TAX ON BEER DEFEATED IN HOUSE

Children of Pampa Territory Invited to Kiwanis Easter Egg Hunt

More Proof
More proof of the responsiveness of Pampa people to the needs of their schools is herewith presented. Several days ago we told of the necessity of having more funds at the Baker school cafeteria. Last night Principal J. A. Meek reported these contributions: T. D. Hobart, \$5; Mrs. Lee McConnell, food for one child as previously "adopted"; Mrs. V. E. Fatheree, \$4 for her "adopted" pupil; Methodist Missionary society, \$10; Junior and Malcolm Kurtz, pupils, \$3; Circle 4, Methodist church, \$1; Presbyterian men, \$7 in food; merchant, \$15 in groceries.

What It Costs
It is costing \$80 a month to feed the children who must have their noon meals furnished in order to remain in school. Every contribution helps to lift the burden off the struggling P. T. A. and the faculty, and is appreciated beyond our ability to express in this column.

Lots of Children
Many citizens do not realize the great number of pupils which are receiving their educations here. The percentage of grade pupils entering high school is growing. In fact, there are more pupils in Pampa school than one would find in many colleges. There are far too many pupils on the central campus, and nothing can be done, at this time, to remedy the condition. Take a look at the children of many sizes grouped on that one campus and trying to play and you will see what we mean.

Safety in Education
Education is one of the most costly functions in government, yet one of the most vital. There are few tangible evidences of the tax dollar, but education is something that can be weighed and measured in the homes. School teachers have long been underpaid. It is difficult to keep good, capable men in the profession. Efforts to deflate the schools as a whole are sadly out of place. Every child ought publicly provided education is entitled to receive a thorough education at the hands of capable teachers.

That Petition
Much of the criticism of education should be aimed at higher education. There are many of the fallacies which beset the graduates upon entering the highly competitive business world. . . . A petition is going the rounds of the universities asking that the United

WEATHER
WEST TEXAS: Fair, cooler in west portion tonight; Saturday fair, cooler.
—AND A SMILE
KENNETT, Mo. (P)—Police satirized checking up on a fire that destroyed one house and damaged eight. They said Mrs. Sarah Gibson admitted starting the fire so she could get away from her husband by going to jail.

PRIZES TO BE PROVIDED BY BUSINESS MEN
NEARBY TOWNS LEARN OF SATURDAY'S EVENT
AGE LIMIT IS 12 YEARS
BIG RUSH WILL START AT 3 P. M. NEAR GRID PARK

Plans are complete for the greatest Easter egg hunt ever staged in this section of the country. Thousands of children are expected to be on the grounds just south of Harvester park tomorrow afternoon at 2:30 o'clock just before the signal for starting the second annual Kiwanis Easter egg hunt. Immediately following the event, more than 1,250 prizes will be awarded to children who have found "prize" eggs. A total of 12,500 eggs will be hidden.
Members of the Kiwanis club have visited every school in this territory and surrounding towns, inviting the people to come to Pampa tomorrow. All children 12 years of age or younger will be allowed to participate.
The Kiwanis safety committee, headed by Max Mahaffey will be on the grounds assisted by the Boy Scouts and the junior police, to see that every precaution for safety is observed. The smallest children will be separated from the older ones so that even the little tots can enjoy the hunt with safety.
Immediately preceding the event a parade will be held at the park and representatives of the Universal news reel service and other picture companies will make motion pictures of the children. A special picture will be made for the Kiwanis club.
The time is 3 o'clock tomorrow afternoon, Saturday. The place is just south of Harvester park where automobiles are parked during football games. The age limit is any child 12 years old or younger. The number of hidden eggs will be 12,500. The prize list exceeds 1,200.
Pop Frazer and his high school band will furnish entertainment before the hunt. Judge Newton P. (See EGG HUNT, page 8.)

Maybe it's just gossip—that report that Charlie Chaplin is engaged to Mary Reeves, comely English girl. But here the camera has pictured her in the company of Boris Ewellhoff, manager of the screen comedian's personal affairs, in Paris. They'd just arrived from London.

ATTORNEY GENERAL SMILES AT JOKES POINTED AT HIM

Jimmie Allred Is Honored at Banquet Here; Friends in Praise of Career.

Texas' young attorney general, "Jimmie" Allred, was made the victim of jokes here last night which he termed smilingly as "not even nice."
He was referring to a "phony" radio broadcast by Sam Fenberg, who impersonated Glen Calhoun, and to an "endorsement" of the Amarillo candidate by another speaker. The occasion was a banquet in his honor given at the Schaefer hotel, sponsored by a former classmate, H. Otto Studer. About forty Pampa lawyers and business and professional men were present.
Chas. C. Cook was toastmaster at the informal dinner. He called on Olin E. Hinkle of The NEWS for opening remarks and an expression of welcome to the attorney general. Reminiscences of Mr. Allred's meteoric career, with high praise of his ability and character were given by the guest speaker, L. M. Fischer, an Amarillo attorney. Mr. Fischer referred to Mr. Allred as an "untouchable" and fearless representative of the common people, who elected him.
In introducing the attorney general, Mr. Cook referred to Allred's championing of the rights of oil men and landowners. Responding, the honored guest pledged his continued effort to secure equal opportunity for all Texans, and declared that his activities were without personal prejudice and were at the express command of the last legislature. While saying that he felt West Texas was for the first time properly represented in the attorney general's department, he said that he had not found other sections "fundamentally prejudiced" against this one. Many of his remarks were in the form of appreciation for the friendship of those who supported him and members of his family.
Mr. Studer and M. K. Brown spoke briefly before the close of the banquet. The attorney general, Mrs. Allred, and their son arrived

I HEARD--
Two youngsters standing in front of the window at the Pampa Hardware store where a number of colored chickens and colored eggs are located. One of the children told the other that the chickens certainly did lay pretty colored eggs. The second told informed the first speaker that the chickens' mama laid the eggs.
That C. H. "Hub" Walker played a round of golf the other day with Ivy Duncan and an unknown. When asked about his score Hub announced, "None of your darned business."
That a local man wired a man who desired to purchase some property in Pampa that it was not worth taxes and that the boom was over. "Boost Pampa."
Several persons talking about the beautiful new Episcopal church. The building is small but is beautifully finished on the interior. The Presbyterian church annex also came in for some complimentary remarks.

LATEST DEVELOPMENT BREAKS DOWN IN LINDBERGH SEARCH

NORFOLK, Va., March 25. (P)—Despite official announcement from the Lindbergh home in Hopewell, N. J., that Col. Charles A. Lindbergh did not consider information about his kidnapped baby furnished by three Virginians important, one of those informants said today early return of the baby was expected.
HOPEWELL, N. J., March 25. (P)—Police at the Lindbergh home announced today that Col. Charles A. Lindbergh himself had come to the conclusion that information brought by three citizens of Norfolk, Va., had "no specific significance" in the investigation of the kidnaping of the Lindbergh baby.
When Col. H. Norman Schwarzkopf, superintendent of state police, was first told yesterday of the report that the Norfolk men had information indicating the baby might be on a yacht in Chesapeake bay he said it was "absolutely untrue."
In his night bulletin from the Lindbergh home, where he is in general charge of the police search for the kidnapers, Schwarzkopf modified this statement. He said that the Norfolk men had been to the Lindbergh house Tuesday and that their information had been investigated and found to have "no specific significance."
It was generally supposed that this was simply Schwarzkopf's own conclusion, but today the police chief announced he had been speaking for Col. Lindbergh, that Col. Lindbergh had had the investigation made himself and that Col. Lindbergh still believed the information from Virginia to have no "specific significance."

Optimism Felt After Oil Price Hike Is Learned

A spirit of optimism pervades the Panhandle oil field following an announcement that the price of Midcontinent crude oil will be raised to \$1 a barrel effective April 1. Gilmen in this territory believe the price of crude in the Panhandle field will be raised the same margin as that of the Midcontinent field.
An increase of 15 cents a barrel for Gray county crude would bring the top price to 88 cents a barrel. Representatives of major companies say they have received no word of a Panhandle hike but they expect such an announcement immediately. A new posted price for Panhandle crude is usually made from two to five days after the Midcontinent price is announced.
It was rumored this morning that several new locations would be made immediately on the strength of the announcement yesterday, but confirmation was lacking. It was also reported that the railroad commission would raise the Panhandle allowable above the present 55,000 barrel mark if the hike comes.

OKLAHOMA CITY, March 25. (P)—More oil to sell for more money—an actuality here next month.
Just after three large companies had joined in giving notice they would pay a top price of \$1 a barrel for crude oil beginning April 1, the Oklahoma corporation commission responded to the urgent demand of purchasers by increasing the daily allowable flow of the great Oklahoma City field 10,000 barrels to a maximum of 115,000 barrels.
Now the mid continent is peering into its gazing globes and declaring it sees a 2 per cent gallon increase in retail gasoline prices just around the corner.

Erring Husband of Negro Woman in Grave Danger

"Sheriff ah wan's you tuh make at low down husband' uv mine come back tuh me, and ef you don' Ah'm goin' tuh kill 'im," was the plea and the threat of a negro woman six feet tall to Sheriff Blanscet this morning.
"That's a woman come over heah from Ambarillo las' week, and she's gittin' all the women's husband's in this heah town—gimme that gun Mr. Cowboy (Mumford) Ah'll kill 'im!"
There seemed to be no doubt but that she would slay her two-timing husband. Perspiration rolled off her forehead as her anger mounted. "He done left me when I caught up wif 'im—Ah wan's you to bring 'im back tuh me er Ah'm goin' tuh kill 'im."
The sheriff admitted she was right, but advised her against infir-

PESSIMISM IN CHINA'S PEACE PARLEY HEARD

ENVOYS DRIFT FURTHER APART INSTEAD OF CLOSER

END SOME OBSTACLES

BOYCOTT SUPPRESSION STILL DEMANDED BY JAPAN

SHANGHAI, Mar. 25. (P)—Sino-Japanese negotiations lagged perceptibly today while armies of the two nations engaged in sniping and skirmishing a few miles outside Shanghai.
Each blamed the other for a clash between outposts near Katang, and neither had an official explanation of sniping between troops in the vicinity of Chiawangmiao, incidents which added to the general uneasiness.
The Chinese defied the 12-mile ultimatum of the Japanese when they occupied Chiawangmiao recently and they have shown no disposition to retire across Sochow creek as the Japanese have demanded.

The delegates—Chinese, Japanese and neutrals alike—emerged from a three-hour session of peace negotiations with weariness written on their faces, although the official communiqué noted, as usual, "some progress was made."
The Chinese insisted there was no advance in negotiations.
The Japanese cautiously reiterated that three points were discussed, the remainder of Chinese troops in the present positions, withdrawal of Japanese forces and selection of a joint board to supervise the withdrawal.
The prevailing pessimism over the peace negotiations was made plain tonight when Hamoru Shigemitsu, Japanese minister to China, declared that the parleys must continue at least another week before a complete agreement could be expected.
Quo Tai-Chi, representing the Chinese government, was even less optimistic.
"Instead of coming together we are drifting further apart," he said.
Both delegates were agreed that several minor points had been settled in the discussions and let it be understood that the broader issues were being approached by a process of gradual elimination of the obstacles surrounding each.

It was said that among the points on which differences of opinion existed were the limits within which the Japanese troops were to be withdrawn, the manner of policing the evacuated zone and the suppression of the anti-Japanese boycott in China.
Purdue university basketball teams have lost only five Big Ten games in 34 starts in the last three years.
der. When her wrath fell, he had to tell her he had no jurisdiction in the matter.

DROPPED IN

Here's one passenger who was on the liner Ile de France when it docked in New York the other day, but wasn't aboard when the ship left France. He's Pierre Vanlaer, wealthy French amateur aviator, whose plane dived into the English channel when he was saluting departing friends from the air. The ship's crew rescued him and he was brought to America on an unexpected visit.

PAUL SIMPSON ALLOWED BOND

Shamrock Bank Charge Is Based on Testimony of Negro Janitor.

Bond for Paul Simpson, charged in connection with the robbery of the Shamrock bank recently, was set at \$3,500 by Judge W. R. Ewing in a habeas corpus hearing yesterday afternoon. Witnesses were Isom Hayes, negro janitor at the bank, and W. D. Dawcose, jailor and defendant did not testify.
The negro was taken to San Antonio shortly after the bank robbery, where he picked out Simpson and a San Antonio city detective as the men who robbed the bank. Hayes testified that he saw the two men for two hours without their masks before bank officials and employees arrived at the bank on the morning of the robbery, and that it was his belief that Simpson was one of the men. He said the San Antonio detective "favored" the other robber.
The bandits entered the bank about 6 o'clock and put on their masks about 8 o'clock. They wore uniforms. Before the robbers looted the safe they tied the two negro janitors and all employees of the bank with copper wire and then taped their mouths and eyes.
Hayes' testimony regarding the height of the two bandits was conflicting. He said he did not know his own height. Deputy Dawcose testified regarding Hayes' statements when he picked out Simpson among eleven men in the San Antonio jail.
Charlie Hoyt, coach of the University of Michigan track teams, considers an athlete not worthy of attention if he is a poor student.

NEWS FLASHES AT PRESS TIME

AMARILLO, March 25. (P)—W. H. Holmes, 53, pioneer in the development of the Panhandle oil and gas fields, died today in a private sanitarium in Los Angeles. Holmes had lived in Amarillo 14 years, during which he had been a republican leader in Texas. He was the republican executive committeeman from the eighteenth congressional district, and in 1928 was his party's candidate for governor.

WASHINGTON, March 25. (P)—Andrew W. Mellon, ambassador to Great Britain told newspapermen today he had no "knowledge of any change" in the foreign debt situation.

EASTLAND, March 25. (P)—Oscar Privett, Goldthwaite youth, was convicted of murder in connection with the shooting of Melvin Dunson, 18, at Ranger in May, 1930, and sentenced to 50 years in prison by a jury in 91st district court here this morning.

HOUSTON, March 25. (P)—A bold robber who held up a pharmacy here today and took \$150 in cash then hid under a bed in a nearby house, was captured by a posse of police and civilians who dragged him from his hiding place. Milton McLean, the pharmacist, had pursued the robber from the store and the chase was taken up by neighbors.

HENDERSON, March 25. (P)—Harvey Nix was convicted of murder and sentenced to 15 years imprisonment today for the killing of Jap Young here last December. Young's body was found beside a highway. He had been stabbed in the back.

W. H. Bybee Now Being Tried For Station Robbery

ALBANY, March 25. (P)—Indicted Monday on a charge of robbery with firearms, W. H. Bybee went to trial today in 42nd district court here, and the case probably will reach the jury this evening. A plea of not guilty was entered.
Indictment against Bybee, who is charged with murder at Breckenridge in connection with the killing of Ollie Parks, deputy constable of Stephens county, March 17, charges him with robbery of a filling station near Albany three weeks ago in which C. S. Cecil, station proprietor was held up by two men and robbed of \$11.50. Bybee, arrested at South Bend by Young county officers 12 hours after the Parks killing, admitted having attended the dance at which the officer was shot, but denied any part on the shooting.

DALLAS MAN HERE
J. Howard Hayden, of Dallas, was in Pampa yesterday transacting business and conferring with local junior chamber of commerce members and officers. Mr. Hayden is past director and a charter member of the Dallas J. C. C., which was the second in the United States.

OBJECTION ON GROUND THAT IT IS ILLEGAL

DRYS MUCH PLEASSED BY NEW VICTORY ON BOOZE

BLANTON STAGES ATTACK

THE VOTE OF 216 TO 132 WITHOUT RECORD IS MADE

WASHINGTON, March 25. (P)—A proposal to tax 2.75 percent beer which would be made under permits from the treasury was rejected today by the house.
One hundred and twenty-seven members filed through between the tellers in support of the amendment on the first count of a vote under a procedure which did not permit a roll call. The proposed amendment would have assessed a tax of three cents a pint against beer.
Representative Cullen (D., N. Y.), who sponsored the amendment, argued that it would produce from \$350,000,000 to \$450,000,000 of revenue annually and would go far toward relieving unemployment.
Opponents contended it was in violation of the constitution and argued that the country could not drink itself into prosperity.
The vote came after bitter debate and threw the house into disorder at times. The vote was 216 to 132.
Opponents of the amendment had objected to the question being put to a vote on the contention that the house should not ballot on the question of assessing a tax on an article which they argued was forbidden by the constitution, but their objections were overruled.

(See BEER TAX, page 8.)

