

# Haynsworth In Deep Trouble

WASHINGTON (UPI)—The Supreme Court nomination of Clement F. Haynsworth Jr. was in trouble—possibly deep trouble—on Capitol Hill today, despite President Nixon's fresh assurances he stood firm behind the South Carolina jurist.

Haynsworth told United Press International early today he has no plans to ask that his name be withdrawn from the nomination, and never considered such action.

Haynsworth flew to Washington unexpectedly Thursday to confer with Atty. Gen. John N. Mitchell, Sen. James O. Eastland, D-Miss., chairman of the Senate Judiciary Committee, and Sen. Ernest F. Hollingsworth, S.C., his sponsor.

Haynsworth suffered more Republican defections Thursday, a day of frenetic activity involving the nomination. The rumors that Haynsworth had asked Nixon to withdraw his name swept Congress but were strongly denied by the Justice Department, the White House and key senators.

Nixon held an unannounced meeting with Asst. Atty. Gen. William H. Rehnquist, the Justice Department's legal counsel, who has been working on the Haynsworth case.

Sen. Birch Bayh, D-Ind., a member of the Judiciary Committee, was finally permitted to see Haynsworth's financial records. He asked for them weeks ago and renewed his request when they were not forthcoming at a secret session of the committee Wednesday.

Bayh is checking to see if Haynsworth ever ruled on any case in his 12 years on the bench that involved a company in which he owned stock, a bank for whom he had borrowed or endorsed notes for others, or matters dealing with his real estate transactions.

## Committee To Probe High Costs

AUSTIN (UPI)—Gov. Preston Smith plans to establish more committees to study the state's auto insurance industry in hopes of reducing insurance costs.

Smith's announcement came shortly after the State Insurance Board, following the recommendation of Smith's first committee to study insurance companies, recommended rates be increased 9.9 per cent effective the first of next month.

Smith's committee, headed by former Gov. Price Daniel, also said insurance companies should include income received from investments when rates are computed, but the State Insurance Board failed to follow this recommendation.

The board repeatedly joined insurance companies in denouncing this plan, but the three-member board did say investment income would be included in future rate making formulas.

Smith established the committee earlier in the year when the board announced insurance rates would increase 11.4 per cent. The latest increase will cost car owners \$18 to \$29 a year more in auto insurance.

Smith said Thursday his committee saved Texans money and commended his panel for their work.

"The combination of lowering the rate from 11.4 per cent to 9.9 per cent and the delay of several months during which the investigations committee conducted its hearing resulted in a savings in excess of \$14 million for Texas motorists," the governor said.

## Prison Guard 'Boots' Convicts Outside The Gate

HUNTSVILLE, Tex. (UPI)—A prison guard spotted two guys in civvies emerging from beneath the rodeo stands. He grabbed them, lectured them for sneaking into the Texas prison rodeo and promptly booted them outside the gate.

They were the only convicts in the rodeo's 38-year history to escape during the annual October Sunday's event.

This Sunday there should be plenty of in and out and on and off when the convict cowboys match stamina with an "outlaw stock".

A bruised and battered O'Neal Browning, the winningest convict cowboy performer in the rodeo's history, will be back to defend his title and try to add to his six assorted "top hand" titles won over the past 19 years.

Browning, a lifer from Dallas, was trampled two weeks ago by a bull which defied all other convicts trying to quality.

## Committee Says Continue College ROTC Programs

WASHINGTON (UPI)—A special committee set up by the Pentagon recommended today continuation and improvement of ROTC programs on college campuses.

The committee, appointed after protests against military training on 30 campuses in June, said abolishing ROTC would deprive the armed forces of college-trained officers, leading to domination by the "military organization" and a gradual loss of traditional civilian influence.

It recommended among other things higher pay—unspecified—for students who take their training while pursuing their college education. They now get \$50 a month. It also called for greater control by colleges and universities over the programs on their campuses and elimination of a ban against marriage by Navy ROTC cadets.

The committee was set up by Defense Secretary Melvin R. Laird to study the ROTC programs at 350 colleges and universities after the June protests. Those demonstrations included nine cases of arson.

Harvard and Dartmouth have both dropped ROTC since the committee was set up June 25 and the group recognized that "faculty and student sentiment are such at a number of institutions that they should not strive to support ROTC."

**WEATHER**  
PAMPA AND VICINITY — Partly cloudy to cloudy through Saturday with a chance of showers. Cooler this afternoon colder tonight and Saturday. Low tonight in upper 40's and high Saturday upper 50's. Winds from southwest, 10-22 mph, shifting northerly tonight. Probability of rain 30 per cent today, 50 per cent tonight and 50 per cent Saturday.

# Brandt To Take Over As New German Chancellor

## Coalition Government Ousts Present Leader

parliament. This is 12 more than Kiesinger's Christian Democrats—who have held power for 20 years—but only five more than the 249 votes needed to elect a chancellor on the first ballot.

The party leaders announced agreement on the new coalition at the post-midnight conclusion of their talks in an office building next to parliament.

"The delegations have agreed on the structure and aims of the new federal government," Brandt said.

Political sources said the negotiators agreed to name Scheel foreign minister and to give at least two other portfolios to the Free Democrats, who won only 30 parliamentary seats on their own.

The new government probably will sign the nuclear weapons nonproliferation treaty within a few months, the sources said. Kiesinger has been unwilling to approve the pact.

Brandt was expected to continue the dialogue he opened several years ago with the Soviet Union.

## K&F DINNER MEETING

## Denver Judge Tells Of Life's 'Thorns'

By DORIS E. WILSON  
News Staff Writer

An able judge from Colorado, Sherman G. Finesilver of Denver's District Court gave Top O' Texas Knife and Fork Club members a front row seat on proceedings at the nation, at the club's first dinner meeting of the year Thursday night in the Starlight Room of the Coronado Inn.

More than 240 members and their guests heard Judge Finesilver define "some of the thorns in the sides of society" relating to the spiraling crime rate.

"A big city presents emotional and social problems that pull at your heart strings," he said. "But there are problems that exist in small communities, also. No part of the country is immune."

Some of the "thorns" categorized by Judge Finesilver was the use and abuse of drugs. He said "Kids today are more sophisticated about drugs than most pharmacists. It's a startling statistic, but more children are affected by drugs than by polio."

"This should demand the attention of everyone to see that there are more laws and stiffer penalties for those who exploit youth."

"You would think that sitting in judgment at a murder, rape, or any other type of violence case would be the most difficult, but it isn't. The most difficult case is the assigning of custody of a bewildered child between two divorcing parents."

Citing statistics relating to the increase in divorce in the U.S.A., Judge Finesilver said last year in the U.S.A. "In the state of Texas, there were 125,000 marriages and 45,000 divorces.

Here in Gray County last year there were 300 marriages and 155 divorces. A large percentage of these involved custody of children, the most heart-rendering decision a judge has to make."

"The crime rate is the greatest blot on the face of society. Crimes involved more violence now than they did a few years ago. Partially to blame is the laxity of our laws. There is more "stretch and strain" to free people who are guilty."

"It is time for the pendulum (See MEETING, Page 2)

THE PANHANDLE's largest oil rig was recently completed by the Machinery Division of the Cabot Corp. The 112 foot rig is capable of completion and work-over of wells drilled to 24,000 feet. It is presently located near Allison on the Gulf Oil Corporation's Clifford No. 1 site and is producing from perforation at 20,732 feet. (Smith Photo)

The rig was moved directly from the Cabot Plant in two parts to the Buffalo Wallow Gas Field, near Allison. It was moved and rigged-up the same day on a well for Gulf Oil Corp. on Clifford No. 1 which is producing from perforations at 20,732 feet. The well is an offset to the Gulf Oil Melvin Helton No. 1 which is capable of producing two-billion, seven-hundred million cubic feet of gas.

Tom Stringer, senior salesman for Cabot said, "when we first began this project we knew it was going to be a difficult one. But when the rig was finished it was an accomplishment we are all proud of."

Until acquisition of its new rig, Ford Tool Co. operated six rigs with working depth capability of 12,000 feet. The new rig, which is capable of completion and work-over of wells drilled to 24,000 feet, will be able to work on the shallowest and deepest wells. The nearest service companies with these same capabilities are located in Southern Oklahoma and the West Texas-New Mexico area.

"The challenge set by the oil and gas operators throughout the nation is being met by the well servicing industry and we are very proud to be a part of it," Stringer said.

granted an approximate 14 percent increase in rates in Pampa in June of this year. "We are still working under the assumption," City Manager Charles Hill said today, "that the increase we gave them four months ago was what the gas company needed."

At the time of the June negotiations with Pampa, Pioneer officials stated they did not expect to ask for a Pampa rate increase in the near future.

The last determination of Pioneer's city gas rate was based on operating costs and investment values for 1961. Since that time, utility officials stated in their application, the field cost of gas, labor, material and supplies, as well as interest rates (See INCREASE, Page 2)

## Talks Begin To Revise Operation Intercept

By United Press International

Traffic along the Mexican border is slower, faster and just about the same.

It is slower for customs agents who are not finding as much marijuana and dangerous drugs as they were when "Operation Intercept" began.

It was faster for many persons crossing the border, because not as many are trying to get across—either because of "Operation Dignity" or personal frustrations.

But for those who did cross, it took them just as long to be searched today as it did the day before and will the next time the crossing is made.

Meanwhile talks have begun between Mexico and the United States in hopes of revising "those aspects" of Intercept "that unnecessarily and unfairly are causing the harm which public opinion is aware of," Mexican Foreign Relations Secretary Antonio Carrillo Flores said Thursday.

