PAMPA, GRAY COUNTY, TEXAS TUESDAY EVENING, AUGUST 28, 1934

(Six Pages Today)

PRICE FIVE CENTS

Twinkles
All the good looking men in Pampa are congratulating themselves in that a handsome man can be elected governor.

Maybe Jimmie Allred isn't exactly handsome, but he is neat and smart-looking. Maybe he is "pretty" compared with Tom Hunter, who has an honest, rugged face but not one for the Sunday supplements.

It was Tom who first called attention to the fact that Jimmie is a "pretty boy." But Tom forgot that the ladies have a vote—and Tom was defeated.

Mr. Hunter has the unhappy faculty of being inconsistent. He called Jimmie the "little boy in the big pants" and then called him pretty.

Franklin D. Roosevelt is another handsome man, with much appeal for the rotogravure sections. Yet we must remember that honest, homely Abe Lincoln also was president. George Washington wasn't as handsome as he is reputed.

Brevitorials

Musings of the moment: Add smiles: As slippery as the city hall floor. . . . What did the ladies do before beauty parlors were introduced? . . . Shaving of the male face is still an ordeal, despite science's efforts to solve the riddle. If you have a flair for figures, you might figure up that by failing to shave the men of the nation could save enough to pay the national debt. . . . Maybe that why Soviet Russia is financially stable. . . . Guilty of failing to mail a letter, we also wonder if any good alibi has ever been concocted.

It was inevitable that the new deal should need revision. Like a new car, it ran from the start but revealed many defects. The remedy can be in the form of a major operation, grafting on of new parts, or other treatment which will make a nearly new car or merely make the old one better, to continue the figure. To those who thought the government took, rather lamely, a step toward state socialism—and who wanted that goal reached—the revision of the new deal is going to be a bitter disappointment. Any retreat is sure to displease the more radical elements of labor, government, and business.

REVISION is going to be a step toward what conservative groups are demanding and what the republicans are shouting about. But the best parts of NRA and the other initials are apt to become permanent, with inevitable changes due to growth. The administration had to decide on whether it would continue the rapid strides toward government ownership, domination, or control, with the government paying the bill, or let industry survive and pay the taxes.

FOR a number of years this writer has been painfully aware of the government's gradual encroachment on private business. The country printer well knows what federal competition means. Uncle Sam prints envelopes in a machine estimated to cost less than the country press can do. Uncle Sam pays no taxes on his equipment; newspaper men do. . . . Recently Uncle Sam has vastly increased his strides into private business. This increases taxes for the capital involved and by creating tax-free capital increases the tax load on private business remaining.

Private business, which begins with the smallest one-man stand is the financial basis of this government. Private business must support the payrolls of the country, whether they are federal or otherwise. Granting that competitive private interests have failed, government depression we must nevertheless concede that the government cannot exist without their support. The bureaucracy necessary to take care of emergencies must be dismantled as the original needs disappear. Private business must absorb the huge payrolls which must be dismantled as the government must be made safer for private enterprise without, at the same time, destroying the new deal for the individual workman. Both the worker and the government depend for their very life on the success of private business.

A FACT that is not generally understood, according to Dr. John W. Brown, state health officer, is the diseased teeth frequently may be associated with disease manifestation in other parts of the body. The inter-relation and inter-dependence of the various parts which comprise this miraculous bodily mechanism are so sensitive that in many instances when matters go amiss, not only is the location of the infection affected but other parts become involved also.

Thus diseased teeth or gums may directly develop an infection of the nose, eye, head sinuses, the stomach and even the intestinal tract. Again, germs from a diseased mouth may be transported by the blood stream to the kidneys or heart, thus causing serious trouble frequently ending fatally. Even such extremely painful and tenacious conditions as neuritis and arthritis can often be directly traced to infection in and around the teeth.

The man or woman who respects health as the greatest of all earthly assets will do well to heed the

CARSON WELL IS PRODUCING 1200 BARRELS

WELL AT WHITE DEER MAY OPEN UP NEW DEVELOPMENT

By GEORGE L. GUTHRIE
Consulting Geologist, Combs-Worley Bldg.
The Empire Gas and Fuel company No. 1 Seiber in section 10, block 7, northwest of the town of White Deer in Carson county is causing much comment. A temporary potential of 1,200 barrels has been set up although the operators say it will do much more. This area has received more attention than any other south of the granite ridge. It is possible that this area will be the starting point of development on the south side of the ridge. Of the several wells that have been on the south side of the ridge, Of have made good shows. So far there is no reason to believe that the south side is devoid of commercial production as the stratigraphy is reasonably identical to that on the north side.

The Seiber well showed as follows: Total depth 3239, oil show 3180; increase in oil 3184-98; at 3205 22 million cubic feet of gas; oil pay from 3212-32.

In Gray county the Wilcox Oil and Gas company No. 30 Combs-Worley in section 35, block 3 I&GN was bottomed at 2903 with the pay from 2870-2902. It averaged 60 barrels daily on test.

In Wheeler county the Smith Brothers No. 2 Harlan in section 49, block 24 H&GN completed testing; with an average of 1031 barrels daily flowing.

In block 13 of the same county the Remo Oil company Schloss Admire No. 1-B in section 47, completed test yesterday with an average of 377 barrels daily. The wells in block 13 that are producing are indicative of the thought of some major production in that area. There are several tests going down now. Whether they are productive or not it will help in the location of production.

Texas' Oldest Citizen Lived Under 5 Flags

TEMPLE, Aug. 28 (AP)—Today they will bury Texas' oldest native citizen, Mrs. Amanda Bryant Fetterly, who died at the age of 98 years, 11 months and 14 days, after living under five flags in this state.

Funeral services will be held at Rogers.

She was a daughter of Major Benjamin F. Bryant, who was a close friend of General Sam Houston. Major Bryant organized and led the Sabine volunteers in the Battle of San Jacinto, the battle that assured Texas of her independence.

Daughters of the Texas Revolution and the United Daughters of the Confederacy gathered here for the services. The five flags under which she lived lay draped over her casket. She is survived by a brother, Sam Bryant of California, who at 90 years, has 100 living descendants.

SLEEPING SICKNESS GAINS SPRINGFIELD, Ill., Aug. 28 (AP)—With 37 new cases reported the past week the state department of public health today announced a "pronounced upward trend in the prevalence" of epidemic encephalitis, or sleeping sickness. Since August 1, public health officials have received reports of 65 cases.

Private business must support the payrolls of the country, whether they are federal or otherwise. Granting that competitive private interests have failed, government depression we must nevertheless concede that the government cannot exist without their support. The bureaucracy necessary to take care of emergencies must be dismantled as the original needs disappear. Private business must absorb the huge payrolls which must be dismantled as the government must be made safer for private enterprise without, at the same time, destroying the new deal for the individual workman. Both the worker and the government depend for their very life on the success of private business.

The man or woman who respects health as the greatest of all earthly assets will do well to heed the

Fights to Draw

With the tense look that is part of the torch singer's equipment, Helen Morgan is shown as she sat in a Los Angeles court and fought to a draw with a producer. She was cleared of the charge that a show failed because she was intoxicated, but she won't get \$1,600 she claimed in salary unless it's paid by her husband, who invested in the show.

HUGE SCHOOL BAND TO PLAY HERE TONIGHT

Public Is Urged to Hear Climactic Program

Pampa's 80-piece all-school band will be presented at 7:30 this evening in the city auditorium by the Pampa schools and the Board of City Development. The public is invited to the free program. New music will be played.

The concert will climax a summer's work for the band, organized this year as an experiment. No former attempt had been made at school music on so large a scale, nor had so many young musicians been available before. Result of the experiment will be evident in the program tonight.

Below is the program to be presented. Those who plan to attend are advised to clip it and bring it to the concert, as no programs will be available there.

