

WOMAN'S STATEMENT BARES DETAILS OF POISON-ARSON SLAYING

Serving Pampa and Northeastern Panhandle

Pampa Daily News

HOME NEWSPAPER
Established April 6, 1907
Official Publication,
City of Pampa

It is good to live in Pampa.

The wheat crop was bigger than anticipated.

The drought here is a thing which a few good rains would wipe out. Actually, our rainfall is more uniformly than absent. We have had 13 inches of rain in the first half-year, which is not far from normal. Let us not be discouraged by six weeks of unseasonably hot weather. It will rain soon.

Business in a community is measured best by the spendable income released in that area. Measured by this standard, PAMPA IS FORTUNATE TODAY. Look about and see how many hundreds of shining new cars are being driven. Steady wages made those purchases possible. These wages are steady, rather than seasonal.

We should drive through the oil fields more often to appreciate what the industry means. We should take more interest in the industry and the things which will prolong its life. A drive through the field is a lesson in confidence, confidence in the stability of Pampa and belief in the present commercial opportunities.

There is much that easterners do not know about the west. For instance, a picture agency sent out a photo of three cows killed in the government's program. It called them "dogies."

B. E. Kirby brought us a clipping with this clever item, author unknown:

"Over the hill trailed a man behind a mule drawing a plow. Said the man to the mule:
"Bill, you are a mule, the son of a jackass, and I am a man in the image of God. Yet, here we work, hitched up together, year in and year out. I often wonder if you work for me or I work for you. Verily, I think it a partnership between a mule and a fool, for surely I work as hard as you, if not harder. Flowing or culling, we cover the same distance, but you do it on four legs and I on two. I, therefore, do twice as much work as you do.
"Soon, we'll be preparing for a corn crop. When the crop is harvested, I give one-third to the landlord for being so kind as to let me use this small piece of God's universe. One-third goes to you, and the balance is mine. You consume all of your portion with the exception of the cobs, while I divide mine among seven children, six hens, two ducks, and a banker. If we both need shoes, you get 'em. Bill, you are getting the best of me, and I ask you, is it fair for a mule, the son of a jackass, to swindle a man—the Lord of Creation—out of his substance?
"Why, you only help to plow and cultivate the ground, and I alone must cut, shock, and husk the corn while you do nothing. I am all fall and most of the winter, the whole family, from Granny to the baby, picks cotton to help raise money to pay taxes and buy a new harness and pay the interest on the mortgage on your ass. And what do you care about the mortgage? No, damn! You ornery cuss. I even have to do the worrying about the mortgage on your tough, ungrateful hide.
"About the only time I am your better is on election day, for I can vote and you can't. And after election I realize that I am fully as great a jackass as your papa. Verily, I am prone to wonder if politics were made for men or jackasses, or to make jackasses of men.
"And that ain't all, Bill. When you're dead that's supposed to be the end of you. But me? The parson tells me that when I die, I gotta go to hell forever. That is, Bill, if I don't do just as he says. And most of what he says keeps me from getting any kick out of life.
"Tell me, Willyum, considering these things, how can you keep a straight face and look so dumb and solemn?"

CONSUMERS IN LEAD

The Pampa Consumers were leading the Pampa Indians 4 to 0 going into the third inning this afternoon. A large crowd was anticipated to see the Amarillo teams play for the city championship at 4 o'clock.

Miss Dorothy Porterfield of Amarillo is the guest for several days of her uncle and aunt, Mr. and Mrs. Ewell J. Ayer.

Plea of Child Frees Mother From Sentence

SAN DIEGO, Calif., Aug. 14. (AP)—A mother who punished her six-year old daughter with fire was free today because of the intervention of the child.
"I love my Mommy," little Nora Ruth Nicolson said Justice Eugene Daney Jr., "I was bad, bad girl, and picked things up after she told me not to. She never was mean to me before."
And because of her daughter's plea, the court released Mrs. Milana Nicolson, who admitted holding the little girl's fingers over gas flames as a punishment, with a 30-day suspended jail sentence.
The girl's fingers were severely burned.

BETRAYER OF BARROW GETS HIS FREEDOM

CONVICT IS NOT SEEN SINCE JANUARY "BREAK"

AUSTIN, Aug. 14. (AP)—For lending information that led to the slaying of Clyde Barrow and Bonnie Parker, the southwest's worst outlaw couple, Henry Methvin, their former crime companion, is free from a Texas prison sentence.

Governor Miriam A. Ferguson, who granted the conditional pardon to Methvin on recommendation of Lee Simmons, general manager of the prison system, and Frank Hamer, former Texas Ranger captain, who plotted the death of the couple, planned to issue a formal proclamation today.

Methvin was serving a ten-year sentence for theft and assault with intent to murder when liberated from the Eastham state prison farm by Barrow, whom he later betrayed.

In recommending Methvin's conditional pardon, Simmons and Auld wrote the governor:

"In addition to having served three years, two months and 29 days, he gave authorities in Louisiana valuable information that led to the apprehension of Clyde Barrow and Bonnie Parker, who murdered two state highway patrolmen."
Methvin has not been seen or heard from since the Eastham break in January. He was said to have been with Clyde and Bonnie the night before they were killed.

Illicit Love Is Cause of Triple Shooting Affair

MUSKOGEE, Okla., Aug. 14. (AP)—The illicit love of a pensioned fire department official for a pretty soda fountain girl was blamed for a lurid shooting affair in which the man, Ogden Throckmorton, 54, was killed by a policeman after critically wounding the girl, 21-year-old Opal Dry, and attempting suicide.

The shooting occurred yesterday in the downtown drug store where the girl, a former beauty contestant, was employed.

Chief of detectives John Wolsey said the couple had quarreled because the girl, who had been going with Throckmorton for several months since his separation from his wife, "of late had tried to repulse his advances."

Policeman Jim Houser said that when he rushed to the scene, the former assistant fire chief sought to kill himself with a bullet in the chest. The girl, wounded in the chest, hip and groin, and her left thumb shot away, was at the point of death.

Tigers Break Loose to Beat Yankees Today

NEW YORK, Aug. 14. (AP)—The Detroit Tigers, blanketed with one hit for five innings by Lefty Gomez, smashed their way through in the late innings to defeat the New York Yankees 9 to 5 in the first game of today's doubleheader, played before a capacity crowd of 72,000 with another 25,000 turned away from the gates.

Score:
Detroit 000 000 405—9 12 0
New York 302 000 600—5 11 2

I HEARD—

A Dumas resident telling friends here this morning that it is so dry in the Dumas country that the jack rabbits carry canteens.

Also a drought story being read out of an English paper by M. K. Brown. It is so dry in England that lawns and flowers cannot be watered and only five inches of water is allowed in a bath tub for a bath. A charge of watering a lawn was filed against a London resident. His testimony was that he placed 5 inches of water in the tub and bathed the baby. He put another five inches in the tub and allowed his wife to bathe. Another five inches was added for his own bath. He then took a hose and siphoned the water out of the tub to water his lawn. The case was dismissed.

Swastika Flies Over Boys' Camp

A group of 200 boys is vacationing in a camp near Griggstown, N. J., where the Nazi swastika flies side by side with the Stars and Stripes. Ortwil Ohnmacht, 12, shown with his squad banner, wears his father's boyhood Bavarian costume. The camp is maintained by the Friends of New Germany, which disavows any Hitlerite connections.

PICKET LINES TIGHTENED AS BOTH SIDES IN STRIKE STAY ADAMANT IN ALUMINUM PLANTS

ALCOA, Tenn., Aug. 14. (AP)—Local officials of the Aluminum company of America today had rejected a proposal of striking employes to replace 200 non-union men in the mill with union men.

And in retaliation, the union had revoked passes through the picket lines of all but six high officials of the three plants.

The non-union men stayed in the plants when a strike closed them Friday. They have been inside since caring for machinery.

Because all entrances are guarded heavily by pickets, the 200 non-union men are marooned in the plant. Food and clothing are sent to them by parcel post.

The labor board in Washington, faced apparently with adamant stands of both sides in the strike which has shut down six plants and made 10,000 idle, pinned its hopes on Fred Keightly, veteran labor department conciliator.

Keightly was expected to go to Pittsburgh in a few days to initiate mediation conferences. Meanwhile, aluminum company plants at Pittsburgh, Ala. Tenn., Massena, N. J., and East St. Louis, Ill., remained closed.

Merchants Are Buying Blocks of Ball Tickets

Pampa merchants, believing in the baseball tournament being sponsored by the Junior chamber of commerce and noting that the tournament may not be a financial success, have voluntarily purchased blocks of tickets to give to employes and customers, named by them.

Every merchant and baseball fan in Pampa will be given an opportunity to purchase blocks of tickets. A growing interest in the tournament has developed in the last few days. Between 1,600 and 1,800 fans witnessed the game last night.

The following merchants have already voluntarily called for blocks of tickets: Cullum & Son, \$15; Gray County Motor, \$10; Marfoe's Inc., \$10; B. & B. Lubrication company, \$10; Culbertson-Smithing, \$10.

PLEDGE OF "DECENCY" DETAILED TO MINISTERS—SESSION CALLED

The "decency" pledge, object, and vast importance of the Legion of Decency was explained to the Pampa Ministers association by Father Joseph Wonderly at a meeting in the city hall yesterday morning.

As a result, action was taken for a meeting on Monday, August 27 to which presidents of all civic organizations, superintendents of city and county schools, and other interested in cleaner movies will be urged to attend. It is likely the meeting set for Monday week at 10 a. m. at the city hall will take some definite action.

