extension will carry the sewer mains to practically every part of the city. A pumping station will be established to give the proper flow from the South Pampa portion, and

Interesting Meetings Bring Farm Days To Close Saturday

A successful two-day agricultural short course was brought to a close Saturday afternoon when J. M. Duncan of Kansas City gave a demonstration of a John Deer tractor. He particularly stressed the care and operation of the tractor, and explained the many uses a machine can be put to on the farm and the work it saves the farmer.

Mrs. Phebe K. Warner talked to the ladies Saturday afternoon at the high school auditorium on county federation of women's clubs, which she stated is essential for the betterment of rural conditions.

Friday afternoon Col. K. H. Haines, executive manager of the Amarillo Board of City Development, spoke on diversification and business methods on the farm. He pointed out the fact that Texas resources are not put to proper use and that example fruit grown in Texas is shipped out while fruits are imported.

Judge L. Gough of Claude gave an interesting talk on cooperative marketing, using as an illustration Canada, which has three wheat pools and a central selling agency which can cover the wheat market. The United States has nine pools which are not united and are not getting their share of the wheat produced.

A. A. Tampe of McLean spoke on shop tools on the farm. He told of the necessity of the farmer having an adequate set of tools and illustrated the use of hand tools on the farm.

The Friday night meeting was held in the auditorium of the high school, with Professor J. L. Lester in charge.

Professor Otto Schick's orchestra was in attendance and rendered numerous selections which were enjoyed by the large audience. The place of the Chamber of Commerce in its relations to the farmer.

Mrs. Phebe K. Warner, the other speaker of the evening, talked on the advantages of cooperative marketing.

Dr. Purviance Heads Red Cross Drive

A Red Cross roll call, to last through November 11-17 inclusive, will be directed in Pampa by Dr. W. Purviance, local chairman.

Dr. Purviance has the supplies, and will organize committees for an intensive campaign. Disasters have been unusually frequent during the last year, and it is desired that Pampa shall do her share toward supporting the organization.

The present system will be tied into the big, new mains in such a manner that the existing mains will be sufficient, it is believed, for a city of twice this size.

The city recently took over a few private sewer lines which can be tied into the new system, but not the old.

The extensive water extensions have just been completed.

INSPECTION OF DAIRIES TO BE PART OF PLAN

Products Will Have Labels Explaining Grade

PERMITS MAY BE CANCELED

All Handlers Must Be Examined by Health Officer

Adoption of the United States Public Health Service standard milk ordinance by the city council Monday will bring production, distribution, and all sales of milk and milk products under strict supervision in Pampa and vicinity.

The ordinance was passed after several weeks of investigation, and following publication in the Pampa Weekly News will be enforced by the city and county health officers to whose offices it applies.

Some of the principal provisions follow.

PERMITS—It shall be unlawful for any person, firm, association, or corporation to bring into or receive into the city of Pampa, for sale or to sell, or offer for sale therein, or to have on hand any milk or milk product, excepting evaporated milk, condensed milk, condensed skimmed milk, powdered whole milk, and powdered skimmed milk, who does not possess an unrevoked permit from the health officer of the city of Pampa, and on whose vehicles or in whose place of business there does not appear in a conspicuous place a placard showing the permit number in figures at least 3 inches high and 1 1/2 inches wide.

Such a permit may be revoked by the health officer upon the violation by the holder of any of the terms of this or any other health ordinance of the city, of Pampa, provided that the holder of said permit shall, after complying with such revocation, have the right to appeal to the board of health.

Store Sale Regulated

Every grocery store, restaurant, cafe, soda fountain or similar establishment selling or serving milk shall display at all times, in a place designated by the health officer, stating the grade of the milk at the time when delivered and whether same is raw or pasteurized, and including the following statement: "The Safest Grade of Milk is Grade A, pasteurized."

The ordinance further provides for the inspection of dairy farms and milk plants at regular intervals, for the testing of milk and milk products, for the testing of the cows for tuberculosis and other diseases, for the inspection of milk handling and handlers, for providing specific types of floors, sanitation facilities, drainage of cows yards, combating of flies, and sterilization of utensils.

STANDARD PRICES

That's the policy of the Job Printing Department of the Pampa Daily News. Along with these standard prices you get standard quality.

Phone 700 and a representative will call and discuss your printing problems.

ON SIGNATURES

Some people have a perverted sense of humor! It is possible that anyone is so eccentric as to think that signing a parent or guardian's name is a joke and not a real forgery? We can not see why it should be any less criminal to sign "mother" or father's name than to forge any other person's signature. It is entirely too serious a matter to be treated lightly.

Anyone out of school, who is caught forging is liable to a term in the penitentiary. Why, then, should a student be so careless and thoughtless about this matter?

Luck is a lazy man's idea of success.

Flunk not lest ye be flunked. The first and worst fraud is to cheat one's self.

Baker School Notes

Honor Roll

The following students made 5 A's, 3 B's and 1 C. SEVENTH GRADE—Robert Woodward. SIXTH GRADE—Howard Jones. FIFTH GRADE—Elbert Howery, J. W. Nook, Ethel Chapman. FOURTH GRADE—Uhel Qitsel, Evelyn Woodward, Hope Kinkade, Juanita Leathers, Opal Colgrove, Marlin Cobb. THIRD GRADE—Geneve Rogers. FIRST GRADE—Ruthine Evans, R. V. Plato.

The A and O club will meet with Mrs. Stowell Saturday evening, October 29.

The health nurse will be at the Baker School to examine the pupils today and tomorrow.

Mrs. Baker, the wife of Judge Baker for whom the Baker school was named, visited here. Mrs. Daniels was also a visitor.

The boys of the fifth grade have organized ball teams and some very interesting and exciting games have been played.

Seventh Grade Motto

Plan for more than you can do. Then do it. Bite off more than you can chew. Then chew it. Hitch your wagon to a star. Keep your seat, and there you are.

Mrs. Elma Phelps, of Guthrie, Oklahoma, visited the sixth grade last week. She is Mrs. Austin's mother.

The sixth grade has lost three pupils: Juanita Swinford, Bernice Windell, who has gone to Denver, Colorado, and Rachel Jeffcoat.

Dr. and Mrs. H. S. Cockerill were here Monday from Mooreland were here Monday from Mooreland, Oklahoma. They visited Mrs. C. C. Cockerill's third grade.

"Men who are trained to make a living don't go to jail. You don't find carpenters and bricklayers and doctors in jail in any number, but the poor and the ignorant who follow the easiest way. Crime is caused by poverty and by hate. If you would devote one-tenth the money and efforts now expended on punishment to a sincere effort to remove its causes you would practically eradicate it."

Selected—Freda Culverhouse, Reporter.

THE SPOTLIGHT

PAMPA, TEXAS

NUMBER 4

Hard Game Is Expected With Miami Friday

Monthly Institute Will Be Held Early Saturday

The monthly institute for teachers of the Pampa Independent school district will be held Saturday with Supt. R. C. Campbell as chairman.

Because a number of the teachers wish to attend the home-coming program and football game at the Teachers college at Canyon, the session will start at 7:30 a. m., and close at 10 o'clock.

The program follows:

- SECTION I General singing 1. True and False, Prof. Aaron Meek. 2. Association, Miss Harriet Rieves. 3. Completion, Miss Lillian Donnell. 4. Solo, Prof. R. B. Fisher. Intermission twenty minutes.

SECTION II

- 1. Beginner in Reading, Mrs. J. L. Lester. 2. Silent Reading, Mrs. Cleo Ferguson. 3. Spelling in Intermediate, Mrs. E. F. Strickland. 4. Duet, Mrs. Meek and Mrs. Charles Stowell. There will be a round table discussion at close of each speech, directed by the speakers.

Wit and Humor

Vernon Culverhouse, Editor

Harold H.—(in Latin): This killed the Romans and now its killing me.

"Failed in History, flunked in Math." I heard him softly hiss, "I'd like to see the guy that said 'Ignorance is bliss.'" WA-SHA-SHE (Pawhuska, Okla.)

It seems to ye column ed that Archie Lee, our point making quarterback, should make a good pugilist; he knocks out some husky tackler nearly every game.

Spanish Classes Form a Club

The Spanish classes met Wednesday evening, organized the Spanish club, and elected the following officers:

- Persident—Vernon Culverhouse. Vice-president—Maxine McKinney. Secretary—Melba Graham. Treasurer—Perry Morgan. Sergeant-at-arms—Bruce Cobb. Reporter—Raymond Suttle.

Vote for Melba Graham for Beauty Queen!

Give the 'Freshies' a boost! Vote for Lillian Jamison for Beauty Queen!

Boom! Boom! Kate Archer for Beauty Queen!

Stop! Look! Listen! You'll be wishin'— You had voted for Edna Biard!

Nine Students of High School on New Honor Roll

The following students made four A's on the first six weeks' work done in Central high school.

- SENIOR CLASS—Dorothy Funnell, Lucille Mooney, Susie Bell Smalling, Martha Bradford. JUNIOR CLASS—Jewel Cope. FRESHMAN CLASS—Wilma Washman, Sam Keith, Louise Smith. SPECIAL STUDENTS—Nellie Hardin—commercial work.

Kate Archer was elected Sophomore beauty queen, Don Saulsbury the most handsome boy, at a meeting held in room 302.

Mr. Taylor spent last week-end in Oklahoma City.

Miss Rieves spent the week-end in Dallas, Fort Worth, and Wenton.

Harvester Peppers Is Name of Enthusiastic Girl Boosters

A "pep" squad for the Pampa central school was organized last Wednesday afternoon by Miss Gladys Carter. The idea of a closed organization was given up. The organization is open to all the high school girls who wish to join and do all they possibly can to better it.

A name was chosen and officers elected. The name "Harvester Peppers" was decided upon, and the Harvester costume of overalls and straw hats was adopted. The officers elected were: sponsor, Miss Carter; Edna Biard.

Large Honor Roll Is Announced by The Lamar School

The following students made at least four A's, two B's, and not more than one C.

- SEVENTH GRADE—Eloise Lane, Owen Wright. SIXTH GRADE—Margaret Bryson, Lorretta Fletcher, Teo Stark, Burton Doucette, Fred Johnson.

FIFTH GRADE—The following students have made A in department, all A except two B's and one C: Mary Catherine Clark, Helen Dowd, Myrtle Fay Gilbert, Evelyn Graham, William Hassel, Josephine Lane, John McNamara, Lorraine Noel, Mary Katherine Stokes, Lawrence Stalcup.

FOURTH GRADE—The students of the following honor rolls have only A's and B's: Georgia Lou Prichard, Alvin Kennedy, John Martin, Herma Beckham, Jessie Gibbert, Leah Lane, Basil Stalcup, Blanch McMillan, Billie Bratton, Lawrence McFee, Earl Rice, Smith Wise, Robert Talley, Phyllis Smith, Hesta Elle Lester, Harriett Hunkapillar, Elizabeth Graham, Alma Watson, Madge Teiman, Doris Hall.

THIRD GRADE—The following pupils have made nothing lower than A: Jack Walstad, Flora Deen Finley, Glen Twiford, Dorothy Ann York, H. C. Little.

SECOND GRADE—The following pupils have made nothing lower than A: Cal Pierce, Eldred Culwell, Cris Meritt, Jr., Frances Smith, Howard Wood, Mickey Ledrick, Harold Cockburn, J. O. Wardlow, Bob Mitchell, Verda Brethaver, Myrtle Trice, Juanita Thom, Tharon Ashley, Carl Camp, Calvin Lee Dillmore, Lauretta Elder, Wade Taylor, Mary Louise Adams, and Lillian Rice.

FIRST GRADE—Those making average of A, with either all A's or not more than two B's, were: Rex Rose, Armine Edmonson, Marie Barnard, Elizabeth Mullinax, Barnes Kinzer, Chester Hunkapillar, Edith Lane, Clarence Phillips, Cretta Mae Rogers, Dorothy Wood, Roy Kych, Charlotte Ray Malone, Thomas Brabham, Douglas Slotk, Ned Prichard, Leona Harris, Jeanne Murfee, Lorene Mitchell, Jeanette Cole, Mary Belle Crawford, Pauline Barrett, Kenneth New, James Strickland, Edith Beckham, Doris Cupp, Edwina Gilbert, Dorothy Jo Moore, Ernest Borkedole, Ulmer Esslinger, and Ray Lee Jones.

Melba Graham Leads In Beauty Contest

The beauty contest is on! The standing of the candidates Tuesday evening at 4 o'clock was as follows: Melba Graham 205 votes. Edna Biard 114 votes, Lillian Jamison 55 votes, Kate Archer 12, Bob Kahl 40 votes, Albert Lord 13 votes, Russell Kennedy 10 votes, Don Saulsbury 5 votes.

"Put more interest into your work and you will draw more interest out."

"It is better to lose an argument than a friend." "It is one thing to be always busy—it is another thing to get work done."

The girls so far have had much pep. They not only have had pep, but have put over several stunts on the field.

A clever stunt was put on last Friday. Since Hallowe'en is near at hand, a witch appeared on the field followed by the "Harvester Peppers." She told their fortunes, then presented a football, beautifully decorated in green and gold, to the Harvesters. The stunt was put over in first class style and seemed to be appreciated by everyone. We hope our girls will continue to have as much pep in the future as they have in the past.

Lamar School Notes

Sixth and Seventh Grades

The enrollment continues to increase at the Lamar school. A few pupils have withdrawn, but more have come to take their places. A notable feature of the enrollment of new pupils is that a large number of them come from other states, in particular Oklahoma and Kansas. Even Washington and Montana are represented, as are also many other western states.

The girls continue to practice basketball under the direction of Miss Robinson. Many of the sixth and seventh grade boys are looking forward to basket-ball season, which will begin in earnest after Thanksgiving.

Fifth Grade

We are keeping account of what we have earned, and our expenses in connection with our arithmetic. History plays are helping the pupils to learn history. Much enthusiasm is being shown in the making of posters representing better English.

Fourth Grade

Mrs. Daniel's pupils wish to thank Mr. Hunkapillar for the volley ball which he presented to them and promise him to try to be good sports in the game and make good players.

