## Egypt Hurls Back Amphibious Raid

### PTA Seeks Designation Of Safety Week Here

Mayor Milo Carlson will be asked to designate the week of Oct. 19-25 as Traffic Safety Week in Pampa as part of the PTA Council's Traffic Safety Campaign, Mrs. Alvie W. French, council president, announced Saturday.

The week will be preceded by a traffic safety poster contest for elementary school pupils which will run through the week starting tomorrow.

Every elementary school child in Pampa is urged to enter the contest and compete for \$5, \$3

and \$2 cash prizes, according to Mrs. M. E. Courtney and Mrs. Morris Belote who are in charge of the campaign's special activities.

The poster contest will be judged on Oct. 17 and winning posters along with others will go on display in stores downtown and in Coronado Center.

On Saturday, Oct. 18, the day prior to the opening of Traffic Safety Week, there will be a parade of automobiles, motorcycles and bicycles. Prizes will (See DESIGNATION, Page 2)

TOP O' TEXAS welcome was extended the International president of Beta Sigma Phi Sorority Bill Ross of Kansas City, Mo., as he arrived Saturday at the Coronado Inn for the sorority's two-day convention here. Ross is pictured here with Mrs. Jack Vaughn, left and Mrs. James

### Biggest Raid Across Suez Canal Since '67

By United Press International

Israel said late Saturday its forces Friday night hurled back Egypt's biggest amphibious raid across the Suez Canal since the 1967 Mideast War.

At an unusual sabbath briefing a senior Israeli staff officer told newsmen Israeli troops held their fire to turn the raid into a trap and shot down an estimated 15 fleeing Egyptian soldiers.

He said two Israeli soldiers died in fighting along the canal. An officer was killed in the fighting that followed the attempted raid and a soldier was killed by shelling opposite Ismailia.

The Israeli officer said two wounded captured Egyptians told interrogators they were part of an 80-man force that tried to cross to Israeli positions in nine rubber rafts.

In Cairo, an Egyptian military spokesman said the amphibious force crossed the canal Friday and fought a "fierce battle" with Israeli troops for more than three hours.

The spokesman said the Egyptians destroyed three Israeli armored troop carriers "together with their occupants" and two tanks before returning to base from the first canal boat crossing since July.

The attempted landing opposite Deversoir on the north shore of Great Bitter Lake triggered an artillery and tank duel.

The Israeli officer said Egyptian forces on the west bank of the canal opened a massive artillery barrage about 8 p.m. Friday along a 35-mile stretch of the canal from Deversoir to ElQantara as cover for the landing force.

Judge Charles L. Reynolds  
... Rotary governor

### Rotarians To Hear Talk By Governor

Judge Charles L. Reynolds of Childress, District 573 governor of Rotary International, will be in Pampa Tuesday to address the Rotary Club of Pampa.

He will also confer with the local club's president, Kay Fancher and other club officials to obtain information about the group's plans for service activities and to offer suggestions on Rotary administrative matters.

Judge Reynolds is one of 298 Rotary governors throughout the world, who are serving as representatives of Rotary International in districts composed of member clubs. Rotary, an international men's service organization, has more than 657,600 members in some 13,901 clubs in 146 countries.

A member and past president (See ROTARIANS, Page 2)

### 365 DAYS A YEAR

### Stop Fires And Save Lives Is Best Motto

By GENE SCHNEIDER  
News Staff Writer

Stop fires and save lives is the motto of the Pampa Fire Department, and throughout this week it hopes to instill within the minds of citizens the need of adopting this motto "and using it 365 days a year," according to J.V. Pirkle, assistant fire chief.

Oct. 5 through 11 has been named as National Fire Prevention Week. During this week the local fire department will host an open house, inviting all Pampans to come in, look around and see the facilities provided for their welfare. Wednesday, coffee and doughnuts will be provided.

"Fire Prevention Week, which always falls in the week containing October 9—the anniversary of the Great Chicago Fire in 1871, is for a concerted effort on the part of everyone to prevent fires," Pirkle said.

Last year, estimated dollar losses caused by fires in the United States totaled \$2.2 billion, with 12,100 persons dead of which approximately one-third were children, according to Pirkle. In Pampa during 1968 the estimated losses were \$130,000 with no lives lost. Through

Sept. 30, of this year the estimated dollar losses here have totaled approximately \$180,000.

"This year," Pirkle said, the fire department has answered 199 alarms in the city, 68 in the county and six false alarms which totals to 273 runs.

"The fire with the highest dollar loss in Pampa's history was Furr's Super Market, which was estimated at approximately \$500,000. The origin of the fire, which occurred in the early morning hours of Sept. 5, is not yet been determined. The fire with the most lives lost in our city's history was the Gilking Apartments. A family of five lost their lives as the result of a carelessly flipped cigarette into an overstuffed chair," Pirkle said. The fire which burned almost four hours before an alarm was turned in, was also in the early morning hours on August 23, 1959.

"People should always have an escape plan and an alternate. Every member of the family should be aware of it. There should be a central location for every person to meet outside and no one should go back into the burning building unless it is to try and (See STOP FIRES, Page 2)

## BETA SIGMA PHI SORORITY International President Here To Address Area Convention

By DORIS E. WILSON  
News Staff Writer

By the carloads, they began arriving mid-afternoon Saturday. Cars were filled with pretty Beta Sigma Phi Sorority members from Oklahoma, New Mexico, and the Panhandle of Texas arriving for the two-day area convention, which got underway at 4 p.m. Saturday in the Coronado Inn. Approximately 250 had pre-registered.

Adding an auspicious note to the convention is the attendance of Bill Ross of Kansas City, Mo., now president of the international young woman's organization and the son of the founder of BSP, the late William W. Ross, who died in June of this year.

Ross will address luncheon guests today at 12:30 p.m. in the Starlight Room of the Coronado Inn.

Arriving by car from Amarillo Air Terminal, where he was greeted by Mrs. James Trusty and Mrs. Jack Vaughn, convention co-chairmen, another welcome was extended by a five-man Top O' Texan contingent.

Ross answered the welcome with the comments, "It's always nice to come to West Texas. It has the friendliest people and the most hospitality in the world. A guest is immediately made to feel comfortable and at home."

The president of the 200,000-member organization said he travels a good deal throughout the year visiting BSP chapters all over the U.S.A., but so far has not gone outside to visit

### Vague Charge Doesn't Alter Malone's Case

A federal court's ruling that the Texas vagrancy by lewdness statute is unconstitutional apparently will have little or no effect on the vagrancy by lewdness case of Pampa School Supt. Dr. James F. Malone, scheduled to be tried on this charge in Lubbock County Court-At-Law No. 2.

