CRITICISMS OF MODERN BOY

Just about the most completely useless thing a man can do is to utter lamentations about the shortcomings of modern youth. Educators, more than anyone else, ought to know this; and it is a bit surprising to find such a man as Cuthbert Blakiston, headmaster of Lancing college, England, declaring publicly that school boys nowadays are "cowardly, untruthful, easily bored, vain and dishonest."

Naturally, this blast drew a flock of replies, most spirited of which was that voiced by Dr. James E. West, chief scout executive of the Boy Scouts of America, who insisted that the modern boy is a better chap than his father was, and not a worse one.

But the defense of the modern boy is not a matter that need detain us. The interesting thing is trying to figure out just why any adult should ever feel called on to open an attack like Mr. Blakiston's in the first place.

Boyhood is more or less what we grownups make it. It comes into a world which will shape it and mould it, and it is not in the least responsible for what that world is. We adults are responsible. If we find boyhood growing deceitful, cowardly and frivolous, we have no one but ourselves to blame.

For boyhood wants, more than anything else on earth, someone to look up to, someone on whom it can model itself. It is pathetically eager to please the grownup world, and it will take almost any path that the grownup world indicates. And if, today, it finds itself in a world where good models are scarce, where honesty and courage and sincerity do not seem to command a very high premium—well, whose fault is that?

The world is in a sad mess these days, and if it ever gets out of it will be because of the boys that are just now growing toward manhood. We have precious little call to be critical.

CAPONE RIVAL IS SHOT DOWN AS ANSWER TO HIS AMBITION

CHICAGO, Aug. 11. (AP)—Gangland guns have boomed again. They belched lead and flame on the North Side last night, felling Joe "Big Rabbit" Connell, 35, who, police said, saw in the imprisonment of Al Capone an opportunity to extend a small neighborhood beer business into large fields.

He was killed outright by several men in an automobile who fired on him as he stood in front of his saloon.

Connell, police said, had undertaken to sell beer of his own brew to other speakeasy proprietors at \$30 a barrel, \$25 less than the price reputedly charged by the Capone syndicate.

Recently he was reported to have made extensive inroads on the syndicate's trade on the North Side. Police said they learned a week ago that Connell had been warned to cease wholesaling beer and confine himself to his saloon business.

Apparently, they said, he saw fit to disregard the warning, probably believing that the syndicate without Al Capone was no syndicate at all.

Last night he stepped out of his saloon to the sidewalk to obtain a breath of fresh air. A moment later a large automobile rolled up. Some one within called out: "Oh, Joe, come here."

Connell advanced. A gun was poked out of the car window, six shots followed. As Connell fell to the street, dead, the machine sped away.

Home Loans Will Be Expedited By Board of Directors

WASHINGTON, Aug. 11. (AP)—Short cuts for putting the new home loan banking system law into operation as quickly as possible are being sought by the board of directors.

Franklin W. Fort, the chairman, told newspapermen today that technical amendments inserted into the original administration bill by the house and senate and the question or requiring organizations to subscribe for more stock had to be passed on before the board could determine banking districts.

The board has found that no statistics are available showing the amount of mortgages on home property valued at less than \$20,000 each and that until this information is amassed and studied, it could not determine where the eight to twelve banks are to be located.

VETERANS NOT WELCOME MEXICO CITY, Aug. 11. (AP)—President Ortiz Rubio announced today that Mexico would not permit American world war veterans to establish a colony here. This decision was in a response to a request by Doak Carter, leader of one wing of the American bonus expeditionary force.

T. R.'s Widow To Boost Hoover

OYSTER BAY, N. Y., Aug. 11. (AP)—The widow of Theodore Roosevelt became an active advocate today of her own husband's "roll up our sleeves and re-elect our president."

Mrs. Roosevelt, accompanied by her daughter and son-in-law, Dr. Richard Derby, planned to take-off before noon from Roosevelt Field for Washington to attend the notification and acceptance ceremonies tonight.

