Swine Producing Plant Locates Near Lefors

By Gene Schneider News Staff Writer

Construction is underway on a \$750,000 pork producing plant three miles west of Lefors on Farm To Market Road 742.

The plant, which is described as the largest in the world, will bear the name of Western Pork Producers, Inc. It will be owned by Pampa oilmen C. R. Hoover, president; Jim Allen,

. vice president, Gray County rancher Buddy Cockrell, sectretary - treasurer with Darrell Cameron as consultant.

According to Hoover, plans for the new firm have been underway for about two years. "We have traveled throughout the country looking at operations similar to the one we have planned, picking the best ideas and in trying to

choose the right location. The reason we chose the location we did is because of the water availability, the soil and terrain, It's just what we need in this type of business.

"Our program will be one is disease-free. To achieve this, we will have buildings designed which will totally confine the swine. There will be ten buildings 400 feet long and 40 feet wide.

"The flooring in the building is a special aluminum which was developed by the Reynolds Company for this specific reason. The feeding process will be completely automated."

Hoover also said natural birth will not be a part of the proposed disease-free plan. All births will be done by caesarean

operation after the swine have specifically been bred for eating purposes.

"We plan to produce ar animal which will not contain any 'fatty' material," Hoover said. "The entire pork will be fit to eat.

A dual operation is planned at the plant with one phase concerned only with the production, raising and delivery

plants throughout the United States and Mexico. The packing plants will butcher the animals and distribute the meat to the grocery stores.

The other plan is directly concerned with the developing of a registered herd for commercial purposes. "Once our herd is built up to a good capacity, we plan to make animals available to other plants with the same program. We are not going to be selfish about having such plants started because we feel there is a definite need for clean meat in

The firm plans to obtain its own fleet of trucks for shipping purpose, but also will use (See SWINE, Page 2)

At a lunch in Washington in November, 1967, he received from then-Secretary of State Dean Rusk the accolade that here was a monarch who "had thoroughly earned his crown." A Good Deal

Now the shah is in the United States to offer what he believes is a good deal.

He wants to sell Iranian oil in the United States on a quota over and above the approximate 23,000 tons which latest available figures show are Iran's annual sales to the U.S. The figure may be compared to the more than 174,000 tons purchased annually from Venezuela or the 29,000-plus tons from tiny Kuwait.

In return, he promises that each U.S. dollar obtained from these sales will go toward purchases in the United States. In the shah's extensive sales kit also is a pitch toward what he call "agro-business" opportunities for American business in Iran.

He is encouraging the John Deere Company to establish a tractor plant in Iran. Needs Money

He frankly admits he needs both money and American know-how to develop millions of acres of land opened up by new dams and electric power. As an inducement he cites availability of labor, roads, railroads and

"This stimulated me to wish we could clarify the dangers to this country—the dangers of failure to resolve our internal conflicts and inequities of our society," Dr. Hester said in an interview.

Nothing them. moves troops like The Daily Bugle. Newspape

The sound of a powerful ad opens up people's eyes. And minds. It stirs them. Starts them marching in to buy your product. And often at less cost-per-thousand to you than any other person-to-person message.

(The Classified Section is one example. Remember how disappointed you were the day you called on that Want Ad, and found out the item had just been sold?

Print bugles like that. Sharp and clear. Which is just the call to action you need when your adversary is public inertia. And it generally is.

Newspapers. Magazines. Brochures. Mailings. These are all print. And they all work to muster the troops. Use them.

It'll be a monumental campaign, General.

INSIDE JOB. Most technologists perform diagnostic work, using X-ray equipment to take pictures of internal parts of the body. They may prepare a prescribed "opaque" substance which the patient swallows to provide visibility of organs in the radiograph (film) The technologist adjusts X-ray equipment to correct settings, positions the patient and determines the right voltage, current and exposure time. He or she is responsible for keeping equipment in top working order, and sometimes processes film and keeps patient records.