Thursday a three-man federal court in San Antonio ruled by a vote of 2 to 1 that the vagrancy by lewdness statute is null and void because it is unclear as to the legal meaning of the term "lewdness."

County Attorney Tom Purdom, who will be the prosecuting attorney in the morals case against Dr. Malone, said the ruling in San Antonio will not affect the case in Lubbock.

"The final decision on whether a law is unconstitutional is usually made by the U.S. Supreme Court," he said.

"As far as I am concerned," he told a News reporter, "the federal court in San Antonio is just like any other court and I am not bound by its decisions unless I am trying a case in that particular court."

When the case is docketed for a hearing, Dr. Malone will be represented by Lubbock attorney Travis Shelton, former 100th District Attorney.

No trial date has been set on the court docket, but Purdom was of the opinion it will be set within the "next few days."

the chapters in 14 other countries.

"I am especially grateful for the opportunity to come here. It is the best way to find out what BSP members want in their organization. There is a great need for our organization. There are so few agencies left where an individual can be a real person and be put in contact with other individuals who enjoy the same type of cultural activities."

In his talk today, Ross said he would review the creed of his father as guidelines for future BSP activities: "Wherever there is a lonely heart to befriend; a service to render—or a lovely ideal to embrace, you will belong as a Beta Sigma Phi member."

Ross said he also planned to introduce a new project recently adopted by the international organization. "We are in the process of raising an endowment fund of \$250,000 to

(See International, Page 2)

## SIXTEEN MONTHS OF PREPARATION Transition To Data Processing At City Hall Tax Office Needs Over 53,000 Recordings

EDITOR'S NOTE: This is the first in a series of articles designed to acquaint Pampans with the intricacies of switching from relatively old-fashioned accounting methods to a modern data processing system of "keeping books" at City Hall.

By TEX DEWEESE  
News Staff Writer

The three major departments at City Hall affected by the transition to data processing are the tax, water and finance departments.

In this week's article it will be the objective to unravel some of the intricacies and mountain of work in which employees of the city tax department are involved as they prepare to begin feeding information to the Tri-State Data Processing Center for Pampa's 1970 city tax roll.

Tri-State, a Pampa firm at 512 W. Kingsmill St., is under a \$21,210 one-year contract to the city to handle all accounts including tax statements, water bills and payroll. The computers and equipment to do the work are at the data processing center and not at City Hall.

Much advance work still is to be done before complete phasing into the new system can be accomplished.

In the city tax office they have been working on the transition since last March 12. They are still involved in this preparation and will be until July 1 of next year, the date Tax Assessor-Collector Aubrey Jones has set as a deadline to begin the final switch-over.

Because the tax department employees were unable to start work until last Wednesday, Oct. 1, on the current 1969 tax roll, Jones stated it will be Feb. 1 before they can get back to data processing.

We talked with Jones and Bill Wagoner, deputy tax collector, about the change to data processing and the many steps involved in making that change.

Wagoner has been working the district maps and Jones has been training and directing the four other tax office employees in the detail work. Hard at the job with Wagoner on the many record-changing problems since last March 12 are Mrs. Virginia Romines, Mrs. Grace Gibson, Mrs. Jo Ann Burch and Mrs. Dorothy Stevens.

Mrs. Gibson is the personal property deputy; Mrs. Romines, another deputy, and Mrs. Burch handles the real estate, and Stevens supervises the tax collection records.

"The distinguishing difference between the punch card system and data processing," Jones said, lies in the fact that while the punch card system is a fast way of constructing a tax roll, it lacks the identification control number and the speedy recovery of data when needed."

Jones said it all started with the training program for office personnel on that day in March six months ago.

A program chart, including examples and explanations, was developed both for real estate and personal property. These reflected the six steps that had to be taken.

Jones said maps were the first things to be developed. After dividing the city into four districts, the districts were divided into 101 sections in-

cluding every unit of real estate in the city. There were five districts for personal property consisting of 158 classes.

This reflects 9,641 real estate and 979 personal units for a total of 10,620 units inside the city limits.

In order to move into data processing it was found certain basic records were required in order not to lose control.

"Without checks and balances on the process," Jones said "only one purpose would be served — just the construction of a current tax roll. Now, with true data processing, we will be able to go back and recover needed data for any statistical purpose, something that is not possible under a punch card system."

Jones pointed out that his department is phasing into the new system gradually rather than on a one-year transfer "crash program."

Process No. 1, dealing with basic record control, requires first the development of an identification number for each unit of property, or 10,620 control numbers. Next a (See TRANSITION, Page 3)

PREPARING FOR the coming winter months, Spencer Hearn, 600 N. Somerville, checks and cleans his gas floor furnace. The floor furnace, susceptible to more dust and dirt than a wall furnace needs to thoroughly inspected to prevent it from being a possible cause of fire.

Stop Fires In Pampa...

(Continued From Page 1) save another person if it is possible.

"People need to be aware of how to prevent a fire, Pirkle said. In many cases it is just carelessness on the part of an individual, or putting off the picking up of rubbish or putting something in the proper container. Some of the important things a person can do to keep their home safe from fire are:

Be sure furnaces are clean and well serviced. The floor furnace needs special check since it is most susceptible to dirt and dust.

Keep gasoline out of the house.

Keep paint in cans and in a cool place.

See the baby sitter knows what to do in case of fire.

Don't discard lighted cigarettes.

Do not start a fire near a building or fence.

Have proper weather-proof electrical outlets, cords and connections for indoor and outdoor lighting and equipment.

Use a covered metal incinerator for burning trash.

And one important thing for the ladies to know is how to douse a fire on the stove. If food is being fried in a pan on the kitchen stove and the grease catches fire, the heat should immediately be turned off as a first step. The burning pan should quickly be covered with a large flat cover, using a long-handled fork or a pair of kitchen tongs to sit it in place and smother the flames. The flames should be doused with baking soda or salt. Never put water on a grease fire.

The assistant chief also pointed out, persons living on farms or in town should seek cover when a lightning storm threatens. The best place to be during an electrical storm is in a building with a steel frame. If lightning strikes such a building, as a rule, it grounds itself harmlessly.