Flores said talks began between U.S. State Department officials and Hugo B. Margain, Mexico's ambassador to the United States. Flores flew to Washington earlier in the week to confer with U.S. officials on the problems caused by Intercept.

"My hope is that such aspects will be corrected," Flores said. "On the other hand, as I said in Washington, Mexico in its own interests has been combating for many years the production and trafficking of narcotic and its work in this field has merited praise from the United Nations."

Mexicans are trying to retaliate Intercept with "Dignity"—a move which tries to stop Mexicans from crossing the border into the United States.

## Absentee Vote Continues At Snail's Pace

Absentee balloting in the upcoming Hospital Districting election, called for Oct. 11, is progressing at a snail's pace with only 21 votes cast as of midmorning today, according to a spokesman in the Gray County clerk's office.

Gray Countians, who will be out of town or unable to cast an in-person vote, have until Tuesday, Oct. 7 to vote absentee and make their wishes known with regard to converting Highland General and McLean Hospitals into self-governing institutions or continuing under the supervision of County officials.

On election day, Oct. 11, there will be only one voting box for Pampans and that will be located in Gray County Court house. Voters in outlying areas of the county can vote in Alanreed, McLean, Lefors and Grandview precincts.

## NO IMMEDIATE EFFECT HERE

## Pioneer To Ask For Gas Rate Increase

An application for adjustment in the city gas rate for gas delivered by Pioneer Natural Gas Co. to some 60 cities and towns in West Texas would have no immediate effect on Pampa's current gas rates.

Pioneer announced its intention yesterday of filing the application with the Texas Railroad Commission.

While officials of the utility said a new gas rate would have no immediate effect on current gas rates they stated such an increase would establish a new cost of gas at the city gate for any subsequent changes in domestic and commercial rates in cities of the West Texas Gas Distribution System.

Following a request from the gas company, Pioneer was granted an approximate 14 percent increase in rates in Pampa in June of this year. "We are still working under the assumption," City Manager Charles Hill said today, "that the increase we gave them four months ago was what the gas company needed."

At the time of the June negotiations with Pampa, Pioneer officials stated they did not expect to ask for a Pampa rate increase in the near future.

The last determination of Pioneer's city gas rate was based on operating costs and investment values for 1961. Since that time, utility officials stated in their application, the field cost of gas, labor, material and supplies, as well as interest rates (See INCREASE, Page 2)

## Nixon To Intervene In Threatened Railroad Strike

WASHINGTON (UPI)—The Labor Department said today President Nixon would intervene to block a strike threatened for midnight against seven major railroads.

A department spokesman said Nixon would announce later today the makeup of an emergency board to suggest a solution to the strike during 60-day cooling off period under provisions of the Railway Labor Act.

A spokesman for railroad management said the railroads would immediately withdraw their threat to shut down most of the country's system.

Labor Secretary George P. Schultz said Thursday it was too late to reach a negotiated settlement in the strike.

Nixon has been viewed as reluctant to intervene in a major union-management dispute for the first time during his administration. A nationwide rail shutdown would be the third since World War II.

The National Mediation Board has told the President that even a limited strike would cause great hardship in certain sections of the country. The American Farm Bureau has said a strike would jeopardize farm produce shipped during the harvest season.

**FINAL TOUCHES** are being added to one of the circus booths that will provide entertainment Saturday evening "Under the Big Top" at Beta Sigma Phi's area convention at the Coronado Inn. Pictured here adding the final touch are co-chairmen of convention arrangements Mrs. James Trusty, left, and Mrs. Jack Vaughn both of BSP's Xi Beta Chi Chapter. (Staff Photo)

**BSP Readies Welcome For Area Convention**

Pampa's Beta Sigma Phi Sorority chapters have plans finalized for the area convention to be held this weekend in the Coronado Inn.

BSP members are preparing a welcome and hospitality for the international president of BSP, Bill Ross, and approximately 200 chapter representatives from Texas, New Mexico and Oklahoma.

The two-day convention will get underway Saturday around 2:30 with the arrival of Ross in Pampa from the Amarillo Air Terminal. A special welcome is being prepared for him at the air terminal and again in the Inn, where he will be greeted by the Top 50 Texans and BSP members.

Registration for 400-town members will begin at 4 p.m. with a Hospitality Room open for Bridge, Coffee Klatches, and visiting.

Saturday evening, convention-ers will be entertained "Under the Big Top" with circus booths, games and prizes.

Sunday morning a Coffee Hour is planned and an hour for worship with transportation provided to the church of the member's choice. Sunday morning's activities will also include forums on Ways and Means, Socials for Sorority, and stunts presented by the Pampa chapters.

Highlighting the convention will be the luncheon address Sunday by Ross, who is the son of the founder of Beta Sigma Phi, the late William R. Ross.

The convention will adjourn Sunday afternoon following the luncheon and post-convention business meeting.

Mrs. James Trusty and Mrs. Jack Vaughn of Xi Beta Chi Chapter are general co-chairmen in charge of convention arrangements.

**Local Firms Go Over UF Quotas**

At a breakfast meeting of the campaign committee of the United Fund today in the Coronado Inn, it was announced the following firms have met their quotas with 10 per cent over last year.

On the honor roll are: Panhandle Insurance Co.; Ford's Body Shop; Jones-Everett Machine Co.; Roberts's Flowers; Panhandle Equipment Co.; General Associated Industries; Milliron Engineering; Furr's Cafeteria; J. C. Penney Co. White House Lumber; KPDK; General Adjustment Bureau; Waskesha-Pearce; Pioneer Gas Co.; National Tank Co.; Security Federal Savings and Loan; B&P Pharmacy; Medical Arts Clinic; Purviance Clinic; Pampa Medical Laboratory; Sturgeon, Maguire, Sturgeon Law Firm; Pampa Fire Dept.; Pampa Police Dept.; City Parks and Recreation Dept.; Lovett Memorial Library; Horace Mann School; Clayton Floral Co.

Today's meeting was attended by Frank Culberson and Jerry Sims, campaign co-chairmen and 20 head campaign leaders.

**Holly Gray Elected President Of Rodeo Association**

Holly Gray, Pampa rancher, was elected president of the Top of Texas Rodeo Association at last night's membership meeting in the Chamber of Commerce conference room.

Gray has served the association as a vice-president for the past three years and has been a member of the board for nearly 20 years.

Other officers elected included Sheriff Rude Jordan, first vice president; W. B. McIntire, second vice president; Warren Hesse, treasurer, and E. O. Wedgeworth, secretary. Rex McAnelly is immediate past president.

Dates for the 1970 RCA Rodeo are expected to be set at the next regular meeting of the board of directors.

**Police Investigate 60 Accidents In September**

Pampa police investigated 60 traffic accidents during the month of September with approximately \$14,207.06 in property damage and seven injuries.

There were more accidents but less injuries than in September of 1967 when police investigated only 44 accidents, with one death and nine injuries.

For the first nine months of this year police have been called to 552 accidents with 82 persons injured. There have been no deaths. During the first nine months of 1968 police had investigated 521 accidents, with one death and 115 persons injured.

Most of the accidents last month occurred on Tuesday (16) and more drivers between the ages 25-34 were involved (15) with 60 male drivers and only 27 female drivers in accidents.

**REV. M. P. MOYNEHAN**  
 Funeral services for Rev. Myles P. Moynehan, C.M., will be held at 10 a.m. Monday in St. Vincent de Paul Church in St. Louis, Mo. A memorial mass will be offered at 8:15 a.m. Saturday at St. Vincent de Paul Catholic Church, Pampa.

Rev. Moynehan died Wednesday in St. Louis, Mo., where he was serving as chaplain of the City Hospital.

He was born in St. Louis Dec. 25, 1906, and was ordained to the priesthood at Perryville, Mo., June 4, 1930. After serving in parishes in New Orleans, St. Louis, and Chicago, he was appointed pastor of Holy Souls Church, now St. Vincent de Paul Church in Pampa, from 1962 to 1968.

With the purchase of the present site of St. Vincent's Church, he was responsible for moving from the former Browning St. location to the location on the Perryton Parkway.

**MRS. W.O. BRODNAX**  
 Funeral services for Mrs. W.O. (Clementine) Brodnax, 89, will be held at 2 p.m. Saturday at Carmichael-Whalley Colonial Chapel with the Rev. Edwin Boyte, pastor of Calvary Baptist Church, officiating. Burial will be in Wheeler Cemetery.

Mrs. Brodnax died Wednesday at Worley Hospital.

**Meeting**

(Continued from Page 1)  
 of justice to swing back. It has gone too far in the protection of those suspected of crime. Fair sentences, sure, quick and consistent enforcement of our laws will go a long way to solve crime in the streets."

Finesilver called his talk "a report to the stockholders of America." "For," he said, "you the citizens of this community are the stockholders of the courtroom."

Following the dinner program, Judge Finesilver was guest of honor at a reception in the Cibola Room of the Inn with Mr. and Mrs. W. A. Morgan as hosts.

Knife and Fork Club president Leslie Hart announced the next dinner meeting will be Thursday, Nov. 13 when Miss Kahuneta Horn, a 27-year-old Mohawk Indian, will give her views of the so-called younger generation.

In 1960 Soviet Premier Nikita Khrushchev wrecked a Paris summit meeting by refusing to meet with President Eisenhower unless the American chief executive admitted "U.S. 'spy plane' flights over Russian as acts of aggression."

