TWO CLOTHING UNIONS OPEN HOSTILITIES

CINCINNATI, May 25 (AP)—The battle between John L. Lewis and William Green reached into the huge men's clothing industry today when the United Garment Workers declared war on the Amalgamated Clothing Workers.

Thomas Rickert, president of the United, a loyal American Federation of Labor Union, asserted his organization no longer recognized an agreement dividing the territory with the Amalgamated headed by Sydney Hillman, Lewis' first lieutenant in the Committee for Industrial Organization.

Hillman destroyed the agreement, Rickert said, when he said it was "only a make-shift" and when the Amalgamated started using its own union labels instead of the United's in clothes its members made.

For many years the Amalgamated was outside the A. F. of L. It was admitted in 1933 when it agreed to divide the men's clothing territory with the United, but along with nine other unions which helped organize the C. I. O., the Amalgamated was suspended for "insurrection" last September.

Meanwhile, a conference of loyal A. F. of L. union representatives went into its second day of discussing the C. I. O. and how to fight it after charges, promptly denied, that Communists had obtained a firm grip on the C. I. O.

Leaders expected a vote before tonight on the executive council's fourfold plan:

1. To increase the assessment of member unions from one to two cents a month for each member, to build up the war chest.
2. Start a coordinated organization drive.
3. Expel all C. I. O. locals from city central bodies and state federations of labor.
4. Compel all loyal A. F. of L. locals to join the central bodies and state federations.

These leaders expressed confidence the program would be adopted by an overwhelming vote.

Another Son Born to Lindberghs 13 Days Ago

LONDON, May 25 (AP)—Col. Charles A. Lindbergh's mother who is with her in England, had sent a letter that "only stated a son had been born" on the night of King George VI's coronation.

Friends here recalled Lindbergh had declined an invitation to attend the historic coronation ceremony in Westminster Abbey.

Frequent visits of Lindbergh to a fashionable Mayfair nursing home within the last few weeks stood as the only clue to the whereabouts of Mrs. Lindbergh and their third son. It was generally understood the former Anne Morrow had given birth to the boy there and one report said she had entered under the name of "Mrs. Charles" at the fashionable London clinic at Devonshire Place.

Col. and Mrs. Lindbergh were married May 27, 1926, two years after his epochal flight from New York to Paris. Their slain first son, Charles, Jr., was born June 22, 1930.

The second son, Jon, will be five years old Aug. 16. He has scarcely been out of his parents' sight since they took up residence in England, except while the flying couple were on a flight to India early this year.

President might appoint additional justices—in such cases—at the rate of one a year. At this writing the administration crowd says Roosevelt won't stand for the one-a-year limit. If such a provision is the best he can get in the Senate he will try to get it. It is generally understood the Democratic party is a definitely liberal, progressive party, and that he expects to name his own successor in 1940. He believes these ambitions are to a considerable extent at stake in this court fight. And so, you may be sure, do many of his Democratic opponents—including some presidential aspirants in the Senate.

Also the President feels he can afford a long campaign on the court issue. He takes the self-righteous attitude that he is the representative of the people and that if he sticks to his guns the people will win in the end. To many conservatives this suggests a dangerous form of egomania. But it is Roosevelt's.

You can anticipate ruthlessness on the man in the White House. He is calling senators in by day and reports indicate that he is talking tough. One hears that he is even suggesting he may take a railroad trip during the primaries next year, with the intimation that he will support members of Congress who are "loyal" and oppose those who are not. The people will support a liberal Democratic party, he insists. If the party could gain votes after losing such leaders as John W. Davis and Al Smith, he argues, why couldn't it prosper in the absence of such senators as Copeland of New York, Bailey of North Carolina, Clark of Missouri, Van Nuys of Indiana, King of Utah, Byrd of Virginia and so on? Grandiose Tammany Hall Attitudes of opposition senators to this viewpoint are expressed in varied terms of bitterness, sorrow, worry and contempt. It is complained that Roosevelt regards the Democratic party organization over the country much as he regards Tammany Hall in his own state of New York. And that while using Democratic local and state organizations however unsavory—for his own ends wherever it proved necessary, he has favored more radical elements and candidates for appointments whenever he could get away with it. But countless other attitudes are revealed in talks with individual senators. There are those who dislike Roosevelt because they are conservative and he is liberal. And those who believe he is dangerous and who want to be a dictator. And those who believe he is ordinarily not so

bad, but has gone too far in this Supreme Court matter. And those who believe that he has treated them shabbily. And those who believe he is just simply wonderful.

Not the least confusing angle of it all is the fact that some perfectly sincere senators insist that a vote for the court plan is political suicide, and that other perfectly sincere senators insist a vote against the court plan is political suicide. One is left with the question—and all Washington cogitates over it—whether Roosevelt is still the same popular hero he was last fall and whether in spite of the court plan, he can guide his party's destinies not only for the rest of his term but for at least another four years as he hopes.

Joe Robinson and Alben Barkley are another story which will be told in a subsequent dispatch.

ROCKEFELLERS LEAVE FOR FUNERAL IN OHIO

DALLAS, May 25 (AP)—Winthrop and Nelson Rockefeller, grandsons of John D. Rockefeller Sr., departed from Dallas in the early morning hours today, bound for the east on a mission of sorrow.

