Pampa Lions will render a service for their fellow clubmen at McLean April 30, when they will stage their minstrel under the auspices of the McLean club.

Bachelors, Here Is Real Grit for You!

CHICAGO, April 21 (AP)—Young George Denby—there's a real man of determination for you.

Wonder what Alfalfa Bill will bluster about when, after losing his governorship, he has no National Guardsmen to back him up?

Missing boys will not cause much anxiety now—the old swimmin' hole is the best place to look for them. That is, if your community is fortunate enough to have such a hole.

Not Law-Less

Europeans call America the most lawless nation, referring to our disrespect for and violation of our statutes. We certainly are not lawless, having more than 50,000 federal laws and innumerable local, county, state, and school district regulations. Respect for law must, whether you like it or not, depend much upon what the people think of the laws, and the multiplicity thereof.

Good Laws Broken

That a law is rather widely violated, however, is not proof that it ought to be repealed. We have laws against murder, rape, theft, and narcotic peddling, and these are being constantly disregarded. But who would wish to repeal one of these laws? There are many very good laws, but the trouble arises with over-regulation and passing of laws which can be disregarded without arousing a storm of community indignation.

Money Behind Al

Al Smith, lining up with big business, is attracting much monetary support but not very many votes. Big business, looking for foreign markets, would like to free other countries from war debts to open the way for sales of machinery, foodstuffs, and armaments. The debts stand in the way of world recovery, hence Smith voices the opinion of big business in his suggestion of a long moratorium. It is obvious, of course, that any long delay is tantamount to cancellation. England, balancing her budget, omits any provision for debt payments to the United States. We will not send battle ships with our bill-collectors. Our attitude, however, will be a powerful influence in international finance and politics.

Dependency

This column has often "panned" big business. The barons of finance have had it coming. It is time to recognize, however, that business can be "milked" dry of profits by taxation until factories close and men are made jobless. Millions of men and women depend upon big business for their incomes. To them, therefore, the welfare of big business is their own. There are scores of stocks which potentially are worth billions. But who wants a stock if no income is to be expected? The employe must profit and obtain employment upon the basis of the prosperity of his employer. Too

INDEPENDENTS HEAR PARTEN LAST EVENING

MARKET DEMAND CONSERVATION PLAN IS OPOSED

FRANKLIN COMMENDED

COMPETITION IS VITAL TO ALL SMALL OPERATORS

Federal control of the oil industry is inimical to interests of the small operators and is a menace which can no longer be ignored.

There are some principles which are more precious than current crude oil prices—we must look where we are going.

Maintenance of competition in the oil industry must be guaranteed because in no other way can small operators be assured of an opportunity to exist and in no other manner can the public secure the fairest prices for refined products.

Utilization of oil properties is a direct menace to the anti-trust laws of Texas and must be combated with that fact in mind.

We are opposed to any conservation law based upon the market demand theory, which carried to its logical conclusion would work to the detriment of small operators and to the people of Texas.

The above paragraphs are some of the high points in addresses by officials of the Independent Petroleum association of Texas to local oil operators, land and royalty owners, and other citizens last night at the city auditorium. Mel B. Davis, local man who is prominent in the association, presided.

The speakers were J. R. Parten, youthful president of the association and Claude C. Wild, dynamic executive vice-president of the organization. At the close of the meeting these present adopted a resolution of commendation for Wirt Franklin, president of the national organization, for his work in behalf of an oil tariff.

Tells of Legislation

In the opening address, Mr. Wild sketched the successful efforts of his organization in securing remedial oil legislation. He pointed out the ratable taking and common purchaser statutes, and the one relating to gas which is being fought in federal court at this time, with the result in doubt. The state's anti-trust laws are being attacked as unconstitutional. He recalled the campaign to control the pipeline rates charged by integrated oil companies, and pointed out how the rates were lowered after passage of the law.

Both Wild and Parten said they had no personal animosity toward

I SAW--

Some Oklahomans, Missourians and Arkansawyers laughing at this joke told by R. C. Wilson this morning. "My father used to say to me, 'Son, never ask a man where he's from—' if he's from Texas, he'll tell you or let you know in some way."