Mrs. Roosevelt, who was 71 years old Saturday, held a luncheon yesterday in honor of the 58th anniversary of President Hoover's birth. Three hundred women, members of the Edith Kermit Roosevelt republican club, attended and sent to President Hoover a telegram of "congratulations and best wishes in deep appreciation of your record of the last four years and confidence of your success in November."

It was at the club gathering that Mrs. Roosevelt announced she would make the trip to Washington today by plane. She will occupy a box with Mrs. Hoover at the ceremonies tonight.

Rin-Tin-Tin Dies of His Infirmities

HOLLYWOOD, Aug. 11. (AP)—The famous German police dog actor, Rin Tin Tin, credited with saving Warner brothers from possible bankruptcy before that movie concern gave the world talking pictures, is dead after more than 13 years in the films.

Popular the world over among movie goers, the clever animal star, which earned a fortune in his career, died Tuesday morning at the home of his owner and trainer, Les Duncan, in nearby Westwood.

Death apparently resulted from infirmities of age. Rin Tin Tin was 14 years old, aged for a dog.

Mascot Pictures announced Rin Tin Tin Jr. will immediately step into his father's tracks, starting in a few days on a picture which was to have starred the elder dog.

No estimate was available on the life-time earnings of the remarkable canine thespian but the total is believed to have been around \$300,000.

The number of live duck decoys that can be legally used anywhere in the United States is limited to 25.

STATUE WILL BE REVEALED

This statue of the late James Cardinal Gibbons will be unveiled in Washington August 14 and accepted by President Hoover as a gift to the American people from the Knights of Columbus. Miss Margaret Gibbons Burke, shown in inset, of New Orleans, a grand-niece of the famous churchman, has been chosen to unveil the sculpture.

Hoover Ready With His Speech

WASHINGTON, Aug. 11. (AP)—Republican hosts rallied around President Hoover today to heed his call to arms for the 1932 campaign.

The vexing prohibition problem and moves to meet the economic situation form the substance of the keynote address Mr. Hoover will deliver tonight in formally opening his drive for another four years in office.

Republican leaders from coast to coast were assembled here for the traditional notification ceremony tonight in constitution hall and each brought a message of renewed hope to the president, born of the recent upturn in commodity prices.

Waiting to hear the last word from the party chieftains, Mr. Hoover only today completed the final text of his speech of acceptance. He has consulted, apparently, over the verbiage of the prohibition

BELGIAN NAZIS IN DEBUT AS PARTY OF 'BIG STICK'

ANTWERP (AP)—Belgium's Hitlerites have taken a page from the "big stick" philosophy of the late President Theodore Roosevelt of the United States.

When the new clan assembled in uniform for the first time at Roulers, each man in the ranks was armed with a stout club.

The new nazis call themselves "Dinazos," which is a contraction of the party's full title of "Dietsche Nationale Socialisten."

A buffet luncheon on the south lawn of the White House to the republican guests and presided over by Mr. and Mrs. Hoover was the start of the day's program. Tonight, about 8:15 o'clock, central standard time, the president will begin his address it will be broadcast by two nation-wide chains.

Miners Sign New Wage Agreement

SPRINGFIELD, Ill., Aug. 11. (AP)—A new wage scale for Illinois union coal diggers providing for the return of the miners to the pits at a daily basic scale of \$5 became effective today.

Officials of the union yesterday declared the proposal voted on at last Saturday's referendum had been approved. They then signed the agreement with the operators, making the scale effective at midnight.

The action was taken after officials had declared an extraordinary emergency existed following the reported theft of tally sheets containing the returns from 200 locals.

John L. Lewis, international president of the United Mine Workers of America, who was active in the campaign for adoption of the proposal, said the same scale would be signed for Indiana miners soon.

