Germany Seethes With Unrest After Death Sentences Are Announced

PAMPA TOPICS OF OUR CITY

Mr. Hoover, it is reported, is a pretty fair engineer, but there isn't really much you can do about landlides once they get started.

A recent poll by a Washington newspaperman showed that, according to expert opinion in each state, Hoover will get 142 electoral votes, Roosevelt, 200, of a certainty, with 118 votes still doubtful. The Literary Digest poll takes many of those doubtful votes over to the Roosevelt column. If the election were tomorrow, the original Hoover landslide would be repeated with Roosevelt as the recipient. The extent of the slide, however, will depend much upon price trends between now and the general election. There are many republicans in this country, who hold their party only when times are abnormal.

Talk about Iowa shows a growing respect for the democracy principle. His last speech went to the right spot. He will continue John Garner in interest in this section if he keeps on talking and John keeps on fishing.

The latest "forgotten man" we've seen lately was one whose wife has been out of town for several weeks. And by the way, our household manager is away too at this moment, but we were careful to buy her a round-trip limited ticket when she left. How can there be any "forgotten men" when every politician is talking about them sympathetically?

In this year of years it is unwise to take anything "for granted." We refer to the election of Ernest O. Thompson, the Amarillo red-head, which is still a matter of conjecture. Ernest has swept into the routine of the mail-road commission with enthusiasm and has spoken for the commission a number of decisions, instead of "at" it as did the Hon. Pat Neff, his predecessor. But as we infer, Ernest has a tough race and without almost solid support in the Panhandle probably hasn't a chance of being kept in office for the protection of Panhandle interests.

As a lawyer, Farmer Jim Ferguson may again prove to be just another politician. He says that the Sterling highway payment plan, which would save Gray county more than a million dollars, would be unconstitutional and that the special session is therefore "laughable." This idea was not laughable, but practical, in the states of Arkansas, Iowa, Georgia, and Virginia. The constitutions of these states and Texas are similar. The Sterling plan was advocated by the Texas County Judges and Commissioners association before the governor got behind it. To label Sterling as a dumb-bell is dangerous—he gets most of his road ideas from sources close to the people.

That Britisher Mollison, stopping his flight to avoid risks, said "I'm a married man now; I'll have to be careful. Maybe he doesn't want to run the risk of facing the wife if he cracks up on this flight."

Governor Sterling is offering rewards for proof of fraud at the election polls. According to him, we suppose it "will be a crime" to vote for Mr. Ferguson, and we are quite sure Mr. Sterling is the same thing the other way round. The North Cloyler crank says he knows it ought to be a felony to vote for Herbert Hoover for anything above the rank of dog-catcher.

Mr. and Mrs. H. F. Beatty returned during the week-end from a two-week vacation spent with relatives in Kansas City.

TWO FARMERS CHARGED

OMAHA MARKET NOT YET AFFECTED BY MOVE

By The Associated Press
Farmers striking for higher produce prices Tuesday continued an attempt to cut off Omaha from truck shipments and the movements was spreading to other sections despite authorities' efforts to quell its more violent aspects and a threat of federal intervention.

In Boone, Iowa, Truman Caldwell, and A. L. Plickinger, farmers, were under arrest, charged with malicious destruction of produce, in connection with the dumping of 230 gallons of cream from a truck.

Warning Is Issued
Sheriffs in Logan, Council Bluffs, and Missouri Valley, all in the extreme western part of Iowa, warned strike leaders that picketing must be attended by no violence, and that stopping a driver, telling him to return home, blockading a highway, and molesting any driver where offenses punishable by penitentiary sentences.

Several farmers halted a livestock train at Nacora, Neb., en route to Sioux City. They opened one car and delayed the train three quarters of an hour, but no stock was missing.

Deputy Sheriff P. Owen presented 50 farmers from pouring oil, B. H. Brandt's load of cream near Council Bluffs. During the night the wicketing farmers turned back ten truck loads of live stock, but permitted two truck loads to pass, after driving.

I HEARD--

Mr. Henry Gerhard sang the "Ah Fors E Lu!" aria from La Traviata (Verdi) the other night, and upon my word she has a voice! The most beautiful I remember hearing in the Panhandle since Gall-Currie sang at Amarillo. Under pressure, Mrs. Gerhard admitted that she once had ambitions for grand opera and studied to that end. Her voice has tone, pitch, and quality.

That candidates are now arranging to have local women distribute their cards on election day. Some women are putting a note in their services as in the last election and a few enthusiasts have agreed to do it gratis. Pampans can look forward to cardboard covered streets after the battle of cards on election day.

POLICE DESK SERGEANT SEES EVIDENCE OF BETTER TIMES

It may be a paradox of American civilization, but there's no denying it: When times are best the police are busiest, and Charlie Pipes, desk sergeant at the police station, declared this morning that the employment situation here is better now than it has been for a year. And Charlie has in his possession certain indisputable facts on which to base his opinion.

In the first place there are more people working in the oil fields now than at any time in the last year. Every morning workers can be seen leaving town in trucks for the oil fields, as they did in 1929 and 1930. The workers have more money to spend. Mr. Pipes mentioned the large crowd in town last Saturday and Sunday. After a week, workers

BATTLE OVER OIL VALUES IS STARTED HERE

County's Tax Needs Basis of Annual Skirmish Over Property Assessments.

The annual battle between the county board of equalization and representatives of petroleum companies operating in Gray county was under way this morning in the courthouse with the county commissioners conducting an offensive to obtain a valuation that will take care of the county's tax needs, and the oil companies skimming to keep their valuation as low as possible.

The hearing will last all week and probably longer. The commissioners' shock troops include Tom Cain and other employes of the Thos. Y. Pickett company of Dallas, which has already fixed the petroleum values. The oil company attorney comprises the attorneys and production and operation records. The courthouse lobbies were comfortably crowded with oil company representatives this morning.

What the county wants is a valuation large enough to take care of the tax needs. The two-million dollar road bond issue demands a big valuation. The school board's equalizing body was lucky and competent enough to hold down the certain decrease in petroleum values to between three and four million dollars. Last year the petroleum values in the Pampa independent school district amount to around \$21,000,000, but the oil companies' protests against school valuations in the past have never been as emphatic as those presented to county commissioners. They seem to be more willing to pay more school taxes than state and county taxes.

The petroleum industry is responsible for about three-fourths of the taxes paid in the county. However, commissioners have already set a date for a hearing on valuations of city and farm property. They have spent several days scrutinizing valuations of such property rendered last year, and at the public hearing to be held Sept. 1, the court will give them attention.

"Queens of Air" Get Lost Sleep

NEW YORK, Aug. 23 (AP)—The two new queens of the skies, Mrs. Frances Marsales and Mrs. Lohise Thaden, spent today catching up with some of the sleep and rest they sacrificed to set a new endurance flight record for women.

Their record making merry-go-round over Long Island ended at Valley Stream, Long Island, yesterday at 5:06 p. m. (EST), after they had remained aloft in their Flying Boudoir for eight days, four hours and five minutes.

That mark surpassed the old one of 123 hours established last year at Los Angeles by Bobby Trout and Edna May Cooper by more than three full days.

The flying matrons might still be soaring over the Curtis airport at Valley Stream, Long Island, were it not that yesterday the continuous circling became "monotonous" and the fact that they were ordered to land by Casey Jones, field manager.

Almost all of the right-of-way for Highway 152 from Pampa to the Wheeler county line has been purchased. The county has arranged to obtain money to pay for the route acreage.

CONDEMNED MEN ARE MARTYRS TO NAZI FACTION

BERLIN, Aug. 23 (AP)—Death sentences imposed yesterday at Beuthen upon five Fascists convicted of political murder brought disturbing threats of reprisal today.

The gravity of the situation was attested in the pledge of the Fascist strong man, Adolf Hitler—and that meant his powerful storm troops as well—to "battle against a government under which this (the death sentences) is possible."

Thus all eyes were focused on Chancellor Franz Von Papen and his government which promulgated the emergency decree of August 9 under which the five men were tried.

All Germany discussed the case of the quintet, three of whom were Nazi followers and two affiliates. They were condemned yesterday in a court room at Beuthen, a mining city of the Polish border, for killing a communist in the village of Potempa.

The tribunal was a "speed court," established to stamp out the violence which was taking hundreds of lives before the ballooning of August.

Trippers To Be Back Tonight

C. Herbert Walker, district Lions governor, and George W. Briggs, chamber of commerce secretary, will return to Pampa late today from a trip to north plains towns which they are visiting in the interest of a road from Pampa north. Mr. Walker is also visiting clubs at the various towns.

The Pampanians planned to spend last night at Perryton, after visiting Higgins, Miami, Lipscomb. They will visit at Spearman today. Cooperation of north plains residents in securing the road is being sought.

Applications for Notary Requested

Any individual who desires to be a notary public was asked by County Clerk Charlie Thut to send his or her application to him before Aug. 30.

Mr. Thut said such applications would be granted at the extraordinary session of the legislature which Governor Sterling has set to begin Aug. 30. Although the governor has announced that the only matter he will permit to come before the legislature is that of relieving counties of road indebtedness, it is believed that applications of notaries will be considered.

ANN HAS EXPERIENCE

ALHAMBRA, Calif., Aug. 23—A 2-cylinder motorcar ancient vintage ran away with Ann Harding, actress, yesterday during the filming of a motion picture. Jimmy Anderson, assistant director, sped after the vehicle in a modern car, stepped from it to the careening runaway, leaped out all the wires and stopped it.

The car was cranked by one of the company who did not know it was a car. Miss Harding couldn't stop it but managed to steer it clear of other traffic on the street.