Collecting Products

The fourth grade geography class in Miss Beatty's room is interested in studying products grown in other parts of the United States. They have written to their friends and relatives who live in other states, asking for information about the products that are grown there. They have, also collected some very interesting pictures of other parts of the United States, especially Colorado and California.

Third Grade

The approach of Hallowe'en has been the cause of much excitement and anxiety among the children. The pupils in Miss Pryon's room have been enthusiastically busy all week decorating their room with elves, hobgoblins, and other "spooky" characters.

The spirit of Hallowe'en is distinctly prevalent in Miss Stalls' room, for we are preparing for a "spook party on Friday afternoon. Every child is enjoying decorating the room for the occasion. We are expecting all of the Hallowe'en spirits to attend our party.

No man ever became stoop-shouldered from carrying a load of happiness.

"The will to work and the spirit to save produce the prosperous citizen."

Members of the senior class regret that Lucille Mooney is absent from school this week on account of the serious illness of her mother.

Russell Kennedy Elected President of Harvester Club

The first meeting of the Harvester club was held October 19. Plans were discussed and new rules adopted for the present year.

No one is eligible for this club unless he takes part in athletics. The purpose of the organization is to form a close union between the athletes and student body. Officers elected are Russell Kennedy, president; Bob Kahl, vice-president; Ed Herlacher, secretary and treasurer; Tommie Robinson, Reporter; Sam Carlton, Skeet Roberts, and Archie Walstad, "spotters."

Old members of the Harvester Club are Archie Walstad, Bob Kahl, Sam Carlton, Skeet Roberts, Russell Kennedy, Bill Green, Elmer Hardin, Allie Barnett, Kenneth Bishop, Tom are Gus Greene, Tommie Robinson, Bob Muilen, Don Saulsbury, Troy Stalls, Jim Ayres, Henry Ayres, Merle McFarland. Sponsors for the club are Mr. Dickey and Mr. Oscar Dial.

Sunday, October 23, all new members and officers of the Harvester Club were "spotted." All new members received 15 spots.

If the students and patrons of Pampa High school should see a young athlete parading around with a sign on his back, don't mistake him for a candidate for the insane asylum. He is merely a "slime," that is, he is being initiated into the Harvester Club. This club was formed last year of all high school boys trying out for any form of athletics. The purpose of this club is to encourage a spirit of comradeship among the boys of P. H. S. The club is sponsored by Mr. Dickey and Mr. Dial, the coaches.

Announcements

1. Tweedle boards and swings have been purchased for the Lamar school. Tweedle boards, parallel bars, and basketball goals have been provided for the Lamar school and the primary grades.

2. The local teachers' institute will be held at the high school auditorium from 7:30 to 10 a. m., on Saturday, October 28. This change is in order that teachers may attend the home-coming at Canyon Teachers college on the same date.

3. Joe M. Smith, Jr., has been employed by the school board as general secretary and bookkeeper for the Pampa Independent district.

4. Good progress is being made on the erection of the central ward building and it is hoped that we will be able to use it by Dec. 5 at least.

5. The school nurse is at work, and a report will be made to the patrons soon as to the needs of their children from the standpoint of health. As far as is possible, the parents will be expected to act on the report of the nurse.

6. Mrs. B. M. Baker has purchased a program clock for the Baker school and the clock will be installed in due time. An enlarged picture of the Hon. B. M. Baker will soon adorn the wall of the Baker school. Mrs. Daniels is personally looking after these details.

FLASH SERMONS ON SIGNBOARDS

"We cannot think of failure and be successes."

"God gives us always strength enough and sense enough for what he wants us to do."

"It is far more honorable to black shoes than to blacken character."

"Taking the line of least resistance is what makes rivers—and some men—crooked."

"He who takes the wrong road must make his journey twice."

"No man can avoid his own company, so he had best make it as good as possible."

MANY ROOTERS TO HELP TEAM

Local Boys Must Play on Opponents' Field

What probably will be a hard game will be played with Miami by the Harvesters tomorrow at Miami. Many students and townspeople will make the trip to host the team.

Miami has a very strong team this year, and is favored by the fact that the game is to be played on her field. Her team has beaten Panhandle, and Panhandle is rated to have a good eleven.

Not all of the Harvesters' supporters can go to Miami, but their good wishes and thoughts will be with the team.

HARVESTERS HARVEST

The Pampa Harvesters defeated Canadian Friday. The Canadian team played hard, but at the close of the fourth quarter the score was 79 to 0. When Canadian came here to play, we knew very little about the team except that they had won two games out of four.

The Pampa Harvesters are working hard and a decided improvement has been shown each week. Last Friday the interference was the best it has ever been.

Pampa should be justly proud of the Harvesters. Every one seems to be giving his heartiest moral support. We appreciate the fact that, even if we were good winners, Canadian was a good loser.

THE NEW SCHOOL BOY

One morning after school took up, I spied a stranger, He wore nothing on his head, And his feet were also bare.

And next day in classes, He beat every one, He took not a book home, And acted as if it were fun.

When the recess bell rang, And we all went out side, He played football with us, And we chose him on our side.

As the other side didn't think, That he could play at all, And never tried to catch him, When he started with the ball.

So he ran straight on through, Until he reached the goal, And soon there wasn't a boy in school, That thought that he was a droll.

And times have traveled on and on, And we have played and played, And he has never changed a bit, Since I first asked his aid.

—La Verne Vickers, (Fifth Grade)

HIGH SCHOOL EVOLUTION

(As seen by Miss Carter) As a Freshman answers: "Yes man."

A Sophomore: "Yes." A Junior: "Uh huh." A senior: "Huh."

Mr. Campbell is thinking of sending a delegation to all the business houses frequented by high school students to collect school books left over there by the careless. The Spot Light staff would like to suggest that a special committee be sent to each of the shows.

Baptist Circles Are Active in Meetings Wednesday

Circle One of the Baptist W. M. U. met at the home of Mrs. George Moore Wednesday afternoon, with Mrs. Moore as leader of the devotional. Mrs. Brake, chairman, was leader of the business session after which a lesson from the mission study book "China's Challenge to Christianity," was discussed, directed by the study teacher, Mrs. T. B. Solomon. The hostess served delicious fruit to the twelve members present.

Circle Two of the Baptist W. M. U. met with Mrs. R. M. Mitchell Wednesday afternoon. Mrs. Elmer Barrett lead the devotional. The circle completed their study of their mission book, "In Royal Service." The hostess served refreshments of ice cream and cake to the seven members and three visitors present.

Circle Three of the Baptist W. M. U. met with Mrs. Paul Link. After Mrs. Parris lead the devotional, a business session was held, in which plans were made to study a new text, "Plan of Salvation." Mrs. Link served refreshments of sandwiches and drinks to the twelve members present.

Circle Four of the Baptist W. M. U. met with Mrs. D. R. Henry Wednesday afternoon. Mrs. Nelson led the Mission study from the book, "Plan of Salvation," which was enjoyed by the five members present.

Ruth Reynolds Celebrates Birthday Wednesday Evening

Miss Ruth Reynolds celebrated her fourteenth birthday Wednesday evening in a lovely party at her home. She received many beautiful gifts and enjoyed the congratulations of her friends present.

The hours were spent in playing most enjoyable games and contests, after which refreshments of ice cream and cake were served to the following guests: Misses Frances Finley, Louise Halstad, Virginia

Rose, Mary and Marjorie Svinhart, Viva Cox, Adel Stone, Winfred and Avis Haakel, and Don Dodd, and Joe Kahl, Siler Faulker, Leo Saulsbury, Tom Bradford, Henry Reynolds, and Wiley and Noel Reynolds.

Mrs. Ernest Reynolds was assisted by Mrs. Haakel, Mrs. Stone, Mrs. Saulsbury, and Mrs. Halstad.

Methodist Society Holds Business and Social Meeting

A social and business meeting of the Methodist Missionary Society was held Wednesday afternoon at the home of Mrs. J. G. Noel. The hostess was assisted by Mrs. Zimmerman, Mrs. Gearhart, and Mrs. Hodkin. Mrs. W. Purviance, president of the society, had charge of the business, after which followed an enjoyable social hour.

The hostess served refreshments of salad, pumpkin pie, and coffee to the 36 guests present.

Sunday School Class Enjoys Party Saturday

Last Saturday night the Senior Sunday School class of the Methodist church enjoyed a Halloween party given at the home of Miss Evelyn and Donald Zimmerman. The home was decorated in Halloween colors and the lights were shaded by jack o'lanterns.

The guests were received by a "ghost" at the door. Games were played and enjoyed very much, then refreshments of sandwiches, cakes, and hot chocolate were served. Miss Whitely told the guests a most thrilling "ghost story" to break the spell of which they played a few more games.

Those present were the Misses Bernice Whitely, (teacher), Monte Winkler, Mary Yoder, Ruth Noel, Sadie and Elizabeth Cravy, and Evelyn Zimmerman, and Messers Vernon Lawrence, Lewis Fogliem, Albert Doucette, Ralph Irwin, Perry Morgan, and Donald Zimmerman.

All girls twelve years of age are invited to join the "Busy Maids" Sunday school class at the Methodist church, Sunday morning.

Social Calendar

There will be a masked Halloween party of the Azor Sunday school class in the basement of the Baptist church Friday night at 7:30 o'clock. All members are invited to attend.

Every Eastern Star member and her husband are invited to attend a Halloween party Monday night at 7:30 o'clock at the L. B. Hughey home.

The Rev. C. N. Williams, pastor of the Macedonian Baptist church of the city, has returned from an extended vacation and will commence his services Sunday morning.

Rev. Williams wishes to thank the residents of Pampa who have shown kindness to him and his people and says he is here to make Christians of his people in the city, and to help make a better Pampa.

Heating plants in office buildings, theatres and other large buildings of the future will be on the roofs instead of in the basements is the prediction of the convention of the American Gas Association.

BEAUTIFUL PRINCESS RUNS FARM IN SPAIN TO SUPPORT FAMILY

Being a princess means anything but a life of ease to Infanta Beatrice of Spain, whose family lost its fortune in post-war upheavals. She works long hours on her farm near Madrid, caring for herds and chickens, tending rabbits and managing vineyards.

MADRID, Spain—Royal princesses are usually pictured as leading pampered lives, into which neither worry nor woes ever entered. But in most instances the exact reverse is true, especially since the war cost many princesses or their families their fortunes.

The beautiful Infanta Beatrice of Spain, cousin of King Alfonso and sister of Queen Marie of Rumania, has to work 12 hours a day on her farm near Madrid to support herself, her husband and their three sons.

She can be seen any day digging potatoes, feeding poultry or caring for the cattle and pigs. She also has a large rabbit farm, and she looks after her father-in-law's vineyards and other properties, since her husband, the Infante Alfonso of Spain, gives all his time to the Spanish military aviation schools, of which he is head.

"It is no sinecure to be a farmer," said the charming princess as she scattered corn to several hundred chickens she had raised on her farm near Madrid. "We have lost our fortunes, and I must work like a Trojan every day because our daily bread depends upon it. Agriculture has always been my greatest hobby, but now it has become a grim reality with me. The management of the farm and of my father-in-law's vineyards and lands causes me many sleepless nights."

Like her sister Marie, the Infanta Beatrice not only possesses rare beauty, charm and grace of manner, but has many gifts in other directions. She is an expert at painting wood-carving, modeling and gardening.

"Custom and tradition," said the Infanta, "usually invest the lives of princesses with romance and glamour. But I assure you we don't always lead fairylike existences. We must work. Happily my father and mother saw to it that all the children of the family were given practical instruction in useful arts.

"If we were forced to shift for

ourselves we could all make a comfortable living on our own talents. My sister, Queen Marie, not only is an accomplished painter, but an able writer. Grand Duchess Cyril of Russia, my eldest sister, is a splendid flower painter. I studied wood-carving at Oberammergau."

Infanta Beatrice in addition to six other languages speaks exquisitely perfect English.

"I love horseback riding, swimming, tennis, airplane flying and figure skating," she says. "I also love to sing, having studied with Tosti and Rezska, but I have always been terrified at the thought of singing in public."

The princess wants to visit the United States and study American methods of farming, poultry-raising and dairying.

"I was to have gone last year with my sister, the Queen of Rumania," she said, "but King Alfonso" was afraid undue political or social significance would be attached to my visit, and so I had to put it off."

Menus for the Family

BY SISTER MARY

BREAKFAST—Halves of grapefruit, spinach with poached eggs on toast, whole wheat muffins, milk coffee.

LUNCHEON—Potato and onion pudding, toasted muffins, pear and peanut butter salad, grape sponge, milk, tea.

DINNER—Hamburg roast, steamed rice with tomato sauce, squash croquettes, celery and apple salad, rolled oats bread, date and nut pudding, milk, coffee.

Use vegetables in abundance when the season lasts. By constantly buying reasonable fruits and vegetables, which are naturally cheaper than out-of-season foods, it is quite possible to save enough to help out during the winter months when the food budget must be stretched to its utmost to provide the necessary

Modes of the Moment

Much braid is used in the Brandt collection which includes this navy velvet coat. Silver military frogs are formed of braid. The same motif is repeated in blue on the gray lining. Collar and cuffs are of short fur dyed white and mauve. The collar is formed like a cravat scarf and tied on the left side.

hearty foods.

Potato and Onion Pudding—Four medium sized potatoes, 4 medium sized onions, 1 tablespoon salt, 1-4 teaspoon pepper, 4 table-spoons butter, 2 eggs, 4 tablespoons buttered crumbs, 4 tablespoons milk.

Pare potatoes and cut in halves. Peel and cut onions in thick slices. Cook in boiling water to cover until tender. Drain. Put vegetables

through a ricer. Season with salt, pepper and butter and beat well. Beat eggs, until light, with milk and beat into vegetable mixture. Turn into a buttered baking dish. Cover with buttered crumbs and bake 25 minutes in a moderate oven. Serve from baking dish.

WELL, SIR - I'VE MADE UP MY MIND THAT I'M GOING TO ASK THE NEW STENOGRAPHER TO LUNCH TODAY - I'LL PARK DOWNSTAIRS AN' WAIT 'LL SHE COMES OUT

TWELVE FIFTEEN! NOT HERE YET - OH, WELL - IT TAKES THAT LONG FOR SOME GIRLS TO POWDER UP

ANOTHER FIVE MINUTES AN' MY LUNCH HOUR'S SHOT - WONDER WHAT TH' HECK'S KEEPING HER?

