President Gives Pocket Veto to Corporation Bill on Farm Loans

SCATTERED VETS STOP RESISTING

CLAIMS IT IS
DUPLICATE OF
OLD MEASURE

BOARD OF TRADE HAS
FILED APPEAL
ON CLOSING

FARMERS WILL TESTIFY

ARMY POST STORE AT
FORT SILL WILL
BE PROBED

WASHINGTON, July 29 (AP)—
President Hoover has given a
pocket veto to a senate bill in-
tended to broaden the base of
Reconstruction Finance corpora-
tion loans to farmers.

This was made known today at
the White House after the time
limit for signing the measure had
expired at midnight. In the ab-
sence of the chief executive's signa-
ture, the bill automatically died.

It was said in an official White
House quarter that Mr. Hoover felt
the measure had been passed in the
confusion of the last moments of
the recent session and that
everything the bill provided already
was available under the Reconstruc-
tion Finance corporation act.

The bill was intended to extend
to livestock owners, dairy farmers,
poultry producers and farmers rais-
ing crops not maturing until 1933,
loans under the \$200,000,000 given
the department of agriculture by
the Reconstruction corporation.

It was said that provisions for
such loans clearly were made under
the Reconstruction corporation act.
And that the vetoed bill would ap-
propriate the same fund to the de-

(See FARM BILL, Page 6)

Bank To Close
Early Saturdays
In Coming Fall

Beginning with August, 1932, the
First National bank of Pampa, will
close on each Saturday at 1 o'clock
in the afternoon. The bank has
been closing at 3 o'clock on Satur-
day afternoons.

Office hours as announced by
B. E. Finley, president, will be as
follows: Open at 9 o'clock in the
morning and close at 3 o'clock in
the afternoon on Mondays, Tues-
days, Wednesdays, Thursdays, and
Fridays. On Saturdays, the bank
will open at 9 o'clock and close at 1
o'clock in the afternoon.

The bank will be closed on all
legal holidays.

I HEARD--

Bill Fraser and M. D. Oden ar-
guing about who was going to eat
beans following the "bean and tur-
key" tournament at the Red Deer
course next week. Bill and M. D.
are opponents and both swing a
mean club.

That somebody asked Deputy
Sheriff Floyd Archer when he was
going on his vacation. Floyd is re-
ported to have gotten indignant and
informed his questioner that an
officer didn't know the meaning of
the word.

A few local citizens wondering
why the state doesn't put a bunch
of unemployed men to work clean-
ing the "goo" off the breaks in the
pavement between here and Kings-
mill.

the Weather

Oklahoma: Partly cloudy, scatter-
ed thunderstorms tonight and Sat-
urday; cooler tonight.

West Texas: Partly cloudy, prob-
ably thunder showers in west por-
tion tonight and Saturday.

LOS ANGELES.—Many of the
foreign athletes in Olympic village
don't know much English, but they
can all grin and say "O. K." Four
Argentinians said they knew a great
deal of American. When asked to
illustrate, they chorused: "O. K.
Hot dog. You bet."

Our Schools.

Today's topic: Pampa
schools.

Some figures: The state
apportionment has been cut
from \$17.50 to \$16 per pup-
il. There are 2856 en-
rolled scholars for next
year, meaning that the
district will obtain \$4,284
less in state aid than ex-
pected on the enrollment.
More than that, the enroll-
ment has dropped 561,
which means the receipt of
that many times \$16, or a
total of \$8,976. This makes
a grand total of \$13,260 less
to be received by the dis-
trict this year, figured on
last year's enrollment and
the current apportionment.
Had the enrollment and ap-
portionment been the same
as last year, the school dis-
trict would have been elig-
ible to receive \$59,697.50,
but instead it will be given
only \$45,696. . . . This means
that the board of equaliza-
tion must be kind to Pam-
pa schools if they are to be
enabled to operate the full
9 months. And of all taxes,
we think the school taxes
should be paid most
promptly and cheerfully.

Women in Politics.

Slowly, and a bit uncer-
tainly, the women of Texas
are interesting themselves in
politics. Their candidates
may lose, but if they study
the real issues and become
interested in them their vot-
ing will be more intelligent
than that of the average
voter. The traditional ten-
dency of the sex to ask ques-
tions will be fortunate.
Texas needs more searching
for facts and less stamping
opinions. And by facts we
do not mean the kind of
"facts, figures, and brass
tacks" hand-picked by
politicians and hurled from
soap boxes.

Farm Not Safe.

Before we endorse any
back-to-the farm movement,
the powers that he will have
to make the farm safe for
the poor man. That means
revising of the system of
taxation to eliminate exact-
ing of money in years when
no money is produced. In
other words, property hold-
ing is no longer proof of
ability to pay. The colonial
estate system is no more.
Until the farm is freed from
confiscatory taxation and
often unequal assessing, the
inexperienced farmer will
be utterly unable to exist
on it, no matter how hard
he works.

Alaska Mourns.

"Take my ashes back to
me."

(Continued on Page 2)

MRS. C. A. TIGNOR OF PAMPA
IS WINNER IN BIG CONTEST
—MEMBER OF PRISCILLA CLUB

Mrs. C. Tignor, a Gray county
woman and member of the Priscilla
club, won second place in the state
wardrobe contest which has just
closed in College Station, according
to a telegram received by The NEWS
this morning from Miss Ruby
Adams, Gray county home demon-
stration agent. As 57 counties com-
peted in the contest, the achieve-
ment was considered an outstanding
honor in home demonstration work.
Mrs. W. L. Barnes of Waco took
first place, and Mrs. Duncan of Lar-
mar county was third.
Mrs. Tignor's contest dress was of
pink frosted cotton ratine trimmed
in blue and white bands of the

"MA" RESTS FOR SECOND RACE

Mrs. Miriam "Ma" Ferguson looks a little tired and pensive as she
hears the news of her victory over Governor Ross Sterling in the
Lone Star state's primary election, probably because she must make
her campaign for the Democratic gubernatorial nomination all over
again. "Ma" beat the incumbent governor by some 98,000 votes, but
lacked a majority and so must oppose him in a run-off election.
The run-off winner is certain to be Texas' next governor because
the state is predominantly Democratic.

AUTOMOBILE PARTS THIEVES
ARE ACTIVE HERE—DRAINING
OF CRANK CASES IS REPORTED

Police In Drive To
Prevent Thefts
Downtown

The plague of Pampa residents
and the "worry-wart" to the
police department for several weeks
are thieves who not only steal oil,
and gas from automobiles but tires,
tubes, wheels and all removable
parts.

Many of the minor thefts are not
reported and many that are report-
ed are not recorded on the docket at
the police station and sheriff's
office. Every night from four to
ten automobiles are looted of every-
thing the thieves can get their
hands on.

The custom of taking gasoline in
an old crum, but only in the last
six weeks has draining of crank
cases been reported. One motorist,
unaware that oil was drained out
of his car, brought it smoking into
a garage one day this week with the
"insides" literally burned out.

Theft of carburetors, radiator
caps, tools, gas tank caps, lights,
and various other parts, have led
police to believe that the criminals
have a place nearby where they
sell their loot.

Officers no longer cruise only

(See POLICE, Page 2)

Local Veterans
To Back March
—Meet Tonight

Twenty-five world war veterans
who met at 115 West Foster avenue
this morning started a movement
for the support of the Bonus Expen-
ditary force in Washington.

Another meeting will be held at
the same place tonight at 8 o'clock.
Permanent officers will be elected
and committees appointed. All
veterans in sympathy with the
bonus march have been urged to
attend.

The Pampa veterans in Washing-
ton are Carl Price, Jim Logan,
"Red" Foretshel, and "Chief" Mar-
tin. Mrs. Price is with her hus-
band.

COURT RECORD.

Suits and legal proceedings filed
this week in district court here were
as follows: Exparte, Mollie Penberg
and Flo Goodhalter, removal of dis-
abilities; Mae Wright vs. Uncle
Wright, divorce.

BURGLARY REPORTED

A burglar broke into the home of
George Gill at 614 West Francis
last night and took \$5 in cash and
four travelers' checks of \$10 each.

BUSINESS UPTURN IN PAMPA
AND COMMUNITY IS INDICATED
IN INSTANCES GIVEN TO NEWS

DOLLAR SALES TOTALS
IN STORES ARE
LARGER

PRICES ARE ADVANCING

TIME TO PURCHASE IS
OBVIOUSLY AT
HAND

By OLIN E. HINKLE

Business conditions are improv-
ing in the Pampa territory!

Slowly, a bit uncertainly, but
nevertheless steadily, the bright
spots are shining more cheerfully
on the business horizon.

A number of local stores have re-
ported to The NEWS that their busi-
ness has already gone well be-
yond the figures for last month and
for a year ago. This increase was in
dollars. The unit sales measure of
business has long been above the
average. Coupled with this fact is
the upturn of prices generally, with
the possibility of replacing until
sales figures with dollar gains. Def-
lation inevitably meant poor busi-
ness regardless of sales volume. Any
upturn is heartening to harassed
business men.

Many Pampa residents own util-
ity, oil, rail, telephone and other
stocks. Recent improvement in the
stock market has added substan-
tially to the value of their holdings.
Stock men are cheered by market
increases which have added hun-
dreds of thousands of dollars to the
value of their livestock. Their mar-
ket outlook is said to be especially
encouraging, with ranges depleted
in the face of rising demand. Grain
prices, too, look brighter, while
much of the year's crop remains in
storage.

(See BUSINESS, Page 2)

Judge Duncan Is
Well Ahead Of
All Opponents

Complete returns from Collings-
worth county in the race for state
representative show that Judge Ivy
E. Duncan of Pampa led all his op-
ponents by a large margin.

Judge Duncan received 2,842 votes
in the district, with John Puryear
of Collingsworth county second with
2,560. The third high man was H.
B. Hill of Shamrock, an attorney.
Richard Wischkaemper of Collings-
worth county was next with 2,190
votes and D. O. Beene of Mobeetie
led with 798.

Failure of Lipscomb county to re-
port any more votes in the race for
district attorney led Lewis M.
Goodrich of Shamrock leading Dis-
trict Attorney Raymond Allred by
24 votes.

ACTION AS B. E. F. "STORMED" CAPITOL

A threat of serious rioting hung over Washington's Capitol Hill when this picture was taken, showing
stiffened police lines holding back surging thousands of bonus marchers who staged a last, despairing
protest against Congress adjourning without enacting bonus legislation. Yesterday radicals touched off
the spark of trouble, which ended in bloodshed and calling out of regular troops.