Winthrop Rockefeller, who arrived in Dallas late last night from the Canal Zone by Pan-American plane, was joined by Nelson Rockefeller and his wife and sister-in-law, Miss Eleanor Clark, who flew here in a chartered plane from Cleveland.

The party left for Newark, N. J., another leg of their journey to Cleveland for the funeral of the financier.

Picard's Balloon Destroyed by Fire

BRUSSELS, May 25 (AP)—Professor Auguste Picard's \$35,000 stratospheric balloon was destroyed by fire today as final preparations were being made for a new ascent.

Flame from a gas burner used to heat air for lifting the balloon touched a pocket of oil in the bag just as the ground crew began attaching the basket in which Prof. Picard was to have explored the sub-stratosphere.

A fiercely burning fire engulfed the 14,000-cubic yard rubber silk bag in a few seconds. It was reduced to a heap of charred wreckage. No one was injured.

FUNERAL RITES WILL BE RICH AND EXCLUSIVE

NORTH TARRYTOWN, N. Y. (AP)—The body of John D. Rockefeller was borne northward today to waiting members of his immediate family, carried with the richness, exclusiveness, and lack of formality which characterized his life.

Privacy was the key-note of all arrangements for final honors to the man who, although a great philanthropist, lived secluded, a shunner of public notice.

The body was in a special Pullman car attached to a New York bound express from Ormond Beach, Fla., where the industrialist-philanthropist died suddenly Sunday morning, two months short of his 98th birthday. He lay in a simple but rich mahogany and bronze casket, bedecked with a few lilies. Friends had been asked not to send flowers.

The train was due in New York about 5:00 p. m. (EST). The funeral Pullman then was to be routed a few miles further northward to a private siding behind the 3,500-acre Rockefeller estate, Pocantico Hill, near here, where it was due about 7:00 p. m. (EST).

In the 47-room mansion on the estate waited his family, now headed by his only son, John D. Rockefeller Jr., who is 63. The family had hurried from points as far away as the Panama Canal Zone to attend simple final rites in the great hall at 10:00 m. (EST), tomorrow. It was not known exactly how many of the 26 children, grandchildren and great grandchildren would be able to attend.

The ceremonies will be strictly private, with only a handful of business associates and a few trusted servants present, in addition to the family.

Late tomorrow the casket again will be placed in the special Pullman and taken to Cleveland, where Rockefeller launched his fabulous career. He will be buried there Thursday with rites as simple as those arranged here.

No special rite was planned for the body's arrival in New York. Some of the Standard Oil Company officers planned five-minute periods of silence in a suspension of operations tomorrow.

Nearly a score of sad servants were left behind at "The Casements," Rockefeller's Florida home where he held their last respects yesterday at simple services.

MOB DRAGS BODY OF NEGRO THRU STREETS

BAINBRIDGE, Ga., May 25 (AP)—A mob seized the body of a negro suspect in the killing of two white women, dragged it through the streets to a baseball park last night, and attempted to escape while on the way to jail at Albany.

"I'm mighty sorry to see this happen," Sheriff W. J. Catledge said. He did not disclose any plans for an investigation.

Catledge said the negro, Willie Reed, 20, confessed killing Mrs. Ruby Hurst, 30, and 16-year-old Vennie Mae Richards, and mutilating their bodies with a "hackcutter," a tool used in his work as a turpentine tapper. Catledge said Reed also admitted ravishing the younger woman.

A mob estimated at more than 100 men rushed a negro funeral home, seized the body, and tied it behind his automobile.

"Twice around the main square went a caravan of some 50 automobiles, one of them dragging the body. Then a tour was made of the town's negro district, winding up at the ball park, where a section of fence was used to make a pyre."

HALF OF TEN CONVICTS NOW BACK IN PRISON

ANGLETON, May 25 (AP)—Half of the 10 convicts who escaped from Retriever prison farm early yesterday were back in the fold today as officials scoured the heavily wooded sections near there for the others.

L. R. Giles, serving 18 years from Ward, Midland and Stephens counties for theft and burglary, was captured late last night, the fifth refugee to be taken. Yesterday Louis Saddler, Cass county robber; W. C. Gresham, lifer from Fort Bend county; J. E. Jurgeson, lifer-terminer from Dallas and Harris counties; and Ira Neal Kimmel, serving a robbery term from Dallas and Harris counties, were caught.

30-HOUR WEEK PREFERRED BY REP. CONNERY

Agricultural Workers Would Be Excluded
(By The Associated Press.)
WASHINGTON, May 25 (AP)—Chairman Connery (D. Mass.) of the House labor committee, arranging for quick consideration of the administration wage and hour bill, expressed a preference today for setting the maximum work week at 30 hours.

Both Chairman Black of the Senate committee and I are for a 30-hour week," he said. "If necessary, though, I would go as high as 40 hours."

Minimum wage and maximum hour figures were left blank in the bills which the two chairmen introduced yesterday after President Roosevelt recommended enactment of labor standards that "meet rudimentary standards of decency."