Rev. Lance Webb was enrolled as a new member of the association and he, with Rev. John S. Mullen, was appointed as a committee to plan observance of Sunday school teachers' recognition day, October 7. All churches are asked to observe this day.

FRAIL BLOND'S FIRST STORIES BREAK DOWN

FOURTEEN-MONTH LOVE AFFAIR ENDS IN MURDER

CENTERVILLE, Aug. 14. (AP)—Horrible details of the murder plot conceived by Mrs. Charles Salsberry and the man with whom she admittedly carried on an illicit romance were bared today at examining trials of the unlettered farm couple when they pleaded guilty to charges of murder and arson in connection with the slaying of the woman's husband.

District Judge John H. Adkisson ordered the frail, blue-eyed woman and Ibb Bass, 22, her lover, held for action of the grand jury and denied them bond.

A statement by Mrs. Salsberry, 23, revealed the cold-blooded slaying scheme in all its gruesome ramifications. She told how she and Bass, after 14 months of surreptitious love making, decided to "get rid" of the 28-year-old husband.

Meet in Pasture
Bass, who lives on a farm near Centerville, went to the town of Jewett and bought poison, the statement related. He brought the poison back and met the woman in a pasture. Sitting beside a spring, they carefully laid their plans as to how they were going to kill Salsberry.

They decided, the statement said, to poison the husband and set fire to his home. Mrs. Salsberry was to run to the neighbors and say a lamp had exploded. The Salsberrys were living in a part of an old school building and had been receiving aid from relief agencies.

The slaying scheme was decided upon Saturday, Aug. 4, and carried out the night of Aug. 8. Salsberry, not feeling well, had lain down on a bed. He asked for medicine. Mrs. Salsberry took a quinine capsule, the statement revealed, and filled it with the poison, which she gave him.

About thirty minutes later Salsberry suffered his first convulsions and began tossing in pain on the bed.

"He asked me to hold him down and I did," Mrs. Salsberry said in the statement, which introduced evidence, along with one by Bass.

Several other convulsions followed, and as the night wore on, Salsberry was in great pain. Mrs. Salsberry said she held him down several times when his agony became intense.

When 3 a. m. came and Salsberry was still alive, the wife took a can of kerosene and saturated the floor of the room where he lay. She removed her two daughters, Sarah, 3, and the baby, aged 8 months, from the house and then set it afire, the statement said.

As the flames whipped up around the bed, Mrs. Salsberry said she was able to see him "rolling and lunging about on the bed and hollering for help."

"Couldn't Wake Husband"
But she turned away and ran to a neighboring house, where she told of the house catching fire accidentally and being unable to awaken her husband. The neighbor was J. W. Hall, who testified today that he asked her:

"Where is your husband?"
"I couldn't wake him—he must be dead," she replied.

Car Recovered After It Was Driven 400 Miles

A new 1934 Ford sedan, stolen early Sunday night from a street in southwest Pampa, was discovered this morning in wheat field on the John Haggard farm southwest of Pampa. Police were notified and brought the car to Pampa where the owner, Roy McMurry, identified it.

The car had been driven 400 miles since it was stolen. Mr. McMurry told officers a car is now in a garage being looked over by mechanics to see if it was damaged in the wild drive.

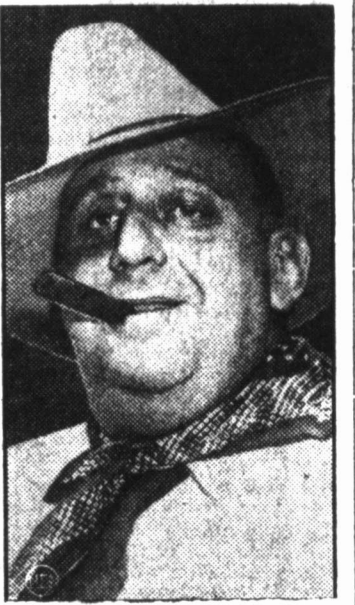

Two other cars stolen over the week-end have not been recovered. A car stolen in Skellytown last Thursday was recovered by officers Friday morning after being driven 125 miles.

Arkansas and Oklahoma: Partly cloudy tonight and Wednesday.
West Texas: Generally fair tonight and Wednesday.

INSURED LOANS WILL BE MADE POSSIBLE ON PROPERTY AT ONCE

Tells on Huey

A power in finance and politics five years ago who faded away to an Arizona sheep ranch, Mike Moss is shown back in New Orleans for a grand jury quiz said to involve income tax charges against Senator Huey Long and his aides. Moss, striking in two-gallon hat and bandana, cigar at jaunty angle, was guarded closely by U. S. agents.

MANY WELLS OF MERIT ARE BEING DRILLED

No Cessation Is Seen In New Operations Of Field

BY GEORGE L. GUTHRIE
Consulting Geologist, Combs-Worley Bldg.

The Texas company No. 2 Cooper has been completed for 201 barrels in section 4, block 9, I&GN survey, Carson county. It was bottomed at 3,116.

Kewanee Oil and Gas company No. 4 Arnold in section 149, block 3, I&GN, Gray county, made 197 barrels daily on its five-day test.

Sinclair-Prairie No. 6 Moody in section 36, block 3, I&GN, was bottomed at 2,800 with the oil and gas pay topped at 2,771. The well was given a temporary potential of 1,200 barrels.

Texas company No. 6 Harrah in section 150, block 3, I&GN, will have to retest. It was given a temporary potential of 126 barrels.

Herzog Oil company No. 2 McConnell in section 187, block 3, I&GN, Carson county, completed its test for an average of 200 barrels daily.

New locations filed in the Panhandle indicate no let-up in drilling activity. The Continental Oil company filed two new ones in Gray county and the Champlin Refining company filed one for Wheeler county.

Continental Oil company No. 9 B. E. Finley is located 330 feet from the south line and 1,650 feet from the east line of section 32, block B-2 H&GN, Gray county.

Continental Oil company No. 6 Carrie Wright is 990 feet from the south line and 330 feet from the west line of the north west quarter of section 13, block 3, I&GN, Gray county.

In Wheeler county the Champlin Refining company will drill its No. 4 Williams 1,000 feet from the north line and 200 feet from west line of section 49, block 24 H&GN survey.

Bank Acceptances of Plan Already Large

Directors and officers of the Pampa First National bank will meet soon to determine whether the institution will participate in insured property loans as outlined by the government. President B. E. Finley is out of town, but will return shortly.

WASHINGTON, Aug. 14. (AP)—By nightfall the federal housing administration expects every city to have at least one bank where property owners can obtain insured loans for repairs and improvements.

Roger Steffan, director of modernization credits, said so today as telegrams from bankers piled high upon his desk.

His chief—James A. Moffett—backed him up with an optimistic statement about bankers' willingness to make such loans.

"Enough banks already have accepted the loan insurance plan," Moffett said, "to handle more business than we can send them immediately. The response of the bankers has been fine. They may not come in 100 per cent but that is necessary and we never expected it."

WASHINGTON, Aug. 14. (AP)—J. F. T. O'Connor, comptroller of the currency, today approved a plan designed to facilitate the making of government-insured loans to property owners for alterations, repairs and improvements.

In an interview regarding his department's attitude toward the loans now being made under the federal housing administration, O'Connor said:

"There has been approved a plan whereby national banks may purchase participating interest in loans representing advances to property owners for the purpose of making alterations, repairs and improvements to real property, which loans are insured under title of the national housing act."

Further explaining the group loan plan, O'Connor said:

"Such loans are made by or purchased by a corporation acting as trustee for the participating banks, such trustee having made application and been approved by the federal housing administrator for the credit insurance under the provisions of section 2 of the national housing act."

"Since loans which are held in trust by the trustee are insured up to 20 per cent by the housing administrator, participating certificates in such loans will not be classified by examiners as slow doubtful, or loss until the losses exceed the 20 per cent of the insurance."

"Under the plan, the books of the trustee are open at all times for examination and inspection by the bank examiners and participating banks."

Absentee Voting Now Is Possible

Gray county voters who will be absent from the county August 25 may cast absentee votes in the office of Charlie Tuttle any time before midnight August 21 or by mail until August 22.

The first official ballots were delivered this morning and Mr. Tuttle immediately called for absentee voters to come to his office to cast their votes.

Names that appear on the ballot were approved by the state Democratic committee in session Saturday.

CHINESE EXECUTED

TIENTSIN, China, Aug. 14. (AP)—China exacted retribution today for the murder of Dr. J. H. Ingram, 57-year-old American missionary by bandits two months ago, when the provincial government executed five Chinese convicted of the crime.

WOMAN HELPS IN ROBBERY OF ALABAMA BANK

FIVE PERSONS LOCKED IN VAULT; LOSS IS ABOUT \$1,500

CAMPTI, La., Aug. 14. (AP)—A bandit held up and robbed the bank of Campti today and escaped with about \$1,500 after locking five persons in the vault. A woman accomplice waited in a car outside the bank during the robbery. The two drove south from Campti toward Alexandria.

A man and a woman driving a Ford V-8 coupe bearing Louisiana license stopped in front of the bank for a minute and then drove away. About 40 minutes later a man, unmasked, entered the bank and covered the cashier, F. A. Cloutier, and ordered him to "stick 'em up." E. C. Readhimer, president of the bank was inside and also was covered by the bandit.