I. A. Freeman and Julian Barrett being congratulated by many people upon their performances in "Adam and Eva". Mr. Freeman portrayed not only the role of the father in the play, but he was responsible for all the barnyard noises. In the third act while he was supposed to be in an Amazon jungle, he was going from one side of the stage to another clucking, quacking, mooing, neighing, crowing.

J. R. Parten, above, president of the Independent Petroleum association of Texas, spoke to an audience of local people last night at the city auditorium.

OFFICIALS OF BANK BEATEN BY 2 ROBBERS

Stonewall, Okla., Is Scene of Raid Today

STONEWALL, Okla., April 21 (AP)—Two officials of the First State bank here were severely beaten and thrown from an automobile by two men who robbed the bank today of between \$500 and \$600 and escaped.

The middle-aged robbers, driving a green sedan, were armed with a machine gun and pistols. They entered the bank shortly before noon, unmasked, and after scooping up the money forced Furman Gibson, cashier, and Ed Salee, assistant cashier, to walk out of the bank with them.

The officials were forced into the sedan. The car was driven about three-fourths of a mile west of Stonewall, where Gibson and Salee were cuffed about and thrown from the automobile. The car sped on toward Ada, 13 miles away, while the bank officers walked back to town.

DAWES PLEA STRONG BLOW THIS MORNING

BONUS PAYMENT HIT AS DANGEROUS INFLATION

DESCRIBES HUGE LOANS

HE TERMS WALL STREET JUST "PEANUT STAND"

WASHINGTON, April 21 (AP)—In characteristically forceful language, Charles G. Dawes condemned demagoguery today before the house ways and means committee to present a powerful plea against full payment of the bonus.

He called Wall Street a "peanut stand" and said too much stress was laid upon its activities while the mass of the people were becoming more optimistic.

Withdrawals from banks have ceased, Dawes said in outlining the operations of the reconstruction corporation which he heads.

The head of the reconstruction corporation related that his organization had loaned \$343,248,000 to 1,520 banks up to April 1 and said the general withdrawal of bank deposits in the United States had stopped.

He said 23 per cent of the loans was to banks in towns of less than 10,000 and 68 per cent in towns of less than 100,000.

"The important thing to the reconstruction finance corporation is the number of depositors affected," he said.

Mayor Kidnaped by Bandit Pair

CELINA, April 21 (AP)—Two men attempting to rob the First State bank here early today kidnaped the watchman and Mayor F. M. Francis and locked them in a box car but fled without entering the bank when the alarm was given.

A youth sleeping in the downtown district was aroused by the noise the men made and spread the alarm. The fire sirens were sounded and officers were called. The robbers then fled.

Mayor Francis and the watchman were released from the box car and a search was begun for the robbers.

Moisture of Last Night Beneficial

Another beneficial rain fell over this area last night. Although the downpour was brief, approximately one-quarter of an inch fell in Pampa and Rural communities east and north report a greater rainfall. A similar amount of moisture fell here Monday night to give wheat a new chance.

Last night's precipitation, added to what fell earlier in the week, saved the wheat crop in this area for the time being, at least.

King Winter left blizzards, snow, cold rain, high winds and badly interrupted shipping and air schedules in various sections of the west today, according to an Associated Press report from Los Angeles.

A. B. MARTIN OF PLAINVIEW TO SUCCEED JUDGE RANDOLPH

AUSTIN, April 21 (AP)—A. B. Martin of Plainview today notified Governor R. S. Sterling today to be associate justice of the seventh court of civil appeals at Amarillo. He will fill the unexpired term of the late Judge Hal C. Randolph, who died Tuesday.

Judge Martin formerly was a member of the commission of the court of criminal appeals, resigning several months ago to re-enter private practice of the law.

A NEW CO-ED SPORT

"Kindergarten sports" are the rage among co-eds at the University of Missouri this spring, with wading and leap-frog leading the list in popularity. FEW WELL KNOWN NAMES ARE FOUND IN SHORT SALES LIST OF NEW YORK STOCK EXCHANGE

M. C. Brush Is Shown Short on Many Shares

WASHINGTON, April 21 (AP)—The big short-interest market operators, as of the close of business April 8, were revealed today with the publication by the senate banking committee of a portion of the stock exchange records.

Some 350 accounts with short holdings in excess of 2,500 shares apiece were included, but there were few well-known names given.