Russian Trade Problems Many

NEW YORK, Aug. 11. (AP)—Plans for improvement of trade relations with Soviet Russia are being discussed in important political and financial circles. Outside of the old-fashioned system of barter and exchange, however, those interested find that methods of extending further credit to the Soviet republic present perplexing problems.

While there are no official figures showing the present indebtedness of the Soviet Union to the rest of the world, last October it was estimated at somewhere near \$425,000,000. Most of this is in short term credits, principally in Germany, England, Italy, and America. Debts due American manufacturers, aggregating some \$40,000,000, are due this year and in 1933-34.

Russian exports have been sharply curtailed the past year owing

British-Canadian Pact More Likely

OTTAWA, Aug. 11. (AP)—The Canadian and British delegations to the imperial economic conference were reported preparing today to make additional tariff preference concessions in an attempt to reach a final trade agreement.

It was indicated Great Britain now was ready to accept a program whereby extensive preferences would be accorded dominion natural products, notably lumber, meat, and possibly wheat, while Canada was reported ready to go further than first suggested on iron, steel, coal and a limited range of textiles.

to the world slump in commodity prices. For some months the Soviet government has had considerable difficulty in obtaining foreign exchange. The result has been that American corporations have tightened their credit regulations or have declined to deal in other than very short short-term credits.

AGED CHICAGO MAN DEFYING GANGSTERS TO "MUSCLE IN" ON MILK WAGON MEN'S UNION

CHICAGO, Aug. 11. (AP)—Seated at his desk inside a brownstone mansion which within six weeks has become a bullet-proof fortress, a rolypoly little man of 83 years today shouted defiance to gangsters and racketeers.

"Let 'em try to muscle in on us—just let 'em try," grinned "Uncle Steve" Sumner, who for 30 years has been secretary, treasurer and business agent of Chicago's Milk Wagon Drivers' Union.

He pointed to walls paneled with armor plate, to windows covered with heavy steelmesh screens, to peepholes where men muscled in.

This newly-equipped arsenal on Chicago's near West Side is the union's answer to gangsters' proposals to "take over" the organiza-

tion, with its right treasury and 7,200 members—"or else!"

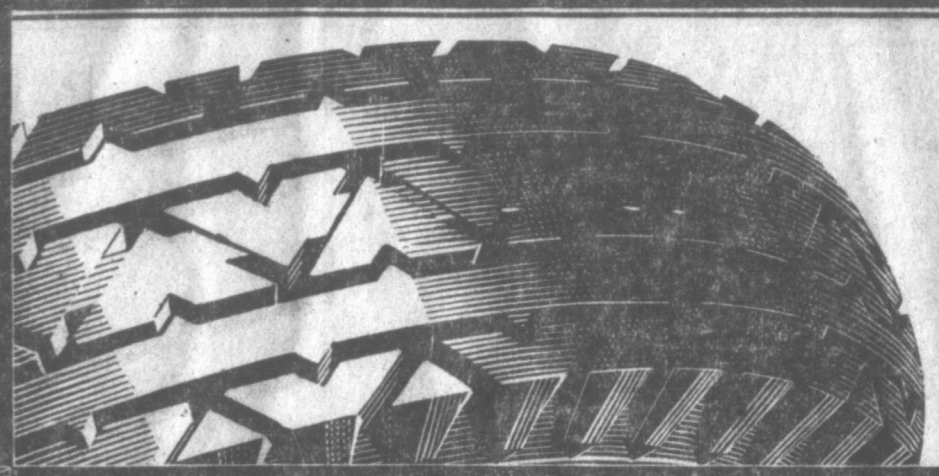

The union's decision to defy racketeers by barricading its headquarters, Sumner said, was prompted by threats received less than two months ago.

"They offered us \$100,000 to get out so they could levy tribute from our members," explained "Uncle Steve." "But we told them they had come to the wrong place."