HASN'T TH' NEW GIRL BEEN OUT TO EAT YET?

NOPE - SHE CARRIES HER LUNCH!

LEGAL NOTICES

AN ORDINANCE

Defining "Milk" and Certain "Milk Products," "Milk Producer," "Pasteurization," etc., Prohibiting the Sale of Adulterated and Misbranded Milk and Milk Products, Regulating the Inspection of Dairy Farms and Milk Plants, the Testing, Grading, Labeling, Placing, Distribution, Sale, and Denaturing of Milk and Milk Products, Providing for the Publication of Milk Grades, the Construction of Future Dairies and Milk Plants, the Enforcement of this Ordinance, and the Fixing of Penalties.

Be it ordained by the Council of the city of Pampa, as follows: Section 1. Definitions. The following definitions shall apply to the interpretation and the enforcement of this ordinance: Milk.—(A) Milk is hereby defined to be the whole, fresh, clean, lacteal secretion obtained by the complete milking of one or more healthy cows, properly fed and kept, excluding that obtained within fifteen days before and five days after calving, or such longer period as may be necessary to render the milk practically colostrum free, which contains not less than eight and one-half per cent (8 1/2%) of solids not fat, and not less than three and one-fourth per cent (3 1/4%) of milk fat.

Milk fat or butter fat.—(B) Milk fat or butter fat is the fat of milk and has a Reichert-Meisler number of not less than twenty-four (24) and a specific gravity of not less than 0.905 (40 degrees C.—40 degrees C.). Cream.—(C) Cream, sweet cream is that portion of milk, rich in milk fat, which rises to the surface of milk on standing or is separated from it by centrifugal force, is fresh and clean, and which contains not less than eighteen per cent (18%) of milk fat, provided that cream having less than eighteen per cent milk fat shall be known as substituted cream having less than thirty per cent (30%) milk fat shall be known as light cream.

Cream having thirty per cent (30%) or more and less than forty per cent (40%) milk fat shall be known as heavy cream, and cream having forty per cent (40%) or more milk fat shall be known as extra heavy cream. Whipping cream and manufacturing cream are creams containing not less than 30% milk fat intended for whipping or manufacturing purposes, and the grades of same shall not be based on bacterial count.

Skimmed milk.—(D) Skimmed milk is milk from which substantially all the milk fat has been removed. Chocolate milk.—(E) Chocolate milk is defined as whole or adjusted or skimmed milk to which has been added in a sanitary manner a chocolate syrup composed of wholesome ingredients and which is labeled with the grade of milk or milk product from which it is made. If chocolate milk contains less than three and one-quarter (3 1/4%) milk fat, the label shall indicate the percentage of milk fat to which the milk has been adjusted. This section is optional with states.

Buttermilk.—(F) Buttermilk is the product which remains when milk fat is removed from milk or cream, sweet or sour, in the process of churning, and which contains not less than eight and five-tenths per cent (8 5/10%) of milk solids not fat. Cultured buttermilk.—(G) Cultured buttermilk is the product resulting from the souring or treatment by a lactic acid culture of milk or milk product. Evaporated milk (unsweetened).—(H) Evaporated milk (unsweetened) is milk from which a considerable portion of water has been evaporated and which contains not less than twenty-five and five-tenths per cent (25 5/10%) of milk solids and not less than seven and eight-tenths per cent (7 8/10%) milk fat.

Condensed milk (sweetened).—(I) Condensed milk (sweetened) is milk from which a considerable portion of water has been evaporated, to which sugar has been added, and which contains not less than twenty-eight per cent (28%) of milk solids and not less than eight per cent (8%) milk fat. Condensed skimmed milk.—(J) Condensed skimmed milk is skimmed milk from which a considerable portion of water has been evaporated, and which contains not less than twenty per cent (20%) of milk solids. Powdered (dried) whole milk.—(K) Powdered whole milk is milk from which substantially all the water has been removed, and which contains not less than twenty-six per cent (26%) of milk fat and not more than five per cent (5%) of moisture.

Powdered (dried) skimmed milk.—(L) Powdered skimmed milk is skimmed milk from which substantially all the water has been removed and which contains not more than five per cent (5%) of moisture. Recombined milk.—(M) Recombined milk is a substance produced by recombining powdered whole milk, powdered skimmed milk, condensed or evaporated whole milk, or skimmed milk, and milk fat, with water, and shall conform in milk-fat percentage and bacterial counts to the provisions of this ordinance relating to milk. Milk products.—(N) Milk products shall be taken to mean and include cream, skimmed milk, adjusted milk, buttermilk, cultured buttermilk, evaporated milk (unsweetened), condensed milk (sweetened), condensed skimmed milk, powdered whole milk, powdered skimmed milk, and recombined milk.

LEGAL NOTICES

LEGAL NOTICES

cess of heating every particle of milk or milk products to a temperature of not less than one hundred and forty-five degrees (145 degrees) Fahrenheit, and holding at that temperature for not less than thirty (30) minutes in pasteurization apparatus approved by the health officer, the temperature and time being automatically recorded by a device approved by the health officer. Adulterated milk and milk products.—(Q) Any substance added to any milk or milk product defined in this ordinance but not conforming with its definition as given in this ordinance shall be deemed adulterated and misbranded milk. Milk producer.—(R) A milk producer is any person, firm, or corporation which owns or controls one or more cows, a part or all of the milk from which is for sale, or sold or delivered to another person, firm, or corporation. This section shall not be construed to include what is generally known as "family cows."

Milk distributor.—(S) A milk distributor is any person, firm, or corporation which has in possession, custody, or control any milk or milk products for consumption or manufacturing purposes. Dairy or dairy farm.—(T) A dairy or dairy farm is any place or premises where one or more cows are kept, a part or all of the milk or milk products from which is sold or delivered to any person, firm, or corporation. This section shall not be construed to include what is generally known as "family cows."

Milk plant.—(U) A milk plant is any place, or premises, or establishment where milk or milk products are collected, handled, processed, stored, bottled, pasteurized, or prepared for distribution. Health officer.—(V) The health officer shall be taken to mean the health officer of the city of Pampa, or his authorized representative. Average bacterial count.—(W) Average bacterial count shall be taken to mean the average of the bacterial counts of all samples taken during the grading period, including at least four samples taken upon separate days.

Grading period.—(X) The grading period shall be such period of time as the health officer may designate, within which grades shall be determined for all milk and cream supplies, provided that the grading period shall in no case exceed six (6) months. Disinfectant.—(Y) A disinfectant is any germicidal substance approved by the health officer.

Section 2. The Sale of Adulterated or Misbranded Milk or Milk Products Prohibited.—No person, firm, association, or corporation shall sell, offer or expose for sale, or have in possession with intent to sell any milk or milk product which is adulterated or misbranded. Section 3. Permits.—It shall be unlawful for any person, firm, association, or corporation to bring into, or receive into the city of Pampa, for sale, or to have on hand any milk or milk product, excepting evaporated milk, condensed milk, powdered whole milk, and powdered skimmed milk, who does not possess an unrevoked permit from the health officer of the city of Pampa, and whose vehicles or in whose place of business there does not appear in a conspicuous place a placard showing the permit number in figures at least three inches high and one and one-half inches wide.

Such a permit may be revoked by the health officer upon the violation of the terms of this or any other health ordinance of the city of Pampa, provided that the holder of said permit shall, after complying with such revocation, have the right of appeal to the board of health. Section 4. Labels and Packages.—All bottles, cans, packages, and other containers enclosing milk or any milk product defined in this ordinance shall be plainly labeled or marked with (1) the name of the contents as given in the definitions in this ordinance; (2) the grade of the contents of said contents as graded under the provisions of this ordinance; (3) the word "pasteurized" if the contents have been pasteurized; (4) the word "raw" if the contents are raw; (5) name of producer or distributor. The label or mark shall be in letters of a size and kind approved by the health officer and shall contain no marks or words not approved by the health officer.

Every grocery store, restaurant, cafe, soda fountain, or similar establishment selling or serving milk shall display at all times, in a place designated by the health officer, a card furnished by the health officer, stating the grade of the milk, whether same is raw or pasteurized, and including the following statement: The Safest Grade of Milk is Grade "A" Pasteurized. Section 5. Inspection of Dairy Farms and Milk Plants for the Purpose of Testing, Grading or Regrading.—At least once during each grading period the health officer shall inspect every dairy farm producing milk or cream for consumption within the city of Pampa, and all milk plants from which milk or cream is intended for consumption within the city of Pampa. In case the health officer discovers the violation of any item of sanitation, he shall make a written inspection after a lapse of such time as he deems necessary for the defect to be remedied but not before the lapse of three days, and the second inspection shall be used in determining the grade of milk or cream. Two violations of this ordinance within any one grading period shall constitute immediate degrading.

One copy of the inspection report shall be posted by the health officer in a conspicuous place upon an inside wall of one of the dairy farm or milk plant buildings, and said inspection report shall not be removed

LEGAL NOTICES

LEGAL NOTICES

by any person except the health officer. Another copy of the inspection report shall be filed with the records of the health department. Section 6. The Testing of Milk and Milk Products.—During each grading period at least four samples of milk or cream from each dairy farm and each milk plant shall be tested by the health officer. Samples of milk and cream from stores, cafes, soda fountains, restaurants, and other places where milk products are sold shall be tested as often as the health officer may require. Bacterial counts shall be made in conformity with the plate-count method of the standard methods recommended by the American Public Health Association. Tests may include such other chemical and physical determinations as the health officer may deem necessary for the detection of adulteration. Notices of bacterial counts shall be given to the producer or distributor concerned as soon as made, or to any interested person on request. Samples may be taken by the health officer at any time prior to the final delivery of the milk or milk products. All stores, cafes, restaurants, soda fountains and other similar places shall furnish the health officer, upon his request, with the name of the milk distributor from whom their milk is obtained.

Should the market value of any single sample exceed twenty-five cents the city of Pampa shall pay the distributor therefor. Section 7. The Grading of Milk and Cream.—At least once every six (6) months the health officer shall announce through the press the grades of all milk and cream supplies delivered by all producers or distributors and ultimately consumed within the city of Pampa. Said grades shall be based upon the following standards, the grading of cream being identical with the grading of milk. Certified Milk.—Certified milk is milk which conforms with the requirements of the American Association of Medical Commissioners, and is produced under the supervision of the Medical Milk Commission of the Medical Society of Gray County, and of the State Board of Health or City or County Health Officer.

Grade "A" Raw Milk.—Grade "A" raw milk is milk the average bacterial count of which as determined under section 5 of this ordinance does not exceed 50,000 per cubic centimeter, and which is produced upon dairy farms conforming with all of the following items of sanitation. Cows: Tuberculosis and other diseases.—(1) A physical examination and tuberculin test of all cows shall be made before any milk therefrom is sold, and at least once every twelve months thereafter by a veterinarian approved by the health officer or by the State Veterinary Sanitary Authority, and said tests shall be made, and any reactors diseased, in accordance with the current requirements approved by the United States Bureau of Animal Industry for accredited herds. A certificate signed by the veterinarian and filed with the health officer shall be the only valid evidence of the above test. Every diseased animal shall be removed from the herd at once and no milk from diseased cows shall be offered for sale. All reacting animals shall be at once and immediately excluded from the premises. All animals failing to pass the T. B. test shall be "TB" on the shoulder, hip, or jaw, and removed at once and slaughtered under the direction of the health officer. Each letter in the brand shall be not less than two inches high and one and one-half inches wide.

Dairy barns.—(2) Lighting: Such sections of all dairy barns where cows are kept or milked shall have at least three square feet of window space for each stallion. (3) Air space: Such sections of all dairy barns where cows are kept or milked shall have at least five hundred (500) cubic feet of air space per stallion, and shall be well ventilated. (4) Floors: The floors and gutters of such parts of all dairy barns in which cows are kept or milked shall be constructed of concrete or other equally impervious and easily cleaned material approved by the health officer and shall be graded to drain properly, and shall be kept clean and in good repair. No horses, pigs, fowl, etc., shall be permitted in parts of the barn used for dairy purposes. (5) Walls and ceilings: The walls and ceilings of all dairy barns shall be white washed once each year or maintained once every two years, finished in a manner approved by the health officer, and shall be kept clean and in good repair.

There is a second story above that part of the barn in which the milk is kept or stored, the ceiling shall be tight. (6) Cow yards: Cow yards shall be graded and drained as well as practicable and kept clean. (7) Manure disposal: All manure shall be removed and stored or disposed of in such manner as best to prevent the breeding of flies here. Milk house or room.—(8) Construction: There shall be provided a separate milk house or milk room for the handling and storage of milk and the washing and sterilizing of milk apparatus and utensils, provided with a tight floor constructed of concrete or other impervious material and graded to provide proper drainage. The walls and ceilings of the milk house shall be of such construction as to permit easy cleaning, and shall be painted at least once each year or finished in a manner approved by the health officer. The milk house or room shall be well lighted and ventilated, and all openings effectively closed to prevent the entrance of flies, and shall be kept clean and in good repair.

Grade "B" Raw Milk.—Grade "B" raw milk is milk the average bacterial count of which at no time prior to delivery exceeds 200,000 per cubic centimeter, or which falls in class 1 as determined by the reductase test as described in the Standard Methods of Milk Analysis of the American Public Health Association, and which is produced upon dairy farms conforming with all the items of sanitation required for grade "A" raw milk except (1), (2), (4), (5), (6), (7), (8), (9), (10), (11), (12), (13), (14), (15), (16), (17), (18), (19), (20), (21), (22), (23), (24), or (25), provided that cleanliness shall in no case be omitted. Grade "C" Raw Milk.—Grade "C" raw milk is milk the average bacterial count of which at no time prior to delivery exceeds 1,000,000 per cubic centimeter, or which falls in class 2 as determined by the reductase test as described in the Standard Methods of Milk Analysis of the American Public Health Association, and which is produced upon dairy farms conforming with all the items of sanitation required for grade "B" raw milk except (1), (7), (13), (14), (23), (24), or (25), provided that cleanliness shall in no case be omitted.