Activity, march, Village Chimes, descriptive waltz, Little Grey Church, tone poem, Thoughts of Love, trombone solo by Charles Frazee.

Project, march, Song of the Islands, featuring the reed section.

Little Arab, Oriental fox-trot, Little Marie, waltz, College Boy, march.

All numbers are by Bennet except the trombone solo, a composition of Arthur Pryor, and Song of the Islands, written by King and arranged for reeds by Walker Hurst, director of the band.

A large audience is expected and desired for this concert. It will add to the experience gained by the summer band personnel this year, which will be the basis of more concrete plans for the future.

Housing Problem To Be Discussed Wednesday Night

Pampa's housing problem and the possibility of solving it through federal loans will be discussed by business men tomorrow evening at 7 o'clock at the B. C. D. rooms in the city hall.

John E. Hill of Amarillo, an authority on the federal loan plan, will come here to address the session.

The B. C. D. has been working on the problem for several months but has found previous federal plans unworkable. It is hoped that the latest one will afford some relief and help relieve employment by starting new construction projects and repairs.

2,673 Convicts Strike At Prisons

Rebellion in Pennsylvania Stops all Work in Pen Except in Kitchen.

BATTLE OVER BREAD BONDS IS IMMINENT

COMMISSION MEMBERS TO PRESENT THEIR VIEWS IN HOUSE

AUSTIN, Aug. 28 (AP)—The Texas house of representatives today requested Governor Miriam A. Ferguson, Adam Johnson, Texas relief director, and members of the Texas relief commission to present their views on the amount of money necessary to carry on relief through April.

It was anticipated Johnson and members of the relief commission would appear today before a house committee considering a bill to issue \$9,500,000 in bonds, all that remains from an issue of \$20,000,000 voted last fall.

Governor Ferguson, in her message to the legislature yesterday, estimated a minimum of \$25,000,000 would be required for relief this winter. She said figures indicated the funds from sale of \$9,500,000 in state bonds and a similar amount to be obtained from the federal government under a matching agreement would provide relief only until the regular session of the legislature in January could make other provisions.

Both houses met for less than an hour today and adjourned until tomorrow.

No bond issue bill was introduced in the senate and the lack of action was criticized by Senator Will Martin of Hillsboro. Senator Roy Sanderford, administrator floor leader, said he had abandoned plans to write a bill and likely would offer for the house bill or wait until the house had sent a bill to the senate. Meanwhile, several senators recruited strength for a proposed investigation or relief administration. Senator T. J. Holbrook of Galveston said he wanted "an accounting of previous expenditures" before voting for the sale of additional bonds.

Opposition was manifest to the first effort in the senate to obtain consideration of subjects other than the one submitted by the governor. Senator Frank Rawlings of Fort Worth introduced one of a trio of bills to validate a \$3,000,000 bond issue of the Fort Worth independent school district but its progress was impeded.

Cockrell Hands His Resignation To Frank Jordan

Younger Cockrell, deputy constable of this precinct, has handed his resignation to Constable Frank Jordan.

In resigning as an aftermath of the wounding of J. C. Woodall when the latter ran from the sheriff's office while a prisoner, Mr. Cockrell said that he believed he was doing his duty and that he felt that he was under some criticism and did not wish to bring criticism on the constable's department, he thought it best to resign. Constable Jordan was in Childress at the time of the incident on a business trip.

The shooting, in which Woodall, a refinery employe, suffered an arm fracture and a bullet wound in the left heel, grew out of a robbery investigation requested by Detective Chief Clark Cain of Amarillo, who was en route here this morning.

No charges were placed against Mr. Woodall, who was released yesterday morning. Similarity of descriptions led to the arrest.

"EDUCATED" HORSE OF ARIZONA TO BE FEATURE OF RODEO HERE

"Silver Squirrel," a high school horse whose owner is from Phoenix, Ariz., will be seen at the Pampa rodeo Sept. 1, 2, and 3 at Road Runner park.

This horse adds, multiples, answers questions, parades with a flag, and generally "amazes audiences with the uncanny ability displayed. It has a worn, sinner.

Cow hands are requested to register at the Board of City Development, sponsor of the rodeo, not later than Saturday morning—the

earlier the better—and pay the entrance fees. Prize money is liberally appropriated and should attract many star performers, according to Siler Hopkins, manager of the event.

Performances will be given at 8:15 p. m. next Saturday, 2:30 p. m. Sunday, and at 2:30 and 8:30 p. m. Monday—Labor day. Admission will be 20 and 40 cents.

STRIKE LEADERS TO CONFER WITH TEXTILE OWNERS BUT WILL STICK TO 5 DEMANDS

In Two Crimes

Facing an accusation of double murder for the second time in his life, J. J. Mendenhall, 61, above, is held in Jacksonville, Fla., jail charged with killing Mrs. Laura Green, 84, and her daughter, Mrs. Mary Anderson, 60, his fiancée, with a hammer and a knife. Mendenhall served 15 years for the first crime. He at one time was known as a Florida "citrus king."

Cotton Garment Employers Defy F. D. R.'s Order

NEW YORK, Aug. 28 (AP)—President Roosevelt and the NRA were confronted today with open opposition from the cotton garment industry.

Representatives of the industry from all parts of the country voted yesterday to reject a presidential order of a week ago lowering hours and increasing wages for 250,000 workers. It was the first time an entire industry had defied the president's power under the NRA to change hours and wages.

The president issued an order last Tuesday providing a maximum week of 36 hours instead of 40, with no decrease in the minimum weekly wage, and also increasing piece rates 10 per cent over those of May 1.

This order the manufacturers turned down as "unjustifiable, unwarranted, burdensome, and ineffectual." They authorized their counsel, Raymond A. Walsh, in Washington to take steps if necessary to protect their rights and interests and indicated they would fight the president's order in the courts.

TEXAS GIRL CHARGED

CHICAGO, Aug. 28 (AP)—Miss Mary James, 24, who said she was until recently employed as a beauty operator in El Paso and Galveston, was charged today with theft of \$1,000 from a world's fair visitor.

The complainant, Edgardo Salici, 47, dramatic artist, said the girl stole the money from his hotel room when he fell asleep after drinking with her. When he awoke, he said, she and the money were missing.

Representatives of the industry from all parts of the country voted yesterday to reject a presidential order of a week ago lowering hours and increasing wages for 250,000 workers. It was the first time an entire industry had defied the president's power under the NRA to change hours and wages.

STORM HOVERS 25 MILES OFF TEXAS COAST

CENTER OF HURRICANE HAS NOT STRUCK, SAYS BUREAU

FREERPORT, Tex., Aug. 28 (AP)—The wind and rain abated here today after raging many hours, but an ominous warning from the United States weather bureau at Washington kept residents of the gulf coast on the alert.

The weather bureau said the center of the disturbance which brought gusts estimated at 75 miles an hour to this sulphur city still had not passed inland but was hovering off the coast about 25 miles south of here.

The warning said the direction of movement of the disturbance was uncertain and that precautions should not be "relaxed until further advice."

Two newspapermen made a hasty survey of Freerport by automobile early today and the only damage they found was one small tree broken down. They were told that a 25-foot boat, anchored in the ship channel, sank.

Warned by past storms the inhabitants, almost en masse, evacuated the town by special train, special buses and by private cars yesterday. Not more than fifty persons remained there during the night, but early today others began to return.

Members of the coast guard gave ample warning to campers and residents of the low-lying area along the coast, and no fear was felt that any individuals or parties had been trapped.

Both Freerport telephone operators left on the special train, but Mr. and Mrs. W. L. Hemmer of Houston kept the switchboard open. Hemmer is a toll engineer for the Southwestern Bell Telephone company and Mrs. Hemmer formerly operated a switchboard.