**Car-Pedestrian Accident Fatal To Pampa Man**

Funeral services are pending for a 66-year-old Pampa man, Lester A. Abnet, who was killed Thursday night west of Pampa on U.S. Highway 60 after being struck by a car.

According to investigating highway patrolman Paul Geiser, Abnet was walking west on the highway when he was struck by a car driven by Bertie C. McIlvain, Route 1, Pampa, who was also going west.

Mrs. McIlvain and her husband, T. O., a passenger in the car, told Geiser Abnet was in the center of the highway when struck.

"By the time I saw him it was too late to stop," Mrs. McIlvain said.

The woman's husband said he never saw the man until after the car hit him.

Geiser said Abnet apparently was thrown under the car after impact, which dented the front and top of the hood.

The accident occurred at about 10:15 p.m. two and one-half miles west of Pampa.

Duenkel Funeral home is in charge of local arrangements.

There is only one known survivor, a daughter in Nashville, Tenn.

**Nixon Faces Grueling Problems In Florida**

KEY BISCAYNE, Fla. —President Nixon, here for a weekend of work and pleasure found himself today facing some problems that plagued him in Washington—Vietnam and the Haynsworth nomination.

The chief executive arrived Thursday night by jet at his vacation retreat, the first he has visited Key Biscayne since July 4th. He was slated to return to Washington Sunday evening.

Press Secretary Ronald Ziegler told newsmen the chief executive planned no major announcements during the weekend.

**Vagrancy Laws Relaxed In Texas**

SAN ANTONIO (UPI) —Tramps, gamblers, fortune tellers, beggars, clairvoyants and just plain lazy people can breathe a little easier in Texas today. But for prostitutes it's the same old story.

A three-judge federal court ruled Thursday 12 sections of the 21 part Texas Vagrancy Statute are unconstitutional and partially voided three other sections.

The decision leaves the state with no means of prosecuting tramps, the idle, persons with no visible means of support, loafers, gamblers, fortune tellers, beggars and clairvoyants, as could be done in the past.

### Television In Review

**By RICK DU BROW**  
**HOLLYWOOD (UPI)**—There are television serials, and there are television series. There was, for instance, the soap opera "Peyton Place" on ABC-TV. But now, starting Sunday, coast-to-coast on National Educational Television, there is "The Forsyte Saga."  
 Readers of the group of John Galsworthy novels that span half a century in the lives of an upper-middle-class British family know that "The Forsyte Saga," adapted from his books, is on a rather different level than "Peyton Place."  
 And millions of American viewers will have the chance, through 26 one-hour episodes, shown weekly, to get as hooked on the series as the British public was when it was broadcast in England. The series, described by one critic in Britain as "the most habit-forming discovery since tobacco," will be seen on 165 NET stations through March 29.  
 It is a very large series in its production, with more than 120 speaking parts, though at least half are minor. The stars include such fine performers as Kenneth More and Fay Compton. The British Broadcasting Corp. was the original presenter of "The Forsyte Saga." In the United States, it will be aired at 9 p.m. EDT.  
 The series, set in the late 19th and early 20th centuries, examines the life of London's nouveau riche, focusing on the outwardly respectable Forsyte family, which, beneath its facade, seethes with rather passionate and rebellious goings-on.

### UPI Names New Gen. News Editor

**NEW YORK (UPI)**—Bruce B. Bakke has been named as general news editor of United Press International, UPI Editor Roger Tatarian announced today.  
 Bakke, 35, will assist in the supervision of the general news report for morning newspapers. He was transferred to New York from Des Moines, where he was Iowa state editor.  
 "He joined UPI in 1959 in Chicago, became Springfield, Ill. bureau manager in 1962 and was appointed Iowa state editor in 1964.  
 Bakke is a native of Virginia, Minn. and grew up in Thief River Falls, Minn. He is a graduate of the University of North Dakota.  
 He has helped cover three national presidential nominating conventions for UPI and served as president of the Des Moines Chapter of Sigma Delta Chi and of the Springfield, Ill. Press Club.

### The Lighter Side

By DICK WEST

WASHINGTON (UPI)—The main strength of America and the thing that has made this republic great is our almost limitless ability to think up new kinds of taxes.  
 Other nations have achieved greatness only to flounder, stagnate or fall. In each case, they reached the point where they were taxing everything in sight and were unable to devise any new revenue raisers.  
 Once a nation arrives at the outer limits of its tax levying capacity, it has no price to go but down.

AFTER VARIETY SHOW

## Columnist Reviews Folk Singer, Ecumenical Bible

By DAVID POLING

I had gone to the television studio in Los Angeles expecting the usual grind of weary waiting for my "appearance" on a variety show. I was to talk about my book, perhaps even to defend "The Last Years of the Church" if my host had read it. And since it was a variety show and I do not sing or dance, my job would be to wait for the others to do their thing.

This can be a problem. Even dangerous. Too often you are booked to appear just after a night club act that thinks the world is waiting for its brand of Las Vegas humor — without censorship, taste or wit. Or else you are followed by a gossip columnist or underground newspaper editor who is going to libel 15 national personalities in the eight minutes that are his time slot. When you make the scene with this kind of lineup, you wish you had missed the wake-up call just once.

But this bright California morning show was different because a young mother named Betsy Chapman had been signed on to sing some of her new songs. This lovely gal turned on the whole world with selections from her new album, "The Gift of Love".

Playing a gentle folk guitar, she sings the words and music that reach young people and adults. For several years she and her husband have been leading programs in churches and schools of northern California. They have the wild idea that the Christian faith can break out of rigid boundaries and give excitement and hope to those in and out of the church. And they are at home everywhere. Some of her music has been incorporated in folk masses, performed in formal worship services. Other sections would be greeted with applause at Woodstock and anywhere else the New generation decides to encamp.

And what particularly reached me was the attitude and philosophy that her art expresses — that there really is no generation gap when people sincerely want to pursue the yearnings for love, justice and community. "Gift of Love" will make many homes happy. Ask for long-range help, but the chance to earn more, but not for immediate loans.

This is probably the best expression of the ecumenical movement in print — to produce a Bible that is faithful to the scholarship of Roman Catholics, Protestants and Jews. And then to put it in one highly readable edition that a high school kid as well as a New Testament scholar would enjoy reading. This project is the united effort of Walter M. Abbott, S.J., Rabbi Arthur Gilbert, Rolfe Lanier Hunt and J. Carter Swaim. "The Bible Reader" does not attempt to blend all the divergent views of these historic groups into one holy omelet. Rather it presents the text and then follows with the special interpretation of the different faiths and how they each arrive at a conclusion.

In order to produce this

leave out certain sections of Scripture and this may be a drawback in the eyes of some. But even the most devoted Bible student or reader must admit there are many chapters that need not be studied in order to touch the main themes of the Old and New Testaments. The volume, the authors had to

Jon Jones

### Church Of Christ Begins Services Of Gospel Meet

After the 9:30 a.m. Family Bible Study Sunday at Pampa Church of Christ, Buster Mullin, minister, will preach the 10:30 a.m. service on the topic "Halted," and the 7 p.m. service on "A Look at the Word Personal."

Mullin and his wife moved to Pampa Sept. 1 to begin their work with the Pampa Church of Christ, 738 McCullough Street. A native of Turkey, he has been preaching 25 years and has served in several Texas churches including Ballinger, Graham, San Angelo, Sweetwater and Petersburg.

Their family includes two married daughters and six grandchildren.

The Grand Canyon's 4,000-foot cliffs make it the deepest of the 19 canyons along the 1,400-mile course of the Colorado River. The World Almanac says, The canyons were formed over 600 million years by the river's eroding layers of rock while the land moved upward in a slow upheaval. Clearly seen strata and fossils on canyon walls reveal more of the earth's history more vividly than anywhere else in the world.

only a neat one-copy edition (over 900 pages) but incorporates some fascinating material on the history of editions of the Bible — ancient and modern. I should have known — or remembered — the "Cotton Patch Version" of the New Testament that was published by Clarence Jordan

of Koinonia Farm, Americus, Ga. In his translations of scripture, you get right down to irrigation ditch level. For instance, James 1:26 reads: If a fellow thinks he has religion, but can not keep from running off at the mouth, and if he has a dishonest heart, that happens when people are receptive to the Spirit of God.

man's religion is as dead as a doornail. All of this is to say, or to point to those who are saying it, that the Christian faith, as well as the Jewish experience, have a great deal of vitality and inspiration. This is what happens when people are receptive to the Spirit of God.

### Latter Day Saints Meet For Semi-Annual Session

Bishop Robert A. Wood, 2220 N. Sumner, of the Church of Jesus Christ of Latter Day Saints, will attend the LDS Semi-Annual Conference in Salt Lake City, Utah, today through Sunday.

The 375-voice Salt Lake Mormon Tabernacle Choir, accompanied by an 11,000 pipe organ, will provide music for the 139th semi-annual conference. Choir director is Richard Condie, who has directed the "Messiah" in Pampa.

David O. McKay, 96-year old president, and ninth prophet of the Church of Jesus Christ of Latter Day Saints will preside as he has since 1951.

Tours for the choir this year were President Nixon's inauguration, San Diego, Calif., Toronto, Canada and Chicago, Ill. Since there are no salaried singers in the choir, the volunteers, all members of the Mormon Church, support their families in more than 50 occupations.