Grade "D" Raw Milk.—Grade "D" raw milk which does not meet the requirements of grade "C" raw milk and the average bacterial count of which does not exceed 5,000,000 per cubic centimeter, or which falls in class 3 as determined by the reductase test as described in the Standard Methods of Milk Analysis of the American Public Health Association. Grade "A" Pasteurized Milk.—Grade "A" pasteurized milk is grade "A" or grade "B" raw milk which has been pasteurized, cooled, and bottled in a milk plant conforming with all of the following items of sanitation and the average bacterial count of which at no time prior to pasteurization and until delivery

exceeds 50,000 per cubic centimeter. Buildings and equipment.—(1) Floors: The floors of all rooms in which milk is handled shall be constructed of concrete or other equally impervious and easily cleaned material and shall be smooth, properly drained and provided with trapped drains, and kept clean. (2) Walls and ceilings: Walls and ceilings of rooms in which milk is handled or stored shall be frequently painted with a light-colored paint, or finished in a manner approved by the health officer, and kept clean. (3) Doors and windows: All openings into the outer air shall be effectively screened to prevent the access of flies. Doors shall be self-closing. (4) Lighting and ventilation: All rooms shall be well lighted and ventilated. (5) Protection from contamination and flies: The various milk-plant operations shall be so located and conducted as to prevent any contamination one to the other. All means necessary for the elimination of flies shall be used. This requirement shall be interpreted to include separate rooms for (a) the pasteurizing, cooling, and bottling operations; (b) the container-washing and sterilizing room operation. Totes and cans of raw milk shall not be unloaded directly into the pasteurizing room. (6) Toilet facilities: Every milk plant shall provide with toilet facilities conforming with the ordinance of the city of Pampa. There shall be at least one room or vestibule not used for milk purposes between the toilet room and any room in which milk or products are handled or stored. The doors of all toilet rooms shall be kept in a clean condition, in good repair, and well ventilated. In case privies or earth closets are permitted and used, they shall be located at least 100 feet from the building, and shall be of a sanitary type constructed and operated in conformity with the ordinance of the city of Pampa. (7) Water supply: The water supply shall be easily accessible, adequate, and of a safe, sanitary quality. (8) Washing facilities: Washing facilities shall be provided, including hot running water, soap, and sanitary towels of a type approved by the health officer. The use of common towels is prohibited. (9) Milk piping: Only "sanitary milk piping" of a type which can be easily cleaned with a brush shall be used. (10) Construction of equipment: All equipment with which milk comes in contact shall be constructed in such manner as to be easily cleaned. (11) Disposal of waste: All wastes shall be disposed of in conformity with the requirements of the health officer. (12) All milk containers and milk apparatus shall be thoroughly cleaned after each usage and sterilized in a manner approved by the health officer immediately before each usage. (13) Storage of containers: All sterilization bottles, cans, and other containers shall be stored in such a manner as to be protected from contamination. (14) Handling of containers and apparatus: Between sterilization and usage all containers and apparatus shall be handled in such a manner as to prevent any part of the person or clothing from coming in contact with any surface with which milk or milk products come in contact. (15) Storage of caps: Milk-bottle caps shall be purchased and stored only in sanitary tubes and shall be kept therein until used. (16) Pasteurization: Pasteurization shall be performed as described in the definition section of this ordinance. The time and temperature records chart shall be dated and preserved for a period of three months for the information of the health officer. (17) Cooling: All milk not pasteurized within two hours after it is received at the plant shall then be immediately cooled to a temperature of 50 degrees Fahrenheit or less and maintained thereat until pasteurized; and all pasteurized milk shall be immediately cooled to a temperature of 50 degrees Fahrenheit or less and maintained thereat until delivery. (18) Bottling: Bottling shall be done in automatic machinery approved by the health officer in such manner as to prevent any part of the person or clothing from coming in contact with any surface with which milk or milk products come in contact. (19) Overflow milk: Overflow milk which has become machine-contaminated shall not be sold for human consumption. (20) Capping: Capping shall be done by machinery approved by the health officer. Hand capping is prohibited. (21) Time of delivery: Milk to be consumed in the form of whole milk shall be delivered to the final consumer within 36 hours of the time of pasteurization. Personnel.—(22) Health certificates: Every person connected with a dairy or milk plant whose work brings him or her in contact with the production, handling, storage, or transportation of milk or milk products shall have within twelve months passed a medical examination made by the health officer. (23) Notification of disease: Notice shall be sent to the health officer immediately by any milk producer or distributor upon whose dairy farm any case of sickness or any infectious, contagious, or communicable disease occurs.

LEGAL NOTICES

LEGAL NOTICES

and conducted as to prevent any contamination one to the other. The milk room shall not open directly into the barn or into any room used for sleeping or domestic purposes. (9) Cleanliness and flies: The floors, walls, ceilings, and equipment of the milk house or room shall be kept clean at all times. All means necessary for the elimination of flies shall be used. (10) Toilet: Every dairy farm shall be provided with a sanitary toilet constructed and operated in accordance with the ordinances of the city of Pampa. (11) Water supply: The water supply shall be easily accessible, adequate, and of a safe sanitary quality. Utensils.—(12) Construction: All containers or utensils used in handling or storage of milk or milk products must be made of non-absorbent material and of such construction as to be easily cleaned, and must be in good repair. Joints and seams shall be soldered flush. All milk pails shall be of a narrow-mouth design approved by the health officer. (13) Cleaning: All containers and other utensils used in the handling, storage, or transportation of milk and milk products must be thoroughly cleaned after each usage. (14) Sterilization: All containers and other utensils used in the handling, storage, or transportation of milk or milk products shall be between each usage be sterilized with steam or chlorine or in a manner approved by the State health authority. (15) Storage: All containers and other utensils used in the handling, storage or transportation of milk or milk products shall be stored so as not to become contaminated before again being used. (16) Handling: After sterilization no container or other milk or milk product utensil shall be handled in such manner as to permit any part of the person or clothing to come in contact with any surface with which milk or milk products come in contact. (17) Udders and teats: The udders and teats of all milking cows shall be clean at the time of milking. (18) Flanks: The flanks of all milking cows shall be kept free from visible dirt at the time of milking. (19) Milkers' hands: Milkers' hands shall be clean, rinsed with a disinfectant, and dried with a clean towel immediately before milking. Should the milking operation be interrupted, the milker's hands must be re-disinfected. Wet hand milking is prohibited. Convenient facilities shall be provided for the washing of milkers' hands. (20) Clean clothing: Milkers and milk handlers shall wear clean outer garments while working. (21) Milk stools: Milk stools shall be kept clean. (22) Removal of milk: Each pail of milk shall be removed immediately to the milk house or straining room. No milk shall be strained in the dairy barn. (23) Cooling: Milk must be cooled within one hour after milking to 50 degrees Fahrenheit or less and maintained at or below that temperature until delivery, unless it is delivered to a milk plant for pasteurization or separation, in which case it must be cooled or pasteurized within two hours of the time of production. (24) Bottling and capping: Capping shall be done by machine. Caps shall be purchased in sanitary tubes and kept therein in a clean place until used. Personnel.—(25) Health certificates: Every person connected with a milk plant whose work brings him or her in contact with the production, handling, storage, or transportation of milk or milk products shall have within twelve months passed a medical examination made by the health officer. (26) Notification of disease: Notice shall be sent to the health officer immediately by any milk producer or distributor upon whose dairy farm any case of sickness or any infectious, contagious, or communicable disease occurs.

Grade "B" Raw Milk.—Grade "B" raw milk is milk the average bacterial count of which at no time prior to delivery exceeds 200,000 per cubic centimeter, or which falls in class 1 as determined by the reductase test as described in the Standard Methods of Milk Analysis of the American Public Health Association, and which is produced upon dairy farms conforming with all the items of sanitation required for grade "A" raw milk except (1), (2), (4), (5), (6), (7), (8), (9), (10), (11), (12), (13), (14), (15), (16), (17), (18), (19), (20), (21), (22), (23), (24), or (25), provided that cleanliness shall in no case be omitted. Grade "C" Raw Milk.—Grade "C" raw milk is milk the average bacterial count of which at no time prior to delivery exceeds 1,000,000 per cubic centimeter, or which falls in class 2 as determined by the reductase test as described in the Standard Methods of Milk Analysis of the American Public Health Association, and which is produced upon dairy farms conforming with all the items of sanitation required for grade "B" raw milk except (1), (7), (13), (14), (23), (24), or (25), provided that cleanliness shall in no case be omitted.

Grade "D" Raw Milk.—Grade "D" raw milk which does not meet the requirements of grade "C" raw milk and the average bacterial count of which does not exceed 5,000,000 per cubic centimeter, or which falls in class 3 as determined by the reductase test as described in the Standard Methods of Milk Analysis of the American Public Health Association. Grade "A" Pasteurized Milk.—Grade "A" pasteurized milk is grade "A" or grade "B" raw milk which has been pasteurized, cooled, and bottled in a milk plant conforming with all of the following items of sanitation and the average bacterial count of which at no time prior to pasteurization and until delivery

exceeds 50,000 per cubic centimeter. Buildings and equipment.—(1) Floors: The floors of all rooms in which milk is handled shall be constructed of concrete or other equally impervious and easily cleaned material and shall be smooth, properly drained and provided with trapped drains, and kept clean. (2) Walls and ceilings: Walls and ceilings of rooms in which milk is handled or stored shall be frequently painted with a light-colored paint, or finished in a manner approved by the health officer, and kept clean. (3) Doors and windows: All openings into the outer air shall be effectively screened to prevent the access of flies. Doors shall be self-closing. (4) Lighting and ventilation: All rooms shall be well lighted and ventilated. (5) Protection from contamination and flies: The various milk-plant operations shall be so located and conducted as to prevent any contamination one to the other. All means necessary for the elimination of flies shall be used. This requirement shall be interpreted to include separate rooms for (a) the pasteurizing, cooling, and bottling operations; (b) the container-washing and sterilizing room operation. Totes and cans of raw milk shall not be unloaded directly into the pasteurizing room. (6) Toilet facilities: Every milk plant shall provide with toilet facilities conforming with the ordinance of the city of Pampa. There shall be at least one room or vestibule not used for milk purposes between the toilet room and any room in which milk or products are handled or stored. The doors of all toilet rooms shall be kept in a clean condition, in good repair, and well ventilated. In case privies or earth closets are permitted and used, they shall be located at least 100 feet from the building, and shall be of a sanitary type constructed and operated in conformity with the ordinance of the city of Pampa. (7) Water supply: The water supply shall be easily accessible, adequate, and of a safe, sanitary quality. (8) Washing facilities: Washing facilities shall be provided, including hot running water, soap, and sanitary towels of a type approved by the health officer. The use of common towels is prohibited. (9) Milk piping: Only "sanitary milk piping" of a type which can be easily cleaned with a brush shall be used. (10) Construction of equipment: All equipment with which milk comes in contact shall be constructed in such manner as to be easily cleaned. (11) Disposal of waste: All wastes shall be disposed of in conformity with the requirements of the health officer. (12) All milk containers and milk apparatus shall be thoroughly cleaned after each usage and sterilized in a manner approved by the health officer immediately before each usage. (13) Storage of containers: All sterilization bottles, cans, and other containers shall be stored in such a manner as to be protected from contamination. (14) Handling of containers and apparatus: Between sterilization and usage all containers and apparatus shall be handled in such a manner as to prevent any part of the person or clothing from coming in contact with any surface with which milk or milk products come in contact. (15) Storage of caps: Milk-bottle caps shall be purchased and stored only in sanitary tubes and shall be kept therein until used. (16) Pasteurization: Pasteurization shall be performed as described in the definition section of this ordinance. The time and temperature records chart shall be dated and preserved for a period of three months for the information of the health officer. (17) Cooling: All milk not pasteurized within two hours after it is received at the plant shall then be immediately cooled to a temperature of 50 degrees Fahrenheit or less and maintained thereat until pasteurized; and all pasteurized milk shall be immediately cooled to a temperature of 50 degrees Fahrenheit or less and maintained thereat until delivery. (18) Bottling: Bottling shall be done in automatic machinery approved by the health officer in such manner as to prevent any part of the person or clothing from coming in contact with any surface with which milk or milk products come in contact. (19) Overflow milk: Overflow milk which has become machine-contaminated shall not be sold for human consumption. (20) Capping: Capping shall be done by machinery approved by the health officer. Hand capping is prohibited. (21) Time of delivery: Milk to be consumed in the form of whole milk shall be delivered to the final consumer within 36 hours of the time of pasteurization. Personnel.—(22) Health certificates: Every person connected with a dairy or milk plant whose work brings him or her in contact with the production, handling, storage, or transportation of milk or milk products shall have within twelve months passed a medical examination made by the health officer. (23) Notification of disease: Notice shall be sent to the health officer immediately by any milk producer or distributor upon whose dairy farm any case of sickness or any infectious, contagious, or communicable disease occurs.

Grade "B" Raw Milk.—Grade "B" raw milk is milk the average bacterial count of which at no time prior to delivery exceeds 200,000 per cubic centimeter, or which falls in class 1 as determined by the reductase test as described in the Standard Methods of Milk Analysis of the American Public Health Association, and which is produced upon dairy farms conforming with all the items of sanitation required for grade "A" raw milk except (1), (2), (4), (5), (6), (7), (8), (9), (10), (11), (12), (13), (14), (15), (16), (17), (18), (19), (20), (21), (22), (23), (24), or (25), provided that cleanliness shall in no case be omitted. Grade "C" Raw Milk.—Grade "C" raw milk is milk the average bacterial count of which at no time prior to delivery exceeds 1,000,000 per cubic centimeter, or which falls in class 2 as determined by the reductase test as described in the Standard Methods of Milk Analysis of the American Public Health Association, and which is produced upon dairy farms conforming with all the items of sanitation required for grade "B" raw milk except (1), (7), (13), (14), (23), (24), or (25), provided that cleanliness shall in no case be omitted.