Hughie Dobson, a customer, was also covered and ordered to throw up his hands. The bandit noticed that Dobson's wife and child were in a car outside. He forced Readhimer and Cloutier to lie on the floor and made Dobson go to the door and call wife inside. The woman entered with her child. He then forced all inside the bank to enter the vault.

"The bandit took all of the money in the vault and made Cloutier hand him a bag of money from the vault. The bandit then locked the vault door and left."

County's Tax Office Re-Opens —Back in Charge

The office of the county tax collector was opened this morning after county commissioners in session yesterday approved the bond of Jack Beck, former deputy tax collector who was named by the commissioners to become tax collector after the resignation of T. W. Barnes.

Mr. Beck presented a bond with the Trinity Universal Insurance company. His county bond was for the amount of \$25,510 and his state bond for \$17,724.85. Mr. Beck will serve in the capacity of tax collector until January 1, when the man elected by voters in the general election in November will take office.

Commissioners approved a number of bills before adjourning. The judge and all commissioners were present.

Model Builders Here Will Meet

Attention, model builders. Model builders and those interested in learning the hobby will meet tomorrow night at 8:30 o'clock. The session, called by Billie Holcomb, will be held at Hawkins Radio Lab across the street from the NEWS.

Mr. Holcomb will be glad to assist both beginners and advanced model builders. He also hopes that the advanced builders will help those who need advice. Special attention will be given to airplane and ship models.

Mr. and Mrs. Frank Williams and daughter have returned from a vacation spent in Creed, Colo.

NEEDED WATER MAIN WILL BE CONSTRUCTED AS PWA PROJECT

The City of Pampa will ask bids for pipe with which to build a water line from the city water wells to the Cook addition, there to connect with the system leading to the downtown district. The labor has been approved as a PWA project.

With completion of the proposed line, Pampa will have three circulating water systems from the wells instead of two as is now the case. At present, water in the 150,000-gallon elevated tank at the water wells cannot be forced to the downtown section while pumps are working.

By connecting the new line to the elevated tank, water will run to the Cook addition and then into lines leading to other parts of the city and to the bank downtown.

Water from the large tank at the wells to get into the eight-inch line leading to the downtown section would have to enter the line against a flow direct from the pumps and the pressure from the tank is not sufficient to force the water into the line along with the stream from the wells.

City commissioners last night also instructed City Manager C. L. Stine to ask for bids on a 26-inch carriage typewriter.

Want to sell your home? Want to get rid of a few odds and ends in household furnishings? Do you need tools for your garden? . . . An inexpensive Want-Ad in the Daily News Classified pages will find the answer to these and many other perplexing problems.

LON SMITH'S CANDIDACY ENDORSED

The Pampa Daily NEWS unhesitatingly endorses the candidacy of Lon A. Smith for re-election to the Texas Railroad Commission.

Mr. Smith's integrity and experience have certainly qualified him for the office he holds. If there is any good reason for retiring him in one of the most crucial periods in the history of the industries regulated by the commission, it has not appeared in the current campaign. Indeed, the many phases of the Commission's jurisdiction are so important right now that some extraordinary circumstance would be necessary to justify removal of Mr. Smith.

The oil business, however important, is only one phase of the commission's activities. Mr. Smith's opponent is seeking to make the oil industry the only campaign issue. While calling attention to the name of the Railroad Commission and citing its duties to transportation and utility regulation, Commissioner Smith seems willing enough to talk about oil.

It is charged—and Smith's opponent has not yet successfully denied—that Smith is being bitterly opposed by the "hot oil" interests of East Texas, which if given their way would wreck the industry and steal the birthright of Texas people. The connections of John Pundt are not such as to arouse confidence in his ability and his platform.

A vote for Lon Smith is a safe vote at a time when safety is the keynote of Texas oil regulation. A vote for his opponent is a leap in the dark and a possible surrender to the forces which have fought regulations with every resource.

SOLONS MEET TO BACK LONG IN HIS FIGHT

NEW ORLEANS IS LIKELY TO BE PUT UNDER STATE POLICE

BATON ROUGE, La., Aug. 14. (AP)—Senator Huey P. Long's reserves, the lawmakers of Louisiana, threw their weight behind the national fight today in the fight of the "Big Game" against Mayor T. Thomas Walmley of New Orleans.

SHIRT WILL OUT BALTIMORE—The mother of five children wants domestic relations court to believe her story of her husband's night life. As the judge looked on, she unwrapped a bundle and produced what she said was the shirt her husband wore the previous night out. It was redly marked with lipstick.

OUT OUR WAY — By WILLIAMS

WHY ALL THIS LABOR STRIFE? PRICE SEES NRA INVOLVED

BY BYRON PRICE
(Chief of Bureau, The Associated Press, Washington)

The daily reports of strikes and strike settlements, of violence, martial law, mediation and court action, tell only half the story of the present industrial struggle.

It must occur to any discerning newspaper reader that such an epidemic of labor troubles probably has some special central cause; that things like that do not "just happen." What is the special cause?

The answer customarily made is that an increase in strikes is a natural accompaniment to industrial recovery. That is true historically. In the main, workers sit tight in times of depression and grow restless as business gets better.

The recent increase of industrial strife appears to many, however, to have far outrun the curve of recovery.

Government figures show 898 strikes in 1932 and 1,378 in 1933. The first five months of 1934 produced 426, the same period of 1934 produced 576.

Special circumstances, furthermore, tend to upset the usual presumption. Customarily strikes increase with improving business because the workers are anxious to share their share of the new profits. Under NRA, the process was reversed. Instead of the usual lag in wage increases, such increases were granted in many industries even before the new profits began to accumulate.

It is plain that some other cause must have contributed to what is happening today.

The situation will be easier to understand if the events which led up to it are reviewed in proper order.

The recovery act, passed in the spring of 1933, contained a now-celebrated clause known as "section 7A," which guaranteed workers the right to organize and bargain collectively. Immediately two things happened.

The American Federation of Labor launched an unprecedented membership campaign. Its organizers were accused of having told employees that "the president wants

Political Announcements

The NEWS is authorized to announce the candidacies of the following, subject to the Gray County Democratic primary of August 25, 1934:

M. M. NEWMAN

For Constable, Precinct 2—
FRANK JORDAN
H. S. SHANNON

For State Representative—
JOHN PURYEAR, Wellington
EUGENE WORLEY, Shamrock.

you to join" the standard (federation) union.

Many employers, having a long-standing dislike for "the standard union, promoted the organization of "company unions." How far such unions could be controlled by the employer is a matter of dispute; but at any rate they were not unions under the control of the A. F. of L.

Then the trouble began. Company Unions

In many cases, the question was raised: "Who shall speak for the employees in the collective bargaining mentioned in section 7A?"

Surprisingly large was the number of industries where both company and standard unions claimed to represent a majority of the workers. And the difficulties of determining which was correct were many.

In the automobile strike settlement last spring the President laid down the rule that an officially supervised election should be held; then, in negotiations with the employers, each union should be represented in proportion to the number of votes it received.

That would have been a tremendous step toward solution if it had worked for all industry. But it didn't.

In later strike situations, standard unions have held out against proportional representation on the ground that it gave a voice to company unions which, it was contended, were entitled to none because

they represented the employer, not the employee.

"Since the administration has not yet secured for workers their legal right to organize," said the July business survey of the A. F. L., "strikes have become necessary in very many localities to enforce the recovery act."

So there you are, from the standpoint of those who are conducting the strikes. On this issue—a vital one—the new labor board has not yet taken a stand. It must sooner or later.

Pampans Invited To Perryton Party

PERRYTON, Aug. 15. — The Perryton chamber of commerce extends a cordial invitation to the people of Pampa to attend this city's annual fire celebration on Wednesday, August 22, in observance of Perryton's fifteenth birthday.

Starting with the races and contests for the boys and girls in the morning and lasting until the big fireworks display in the evening, the entire day will be crowded with entertainment events provided for the visitors and they're all free.

During the afternoon will be held a "home spun" rodeo, flying circus and a good baseball game between Phillips 66, Borger and Perryton. The evening program will offer twenty rounds of boxing in two main event bouts of ten rounds each between Earl Madden, Spartan and Everett "Wildcat" Bales, Waynoka, Okla., with Dick Hedgpeth, Waka, matched against Joe Vernon, Pampa. Following this will be held the fireworks display to close the free celebration.

Two celebration dances will be

held, on Tuesday and Wednesday evenings, these attractions being the only ones on the program at which a charge is made.

TEN CIRCLES OF VARIOUS CHURCH SOCIETIES MEET MONDAY

ONE CIRCLE OF M. S. IS GUEST WITH ANOTHER

TRIPLE MEETING IS PLANNED FOR NEXT WEEK

A joint meeting of two circles in Methodist Missionary society was conducted yesterday afternoon, and three groups planned to meet jointly next week.

Members of circle four were guests of circle one at the home of Mrs. Gaston Foote yesterday. Short prayers by several women opened the program. Mrs. Foote led a study of Jesus and His Disciples.

Miss Audrey Noel contributed a lovely solo to the program, and Jean and Patricia Lively played several piano numbers during the social period. Iced punch and wafers were served by the hostess, assisted by Mrs. Young.

Announcement was made that circles three, four, and five will meet together at McCullough Memorial church next week.

Circle five met there yesterday, with Mrs. W. Purviance as guest leader of a program that continued last week's Bible study. The opening song was Sweet Hour of Prayer.