Thirty per cent are homemakers, 13 per cent teachers and nine per cent office workers. The choir includes an architect, two electrical linemen, a hog farmer, a glass blower, two beauticians, two dentists, a waitress, several doctors and lawyers, three mechanics, two

watchmakers and an Internal Revenue Service agent. More than 40 husband-wife combinations sing and several families have been in the choir for two or more generations.

Representatives from all 430 dioceses and 91 missions in the free world will be in Salt Lake City for a series of seven meetings in the 102-year old tabernacle. All but one of the meetings will be open to the public. At the closed session, telephone hookups will enable 150,000 men and boys to hear the priesthood convocation Saturday in 500 locations in the United States and Canada.

Simultaneous translations into several languages will enable conference audience to understand the addresses of the 35 speakers, all general officers of the church.

Capacity of the tabernacle is limited to 7,000, but the Assembly Hall near the tabernacle on Temple Square has provided 2,500 patrons with closed circuit television coverage of the conference. This year, the new Salt Palace Civic Center a block away will provide seats and television views for 20,000 people unable to find space on the Temple Square.

Rev. Carl E. Showalter

### Peace Movement Lecturer To Visit

The Rev. Carl E. Showalter, executive vice president of the Inner Peace Movement, will lecture on the program at a public meeting at 7:30 p.m. today at the Pioneer Natural Gas Co.

The Rev. Showalter, a lecturer and teacher of inner dynamics and self awareness has appeared on more than 800 radio and television programs throughout the nation. He has a B.A. Degree from Manchester College, Indiana, A.B.D. Degree from Bethany Theological Seminary, Chicago, he is a trained hospital minister of the Church of the Brethren.

### Dear Abby

by Abigail Van Buren

DEAR ABBY: For the first 10 years of our marriage Hank worked from 8 a.m. to 4 p.m. — a civilized shift. I always got up first and prepared a good hot breakfast for him.

Suddenly, two years ago Hank decided that he HATED to get in the morning so he got the 4 p.m. to midnight shift. This gets him home about one o'clock in the morning! Abby insists that I be up waiting for him so we can have coffee together while he "unwinds." He takes at least an hour. I have to get up early with the children, and I just can't stay up for four or five hours.

I have never been able to "nap" in the afternoon. I've tried, but it just doesn't work for me.

I think Hank is being very fish and inconsiderate, so what is your advice to me?

HANK'S WIFE  
DEAR WIFE: Hank's reason for working the 4 p.m. to midnight shift strikes me as being somewhat childish. Tell him if he wants you to "unwind" with him after work, he'll get to get back on the "civilized" shift, otherwise he'll have to unwind by himself.

DEAR ABBY: Is it true that a person buys a ring which has a birthstone in it, and if it is not that person's birthstone, it will put a curse on him?

PAULA  
DEAR PAULA: Only if that person can't meet the elements.

DEAR ABBY: Why would a respectable 30-year-old man find a wife who adores him, and two lovely children, keep scene pictures of himself and former conquest lying around in plain view in his workshop? Aren't decent men usually ashamed of such pictures? Does he want to humiliate his wife? Or does he want our children, or anyone else who happens to come in, to see them?

We are both college graduates from good families. I am looking for trouble, Abby. I don't know how much longer I can let this go without mentioning it. Please, please help me.

TORTURED WIFE  
DEAR WIFE: It's difficult to believe that a "decent" man would deliberately leave such pictures lying around in plain view, so I would have to assume that his "carelessness" is an unconscious cry for help. He needs to be "caught" and punished. Discuss it with him without delay. He may need professional help.

### Your Horoscope JEANE DIXON

SATURDAY, OCT. 4  
YOUR BIRTHDAY SATURDAY: — Your path through the year must have detours around obstacles. Your attention is drawn to activities which do not immediately contribute to success but which, in the long run, are essential. Friends are available when you need them. Romantic interest comes and goes with the ups-and-downs of your other strivings. Saturday's natives are willing to work.

ARIES (Mar. 21-Apr. 19): — You can now pick up the pieces and start afresh. Your morale goes right along. Smooth out family differences now while the opportunity exists. Maintenance of home and workplace is indicated.

TAURUS (Apr. 20-May 20): — Your work comes easier and holds interest. Exchanges with relatives and neighbors may be made. Your purchasing efforts could lead farther from home than usual; satisfaction is indicated.

GEMINI (May 21-June 20): — If you are due any concession, the present time is the most likely for the advantage to show. Proceed with confidence; use your imagination to make your work more valuable and important.

CANCER (June 21-July 22): — Saturday promises to be a rather ordinary, normal day in which you can go ahead with your work with general cooperation from the people around you.

LEO (July 23-Aug. 22): — You run into subtle resistance. Nobody wants to disagree with you, but their own needs and wishes are not quite in the same category as yours. Pay attention to what is required or asked of you.

VIRGO (Aug. 23-Sept. 22): — Personal projects thrive Saturday. You get considerably closer to long-held goals. Your creativity is on a rise; listen to your intuitive impulses.

LIBRA (Sept. 23-Oct. 22): — You will probably have to stay on the move Saturday as your personal needs and projects tend to scatter. Your friends are not much help in this respect either.

SCORPIO (Oct. 23-Nov. 21): — You have the chance to get busy with those self-improvement moves you have been saving up. Education in new skills now will pay off greatly later on.

SAGITTARIUS (Nov. 22-Dec. 21): — People from distant places take up much of your attention Saturday. Group activities in general are lively. Your imagination is working and should be free.

CAPRICORN (Dec. 22-Jan. 19): — Use your main efforts to complete whatever you have started. Bring enterprises to their final stages if you can manage. New ventures are better put off until you have space and opportunity for them.

AQUARIUS (Jan. 20-Feb. 18): — There is less to do Saturday, but greater reward for doing things well. Personal ventures thrive, particularly those you have worked at for considerable time. Add to savings.

PISCES (Feb. 19-March 20): — Plan now for activities to be started in a couple of weeks. The financial backing seems meager for the time being. Ask for long-range help, but the chance to earn more, but not for immediate loans.

### Veterans' Auxiliary Attends Banquet For Membership

Veterans of Foreign Wars Post No. 1657 and Ladies Auxiliary met recently in VFW Hall for a membership Turkey dinner with family and special guests.

Mrs. J. W. Dart, president of the auxiliary, and William Earle, commander of the Post, were in charge of food and entertainment.

The auxiliary presented a skit entitled "Shotgun Wedding" narrated by Mrs. Dayton Wallace, who represented Minnie Pearl of the Grand Ole Opera. Ralph Hayes and Carl Sexton presented western music for the skit and special numbers for entertainment before the skit was presented.

Auxiliary members in the cast included Mmes. Jack Boyd, J. W. Dart, Earl Eckroat, Clyde Gray, Leon Hinton, Lloyd Laramore, C. D. Malone, Edith Norris, Sam Steadman, Tony Smith, A. L. Walling, and Carl M. Wright.

### Catholic School Names Officers

An open house was held recently at St. Vincent de Paul School with introduction of new officers, by the current president, Patrick O'Connor.

New officers are O'Connor, president; C.W. Smith, vice president; Mrs. Jim Keough, secretary; Mrs. C.W. Smith, treasurer; Mrs. Joe Dickey, historian; and Charles Walsh, parliamentarian. Principal of the school is Sister Alice Holden.

### BE SURE YOU'RE READY FOR COLD WEATHER

When the first cool snap hits be sure your heating system is in tip-top shape. You can avoid cooling your heels... and your nose... if you will call your plumber or heating contractor early. Ask him to check:

□ FILTERS □ FAN □ VENTS

If you need light-up help only, call Pioneer Natural Gas. But for complete service, call your plumber or heating specialist. And call early to avoid the rush.

# Local Church News

## First Presbyterian Church

The Rev. Martin Hager, First Presbyterian Church pastor, will use "More than we ask or think" as the topic for his sermon at both the 8:30 and 11 a.m. worship services, Sunday. The Sacrament of Holy Communion will be observed at both services with the pastor and elders serving.

At the 11 a.m. worship service, the Chancel Choir will present the anthem, "In My Father's House" arrangement by Pasquet. The choir is under

the direction of Mrs. Caro Mackey. Mrs. Fidelia Yoder, church organist, will present "Our Redeemer and Our Lord" as well as the prelude and postlude selections.

At 1 p.m., the Junior High Fellowship will leave the church to go ice skating in Amarillo. The group is expected to return about 5:30 p.m. The Senior High Fellowship will meet at 5:30 p.m. for a Hamburger Supper in the home of Mr. and Mrs. Don Losher, 1821 Fir.

Rev. Eugene Gruell

## Church Of Christ

Jon Jones will preach a gospel meeting at Mary Ellen and Harvester Street Church of Christ Oct. 12-17. A native Texan, he graduated from Abilene Christian College in 1953 and received the first annual Trustees Award for outstanding contributions to the college by a student.

He has done graduate work at ACC and the University of Alabama and has served the

congregation in Pampa, Tuscaloosa, Ala., and Austin. He is pastor now of the Central Church of Christ, Miami, Fla.

In 1966, he traveled and preached throughout the Middle East, visiting Lebanon, Syria, Egypt, Jordan, Israel, Turkey and Greece. In 1967 he preached and traveled throughout western Europe, visiting with congregations in England, France, Switzerland, Italy and Spain.

## Zion Lutheran Slates Festival For Missions

The Rev. Eugene Gruell, director of Mission Administration for the Texas District of the Lutheran Church-Missouri Synod, and former missionary to Cuba, will be the guest speaker for the Mission Festival Service at Zion Lutheran Church, Sunday.