The list will be used as the basis of the senate's "bear raids" investigation, which went ahead today with more testimony by Richard Whitney, president of the stock exchange.

Harry Content, prominent wall street broker and trader, was listed short 7,000 shares in General Motors today. The assault charge was filed personally before the committee with his records.

M. C. Brush, who is believed at the senate to be Matthew Brush, subpoenaed by the committee today, was listed as short 10,000 shares in a wide variety of stocks.

One of the biggest short accounts was in the name of T. M. Howell, recorded 39,290 short in General Motors.

Among the largest dealers was American Brush company with 46,400 shares short in 25 stocks.

HOBART GIVEN STATE OFFICE

T. D. Hobart, one of Pampa's best known citizens, has another state office.

He has been elected president of the Texas Society of the Sons of the American Revolution. The annual meeting was held in Corsicana.

Others officers are F. P. Downs of Temple, first vice-president; C. J. Matchwell of Dallas, second vice-president; and J. C. Jones of Dallas, secretary-treasurer.

Mr. Hobart's son, Fred, accompanied him to Corsicana.

PARTY POWER TO MAKE RULE IS HELD VALID

STATUTES DISTINCTLY CONFER DISPUTED PRIVILEGE

OBLIGATION IMPLIED

SUPPORT FOR PARTY'S NOMINEES MUST BE PROMISED

AUSTIN, April 21 (AP)—The Texas supreme court held today that the state democratic executive committee acted within its rights in prescribing a party pledge for participants in the May 7 precinct presidential convention.

Thomas B. Greenwood, associate justice, who wrote the court's opinion, said that "with regard to the state committee's power to exact this pledge the statutes are by no means silent."

"The statutes do not deny the power but plainly recognize and confer the same," the opinion read.

The committee's power to require a pledge was contested on the ground that the committee possessed no authority over the conventions of its party not granted by Texas, and that the statutes of Texas do not grant but negative, the committee's power to exact such a pledge.

The pledge prescribed by the party managers is as follows: "I hereby pledge myself to support the nominees of the democratic party for president and vice-president of the United States, by voting for the democratic electors of the state of Texas."

Those who challenged the party's right to prescribe that fealty convention participants to vote for the party nominees even before they knew the identity of the nominees or the principles advocated by them.

The W. C. T. U. leaders had announced they would work for selection of delegates to the state presidential convention, to be held in Houston May 24, who would send a delegation to the Chicago national convention pledged only to vote for nominees who were opposed to

Thieves Force Window to Get Pairs of Shoes

The "island" display window at the entrance of Murfee's, Inc., store was opened last night and robbed of four pairs of shoes and two pairs of pants to a suit of men's clothes. Glass in the window was not broken. The door was "jimmied" open.

The burglary was the second made in the last year and a half at the same window. City police were investigating.

I HEARD--

Two Sayre, Okla., business men talking. One of them said: "Pampa sure is a live 'own. They go places and get acquainted. They certainly must have a live-wire chamber of commerce." The other man replied: "That's what it takes to draw business to a city—contact."

At least 199 men talking to or about Lon Blansett in Cheyenne, Wyo., and Erik, Okla., and every man spoke highly of Gray county's sheriff. He was besieged with handshakes and the Pampans who accompanied him were almost asore from shaking hands with his friends.

Sweetonic Looks Very Effective

PITTSBURGH, April 21 (AP)—It begins to look as though that day in Dallas, when something snapped in Steve Sweetonic's right arm, was a lucky day for the Pittsburgh Pirates.

At any rate, the "home boy" who was a dismal failure from the day he donned a Big uniform and whose release was predicted by all through the winter, looked like somebody else, yesterday as he held the St. Louis Cardinals to three hits.

Manager George Gibson, slapping the little curver on the back as he came out of the showers yesterday, told about the "stitch" that may have his time from the second division.

Steve's arm was "torn" last season. Doctors looked at it and shook their heads. Then came an operation. Still his muscles seemed bound and he complained of pain in his shoulder.

But one day a few weeks ago in Dallas, Steve, still trying, "broke down," shot a fast one across and something happened.

"It was like a stitch in the arm," he explained. "Something snapped. Then the pain went away. My muscle was back in place."

The doctors laughed and said nature had done the trick.