The next best place is to be in your own home with the windows closed. Lightning tends to strike the highest structure in the area where it is playing. If you are in an open field and are standing upright, you are the tallest structure in the vicinity and more likely to be struck. If it is impossible to get inside a house or shed or barn, lie down on the ground, or, if possible lie in a ditch.

According to Pirkle, the local school system will be holding periodic fire drills this week to familiarize students with how to get out of the building as quickly as possible in case of emergency.

"Fire drills are important for schools, Pirkle said. Every school should have an escape plan."

The local department's aerial ladder truck will be demonstrated at all Pampa elementary schools during the coming week to acquaint students with the work of the department.

Stressing the thousands of deaths and injuries there are in fires throughout the United States, and the possibility of heavier losses in Pampa unless citizens become more fire conscious, Pirkle said:

"A building can be rebuilt. A life lost can never be replaced."

Obituaries

MRS. B. H. MCLELAND  
Funeral services for Mrs. Ben McLeland, 80, will be held at 2 p.m. Monday in Duenkel Funeral Home Chapel with Rev. T. O. Uphaw, pastor of Central Baptist Church, officiating. Burial will be in Ochiltree Cemetery in Perryton.

Mrs. McLeland died Friday night in Highland General Hospital.

She was born in Roane County, Tenn., Oct. 2, 188, and was married to Frank Eason on March 22, 1904. He died in Perryton in 1958. She was married to the Rev. Ben H. McLeland Oct. 2, 1964, in Pampa.

Survivors are her husband, Rev. Ben McLeland, Childress; two daughters, Mrs. Alice Franks Ballard, Pampa; and Mrs. Ruth Preble, Hutchinson, Kans.; one son, Charles Eason, Hutchinson, Kans.; one sister, Mrs. Ciella Jones, Henrietta; nine grandchildren, 14 great-grandchildren and one great-great-grandchild.

LESTER ABNET  
Funeral services for Lester Abnet, 66, will be held at 11 a.m. Monday in Duenkel Funeral Home Chapel with Rev. Francis J. Hynes, of St. Vincent de Paul Catholic Church, officiating. Burial will be in Fairview Cemetery.

Mr. Abnet died in a car-pedestrian accident Thursday two and half miles west of Pampa on Highway 60.

Survivors are three daughters, Mrs. Henry Verwelund, Nashville, Tenn.; Mrs. Lynn Murphey, Maywood, Calif.; and Mrs. Mary Elaine Schwebs, Central Point, Ore.

Hospital District To Be Discussed At Luncheon

Salient factors relating to next Saturday's county-wide election on the proposed Hospital District will highlight Tuesday's Coronado Inn luncheon, sponsored by the Legislative and National Affairs Committee of the Chamber of Commerce.

Speakers from the Gray County Hospital Board and the County Commissioners Court will present facts in connection with the plan to combine Highland General Hospital in Pampa and McLean Hospital in McLean into a single district as a separate entity with tax-laying powers.

If voters approve the district plan supervision of the two hospitals would be removed from Gray County jurisdiction.

Ben Sturgeon, chairman of the chamber committee, said the luncheon will be open to the public.

Reservations should be made with the Chamber of Commerce office before 10 a.m. Tuesday.

Designation...

(Continued From Page 1) be awarded before the parade starts for best entries carrying out the traffic safety theme. Mothers of school children also will be marching in the parade with safety slogan banners.

The parade will move at 10 a.m. from in front of Pampa Junior High School and proceed from there south on Cuyler St. to Craven where it will disband.

Several merchants and businessmen have offered use of their signs to carry Traffic Safety Week messages.

Traffic Safety buttons for elementary school children will be made available at 5 cents apiece. Money from the sale of buttons will be used to pay miscellaneous expenses of campaign promotion.

A banner proclaiming Traffic Safety Week will be unfurled across Cuyler St. in the downtown area.

The Rotary, Noon Lions and Optimist Clubs already have offered their campaign assistance to the PTA Council. Other civic organizations will be contacted to join the city-wide crusade to make Pampans more aware of the need for caution to save lives and avoid injury in traffic accidents on city streets.

Mrs. Melvin Watkins and Mrs. B. D. Diddle are in charge of the club contacts. Mrs. Paul Howard is arranging for speakers at civic clubs. L. C. Davis, Sam Houston School principal, and Mrs. Helen Warner, president of the Pampa Classroom Teachers, are working with the elementary school principals on campaign projects.

"We are getting off to a grand start," Mrs. French, steering committee chairman, said, and we're going to make this campaign one that will leave the stamp of traffic safety awareness on the minds of every Pampa motorist and pedestrian."

Lions Gov. To Speak At Skellytown

District 271 Governor Ed Flood of Amarillo will meet with the Skellytown Lions Club at 6:30 p.m. Monday in the Skellytown School.

Flood, owner of an oil company and president of Flood Service Co., is a member of five civic and business organizations. He is a director on the state board of the Texas Oil Jobbers Association, president of the Greater Amarillo Highway Association, member of the Stewardship Committee of the First Christian Church and is active in Shrine affairs.

Flood is a master keyholder and was voted outstanding Lion of the Year both in Pampa and Amarillo and was vice president and president of the Pampa Lions Club. In 1964-65, he was deputy district governor-at-large.

Parents File Theft Charges On Son

A 19-year-old former Pampa man was brought to Gray County Jail Saturday afternoon after being arrested in Oklahoma City on a warrant from Pampa, charging theft over \$50.

Charges against the man, Jim S. Bozarth, were filed by his adopted parents, Mr. and Mrs. E. N. Bozarth, 1825 Beech, in connection with a theft Sept. 25 at their home.

Gray County Deputy C. L. Wallace and Texas Ranger Bill Baten returned Bozarth to Pampa after the man had waived extradition.

The Bozarth's were on vacation when the theft occurred. Taken were a strong box with papers and money in it, a television set, motion picture projector, clock radio, set of silver spoons and transistor radio.

Wallace said all the items but the strong box and coin collection were recovered in an Oklahoma City pawn shop. The strong box, papers and several of the coins were found west of Pampa just off highway 60 the day after the theft.

Mr. and Mrs. Bozarth filed the charges in the district attorney's office here after returning from their vacation.

The younger Bozarth was placed in a foster home at one time after living with his adopted parents and was in the service for awhile, according to Wallace.

No bond had been set on charge late Saturday night.

Wallace said a 16-year-old youth was also involved but he was returned to a church home in Oklahoma.

Pampa Miss Named AKP Sweetheart

WACO (Staff) — Linda Watson, a Baylor University coed from Pampa, was recently elected sweetheart of Alpha Kappa Psi, a men's business fraternity at Baylor.