Members of the coast guard gave ample warning to campers and residents of the low-lying area along the coast, and no fear was felt that any individuals or parties had been trapped.

Valuations Are Kept Normal to Stabilize Rate

We, the undersigned Equalization Tax board for the incorporated town of Pampa wish to make the following statement to the taxpayers of the City of Pampa:

"That we examined all tax returns for the year 1933 and find that there were about 60 per cent of the people who cut their rendered value from five to fifty per cent below the property rendered value that they paid taxes on in 1933.

Now we are citizens and taxpayers of the town, and we believe that it's better for all concerned that the property values of the city be held up to a reasonable value for taxation, than it would be to have a low value and a high tax rate.

Therefore, we have raised most all cut renditions back to the 1933 values. In some few cases we have reduced the values and in a few cases we have raised the renditions above 1933 values. We did this in fairness to all.

The city's tax rate for 1932 was \$1.66. We held the property values up for 1933 and the tax rate was reduced to \$1.26. We wish to hold the values up for 1934 to the 1933 levels, and hope for a reduction in rates for this year.

Respectfully submitted, J. N. Duncan, R. E. Johnson, Roy McMillen.

W. B. Hamilton of Amarillo was a visitor here yesterday.

Members of the coast guard gave ample warning to campers and residents of the low-lying area along the coast, and no fear was felt that any individuals or parties had been trapped.

This order the manufacturers turned down as "unjustifiable, unwarranted, burdensome, and ineffectual." They authorized their counsel, Raymond A. Walsh, in Washington to take steps if necessary to protect their rights and interests and indicated they would fight the president's order in the courts.

Members of the coast guard gave ample warning to campers and residents of the low-lying area along the coast, and no fear was felt that any individuals or parties had been trapped.

MANUFACTURERS MUST 'GIVE IN'

Invitation of Labor Board Accepted By Committee

WASHINGTON, Aug. 28 (AP)—The strike committee of the United Textile Workers today accepted the invitation of the National Labor Relations board to a conference with manufacturers on Thursday but reiterated that a general walkout in the industry could be averted only by "definite concessions."

"Chairman Lloyd Garrison has asked us to see him and to meet in his office," Francis J. Gorman, chairman of the strike committee, told newspapermen.

"We have met with Mr. Garrison two or three times and we shall be glad to respond to an invitation from him at any time.

"If he chooses to ask others to meet him at the same time, that can not affect our attitude toward his invitation. It is possible and duly authorized spokesmen for the industry should decide to make a strike unnecessary by agreeing to negotiate immediately and to a swift conclusion on the basis of our demands, meeting them measurably, then we should accept the new situation by not doing what it should no longer be necessary to do."

Meanwhile, an answer to Garrison's request for the conference was awaited from George A. Sloan, head of the Cotton Textile Institute. Garrison yesterday urged Sloan to organize a representative committee of manufacturers to meet with the union leaders.

Gorman listed the demands of the union in a letter to Garrison today.

"In the light of past experience with employers and with the present board," Gorman wrote, "it is the opinion of the special strike committee that adjustment must be made along the following lines:

"1. Establishment of a 30-hour maximum work week consisting of 6 hours per day, 5 days per week, with the same earning power that the workers received under the 40-hour week. Definitions and classifications of occupations must be made and graduated minimum wage scales set up according to skill of the worker. Wages in different sections of the industry must be made more uniform, to stabilize competition.

(See STRIKE, Page Five)

SON OPERATED ON WHILE CULT PRAYS, CHANTS

Boy Now Has 50-50 Chance to Live, Say Surgeons

FORT PAYNE, Ala., Aug. 28 (AP)—Surgeons' instruments gleaming in the flickering lamp of kerosene lamp—a mother's lament in the weird chant of the Holiness cult's "unknown tongue"—a boy with a "50-50 chance for life."

Dr. W. T. Miller, one of two surgeons who operated on 8-year-old Wallace Doyle Sharp, Jr., straightened from his work and said:

"He has an even chance."

For days Wallace's parents had refused to permit an operation on his infected leg. "The Lord will heal him through faith," they said.

Finally the father gave in. But the operation must be performed in the Sharp home, he said, so members of the cult might aid with prayers, songs and talking in the "unknown tongue."

Despite the lack of hospital facilities, the doctors scraped eight inches of bone in the boy's leg. When he awoke from the anesthesia, the swelling was gone.

His condition became better than expected," said Dr. Miller, who had predicted amputation as the price of further delay.

Once during the operation Mrs. Sharp shrieked, "they're murdering my son." Friends quieted her and her lamentations became submerged in the chanting. The singing continued long after the surgeons were done.

BCD REJECTS PLAN TO HIRE BAND DIRECTOR

TRAVIS LIVELY WILL BECOME ACTING PRESIDENT

A proposition of a professional band director to establish a municipal or city band was rejected by the Board of City Development last night as too expensive, but another plan was started to reach the same result through the school system.

The arrangement contemplated would provide a band 12 months of each year, with particular emphasis upon the adult summer band and concert program.

The board voted to join other civic bodies in arranging a county-wide reception for school teachers during the second week of school.

Travis Lively, first vice president, and immediate past president, will temporarily take the presidency as the result of the resignation of President Jack Cunningham, who has moved to Amarillo.

Manager George Briggs was designated to go to Amarillo as observer in the Panhandle-wide relief meeting today and to stay over for the get-together of the Amarillo chamber tonight. He was accompanied by Clarence Kennedy, president of the Jaycees.

It has been noted by the B. C. D. that there is a shortage of light housekeeping rooms for married teachers. Anyone having such accommodations is asked to telephone the B. C. D. or the high school office.

A letter to the B. C. D. from a national authority says that cannibal plants will be established only where there is a federally inspected packing plant. Congressman Marvin Jones is endeavoring to remove this qualification.

'BOES' CAPTURE CONVICTS

Disguised as tramps and carrying machine guns in burlap sacks carelessly slung over their shoulders, city detectives Johnson and West-berford today captured two young ex-convicts who Saturday afternoon broke jail at Archer City, Ark.

Miss Mildred Holt returned last night from a vacation spent in Southern Texas and Hot Springs, Ark.

I SAW--

Gene Green wearing what he said was a rabbit's tail around his neck. He said it was for luck in card games.

A young fellow from White Deer give an almost perfect impersonation of Bing Crosby, lip-movement, as a stopper. He holds everything. He'll be in the Hollywood revue, Sept. 8.

There's Real Kick in This Little Story

HAVANA (AP)—Here's a story with a kick to it. Jacobo Marqueti Job, 21-year-old negro prisoner at Principe prison, has been kicking for seven months and he expects to keep it up for seven years.

It's Job's job to kick—and prison officials say he does it well.

Dressed in spick-and-span white duck, Job sits on the inside of the main gate at the prison and acts as a human spring for the huge iron gate.

For seven months he has been using his right foot—the only one on which he wears a shoe—and he estimates he has kicked the door 357,000 times.

A police sergeant, keeper of the keys, stands outside and swings open the door for those who have passed. Job's foot acts as a stopper. He holds the door until the person has passed through, and then kicks it back to the hands of the sergeant.

Serving two sentences totaling seven years and eight months, he expects to hold his job for the remainder of his term.

If he does he will kick another 4,355,000 times.

He works 14 hours a day and estimates he kicks the door twice each minute of that time.