That threat, he said, had come from Murray Humphries, Frank Diamond, Geo. "Red" Barker, and "Three Fingers Jack" White—all former henchmen of Al Capone. Barker since has been slain.

of the state. There were 10 grand officers, 11 present worthy matrons and worthy patrons, 40 past worthy matrons and past worthy patrons, and 91 other visitors.

The Pampa chapter, with Mrs. W. C. de Cordova presiding, opened the meeting presented the grand officers, and turned the meeting over to Mrs. Belle Tomlinson of Wallis, worthy grand matron, who greeted the school.

M. P. Downs speaks. Mrs. Minnie Quatroh of El Paso, district deputy grand matron, opened the school proper. M. P. Downs gave the welcome address and Mrs. Tom Stewart of Canadian, the response.

Mrs. J. A. Pearson was appointed secretary of the school and the following committees were appointed: Registration—Mrs. Artie Shepherd, Mrs. S. A. Burns, and Mrs. V. Davis.

Invitation—Mrs. Fay Montgomery, Mrs. Inez Walker, and Mrs. Henry Frees Jr.

Resolutions—Mrs. Maggie Weatherly, Mrs. Elliott, Mrs. Louise Hood, Mrs. Alline Halsey.

Examinations—Mrs. Maude Ripley, Mrs. Esther Picard, and Mrs. Rebecca Miles.

Mrs. Maude Ripley of Electra, grand examiner, drilled on the secret work and Mrs. Minnie Quatroh of El Paso, district deputy grand matron, drilled on the constitution and laws.

Continuation of the drill by Mrs. Quatroh opened the afternoon session at 1 o'clock, and means of examining a visitor, balloting, and float work of initiation were exemplified.

Gemillion presides. L. C. Gemillion of Pampa presided during the evening session which was featured by an initiation, Mrs. Neely being initiated into the local chapter.

Under the direction of Mrs. J. H. Lutz, refreshments were served by the following Rainbow Girls: Lorraine Noel, Mildred Hagard, Dorothy Brunley, Martha Jones, Katherine Snell, and Mary Louise Adams.

Go to Amarillo. Most of the grand officers went to Amarillo last night to be there for the school of instruction opening in that city early this morning.

Mrs. Ripley, however, remained overnight with Mrs. Roy Sewell, who was in general charge of the local school, and went to Amarillo this morning.

The grand officers made their official visit to Borger Tuesday night.

Those at school. Grand officers in attendance were Mrs. Belle P. Tomlinson of Wallis, worthy grand matron; Mrs. Minnie Quatroh of El Paso, district deputy grand matron; Mrs. Robby Dyer of Amarillo, deputy grand matron; Mrs. Mollie E. Of America--By America--And For America

THESE STRIKING models were among the creations presented by 16 American designers, using only American-made materials, at an advance showing of fall fashions in New York City. The pleasing street frock at left is of maroon colored homespun crepe, trimmed on the sleeves and neckline in a burnt orange of the same material.

THE AFTERNOON costume at left of the center group displayed the new drop shoulder treated with fur instead of cloth. In the center is an evening gown in a new self-printed satin, with a interesting back design. A twisted veil outlines the low cut back, converging on a cluster of velvet flowers.

THE BLACK wrap-around evening gown at right of the center group is of broadcloth, and shows the extreme desicillage typical of many of the new models. The two-piece sports dress at right attracted much attention at the New York display. It is done in rust-colored wool, with bands of gold and nailhead.

"ME GET MARRIED? I SHOULD SAY NOT--I'M GONNA PLAY GOLF"—SO DECLARES TEXAS "BABE"

FORT WORTH, Aug. 11 (AP)—Still clad in her blue sweat suit with its identifying shield of the American Olympic team, Mildred (Babe) Didrikson, Texas girl athlete who established two world records at the tenth Olympiad in Los Angeles last week, arrived here this morning by plane from El Paso.

Her baggage consisted of three javelins, one of which she had tossed to a new record of 146 feet.