Grade "D" Raw Milk.—Grade "D" raw milk which does not meet the requirements of grade "C" raw milk and the average bacterial count of which does not exceed 5,000,000 per cubic centimeter, or which falls in class 3 as determined by the reductase test as described in the Standard Methods of Milk Analysis of the American Public Health Association. Grade "A" Pasteurized Milk.—Grade "A" pasteurized milk is grade "A" or grade "B" raw milk which has been pasteurized, cooled, and bottled in a milk plant conforming with all of the following items of sanitation and the average bacterial count of which at no time prior to pasteurization and until delivery

exceeds 50,000 per cubic centimeter. Buildings and equipment.—(1) Floors: The floors of all rooms in which milk is handled shall be constructed of concrete or other equally impervious and easily cleaned material and shall be smooth, properly drained and provided with trapped drains, and kept clean. (2) Walls and ceilings: Walls and ceilings of rooms in which milk is handled or stored shall be frequently painted with a light-colored paint, or finished in a manner approved by the health officer, and kept clean. (3) Doors and windows: All openings into the outer air shall be effectively screened to prevent the access of flies. Doors shall be self-closing. (4) Lighting and ventilation: All rooms shall be well lighted and ventilated. (5) Protection from contamination and flies: The various milk-plant operations shall be so located and conducted as to prevent any contamination one to the other. All means necessary for the elimination of flies shall be used. This requirement shall be interpreted to include separate rooms for (a) the pasteurizing, cooling, and bottling operations; (b) the container-washing and sterilizing room operation. Totes and cans of raw milk shall not be unloaded directly into the pasteurizing room. (6) Toilet facilities: Every milk plant shall provide with toilet facilities conforming with the ordinance of the city of Pampa. There shall be at least one room or vestibule not used for milk purposes between the toilet room and any room in which milk or products are handled or stored. The doors of all toilet rooms shall be kept in a clean condition, in good repair, and well ventilated. In case privies or earth closets are permitted and used, they shall be located at least 100 feet from the building, and shall be of a sanitary type constructed and operated in conformity with the ordinance of the city of Pampa. (7) Water supply: The water supply shall be easily accessible, adequate, and of a safe, sanitary quality. (8) Washing facilities: Washing facilities shall be provided, including hot running water, soap, and sanitary towels of a type approved by the health officer. The use of common towels is prohibited. (9) Milk piping: Only "sanitary milk piping" of a type which can be easily cleaned with a brush shall be used. (10) Construction of equipment: All equipment with which milk comes in contact shall be constructed in such manner as to be easily cleaned. (11) Disposal of waste: All wastes shall be disposed of in conformity with the requirements of the health officer. (12) All milk containers and milk apparatus shall be thoroughly cleaned after each usage and sterilized in a manner approved by the health officer immediately before each usage. (13) Storage of containers: All sterilization bottles, cans, and other containers shall be stored in such a manner as to be protected from contamination. (14) Handling of containers and apparatus: Between sterilization and usage all containers and apparatus shall be handled in such a manner as to prevent any part of the person or clothing from coming in contact with any surface with which milk or milk products come in contact. (15) Storage of caps: Milk-bottle caps shall be purchased and stored only in sanitary tubes and shall be kept therein until used. (16) Pasteurization: Pasteurization shall be performed as described in the definition section of this ordinance. The time and temperature records chart shall be dated and preserved for a period of three months for the information of the health officer. (17) Cooling: All milk not pasteurized within two hours after it is received at the plant shall then be immediately cooled to a temperature of 50 degrees Fahrenheit or less and maintained thereat until pasteurized; and all pasteurized milk shall be immediately cooled to a temperature of 50 degrees Fahrenheit or less and maintained thereat until delivery. (18) Bottling: Bottling shall be done in automatic machinery approved by the health officer in such manner as to prevent any part of the person or clothing from coming in contact with any surface with which milk or milk products come in contact. (19) Overflow milk: Overflow milk which has become machine-contaminated shall not be sold for human consumption. (20) Capping: Capping shall be done by machinery approved by the health officer. Hand capping is prohibited. (21) Time of delivery: Milk to be consumed in the form of whole milk shall be delivered to the final consumer within 36 hours of the time of pasteurization. Personnel.—(22) Health certificates: Every person connected with a dairy or milk plant whose work brings him or her in contact with the production, handling, storage, or transportation of milk or milk products shall have within twelve months passed a medical examination made by the health officer. (23) Notification of disease: Notice shall be sent to the health officer immediately by any milk producer or distributor upon whose dairy farm any case of sickness or any infectious, contagious, or communicable disease occurs.

Grade "B" Raw Milk.—Grade "B" raw milk is milk the average bacterial count of which at no time prior to delivery exceeds 200,000 per cubic centimeter, or which falls in class 1 as determined by the reductase test as described in the Standard Methods of Milk Analysis of the American Public Health Association, and which is produced upon dairy farms conforming with all the items of sanitation required for grade "A" raw milk except (1), (2), (4), (5), (6), (7), (8), (9), (10), (11), (12), (13), (14), (15), (16), (17), (18), (19), (20), (21), (22), (23), (24), or (25), provided that cleanliness shall in no case be omitted. Grade "C" Raw Milk.—Grade "C" raw milk is milk the average bacterial count of which at no time prior to delivery exceeds 1,000,000 per cubic centimeter, or which falls in class 2 as determined by the reductase test as described in the Standard Methods of Milk Analysis of the American Public Health Association, and which is produced upon dairy farms conforming with all the items of sanitation required for grade "B" raw milk except (1), (7), (13), (14), (23), (24), or (25), provided that cleanliness shall in no case be omitted.

No. 165.

Nettie Blakely vs. I. M. Blakely in
the 84th District Court, Gray
County, Texas.
The State of Texas to the Sheriff or
any Constable of Gray County—
GREETING:
You are hereby commanded, that
by making publication of this Citation
in some newspaper published in
the County of Gray once in each
week for four consecutive weeks
previous to the return day hereof,
you summon I. M. Blakely whose
residence is unknown who is alleged
to be a non-resident of the State of
Texas, to be and appear at the next
regular term of the 84th District
Court of Gray County, to be held at
the Court House thereof, in the
City of Lefors on the 1st Monday in
November, A. D. 1927, the same being
the 7th day of November, A. D.
1927, then and there to answer a
petition filed in said Court on the 4
day of October, A. D. 1927.

In a suit, numbered on the Docket
of said Court, No. 165 wherein
Nettie Blakely is plaintiff, and I. M.
Blakely is defendant, the nature of
plaintiffs demand being substantially
as follows, to-wit:

That defendant is guilty of excess
cruel treatment and inhuman
and outrageous conduct towards
plaintiff of such a nature as to render
their living together insupportable.

Plaintiff prays for divorce, judgment
dissolving marriage contract.
Herein fall not, but have you before
said Court on the said first day
of next term thereof this writ with
your return thereon, showing how
you have executed the same.

Given under my hand and seal of
said Court, at office in the City of
Lefors, this the 4th day of October,
A. D. 1927.
Witness, Charlie Thurt, Clerk of
84th District Court in and for Gray
County, Texas. 27-28-29-30.

CITATION BY PUBLICATION
The State of Texas to the Sheriff or
any Constable of Gray County—
GREETING:
Bertha McGill vs. A. D. McGill in
Texas.

You are hereby commanded, that
by making publication of this citation
in some newspaper published in
the County of Gray once in each
week for four consecutive weeks
previous to the return day hereof,
you summon A. D. McGill whose
residence is unknown, who is alleged
to be a non-resident of the State of
Texas, to be and appear at the regular
term of the 84th District Court
of Gray County, to be held at the
Court House thereof, in the City of
Lefors, Texas, on the first Monday
in November, A. D. 1927, the same
being the 7th day of November, A.
D. 1927, then and there to answer
a petition filed in said Court on the
3th day of June, A. D. 1927, in a suit
numbered on the docket of said
Court, No. 123 wherein Bertha McGill
is plaintiff, and A. D. McGill is
defendant; the nature of plaintiffs
demand being substantially, as follows,
to-wit:

That defendant is guilty of excess
cruel treatment and inhuman
and outrageous conduct toward
plaintiff of such a nature as to render
their living together insupportable.

Plaintiff prays, for a divorce, judgment
dissolving marriage contract.
Herein fall not, but have you before
said Court on the said first day
of next term hereof this writ with
your return thereon, showing how
you have executed the same.

Given under my hand and seal of
said Court, at office in City of
Lefors, Texas, this the 4th day of
October, A. D. 1927. Witness, Charlie
Thurt, District Clerk of Gray Court
in and for Gray County, Texas. 27-
28-29-30.

CITATION BY PUBLICATION
The State of Texas to the Sheriff or
any Constable of Gray County—

at South Oxler street, between
the hours of 10 a. m. and
4 p. m. Saturday, October 15, 1927,
a 3-story bridge truck, engine number
A 2733, item number 17, M-
5547-36, for a stock and repair
charges amounting to about \$65.

C. O. REEDS

City Officer Is Hurt in Fall

City Officer J. I. Downs suffered
a broken collar bone and injured ribs
Monday about 7:30 o'clock when he
slipped and fell into the excavation
at the rear of the Methodist
church.

The officer was conducting an
investigation at the time of the
accident, and in the dark walked
close to the edge of the cellar. He
was taken to a doctor, where his
injuries received attention. He is able
to be out today.

A 12-pound boy was born to Mr.
and Mrs. A. F. Johnston at 4 a. m.
today. Mr. Johnston is superintendent
of the production department of
the Wilcox Oil and Gas company.

Close Fights On Athletic Club Program--Carter Absorbs Blows of Oklahoman Without Damage

Jimmie Carter, veteran exponent
of the "come and get me" crouch
and the terrible uppercut that frequently
looks like it is going to drop
the opposition, but doesn't, met a
game young Oklahoman at the Pampa
Athletic club Monday and surrendered
to about 55 per cent of the work
to this Bobby Vincent.

Young Bobby was willing, but not
effective, and his continual leading
and his adroit dodging of Carter's
blows were slightly more impressive
than the latter's well-known
toughness.

Vincent, Oklahoma Aggie, heralded
as a wonder who surrendered the
Oklahoma lightweight belt to Wildcat
Monte because of broken hand,
has fully recovered. None doubts that
after seeing him smash both mits
repeatedly on the smooth pate and
arched vitrae of the veteran, Carter,
gifted with the terrapin-like ability
to draw his head into his shoulders
after the manner of Zbysko the
elder, presented a target composed
mainly of bald head, brawny arms,
and elbows. Blows rained upon this
array throughout the bout, but at
the end Carter was still absorbing
with clown-like good humor everything
that Vincent had to offer.

In the last round Vincent offered
a plenty for the major portion,
landing a whirlwind upon Carter's
shielded form. The youngster wore
himself down and took a triple set
of hard blows as the fight ended,
but neither man was badly worn
nor marked. Vincent, conqueror of

Granite and challenger for the Oklahoma
title, likely will be seen again
here. While he could do little with
the popular Carter except hit him,
his showing was one to bring a demand
for a match with a pugilist
more of his type.

Battling Bob went six rounds with
Rusty Cahill, who substituted for
Slate who was unable to be in Pampa
for the semi-final. Cahill landed
hard and often in the first round and
dropped Battling Bob for the count
of nine early in the second round
when he opened a cut over the latter's
eye. Bob probably saved from a
K. O. by the bell in the same round
when Rusty landed one of his famous
uppercuts.

The youngster from Beaumont
came back fresh for the third round
and bombarded Cahill with lefts and
rights, Cahill being willing to spar
and dodge the blows during the rest
of the route.

Davis and Turner lined up in a
four-round event which was interesting
up until the last round when
both boys tired. They looked one
another over carefully in the last
round but failed to land more than
one solid blow apiece.

The youngsters provided the entertainment
in the early events of
the evening.

The largest crowd that has ever
witnessed an event in the Pampa
Athletic club saw the big card last
night. The management is preparing
to build a roof on the club which
will be completed this week.

Adults to Have Outdoor Training Session in Boy Scout Work Here On November 2--Troop Treated

Plans are under way to hold a
all-day training session for adults
who are interested in Boy Scout
and their work Nov. 24.

It is planned to have representatives
from Canadian, Miami, Panhandle
and Wheeler present for the day.

The session will be held in the open
where meals will be prepared
without the use of cooking utensils.
Tom H. Nelson, Panhandle area executive,
will be in charge and will be
assisted by assistant area executives.

A place of meeting has not yet
been decided yet.

Scout masters J. D. Sackett and
L. P. Duvall and 36 members of the
Methodist church and five department
troops were guests of the Crescent
theatre Friday night after the
regular meeting at the church. The
boys marched to the theatre and took
their seats with the discipline of soldiers.
There was neither fuss nor
confusion when the troops entered
the theatre.

Ten new members were received
into the Boy Scout organization last
night to make a total of 61 members.
The troop has been split into
two sections, one to be sponsored by
the fire department.

A boy cannot become a recognized
member of the Pampa troop
until he has earned a dollar and
placed it in the bank in his name.
Several boys who are desirous of
joining the organization have not
earned their dollar. Anyone in the
city who wishes light work done
Saturday may call the Pampa Daily
News office or the Rev. Tom Brabham
and a Boy Scout will be sent
to do the work.

Canadian Wins Over Locals in Golf Sunday

Canadian's Golf team arrived in
Pampa Sunday morning determined
to wipe out the insult handed their
High school football team Friday
afternoon and they succeeded, although
it was not a riot.

Before commencing the friendly
match members of the Canadian
team were guests of the local club
at a dinner given at the Schneide
hotel.

The match got away with Ott
Studer and Morgan Davie in the
lead. Studer beat his man three-up.
Jack Berry led Tom Thomas, and
the finish was three-up. Dick Duncan
was defeated by Frank Chambers,
two-up. Willard Sage lost to
Marion Adams, two-up, in a spirited
match all the way.

Playing steady golf Myers was
able to tie Bruce Waterfield, the
Canadian ace. Gusting was three down
on Top Reagan at the end of their
match. Phil Carlson was trailing
Studer two at the last hole. Ivo
Duncan and Oscar Studer battled
all through their game. Duncan being
one-down at the end. Tom Ashby
the last man on the flight beat Tom
Welsh two-up.

JOE SMITH APPOINTED TO MANAGERSHIP OF SCHOOLS

In order to care for the growing
needs of the Pampa Independent
School district, the board of trustees
has effected an arrangement by
which Joe M. Smith has become
general manager.