She is the daughter of Mr. and Mrs. Floyd F. Watson, 2320 Aspen.

The 20-year old coed was presented one dozen long stemmed yellow roses by club president, Richard Powell, on behalf of the club members.

As Alpha Kappa Psi sweetheart, Miss Watson will ride on the club's float during Baylor Homecoming on Nov. 1 as the club's Homecoming Queen nominee. She served as hostess for the club's rush activities during Rush Week which was recently completed at Baylor.

A 1967 graduate of Pampa High School, Miss Watson is a junior elementary education major. She will represent Alpha Kappa Psi throughout the year and will assist the officers in planning activities for the club.

Rotarians...

(Continued From Page 1) of the Rotary Club of Childress, Judge Reynolds is presiding judge of the 100th Judicial District of Texas. He was elected district governor of District 573 at the Rotary convention held in Honolulu, Hawaii in May, 1969 and will serve until June, 1970.

One of his biggest responsibilities will be to hold district conference of all Rotary clubs in this area in Plainview on April 23-25.

**MOTIVATION BEHIND** the tremendous task of changing over to data processing methods in the City Hall tax department is centered around these five office deputies. Bill Wagoner, chief deputy, is shown with (left to right) Grace Gibson, Virginia Romines, Jo An Burch and Dorothy Stevens as they examine part of more than 53,000 record changes required before information can be fed to the computer center.

## Transition To Data Processing

(Continued From Page 1) property change docket form must be executed for each unit with the identification number. This insures correction of all records and contributes to smooth operation, Jones stated.

Process No. 2 is concerned with the tax department's assessment records. The identification number with corresponding legal description for each unit of real and personal property must be recorded to the assessor's abstract, the delinquent tax rolls and to property renditions.

When the identification number has been processed through all of these steps, renditions are then ready to be fed into the data processing center at Tri-State for construction of the tax roll.

Jones stated that up until now all necessary steps have been completed on all property units in one city district. The identification or code number will appear on the 1969 tax statements for 2,827 units of real estate in that district and on all 979 units of personal property within the city. This Jones stated, represents 22,839 separate recordings. Partial processing has been done in all of the other three districts. There is expected to be a total

### PAROLES REFUSED

WASHINGTON (UPI)—The U. S. Parole Board, in separate decisions, has refused to parole Teamsters President James R. Hoffa and financier Louis E. Wolfson. Hoffa would have become eligible for parole Nov. 6, after serving a third of an eight-year sentence for jury tampering. Wolfson, whose financial ties with Abe Fortas were a factor in Fortas' resignation from the Supreme Court, became eligible for parole Aug. 24. He is serving a one-year sentence for selling unregistered stock.

LEE, Mass.—A guitar-strumming youth got off with a song Tuesday in District Court. Justice John J. Dwyer fined Richard Barrs of Philadelphia \$10 for hitchhiking on the Massachusetts Turnpike. Barrs told the judge he had no money to pay the fine.

## Gun Bill Expected To Draw Hot Debate

WASHINGTON (UPI)—Senate Democratic Leader Mike Mansfield disclosed Saturday he is trying to defuse some of the controversy over legislation he supports which would exempt most ammunition from sales curbs in the 1968 Gun Control Act.

reaches the Senate floor, probably within the next week or 10 days.

Forty-six senators — nearly half the Senate membership, have signed as cosponsors of the measure pushed by Sen. Wallace F. Bennett, R-Utah. It would eliminate restrictions on the sale of .22 caliber rimfire ammunition, rifle ammunition and shotgun shells and their components.

The issue has split the Democratic leadership. Mans-

PAMPA, TEXAS (2nd Year Sunday, October 5, 1969) PAMPA DAILY NEWS 3

field, like most westerners in the Senate, is a co-sponsor, and his assistant, Senate Democratic Whip Edward M. Kennedy, Mass., is one of the measure's most formidable opponents.

Mansfield said he has been in contact with Bennett and Sen. Thomas J. Dodd, D-Conn., chief sponsor of the Gun Control Act, over demands that .22 caliber rimfire ammunition—the type used in the assassination of Sen. Robert F. Kennedy—be

removed from the bill. He said he thought "something may be worked out" on this, the most controversial aspect of the bill.

Mansfield said he signed up as a cosponsor because the Internal Revenue Service "has gone far beyond the intent of Congress" in enforcing the law's ammunition provisions. The act bars the sale of ammunition outside the buyer's home state.

### Center Wrap-Up

George Smith, Director  
Pampa Youth and Community Center

**SQUARE DANCING** An activity at the Center mostly enjoyed by adults is square dancing. This is through the direction of the Calico Capers Square Dance Club. Dancing is on Saturday nights from 8-11 p.m. with a guest caller doing the honors. Visitors are always welcome as well as persons interested in joining the club. The caller for Oct. 11 will be Woody Turley. Lessons are also being given on Tuesday nights from 8-10 p.m. If you do not know how to square dance, come by and join in the lessons.

**TEEN DANCES** The teen dance calendar for October and part of November had been finalized. Some of the best bands in the Panhandle area will be playing for the young people on Friday nights. On Oct. 10 after the Monterey game the Beaver Express will play from 9:30 to 12:00. There will be a dance on Oct. 24 featuring Tyme from 8-11 p.m. On Oct. 31 after the Coronado game the widely acclaimed Apple Glass Syndrome with their lightshow by the Fudge Co. will be here from 9:30 to 12:00. On Nov. 7 Nirvana will play from 9-12:00. On Nov. 14 the Cords are featured from 8-11 p.m.

All of the dances are sponsored by the Pampa Youth Center and chaperoned by parents, workers and an off-duty policeman. The Young People are not allowed to come and go, but must either stay in the dance or leave for good. All parents are invited to help chaperon the dances or just

come by and visit.

**SWIM LESSONS** The swim lessons for the months of October, Nov. and Dec. are scheduled and enrollment is now going on. Some of the classes are filling up very fast so if you are interested in your children taking lessons you should come by now.

All classes of the Red Cross Swim Program are offered during this period of time including beginners, adv. beg., intermediates and swimmers. Each session lasts for 10 meeting dates with class scheduled at 4 and 5 p.m. Instruction is under the direction of Jackie Marlar, noted water safety instructor.