"PEACHY"

Only 15 but five times a queen is
the regal record of this pretty Ar-
kansas miss, Virginia Lee Elder of
Jenabero, whose latest reign was
as "Queen Alberta" at the annual
Crowley's Ridge, Ark., Peach Festi-
val. Her dark hair and gray eyes
have stolen crowns in five beauty
contests.

GOVERNOR TO
OPEN SECOND
PRIMARY TOUR

Is Rotary Guest On
Way To Wichita
Falls

FORT WORTH July 29 (AP)—
Gov. Ross Sterling's run-off cam-
paign which he will open tonight
in Wichita Falls, will be "by and
for the people," he said here today.

"It is up to the people, whether
they want to go forward or back-
ward. And upon that will rest
the outcome of this race."

Governor Sterling conferred to-
day with campaign advisers at
attended the luncheon of the Fort
Worth Rotary club and left shortly
after noon for Wichita Falls to
carry his quest of votes into the
home territory of his nearest de-
clared rival, Tom F. Hunter, whose
supporters he seeks to win to his
own standard in the second pri-
mary. Ernest Alexander, campaign
manager for Sterling, also was a
guest at the Rotary luncheon.

Children Warned
To Stay Out Of
Long Drain Pipe

Children of South Pampa are
taking their lives in their hands by
crawling into the drain pipe from
the underpass on Barnes street and
City Manager C. L. Stine would
like parents to caution their chil-
dren to remain away from the lo-
cation until it can be protected.

The big pipe runs 1,200 feet from
the underpass to a draw east of the
street.
It is intensely hot inside tubing and
there is danger of suffocation, Mr.
Stine says.

(See VETERANS, Page 2)

I SAW--

Jim Collins fingering a "shiner"
under his right eye, which he got
when a fly ball struck him during
a handball game at the Methodist
picnic last night.

J. N. and Ivy Duncan, father and
son, in conversation. . . . Bert Curry
rolling a cigaret. . . . Parks Brumley
try to throw a banana peeling un-
der an acquaintance's foot. . . . John
Henry back on the streets after a
recent operation. . . . A repeal the
18th amendment plate on the front
of a car being driven by a woman.
. . . Ola Gregory smile to the point
of laughter after Shet Stewart
said you can't make a horse out of
cellophane when a soda fountain
leauger declared his brother could
make anything out of cigaret pack-
age cellophane.

Signs that certain races in the
run-off primary are going to de-
velop into a battle of affidavits.
. . . Mrs. Sarah Brown, a cracking
good bookkeeper and sten with a
smile that counts, looking for a job.
. . . Crill Sicam telling about a man
who voted at one of the rural boxes.
The voter couldn't read and after
chopping his pencil and scanning
the ballot from a half dozen angles,
he asked in a man-with-a-purpose
tone, "Where's Hoover's name on
this here ticket?"

(Continued from page 1)

the country I love. . . Take them back, and scatter them over the slopes of Mt. McKinley in Alaska. . . Land of my dreams."

This was the dying request of W. H. (Doc) Holmes, pioneer of the northland who died at Covina, Calif., four months ago. Now his brother, Walter W. Holmes of Amarillo, where "Doc" was well known, is on his way to fulfill his brother's dying wish. The Alaska WEEKLY, received here by D. W. Thurman, said of Holmes: "One of Nature's Nobleman, a true pioneer, a loyal, generous, kindly soul whose last thoughts to his orrowing wife were of love for the country wherein he sojournd for many years. Peace to his ashes. ALASKA MOURNS."

### You Spell It.

Phil Pond says a small boy strolled into a New Mexico drugstore and said to the clerk: "Give me a nickel's worth of asafotida." The proprietor wrapped it up and passed it over. "Charge it," said the boy. "What is your name," queried the druggist. "Hunnyfunkt." "Take it for nothing," retorted the druggist. "I wouldn't write asafotida and Hunnyfunkt for a nickel."

(Note: The Pampan does not vouch for the spelling of asafotida, although he once was compelled to wear the stuff to ward off the mumps.)

### Remember These?

Of course platforms mean little, but we are going to call the attention of legislators to the fact that candidates pledged many things, including the following:

1. To coordinate the nearly 100 boards, commissions, and bureaus in Austin into a few major departments with functions clearly defined.
2. To permit the people to vote on combining of county offices, the consolidation of county and city governments, and similar reforms.
3. To eliminate needless duplications in higher education.
4. To reorganize the judiciary and consolidate and eliminate many of the unnecessary courts. It is costing the people of Texas more to run the courts than it costs the taxpayers of the 40,000,000 population on the British Isles.)

## SOUTH AMERICAN NATIONS VIE FOR LAND

BUENOS AIRES, July 29. (AP)—Backwoods fighting in the Gran Chaco, the Manchuria of South America, where Bolivia and Paraguay have clashed again over disputed boundaries, caused no great surprise in this capital.

Months ago it was predicted that when the effects of the rainy season had worn off, the numerous outposts maintained in that jungle wilderness would be in conflict as the two governments sought to push forward into the no man's land that has been built up there.

The trouble goes back to Spanish colonial days but it has become acute only since the growth of the republics and the pressure of economic conditions has turned attention to the great natural resources of the region.

Both Bolivia and Paraguay claim the whole of the haco as between the Paraguay and Pilcomayo rivers. Actually the territory is about equally divided now as far as physical occupation goes.

The gist of the whole quarrel is the wide and deep Paraguay river, navigable right up to the point where it debouches from Brazil. Bolivia has needed free access to that great stream as an outlet to the Atlantic ever since Chile drove her back from the Pacific many years ago and left her landlocked.

But her approach has thus far been effectually blocked by the Paraguayans who have put settlements west of the river through almost the entire length of the Chaco. Out beyond these settlements is a thick line of Paraguay military posts.

So the Bolivians have been pushing down lines parallel more with the Pilcomayo river, although that stream can scarcely be considered navigable.

The Bolivian pressure appears lately to have been exerted chiefly in a southerly direction. The location of the post styled Fort Mariscal Santa Cruz by Bolivia and Fort Carlos Antonio Lopez by Paraguay, indicates this. This fort

The pear-shaped patch on the map constitutes the Gran Chaco, claimed by both Paraguay and Bolivia. The fort where the latest clash occurred is shown within a square in the white strip which marks where the army outposts of the two nations overlap.

was described by Bolivia as "attacked" in mid-July while Paraguay announced its "recapture" a few days later.

flats where the major part of the thousands of the B. E. F. had camped was destroyed last night almost to the last shelter. After the troops began applying torches, the veterans caught the idea and set fire to their own shacks.

Hurriedly, some time before, women and children had been moved out while Brigadier General Perry L. Miles, in command, courteously held up the attack. It was an attack all the way through, executed with the military perfection that comes of careful planning and thoroughly disciplined troops. The infantry went ahead with bayonets fixed, throwing tear bombs. The cavalry came in at the charge. Tanks were deployed and machine gun units were in position.

Grouped about the American flag at the edge of the camp some hundreds made a picturesque sullen stand. The flickering flames danced on a line of polished bayonets, advancing. The men retreated slowly off the plain of their encampment, back into the small town of Anacostia.

All resistance was to no avail. It was the United States army advancing, applying the torch as it went to make the work stick.

## BUSINESS—

(Continued from page 1)

Many merchants have reported better early week business than usual. PAMPA DAY has emphasized the desirability of early shopping, and the event has made Tuesday better than several other days of the week. Good will trips by the chambers of commerce have brought about a better understanding between merchants and country folk, a greater appreciation of the problems of each group, and better trade relationships. In a number of instances reported, the effect of these contracts have been immediately gratifying.

With regard to general stability, improvement in the oil industry is tremendously important. Gray county's oil resources will show gradual appreciation of values, and the valuable fuel is being held in the ground pending that time when marketing will be more advantageous. Meanwhile, production is status quo, oil companies are generally maintaining their payrolls, and large new wells are pointing unmistakably to the potential subterranean recovery of liquid gold.

With territorial expansion will come greater possibilities for making Pampa a commercial center for the entire upper plains. A potential agricultural empire has been opened on the south. The Fort Worth & Denver Northern has brought lower freight rates, better service by all roads, quicker deliveries, contact with Central Texas and Gulf cities, and wholesaling opportunities. Its real value will be even more apparent in the future than now.

Highway building adds the second necessary link in transportation. Next winter, when weather is rough, merchants will notice particularly the fact that good roads bring people to town in bad weather while impassable roads paralyze business. Hard-surfacing was absolutely essential in gaining regularity of territorial trade.

Frontier Days brought thousands of folk to Pampa. Pampa needs to become the entertainment center of her territory. Her theaters draw heavily on week-ends, a first class swimming pool would have a week-round appeal in season.

This is no time for pessimism. Business is looking up. Let's TALK CONFIDENCE IN PAMPA AND HER TERRITORY!

AUSTIN, July 29. (AP)—Increase of 31 per cent in unfilled orders was announced today by the bureau of business research of the University of Texas as the most encouraging feature in the cotton manufacturing situation. The increase was especially significant in view of the usual seasonal decline of about 10 per cent, the bureau reported.

Unfilled orders totaled 3,952,000 yards compared with 3,020,000 yards at the end of the previous reporting period. The extra-seasonal gain in unfilled orders caused a corresponding increase in production lines with the number of active spindles reported at only 1.1 per cent under last year.

Mrs. Martha Walker, who underwent an operation Sunday at the Worley hospital, was doing nicely today. Mrs. Wallace of Amarillo is her special nurse.

## "DARING DANGER" OPENS AT REX

Fighting Tim McCoy dares anything and everything in "Daring Danger" his new western for Columbia, which opened at the Rex theater today, where it will remain for two days.

Even his enemies admired him for his nerve. They learned that he could be a staunch friend and a fierce foe. They set out to kill him cunningly, because they admired his spunk. However, he knew too much to make it healthy for them. He shows a desperate game of cat-and-mouse how fierce he could be when they crossed his path. McCoy kicks up enough thrills to satisfy the most adventure-starved individual. He sets a new high for thrills with his remarkable display of fighting and riding. If you enjoy fast, daring adventure dramas, you're a real treat for you. It packs a powerful punch!