Mr. Smith has resigned his position
on the board and taken over
the new work, with later will include
assessment and collection of
school taxes in the district. His work
is on a straight salary basis. The
duties will include that hereafter

resting with the secretary of the
board, and those of purchasing agent
and representative of the board
in matters arising from day to day.
It is believed the saving and efficiency
resulting from the arrangement
will more than represent the
expense of the office.

The board selected Chas. C. Cook
to fill the unexpired term of Mr.
Smith, and the former took the oath
of office yesterday. Mr. Cook will
serve until April.

Boy Scouts Find Alleys and Many Homes and Residences In Need of Further Cleaning

Only 40 percent of the business
houses and residences of the city
were given a clean bill by the Boy
Scouts in their fire prevention
campaign last Saturday. More than
1,000 reports were turned in to the
Rev. Tom Brabham after the survey.

In going over the reports, it was
noticed that the alleys of the city
are in a deplorable condition, not
only being strewn with rubbish, but
being a menace to the health of
residents of the city. The Scouts will
ask the city council to take up the
matter immediately as the longer
the condition lasts the greater menace
it is to the city.

During the drive not only business
houses and residences were inspected,
but the vacant lots in the
city. The residential sections of
the city were in much better condition
than the business section.

In appreciation of the assistance
rendered by the Scouts, local merchants
subscribed enough money to
pay for the banners used in the
parade, and to purchase a loving
cup to be presented to the Scout troop
by Mayor F. P. Reid within the next
two weeks.

The following merchants and individuals
contributed to the Fire
Prevention Week fund:

F. P. Kees, Mitchell's, Gordon
Stores company, People's store,
Diamond C Dry Goods company, C.
B. Barnard Dry Goods company,
Kraft's Mint, C. & C. Mercantile
company, Woodward-Lane grocery,
Kees & Thomas, Crystal Palace confectionary,
Cross Dry Goods company,
Hayter Bros. store, Russell
Jewelry, L. T. Hill company, J. S.
Wynne, Wade's store, C. T. Hunkapillar,
M-System store, C. V. Gott,
E. S. Graves, Morris Drug store,
John Roby, Panhandle Lumber
company, J. E. Murfee company,
Biggs Horn company, W. W. Henry,
Central Market & Grocery, B. & O.
Cafe, Walter Coffee, Bonney's cafe,
H. & K. Drug store, O. T. Smith.

W. C. Montgomery was chairman
of committees for the week, and
the merchants' committee was composed
of A. A. Gordon, W. C. Mitchell, and
J. E. Murfee.

Waldstad on Canadian's 39-yard
line. Jones and Maness made
17 yards on line plays.

Two off-tackle plays advanced the
ball 6 yards and then a Waldstad-to-
Clayton pass netted 22 yards more.
Maness followed around left end
for 19 yards, which placed the ball
on the Canadian 2-yard line at the
end of the quarter.

At the opening of the second
quarter Robinson went in for Kennedy,
Seltz for Kahl, Bishop for
Mason and Green for Clayton. On
the first play Roberts split guard and
tackle for 3 yards and another
touchdown. Waldstad dropped one over
the bars for the extra point.

Good End Run
Dorsey took Stalls' boot and returned
it 15 yards to his 42-yard
line. Pampa was penalized 5 yards
for an offside. On the next play
Calwell skirted right end for 20 yards.
Calwell went across the field to gain
a yard. Dorsey fumbled but recovered,
but on the next play fumbled
again, Pampa recovering the ball.

Green and Waldstad carried the
ball 12 yards. Pampa was penalized
for being offside. Carlton was
sent in to replace Waldstad at
quarter. On the first play, Carlton,
although suffering with sore ankles,
took the ball on his 35-yard line and
ran through a broken field of
yards before being downed. Carlton
made 4 yards, but on the next play
Green failed to go over. Carlton
made the necessary yard through
center and Jones kicked the point.

Some Fumbles
J. Ayres replaced Carlton at
quarter. Wood made 7 yards on the
kick off to place the ball on his 25-yard
line. Two forward passes from
Dorsey to Calwell and Calwell to Coyn
gained Canadian 15 yards. Dorsey
fumbled and Roberts fell on the ball
but the whistle had blown as Dorsey
hit the ground. Calwell, Abraham:

and Calwell made 4 yards on four
downs to lose the ball. Maness made
11 yards, and on the next play went
around right end for 40 yards and
a touchdown. Jones dropped one over
for the extra point.

Jones kicked out of bounds behind
the Canadian goal line, the ball
being brought out to the Canadian
20-yard line. Three line plays failed
to make a gain and on the last
down Pampa took the ball, but was
penalized 10 yards for holding, followed
by a 5-yard penalty for offside.
Maness made 2 yards and the
ball was on the Canadian 33 yard
line at half-time with the score:
Pampa 40, Canadian 0.

Score From Kick-Off
On the prettiest play of the day
Roberts took the Kick-off on his 20-
yard line and in the middle of perfect
interference ran the ball 30
yards for a touchdown. Waldstad
added the extra point. The Pampa team
was using a new form of interference
which had the Canadian team
guessing Pampa's kick-off carrier
the ball to Canadian's 12-yard line,
but Pampa being offside, the ball
was called back for another kick-off.
This time Woods juggled the ball on
his 20-yard line, but managed to
hold on to it, and returned it for 3
yards. After two short line bucks
and an incomplete forward pass,
Batsel booted the ball to Waldstad
on Canadian's 48-yard line. On the
first play, Waldstad got away on a
48-yard end run for a touchdown.
Waldstad failed to make the extra
point.

Still Scoring
Pampa kicked again, Woods receiving
the ball on his 10-yard line,
carrying it to the 22-yard marker.
Dorsey failed to gain over the line,
and Boyd was thrown out of bounds
for a 5-yard loss. Dorsey then threw
a pass that was intercepted by Waldstad
and returned for 15 yards. Two
forward passes were incomplete, and
Pampa was penalized 5 yards. Waldstad
then took the ball across
the field for 29 yards and a touchdown,
and followed it up by kicking the
point.

Stall's kickoff was fumbled by
Coyn, Salsbury recovering the ball
on Canadian's 29-yard line. Waldstad's
forward pass was intercepted by
Boyd who was downed on his 15-
yard line. Dorsey went to sleep and
let the ball hit him on the chest, and
Salsbury recovered the ball on
Canadian's 4-yard line. Roberts first
line plunge carried the ball to within
3 inches of the line, and the next
play Roberts carried it over for
another touchdown, but Waldstad failed
to make the extra point.

Abrahams took the kick-off on his
2-yard line, and carried it 4 yards
before being downed by Salsbury.
A play over the line lost Canadian
3 yards, and a fake punt, that
trihed out to be a pass, was incomplete.
Batsel then punted to Waldstad who
fumbled. Canadian recovering the
ball on their 24-yard line. Abraham's
forward pass was intercepted by
Stalls who carried it to the 8 yard
line. Time was called for Baldwin's
straight arm. The ball was on Canadian's
8-yard line at the end of the
quarter.

The line-up:
PAMPA (79) CANADIAN (9)
Salsbury, le. re. Coyn
Stalls, lt. st. Kinde
Kennedy, lg. re. Bater
Kahl, c. st. Sherman

- Complete water, sewer systems.
- More and better homes.
- Extend Pampa trade territory.
- Develop dairying industry.
- Municipal band.
- Municipal airport.
- Pampa Fair.
- Associated Charities.

WOOL TRADE—A lot of American minds are going wool gathering, and it is going to be on the subject of wool, too.

Wool is not as high in price as the growers would like and a number of pools have been formed to hold out for better prices. This is a matter of much interest in Texas, since San Angelo claims to be the greatest inland market and much of the product is exported.

It is difficult to find out what is going on in the wool business. Despite the popular demand for woolen goods, the industry has never been big enough to come under close federal observation. That a new era is dawning in this regard is indicated, however, by the fact that within a few months, if plans now in the making mature, statistics will be gathered on quality, condition, weight, and value of wool handled in international trade. Twice a year the world's total stock of wool will be estimated and monthly reports will show imports, exports, re-exports, and consumption.

American wool trade organizations have approved the plans at conferences of the Department of Agriculture, following a suggestion on the part of British interests that the figures would be valuable. Growers have joined the department of agriculture, the department of commerce, and the tariff commission in a final report on recommendations, and this data will be transmitted to the British ambassador.

Although the wool growers' dollar has been worth somewhat above that of the other livestock men until recently, it is felt that more can be known about the industry with profit, and steps have been taken accordingly.

THE LAW—Judge Kavanaugh of Illinois is being widely quoted for his declaration that this is "the most law ridden and lawless of nations."

Perhaps he is right, if you go the law of averages. But the easiest way to make a criminal is to pass a law restricting his freedom. Many law violations in this country would not come under the ban abroad. But it also may be said that the citizens of the Old World have no easy time avoiding the law. Where the civilization has become complex, the advantages of the broad, open spaces largely disappear.

A regrettable development in this country is that the legal profession has become so grafted upon crime as a profession that some lawyers, as Judge Kavanaugh points out, are using every kind of technicality to aid even the most guilty of criminals. While every person is due a fair trial, it is going too far to make punishment dependent upon the skill and ingenuity of attorneys.

And although Harvard is still favoring prospective law graduates in selecting her freshmen, it appears that the number of lawyers in some places is getting excessive. Particularly in the larger cities, attorneys comb the community for clues to conditions out of which they believe they can, for their own profit, work up a case. They haunt the jails and police courts and bid for the privilege of representing persons under arrest.

It is not a pleasant picture.

LOGIC—There is little difference between an accurate statement and a wrong one in philosophy. Indeed, such declarations are relative in regard to truth and error, approximating neither very closely.

Take, for example, H. M. Stansifer's thought that "there is no greater reward than a pleasant memory." There is a great truth, if you put the inflection upon "reward." A reward is something to receive at the end of something, and if the task is completed, there is some satisfaction in musing over a thing well done.

On the other hand, pleasant memories may be hugely unwise. He who remembers only the pleasant is in danger. It is foolish to pass up a danger signal and imagine there can be no washout ahead. Trial and error is one of the great teaching methods—it is largely nature's way. But trials bring pains, and errors are certainly not pleasant memories.

One of the most educative of moods is that inspired by unpleasant memories, coupled with the determination to avoid everything even remotely similar. It is such a viewpoint that gives a feeling of greater security. Experience has various effects upon people, ripening some into the most useful of citizens, softening some into loose habits and self satisfaction, and hardening others beyond the point of good neighborliness.

There is a rueful pleasure in remembering old burns received in the crucible of experience, and the scars may be pointed to with pride, but in connection with such restricted pleasure there is the wisdom that is truly enlightening. And often an unpleasant memory is a god toward better things.

EDUCATION—One of the most universal things, and one of the most expensive in a public way is education. Compared with expenditures for personal luxuries it is insignificant in cost, but as a use to which taxes are put it ranks

Miss Bernice Heaton and Mrs. Anella Bailey are on the jury partly because they wanted to be on it. Jury duty for women is optional in the District of Columbia, but these two were anxious to give it a try. As they were being examined they strained obviously to make a good impression and avoid saying anything that might disqualify them.

"I think it will be a wonderful experience," remarked Bernice after she had been seated, and Mrs. Bailey agreed that she, too, was thrilled.

Photographers had a hard time getting a picture of the jury. First the court and the chief marshal ruled that no such picture could be taken on the courthouse grounds. Then the jurors advised that they must not be in each other's company between sessions, which meant that each one proceeded from the courthouse and across the grounds in different directions. Worse still, it rained for the first two or three days after the jury was picked, making it impossible for the camera boys to round up the jurors and make them stand still.

At a noon recess, one juror—who is trying a multi-millionaire in a case involving many millions—explained carefully that he couldn't afford to wait for a posed group picture because he must get home for lunch and couldn't afford to buy his meal in a restaurant.

BARBS
(By N.E.A. Service Inc.)

Pedestrians seem to be increasing these days by leaps and bounds.

The population of Chicago has increased a million in the last seven years, a Chicago statistician figures. We wish he would tell us what the increase might have been if the machine gun never had been invented.

Mussolini declares against speeches of all kinds. Mussolini's utterances apparently are speeches to end speeches.

Some of the political candidates in Mexico don't know whether they're running for chief executive or executor.

WASHINGTON LETTER

By RODNEY DUTCHER
NEA Service Writer

WASHINGTON—The Fall-Sinclair jury, like most juries, is an ordinary jury. It is noteworthy that in Washington where nearly everyone seems to be working for the government, no federal employees are among the twelve. In fact, the defense was very careful to ask all prospective jurors not only whether they ever had worked for the government, but whether they had any relatives employed by the government.

The non-government em-

ploye in Washington is a peculiar individual, taking him in the mass. He has no particular interest in either local government or national government, for he has no part in them. Perhaps that is why few of the jurors ever paid much attention to the newspapers in general or the oil scandal cases in particular.

The government employe generally reads his or her newspaper, even if it's only the hometown newspaper sent on by the folks. And in government departments, especially in the Navy and Interior Departments, there is much interest in the Fall-Doheny-Sinclair cases which is not to be found among ordinary citizens of the capital.

FRECKLES And His FRIENDS

That Isn't the Half of It

By Blosser

SOCIETY

Mrs. D. C. Davis Is Hostess to the Ace High Club

Mrs. Don C. Davis was a charming hostess to the Ace High Bridge club Friday night at her home. The spirit of Halloween was carried out in the decorations.

The guests enjoyed bridge to a late hour, during which Mrs. Lee Porter won first high score and Mrs. Thomas second high, Miss Eula Bird was a special guest of the club.

A delightful two-course luncheon was served to the following guests: Mrs. Lee Porter, Mrs. Bill Gray, Mrs. Watt Thomas, Mrs. Carl Taylor, Mrs. L. Day, Mrs. Billie Lang, and Miss Eula Bird.

Hunkapillar Home Is Scene of Lovely Halloween Party

The home of Mr. and Mrs. C. T. Hunkapillar was the scene of a lovely party Friday evening.

The enjoyment of the guest was increased by the novel Halloween caps, favors and decorations.

Bridge was the source of entertainment, in which the cut prizes were awarded Mrs. P. O. Sanders and J. D. Sugg. Each was given an attractive prize.

