### DEATH SENTENCE FOR NEGRO ALLOWED TO STAND

AUSTIN, April 27 (AP)—Woody Townsend, convicted while Sheriff of Bastrop county of a charge of extortion in the collection of fees of office, was granted a new trial today by the court of criminal appeals.

Failure of District Judge W. F. Robertson to define the term "wilful" in his charge to the jury was given by the appeals court as cause for reversing the conviction and remanding the case to the district court for a new trial. Townsend was the first of the sheriffs convicted in Travis county on charges growing out of the allegedly irregular collection of fees.

Townsend was sentenced to two years when found guilty of making an excess charge of \$340 in his fee account. He was tried last October.

Since his trial, two other sheriffs and two former sheriffs have been convicted in Travis county in connection with fee collection. One was convicted of theft of \$1,000 and three of extortion. All the convictions have been appealed.

A. J. Remmert, sheriff of Austin county, now is on trial before Judge Robertson on an indictment charging extortion.

In holding that failure of Judge Robertson to define the term "wilful" in his charge constituted reversible error, the appeals court held there could be no legal conviction unless the jury believed Townsend had made the allegedly excessive charge of his own knowledge and volition. Lacking a legal definition of the term, the jury was in question, the opinion held.

### JAPAN LAUNCHES POWERFUL DRIVE IN MANCHURIA WHEN REBEL BANDS GROW STRONG

Saturday is Straw Hat day.

**Inevitable**  
It's not of our making, for Mrs. Pampan has just made us a birthday present of a Stetson felt. The style authorities have decreed the change, however, and we must bow, we suppose, to the inevitable.

**With Ear-Muffs**  
As this is written, the weather is appropriate to the caps with ear-muffs just received from an army post by the Red Cross. We may be sure, however, that by Saturday spring will be fighting back King Winter's last punitive expedition. Remember, this is nearly May.

**Slaves to Habit**  
San Antonio mailmen, the A. P. tells us, have donned roll-brimmed straw hats this spring for the first time in history. Veterans in the service protested vainly against the change from the regulation cap. Younger men were in the majority. . . . Men are slaves to habit, not fashion. Women are slaves to fashion, not habit.

**Tale of a Worm**  
We turn now to a story of a worm, several worms, in fact. Mrs. Lula Martin, 325 Brunow street, brought to the NEWS a bottle containing several long, almost transparent worms about half as big as a "regulation" earth worm. She said they came from her water hydrant, and she was not a little disturbed about it. We advised her to give the specimens to local health authorities for identification and possible investigation.

**Whither?**  
Dr. T. J. Worrell of the city health department has gone exhaustively into the situation. The worms were confined to a small area. Their source is the mystery. Water department employees voiced the opinion that the worms could not originate at the wells, since they could not live through the pump pressure used to force water into the city system. Investigating, they saw no evidence of the source at the plant. It is said some new pipe had been laid near where the strange worms were found. Did they come from imperfectly flushed, recently laid pipe? And could they be common earth worms raised on a liquid diet which left them transparent?

**Latin-ish**  
Both Dr. Worrell of the city department and Dr. V. E. von Brunow of the county health office have sent specimens away for

Dates for examination of children at the school building or at some place in the community this month will be set. Plans for conducting the inspections, called "the summer round-up" by the State Department of Health, will be outlined. Yesterday Miss Moore discussed the health of the city and county with local physicians and others. She said that of the first 50 deaths

WASHINGTON, April 27 (AP)—Secretary Mills today loosed a powerful administration offensive against the bonus payment of the soldiers' bonus. He spoke before the house ways and means committee appearing as a witness in its extended hearings on the issue.

In language no less forceful than that Charles G. Dawes employed before the same committee a week ago, the new treasury chief drove home his opposition to the \$2,400,000,000 outlay, whether paid in borrowed money or through inflation of the currency.

The measure now before you is designed to pay an obligation not due, in money that is not honest," Mills said. "The adjusted service certificates do not mature until 1945. To pay them at their face value today, less the amount that has been borrowed on them, would, in effect, almost double the payment provided for by the adjusted service compensation act and would involve an immediate cost to the government of about \$2,400,000,000.

In other words the government is to pay almost twice the amount it undertook to pay."

"To select this moment," he went on, "to destroy our hopes of a balanced budget and to deal a smashing blow to national confidence, is to me simply incomprehensible. The proponents of this measure fully recognize that the cost can not be borne by legitimate means. . . . They would discharge what they state to be a solemn obligation of the government . . . by setting the printing presses to work printing dishonest dollars.

Here's the first woman governor of Louisiana in the history of that state. Alice Lee Grosjean, 25, is acting chief executive of the Creole state during the 10-day absence of Governor Alvin O. As Paul Cyr has vacated the post of lieutenant governor, Miss Grosjean automatically stepped into the governor's chair at Baton Rouge when Governor King, Senator Long's successor, went away.

### Murray on 'Crusade' According to Backer

W. T. Brothers of Amarillo telephoned THE NEWS this morning that a big Pampa delegation was desired to hear Governor W. H. Murray of Oklahoma in an address in the Amarillo municipal auditorium at 8 o'clock Thursday evening. "Alfalfa Bill" will talk on "Giving the Government Back to the People." Brothers termed Murray's campaign a "crusade" rather than a presidential drive. Murray's male quartet will accompany him.

OKLAHOMA CITY, April 27 (AP)—Gov. W. H. "Alfalfa Bill" Murray has swung into action with a legal attack against Lew Wentz, whom he removed as highway commissioner nearly a month ago, while attorneys for the wealthy oil man were preparing to take steps today to oust Miss Maude Thomas, appointed as Wentz's successor. It was learned Governor Murray has employed Fred L. Sykes, Oklahoma City attorney, on a contingent fee basis to institute court action to cancel the contract of the western good roads service company signed by Wentz while he was commission chairman.