Tim Madison and Bull Badgley, two cowboys, are always fighting. However, when Bull wounds Tim in a cowardly battle and then makes a get-away, Tim is bent on squaring accounts with him some day. As soon as he recovers he goes after him. Heading South, he arrives at Dry Gulch where he becomes acquainted with rancher Norris and his daughter, Jerry. He learns that their cattle are being rustled by Dusing's gang. When he learns, further, that Badgley is allied with the Dusing group, he casts his lot with Norris and goes after the Dusing's with a vengeance. Again Badgley gets after Madison in a cowardly manner, but Tim gets him before he does any harm. Dusing, adding Tim's nerve in this battle, lets him get away safely—he'll square his own account another day. And that day arrives very soon. Tim comes upon evidence that proves that Dusing has been hanging the Morris Lazy V brand into the Diamond 8 brand of Dusing, and Dusing gets what's coming to him—and Tim gets his—Jerry Norris promises to become Mrs. Tim.

Alberta Vaughn makes Jerry Norris an appealing, but nevertheless spirited heroine, and Wallace MacDonald, who has been cast in a heavy role, lately plays a delightful comedy role. The stunner looking Robert Ellis makes Dusing convincing. Others in the cast include Ed Le Saint, Vernon Dent, Richard Alexander and Murdock MacQuarrie. D. Ross Lederman, who has directed man successful outdoor dramas, has given this one his usual capable direction. The story by William Colt MacDonald is well-knit together—the climax is well-timed.

### PALESTINE PAYS TROOPS

Jerusalem (AP)—The Palestine government will contribute nearly \$600,000 for the maintenance of British army and air force barracks in the Holy Land next year. The garrisons include two battalions, a bombing squadron and an armored car company.

# BRIDE-ELECT IS HONORED AT SHOWER HERE THURSDAY

## MISS CULLUM IS GREETED BY MANY FRIENDS

### TO BE BRIDE OF L. N. ATCHISON IN AUGUST

Miss Elizabeth Cullum, bride-elect of L. N. Atchison, was guest of honor at a cleverly planned kitchen shower given yesterday afternoon by Mrs. C. L. Craig. The event was held in the home of Miss Cullum's parents, Mr. and Mrs. F. C. Cullum, 911 E. Francis.

News of the marriage which will be early in August, is of interest to friends throughout West Texas, as well as in other parts of the state. Miss Cullum is a graduate of the Woodrow Wilson high school of Dallas and has lived in various cities of the Panhandle, being a Panamanian since last November. Mr. Atchison, who is employed in the office of the Cabot company, came to Pampa four years ago from Breckenridge. He is a graduate of Abilene high school and is a former student of North Texas State Teachers college, Denton.

Cream and green were emphasized even in the minutest details of the shower yesterday.

Advice Given  
In keeping with the traditional "way to a man's heart," each guest presented the bride-elect her favorite recipe. A questionnaire entitled "Matrimonial Advice" then was answered by the guests.

The climax of the afternoon's entertainment came when two little cousins of the honoree, Dick Glenn Jr. of Tulsa and Virginia Ann Butler of Borger entered the room. Dick presented Miss Cullum a "charming bouquet of kitchen necessities," properly adorned and having a green backing. A clothes pin was attached to the end of each recipe, paper steamer. A wreath topped with a huge bow and filled with gifts then was presented.

Punch was served throughout the entertainment with Mrs. S. T. Beauchamp presiding at the punch bowl. At the close of the afternoon, cream and green brick ice cream was served in angel food cake, lead in green. The chosen theme was further emphasized by means of the green frills adorning the plate doilies, and the napkins which were outlined with cooking utensil designs.

Those Attending  
Following is the guest list:  
Tulla—Mrs. D. Cullum, Mrs. R. G. Glenn, Mrs. L. E. Gordon, Miss Lucille Glenn, and Miss Marie Glenn.

Amarillo—Mrs. Dyke Cullum, Mrs. J. H. Doty, and Miss Dorothy Doty.  
Borger—Mrs. Walter Butler, Mrs. Wallace Hooks, Miss Nora Gambill, and Miss Kathryn Imms.  
Pampa—Mrs. C. P. Sloan, Mrs. Beattie Martin, Mrs. Sara Burke, Mrs. E. O. Snead, Miss Martha Snead, Miss Mary Snead, Miss Etha Jones, Miss Ouida Cline Chappell, Miss Kathryn Vincent, Mrs. S. T. Beauchamp, Mrs. Ralph Trimble, Miss Betty Weiss, the honoree, and her mother.

Those who sent gifts but were unable to be present were Mrs. J. L. Cullum of Amarillo, Miss Lula Marie Bullock of Borger, and Mrs. Philip Wolfe, Mrs. B. R. Wood, Mrs. Barney Wood, and Miss Georgia Sanders, all of Pampa.

## State Seeks To Collect Fines For Oil Violations

HENDERSON, July 29 (AP)—Suits in which the state seeks to collect more than \$500,000 in fines for violation of proration orders have been filed here against three oil companies and several individuals.

Ten suits, asking half a million dollars in penalties, were brought against the Golding Murchison Oil company, together with Dudley Golding, C. W. Murchison, C. M. Johnson, trustee, and the American Liberty Oil corporation. One for \$10,000 was filed against the C. P. Oil company.

District Attorney Vernon W. McDavid and his assistant, Joe L. Hill, acted for the state.

## Observers More Hopeful at Empire Trade Sessions

OTTAWA, Ont., July 29 (AP)—American observers at the imperial conference found hope today in several major difficulties encountered by delegates in their attempt to increase intra-empire trade.

The first bright spot for the Americans, interested in preventing losses to United States foreign trade, came in the British proposal made by Stanley Baldwin yesterday. He warned delegates of the Dominions that the United Kingdom could not jeopardize its trade with other nations for new agreements within the empire.

The two other difficulties empire representatives faced were the problem presented by the variegated and unstable relations of the currencies of the empire's various units and the divergence of standards of industrial products in each.

C. P. Hutchinson of Amarillo was a guest in Pampa yesterday. He was accompanied here by Felix Phillips, who has been here for the last week.

## PHILIPPINES' FILM QUEEN

Marcia Matthews, dark-haired Manila beauty, is to be starred in the first talking picture to be produced in the Philippines, Manila-made pictures featuring Filipino beauties heretofore have been silent.

## FILIPINO BEAUTIES OF SILENT SCREEN TO BE IN TALKIE

MANILA, P. I. (AP)—Nena Linda, Mary Walter, Alma Bella and Nany Fernandez—Filipino movie stars—share the popularity of Greta Garbo, Constance Bennett and Ruth Chatterton in the Philippines, but their position is threatened now by plans to produce sound films here.

Two small concerns have imported expensive equipment and announced plans to produce talkies at small cost for the more than 300 theaters in the islands. A large percentage of these theaters already are equipped for sound films.

No Hollywood salaries  
The Filipino actors, some of whom are of part American or Spanish blood, are not paid Hollywood salaries, and many are employed on a part time basis.

The pictures produced here show the Hollywood influence, but cost only a fraction of the feature films made in California. Jose Nepomuceno, head of the largest studio producing silent films, said the average cost was less than \$7,500, but that about \$30,000 each was spent to produce two recent feature romances.

James Matthews, who launched the principal project to make sound films, believes credible talkies can be produced on the same low scale. A native of the islands with experience as a cameraman in Hollywood, he brought a large quantity of equipment to Manila.

Star Is Chosen  
Marcia Matthews, a dark-haired favorite of Filipino audiences, is to be starred in the first island talkie.

None of the Philippine films has been exported, except to Hawaii, where there are more than 80,000 Filipinos, but Nepomuceno said he believed the latest feature, "The Moro Pirate," would have some appeal in the United States and Europe. This and a film version of the novel "Noli Me Tangere," by Jose Rizal, the islands' national hero, are the most ambitious of the films yet produced here.

## SPARED NEWS OF SON'S DEATH

While the theater world mourned the death of Florenz Ziegfeld, famed Follies producer, at Los Angeles, Calif., the tragic news was kept from his mother, Mrs. Rosalie Ziegfeld, 84, who is near death in her Chicago home. She is shown here in her latest photo, made by her nurse a few months ago. In the framed picture beside her are her son and his daughter, Patricia, now 18.

## SHOWER GIVEN VISITORS HERE

### MISS VIVIAN BAKER IS FAREWELL PARTY HOSTESS

Miss Vivian Baker entertained with a handkerchief shower and farewell part last evening in the home of Mrs. L. E. Stone. The gathering was to honor Miss Louise Walker, who will leave in a few days for her home in Galveston after visiting at the home of Mrs. T. L. Anderson, and Miss Florence Stone, who left on a late train last night for her home in St. Louis. Miss Stone has been visiting her uncle and aunt, Mr. and Mrs. L. E. Stone.

Games were played and refreshments of lemonade and cake were served to Misses Victoria Anderson, Velma Ager, Myrtle Towe, Hazel Baker, Elsie Johnson, Louise Walker, Florence Stone, and Vivian Baker; Mesdames L. E. Stone, Oscar Baker, and W. B. Murphy. The group accompanied Miss Stone to the train.

## Warren Fatheree Honored at Party

Warren Fatheree celebrated his fifth birthday at a party given for a group of children by his mother, Mrs. Clyde Fatheree.

Toys were provided for the children's play, and refreshments of ice cream, cake, and punch were served.

The little guests were Patty McDonald, Barbara Studer, Camilla Hubbard, Eris and Anne Martin, James Boston, Dale Thut, Jimmie Wanner, H. D. Lewis, Jr., Hobart Fatheree, Little Judy Smith, and the young honoree. Adults attending were Mrs. W. J. Smith, Mrs. Earl Hubbard, Mrs. Lynn Boyd, and Mrs. T. D. Hobart.

## Life Insurance Payments Heavy

DALLAS, July 29 (AP)—Life insurance companies in Texas policy holders and beneficiaries \$58,700,000 in 1931, according to a report issued today by the National Underwriter, insurance publication. Texas ranked eleventh among states in life insurance payments, although its population was fifth at the last census.

Houston led Texas cities with \$5,310,000 in life insurance payments. San Antonio was next with \$4,950,000. Dallas followed with \$4,590,000; Fort Worth, \$2,563,000; El Paso, \$1,290,000; Crockett, \$1,145,000; Wichita Falls, \$755,000; Waco, \$690,000; Beaumont, \$684,000; Amarillo, \$150,000; Galveston, \$147,000; Abilene, \$147,000; Lubbock, \$130,000; Paris, \$116,000; Athens, \$108,000; and Palestine, \$96,000.

The largest individual life insurance death payment was on the life of a Crockett man for \$883,500. The next largest payment was on a Houston man's life for \$478,000.

## Magnolia Offsets Big Mazda Well

The Magnolia Petroleum company made an east offset to the Mazda Oil corporation's No. 1 Combs-Worley well yesterday and will build a derrick immediately. The Magnolia test will be 660 feet east of the section line in section 14, block 31, & G. N. survey.

The Sun company has also staked out a south location in section 36, block 3.