Free Clinic Will Be Held in July

Dr. H. W. Watkins, representing the Educational Chiropractic Clinics, was here yesterday arranging for a free clinic to be held in Pampa in July.

Dr. Watkins said that the clinics were not usually held in the smaller cities, but that Pampa appeared an exceptionally prosperous town that he was attracted to this city.

The clinic will be held through an arrangement with Dr. John V. McCallister.

Western League to Open Tonight

KANSAS CITY, April 21 (AP)—The Western league embarks its 33rd annual pennant chase tonight in the first all-nocturnal inaugural in the history of the nation's oldest minor baseball circuit.

Chickens looked for 21,000 persons to pass through the turnstiles to view the initial efforts of the eight clubs. Cloudy skies were forecast for St. Joseph, Tulsa and Oklahoma City, while showers were in prospect for Wichita.

Many Divorces Are Asked Here

Nineteen suits for divorce filed in district court here during April indicated that the matrimonial slogan is still "marry in Oklahoma and New Mexico and divorce in Texas." Only two marriage licenses have been issued since the first of the year by County Clerk Charlie Thut.

The favorite "marriage grounds" in this section is at Sayre, Okla. Before the present law requiring the prospective bride and groom to file marriage intentions three days before the license could be issued, was passed, few couples went out of the state to get married.

Petitions for divorce decrees were filed by the following: Thelma Bowers vs. Joe Bowers; Beatrice Thompson vs. George Thompson; Gustie Keller vs. Ernest Keller; Hattie O'Neal vs. E. J. O'Neal; E. S. ROBS TICKET OFFICE

MCKINNEY, April 21 (AP)—A burglar robbed the interurban ticket office here last night of \$25 while Melvin Smith, ticket agent, was meeting an interurban. The burglar gained entry to the office by climbing over the top of a cage. About \$30 in checks were left.

Men are urged to get in touch with Mr. Briggs at 364. Pampa merchants are urged to go to Merten.

Lindbergh Case Veiled by Secrecy

HOPEWELL, N. J., April 21 (AP)—The 51st day of the Lindbergh kidnaping mystery today, saw Colonel Charles A. Lindbergh, his emissaries and the police still working behind a screen of secrecy from which there came no indication that the return of Charles A. Lindbergh Jr. is any nearer.

Developments were scanty. Dr. John F. Condon, the "Jafale" who made the futile \$50,000 ransom payment, went for an automobile ride in the vicinity of Spuyten, New York, yesterday. The purpose of the drive was not disclosed.

KANSAS CITY, April 21 (AP)—The flight of woman in a red monoplane from the municipal airport here to Hopewell, N. J., was termed a "curiosity hop" by the Kansas City STAR.

Identifying the passenger as Mrs. Elizabeth Faubion, wife of a machinist, the STAR says she told Walter C. Taber, owner of the plane: "I just wanted to see the Lindbergh home."

Mrs. Massie Tells of Her Experience

HONOLULU, April 21 (AP)—Having been turned momentarily into a spectacle of wrath by the witness stand outburst of Mrs. Thalia Massie, the trial of four persons accused of lynching Joseph Kahahawai reached the beginning of its epilogue today.

The white spark of fury which flashed first from the witness and then in turn from judge and prosecutor yesterday not only signaled the end of Mrs. Massie's tear-drenched story but also marked the finish of defense testimony to clear her husband and three other persons of a second degree murder charge.

A paper, supposedly containing a written admission by Mrs. Massie of a rift between herself and her husband, provided the fuel for the mental conflagration.

Under cross examination, Mrs. Massie had admitted having taken a psychopathic examination at the university of Hawaii last summer, a few months before she was attacked by five men, of whom Kahahawai allegedly was one.

Public Prosecutor John C. Kelley handed Mrs. Massie a paper, presumably containing her answers in the examination. The prosecutor asked if it was in her handwriting.

"This is a confidential paper between a physician and his patient. Where did you get it?" Mrs. Massie demanded, stiffening in her seat and turning her blazing eyes on Kelley.

"I am asking questions, not answering them," said Kelley. "I refuse to say whether I wrote it!" Mrs. Massie stormed and tore the paper to bits. A wave of applause came from the audience.