Theme of his message will be "Let's Wipe Out Unemployment in the Church." Rev. Gruell will also address the combined Bible classes in the morning and have an informal slide presentation on Cuba in the afternoon.

Mission activity in Middle America (Central America, Mexico, Cuba and Venezuela) will be emphasized in the displays and decorations to be viewed in the church and Parish Hall this Sunday. A dinner will be served following the morning worship service.

Rev. Gruell is the youngest child of the Rev. and Mrs. Herman F. Gruell, missionaries for 13 years to Brazil. Rev. Gruell attended Concordia Theological Seminary in St. Louis, Mo., graduating from that institution in 1946. His first charge was among people of Latin descent in McAllen.

He began what is now Good Shepherd Lutheran Church, a Spanish mission. In 1956 Pastor Gruell accepted a Call to Havana, Cuba, to serve as missionary at large. Missionary Gruell served as President of the Lutheran Church of Cuba, trained several Cuban nationals for the ministry, and established the Central Lutheran Church of Havana, Our Redeemer, which served its constituents in three languages: Spanish, German and English.

Missionary Gruell was withdrawn from this growing mission field in 1961 because of the problems posed by the Communist occupation of the island.

## United Methodist Church

World-Wide Communion will be observed at both morning worship services at the First United Methodist Church. The 8:45 a.m. service will be held in the patio of the educational building for those who cannot climb stairs to attend.

The pastor, The Rev. H. DeWitt Seago, will administer the Sacrament and choir and congregation will join in reading and singing the entire service.

For the service in the patio, Tracy Cary, organist, will play a piano prelude, "Adagio" by Beethoven, and a postlude, "Re-

cessional" by Marchesi. The Youth Choir will sing "Turn Ye Even To Me" by Harker.

The 11 a.m. service will be held, as usual, in the sanctuary.

Special music includes: Prelude, "Entrata Religiosa" by Zuniga; Anthem, "Bread of the World" by Bougeois, sung by the Sanctuary Choir directed by Morris Kille; Postlude, "Marche aux Flambeaux" by Gounod.

Evening services will be at 6 p.m. followed by UMY fellowship meetings.

## Chapel Of Apostolic Faith

Special services will be held Oct. 5-12 at Pampa Chapel of Apostolic Faith located at 711 E. Harvester. The Rev. Gail Schultz, Taneyville, Mo., will be evangelist. Rev. Schultz is a former teacher of the Apostolic Bible School teaching doctrine and prophecy.

Pampa stagers will provide gospel music. The Junior Choir will direct music for the Wednesday night services.

Service times are 6 p.m. Sunday and 7:15 p.m. week nights. The Rev. Amos Harris, pastor, said the public is invited to attend.

## Jehovah Witnesses

The Pampa congregation of Jehovah's Witnesses will hear Allen Mayo, Hereford, deliver the discourse "God Made Out of One Man Every Nation", at 10 a.m. Sunday, at the local Kingdom Hall, 1701 Coffee.

During the discussion Mr. Mayo will enlarge on the text at 2 Cor. 4:4 which describe unity among men of all kinds. The information discussed by

him includes also the text at Daniel 2:44.

Immediately following the public talk will be the weekly Watchtower study found in the Sept. 15, issue. Conducting the audience participation study will be Richard L. Fetter, 1137 S. Christy.

The subject theme will be "Conquering the Evil with the Good in Modern Times."

## Christian Science

"Ye judge after the flesh; I judge no man." This Bible verse from John is included in the Lesson-Sermon to be read in all Christian Science churches this Sunday.

A passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy used in supporting commentary reads: "Immortal men and women are models of spiritual sense, drawn by perfect Mind and reflecting those higher conceptions of loveliness which

transcend all material sense." The subject of the sermon is "Unreality."

## REVIVAL

# The Weekly Message of Inspiration...

## PAMPA CHURCH OF CHRIST

"GREAT FAITH" By Buster Mullin

Although the word faith appears some 229 times in the New Testament, the expression, "Great Faith" is used by Christ only twice —

Lk. 7:1-10; Matt. 15:12-28, — read them!

By studying the attitudes of the two in these scriptures, we may learn what it takes to make a great faith. What caused Jesus to be so deeply impressed with their faith?

Perhaps the most noticeable element seen in the centurion is his respect for the authority of Christ. This man exercised authority, as well as being subject to authority. He realized that if the limited authority of man is respected the authority of Christ must, indeed, be irresistible.

There must be a recognized and respected authority. What is the supreme authority in religious matters? Is it our individual feelings? If so, there are as many authorities as there are individuals. Feelings even vary in the same individual. If he were left to feelings even the individual would be left in confusion. "Great Faith" requires that we accept the Word of God as being sufficient for every need. It says, "only speak the word". Great faith does not quibble over the Word of God. Wouldn't it be easy to let tradition, prejudice or man's teaching take over?

In both the characters whom we are studying there is a great degree of humility. There is no place in the life of faith for selfrighteousness. Perhaps nothing has so hindered the progress of God's teaching as has the spirit of Phariseism. The self-styled GOOD MAN, the HOLIER-THAN-THOU fellow, who sees so much to condemn in others and so much praise in himself, has no resemblance to those our Lord described as possessors of great faith.

Great Faith builds. It is destructive only in the sense that, by constructing the good, it destroys the evil. It breaks down fear by building courage. It abolishes hate by producing love.

"... Lord, have compassion on us and help us. I believe; help thou mine unbelief" Mk. 9:22-24. May God help us all into Great Faith.

## H. L. Hunt Writes

### COST OF STUDENT REVOLT

Colleges throughout the country have begun their 1967-70 terms and millions of concerned Americans will be watching to see if student revolts will be resumed.

Activities of "student revolutionists" caused more than \$3 million in damage on college campuses and resulted in more than 4,000 arrests during the 1968-69 academic year. But the damage done to the colleges and to all America terms of dollars, far more serious is the injury done to our system of higher education and to the worthy ambitions of the great majority of college students who are earnestly trying to prepare themselves for useful lives.

The coming academic year will bring the moment of truth to many of our educational institutions. If inept or timorous administrators allow a minority of raucous Farleftists to disrupt the colleges and universities, the end result may well be catastrophic.

New Left militants are increasingly falling under the control of communist groups, according to FBI Director J. Edgar Hoover. Non-students constantly appear on campuses to participate in disorders. Extremist agitators travel from one campus to another with the single purpose of stirring up trouble.

Says Mr. Hoover: "While it is the immediate goal of the New Left to gain complete control of our educational system, it is apparent that it hopes to lead a revolution ultimately designed to overthrow our system of government." That is a cost the U.S. cannot afford to pay.

## Question Box

(We invite questions on economic and the proper function of government which will not injure anyone.)

**QUESTION:** Is it wicked to waste?

**ANSWER:** That is a difficult question to answer because what is waste in one case may not be waste in another case.

As a general rule, however, it is wicked to waste because as Frederic Bastiat, the great French philosopher said, "the gain of one is the gain of all and the loss of one is the loss of all." So if people waste even food when there are so many people hungry, it is wicked.

It certainly is not wicked for a boy or girl to devote a lot of time to playing and running and getting exercise though this could appear to be wasting time in the eyes of some people.

It is not waste for a man to take time to take exercise, especially if he has an office job that requires little walking.

Of course, the greatest of all wastes is the waste caused by the state. If we didn't have protective tariffs and immigration quotas, we wouldn't be in all these wars. As Bastiat said, "where goods do not cross borders (because of protective tariffs), soldiers will."

The government wouldn't make these wasteful laws if too many people did not fail to understand that the free and natural division of labor benefits everybody. When there is a free and natural division of labor, more of the things people need can be produced and at lower cost. Too many people believe we can have more by limiting this process.

Anything that interferes with free and natural exchange of goods and services, where all parties believe they are making a profit, is a great waste.

## Wit And Whimsy

**Husband** — What are you so sure about? Haven't I always turned my pay check over to you the first of every month?

**Wife** — Yes, but I found out you get paid on the 15th, too.

**The corporal** was preparing to fingerprint a recruit.  
**Corporal Long** — Wash your hands.  
**Recruit Lee** — Both of them? Hesitating a moment, the corporal said.

**Corporal Long** — No, just one. I'd like to see how you do it.

## It'll Be "Popular" With Tall Players

## SDRs Are Just More IOUs

By OSCAR W. COOLEY  
Assoc. Prof. of Economics,  
Ohio Northern Univ.

On September 29, the International Monetary Fund and the World Bank held their 25th annual meeting in Washington, D.C. Though the silver anniversary of worldwide monetary socialism, silver, you may be sure, was not one of its concerns.

The World Bank is owned by some 110 governments, Uncle Sam being the leading stockholder. It loans money to governments to build roads, dams, ditches and sundry other works.

Our government has no business in the banking business, either national or international. Many private banks stand ready to finance the world's dams and ditches if they are sound ventures—and nobody should finance them if they're not.

The IMF is even more of a monstrosity. It was set up to help the nations freeze their exchange rates (prices of money in terms of other monies), an uneconomic and meddlesome purpose to start with. It holds a hodge-podge of gold and various fiat monies, mostly the latter, which the nations have contributed and which it lends to central (socialized) banks of nations that have imported a lot more than they have exported—and are being pressed by their creditors. This enables the prodigal countries to stretch their credit a little further.

International debits and credits would adjust themselves—in fact, would never get out of adjustment—if exchange rates were free, but that is too simple and sensible a solution to be adopted by the lords of finance socialism.