VIOLENCE BETWEEN LIONS AND ROTARIANS NARROWLY AVERTED AS BIG GAME NEARS

Both Teams Spying on Secret Practices—Lions Hurler Reported Injured.

There is nothing certain about the Rotary-Lions benefit baseball game except that it will be played Wednesday afternoon at Magnolia park at 4:30 p. m.

How to curb enthusiasm, especially of the managers of the rival teams, is a current problem. Fans yesterday separated Dr. H. H. Hicks, Lions manager, and Travis Lively, Rotary mentor, when it was feared blows would fall. The argument was over the eligibility of certain players.

MOLLISON WILL WAIT UNTIL WEATHER IS GOOD

By The Associated Press
Three airplanes were speeding toward Europe from America today—two of them on an inglorious race to Oslo, Norway—and two more stood ready to go tomorrow if weather conditions are favorable.

Thor Solberg and Carl Petersen took off before dawn from Floyd Bennett field in New York, for Oslo with one stop planned at Harbor Grace, N. F. Three and a half hours later they were reported by radio that they were over Portsmouth, N. H. Slightly more than a half hour after that Clyde A. Lee and John Beckson soared aloft from a field at Barre, Vt., with the same goal—Harbor Grace and Oslo.

At the takeoff of the latter the two planes were not more than a hundred miles apart.

Later in the morning George Hutchinson and his flying family—himself, his wife and two daughters—with crew of four more left Floyd Bennett field for St. John, N. B., the first stop scheduled on a 4,200 mile, easy-stage flight to London.

Boys Eat Heartily Then Study Some

The kind of demonstration that boys like was conducted by County Agent Ralph R. Thomas last night at the home of Cleo Schaffer in the Grandview community.

First the boys made the ice cream and then they ate it—the hot drop. Afterward, they were in a mood to hear what Mr. Thomas had to say about selecting sorghum grain heads and the compilation of record books.

Boys present were the following members of the Grandview club: Gordon and Curtis Schaffer, Clarence and Tom Tidwell, Dolan and J. L. Jones, Bobbie Guy Andis, D. D. McCormick.

NOW NOTE IT'S UNANIMOUS

The Pampa Daily NEWS was among the first newspapers in Texas to urge a greater knowledge of and obedience to the election laws of Texas. Our comment, rather widely reprinted, has been re-echoed many times in recent weeks.

And now it seems to be unanimous! Sterling says that if illegal voting were abolished, he would easily be elected. Farmer Jim, in characteristic repartee, adds that had the voting been wholly legal his wife would have been elected in the first primary.

The state democratic committee has taken the question seriously, even urging county chairman to call election judges together for schooling before opening the polls. Governor Sterling has gone a step farther, offering rewards for proof of intentional fraud.

Now comes the secretary of state with a note as follows: "In an effort to forestall the repetition of the disgraceful wholesale violation of the ballot in the coming primary, we are asking the press to cooperate in giving publicity to the requirements of the election law for the selection of supervisors of the election. We enclose a memorandum of these requirements and we will appreciate it if you will bear down on this point from now until the election of August, 27."

The memorandum follows: The election law (Article 2942) authorizes "any one-fifth of the candidates whose names appear on the official ballot, on or before the day preceding the election, to agree in writing signed by them upon two supervisors of election. The two persons so selected are required to take the oath before the opening of the polls. They must be qualified voters of the county and election precinct in which they serve and subject to none of the following disqualifications:

- 1. Must not be a holder of an office of profit or trust under the United States or this state, or in any city or town in Texas (except a notary public), nor have held such an office within the last thirty days; 2. Must not be a candidate for office; 3. Must have paid poll tax.

While the election is being held they are required to remain in view of the ballot boxes until the count is concluded. When any voter permanently disabled from marking his own ballot is assisted by the presiding judge of election, they are required to be present to see that the ballot is marked in accordance with the wishes of the voter, but such supervisors must remain silent except in cases of irregularity or violation of the law while so in attendance. It is also made their duty to see that each ballot is correctly called, and if they note any fraud or irregularity whatever in the conduct of the election, they are required to report it to the next grand jury.

Candidates Are Very Cautious In Last of Campaign

AUSTIN, Aug. 23 (AP)—Texas' Democratic gubernatorial run-off campaign, with the race tightly contested between Governor R. S. Sterling, incumbent, and Mrs. Miriam A. Ferguson, ex-governor, had become even more exciting today as it entered its final week.

Because he feared the movement would be mistaken for a political maneuver, Governor R. S. Sterling quickly cancelled an order issued by R. W. Sterling, Texas adjutant general, to send rangers to "clean up" the criminal element in the east Texas oil field.

GUNMEN ACTIVE The adjutant general said that some hesitancy was felt at first in ordering rangers to the oil field on account of nearness of the primary election but that finally it was decided the situation demanded im-

mediate action to free that section of Oklahoma and Chicago gunmen and criminals who he claimed, had "been flocking to the oil field." Administration of conservation measures in the oil field has been an issue in the campaign. Governor Sterling placed the area under martial law a year ago and shut down all wells until prorogation of production could be accomplished in an orderly way at the time the field was operating without state supervision. Attempts to bring it under state control having been ignored by operators the Texas legislature was convened in special session to pass laws strengthening authority of the Texas railroad commission.

The field still is under military rule, although personnel of the Texas national guard sent into the area had been gradually reduced until only a few men now remain. The railroad commission for several months has been administering the conservation statutes in cooperation with the military.

Denies Charge The governor's motives in placing the field under military rule had been challenged by some. It was alleged he acted on behalf of major oil companies. In his campaign, which he prosecuted through the east Texas field last week, he had denied that he befriended the big companies but asserted he acted to preserve interests of the small independent operators.

He claimed that he had not been petitioned by a single major oil operator in the field to shut it in through his military powers. On the other hand, he has told his audiences that the independent operators petitioned him solidly to resort to stringent measures to conserve the oil and protect their interests.

The governor has posted a reward of \$500 for evidence leading to arrest and conviction of any primary official violating the election laws at the August 27 run-off primary by accepting illegal votes and \$100 for conviction of any ineligible voter who knowingly breaks an election law by marking and causing to be counted a ballot.

Mrs. Ferguson, aided by her former governor husband, James E. Ferguson, planned to finish up the campaign with speeches Tuesday night in Dallas, Wednesday night in Athens, Thursday night in Den-

ton and Friday night in Greenville. Governor Sterling was booked to address a rally in Houston, his home town, Monday night. His itinerary for the balance of the week, up to primary day, had not been announced.

It was expected the American woman would be asked to leave the country.

GERMANY— (Continued from page 1)

31. The men were defended by the personal attorney of Hitler, and when the sentences came, a riot ensued. Beuthen was quiet today under the vigilance of steel-helmeted police and the rest of Germany was eager to see what the government would do in this new crisis. It was generally considered unlikely the five ever would be gullied, but the chancellor was confronted with the most difficult of questions in that he must decide very soon to commute one or all the death sentences to life imprisonment or quash the verdict as demanded by the Nazis. The government is the final judge under the speed court emergency decree, which eliminated the long delays of appeals. The nationalist press pointed to the loophole permitted by commutation and cited the fact that the slaying occurred only two hours after the August 9 decree was promulgated. It is considered likely that this would be the grounds for retrial or revision of the sentences. Indicative of the way the Nazis were taking the court decision was Hitler's telegram to the condemned men, which read: "My comrades, in the face of this most monstrous blood sentence, I feel bound to you by limitless fidelity. The freedom of each of you from this minute on is a question of our honor. To battle against a government under which this is possible is our duty."

MUNICH, Germany, Aug. 23 (AP)—In a dramatic appeal to his followers, Adolf Hitler, the Nazi chieftain, today announced the beginning of a fight to save the five men condemned to death by a Beuthen "speed" court and relentless opposition to the von Pappen government. Asserting that the Nazis would be able to "finish" the von Pappen government, the brown-shirted leader declared: "My German comrades, you will now understand why I refused to enter a von Pappen government. Herr von Pappen, your bloody objectivity does not exist for me. I am not suited to become the executioner of patriotic fighters for freedom. The verdict was a stupid provocation. Mrs. Hill Favored To Win Western

PEORIA, Ill., Aug. 23 (AP)—Medicalist and owner of a new course record, Mrs. Opal S. Hill of Kansas City was more than ever the favorite today to win her second straight women's western golf title.

Mrs. Hill led the field away in the qualifying round yesterday with 75, a stroke better than women's par and five strokes under the tournament record established by Mrs. Lee Mida of Chicago several years ago. Just back of the Kansas City star came Mrs. J. Waifer Bayer of Tulsa, Okla., holder of the Oklahoma state championship, who carded a 77.

Mrs. Hill's opponent today was Marion Callahan of Madison, Wis., who qualified with an 88. Mrs. Bayer was matched against Mrs. J. W. Clapp of St. Paul, who also shot an 88.

FINE IDEA—BUT EVANSTON, Ill., Aug. 23 (AP)—Evanston automobile dealers think it's a fine idea to teach women to drive cars—as long as somebody else's machines are used. They flatly refused to lend their automobiles to 58 women so they could complete a practical course in driving given by Frank Kreml, head of the bureau of accident prevention.

"I don't see why," said Kreml, "we take these women out in their Center where there aren't any lights, posts or trees or old buildings to crash into."

BUS DRIVER HAS HARDSHIPS AS WELL AS FUN—NO MONOTONOUS MINUTES IN HIS WORKING DAY

(By a Staff Writer.)