"I gotta wear this outfit all day," smiled the Beaumont girl who made Virginia Bruce, an actress, portraying the part of a crippled leader's daughter in a picture of African life she was in rags and her face was stained.

John Gilbert walked onto the set and interrupted the scene.

"We're going to be married at 6 o'clock," he calmly announced.

"Oh, John," Miss Bruce began.

"Six o'clock," Gilbert, cut in.

"But there's so much to be done—"

"Six o'clock. My bungalow. Be there."

In this manner did Gilbert, the screen's "great lover," set the stage for his wedding last night to Miss Bruce. And Miss Bruce was there in 15 minutes, all washed and dressed in bridal apparel, establishing a new record for speed, if what the press agents said was true.

The wedding ceremony was performed shortly after 6 o'clock. The bride was given away by her father, Earl Frederick Briggs, Irving Thalberg, producer, was best man. Mrs. Donald Caden Stewart, wife of the writer, was matron of honor.

The marriage was Gilbert's fourth, his divorce from his third wife, the Claire actress, having become final last Saturday.

HOLLYWOOD, Aug. 11 (AP)—The film cameras were still grinding on the studio lot at 3:45 p. m. yesterday. Before one of them stood Virginia Bruce, an actress, portraying the part of a crippled leader's daughter in a picture of African life she was in rags and her face was stained.

John Gilbert walked onto the set and interrupted the scene.

PAMPA LOSES SOFTBALL GAME IN SKELLYTOWN

LARGE CROWD GATHERS TO SEE WOMEN'S COMPETITION

Pampa softball players of the Business and Professional Women's club were defeated with a score of 29-6 when they met the powerful team of Skellytown women last evening in Skellytown.

The game was the third to be played with Skellytown, the Skellytown team winning the first game and the Pampanas the second.

Several of the Pampa's star players were not in the game yesterday, and practice of the line-up in action had been scarce.

There was a good crowd at the game, and proceeds amounted to \$18.00.

No definite plans have been made for a game next week, according to Manager Gee.

THOMPSON WRITES ORDER TO PUT DANCIGER UNDER RULES

AUSTIN, Aug. 11. (P)—State oil and gas conservation officers were under orders today to place the wells of the Danciger Oil and Refinery company in Gray, Carson and Hutchinson counties under state proration.

A railroad commission order, signed yesterday by all three members, ordered that Danciger's wells produce no more than their ratable share of the \$3,000 barrel top allowable for the Panhandle field.

Danciger's wells and their offsets had been exempt from state proration under an agreement made by the commission in February, 1931, following a court action instituted by Danciger challenging the authority of the state to prorate production.

The order was written by Commissioner Ernest O. Thompson and was accompanied by an opinion based on a hearing he held at Pampa. The opinion stated that full production from the Danciger and offset wells constituted waste as defined in the new conservation statute and that the agreement entered into by the commission could not prevent issuance of orders to prevent wasteful conditions.

Other operators had protested that Danciger and the offset wells were producing nearly one-half the field allowable under the exemption agreement and that this figure would be raised when additional exempt wells were completed.

Scientist Will Fly High Again

ZURICH, Switzerland, Aug. 11. (P)—Professor Auguste Piccard decided today, because of unfavorable weather reports, that he would not take off for his second flight into the stratosphere before Saturday.

He said the final decision on whether he would make the attempt Saturday would have to depend on weather reports in the meantime. Originally he planned to make the trial tomorrow and was ready to begin inflating the balloon this afternoon.

He expected he probably would be blown southward toward Italy and arrangements were made to pick him up, even as far away as the north coast of Africa. Four red racing cars, one of them driven by Louis Chiron, noted race driver, and two airplanes are ready to follow his trail. The racing car are capable of 100 miles an hour.

Red Cross Work Here Is Important

Notices have been mailed to officers and directors of the Pampa Red Cross chapter to assemble tonight in the city hall at 8 o'clock for the annual election.