At a late hour delicious refreshments of pumpkin pie and coffee and candies were served to the following guests: Mr. and Mrs. Lester Chiles, Mr. and Mrs. W. L. Woodward, Mr. and Mrs. Maurice Finney, Mr. and Mrs. G. C. Walters, Mr. and Mrs. J. D. Sugg, Mr. and Mrs. I. B. Hughey, Mr. and Mrs. P. O. Sanders, Mrs. G. C. Walstead, Mr. and Mrs. Siler Faulkner and Miss Kathleen Beatty.

El Progresso Club Is Asked to Send Delegates to El Paso

The El Progresso club met with Mrs. W. Purviance as hostess Tuesday afternoon. Mrs. Purviance's home was very lovely with beautiful Halloween decorations.

The meeting was opened with a short business session, during which letters from the head of the State Federated Clubs were read. The letters invited delegates from Pampa to attend the convention of Texas Federated clubs to be held in El Paso during the first week of November.

Following the business session, the roll was called, and was answered by the club members. Selections from the subject of study, "The Green Forest," by Mrs. Nathalie S. Colby, Mrs. V. E. Fathree was leader of the program and was assisted by Mrs. James Todd, Mrs. W. L. Woodward, Mrs. W. Purviance, Mrs. Siler Faulkner, and Mrs. C. T. Hunkapillar. Mrs. W. L. Woodward gave a very interesting comparison of the different types of mother love portrayed in "So Big" by Edna Ferber, and "Her son's Wife."

In the general discussion that followed, each member present took an active part, after which a delightful plate luncheon was served to the following members and guests: Mrs. E. E. Fisher, Mrs. J. M. McDonald, Mrs. C. M. Bryson, Mrs. G. C. Walstead, Mrs. James Todd, Mrs. Carson Loftis, Mrs. John Andrews, Mrs. D. Pope, Mrs. Siler Faulkner, Mrs. T. D. Hobart, Mrs. V. E. Fathree, Mrs. W. L. Woodward, Mrs. H. L. Ledrick, Mrs. P. C. Ledrick.

Two new members received in the club were Mrs. J. M. McDonald, and Mrs. C. M. Bryson. The next meeting will be held with Mrs. James Todd with Mrs. W. L. Woodward as leader of the subject of study, "The Immortal Marriage" by Gertrude Atherton.

Epworth League Holds Contest For New Members

At the meeting of the Epworth League Sunday night at 8:45 o'clock the members elected new officers for the coming year. The officers elected were as follows:

President, Hobart Todd.

First, second, third, and fourth vice-presidents are, respectively Elizabeth Cravey, Ruth Noel, Donald Zimmerman, Evelyn Zimmerman.

Secretary, Nellie Hardin.

Epworth Era agent, Clarence Coffin.

Reporter, Elmer Whipple.

A contest has been started for new members, and the goal for next Sunday night is 25 new members for each side. Captains Donald Zimmerman and Florence Ward were appointed by President Todd. The opposing sides have called themselves "Go and Get 'Em" and "Done Got 'Em," and are proving live-wire organizations.

Charles T. Allen, principal of the Lamar School, was a visitor of the League.

Mrs. Hunkapillar Honors Guests of Mrs. R. C. Campbell

Mrs. C. T. Hunkapillar was hostess at a novel sewing party Monday afternoon honoring Mrs. W. B. Johnson and Mrs. J. Johnson of Crowell, who are the guests of Mrs. R. C. Campbell. Halloween colors and decorations predominated in the scene, and most enjoyable hours were spent in sewing.

Delicious refreshments of ice cream and cake, with candies as favors were served to the following guests: Mrs. I. B. Hughey, Mrs. W. Purviance, Mrs. P. C. Ledrick, Mrs. A. Cole, Mrs. Siler Faulkner, Mrs. Tom Brabham, Mrs. V. E. Fathree, Mrs. Charles C. Cook, Mrs. E. A. Shackleton, Mrs. John Andrews, Mrs. Loyd West, Mrs. B. E. Finley, Mrs. P. C. Campbell, and the honoree, Mrs. W. L. Johnson, and Mrs. J. Johnson.

Miss Ella Walberg Weds A. A. Smith of Salina, Kansas

A beautiful home wedding was solemnized at the home of the bride's parents, Mr. and Mrs. Nels Walberg, at 3 o'clock Thursday afternoon when their daughter, Miss Ella Walberg became the bride of Mr. A. A. Smith of Salina, Kas. The ring ceremony was performed by the Rev. Evans, of this city.

After the happy pair had received congratulations of their friends and relatives, angel food cake and ice cream was served to the guests.

Mr. and Mrs. Smith left for a few days visit in Amarillo with friends. Mrs. Smith has many friends in Pampa whose good wishes follow her to her new home in Salina, where Mr. Smith is in business.

Football Boys Honored With Dance Friday

The football boys of the local team were honored Friday night with a dance at the home of Frank Meers, with Miss Helen Meers as hostess.

The crowd was in a jubilant mood, prompted by the victory

delicious plate lunch, with favors of candies and cigars was served to the following guests, Mr. and Mrs. W. W. Merten, Mr. and Mrs. Lester Chiles, Mr. and Mrs. Maurice Finney, Mr. and Mrs. G. C. Walstead, Mr. and Mrs. W. M. Lewright, Mr. and Mrs. Frank Meers.

Mrs. C. S. Boston Entertains the Lone Star Club

Members of the Lone Star Bridge club were delightfully entertained by Mrs. C. S. Boston at her home in West Pampa Tuesday afternoon. The rooms were made very attractive by Halloween decorations.

During the interesting bridge games, Mrs. C. H. Hammett won high score and was awarded with an attractive prize. Mrs. C. M. Carlock received a pretty gift as consolation prize.

Delicious refreshments were served to the following guests: Mrs. L. J. Williams, Mrs. Henry Lemoine, Mrs. Frank Seal, Mrs. Ralph Dunbar, Mrs. C. M. Carlock, Mrs. C. H. Hammett, and Mrs. Jessie Lavender.

Three members were taken into the club, making a membership of twelve. Mrs. C. H. Hammett will hold the next meeting at her home next Thursday afternoon.

LeFors Study Club Studies Jefferson And His Period

The Chataqua Literary and Scientific Circle of LeFors met with Mrs. A. Carpenter October 20.

The program was taken from the first of the five books of "Jefferson and Hamilton," by Claude G. Bowers, and was as follows:

Roll call, answered by a verse from the Bible.

Reading of minutes of last meeting, Mrs. R. C. Barcus, secretary, Jefferson's family tree, and Jefferson's epitaph for his tombstone, Mrs. Geo. M. Clardy.

Jefferson's humanitarianism, and the Bill of Rights, Miss Birdie Short.

Order and time of ratification of the constitution, and Jefferson's methods as a politician, Mrs. A. Carpenter.

Jefferson as an Artist, Miss Nettie Fine.

The public buildings of Philadelphia, Miss Doris Paxton.

Famous churches of Philadelphia, and the Quakers, Miss Miriam Wilson.

Racial mixtures in Philadelphia, and Henry Knox, Mrs. Victor Wagner.

The club will meet with Miss Mattie Fine on Thursday, Oct. 27.

Surprise Shower Is Given For Miss Olive Duenkel

Miss Olive Duenkel and Clyde Oswald were united in marriage Sunday morning at 10:30 o'clock at the home of the bride's mother, Mrs. C. A. Duenkel. The ring ceremony was performed by the Rev. James Todd, with only immediate friends present.

Mrs. Oswald was graduated from the Pampa high school with the class of '26 and has many friends who with her happiness in her future.

Mr. Oswald until recently lived in Mobeetie, and is an employe of the Mahan drug store. Mr. and Mrs. Oswald will make their home in Pampa.

Mrs. Marion Howard Is Charming Hostess To Bridge Parties

Mrs. Marion Howard was the charming hostess to a number of her friends Saturday afternoon and evening in two delightful bridge parties. The decorations of colorful Autumn flowers were in keeping with the zest of the fall atmosphere.

The hours were spent in playing bridge, which proved the usual interesting diversion. During the afternoon the following guests were present: Mrs. J. S. Wynne, Mrs. J. M. McDonald, Mrs. W. W. Merten, Mrs. W. L. Woodward, Mrs. George Walstead, Mrs. W. M. Lewright, Mrs. E. E. Fisher, Mrs. H. G. Twilt, Mrs. Siler Faulkner, Mrs. Joe Smith, Mrs. Raymond Harrah, and Mrs. Walter Coffee.

The cut prizes were awarded during the afternoon to Mrs. E.

Yvonne Thomas is Honored With Birthday Luncheon

Miss Yvonne Thomas celebrated her fourteenth birthday Sunday in a delightful luncheon given for a number of her friends. The luncheon was lovely and was served by the honoree's mother, Mrs. Sam Thomas.

Those present included the Misses Alice Ingram, Wanda and Pauline Barnard, Doris Price, Virginia Rose, Mary Ellen Cook, Frances Finley, Madeline Gantz, Frances Campbell, Susie Bell Hickman and the honoree, Yvonne Thomas.

Marjorie Buckler Gives Enjoyable Halloween Party

Miss Marjorie Buckler was a charming little hostess Saturday evening in one of the most enjoyable Halloween parties that has been given this season for the younger group. The spirits of the young revelers were in keeping with the love of Halloween decorations of the house, and the beautiful and amusing costumes of the guests added much to the enjoyment of those present.

The evening was spent in novel contests, games, and other Halloween pranks, that are always en-

gained Friday afternoon. At a late hour, delicious refreshments of ice cream and cake were served to approximately 30 guests.

Miss Olive Duenkel And Clyde Oswald Married Sunday

Mrs. Frank Meers and Mrs. Weldon Wilson honored Miss Olive Duenkel Saturday afternoon with a delightful surprise shower and announcement party at the home of Mrs. Frank Meers.

The lovely country home of Mrs. Meers was beautifully decorated in autumn leaves and Halloween colors. An object of interest in the room was a wise owl which kept watch over a basket of mysterious packages, and under his wing held the secret of the approaching marriage of Miss Olive Duenkel and Clyde Oswald. After disclosing this secret, the honoree was presented with a large number of lovely gifts.

Miss Dorothy Mae Meers entertained the guests with a humorous reading, while special piano numbers by Mrs. Wilson, Mrs. Earl Noel, and Mrs. Marvin Lewis were enjoyed; after which bits of advice were written for the benefit of the bride.

Delicious refreshments of sandwiches, pumpkin pie and cocoa were served to the following guests: Mrs. Earl Noel, Mrs. Marvin Lewis, Mrs. F. Kinzer, Mrs. Bill Stetz, Mrs. James Todd, Mrs. Melvin Noel, Mrs. James Marle, Mrs. Jack Back, Mrs. W. G. Kinzer, Mrs. Earnest Medcalf, Mrs. C. A. Duenkel, Miss Lora May, Miss Zaida Patton, and Mrs. Cecil Noel.

Texas History Subject of Study in Coterie Club

The Coterie club met with Mrs. Chas. Mullen, Thursday, October 13. Following the business meeting, a very interesting program, taken from Texas History, was given by the members, with Mrs. Floyd McConnell as leader.

The principal topics discussed were the early Spanish, French, and English explorers. The hostess served delicious refreshments to the eleven members and two visitors.

The next meeting will be with Mrs. C. T. Nicholson. The subject of lesson for that time will be "Texas Parks and Flowers."

Child Study Club Hold Successful Meeting Thursday

The Child Study club met with Mrs. A. Cole Thursday afternoon in one of the most successful meetings this year. After a short business session, the meeting was turned over to Mrs. Cole who was leader of the program. The following program was excellently given, and proved very beneficial and enjoyable to those present.

"The Relations of Lungs, Stomach, Heart, and Brain to the Best in Body and Mind," Mrs. A. Cole.

"Physical Care of the Child," Mrs. A. R. Sawyer.

"Faulty Positions," Mrs. G. C. Malone.

"Care of the Teeth," Mrs. W. Purviance.

"Out-door Exercise," Mrs. W. W. Merten.

"Minds and Morals," Mrs. Harry Barnard.

"Spiritual Factors in Mental Growth," Mrs. B. E. Finley.

"Baby Life," Mrs. Marlon Howard.

Mrs. E. E. Fisher gave a most humorous reading, "Billy Bad in the Big Lie."

There were fifteen members present, and all are satisfied with the progress of the club.

Halloween Bridge Party Given in N. A. Heistand Home

Mr. and Mrs. N. A. Heistand entertained a number of friends Thursday evening in their home of the McMann lease. Mrs. Heistand's house was decorated symbolic of Halloween and added much to the revelry of the guests.

Bridge was the source of entertainment, and was enjoyed to a very late hour. Delicious refreshments of pumpkin pie and coffee were served to the following guests: Miss Margaret Schmidt, Miss Jewell Planagan, Miss Wilma Chapman, Walter Davis, H. A. McDannald, and Howell Peck.

Joe Paxton, who has been visiting relatives in Palestine, for the last week, returned to Pampa Friday.

Mr. and Mrs. W. H. Mohr, Mrs. Webb, Mrs. Robert Pierson, and Frank Powell were in Amarillo Friday.

H. C. Powell, general manager of the Diamond C Stores, of Elk City, Oklahoma was in Pampa Sunday. He was accompanied by R. L. La Rue and Mr. Breshear of Sayre, Oklahoma.

Mrs. N. A. Heistand, and Mrs. Paul Shepherd were Amarillo visitors Saturday.

Bill Gould attended the football game in Dallas this week-end.

Mrs. L

BUSINESS MEN LIKE MANAGER PLAN FOR CITY

Would Not Return to old Form, Letters Reveal

SUCCESS OF IDEA IS CITED

Amarillo and Austin Leaders Are Very Enthusiastic

In the article published in Wednesday's issue of the News some thoughts from Chamber of Commerce secretaries were presented.

These were volunteer statements contained in replies to the Pampa Chamber of Commerce letters asking the names of business men. Some of these business men wrote more at length, giving specific reasons for their attitudes.