I SAW--

Many signs of Easter this morning. Little chicks, their down dyed pink, green, yellow, purple, blue, in the display window at a local drug store. Easter lilies in a floral shop.
Mrs. Jack Back looking like April itself in a new Easter outfit. A "pancake" hat of white straw. Red and white sandals. White shirt and dark blue and white jacket with red and white accessories, including white gloves and white purse with red clasp.
Judge W. R. Ewing and Sheriff Lon L. Blanscet earnestly conversing at the wrestling match. Because wrestling is largely confined to sham roughness, both of the officials were wishing that boxing could replace wrestling. This morning Sheriff Blanscet pointed out that boxing matches are now being held in all the big cities of Texas, and that Sterling has not put up anything like the fight against boxing that Dan Moody did.

Attorney General James V. Allred ("call me Jimmie") shaking hands with many Pampans this morning. Off hand we would say that Mr. Allred has a quality of personal magnetism that must be largely responsible for his spectacular success in dealing with people; when he shakes your hand and looks you in the eye he gives the impression that at that particular moment he had rather meet you, talk with you than with anyone else in the world; that he and you have mutual interests and a common understanding. Perhaps that's true. Who knows?

SCENE IN TORNADO AREA AT NORTHPORT, ALABAMA

Typical of the damage done by storms which swept five states is the picture above, which shows how bales of hay were carried a considerable distance and scattered amid the wreckage of a demolished home in Northport, Ala.

Price Fixing of Farm Products Proposed in Bill

WASHINGTON, March 25 (AP)—Federal price-fixing for basic agricultural products was advocated today by Representative Andressen (R., Minn.), a member of the house agriculture committee.

"I have introduced a bill which fixes a minimum price on certain basic agricultural products. If its provisions are properly administered by the secretary of agriculture, it will not take long before prosperity is again restored in this country."

"I have established the following minimum prices: Wheat at \$1.25 per bushel; cotton at .15 per pound; corn at .75 per bushel; rye at .70 per bushel; barley at .65 per bushel; hogs and cattle at .10 per pound, and butter at .32 per pound.

"Big Tops" Will Be Rising Soon

CHICAGO, March 25. (AP)—It's "big top" time again—with circus owners in an optimistic frame of mind.

The first of the large shows to take the trail opens Sunday at Baldwin Park, Calif. Another "big top" will come to New York April 8. The season opens in Chicago April 16. Another entourage will get under way in Kentucky in May.

The circus men say they are optimistic but qualify their enthusiasm with the remark they would not be in the show business if they were pessimists.

KITTY FREW

by JANE ABBOTT

SYNOPSIS: *Safely hidden, Kitty Frew has thought herself a runaway from her husband, Gar, who is looking for a store until he is willing to forget the money he will fabricate and settle down to supporting her. Suddenly she sees Gar's sister, Carol, and fears discovery.*

Chapter 21 FIRM GROUND

MISS LEE had not noticed Kitty's agitation. She was enjoying herself immensely; to talk with even a pretense of intimacy of such people as Margery Crosby and the Idylers had for her as pleasant a taste as the Chef's salad. "I don't care much for amateur things, but I'm going to the first show. I like to see who's in the audience, and it'll be a smart one. That's the way I fix these people in my mind, you see. This Somerseset's coaching them. He may be a good actor, but I can't say I like his looks, do you?"

Kitty looked at Paul Somerseset. He was lean, dark-skinned, heavy-browed, with black hair, which he wore plastered sleekly back from a prominent forehead. He was leisurely finishing his meal, apparently undisturbed by Carol's desertion.

"No, I don't like his looks." And Kitty was thinking of Carol, of Carol's face as it had looked when she left the table. Carol had said she had nothing she wanted. Did she want Paul Somerseset? And if she did there was Marge to reckon with; Gar had laughed over the way Marge was giving this fellow a rush.

The old alien feeling swept over Kitty, for Marge and Carol, all of them, and then almost at once it left her. Why now she had escaped them—she'd found firm ground for her feet to tread.

"I think I'll let you take charge of the displays after this," Miss Lee was saying.

The next Sunday, Kitty, leaving the house for breakfast, paused on the top step to draw in a long breath of the sun-warmed air.

Usually on Sunday she met David at the corner restaurant to eat breakfast with him; to dally over the meal, talking to him, to drink a second and often a third cup of coffee stood off the emptiness of the long day. Now she found him waiting at the table which they called theirs by right of usage.

He rose quickly to greet her. The concern with which he always met her took note of her lighter step, a little glow on her face, a softening of the too-set lines about her mouth. "Did you ever know such a day?" she asked gaily as she eased herself in the chair he drew out for her. "I wish I had wings—I'd fly to a hill-top I know back home!" Her whole heart was, calidly, in her voice.

David smiled at her as if she were a child. "We can go, without wings. Not to your particular hill-top, but to one that's particularly mine, if it'll do."

"David! You mean to your little house?"

"Yes. There's a bus that goes within a half mile. Will you mind walking?"

"Oh, I'll love it. What a darling you are to think of it, to know how much I'm longing to see real country again. Can we take a picnic lunch? Can we start at once?"

"And you say you're grown up!" "I feel young today. It's—but I'm not going to tell you, now. I'm happy to save it. Oh, David—I'm going again. Did you guess when you saw me?" He nodded. He'd seen that she was happy; perhaps she'd heard from Gar. But he didn't want to know, just now.

"You'd better eat some breakfast. Then we'll go around to your room and get an extra wrap. It may turn cold before night; this warmth is only one of the weather-man's jokes."

"Might not Dorcas like to go?" she asked after a moment, but with such lack of enthusiasm that she had to explain, laughing: "I'm selfish this morning. I want this fun just for the two of us. If Dorcas went I couldn't tell you things."

She was so wholly intent on having David to herself that she did not see the sudden swift glancing in his eyes. She went on, smiling fondly at him. "David, you can't half guess what it means to me to have you. You're so—so listening! You're even better than a brother. I think my heart would have broken with everything shut up in it." She put out her hand impulsively and closed it over David's, where his lay on the table, thumb tight over his fingers.

"David, you're dear!" He moved his hand out from hers. "Don't give me too much of the brother role—I've never learned that part. I might fall down on the lines, Kitty. Have you finished? We won't bother with a lunch—we'll find something out there. And we

won't take Dorcas along." He had gotten up and was standing behind her chair, her coat in his hands. He smiled down at the top of her head. "This will be our day, if you want it so."

They boarded an interurban bus at the end of Ketchum Street. It took them through the city, on past the suburban bungalows hanging like a heavy fringe to the city-limits, on to open fields and farm houses and barns. Kitty's excitement was like a child's.

"Look, David! Those willows. Couldn't you think it was spring?—David, see those ridiculous geese!—David, why haven't we done this every Sunday?"

They left the bus at a cross-road and followed it where it wound through brown orchards up over a hill. Kitty matched her stride to David's freer swing. She took off her hat and carried it, and the softly stirring air roughened her hair and brought a higher color to her cheeks. Her chin was lifted, her eyes were going hungrily ahead to the edge of the hilltop.

They paused before they started down into the further valley. David pointed to house-tops, a white church spire, visible among the tree-tops in the distance.

"That's White's Corners. It's a mile beyond my place. It's named for my mother's people. Most of them are buried there. At one time my great-grandfather owned a good part of the valley. There's a mill the other side of those woods—it's gone to pieces, now—." A new quality in his voice brought Kitty's eyes to his face. It was alight with a strong pride.

They walked on down the hill and at its bottom turned into a narrow road that ran off at a sharp angle. And almost at once David said: "Here we are."

It was a low-built, gray clapboard house, old, but with no dreariness or neglect in its age. It had no look of desertion, rather one of waiting. Kitty remembered what David had said of it—a place that put arms round you.

David unlocked the door and stood aside for her to enter, an odd smile on his face. Kitty found herself in a low-ceiled living-room, clean, fresh curtained, furnished so much like her mother's living-room in Bridgewater that she gave a little cry of delight.

"Why, David, I could believe I was home! That old sofa—I know it's ours. Is one leg wobbly? And George and Martha Washington! And the clock!" She began to laugh, and then her laugh broke off sharply. "O, David—it's so good just to see things that look like—home. I don't know—"

He left her and went on to the kitchen beyond, opened doors and windows. When she followed him her gay mood had come back but her blue eyes were misty, as if they had shed tears.

David was taking cans down from a cupboard.

"Soup. I've a tin of crackers somewhere. Corned-beef, apple sauce, coffee—"

"But, David, we can't eat now! I must see every corner of the house and the brook and the hill. David, how beautifully clean you keep everything!"

"Not me—Mrs. Dundy does that. She's my neighbor. Wait a minute—" He went to the open door and whistled. At once there was a shrill barking, and presently through the woods came bounding a collie dog. The animal leaped on David, whimpering in his joy, licking David's hands and face.

"Jan, this is Kitty."

The dog greeted Kitty with more dignity, simply nuzzling her outstretched hand and returning at once to the adoring of his master.

"I've had him since he was a puppy," David explained. "The Dundys keep him for me." He was holding the dog's head close to his shoulder.

"Jan, old fellow, have you missed me as much as that?"

Jan went with them while they explored the house. Narrow steps led to the sleeping chambers above, small rooms, with sloping ceilings and narrow, small-paned windows.

"This was my mother's room—when she was a girl," David said on the threshold of one. Kitty made no move to enter. She saw the books, the pictures, the little blue glass lamp on the table at the window, the low rocking-chair beside it, the gay, piece-work quilt folded at the foot of the narrow wooden bed.

She slipped her hand through David's arm. "David, I wish you'd tell me about her, sometime," she said softly.

(Copyright, Jane Abbott)

David tries to break Kitty's illusions about Gar, tomorrow. "Haven't you learned the truth?" he asks.

WILL ISSUE BONDS
WASHINGTON, March 25. (AP)—The St. Louis Southwestern railway company today was authorized by the Interstate Commerce Commission to issue \$39,599,750 of general and refunding mortgage 5 per cent gold bonds. The bonds are to be exchanged par for par so much as may be necessary to take care of \$9,000,000 of promissory notes and for bonds issued under mortgages having liens prior to the general and refunding mortgage. A portion also may be used as security for promissory notes. This latter portion must not exceed \$18,830,000.

AMBULANCE SERVICE REDUCED TO \$2.50—G. C. Malone.

SCHOOL TEACHER HELD
NAVASOTA, March 25. (AP)—Clayton Carter, 24-year-old school teacher and former University of Texas athlete who allegedly turned bank robber, was held today while Washington county authorities prepared to file charges against him at Brenham. Carter was arrested in connection with the \$1,705 robbery of the Burton State bank at Burton, Washington county, March 3. A lone man held up two employees of the bank and took all the money in sight.

A circuit court decision at Manitowish, Wis., upheld the right of the Wisconsin State Baseball league to hold a \$500 forfeit from a team which withdrew in midseason.

Storm Damage Under-Estimated

BIRMINGHAM, Ala., March 25. (AP)—The gravity of the south's tornado aftermath became more apparent today as field workers for relief forces discovered additional dead, injured and homeless. C. H. McFarland, American Red Cross field director for North Alabama, said the devastation brought about by the storms in five southern states early this week had been "vastly under-estimated" and announced establishment of central relief headquarters here. The new set-up, he explained, will handle relief and rehabilitation operations in 13 Alabama counties, ten in Georgia and six in Tennessee.

see, the states hardest hit. Today the total known dead stood at 382 divided between Alabama with 299, Georgia with 40, Tennessee with 18, South Carolina with 3 and Kentucky with 2. Unofficial estimates placed the number of injured above 3,000 and the homeless at 8,500. Property damage estimates ranged from \$3,600,000 to \$5,000,000.

Most of the dead have been removed from the wreckage and buried and the relief agencies now are concentrating on hospitalization of the injured, housing the homeless juggling the wants of the needy and working out a rehabilitation program for the rural and urban centers which suffered mostly heavily.

EASTER SERVICES ARE TO BE IN NEW PARISH HOME Parent-Teacher Association Shows Much Progress During Current Year

CONSECRATION IS SCHEDULED FOR APRIL 10

BISHOP E. C. SEAMAN IS TO BE PRESENT AT THAT TIME

Easter services of St. Matthews Episcopal church will be held in the new parish home, corner of North Ward and West Browning streets, according to announcement by the Rev. Newton C. Smith, rector. A baptismal service will have a place in the morning worship. Good Friday services will be held in the parish house this evening at 7:30 o'clock. Consecration of the new building will take place on April 10, at which time Bishop E. C. Seaman will be present. The parish house consists of four rooms, an auditorium to seat 100 persons, a small kitchen, a kindergarten, and a sacristy. The beautiful furnishings, with the exception of the organ and other things which were donated, were provided by members of the Women's auxiliary. The women are to have corporate communion in the parish house Wednesday at 11 o'clock, followed at noon by a covered dish luncheon.

PRESIDENT

Untiring effort on the part of the president, Mrs. N. F. Maddux, above is responsible in a large measure for the accomplishments this year of the Horace Mann Parent-Teacher association. The work included the installing of a successful school cafeteria.

CAFETERIA IS INSTALLED AND MADE SUCCESS

MANY HAPPY STUDENTS ARE HELPED BY ASSOCIATION

This school year, soon to be drawn to a close, has been one of marked progress in many lines of work for the Horace Mann Parent-Teacher association, and members have contributed this largely to the efficient leadership of the president, Mrs. N. F. Maddux, and the school principal Miss Josephine Thomas. Cooperating with Mrs. Maddux were Mrs. M. K. Griffith, secretary; Mrs. J. D. Lawson, treasurer; Mrs. C. R. Cobb, corresponding secretary. The main accomplishment has been the equipping and maintaining of a cafeteria where noon lunches are being served to approximately 75 children. By donations from townspeople, many children who are not able to pay are fed. Under the management of Mrs. C. R. Price wholesome lunches are served for ten and fifteen cents, including milk. A large cabinet and tables were built by J. L. Lester's manual training class. To show appreciation for this work, a luncheon was served to Mr. and Mrs. Lester, Supt. Fisher, and the boys of the class. Funds to equip the cafeteria were raised by serving lunches at the school, the food being donated by members of the association. Good Record Book The scrap book for 1931-32, made under the supervision of Miss Violet Durrett, publicity chairman, received honorable mention at the district convention held at Ferrington. The book for 1931-32 is nearing completion. It shows excellent workmanship on the part of the publicity committee composed of Mrs. J. M. Turner, chairman, Miss Wilma Chapman, and Miss Violet Durrett, aided by Mrs. M. E. Griffith. The program committee, composed of Mrs. E. N. Dean, chairman, Miss Frances McCue, and Miss Loma Groom have arranged interesting and instructive programs through the year. Beside members of the school's own organization, the following were speakers: Mrs. T. H. Kappeler, Mrs. George W. Briggs, the Rev. F. W. O'Malley, Mrs. V. E. Fatheree, Principal A. L. Patrick, Supt. R. B. Fisher, and Mrs. J. L. Lester. Committees Work The committee on welfare, with Mrs. Dee Campbell as chairman, assisted by Mrs. J. D. Lawson, was given the cooperation of parents and teachers in clothing a number of children. Twelve boxes of food, clothing, and toys were sent to the homes of those in need at Christmas time. Mrs. Lawson, aside from her regular work as treasurer, has given much time in paying bills and looking after the financial part of the cafeteria. Mrs. L. P. Ward, finance chairman, and her committee composed of Mrs. B. C. Priest and Mrs. Echart, have rendered valuable service, as have Mrs. R. T. Seeds, social chairman, and her assistants, Mrs. George Clark, and Mrs. N. G. Thomas. Each room in the school is sponsored by two room mothers; under the leadership of these mothers and the teachers, each grade is organized. Much interest has been shown in these smaller units; their major project has been to create a library for each grade. One hundred twenty-eight books were bought at a cost of \$51.60. Shower Given October 29 a Halloween party was given at the school building, including a shower for the kitchen. Games were played and refreshments served to 250 guests. From material donated by the University and College club, ladies of the Parent-Teacher association have assisted in making suits for the girls indoor basketball team, also many colonial and other types of costumes for plays given by school children. The association sponsored National Education week. Inspirational programs were held in the school each day during the week; closer cooperation was brought about between parent and teacher by approximately 215 visits from parents and 130 homes visited by teachers and principal. Open House Planned Tuesday, March 29, the organization will sponsor open house for the school. There will be a continuous program from 2 o'clock until 4. During this time a tree will be planted on the school campus. In order that fathers may have an opportunity to attend a night program will be given from 7:30 to 9:30. At this time children's work will be on exhibit in all rooms.