In addition, it is hoped that representatives of all organizations doing welfare work and other interested citizens as well, will attend.

Red Cross work in Pampa is of particular interest now because of the fact that its funds are being used for local relief. Furthermore, the Red Cross is receiving federal flour and cloth as part of the government's relief program.

Sister MARY'S KITCHEN

By SISTER MARY NEA Service Writer

If your salad is prepared in the cool of the morning and the lettuce washed and crisped ready to mix you will find that the meal is practically ready when you want to serve it.

Many salads must stand several hours before serving. Jellied salads usually require at least two hours to become firm and may stand for 24 hours without harm.

Frozen salads may be left almost indefinitely in the drawer of an electric refrigerator or may be left for five or six hours packed in ice and salt if the salt water is turned off occasionally to prevent it from getting into the molds.

Jellied Cucumber and Pineapple Salad
One cucumber, 1-2 tablespoons cold water, 1-3 cup boiling water, 4 tablespoons sugar, 4 tablespoons vinegar, 2 tablespoons lemon juice, 1-8 teaspoon salt, 1-2 cups crushed canned pineapple, lettuce mayonnaise, French dressing.

Wash cucumber and cut in quarters lengthwise. Scrape out large seeds and chop pulp. Squeeze lightly in cheesecloth and let drain a few minutes. Soak gelatine in cold water for five minutes. Dissolve in boiling water and add sugar, salt, vinegar and lemon juice. When jelly begins to thicken add prepared cucumber and pineapple. Turn into individual molds and let stand on ice until chilled and firm. Unmold and serve on a bed of lettuce. Pour French dressing over each mold and garnish with mayonnaise.

Frozen Fruit Salad
One cup diced fresh fruit, 1-3 cup grape fruit pulp, 1 teaspoon granulated gelatine, 2 tablespoons cold water, 2 tablespoons lemon juice, 1-2 cup whipping cream, 1-2 cup

Tomorrow's Menu
BREAKFAST: Cubes of honeydew melon, cereal, cream, baked French toast, milk, coffee.
LUNCHEON: Cheese souffle, jellied cucumber and pineapple salad, popover, milk, ice tea.
DINNER: Broiled porterhouse steak, potato marbles in parsley butter, succotash, stuffed jellied salad, ice-box chocolate roll, milk, coffee.

mayonnaise, 1-8 teaspoon salt, paprika, lettuce.
Soak gelatine in cold water and dissolve over hot water. Add lemon juice slowly and add the mixture to mayonnaise dressing. Whip cream until light and gradually beat in mayonnaise. Add fruit which has stood in a heavy syrup for one hour. Season with salt and paprika. Pack in individual molds and cover with two thicknesses of heavy waxed paper held in place with rubber bands. Man Sought For Killing of Farmer

WACO, Aug. 11. (P)—Mather McClendon, 35, was sought on a charge of murder today after the fatal shooting of M. G. Massingill, 50-year-old farmer.

Massingill was killed as he slept at his home 7 miles southwest of Gatesville yesterday. McClendon, his wife and his two small children had been living with Massingill.

One of McClendon's daughters was quoted by District Attorney Tom L. Robinson as saying she heard her father say to her mother, "I've killed Massingill, and now I'll kill you." The other girl told Robinson she saw her father and mother struggling for possession of a gun.

Bloodhounds failed to pick up McClendon's trail, which was believed to have led into the hills near the Massingill farm.

Mrs. Caraway Is Nominated Over Legion Notable

LITTLE ROCK, Ark., Aug. 11. (P)—Arkansas, the only state ever to elect a woman senator, has voted overwhelmingly to let her do some more law making.

STALE GAS IS SLOW GAS

ONLY fresh GAS PACKS FULL POWER!

TAKE the best, the fastest gas made—store it too long—and it gets slow, sluggish and feeble! Little by little, day by day, it loses pep, punch and power. STALENESS is the enemy of gasoline!