Connery said he would insist on at least a \$16 minimum weekly wage for employees engaged in interstate commerce or producing goods for interstate shipment.

Black said, however, he had no definite agreement with the representative on wage and hour figures. He added there might be many changes in the measure but Connery predicted Congress would approve the bill "just as it is."

Senate hearings may begin this week. Connery scheduled his hearings to start next Tuesday and predicted a report on the bill in three weeks.

The measure would exclude from interstate commerce goods produced under "oppressive" labor conditions, such as working employees more hours or paying smaller wages than the standards set by Congress, using child labor, and hiring labor spies and strike-breakers.

A Senate interstate commerce subcommittee completed meanwhile the rough draft of a separate child labor bill which Chairman Johnson (D. Colo.) said fulfilled the President's recommendations on that point.

Although the Black-Connery bill provides that all industries in interstate commerce would have to come up to its standards, a five-member board studying conditions, industry by industry, would set a minimum "fair wage" or maximum "reasonable work week" either higher or lower than the national standards.

Agricultural laborers would be excluded from the bill's provisions along with any person employed in executive, administrative, supervisory or professional capacity.

By paying time and a half for overtime, an employer might work his employees more than the maximum work week.

11 RUSSIANS EXECUTED IN JAP PLOTTING

MOSCOW, May 25 (AP)—Eleven persons were reported today to have been executed at Khabarovsk in the far east, bringing to 55 the number put to death in Siberia within the last few days on charges of sabotage under the direction of Japanese intelligence agents.

The death sentences were announced in a terse communique published in the newspaper Pacific Star at Khabarovsk on May 15. The news reached Moscow today.

The communique said the executions were decreed by a secret session of the military collegium of the supreme court, the same tribunal that sentenced 44 others to death at Snovobod, near Khabarovsk, on the eastern border of Siberia, and Manchukuo.

The charges were identical with those in the Snovobod case and included having participated in "Trotskyist spy, terroristic and diversionistic organizations, acting under the directions and instructions of Japanese intelligence organizations."

Specific counts against the executed persons charged them with having sabotaged the Siberian railway system which is part of the Russian military communication and transportation network.

HOW MEASURE PROGRESS?

In order to measure progress, you have to have some sort of yardstick. When you try to measure the advance...

So a number of measurements have been performed lately, contrasting average wages as of today with the wages of 1929, 1928 or some other mystic year.

You can get a better picture, though by using a different kind of yardstick and applying it over a longer period of time.

This picture contrasts the factory worker's status today with that of 1914. It does it by expressing his purchasing power...

With this yardstick we get an unmistakable measurement of a considerable rise in the standard of living.

For instance, a year's supply of clothing for a family of four cost \$175 in 1914 and \$218 in 1936.

It is the same all the way down the line. In 1914 the worker had to put in 187 hours of work to buy an electric washing machine.

Today he gets it for 70 hours of work. In 1914 it took him 3081 hours to earn the price of an automobile; today he can get it for 859 hours of work.

In the case of some of these commodities, the retail price today is higher than in 1914; in the case of a few it is lower.

The point of this is that a simple comparison of wages is not enough. The productive machinery of America is working more efficiently and is producing goods in greater volume today than was the case in 1914.

WASHINGTON LETTER

WASHINGTON—Secretary Hull, who likes best to negotiate the peace of the world on a high idealistic plane, has been compelled by a band of midwestern farmers to talk treaty on a low-coral level.

Hull went to Buenos Aires last winter to treat in his best Father Francisco manner for an extension of reciprocity among the American republics.

Ultimately the treating got down to a give and take basis, with the American delegation trying to bring about a sort of Pan-American peace hegemony even in the face of the several republics definitely committed to co-operation with European nations in the league.

Stubbling Block. Most committed in that direction is Argentina, by far the most active commercially of any Latin-American nation.

Beef has been a touchy subject with Argentina for many years. American cattle growers insist that the presence of hoof and mouth disease in spots of Argentina make it highly dangerous to import beef here.

When the formal conference actually opened, President Roosevelt was able to express the hope that the United States would shake off its fear of hoof and mouth infection and allow importation of Argentine beef from those sections of that country which were free of the disease.

But the Argentine sanitary treaty, under which such importations would be allowed, has dangled on the senate calendar for weeks. The President said recently he was prepared to submit to the senate the various peace machinery treaties negotiated at Buenos Aires but every senator knows they won't be worth a hoot unless Argentina gets her beef quota. Desperately Hull and his hands have argued with the western senators, urging them to let up on the beef business.

National news of the day included stories and pictures of the "bonus army" marching toward Washington, D. C. ed with the western senators, urging them to let up on the beef business. But they never have been wholly sold on this reciprocity business.

TEX'S TOPICS

Perhaps you have heard something lately of the war being waged by pacifists to eliminate the sale of toy soldiers, play-guns and other "war-like" toys that might get into the hands of American youngsters.

Now then—we arrive at the question: When little Billy plays soldiers and tears around Pampa aiming his toy gun at passerbys, should mother worry lest he become a militarist?

It really would be a matter of concern, the psychologist believes, if Billy shied away from guns and didn't want to be a general in the army.