Mazda corporation's well was brought in Saturday night and is making more than 60 barrels an hour at the present time. A heavy gas flow is accompanying the oil.

Texas company also brought in a good well Sunday morning on the Williams tract. It is making 1,000 barrels daily.

## MISSING WOMAN FOUND

SAN ANTONIO, July 29 (AP)—Mrs. Logue Littleton, who disappeared from a Boerne hospital Wednesday, was returned to the home of her sister here today.

She was found this morning when she ran up to the automobile of W. H. Cameron of San Antonio as he was driving through Boerne. She was still clad only in her hospital clothing and said she had spent Wednesday night in the woods and had eaten nothing since she disappeared from the hospital.

COMMUNISTS IN DENIAL  
NEW YORK, July 29 (AP)—Communist leaders entered a general denial today of charges that members of their party had engaged in any so-called "whispering campaign" to wreck confidence in the country's banking institutions.

## WILL WED EARLY IN AUGUST

Miss Elizabeth Cullum, above, and L. N. Atchison are to be married early in August. The bride-elect was honored yesterday afternoon when Mrs. C. L. Craig entertained with a kitchen shower.

## METROPOLITAN PRESS THINKS VETERANS WRONG IN DRIVE

Newspaper editorial comment on the Washington bonus army evacuation follows:  
New YORK TIMES—Now that the latent spirit of insouciant lawlessness has manifested itself in overt acts, the country should demand that the whole affair be thoroughly cleaned up, the veterans dispersed as speedily as may be and Americans be no longer called upon to witness an insubordinate body of men asserting at the national capital that they are above the people as a whole and more powerful than the government itself.

New YORK HERALD-TRIBUNE—Whether these men are really communists or not is immaterial; they are agitators, and their object is to foment trouble and make headlines. Their assault upon the police—who bore the attack with courage and restraint—was bitterly unjustified.

Cleveland PLAIN DEALER—"The obvious duty of the authorities at Washington is to maintain order at whatever cost. The capital can not surrender to the B. E. F., or any other group insisting on rights that do not exist."

Washington POST—"President Hoover was fully justified in calling out the troops to put down this uprising against the United States. No government can tolerate defiance and disorder on the part of its citizens."  
"Individuals who violate the law and resist enforcement officers put themselves in the class of outlaws and must be treated as such."

San Francisco CHRONICLE—"Riot is riot; whoever does it and in whatever the cause."  
"And order must be order, if civilized life is to continue."  
Birmingham AGE-HERALD—"The bloody collision between veterans and police in Washington is surprising only because it has been so long delayed."  
There was never any excuse for this attempt to frighten congress into granting the bonus by the sheer massing of petitioners."

Routs His Friend.  
WASHINGTON, July 29 (AP)—One of the most dramatic sidelights of the army's drive on the B. E. F., last night centered around Major Geo. O. Patton of the cavalry who was compelled by duty to rout from camp marks a man who once saved his life on a battlefield in France some 14 years ago.

During the war, Major Patton held the rank of colonel in charge of light tanks. His aide was a youth from Camden, N. J., named Joe Angelo.

One night seven men, including Major Patton and Angelo, were out on patrol when a shell struck nearby. The officer was badly wounded but Angelo dragged him into a shell hole and stayed with him all night. Angelo was one of those who fled from Camp Marks last night before

## Mrs. Stone Is Club's Hostess

Members of the Wednesday Sewing club spent a pleasant afternoon of needlework this week in the home of Mrs. L. E. Stone.  
Refreshments of lemonade and cake were served during the afternoon to Mesdames T. L. Anderson, Smith, Walter Lytle, J. F. McClard, W. B. Murphy, J. W. Crowder, Oscar Baker, and Misses Victoria Anderson, Louise Walker, Florence Stone, and Hazel and Vivian Baker.  
The club will meet next Wednesday afternoon with Mrs. Oscar Baker, 920 South Banks.

## Nazarene Church Will Have Revival

The Church of the Nazarene, 212 E. Foster, will open a revival meeting to night, according to L. H. Clegg, minister. It will continue through Sunday, August 7. The Rev. Lee L. Hamric of Hamlin will do the preaching, and special music will be provided. The public is invited.

## Mystery Tree Is Russian Olive

A mystery at the city hall has been solved by Fred Schneider, local nurseryman. E. L. Anderson, caretaker at the city hall, has been deluged with requests as to the name of a tree in the center of the north boulevard in front of the city hall. Yesterday Mr. Schneider informed him that the tree was a Russian Olive.

Mr. Schneider said that in another year the tree should bloom with yellow flowers and then produce a fruit somewhat similar to olives. He said that he was not sure whether the tree would produce in this country, however.  
The city hall lawn has "pulled through" the dry spell in good condition, due to care by Mr. Anderson. He has watered and cut the lawn carefully for the last month. The flowers also look fresh despite intense heat and the drought.

## MUST USE TEXAS MATERIALS

AUSTIN, July 29 (AP)—The Texas highway commission today entered an order requiring that contractors on state highway construction use only Texas sand, gravel, stone, cement and asphalt.  
The order was passed in conformity with a resolution adopted by the 42nd legislature directing that preference be given Texas products in state highway construction.

## CALLS THEM COWARDS

LAS VEGAS, Nev., July 29 (AP)—Vice-President Charles Curtis hided defiance at hecklers who chided him about the bonus when he made a brief address here last night, en route to Los Angeles to open the Olympic games.  
"You cowards, I'm not afraid of any of you," he shouted.  
But there was no disturbance further than an exchange of words.

## VETERAN ACTOR DIES

PHILADELPHIA, July 9 (AP)—Thomas "Tommy" West, 72, veteran character actor, died yesterday at his home here.  
Particularly remembered for his characterizations of Oriental roles, West was a member of the casts of several comedies in which Marie Dressler, Ethel Clayton, and the late Arthur Johnson acted.

## BLUEBONNET IS THEME USED IN CLUB'S PARTY

### MRS. JOHN GLOVER IS HOSTESS THURSDAY MORNING

The bluebonnet, Texas' official flower, was chosen as a theme for the morning party given by Mrs. John Glover yesterday for the Queen of Clubs, and the color blue was emphasized throughout.

Awards were presented to the following players: Mrs. Charles C. Cook, high score among members; Mrs. A. M. Martini, high among guests; Mrs. Tom E. Rose, first grand slam; Mesdames O. H. Booth, Carl Boston, and J. M. Dodson, and Miss Virginia Conley, cut awards.

Mrs. Glover served a salad course at the close of the games.  
Members attending were Mesdames L. N. McCullough, O. H. Booth, J. H. Kelley, I. B. Hughey, R. S. Lawrence, Charles C. Cook, and Carl Boston. The guests were Miss Virginia Conley of Hubbock and Mesdames L. C. Johnson, Philip R. Pond, J. M. Dodson, W. M. Craven, Clyde Gold, Tom E. Rose, George Walstad, A. M. Martini, and J. King.

## James W. Hart Is Honored at Party

Mrs. E. C. Hart honored her little son, James William, on his sixth birthday Wednesday afternoon.

Games were played and pictures were taken of the group. A large angel food cake, topped with six candles, centered the dining room table, where the children were served cake and Eskimo pies.

Mrs. R. G. Donnelly assisted Mrs. Hart in entertaining the following boys and girls: Jane White, Patricia Jane Smoot, Colleen Donnell, Joyce Stone, Bettie Jean Seals, Mary Barbara Boyle, Billie Bryan Thompson, Jack Seals, Louis Fitzgerald, and James William Hart.

## Party Is Given For Children Thursday

Mrs. K. T. May entertained with a birthday party Thursday afternoon in honor of two of her children, Jean and Jeannine. Games were enjoyed by the little folks, and dainty refreshments of ice cream and cake were served.

The guests were Mary Ann Hubbert, Frankie Crocker, Jean Meyers, Jennine May, Tracy Cary, Bobbie Sitor, Conway Sitor, Jerald Bedinger, Charles Leroy Stephens, Bill Lane, Eddie Bill May, L. A. Webb, and Jean May.

# NURMI'S OUSTER LEAVES OLYMPICS MINUS BIG CARD

## GREAT FINN'S STATUS WILL INSPIRE TEAM

### HE MAY TURN PRO TO GIVE EXHIBITION RACES NOW

LOS ANGELES, July 29 (AP)—Like Hamlet without the celebrated Dane in the cast, the Olympic games will launch their most spectacular athletic show this week-end without Eino Nurmi, the most runner and most colorful personality that foot-racing has ever known.

Swiftly and without the remotest loophole for repeal, the great Finnish athlete stood barred today from all Olympic competition by a court decision rejecting his entry, based on charges that he professionalized himself by accepting money beyond his expense requirements for a 1931 barnstorming trip through Germany.

As a result, the Olympics suddenly have been bereft of their greatest track and field card. Nurmi's ambition to crown a fourth Olympic triumph has been shattered, and Finland's rugged little athletic band has been thrown into a state of semi-revolt.

No sooner had the ban on Nurmi been announced by J. S. Edstrom of Sweden, president of the International Amateur Athletic Federation, than reports spread quickly today that (1) Finland would consider withdrawing its entire team from the games; and (2) that Nurmi would immediately turn professional for a series of match races.

Finland's leaders who fought bitterly to the last ditch against heavy odds, left the final hearing on the Nurmi case in shaken spirits, convinced their greatest athletic figure had been unjustly convicted.

They told the Associated Press, nevertheless, that they expected to go through with the athletes redoubling efforts to make up for the loss of Nurmi.

Nurmi refused to comment.

The Nurmi decision over-shadowed all other developments in the rush to set the stage for the spectacular opening ceremonies and parade of 40 nations, before 100,000 spectators, in the Olympic stadium tomorrow. The arrival of Vice-President Charles Curtis this morning preceded a round of formal receptions, international preparations for the biggest athletic carnival of Olympic history.

Nurmi refused to comment.

The Nurmi decision over-shadowed all other developments in the rush to set the stage for the spectacular opening ceremonies and parade of 40 nations, before 100,000 spectators, in the Olympic stadium tomorrow. ## FIGHTS LAST NIGHT

By The Associated Press  
NEW YORK.—Benny Leonard, New York, outpointed Billy Townsend, Vancouver, (10). Ben Battalino, Hartford, Conn., knocked out Willie Hines, Chicago, (3).  
CHICAGO.—Tracy Cox, Indianapolis, knocked out Tony Sciolino, Buffalo, N. Y., (1). Harry Dublin, Chicago, stopped Herman Perlick, Kalamazoo, Mich., (9). Barney Ross, Chicago, stopped Henry Perlick, Kalamazoo, (3).  
WEST NEW YORK, N. J.—Primo Carnera, Italy, stopped Jerry Pavelle, New York, (5).