Oct. 20-Nov. 5  
4:00 Adv. Beg.  
5:00 Intermediates Nov. 10-26  
4:00 Intermediates  
5:00 Swimmers Dec. 1-17  
4:00 Beginners  
5:00 Swimmers

**JUDO CLASSES** The Center also sponsors judo lessons each Monday and Thursday nights. Classes are under the direction of Paul and Sam Moot and last from 7-8:30 p.m. Paul and Sam Moot are noted judo instructors who have had several years of combined experience.

Beginners lessons have just recently started and enrollment is still open for the class. The only qualifications you need to meet are that you be a Center member and be a male 8 years of age or older. Sorry, no women at the present time.

#### EVERYTHING IS RELATIVE

HORLEY, England (UPI)—Math teacher Gillian Thomas went to school Wednesday in bell-bottom slacks and a sweater. The school principal sent her home, calling her outfit improper.

## David Makes A Case For Television

NEW YORK (NEA) — David Brinkley has never been an apologist for television, so when he defends the medium, attention, to use the words of Arthur Miller, must be paid.

Realistic as usual, Brinkley agrees some of what is on is worthless. But critics who keep using the words "mindless pap" are, he feels, overlooking much that TV has to offer.

"I can really only discuss what I know — the news field. I don't watch that much entertainment. But television's cov-

erage of the elections is not mindless pap, the coverage of state funerals is not mindless pap, the coverage of conventions and space flights are not mindless pap.

"If anyone had useful criticism of the medium, we would welcome it. But just to dismiss it all with two words is stupid, wrong and not helpful."

Brinkley joins other NBC news correspondents on Oct. 7 when 2½ hours of prime time are devoted to From Here to the '70s, a study of the decade past and the one to come. His subject: television. His theory: During the '60s, TV showed the American people to the American people.

"It was actually a very difficult subject to cover. The important thing obviously is not TV, but what's on it. Television is like the telephone, of itself it's nothing. It's what's on it that makes it."

A recent poll of television viewers uncovered the fact that a large percentage of them feel TV can and does lie when covering such news events as the Vietnam war, riots and the Chicago conventions.

"That's such an obvious fact I don't see why they had to poll about it," Brinkley said.

BE SURE YOU'RE READY FOR **COLD WEATHER**

When the first cool snap hits be sure your heating system is in tip-top shape. You can avoid cooling your heels... and your ears... and your nose... if you will call your plumber or heating contractor early. Ask him to check:

FILTERS  FAN  VENTS

If you need light-up help only, call Pioneer Natural Gas. But for complete service, call your plumber or heating specialist. And call early to avoid the rush.

# Baltimore, Mets Win Playoff Openers

## Bunt In 12th Wins For Orioles

BALTIMORE (UPI) — Paul Blair, the centerfielder drafted out of the New York Mets' organization seven years ago, dumped a perfect bunt 10 feet from home plate in the 12th inning Saturday to give the Baltimore Orioles a 4-3 victory over the Minnesota Twins in the first game of the American League playoffs.

Blair's bunt on a 1-1 pitch scored Mark Belanger from third base with two out when both losing pitcher Ron Peranoski and catcher John Roseboro dashed futilely for the ball that rolled to a stop on the grass along the third base line and couldn't make a play.

Belanger, who hit an infield single off Harmon Killebrew's glove at third, moved to second on a sacrifice and to third on a groundout, scored the run that snapped a 3-3 deadlock and gave the Orioles the first game of the best-of-five playoffs for a berth in the World Series.

## Five Run Eighth Rips Braves

ATLANTA (UPI)—J. C. Martin's bases-loaded pinchhit single highlighted a five-run eruption in the eighth inning Saturday as the rags-to-riches New York Mets beat the Atlanta Braves 9-5 in the opening game of the National League's championship series.

The Eastern Division champion Mets went into the eighth trailing 5-4, with Atlanta knuckleballer Phil Niekro having retired 10 of the previous 11 batters.

Third baseman Wayne Garrett led off with a soft double down the third base line that barely eluded Cleve Boyer's glove and tied it up when Cleon Jones followed with a single to center.

# Buckeyes Roll To 41-14 Victory

SEATTLE (UPI)—Rex Keith, Ohio State's do-everything quarterback, started things with a 64-yard touchdown run and fullback Jim Otis bulbed for three short scores to pace the No. 1 rated Buckeyes to a 41-14 romp Saturday over Washington.

Otis boomed for touchdowns of one, three and one yards while backup quarterback Ron Maciejowski added Ohio State's other six points.

Ohio State looked sluggish in the opening minutes, but Kern awakened them with his electrifying touchdown run midway through the opening quarter. The Buckeyes led 21-7 at intermission.

Ohio State turned on the power in the second half as Otis scored on a one-yard plunge

period and Ohio State Coach Woody Hayes then purred in the reserves. So did Husky Coach Jim Owens.

Steve Hanzlik replaced Willis at quarterback for Washington and got the Huskies moving again. They marched from their own 27 to the Ohio State six. Buddy Kennamer swept in from there for Washington's second score of the day.

Ohio State	14	7	14	6-41
Washington	0	7	0	7-14

## Longhorns Blast Middles, 56-17, Sooners Next

AUSTIN, Tex. (UPI) — Fourth-ranked Texas used an awesome ground attack paced by two touchdowns each from Ted Koy and Eddie Phillips Saturday night to overpower helpless Navy 56-17 for its 12th straight win and Darrell Royal's 100th victory as the Longhorn coach.

LARRY McCUTCHEON (24) swings out to score for Plainview despite an attempt by Pampa's Johnny Clark (35) to haul him down. Plainview won the game, 26-6. (See other picture, story on page 10. (Staff Photo)

## Montgomery Passes Razorbacks To 24-6 Victory Christians

LITTLE ROCK, Ark. (UPI)—Quarterback Bill Montgomery connected with split end Chuck Dicus on touchdown passes of 73 and 23 yards Saturday to give third-ranked Arkansas a 24-6 straight over TCU by Arkansas Christian.

Montgomery, injured in the last quarter, hit on 10 of 21 passes for 170 yards. He stunned an inspired TCU team which had lost 62-0 last week before to No. 1 Ohio State, with his 73-yard toss to Dicus with 11:56 remaining in the first half to start the Razorbacks rolling.

TCU was plagued by three fumbles and a pass interception but managed to score on field goals of 21 and 22 yards by Wayne Merritt.

The junior quarterback reinjured his shoulder but later returned to the sidelines although he did not play.

## Oklahoma St. Nudges Red Raiders By 17-0

STILLWATER, Okla. (UPI)—Oklahoma State's high-riding Cowboys came alive in the second half Saturday to corral Texas Tech 17-0 and pull off their second consecutive upset victory of the young season.