Pacifists do not need to wage a campaign against stores which sell tin soldiers," says Dr. Lecky.

"Enlisting will be a fresh situation to which he will apply his thinking powers. Playing with guns in childhood does not mean that he will want to play with them all his life.

When Dr. Lecky's own small boy, playing soldier, was asked if he might want to go to war when he grew up, he answered: "Of course not. Do you think I want to get killed?"

"Then why get excited about wild speculations as to what he will do 20 years from now?" Auto tires gain pressure on long drives on hot days, somewhat after the fashion of a golfer.

Italy's poet, D'Annunzio, who has planned several unique ways to die, is toothless now, eliminating the possibility he might bite off his own head.

Man About Manhattan

NEW YORK—Personal notes off a New Yorker's cuff: John LaGatta gave himself a complete education in drawing before he was 12 by sketching caricatures of his family on the living room wallpaper.

Of all impressions made by this island, I think the most profound was on Jean Mital, a French chemical engineer. As he strode the deck of an incoming liner he was not only speechless but flabbergasted.

Marion Hopkins has a pair of gold ice skates—at least the runners are gold. But she never decreases use them.

The next musical show at the Center is going to have colonial Virginia as a locale. Jean Harlow hasn't been to New York in six years, but she frequently comes to Chicago, St. Louis and even as far east as Washington.

Libby Holman is anxious for a musical play on Broadway next fall, but at the moment she doesn't know what it will be. Her last one was "Revenge With Music."

MILWAUKEE (AP)—Nada Petrovich, 20-year-old Marquette university sophomore, hopes she can stay here long enough to be graduate—but she has her doubts.

A New Outlook You might wonder why I move so often. It's an escape mechanism. I admit, but a very pleasant one.

There used to be plenty of beaver dams on White Deer creek where the beavers worked under the tolerant, merciful eye of the Indian (and there are still where the beavers live).

Mr. Denson who has built a dam, and some say that a beaver dam once stretched across the mouth of a small creek that runs into McClellan creek at the bridge, and at that spot there is a thick growth of tule, or bullrushes that is sufficient to dam up a hole of clear, fresh spring water.

That it will be the biggest and most beautiful body of water on the plains, and the sea and the mountains (O blessed sea and mountains!) will be brought up to the Panhandle, to even the small boys of the swimming hole who never saw the sea or a mountain!

AROUND HOLLYWOOD

HOLLYWOOD—Ever since I was a child I have wanted to travel. So I have perfected a way of living in "every part of the world" without even leaving Hollywood.

I move from house to house, hotel to hotel, apartment to apartment. I have moved exactly 22 times since I came to Hollywood a little less than four years ago from the New York stage.

My new place is a 12-room english style home. It has a swimming pool, which is one of the main reasons I rented it. But since I couldn't go to the coronation in person, at least I can go to it in fancy by living in an English style home.

How's Your Health?

MORAL IMBECILITY The problem of moral imbecility is intimately related to the larger problem of crime. Both fall within the province of medicine, for the law largely judges the culpability of the criminal on the basis of his knowledge or apprehension of the criminal nature of his act.

There are persons in whom we discover a partial or entire absence of color perception, or of musical perception, and others who are partially or entirely destitute of the power of numbers, of distance, of direction, of analysis, of logic, or of any other special faculty—nor can the absence be supplied by education.

By strict definition the moral imbecile is not insane. He knows the quality of his act, but his knowledge does not carry over into moral inhibition.

What To Do About Ants Here is another government bulletin covering an important household problem—the control and destruction of house and lawn ants. It goes thoroughly into the problem, describing the kinds of ants, with pictures, and telling what to do about them.

This booklet should be in every home, for if ants aren't bothering you now, there is no telling when they will. This coupon is for your order. Fill it in carefully, and enclose five cents in coin to cover handling and postage.

By George Clark. When the casting office calls me, instead of saying as many other players do, "Wait until I get my hat," I always say, "Wait until I move."

Don't get me wrong. I don't buy the places. I don't own even an occasional chair. I merely move my personal belongings each time I rent another place.

DESTRUCTIVE tornadoes that swept through the Ozark section of Missouri early this year have caused some of the inhabitants of those regions to adopt a policy of "safety first."

Such devastations have caused the entire community to become storm-cellar-conscious, and those who do not have cellars are now in the process of building. In driving over the country, one may discover all available help employed in this new boom of construction work.

BOOK A DAY

Two excellent books which discuss the Supreme Court from opposite points of view are currently available.

The Supreme Court and the National Will, by Dean Alfange (Doubleday, \$2.50), suggests that the court does, in the long run, follow the election returns. The run is a pretty long one, now and then, Mr. Alfange admits; yet, he says, whenever the court has "disregarded the popular will on vital questions affecting the whole nation, it either modified or reversed its position subsequently, or less frequently, acquiesced in its reversal by the people through the process of orderly amendment."

Mr. Alfange reviews the court's history from start to finish, shows just how it has "adjusted itself to the dominant currents of public sentiment," and concludes that no violent laying on of hands by a New Deal administration is really necessary.