### LINDBERGH MAY GET BABY SOON

HOPEWELL, N. J., April 27 (AP)—Charles A. Lindbergh Jr., was still missing today, despite a high official declaration that Colonel Lindbergh was understood to have made a personal contact with the baby's kidnapers. This contact was reported to have been made in Virginia while the flying colonel was away from his estate last Monday and Tuesday. Police officials denied knowledge of it. The persons who met Colonel Lindbergh were understood to be the same group which received \$50,000 ransom recently and then failed to return the child.

Major Charles H. Schoeffel, deputy superintendent of state police, returned last night from a trip abroad but refused to say whether he had learned anything about the Lindbergh case.

### BANDWAGON IS SLOWED DOWN JUST IN TIME

### MASSACHUSETTS GOES TO AL BY HUGE MAJORITY

### ROOSEVELT IS LEADING BY ABOUT 3,000 VOTES

NEW YORK, April 27 (AP)—The first decisive check in the march of Governor Franklin D. Roosevelt toward the democratic presidential nomination drew from former Governor Alfred E. Smith today the remark: "Well, I guess this will put a check under the bandwagon." At the time he spoke his slate of delegates-at-large from Massachusetts to the democratic national convention had defeated the Roosevelt slate overwhelmingly. Massachusetts has 36 votes in the convention. In Pennsylvania's primary, he was only about 3,000 votes behind Roosevelt, whose supporters had expected him to show enough strength so there could be no doubt of his getting 66 votes out of the state's 76 in the convention.

"This is going to make a difference," Smith observed, "to a lot of fellows who otherwise might have climbed right aboard the band wagon, thinking there was nothing else to do." Smith would make no definite prediction as to the effect of the Massachusetts and Pennsylvania primaries.

"It's too early yet," he said. "I haven't talked to anyone who could give me any indication." His friends, however, were predicting that he would have 200 votes on his side when the convention opens in Chicago. They were claiming Connecticut and Rhode Island for him and were expressing optimism about Vermont and California. "One thing I noticed," former Governor Smith said with a smile, (See SMITH, Page 2)

### Gas Royalty Men And Land Owners To Meet Tuesday

Gas land and royalty owners of the Pampa area will attend a meeting called in Amarillo for next Tuesday at 2 p. m. Prices, measurements, and contracts will be discussed at this important session. William R. Farmer suffered painful injuries about the head, face, limbs and body when he was struck by a car while walking on the Berger road pavement near W. It's packing company this morning. However, his injuries were not as serious as they first appeared, and he was removed to his home in a Stephenson ambulance.

identification. Dr. Brunow tentatively identified the "animals" as members of the Annelides family, the Lumbrius Terrestria—what ever that is. Since the health officers do not believe these worms could breed in the closed water mains, or live there for any long period of time, their source is all the more of a mystery. The annoyance is believed to be temporary, but Mrs. Martin much prefers such worms to remain in fishermen's back yards, and out of her hydrant. And there we leave the mystery until the state department answers with an authentic Latin name.

ing. The after-results of the war will eventually equal the initial cost to this country. . . . Foolish bankers and criminal bond grafters "sold" this country the cost of the war to other countries, so that altogether America has gone a long way toward financing the greatest money-mad conflict in all history. Industry flourished during the height of the conflict, but the inevitable price must be paid and now industry is stifled by the same excesses which made it drunk with big orders more than a decade ago. And yet we wonder what is the matter with this country! The inevitable and rightful cost of war should be a tremendous influence for peace.

and essentially dishonest device would to my mind be worse than an act of financial bankruptcy. It would constitute moral bankruptcy.

Though he thus dealt chiefly with the Patman bill for an issue of treasury notes to cash bonds, Mills attacked arguments of those who advocate borrowing the necessary funds. Then, reminding the committee of his own veteran status and service in organizing the American Legion, Mills said:

"Nothing will persuade me that the men who 15 years ago stood ready to give their lives to their country in the crisis of war, are today, in a crisis which in so far as human misery and suffering in this country are concerned, far exceeds anything experienced during the war years, really seeking this huge grant of \$2,400,000,000, the effect of which will be to impair public and private credit, to destroy confidence and to prolong the depression.

"The passage of his bill would, in my judgment, deal such a severe blow to public confidence as to make the consequences almost incalculable."

**Tax Surgery**

The paring knives of economy have fallen heavily on municipalities. Hundreds of millions will be pared this year from budgets. . . . The Amarillo Taxpayers League has jumped on the school system hard. Some of its proposed slashes sounded logical, some otherwise. The League would do well to avoid too many administrative suggestions. After all, education is a profession and a science, and adjustments can best be made by men trained in that business. One suggestion was to eliminate the R. O. T. C. That will bring a howl from the preparedness camp. Where else, shouts the war department officials, can the country get its future officers? The reader will see the inevitable debate on what to pare.

**Count the Cost**

This country will know how to count the cost of the next war. First, there is the initial cost. And then there is the upkeep of the survivors of the conflict, their rehabilitation, vocational education, veterans' administration, and pension-

"is that the delegate at the bottom of the list on my side of the fence up in Massachusetts got more votes than the fellow with the highest number of votes on the other side."

BOSTON, April 27. (AP)—Massachusetts' 36 votes in the 1932 democratic convention today were pledged to Alfred E. Smith.

Repeating his success of 1928, when as the democratic standard bearer he carried Massachusetts, Smith swept through in yesterday's presidential primary to a decisive victory over Governor Franklin D. Roosevelt.