Now the IMF is to be given another responsibility. It's to become an international money issuer. The money it will issue is to be called SDR's, or "special drawing rights." They are special in the sense of being different from the ordinary drawing rights on the IMF which the nations have had for 25 years—different in that a nation does not draw (borrow) another nation's money, like francs or yen, but the IMF's money, and different also in that the drawing nation does not have to pay it back! There are limits, however, on the amounts that can be drawn.

The SDR's might better have been dubbed IOU's, for that is what they are—IOU's of the IMF. One can surmise they were not called that because IOU is an ordinary, garden-variety term which would have meant something to everybody, and the IMF is careful to be both obscure and mysterious. (Of course the ordinary Joe, Jean, Heinrich and Manuel pay the taxes that buy the IMF's groceries, but let us not dwell on such a prosaic detail.)

During the first year, the IMF has announced, it will issue \$3.5 billion worth of SDR's. (For some strange reason, this new kind of money is measured out in terms of the old-fashioned kind, dollars.)

The SDR's will not be issued to the public—you will not be able to buy a coke with one. They will be issued only to the

central banks. For example, our Federal Reserve System will get \$851 million worth the first year. And presumably they will never get outside the central banks, which will pass them back and forth among themselves to pay debts.

What debts? The debts that pile up in a central bank because the total out-payments of the people and firms (and government) of that country exceed the total in-payments. For example, the American people for many years have paid out more than they have received. Every year we have had a deficit in our balance of payments, and it adds up.

Now we are going to be able to pay off \$851 million of that deficit as soon as we get our share of the first year's SDR's. And in the second year, when the IMF is to issue another \$3 billion SDR's, we'll be in shape to pay off another slug of our debt. So will all the other IMF member nations that have a deficit.

I say "pay off" the debt with tongue in cheek. What will really happen is that the creditor nations will no longer hold Uncle Sam's IOU's in dollars but the IMF's IOU's called "SDR's." We won't owe them; the IMF will!

Thus, one purpose of the SDR's is to enable the nations that are now running deficits in their international accounts to unload those deficits on the IMF. That will enable them to go on spending like drunken sailors and pile up more deficits.

This is said to "increase international liquidity." If, when a spendthrift exhausts the last penny of his credit, his indulgent banker lends him another \$1,000, that will increase his liquidity all right, but it will not restore him to financial health.

Will the SDR's solve the world's problem of balancing international payments? They will not. They will merely postpone solution. Meanwhile, the burden of maladjustment will become heavier.

International deficits occur because foreign exchange markets are not allowed to move to equilibrium. That is, the price of one money in terms of another—the dollar in terms of francs, the pound in terms of yen, etc.—is not permitted to rise or fall with demand and supply. The exchange rates are frozen, and a mammoth freezer, the IMF, has been set up by the governments to keep them frozen.

It follows that some currencies are cheaper, others dearer, than they would be in a free market. From this it follows that goods and services of some countries are abnormally cheap, others abnormally dear, to foreign buyers.

Thus, the effect is to distort and reduce world trade, travel, and investment, to hamper economic development, and to make life harder for the common citizen of every nation.

## The Doctor Says

By DR. W. G. BRANSTADT

### Inhaling Fungus Spores Causes Histoplasmosis

Q—My doctor says I have histoplasmosis or pigeon disease and that there is nothing he can do for it because the treatment is too dangerous. Is it contagious? Can it be cured?

A—This disease, similar in its effects to tuberculosis, is caused by inhaling spores of the fungus, *Histoplasma capsulatum*. They are found in dust that is contaminated by the droppings of birds or bats. It's not transmitted directly from one person to another. Mild cases recover spontaneously. Severe cases can be cured with amphotericin B. But your doctor is right—because of the unpleasant side effects, the drug is reserved for those whose life is threatened by the disease.

Q—I complained of shortness of breath so my doctor ordered an X ray of my lungs. It showed a spot my doctor said was caused by being around chickens. I live in the city and have never worked with chickens. My doctor didn't order any treatment. What do you advise?

A—Chickens are only one source of histoplasmosis, the disease your doctor must have had in mind. Since yours is probably a mild case, I would follow your doctor's advice.

Q—What is hyperventilation? What can be done for it?

A—When a person breathes too deeply and too fast he becomes hyperventilated — too much carbon dioxide is washed out of his blood. This may cause numbness or tingling in the arms and legs, blurred vision, dizziness, or lightheadedness. Sometimes these symptoms frighten the victim into breathing deeper and faster, in which case he may get chest pains or even lose consciousness. When one hyperventilates habitually the cause is usually anxiety.

For the immediate symptoms, you should hold your breath or breathe in and out of a paper bag held tightly over your nose and mouth. For a continuing problem, the only treatment is to learn to recognize your bouts of deep breathing and relax. Persons who are subject to these attacks should avoid yawning and sighing.

Q—Does washing one's hair under a shower damage the roots?

A—There is no danger to the hair roots, but scalding must be avoided.

Please send your questions and comments to Wayne G. Brandstadt, M.D., in care of this paper. While Dr. Brandstadt can't answer individual letters, he will answer letters of general interest in future columns.

## CAPITOL EYE

### Security Council Hassle Nags Issue-Ridden Nixon

By BRUCE BLOSSAT  
Washington Correspondent  
WASHINGTON (NEA) — President Nixon may be well on the way to discovering that in this tangled era there may be no nice way to be president, nor to run the White House establishment.

The pressures are building against him to move faster to disengage this country from the Vietnam war. And knowledgeable sources say a still rampant inflation weighs almost as heavily on his mind.

As if all this were not enough, he has to face the fact that his huge White House staff may be functioning less smoothly today than in its early shakedown months.

When in a short time five members of Henry Kissinger's National Security Council staff hand in their notices, the matter cannot quite be dismissed as the accidental conjunction of five plausible individual plans.

The Kissinger operation from the outset has been viewed widely as the best thing in the White House. Ranging from 25 to 30 substantive people, bigger far than comparable inhouse foreign affairs operations in the Kennedy and Johnson days, it has been touted for high caliber, dedication to work, broad span of interest.

Men who come into this NSC nerve center know they are where the biggest action is. "Henry is running the world," says one waggish observer. His staff has operational, coordinating and review duties across the board in foreign policy and related matters.

Granting that exhaustion can overtake some on this hard-driven staff, or that legitimate career changes may beckon, it is hard to accept the sudden flurry of interest in the departing staff men have shown in law firms, research institutions and so on.

These men are not talking to most White House watchers. Consequently, probing produces only guess work answers. But these are interesting, even if merely roughly suggestive of the truth.

Several sources believe the Kissinger staff has suffered an embarrassment of riches. Says

one source qualified to judge: "There has been a collision of too many talents. As a result there are a lot of bruised egos on that staff."

One insider who agrees says the problem is complicated by the fact that some overlap occurs in NSC job functions.

The inevitable clash is made worse, some close watchers say, by a circumstance which really constitutes a second major problem—Kissinger's frequent extensive absences from the White House and the lack of a real deputy to take his place.

Kissinger is away often because he shadows Nixon closely—at the President's wish. But with no substitute quarterback on the White House scene, the high-powered NSC aides are generally rudderless and repeatedly in some conflict.

Other factors are involved in the departures. Kissinger runs his staff a little like an isolation ward, with lips well-buttoned. There are oblique hints, too, that Nixon officials whose main concerns are domestic have cut athwart issues the NSC considers and added to the ego bumping.

None of this is fatal to Nixon's course. Kissinger's operation goes bowling along, though not all the vacated spots will be filled. Yet it has to be of some concern. Kissinger's tough command has been a bright contrast to the long-uncoordinated White House operations in the domestic sphere.

There is not now nor ever has been a genuine domestic co-ordinator. The congressional liaison staff, biggest in history, crucial to the President's legislative hopes, is criticized by experts for failure to winnow out important matters from among the flood of requests and problems the lawmakers dump into White House channels. Scratch most any GOP congressman or senator any day and you can get a flow of complaints—political, personal and otherwise.

Some appraisers say the White House staff as a whole is much too big, too "heavily layered," and that many staff people do not know each other. Efficiency still seems a distant dream.

## THE GLOBAL VIEW

### Black Militants, Student Radicals Wooded By Reds

By LEON DENNEN,  
Foreign-News Analyst

NEW YORK (NEA)—More than 50 years after Lenin told Communists that the subversion of democratic society justified "any ruse, cunning, unlawful method or the concealment of the truth," university presidents still cling to the hope that peace in Vietnam will bring peace to the college campus.

Most Americans, student included, are increasingly concerned about the deep-seated questions of the country's involvement in the war. But will peace in Vietnam—or draft reforms and courses in Afro-American studies—induce the leftist firebrands to abandon the barricades and resume their studies?

According to FBI Chief J. Edgar Hoover, the "senseless plunder" of American campuses will continue even should President Nixon withdraw all troops from Vietnam.

One need not be an uncritical admirer of Hoover to acknowledge that he is one man who knows the plans of the totalitarian left. He is believed to have undercover agents in high councils of the pro-Moscow American Communist Party.

What Hoover apparently knows—and this is increasingly clear to specialists on communism—is that some major universities have become a battleground between rival Marxist-Leninist factions.

Both groups, it should be emphasized, represent only the tiniest minority of American students. But their programs are "revolutionary action." They are well-organized, professional skillful at provocation and publicity.