"Miss Pampa"

Miss Vivian Baker, winner of the title "Miss Pampa 1934" at the annual La Nora beauty pageant recently, will represent this city in Albuquerque when beauties of the southwest compete for the "Queen of the West" title and a trip to a Century of Progress this month.

Called Meeting Tomorrow Is of Old Club Council

Council of Clubs officers and delegates who will attend the called meeting at the home of Mrs. C. T. Hunkapillar, president, tomorrow morning will be those who have served through the past season.

Terms of the council extend to September. The delegates meet, who will form the council for the 1934-35 season, will not begin their terms until the evening of Sept. 6.

Present members at the meeting tomorrow will plan for this season, which will formally begin the new season. The woman's page was in error yesterday in announcing that new members of the council would meet tomorrow.

J. Y. P. Class Wins Inter-Class Race

J. Y. P. class of First Christian church will be honored at the all-church picnic planned for the last of this month, as the result of an attendance contest that closed yesterday.

The class of young people won by a good margin over other classes. One new member, Gerald Fowler, was present.

A recent class entertainment was a swimming party. Members took lunches and spent the entire evening near Miami.

The class is growing rapidly, and any young people wishing to join will be welcomed.

JOINT MEETING CONDUCTED AT JOHNSON HOME

ALL CENTRAL BAPTIST GROUPS MEET FOR BIBLE STUDY

Brithany and Anna Bagby circles of Central Baptist Missionary union met together yesterday afternoon in the home of Mrs. Owen Johnson for Bible study. Lottie Moon circle at the same time studied at the home of Mrs. W. C. Brown.

An interesting lesson period was conducted in the joint meeting by Mrs. Verne Pipes. It followed a prayer by Mrs. Fred McCann.

Refreshments were served to those on program and Mmes. S. L. Anderson, Cecil Lunsford, R. H. Brister, and the hostess. Next week's meeting will be with Mrs. Walter Kirby.

Mrs. R. M. Mitchell was lesson leader for Lottie Moon circle. After the devotional by Mrs. Brown, she sketched a number of Biblical characters. Special music by Jewel Brown was enjoyed.

A recent class entertainment was a social was planned to honor new members of the circle. Refreshments were served to Mmes. W. L. Lane, D. M. Scaief, Earl Vernon, G. D. Holmes, O. C. Weckley, A. B. Cecil, E. R. Sewell, Mitchell, and Brown.

Same Girl

It's the craze among Hollywood screen notables to wear wigs in films, as the beauties fancy themselves with hair different in color from that of their natural tresses. Here is Alice Faye, above in all her ash blond charm and below with a brimmed wig. But the studio hair experts declare that none of the actresses looks as well with a wig as naturally.

ALLRED WOULD GIVE SQUARE RELIEF WORK

"BURY FERGUSONISM" IS ANOTHER SLOGAN OF CANDIDATE

AMARILLO, Aug. 14. (AP)—"When I'm elected governor of Texas, the issue of Fergusonism will be buried for all time," James V. Allred, dynamic attorney general and gubernatorial candidate, shouted to a crowd here last night.

Charging that "old Jim Ferguson has been invited into the camp of Tom P. Hunter and has accepted," Allred said:

"It is now up to the people to decide if Jim Ferguson is to continue in control of the highway department. When Jimmie Allred is elected governor, the issue of Fergusonism will be buried for all time."

Allred stressed the importance of relief, saying "there is no denying that we are facing the future with fear and doubt. The people are looking ahead for the next governor of Texas."

"My first message to the legislature will ask that relief for the needy be settled before attention is given to anything else. No one is going to starve, if I can help it. Time, thought and work will be required to bring a badly-needed relief tax."

West Texans were promised a "square deal" by Allred.

"By the eternal Gods, when I am your governor, West Texas will get what is coming to it. He promised that the unpaved gaps in the highway network of West Texas would be closed "By 1936-Centennial Year."

Allred told the crowd that Clint Small of Amarillo, who ran fourth in the first primary, was supporting Hunter and added that "Clint described Hunter's platform as 'Tom Foolery' and the next day told you to vote for him."

Hunter's proposal to abolish ad valorem taxes was attacked by Allred. He said he was opposed to the levying of new taxes and to any curtailment of the educational system.

H. E. Hoover, Canadian attorney who introduced Allred, said "if you don't decide this man is to be the next governor of Texas, I'm going to support the republican nominee, whether he is." He admires the Panhandle senator, Clint Small, but I can't follow Clinton into the Hunter camp."

Ballet Student

Florence Meyer, daughter of the former head of the Federal Reserve Bank, Eugene Meyer, announces she will seek to contribute to American art through the improvement and development of the ballet as a native dance form. She has just returned from study with European masters.

STUDY LEADERS DIRECT BAPTIST LESSON HOURS

BUSINESS AND SOCIAL PERIODS INCLUDED IN MEETINGS

Circle study leaders were in charge of programs in First Baptist Missionary union yesterday afternoon, when circles met in homes of members.

Mrs. J. C. Barnard was hostess to circle one. The devotional from First Kings was conducted by Mrs. J. A. Arwood and concluded with a prayer by Mrs. G. L. Stephens. Home Mission Trails was the lesson topic, discussed by Mrs. Nolan Harris.

A business meeting opened the hour for circle three, meeting with Mrs. Joe Foster. Sentence prayers preceded a Bible lesson from Hebrews, in charge of Mrs. Tom Duval. Mrs. R. L. Edmondson gave the benediction.

Refreshments were served during an informal social hour to Mmes. Mary Blinford, J. T. Morrow, R. M. Hallmark, P. O. Anderson, Dee Campbell, R. E. Gatlin, E. L. Anderson, Duval, Edmondson, and Foster.

Mrs. H. C. Crawford was hostess to circle five. Mrs. R. C. Wood presided for the business session and Mrs. Eddie Gray taught the lesson in the absence of Mrs. Reynolds. The devotional was by Mrs. H. C. Wilkie and the benediction by Mrs. H. K. Bearden.

Others present were Mmes. R. Lutz, L. A. Baxter, and O. C. Williams. The next circle meeting will be at the home of Mrs. Lutz.

In each circle, the lesson period and business meeting was followed with a social hour when cooling refreshments were served by the hostesses.

and Mrs. C. W. Tolle gave the invocation.

Mrs. Kuykendall was welcomed as a new member and Mrs. McLendon as a visitor. Others present were Mmes. Lance Webb, Franklin, C. N. Rogers, H. C. Boyd, Cox, John Foster, Tolle, and Purviance.

Circle three had its meeting at First Methodist church, with a devotional and study hour.

Skellytown Couple Leaving for Boston

Mr. and Mrs. H. H. Hahn will leave tomorrow for Boston, where he will be connected with the technical department of Godfrey L. Cabot, Inc. and will take special courses at the Massachusetts Institute of Technology. He has been employed in the research and experiment department of the Cabot carbon company at Skellytown for the past five years.

Mrs. Hahn, a former teacher in Pampa junior high school, will attend Boston University to complete work for her A. B. degree.

Mr. and Mrs. Ray Lawrence are spending a vacation in the Colorado mountains.

PRISON GUARD WHO SMUGGLED IN PISTOLS NOW IS CONVICT

HUNTSVILLE, Aug. 14. (AP)—James A. (Boss) Patterson, who until a few days ago was a guard in the Texas prison here, was back behind the walls today—stripped of his authority and wearing the number and denials of a prisoner.

Fifteen years imprisonment was assessed against the former guard after his trial on three charges of aiding Raymond Hamilton, Joe Palmer and Ed Irvin (Blackie) Thompson, the southwest's three most feared killers, to escape from the death house July 22.

Brought into district court two hours after he had been indicted by a special session of the Walker county grand jury, Patterson barely whispered his plea of guilty and nervously rubbed his chin as the court sentenced him to imprisonment.

His written and signed statements made to prison officials admitting that he had smuggled pistols to a band of desperadoes were introduced at the trial. They told of how he carried the package inside the prison, left it where it could be obtained by the convicts and was paid \$500 for his act.

Hollywood Baby Stars Heard by Junior Chamber

Junior chamber of commerce members today were given excellent entertainment by the Hollywood Baby Stars here with Harley Sadlers' show.

Alfred Gilliland was program chairman. Short talks were made by Roy Bourland, manager of the baseball tournament being sponsored by the chamber, and Neely Vaught of Burkburnett, one of the umpires.

HERE'S HOW TO KEEP FROM GROWING OLD

Always drive fast out of alleys. Always race with locomotives to crossings. Engineers like it; it breaks the monotony of jobs.

Always pass the car ahead on curves. Turn. Don't use your horn, it may unnerve the other fellow and cause him to turn out too far.

Always demand half the road, the middle half. Insist on your rights.

Always speed, it shows people you are a person of pep, even though

Never stop, look or listen at railroad crossings, as it consumes time. Drive confidently, just as though there were not twenty-eight million cars in service.

Always lock your brakes when skidding. It makes the job more artistic.

Always pass cars on hills, it shows you have more power, and you can turn out if you meet a car at the top.

In sloppy weather drive close to pedestrians. Dry cleaners appreciate it.

Never look around when you back up. There is never anything behind you.—P. D. Woods.

M. E. PRIMARY PICNIC

Primary children of First Methodist Sunday school will meet at the city park Thursday evening at 6 o'clock for a picnic. Each boy or girl is asked to bring sandwiches for the supper.

SIX-DOLLAR HOGS

A regular meeting of the Order of Eastern Star will be held at Masonic hall, 8 p. m. Members are urged to be present.