A Smith-pledged slate of delegates at large, headed by a trio consisting of Gov. Joseph B. Ely and United States Senators David I. Walsh and Marcus A. Coolidge, defeated the Roosevelt slate led by Mayor James M. Curley by a vote of nearly three to one.

The average vote polled by the Smith delegates at large was 141,086 and the average for the Roosevelt at large delegates 48,345.

PHILADELPHIA, April 27. (AP)—With more than one-third of the count compiled, Governor Franklin D. Roosevelt led former Governor Alfred E. Smith by only a little more than 2,000 votes in Pennsylvania's presidential preference primary today.

The vote from 3,268 of the state's 8,181 precincts gave Roosevelt 49,760 and Smith 47,647.

The preferential expression is not binding on the delegates who will cast Pennsylvania's 76 votes at the democratic national convention. The Roosevelt forces have claimed 68 votes.

SALLISAW, Okla., April 27. (AP)—Sequoyah county officers expressed belief today that Robert H. Wall, 21, whose bullet-pierced body was found at the foot of Wildhorse mountain, had been murdered and thrown from an automobile.

The youth, son of W. E. Wall, former county attorney, was seen Monday night, officers said, with Ted Patten of Sallisaw in Wall's automobile. Patten is being sought for questioning. No trace has been found of him or the car.

Young Wall told his mother Monday night he was going to a party and would not return home until late. His body, a bullet wound through the heart, was found yesterday.

## "HOOTIE" HARRAH, WHITE DEER BARBER, SAYS HE IS FIRST WHITE CHILD BORN IN GRAY

The first white child born in Gray county was a visitor at the NEWS office yesterday afternoon, having just returned to the Panhandle after spending the winter in Mena, Ark. O. W. "Hootie" Harrah of White Deer was born in a little house on Gantonment creek 10 miles east of LeFors April 11, 1883. He is a son of Mr. and Mrs. Wilson Harrah.

"Hootie," as he is known throughout the Panhandle, came to Pampa to tell Sheriff Lon L. Blansett that he would be here for the big Frontier Days celebration, May 26-28. He said he heard about the celebration "way back in Arkansas."

"Yes, sir, a fellow came into the little barber shop I operated every Saturday and told me about seeing cards up in Oklahoma, telling about the celebration so I trekked home to be in good shape for the big time," "Hootie" declared.

The White Deer man has lost more than 40 pounds. "Oh, yes, I ate plenty up in Arkansas, but I tramped the woods, hunted and fished all my spare time and they sure will take off weight," he said.

"Hootie" is known as a baseball enthusiast. While in Arkansas he cut some ash and hickory wood and had a bunch of baseball bats made. Some of them will be available at the Pampa Hardware store next week.

## Leadership of Nation Fails to Halt Depression

A failure of the political and financial leadership of the United States was given as the cause of the prolonged period of depression by Julian Barrett in a talk before the Rotary club today. He pointed out conditions in Europe during the past year as a major cause of the new low level of the price of commodities, stocks, etc.

Although making no predictions for the future he told of the rise in prices of several commodities and the bond market during the past year as evidence of a general stabilization.

### Henry Ford Has Industrial Plan

WASHINGTON, April 27 (AP)—After a surprise call at the White House, Henry Ford said here he had advocated to President Hoover a plan of combining farming and industry under which factory workers could save \$500 a year by raising part of their own food-stuff.

The automobile manufacturer, surrounded by newspapermen in the White House lobby, said he had been working for three months to smooth out details of such a plan. He added, however, he was not yet ready to announce its details in full.

Ford intimated the idea he had been experimenting with on his Dearborn farm, with Ford factory hands, was to have men working in the plants spend part of their time in small scale scientific farming.

He indicated his idea would involve large factories distributing their workers over farm lands, or providing land within reach, on which, during a comparatively small part of the year, they could raise much of the foodstuffs needed for their family tables.

### Fee System to Be Debated When Legislators Meet

AUSTIN, April 27 (AP)—Belief that something will be done at the next session of the legislature to erase the antiquated fee system of remunerating public officials from the statute books is gaining momentum in capitol and legislative circles.

The movement to abolish the fee system was given great impetus as the result of disclosures made during the trial of three sheriffs, and two former sheriffs, on charges involving the irregular collection of fees of office. Four were convicted of having made extortion charges against the state treasury. The fifth was convicted of theft of \$4,000.

Evidence brought out by the state in trial of those charged with extortion showed how the fee system left the way open for extortion charges to be made by officers who relied on fees for their compensation. In one of the cases it was shown that the same man was served three times on the same subpoena as a witness in one case.

Trial of the last case, that of former Sheriff H. H. Burns of Shelby county, cost the state approximately \$3,000 in grand jury witness fees, mileage and fees for witnesses at the trial and court costs. Burns was charged specifically with overcharging \$5 in summoning a witness.

He was sentenced to two years in the penitentiary.

While many criticized the expenditure of approximately \$3,000 in convicting a former official of the extortion of \$5 in fees of office, some Lyman, state auditor, and members of the senate committee investigating irregularities in the fee system believe the money was well spent, pointing out it will have a good moral effect and will make others more careful until the outworn fee system can be abolished and a better method substituted.

### THIS JUDGE IS STRICT

SAN ANTONIO, Apr. 27 (AP)—Only the young will receive suspended sentences from Federal Judge R. J. McMillan, the jurist has indicated.

Henry S. Eoggans, former city policeman, charged with a second liquor offense, sought a suspended sentence.

"I use suspended sentences to try to make young people straighten up," Judge McMillan declared. "In this case I will impose a \$200 fine and a jail sentence of 90 days."

### NEEDS HIS THUMB

AUSTIN, April 27 (AP)—The butcher might weigh his thumb in selling meat, but he has to do something to even things up.