Indeed, he says bluntly: "Democracy must curb the Supreme Court or the Supreme Court instrument of our great concentrations of economic power, will destroy democracy."

Two first-rate books, these. Study them and you will be able to discuss the President's court plan far more intelligently and realistically.

KANSAS CITY'S NEGRO MONARCHS TO PLAY OILERS TOMORROW NIGHT

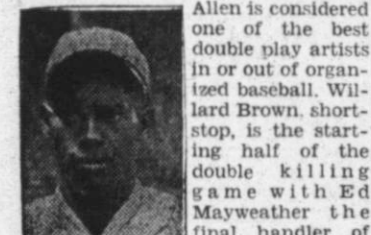

FAMED BLACK HURLER WILL TAKE MOUND

The popular Kansas City Monarchs, negro baseball club, will be here for a single game tomorrow night with the Pampa Oilers. Manager Andy Cooper has gathered a team of players that are outdistancing all opposition in the Negro American league this season.

Game time will be 8:30 o'clock at Ross Runer park with admission 40 cents. Season general admission tickets will be honored at the game and at all future attractions.

The negroes trained this season at Monterrey, Mexico, where they played 14 games, winning 12 and losing three. Added strength includes three youngsters and the return of Frank Duncan, great catcher, and Henry McHenry, pitcher. The veteran battery mates left the Monarchs last season after 10 years with the team. Last season they were with the New York Black Yankees.

Back again will be the sensational second-baseman Newt Allen, who looks one way and throws the other.

NEWT ALLEN—Like the House of Davids, the Monarchs have their veteran in Bullet Rogan who is playing his seventeenth year with them. Rogan is used as a relief pitcher and pinch hitter.

Manager Fred Brickell of the Oilers will have Carl Stewart and Harvey Hutton ready for mound duty with Sam Dalley in reserve. Brickell may also have a surprise ready for Wednesday night.

American Tennis Hopes Centered On Don Budge

AMERICAN 24
NEW YORK, May 25 (AP)—It took ten years to find him but tennis fans are convinced Don Budge is the way to bring the Davis Cup back to the United States.

Ever since 1927 when Rene Lacoste whipped Bill Tilden and Bill Johnston and started the cup on its ten-year stay in France and England, the United States has sought a player with enough of Tilden's fabulous ability to lead a winning team in the challenge round.

Once it seemed Ellsworth Vines could turn the trick. But Vines, tired and nervous, wasn't up to it.

This week-end at Forest Hills, L. I., Budge will lead the way against the brilliant Australian team in the American zone final, the first major hurdle in the cup quest.

By temperament and technique Budge is well equipped for the task. None of the irritability or tenseness of the nervous player has marred his practice work at Forest Hills.

Although young, Budge is a veteran of what is probably the toughest tennis competition in the world, the American amateur "circuits." He lacks the spectacular touch of a Tilden or Vines, but has the finely ingrained game that marks the finished competitor.

INDIANS PUSH BEAUMONT BY BEATING TULSA

(By The Associated Press.)
Oklahoma City, May 25 (AP)—Indians dogged the heels of the Beaumont Oilers in the Texas league scramble today, moving up another half game on the leaders with a smashing 9-1 victory over the Tulsa Oilers last night.

Beaumont was splitting a double-header with Houston, taking the first game 7-2 and dropping the second 3-0.

Ralph Buxton held the Oilers to six scattered hits as the Indians made it three out of four in the series. The Redskins pounded George Miltstead and Ed Garnett heavily to sew up the game in the early innings.

Bob Harris hurled 6-hit ball to give the Shippers their victory over the Oilers but Allyn Stout came back with a sensational exhibition for Houston in the nightcap. Art Patchen matched Stout as far as hits were concerned but was wild, walking eight men.

The Fort Worth Cats downed Dallas 4-3 behind the 3-hit pitching of old Jackie Reid. Errors by first baseman Lee Stebbins and Shortstop Red Brown led to all the Dallas runs. Al Baker, hurling for the Steers, was nicked for ten hits.

Eddie Cole bested Howard Mills in a hurling duel as the Galveston Bucs nosed out San Antonio 1-0. Susco's double in the second scored Curry with the winning run. Cole, winning his seventh game of the season, allowed five hits. Mills gave up four.

BULLET ROGAN
 With the Monarchs when they play the Oilers here on Wednesday night will be the famous Bullet Rogan. After 17 years with the team, Rogan can still take the mound in the "clinch" and throw his fast ball. Time has not dimmed his eye at the plate and he is used regularly as a pinch hitter. Manager Andy Cooper, left-handed chucker, has a team stronger than last year, it is claimed.

JIMMY SNYDER SETS RECORD ON SPEEDWAY

INDIANAPOLIS, May 25 (AP)—If it would be arranged to hold the 500-mile speedway race May 31 sometime around dusk, Jimmy Snyder, former college athlete, milk truck driver and midget auto race driver, probably would win with ease.

In preliminary tests and speed trials at the 2½-mile brick and asphalt track, Snyder's tactics have prompted other pilots and mechanics to dub him "The Night Rider."

When he established the all-time one-lap record speed of 130.492 miles an hour last Saturday, darkness was closing in around the huge racing arena.