Eight Companies Own 85 Per Cent Of Gas Resources

WASHINGTON, Aug. 14. (AP)—Eight companies were said by a federal trade commission report today to control approximately 85 per cent of the total quantity of natural gas available for distribution in the United States.

Harry Carter, the investigator, disclosed this finding in testimony on the growth of the natural gas industry, a section of the commission's inquiry into public utility companies.

The eight predominant companies were listed as: Electric power and Light corporation, Cities Service company, Columbia Gas and Electric corporation, Standard Gas and Electric company, Standard Oil company (New Jersey), Lone Star Gas corporation, Tri-Utilities corporation and National Fuel Gas company, arranged according to their rank.

Colonel W. T. Chantland, commission counsel, found that natural gas already has grown to the place where it supplies about 6 times the energy of the electric power and light industry.

Chantland also noted the increasing competition this industry is giving electric power. He said it is either in, or "practically at the gateway of, every metropolitan area east of the Rockies—except in New England."

Oklahoma Hikes Oil Production

TULSA, Okla., Aug. 14. (AP)—Oklahoma was responsible for a 75,844-barrel increase in crude oil production of the United States last week, the Oil and Gas Journal says. Production rose from 2,511,781 to 2,587,625 barrels a day.

Due to first of the month taking of allowables in the Oklahoma City field, production from this state increased from 415,180 to 535,000 barrels a day.

In Texas there was a decrease from 1,107,828 to 1,056,410 barrels a day. In east Texas, production dropped from 533,650 to 479,846 barrels.

California production rose from 500,000 to 513,000 barrels; there was a decrease from 132,160 to 129,325 barrels in Kansas; eastern fields included Michigan, increased output from 132,403 to 132,899 barrels; the Rocky Mountain output increased from 96,280 to 9,390 barrels.

No. 666 or 667 DAILY NEWS WANT-ADS

For Bath or Beach

By **ELLEN WORTH**

IF you would be the essence of femininity, don't scruple at borrowing fashions from the masculine contingent. As a grand example, please note: this man-tailored robe that will serve its purpose smartly for lounging at home or on the beach.

Paris launches as one of the smartest of this season's and fashions the tie-silk dressing gown with terry-cloth collar and cuffs. Seersucker is another first fabric, in bright stripes or gay checks. Jersey and flannel represent the heavier mediums.

Double-breasted lines, notched revers and a fringed tie-sash are details you'll like in this easy-to-make model.

The new Fashion Book will help you plan your wardrobe. Send 10 cents for book.

Pattern No. 5629 is designed for sizes 14, 16, 18, 20 years; 32, 34, 36, 38, 40, 42, 44, 46 bust. (Size 14 requires 2 3/4 yards 35-inch material, 1 3/4 yard 36-inch contrasting to trim.)
Send 15 cents in coin or stamps. Mail your order to this paper care Fashion Center, P. O. Box 170, Times Square, New York. Print your name and address clearly and print pattern number, size or bust.

(Copyright, 1934, United Feature Syndicate, Inc.)

To order, address Pampa Daily News, Fashion Center, Times Square, P. O. Box 170, N. Y. Write name and address plainly, giving number and size of pattern wanted. Your order will be filled the day it is received by our New York pattern bureau.

SLAYING
(Continued from Page 1)

have burned up," Hall quoted her as replying.

Sheriff Lee Thomason told of breaking her story that the fire was accidental. He said she maintained it was an accident until the fire had burned down to where Salsberry's charred body could be seen on the floor.

"I had to kill him," the sheriff said Mrs. Salsberry admitted.

The woman and her lover sat in court today with blank expressions on their faces, apparently little understanding what was going on around them. Mrs. Salsberry's father, Jesse Williams, sat behind her, advising her occasionally when she seemed not to be able to answer questions put to her. Neither the woman nor Bass had a lawyer. They said they did not want one.

SPITE MARRIAGE

SYNOPSIS: Bob Powers' mother is ill with incurable disease and Marsha, Bob's wife, in New York caring for her. Mrs. Powers ill-will has convinced the nurse that Bob had demanded Marsha's divorce. Marsha has never ceased loving Bob. She is comforted for his misunderstanding her relations with Geoffrey Tardieu, in fact, an independence of his mother. Bob is in Mexico at work.

Chapter 33. SELF-SACRIFICE. "YOU will never know," said Marsha "what your faith in me, and your caring for me, means to me; I'll always mean to me!"

Her voice broke; she saw Mrs. Powers' eyes fill and she spoke quickly, lightly, of other matters. Marsha's first thought now was for Mrs. Powers and for that which was good for her; she was learning that lesson of love which makes the needs of others one's own.

She had new eyes, and they told her that Mrs. Powers was helped by seeing her on those sleepless nights when pain kept vigil and that Mrs. Powers' knowing the nurse to be awake and alert was not the same.

The fact warmed Marsha, who felt from it a rise of tenderness that made her eyes sting; an almost maternal tenderness. She reflected often and gratefully on the fact that she was, "so absurdly strong" and, feelingly, she mused upon the mercy of crowded hours and the weariness that sent her soon into sound and dreamless sleep.

The loss that she would know with Mrs. Powers' going, a loss that must come to Marsha who had before known nothing of gentle and real affection, would have crippled her had she had more time to brood upon it.

As it was—by day there were trips up and down stairs, domestic matters to attend to in the house, ordering to do, the doctor to see, beside the odd, increasing extras that took time.

Such for instance, was the call of Mrs. Powers' old friend, Mrs. Vining, who always stayed a round two hours. There were checks to write or the family attorney might come or the Curate or the Rector. And flowers must be arranged and Mrs. Powers must be diverted, entertained—and Bob's letters must be written every two days.

Many were the words for Marsha, who had known but her own selfish and sometimes cruel world; and there was so much to do in each of them.

Day done, Marsha would creep into the high, black wain at bed to sleep soundly for an hour, perhaps two; to wake with compunction and to fumble thickly for her elusive slippers.

There, a negligee around her, she would make shivering, stumbling way down the passage. If the light by Mrs. Powers' bed showed a yellow silt beneath the door, Marsha would blink herself to sharp wakefulness and rush open the door.

"Pain, dearest?" she would ask anxiously. "We can do no more than so much!" the weary doctor had admitted to Marsha; "the effect of opiates wears away with this!"

She would see Mrs. Powers smile in her, "er eyes brighten; she would hear, "Just a little, dear."

SHE would settle by the bed; sometimes Mrs. Powers admitted that she would have to have "a little peeler" and when this happened Marsha would drop it in a glass of water. The she would slip her arms beneath Mrs. Powers' shoulders to lift her while she drank.

After that she would sit down by the bed to wait, watch and hope; to hope so fully, so fervently, that she was often drained by the energy she gave to hope.

"Please, please!" she petitioned silently of that vague something that was drawing closer and growing warm for Marsha; "Please keep pain from her!"

"You'll get cold, dear," Mrs. Powers would murmur.

Marsha would answer with a convincing, "I'm quite warm," frequently when her hands were stiffened by the cold and she had to set her teeth to keep them from chattering.

"Will you, just to gratify me, wrap that comforter around you?" "If you like, but I'm not cold. Is it any better, dear?" "I think so."

And then again, she'd sit back to wait. It was at such times that she felt oddly close to Bob; quite as if his strength sustained her, as if his love encompassed her, as if everything were well between them, and as if he cared.

Funeral for Aged Resident Is Held. Funeral services for G. S. Smith, 89, who died at his home 217 East Tuke street August 2, after a long illness, were conducted at 10 o'clock this morning in the chapel of the Stephens Mortuary with the Rev. Vernie Pipes, pastor of the Central Baptist church, officiating. Burial followed in Fairview cemetery.

Mr. Smith had been a resident of Pampa for several years. He is survived by two daughters, Mrs. A. Rawlings, Bertron, and Mrs. Albert Winston, Black Foot, Idaho; seven sons, Ed, and J. W. of Pampa, W. H. of Idaho, R. H. G. W., and Albert, all of Utah, and Andy, Plainview and one granddaughter, Mrs. E. L. Moley, Pampa.

LEGAL NOTICE. Notice is hereby given that the Board of Trustees of the Pampa Independent School District will meet in a special session August 20th, at 2 o'clock p. m., at the business office in the court house, at which time the budget for the school year 1934-35 will be officially approved.

MARKET BRIEFS

MANY SMALL LOSSES. NEW YORK, Aug. 14. (AP)—A sag in non-ferrous metal shares, as inflation fears continued to subside, moderately unsettled a dull stock market today.

ARCH RIVALS TO MEET TONIGHT IN PAMPA'S BASEBALL TOURNAMENT

CANADIAN IS FIRST TEAM TO BE ELIMINATED

WINNING PITCHERS IN GOOD CONTROL OF BINGLES

Canadian players were the first team to be eliminated from the Pampa Invitation tournament when they fell before an improved Pampa Indian team by the score of 11 to 3 yesterday.

The pitching of Lefty Carroll for the Indians featured the game. He whiffed fifteen Canadian batters, allowed but eight hits, and not an earned run. L. Riley, Canadian second baseman, and a left handed batter by the way, collected three hits out of five times up, two of them being doubles. Hornback, outfielder, got three out of four, but they were all of the one base variety.

The Indians played like a different team and gave Carroll good support, despite the fact they committed four errors. The errors came, however, after Lefty had a good lead.

Kelly and Trenary with three hits out of five times up and with one double each, led in hitting for the Indians.