Since the recent split in the Students for a Democratic Society (SDS), the competing groups are known to have made plans to escalate campus disorders in order to demonstrate who can be the more revolutionary.

to Americans. What is important is that the pro-Russian American Communist Party is trying to gain influence among radical students.

Ignored for 50 years by American labor, the Muscovites have come to the conclusion that the New Left and Negro militants like the Black Panthers are their only potential partisans for the immediate future. But even this new policy originated in Moscow and not in New York.

The Kremlin's first reactions to youth unrest in the West were quiet negative and rioting students were castigated as "Maoists," "anarchists" and "Trotskyists." The new Soviet policy is to recruit radical white students and black militants in the service of Moscow's goals.

According to the authoritative journal, World Economics and International Relations, the anarchism of students is only temporary. "Through their contact with Marxism-Leninism, students and black militants will become a strong force in the service of communism," the Soviet journal says.

This is also the view of Yuri Zhukov who usually speaks for the Kremlin. He describes the Black Panther program as "anarchism with all its inherent extremism." Yet he urges the Muscovites in the United States to work with such groups.

The Panthers, who need financial and legal aid, are apparently ready to respond.

Says Bobb Seale, jailed Black Panther leader: "We dig communism. We do have some criticism of the American Communist Party, and lately they have related to some of the criticism."

It is thus an illusion to assume that a withdrawal of some 60,000 men from Vietnam or a reform of the draft system will "buy time" for Nixon and the harassed college authorities. The nationwide student boycott scheduled for Oct. 15 is likely to be the signal for a new wave of rioting.

# Pampa Harvesters Test Plainview Tonight

By RON CROSS  
Sports Editor

**PLAINVIEW** — Pampa, hobbled by injuries and sickness, tries to even its season record at 2-2, here tonight, when Plainview and the Harvesters square off for the 35th time at 8 p.m.

Leading Pampa scorer and rusher Scotty King is the only doubtful starter but Pampa will not be at full strength with eight

starters having missed at least three days practice this week. King has a severe thigh bruise and Thursday night his status as a player was still listed as doubtful.

Pampa coach Swede Lee was still pondering what lineup to use late Thursday night and probably won't make a decision until late this afternoon.

The Harvesters won their first game of the season last week

by downing Perryton, 27-6 after two straight losses, 13-9 to Hereford and 27-0, to Dumas.

Plainview, big and experienced, has bounded to a 2-0-1 record with only Vernon Mouser, both of whom started last season. Joining the pair are returnees from last season's split end Mart Hanna, a 155-pound senior and Alan Hale, 175-pound center.

At the other end is 165 pound junior Fred Jackson and the other guard is 185 pound junior Bruce Sandlin.

Ronnie Fudge returns at quarterback and David Wooley at fullback. Both are seniors and Fudge weighs 180 and Wooley, 195. Halfbacks are 175 pound senior Larry McCutcheon and 170 pound senior Albert Hill.

**DON WILLIS** will be at his usual halfback spot tonight when Pampa plays Plainview in Bulldog Stadium. Willis, a guard last year, has made the transition to halfback and is Pampa's second leading rusher.

# Shockers Dumped, 38-6

Pampa Shockers' offense got its defense in a hole that kept getting deeper, here Thursday night, and the defense was finally buried in the fourth quarter after a long and gallant struggle for life.

Amarillo halfback Charles Graves, who ran enough for three ball games ended the Shockers three game winning streak by running for 273 yards and two touchdowns to pace the Sandie Junior Varsity to a 38-6 victory.

Pampa could never get its offense in high gear but was still in the game entering the fourth quarter, trailing only 14-0, the same score it had trailed by at halftime.

But the defense, which had fought Graves and halfback

Harold Crow for three quarters finally began to yield.

Graves, who carried the ball 48 of Amarillo's 70 offensive plays scored Amarillo's first and last touchdowns on runs of 20 and 46 yards.

Pampa's only score came in the fourth quarter when quarterback Larry Knutson hooked up with end Tom Watson for a 53 yard scoring strike to make the score 30-6.

The Shockers, who ran only 43 offensive plays, gave up the ball four times on fumbles and quarterback Dale Ammons had a pass intercepted before leaving the game in the fourth quarter with a possible broken hand.

Amarillo ground out 368 yards against Pampa's defense, which

seemed to be working at a disadvantage all night.

Pampa recovered an Amarillo fumble in the first quarter but the pass interception and a fumble of their own cost the one play with Graves going over from the right side.

Pampa's defenders had made a gallant stand at the opening of the second and fourth quarters holding Amarillo four downs on the three.

But on the first play from scrimmage an Ammons pitchout went array and Amarillo's Don Linger recovered in the end zone for the score. Crow ran over the conversion for a 14-0 halftime lead.

The closest Pampa came to scoring in the first half ended when the half did with the Shockers on the Amarillo 16-yard line.

Pampa drove to the Amarillo seven in the third quarter but on third down another fumble

cost them a chance to score. The Shockers failed on a fourth down and seven near the end of the period and failed and from then on it was all Amarillo.

The Sandie Junior Varsity drove 45 yards in 11 plays with Crow getting the last 11 to score. Crow then ran the conversion to make it 22-0 with 8:34 left in the game.

The next time they got the ball Amarillo drove 55 yards in 11 plays, Pampa contributed a 15 yard penalty and Jack Nuckalls ran the last 10 yards to score. Gilbreath ran the conversion and it was 30-0.

Graves added the final tally after Pampa's touchdown when he swept around right end and outdistanced everybody for 46 yards.

Ammond led Pampa rushers with 69 yards on nine carries and Greg Wilson had 59 yards on 14 tries. Darrell Nipp gained 33 yards on nine tries.

## Jr. High Teams Lose 3 Games

Pampa Junior High football teams were blanked for the first time this season Thursday when they lost all three games played. Lee ninth was idle and remains as Pampa's only unbeaten team.

Pampa Reapers lost to Perryton, 14-6, after trailing, 7-0 for three quarters. Perryton made it 14-0 in the fourth before Alen Keeton scored from one yard away. Keeton had set up the touchdown with a 51 yard run.

Pampa eighth and Perryton eighth squared off in a defensive battle with Perryton scoring in the second quarter and made it stand up for a 6-0 victory.

Pampa eighth moved inside the Perryton 30 only once, that coming in the third quarter.

Lee eighth lost its first game after two straight victories and helped Dumas to its, 8-6 victory with 10 fumbles, five of them going to Dumas.

Lee scored in the first quarter when David Clark went in from five yards away. The run for the conversion was called back and the second try failed.

Dumas scored in the second quarter on a 12 yard run and added the two-point conversion on a pass.

## Perryton B Nips Pirates

**LEFORS** — Perryton B came from way behind with a 20-point fourth quarter outburst and overhauled Lefors for an exciting, 26-25 victory, here Thursday night.

Perryton scored twice in the final two minutes of play with halfback Dan Flowers going in from the one for the final score. Jim Parker caught a pass that was tipped twice for the winning two-point conversion.

Flowers ran Perryton's last three touchdowns, besides the one yard run he charged across the goal from 15 and two-yards away.

Perryton jumped in front 6-0 in the first quarter when Dan Hausman and Del Lemons connected on a 60 yard scoring toss.

But Lefors came back for two second quarter touchdowns and a 13-0 lead at intermission.

## WT Faces Wichita Saturday

**CANYON** — When West Texas State University's young Buffaloes invade Wichita, Kan., for their Saturday afternoon (1:30 p.m.) clash with the University of Wichita's Shockers they will have a new look.

The new players will be starting in the backfield, thanks to their standout showings in last week's 22-7 victory over Northern Illinois.

Ralph "Rocky" (Thompson), who scampered for 115 net yards in the Northern Illinois clash, will be at the running back spot and Ramse Falafine will start at fullback.

In Wichita the Buffs will be meeting a club they have

beaten only twice in five efforts. Wichita, playing in its new stadium with a Uni-Turf surface, upset Utah State, 17-7, in its opening game. The Shockers have been on the road for the past two weeks and have fallen 24-0 to Florida State and 50-21 to Colorado State.

This will be the first West Texas State squad to play on an artificial surface.

The Buffaloes return home Saturday Oct. 11 to play powerful San Diego State. That will be Pampa Night at Buffalo Bowl and the Pampa High School band, which has made national television appearances, will perform at halftime along with the WTSU band.

## Tigers Put Streak On Line Tonight

Groom puts its unbeaten streak on the line tonight when the Tigers host Wheeler in the top prep area football attraction.

Another good battle will take place in White Deer where the Bucks will be out to half a two game losing streak and score for the first time since its opener when they beat Silverton, 31-0. Since then White Deer has been shut out, 19-0 by Clarendon and 14-0 by Panhandle.

McLean opened the season sadly, losing to Shamrock, 25-0. But the Tigers came back to bounce Lefors, 26-7 but was tied last week by Boys Ranch, 6-6.

In other area action Lefors hosted Perryton B Thursday night but tonight Canadian (1-2) hosts Clarendon (3-0); Stratford (1-1-1) is at Kress; Texline (0-3) Booker (2-1) hosts Gruver (2-1); Sunray (3-0) is at Keyes, Okla.; Panhandle (2-1) hosts Sanford-Fritch (2-1); Claude (0-3) hosts Stinnett (0-3); Silverton (0-3) is at Boys Ranch (1-1-1); Happy (1-1-1) is at Kress; Texline (03) plays at Alamo Catholic and Follett (2-1) hosts Shattuck, Okla.

**U. S. LEADS**  
St. ANDREWS, Scotland (UPI)—The United States enjoyed an 11-stroke lead over runnerup Canada entering today's third round of the World Seniors team golf championship.