Nothing exciting, of course, but it really is a pleasant diversion just to sit on a comfortable bus seat and watch the nature of a bus driver. Bus driving is a profession just the same as other means of livelihood and the people who follow it have their characteristics professionally and individually just as a doctor is usually calm, a lawyer usually argumentative and a school teacher a bit precise.

Now my idea of a bus driver always had been that he was simply the man who drove from town to town drinking a coke at every stop. What a monotonous life! But would you believe it, on my last trip I didn't see a single driver drink a coke! Drinking coles was the only professional characteristic I saw in mind for a bus driver, and it seems that one has gone out of style.

Usually take a lot of training to be a bus driver. The first one I rode with after leaving Pampa, was within this line. He kept a speed of exactly 40 miles an hour, and the speedometer arrow didn't move an eighth of an inch for miles and miles. That driver was pretty good, all right, but he didn't compare with the second driver, whose speedometer wasn't working. Someone told him he probably couldn't tell how fast he was going, and he returned, "Oh, can't I?" kind of wise-like as if to say "Do you think I'm an amateur in my line?"

And it proved that the driver was right. He made every station exactly on the minute, even after taking out three minutes to fix a flat. Imagine fixing a flat in three minutes! Yes sir, that man was pretty good.

HARDSHIPS OF DRIVER.

The bus driver has lots of hardships, just like anyone else. In the first place, he never knows how many passengers to count on. One driver declared: "The other day I took out a 25-passenger bus and had three passengers. Today I took out a big automobile, and took 11 passengers. The people are nearly spoiled out. Of course I don't mind holding one of the children."

And there are those people who want all kind of favors. A lady asked the driver to go out of his way to take her by home. A man wanted to get out and run around at every stop. Another woman wanted the driver to hurry and get to the stop a little before the scheduled time. Imagine!

When bus drivers must have stiff necks, twisting straight ahead all the time except when they stop at railroad track and look both directions to see if a train is coming. And there are many miscellaneous hardships. For instance, one driver has his spectacle case clamped to the front of his car. He was a bit careless in putting his glasses into this case, allowing one end to extend out. And would you believe it, the man sitting on the front seat with the driver allowed his burning cigar to touch that celluloid part of the glasses and before anyone knew it, the "specks" were in flames!

And Pleasures, Also.

Of course there's a lot of fun connected with driving a bus. In the first place, there's that big, loud horn which is the delight of small boys and their grown-up brothers. A bus driver will blow this horn loud and loud at every opportunity. Kind of proud-like, you know.

A bus driver has friends at every stop—and between stops, too. There is a certain speed cop, for instance, who turns on the light of his motorcycle every time he meets one of bus drivers. That's his method of saluting. And there's another bus driver who is saluted daily by the driver of "the doodle bug" that "clever little train without an engine" by means of the shrill whistle.

All of the bus drivers seem to take careful note of the crops. Pointing to a field, a driver said, "The man who owns that place planted four times before he got a crop."

Another driver remarked, "These are the finest crops I've ever seen. That rain surely was needed."

What's O'kay?

Which reminds me of the man that asked the driver, "What do they do with all this o'kay they are growing here?" First, the driver looked puzzled. Then he laughed. "That's not o'kay," he explained. "That's cotton."

One driver prided himself on being able to tell a person's vocation after watching him a little while. "There's one profession I always know right," he said. "I always know a nurse when I see one."

His Philosophy.

A bus driver has a philosophy the same as anyone else. One of them spoke in this way as he glanced at some unusually fine crops: "A land of plenty, and people going hungry. There's something wrong, but it isn't overproduction. Small production is a quick cure for the depression."

"One trouble is with the people themselves. They don't look ahead. I was trying to look ahead when I bought 500 cans the other day and arranged with a woman to can me some food on the halves. I expect to spend \$25 on canned food before snow and frost. And that will last all during the winter. I'm going to get a cow, too, so we'll be sure to have plenty of milk and butter."

Times Are Better.

Asked about business conditions in the Panhandle, one driver said: "Things are really picking up in the towns I go through, and our business has increased 25 per cent in the last 30 days."

"No," was his answer to the question, "Are there more hitch hikers that there used to be?"

"Ho-ho-ho! Prosperity must be right around the corner sure enough this time."

Sister MARY'S KITCHEN

By SISTER MARY, NEA Service Writer.

New developments have been made in home canning methods, providing definite information and leaving little to luck. The condition of vegetables and fruits, perfect sterilization of equipment and accuracy in following directions have been recognized as important factors in successful canning.

The cold-pack method has been replaced by the hot-pack to give the best results. Fruits and vegetables are pre-cooked a few minutes before packing in jars. This pre-cooking shrinks the vegetable just as the old method of blanching did, but it also makes for uniform temperature throughout the can. When dense mixtures were impossible for heat to penetrate to the center of the can. Consequently the food was not heated to a temperature high enough to destroy all living organisms, and spoilage was almost certain to occur.

Canning Corn

Choose corn which is young and tender. "In the milk." Be sure that it is not allowed to heat in a large bulk. Several dozen ears crowded into a burlap sack and carried around in a hot truck for an hour will not be in good condition for canning.

Cut corn from cob, add boiling water to cover and bring to boiling point. Boil three minutes and fill prepared jars to within one-half inch from the top. Add one teaspoon salt and one teaspoon sugar to each pint jar, half seal and process in hot water bath for three hours. Count the time after the water begins to boil hard the second time. The packed jars will lower the temperature and it will take several minutes for it to reach the boiling point again.

If two teaspoons lemon juice are added to each pint, process for two and one-half hours.

Process for 80 minutes at 15 pounds pressure in steam pressure cooker.

Remove from hot water at end of processing period and finish sealing. Cool quickly. In the pressure cooker turn out heat under cooker at the end of the processing period and let stand until gauge has reached zero. Then remove cans and finish sealing.

Canning Green Beans

Wash beans and remove ends and strings. Cut into diamonds or leave tiny ones whole. Put into boiling water to cover and boil hard for five minutes. Pack loosely into hot jars, adding water in which they were cooked to cover. Add salt, 1-2 teaspoonful to each pint, half seal and process in hot water bath for two and one-half hours. Process 40 minutes at fifteen pounds pressure in pressure cooker.

Limas Beans

Crude Output Is Down for Week

TULSA, Okla., Aug. 23 (AP)—A midmonth drop of 26,800 barrels in Oklahoma with slight revisions in other producing areas brought the total crude oil output of the United States down 27,011 barrels in the daily average, the Oil and Gas Journal says.

United States production was 2,101,099 barrels, the lowest since the week ending July 5, when production slumped to 2,098,514 barrels.

Oklahoma production was down to 380,265 barrels from 416,895 barrels.

California output dropped 750 barrels from last week's 475,000 barrels.

Texas production held virtually steady at 826,056 barrels. The average for the previous week was 829,441 barrels. East Texas was up 9,063 barrels at 328,798 barrels daily.

Eastern fields declined 1,000 to 114,600 barrels. Rocky Mountain output was up to 75,770 barrels from 72,926 barrels. Kansas production increased to 93,215 from 92,740 barrels.

ROUGH-RIDING ROOSEVELT

Here's John Roosevelt, youngest son of the Democratic presidential nominee, all ready for a gallop on the snow-white mount presented him by Democrats of New Mexico upon the occasion of his visit to Albuquerque. Beside him is Mayor Clyde Tingley of Albuquerque, who for good measure of hospitality, threw in the ten-gallon hat on John's saddlehorn.

DENTIST HAS ELEPHANTINE TASK

The dentist's usual request to "open wider, please" was hardly necessary when an operation was performed to remove two aching molars from the mouth of Maud, aged elephant of an Atlanta, Ga., zoo, the other day. It was a job for three men instead of one, as this picture shows.

FAMOUS PAINTING IS SLASHED

Here's what the Angelus, Millet's world-famous masterpiece, looked like after a young Parisian engineer suddenly had whipped out a pocket-knife in the Louvre and slashed the painting before guards could overpower him. Note the lines where the knife cut the canvas. The youth explained that he wanted to call attention to the fact that he was unemployed.

Mexicans Turn Back to Homes

MEXICO CITY, Aug. 23 (AP)—The number of Mexican repatriates returning to Mexico from the United States has dwindled noticeably this year as the United States has been drained rapidly of the hundreds of thousands of Mexicans who migrated to the United States in the boom years prior to 1929.

The department of the interior today announced 36,823 Mexicans returned to Mexico from the United States in the first five months of this year, as compared with 250,000

who returned to Mexico during 1931, when the movement reached its height.

TIRED OF DELAYS

BROWNSVILLE, Aug. 23 (AP)—The Brownsville chamber of commerce today asked Arthur M. Hyde, secretary of agriculture, when arrangements would be completed for making fall crop seed loans in the Rio Grande valley.

"Although we feel you are anxious to help, delays in making farm seed loans available are having the effect of denying this section any benefit from the farm relief act," the chamber's message said. "This section is now planting 8,534,499 acres."

POLITICS at random

By BYRON PRICE (Chief of Bureau, The Associated Press, Washington).

The Socialist party hopes for great things this year. Its presidential candidate, Norman Thomas, will make a nation-wide campaign. Headquarters in Chicago is turning out copious publicity.

Discontented republicans and democrats will be welcomed, whether they believe in socialism or not. Some are reckoning the 1932 socialist vote in millions. The party polled 94,788 in 1900 and climbed to 919,799 by 1920, the last year Eugene V. Debs was the nominee. Then the total dropped, and in 1928 was 267,420.

Before election day, the voters may be asked to brush up on international politics in the Far East. The League of Nations commission investigating the Manchurian muddle will report this autumn, and its findings will put the Hoover policy toward Japan back into the headlines.