ROUND-UP TO BE SPONSORED

ALL PRE-SCHOOL TOTS MAY ACHIEVE FREE EXAMINATIONS

Decision to sponsor a summer round-up this year was made at a meeting of the city council of Parent-Teacher associations yesterday afternoon in Mrs. J. L. Lester's room at the high school. The round-up will include free medical and dental examinations for all pre-school children of Pampa, Pa, and parents will be urged to have all remedial defects corrected, in order that the children entering school next fall may be as nearly 100 per cent perfect as possible. Mrs. V. E. Fatheree, Mrs. Dee Campbell, and Mrs. J. B. Townsend will serve on a committee of arrangements for the round-up. It was also voted to have tree planting next Thursday afternoon to commemorate the Washington bi-centennial. Mrs. J. B. Townsend presided during the business meeting. Preceding the business, was an interesting program given in connection with the Parent-Teacher study course. Discussions based on the Children's Charter were given as follows: Point 6—Every child's right to promotion of health and wholesome recreation, discussed by Mrs. O. E. Palmer. Point 7—Every child's right to a home environment which provides for the child's needs, Mrs. E. Bass Clay. Point 8—Every child's right to a school environment equipped for sanitation, safety, and comfort, Mrs. J. C. Browning.

WED-OTHER

Caroline Jackson Crittenden, shown above, is a Pampa visitor today. She is a beautiful woman, and her presence in the city is a notable event.

Personal

Donald Zimmerman and George Ingram, University of Oklahoma students at Norman, arrived in Pampa last night to spend the Easter holidays with relatives and friends. Jay Evans of Miami transacted business in Pampa yesterday. Judge and Mrs. J. H. Aynesworth of Borger were Pampa visitors yesterday. Mrs. R. W. McDonald of LeFors was shopping in the city on Thursday. Annel West of Canadian made a business trip to Pampa yesterday. James M. Williams of Kingsmill was looking after interests here Thursday. Mrs. C. J. Kennedy of LeFors was a Pampa shopping visitor Thursday. R. C. McCubbin of LeFors transacted business here yesterday. Mrs. J. V. McCarty of Skellytown was shopping in Pampa Thursday. J. P. Johnson of LeFors made a trip to the city yesterday. Mrs. Lucille Lantz of McLean visited in Pampa on Thursday. George H. Beasley of Amarillo shopped here yesterday afternoon. C. W. Batson of Skellytown drove to Pampa for a brief visit yesterday. Charles Puckett of Miami transacted business here Thursday. Bob Rose is a Pampa visitor today. Buildings at the ranch of Mrs. P. A. Worley have been painted by John W. Crout, local painter. Bonnie Custer was taken to Worley hospital for treatment this morning. R. W. Rogers of Wichita Falls was here yesterday. R. W. McDonald of LeFors was a Pampa shopper yesterday. I. Goldvary of Abilene was a Pampa visitor yesterday. Fred B. Hart of Amarillo was here yesterday on business. Paul Garmichael and G. C. Hubbard transacted business in LeFors this morning. Mr. and Mrs. Gordon Powell of Dallas are visiting friends here for a few days. W. E. Nolte of Oklahoma City arrived here yesterday. Mrs. J. T. Swisher of White Deer was in Pampa yesterday. Fred Abbott of Shamrock was a Pampa visitor yesterday. Vernon L. Dickson of LeFors was in Pampa yesterday. DOUBLE KILLING HOUSTON, March 25. (AP)—A soda clerk and a young saleswoman were dead today after a killing and suicide in a main street clothing shop late yesterday. H. E. Wingo shot and fatally wounded Mrs. Lou Suttle, 25, employe of the shop and then turned the pistol on himself. Two days before, Mrs. Suttle had filed a complaint accusing Wingo of threatening her life. Effective March 24th Ambulance Service any where in city reduced to \$2.50. G. C. Malone.

Orange and Tomato Juice Necessary For Pre-School Child; Menus Given

DENTON, March 25.—A great variety of fruit is not necessary in the diet of the pre-school child. Orange juice and tomato juice are the staple fruits though others can be added. Many other raw fruits are better not added until a child is five or more. Cooked prunes, apricots, stewed or baked apples, and raw, mashed, baked or steamed bananas are usually acceptable additions. Spinach, carrots, string beans, and green peas are usually recognized as the staple vegetables although others may be added for variety if one wishes. It is rather generally agreed that whatever other vegetable is used, potato may be served once a day after the first year. At least three or four vegetables, and one fruit daily are usually considered advisable in an adequate diet for children. MENUS Breakfast: stewed apricots, farina with top milk, toast, milk to drink. Mid-morning lunch: Cod liver oil. Dinner: Spinach souffle, scalloped potatoes, celery sandwiches, Norwegian prune pudding, milk. Mid-afternoon lunch: milk to drink, graham cracker. Supper: Macaroni with tomato and bacon, toast, milk, grape juice sponge. Breakfast: Apple sauce, wheatena with top milk, toast, milk to drink. Mid-morning lunch: Cod liver oil, tomato juice. Dinner: Scraped beet patties, buttered squash, carrot sandwiches, apricot whip with cream, milk. Mid-afternoon lunch: Milk to drink, graham cracker. Supper: Baked eggs, peas in potato nest, toast, milk, sliced orange. RECIPES Norwegian Prune Pudding: 1.2 pound prunes, 2 cups cold water, 1 cup sugar, 1-4 teaspoon salt, 1 inch piece stick cinnamon, 1-3 cup boiling water, 1-3 cup cornstarch, 1-teaspoon lemon juice. Methods: Prepare prunes as for prune whip. Use juice and pulp. Add sugar, salt, cinnamon and boiling water and simmer 10 minutes. Add enough to cornstarch to pour easily, add this to the prune mixture and stir constantly. Cook 5 minutes. Remove cinnamon, add lemon juice, mould and chill. Serve with cream. Fruit Whip: Whites of 6 eggs, 1-2 cup sugar, 2 teaspoons lemon juice, 2 cups fruit pulp. If dried fruit is used, soak several hours and then cook in water in which it was soaked until very soft. Rub through strainer, add sugar and cook 5 minutes. Beat whites of eggs until stiff add the fruit pulp gradually, then the lemon juice. Bake in buttered baking dish for 20 minutes. Scraped Beef Patties: For tiny children beef is usually scraped. Scrape the muscle from the connective tissues. Form in ball and broil until medium done.

Frog Fry Seems To Be Needed at Women's School

DENTON, March 25.—Night schools may come and go, but the latest word in night schools is staying, so says the frog dialect in use at the night school in the botanical gardens at Texas State College for Women (GIA). The new senior dormitory is located near the gardens. By dark, not just now and then but every night, senior students are serenaded in true Spanish fashion in a tongue which proves tremendously annoying to concentration on Latin verbs or advertising lay-outs. Desperate seniors are planning a campaign, probably a frog fry, which will down the all-night revelers, banish non-uniformity and establish a quiet hour from 7 p. m. until 7 a. m. Athletes and high school students are invited to be special guests at the revival service to be held this evening at the First Christian church. Evangelist F. W. O'Malley will speak on "A Sure Winner."

FAMILY NIGHT IS ANNOUNCED

"THE HOME" IS TO BE DISCUSSED BY REV. LANCASTER

Tonight is family night at the revival in the First Baptist church. "The Home" will be the subject by the pastor. The morning subject was "Pious Work". Interest and attendance continue to grow at the meetings. There will be no services Saturday, either morning or evening. Sunday will give special emphasis to Easter and its meaning. The Bible school will meet at 9:45, all teachers and officers at 9:30. There will be a baptismal service Sunday evening before the preaching hour. A welcome is extended. The Men's Bible class will meet at the LaNora at 9:45 with a special program for the opening exercise. A cordial welcome is extended to men unenlisted.

McFadden's Son-in-Law Is Killed

EDINBURG, March 25. (AP)—A fire blowout led to the death here of Mrs. E. N. Dean, widow of Louis I. Muckerman, wealthy son-in-law of Bernard McFadden, publisher. Muckerman, formerly of St. Louis and lately of New York, was killed instantly and Charles Murray, New York jeweler, was injured when their automobile overturned 25 miles north of this city. Murray said the machine turned over several times after the tire blew out. Muckerman was married to Miss Lynne McFadden last August. A letter from Mrs. Muckerman indicated she was visiting her parents in New Jersey.

Children Will Be Guests for Hunt

A pleasant afternoon will be spent Saturday beginning at 1:30 o'clock by the primary department of the First Baptist church. An Easter egg hunt will be given at that time, and not only the department, but all children of 6, 7 and 8 years of age who are not attending some other Sunday school also are invited to attend. The hunt is being given by Mrs. Wilson Hatcher, superintendent, and all teachers and officers of the department.

Pampans Visit in Oklahoma City

Mrs. P. O. Sanders and Miss Virginia Faulkner left yesterday for Oklahoma City, where they will spend about a week as the guest of Mrs. Frank Lowther. Mrs. Lowther is remembered as Miss Gertrude Cooke, formerly of Pampa. Mr. and Mrs. E. Thomas and Mrs. D. M. Mitchum left yesterday to spend the Easter holidays with relatives in Wichita Falls.

BRIDGE DESTROYED

JACKSONVILLE, March 25. (AP)—A Southern Pacific railway bridge eight miles west of Jacksonville was burned last night. Loss was estimated at \$10,000. Officers suspected the blaze might have been of incendiary origin. We give you only Private Ambulance Service, not a combination hearse and ambulance. G. C. Malone.

VICKS COUGH DROP

... All you've hoped for in a Cough Drop—medicated with ingredients of VICKS VAPORUB

Fat Men

Mr. W. R. Daniels of Richmond Hill, N. Y., writes: "Have finished my second bottle of Kruschen Salts—results—removed 3 inches from the waistline—am 25 per cent more active—mind is clear—skin eruptions have disappeared—am 46 years old—feel 20 years younger. To lose fat surely and safely, take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning. But be sure to Kruschen—your health comes first—a bottle that will last you 4 weeks costs but a few cents at Richards Drug Co., Inc. or any drugstore in the world—if not satisfied—money back.—Adv.

ATHLETES AND STUDENTS TO BE ADDRESSED

"A SURE WINNER" WILL BE DISCUSSED BY REV. O'MALLEY

Athletes and high school students are invited to be special guests at the revival service to be held this evening at the First Christian church. Evangelist F. W. O'Malley will speak on "A Sure Winner."

ATTEND MEETING

Mr. and Mrs. B. E. Finley, the Rev. and Mrs. A. A. Hyde, and Mrs. V. E. Fatheree went to Amarillo today to attend a meeting of the Allied Forces of Prohibition. The Live, Love, Lift Sunday school class of the First Baptist church will have a sunrise breakfast and prayer service at the Church Sunday morning. The group will meet at 5 o'clock and will go from there to Green's pasture.

Fischers Hosts To Club Members

At a meeting of the Play-a-While Bridge club yesterday afternoon in the home of Mr. and Mrs. Fred C. Fischer, the following attended: R. H. Baxter, Doyle Ward, and Messrs. and Mesdames Bert Wilhelm, W. Wilkes, Robert Montgomery, Porter Beck, J. E. Weeks, Roy Showers, and the host and hostess. Closing the games, awards were made for the following scores: For guests—Mrs. Weeks and Mrs. Showers for high and low, respectively, and Mr. Showers for high and low, respectively, among the men; for members—Mrs. Beck and Mrs. Wilkes for high and low, respectively, among the women, and Mr. Wilkes and Mr. Montgomery for high and low, respectively, among the men. Dainty refreshments were served. A meeting will be held next Thursday evening in the home of Mr. and Mrs. Wilhelm.

Saturday-Last Day

In Which to Take Advantage of Our Anniversary Event We can fit you out for Easter at a Saving! FOR HER The Season's latest in Dresses, Coats, Hats, Shoes, Lingerie, Hose, Sweaters, Gloves, Bags, Scarfs, etc. FOR HIM Shirts, Hosiery, Underwear, Hats, Caps, Ties, Gloves, Trousers, Jackets, Shoes, etc.

Cantata To Be Given on Sunday

Sunday evening the Methodist choir under the direction of R. B. Fisher, will sing the cantata "He Rose Again" by H. Petrie, the choir has spent some time in rehearsals and is prepared to render this cantata in a pleasing manner. The entire evening service of the Methodist church will be given over to the presentation of the cantata. All are invited to attend this service at 8 o'clock.

Dr. Harris Not To Come to City

Dr. Charles H. Harris of Fort Worth will be unable to come to Pampa to make the lecture scheduled for next Saturday evening. He had planned to speak on the cause and prevention of cancer, and his visit was to be under the sponsorship of the Gray-Wheeler Medical society.

Sunrise Breakfast To Be Held Sunday

The Live, Love, Lift Sunday school class of the First Baptist church will have a sunrise breakfast and prayer service at the Church Sunday morning. The group will meet at 5 o'clock and will go from there to Green's pasture.

MOTHER MUST BE EDUCATOR IN HER HOME

KINDERGARTEN'S VALUE STRESSED BY CHILD STUDY CLUB

The history of the kindergarten was given through a program held by the Child Study club Thursday afternoon in the home of Mrs. Robert Gilchrist, with Mrs. Frank McAfee as program leader. Mrs. B. E. Finley discussed how to teach kindergarten work in the home. "The child's nature should be developed, never crossed," she said. Mrs. Sherman White in a paper on art stated that beautiful things cost no more than ugly ones, and that all depended on selection. She said: "The art instinct is placed in the soul of every one by an all-wise creator. It grips the heart with a great purpose, and gives ardor and endurance for its accomplishments." Music and poetry as part of the best education was discussed by Mrs. A. W. Mann. "Every child," said Mrs. Frank McAfee, "has a right to come into a home conducted by a mother who is an educator as well as a caretaker." Refreshments were served during a social hour to Mesdames A. W. Mann, B. E. Finley, A. H. Doucette, Roy Tinsley, Frank McAfee, Sherman White, and the hostess.

PETROLLE HAS EASY VICTORY BUT NO TITLE

BAT BATTALINO GETS LACING LAST NIGHT

NEW YORK, March 25 (AP)—Perhaps he doesn't care for that sort of thing but it seems an undoubted injustice that Billy Petrolle never gets a whack at a fistie championship.

Considered in many quarters the greatest fighting man now in the ring, a logical contender for either the lightweight or welterweight title, the Duluth veteran is just as far away from a championship as he ever was.

To his string of victories over Jimmy McLarnin, Julio Suarez, Eddie Ran and Billy Townsend, Petrolle added another last night—a one-sided triumph over Christopher (Bat) Battalino, of Hartford, Conn., former world's featherweight champion, and called recently the modern "batling Nelson."

A near-capacity crowd of 18,000 spectators looked on uneasily as Petrolle cut Battalino to pieces with vicious rights and lefts to the head, brought blood streaming from a dozen cuts and finally stopped him after one minute and 31 seconds of the 12th and final round.

Petrolle weighed 139 pounds; Battalino 135.

COLLEGIANS RESTING
BLOOMINGTON, Ind., March 25 (AP)—Wrestling champions from collegiate and A. A. U. groups in all sections of the country except the south and the far west, engaged today in the opening tests of their Olympic hopes, at the National Intercollegiate championship meet here.

Indiana University was host to the 56 wrestlers, among whom were champions of the Western, Big Six, Ohio, Rocky Mountain, and Eastern Intercollegiate conferences.

WRESTLING

Philadelphia—Ed "Strangler" Lewis, California, threw Jim McMillen, Chicago, 37-22; Sammy Stein, Newark, threw Mills Stuchlik, born, Germany, 14-25; Herb Freeman, New York, won from Leo Puzetki, Poland; George Zaharias, Pueblo, Colo., outpointed Tiny Roebuck, Oklahoma; Earl McCormack, Oklahoma, threw Herman Hickman, Tennessee.

Boston—Al Marelli, 208, Boston, won two out of three falls from Dan Koloff, 212, Bulgaria; Ed George, 218, Buffalo, threw Jack Forsgren, 215, Sweden, 25-55; Charlie Strack, 220, Spring Valley, N. Y., and Joe Malcewicz, 210, Utica, N. Y., drew, 30; Wong Bock Chueng, 204, China, and Freddy Myers, 200, Chicago, drew; Kara Pasha, 208, Turkey, threw Mike Miller, 202, Philadelphia, 5-45; Allan Eastace, 206, Kansas, threw Ivan Vaktourek, 206, Russia, 5-18; Joe Devito, 208, Italy, and John Grandovich, 213, Russia, drew; Gred Ogden, 200, Montreal, and Al McHenry, 206, Springfield, Mass., drew; Dick Lever, 205, Knoxville, Tenn., and Jake Patterson, 210, Syracuse, drew; Marin Pletstina, Italy, threw five opponents; Nick Etich, Serbia; Patsy Flanagan, California; Joe Cook, Australia; Jim Nelson, Philadelphia, and Tommy Taxis, Greece.

Elmira, N. Y.—Pinky Gardner, 175, Schenectady, threw John Kilonis, 175, Australia, 40-08.