Tests conducted by the state department of agriculture show that faulty scales more often favor the buyer than the seller, except where "fixed" to do the opposite.

### WILL RUSH MALT

SAN ANGELO, April 27 (AP)—A trainload of malt for beer making probably will come into West Texas to fill orders of wholesalers before the threatened tax goes into effect, local railway traffic men say. Likewise, heavy orders of matches, on which a tax is to be placed by the federal government, are to be received.

### WILL SURVEY POTASH

AUSTIN, April 27 (AP)—Engineers of the bureau of economic geology will start a survey soon to determine the extent of potash deposits in West Texas and gather additional data on the formations in which it is found.

The survey will center in the area from the Orient line of the Atchison, Topeka and Santa Fe on the south to the Canadian river on the north, a distance of more than 275 miles.

### BUY TERRACING MACHINE

DENTON, April 27 (AP)—Chamber of commerce directors have approved the agricultural committee's recommendation that a terracing machine be purchased for free use by farmers of the Denton territory. This is regarded as one of the most beneficial steps the chamber could take in behalf of farmers.

### HORSE THEFT CHARGED

ODESSA, April 27 (AP)—A charge of horse theft has appeared on the district court docket of Reeves county for the first time in many years. The charge was filed against Leonard Stroud, about 22, and it alleged that Stroud had pilfered two cartridge belts, pistols, blankets, food and a horse from Bob Lewis and struck out across the half country. Stroud had been working for Lewis, who owns a dairy.

### YES, SIAM ONE PASSENGER

These little sisters spoke up with one voice when Miss Peggy Burns, United Airlines hostess, attempted to collect a second fare following a trip between San Francisco and Los Angeles, Calif. The twins, Daisy and Violet Hilton, are of the Siamese variety. They took off from San Francisco with one ticket. Air line officials wired ahead, ordering collection of another fare. Now the California courts may be asked to decide the difference. The girls certainly pull together.

### Woman Revealed in Kreuger's Life

STOCKHOLM, April 27 (AP)—A tale of romance of 20 years standing has turned up in the tangled affairs of Invar Kreuger, Swedish match king, who committed suicide in Paris last month. It was disclosed he bequeathed about \$93,000 to Mrs. Ingeborg Eberth, Stockholm society woman.

Asked if she were "the woman" in Kreuger's life, Mrs. Eberth said: "If I answer that question it will be telegraphed all over the world. I will only say that he willed me the most."

The money probably will not be available for investigation showed no cash among Kreuger's assets, Mrs. Eberth said, however, he made a last promise to her which leads her to believe the money is deposited for her somewhere. It was a "fine, noble man," she said.

His death, she told a correspondent for the newspaper Politiken at Copenhagen, was still a mystery, with unanswered questions in every direction.

### BOUNTY ON HAWKS

GUYMON, Okla., April 27 (AP)—A pair of hawk's feet are worth 10 cents in Texas county. The sheriff's office has offered this bounty to encourage the killing of hawks for the protection of song and game birds. The office paid a bounty on more than 200 last year.

### TEACHERS ACCEPT CUTS

WELLINGTON, April 27 (AP)—Practically all of Wellington's school teachers have signed contracts for another year, and many of them accepted salary cuts of 20 per cent. The school board said \$5,000 would be saved in the reduction of salaries.

### John Garner For President! Rah, Rah, Rah!

BROWNSVILLE, April 27 (AP)—Two Port Isabel youths, dressed in typical Texas cowboy garb, have started on a journey to Chicago on a Texas democratic mile.

The two boys, Orville H. Schuetz and Gordon B. Fetter, are displaying on the sides of the route banners reading "Garner for President!" and "From Port Isabel, Texas to Chicago."

They will go up the river to Laredo, thence to Uvalde, Garner's home town, San Antonio, Dallas, Oklahoma City, Kansas City, St. Louis and Chicago.

Only one boy at a time will ride the mule, the other hitchhiking ahead to make arrangements for quartering the animal.

A message of greeting from Mayor George N. Scanlan of Port Isabel will be delivered to Mayor Anton Cermak of Chicago on their arrival.

The two boys plan to reach Chicago by June 27, the date of the convention.

### REMOVING WOOL NOW

SAN ANGELO, April 27 (AP)—Shearing machines are humming on sheep ranches over Southwest Texas today removing the estimated clip of \$3,000,000 pounds of 12-months and 20,000,000 pounds of eight-months wool from the backs of thousands of sheep. Few sales have been reported. Arrival of the wool season is attracting many buyers and transportation men into the Southwest and to San Angelo, the nation's largest inland wool market. Some of the buyers are reported to be making shearing advances.

### THIS CURIOUS WORLD

**IN FRANCE**  
A SOW WAS HANGED FOR MURDER, AND HER SIX PIGS WERE PROSECUTED AS ACCOMPLICES.

**ANDREW JACKSON**  
IN HIS DUEL WITH CHARLES DICKINSON, PURPOSELY WORE A COAT SEVERAL SIZES TOO LARGE, AND DICKINSON MISJUDGED THE LOCATION OF HIS HEART.

**DORY FISH**  
HAVE TELESCOPIC MOUTHS THAT HELP THEM CATCH THEIR PREY!

ANDREW JACKSON knew that his opponent was one of the best pistol shots in Tennessee, and that he, Jackson, would be hit first. Being an extremely thin man, he dressed himself in a large, loose-fitting frock coat, hoping that it would mislead Dickinson as he aimed for the heart. The plan worked out just that way. Dickinson's bullet went where he aimed, but Jackson's heart was not there. Only a rib was broken.