Silent Coolidge

A long-time friend of Calvin Coolidge, who has just visited him, thinks the former president will be little heard from during the campaign. No one questions his support of the republican ticket, but he has ideas of his own about the golden qualities of silence, particularly for ex-occupants of the White House. Probably the record of Coolidge campaign speeches will approximate that of the other campaign years since Mr. Coolidge retired from party leadership, to wit: In 1928, none; in 1930, one.

The recently-formed non-partisan committee which is parading such names as Coolidge, Baker and Fehring in the interest of governmental economy is attempting one of the world's most difficult jobs. Governmental reorganization has been advocated for years by President Hoover. It probably will be made a prominent issue by Governor Roosevelt. It is one of those things everybody is for, but nobody ever seems able to do much about.

Strange Ways of Politics

The strange ways of New York democratic politics appear to have thrown Franklin D. Roosevelt and Alfred E. Smith once more into a sore alliance against the old guard of the party. They both are counted supporters of Herbert H. Lehman for Governor, while the candidacy of John Boyd Thacher is mustering support from various county leaders of the old school who saw their power wane when Smith introduced at Albany the non-organization regime perpetuated by Roosevelt. The result will be worth watching.

Vic Donahues promised return to the political wars in Ohio whets the curiosity of those who would like to know whether champions really ever come back. At the peak of his popularity, Donahues probably had as large an independent following as any man in the history of Ohio politics. A militant dry, three times elected governor on the democratic ticket, he kept very, very still in 1928. Now he emerges from retirement to support the democratic

At Oklahoma to the list of battle sectors where the political campaigning will be easiest this year. Just as New York and Ohio promise to be special storm-centers of east

and middle west, Oklahoma probably will see the hardest campaigning of the border strip. The state has been democratic since the republican in presidential elections but this time the democrats are divided over "Alfalfa Bill" and his success and there has been much editorial protest at the democratic repeal plank.

BROWNWOOD, Aug. 23 (AP)—Brownwood will have no more Sunday shows. In a special election yesterday citizens voted by a majority of 85 to prohibit Sunday shows, and the city council will pass an ordinance in accordance with the mandate of the majority. The vote: For, 645; against 710.

YANKS NEVER SHUT OUT THIS YEAR, MAY SET MARK

BIG GUNS ARE BETTER EVERY DAY RECENTLY

LEFTY GROVE HITS ONE OUT OF PARK SCORING 2

By GAYLE TALBOT

Associated Press Sports Writer
It seems likely the Yankees, in addition to winning the American league flag in a canter, will go right on and round out the campaign without having tasted a shut-out defeat.

They have scored at least one run in each of their 119 engagements to date and, with the big guns of their attack, Ruth and Gehrig, going better every day, opposing pitchers apparently face a hopeless task in trying to blank Joe McCarthy's sluggers.

No big league club ever has completed a season without at least one shutout and only two, Pittsburgh of 1901 and the Yankees of 1927, have had the minimum of one white washing. The Yanks have only 36 games to go to crack the record.

Irving (Bump) Hudley, journeyman righthander of the St. Louis Browns, came near applying the brakes yesterday when he set the leaders down, 5 to 1, on four widely scattered hits. Earle Combs saved the day for the Yanks when he tripled in the first inning and scored on an infield out. After that, Hudley was invincible, even though he issued eight passes.

The next most startling performance was that of Lefty Grove in piloting the Athletics to an 8 to 1 victory over the White Sox. In addition to pitching very high class ball he belted a homerun with two aboard and scored two runs.

Fred (Frip) Marberry of the Washington Senators turned Cleveland back with one hit, a single by Dick Porter in the first inning, and beat the Indians, 4 to 0. Only four men reached first base off the Senator star, the other three, on walks.

Tom Oliver's double in the ninth inning with two on base gave the Boston Red Sox a 6 to 5 triumph over Detroit.

The Chicago Cubs went three full lengths ahead of the field in the National League by trimming the Phillies, 8 to 4, while Brooklyn was idle and Pittsburgh was splitting a pair with the Giants. Billy Herman led the Cubs' attack on Rhem and Berry with three hits.

Here Meine allowed but five hits in pitching the Pirates to a 6 to 1 win over the Giants in the first tilt and was helped along by Adam Conroy, who hit a homerun with two on base. The Giants took the nightcap, 4 to 3, when they got to Chagnon for two runs in the sixth inning. Waite Hoyt went the route for the winners.

Boston and St. Louis likewise broke even, the Braves slugging Derringer and Haines for a 7 to 2 victory in the first and the Cardinals taking the second, 3 to 0, as Tex Carleton gained his second triumph of the series.

Marksmen Will Shoot for Title

VANDALIA, Ohio, Aug. 23. (AP)—With the class championships out of the way, marksmen from all parts of the country today vied for one of the most coveted prizes in trap shooting, the North American Clay Target championship for both men and women.

Included on today's program of the 33rd annual grand American tournament was the team race between the East and the West. Teams will be selected from the high shooters in yesterday's class championships.

Karl Maust of Detroit, Mich., and Miss Jeannette Jay of Waverly, Ia., were the North American title holders last year. They will defend their titles. Maust slipped badly in the class championship yesterday, making only 174. Miss Jay arrived late yesterday and spent her time on the practice traps.

Two world trapshooting marks went by the boards yesterday in the class championships, the first when five shooters turned in perfect scores of 200 targets. The second occurred when K. M. Leach of Calgary, Alberta, one of the five perfect marksmen, captured the class B title. It was the first time in history that this title had been won with a perfect score.

This was the second title ever won by Leach. He captured the prize at the Banff Winter Carnival shoot last winter.

Rangers In East Texas On Raids

LONGVIEW, Aug. 23 (AP)—Texas rangers are at work again in the east Texas oil field.
A squad under Captain Tom Hickman arrested about 60 men in raids at Gladewater and Kilgore Sunday night and last night. The Rangers worked so quietly that their activities were not known generally until some of the prisoners were brought here last night. Among the men arrested were two bank robbery suspects.
Several prisoners made cash bonds and were released.
Over the week-end Adjutant General W. W. Sterling ordered about 35 rangers from other parts of the state into east Texas, hoping to halt crimes of violence. Governor R. S. Sterling countermanded the order, fearing it would be interpreted as a political move. There had been complaints of widespread illegal voting in Gregg county at the first democratic primary.

GRAY COUNTY'S ENTRY TO PLAY DOUBLE-HEADER

BORGER, Aug. 23 (Sp)—The Oklahoma City Magafoos baseball team loomed as potential champions here yesterday when they defeated the Texola, Okla., Wildcats, 8 to 2. It was Texola's first loss.
In another game, Dumas defeated Panhandle 9 to 3.
Today's heavy schedule was to include a double-header with the Pampa-LeFors team meeting Panhandle and the Magafoos. Much interest was attached to the Panhandle-Pampa-LeFors contest. Neither of these teams has yet won a game. Pampa-LeFors must win one of the games to stay in the tournament, and that victory, on paper, must be over Panhandle. Four losses eliminate an entrant.
Phillips 66 and Dumas also will play today.

Ranococ Stock Is Being Dispersed

SARATOGA SPRINGS, N. Y., Aug. 23 (AP)—One of the greatest racing establishments in history—Harry F. Sinclair's Ranococ stable—is being broken up by a dispersal sale.
The first half of the Ranococ stock—19 yearlings and 21 brood mares—was auctioned last night and brought \$41,125, an average of \$1,028. The other half will be sold tonight with the exception of the famous stallions Zev and Grey Lag, which Sinclair expects to keep.
Sinclair's stable won 698 races and earned \$2,105,461 in 10 1/2 years and a large crowd, both fashionable and expert, gathered in the auction paddock to see the stock sold.
The Greentree stable paid high price of the night, \$6,700, for the famous mare, Nedana, winner of 16 races and \$29,535.

Fifty Harvesters in Suits

Thrills and old-fashioned goose pimples stood out on the epidermis of Harvesters football fans yesterday when they learned that Coach Odus Mitchell, full of California and Notre Dame football cunning, checked out uniforms to 50 aspirants to the Harvester eleven. They were even more thrilled when they learned that ten more boys would be given uniforms today.
Fifty the first day! That sounds preposterously good! Look out Amarillo!
Those were some of the exclamatory reactions to the news. The curb stone coaches began having visions again yesterday. They talked it over in the drug stores, the cafes, the stores.
Had the seen the half hundred youngsters who awkwardly carried away uniforms they would not have been so optimistic. Coach Mitchell has a lot of beef and brown that he may or may not twist, beat, bend, and weld into a dynamic machine—enough to sink Amarello and slay Lubbock. The fans have confidence in the coach. History will repeat itself—he has done it in the past with less material and he can do it again. That was a remark heard frequently.
The coach himself was not pessimistic but he was not optimistic. He pointed out that half of the 50 were mere babes in the woods, but reminded his hearers that about 30 of the 50 look pretty good. The 30 contained plenty of beef. Whether any speed will develop remains to be seen. He could not tell much about his prospects yesterday; neither could anyone else.
A hint of the quality of the 1932 Harvester material will show up this afternoon when the boys will be put through limbering up exercises. These will get stiffer every day. Some of the boys have stomachs on them. Some are puffy. Some have smoked too much. Most of them are soft. The boys will go into training tonight and they will stay in training until the season ends, or else. That's what the coach says.
Three boys the coach is banking on did not show up yesterday. They are H. L. "Chicken Creek" Ledrick, Phillip Powell, and Carl Smith, but they are due to call for uniforms today or later in the week. Powell, who showed up well in spring training has not arrived.
Harvesters who reported yesterday were Wayne Kelley, Leon Robinson, Dick Sullivan, Sam Turner, Ray Eldredge, Earl Cooper, Preston Owens, Bill Haner, Monroe Owen, Herbert Reynolds, Miles Marbaugh, Lloyd Hamilton, Clinton Adair, Walter Heard, LaFon McKenzie, Barney Buffington, Ralph Williams, Russell Turner, Frank Faulk, Bert Stevens, Siler Falkner, Clovis Green, Reg Brown, Ed Johnson, Raymond Elkins, Wiley Reynolds, Bill Kelley, Fred Mason, Shorty Combs, Teeny Reynolds, Gertis Schmidt, Jack Price, Garmon Howard, John Plank, Jess Patton, Hoot Fullingim, Leo Salsbury, Rufus Walker, Jim Pool, Jack Benton, Orville Heiskell, Ernest McDuffie, Robert Woodward, Harry Nelson, Glen Stocum, Clinton Evans, J. Coach Faces Huge Task as He Starts Change of Beef Into Speed and Skill