He put his super-charged six-cylinder Comet on the track Sunday and drove a lap or two at better than 127 miles an hour but darkness halted the attempt. Yesterday he went out both in the morning and evening for unofficial tests and again averaged around 127 miles an hour.

Despite the amazing speed, the car is still unqualified. Only two more periods of trials, from 1 to 7 p. m. Wednesday and 1 to 4 p. m. Saturday, remain in which Snyder and some 30 other drivers may qualify for the fifteen vacant places in the starting lineup.

HARRY TODD CAPTURES TITLE AT CORSICANA

CORSICANA, May 25 (AP)—Harry Todd, Dallas sharpshooter, held the championship of the Corsicana country club invitation golf tournament today and looked forward to more links work in the 14-0 victory.

Todd yesterday defeated his fellow townsmen, O'Hara Watts, 4 and 3 to capture the tournament here after wading through the strongest opposition. The field included such stars as Reynolds Smith, Texas amateur king, and Johnny Dawson, the Chicago golfing great.

Todd now has three tournaments to his credit this year, among which is the Texas open, held at Fort Worth. He carried off honors in the Glen Lakes invitation at Dallas and was a semi-finalist in the state amateur at Houston. He was state amateur champion in 1935.

MAYOR TO OFFICIATE AT DUKE'S WEDDING

MONTS, France, May 25 (AP)—The Duke of Windsor and Mrs. Wallis Warfield will be married with a double ring ceremony in the music room of the Chateau Cande, a source close to the household disclosed today.

The rings to bind the troth of the abdicated monarch and the woman for whom he gave up his throne will be exchanged during the French civil ceremony to be performed by Dr. Charles Mercier, the mayor of Monts, on June 3.

The wedding party, the source declared, will assemble to the music of a wedding march played by the famous French organist, Marcel Dupre, on the organ in the library.

Some 30 guests, whose names were expected to be announced today, will witness the ceremony.

The Duke and his bride-to-be were rehearsed in the details of the French service yesterday by Mercier and all that now remains to be settled are plans for the flowers and the wedding breakfast.

THURSDAY WILL BE PAMPA DAY AT RACE MEET

Despite threatening weather and a muddy track, a large crowd attended the races at Tri-State park yesterday in Amarillo. Good time was made by the mudders who failed to cause upsets.

Thursday will be Pampa Day at the Amarillo races. A delegation headed by Dr. M. C. Overton, Jr., Dr. R. E. Bellamy and John Roby, directors of the Pampa Downs Jockey club, will attend the races. Another group will go from the Pampa Junior chamber of commerce to advertise the Top O' Texas Fiesta June 3 and 4.

OKLAHOMA CITY, May 25 (AP)—When the Oklahoma City Indians return home tonight to open a Texas league series with the Tulsa Oilers, Paul Easterling, heavy hitting outfielder, will not be in uniform.

Easterling was suspended indefinitely at Tulsa yesterday by John Holland, Jr., club president, after an early morning altercation in a hotel room. Carl Kott, an infielder, received a broken finger in the mix-up and will be unable to play for two weeks.

"This is the last time," said Holland. "He knew it would be. We've seen him through too many other scrapes. . . . We'll trade him if we can find a club that will take him."

He was suspended several days earlier this season for breaking training rules.

Hubbell Gives Up 8 Hits In 4 Innings, Then Relieved

By BILL BONI
Associated Press Sports Writer
 A king who still rules his throne tottered dangerously, and a gang of marauders once again threatening to rip apart the American league, furnished baseball's biggest news today.

The king is Carl Hubbell. The marauders are the Yankees, walk-away champions in the junior circuit last season and now, with their team batting eye regained, back on top of the heap with a full game advantage over the Philadelphia Athletics, who dropped an 8-6 verdict to the Browns.

Hubbell, credited with the Yankees' 4-3 defeat of the National league leading Pirates yesterday, thereby added the twenty-third pearl to his unbroken string of league triumphs. But the master faltered towards the end, gave up eight of the Bucs' ten hits in the last four innings and had to be rescued in the last of the ninth by Beffy Dick Coffman, who fanned Johnny Dickshot with two out and the bases loaded.

Through their victory, the Giants moved into a virtual tie with the second place and idle Cardinals. The Yanks battered the Indians into 14-0 submission.

For the fourth day in succession the Ruppert Rifles gave evidence they are no longer fooling. In four days they have won as many games, rolled up 39 runs and collected 58 hits.

In Washington, although the Tigers beat the Senators, 3-1, Gerald Walker failed to hit for the first time since the start of the season. Roxie Lawson, six-foot right hander, hung up his seventh victory of the year—a total equalled only by the peerless Hubbell.

The Red Sox, with Jimmy Foxx's homer and two doubles pacing a 14-hit attack that gave veteran Rube Walberg his first win, jumped from seventh place to the head of the second division by trimming the White Sox, 9-5. The Browns were unable to come out of the cellar despite their 8-6 defeat of the A's.

With Max Baertt allowing only six hits and one base on balls, the Dodgers hung up their first shut-out of the season by a 1-0 score over the Cincinnati Reds. The Rhinelanders dropped into last place behind the idle Phillies.