Vancouver, B. C.—Tom Alley, New Zealand heavyweight, defeated Bob Kruse, Portland heavyweight by default; Steve Savage, 206, Chicago, threw George Chantel, 220, El Paso, Tex.; Jack MacLaughlin, 156, Vancouver, and Pete Breckner, 154, San Francisco, drew.

ATHLETICS' SIX ACES ARE EXPECTED TO CINCH FLAG

Yankees Formidable But Probably Not Steady As Circuit Champions.

By ALAN GOULD
Associated Press Sports Editor

JACKSONVILLE, Fla., March 25 (AP)—Faith in the New York Yankees and a charitable belief in the potency of precedent may combine to make things tough for the Philadelphia Athletics in this year's American league pennant race.

Even so, it is extremely difficult to figure just how Connie Mack's formidable cast can be stopped from making it four in a row, and a league record, unless the opposition has some novel plans hitherto concealed, to check Grove, Earnshaw, Walberg, Simmons, Cochrane, and Fox.

So long as the A's have this six-ply backbone, they cannot be regarded otherwise than as strong favorites again to win the American league flag. Their pitching outclasses that of any other club in the league. They have the punch to slug it out with any rival and Connie Mack's reserve strength on which he rode down the stretch last season, looks to be even better.

Mack is the only American league manager who has ever held a championship combination virtually intact more than three seasons. In the past three years of rulership, Mack has made only one alteration in the regular lineup, at shortstop. Except for a reversible infield feature the Athletics will start the 1932 season with the same lineup that dropped the world series to the Cardinals.

Mack admits real fear of the Yankees and their "murderers' row" but it is difficult to see how the New Yorkers can displace the A's without big improvement in the pitching corps. The club was the biggest run maker in the majors last season, but wound up in second place, 13½ games back of the Mack men.

Track Training Must Be Rushed

With the Gray county meet only a week away, Coach Odus Mitchell will start a hard schedule for schedule for his track and field boys Monday afternoon. Preliminaries in LeFors. The finals are scheduled to start Saturday morning at 10 o'clock.

The coach will divide his squad Monday afternoon, when intensive work will start. He has a wealth of track material but is lacking in weight men.

McLean, LeFors, and Alanreed will have teams in the senior division, while the same three schools and Hopkins and Grandview will enter teams in the junior section.

Tennis, playground ball and volleyball events are scheduled for tomorrow in LeFors.

Contests To Be Held Tomorrow

The tennis, playground ball, and volleyball contests in the Gray county intercollegiate meet will be held in LeFors tomorrow. Four playground ball teams, two volleyball teams, and both boys and girls tennis teams in singles and doubles events will represent Pampa high school.

Other athletic events will be held April 1 and 2 in LeFors. The senior track and field squad will have only four lettermen competing. Coach Odus Mitchell is trying to develop a new aggregation for the season.

Coaches who will be in charge of athletic events in LeFors tomorrow will be Miss Flo Perry, Harry Kelley, R. A. Selby, W. B. Weathered, Wallace O'Keefe, and J. L. Lester.

ATHLETICS' SIX ACES ARE EXPECTED TO CINCH FLAG

Yankees Formidable But Probably Not Steady As Circuit Champions.

By ALAN GOULD
Associated Press Sports Editor

JACKSONVILLE, Fla., March 25 (AP)—Faith in the New York Yankees and a charitable belief in the potency of precedent may combine to make things tough for the Philadelphia Athletics in this year's American league pennant race.

Even so, it is extremely difficult to figure just how Connie Mack's formidable cast can be stopped from making it four in a row, and a league record, unless the opposition has some novel plans hitherto concealed, to check Grove, Earnshaw, Walberg, Simmons, Cochrane, and Fox.

So long as the A's have this six-ply backbone, they cannot be regarded otherwise than as strong favorites again to win the American league flag. Their pitching outclasses that of any other club in the league. They have the punch to slug it out with any rival and Connie Mack's reserve strength on which he rode down the stretch last season, looks to be even better.

Mack is the only American league manager who has ever held a championship combination virtually intact more than three seasons. In the past three years of rulership, Mack has made only one alteration in the regular lineup, at shortstop. Except for a reversible infield feature the Athletics will start the 1932 season with the same lineup that dropped the world series to the Cardinals.

Mack admits real fear of the Yankees and their "murderers' row" but it is difficult to see how the New Yorkers can displace the A's without big improvement in the pitching corps. The club was the biggest run maker in the majors last season, but wound up in second place, 13½ games back of the Mack men.

RECORD-SMASHING MILER

Note the powerful leg muscles of Henry Brocksmith, who recently blossomed forth as an Olympic possibility by record-breaking performances in the mile and two-mile runs at the Big Ten indoor championships. His mates at the University of Indiana call him "Powerhouse."

SPUDDER BALL FLINGERS LOOK CAPABLE NOW

TOT PRESSNELL HOLDS YANIGANS DOWN EASILY

WICHITA FALLS, Mar. 28 (AP)—Pitchers who carry definite assignments in the Spudder's 1932 pennant scheme were given their first test under fire in a nine-inning intrasquad practice game yesterday and they came through with flying colors.

Probably the most encouraging feature of the game, which was won by the regulars, 16 to 0, over the Yanigan brigade, was the pitching of Tot Pressnell, an unsuccessful regular starter of last season. This flipper, who mysteriously lost his fast ball about the time he reported to the Spudders from the Browns early in the 1931 race, was faster yesterday than any time last season. He teamed with Lester White and a rookie southpaw, Harry Saller, to blank the Yanigan crew Marvin Ferrell, the young right-hander counted on for big things this season, pitched as well in limiting the regulars to one unearned run and no hits in three innings.

The Spudders open their exhibition season tomorrow against Texas Christian university.

Magnolia Asks Players to Begin Ball Practicing

The Magnolia baseball team has been unable to practice regularly because of adverse weather, but the boys have been out knocking the ball around at every opportunity. Twelve players were out for practice yesterday afternoon despite the wind.

A manager will be selected to be called next week, Raburn Burke, manager of the nine last season, said yesterday. The services of some good man is being sought, and the Mags hope to go far this season.

The practice sessions will be open to all comers and players are urged to be on hand at 5:30 o'clock every afternoon that the wind isn't blowing rocks across the diamond. Eight members of last year's squad are available this year. The Mags won the Gray-Carson league last season.

Other teams in this territory are discussing organization of nines but so far no other nine has reported ready for opening practice.

FIGHT RESULTS

By The Associated Press

New York—Billy Petrolle, Fargo, N. D., stopped Christopher (Bat) Battalino, Hartford, Conn., (12). Ralph Lenny, Jersey City, outpointed Jay McCadon, Southe Orange, N. J., (10). Yale Okun, New York, outpointed Harry Smith, New York, (8).

Flint, Mich.—Roger Bernard, Flint, outpointed Midget Mike O'Dowd, Columbus, O., (10). Frankie Donnelly, Detroit, outpointed Ernie Maurer, Cincinnati, (8).

Spokane, Wash.—Paddy Walter, Chicago, outpointed Red Vandervert, Spokane, (10).

Hollywood, Calif.—Rudolph Teglia, Argentina, outpointed Chato Laredo, El Paso, Tex., (10).

HIS PITCHING'S GOOD

NEW ORLEANS, March 25 (AP)—Back in training camp from their only road game of the exhibition season, the Cleveland Indians were about ready to consider Belve Bean an eligible candidate for a regular pitching assignment with the Tribe. Bean allowed the Baltimore Orioles two hits, one a scratch, in five innings yesterday at Gulfport, Miss. Bean's pitching, plus some mighty hitting by Earl Ehill and Johnny Hodapp, gave the tribe a 10 to 2 victory.

NOTHING TO BRAG ABOUT

BILOXI, Miss., March 25 (AP)—With a scant week left in which to complete the roster of the Washington Senators, Manager Walter Johnson is having a time discovering anything to brag about in the way of new pitching material. John, Doyle and Bud Thomas didn't help him or themselves any by allowing Spring Hill college of Mobile to come within one run of tying the Senators' twelve tallies in yesterday's game.

WILL PLAY CATS

FORT WORTH, March 25 (AP)—The somewhat mysterious Chicago White Sox came to Fort Worth today for two games with the local Cats of the Texas League. The Sox have met no major opposition during training and will encounter none until the American League season opens.

NEEDS FIRST BASEMAN

BRADENTON, Fla., March 25 (AP)—Max Carey is looking around for a trade to strengthen his Brooklyn Dodgers. With Del Bissonette out of action for five or six weeks, Carey must solve the first base problem and the only answer may be a trade.

BRILLIANT PLAYS

SAVANNAH, Ga., March 25 (AP)—Exceptional plays counted for and against Tom Oliver yesterday. The Red Sox' center fielder turned in two brilliant catches on hits that might have gone for extra bases. So when he got up at bat the Hartford team held him to one hit by snaring two hard batted balls.

VETERANS LOOK WEAK

DALLAS, March 25 (AP)—The veteran hurlers on the Dallas baseball roster continue to look anything but impressive. Grady Adkins, the Arkansas butcher, was pounded all over the lot yesterday in an intra-club contest. Skipper Harp Morse plans to make his moundmen work from now on, giving them long assignments so they will be ready to go the full route by the time the season opens.

HE LOOKED BAD

SAN FRANCISCO, March 25 (AP)—The Chicago Cub's search for a dependable left hander apparently

FIND NATIONALS EASY

ST. PETERSBURG, Fla., March 25 (AP)—The New York Yankees haven't yet started the season which they hope will bring them the American League pennant, but if they do win the flag they have an idea they ought to do well in the world's series. So far in the training campaign the Yanks have

clashed ten times with National League teams and have won eight of those games.

NOT SO WARMISH
SAN DIEGO, Calif., March 25 (AP)—The Detroit Tiger recruits, taken as a team, apparently aren't so hot, hat, at least, is one inference that might be drawn from yesterday's game which Hollywood won 14 to 10, from a team of Tigers in which youngsters held down most of the positions. A lot of the blame, however must be shouldered on Art Herring, veteran pitcher, who yielded 14 hits in seven innings.

ELECTROLUX gives you plenty of pure, sparkling Ice Cubes!

ICE CUBES—all you need, when you need them! The freezing trays of Electrolux keep you always supplied. That's because Electrolux produces cold—constantly—without machinery. It's the big new idea in automatic refrigeration.

And this same steady cold keeps food fresh longer too. There's no alternate stopping and starting. A tiny gas flame and a tiny flow of water continuously circulate the refrigerant that maintains food-preserving temperatures always below 50° F. No machinery or moving parts means no sound. Electrolux is absolutely silent. Day in and day out, it works—noiselessly—and at a cost that probably is far less than you now pay for refrigeration. And should your Electrolux ever require adjustment, you may expect the same prompt and efficient service you are accustomed to receive from your gas company.

Despite its important advantages, Electrolux prices are no higher. Terms are liberal. Come in today and see our complete line of beautiful models now on display.

AIX LES BAINS

CASINO AND THEATER OF AIX LES BAINS

LAKE OF BOURGET

LA PONT DE L'ABBAIE (THE BRIDGE OF THE ABYSS)

Aix les Bains is among the hills near the shore of beautiful Lake Bourget. The scenery is surpassingly beautiful in all directions. Art and money have made of the town itself a gem and there is no lack of amusement with the magnificent casinos and amusement halls, boating, mountain climbing, historic Abbeys and ruins.

By LILIAN HAYDEN HESTON

HERE is no lake in France so beautiful as Lake Bourget, whose rocky heights and wooded shores make all walks a delight. It is the largest lake in France and is sixteen miles long. The lake never freezes and its outlet is to the river Rhone. This region is especially interesting to Americans as it was the first "leave-area" in France open to Americans. Pierpont Morgan equipped a fine hospital there especially for American soldiers, and practically all the luxurious hotels of this most famous cure-place were thrown open free to our soldiers. They were also given the wonderful treatment free, so very soothing and helpful after months of trench-life.

During centuries Savoie belonged not to France but to Italy, to the rich and powerful Counts of Savoie, immensely brave warriors of German origin who aided Germany in her incessant fights against France and Italy. These Counts of Savoie ruled over some of Italy and over all of what is now the most picturesque and beautiful part of France. They built for themselves the superb Abbey of Hautecombe on Lake Bourget. They had royal apartments there and often lived there when they came to that part of their dominions and they were all buried there in great state and splendor—each king with a sculptured lion at his feet as a token of power and the queens with a dog at their symbol of fidelity.

These Counts of Savoie gave grants of the land to the monks of Saint Bernard and invited them to use the Abbey. These monks remained there and flourished for six hundred and seventy years, or until the time of the French Revolution, when the French Government took possession of the Abbey and the land and sold it to a civilian who opened a pottery factory in the superb Abbey church. He finally got tired of it and let the whole place go to ruin. In 1828 the Duke of Savoie bought the place, restored it, and invited monks to live there as his guests and care for the place and watch over the tombs of his ancestors.

The magnificent Abbey with its cloisters, its refectories, its church and its royal apartments is now all open to the public sight-seer, and the monks show visitors about. It is a vast place with innumerable rooms and is situated on a bluff overlooking the lake. In the large halls are hung the royal banners of Savoie before Savoie became a part of France. On the terrace is a large statue of St. Bernard. There is a lighthouse tower that lighted the way for incoming boats, before the railroad was built. Most beautiful part of France. Savoie has always been a battleground between France and Italy. Each country tried valiantly to gain possession of its beauty and strategic position. The mother of the greatest king France ever had, Francis I, was Louise of Savoie, Duchess of Angouleme. It was he who led France out of the darkness into the light of the Renaissance.

CLOSE VIEW OF ABBEY OF HAUTECOMBE, SHOWING INTRICATE CARVINGS

THE ABBEY OF HAUTECOMBE - CLOSE TO AIX LES BAINS

Ancient Lake Dwellers. Seven distinct settlements of the very ancient "lake-dwellers" have been located on Lake Bourget. These colonies consisted of groups of houses, simple in construction, built on driven piles about three hundred feet from the shore and possessing in common an esplanade and a movable bridge to the land. These lake dwellings were built to protect the inhabitants from foes and wild animals, and are found in all parts of Europe where there are lakes. Those at Lake Bourget can easily be studied as the piles and some of the other work is left. Strong piles were driven down with great force into the bed of the lake. The lake is several miles broad and in its deepest places is some 800 feet in depth. The Romans thoroughly appre-

ciated Aix les Bains and there are magnificent ruins of their baths and temples all about. During all their five hundred years' occupation of Gaul they made the most of this lovely place with its marvelous hot springs. No wonder their ruins remain for us to see—the walls of their Temple to Diana at this resort are fifteen feet thick! There was no mortar used but the stones are ingeniously dovetailed together. There is a large Roman arch also at Aix les Bains. After the Romans came Vandals, Huns, Attila, Franks, Saracens and all of them did what they could to destroy the glory of what Rome left.

and forests made famous by having been loved by great authors or artists who spent much time there. Lamartine, one of the four great poets of the 19th century lived for some years at Aix les Bains, and there is a lovely grove known by his name. The whole court of Napoleon frequently went and stayed at Aix les Bains. Dumars and Balmis dwelt there for some time. Madame Recamier held her salon there while she took the cure. Napoleon by his downfall lost Savoie to France and Napoleon the third regained it as a gift from Italy for his helping them in war against Austria. It had belonged to France from 1792 to 1815. The main road, built by the

Romans, from Savoie to Lyons, passes close to Aix les Bains. It goes through the capital, Chambéry, which is a short walk from Aix les Bains. It was the route of Hannibal when he led his great army down into Italy two hundred years before the birth of Christ. It has seen many victorious and defeated armies, pass triumphantly or wearily along. Lake Bourget is fed by three small rivers, one of which, the Sieroz, has marvelous gorges where the river is hundreds of feet under nearly meeting cliffs of rock. One passes through this narrow tunnel in a boat and winds in and out and only sees the sky sometimes. The whole region is indescribably picturesque.