Baseball Chatter

The game is inconsistent. The Tigers are farther away from first place in the American League—in point of games—than are the Reds in the National league. Yet Bucky Harris is considered a very hot-shot manager, while there is talk in Redland of removing Dan Howley as chief.
The Simmons Situation
They are booting Al Simmons in Philadelphia whenever he comes to bat. It seems to be the idea of Philadelphia fans that since Fox has become so successful, Simmons is sulking in his tent. But Umpire Will McCowan tells me that never did a man try harder to regain his greatness than Al Simmons has tried this year.
It's a Warning
Simmons' situation seems to be a warning to the young ball player who might be inclined to let his head swell after the performance of some remarkable deeds. The downfall of Simmons this year is about the swiftest plunge a star of his brilliance ever has taken and the most unexpected.
Joe Must Know Better
Along the baseball grapevine comes the word that a certain American League manager whose team is leading the league by a substantial margin seems to be inclined to let the success of his athletes turn his head. That surely wouldn't be Marse Joe McCarthy, would it? At least, not the McCarthy I used to know.
Yankees Are a Cinch
The Yankees were in front with a lead of 10 1/2 games on August 17. Suppose the team played 500 ball from that day to the end of the season. Cleveland then would have to win 30 out of 40 games to gain a tie. It appears to be impossible.

GOLFERS ARE VERY CLOSE IN BIG MEET

STANFORD SENIOR HITS MAGIC SHOTS TO LEAD

By PAUL MICKELSON
ROCKFORD, Ill., Aug. 23 (AP)—A stampede was on today for qualifying berths in the western amateur golf championship tournament.

Finding the range of the fairways and traps with almost unerring accuracy yesterday, the field was so close that it looked like a pair of 75's in the 36-hole test would be the highest limit to clinch a place among the 32 who will continue the battle for the crown now worn by Don Moe of Portland, Oregon. Moe was the only safe man in the record field of 178 starters, automatically qualifying as champion.

Harry Elcheiberger, Stanford university senior, was out in front of the closely bunched field in the medalist campaign. Banging magic pitch shots, he toured the championship Rockford country club stretch in 36-34-70 to clip par by one shot. Two Chicagosans of note, George Dawson and Johnny Lehman, pressed him with 71's while six others, including shotmakers like Gus Moreland of Dallas, Texas, and Dick Martin, Chicago district champion, trailed with 72's.

A fearful eye was cast toward the twelfth hole, a long uphill stretch blossoming into a long narrow and dangerous green.
Many found their nemesis on that hole yesterday, notably Dawson, who came to that spot three under par, got tangled up with the traps and wound up with a seven. Rodney Bliss, Nebraska state champion, took an eight.

The only semblance of an upset in the first day's round was the play of Keefe Carter of Oklahoma City, former champion of the event. Carter, playing with Elcheiberger, took an 80 and followed through by taking a train for home.

Playground Loop Managers Will Adopt Rules And Make Season Schedule.

Stratton May Try To Become Local Champion

Walter Stratton, who is matched with Roy Welch for one of the events of Pla-Mor wrestling program Wednesday evening, is a potential local champion.

Very popular in Amarillo, Stratton likely would prove as popular here if he were to conquer Welch in the semi-final. Stratton, a youngster, was knocked out recently by Ligosky in Amarillo, but up to that time had been the aggressor.
The main event will bring together Roy Roy and Sammy George. It is George's idea. Sammy was dissatisfied with his disqualification last week and asked the right to meet Roy, the current local champion.

Ladies will be admitted free. It is believed they will enjoy seeing Stratton, the handsome matman, in action.

LEADERS WIN TO KEEP PACE IN HOT RACE

OSCAR FUHR GETS NO. 18 WITH SWEEPING CURVE

By BILL PARKER, Associated Press Sports Writer.
Dallas and Beaumont breezed in with victories last night to leave first and second place in the second half pennant race intact with Dallas leading Beaumont by one full game.

The Steers enjoyed a slugfest against San Antonio, getting fifteen hits for a 11 to 4 victory. The veteran Oscar Fuhr, a southpaw with a wide, sweeping curve and a hop on his fast one, won his fifth straight and his eighteenth game this season for Dallas. Oscar worked with a big lead most of the game and never tightened up. Dallas collected fifteen hits off Sackett and Tarzan Danforth. Five errors by San Antonio made the game listless after the third inning.

Smarting from their double defeat Sunday, the Beaumont Exporters bombarded Paul Gribble and Roy Appleton of Fort Worth for a 6 to 2 decision. Luke Hamlin pitched for Beaumont and stopped the Cats four-game winning streak with nine hits. Henry Greenberg, Beaumont first sacker, clouted his 32nd home run this season.

After losing a 15-inning game Sunday, Houston returned to lose another extra inning game yesterday when Longview nosed out the Buffaloes, 4 to 3 in 11 inning.

After Galveston had scored five runs in the first inning, Tyler came back to beat the Buccaneers, 9 to 5, seeded third among the foreign players.
Jack Tidball and Elbert Lewis, the Los Angeles combination, opposed Ed Feibleman of New York and Jake Hess of Fort Worth, Texas, in another match. Feibleman and Hess provided the only upset in yesterday's play in their defeat of the fourth foreign seeded team, J. S. Olliff and E. R. Avory of England.

TWO PARTIES ARE ARRANGED BY METHODIST WOMEN

Vacation Visits Make August Days Pleasant Ones for Pampa Residents

GUEST DAY TO BE OBSERVED IN SEPTEMBER

YOUNG PEOPLE TO BE ENTERTAINED BY W. M. S.

Initial plans were made by the First Methodist W. M. S. yesterday afternoon for two parties to be held in September. One will be for the young people of the church and will be held on the first Friday evening in September. Committees are to be appointed to work out the details. The other will be given for which the exact date has not been set. It will take the form of a luncheon, with all women of the church invited. Mrs. C. T. Hunkapillar is in charge.

The meeting was opened with a song, and Mrs. Hunkapillar led in prayer. Another song followed. Then Mrs. Joe Shelton led a devotional based on friendship and taken from John 5:12-17.

"Call Me Gently Home, Father" was sung as a duet by Miss Doris Price and Miss Dorothy Dodd, and Mrs. Price played the accompaniment.

Mrs. H. T. Wohlgenuth read a paper on "The Need to Re-discover Prayer," after which Mrs. H. B. Carson spoke on "Christ in China."

It was decided to buy clothing for needy children of the church before time for them to enter school, and an appeal was made to those who have clothing they can spare to call 381, and some one will call for the articles.

The group voted to give \$5 to the Red Cross.

MINISTER WILL SPEAK IN CITY THIS EVENING

YOUNG PEOPLE TO BE DISCUSSED AT CHURCH

How to safeguard the children and youth in this time of unusual temptation is the subject announced for discussion by J. F. Smith of Basel, Kan., this evening at 8:30 o'clock at the Pampa Church of Christ. The public is invited to attend.

Mrs. Smith has had long and successful experience in religious work with young people and has studied the home influence problem from every angle. He held evangelistic meetings in the North Plains many years ago.

Pianists Will Give Program

Mrs. May Foreman Carr and Mrs. Ramon Wilson, local pianists will present a concert tomorrow afternoon at 3 o'clock from station KGRS. Mrs. Carr has given radio programs each Wednesday afternoon for several weeks and has been assisted by various local musicians.

My Beauty Hint

By CLAUDETTE COLBERT
My beauty hint has to do with the eyebrows. I think every woman should have as part of her beauty equipment a soft lead pencil and a small stiff-bristled brush. I use both regularly and believe they improve the looks of my eyebrows very much. I apply the brush twice daily to keep by brows trained into their natural arch and to put straying hairs in place. I use the pencil to lengthen my brows, applying it very carefully. After that I draw my finger over the brow as a finishing touch.

IT'S MAN'S WORLD, SHE SAYS

Women are out of place in business, says Mrs. Charles Ringling, and this despite the fact that she has operated one of the country's largest circuses the summer. Mrs. Ringling, 62, is the first woman to take a major "big top" on the road.

CHICAGO (AP)—Even though she's helress apparent to this country's largest circus properties—

Even though she now is in direct command of one of the nation's largest "big tops"—

And even though she has acted as circus ticket taker, has traveled nearly every summer with the circus, and has faced all kinds of emergencies in her work—

Still Mrs. Charles Ringling insists this is a man's world and should be run by men.

The 62-year-old widow of one of the five Ringling brothers who started their exhibiting career with an animal show in Baraboo, Wis., in 1883 is the first woman in history to take a major circus "on the road." John Ringling, last of the brothers, is in poor health.