## Approach Shots Card's Big Item

By JOHNNY FARRELL  
(As Told To Arlie McGovern)  
In and around the greens—that's where strokes are either saved or lost.

"Keep your head down" is a fundamental rule that applies more to the short-game than to any other phase of golf.

All short shots should be played with very little pivot, a short backswing, and full forward swing. Don't try an easy swing on these shots. They must be hit firmly.

The distance is controlled by the backswing. If you bring the club head back only two feet from the ball, you can depend upon a distance of 25 to 30 yards; from three or four feet a firmly hit ball will travel 50 to 70 yards.

These short approach shots must be worked out on the fairway and greens of your own course before you can show marked improvement in your score.

## RECORD VAULT

Here is Bill Graber, of the University of Southern California, as he leaped to a new world's record pole vault of 14 feet 4 3/8 inches in the Olympic qualifications at Stanford stadium, Palo Alto, Calif. Graber, who was intercollegiate pole vault champion in 1931 and 1932, shattered the old record of 14 feet 1 1/8 inches, set by Lee Barnes, of lead Uncle Sam's vaulters in the coming Olympic games.

Jack Keller, Ohio State university student and hurdler on the U. S. Olympic team, is a journalism student and has a mystery story complex.

Uniform No. 17 is regarded as a hoodoo on the Memphis baseball team.

## KAYE DON ON WAY TO NEW SPEED RECORD

Boaring over the placid waters of Loch Lomond, in Scotland, Kaye Don was on his way to a world record when a high speed camera registered this scene. The British racer, at the wheel of Miss England III, averaged 119.81 miles an hour over the measured course, and in one direction traveled faster than two miles a minute. After breaking the previous record held by America's Gar Wood, Don shipped his boat to Detroit, where he will race in August.

## TONY PIET OF CORSICANA IS SECOND PEPPER MARTIN STAR PERFORMER IN MAJOR LEAGUE

### GETS TWO HOMERS AND DRIVES IN NINE RUNS, 2 TILTS

By GAYLE TALBOT  
Associated Press Sports Writer

The Texas League, proving ground for the hero of the last world series, Pepper Martin, may also have spawned the shining light of the next.

Tony Piet, the young second baseman of Pittsburgh who walloped six hits, including a pair of home runs, drove in nine runs and scored four times himself to help truncate the Giants twice yesterday, 10 to 7 and 9 to 1, has all the earmarks.

Piet, like Martin, took over his berth with the Pirates at the start of the season without benefit of ballyhoo. Born at Berwick, Pa., 25 years ago, Piet played with a semi-pro outfit around Chicago before he signed with Corsicana, Texas, in 1928. The Pirates brought him up last season, and in 44 games he hit .269. Piet also handled 19 chances without an error.

Chicago turned back Boston, 4 to 1, with Lon Warneke hanging up his ninth straight win and his 16th of the year.

Cincinnati halted the Phillies, 7 to 4, when George Grantham smote a home run in the ninth with two mates on base. Brooklyn made it four out of five over St. Louis by splitting a doubleheader. The Dodgers took the first, 9 to 6, and dropped the nightcap, 8 to 6.

With Babe Ruth returning to the lineup to bang his 27th and 28th home runs and drive in seven runs, the Yankees took a 10 to 1 fall out of Cleveland.

Eddie Durham pitched pretty ball, keeping nine hits well spaced, to give the Boston Red Sox their third triumph over Chicago, 2 to 1. Walter Stewart pitched St. Louis to a 6 to 4 win over Washington and singled across two runs.

Detroit made enough runs off Kim McKeithan, former Duke university star, in the two and a third innings that marked his debut with Philadelphia to defeat the Athletics, 4 to 2.

## CASTOFF HAS HIS REVENGE

### Ray Fritz Beats Beaumont With 2 Home Runs - Dallas Moves On

By BILL PARKER  
Associated Press Sports Writer.

Ray Fritz, Tyler first baseman, was the star in an old baseball drama yesterday entitled "The Cast-off's Revenge." Last year, Fritz was Beaumont's star first baseman.

This year, Henry Greenberg has taken the job. Fritz lost his job to Greenberg, but he has had revenge. By hitting two home runs with a runner aboard each time, Fritz beat Beaumont yesterday, 7 to 3. He drove across five runs.

In 1928, The Pirates brought him up last season, and in 44 games he hit .269. Piet also handled 19 chances without an error.

Chicago turned back Boston, 4 to 1, with Lon Warneke hanging up his ninth straight win and his 16th of the year.

Cincinnati halted the Phillies, 7 to 4, when George Grantham smote a home run in the ninth with two mates on base. Brooklyn made it four out of five over St. Louis by splitting a doubleheader. The Dodgers took the first, 9 to 6, and dropped the nightcap, 8 to 6.

With Babe Ruth returning to the lineup to bang his 27th and 28th home runs and drive in seven runs, the Yankees took a 10 to 1 fall out of Cleveland.

Eddie Durham pitched pretty ball, keeping nine hits well spaced, to give the Boston Red Sox their third triumph over Chicago, 2 to 1. Walter Stewart pitched St. Louis to a 6 to 4 win over Washington and singled across two runs.

Detroit made enough runs off Kim McKeithan, former Duke university star, in the two and a third innings that marked his debut with Philadelphia to defeat the Athletics, 4 to 2.

## Borotra Beats Ellsworth Vines

STADE ROLAND GARROS, PARIS, July 29. (AP)—Jean Borotra, fading French tennis veteran, today sprang a stunning upset as he defeated Ellsworth Vines Jr., ace of the United States team, 6-4, 6-2, 3-6, 6-4 in the first match of Davis cup final between the United States and France.

The beret-topped Basque, lifting his game to heights reminiscent of the best days of the "Three Musketeers"—himself, Cochet and Lacoste—rushed the American young-

## KRAFT, JOHNS, APPLETON OF OLDBRINE CATS RETURN

### "Lefty" Suffers Arm Ailment on Pacific Coast and Receives Pink Slip.

By BILL PARKER  
Associated Press Sports Writer

Like ghosts from their pennant winning yesterdays, Clarence Kraft, Augustus Johns, and Roy Appleton have rejoined the Fort Worth Panthers. They were stars from 1920 to 1925 when Fort Worth combined 632 victories against 282 defeats to win six consecutive Texas league pennants.

Kraft, monarch of all Texas league home run hitters and owner of the existing record of 55, is back in a presidential role. Johns, famous as one of the wildest but greatest southpaw to perform in the Texas league, has been signed as a pitcher. Appleton, whose long suit in control has returned also as a pitcher.

If the Panthers would dig up Jack Calvo, Stump Edington, Ziggy Sears, and a few others who were powerful factors in Fort Worth's succession of pennants won, they would have memories of brighter days, if nothing else.

Roy Meehan, business manager, announced the signing of "Lefty" Johns yesterday, who has been on and off the Fort Worth club the last 12 years. After several successful seasons with the Hollywood club, he recently suffered arm trouble and drew a pink slip. Johns has toured the baseball world. He has pitched to major and minor league batters. Won many games, lost many, and now is back where he started as a rookie in 1920.

Appleton never made the big time, but like Johns, has seen much of the baseball universe through the eyes of various minor leagues. He broke in with Johns at Fort Worth, and from out of the yesterdays, these two pitchers are together again to help carry on with the club that gave them their start. Backed by a president who once stepped to the plate and socked home runs to aid them in victory.

A Jolt  
Fort Worth's release of Jimmy Dalrymple, styled by some critics as the peerless second baseman of the Texas league, gave fans and players a jolt. When Johns was signed, Dalrymple was released to keep the Cats active list of players at 18-men.

Paired with Engle at shortstop, Dalrymple was the pivot man on one of the fastest double play com-

## TURKEY-BEAN PLAY STARTS NEXT MONDAY

### EVERY ENTRANT URGED TO BATTLE HIS OPPONENT

Opponents in the "Bean and Turkey" golf tournament over the Red Deer course may play their match any time between Monday morning and the following Sunday night, Mark Heath, owner and manager said this morning. They may play either nine or the 18 holes at one time. Match play will feature the tournament.

Both captains are optimistic about their chances of eating delicacies while the others are using knives to eat beans. Tom Perkins, captain of one team, is anxious that every member of his squad meet his opponent so that there will be no forfeited matches. Skeet Stewart, the other team captain, is just as anxious that his charges get together. He has a strong appetite for turkey.

Unless otherwise changed, the date of the feed will be Aug. 9 at the Schneider hotel. Mark Heath will pay for the "eats" out of the entrance fee to be charged. The fee will be small and will barely cover expenses of the tournament.

The rest of this week will be spent in putting the fairway and greens in good condition for the tournament. Players who do not know where to locate their opponents can find out from Mr. Heath at the club house or in the evenings by telephoning 385.

The standard baseball used in Japan is small, to fit the hands of the players better than the regulation American baseball.

Tauby, Beaumont, 27.  
Games pitched in: Pickrel, Fort Worth, and Garland, Dallas, 31.  
Complete games pitched: Murray, Dallas, 19; Pressnell, Longview and Payne, Houston, 17.

### FEW PARALLELS ARE FOUND FOR CALLING OF TROOPERS

WASHINGTON, July 29. (AP)—When regular army troops marched against the capital's veterans, they followed sign posts set in the 1864 whiskey rebellion and used as guides during West Virginia's 1921 coal strikes.

But now federal troops can be put on the job only by direction of the president. Whenever, as happens now and again, some governor calls out armed men to control a local situation, he is marshaling state militia or national guard. The District of Columbia has its national guard units, but they were not mustered for the B. E. F. encounter.

A plan laid out weeks ago by federal army officers was used as a guide for the new evictions in the capital. Infantry men and cavalrymen—some of whom already had taken part in practice movements outside the District of Columbia—

went to their posts. Their advance followed schedule.

The result was not martial law but the next thing to it. The bigger differences were that all prisoners were turned over to civil authorities instead of to the military and all those arrested were entitled to jury trial instead of court martial.

So far as war department records show, the past rarely found soldiers opposing organized former buddies. Nor had the present capital seen rioting of consequence involving men either in or recently discharged from the army.

Toward the end of the eighteenth century, though, veterans still in the service of their country gathered at Philadelphia, telling their congressmen they wanted money. Nothing serious eventuated; but the capitol was moved to the District

of Columbia, an area then well separated from populous cities.