The Southwest Conference Raiders controlled the first half, with Miles Langehenning plunging the OSU line at the one-yard line for a score during their first possession. Jerry Don Sanders added the extra point.

Touchdowns by quarterback Mike Hillman, tailback Allen Shorey and halfback Jim West, coupled with seven extra points by kicking specialist Mark Lumpkin and a safety, rounded out the Tiger scoring.

Touchdowns by quarterback Mike Hillman, tailback Allen Shorey and halfback Jim West, coupled with seven extra points by kicking specialist Mark Lumpkin and a safety, rounded out the Tiger scoring.

## Houston Rolls To 67-0 Win Over Miss. St.

HOUSTON (UPI) — Sophomore quarterback Gary Mullins threw touchdown passes of 54 and 42 yards to split end Elmo Wright in the second quarter Saturday night to lead the University of Houston to a 74-0 victory over Mississippi State.

# Texas A&M Upsets Army, Cal. Stops Rice

## Aggies Pull Stunning Upset Golden Bears Ram Owls, 31-21

WEST POINT, N.Y. (UPI)—Texas A&M split end Ross Brupbacher took a short pass from Rocky Self and outmaneuvered two Army defenders for a 27-yard touchdown play midway through the final period Saturday afternoon that clinched a 20-13 victory for the Aggies.

Powerful Army fullback Lynn Moore, who gained 118 yards in the first half alone, returned the kickoff 80 yards to the Aggie 10 immediately after the catch by Brupbacher had put A&M in front 20-10. But the A&M defense, which held Army to 14 yards and no first downs in the third quarter, stiffened and Cadet kicker Arden Jensen booted his second field goal of the game from 26 yards out to close the margin to the final score.

Army then needed only six plays to go for 77 yards that included a 63-yard run by Moore.

That put Army into its only lead of the game at 7-3. The Aggies gambled on their very first possession. Self made two yards up the middle on a fourth and one situation on his own 41 then sent tailback Larry Stegert off left tackle for 19 yards and carried 24 more yards himself to the Army 14. Army held and Bellar kicked his first field goal.

Army then needed only six plays to go for 77 yards that included a 63-yard run by Moore.

DETROIT (UPI)—The Detroit Red Wings Friday assigned defenseman Brian Gibbons to Fort Worth of the Central Hockey League and sent defenseman Dennis Huculak to San Diego of the Western Hockey League. Both players were up with the Red Wings for four exhibition games.

California controlled the game with a steady ground attack by Darby, Fowler and Garamendi. But fumbles and Vincent's effective passing broke the game open for the Owls in the second half.

## Cliburn Enjoys Listening To Good Music At Contest Named For Him

FORT WORTH, Tex. (UPI)—The 34-year-old Texan is enjoying the experience. Van Cliburn, the lanky pianist from Kilgore, Tex., enjoys listening to good music as much as he enjoys making it. He is the kind of listener any concert artist should be delighted to have in the audience. He appears to sit quietly during a performance and he is generous with his applause. As the contestants representing

five nationalities play for the jury panel of concert artists from seven countries, Cliburn usually sits in the audience about 10 rows back in Texas Christian University's Landreth auditorium. His long, slim and straight fingers — they reach an octave plus three notes with ease — are often laced together on his knees. His hands move ever so slightly as he seems to be playing some of the notes in his imagination. At times they tense until the knuckles turn white. Cliburn occasionally gives a

sigh of pleasure or talks to a reporter sitting with him: "What music!" and "Gorgeous." He does not want to betray his emotions but he has been caught exchanging big smiles with the jurors who sit a few rows behind where Cliburn usually settles. Cliburn admits his smiles have been ones of almost disbelief in the beauty of the music. During one session's prolonged applause, the tall musician sneaked in a few kicks at the chairs in front of him to add to the noise. He cupped his hands around his mouth to

slip in shouts of "Bravo." Whenever Cliburn doesn't get to a seat in the auditorium before the concert begins, he listens to the music piped into the halls or the contest office. There his comments are not as guarded and he murmurs, "That was perfect..." or "Oh, that was too slow..." Cliburn has great personal concern for the contestants and the jurors. The winner will be named Oct. 11.

## Two GIs Dead In Running V.C. Battle

SAIGON (UPI)—Two Americans were reported killed and three wounded Saturday in a running battle between U.S. paratroopers and a North Vietnamese-Viet Cong force along the South Vietnamese coast. A U.S. helicopter was shot down in the fighting. The action 315 miles north-east of Saigon near Bong Son involved troops of the U.S. Army's 173rd Airborne Brigade who reported killing two of the Communists before 12 others, including two wounded soldiers, surrendered. Elsewhere, in the marshes

along the Cambodian border 60 miles west of Saigon, South Vietnamese irregulars led by American Green Berets were reported to have killed 61 Communists in a battle Friday. Allied losses were placed at 10 South Vietnamese killed and 20 wounded. Spokesmen said one Green Beret was wounded. The general pace of the war, however, remained at a relatively low level, and briefing officers at U.S. headquarters indicated that American operations have been scaled down in response to the absence of major action

# Mickey Ruth Parsons, Oran Dewaine Adcock Repeat Vows

Three candelabras and two arched candelabra burning one hundred ice blue tapers, and entwined with English Ivy and woodward ferns backed the altar of the First United Methodist Church for the formal wedding of Miss Mickey Ruth Parsons and Oran Dewaine Adcock. Rev. Lawrence Menefee officiated the double ring ceremony, at 8 p.m., Aug. 16.

Forever yours red rose. Flower girl, Terry Ford of Hobbs, N.M., was gown in burgundy satin with white lace inserts of baby blue velvet ribbon at the empire waist and on the flowing train attached to the empire waist in back. Her headdress was a burgundy satin flat bow with burgundy tulle. She carried a lace basket with burgundy rose petals.

home of Mr. and Mrs. F. D. Boen, 1546 East 50th, Odessa. The entrance was decorated with white doves holding blue streamers and blue butterflies were attached to the streamers. The wedding confection was on a stand especially designed for the bride. The stem of the stand was entwined with fresh greenery, white doves holding blue ribbon streamers and tiny glistening blue butterflies were added to the greenery. The bottom tier and two staggered tiers above it were decorated with white and burgundy roses, large sugar bells and accents of tiny pearls on stems. The top tier held a miniature bride and bridegroom under an archway. Each tier

sat on a ruffle of baby blue net. The bride's table was laid with baby blue with overlay of white lace. The bridal bouquet with a single long-stemmed red rose in a blue base on either side centered the table. Punch, nuts and mints were served with the wedding confection. Miss Cindy Roberson, Blackwell; was at the guest registry. Assisting were Mrs. F. D. Boen, Mrs. R. J. Trout, Mrs. Bennie Patterson, Mrs. Leon Ford, Mrs. Joe Gelnar, Mrs. Marjorie Burnett, Sweetwater; and Miss Brenda Roberson, Blackwell.