IN OLDEN TIMES it was quite the custom to punish animals for crimes. In France, a sow was convicted of murdering a child, and was hanged. Her six pigs were accused of being accomplices, but were acquitted because of lack of evidence.

NEXT: What has caused the greatest changes in the earth's surface?

### Police Radio on Border Is Ready

SAN ANTONIO, April 27 (AP)—Within a month, Fire and Police Commissioner Phil Wright says, one of the most powerful short wave length police broadcasting stations in the country will be trailing criminals of South Texas and the borderland.

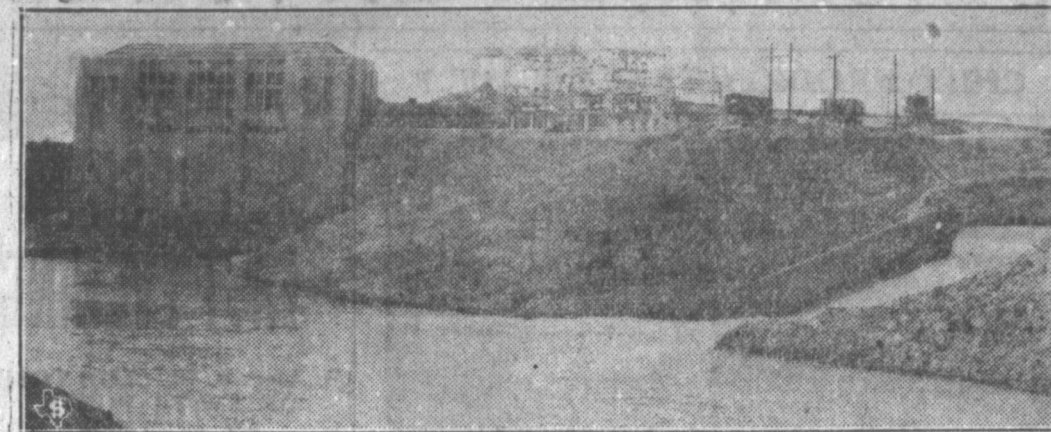

Installation of the \$10,000 radio broadcasting station is under way in an annex to central police headquarters. The first unit being installed is an 800-pound transmitter. Installation of receiving sets in police automobiles has not yet started.

Texas Rangers and other law enforcement bodies of South Texas, including county sheriffs, will keep in touch with the local station, Wright said. It will be the only such station near the Mexican border.

### SANTA FE GIVES LAND

MULESHOE, April 27 (AP)—The Santa Fe railway has given a five-acre tract of land in Muleshoe for a city park. Plans are under way for its beautification and equipment.

### Completed Maverick County Power-Irrigation Project

This is the \$1,500,000 power plant, a part of the \$7,000,000 power and irrigation project just completed in Maverick county, on the Rio Grande river. This plant will generate 13,000 horse power by use of Rio Grande water, and this water will in turn irrigate by gravity 60,000 acres of Maverick county land, very fertile, but hitherto arid.

Mrs. H. H. Brown of Kingsmill M. B. Williams of Miami transacted business here yesterday. W. H. Autry of Wheeler visited in the city yesterday.

### TAXABLE VALUES LESS

AUSTIN, April 27 (AP)—Texas' taxable values for 1931 were \$65,530,413 less than in 1930, the annual report of George H. Sheppard, state comptroller, shows. The value of property rendered for taxation on the 1931 rolls was \$4,341,682,209, compared with \$4,328,212,712 in 1930.

In spite of the great new values supposedly created by the opening of one of the world's greatest oil fields—the East Texas pool—there was no substantial gain in taxable values. On the other hand a loss was noted.

### ONIONS PROFITABLE

LAREDO, April 27 (AP)—Although the smallest crop grown in the Laredo district in many years, because of greatly decreased acreage, the Bermuda onion crop now being marketed is the most profitable since 1927 and if the present high prices above \$2.50 per crate are maintained what formerly was called "a million dollar onion crop" may materialize again this year.

## CLUB WOMEN LEARN TO MAKE RUFFLES--THEY'RE IN STYLE

### SCHOOL IS CONDUCTED AT COURT HOUSE ON TUESDAY

Ruffles are in style this season (at the right place), and 17 members of the women's clubs at Merten, McLean, Bell, and Kingsmill learned how to make the well-known dozen and one kinds at a sewing school conducted yesterday by Mrs. L. G. Runyon of the Singer Sewing Machine company at the county home demonstration rooms in the courthouse.

Mrs. Runyon said the ruffles made by the women were not to be confused with the old-fashioned ones. The 1932 ruffles are intricate affairs, she said. The club women are also learning how to use binder, hemmer and tucker attachments on the sewing machine.

Those attending the demonstration included Mrs. S. E. Jones of Grandview, county Home Demonstration Agent Ruby M. Adams; and the following from the Merten club: Mrs. G. N. Gulverhouse, Mrs. E. C. Brown, Mrs. T. D. Alford, Mrs. L. A. Lavery, Mrs. W. D. Chapman, Mrs. A. C. Enloe, Mrs. D. H. Found, Mrs. Collin Puckett, Mrs. J. H. Smith, Mrs. R. L. ## DRESS MAKING CONTEST BEGUN

Local seamstresses are working with flying needles now! With over twenty five local women entered in the dress making contest sponsored by the L. T. Hill store much local speculation is evident over the results of the contest.

That a new young bride was determined to show her mother-in-law what was what with a needle was evident by a downtown argument yesterday afternoon.

While N. M. Heathington, manager of the Hill store stated that only 11 days remain to enter the contest, several women are working on frocks and intend to enter them at the last minute.