Here's why this is so... Gasoline deteriorates—loses its "light ends"—the volatile elements that make starting easy. A chemical change takes place, too—so that the longer gas is stored, the weaker it gets!

Long has the petroleum industry known this fact. Known, too, that the longer gas is stored, the stickier it gets—the more apt it is to clog valves and knock—particularly on hills.

That is why the question of deterioration has worried refiners—and why Gulf is proud to announce a system that assures you of FRESH, FULL-POWERED gasoline. It works in this way...

Gulf makes the best gas that can be produced—and refines out of this gas certain complex elements that have been discovered to cause fast deterioration. Therefore, Gulf gas stays FRESH longer.

Next, Gulf takes that FRESH-MADE gas and speeds it to you in a hurry. Huge Gulf refineries, centrally located in many sections of Gulf territory, furnish every one of the 45,000 Gulf stations with a convenient source of FRESH gasoline. Fast tank trucks speed FRESH gas to Gulf pumps every day. Get your money's worth! Get all the power you pay for. Get FRESH gas—get Gulf. Use it exclusively—your motor will be faster, cleaner, quieter.

MONARCHISTS IN SPAIN FLEE AS GOVERNMENT DOWNS REVOLT

MADRID, Aug. 11. (AP)—Spain's 34-hour monarchist rebellion was smashed by the government today with the arrest at Huelva of its fleeing leader, General Jose Sanjurjo.

The general fled from Seville shortly before 1 a. m. after his revolutionary machine, which captured the government of the important southern city yesterday, had crumbled in front of powerful concentrations of government troops which were converging on Seville from several nearby concentration points.

Civil Governor Guallo Solsona of Huelva reported a few hours later that San Jurjo was under arrest at the executive palace there. He said he was taken as he was about to enter the city. Three of his chief officers were arrested with him.

SEVILLE, Spain, Aug. 11. (AP)—Thousands of Seville citizens crowded through the streets shortly before noon today and began an organized assault on the homes of monarchists, burning houses, smashing windows and destroying furniture.

Carrying banners on which were the words "Down with San Jurjo" the marchers proceeded to the Marques Desquivel hotel, where General San Jurjo stayed before starting yesterday's revolt. They set fire to the hotel and burned it, then proceeded to the mercantile circle and jail, setting both afire.

Communists and syndicalists who were held in jail for political reasons were freed by the surging crowd, which boosted them on its shoulder and paraded through the streets.

It moved then on the houses of a number of monarchists and attacked these. All rightist newspapers were suspended, Governor Alena cautioned the crowd not to burn the churches, as it was reported the leaders planned.

Maryland Sells Bonds Over Par

ANNAPOLIS, Md., Aug. 11. (AP)—Sale of more than \$3,000,000 in bonds for one of the largest prices ever received in Maryland's history was accredited by Governor Albert C. Ritchie to the state's budget system.

The Mercantile Trust company of Baltimore and associates paid \$105.80 for each \$100 par value bond at the sale at the state treasury office yesterday. The total amount of the issues was \$3,076,000, to bear four and one-half per cent interest.

"With government securities at a discount and with other state and public securities without any market at all," Governor Ritchie said, "Maryland stands out as at least one state whose credit is beyond question."

"This is due, in great part if not altogether, to our executive budget system, which assures an adequate treasury surplus when strictly and faithfully observed. It has been adhered to, strictly and faithfully, and the result is an unimpeachable credit."

Russian Trade May Be Restored

NEW YORK, Aug. 11. (AP)—A concerted program to restore Russian-American trade to its former levels—over \$100,000,000 a year—had advanced to a point today where it was evident that the largest remaining problem to be solved was that of Russia's ability to furnish suitable guarantees for credit.