The bride is a graduate of Permian High School, Odessa, and was a majorette with the Panther Band, on the Student Council, and was also Band Princess there. She attended Odessa College, was 1969 Sweetheart of the West Texas Trail Riders Club and is employed with Alexander and Barber, attorneys in Odessa. Her husband is a 1964 graduate of Odessa High School and attended college at Trinity College in San Antonio. He is employed with Broncho Chevrolet, Odessa.

Parents of the couple are Mr. and Mrs. A. C. Parsons, 6400 Beaty, Odessa, and Mr. and Mrs. O. G. Adcock, 1210 West 19th, Odessa, formerly of Pampa.

The bride's mother wore a blue knit dress with long-waisted detail; and matching accessories. The bridegroom's mother wore a dress of green and white knit with accented pleated skirt and matching accessories. Both mothers wore corsages of two blue cymbidium orchids with blue butterflies. Grandmothers were presented with forever yours rose corsages.

believe in some of the causes militants advance, such as abortion reform and day-care centers for children of working mothers. But they won't use the shouting, sign-carrying way to advance these causes.

Miss Sakol said, "This is the pussycat way." "You become a member by simply deciding to be one," Miss Sakol said, "No dues or fees."

The bride was exquisitely gowned in a chantilly lace over peau de soie, when presented in marriage by her father. The high rise molded lace bodice was designed with a scooped neckline and slender lace wrist length sleeves which were accented with a narrow satin band and edged with a scalloped lace ruffling. A narrow satin band encircled the waistline above the A-line skirt. The removable Watteau encircled by a scalloped lace ruffling flowed gently into a chapel train from a flat bow at back bodice line. A face framing flowery bandeau of pearl, petals and sprays of crystals cascaded to form a picture profile around which misty tiers of silk illusion fell in bouffant fullness to her elbow. She carried a classic cascade of phalaenopsis orchids, mystery gardenias, stephanotis and miniature ivy with ice blue velvet leaves and ice blue butterflies.

Mrs. Steve Sherry was matron of honor, and Miss Barbara Blasi was bridesmaid. The attendants were gown in formal gowns of baby blue satin with empire waistline, accented with white lace and inserts of burgundy velvet ribbon. A flowing train attached to the empire waist in back was also accented with white lace and inserts of burgundy velvet ribbon. Headdresses were blue satin flat bows with tulle veils. They carried one long-stemmed

rather than hit legislators over the head with propaganda and pound their ears with shrill chants, pussycats intend to get their arguments across while doing womanly things for them. "It will be much easier to approach them while sewing on a button or shining their

## Americans Celebrate 4-H Week To Honor Club Leaders, Members

(See Picture, Page 13) Americans are a people devoted to celebrating national weeks. This week is designated as National 4-H Week, to honor the adult leaders and youths who wear the symbolic badge, a four-leaf clover imprinted with four capital H's.

Those four H's, symbols of hands, heart, health and head, represent what 4-H Clubs teach, better ways to work, play, and grow into healthy young men and women who understand and respect one another.

County Judge S. R. Lenning Jr. and City Commissioner Clyde Carruth have both signed proclamations recognizing this week as National 4-H Week to honor club members and their leaders.

In Gray County, Jesse Hoermann, assistant Gray County agent, and Jeni D. Finch, assistant home demonstration agent, direct activities of 240 boys and girls who are members of the county's nine 4-H clubs. The county-wide clubs, are Lucky Star, Top O' Texas, Sundowners, Grandview, Alamed, McLean, Lefors, Top O' Texas Rifle Club and Top O' Texas Riding Club.

To assist Hoermann and Miss Finch in promoting programs for these youths, 41 adult leaders work in urban and rural and community and competition on county, district and state areas and direct home projects, levels.

Hoermann listed 30 projects which the nine clubs in Gray County have participated in and plan to use as a basis for activities. Courses were taught in electricity, rifle shooting, vegetable gardening, home management, child care, foods and nutrition, clothing, dairy foods, recreation, safety and swimming, dog care, horsemanship, field crops, livestock, beef cattle, entomology, horticulture, small animal care, soils, tractor driving and maintenance, wild life, woodworking, bicycle care, citizenship, junior leadership

Going barefoot is a delight, but also can be a danger. Safety officials say that there are added hazards in today's living, that thousands of children have suffered first and second degree burns on the soles of their feet by stepping on hot coals carelessly dumped from portable barbecue grills. Broken glass also is increasing, with the advent of the non-return bottle in the packaging field.

Rural fires take a devastating toll. Government sources estimate that 1,000 persons lose their lives every day because of rural

photography, public speaking, and automotive.

MRS. ADRIAN ANTHONY LAPKA nee Betty Ann Cunningham

## Miss Cunningham Weds Adrian Anthony Lapka

Wedding vows of Betty Ann Cunningham and Adrian Anthony Lapka were solemnized at 8 p.m. Sept. 4 in Kingdom Hall.

Richard Fetter officiated for the exchange of double-ring vows.

Miss Cunningham is the daughter of Mr. and Mrs. John I. Cunningham, 729 Deane Drive. Lapka's parents are Mr. and Mrs. Tom Lapka, 2531 Mary Ellen.

Given in marriage by her father, the bride was gowned in floor-length white satin designed with a rolled neckline and long tapering sleeves. The gown featured an overlay of lace.

She carried a bouquet of white carnations.

Miss Beth Cowan, as maid of honor wore a street-length dress of red crystalline with a corsage of white carnations.

The bride's mother, Mrs. Cunningham wore a white and orange plaid ensemble. Mrs. Lapka, mother of the bridegroom, chose a orange ensemble.

During the ceremony, the bride presented each mother with a single white carnation.

At a reception, held in the bride's home, Mrs. Linda Cox provided a medley of nuptial airs and assisted at the punch service, where Mrs. Donna Barbour served cake.

For a wedding trip, Mrs. Lapka wore a red wool cape suit trimmed in black leather.