**GRAINS WEAKEN**

CHICAGO, April 27. (P)—Grain prices sagged today after a show of firmness at the start. Traders took their cue chiefly from the action of securities and from apparent failure of frosts predicted in the southwest and west. Opening unchanged to 1/4 higher, wheat afterward receded to below yesterday's finish. Corn started at 1/4 off to 1/2 up and subsequently declined.

**COTTON IS EASIER**

NEW ORLEANS, April 27. (P)—The cotton market opened rather easier today. Liverpool cables were lower than due and first trades here showed losses of 3 points. July eased off a point further after the start to 6.13. Later in the first hour the market rallied owing to a firm opening of the stock market, July advancing to 6.20 and October to 6.42, up 6 to 7 points from the opening lows and 3 points above yesterday's close. Near the end of the first hour the market was steady and near the high.

## Mist Follows Plains Rainfall

A heavy mist hung over this section of the Panhandle at noon following light rain and a heavy shower which fell here this morning. Visibility was restricted to a few yards and driving was dangerous. The weather was cold, with strong wind blowing. The mercury dropped to 33 degrees last night.

The rainfall in Pampa was about four-tenths of an inch. Roads in the territory were slippery. No accidents have been reported here, but several cars slipped into ditches.

and wreckers were called out. Early birds who had been sporting straw hats went back to felts and caps today.

The temperature slipped to 34 degrees at 9 p. m. last night, and was rising slowly this morning. It was raining hard in Amarillo at 10 a. m.

AMARILLO, April 27. (P)—Light rain, mist and occasional heavy showers were reported over the Panhandle-Plains region today, following a sudden return of wintry weather last night. Precipitation of from an eighth to a half inch was fairly general, with rain continuing this morning.

# BUILDERS OF PAMPA

J. M. LYBRAND JR.  
Secretary

The progress and development of any city is the result of the energy and effort of the business men and firms who make it up. The businesses listed on this page are permanent institutions and have contributed much to the upbuilding of Pampa.

## Miller-Lybrand Co., Inc., Is Truly A "One-Stop" Service Station

In the last two weeks just about everybody in Gray county has met J. M. Lybrand and L. R. (Buck) Miller of the Miller-Lybrand company, Inc., Ford dealers here. The reason: the new V-8 Ford.

Since the first of the new models of Henry Ford's latest creation was shown here, the company has placed 40 orders for the new cars. Mr. Miller said that by May 10 his company should have plenty of new Fords.

Mr. Miller is president of the corporation and Mr. Lybrand is secretary. Henry Schafer owner of a large ranch and oil interests at Skellytown is vice president.

The Miller-Lybrand company was established here last June 15. The titular heads of the corporation came here from Canyon where they operated a Ford dealership three years.

The personnel of the company includes the following:

Salesmen—L. E. Nash, C. A. Rogers, James W. Wilson, V. D. Prewitt and Wade Thompson.

Shop—W. T. Gassaway, service manager; H. C. Hopkins, shop foreman; Art Hopkins, electrician; T. L. Brady and Olin I. Harris, mechanics.

Mrs. Lillian Jordan is bookkeeper and credit manager. She is a member of the Business and Professional Women's club. Indispensable are Bill and Sam, porters.

HENRY SCHAFER  
Vice-President

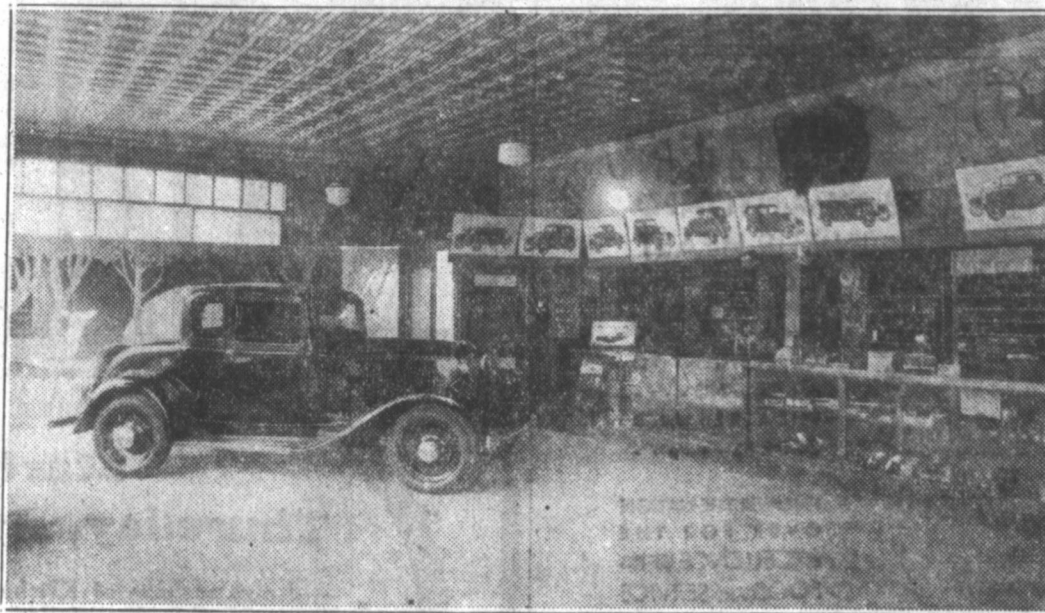

This page will appear in The News one day each week and will contain something new and interesting each time. A study of its stories will give a new knowledge of the reasons for the individual successes. Help these merchants in their program.

## Popularity of Ford Cars Increased Considerably Since New V-8 Introduced

The Pampa and Amarillo Ford dealerships are the biggest in the Oklahoma City branch district. The new Fords are now being assembled at Oklahoma City and will be shipped soon to this dealership. The Pampa dealership is in Class A.