In the other National league game, Lou Pette and Tex Carleton both turned in six-hit efforts. Pette's fellow Bees made better use of their allotment, however, and Boston set back the Cubs, 3-1.

OLIN TO FIGHT JOHN HENRY LEWIS JUNE 3

ST. LOUIS, May 25 (AP)—If Bob Olin is successful in regaining here on June 3 the light heavyweight title he lost to John Henry Lewis here in 1935 he can credit the peak of his comeback campaign largely to his mental condition.

The terrific lacing the former bond salesman took that night, although he outought the Phoenix negro in the last three of the 15 rounds, is still vivid in the minds of St. Louis fans.

His state of mind was by far contradictory to his bodily perfection.

He had made a sizeable fortune in the stock market before the crash, but saw his savings wiped out in one grand slam. Then came the severest blow just a month before the title bout. His younger sister died following an operation, and not only that, but his father was in a hospital, too ill to be informed of his daughter's death.

But now Olin, says his manager, Harold Scadron, is once more free of brain worries, and "If Lewis beats him again, it will be because Lewis is the better man."

MARBLE TO THIRD

LONDON, May 25 (AP)—Alice Marble, American singles titleholder, gained the third round of the Middlesex tennis championships today with an easy 6-3, 6-1 victory over Rita Jarvis.

Will Give Mrs. Warfield to Duke

When Mrs. Wallis Warfield weds the Duke of Windsor at the Chateau de Candé on June 3, she will formally be given in marriage by Herman L. Rogers, her friend of twenty years. Rogers has been Mrs. Warfield's host since her precipitous flight from England and spokesman for the Duke since the latter's arrival at the Chateau. He is taking leave of reporters after a press conference.

House were elected at large in 1932. The next year the Legislature passed a congressional redistricting bill. If legislative reapportioning had been made the principal beneficiaries would have been Houston, Dallas, San Antonio, and certain sections of West and South Texas such as the lower Rio Grande valley and the Amarillo, Lubbock, and San Angelo areas which grew rapidly between 1920 and 1930.

As the situation stands some members of the House represent around 100,000 persons each while others thousand constituents. Rep. A. C. Riddle of Lockhart spent many of his free hours this spring watching his son gallop the quarter mile. The boy, W. C., a senior in Lockhart high school, is one of the best schoolboy tracksters in the state at that distance. It was his misfortune, however, to have to compete against the brilliant Harry Hays of San Angelo, who won the 440 and anchored the victorious mile relay team at the state meet.

Hays was clocked at 48.8 and Riddle at 49 as they placed their teams "one-two" in the mile relay. Coach Clyde Littlefield believes if Hays and Riddle come to the University of Texas, the Longhorns will have the outstanding mile relay combination of the nation in 1939. Riddle intends to enter the university.

PRODUCTION OF CRUDE SHOWS NEW INCREASE

TULSA, May 25 (AP)—The Oil and Gas Journal reported another new high today in its computation of the average daily production of crude oil in the United States. The daily average for the week ending May 22 was 3,553,235 barrels, an increase of 3,414 barrels over the week before.

Oklahoma had a decrease of 10-325 barrels to 649,725. East Texas was up 1,410 barrels to 464,957 daily and the total state of Texas increased 7,058 barrels to 1,428,397 daily. Production in Louisiana declined 995 barrels to 242,430 daily. California had a rise of 3,000 barrels to 659,000, and Kansas declined slightly—925 barrels to 197,550.

Eastern states, including Michigan, registered a production of 160,943 barrels daily, an average increase of 5,596 while the Rocky Mountain region had an increase of 4,140 barrels to a total daily average of 74,530 barrels.

'ANEMIC COPS CALL OUT FIREMEN. EVANSTON, Ill. (AP)—When the Evanston hospital asked Police Chief Freeman for volunteers to give blood to a patient, he refused and returned to the hospital to Fire Chief Hofstetter. Freeman explained that during the last month 15 policemen have donated blood. "Fire Chief Hofstetter has a lot of red-blooded men," said Freeman. "Our policemen are beginning to look anemic."

MOTORIST COLLECTS EVERY POLE IN SIGHT. BUTTE, Mont. (AP)—Police think an unidentified motorist is lucky. He "bounced" a fire plug, three power poles and a hitching post in a wild drive down Arizona street and came out of it with scarcely a scratch.

WHITE DEER YOUTH WINS TRIP TO PAN AMERICAN EXPOSITION

DALLAS, May 24. (Special)—Names of 48 Texas school pupils who will receive free trips to the Pan American Exposition in Dallas as first prizes in the Greater Texas Essay Contest were announced today by E. P. Simmons, chairman of the Greater Texas Committee. He also announced the winners of 336 cash prizes awarded in the contest. Orvil Thornburg of White Deer won first prize in the high school division of the contest in district 1, and Elizabeth McKendon of Dalhart won first prize in the elementary division of the contest in district No. 1. Each will receive a free trip to Dallas and the Pan American Exposition June 25.