YOUR CHILD AND ITS SCHOOL

Supt. R. B. Fisher submits the following excellent suggestions to parents:

- Arrange the breakfast and lunch hours so that there is no rushing at home or to school.
- Encourage punctuality and regular attendance, not permitting trifles to interfere.
- See that the children are dressed simply, neatly, modestly, and suitably in accordance with the weather.
- Insist upon children under 14 having at least ten hours' sleep.
- Find out how much time should be devoted to home work, and see that it is done.
- Provide a quiet place for home study, with good light and ventilation. Prevent interruptions as far as possible.
- Show an interest in the children's school work, athletics, and other activities.
- Visit the classroom during American Education week, and at other times, for a better understanding of conditions.
- Do not criticize the teachers or school at all within the children's hearing. Always hear both sides of every question and ask the teacher about it.
- Instill in the children habits of obedience and respect for authority.
- Keep in mind that the schools offer unlimited opportunities to those who take advantage of them, parents as well as pupils.
- Plan to meet other parents in the school. It will help you understand your children better. Mothers should arouse the interest of fathers in the school activities and get their cooperation. If there is a parent-teacher association in your children's school, join it. If there is none, why not form one? Intelligent cooperation brings splendid results to all.

OUT OUR WAY By WILLIAMS

BRITAIN ENDEAVORS TO PROVE SHE IS MISTRESS OF THE SEAS

NEWPORT, R. I., Aug. 28. (AP)—T. O. M. Sopwith, owner of the British yacht Endeavour, challenger for the America's Cup in the international races off the coast here next month, has not "muddled through" his task of whipping the challenger into shape.

Ever since her rough 15 1/2 day crossing from England, Sopwith has been hobbling about the Herrshoff's yards at Bristol, R. I., on an injured foot, supervising repairs necessitated by the battering she received on the way over.

Charles Nicholson, designer of the

Endeavour, did not come to this country with Sopwith, but joined him a week later. He expressed pleasure over the ship's condition and indicated that no major changes would be made in the rig.

In contrast to the late Sir Thomas Lipton, Sopwith has supervised every hour's work on the Endeavour. In fact, even Mrs. Sopwith has been hard at work ever since arriving in the United States with her husband, polishing the metal fittings of the trim yacht.

While the Endeavour's racing mast was being stepped three tall

sloops, candidates for the nomination as defender of America's Cup were skimming through New England waters. They were Yankee, Rainbow, and Weetamoo. The Yankee, skippered by Charles Francis Adams, has the edge over the other two so far, with Harold S. Vanderbilt's Rainbow running next.

One of the most traditional sporting events between Great Britain and the United States, the first race was sailed in English waters in 1851, and was won that year by the schooner yacht, America.

Until 1899, British yachtsmen sought to lift the cup but failed. In that year, Sir Thomas Lipton, at the suggestion of King Edward VII, then Prince of Wales, made his first invasion to the United States in the Shamrock I, first of the famous Shamrocks that were to carry

Russia Charges Brutalities in Jap Treatment

MOSCOW, Aug. 28. (AP)—Moscow newspapers charged today that Russian prisoners in Manchukuo were brutally treated in an attempt to force confessions.

Soviet dispatches from Khabarovsk said many of the Russian employees of the Chinese Eastern railway who had been placed under arrest were beaten with sticks and forced to sign statements that they committed sabotage along the railroad at the direction of the Far-Eastern Red army.

The dispatches said Japanese gendarmes had joined in making the arrests, hitherto made by policemen of Manchukuo. Concern was felt here at the reports Japan had taken a direct hand in the incidents.

Fears were expressed in Moscow that the strained relations might make it impossible to resume negotiations for Japan's purchase from Russia of the C. E. R. The negotiations are only about \$8,000,000 apart, it was said.

Beebe Obtains More Data on Deep Sea Life

HAMILTON, Bermuda, Aug. 28. (AP)—Valuable new data on deep sea life were reported today by Dr. William Beebe and Otis Barton, American scientists, as the result of their latest dives off this port.

Strange under water creatures, thus far unidentified, were glimpsed through the quartz windows of the bathysphere, steel diving device invented by Barton, in two submersions yesterday. Tiny fish, angry at the invasion, hurried themselves against the ball, emitting flashes of light when they struck it.

Two accidents occurred yesterday. On the first descent a short circuit in a battery caused door flashlights bulbs to explode in Barton's face. He was blinded for a few minutes but remained below, unhurt.

Later a descent was made by Beebe and John Teevan, an assistant. They were being brought aboard ship by cable when a great wave rocked the little craft.

The ball splintered and rolled across the deck as the vessel pitched, giving Beebe and Teevan rough moments. They escaped injury and the bathysphere was undamaged except for a small break in an instrument connected with its oxygen supply.

No attempt was made to equal the depth record of 3,028 feet, set by Beebe and Barton two weeks ago.

CHAMPIONS OF KANSAS HAVE VETERAN TEAM

ROAD RUNNERS ARE TO FACE SEVERE TEST IN TWO GAMES

Pictures of the Arkansas City champions of Kansas, received here today, show the baseball team to look as formidable as their record appears on paper.

The Shell Petroleum team of Arkansas City will play the Pampa Road Runners Wednesday night at 8:30 o'clock and on Thursday night at 8 o'clock. A \$300 guarantee was signed by Earl Roff to obtain the presence of the Kansas champions.

The club's roster includes the following: Glen Hatch—Catcher, semi-pro star in Kansas and Oklahoma. Wentworth—First base, formerly with St. Paul in the American association.

MAJOR LEAGUE LEADERS

By The Associated Press. American League. Batting: Gehrig, Yankees, .363; Manush, Senators, .362. Runs: Gehrig, Tigers, and Werber, Red Sox, 114.

Texas League Leaders

Leading hitters: Bell, Galveston, .349; Hooks, Tulsa, .346; Morgan, San Antonio, .346. Total hits: Morgan, San Antonio, 194.

SPITE MARRIAGE

by Katherine Rowland Taylor

Chapter 45 FINAL THOUGHT

"YOU see I never had anyone to love me or care, and so many men offered me the thing they called love that I began to think it a rather tawdry thing which grew out of hunger, and made overeating and indigestion afterward. And that made me marry you as I did. Then, it didn't seem serious."

She paused and, because she was weak, sagged a little. He stood up, settled back of her, and pulled her against him.

"It is better for you this way," he explained, "you really shouldn't be sitting up."

"I'd rather talk without looking at you too," she answered. "Do you understand so far?"

He said he did. And he added, "Let your head rest on my shoulder," and she did.

"Well," she went on, after the new position was assumed, "you loved me and I began to know what love could be. The sort that is big enough to be gentle, to make real and tender care for the other person, and to be happiest when the other person is happy. You did depend on my moods, didn't you, Bob?"

"My dear, always."

"I thought so. And all that made me utterly mad—no, entirely sane—about you. But I couldn't tell you because it was so real and big that it made me feel like crying lots, and as if something were swelling and crowding my heart. And I used to touch your coat and your things in my room when you weren't there. I suppose that sounds silly."

He bent his head until his cheek was against hers. He couldn't help it; he hoped she would forgive him, and let him have, for the few minutes, that much.

"And then," he said in a voice that was rough, "Geoff came, and you found the old love—"

"Just as rotten," she said energetically and characteristically, "as I always knew he was!"

"What do you mean?" he blurted out, as he moved quickly so that he might look at her.

"I mean I disliked him—loved you. No, there's more—lots more. He accused me of forgetting. I had promised to marry him sometime, you see, and I said 'I thought you were married, and he made me tell him that that was why I married you. (He couldn't make me do anything today!) and then you came in. And later you said you didn't want me."

"I lied. I did! I will always."

"No, it isn't half over yet, Bob."

He felt her grow limp in his arms; he, himself, quieted and controlled every emotion in order that he might soothe her.

"Comfortable?" he asked, stiffly. He felt her nod.

"Bob?"

"You might kiss me before I go on."

He caught his breath sharply and turned her in his arms only to be stopped with a semi-hysterical "No, I won't! Don't, Bob. . . I'll go on. But I'll sit up to do it. And you must face me. Please, Bob."

Reluctantly, he moved to settle so that he faced her.

"I WANTED to be with you, and to go back with you, after—after mother was through with me. You won't understand how much I wanted it, because you couldn't know how wonderfully beautiful I found it to have people like you and your mother care."