TENTATIVE ROUTE FOR SEVENTH CRUISE OF THE "CARNEGIE", 1928-1931

Non-Magnetic Craft Will Cover Oceans of World To Study Magnetism and Other Subjects — A Strange Cruise for a Strange Mission

By FRANKLIN JOHNSON

THE compass is all wrong, and something must be done about it. In some parts of the country the needle points directly north. This condition exists along a line which runs through Michigan, Ohio, Eastern Kentucky and Tennessee and to the seaboard of South Carolina—representing a small part of the nation at large. Along this restricted stretch the compass reading is correct as it stands. To the east and west of this line the needle goes astray. Toward the Atlantic Ocean the pointer slants to the west. Toward the Pacific the shift is in the opposite direction, causing the pointer to be aimed east of the North Pole. The variation changes with distance. The further one goes toward either ocean, the greater error does he find in his compass. In the State of Maine, for instance, the compass points 20 degrees west of north. In the other corner of the United States—in the State of

Washington—the needle rests 25 degrees east of the polar north. The variation between these extremes totals 45 degrees, or an eighth of a full circle. Science Tackles The Compass. Recognizing that something must be done about it, science has approached the problem with adequate determination. There is no way of overcoming the uneven balance of the earth's magnetism, for this is beyond scientific reach. In this situation the scientist's attack the tangle from another side, with a view to correcting map and chart which are used in navigation and otherwise. As their basis of study, the research workers take the established truth that the magnetic poles are not the same as the geographic poles. The actual site of the north magnetic pole is a thousand miles away from the point at the top of the globe which marks the north pole of geography—the former be-

ing just inside the arctic circle and slightly north of Hudson's Bay. Columbus Had Trouble. The slant of the needle away from the North Pole was a matter of early knowledge to navigators, but it remained for Christopher Columbus to discover the new complication of changing slants at different places. On his first voyage to America this explorer learned that the direction of the needle shifts as one traverses the surface of the globe. The sailors aboard Columbus' ship were much alarmed at the revelation. Remarkable Ship. The ocean surveys have been the mission of the ship Carnegie, designed for this particular purpose by the Department of Terrestrial Magnetism of the Carnegie Institution of Washington. The vessel is non-magnetic, in which respect she is wholly different from all other ships on the seven seas. In other vessels the presence of steel and iron interferes more or less with the workings of the compass. Since the Carnegie was planned for making magnetic surveys of the oceans, her construction is of non-magnetic materials,

almost exclusively. The rigging is of hemp instead of the steel wire used in many ships. The anchors are of bronze instead of iron, and the usual iron chains for handling them are supplanted by 11-inch cables of Manila hemp. The fastenings consist of locust trenails, copper and bronze bolts, and composition spikes. Copper sheathing encloses the keel and hull, and sixty-five tons of lead constitute the ballast. Bronze, copper and gun-metal form the metal deck fittings and the metal work on the spars. Except for piston rings, valves and other small parts, the 100-horsepower gasoline engine is built of bronze throughout. To Start On Long Cruise. In May of the current year the Carnegie will set sail from American shores for a three-year cruise. Before she returns she will have traveled more than a hundred thousand miles, traversing all oceans, and crossing all latitudes between Spitzbergen to the north and the antarctic ice-fields on the south. This trip will enable the scientists to continue the work of six previous cruises on which the ves-

sel has covered the magnificent distance of 263,000 miles—equivalent to more than ten times the circumference of the earth at the Equator. The coming cruise will afford opportunities for checking earlier studies and for comparing present compass conditions with those recorded therein, to see if significant changes have come about. For the purpose of making the fullest possible use of previous observations, it is planned that the cruise shall follow the tracks of former cruises as far as this may prove practicable. Other studies will be conducted at the same time. The scientific staff on the Carnegie has made systematic observations upon certain closely related problems dealing with the electric condition of the air above the oceans. Already these observations have shed new light on many difficulties confronting research workers. Additional value has come through their assistance to investigations seeking to tie up radio-reception conditions with such phenomena as sunspot activity, the aurora borealis and general magnetic disturbances. Will Study The Deep. In addition to studying atmospheric-electric phenomena, the Carnegie staff will seek to gain new light on some of the secrets of the deep. The vast extent of the three-year cruise offers unique opportunity to secure much-needed data relating to the general subject of

oceanography. There will be studies of ocean currents and the circulation of waters in the great areas of the various seas, together with investigations as to the conformation and topography of the ocean floor and the nature of the bottom sediments. The temperatures of sea water at various depths will be taken every 150 or 200 miles, and samples of the water from the depths will be obtained and analyzed. There will be the closest possible study of life in the deep-sea regions. Powerful Windlass. New apparatus for the studies at great depth has been placed aboard the Carnegie. A striking piece of equipment is the electrically operated winch, a windlass capable of handling lines to a depth of 20,000 feet, or close to four miles. The latest type of sonic depth-finder, supplied by the United States Navy, will enable the staff to make exact measurements of the depths throughout the cruise, affording valuable data for use in mapping the slopes and declivities of the ocean floor. On this expedition the ship will be commanded by Capt. J. P. Ault, of the Department of Terrestrial Magnetism. Captain Ault is a veteran of this particular type of service. He has been in command of the Carnegie on three of her six precious cruises. Two of the trips occupied more than two years apiece, so that the commander has

lived aboard the ship for considerably more than four years—with three years on the sight. In his cruises Captain Ault has circumnavigated the globe twice. The Carnegie is a trim craft of brilliant finish, and with full sail set she is a picturesque reminder of the old days of sailing craft. Her gasoline engine affords auxiliary power. Experience has shown that the vessel is a good performer under all conditions of weather. Seaworthiness is one of her strong points, as demonstrated during the rough seas and heavy gales encountered during her previous travels, particularly in the south polar regions. On one occasion the ship passed through a tremendous storm under bare poles for seventeen hours of exciting navigation. In the vicinity of Colon, at one time, she dragged both anchors and tore loose in the face of a fierce norther, but the anchors caught and held her before damage was suffered. The adventures of this snug craft have embraced perils from many sources—from icebergs, fogs, storms and uncharted rocks, but the well-built and well-handled vessel has come through all of them unhurt. For the last few months she has been in drydock for complete overhauling and refitting, and she is described as better than new, in spite of 13 years of service in all parts of the world.

ANGLERS BELIEVE BASS HELPED CHOOSE SITE OF TEXAS CAPITOL

BY S. RAYMOND BROOKS
 Written for The Associated Press
 AUSTIN, March 25. (AP)—There is a believe-it-or-not tradition, which Central Texas anglers like to believe, that the big-mouth bass, visible in the clear water of spring-fed creeks in the Rocky Mountain foothills, had something to do with Austin's location where it is and its selection as the seat of government.

At any rate, Stephen F. Austin, when he first came to the south-western wilderness, journeyed through the muddy-water sections of the east, and when he came to the first hilly section of clear water, where great fish could be seen in abundance down in the limpid streams, he stopped. He had to depend on fish and game for food then. He picked out for his home-stead a site overlooking one of these streams, still famous for its fishing, and within the very shadow of the last considerable peak of the Rocky Mountain range. That home-stead is within the city of Austin. Stephen F. Austin's location here, his settlement of headquarters of his colony here, created a settlement that grew, and gave that village the appeal the impetus and growth that permitted it later to win the capitol of the republic, even when outvoted by another community.

If the game fish did not in fact tilt the scales in Austin's favor, at least they then, as now, exerted an exert fascinating allure as the sportsman angler sees the glint of green upon the scales of magnificent big-mouth bass in the translucent waters of myriad hill-country streams.

Here in the hills were the pioneers able for the first time to see their fish. True, the rivers from San Jacinto on the south and the Sabine on the east had huge catfish in plenty beneath their muddy surfaces. But the explorers couldn't see them, and were too busy with the Indians to waste time in trying uncertain luck.

Austin is in the shadow of the last peak of the Rocky Mountain range. That is significant to everyone who fishes. The country about Austin has several real rivers, and countless small clearwater creeks, spring-fed creeks such as Barton's within the city and many others.

This section has such varied fishing that the list would sound like a chamber of commerce booklet. If you take your fly rod and go out for game fish only, you have the lig-mouth bass in abundance, real fighters, clean, seemingly-transparent, sagy capable of calling out your best ounce of skill in getting them hooked, and more still in bringing them to net.

There are the crapple, or white perch, in rivers and creeks. There are the shiny gasper which minnow and bait fishermen revel in; channell and yellow-belly catfish of the swift waters, and those ganias, up to 60 and 70 pounds of the doleful, mammoth catfish of the sluggish streams. There are in abundance what someone so succinctly called "panfish", the big goggle-eye and sunperch.

Such, in brief, is the roster. And to what nature nobly has done, man has added magnificent improvement in this area.

First, the fish hatcheries.—The federal government for years has bred vast quantities of spawn in a hatchery at San Marcos. The state has a great hatchery at Kerrville, part of the same alluring country as Austin and Llano and San Saba and Fredericksburgh and other sections of the hill country. The state has another hatchery farther up a San Angelo. It is preparing to build another up on the Colorado at Hamilton Dam, where the biggest body of fresh water south of the Great Lakes will be impounded behind dams that will be closed this fall. That series of dams will be a whole fish story within itself.

And, in Blanco and Hays counties, extending even as close to Austin as Bud's, a big group of low dams, built through sponsorship of the Hill Country chamber of commerce, already afford choice fishing. Smithville has an attractive lake, well stocked. The fame of Medina Lake, beyond San Antonio, promises to be rivaled by the huge Hamilton Dam in the Colorado and the lakes above it.

With all the fishing fever that a revere will bring you, it is closed season now. Anglers are waiting, at a behest of a law they caused to be passed, the period for spawning and starting a future supply of fish. But then May supply, fish have been abundant in Central Texas streams. Now the supply of fry with which to stock likely waters will be so abundant that for years to come the section is assured of excellent angling, fishing that should grow better year by year.

So much for the supply. Here is a sketchy chart of some of the famous waters.

Barton Creek, for miles back up on the Bee Cave sections of Travis county, has innumerable pools and rapids, many containing fine fish. In the lower reaches, below the springs which feed Barton pool, one may see hundreds of contented bass, provokingly indifferent to fly or live minnow, and contemptuous of helgrammite, shrimp or night-walker.

Lake Austin extends back a dozen miles from Austin. Sluggish, muddy, well-supplied with catfish, but a blank for bass. But above that, through rock gorges it has many rapids. It has shallow riffles and deep pools; and in the river itself there is a pleasing mixture of luck when you fish for bass or white perch or for blue cats.

Flowing into the river are many short creeks, and some long ones, and where the white waters of these streams mingle with the red that gave the Colorado its name, there you will find fishing excellent.

Over to the southwest is the Blanco, an excellent stream through many miles of rugged country; with both bass and huge catfish.

There is the pedernales, up in the hills, probably the most famous of natural fishing waters. And the Llano. And the San Marcos river and the Comal. Onion Creek in many sections would be called a river; and it has excellent fishing.

If this sounds like a chamber of commerce publication, it may be noted these streams are public streams; they are available to anybody who wants to fish them; the fish are there; and instead of recounting those incidents, such as when Bob Connerly had to stuff the fish inside his shirt because his pockets were full, it has enumerated only the streams and their opportunities. The sportsman may remember that there are other fish still to be caught and "I remember when" yarns still to be told.

More Power and Less Science Seen Under Grid Rules

AUSTIN, March 25 (AP)—Less science and more power will characterize football under the recently promulgated rules, in the opinion of Al Sarafny, head football coach at St. Edward's University.

Sarafny said he approved of all the regulations with the exception of the one prohibiting the use of hands by defensive players, adding that officials would have to be highly skilled to officiate a good game.

"There is an evident inconsistency embodied in the recent changes made by the rules committee," Sarafny stated. "Statistics show that more injuries resulted from the use of the flying block and flying tackle than from the use of the hands on the head and neck of an opponent."

"In spite of the statistics," the committee assessed a penalty of only five yards for the flying block or flying tackle and a much drastic penalty for the illegal use of hands. The use of hands on the head or neck of an opponent by a defensive player draws a penalty of suspension from the game for the offending player and loss of half the distance to the goal line by his team.

"The inconsistency is evident. If protection of players was the motive for this regulation, then it is plain to see the committee disregarded the facts and statistics of the past season."

"I am in accord with the remainder of the new rules and believe they will aid in making the game safer and freer from serious injuries."

"The game will be slowed up somewhat and will be robbed of some of the spectacular element. It will see the passing of the little aggressive man and the return of the big man. The new rules will eliminate some of the science from the game and will witness a return of the power play."

"Unless the officials are a highly skilled set of men it will be difficult for them to call a good game."

Uncle Sam Buys Registered Bulls

AMARILLO, Mar. 25 (AP)—Three carloads of registered Hereford bulls, one and two years old, have been sold to the government by breeders of the Texas Panhandle and eastern New Mexico for the Apache reservation. The herd is said to approximate about 20,000 head.

Studer Brothers, of the Anvil Park ranch, Canadian, and R. T. Alexander of Canadian shipped a carload each. Hugo Loewenstern of Amarillo sold the government purchasers 85 head from his herd near Nara Visa, N. M.

Panhandle Explosion Injures Five

Here is the scene of the downtown gas explosion at Panhandle, Texas, which resulted in injury to four people and \$50,000 damage. The blast occurred when W. H. Rogers, grocer, struck a match to look for a gas leak. Rogers, J. I. Raines, Roscoe Vance, Ed Baker, and his son, Esco Baker, were all injured, and three buildings were damaged, one being completely demolished.

Jaysees Out to Muster Millions Nation's Votes

AUSTIN, March 25. (AP)—The United States Junior chamber of commerce, an organization representing 25,000,000 young men between the ages of 21 and 35, has started a campaign to muster 50,000,000 votes for the 1932 elections.

George Olmsted, president of the Junior chamber of commerce, has written Governor Sterling from Des Moines, Iowa, headquarters, advising him Texas' quota "toward this magnificent achievement" is \$92,589 votes, or 49 per cent more than the vote cast in Texas at the 1928 presidential election.

Olmsted pointed out that the nation's total presidential vote at the November election in 1928 was 56,724,832. An increase of 40 per cent would mean 51,414,752 votes this year.

He urged "the greatest vote in our country's history in honor of George Washington."

Olmsted argued that there were in the United States, "at a conservative estimate," at least 80,000,000 qualified voters.

As advertising manager of a New York department store, Mary Lewis receives \$50,000 a year, said to be the largest salary paid a woman.

This Officer Is Very Unconcerned

DUMAS, March 25. (AP)—There is at least one elective county officer in Texas who is totally unconcerned about not being reelected. This official is the county attorney of Moore county, who is the only man in the entire county of some 2,300 souls eligible, under the law, to hold the office.

H. G. Bennet, who is the incumbent and candidate for reelection had not decided if he would spend the money to announce his candidacy or not. If he does it will be merely a matter of good will. It happens that he is the only licensed attorney in Moore county and that it would be impossible for another attorney to move in in time to qualify.

In addition to enjoying this distinction he is also probably the tallest county attorney in Texas, being six feet, seven inches tall. He is 40 and has been a resident of Texas for 12 years, having been born and reared in Georgia. His forbears as well as immediate kin are engaged, for the most part, in the practice of law in his native state.

KNOW ANY BIGGER?

As advertising manager of a New York department store, Mary Lewis receives \$50,000 a year, said to be the largest salary paid a woman.

SWEDS LIKE RADIO

STOCKHOLM (AP)—Every tenth Swede has a radio set, according to official figures. It is estimated that there are 600,000 listeners in Sweden.

There are the crapple, or white perch, in rivers and creeks. There are the shiny gasper which minnow and bait fishermen revel in; channell and yellow-belly catfish of the swift waters, and those ganias, up to 60 and 70 pounds of the doleful, mammoth catfish of the sluggish streams. There are in abundance what someone so succinctly called "panfish", the big goggle-eye and sunperch.

Such, in brief, is the roster. And to what nature nobly has done, man has added magnificent improvement in this area.

Markets

KANSAS CITY LIVESTOCK

KANSAS CITY, March 25 (AP)—(U. S. D. A.)—Hogs 2,000; 5-10 lower; top 4.10 on 170-230 lbs.; 140-200 lbs. 3.75-4.10; packing sows 2.75-3.00; 2.25-3.00; stock pigs 70-130 lbs. 3.25-3.50.

Cattle 400; calves 80; generally steady; killing quality plain; steers 600-1300 lbs. 5.75-8.00; heifers 500-850 lbs. 5.00-6.50; cows 3.50-4.75; vealers (milk-fed) 3.50-6.50 stocker and feeder steers (all weights) 4.75-6.50.

Sheep 1,000; lambs 15-25 lower; sheep steady to weak; top fed lambs 4.60; native spring lambs 8.25. Lambs 90 lbs. down 5.50-6.40; ewes 150 lbs. 2.50-3.75.

MARKETS CLOSED
Stock and commodity markets were closed today on account of the wide observance of Good Friday.

Boy Is Charged With Smuggling Gun to Prisoner

WACO, March 25 (AP)—Cecil James, 18, was charged today with smuggling into the county jail a loaded pistol and hacksaw blades with the intent of aiding W. C. Beck, 20, accused slayer, to escape.

District Attorney Willard McLaughlin said James admitted conveying the weapons and blades to Beck when he visited him Tuesday. The youth was quoted as saying Beck had promised to rob a bank when he got out so he could repay James for his trouble.