The second game of the afternoon, between the Pampa Consumers and Amarillo West Texans was the best game of the tournament from a mechanical standpoint to date.

Hess, big right hander, pitched a good game and should have won it with better support. He allowed only one earned run in the nine innings and did a very neat job of pitching. He also aided his own cause with a two bagger.

The Consumers, on the short end of a 4-to-1 score threatened to do something in the ninth with two down and none on. Malloy, midget outfielder, hit one over the left field fence. It was a mighty wallop for a little fellow. Davis followed with a triple to center, but died on third as Clyde Austin filed out to second base.

The West Texans played a steady game and according to McKnight good support. He allowed ten hits, but kept them well rechecked. On several occasions the Consumers threatened, but McKnight tightened up and protected the small lead his team mates had given him. Gibson, with three out of four, one a double, the only extra base hit off Hess, led in batting for the West Texans.

THE TOURNAMENT PROGRAM

The schedule for today and tomorrow in the Pampa baseball tournament:

TUESDAY (Today)

2 p. m.—Pampa Indians vs. Pampa Consumers.

4 p. m.—Amarillo West Texans vs. Amarillo Merchants.

8:30 p. m.—Coltoso of LeFors vs. Phillips '66' of Borger.

WEDNESDAY

2 p. m.—Huber Carbon of Borger vs. winner of Pampa Indian-Pampa Consumers game.

4 p. m.—Coltoso of LeFors vs. loser of Amarillo West Texans-Amarillo Merchants game.

8:30 p. m.—Pampa Road Runners vs. winner Amarillo West Texans-Amarillo Consumers game.

TIGERS AND YANKEES TO FIGHT IT OUT IN 5-GAME TILT FOR LEAGUE LEAD

NEW YORK, Aug. 14. (AP)—With in reach of an American league pennant for the first time in 25 years, Mickey Cochrane's Detroit Tigers came to town today for a five-game series with the New York Yankees that may go far toward settling the flag race.

The Tigers brought with them a 12-game winning streak, longest in either major league this year. The series, crucial mostly to the second place Yankees, opened with a double-header in the Yankee stadium this afternoon.

Four and a half games in front, getting better pitching from Lynnwood (Schoonby) Rowe, Tommy Bridges, Eldon Auker and Fred McRberry, deadily hitting from Charley Gehring, Goose Goslin, Greenberg, Billy Rogell, Marvin Owen, and Cochrane himself and a fair share of the "breaks," the Yankees are confronted with a fine opportunity to pull so far out in front that pursuit would be all but out of the question.

The Yankees, in a precarious position, needed to win five games to regain the lead. Broadway betting commissions offered 9 to 10 and took your choice on the series but quoted the Yankees as favorites for today's first game.

Joe McCarthy planned to send Vernon (Lefty) Gomez and Charley (Red) Ruffing against the Tigers today. Their rivals, if Cochrane stands pat on his announced selections, were to be Rowe, who has won 12 successive games, and Al Crowder, Washington castoff.

LADDER GOLF TOURNAMENT NOW WELL STARTED

Gray Hills Course Sponsors Unique Event—Interest in Game is Good.

What is likely to prove one of the most exciting tournaments of the golfers of this part of the country, recently got under way at the Gray Hills golf course near LeFors.

This club, with a membership of some 180, is sponsoring a ladder tournament. The three highest men at the end of the tournament will receive attractive awards. To date, some seventeen golfers have qualified for the contest. Others are expected to get into the fray within the next two or three days.

Freddie Newson now stands at the head of the list, followed by Cotton Dixon, Forrest Linquist, Clarence McGinnis, Ben Williams, O. H. McDonald, Martin Baze, Jr., Frank Ferguson, T. W. Lytle, John Mullins, W. J. Gilbert, A. B. Powell, Pockets Flynn, F. F. McGinnis, Martin Baze Sr., Paul Lambert, Dudley Clemmons, John Mullens, Jim Richesin, and others.

Challenges are being flung at those immediately above them by ambitious members, and the contest is beginning to take on a serious nature.

Much interest will no doubt be shown in the game of golf on the Gray Hills course from now through the fall. The course has recently been improved in many ways. The fairways have been made smoother, the greens re-sanded and oiled, new fairway markers have been set up, etc. The club has issued challenges to Clarendon, Memphis, Shamrock, and Pampa. The green fees of ten cents for members and twenty-five cents for non-members is so low that almost any one can afford to play.

Jimmie Richesin, like the former president, Raymond Radcliff, is a hard worker and promises to make the club activities interesting and successful.

SEATTLE TIED FOR LEAD IN PACIFIC LOOP

SEATTLE, Aug. 14. (AP)—"Dutch" Reuther led the Seattle Indians to the top of the "comback trail" by using the "psychology of trade," he said today, and now they are tied with Los Angeles for first place in the Pacific Coast League.

Ancient veteran of four world's series, Walter H. Reuther, southpaw pitcher, became Seattle's coach four months ago and hauled the Indians out of the doldrums almost immediately. For the first time since 1924 they are getting somewhere.

"Never mind the training rules, but get busy and win some more ball games!" said Dutch to his team, and they did.

"It's the psychology of the suds," Reuther said. "I want the boys to be unhampered by rules—so long as they show up for a game and play cheap. After each game I generally say to the gang:

"Come on over and have some sandwiches and a glass of beer."

"They do, get filled up and go home. If they didn't have so many sandwiches, they might stay out and concentrate too much on beer and the like. I want to show them, not regulate them."

Dutch was one of the craftiest scull-paws in baseball in his prime, when he was chopping down the batters while working for the New York Yankees, Washington Senators, Brooklyn Dodgers, Chicago Cubs and Cincinnati Reds. He was a free agent this season when Seattle signed him on as a coach.

Christian, Lowrance and C. Christian, Runs batted in: Brickell 2, Nell 2, Vaughn 2, Burgess, Farquhar. Struck out by Daney 12; by Haddock 5. Base on balls off Daney 1. Wild pitch Daney. Time 1:48. Umpires: Vaught and Lössler.

TRAILING RULES ARE LOOSENED WITH GOOD EFFECT

SEATTLE, Aug. 14. (AP)—"Dutch" Reuther led the Seattle Indians to the top of the "comback trail" by using the "psychology of trade," he said today, and now they are tied with Los Angeles for first place in the Pacific Coast League.

Ancient veteran of four world's series, Walter H. Reuther, southpaw pitcher, became Seattle's coach four months ago and hauled the Indians out of the doldrums almost immediately. For the first time since 1924 they are getting somewhere.

"Never mind the training rules, but get busy and win some more ball games!" said Dutch to his team, and they did.

"It's the psychology of the suds," Reuther said. "I want the boys to be unhampered by rules—so long as they show up for a game and play cheap. After each game I generally say to the gang:

"Come on over and have some sandwiches and a glass of beer."

"They do, get filled up and go home. If they didn't have so many sandwiches, they might stay out and concentrate too much on beer and the like. I want to show them, not regulate them."

Dutch was one of the craftiest scull-paws in baseball in his prime, when he was chopping down the batters while working for the New York Yankees, Washington Senators, Brooklyn Dodgers, Chicago Cubs and Cincinnati Reds. He was a free agent this season when Seattle signed him on as a coach.

HEAT 'OFF THE RECORD'

NEODESHA, Kas. (AP)—It may never be known exactly how hot it was in Neodesha during the July sleet. The official recording thermometer, passing the 110-degree line, spent the afternoon wandering around on the margin of the graph where there was no scale.

ATHLETICS IN ONLY VICTORY WON MONDAY

By The Associated Press

After a day of almost complete lethargy, major league baseball's action swung back into the thick of the pennant frays with battle lines once more sharply drawn between east and west.

Washington and Philadelphia had the baseball scene all to themselves yesterday, the Athletics pounding over nine runs in the first inning to win, 9-0. The A's fell on Al Thomas, Jack Russell and Alec McColl for ten hits including three doubles, in that wild first frame.

ATHLETICS IN ONLY VICTORY WON MONDAY

By The Associated Press

After a day of almost complete lethargy, major league baseball's action swung back into the thick of the pennant frays with battle lines once more sharply drawn between east and west.

Washington and Philadelphia had the baseball scene all to themselves yesterday, the Athletics pounding over nine runs in the first inning to win, 9-0. The A's fell on Al Thomas, Jack Russell and Alec McColl for ten hits including three doubles, in that wild first frame.

In This Corner . . . By Art Krenz

Loop's Latest Lollapalooza

Mitchell Has Issued Call to Football Team

Coaches Odus Mitchell and Argus Fox have returned from the Texas Tech coaching school in Lubbock fired with a determination to put the Pampa Harvesters through to a state championship this year. For two weeks the Pampa coaches listened to talks and watched demonstrations by some of the greatest coaches in the country.

Harvey Kelley, coach of the Gorillas, also attended the school. It was his first time at a coaching school and he is naturally enthusiastic about the big event. He plans to put his Gorillas through a long practice session this fall and then field a strong team.

Harvester prospects have been ordered to report at Harvester field, in trucks, tonight at 6 o'clock. They will pass and punt the rest of the week and on Monday Coaches Mitchell and Fox will issue uniforms. The first real practice of the season will then be called at 5 o'clock. Boys can get uniforms any time during Monday up to practice hour.

Camp plans have received a setback but Coach Mitchell expects to announce definite arrangements in the next few days. The team will go somewhere to camp but the definite location had not been named.