"It seemed sometimes as if it didn't matter how I got back with you, so long as I did. And I planned a lot, Bob, how I would make you love me again, if I could get off alone with you. You see, no one ever did really care for me before, nor had I ever cared for anyone either. But I am wandering dreadfully."

"I don't mind, but my dearest, I am getting close to the breaking point. I don't think I can stand much more without—"

He leaned forward, touched her hands, her arms, her face, her hair with broken little staccato caresses. Gently, but definitely, she put him away.

"Not yet," she said, and then, "Your mother didn't write that note, Bob."

"What, dear?"

"She didn't write it. I wrote it."

PROGRAM SAYS END POVERTY IN CALIFORNIA

SINCLAIR WOULD HAVE STATE TAKE OVER BUSINESSES

SAN FRANCISCO, Aug. 28 (AP)—A topsy-turvy campaign that saw a socialist novelist turn democrat to seek the governorship of California ended in the state primary election today.

With Upton Sinclair offering to "end poverty in California," George Creel proposing to follow President Roosevelt's program, Acting Governor Frank Merriam pointing to his handling of the San Francisco general strike, and former Governor C. C. Young recalling the large surplus he left in the now empty state treasury, interest centered in the gubernatorial race.

Sinclair, novelist and former socialist, financed his campaign thru sale of his own pamphlets and charging admission to most of his meetings.

Taking the initial letters of his four-word platform, Sinclair named his program the "epic" plan. Estimating its cost at \$300,000,000, he proposed that the state take over 300,000 factories and businesses and run them as a commodity proposition to eliminate unemployment.

Other unemployed would cultivate farm lands the state has confiscated because of delinquent taxes. Workers in the state controlled factories would buy the produce of the state controlled farms and vice versa.

Creel, war-time director of propaganda, charged Sinclair was in reality adapting President Roosevelt's national program to the state and pledged himself to follow the president's policies. Two other candidates withdrew from the democratic race to throw their support to Creel against Sinclair.

Justice Wardell, San Francisco, long a state party leader; Milton E. Young, former party nominee; William J. McNichols, and Dr. Z. T. Malaby complete the democratic field.

Merriam, Young, and John R. Quinn, past national commander of the American Legion, split in a 3-cornered race for the republican nomination, considered almost tantamount to election until the present campaign saw democratic registrations outnumber the republicans.

In the unique position of being credited by observers with assured victory for four party nominations is Senator Hiram W. Johnson, independent republican. His opposition is considered nominal on republican, democratic, progressive, and commonwealth tickets.

Merriam, Young, and John R. Quinn, past national commander of the American Legion, split in a 3-cornered race for the republican nomination, considered almost tantamount to election until the present campaign saw democratic registrations outnumber the republicans.

ordinary principles of mouth hygiene; being conscientiously adhered to, they can be relied upon to protect against the conditions that take such a tremendous and unnecessary toll.

Thoroughly to cleanse the teeth daily by tooth brush and dental floss, and religiously to seek a periodic dental examination at least semi-annually, oftener if required, is merely practicing a common sense procedure which returns incalculable dividends.

'For Congress'

Mrs. Ella Rainey, widow of the late speaker of the house of representatives, is being urged by influential Illinois democrats for the nomination as Henry T. Rainey's successor in congress. She is thoroughly familiar with congressional work, having been her husband's secretary for many years.

TRENCHES WILL BE OBSOLETE IN NEXT WAR; TANKS TO DO FIGHTING

ing of the AAA planners centers on adjusting production to about the quantity needed to feed Americans, plus ample reserves for lean years and probably some exports.

The first experiment is under way in the sugar program under the Jones-Costigan act. This adjusts domestic production and imports to 6,476,000 tons that officials estimate will be consumed this year.

The wheat program announced last week contained much the same sort of adjustment, calling for production of about 775,000,000 bushels to meet domestic demand of 625,000,000 bushels, rebuild the carryover and leave a margin for export purposes.

In preparing the livestock plan, the same idea predominates. Actual control of hogs and beef cattle probably will hinge on control of corn, wheat, rye, barley and grain sorghums, with these grains brought together in a composite contract.

In the midst of planning the future, officials found time to look at the present. The bureau of agricultural economics issued an estimate that cash income of farmers from all sources this year will be about \$6,000,000,000, an increase of 19 per cent over last year and 39 per cent over 1932.

The figures include income from sale of farm products, rental and benefit payments of about \$350,000,000 for adjusting production and cash received from the sale of cattle, sheep, and goats to the AAA in drought areas. The benefits are expected to total about \$103,000,000.

ROME, Aug. 28. (AP)—Italian military authorities, calculating the results of the recent army maneuvers, declared today that trench warfare was obsolete.

This conclusion, they said, results from their observations of the new rapidly in troop movements due partly to the greatly increased use of tanks.

They declared the first onslaught of tanks and fast moving troops would break through a line of trenches and force fighting out into the open. The movement would then become so rapid that there would be no opportunity to dig trenches nor would there be anything gained by digging them.

Contrasting the eventual war with the last, they said that on the western front, when troops broke through, they entrenched themselves in new "inverted" positions as they came up against machine-gun fire. The opposing forces then counter-attacked on the basis of the inverted v and forced the original attackers' retirement.

In the eventual war, the Italian expert said, the attacking forces, after breaking through their enemy's lines, will not entrench but will continue to push forward with tanks. Consequently, the eventual war will be with the opposing forces moving back and forth much more rapidly over the battle territory with their gains and losses aground much more considerable.

EXPORT TRADE UNDER AAA TO BE NEGLIGIBLE

WILL RAISE QUANTITY NEEDED TO FEED AMERICANS

WASHINGTON, Aug. 28. (AP)—The AAA, pondering its plans for 1935, is becoming convinced that George Washington's advice about foreign entanglements may apply.

The application to the AAA is that producing great surpluses on the off chance that they can be sold in foreign markets very probably would lead to grief for the American farmer. The emphasis is on domestic needs and sales.

Officials say they are not ignoring a possibility of regaining some export business through for instance, reciprocal treaties. But the think-

MONTGOMERY WARD

ENGAGEMENT OF MISS SMALLING AND MR. HYDE IS ANNOUNCED

Philharmonic Choir Starts A New Season With Plans For Immediate Projects

FRIENDS TOLD OF BETROTHAL AT A DINNER

DATE OF WEDDING IS REVEALED WITH CLEVER VERSE

Announcement of the engagement of Miss Sue Smalling and Billy Hyde of Shreveport, La., was made at the surprise ending of a dinner given by the bride-elect's mother, Mrs. T. F. Smalling, last evening at her home here.

September 16 was announced as the wedding date. The clever rhymed announcements, heralding the wedding of "Black-Eyed Susan and Sweet William" were found when the yellow balloons given as favors at dinner were broken.

Yellow garden flowers and balloons decorated the rooms for the three-course dinner. A flower theme was carried out, with flower names on the place cards directing guests to their places.

Games of bridge followed the dinner. Guests were Misses Smalling, Frances Finley, Mary Snead, and Jean Hyde; Meses Russell Kennedy, Bob Mullen, Bruce Pratt, Dudley Steele, A. A. Hyde, and G. A. Chilton of Comanche.

Miss Smalling and Mr. Hyde are both popular members of the young-people set here. He is the son of the Rev. and Mrs. A. A. Hyde. The couple plan to live in Shreveport, where he has been employed for some time.

FLETCHER SAYS BUSINESS LOST UNDER NRA, AAA

Avers Unemployment 300,000 Greater Than in 1933

WASHINGTON, Aug. 28 (AP)—Donald Ruchberg works today on a report of the new deal's benefits to farmers while the republican camp took pot shots at his summary of the industrial picture.