Eleven years later, western Pennsylvania rose against new federal excise taxes on whiskey. Fifteen thousand militiamen in Pennsylvania, New Jersey, Maryland and Virginia were called out to end the whiskey rebellion.

The next outstanding incidents involving federal suppression of difficulties were in 1854 and 1858. War department files say soldiers were needed in both those years to end a contest between pro and anti-slavery factions for political control of Kansas.

Then there came numerous labor disorders in 1877; the Chicago railroad strike in 1894; the San Francisco earthquake and its subsequent unrest in 1906.

Disquiet following the world war also brought numerous occasions in 1919 and 1920 when the federal government was called upon to intervene.

Mrs. Roy Davis and Miss Lennie Davis of Shamrock were in Pampa for x-ray treatment Wednesday.

### WALKER IN HEATED DENIAL OF ANY WRONGDOING WHATSOEVER

ALBANY, N. Y., July 29. (AP)—James J. Walker's denial of official dishonesty or corruption as mayor of New York City was being studied today by Governor Franklin D. Roosevelt.

His reply to Samuel Seabury's complaint that he was unfit to remain in office was submitted to the governor yesterday. In 27,000 words he set forth his reasons for contending that Seabury and others who sought his removal were wrong in believing that he had used his office for personal gain.

"Since the day of my birth," Walker assured Governor Roosevelt, "I have lived my life in the open. Whatever shortcomings I have are known to everyone—but disloyalty to my native city, official dishonesty or corruption, form no part of these shortcomings." Denying all accusations, he as-

sailed the counsel to the Hofstadter legislative committee, informing Governor Roosevelt in one instance that "Mr. Seabury deliberately falsifies the meaning of the record." He also accused Seabury of withholding from Roosevelt part of the significant evidence gathered by the committee.

He said the investigation was "conceived, born and fostered in politics. The desperation growing out of the necessity to offset the failures of the present republican organization, city, state and national, inspired it."

"Not one witness," he declared, "testified to any wrongful or illegal act of mine during the past six

### Mrs. Ferguson Has Lead of 98,000

DALLAS, July 29. (AP)—With returns practically complete from Saturday's democratic primary, Mrs. Miriam A. Ferguson today held a lead of 98,000 votes over Governor R. S. Sterling.

The Texas Election Bureau had tabulated 906,147 votes, a record for Texas. The returns were from all the state's counties except one, complete from 203 counties.

The vote in the governor's race stood: Mrs. Ferguson, 377,609; Sterling, 278,583; Tom F. Hunter, 204,803; others, 45,152.

The vote favoring a new decision by the states on federal prohibition was 329,152 against 134,222.

No significant change was shown in any of the state's races.

### Bright Spot In Farm Horizon Is Reported Today

Another bright spot on the business horizon is the rise of 2 cents per pound in butterfat, effective tomorrow, announced today by the Gray County creamery. This makes the price now 14c, in increase of 6 cents over the lowest price previously of 8 cents.

Some of the highest grade of butter fat produced in the United States has come from the Pampa territory. Recent shipments of butter from the Gray County creamery have been rated extra select on the New York markets, bringing the highest prices paid for butter.

B. F. McCracken of Clarendon received medical treatment in Pampa Wednesday.

### Five Succumb In Boys' Experiment

MINTO, N. B., July 29. (AP)—Three boys who had been told they could see the moon in broad daylight if they climbed to the bottom of an old mine shaft are dead and two miners lost their lives trying to rescue them.

Four youngsters made the experiment, clambering down a rickety ladder in an abandoned shaft not far from town yesterday. The first three down choked as gas seeping from the worked-out vein overcame them. They lost their hold on the ladder, and dropped forty feet into a pool of water at the bottom.

Six-year-old Joe O'Leary, the fourth, saw his friends drop and fled terrified, coming back with his father and several other men. Two of the men started down the ladder, but were overcome by the gas and fell. By this time a crowd had gathered about the head of the shaft and a hundred men had been mobilized for the rescue.

### International Sunday School Lesson

BY DR. J. E. NUNN

General Topic: GOD'S DAILY GIFTS.  
Scripture Lesson: Exodus 16:1-5, 14, 15, 35.

1. And they took their journey from Elim, and all the congregation of the children of Israel came into the wilderness of Sin, which is between Elim and Sinai, on the fifteenth day of the second month after their departing out of the land of Egypt.

2. And the whole congregation of the children of Israel murmured against Moses and Aaron in the wilderness:

3. And the children of Israel said unto them, Would to God we had died by the hand of the Lord in the land of Egypt, when we sat by the flesh pots, and when we did eat bread to the full: for we have brought you forth into this wilderness, to kill this whole assembly with hunger.

4. Then said the Lord unto Moses, Behold, I will rain bread from heaven for you; and the people shall go out and gather a certain rate every day, that I may prove them, whether they will walk in my law, or no.

5. And it shall come to pass, that on the sixth day they shall prepare that which they bring in; and it shall be twice as much as they gather daily.

14. And when the dew that lay was gone up, behold, upon the face of the wilderness there lay a small round thing, as small as the hoar frost on the ground.

15. And when the children of Israel saw it, they said one to another, It is manna: for they wist not what it was, and Moses said unto them, This is the bread which the Lord hath given you to eat.

25. And the children of Israel did eat manna forty years, until they came to a land inhabited; they did eat manna, until they came unto the borders of the land of Canaan.

Golden Text: Every good gift and every perfect gift is from above, and cometh down from the Father of light.—James 1:17.

#### Introduction

After the deliverance at the Red Sea the children of Israel went forward through the wilderness of Shur—no face another problem. They found no water. After three days they came to Marah, where there was water, but when they began to drink they found it "bitter." They faced death by thirst, which is more horrible than death by the sword. As at the Red Sea, they murmured against Moses, who in turn cried unto Jehovah; and again the Lord answered, with mercy; the water was sweetened and their spirits revived. Thence they journeyed on to Elim, where they found twelve springs of good water and seventy palm trees—a beautiful oasis. Looking upon these experiences as Parables of life, every reader must do. Dr. F. B. Meyer says: "Do not stay murmuring at Marah; press on! Our Elim is in sight. God permits disappointments at Marah, and surprises us at Elim. He proves by Marah, and at Elim recruits us."

Four divisions of the Lesson: 1. A new trial, hunger. 2. A new test, plenty. 3. A new food, manna. 4. An unfailing Provider. "It is an earthly soul that gets tired of bread from heaven."

#### Murmuring Against Moses

The children of Israel had been on their way about a month when they came to a wilderness of Sin. They were a great host, perhaps two million and a half, and the region in which they found themselves was heathen. Soon, therefore, they began to feel the pangs of hunger, which on many occasions has broken the morals of armies under strong leaders and spelled their defeat, reduced walled cities to surrender, and brought stout-hearted criminals to confession. One would think however, that with the experiences of the past month, especially those at the Red Sea and Marah, the Israelites would have been slow to give up the hope that Jehovah would deliver them yet once more. But the spirit was little different from that manifested in the two former crises, except that it seemed more widespread. "The whole congregation . . . murmured against Moses and Aaron"; and their murmuring seemed to be as vociferous as their praise had been.

#### Bread From Heaven

How marvelous is the patience of God! His answer to the ingratitude and forgetfulness of Israel, was greater mercy. He said to Moses, "Behold, I will rain bread from heaven for you." He knows our frame. He knew the power of hunger and the greatness of the temptation as Israel faced the bare stretches of sand and stone. Accordingly, he sent Moses and Aaron to the people with the message of mercy; "At even ye shall eat flesh, and in the morning ye shall be filled with bread; and ye shall know that I am the Lord your God." And it was so. That evening "quail" came up and covered the camp; and next morning the ground was covered with "a small round thing; as small as the hoar frost," which they called manna. And Moses said, "This is the bread which the Lord hath given you to eat." That is what God has done for humanity down the ages—and supremely in Jesus Christ—given manna for our murmuring.

#### The Lord Will Provide

The children of Israel, and thru them the human race, are being taught the important lesson that God takes care of his creatures (Ps. 37:25). It is one of the fundamental religious truths. The faith that can't master it is a very deficient faith. God had to hammer it into these Hebrew tribes that he was making into his chosen people. Some of us likewise don't learn it until after a long exodus-journey life time. And we have the added assurance of Jesus' word, "The Father feedeth the birds, then why not you?" (Matt. 6:26).

the people: Your murmuring (grumbling) is not against me and Aaron, but against the Lord. This truth if kept in mind would do away with lots of fault-finding. It is an embarrassing, striking, yet comforting thought, though, that God's providence is so kind that he hears us even when we grumble.

#### One Day's Supply Each Day

"And they gathered it every morning, every man according to his eating." That only enough for the twenty-four hours need was daily to be gathered is another lesson of their training in trusting God. It is in accordance with the petition of our Lord's prayer, "Give us day by day the bread needful for the day!" Or his caution against needless anxiety about food and clothing. Corruption comes to that which is hoarded. God knows, likewise, just how much each one needs. You selfishly gather more than that of this world's goods and pretty soon you find that they are not there. Or tomorrow spoils what you have selfishly put away to go to waste. There is a whole up-to-date system of economics in this manna miracle.

#### No Manna On the Sabbath

"Six days ye shall gather it; but on the seventh day, which is the sabbath, in it there shall be none." Of course God doesn't work on the Sabbath (ver. 22-30). This was a truth of Hebrew religion and morals long before the giving of the law at Sinai. But then as now people were neglectful of God's regulations. The lesson here has much influenced Jews in their observance of the Sabbath. The preparation of food on that day is especially avoided by the orthodox among them. Many of us Gentiles, also, who had old-fashioned Puritan mothers, can recall the "cold Sunday dinner" of our childhood, every article of which had been prepared on Saturday. If we complained, we were reminded of this story of Exodus.

The human soul has a hunger and need, as well as the body. It is no more than fair that upon one day in seven, for its sake, we should partake of the antitype rather than the type, the heavenly manna rather than "that strange white thing."

#### Jesus, the Bread of Life

None can read this lesson without seeing him whom it foreshadows. Read the sixth chapter of John, and the wonderful words of Jesus: "I am the bread of life: he that cometh to me shall never hunger; and he that believeth on me shall never thirst. Your fathers did eat manna in the wilderness, and are dead. This is the bread which cometh down from heaven, that a man may eat thereof, and not die." What a gospel that! Accepting Christ as Lord and Saviour, we shall never find a wilderness so dark and barren, but that in it we shall find hidden manna and flowing streams. More than that, we shall eternal life, we "shall never die." He is for the soul forever, what manna was for Israel for forty years.

#### Suggestive Topics

An important lesson: "Man does not live by bread alone, but by every word that proceedeth out of the mouth of God."