James P. Warburg, president of the International Acceptance bank, Inc., it was learned, is now in Europe where he is believed to be studying Russia's record in its dealings with European countries. In its own negotiations with New York banks, principal among them the Chase National bank, it was revealed that the Soviet government's trade and financial obligations had been met promptly and fully.

Mexico To Cancel Rich Concessions

MEXICO CITY, Aug. 11. (AP)—American interests in Mexico were preoccupied today with a prospect that President Ortiz Rubio may soon be empowered to cancel many long-standing concessions if he desires to do so.

Four decisions upholding the right of a president to cancel concessions issued by one of his predecessors already have been handed down by the supreme court. It takes five decisions to set a precedent in such cases under Mexican law and a decision in a fifth case is expected the next two weeks.

The four previous decisions have involved concessions on about 1,000-000 acres of oil land granted in 1930 by former President Emilio Portes Gil. The concessions are in Vera Cruz and Tamaulipas and are controlled through the intermediaries of the Standard Oil company of California.

Military Prisoners Escape From Fort

FORT SILL, Okla., Aug. 11. (AP)—Seven military prisoners fled from Fort Sill last night, five of them wearing pajamas.

Jesse Brown, negro, and Red L. Parker, who disarmed two sentries, commanded an Indian's motor car and later abandoned it at Elgin. They had been working under one of the guards.

The five others fled from the hospital prison ward after slugging their guard. They were at large today, presumably clad in pajamas. They are Carl L. Bellows, Zack W. Milligan, Floyd F. Brown, L. A. McCall and Leonard H. Shelton.

It was the largest break since 1929, when thirteen escaped.

Farm Chief Raps Big Wheat Pool

COUNCIL BLUFFS, Ia., Aug. 11. (AP)—Edward A. O'Neal, president of the American Farm Federation Bureau, in an address prepared for delivery today, said that through strong organization, the farmers could benefit of recent advances in grain prices, could gain economic independence and could make congress listen to their pleas.

In his address he denounced the proposed formation of a \$30,000,000 wheat pool by Arthur W. Cutten, whom O'Neal described as "a Canadian adventurer and Chicago Board of Trade operator." Cutten has denied connection with such a pool.

"I doubt if any of Cutten's prospective profits will ever reach the pockets of an Iowa farmer, or any farmer elsewhere in the United States," O'Neal declared.

HOW'S your HEALTH

Edited by the New York V. Iago Galdston Academy of Medicine

Barefoot Days
Summer is the time for going

about barefoot and in consequence for suffering a variety of injuries to the feet.

It is curious to note that among many peoples and in the pseudo-science of naturopathy barefoot walking is considered as possessing special health virtue.

Walking barefoot on grass when the dew is still upon it is believed to have a curative value for a large variety of diseases.

Undoubtedly there is some benefit in walking barefoot. Primitive races who go about unshod and Indians who wear soft moccasins

are free from many of the foot ailments to which we are subject.

On the other hand, barefoot walking has also its disadvantages.

The old Persian saying that "he who wears shoes finds the world carpeted with leather," points to the fact that the civilized man prefers artificial flooring to that indifferently supplied by nature.

Cuts and bruises are the outstanding hazard to which the barefoot walker is exposed.

These injuries require prompt and efficient treatment; for few minor injuries can prove as disabling as those suffered by the foot.

It is imperative that all cuts and bruises of the feet should be cleaned with soap and water and treated with a dependable antiseptic. A protective bandage should be applied.

Special attention should be paid to puncture wounds. A puncture wound is one made by a penetrating object.

Free bleeding is usually not common in such wounds and hence whatever dirt and infectious material gains entrance may not be

casily reached and cleaned out.

The danger of the puncture wound comes from the tetanus germ and the danger is particularly marked when the wound becomes soiled with soil dirt, especially that about farms, stables, and barns.

A puncture wound requires prompt medical attention.

A dentist in Budapest, after 12 years of work, has invented a safe designed to be "burglar-proof" by use of compressed air and a vacuum.