PLAY TOGETHER FOR SUCCESSFUL MARRIAGES, ADVISE SCIENTISTS; GIVE CHIEF CAUSES OF FAILURES

By HOWARD W. BLAKESLEE, Associated Press Science Editor.
NEW YORK, Aug. 23 (AP)—Mistakes in love-making, bad home-making, and "failure to use leisure time constructively" were blamed for American marriage failures today before the third International Congress of Eugenics.

The three points summarize the intimate experiences of one of the few marriage-counseling bureaus in the world, the Institute of Family Relations of Los Angeles. Paul Popenoe, director, presented the findings.

Many Love Difficulties.
Not every love-making difficulty leads to a broken home, he said, but in "our experience" almost every such home is preceded by one. And "several studies agree in suggesting that at least in the educated part of the population" these difficulties exist "in 25 per cent or more of marriages at any one time."

Mr. Popenoe advocated more sound education about marriage and parenthood and said: "Unfortunately, the trend of education during the last generation has been unfavorable because the dominance of a doctrinaire feminist point of view has led to a depreciation of the differences between the sexes and frequently to ignoring them or denying them altogether."

Desertion Feared.
In bad home-making there are

YANKEES, NEVER SHUT OUT THIS YEAR, MAY SET MARK

BIG GUNS ARE BETTER EVERY DAY RECENTLY

LEFTY GROVE HITS ONE OUT OF PARK SCORING 2

By GAYLE TALBOT
Associated Press Sports Writer
It seems likely the Yankees, in addition to winning the American league flag in a game, will go right on and round out the campaign without having tasted a shut-out defeat.

They have scored at least one run in each of their 119 engagements to date and, with the big guns of their attack, Ruth and Gehrig, going better every day, opposing pitchers apparently face a hopeless task in trying to blank Joe McCarthy's sluggers.

No big league club ever has completed a season without at least one shutout and only two, Pittsburgh of 1901 and the Yankees of 1927, have had the minimum of one white washing. The Yanks have only 36 games to go to crack the record.

Irving (Bump) Hadley, journeyman right-hander of the St. Louis Browns, came in applying the brakes yesterday when he set the leaders down, 5 to 1, on four widely scattered hits. Earle Combs saved the day for the Yanks when he tripled in the first inning and scored on an infield out. After that Hadley was invincible, even though he issued eight passes.

The next most startling performance was that of Lefty Grove in piloting the Athletics to an 8 to 1 victory over the White Sox. In addition to pitching very high class ball, he belted a homerun with two aboard and scored two runs.

Fred (Fip) Marberry of the Washington Senators turned Cleveland back with one hit, a single by Dick Porter in the first inning, and beat the Indians, 4 to 0. Only four men reached first base off the Senator star, the other three on walks.

Tom Oliver's double in the ninth inning with two on base gave the Boston Red Sox a 6 to 5 triumph over Detroit.

The Chicago Cubs went three full lengths ahead of the field in the National league, by trimming the Phillies, 8 to 4, while Brooklyn was idle and Pittsburgh was splitting a pair with the Giants. Billy Herman led the Cubs' attack on Rhem and Berly with three hits.

Heine Meine allowed but five hits in pitching the Pirates to a 6 to 1 win over the Giants in the first ball and was helped along by Adam Comorosky, who hit a homerun with two on base. The Giants took the nightcap, 4 to 3, when they got to Chagnon for two runs in the sixth inning. Waite Hoyt went the route for the winners.

Boston and St. Louis likewise broke even. The Braves slugging Derringer and Haines for a 7 to 2 victory in the first and the Cardinals taking the second, 3 to 0, as Tex Carleton gained his second triumph of the series.

Brooklyn and Cincinnati were idle.

Marksmen Will Shoot for Title
VANDALIA, Ohio, Aug. 23. (AP)—With the class championships out of the way, marksmen from all parts of the country today vied for one of the most coveted prizes in trap shooting, the North American Clay Target championship for both men and women.

Included on today's program of the 33rd annual grand American tournament was the team race between the East and the West. Teams will be selected from the high shooters in yesterday's class championships.

Karl Maust of Detroit, Mich., and Miss Jeannette Jay of Waverly, Ia., winners of the North American titles last year, will defend their titles. Maust slipped badly in the class championship yesterday, beaking only 174. Miss Jay arrived late yesterday and spent her time on the practice traps.

Two world trapshooting marks went by the boards yesterday in the class championships, the first when five shooters turned in perfect scores of 200 targets. The second occurred when E. M. Leach of Calgary, Alberta, one of the five perfect marksmen, captured the class B title. It was the first time in history that this title had been won with a perfect score.

This was the second title ever won by Leach. He captured the prize at the Banff Winter Carnival shoot last winter.

Rangers in East Texas On Raids

LONGVIEW, Aug. 23. (AP)—Texas rangers are at work again in the east Texas oil field.
A squad under Captain Tom Hickman arrested about 60 men in raids at Oladewater and Kilgore Sunday night and last night. The Rangers worked so quietly that their activities were not known generally until some of the prisoners were brought here last night. Among the men arrested were two bank robbery suspects.
Several prisoners made cash bonds and were released.
Over the week-end Adjutant General W. W. Sterling ordered about 35 rangers from other parts of the state into east Texas, hoping to halt crimes of violence. Governor R. S. Sterling countermanded the order, fearing it would be interpreted as a political move. There had been complaints of widespread illegal voting in Gregg county at the first democratic primary.

GRAY COUNTY'S ENTRY TO PLAY DOUBLE-HEADER

BORGER, Aug. 23. (SP)—The Oklahoma City Magafos baseball team loomed as potential champions here yesterday when they defeated the Texola, Okla., Wildcats, 8 to 2. It was Texola's first loss.
In another game, Dumas defeated Panhandle 9 to 3.
Today's heavy schedule was to include a double-header with the Pampa-LeFors team meeting Panhandle and the Magafos. Much interest was attached to the Panhandle-Pampa-LeFors contest. Neither of these teams has yet won a game. Pampa-LeFors must win one of the games to stay in the tournament, and that victory, on paper, must be over Panhandle. Four losses eliminate an entrant.
Phillips 66 and Dumas also will play today.

Rancocas Stock Is Being Dispersed

SARATOGA SPRINGS, N. Y., Aug. 23. (AP)—One of the greatest racing establishments in history—Harry F. Sinclair's Rancocas stable—is being broken up by a dispersal sale.
The first half of the Rancocas stock—19 yearlings and 21 brood mares—was auctioned last night and brought \$41,125, an average of \$1,928. The other half will be sold tonight with the exception of the famous stallions Zev and Grey Leg, which Sinclair expects to keep.
Sinclair's stable won 698 races and earned \$2,105,461 in 10 1/2 years and a large crowd, both fashionable and expert, gathered in the auction paddock to see the stock sold.
The Greentree stable paid high price of the night, \$6,700, for the famous mare, Nedana, winner of 16 races and \$29,535.
Lefty O'Doul, of the Brooklyn Dodgers, leading hitter of the National league, started out as a pitcher.

Fifty Harvesters in Suits

Thrills and old-fashioned goose pimples stood out on the epidermis of Harvesters football fans yesterday when they learned that Coach Odus Mitchell, full of California and Notre Dame football cunning, checked out uniforms to 50 aspirants to the Harvesters eleven. They fans were even more thrilled when they learned that ten more boys would be given uniforms today.
Fifty the first day! That sounds preposterously good! Look out Amarillo!
Those were some of the exclamatory reactions to the news. The curb stone coaches began having visions again yesterday. They talked it over in the drug stores, the cafes, the stores.
Had the seen the half hundred youngsters who awkwardly carried away uniforms they would not have been so optimistic. Coach Mitchell has a lot of beef and brawn that he may or may not twist, beat, bend, and weld into a dynamic machine—stupendous enough to sink Amarillo and slay Lubbock. The fans have confidence in the coach. History will repeat itself—he has done it in the past with less material and he can do it again. That was a remark heard frequently.
The coach himself was not pessimistic but he was not optimistic. He pointed out that half of the 50 were mere babes in the woods, but reminded his hearers that about 30 of the 50 look pretty good. The 30 contained plenty of beef. Whether any speed will develop remains to be seen. He could not tell much about his prospects yesterday; neither could anyone else.
A hint of the quality of the 1932 Harvesters material will show up this afternoon when the boys will be put through lumbering up exercises. These will get stiffer every day. Some of the boys have stomachs on them. Some are puffy. Some have smoked too much. Most of them are soft. The boys will go into training tonight and they will stay in training until the season ends, or else. That's what the coach says.
Three boys the coach is banking on did not show up yesterday. They are H. "Chicken Creek" Ledrick, Phillip Powell, and Carl Smith, but they are due to call for uniforms today or later in the week. Powell, who showed up well in spring training, has not arrived.
Harvesters who reported yesterday were Wayne Kelley, Leon Robinson, Dick Sullins, Sam Turner, Ray Eldredge, Earl Cooper, Preston Owens, Bill Haner, Monroe Owen, Herbert Reynolds, Miles Marbaugh, Lloyd Hamilton, Clinton Adair, Walter Heard, LaFon McKenzie, Barney Buffington, Ralph Williams, Russell Turner, Frank Faulk, Bert Stevens, Siler Faulkner, Clovis Green, Reg Brown, Ed Johnson, Raymond Ekins, Wiley Reynolds, Bill Kelley, Fred Mason, Shorty Combs, Teeny Reynolds, Gertis Schmidt, Jack Price, Garmon Howard, John Plank, Jess Patton, Hoy Pullingim, Leo Saulsbury, Rufus Walker, Jim Pool, Jack Benton, Orville Heisel, Ernest McDuffie, Robert Woodward, Harry Nelson, Glen Slocum, Clinton Evans, J. E. Bellman, Charles Fagan, C. A. Rogers.