Pampa's football team was the talk of the coaching school, Coach Mitchell said upon his return. The rumor was started that Pampa had 17 letter men coming back this fall.

"They apparently did not realize that we lettered our entire squad and that only six of our first string players from last year will return," Coach Mitchell declared. "Then, most of the talk was to encourage us to become cocky, which we won't."

Coach Mitchell believes that Lubbock has the strongest team in District 1 with Amarillo a close second. Lubbock's squad was used for experimental purposes by instructors and the boys learned a lot of football. The Westerners will be big and fast, though they lack experience.

Amarillo will have one of the biggest and fastest teams in the history of the school, information from the largest city in the district reveals. Coach Blair Cherry will be able to field five linemen weighing more than 180 pounds. He admits he will be coaching his best team, but figures that other coaches will be having the same experience.

Harvester regulars who will be available this fall will be J. R. Green, tackle, Carl Smith, guard, Lloyd Hamilton, quarterback, Bill Dunaway, halfback, Captain Munroe Owens, end, and Bill Haner, guard.

Others from last year who will return include Leon Nobilet, center, Fred Mumford, back; Chubby Stewart, back; Hazel Mackie, back; Ray Bakins, back; Robert McAuley, center; Gerald Maxey, guard; Charls

GALVESTON IN ONE RING OF LEAGUE PEAK

Galveston, Tex. (AP)—Because he received a single "write-in" vote, C. N. Harrison Jr., can be county surveyor if he wishes to qualify for the office. There were no candidates in the election, but one voter, wrote in Harrison's name.

THREATENING NOTES ARE SENT TO JURORS IN HAMILTON'S TRIAL

PROSECUTOR IS ALSO MARKED FOR REPRISAL

LITTLE ATTENTION WILL BE GIVEN TO LETTERS

CENTREVILLE, Aug. 14. (P)—Threatening notes have been received by a number of the jurors who sentenced Raymond Hamilton and Joe Palmer to death at their trials for murder in connection with the prison break slaying of Major Crowson, a guard at Eastham state prison farm.

This was revealed today by Max Rogers, district attorney who headed the prosecution of both Hamilton and Palmer. Rogers said he received three such notes but was inclined to disregard them.

Four jurors who tried Hamilton, slippery young bank bandit, at Huntsville, informed Rogers menacing notes came to them through the mails the last few weeks. Hamilton was convicted June 13 and Rogers believes the notes were sent by some of his outlaw friends.

Similar notes went to two of the jurors who served in Palmer's trial at Anderson, Grimes county, and convicted him June 29.

Some of the missives were signed with initials, apparently fictitious, and the others were unsigned. The

notes were mailed from Houston and Dallas, Rogers said.

The district attorney advised worried jurors who told him of the notes to pay no attention to them. No special precautions were taken to protect the threatened men in the event the senders actually contemplated violence.

Rogers said the notes did not reveal just what reprisals were contemplated but most of them included the statement that "you haven't heard the last of this."

Major Crowson was shot to death Jan. 18 when Hamilton, Palmer and other desperate inmates obtained firearms that had been left for them under a culler, and with the aid of the late Clyde Barrow, shot their way out of Eastham state prison farm. Barrow opened fire on guards with a machine gun and the fleeing convicts used their pistols.

Insult to Save His Health for The Coming Trial

CHICAGO, Aug. 14. (P)—Samuel Insull Sr., who once spent 10 to 12 hours a day controlling the employment of 72,000 other persons, is taking life easy to conserve his strength for his forthcoming trial on charges of using the mails to defraud.

In contrast to the days when he built up vast utilities empire, only to see criminal charges rise out of its ashes, the 74-year-old former head of 85 boards of directors is reported limiting himself to four to six hours of leisurely activity daily.

When he was brought back to Chicago from Istanbul, Turkey, last May, Insull was taken desperately ill. His family physician said there was extreme danger in over exertion.

Apparently the patient is following his doctor's advice carefully, but Insull never forgets his campaign of vindication. He frequently sees his attorney, Floyd Thompson, and holds himself in readiness to confer with lawyers representing his 15 codefendants.

Helen Jacobs Is Always Short of All Confidence

FOREST HILLS, N. Y., Aug. 14. (P)—A champion without confidence—that's the picture Helen Jacobs painted of herself today as she met her second test in defense of the Women's National Tennis championship.

"It's a funny thing with me," the Berkeley girl said as she prepared to take on Jane Sharp of Pasadena, in a second round match, "but I'm never confident before a match or a tournament, for that matter. My practice is to go on to the court and do my best and let the result depend on the way I play."

Miss Jacobs dispelled some of the fears about her game by the decisive manner in which she squelched Marjorie Sachs of Cambridge, Mass., in the first round. She won both sets as best and let the opponent to a complete reversal of the form she showed in the Seabright invitation tournament final a fortnight ago.

More Nazis To Trial for Treason

VIENNA, Aug. 14. (P)—Fifteen more Nazis were marched into a courtroom today to be tried for treason, a grim procedure which has left eight of their fellows dangling on the gallows.

They are accused of participation in the seizure of a radio station and the chancellor July 25 in an uprising which resulted in the assassination of Chancellor Dollfuss. More than 100 other Nazis are awaiting their turns to go on trial here.

Austria's hangman, although he is having a busy season, observes the formalities. Not even the weather interferes.

He wore faultless evening dress and a high silk hat when he executed four policemen last night, a few hours after they were convicted of participation in the Nazi revolt. A steady rain fell as the four went to their deaths in the yard of the district court building.

They went through the ordeal stoically, rejecting the opportunity to make a final statement.

PUPS AND PIGS
GREAT BEND, Kas.—John M. Lewis, prominent farmer, county farmer, is trying to decide whether it is more profitable to raise hogs or dogs. He took three pups to a farm sale, selling them for \$2.70. He turned around and bought five small pigs with the money.

JOVIAL INDIANS
CHEROKEE, N. C. (P)—Contrary to popular conception, which fancies all Indians are stoics, many of the Cherokees on the reservation here are known for the joviality, and some even seem to enjoy "wise-cracking" with their white neighbors.

PANHANDLE TO HAVE HELP OF RELIEF BODY

COMMISSION IS TO ASK HOPKINS TO CARRY OUT PLEDGE

AUSTIN, Aug. 14. (P)—Twenty-three Panhandle and South Plains counties, parched by a three-year drought, have the full support of the Texas relief commission in their quest for an emergency relief program promised a year ago.

The commission adopted a resolution urging Harry L. Hopkins, federal relief administrator, to proceed at once with a special road construction program which he promised last year. An amended agreement, made last May, provided an immediate grant of \$750,000 for labor to be used in conjunction with materials purchased by a PWA grant of \$2,670,000.

J. H. Baugh, projects engineer for the relief commission, said the grant had been allocated and work started in most of the counties. Progress has been slow, however, because of lack of funds for labor.

Houston Harte of San Angelo, member of the commission, asserted the program was based on relief needs of a year ago, "and it hasn't rained yet."

Eids of four cities were rejected as the commission decided to retain its state headquarters at Austin. Adam Johnson, state director, was authorized to investigate charges that politics dominated administration of relief in Bexar county but he did not plan immediate action.

NEW FEDERAL OIL FORMS TO BE REQUIRED

WASHINGTON, Aug. 14. (P)—With the object of obtaining more exact check on the production, movement and storage of crude oil and its products, Oil Administrator Ickes today issued six new forms for reports from operators as provided under the revised "hot oil" regulations promulgated July 20.

Ickes said a wealth of detailed information was called for in the reports to assist in keeping supply balanced with demand. The regulations were issued he said, to strengthen the general program for stabilizing the industry and conserving petroleum resources.

"They require that operators shall file their reports with the division of investigations of the oil administration, with a maximum penalty of \$10,000 fine or 10 years in prison for false certification.

The first of the six forms issued today covered delivery of crude oil from the point of origin to any pipe line, railroad company, refinery, truck line, truck owner or other transportation agency. It includes the name of the carrier, consignee's place of business, name of producer or operator, number of barrels of crude when the crude is going along with a statement of the producing area, the number of wells in the area, the allowable production per well and the date of production of the oil to be moved.

The second form covers the transportation of oil in and from the oil field between one pipe line and another, between pipe lines and railroad tank cars, trucks or other transportation agencies or from a pipe line and refinery, reclamation or treating plant, loading rack, gasoline plant or storage or between any of the two.

In the third form, a report is to be made by the 15th of each month, from a refinery, reclamation plant, treating plant, gasoline plant or shipper with the address. The report covers receipts of crude oil, number of the tank, capacity, stock on hand at the first of the month, from whom the crude was purchased or received, the lease, name and address of the pipe line, railroad system or transporting agency handling the crude.

The fourth report consists of three sections: 1. A monthly pipe line and storage report. 2. East Texas crude receipts by runs from leases, including the name and address of the operator, the location of the lease, the number of wells and the net run in barrels. 3. Receipts from other gathering or purchasing companies.

Report number five is a monthly statement from producers covering all details of production and the sixth is an affidavit for any shipment of petroleum products when they are, after processing or refining, offered for shipment in the area where the petroleum which has been processed or refined was produced.

Miss Viola Haggard has returned from Dallas, where she has been receiving treatment for injuries received in an automobile accident near there a few weeks ago.

WHEN GRANDFATHERS WE WILL LIKELY BRAG OF HOT SUMMER EXPERIENCED BACK IN 1934

BY F. B. COLTON (Associated Press Science Writer)

WASHINGTON (P)—Present-day grandfathers brag about "the cold winters when I was a boy," but when boys of today become grandfathers they'll probably brag about "the hot summer we had back in 1934."