Attacking the first Ruchberg report of "tremendous progress under the Roosevelt administration," Chairman Henry P. Fletcher of the republican national committee said last night that business actually lost ground under the NRA and the AAA.

Ruchberg, head of the president's executive council reported to Mr. Roosevelt Sunday night that 4,120,000 workers were re-employed since Mr. Roosevelt took office and that industrial payrolls increased from \$96,000,000 to \$122,000,000.

Ruchberg compared with present conditions with those of the spring and early summer of 1933, when the NRA and the AAA were not effective.

Comparing figures of today and of the time when the two agencies started work, he said, shows that industrial production has declined in all classifications listed by the department of commerce except automobiles. This includes, coal, electric power, lumber, petroleum, and steel.

"The purchasing power of the farmer's dollar in July, 1933," he said, "was represented by the index 71, as against only 66 in July, 1934."

"According to the American Federation of Labor's statistical department, unemployment today is 300,000 greater than it was in October last year and the total number of unemployed industrial workers is in the neighborhood of 10,000,000."

He said rapid recovery slowed up when the "deadening effect of the so-called recovery measures began to take effect" last August. Strike figures, he asserted, were "conspicuously absent" from Ruchberg's report.

Just Smart!

There's a studied nonchalance about the costumes smart society women wear. Here's Mrs. William G. Loew—well-dressed in a casual manner—leaving a casual Newport, R. I. Her trimly tailored two-piece white silk sports dress is topped by a knitted cape and a wide-brimmed straw hat, trimmed with a plain white grosgrain band.

NEW FEATURES ADDED TO OLD FAVORITE PLAY

60 CHILDREN TO GIVE TOM THUMB WEDDING TONIGHT

Tonight will see the youngest generation's presentation of that ever-popular drama, Tom Thumb's Wedding. A cast of 60 children from 3 to 7 years of age will appear at the First Methodist church at 8:15.

The basic drama, in which many of the tiny actors' parents appeared in their own childhood, has been enlivened by the director, Mrs. Gaston Foote, with new touches of comedy and music. One feature will be the introduction of the wedding guests as local celebrities.

Identity of the bride and groom, 4 and 5 years old respectively, will be withheld until the ceremony is read by the Rev. Jimmy Brummett. Final practice this morning showed all the children ready for their parts, Mrs. Foote said.

No admission will be charged for the performance, to which the public is invited. A free-will offering will be taken by the little ushers, and go to the Woman's Missionary society of the church.

NEWS OF THE WEEK VARIED AT NOLETTE

Birthday Party For Girl Is Recent Event

NOLETTE, Aug. 28.—Mrs. Ben Ross invited friends to her daughter, Margie, to celebrate her 12th birthday Tuesday afternoon. After games were played, cake and ice cream were served.

Guests were Dorothy Taylor, Lois June, Johnny, and Mene Richey. Rex and Billy Christie, Elizabeth Harter, Dorothy, Kaleen and Billy Watt.

Mrs. Ross was assisted by Mrs. Richey, Mrs. E. J. Chruson, and Mrs. Arthur Batchler.

Personal

Mr. and Mrs. G. E. Cady and children, Edna and Al, spent Sunday in Woodward, Ok. guests of Mr. Canady's mother.

Mr. and Mrs. Don Dev and children moved to the Blair-Frairie lease near Pampa Tuesday.

Mr. and Mrs. G. G. Orr and children of Sunday were recipients in the home of her mother, Mrs. Nora Upright.

Friends of Mr. and Mrs. L. H. Harker have received announcement of the birth of an 8 1/2 lb. son Monday morning.

Mrs. Joe Marsell and daughter, Ruth Jean, Mrs. V. J. Casika and children left Monday for Kani, where they were called due to the serious illness of their step-father.

J. C. Alexander of Borger transferred business here Wednesday.

Return From Colorado

Mr. and Mrs. John J. Casika and daughter have returned after a two-week vacation trip to Colorado.

Mrs. I. C. Looman and daughters, Margaret and Helen, of Borger were visitors here Wednesday.

Mrs. Ira Peterson spent Monday in the home of Mr. and Mrs. Floyd Humphries.

R. E. McLeod has returned to his home in Shamrock after a visit with his son, J. N. McLeod.

Mrs. W. J. Searle was called to California due to the serious illness of her father.

Fred Rush has returned to his home in Fairfax, Okla., after visiting a few days with friends here.

Mr. and Mrs. J. R. Stansell and children have returned after visiting two weeks with Mrs. Stansell's mother, Mrs. Dollie Cromwell, in Fairfield.

Miss Evelyn Nash of Pampa spent the week-end with Miss Pauline Termin.

Heiress Found

A missing heiress who says she has learned a lot about hamburgers, Miss Janet Bowen White, 21, above, was found working in a roadside restaurant near Coldwater, Mich., ending several days' hunt for her after she left Michigan university summer school on the eve of tests. Daughter of a wealthy Detroit, she said she wanted to earn her own way.

Premiere Actors To Compete for Valued Prizes

Presentation of a successful Hollywood premiere at La Nora theater Sept. 7 and 8 calls for the appearance of some of those people everybody knows—the friend who looks exactly like Harold Lloyd with glasses on or exactly like Marlene Dietrich in profile, or like any of the other famous movie stars.

Anyone with a friend who can impersonate a film star, or who will attempt it himself, is asked to notify the Hollywood editor at the Daily News by letter or telephone.

Each person accepted for an impersonation in the premiere will receive 10 tickets to the La Nora. In addition, grand prizes will be awarded the three actors whose acts are judged best. First prize will be a year's pass to the theater, second prize a pass for six months, and third prize a pass for three months.

Impersonators of the stars will be chosen by a committee of directors from the Little Theater, who will also direct the skits.

The premiere will be modeled on a Hollywood opening, with the "stars" arriving in chauffeured limousines to be introduced in the entrance spotlights by a master of ceremonies, and then to appear briefly on the stage.

Many Pampans who resemble film stars have already been assigned to parts in the premiere, but others are still needed and are asked to apply through the Hollywood editor, the theater box office, or any member of the Little Theater.

FIRST MEETING FOR REHEARSAL TO BE MONDAY

NEW PRESIDENT GIVES OUTLINE OF PLANS FOR YEAR

A new year opened for the Philharmonic choir Monday evening with a business and social meeting at the Methodist church.

Twenty-six members were present to discuss business under direction of the new president, Jack Skelly. He stressed the fact that the organization is non-denominational, and hopes to have a membership of 75 this year from all churches of the city.

He outlined also projects that the club will undertake this year. Several public productions are planned, including the oratorio, The Messiah, on which rehearsals will begin at the first regular meeting of the year.

A production jointly with Emil F. Myers of the Amarillo College of Music is also planned.

Mrs. May Foreman Carr will direct the choir in all its music this year. In the past, and Miss Herman Stover will be accompanist. The president appointed Mrs. Frances Sturgeon as chairman of publicity for the club.

Following the business discussion, delicious ice cream and cake was served in the dining room.

All members and prospective members are urged to be present next Monday evening for regular rehearsal at the Methodist church, 8 p. m.

KIWANIANS AT GALVESTON

GALVESTON, Aug. 28 (AP)—The seventeenth annual convention of the Texas-Oklahoma district of Kiwanis International drew to a close this afternoon with election of officers and selection of the 1935 convention city.

Mr. and Mrs. J. B. Massa left yesterday to spend a few days in Austin.

Party Observes Second Birthday Of Patsy Miller

A party honored Patsy Miller on her second birthday Saturday afternoon at the home of her parents, Mr. and Mrs. Leroy Miller, 1203 Christine.

Paper caps and whistles were given the guests, with bracelets as favors for the girls and harps for the boys. After the children dressed up in their party attire, they enjoyed games and refreshments.