McLaughlin became suspicious when he saw James talking to Beck Wednesday and searched Beck's cell and found a pistol, seven cartridges and five hacksaw blades concealed in a window sill.

Beck was convicted Feb. 12 on a charge of murder for the killing of O. L. Jones, Waco automobile salesman, in a purported robbery, six miles north of Waco. He was sentenced to death.

March 5 Beck was granted a new trial because one of the jurors had served under the wrong name.

Southpaw Bowlers Will Form Team

The "battle of the balls" will be waged at 8 o'clock tomorrow night at the Pampa Bowling alleys when a team of portside bowlers will battle a team of "naturals." Pampa has more portside bowlers, ball players and golfers than any other city its size in the state, it is reported.

The right handers have not announced their line-up but it will compose some of the best bowlers in the city. It is rumored that such stars as Bill Holmes, Gordon Moore, Earl Cullum, J. M. Powell, the Thompsons, and maybe others will be used.

The portside will select their quintet from Clyde Stuckey, J. C. Smith, W. McKnight, Lefty Huff, Tom Jackson, Minor Meriwether, and Harry Hoare.

Benefit Dance Is Helpful to Board

The Welfare Board's larder was considerably increased as a result of the dance sponsored by the Business and Professional Women's club at the Ritz ball room last night. About four bushels of groceries were taken in as admission and given to the Board.

Price of admission was a handful of groceries and fifty cents. All money above expenses will be given to the Board. Cost of giving the dance had not been determined this morning. The Southerners, nine-piece orchestra, furnished the music.

Southwest's Oil Worth Huge Sum

OKLAHOMA CITY, March 25 (AP)—How big is the pot of gold in the southwest's oil pool? They're measuring it at the convention of the American association of petroleum geologists with a tape line marked in millions.

Estimated potential recovery in East Texas, says a paper from H. B. Minor and Marcus A. Hanna of Houston, ranges from one to two billion barrels and there may possibly be 8,000 wells drilled, representing an investment of \$175,000,000.

A gauged 24-hour production of 8,600,000 barrels was the boast Feb. 1 of the Wilcox sand zone alone in the Oklahoma City field. And according to D. A. McGee of the Phillips Petroleum company, it may be only 40.5 per cent developed.

GOES TO CALIFORNIA

Mrs. J. M. Holland of Wellington spent yesterday with her granddaughters, Mrs. Lee McConnell and Mr. McConnell. She left this afternoon for San Bernardino, Calif., where she will visit several children and their families. Mrs. Holland is 61 years old and quite active.

SHERIFF ACQUITTED

SONORA, March 25 (AP)—After deliberating less than an hour, a district court jury last night decided that Sheriff W. C. Fowler of Upton county was justified in killing Graham Barnett of Alpine. Barnett, an expert marksman with pistol or rifle and a former Texas ranger, was slain with a machine gun Dec. 8 on one of the principal streets of Rankin. Fowler was tried for murder.

David Dallas of Lubbock, here yesterday, said that he would be in Pampa about April 13 and 14 to supervise the annual selection of "Miss Pampa."

Good Friday Is Widely Observed

ROME, March 25 (AP)—Prone at the altars of Rome's 400 churches, black-robed Catholic priests today commemorated Good Friday, the anniversary of the death of Christ.

In America, Europe, Asia, and Africa, priests and bishops and churchmen of the highest rank prostrated themselves at that point in the ritual which recorded the death of their spiritual leader.

Processions of the faithful here went this morning to the churches of St. Peter's, St. John's and Holy Cross, where relics of Christ's passion and death were on display.

Col. Zack Miller Is Under Charge

MARLAND, Okla., March 25 (AP)—Colonel Zack Miller faced criminal prosecution today for his armed defiance of the auctioneer's hammer as it was lifted over his beloved empire of the old west—the 101 ranch.

Bruce Potter, Kay county attorney, said a charge of assault with a deadly weapon would be filed against Miller, last of the three brothers who developed the great ranch into a show place, for firing a shotgun as attorneys for the ranch receiver sought a conference with him yesterday.

Miller, who has been ill, discharged the weapon into the floor after Neal Sullivan and R. O. Wilson, the attorneys, had entered the "white house," ranch mansion. The lawyers rushed out and Miller barricaded himself in the house with Zelma, "elephant girl" in the old 101 wild west show, who has been his nurse.

B. C. D. Officials to Attend Meeting

Presidents of all chambers of commerce and Boards of City Development will be invited to attend the next meeting of the Panhandle Secretaries' association, it was decided at a meeting in Amarillo yesterday. The suggestion was made by George W. Briggs, manager of the local B. C. D.

Ed Bishop of Dalhart was elected president of the association to replace G. H. Boykin of Clarendon, retiring president. Henry Reed of Memphis was selected as vice-president and Bill Day of Amarillo, secretary. George Briggs was chairman of the nominating committee.

Interesting talks on subjects of interest to the secretaries were made. The members were guests of the Amarillo Rotary club at a luncheon.

BANK IS CLOSED

BROWNSVILLE, March 25 (AP)—The merchants National bank of Brownsville failed to open for business today. A statement issued by directors said its affairs had been placed in charge of the National banking department.

The banks' capital stock was \$250,000. Its surplus was \$350,000. Deposits last December 31 were slightly in excess of \$4,000,000.

WILDCAT IS FLOWING

ARCHER CITY, March 25 (AP)—The Perkins and Cullum wildcat oil well 3 miles southwest of Archer City came in today with an estimated production of 100 to 200 barrels. Limestone formation was struck at 1,190 feet and after drilling four feet deeper, oil filled the casing and overflowed.

CHAMPS ANNOUNCED

WASHINGTON, March 25 (AP)—Machine gun champions of the army last year were the members of Company M, 22nd Infantry, stationed at Fort Oglethorpe, Ga.

The war department announced today this company had been awarded the Edwin Howard Clark trophy for 1931. It is given annually to the infantry machine gun company making the highest score per man in target practice.

SNOW-BOUND

Mrs. Edward Biddle, above, Philadelphia society woman member of the famous Biddle family, asked for an airplane to fly to rescue her from a snow-bound hut in the Alaskan interior. She has been marooned since January 12, in the little cabin of Fannie Quigley, frontierswoman.

Fee System Is Hit by Speaker on Social Science

DALLAS, March 25 (AP)—The fee system was condemned today by speakers at the thirteenth annual meeting of the Southwestern social science association, government section. Counties were described as the "dark continents" of American government.

F. L. Ryan of the University of Oklahoma declared it was almost impossible to obtain reports from Texas sheriffs on fee receipts.

State Senator George Furl voiced objection to sheriffs feeding prisoners and doing other work which could not be classified strictly as law enforcement.

He pointed out the fallacy of paying officers for the number of arrests made. He said it was like paying firemen for the number of fire calls made—there were bound to be some false alarms.

Furl charged that organized groups of tax collectors, sheriffs, and other fee officers, in the past have blocked legislative moves to limit fee compensations.

He declared, however, that something was to be said on the side of the sheriffs, who when they go out on a complaint are not compensated for the trip unless the prisoner is indicted.

"Our county officers don't pay their own way under the fee system," he declared. "There are too many rat holes, legal and illegal."

He said that in Dallas the city police make 85 per cent of the arrests in the county, yet an efficient chief receives a moderate salary in comparison with the high fee pay of the sheriff.

NEW YORK, Mar. 25 (AP)—The United action drive to obtain employment for a million jobs was almost up to the one-third notch today. A total of 14,012 jobs were added yesterday, bringing the figure to 326,900.

MINNESOTA IS STILL IN THE VAN AMONG THE STATES WITH 30,994.

OLD-TIMER SUCCUMBS

OKLAHOMA CITY, March 25 (AP)—Thomas Drew Woody, 79, first white child born in Wise county, Texas, died here last night at the home of his son, Thomas M. Woody. His father, the late Samuel Woody, built the first cabin in Wise county after migrating from Tennessee. Thomas D. Woody was a retired cattleman and lived for 45 years in the Lone Star state.

ILLEGAL PAYMENTS OF POLL TAXES TO Result in Trials

ALBANY, March 25 (AP)—Two Shackelford county men, Will Townsend and T. E. Durham, will be tried in county court here March 31 on indictments returned this week by the grand jury of 42nd district court, charging illegal payments of poll taxes. The cases are misdemeanors.

Townsend, indicted in 14 cases made \$1,400 bond today, and Durham, facing 13 charges, made \$1,300 bond before Judge P. L. Key Kendall. Townsend is charged with preparing a list of names and ages for poll tax payments, and R. T. Durham with furnishing money to pay the polls. Penalty on conviction is \$500 maximum fine.

Townsend is a candidate for county commissioner. Both men live in the Moran community.

EGG HUNT--

(Continued from page 3)
Wills will give instructions for the event.
"Bring the children to the greatest Easter egg hunt ever staged in this section of the country," urge the clubmen.

Ten special prizes, donated by Pampa Merchants, will be given away 30 minutes before the hunt starts. On each of the prize eggs will be pasted a slip of paper with the words "Take me to . . ." (name of store) and receive a prize. Many stores are giving as many as a dozen prizes.

M. P. Downs is chairman of the steering committee.

JOB TOTAL RISING

NEW YORK, Mar. 25 (AP)—The United action drive to obtain employment for a million jobs was almost up to the one-third notch today. A total of 14,012 jobs were added yesterday, bringing the figure to 326,900.

Minnesota is still in the van among the states with 30,994.

BEER TAX--

(Continued from page 1)
brought ringing cheers from the prohibitionists.

The amendment was brought forward by Representative Cullen (D., N. Y.). It called for such a tax on beer manufactured under permits from the treasury.

The ruling was contested by several prohibitionists, among them Blanton (D., Tex.) and Koch (R., Kan.). They argued that beer was outlawed by the constitution and that an amendment to tax an illegal article was not permissible.

Representative Bankhead (D., Ala.), held that the supreme court had not ruled that the eighteenth amendment forbade manufacture of 2.75 per cent beer and that a vote might be had.

Under the procedure by which the house was working on the tax bill at the time, a roll call vote would not be in order. First would be a standing vote, and then a call for tellers by which representatives of each of the opposing sides would count the members voting for and against.

Point of Order
After Cullen ordered his beer amendment Blanton immediately made a point of order, contending it was not constitutional and not germane to the bill.

Blanton said it would be "futile" and "useless" for the chair to rule for a vote on the beer amendment.

"I know it has been ruled by several speakers that either the whole house nor the speaker has anything to do with constitutional questions,"

FUNERAL DELAYED

FORT WORTH, Mar. 25 (AP)—Funeral arrangements for Mrs. G. M. Bowie, 75, of Weatherford, killed in an automobile accident here yesterday, were held in abeyance today pending arrival of a daughter, Mrs. Frank Hawks, wife of the aviator, from New York.

Blanton said.

Blanton conceded, however, that Bankhead had the right to overrule his objection and other precedents.

Representative Cochran (D., Mo.) said Blanton was trying to influence the presiding officer and to intimidate his ruling before it was made.

Crisp said he believed the amendment to be a germane. The Georgian is considered an outstanding parliamentary expert.

Road Delegates To Come Monday

Representatives from towns and cities in Texas through which highway 60 passes, will meet in Pampa Monday to discuss road plans and to select delegates to the association's annual meeting in Phoenix, Ariz., next month.

The visitors will be banqueted at noon at the First Presbyterian church. The highway enters Texas at Higgins, leaves at Farwell. It passes through Pampa, Amarillo Canyon and other points. George W. Briggs, manager of the Pampa Board of City Development, is secretary of the Texas association.

The highway runs from the Atlantic to the Pacific coasts.

ALLRED--

(Continued from page 1)
yesterday to visit Mr. Allred's brother, Raymond, who is district attorney here. He was to address the Shamrock Lions club today.

Mr. Allred had no statement to make concerning his future political activities. Like a number of other Texas office holders and prospective candidates, he is waiting for the governor's race to take form before committing himself.

JAW IS FRACTURED

BIG SPRING, March 25 (AP)—Lee Levering, employe of an oil well supply company, was injured last night when the automobile in which he was riding overturned on the highway between Best and Big Lake. He was brought to a Big Spring hospital today by airplane. His jaw was fractured and he had other injuries but was expected to recover.

CHANGES RULING

WASHINGTON, March 25 (AP)—Secretary Hyde today notified Senators Carey (R., Wyo.) and Thomas (R., Idaho) that western farmers on irrigation projects could use their crop production loans to pay for water and maintenance charges.

The senators explained the production loans were those provided for in the \$200,000,000 agriculture fund of the reconstruction finance corporation and would be available for farmers on all irrigation projects, whether federal or private.

Only 18 fillies ever have tried to win the Kentucky Derby in the 66 years of its history.

Rose Bushes Are Planted at Park

City Manager F. M. Gwin supervised the planting of more than 100 rose bushes in the city park this morning. The bushes, ever blooming and fragrant, were placed in various parts of the park and mixed with the shrubs and plants already set out should add much to the beauty.

The grass planted last fall is fast taking hold and is rapidly spreading. The park is being watered daily and before long should be one of Pampa's beauty spots. Trees have been set out to replace those which died.

The draw west of the park is also being beautified.

Suspended Term Given Mrs. Wade

Mrs. Jessie Wade was given a five-year suspended sentence on a charge of possessing and transporting intoxicating liquor for the purpose of sale by Judge W. R. Ewing in 31st district court yesterday afternoon.

Mrs. Wade pleaded guilty to the charge and waived a jury. In suspending the sentence, Judge Ewing mentioned that he was influenced by the fact that the defendant has two small children to support and that they needed her care.

Ohio State university rifle team has two members who have competed in international rifle matches.

International Sunday School Lesson

BY DR. J. E. NUNN

International Sunday School Lesson for March 27.

General Topic: Jesus Rises From the Dead (Easter Lesson).

Scripture Lesson: John 20:11-20. 11. But Mary was standing without at the tomb weeping; so, as she wept, she stopped and looked into the tomb;

12. And she beheld two angels in white sitting, one at the head and one at the feet, where the body of Jesus had lain.

13. And they say unto her, Woman, why weepest thou? She saith unto them, Because they have taken away my Lord and I know not where they have laid him.

14. When she had thus said, she turned herself back, and beheld Jesus standing and knew not that it was Jesus.

15. Jesus saith unto her, Woman, why weepest thou? whom seekest thou? She, supposing him to be the gardener, saith unto him, Sir, if thou hast borne him hence, tell me where thou hast laid him, and I will take him away.

16. Jesus saith unto her, Mary. She turneth herself and saith unto him in Hebrew, Habbouni; which is to say, Teacher.

17. Jesus saith to her, Touch me not; for I am not yet ascended unto the Father; but go unto my brethren, and say to them, I ascend unto my Father and your Father, and my God and your God.

18. Mary Magdalene cometh and telleth the disciples, I have seen the Lord; and she saith these things unto her.

19. When therefore it was evening, on that day, the first day of the week, and when the doors were shut where the disciples were, for fear of the Jews, Jesus came and stood in the midst, and saith unto them, Peace be unto you; and he showed unto them his hands and his side.

20. And when he had said this, he showed unto them his hands and his side. The disciples therefore were glad, when they saw the Lord.

Golden Text: But now hath Christ been raised from the dead, the first-fruits of them that are asleep.—1 Cor. 15:20.

Time: The resurrection, Sunday, April 9, A. D. The appearance to the eleven including Thomas, a week later. The ascension, Thursday, May 18, A. D. 30.

Place: Jerusalem, the upper room. The Mount of Olives near Bethany.

Introduction

"Jesus and the resurrection" was the outstanding theme of the preaching of the earliest church. (Acts 2:31; 4:2; 17:18.) Every recurring Sabbath—observed by us Christians not on the seventh, but on the first day of the week in commemoration of our Lord's resurrection—should recall it to our minds. And the majority of Christians think the tit is well also upon one particular Sabbath of the year's Sabbaths—Easter Sunday—to concentrate our thoughts upon that victory over the death in which our Lord perfected his Saviourhood; to go back and stand with the little group of the more devoted disciples around the empty tomb, and be filled with gladness and edified in faith, as they were.

For without doubt the resurrection was the supreme transforming fact that made those wandering, despairing followers of his into heralds and heroes of his cross and martyr's life.

The world needs constantly to be reminded of this truth and fact of a living Christ (I am he that liveth and was dead; and behold, I am alive for evermore. Rev. 1:18).

The Women at the Tomb

The first visitors to the tomb of Christ, after the Jewish Sabbath was passed were women. This is just what might have been expected, for we know the consideration which Christ held womanhood, so unusual at the time, and the loving response which women gave.