It's already a record-breaker, with August still to be reckoned with and unless Mother Nature changes her habits it will be the hottest for many a year. The last time she turned on the heat with comparable force was back in 1901.

"Not since our weather records began more than 60 years ago has the heat in any one month (July) been so intense over so wide an area in this country," says J. B. Kincer of the weather bureau, "nor have such abnormally high temperatures persisted day after day without a break."

"The highest temperatures recorded for July this year in the middle west and southwest closely paralleled and in many places topped, the July, 1901, records in the same area."

Here are some samples of hot spots in July, 1934: Oklahoma City, Okla., 104 degrees, 13 degrees above normal; Des Moines, Ia., 108 degrees, 22 above normal; Columbia, Mo., 112, or 24 above normal; North Platte, Neb., 108 degrees, 21 above normal.

Oklahoma City set an all-time record. The highest thermometer reading before was in 1901, with 102 degrees, 11 above normal. Des Moines in 1901 registered 109, or 23 above normal.

"The number of successive days when the thermometer registered 100 degrees or over puts July, 1934, in a class by itself in the records of the weather bureau," says Kincer. "Des Moines reported 12 days with 100-degree and higher temperatures; 9 of these were successive. In 1901 there were the same number of high-temperature days at Des Moines, but only 6 were in succession. Columbia, Mo., had 21 such days, with 16 in succession, in July, 1934, and 118 with seven in succession, in July, 1901.

"North Platte, Neb., had 16 with 13 in succession in 1934, against seven, with two in succession, in 1901. Oklahoma City had 20 in succession, in July, 1934, and four with two in succession, in 1901. Fort Smith, Ark., had 24 with 17 in succession, in 1934, and 13, with five in succession, in 1901."

Hottest This Year
The average maximum temperatures for the two successive days at 100 degrees or over were of both 1934 and 1901 were uniformly higher this year. Here is the record:

Place	1934 av.	1901 av.
Des Moines	102	101
Columbia, Mo.	106	102
North Platte, Neb.	103	99
Oklahoma City	106	101
Fort Smith, Ark.	102	101

"The extreme heat was of longer duration this year than in 1901, with the high July temperatures preceded by great heat in June in the midwest and southwest, which was not the case 33 years ago.

German's Money Dictator Speaking For Adolph Hitler

BERLIN, Aug. 14. (P)—Dr. Hjalmar Schacht, Germany's economic dictator, joined today the whirlwind campaign to make Adolf Hitler the country's new "Von Hindenburg."

"If we want to overcome present difficulties—as we will," said Schacht, "we can do so only under Hitler's leadership."

Trust Hitler Lieutenants are on the stump in a drive for Nazi self-justification. Germany votes Sunday on the question of approval of Hitler's seizure of the late President Von Hindenburg's powers.

Unlike other speakers, Schacht, who recently was appointed acting minister of economics and who is virtually boss of Reich finance and economics, frankly admitted Germany's woes.

Farmer Youth Prevents Wreck

LINDSAY, Ont., Aug. 14. (P)—A farm youth going about his chores prevented what probably would have been a serious wreck on the Canadian National railway line at Lindsay last night.

J. W. Forsyth, 18, had started for the cows in a back pasture when he saw a tree two feet in diameter lying across the rails. He heard the train whistle and then saw its headlights.

Forsyth dashed up the tracks, waving his hands frantically. The engineer pulled to a stop within 50 feet of the tree.

One coach of the train was filled to capacity. There was half an hour's delay while the tree, apparently blown down by a storm, was cut away.

Here Tonight

Mary Ruth Boone, above, acrobatic dancer with the Hollywood Baby Stars, will make her last appearance tonight at Harley Sadler's tent theater. The regular play tonight will be "The Life of Forgotten Dreams." Children buying general admission tickets will be admitted to reserved seats free, and all women will have free admission to the general admission seats.

HUNTER DENIES CHARGE HE IS TIED TO SLATE

TYLER, Aug. 14. (P)—There is no alliance between him and James E. Ferguson, former governor, Tom F. Hunter told a crowd here last night as he shouted that "I'm on my own as a candidate for governor of Texas."

Heatedly denying he had "made trades" with Ferguson, Hunter said: "In my opening speech at Hillsboro I told the people that I had sought the support of every faction and that it was my hope to bring together in aid of a program for the common people all the groups involved in this race. I got results. That is why Jimmie Allred is mad at me."

"If Jim Ferguson or any other man has or should undertake to align me, then that man in that regard stands repudiated."

The attorney said he repudiated the efforts of a Dallas newspaper, which in an editorial had sought "to align me as a slate candidate," he shouted "I am not aligned with any clique, faction or group. Texas must be freed from domination of the two old factions, and as governor, I will not permit the state machine or the Ferguson following to control the highway commission or any other division of government."

Hunter charged that "Jimmie Allred sought Ferguson's support under cover, while I am from the platform, where all could hear and where the newspapers could vote it, invited all of the eliminated candidates and their supporters to join me for the consummation of my recovery program and I have the good wishes of all eliminated candidates and a great majority of their supporters."

He then launched into a bitter attack on Allred's two-year term as attorney general, saying: "Several thousand saloons in Texas are running in open defiance of the law, while Jimmie, our chief enforcement officer, winks at their doings."

"He says that wrong must not be permitted and yet he sits idly by, with the padlock power the law gives him as chief enforcement officer, and permits that condition to exist."

"I want the people to know that while I am governor these open flagrant violations of the law shall not be permitted."

Mrs. Ferris Oden and sons, Bobby and Dick, returned yesterday from a visit to Norman, Okla.

FOREST FIRES ARE FATAL TO THREE MONDAY

IDAHO BLAZE IS WORST SINCE 1910, WHEN TOWNS BURNED

SPOKANE, Wash., Aug. 14. (P)—Roaring forest fires drove back exhausted crews in Idaho and California today after killing three CCC workers.

The worst northern Idaho fire since the 1910 conflagration that wiped out entire towns took the lives of two young men identified as LeRoy McGinnis of Kewanee, Ill., and Lester Johnson of Galesburg, Ill.

William Mattison, 21, of Los Angeles was killed while fighting flames near Nevada City, Calif.

Falling snags, charred and weakened by flames, crushed each of the trio. They were the first deaths this year in blazes which have raged through western forests and drawn heavily on CCC camps for fire fighters.

McGinnis and Johnson were killed in the Selway national forest, center of the flame-swept northern Idaho area where 4,000 men fought futilely to control four major blazes and innumerable spot fires. Smoke was so dense that aerial surveys became impossible and attempts to move men and supplies into isolated fire centers by plane were abandoned.

Areas burned over by major Idaho fires were unestimated. A new blaze in the Clearwater forest, near Selway, covered about 1,500 acres on Pot mountain.

Elsewhere in the west, with the exception of British Columbia where foresters abandoned their efforts, blazes were reported under control or of negligible proportions. When British Columbia fire fronts advanced toward the boundary, Americans were sent across the line to keep flames out of United States timber.

House of David Wins Tournament

DENVER, Aug. 14. (P)—With first money in the Denver Post baseball tournament safe in their hat bags, the House of David club was ready today to continue its diamond barnstorming.

A superb exhibition of baseball crabs the bewhiskered travelers to win the tourney by shutting out the Kansas City, Mo., Monarchs last night, 2 to 0, behind the dazzling pitching of "Spike" Hunter.

Four clubs tied for third place money—the Humble Oilers of Overton, Texas, Eason Oilers of Enid, Okla., Los Angeles M. & O. and United Fuel of Denver. Each won three and dropped two.

GOVERNMENT WILL TRY TO TAKE MACHINE GUNS FROM GANGSTERS

WASHINGTON, Aug. 14. (P)—The government sought today to stop free circulation of the gangsters' favorite tool—the machine gun.

If a person possesses a machine gun after next month he'll have to register it with the commissioner of internal revenue.

If he wants to get one after Sept. 24, he'll have to get an order from the commission, be fingerprinted and pay a price boosted by a sales tax of \$200.

The bureau of internal revenue worked to draw up regulations applying the law aimed to keep machine guns, sawed-off shotguns and silencers for such weapons out of circulation.

Transfers must be accompanied by internal revenue stamps showing the payment of tax. It is made unlawful to remove serial numbers or other numerals or letters registered as marks identifying a weapon's ownership.

Woman Heroine In Irish Rioting

CORK, Irish Free State, Aug. 14. (P)—A woman's heroism was credited today with saving many lives in savage fighting yesterday between 5,000 farmers, enraged by a tax sale, and 300 civil guards.

Mrs. Eamon O'Neill, wife of a member of the Dail, rushed between the combatants, risking her life in heavy gunfire, and pleaded with them to stop. Both farmers and officers ceased shooting, fearing they would hit her.

The woman then helped Jeremiah Lynch, critically-wounded farmer, outside a yard where the battle took place. Lynch later died. More than 100 others were injured.

The farmers had attacked the guards, surrounding the yard where cattle taken from two farmers who did not pay land taxes were to be sold.

Troops, armed with bayonets, were on duty in Cork today as authorities exerted every effort to prevent further disorders.

SEASON WITH SALT
ST. LOUIS—Employees of a number of the city's largest industrial plants have been eating concentrated salt tablets during the unusually hot weather. The health department advised eating more salt as the best way to escape heat prostration. Heat deaths here this year total 415.