The birthday cake, decorated with two candles, was served with ice cream to the honoree and Betty Barnett, Judy Smith, Carol and Dot Culbertson, Betty Ann Culbertson, Betty Fern Wilson, Betsy Nunn, Frankie Ann Studer, Barbara Ann and Stanley Studer, Hobart Stauch, and Laura Louise Stauch of Canadian.

MARKET BRIEFS

NEW YORK, Aug. 28 (AP)—Stocks went through the trading motions today, but it was another one of those "dullness" sessions and few issues managed to climb out of an extremely narrow groove. Professionals accounted for some scattered buying while the rest of the list generally stood still. The close was steady. Transfers approximated 370,000 shares.

South Carolina Demos Vote in Primary Today

COLUMBIA, S. C., Aug. 28 (AP)—South Carolina democrats vote today on nominations, equivalent to election, for six representatives, governor and a host of state and county officers.

Five of the state's six representatives in congress have opponents, only Rep. Thomas S. McMillan of the first district being without competition.

None of the candidates for governor expects a majority in today's election, and the two high men will meet two weeks from today in a runoff primary, as will the first two in all contests in which no candidate receives a majority.

The electorate votes also on a non-binding liquor referendum, after a campaign in which the dry forces urged voters to oppose any change in the present liquor laws, prohibiting manufacture and sale of alcoholic liquors.

Rural Schools To Open Monday

Rural schools of Gray county will uniformly open the fall term this Monday, according to John B. Hessey, county superintendent.

About 35 teachers will issue books, enrol the pupils, and in some instances make assignments for the next day.

Two schools have been eliminated. Pupils of Davis No. 1 will be transported to Pampa and those at McClellan to Albrecht to obtain better advantages. High school pupils at Webb will be taken to LeFors and those at Back to McClellan.

Wheat yesterday in Oklahoma City purchased a fine new all-steel bus for the Back district. It will seat 45 pupils comfortably. It is heated by hot water. In a demonstration, such a bus was turned over three times and another vehicle placed on top of it without greatly damaging the body. The windows have safety glass.

Wheeler Boy Is Injured by Car

Officers last night were informed that a Wheeler county boy had been struck and seriously injured by a car which did not stop after the accident.

The accident took place on a highway near Wheeler. The child, a son of Perry Riley, is in a Wheeler hospital.

Officers were informed that the car which struck the boy was used for carrying explosives.

NEW ORLEANS COTTON

NEW ORLEANS, Aug. 28 (AP)—Although trading was light during the morning, prices improved, mainly owing to a smaller crop estimate of 8,780,000 bales by a prominent private authority. This estimate is 200,000 bales smaller than that of the same authority a month ago. October traded up to 13-19 and December to 13-32, or 7 to 9 points above the early lows and 9 to 11 points above the previous close.

The tropical disturbance did not influence the market to any appreciable extent.

CHICAGO GRAIN

CHICAGO, Aug. 28 (AP)—Wheat prices drifted lower today as selling accompanied falling quotations at Liverpool and Winnipeg. Early losses of about a cent were partly reduced by later rallies but the close showed a net fractional setback.

Corn, on the other hand, rallied sharply from the day's low figures and in late buying prices were advanced above the previous close.

At the close, corn showed a net gain from yesterday's finish of 1/4 cent. September deliveries closed at 77 1/2 to 78 cents a bushel; May 22 1/2, finished 1/4 to 1/2 down. December new deliveries at 1.02 1/2. Oats were unchanged to 1/2 down, rye lost 1/4 to 3/4, barley was unchanged to 1/4 off. Provisions were higher.

TEXTILE MILL OWNERS MANNING MILLS WITH GUNS AND GAS

HOPKINS WILL TAKE CARE OF ALL DESTITUTE

BUT DENIES FERA IS UNDERWRITING STRIKE

WASHINGTON, Aug. 28 (AP)—An eleventh hour call for a peace conference failed to put the brakes today on a drive for a nation wide textile tieup starting next Monday. Warnings of bloodshed were heard.

The national strike committee of the United Textile Workers was expected to heed the plea of Lloyd Garrison, chairman of the national labor relations board, for a round-table conference tomorrow or Thursday.

But the workers insisted that conferences are not enough and unless definite concessions satisfactory to them are made by employers, the national strike will cripple the industry Monday. In addition to

summoning 400,000 cotton mill workers from their machines, they worked on plans to extend the walkout to 300,000 silk, rayon, and woolen workers.

Other developments included: Francis J. Gorman, head of the strike committee, said Alabama mills were being converted into fortresses, with industrialists rushing in machine guns and tear gas. He said the only disorders would be "provoked by the employers." Paul A. Redmond, head of nine mills in north Alabama, denied there was any intention of placing guns or gas in the plants.

Hopkins Move. Harry L. Hopkins, federal relief administrator, grew angry over reports which he understood to imply that FERA agreed to support the strikers. "Certainly we are underwriting no strikes," he said, but he reiterated the policy that all needy will be cared for unless the labor department or the national labor relations board brands the strike unjustified.

Intervening swiftly as the situation grew more ominous yesterday, Garrison asked both labor and the cotton textile institute to attend a peace conference tomorrow or Thursday.

"If any action is to be taken it should be taken speedily," he wired George A. Sloan, head of the cotton textile institute.

There was no word early today as to the attitude of the employers. Before Garrison's plea, Sloan had served formal notice on Chairman Robert Bruere of the cotton textile industrial relations board that "the industry must stand firmly upon its code number one."

Gorman declared it was "highly possible" that silk, rayon, and woolen workers would walk out at the same time as the cotton operators. The deadline for the latter is set for Friday night, but because few mills operate Saturday, the strike would not really begin till next Monday.

Getting Ready to Make Up!

Soon you'll see Mary Pickford and Douglas Fairbanks like this again. For the latest assurance from Hollywood, where the estranged couple have been endeavoring to patch up their quarrel, is that a reunion will be effected shortly. This picture was one of the last of the pair taken together, before their separation more than a year ago.

The SNAPSHOT GUILD

"HOW UNUSUAL!"

Left: A boy and an engine—a logical shot, yet how often overlooked. Right: What! A picture of the back steps? But the flower and its shadow provide the necessary interest.

Some folks have the notion that the only pictures worth taking are those of unusual things. They take a camera along when they travel and never use it at home, unless something special is happening.

Yet the simple fact of the matter is that some of your finest picture possibilities are at home, around the house.

"But," you may say, "I've already made good snaps of the house, the family, the pets, the garden and the new car. What else is there to shoot?"

Nobody can answer that question for you, directly. But it's dollars to doughnuts that there are dozens of other picture possibilities. And all of them as interesting as the ones already in your album.

The secret of finding them is simply a matter of keeping your eyes open. Get the habit of looking at things—everything—as though you had never seen them before. It's amazing the way this habit will sharpen your interest—now dulled by sheer familiarity—in even the most commonplace things.

Some of the finest pieces of photographic art have been results of appreciative eyes in the heads of stay-at-home. The pattern of sun and shade on the front steps, the fascinating interplay of roof lines, tree portraits—are typical of pictures that may be made at home—unusual pictures of usual subjects!

Not all of us are particularly interested in photography as an art—and if you don't believe it's an art, visit some of those camera club exhibitions—but we are interested in getting good snapshots. And we have no objection to artistic snapshots, have we? Very well, then, back of every great picture is someone who has kept his eyes open for the unusual where it's least expected.

Not afraid of doing things differently. It's a tonic to tackle old subjects from new points of view. If, to get a shot that appeals to you, you have to upset the "laws" of safe-and-sane snapshotting, don't hesitate. If your eye enjoys the scene, whatever it is, the chances are that your camera will enjoy it, too.