As the women drew near to the tomb, they were wondering how they could manage to roll back the great stone which closed its entrance. But, like most of our worries, this proved unnecessary, for as they reached the tomb they saw that the stone had been removed and jumped at the conclusion that the Lord's body had been stolen. Quickly that woman of action, Mary Magdalene, ran back into the city to tell Peter and John and stir them up to find the body of Jesus. The other women, however, drew closer to the tomb and there saw two angels who announced Christ's resurrection and bade the women hasten and carry the good news to the disciples.

Despair and Hope

The contrast between the two pictures of Mary presented in this chapter is striking. First she stands without the tomb weeping; the early morning is dark and dismal; the loved Master is dead, and there isn't even left the comfort of his tomb. "They have stolen the body of my Lord!" Then suddenly we see her rushing off to tell the good news to the brethren: "I have seen Him, alive! He lives!"

We all have our dark hours; our times of broken hopes and shattered faiths. But the gospel of Christ is ever saying to us what the Psalmist said: "Though weeping tarry with you for a while, joy cometh" (Ps. 30:5). It is the voice of the wheel of nature: Bright sunshine and warmth after the gloom and chill; or vernal beauty succeeding winter's death. Passion Week brings out this contrast; Gethsemane, the shameful insults in the Pretorium and council chamber, the mock trial, the cross-dissolve into the life, light and gladness of the resurrection morning.

Christ Appears

"But Mary was standing without at the tomb weeping." Mary Magdalene, after notifying Peter and John, had been unable to remain away from the spot where her longing love centered. She returned, therefore, to the tomb, from which the other women had by this time gone, reaching it also after the departure of Peter and John. She did not venture to enter the grave, but

gave full vent to her sorrow outside. "So, as she wept, she stooped and looked into the tomb." The entrance to the cavilike excavation in the rock was low, and the floor of the tomb was probably lower still. It would be a melancholy pleasure to Mary to see the spot rendered sacred by the body of her Lord, though it had been removed.

Lesson From the Tomb

The empty sepulcher into which Peter said "that other disciple" and Mary Magdalene looked may be regarded as one of the emblems of the Christian's life. It is an "exhibit" of Christ's great declaration at the tomb of Lazarus: "I am the resurrection and the life!" Evil can entomb righteousness, but not for long; the coffin and the grave can shut away your loved one, but only for a night, only until the sunshine brings back the morning.

"I have seen the Lord"

"Mary Magdalene cometh and telleth the disciples, I have seen the Lord." Doubtless the apostle had been all together, perhaps in the upper room, excitedly discussing the news of the empty tomb which Peter and John had brought them. Now comes a still more startling confirmation of the resurrection. How thrilled must the beloved disciple have been when he heard Mary exclaim, "I have seen the Lord."

Peter Sees His Lord

Sometime on that first Easter Sunday our Lord granted a special, private interview to Peter, the disciple whose denials of Christ during his trials had been such a grief to both of them. But Peter had been more manly than Judas. The despair of the traitor had led to the coward's death of suicide. Peter with true repentance, had fought with his shame, and had determined by a life of heroic service to make up for his terrible sin. This interview was too sacred for Peter to disclose its words or even its nature. Luke merely mentions it (Luke 24:34), and Mark, whose Gospel was, according to tradition, largely dictated by Peter, says not a word about it. John, however, was present when Peter was fully reinstated as an apostle and has given us a full account of it (John 21:1-23), in one of the most moving and graphic of Scripture narratives.

The Two of Emmas

The fourth appearance of the risen Lord was to two disciples, one of them named Cleopas, who on that Easter afternoon were walking home from Jerusalem to Emmaus, about seven and a half miles from Jerusalem. Luke 24:13-31 tells how an unknown stranger joined them and fell into conversation about the crucifixion of Jesus, showing them from the Old Testament prophecies that the career of the Messiah must have been precisely like that of the crucified Jesus. At their request he went to their home in Emmaus, assumed the place of host at the evening meal and was known to be the Saviour by his manner of blessing the food. Then he straight-

way vanished from their sight. At once, late as it was, they walked back the long miles to Jerusalem to report their wonderful experience to the apostles.

Peace Be Unto You

"Jesus came and stood in the midst." The pain implication is that our Lord entered the room in a supernatural way, through the door or wall. His risen body was a very real one, as he proved; it could be handled, and it could receive food; yet it evidently was superior to natural laws. "And saith unto them, Peace be unto you." This was the usual form of greeting, but never more meaningful than then. They were terrified, thinking that he was a ghost, and their spirits needed this calm reassurance.

"And when he had said this, he showed unto them his hands and his sides." Luke 24:40 says "His hands and his feet, and adds that he bade them 'handle' him and prove to themselves his reality. "The disciples therefore were glad when they saw the Lord. Their sorrow was turned at once into great joy, as Christ had prophesied would come to pass (John 16:20). "Now let the heavens be joyful! Let earth her song begin! Let the round world keep triumph, And all that is therein! Invisible and visible, Their notes let all things blend. For Christ the Lord hath risen, For Christ the Lord hath risen, Our joy that hath no end." —John of Damascus.

way vanished from their sight. At once, late as it was, they walked back the long miles to Jerusalem to report their wonderful experience to the apostles.

Peace Be Unto You

"Jesus came and stood in the midst." The pain implication is that our Lord entered the room in a supernatural way, through the door or wall. His risen body was a very real one, as he proved; it could be handled, and it could receive food; yet it evidently was superior to natural laws. "And saith unto them, Peace be unto you." This was the usual form of greeting, but never more meaningful than then. They were terrified, thinking that he was a ghost, and their spirits needed this calm reassurance.

"And when he had said this, he showed unto them his hands and his sides." Luke 24:40 says "His hands and his feet, and adds that he bade them 'handle' him and prove to themselves his reality. "The disciples therefore were glad when they saw the Lord. Their sorrow was turned at once into great joy, as Christ had prophesied would come to pass (John 16:20). "Now let the heavens be joyful! Let earth her song begin! Let the round world keep triumph, And all that is therein! Invisible and visible, Their notes let all things blend. For Christ the Lord hath risen, For Christ the Lord hath risen, Our joy that hath no end." —John of Damascus.

way vanished from their sight. At once, late as it was, they walked back the long miles to Jerusalem to report their wonderful experience to the apostles.

Thousand 'Chute Jumps His Mark

SAN ANTONIO, March 25. (AP)—One thousand parachute jumps, more or less, with the first one dating back to 1902, is the record of Master Sergeant Ralph W. Bottrell, dean of air corps parachute experts and head of the Kelly Field parachute department.

From his experiences and those of other pioneers who have worked with him has come the practically perfect parachute that already has saved lives of more than 500 fliers.

On July 4, 1902, at the age of 16, he made his first and one of his most thrilling jumps, at Nashville, Mich. In doing a trapeze stunt while descending he lost his entire fortune, 65 cents.

His most serious accident occurred in 1920, when his parachute opened prematurely as he was preparing to make a 20,500 foot jump. He was jerked from the plane through the tail surfaces of the ship, received an arm injury, broken ribs and was knocked unconscious. After falling 5,000 feet he regained consciousness and discovered that one panel of his parachute had been torn out. He pulled the cord to the emergency chute and descended safely.

His early jumps were made from balloons and perches as English women do. According to official figures, this German expenditure works out to 25 cents per person every 200 days.

BUT AMERICA DOES BETTER

German women and girls are said to spend twice as much on cosmetics and perfumes as English women do. According to official figures, this German expenditure works out to 25 cents per person every 200 days.

REMARKABLE QUILT

WELLINGTON, March 25.—A stamp quilt, containing 5,178 pieces of material no larger than postage stamps, was recently made by Mrs. J. G. Gardner, who lives near Wellington. The quilt was pieced by hand in five weeks.

DUCE FILMS FASCISM

ROME, (AP)—A film showing the "new Italy" envisioned by Mussolini, particularly the physical and mental development of youth, has been made by the Duce's orders for exhibition in schools and movie theaters.

Boy of Five Real Help to Mother

How to keep a 5-year-old boy busy while his mother is sick has been solved at Brownboro, Texas. Above is Billie Ben Sexton, aged 5, and the quilt he pieced entirely by himself. Mrs. Sexton, who is an invalid, cut the pieces for the youngster, and he put them together. Tige, the dog, seems to be as proud of his little master's work as Billie is.

Supreme Court Attaches Said to Help Country Lawyers Feel at Home

AUSTIN, Mar. 25 (AP)—Attaches of the supreme court of the United States are the "same type" as Fred Connerly, veteran clerk of the Texas Supreme Court, and his staff, Ireland Graves, former Travis county district court judge, said on his return from Washington, where he made his first appearance in arguments before the court.

"They do everything possible to make a country lawyer feel at home, and they are most accommodating," Graves said.

He was worried for a day or two after he arrived in the national capital for his supreme court appearance because some Texas was bent on a little fun told him "it would be necessary for him to appear in frock coat, morning trousers and spats when he addressed the court."

"I did not have any frock coat, morning trousers or spats," he said. "I was told that I could rent an outfit like that if I did not care to purchase one. Imagine my relief when G. E. Cropley, clerk of the court, assured me my friend had been kidding and that there were no rules about what one should wear in presence of the court. He said that one was welcome to appear in whatever clothes he cared to wear, although dark clothes were preferable. That was a big relief. Until I got that news I could not give any study to the case I had set out for argument for worry about how to acquire a frock coat, morning trousers and spats."

D. E. Colp of San Antonio, chairman of the state park board, is elated at progress being made on construction of a state highway through the Davis Mountains Park in Jeff Davis county. The highway, more than 75 miles long, will be one of the "prettiest stretches" in the country, Colp said.

Colp is one of Texas' pioneers in highway building. He was preaching improved highways when about one of the most unpopular things a person could do was go into a country and advocate a bond issue for road construction. He had a hand in starting the highway building when it gained increased momentum as time passed. He quit advocating highways to boost state parks and because of his untiring efforts Texas now has about as many state parks as any commonwealth.

Mrs. Martha M. Bradford has entered as a candidate for the legislature from Travis county. She will oppose Eugene V. Giles incumbent of place No. 2 for the district. Mrs. Bradford is an apartment house owner and club woman. Giles is a farmer. Mrs. Bradford is a daughter of the late Garland Connerly, a pioneer Texas. She has lived in Austin all her life.

Gregory Hatcher of Dallas, former state treasurer, says he isn't interested in state politics. "I'm devoting all my time now to an effort to defeat President Herbert Hoover for reelection," he said. Hatcher was one of Texas' original advocates of Newton D. Baker of Cleveland for the democratic presidential nomination, but he has stepped aside from his original decision to stand behind Texas own John N. Garner, he said.

Senator W. R. Cousins of Beaumont, a hold-over member of the Texas senate, said the next regular session of the legislature should be "very, very brief." He believes there should be nothing for it to do but to pass the appropriation bills—money bills that should be pared deeply in an effort to hold expenditures and taxes to a minimum.

Young Woman Lawyer Likes to Defend 'Leggers'

SAN ANTONIO, March 25. (AP)—The specialty of Miss Sadie A. Bevilacqua, young woman lawyer of Galveston, is defending bootleggers. The young woman, the first to appear as an attorney in a criminal case here in many years, declares that she likes federal courts because of their formality and stiffness.

She was a defense attorney here in the trial of Milton Ellis, a youth convicted of robbery and sentenced to five years.

Miss Bevilacqua declared that Galveston is a good place for her specialty, because "people will smuggle liquor, and they will get caught."

She disclosed some of the methods which she has used in defense of bootleggers. For instance, there was a man with a wooden leg, charged with smuggling. It was the wooden leg by which officers identified him. This modern young Fortia secured the services of five men with wooden legs as witnesses. The defendant was acquitted, because the officers did not know which man was the right one.

Miss Bevilacqua said she doesn't smile at the jury; she talks about the evidence.

Economic Boycott Being Requested

AUSTIN, March 25. (AP)—Eighty-seven members of the faculty of the University of Texas have signed a petition asking congress and President Hoover to invoke an economic boycott against Japan if it be found that Japan has violated peace convenants through its road action in Shanghai and Manchuria.

The petition is being circulated throughout universities of the United States by Dr. A. Lawrence Lowell of Harvard university. After citing that events in Manchuria and Shanghai have shown that protests by other governments and public opinion of the world will not alone restrain the use of armed force to attain national ends, the petition calls on the president and congress to cooperate fully with the League of Nations.

The petition states that should Japan be found guilty of acts of aggression against China it will be the covenanted duty of the members of the league to prohibit trade and financial relations of their countries with the covenant breaking state and to prevent all intercourse with that state by the people of any other state whether a member of the league or not.

CAVALRY CLUB FORMED

SAN ANTONIO, March 25. (AP)—The Cavalry Club of the Southwest has been organized, with Captain George M. Roper, reserve officer, as its president, to foster the spirit of cavalry and the love of a horse. Membership will include army officers, regular and reserves, and civilians interested in military affairs. Classes in equitation and territorial riding will be conducted for members of the club at a local riding stable. A rifle marksmanship class also will be included in the club's functions.

WHAT'S AFOOT NOW? Gandhi sandals for women are decreed for next summer. Let's hope the fad goes no further or we might have to sleep without sheets on our bed.

Boise City Line Will Be Extended

BOISE CITY, Okla., March 25. (AP)—W. H. Rochester, construction engineer for the Santa Fe railway with headquarters here, is quoted as saying the Boise City NEWS is quoted as saying the Santa Fe's Amarillo-Boise City line will be extended to Las Animas, Colo., some time this year.

"No definite date has been set for the beginning of construction, but the line will be built this year," Rochester is quoted as saying. The route is approximately 100 miles.

The line from Amarillo to Las Animas, which was begun two years ago, was intended to make the Denver territory more accessible to the Panhandle oil fields. And this section's agriculture and livestock industries as well.

The Boise City-Amarillo division, a distance of 125 miles, was put in operation little less than a year ago. Construction of the line to the north was held up at that time to await a decision of the interstate commerce commission on the Santa Fe's request for permission to re-route the survey.

Present shipments from the Amarillo territory to Denver must be routed from Boise City by way of Dodge City, Kan.

Santa Fe engineers have made no announcement regarding plans for completing the Ft. St. Vrain, Colo., to Colorado, N. M. cutoff, which was built last year to Farley, N. M. about 50 miles short of its terminus. This line will eliminate the mountain haul and winter snow blockades of Raton pass.

HARD ON CALIFORNIA GALVESTON, March 25. (AP)—Galveston police have declared war on automobiles with California license plates and all are being stopped and their owners interviewed by motorcycle officers.

"Strip" Planting Is Being Urged

LUBBOCK, March 25 (AP)—Farmers of the South Plains are being encouraged by the United States department of agriculture to practice the "strip" type of planting for soil conservation.

The custom of planting a narrow strip of land to cotton and an alternating one to grain sorghums has been tried by many Panhandle Plains farmers, but it has never been a general practice. H. V. Gieb, representative of the bureau of chemicals and soils, has been working with county agents to sign up adherents to the plan.

One objection to the strip plan in this section is the blowing of silt from the grain sorghum strips into the cotton fields. It has successfully prevented erosion and blowing of the soil, however.

Historical Group Will Meet Soon

CANYON, Mar. 25 (AP)—The annual meeting of the Panhandle Plains Historical Society will be held at Canyon on April 6, and L. P. Sheffy, who is arranging the program, has announced that John A. Lomax will be one of the speakers on the banquet program.

Lomax has done much to collect and preserve the cowboy songs and lore characteristic of the open range country, and the value of his work is recognized in the United States and abroad.

Others who have already consented to appear on the programs of the day are Senator C. C. Small of Amarillo and Frank Kell of Wichita Falls.

SMALLEST VS. BIGGEST

CROSBYTON, March 25 (AP)—The smallest man and the largest man in Crosby county are opposing each other in the race for county judge.

George S. Bond, the "flyweight" candidate, is slightly under five feet six inches, and has never weighed more than 125 pounds. W. P. Fullingim, Lorenzo farmer and real estate dealer is the "heavyweight." Fullingim is a foot taller than Bond and weighs 275 pounds.

The place they seek is now held by George S. Bond, who was the youngest county judge in Texas at the time of his election four years ago.

HUNGARIANS BARTER ART

BUDAPEST, (AP)—Many pictures exhibited at the Artists' Club here have been bartered. Several nudes were exchanged for typewriters, chairs, fuel and macaroni, while a fine still life went to a dentist for three platinum fillings, two extractions and three gold crowns.

Rudy Asked to Compose Song to End Depression

NEW YORK, March 25 (AP)—All Mr. Rudy Vallee has to do to make a name for himself—again—is to write a theme song for prosperity.

President Hoover handed the megaphone maestro the assignment Wednesday when Vallee called at the White House to pay his respects.

"Mr. Hoover's smilingly told me," Vallee said, "that if I could sing a song that would make people forget their troubles, he would give me a medal."