A prayer for today, "Give us this day our daily bread."

#### Rhodesia Offers Tariff Preference

OTTAWA, July 29. (AP)—Southern Rhodesia, which produces livestock, agricultural products and citrus fruits in considerable quantity, today followed Canada's lead by offering Great Britain increased tariff preferences.

Similar advances will be made to such other empire countries as are willing to reciprocate. The proposal was made by H. W. Moffatt, head of the Rhodesian delegation to the imperial economic conference.

There was another statement today from Stanley Baldwin, head of the delegation of what Great Britain's policy on tariffs will be in the future.

"Representatives of the United Kingdom have entered this conference with the intention of making their full contribution to further extension of empire trade," said Mr. Baldwin, "they have put frankly to the dominions the articles on which they will welcome an equally full statement of the corresponding advantages which the dominions seek in British markets."

#### 'California Case' To Be Heard Soon

AUSTIN, July 29. (AP)—The third court of civil appeals has set Oct. 5 to hear arguments in the "California case," involving valuable oil rights in Pecos county.

The court set the case for argument on its own motion, having previously passed it to await a decision of the state supreme court in the Smith-Turner case, another suit that involves oil land in the same area.

Although the case has become known as the "California case," it is styled the Douglas oil company against the state. It required 14 weeks to try it in the Travis county district court.

#### Land affected by the suit segregates about 200 acres of section 34 of block 194.

CHINESE TRY FARM JOOLS PEIPING (AP)—Farmers in a district in Kiangsu province have pooled all their resources, those who wind up the year with surplus cash or rice making loans to less fortunate neighbors at 18 per cent interest. The system was devised to keep the desperately poor from turning bandits.

#### NO WHITE COLLARS HERE

HERSCHBERG, Germany (AP)—At the annual convention of Silesian chimney sweeps, it was reported that students from a number of schools had applied for apprenticeships in the "black men's league."

# Sister MARY'S KITCHEN

By SISTER MARY NEA Service Writer

Quick breads come in the category of summer short cuts, and while they are decidedly labor saving and easily prepared foods, they are in no respect makeshifts. All breads are energy foods because their main ingredient, flour, is of great caloric value. The yeast breads are good sources of vitamin B, but the quick breads made with milk, molasses, fruits and nuts, and mineral salts and additional calories.

Consequently, yeast breads are of so essential during summer months when fresh fruits and vegetables are cheaply and adequately supply vitamins, and quick breads may well be substituted.

Most all quick breads are excellent fat carriers. An extra amount of butter usually can be spread on this type of bread, making it a splendid food for undernourished children.

The following rule does not use eggs. This bread is very good for indigestion.

**Egless Graham Bread**  
One-half cup molasses, 1-2 cup granulated sugar, 1-2 cups sour milk, 1 cup white flour, 2 cups graham flour, 1 teaspoon salt, 1 teaspoon soda, 1 tablespoon shortening, 1 cup chopped dates or raisins, 1 cup chopped nuts (optional).

Soften shortening and mix with sugar. Add molasses and blend thoroughly. Mix fruit and nuts with flour and add to first mixture. Add 1 cup milk and stir until smooth. Dissolve soda in remaining milk and quickly stir into batter. Turn into two small oiled and floured bread pans and bake forty-five minutes in a moderate oven.

**Sour Cream Muffins**  
One cup white flour, 1 teaspoon soda, 1 teaspoon salt, 2 cups bran.

**Tomorrow's Menu**  
**BREAKFAST:** Blackberries with ready-to-serve cereal and cream, crisp broiled bacon, crisp toast, milk, coffee.  
**LUNCHEON:** Waffles with creamed tuna and buttered green peas, stuffed tomato salad, graham bread, halves of honeyball melons stuffed with sliced peaches and raspberries, iced chocolate.  
**DINNER:** Salmon loaf with mashed potato border, baked spaghetti and tomatoes, watercress, corn on the cob, Spanish cream with sliced pears, milk, coffee.

cup sour cream, 1-3 cup molasses, 2 tablespoons water, 1 egg. Mix and sift flour, soda and salt. Beat egg with water and add molasses and sour cream. Mix well and add to first mixture. Stir enough to blend and add bran. Mix lightly and drop by spoonfuls into well oiled muffin pan. Bake 25 minutes in a moderate oven.

Quick breads are made very successfully with sweet milk, too.

**MACHINE GUN PRACTICE**  
**IRKS FRENCH VETERANS**  
CHALONS, France (AP)—Ex-service men of this district near the mouth of the Loire protested against army machine gun practice in this neighborhood.

The veterans objected to the sound of machine gun fire because it reminded them of their experiences in the trenches.

They asked the mayor to have the maneuvers moved and their petition was sent to the minister of war.

**RUNS AGAINST MACDONALD**  
SEAHAM HARBOR, England (AP)—If Ramsey MacDonald, prime minister, stands again for parliament from this constituency, he will be opposed by Emmanuel Shumwell, minister of mines in MacDonald's labor cabinet, who has already been picked as labor party candidate.

## NEWS-Universal Newsreel of Week Features Cyclone, Roosevelt, And Many Other Interesting Things

The wreckage and terror left in the wake of a cyclone when it sweeps down upon the habitations of man are to be seen in all their appalling details in the current issue of the Pampa Daily NEWS-Universal Newsreel, with Graham McNamee, dean of radio announcers and the famous talking reporter of the Pampa Daily NEWS-Universal Newsreel, pointing out the devastation just visited upon the historic town of Vernon, Ind. Rows of homes, like card houses, their front walls torn away exposing the jumble that once was hearth and fire-side. Other dwellings now mere piles of debris, with long-faced family groups, like rag-pickers, poking in the ruins for clothing, cherished trinkets or a beloved toy—all this and more is shown in all its graphic horror.

The omnipotent talking reporter is right on hand to bid bon voyage to Gov. Franklin D. Roosevelt, democratic nominee, as he sails with his sons from Port Jefferson, N. Y., for a week's cruise in New England waters aboard a small yacht. Skipper Roosevelt is no fresh water sailor. He learned the rope as assistant secretary of the navy, a sea-going crew, too. He's in training for taking the wheel of the ship of state, dependent upon what happens on November 8.

In his inimitable manner, McNamee reports a novel financial experiment in Ohio, where a motor bank now is being operated through four counties between Washington Court House and Springfield, talking deposits and cashing checks for the villagers and farmers in sections where the regular banks have gone

under. Also, the newsreel shows a military demonstration in Austria by a corps of 20,000 uniformed, equipped soldiers organized by a political party, a new idea in politics, which, fortunately, hasn't reached this country yet.

John D. Rockefeller, Sr., who has just reached the ripe age of 93 years, has a word of cheer for his fellow countrymen by way of the Pampa Daily NEWS-Universal Newsreel. He has seen many depressions come and go and prosperity always returns, he says. He predicts the early arrival of the next prosperity wave. Alertly, the Sage of Pocantico, speaks his birthday message, despite his infirmities.

Among the novelties reported by the talking reporter are an 80-m. p. b. locomotive built by a fifteen-year-old boy, and a Japanese fishing island from which sea-gulls have literally driven the inhabitants.

## HOW'S your HEALTH?

Edited by the New York Academy of Medicine

### Pre-Natal X-Raying

The effects of x-ray upon the pre-natal development of the offspring of humans and animals have been studied extensively by many scientists.

In 1903 Bohn demonstrated that by x-raying the eggs of the sea urchin he was able to produce abnormal development in the off-

spring. Silmar studies were made on the eggs of worms.

In amphibians exposure to x-ray irradiation was found to result in the definite retardation of the development of the embryo.

The same kind of study was made upon birds and rats, both x-ray and radium being used.

In the experiments with rats, it was found that prolonged exposure of the animal to either radium or x-ray resulted in injury to its unborn young, with the result that they were born dead, died shortly after birth or showed marked deformities of the brain and nervous system.

It was also observed that the earlier the irradiation by radium or employment of x-rays, the more destructive were the effects.

At times the results of such irradiations were not apparent at the

birth of the offspring, but became evident subsequently in the stunted development of the young.

These studies have a definite bearing on humans, in that, not infrequently, a woman who is to become a mother, may require treatment with x-ray or radium.

Experience has shown that the use of either of these agents in the region of the womb during pregnancy is fraught with great danger to the unborn child.

The danger does not exist when one or a few x-ray pictures are taken at this time, because in these instances exposure to the x-rays are of very short duration, too short to affect the development of the child in any way.

Dr. H. L. Wilder and F. L. Stallings made a business trip to LeFors Tuesday.

## Much Broomcorn Is To Be Moved

LUBBOCK, July 29. (AP)—The South Plains this year will have a good acreage of broomcorn with expectations by Santa Fe officials, of a larger movement this fall than last.

Littlefield shipped 21 cars in 1931, and the acreage in the region this year is approximately that of last.

Other towns that will ship include O'Donnell, Levelland and Seagraves. From these points it is expected there will be as much if not more, moved than last year.

Harvesting starts late in August or early September. Once the crop is ripe, it must be harvested without delay.

## CURFEW KINGS NIGHTLY FOR SYDNEY BURGLARS

SYDNEY, Australia (AP)—Curfew law has been brought into operation against burglars by Judge Sheridan of the local criminal court.

Instead of sending certain classes of thieves to cells, he releases them on bond not to be on the streets after 11 o'clock at night.

"This is no hardship," says the judge, "but it may remove these men from the temptation of stealing under cover of darkness."

## PARIS CANS BANNED NOISE

PARIS (AP)—Although the cries of street hawkers are banned here as unnecessary noise, the Institute of Phonetics is making a collection of typical voices, registering them on gramophone records.

# Low Living Costs Have Come Down

## DOLLAR BUYING \$1.25 WORTH TODAY

By NEA Service  
There's at least one bright side to this depression—it has added 25 cents to the buying power of every dollar the Average Family spends for living.

Because of lower retail prices, family budget of \$100 a month today will buy as much as a family budget of \$125 a month bought in 1929.

This change in the dollar's purchasing power is computed from index figures on the cost of living compiled monthly by the National Industrial Conference Board. The record has been kept for many years. Its statistics are based on the purchasing power of 100 cents in 1923. This has become the "standard" dollar.

On the 1923 base of 100 cents, today's dollar buys \$1.33 worth of food, as against 83 cents worth in 1929, 71 cents worth in 1920 and \$1.49 worth in the pre-war days of 1914.

Housing, clothing, fuel and light, sundries—which are also included in the Industrial Conference Board's "cost of living" statistics—have also changed greatly in price, as shown by the accompanying chart.