The man at Miller-Lybrand's who knows more about the new Fords than anyone in Pampa is Henry Hopkins, the shop foreman. Mr. Hopkins returned to Pampa last Saturday after spending 5 days attending a V-8 school in Oklahoma City. He knows what everything about the New Ford is, why it is and where it is. He can tell you why the new Henry can turn an "L" corner at 60, why one can shift from second to high and high to second.

Since moving their families to Pampa, Messrs. Miller and Lybrand have concentrated their efforts in many improvements to their establishment at 315 West Foster street. The building has been completely over-hauled and painted inside and out, and every detail given to planning an efficient arrangement, whereby every customer is met at the door by courteous employes, in clean uniform. Promptness and thoroughness is their motto, and their shop is really a revelation in cleanliness and efficiency. The customer must be given every consideration. They have also brought to Pampa the easy facilities of the Universal Credit Company, a time-purchase plan fathered by Henry Ford, which bespeaks its fairness and good-will of the public.

# You Can't Marry

by Julia Cleft-Addams

**SYNOPSIS:** Caught — Jenny Revell thinks, when she sees Garth Aveney approaching. She doesn't want to be discovered, because she is going to a wedding that must be kept secret. Her cousin George is marrying Eddie Townsend and if this is made public, her employer, Gratton Matching, will fire her, since he will have only unmarried women working for him. When Aveney met the girl, the previous evening, Jenny realizes she spent most of the time with George. She was really trying to bribe George by order of Matching his uncle to see whether she might be the source of escaping information about business. But Jenny does not know this, and believes he is interested in George. She kisses him herself, and wishes he were her, as George is already in love. Aveney's success in proving George's innocence leaves him free to develop Jenny's acquaintance, which she seems eager to do.

## Chapter 9 RUNNING AWAY

There was no time to hide. Jenny bent down to the tabby cat and talked to it urgently. The brim of her hat—applegreen like her frock—should surely hide her face.

Her ears were filled with the sound of his footsteps, coming closer and closer; level with her, passing, checking. . . . Turning towards her. . . .

She straightened and looked up at him. He really was laughing at her

. . . Well, he was disappointed, naturally. George, however good-natured she had been, must have turned him down without a gleam of compromise. Jenny lifted her troubled gaze to his and tried to comfort him by dragging this odd conversation round to George.

"It was a great pity," she said timidly, "that Mr. Matching sent for George last night. Quite often for weeks and weeks he doesn't need her on an evening; it was too bad that it happened to break up the party."

"I don't think the party mattered a bit. I had to have half an hour with Miss Revell, somewhere, somehow, and I got a far better chance at it in the car than I should have at that infernal Crescendo place. . . . I wonder—I suppose she told you about our argument?"

"She said she would one day. As a matter of fact I couldn't help over-hearing bits of—the end of it. I was in the apartment, you see."

"I see." He didn't appear embarrassed. He took off his hat, ran a hand over his hair, and sat bare-headed. "Oh, well, you know all about everything, then. . . . She's pretty fine, your cousin. Isn't she?"

"Nobody" except me," returned Jenny proudly, "really knows how fine she is."

"You're fond of her?" He spoke

There was no time to hide. Jenny bent down.

now. At least, he seemed to be, though not with his lips or his eyes. "Good morning, Jenny Revell."

She was helplessly silent. He sat down beside her and she noticed that there was a good deal of color in his face. She feared it was there because her manner was offending him; and, for the moment, George was forgotten.

"I didn't think you would recognize me," she said childishly.

"Didn't you want me to? Was that why you were hiding behind that big hat? As a matter of fact," he went on, "I recognized your hands. . . . Does that surprise you?"

She was again tongue-tied. She looked down at her hands as though they could help her. George had once remarked that they were very beautiful, but that could hardly be the reason for—yet she wore no rings, nothing to distinguish them.

"Why," said Garth Aveney, one hand on his hip, one elbow crooked over the back of the seat, "do you always run away from my very simple questions?"

"They're not simple," returned Jenny from the depths of her perplexities. "I mean they may be easy for you to ask; but they're horribly hard to answer."

"Perhaps they are," he agreed unexpectedly. He, too, dangled a hand for the tabby cat to sidle against.

"Let's exchange what is known as small talk instead. You remark that you wonder what I'm doing in this part of the world. Then I make the same kind of noise at you. The only thing really worth talking about is, of course, the stupendous coincidence of our meeting just here, just now. But—"

Hastily, Jenny said— "I'm filling in time till twelve o'clock. Then I have to meet George."

"And I," said Aveney politely, "am on my way from taking a pilot's report on his trip—to the office. If you honestly don't want to talk about the strangeness of our meeting—you and I in this quiet little pool of a place—we shall now have to think of some more small talk. Fortunately for me, it's your turn."

Involutionarily, she looked at him. There was in his last words no laughter-echo. His voice sounded abruptly tired; hurt. Disappointed.

almost absently, his eyes on Jenny's hands, curled round her knee. . . . "She saved me from—I don't really know what I should have done if George hadn't saved me. You see—" She stopped, searching for words that should do justice to George.

"No, don't stop. Tell me."

"Well, I'm afraid I shall have to begin with my own history and it's rather a dull one."

"Tell me, Jenny Revell."

"My grandfather was a rather strange old man. He was an eccentric and a crank. Kind, in a way—at least, he was often kind to me. He had two children, my father and George's mother. My father was an artist, my mother was a dancer. They were darlings but they never succeeded at anything, either of them. They died when I was twelve and I went to live with grandfather, in the country. He told me that George's parents had practically kept mine for years at a time."

"Old brute!"