Mills Hailed as Very Beneficial

AUSTIN, April 21. (AP)—Community owned and operated food and feed mills have been hailed by J. E. McDonald, Texas commissioner of agriculture, as a forward step in the "live at home" campaign.

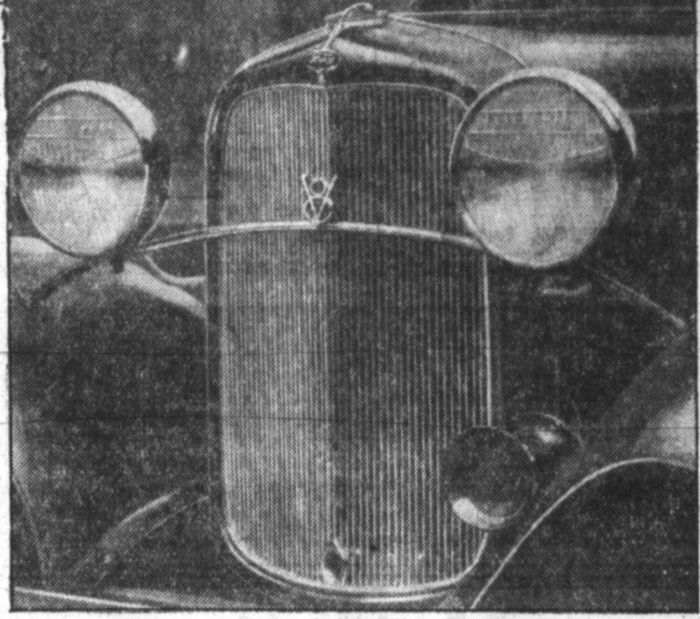

Several mills recently have been established in various parts of the state and Charles E. Baughman, warehouse division inspector, reported a rapid increase in community milling, both in preparation of food for human consumption as well as for animals.

Baughman cited one instance of the value of home milling in the plant at Gatesville, Coryell county. Six of every eight carloads of feeds sold are milled from home grown products while last year six out of eight carloads sold were either shipped from other parts of Texas or from other states.

"Through home consumption of home products, such as these community mills are making possible, farmers can, to a great extent, make themselves more independent and at the same time create a profitable market for their products," McDonald said. "It is in this manner that our surpluses can be controlled and reduced and markets for agricultural products bolstered."

FIVE ARE BURNED

WINDSOR, Ont., April 21 (AP)—Mrs. Clifford Robert Craig, and her four children were burned to death this morning in a fire which destroyed their farm home near here.

Permit for Use of Gas Withheld

AUSTIN, April 21.—Chairman C. V. Terrell of the railroad commission announced action on the application of Hagy, Harrington and Marsh of Amarillo to strip natural gas from the West Panhandle field will be withheld pending federal court decision on the natural gas common purchaser law.

Mr. Terrell said: "This is a very difficult situation." The commission is greatly interested in the conservation of natural gas. Legislation authorizing the control of gas waste is quite recent and the various court attacks on both the law and the commissions rulings, have, until this time, prevented the adequate enforcement of conservation measures. The courts have now sustained authority of the commission to such an extent that it is in position to and has every intention of energetically controlling the matter.

"This application comes from the West Panhandle field. In this field, several large foreign utilities, with markets in northern and eastern states, have the only outlet. They have refused to recognize the common purchaser act or to buy gas from adjacent independent properties. The effect of denying to local operators the right to process gas will be to shut the gas in for these pipelines who refuse to buy it from them, and whose operations will in time confiscate the gas under the independent properties.

"This is a Texas body and cannot look with indifference on discrimination against its citizens. It will go as far as it can to protect the interests of Texas people and to promote their welfare.

"The commission may waive the restriction on the use of the gas only when in their judgment the public interest will be served.

"We have asked the attorney general for an opinion as to whether this case will come under the definition of public welfare."

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.

Of The Pampa Daily News published daily at Pampa, Texas, for April 1, 1932.

Before me, a notary public in and for the State and county aforesaid, personally appeared R. S. Firemen Will be Filmed in Action

BEAUMONT, April 21. (AP)—Beaumont firemen soon will be able to sit in the station and watch themselves in actual firefighting action. Motion pictures are being made of firemen in action by C. G. McGraw, superintendent of police identification department.