On Capitol Hill

By HARELL E. LEE
AUSTIN, May 21 (AP)—Failure of legislative redistricting at the regular session perhaps meant its death until after the 1940 census. Gov. Allred possibly will submit it at a special session but the argument hereafter can be used with increasing effect that the legislature might as well wait until a new census is taken.

No effort was made at this year's session to redistrict the senate. A bill to reapportion members of the House of Representatives got a favorable committee report but died on the calendar. A number of House members from sections which would have lost in representation opposed the bill. Most of them expressed confidence the 1940 census would give their areas sufficient population that they would not lose as much.

The 1941 legislature will be confronted with the task of congressional as well as legislative redistricting. The 1931 legislature did not redistrict for congress and Texas' three additional members of the National

Other prize winners in district 1 elementary division were: L. L. Smith of McLean, Jean Burrow of Morse, Curtis Palm of Amarillo, Doris Rigdon of McLean, Audrey Lambain of Amarillo, Wayne Back of McLean. Each will receive \$2 cash. Winners of the six \$25 cash prizes in the high school division of district No 1 were: Charlie Planner of Dalhart, Kenneth O'Connell of Dalhart, Frances Borden of Hereford, Elvira Speer of Skellytown, Fred Dillman of LeFors, Leroy Fisher of Pampa. District No. 1 embraces 23 counties. The contest was open to the sixth and seventh grade pupils of the white elementary schools, competing in the elementary division; and to the pupils of all the high school grades, competing in the high school division. The state-wide contest was conducted among all of the 24 supervisory districts of the state department of education, with Dallas county pupils competing in separate contests.

Snake Right at Home in Overheated Car Motor

CLAREMORE, Okla. (AP)—Walter Boyd, patrolman at Lake Claremore, noticed the motor of his automobile was unusually hot as he drove from the lake to Claremore. Boyd refilled the radiator but on his way back to the lake the same trouble occurred. He raised the hood and found the fan belt was broken. He reached for the broken belt but spring back when he found a copperhead snake coiled in striking position on the pan by the motor.

CHAPTER XXX

Sybil was still at her uncle's house when Bob returned to see Inspector Kennedy. She came forward to greet him as he entered.

"Bob, my dear!" she murmured tragically. "I'm so glad you came back to me..."

He looked at her, cold disdain in his glance. "I came to see Inspector Kennedy," he informed her curtly.

Sybil paled, and her heart sank within her as she read the expression in his eyes. She struggled to conquer it.

"There are so many details to arrange, Bob," she pleaded, "and you're the only one I can depend upon at this time..."

"You will excuse me," he protested indignantly, "if I seem to be more concerned over the fate of my future wife..."

He brushed past her, and without a backward glance he mounted the stairs to Mr. Henry's room where an officer told him he would find the police inspector.

Sybil looked after him, a little dazed at first, then slowly as understanding came to her, with undisciplined malice.

"So he takes it that way, does he?" she said to herself. "He turns his back on me for a dirty little gunman's bribe! Well, I'll see her die for this if it's the last thing I ever do!"

CHAPTER XXX

Kennedy smiled. "Miss Starke is quite an optimist, I should say."

"I think she's found something, Kennedy," Bob insisted. "Read the story over, please."

"You think it has a bearing on this case?" Kennedy read the papers slowly and thoughtfully.

"I see one curious thing," Kennedy noted finally. "What's that?"

"This fellow Norton seemed to have been on the job at that time also..." Bob's heart leaped for joy.

"Miss Starke called it to your attention?" "Yes, she did. And this is what she suggested further..."

"I know, I've checked on that. Look at this..." From his inner pocket he took out a Green Hills local timetable.

"We have the word of the room clerk at Norton's hotel," Kennedy remarked. "That Norton called for the key of his room at exactly 11:27."

"Bob's face dropped. He considered this new alibi for a moment, desperation written in every feature. "Norton's stopping at the Pennsylvania," he cried suddenly.

up the phone beside the bed and called the hotel. "Let me speak to Mr. Norton," Bob heard him say.

"He waited for several minutes. Then: 'He doesn't answer, eh? Well, let me talk to Lang. Yes, Hello. Say, Lang, I don't want that fellow Norton to get away. Keep an eye on him, will you?'"

He replaced the phone on its hook and returned to Bob. "Norton assured us that we could reach him at the hotel for the next week or two," he remarked.

"We haven't located her, if that is what you mean," every radio car has had description, and we're checking the hotels now..."

"He broke off abruptly as the telephone in the next room rang. 'Wait,' he suggested, 'this may be news of her now.' He hastened to answer it.

"Hello. Yes, this is Kennedy. What's that to your attention...? Oh, and thank Miss Starke, too, will you?" "I shall try the way, have you found any trace of Miss Barrett yet?"

"We have the word of the room clerk at Norton's hotel," Kennedy remarked. "That Norton called for the key of his room at exactly 11:27."

"Bob's face dropped. He considered this new alibi for a moment, desperation written in every feature. "Norton's stopping at the Pennsylvania," he cried suddenly.

"Kennedy rubbed his chin thoughtfully. "It makes sense, all right," he admitted. A moment later he went into Mr. Henry's bedroom next door, picked

up the phone beside the bed and called the hotel. "Let me speak to Mr. Norton," Bob heard him say.