Coach Faces Huge Task as He Starts Change of Beef Into Speed and Skill.
The game is inconsistent. The Tigers are farther away from first place in the American League—in point of games—than are the Reds in the National league. Yet Bucky Harris is considered a very hotshot manager, while there is talk in Redland of removing Dan Howley as chief.
The Simmons Situation
They are booing Al Simmons in Philadelphia whenever he comes to bat. It seems to be the idea of Philadelphia fans that since Fox has become so successful, Simmons is sulking in his tent. But Umpire Will McGowan tells me that never did a try harder to regain his greatness than Al Simmons has tried this year.
It's a Warning
Simmons' situation seems to be a warning to the young ball player who might be inclined to let his head swell after the performance of some remarkable deeds. The downcast margin seems to be inclined to let the success of his athletes turn his head. That surely wouldn't be Marse Joe McCarthy, would it? At least, not the McCarthy I used to know.
Joe Must Know Better
Along the baseball grapevine comes the word that a certain American League manager whose team is leading the league by a substantial margin seems to be inclined to let the success of his athletes turn his head. That surely wouldn't be Marse Joe McCarthy, would it? At least, not the McCarthy I used to know.

Yankees Are a Cinch
The Yankees were in front with a lead of 10 1/2 games on August 17. Support the team played 500 ball from that day to the end of the season. Cleveland then would have to win 30 out of 40 games to gain a tie. It appears to be impossible.
The Fighting Cubs
Should the Cubs go on to win the National League pennant, it ought to be an even money bet, for the club to win the world series. The Cubs got hot after Hornsby was displaced by Grimm. And there is no telling where a warm team will go.
Pirates Soft Touch
Not by any stretch of the imagination can a world series victory for the Pirates be conceived, sup-

posing the Pittsburgh club were to be pitted against either the Yankees or the Athletics. Every decrepit left-hander in the National league has beaten the Pirates, whose batting punch is against high-handers. Gomez, Penneck and Wells would set the Bums on their ears. Grove and Walberg wouldn't even have to warm up to beat the Gibson boys.
Get Out the Books, Boys
If the Yankees win the American league pennant, Babe Ruth will enter the world series with a chance to establish baseball records that may never again be equalled. Then world series! Most hits, most times at bat, most bases on balls, etc. The boys in the press box would break out into a rash.
A Brand New One
If the Cubs win and meet the Yankees, that will be a record, too. There never has been that kind of a series. Only once has the world series been played between Chicago and New York teams—in 1917, when the White Sox beat the Giants, four games to two.
To Gomez Superstitions
Senor Gomez, who this year attained the honor of being the first pitcher in the majors to win 20 games, has little habits that rank him with Lefty O'Doul in the class of superstitious ball players. Gomez always drops a ball thrown to him by an umpire. On his way to and from benches and slab he never steps on the foul line.

GOLFERS ARE VERY CLOSE IN BIG MEET

STANFORD SENIOR HITS MAGIC SHOTS TO LEAD

By PAUL MICKELSON
ROCKFORD, Ill., Aug. 23. (AP)—A stampede was on today for qualifying berths in the western amateur golf championship tournament. Finding the range of the fairways and traps with almost unerring accuracy yesterday, the field was so close that it looked like a pair of 75's in the 36-hole test would be the highest limit to clinch a place among the 32 who will continue the battle for the crown worn by Don Moe of Portland, Oregon. Moe was the only safe man in the record field of 178 starters, automatically qualifying as champion. Harry Eichelberger, Stanford university senior, was out in front of the closely bunched field in the medalist campaign. Banging magic pitch shots, he toured the championship Rockford country club stretch in 36-34-70 to clip par by one shot. Two Chicagoans of note, George Dawson and Johnny Lehman, pressed him with 71's while six others, including shotmakers like Gus Moreland of Dallas, Texas, and Dick Martin, Chicago district champion, trailed with 72's.
A fearful eye was cast toward the twelfth hole, a long uphill stretch blossoming into a long narrow and dangerous green.
Many found their nemesis on that hole yesterday, notably Dawson, who came to that spot three under par, got tangled up with the traps and wound up with a seven. Rodney Bliss, Nebraska state champion, took an eight.
The only semblance of an upset in the first day's round was the play of Keefe Carter of Oklahoma City, former champion of the event. Carter, playing with Eichelberger, took an 80 and followed through by taking a train for home.

Stratton May Try To Become Local Champion

Very popular in Amarillo, Stratton likely would prove as popular here if he were to conquer Welch in the semi-final. Stratton, a youngster, was knocked out recently by Ligosky in Amarillo, but up to that time had been the aggressor.
The main event will bring together Rob Roy and Sammy George. It is George's idea. Sammy was dissatisfied with his disqualification last week and asked the right to meet Roy, the current local champion.
Ladies will be admitted free. It is believed they will enjoy seeing Stratton, the handsome matman, in action.

Seeded Teams To Battle In Tennis

BROOKLINE, Mass., Aug. 23. (AP)—The big match on today's card at the 51st national doubles title tennis tournament brought together two seeded teams—Sidney Wood and Louis Stofen, fifth seeded of the American, and J. Satoh, and T. Kuwabara, the Japanese team and seeded third among the foreign players.
Jack Tidball and Elbert Lewis, the Los Angeles combination, opposed Ed Feibleman of New York and Jake Hess of Fort Worth, Texas, in another match. Feibleman and Hess provided the only upset in yesterday's play in their defeat of the American and J. Satoh, and T. Kuwabara, the Japanese team and seeded third among the foreign players.

LEADERS WIN TO KEEP PAGE IN HOT RACE

OSCAR FUHR GETS NO. 18 WITH SWEEPING CURVE

By BILL PARKER.
Associated Press Sports Writer.
Dallas and Beaumont breezed in with victories last night to leave first and second place in the second half pennant race intact with Dallas leading Beaumont by one full game.
The Steers enjoyed a slugfest against San Antonio, getting fifteen hits for a 11 to 4 victory. The veteran Oscar Fuhr, a southpaw with a wide, sweeping curve and a hcp on his fast one, won his fifth straight and his eighteenth game this season for Dallas. Oscar worked with a big lead most of the game and never tightened up. Dallas collected fifteen hits off Sackett and Tarzan Danforth. Five errors by San Antonio made the game listless after the third inning.
Smarting from their double defeat Sunday, the Beaumont reporters bombarded Paul Gribble and Roy Appleton of Fort Worth for a 6 to 2 decision. Luke Hamlin pitched for Beaumont and stopped the Cats four-game winning streak with nine hits. Henry Greenberg, Beaumont first sacker, clothed his 32nd home run this season.
After losing a 15-inning game Sunday, Houston returned to lose another extra inning game yesterday when Longview nosed out the Buffaloes, 4 to 3 in 11 innings.
After Galveston had scored five runs in the first inning, Tyler came back to beat the Buccaneers, 9 to 5.

Jack Tidball and Elbert Lewis, the Los Angeles combination, opposed Ed Feibleman of New York and Jake Hess of Fort Worth, Texas, in another match. Feibleman and Hess provided the only upset in yesterday's play in their defeat of the American and J. Satoh, and T. Kuwabara, the Japanese team and seeded third among the foreign players.

TWO PARTIES ARE ARRANGED BY METHODIST WOMEN

Vacation Visits Make August Days Pleasant Ones for Pampa Residents

GUEST DAY TO BE OBSERVED IN SEPTEMBER

YOUNG PEOPLE TO BE ENTERTAINED BY W. M. S.

Initial plans were made by the First Methodist W. M. S. yesterday afternoon for two parties to be held in September. One will be for the young people of the church and will be held on the first Friday evening in September. Committees are to be appointed to work out the details. The other will be the guest day, for which the exact date has not been set. It will take the form of a luncheon, with all women of the church invited. Mrs. C. T. Hunkapillar is in charge.

The meeting was opened with a song, and Mrs. Hunkapillar led in prayer. Another song followed. Then Mrs. Joe Shelton led a devotional based on friendship and taken from John 5:12-17.

"Call Me Gently Home, Father" was sung as a duet by Miss Doris Price and Miss Dorothy Dodd, and Mrs. Price played the accompaniment.

Mrs. H. T. Wohlgenuth read a paper on "The Need to Re-discover Prayer," after which Mrs. H. B. Carson spoke on "Christ in China."

It was decided to buy clothing for needy children of the church before time for them to enter school, and an appeal was made to those who have clothing they can spare to call 361, and some one will call for the articles.

The group voted to give \$5 to the Red Cross.

My Beauty Hint

By CLAUDETTE COLBERT
My beauty hint has to do with the eyebrows. I think every woman should have as part of her beauty equipment a soft lead pencil and a small stiff-bristled brush. I use both regularly and believe they improve the looks of my eyebrows very much. I apply the brush twice daily to keep by brows trained into their natural arch and to put straying hairs in place. I use the pencil to lengthen my brows, applying it very carefully. After that I draw my finger over the brow as a finishing touch.

IT'S MAN'S WORLD, SHE SAYS

Women are out of place in business, says Mrs. Charles Ringling, and this despite the fact that she has operated one of the country's largest circuses this summer. Mrs. Ringling, 62, is the first woman to take a major "big top" on the road.