## Judo Tourney Slated Saturday

(No holds barred)

The first ever judo tournament held in Pampa is scheduled for a 10 a.m. start Saturday in the high school fieldhouse with participants from four states expected.

Invitations have been sent to clubs and schools in Kansas, Oklahoma, Texas and New Mexico.

Tickets for the tournament are \$1 for adults, 50 cents for children and may be purchased at the door, or from local judo students.

Pampa Jaycees are sponsoring the tournament, which will be conducted under the direction of the West Texas Judo Association.

**COACHES RETURN**  
NEW YORK (UPI)—All four coaches will return to the New York Yankees next season. The club has received signed contracts from Jim Turner, Jim Hegan, Elston Howard and Dick Howser.

## Third Grade Takes Farm Field Trip

By WANDA MAE HUFF  
News Staff Writer

Baker Elementary School third graders learned this week "life on the farm" is more advanced, more mechanized and more automated than it was in grandpa's day, but even automation can't improve a pig's temperament.

The 60 third graders, who toured a Pampa area wheat farm and a dairy farm for their first time were students of Mrs. Frank Craig, Mrs. Aubrey Jones and Mrs. Leroy Morris.

The field trip to study Pampa's farming community took the children to the Paul Bowers wheat farm 18 miles south of Pampa and the O.J. Miller Grandview Dairy Farm, two miles south of Bowers farm, Mrs. Jones said.

"When the children climbed on Bowers' tractors and 'practiced driving', you should have seen the driving they did. Actually seeing these farming terms we study will be so much more meaningful. A field trip has advantages for other subjects, too, because it gives the children more material to write about in their English compositions. Some of their best paragraphs lessons come from these trips," Mrs. Jones said.

"One of the best attractions for the children was Bowers' 900 lb. hog," Jerry Cronister, elementary education coordinator, said. "The hog was resting in a huge mud hole and wouldn't get up. He got up, though, quicker than the children expected, when Bowers

poked him with a stick. The children just threw up their hands and scattered, but on the way back to town it was one of the things they talked about most."

At the dairy farm, the children learned operation of milkers, and the steps to process milk from the milking parlor, to cooler, through hose to tank trucks for shipment to Pampa grocery stores, Mrs. Jones said.

"The drawing card for the children was watching the calves get milk from milking goats. Since all the cows' milk is sold, Miller uses the goats' milk to feed his calves."

"On the dairy farm, they watched cows come into their own stall to be fed and watched automatic feeders send food down into each cow's stall. They will know what we're talking about too, when we mention combines, because they watched one combine feed. It's the same type used to harvest wheat," she said.

"Before coming home, the children were given a stalk of maize to study in class to learn how plants get their food from the roots and store it. According to their test scores, graded Thursday, the visit to the farm was a successful attraction," Mrs. Jones said.

"Prior to losing Mike I thought we were going to be as good or better than we were last year," said team coach Bill Gibson. "Now we'll just have to wait and see our boys in action before deciding how we will work."

**STUDENT OF BASKETBALL**  
CHARLOTTESVILLE, Va. (UPI)—Mike Wilkes, the leading scorer for the University of Virginia last season with a 15.7 point average, has withdrawn from the school basketball team because of an accelerated scholastic schedule.

## Wall Street Chatter

NEW YORK (UPI)—The technical deterioration in a stock market is in a trading pattern in which institutional buying interest "continues to rotate subtly and suddenly among stocks which already indicate favorable uptrend pricing patterns by showing higher intermediate highs and lows."

When trading incentives are lacking, the market tends to fall of its own weight, observes E. F. Hutton & Co. The firm says the current situation is "the same old story that the market usually needs volume to move upward, but it can decline quite easily when trading is light."

Consumers' car buying plans have deteriorated in recent months because of inflation, stepped up interest rates and lack of favorable business news, Lionel D. Edl says. But consumers

turned less dynamic, but it is not yet negative, according to Paine, Webber, Jackson & Curtis. The benefit of doubt has started to shift from the upside to the downside, but no real dip or correction can be projected, and there has been some

## Foreign News Commentary

By PHIL NEWSOM  
UPI Foreign News Analyst

In 1957 Ghana became black Africa's first independent state. This week it became black Africa's first state to return to civilian rule via free elections after three years of military government.

The new premier is 55-year-old Teffu Busia, a soft-spoken Methodist lay preacher who holds a Ph.D. from Oxford.

His progress party won 101 of the 140 seats in the Ghanaian assembly in last month's

regime of Ghana's first president, Kwame Nkrumah. Nkrumah, the man who erected statues of himself and left his country nearly a billion dollars in debt, now resides in exile in neighboring Guinea.

At a time when many African leaders consider democracy old fashioned, Busia made it his platform.

"All peoples can achieve and practice democracy if they have enough faith and conviction in its values," he once wrote.

# Storm Watchers Shepherd Ships

MENLO PARK, Calif. — (NEA) — It's something like a game. Only you play it with pretty big things.

The game board is the Pacific Ocean. The pieces you move around are ships — 100 to 300 of them at a time. And the obstacles are storms.

Playing the game is the staff of Pacific Weather Analysis Corporation. They gather around their sophisticated thermometers in this San Francisco Bay town every day and go to work. The object of the game is to get the ships across the ocean as quickly and safely as possible.

The shipping companies who subscribe to the service do so as a safeguard, something beyond their own weather predictions, the government's advisories and the aches and bones of the old salts aboard the ships.

As the ships plunge through the Pacific, the company men here keep radioing it news of the weather ahead. This permits the captains to steer the most favorable courses.

The company gets its information from domestic and foreign weather bureaus, from weather satellites, from the ships at sea.

The information is fed into an IBM 1130 computing system. What comes out is automatically plotted and a new map prepared every six hours. This shows the weather and the course of each of the ships the company is concerned about.

A report is then radioed periodically to each ship.

By recommending initial courses and en route course changes," says Bill Dupin, vice-president of Pacific Weather Analysis, "we reduce a vessel's ocean crossing time by 12 to 24 hours. As we study the weather ahead of a ship, we can develop very minor course changes that will help the captain avoid adverse conditions and ensure the safety of his ship, cargo and crew."

Dupin says that, occasionally, a small course change — only a degree or so — can mean a significant saving in time for a crossing. One such advisory saved a ship six days.

The service also advises captains, before they embark on the basic weather patterns they will probably encounter. This helps them in stowing and lashing their cargoes in preparation for the weather ahead.

"Keeping track of 100 to 300 moving ships at a time and the constantly changing weather," Dupin says, "is a huge task. If we had to track each ship manually, we couldn't keep up. But the IBM computer system handles the job without any errors, 24 hours a day."

The maps the computer prepares show everything — even the amount of swell in the waters, the currents, how high the sea is running.

About the only thing the captains don't get from this service is the stock market results.

# Hollywood In Review

By VERNON SCOTT  
UPI Hollywood Correspondent

HOLLYWOOD (UPI)—Robert Redford did something about the urge for getting away from it all.

He got away from it all. All his six Broadway plays, eight movies and uncounted television appearances.

An athletic redhead, Redford owns more than 7,000 acres of mountain in Utah. He built his three-story A-frame house himself—all seven rooms and two baths.

40 Miles From Provo  
"Our property is 40 miles from Provo," Redford said during a break in his new movie. "I spend six months a year there, although I have an apartment in New York City."

"The only way to get to my place in the winter is by snowmobile. During the summer we hunt and fish."

"We" include wife Lola and the Redford of Spring, Shaunna, 8, and Jamie, 7. All are excellent skiers and outdoor enthusiasts.

"I don't like to be linked with the herd," he said. "I don't think of myself as a non-conformist. I just live the way I think is most enjoyable."

Plays Motorcycle Racing  
A physical man, Redford currently is playing a motorcycle racer in "Little Fauss and Big Halsy." Still unreleased is "The Downhill Racer" in which he plays a ski champion.

"I'm not kidding," he said. "A costume picture with a sword fight or capturing an old sailing ship. I think I could make it mean something to me."

## 5 Special Notices

## Each Dropout Has A Different Reason

WASHINGTON (NEA) — For a thousand students who leave college before graduation there are a thousand reasons why they did.

"I can't pinpoint any specific reasons," said G. M. Koehl, assistant dean of the Columbian College of George Washington University who is also a student counselor.

Dean Koehl said the reasons do fall into categories — financial problems, marriage, illness, academic failure — but he added:

"The reasons are personal. Everyone has his own."

Less than half of the undergraduates who enroll in a college or university will graduate from the institution, according to Fredrick Houser.

But Houser quickly explains that most of those who leave the school where they began their studies do not really drop out.

"They leave to earn enough money to return for another semester," he said. "Or they transfer to another university. Others take jobs and stay in school as part-time students."

Houser estimates only about 30 per cent of the students who enter school graduate in the allotted four years — or even in four years and one summer.

"These students probably left school for a time," he said, "but they did not drop out. A lot of them will finish in five, eight or even 10 years."

A few students leave school because they have not fulfilled the requirements for staying there. They flunk out.

Some students accuse the college of planning to fail a certain percentage of the freshman class. They say this happens especially at large state institutions where state law requires the college to accept applicants who would probably have been rejected by other schools.

## ODORS AWAY

One Drop Air Deodorant  
Kills household odors instantly

One drop per room gives twenty-four hour odor control. There are 240 drops in the 1 1/2 oz. bottle, an adequate supply for many months of spring-time freshness.