W. W. Flenniken, life insurance, Amarillo—"I think the city manager plan of government has proven a success in Amarillo and I believe Pampa has the right idea in considering the matter at this time. I have been rather a close observer of Pampa's development in the last few years and will say that it is impressive and shows a great deal of thought on the part of your citizenship. I think the city manager form of government is like any other child of science—needs proper handling. And its success depends upon three fundamentals:

1. The selection of a trained city manager if possible; if not possible, a man of good business skill and judgment. If the man selected be local, he should be absolutely free from prejudice or bias, capable of making a decision against his best friends with a logical reason for doing so.

2. The commissioners should be men of high type and should confine themselves largely to acting in an advisory capacity to the city manager and not endeavor to make a clerk of him.

3. Each of the commissioners should be paid a fair salary, should meet at least once a week and the city manager should have a salary the like of which has not been paid in Pampa. I mean by this that he should be such a man that Pampa would be proud to have him on its payroll for a large amount and not begrudge a good salary."

Lumber Dealer Speaks

Mr. G. McKenzie, Lumber, Amarillo—"My views of the city manager plan for city governments, regardless of the size of the cities, is that it is by far the most efficient and economical and has many advantages. Our experience in Amarillo has been very satisfactory and I doubt if you will find many here who would be willing for a return of the old system. By securing an experienced, competent man for the place you have an absolute check on all departments and are assured there will be a minimum of "wire pulling" and favoritism shown that often works to the disadvantage of cities. A good city manager means a business administration if he can have the cooperation of your townspeople."

Executive Demanded

T. H. Williams, of T. H. Williams and Company, Austin—"We regard the 'city manager' proposition as a self-evident thing. The operation of any big corporation depends upon, and stands or falls, according to the executive and business ability of its active manager. Our observation leads to the conclusion and conviction that the few failures of the city manager plan resulted from poor management or from the limitations laid upon the manager in this handling of the city's business. In our instance we have, we are entirely sure, made excellent, real and rapid progress. The plan is not a cure-all but is a big step in the right direction."

Dodged Turkeys; Car Goes Into Ditch; Man Hurt

Dave Pollett, a salesman at the K. C. Store, was brought to the Pampa hospital from White Deer this morning with a severely lacerated leg and cuts about the head and face.

Pollett was returning to Pampa from Amarillo about 8 o'clock this morning when, about three miles west of White Deer a flock of turkeys started across the road in front of his car. In trying to avoid running into the turkeys, Mr. Pollett swerved to the side of the road where one of his car wheels slipped over the side of the grade, hurling the car into the ditch.

Council Protests Removal of Power Plant Engines

A formal protest against removal of the bulk of the local power plant by the Southwestern Public Service company will be made by the city council, it was decided this week.

Maintenance of a local plant to supplement the high line from the super-power plant at Amarillo is held desirable to safeguard the Pampa service in case of damage of the high line.

Representatives of the Southwestern Public Service company state that maintenance of a duplicate power system, following a local rate decrease of about \$24,000 per year September 1, is not justified, and that the new rates, representing approximately 17 per cent of the gross Pampa receipts, were based upon the idea of removing the two big engines, together costing \$28,000, and cutting this non-revenue overhead.

One of the engines, it is planned, will be taken to McLean, where it is needed. McLean has no high line. The other engine will be taken to another small town.

Two engines, of 75 and 120 h. p., will be retained, and a man will live on the site to operate them. While these are not large enough to supply the peak demand of the city, they will be directly connected with the city waterworks, officials of the company said today.

A "hot line" crew has been organized to repair quickly any break in the Amarillo-Pampa high line. The line will be inspected daily, and it is expected that all trouble will be anticipated except that of severe weather, principally lightning so heavy that the specially designed conductors cannot handle the shock.

It was said today that the high line has not been out since 6 p. m., August 30, and little difficulty is expected during the winter season.

City officials hold that the future of Pampa is bright enough to justify keeping the original plant intact in order to maintain unbroken a growing service.

Two Business Men Become Citizens of United States

Citizenship papers were granted to twelve applicants in the Federal District Court in Amarillo last week, and among the twelve applicants two were business men from Pampa, who were granted their papers and are now full fledged citizens of the United States.

Frederic Schaffner, who arrived in Pampa in 1915 and now conducts a bakery on West Foster avenue, has been a resident of the United States since 1909 when he and his sister, Miss Rose, now living with her brother, arrived in New York from Switzerland, settling in Louisville, Ky., later.

In 1912 Miss Rose returned to the parental home in Twanne, near Biel, and had to remain in Switzerland until after the war, when she joined her brother in Pampa.

Mr. Schaffner says he likes Pampa and the Panhandle and is quite sure that Pampa will be a large city in the near future.

The other Pampa business man to take out his naturalization papers is Sam Farris, who conducts a dry goods and gents furnishing store on North Cuyler street. He arrived in Quebec, Canada, from Majdan-Shmas, Syria, which is about 40 miles from Damascus, in 1910.

After arriving in the United States, he lived in the north and traveled considerably, settling in Graham, Texas in 1918. He moved to Pampa in July of 1926, when he opened his business on Cuyler street.

Mr. Farris states that he like Pampa better than any place he has ever seen. He is remodeling an adjoining store and will move into his larger quarters immediately.

Examination of Children Under Way in Grades

Miss Jewel Lovelace, the Pampa independent district school nurse, is at the Central high school this week conducting an examination of all pupils of the lower grades and keeping records of all examinations.

Miss Lovelace wishes the parents of the children to realize the great service possible through careful examinations.

Children who are ill, who need special care, or who should be taken to a doctor, are sent home with a note from the nurse, and in this way sickness may be avoided. Dr. A. Cole, city health officer, is assisting.

Miss Lovelace has specialized in school nursing and is using the most approved methods.

PANHANDLE IN ANOTHER DROP

Many Locations To Boost Total Very Soon

A week featured by the sensational performance of two Gray county gushers nevertheless showed a continuation of the general Panhandle crude oil production decline.

The entire area, with 1,386 producing wells, made 88,499 barrels, representing a drop of 1,685 from the figures of the previous Thursday.

Gray county declined 329 barrels daily during the week of calculation, when the Delaney gusher was shut off by paraffin for a few days, but maintained its big lead over the previous week, totaling 13,676 barrels.

Carson's 162 wells made 8,128 barrels.

Hutchinson's 1,114 producing wells made 65,292 barrels.

Moore had no production, but Potter was back at her 35 barrels. Wheeler county remained steady, with her 38 wells making 1,370 barrels.

Jackson Well Increases

Delaney and others' No. 1 Jackson is back up to 250 barrels an hour after three weeks of production. Following big lease deals, more than twenty new locations have been made in that sector.

Chief among Panhandle developments of the week was the deepening of the Gulf Production company's No. 1 Bowers, which came in for 250 barrels hourly of 43.6 gravity. This big well is in section 89, block B-2, while the Delaney gusher is in section 88. The Bowers well came in Thursday morning, leaping to 360 barrels the first hour, and averaging 4,800 barrels each 24 hours since that time. The new depth is 3,015 feet. The well was first drilled into the pay September 11, when it made 162 barrels daily from the first granite wash.

The Gibson Oil corporation's No. 1 Bowers, has been completed at 3,130 feet for about a thousand barrels daily. It is three-quarters of a mile northwest of the Delaney well, in section 82.

Big Gas Killed

The LeFors townsite well is cleaning after slight cavings which developed as the gas, estimated at 70,000,000 cubic feet, was being killed.

These big strikes in the Pampa field, combined with relative showings in other parts of the Panhandle, gave this area a position of great prominence. Without any changes in the oil market, a big drilling campaign is getting under way as winter—often pleasant here—approaches.

Harvesters Prepare For Three Hard Games in Row

The Pampa Harvesters have three hard games coming up and Coach Verde Dickey is getting his eleven in readiness.

Friday afternoon the local team will go to Miami to meet what are considered their toughest opponents. on Nov. 1, Follett High school's team will play the Harvesters on Ayres field, and on the following Friday Perryton will be the opposing team on the home field.

Miami has one of the strongest teams in the history of the school, and are bragging that the Harvesters will bite the dust, but the locals differ with that statement. Carlton and Hardin will be back in the game.

The Follett game will probably be a hard fought one, but very few definite reports have been received as to the prowess of the team. They are said to be fast.

Perryton has a strong team this year and has been causing several upsets in football hope, but the Harvesters are out to finish the season without a loss. With Walstad and Carlton running wild they should make good the team boast.

First Residence Fire in 84 Days Damages Building

For the first time in 84 days the Pampa Volunteer Fire department this week received a call to a residence fire.

At 12:30 on Tuesday a call was received at the station from a residence on South Somerville street.

The department made a fast run and arrived in time to check the fire and keep it from spreading. The building, consisting of four apartments, was burning at the rear, but from the volumes of dense smoke issuing from the burning building the entire place seemed on fire.

Smoke hindered the firemen in their work, but they soon had the fire under control.

The building belongs to Zack Wilson and was occupied by Homer Sanders, who rented the apartments. Practically everything was destroyed by fire, smoke and water, with the exception of some clothing the residents in the front of the building were able to save.

Another Well in Bowers Area Is In Top of Pay

Another well in the Bowers pool was assured Monday when the Majestic Oil company's No. 2 Bowers, in the northeast corner of the northeast quarter of section 93, block B-2, reached granite wash pay at 2,991 feet, where it is making 100 barrels a day with the pay just scratched.

The well is a direct offset to the Danziger et al's No. 1 Jackson, in section 88, block B-2, and to the Majestic Oil company's No. 1 Bowers. Additional storage will be set and casing run before drilling in.

The Gulf Production company has made two new locations in the Bowers pool, and will commence drilling as soon as the rigs are set.

The Gulf Production company will drill it No. A-2, 990 feet from the south line and 330 feet from the west line of section 89, block B-2, Joe Bowers' lease.

The Gulf Production company's No. A-3 will be drilled in the south east corner of the northwest quarter of section 89, block B-2. Joe Bowers, an offset to the Texas Oil company's well.

New Telephone Directories Here

The new telephone directories have arrived.

Pampa's new and up-to-date telephone books arrived this morning and will be distributed throughout the city and district immediately. Kenneth Boehm, local manager, despite the fact that officers had been tipped about the intended break the old pair has been weakened through repeated breaks, and a new pair, constructed on the third floor of the courthouse, is under construction.

Names and numbers of phones installed up until October 1 appear in the new book, which consists of twelve pages. The former book was of eight pages. About 2,000 of the new books were received.

I. P. McBee, Former Pampa Man, Dies at Levelland Home

After an illness of two months I. P. McBee died Saturday at his home in Levelland. Mr. McBee was a former resident of Pampa where he was well known and highly respected in the community. He was 78 years old and resided in Pampa up to a year ago.

Besides his wife, he leaves six daughters and one son, Mrs. H. F. Barnhart, Mrs. S. D. Parks and Horace, all residing in Pampa, Mrs. John Phelps of Gainesville, Mrs. Wallace Daugherty of Dumas, Mrs. Dave Martin of Lubbock, and Mrs. Joe Barnhart of Levelland.

Stomach Gas Drives Man From Bed

"I had gas so bad I had to get up nights on account of the pressure on my chest. I used Adlerika and have been entirely relieved." R. F. Krueger.

Even the FIRST spoonful of Adlerika relieved gas and often removes astonishing amount of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. Pampa Drug Company.

SWEEPING TO BE AT NIGHT

Council Passes Several Ordinances at Meeting

Automobiles must not be parked along the curb where the streets are paved, between the hours of 1 and 4 a. m., the city council decided at a meeting Monday.

An ordinance will be drawn to this effect.

For a violation of that city ordinance a fine will not be imposed, but the cars will be moved and placed in a pound where the owners will have to pay pound charges to get them out.

This ordinance was passed on account of the necessity of a clear street for the operation of the new city sweeper which should arrive today. It is thought that four hours will be required to sweep the streets each night.

The council decided to discontinue the use of the old dump ground situated about 2 1/2 miles northeast of the former ground. It occupies 40 acres in the southwest quarter of section 76 block 3, and is situated in a canyon which cannot be seen from any of the roads leading to the city.

It was not decided when the former dump ground would be cleaned up, but from now on no more refuse will be dumped there.

Sixteen additional standards for street lights were ordered to be placed along Ballard street, East Kingsmill avenue, and East Foster Avenue to complete the lighting where the streets have been paved. Ballard street will be lighted first to complete the circuit on the west part of the city.

Tokyo Rotarians Send Volume to Local Club

W. C. Upton, secretary of the local Rotary club, has received a beautifully bound volume from the Rotary club at Tokyo, Japan.

The book is compiled by the Tokyo Rotary club under the supervision of special commissioner Takashi Isaka for distribution among all the Rotary clubs of the world, in the hope of assisting in the realization of the sixth object of Rotary, with the compliments of all the Rotary clubs in Japan.

The sixth object of Rotary is "the advancement of understanding, good-will, and international peace through a world fellowship of business and professional men united in the ideal of service."

The volume is profusely illustrated, and contains exhaustive data on the customs, resources, and industries of Japanese people in the countries where they are now living. It is highly valued by the Pampa club.

Many to Boost Harvesters at Miami Friday

Tomorrow the Pampa Harvesters and their supporters leave for Miami to play the Miami Warriors high school football team.

Coach Verde Dickey has his boys in great condition for the coming battle and the two to follow next week when the Harvesters meet Follette here Tuesday afternoon at 3:30 o'clock and the Perryton High school team Friday afternoon.

All the Pampa regulars will be ready for tomorrow's game with the exception of Carlton, who will be in uniform if needed, but who will be reserved for the games next week.

Superintendent R. C. Campbell will dismiss all who can attend the game from classes at 3:30 o'clock so that the winning team will be strongly supported. It is expected that more than 100 students will accompany the team to Miami. Many football fans from the city will also accompany the team.

The game tomorrow is called for 3:30 p. m.

Interesting Lecture Will Be Given Here Monday

Inspector Rutland from the State Department of Education was the principal speaker in high school chapel this morning. He gave an interesting talk on "Be Prepared."

Bessie and Edith Stine gave an enjoyable duet entitled "Minuet." Philippines, gave an interesting talk on his experiences in the Philippines. He announced that he would render a program in the Central High school auditorium, Monday evening at 7:30 o'clock. He promises a delighted entertainment. One-half of the proceeds will be given to the school annual fund.

Local citizens are urged to attend the lecture Monday evening.

peace through a world fellowship of business and professional men united in the ideal of service."