The idea of a serenade to the goddess of plenty—"Cornucopia, Here we Come" was a title one song writer thought up, quick as a flash—bounced around tin pan alley today like a ball on a roulette wheel looking for a good number to land on.

One of the more talkative, if possible, piano-punishers broke into a cold sweat at what he frankly confessed was the first inspiration he has had since he did that mash, "Ducky-Wucky, Don't Youse Leave Me No Mo'."

"It would be surefire," he exclaimed, fumbling for a handkerchief and coming up with the laundry bill.

"A wow," said another, clamping his hoof down on the loud pedal and whaling the keyboard with all the delicacy of a circus roustabout driving a tent stake.

Iowa State wrestling teams have the unusual record of 100 dual meet victories against 13 defeats in the 17 seasons since 1916, when the sport was inaugurated there.

DON'T LIKE ADAGE

BRECKENRIDGE, March 25 (AP)—Boys in Breckenridge high school probably would like to have a slap at the old adage that "figures never lie," in the light of statistics released here recently showing that high school girls are 7.2 per cent more intelligent than the boys.

Figures compiled by school officials for the first semester showed that girls earned 89.4 per cent of the credits for which they worked, compared with 82.2 for the boys. Boys and girls both attempted 996 credits and earned 818. Boys, however, excelled in three subjects—mathematics, commercial law and economics. Girls led in English, history, science, civics and languages. They tied in public speaking.

BOYS TURN COWBOYS

BRADY, March 25 (AP)—When New York with its bright lights, night clubs, gangsters, and myriads of other attractions failed to provide the necessary thrills for two of its youths, they caught a train and came to Brady to become cowboys on a ranch. Fred and Stanley de Garmo, 20 and 19, arrived here a few days ago and immediately fitted themselves out in full-fledged cowboy attire, bought all the necessary accoutrements and went to work punching cows on the G. R. White ranch.

MASS TRIAL IN AFRICA

WEENEN, Natal (AP)—More than 2,500 natives were fined \$7.50 each for participation in tribal disturbances last summer. The prisoners were herded by soldiers with fixed bayonets into a barbed wire enclosure to hear the decision. They were given six months in which to raise the money.

Humble Frog Is Useful on Farms

AUSTIN, March 25 (AP)—Use of frogs to keep down the number of crop destroying insects is being advocated by the Texas game, fish and oyster commission.

The frogs, after laying their eggs, leave the water and feed on insects in the fields.

If a sufficient number of frogs and toads were placed in the fields in the spring they would destroy the insects before they had a chance to multiply and damage crops, the commission stated.

Paul Jones, Houston, Tex., wrestler, reported his pocket was picked of a \$1,000 ring while on a visit in Phoenix, Ariz.

SIXTH OF SCOTLAND PUT ON REAL ESTATE MARKET

EDINBURGH (AP)—One-sixth of Scotland is for sale, says an Edinburgh real estate firm.

Taxation problems and high death duties have forced Scottish landowners to put their property on the market in unprecedented fashion.

It is estimated that nearly a third of the land in Scotland has already become the property of the state and that \$15,000,000 in death duties hang over Scottish estates.

"BRIAND STREET" IN PARIS
PARIS (AP)—Suggestions for naming a Paris street after Aristide Briand are cropping up, one plan being the re-christening of that part of the rue d'Orsay which runs past the foreign office.

Dobie Deploring Lack of Museum

AUSTIN, March 25 (AP)—J. Frank Dobie, author of "Coronado's Children" and other books on the lore of the Southwest, is deploring the lack of interest in the movement for establishment of a state museum.

"Every true Texan can feel only shame when he thinks of the apathy with which priceless zoological finds and historical relics have been allowed to pass to museums at a distance for the lack of museums at home," Dobie said.

Dobie pointed out that the imperial Russian government made an extensive collection of Indian artifacts more than 100 years ago and that the collection, now in Petro-

grad, is one of the finest in existence.

The former Kaiser's collection of petrified Texan lizards was pointed out by Dobie as another priceless collection that Texas had allowed to be taken to distant places.

GOES AFTEE THEM
HOUSTON, March 25 (AP)—Police Chief W. L. Harrell of Texline, traveled 1,800 miles over snow and ice covered roads to arrest two men wanted there for the robbery of a hotel. The first suspect was captured here and held for Harrell; the second in Goose Creek. The officer had to come 900 miles here, Texline being in far northwestern Texas, and the same distance, of course in returning.

PEACE IS MERE MYTH DESPITE 3000 TREATIES

BERLIN, (AP)—Despite some 3,000 peace treaties, mankind has known only 268 years of peace in 2,688 years, say statistics compiled by the Institute of International Law.

Even in these 268 years peace was only relative, as major conflicts between remote tribes probably escaped record.

The enduring peace promised by the 3,000 pacts lasted only about two years for each, it was figured.

MOSCOW SEEKS BEAUTY
MOSCOW (AP)—About \$2,500,000 is to be spent this year in beautifying the soviet capital. Orders have been placed for 500,000 trees and 2,000,000 shrubs for planting in parks and squares.

Sister MARY'S KITCHEN

BY SISTER MARY
NEA Service Writer

The resourceful homemaker who feels she has exhausted the possibilities of cook-books in her search for unusual meat dishes that are economical and appetizing will take satisfaction in serving her family spring meals built around the following novel recipes.

Lamb in Curry Sauce

An excellent way to serve left-over roast lamb is in a curry sauce with a rice border. Such a combination precludes potatoes in the menu. Remember, however, that rice is lacking in the minerals found in potatoes and choose an extra vegetable or salad particularly rich in iron.

Three cups cubed cooked lamb, 1 onion, celery tops, 1 turnip, parsley, 1 carrot, 2 tablespoons butter, 2 tablespoons flour, 2 cups stock, 1 tablespoon curry powder, 1 teaspoon salt, 1-4 teaspoon pepper.

Break the bones of the roast and put into a kettle with onion peeled and sliced, celery tops, turnips cut in cubes, parsley and sliced carrot. Cover with cold water and simmer from thirty to sixty minutes. Strain and measure. There should be 2 cups. Melt butter and stir in flour and curry powder sifted together. Cook and stir until mixture bubbles. Slowly add stock, stirring constantly. Bring to the boiling point and add diced meat. Heat thoroughly and serve in a border of hot cooked rice.

Veal Cutlet

One cup cooked rice, 1 pound veal steak, 4 slices tomato, 1-2 cups white sauce, 1 cup sliced fresh mushrooms, 1 teaspoon minced sour pickle, 1 hard cooked egg.

Cut the steak into four fillets, making them as round as possible. Roll in dried bread or cracker crumbs. Brown in a hot frying pan in fat, then cover and cook over a low fire until tender. In the meantime make the white sauce and saute the mushrooms in butter for ten minutes. Add mushrooms, minced pickle and chopped white of egg to white sauce. Make the rice in four round patty cakes. On each bed of rice place a cooked cutlet. Put a slice of tomato on each cutlet and top with a bit of

Tomorrow's Menu

BREAKFAST: Steamed figs with oatmeal, cream, reheated cinnamon rolls, milk, coffee.

LUNCHEON: Calves liver with spinach, mushroom sauce, whole-wheat bread, cabbage, and fruit salad, chocolate rolls, milk, tea.

DINNER: Veal cutlet, buttered Brussels sprouts, cress, and apple salad, marshmallow pudding, milk, coffee.

riced egg yolk. Surround with the sauce and serve at once.

This dish is almost a full meal in itself. If served with a buttered vegetable, such as peas or green beans, and a fresh fruit dessert, a most delicious and well balanced menu is provided.

Calves Liver and Spinach

Calves liver and spinach is rich in minerals and vitamins. It's a splendid luncheon dish for guests or family.

Three-fourths pound liver, 1 slice stale bread, 4 tablespoons cream, 1 onion, 2 pounds spinach, 1 teaspoon salt, 1-4 teaspoon pepper, 1 teaspoon grated horseradish, 2 hard cooked eggs.

Cook liver in boiling water for fifteen minutes. Drain and put through fine knife of food chopper. Add slice of bread which has been soaked in cream and mix thoroughly. Peel and mince onion and saute in butter. Add to liver mixture and season well with salt and pepper. Put into a well oiled pudding mold and cover with sliced hard cooked eggs.

Cover with spinach which has been cooked in its own juice and put through a colander. Mix horseradish with spinach. Cover the place in a pan of hot water. Cook in a moderately hot oven until firm to the touch. Unmold on a hot platter and serve with a cream of mushroom sauce.

ELECTION NOTICE

Notice is hereby given that an election will be held at the High School Building in the City of Pampa, Texas, on Saturday, the second day of April, A. D. 1932, for the purpose of electing three trustees for the Pampa Independent School District, the same to serve for a term of two years.

The names of candidates should be turned into the business office of the district not later than ten days prior to the date of election, so that same may be printed upon the ballot.

Jno. B. Ayres will be Judge of said election, and J. T. Bradley and B. W. Rose, Clerks.

By order of the Board of Trustees, Pampa Independent School District.
C. T. Hunkapillar, Pres.
C. P. Buckler, Secy.

Hold Funeral for Four Little Boys Burned to Death

Hubert, Hulen, and Herman Winn sit on the pony from left to right, and their father, Henry Winn, stands beside them. The three little boys, with their infant brother, Charles, are dead, burned beyond recognition when their father attempted to light a fire with gasoline in their farm home near Grand Saline, Texas. Winn is near death from burns in a Dallas hospital. He wants to die, now, he says, in his grief for his four children. Below are the caskets in which the four little boys were laid to rest, side by side, in the Grand Saline cemetery. Mrs. Winn was slightly burned.

This Game of GOLF

By O. B. KEELER

Wilfrid Reid, diminutive English professional who, as I recall it, made his debut in this country in 1913 in the national open championship at Brookline, is much in Florida, and at the Gasparilla open at Tampa we were talking about the change in Walter Hagen's putting methods.

The change, it seemed to us, is much to the detriment of what used to be one of the best features of Sir Walter's game.

Wilfrid is a great student of golf, and he doesn't mind enlightening you on its manifold mysteries. This time he was talking to Walter as well as to me about Walter's putting.

"You've tightened up," Walter said Wilfrid. "When you were putting so well, a few years ago you rapped the ball firmly and crisply, but your stance and your holding and swinging of the club were all beautifully relaxed—left foot well forward, weight mostly on that foot everything apparently natural and easy. Now your swing is looser, it seems, but your whole system is tighter."

"Something like that," admitted Sir Walter, somewhat gloomily. "Anyway, I can't seem to go up to the ball and knock it into the cup— as George Duncan advises; though George never was able, judging by what I saw, to do that himself very consistently."

A Bit Of Advice

"In putting," proceeded Wilfrid, who now assumed the manner of a professor of science lecturing to a class, "in putting, a much better guide would be Willie Anderson. Willie was a grand putter. And this was his advice—good for anybody, maybe, Walter, good for you: "Be a rag," said Willie, "and hit it."

"He meant a rag—a limp rag," supplemented Wilfrid. "And I think that's the wisest advice ever put in one line in golf. I think it's an epigram."

Wilfrid went on at some length to amplify the raggy theory. It kept you from stabbing the ball, he said. It kept you automatically from pulling or pushing the ball off the line. Because a rag, a limp rag, naturally would not yank the putter off the line of the stroke, once it had been properly started.

Willie A Putter

There may be something in it too. I'm always ready to consider golden maxims of the older masters. And Willie was a master, certainly. He won three of our open championships, mostly in succession.

Wilfrid considers him the best putter he ever saw—or one of the two, without specifying the other, Wilfrid being a conservative and cautious man.

That is, he is conservative and cautious except when it comes to the matter of British politics. It is recalled that on the occasion of that memorable 1913 open championship at Brookline, Wilfrid was standing right up around the top after the first two rounds, and that evening he got into an argument with Ted Ray about politics.

Eventually he tangled with Ted, who weighed approximately one hundred pounds more than Wilfrid, and Ted poked him in the eye.

Wilfrid did not play any more to amount to anything in the tournament.

FRANK HILL

ment, and Ted went on to tie with Harry Vardon and the young and unheralded Boston amateur, Francis Ouimet, who put golf on the first page for the first time by beating them both in the play-off.

A total of 125 high-school boys from 11 high schools engaged in an unheralded state wrestling meet in Indiana. Ten Georgia Tech basketball players were awarded letters at the close of the season.

Another Price Reduction For AMBULANCE SERVICE

Any Call in the City Limits or Immediate Suburbs **\$2.50**

Although I have added new and better equipment and have improved the service in every way, by concentrating all my time to the business and reducing overhead expenses I am in a position to make this reduction.

Sport Slants

BY ALAN GOULD

Training Camp Pickups

Jack Quinn, ancient of ancients, sent to Brooklyn to die... called upon to pitch the last three innings of a practice game with his old mates, the Athletics... and grinding like a Cheshire cat after the game... having allowed the American League champions just one great big hit, and no runs.

In Honor of Bill Klem

John McGraw, fixing a bendy eye on the program of the races at Agua Caliente... and noticing that one of the heats was called, "the Giants' Handicap"... then passing the remark that the race must have been named in honor of Bill Klem... from which may be guessed the nature of a beautiful friendship between the Giants' manager and the veteran National League umpire.

A Jolly Good Catcher

Smead Jolley, the White Sox outfielder who is being converted into a catcher by Manager Lew Fonseca... and going along wonderfully for nearly a week... but finally coming face to face with a high twisting foul fly... and losing the decision on points... the next day, Lew Fonseca taking Smead to one side, and funging foul flies until Smead began to complain of a Charley Horse in his neck.

Reason!

Max Carey, spending hour after hour teaching the Brooklyn Balmores smart baseball... in then, watching in amazement, in a game with the Newark Bears, two of his flock fighting for possession of a third base... but that isn't all...

will be carried by Cleveland... and should break into many American League games this summer.

The Florida West Coast baseball league of eight teams has been formed. It will operate this summer.

This year's National A. A. U. basketball tournament at Kansas City drew home of the largest crowds in the history of the event.

Worthy Wood, one of the fastest Ohio-bred trotters, is to be on the tracks again this season in the stable of William "Doc" McMillen.

Famous FAST-STARTERS

112 MILES AN HOUR

BACK TO THE UNITED STATES CAME THE WORLD'S SPEEDBOAT RECORD WHEN MISS AMERICA IX MADE AN AVERAGE OF 111.712 MILES AN HOUR AT MIAMI BEACH, FLORIDA, ON FEBRUARY 5, 1932. THAT FLASH OF SPEED THRILLED MILLIONS AS THEY READ THE HEADLINES IN NEWSPAPERS ALL OVER THE COUNTRY. YOU GET THAT SAME THRILL OF PRIDE AT OUTSTANDING PERFORMANCE BY YOUR MOTOR, WHEN THE TANK IS FILLED WITH PHILLIPS 66 GASOLINE. YOU ARE DELIGHTED BY SPLIT-SECOND STARTING, EXTRA PEP, AND LONGER MILEAGE—BECAUSE PHILLIPS 66 HIGH TEST NOW RANGES FROM 65° TO 71.4°.

TO INVESTORS

An interesting history of the oil industry with an estimate of its future are contained in the illustrated Annual Report of the Phillips Petroleum Company. On request, it will be mailed without obligation. Address:

The Secretary,
Phillips Petroleum Company,
Bartlesville, Oklahoma

PHILL-UP WITH PHILLIPS - THE GASOLINE OF CONTROLLED VOLATILITY

Phillips 66

"HIGHEST TEST" at the price of ordinary gasoline

Phillips 66 volatility is 69.6 per cent higher than the average of 28 competitive gasolines. Proved by unbiased laboratory tests based on distillation at 212 degrees.

No matter what bargain prices are posted on any sign or pump, you get the biggest value in motor fuel in Phillips 66... the greater gasoline.

You will actually feel the difference it makes in your motor the very first time you use it. The engine starts with lightning speed even after standing out in the cold for hours. And promptly runs as sweetly as if it had been warming up for many minutes. No sputtering or bucking. No killing or lack of power. But an all 'round improvement in performance and mileage that convincingly proves the benefits of high test gasoline.

Yet this extra high test costs you nothing extra, because Phillips is the world's largest producer of natural high gravity gasoline. And has built sensational sales in record-breaking time by always offering you more for the money, at every Orange and Black 66 shield.

For those who prefer it... Phillips 66 Ethyl... at the regular price of Ethyl Gasoline

A FINER MOTOR OIL at a lower price

Refined from the very heart of a crude noted for extra oiliness. 100% paraffin base. Minus wax, water, and carbon. A triumph of ultra-modern scientific refining. It costs less to begin with and far less in the long run. Save wear, and money, too, by using this new scientific lubricant. There is a grade made especially for your car. 30¢ a quart.