The pictures are designed to be of benefit to firemen, in that they may study the methods used at blazes, criticize them and correct any mistakes made under the stress of action when the pictures were made. It is expected that a year's time will be needed to get a complete record of actual fire-fighting scenes to be compiled into a regular movie.

Lamont Thinks Russia Is Market Worth Assisting

MOSCOW, April 21 (AP)—American business men are cutting off their noses to spite their faces, in failing to grasp opportunities for extensive trade with Soviet Russia, according to Robert P. Lamont, Jr., son of the secretary of commerce, who has just completed a survey of the Soviet cattle raising industry.

He came to Russia about a month ago from his 15,000-acre ranch in Colorado at the invitation of the Soviet government. Yesterday he made a report to the Soviet officials on conditions as he saw them, with his recommendations for betterment.

Mrs. Fred Newcom of LeFors was admitted to Worley hospital for treatment yesterday.

BARGAINS? You said it!

The lowest prices you ever paid for Goodyear quality

HERE'S something to think about if you climb in your car every morning with the question: "Will my old tires get through the day?"

Here's something you ought to know if you're riding on treads so smooth that your brakes have no grip, and taking chances on what may happen if a weak, worn tire blows out.

You can put on stout new Goodyear Speedways today at the lowest prices you ever paid for a Goodyear Tire.

Read these prices and remember, they buy Goodyear quality—full oversize tires built with patented Goodyear Supertwist Cord—balanced tires for long, even wear—lifetime guaranteed tires, marked with the Goodyear house flag and Goodyear name.

You get such quality for so little money because more people ride on Goodyear Tires than on any other kind. This tremendous preference naturally means extra value. "Why buy any second-choice tire when first-choice costs no more?"

HEROES OF THE TITANIC HUMAN BEINGS seem unable to let anniversaries go uncelebrated. So, the other day, brief ceremonies were held on both sides of the Atlantic, and short articles were printed in the newspapers, commemorating the fact that 20 years ago the liner Titanic foundered in mid-ocean, carrying some 1500 people to the bottom.

It is odd, the way time can dull the edges of a tragedy. Of that disaster there is left, today, none of the brief, none of the horror; only a bright realization of the depths of heroism that are to be found in the average human heart.

For that is the chief thing one thinks of, in re-reading the accounts of the Titanic's sinking. The people who awoke out of peaceful sleep to learn that they must die in the darkness of the empty Atlantic went to their doom, almost without exception, with gallantry and quiet fortitude.

And that, after all, is the great test—unexpectedness, suddenness. An unforeseen crisis brings out, unflinchingly, what is in a man. He has no time to get himself ready, no time to throttle fear and lock it safely in a dungeon. Like Conrad's Lord Jim, if he has cowardice in his heart it will come out, in spite of anything he can do.

Heroes are not made in a twinkling. They develop through the long years when no heroism is needed; they develop, indeed, without themselves knowing it. Day by day, night by night, the things they are, the things they say and think and dream, build up a reservoir of bravery which can be drawn upon when an emergency comes.

So it was with the men who sank with the Titanic. From the bunks in the steerage and the crew's quarters, from the luxurious stateroom of the first-class group, they came on deck to discover that a highly unpleasant death was half an hour away. And there was no panic. Women and children were helped into the few lifeboats, and those who were to die waved cheerful goodbyes. The cross-section of humanity represented on the Titanic testified magnificently to the bravery of the race.

buying-power. . . . A bumper "money crop" should, if possible, include more tangible value than printed pieces of paper. It would be unwise to go too far in deflating the dollar. The silver states have a good argument. The rub comes in the "how".