NEW YORK (UPI)-The stock market senses both the economic and Vietnam crises and is beginning to discount the popular solution of peace and inflation, according to Hoppin Bros. & Co. "This summer's classic market action first encouraged, then entrapped an oversized institutional cash position, potentially more explosive that those of late 1966 and March, 1968," the firm says. Now speculators are testing just how explosive that situation can be. It is increasingly becoming evident that as soon as short-term interest rates fall, the long-term investor has no practical alternative to owning common stocks, the firm observes.

Buy rumor, sell news seems to be an appropriate description of the recent panicky buying by mutual funds loaded up with record amounts of cash, The Dines Letter says. The market "discounts" news in advance, the firm points out, adding that when peace actually is announced, it will most likely be time to take profits in the market

punted six average.

82-38-6 and this week's mark should be just as high even though there are some tough games, like Wheeler-McLean and Gruver-Canadian. But on with the picks:

SHOCKERS 32, HERE-FORD 0 - Pampa really wen last week and would have had they been playing at home. The Shocks are a good group and it would be most unusual for them to lose two in a row and I don't think

PAMPA 27, CAPROCK 0-

Pampa beat Perryton and Perryton beat the 'Horns. So figuring it like this Pampa has to beat Caprock. You can also figure that the Harvesters have the best team. Besides the talk at Caprock is they can't wait to play the Harvesters.

AMARILLO 21, MONTER-EY 7- From watching both teams we'd have to say the Sandies have the most depth, the better offense and the better defense. The only thing we've got against them is they are playing at Lubbock and that can be rough, brother.

PLAINVIEW 16, BORGER 7- Looking for the upset here. Plainview, if its pass defense has improved, should

be able to hold the Bulldogs, who found it takes 11 men to win instead of just one.

CORONADO 28, LUBBOCK 0-The Mustangs should have no trouble winning this south zone clash with rival Lubbock.

PALO DURO 28, TASCOSA 7 -The Dons saw their defense stung just a bit last week but maybe they needed that. Tascosa might give 'em You Don't Say ...

RON CROSS a battle, but it won't last

WHITE DEER 28, STRAT-FORD 6- The Bucks are looking to stay up with either Gruver or Canadian in their conference race and the way they've been playing they

tom's younger players are improving. CANADIAN 7, GRUVER 0-Here's another vote for a

fine Canadian defense which really began to mould in the second quarter last week. The 'Cats showed smething by proving they can come

WHEELER 14, MCLEAN 6-- Don't look now but Wheeler was favored at this same time a year ago and McLean put the whammy on tnem. But the Tigers have too many players on the injured list and it would take a great effort for an upset this year.

BOOKER 10, LEFORS 7-The Kiowas have been playing too many class A teams and the Pirates are still hurting just a bit. Booker isn't as bad as their record indicates but then,

neither is Lefors But the Pirates are much younger. GROOM 42, TEXLINE 0-

The Tigers are well on their way to an unbeaten season and the only thing standing in their way is Booker, but we'll talk more about that next week.

MIAMI 28, DARROUZETT 21 - The Warriors have it ail going for them. It's homecoming and Miami wouldn't want to disappoint the fans. The eight-man team played well against Oklahoma's top ranked squad last week.

OTHER SCORES -Sunray 16, Sanford-Fritch 8; Silverton 10, Claud 0; Clarendon 28, Happy 0.

EVER STRIVING FOR THE TEXAS PANRANDLE TO BE AN EVEN BETTER PLACE TO LIVE

Let Peace Begin With Me!

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands freedom and is free to control himself and all he produces can he develop his utmost capabilities.

We believe that all men are equally endowed by their Creator, and not by a government, with the right to take moral action to preserve their life and property and secure more freedom and keep it for themselves and others.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guide expressed in the Coveting Commandment.

(National Review) "Consider the vexatious position of a poverty warrior. On the one hand, his job depends on poverty; lots and lots of surplus poverty. As a federal careerist, however, he is rated on his ability to pass out his quota of tax dollars or more. If our bureaucrat does not give away enough money, he may get fired. If he does succeed, he may eliminate poverty and with it his job, and have to work for a living. Of course, the process of taxing the productive on behalf of the unproductive has the effect of creating new poverty - that is, replerishing the supply that keeps bureaucrats employed, so long as they can find people Some people actually refuse the A strong national ocean goodies.