With such helps as the new and inexpensive photoflood bulbs (for which efficient reflectors are available) you can do your snapshotting indoors as well as out. Some week soon we shall talk more about indoor pictures. For the time being, take it for granted that present-day cameras, films and lights give you unlimited scope for your snapshotting. Today almost any picture is possible—and at any time.

Of all words of praise for the snapshotter, the sweetest are these, spoken by a friend:—"Well, would you look at that! I've seen that spot every day for the last fifteen years and I never dreamed it had the makings of a picture like this."

Maybe you've heard those words already! Congratulations!

Any Questions? If you are puzzled about anything in connection with your snapshotting, this writer will be glad to give you the benefit of his experience. Address your queries to: The Snapshot Guild, in care of this paper.

Here are some of the questions that have come in from folks who needed no special invitation.

LEAGUE MAPS COUNTER MOVE AGAINST FOES

PRINCIPLES AND NOT PARTIES TO BE STRESSED

WASHINGTON, Aug. 28 (AP)—The way the American Liberty League has been heralded as anti-Roosevelt is expected to prompt a counter campaign on its behalf.

The meetings of its executive committee in New York late this afternoon may signalize the opening of the campaign; but activities probably will not be speeded until after Labor day.

The first move, as predicted in pro-league circles, will be to hammer home the organization's interest in principles, not parties or personalities. It remains to be shown how much attention will be paid President Roosevelt's belief that the league has shortcomings or to signs that his firmest supporters classify it as hostile.

It is a matter of guess work whether the new agency, in its publicity drive and appeal for membership, will simplify the contests for senate and house, or make them more complex. The consensus appears to be that partisan lines will increase as regards party lines.

Few observers deny that a situation which finds Alfred E. Smith

AAA Program Has Cost One Billion

WASHINGTON, Aug. 28 (AP)—More than \$1,000,000,000 is destined to go into the pockets of the nation's farmers through the AAA before the end of 1935.

Cotton, tobacco, wheat, and corn-hog benefit payments will total \$779,402,000, officials estimated today. Of this sum \$282,882,519.21 has been paid out up to August 25.

Of the latter payments, cotton farmers have received the lion's share, \$152,510,799. Wheat farmers netted \$87,787,951, corn-hog farmers \$45,813,988 and tobacco growers \$19,773,785.

In addition to the \$779,402,999—which is being paid out to farmers for controlling production—cattle raisers will net about \$120,000,000 and sheepmen approximately \$7,500,000 by selling drought-stricken animals to the government. This raises the total for farm adjustments close to \$1,000,000,000.

Chester C. Davis, farm administrator, said about \$587,000,000 of the benefit payments would go to farmers in emergency and secondary drought areas. They already have received about \$150,000,000 of this.

COURT RECORD

New suits filed: R. W. McQuerry vs. Mrs. Beesie Morris et al. partition.

Burma Davis vs. Johnnie Davis, divorce.

M. Cox vs. Texas Indemnity Insurance corporation, to set aside award.

Fred Downey vs. Selma Downey, divorce.

FINAL DATE SET

SEYMOUR, Aug. 28 (AP)—Preparations for the trial of Miss Ruby Britain, 40, under indictment for the slaying of Horace Nichols, assistant cashier of a bank, were launched by state prosecutors today.

J. D. Dickson, district attorney, said he would ask that the trial be set for September 24. C. C. McDonald of Wichita Falls, unsuccessful candidate for governor, has been retained by the prosecution.

3,000 Join in Race Riot in Niagara Falls

NIAGARA FALLS, N. Y., Aug. 28 (AP)—Fear of a new outbreak between white and negroes kept police on guard today after a night of rioting.

More than 3,000 joined in a free-for-all battle last night, resulting in serious injury to three persons and minor hurts to many others. Intense feeling after the fighting had been subdued led to intermittent clashes during the night.

The trouble started when an attempt was made to break up a meeting of the international labor defense called to rally workers to the defense of Alphonso Davis, negro, who had been arrested on a charge of attacking a white girl. Several shots were fired, none taking effect, police said.

Windows in stores and homes in the district were smashed as the angry crowd battled back and forth. Knives flashed, clubs were brandished and stones rocketed through the air.

The authorities said there has been considerable bitter feeling between whites and negroes recently because negroes were moving into the section around East Falls and 24th street, largely populated by Polish-Americans.

Big Rain Falls In Spur Section

SPUR, Aug. 28 (AP)—A heavy downpour of rain began here just before dawn today and covered a fan-shaped area extending from the north to the southeast of Spur.

It was the first heavy rain since last April in this section and it brought joy to stockmen and farmers. Up to 9 a. m. precipitation totaled 1.3 inches. Dickens City, 12 miles to the north reported 2 inches.

The rain caused small streams to rise and halted many cars in muddy, unpaved streets and roads.

Grasslands will be benefited to some extent but, in the opinion of many farmers, the greatest profit comes in the salvation of late grain feed. In the last month feed prices have risen sharply.

BUDGET HEARING

Pursuant to the requirements of H. B. 658 passed by the 42nd legislature in regular session, a public hearing on the tentative budget of the City of Pampa for 1935 will be held Monday evening at 7:30 o'clock, September 3, at the city hall.

Those Long Streaks

Q—Sir: My first few rolls of film this summer were marred by thin, straight up-and-down lines. The lines were in the same position on all the films. Is this a fault in the film? B. O. McD.

A—Not a bit of it! Don't blame the film, because those lines or scratches were caused by bits of dust and dirt in the film track of your camera. Take off the back of your camera and clean the surfaces over which your film slides as you roll it up from one exposure to the next. Exit scratches.

"Blue Haze"

Q—Sir: I took some snapshots from the top of a rather tall building last week. The day seemed quite clear, but my pictures seem to fade out and to miss much that I saw. What's the matter? D. B. B.

A—You may have had your lens too wide open but, anyway, for a shot like that always use a yellow filter. A filter is an inexpensive little gadget that fits over your camera's lens and weeds out the blue haze that is almost always present in long shots, whether your eyes notice it or not. A filter, by the way, will help you get clouds—and clouds help any such picture.

Suggested shots: Big wheels of oil field machinery with shadows; close-ups of junk yard stacks; swimmers sun-bathing at Pampa pool; corners of tall buildings from cloudy walks looking upward into cloudy sky.—O. E. H.

PICK MESQUITE BEANS

SWETWATER, Aug. 28 (AP)—A new industry has started here. Mexican boys finding that picking mesquite beans is profitable. Soon after Charlie Wade posted an offer of 30 cents a hundred pounds for the beans he was doing a rushing business. Mexican boys and girls flocked to his place, bringing beans in all kinds of vehicles and containers all kinds of vehicles and containers, made carts, sacks and boxes and old car beds.

Giant land tortoises, now extinct, beside which the largest living tortoises are pygmies, once lived in India.

Ab Jenkins praises Firestone tires in toughest endurance run he ever made.
Lake Bonneville, Utah
Aug. 18th, 1934
Mr. Harvey S. Firestone, Chairman, Firestone Tire & Rubber Company, Akron, Ohio.
Dear Mr. Firestone:
Under A.A.A. supervision, I have just completed a 3,000-mile run on the hot salt desert at Lake Bonneville, Utah, averaging 127.2 miles per hour breaking 77 speed records—without any tire trouble. Firestone tires gave an almost unbelievable performance, with temperatures as high as 120 degrees.
Last year I made a similar run with a car of less power and speed using tires of another make whose national advertising featured blowout protection. Yet, I had a blowout and made a number of tire changes.
This year I also used Firestone Spark Plugs and a Firestone Extra Power Battery with your new All-Rubber Separator. Not a Spark Plug failed and the Battery required no service of any kind.
If every car owner knew what my Firestone tires went through they would appreciate what gum dipping means in strength and heat protection that make Firestone tires safe from blowouts. This is the toughest run I have ever made in my 23 years of breaking speed records.
Sincerely yours,
Ab Jenkins