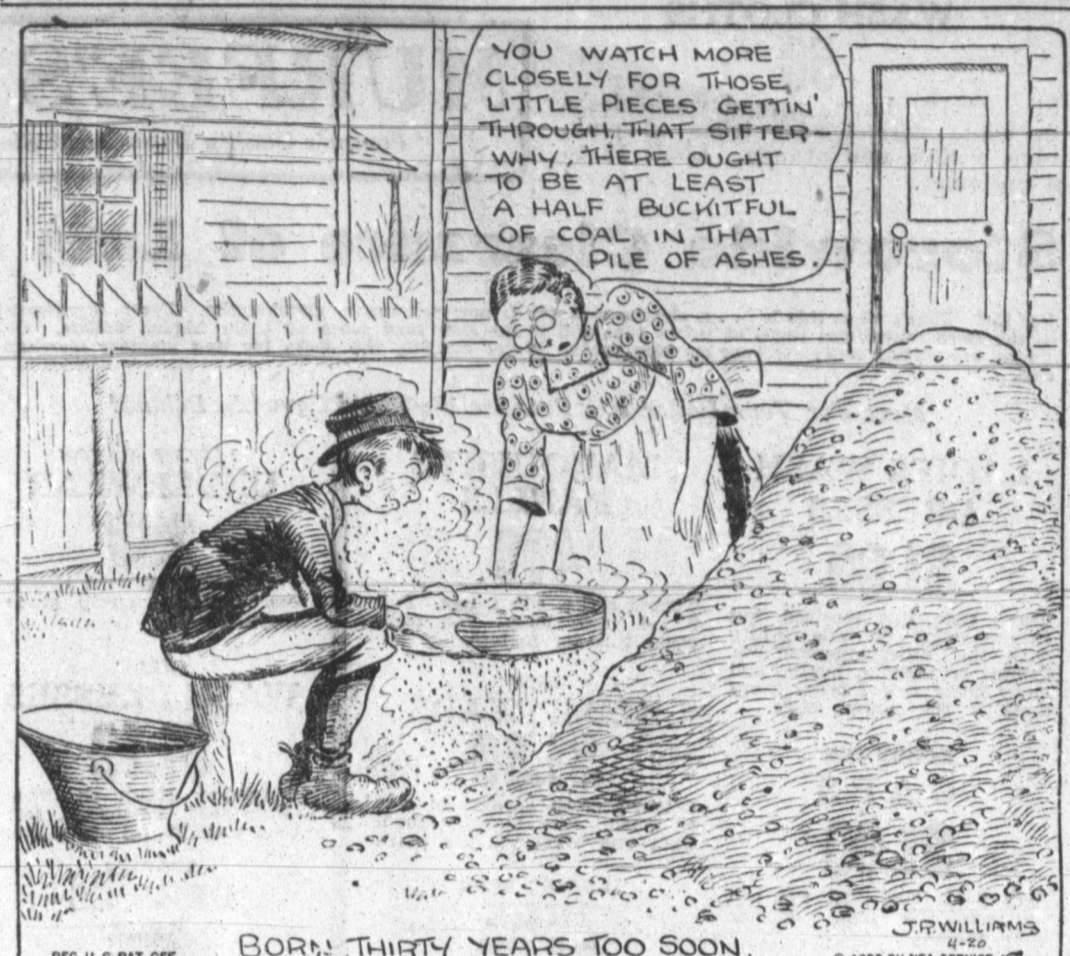

Watch Out! Science, its feet on the ground of known fundamentals, is applying principles to new uses constantly. You probably know that light is made up of many blended colors. There also are invisible rays, of which the infra-red are well known to expert photographers and other scientists. An engineer has rigged up a device which casts invisible rays over a room containing valuables. Hooked up with a photo-electric cell, this device turns on lights and sounds an alarm when these rays are interrupted by an intruder. More

PUBLIC FORUM

Editor, THE NEWS: NO DANGER IN CASH BONUS TO NATIONAL CREDIT: Charges that cash payment of the balance due World War veterans on their so-called bonus will unbalance the national budget and injure the credit of the nation are easily refuted.

Veterans as a whole resent the false propaganda and misrepresentations being conveyed to the general public in relation to this proposed measure. Those who oppose this measure persist in ignoring the plan that has been offered to finance the cost of this proposed legislation. Instead they pretend to be greatly worried over the assumption that the two billion dollars involved will have to be raised through increased taxes.

Evasion of Tax on Cigaretts Cited by State Officer

AUSTIN, April 21 (AP)—Increased evasion of the cigarette tax stamp law is causing the state comptroller's department serious concern. J. W. McReynolds, chief tax supervisor, said.

McReynolds reported a decrease in the sale of cigarette tax stamps by the state treasurer, attributing a large portion of the decline to the practice of reattaching the stamps to new packages after they had once been used. The practice rapidly is becoming a racket, McReynolds said, reporting that in one instance a tax inspector had found several hundred stamps in a cigar case that had been used once.