CHICAGO (AP)—Even though she's heiress apparent to this country's largest circus properties—

Even though she now is in direct command of one of the nation's largest "big tops"—

And even though she has acted as circus ticket taker, has traveled nearly every summer with the circus, and has faced all kinds of emergencies in her work—

Still Mrs. Charles Ringling insists this is a man's world and should be run by men.

The 62-year-old widow of one of the five Ringling brothers who started their exhibiting career with an animal show in Baraboo, Wis., in 1883 is the first woman in history to take a major circus "on the road."

John Ringling, last of the brothers, is in poor health. Details connected with the housing and feeding of 1,600 people and charting a six months' itinerary for four trainloads of animals and

equipment have left no mark of wear or care on Mrs. Ringling's face.

She married Ringling in Baraboo in 1889, the first year the show discarded its own wagon trains and went "on the rails," and until her husband's death five years ago she made all or part of each season's tour with him.

But, though her varied experiences, ranging from ticket-taking in the early days of the show to her present position as overseer, qualify her as an executive of no mean proportions, she insists that "running the world is a man's job."

"I was even against women getting the right to vote," she added. Home, during much of Mrs. Ringling's life, has been under the big top and in railroad trains.

But she has a residence in suburban Evanston, and there reared her two children.

By HOWARD W. BLAKESLEE, Associated Press Science Editor.

NEW YORK, Aug. 23. (AP)—Mistakes in love-making, bad home-making, and "failure to use leisure time constructively" were blamed for American marriage failures today before the third International Congress of Eugenics.

The three points summarize the intimate experiences of one of the few marriage-counseling bureaus in the world, the Institute of Family Relations of Los Angeles. Paul Popenoe, director, presented the findings.

Many Love Difficulties. Not every love-making difficulty leads to a broken home, he said, but in four experiences almost every such home is preceded by one. And "several studies agree in suggesting that at least in the educated part of the population" these difficulties exist "in 25 per cent or more of marriages at any one time."

Mr. Popenoe advocated more sound education about marriage and parenthood and said: "Unfortunately, the trend of education during the last generation has been unfavorable because the dominance of a doctrinaire feminist point of view has led to a depreciation of the differences between the sexes and frequently to ignoring them or denying them altogether."

Desertion Feared. In bad home-making there are "paralyzing fears" of desertion among many women and some men, "monotony and deadly routine" on home life, and a "serious problem" of women who feel lack of proper clothing to appear in society to which they have been accustomed.

"Sufficient recreation, inexpensive, wholesome and mutual," said Mr. Popenoe, "forms an important part of our treatment. It will doubtless be the universal experience that no city has anything like sufficient facilities of this sort."

Patterns of Failure. "Popularization of controversies and marital conflict in fiction, on the stage, at the movies and through the columns of the newspapers has built up patterns of failure in the public mind and patterns of success are rather hard to find.

The depression from the eugenic point of view, described by Dr. Henry Fairchild Osborn, president of the American Museum, where the congress is held, is a world catastrophe of over-population, or over-multiplication of the unfit and the unintelligent, of the reign of terror of the criminal, and of the tragedy of unemployment.

"The only permanent remedy is the improvement and uplift of the character of the human race through prolonged and intelligent and human birth selection aided by humane birth control."

Chapter 2 PANGS OF LOVE

NAN waited for her moment. Would Jervis look very happy and relieved now that all the tiresome business connected with his marriage was done? Would he look very happy on his wedding day? By all odds or two after this time tomorrow he would be married to Rosemond Veronica Leonard Carew.

"You promised you wouldn't," said Nan gravely. "It's so hard when we love each other—when it's just money! If he didn't love me, I'd try to get over it—I would—I really would! But when we love each other—"

skin, and rather appealing dark eyes reddened by hours of weeping. She sat on the floor, leaning against the bed, with one arm on the rickety double bed which the sisters shared at night, her faded blue dress-gown trailing away and showing a torn nightdress that had once been pink. On the quilted coverlet lay a pile of letters.

"You promised you wouldn't," said Nan gravely. She came across to the bed and began to pick up the letters. You'd much better burn them and have done with it. Cynthia's hand tightened on the soaked handkerchief; with a held squeezed up.

"Nan, you won't!" "No, of course I won't—but I wish you would." She sat down on the bed and pulled Cynthia's head against her knee. "What's the good of keeping them, my child? You lock them up, and you promise me you won't look at them, and when my back's turned you get them out and cry yourself to a jelly."

"I've so hard when we love each other—when it's just money! If he didn't love me, I'd try to get over it—I would—I really would! But when we love each other—"

COTTON FIGURES

WASHINGTON, Aug. 23 (AP)—Cotton ginned prior to August 16 from the growth of 1932 was announced today by the census bureau as having totaled 251,182 running bales, including 3,617 round bales counted as half bales and excluding linters. To that date last year 90,608 bales, including 673 round bales, were ginned and in 1930 ginnings to that date were 72,810 bales, including 12,211 round bales.

The ginnings to August 16 include 71,068 bales of the crop of 1932 ginned prior to August 1 and counted in the supply for the season of 1931-32, compared with 7,397 and 78,188 bales of the crops of 1931 and 1930.

Ginnings by states were: Alabama 776; Florida 211; Georgia 7,384; Louisiana 1,340; Texas 241,096; all other states 364.

COTTON IS FIRM

NEW ORLEANS, Aug. 23 (AP)—Higher Liverpool cables than due resulted in a firmer opening in cotton today and first trades here showed gains of 7 to 8 points with trading good. This advance attracted some realizing and there was also some selling by ring traders on little rain in the belt overnight. October eased to 7.73 and December to 7.89, or 3 to 5 points down from the openings but still 4 to 5 points above yesterday's close.

GRAINS OPEN STRONG

CHICAGO, Aug. 23 (AP)—Grains borrowed strength from the stock market in early dealings today and prices averaged higher. Commission houses lined up on the buying side and found offerings light until the December delivery touched 55 cents a bushel where resting orders to sell halted the advance. Wheat started 1/2-1 cent higher and held around the best figures. Corn was 1/4 cent higher in sympathy with wheat and also held firm.

NEW YORK, Aug. 23 (AP)—Captain James A. Mollison, intrepid British air ace, prepared today for an eastward crossing of the Atlantic in his little plane within the next 48 hours.

The only thing detaining him was the weatherman hadn't said "go." Twice yesterday Mollison, who three weeks ago married Amy Johnson, a noted flier among her sex, spoke to his bride over the transatlantic telephone.

Clyde Ridgeway, Guy Ardila and Joe Looper of the Grandview community were courthouse visitors yesterday.

AS GIANT SARATOGA RAN AGROUND

Here is the 40,000-ton U. S. S. Saratoga (right), naval aircraft carrier, as she perched helplessly atop a sandbar during battle practice off San Pedro, Calif. After five hours, three tugboats freed the huge vessel and she resumed her part in the practice maneuvers. Captain Frank McCrary, inset, is commander of the Saratoga. Another naval vessel is at the left. The Saratoga and her sister ship, the Lexington, are the two largest vessels in the U. S. navy, and is one of the largest fighting ships in the world. She carries 120 fighting planes.

MAMA, PAPA, BIG SISTER, AND BABE

Here they are, a good part of the Didriksen family. Lily Didriksen, left, Ole Nickolay Didriksen, Babe's dad, then the Babe, herself, and Babe's mother. The picturesque seaman from Norway who turned cabinet-maker in Besantmont insists that you spell the name with an "e." "We're no Swedes," he says. "We came from Norway. Swedes spell it with an 'o.'" The photo was taken when Dallas welcomed Babe, the world's greatest athlete, at a big banquet.

Miss Christel Wiegman of Claude is visiting Mrs. Jewell Wiegman. She will return to her home tonight.

Mr. and Mrs. B. O. Lilly left today for Fort Worth on a business trip.

Mrs. B. C. Low is a guest of Mrs. W. M. Lewright at the Lewright summer home at Therna, N. M.

HEAD NODDING

Head nodding, or spasms nutans as it is called, is a condition occasionally found in infants between three and 12 months of age. This involuntary movement of the head is observed also as an occupational disease in miners.

It was recently reported to be prevalent among railway workers whose job is to "check off" the cars of moving trains.

Spasms nutans is not infrequently associated with another condition known as nystagmus, or a to and fro movement of the eyes.

Head nodding in the infant usually is associated with a definite clinical picture.

The affected infant is usually pale and generally suffers from rickets. There are no abnormal movements of the head as long as the baby lies flat, but when set up it commences regular nodding or side-ward movements of the head, accompanied usually with similar eye movements.

A common trick or attitude taken by such infants is noted when they regard a fixed object. They have a tendency to turn their heads away from the object and look at it from the corner of their eyes.

Among the causes of this condition are included several considerations. The first deals with the nervous instability of the infant.

The baby has to learn to control and coordinate its eye movements by means of visual impressions, and a certain amount of the nystagmus (eye movement) is probably due to a lack of coordinating capacity.

On the other hand, rickets very frequently is associated with head nodding.

The condition most frequently develops in the darkest months of the year. Hence it has been suggested that defective light and faulty nutrition are to some extent at the basis of head nodding.

The condition may be prevented and cured by the administration of cod liver oil and by providing adequate illumination in the child's room.

—and raw tobaccos have no place in cigarettes

They are *not* present in Luckies ... the *mildest* cigarette you ever smoked

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the *mildest* cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.

"It's toasted"
That package of mild Luckies

"If a man writes a better book, preach a better sermon, or make a better mousetrap than his neighbor, he will build his house in the woods, the world will make a beaten path to his door."—RALPH WALDO EMERSON.

Does not this explain the world-wide acceptance and approval of Lucky Strike?