It is shown that while the dollar's buying power has increased greatly since 1929 and is far greater now than it was during the high-price era of 1920, it still falls far short of a return to the pre-war level.

Some interesting comparisons may be drawn. For example: If a man had deposited \$100 in the bank in July, 1914, and left it there, it would have been worth only \$84 in merchandise in 1929, \$100 in 1929 and \$125 today. This does not consider interest earnings.

## Hitler Troops Are Ordered To Stand Ready

BERLIN, July 9. (AP)—Reports that National Socialist storm troops were concentrating in various provinces of Germany today caused considerable alarm in spite of official assurance that most complete measures have been taken to maintain peace and order during and after Sunday's elections.

The reports said the Hitler storm troops apparently meant business. From various points in Pomerania, Mecklenburg and Silesia the news came that local Nazi organizations had received orders to stand by.

It was recalled that a similar mobilization of the Nazi forces was ordered just before the presidential elections two months ago when there were dark rumors of a "march on Berlin." Nothing happened, however.

Hitler and other Nazi leaders have given the Von Papen government assurance they are planning no violent action.

The opposition opened a smashing last-minute drive today against Hitler, after the Nazi leader had suddenly refused to make a widely-advertised campaign address over the radio last night.

Hitler's action caused much surprise and no explanation was offered.

"Hitler's afraid of the microphone!" taunted the Socialist press. "He's afraid he'll flop when deprived of his soldiers, his rooting sections, his bands, music, salutes and dramatic entrances."

The opposition also jumped on what it called an admission by Hitler that his party might not win in the elections Sunday. The incident occurred at Cologne, where Hitler told a crowd of 80,000: "National Socialism will continue the fight undaunted, even if July 31 does not give a final decision."

## Actress, In Love With Dempsey, Swallows Poison

LOS ANGELES, July 29. (AP)—Lina Basquette, 25-year-old actress, swallowed poison today a few hours after she announced her engagement to Teddy Hayes, former trainer of Jack Dempsey, to stifle rumors she might marry the former world's heavyweight champion.

Beside the actress when police found her in her apartment writhing in agony was a note addressed to "Jack." It read: "I love you. Only you. I couldn't help it. I couldn't go on without you."

Physicians said her condition was critical.

The twice-married actress took a caustic poison after spending the evening with Hayes. She had been dependent, Hayes said, that after leaving her at 11:30 he telephoned her when he reached home. "Are you all right?" Hayes said he asked.

"Sure I'm all right," he quoted Miss Basquette as replying. "I have just taken poison."

CORPORATION GOES AHEAD WASHINGTON, July 29. (AP)—Its reorganization completed with selection of Charles A. Miller, Utica, New York, as the last director, the \$3,000,000 reconstruction finance corporation planned ahead today in its relief program.

Announcement of new loans, pending completion of the director, was believed imminent. Illinois ready has gotten \$3,000,000 from the \$300,000,000 fund for relief advances to states and numerous applications are pending.

## Purchasing Power of the Retail Dollar

### What Today's Dollar Will Buy as Compared to Past Years

	Today	1929	1920	1914	Pct. of Total Expenditure
FOOD	\$1.33	93c	71c	\$1.49	33%
HOUSING	\$1.30	\$1.09	\$1.12	\$1.73	20%
CLOTHING	\$1.38	\$1.01	65c	\$1.70	12%

return from a fixed investment is another angle for comparison. Take the man who owned \$20,000 worth of 5 per cent bonds and enjoyed an income of \$1,000 therefrom in 1929. The same income would have yielded him, in retail buying power, \$1,610 in 1914, \$840 in 1920 and \$1,250 today.

### THOMPSON AND SHAVER, BOTH FERGUSON EMPLOYES, PRESSED IN PRIMARY BUT LEAD RIVALS

By R. W. BARRY  
AUSTIN, July 29. (P)—Two of Governor R. S. Sterling's appointees had hard sledding in the democratic primary in their candidacies to stay where the chief executive put them.

Ernest O. Thompson, who quit being mayor of Amarillo to become a member of the Texas Railroad Commission at Governor Sterling's invitation, ran into tough opposition. W. Gregory Hatcher, former state treasurer, won a place in the run-off with Thompson and the

two are in for a merry chase during the warm days of August.

C. N. Shaver, who resigned a place as superintendent of Huntsville city schools to become state superintendent of public instruction, was in a neck and neck race with L. A. Woods, superintendent of Waco city schools for the place occupied for ten years by S. M. N. Marrs. Marrs was removed by death a few months ago. Woods had announced his candidacy before Marrs' death.

Governor Sterling appointed Shaver, one-time member of the

### BANKER-PRINCE

A princely visitor from abroad is Frederick of Prussia, who's shown here as he arrived in New York. After a month's vacation the second son of ex-Crown Prince Wilhelm will return to Germany and resume his training as an international banker.

Watson R. Pearson of the Pampa Refractionating company is recovering nicely after a slight injury Tuesday. While standing on a truck he struck his head on an overhead pipeline.

Texas legislature, to the vacancy and the Huntsville man immediately launched a state-wide campaign for election to the place.

So close was the contest between Woods and Shaver that it may require an official canvass of the vote to determine the winner.

Joseph Weldon Bailey, Jr., son of the United States senator from Texas who was the idol of the Lone State state for years, and later a figure who had seen many of his former admirers change into political enemies, will again stump the state in the run-off for congressman-at-large (place 2). It was likely he would have J. H. (Cyclone) Davis of Sulphur Springs or Former Mayor Oscar Holcombe of Houston as his opponent. Davis and Holcombe were running close to each other.

Davis served as congressman-at-large at one time. He is one of the most colorful political figures Texas has produced. Tall, and with long, flowing beard, Cyclone won fame as a debater and champion of prohibition. Although getting along in years he still retains the fire of his younger years.

Bailey is not unlike his father as a public speaker. He is a champion of state's rights and advocates control by the states of the liquor question rather than reposing authority to regulate it with the government through constitutional provision.

Holcombe, too, is an engaging stump speaker. Texans are assured of a worth-while campaign for the place 2 congressman-at-large nomination, whether Davis or Holcombe is Bailey's opponent.

George B. Terrell, former commissioner of agriculture, was assured of a place in the run-off for congressman-at-large (place 1). It might require an official count to determine his opponent. State Senator Pink Parrish of Lubbock and W. Erskine Williams of Fort Worth were running close to oppose Terrell.

Sterling P. Strong of Dallas had clinched a place in the run-off for congressman-at-large (place 3). Douglas McGregor of Houston and Joe Burkett of San Antonio were fighting it out to see which would go in against Strong, the vote between them being so close that an official canvass might be necessary also in that rate to designate Strong's opponent.

### The Faithful Cheat

SYNOPSIS: Troubles crowd upon Sondra and Mark. She is secretly married to Mark Merriman, who is in the Congo trying to become wealthy. Her friend, John Anderson, seems to have become distant. And now her sister Flora, with whom she lives, tells her she is going to leave her husband, Ben.

#### Chapter 17 A NEW ANDERSON

FLORA was proposing to behave in an abominably selfish way. And yet—was she herself any less selfish, Sondra wondered.

Sondra knew she was not. She cared nothing for Flora's happiness as long as her own life was secure; she had not even cared for Mark's happiness. She had not been willing to share his life with him, she had shrunk from the hardships and discomforts.

If she could only see him again, just for a moment, only be reassured by his love.

She hardly closed her eyes all night, and when the maid came in the next morning her first question was—

"Have you seen Mrs. Lomax this morning?"

"Yes, miss—"

"Is she . . . quite well?" Sondra asked.

"Oh yes, miss—I am taking her breakfast up at nine."

"That means that you don't intend to tell me," Beatrice sighed.

"All right—I'm not curious, but you know I don't believe Mr. Anderson believed either of us."

"Why shouldn't he? It's no concern of his anyway."

Beatrice gave her a quick glance. "Oh—well!" she said.

There was a little silence.

"It's such a pity he isn't a widower," Beatrice said thoughtfully, after a moment. "But women like Evelyn Anderson never die, do they? I should think she will live to be about a hundred."

"I hope she does," Sondra said calmly.

Beatrice giggled again. "Darling, you're such a shocking liar," she said. "And talking of the devil . . . here comes Mr. Anderson. I'll disappear. I'm sure you don't want me! or at any rate, I am sure he doesn't." And in spite of Sondra's protestations, she took her departure just as Anderson drew near.

Sondra tried to meet him calmly. "I believe Beatrice is afraid of you," she said with a light laugh.

"She ran away as soon as she saw you coming. How are you, John?"

"Very well, and you?"

"Splendid thanks."

He turned and strolled beside her.

He looked very bronzed and fit.

Sondra was conscious of a sudden tightening in her throat. He was luncheon with Nathalie Symons, of course.

Sondra gave a sigh of relief. Last night was a bad dream which the twilight had dispelled.

When the maid had gone she took up the telephone receiver from beside the bed and called John.

Silly to feel so different where he was concerned; they had parted the best of friends.

Anderson's man answered the phone—Mr. Anderson was not yet up, he told Sondra.

He evidently recognized her voice for he asked if she could give a message.

"No—nothing thanks; just ask Mr. Anderson to ring me later."

She tried to feel reassured, but there was a dark little spot of doubt in her mind; supposing John did not phone?

She dressed and went to Flora's room.

Flora was breakfasting in bed; she looked very much as usual and made no reference to their conversation of the night before.

Sondra felt comforted. People said all sorts of silly things late at night, when they were tired and overwrought.

At half past ten when Anderson had not phoned, Sondra went out. She told the maid casually that if Anderson called, to say she would be in during the afternoon.

She went to the park and met Beatrice Taylor.

Beatrice looked fluffy and frilly as usual. "You look worn out," she said bluntly.

Sondra flushed. "My head aches," she said untruthfully. "I thought the air would do it good."

They walked along together, and Beatrice said with a giggle.

"I met Mr. Anderson a moment ago. He's so good looking—I haven't seen him since that day you were luncheon with him and I nearly gave the game away, do you remember?"

Sondra nodded; that was a day she would gladly have forgotten.

"I've never asked you before—"

Beatrice went on. "But do tell me darling, where were you that night when you were supposed to have been with me?"

Sondra tried to laugh. "Wouldn't you like to know!" she said lightly.

### Great for children

CHILDREN certainly do like Kellogg's Whole Wheat Flakes. And of course there's nothing better for them than whole wheat.

You'll also be delighted with the economy of the big red-and-green package. Made by Kellogg in Battle Creek.

Ben gives Sondra a shock tomorrow, with a sudden announcement.