"He used to put things rather brutally sometimes but I think in this case he wanted an excuse to quarrel with George's father. Anyway, just before he died he told me he was leaving all he possessed to charity and that as George's parents seemed to have so much money to throw about, no doubt they would look after me. And I'm sure they would have helped me, but when grandfather's lawyers made enquiries, they found that they were both dead and George was quite 'on her own'. So, of course, I couldn't bother her. . . . What did you say?"

"Nothing very much. . . . Tell me what you did instead of bothering George."

"I got a job as governess and lost it. The children were dears but their parents were difficult. The father was—I hated him. . . . Oh, I can't give you a list of all the jobs I took and lost, it would bore you! I'm incompetent, really, and quite untrained. Anyway, I'd got to the point of planning—I'd got to the very end of everything. And then George found me."

Instead of watching a quiet wedding day, in the next installment, Jenny sees—blood.

## "THE MAN WHO PLAYED GOD" IN OPENING AT LA NORA HAS ALREADY WON HUGE ACCLAIM

George Arliss, first gentleman of the screen, brings to the LaNora theater today a portrayal of genius which evidences in every way the genius possessed by the star. "The Man Who Played God" is the latest Arliss starring vehicle for Warner Bros. and achieves the virtually impossible by surpassing the surpassingly fine films this eminent actor has made for the talking screen. In this picture Mr. Arliss shows what the talking picture can be, when intelligently and humanly handled in casting, direction, story and settings.

There is no doubt that "The Man Who Played God" will be one of the outstanding memories of the 1932 picture season. In it Arliss is Maestro gomery Royable, celebrated maestro of melody. He has the world at his feet, is an international toast, and still remains a human being, untouched by the adulation and admiration of thousands who pursue him for his autograph and storm his dressing room after his concerts. He is to his role the consummate artist, which has established him as one of the cinema greats, his interpretation of the suddenly deafening portrayal he has ever given.

The story of "The Man Who Played God" concerns itself with a great musician whose humanity and kindness is turned to bitterness against the world as a result of the deafness which suddenly afflicts him after a shock. In time and through the good offices of his faithful servant, portrayed by Ivan Simpson, he is brought back to his former state of humanness. He learns lip-reading and in the end returns to the music which he has forsaken.

There is an unusual treatment of the love interest in "The Man Who Played God." The woman love the Maestro, one a young girl outspoken in her love for him, the other a widow who remains silent because she believes him to be in love with the young girl. The elderly musician eventually learns that the young girl was infatuated with him and later has fallen in love with a youth her own age. The love he felt for the widow before she married another returns with this realization.

Miss Fern Duncanson of Mobeotie visited and attended to personal affairs here Tuesday.

## BIG STOCK OF HOUSE DRESSES PUT ON SALE

Levine Bros. have purchased the entire stock of house frocks, pajamas, and aprons from the receiver of the Peerless Garment company according to Murray Freundlich, manager of the Pampa store.

## Heflin Cheered by Big Gallery

WASHINGTON, April 27. (AP)—Bounced silence once again, J. Thomas Heflin of Alabama watched and heard the senate proceed today on the contest to unseat his successor, a fight which brought him yesterday the priceless privilege of five hours of oratory in that exclusive forum.

Master of impassioned phrases in the old tradition of public speaking, the former senator employed every talent he possessed in the desperate battle against political eclipse and was rewarded with such a burst of gallery applause as he brought his plea to a smashing end that the senate peremptorily ousted all spectators.

Heflin cannot win back his seat unless he succeeds in a new election in his home state, for should the senate hold with him that the 1930 contest in which John H. Bankhead defeated him was marked by widespread fraud and irregularity, it could only declare the seat vacant, compelling Alabama to elect two senators this fall, as Hugo Black's term ends in March.

The Rev. A. F. Johnson, pastor of the First Baptist church, Borger, visited and transacted business here Tuesday.

## Another Jury Is Unable to Agree

Another of the many hung juries that have featured this term of 31st district court was dismissed by Judge W. E. Ewing late yesterday in the trial of George Johnson of McLean who was tried yesterday and the day before on a charge of sale of intoxicating liquor.

The jury deliberated the case from noon until evening. The twelve men reported they could not agree on a verdict. Johnson was charged with selling whiskey to two McLean girls, who testified in the trial.

An unusual number of hung juries, especially civil cases, have been dismissed without agreeing on a verdict during this court term.

Wilson, in federal court, in the bank's \$16,000 bond recovery suit against the United States Fidelity & Guaranty company.

"You're Right"

They're Milder and they Taste Better too"

THERE'S SOMETHING DIFFERENT about the flavor of CHESTERFIELDS — something about the blending and cross-blending of fine tobaccos—that gets to you, every time.

THERE'S SOMETHING DIFFERENT about their mildness, too. It is the mildness that comes from the ripest, sweetest, mellowest Turkish and Domestic tobaccos. There is no bitterness in them . . . no harshness.

THERE'S SOMETHING DIFFERENT about the taste. It is that good, pleasing taste that comes from the right kind of tobacco, cured in the right way—cured for two years or more. It means that to make CHESTERFIELD Cigarettes, millions of dollars are tied up in tobacco leaf—but it's worth it.

THERE'S SOMETHING DIFFERENT about CHESTERFIELDS—THEY'RE MILD AND YET THEY SATISFY!

## Hoover Vetoes Pension Hike

WASHINGTON, April 27 (AP)—President Hoover today vetoed a bill granting an increase in pensions to soldiers and sailors and in some cases granting new pensions.

Mr. Hoover said the measure contained 367 items establishing "special pensions and increased allowances to persons who have not been able to comply with the general laws."

He added that it also contained some meritorious cases but that he vetoed the bill because of a number of undeserving ones.