Mr. and Mrs. Lapka will make their home at 508 S. Pierce in Amarillo, where both are attending night classes at Draughton's Business College.

The bride and bridegroom attended Pampa High School. Mrs. Lapka also attended Borger Beauty College. Mr. Lapka is now employed by Audio-Video Corp. in Amarillo.

### Mrs. Thurmond Has Area WMU Meeting

SKELLYTOWN — WMU of the Skellytown First Baptist Church met recently in the Fellowship Hall with Mrs. Ethel Mae Thurmond directing the meeting.

Calendar of prayer was read by Mrs. Bill Price. Mrs. Wanda Rogers led the special prayer session. Regular monthly Bible lesson was taught by Mrs. Bill Houghton from the Book of Revelation.

## Commission Tackles Task To Define Happiness

NEW YORK (UPI)—Midpoint in his administration, President Johnson appointed a commission to study the state of the nation's happiness.

The commission was to define happiness, outline ways of achieving it and answer this question—if we aren't happy, why not?

The announcement came before urban unrest led to looting, burnings and other unhappy events. It preceded the era of gross misconduct on college campuses and other unpleasanties.

But now along comes George Q. Lewis wanting to probe happiness of not just the nation but the world. He is director of the National Association for the Advancement of Happiness Through Humor—co-sponsor of the world happiness championship.

Perhaps he'll succeed where the presidential group didn't.

The contest, open to Americans and persons on both sides of each ocean lapping at our shores, wants entrants to tell how they make others happy, to define happiness and even to keep track of the numbers of times smiled a day.

"Every time an individual registers joy, the whole earth is that much happier, since each individual is like a radio station sending out a tone or vibration into the surrounding atmosphere," Lewis said in an interview.

The happiest thing about the happiness contest: It costs nothing to enter. Just fill out the happiness questionnaire which you get by sending a self-addressed stamped envelope to Lewis in New York (P.O. Box 835, Grand Central Station, New York, N.Y. 10017).

Lewis also is director of the Society for Vital Awareness, which is co-sponsor of the happiness crusade.

Barbara Callen, executive director of Awareness, says a person's got to work at being happy.

"Happiness is not a destination, but a journey that continues day after day," Miss Callen said.

The happiness crusaders also want to find out what most makes people happy: Eating, exercise, romance, study, entertainment, working, walking—the gamut of human pursuits.

Lewis wants everyone, by the way, to join his smiler's corps. You become a member in good standing by smiling when: Roast burns, taxes escalate, baby overturns bowl of spinach on cranium—and during all other screaming situations.

The smile must be from the heart, not through clenched teeth.

## Teenage 'Failure' Rises To Fame As PR Adviser

By BRENDA W. ROTZOLL ROME (UPI)—Her father was a friend of Charles A. Lindbergh and she is now a countess who hob-nobs with astronauts, film stars and royalty.

But it didn't all come easily for the former Logan Bentley, of Richmond, Va., one of Rome's first "consulting" public relations people and Italian editor for the U.S. magazine "Auto Week."

"I was a failure at 16," the tall, dark-haired young woman said. I think I'm the only person who ever went to Sweetbriar College on a scholarship and flunked out of the first term.

That failure was a terrible blow to her morale at 16. She 'settled' down to extension courses from the Universities of Virginia and South Carolina to prove to herself she could do the work.

Meanwhile, she was having a depressing time 'working at a variety of secretarial jobs, most of which I loathed.'

Many of her jobs were on various military bases where her father was serving. During one, she edited a book of songs of fighter pilots which made her known throughout the Air Force.

"My father taught himself how to fly by building his own airplane. He flew with a flying circus in Indiana and was a friend of Lindbergh. I remember meeting Lindbergh at a cocktail party at our house in Germany after the war," said the countess, who never mentions her title to Americans.

She decided to try to do one thing and do it well, and settled on photography.

A friend introduced her to Enzo Ferrari, and after a day at the factory the grand old man of Italian sports cars invited her to dinner. She had another engagement, but dropped it when Ferrari then asked, "Would you like to try out one of the cars?"

After a half hour spin Ferrari observed, "You wouldn't go to dinner with me but you forgot about your friends when I mentioned a car. You must love cars as I do." From then on they were firm friends.

It is because of racing that she became a countess. Covering the Targa Florio race in Sicily she met Count Francesco Lessona, "a gentleman driver driving a Ferrari."

In the past year she has set up fashion week presentation for the Gucci leather and accessories house, traveled to New York and back on the liner Michelangelo to organize fashion shows aboard for Florentine designer Emilia Bellini, and helped launch a private club named, with the Italian fondness for English word, "II Club."

Her biggest thrill was giving a dinner party for astronaut Frank Eorman and his family when they visited Rome.

Avoid using water or water-based products whenever possible in cleaning wood floors. Experts say that water can seep down into the tight boards, causing warping or swelling. Over a period of time, this can mar the appearance of the floor and require costly refinishing.

COLOR IN THE KITCHEN—Now that easy-keep materials have come of decorative age, a kitchen can be as charmingly color-coordinated as any room in the house. A dramatic print in tones of pink, raspberry, and grape acts as the pace-setter in cotton-laminated shades, valances, and matching wallpaper. Completing the scheme are raspberry-colored splashboards and counter tops, a grape-toned top for the dining island, and pink window frames and telephone.

A swimming caution: floating mattresses or beach toys can carry a person beyond a safe swimming depth.

Fall, like June, is also a bridal season. Last year, there were 514,000 September, October and November brides. A decade earlier there were only 368,000 in the same period.

For day to day cleaning of wood floors, remove surface dust with an unoleo dry mop or vacuum sweeper.

Vitamin D is manufactured by the human body from sunlight and also the chemicals found in fish, butter and egg yolks.

## California Hospital Operates Hot-Line, Offers Desperate Teenagers A'Way Out'

NEW YORK (UPI)—A hospital in California operates a hotline for teen-agers with problems.

In a time of crisis over pregnancy, drugs or trouble at home, teen-agers calling hotline talk with an understanding, objective and informed listener.

In some cases the hotline works as a lifeline.

Dr. Dale C. Garell, head of adolescent medicine at the hospital in Los Angeles, says the hotline helps teen-agers to break through obstacles when they need help.

Reporting in "Children," journal of the U.S. Children's Bureau, the pediatrician said more than 7,000 calls were received during hotline's first year.

Most callers were between the ages of 13 and 20. The average age was a bit over 17. Nearly twice as many females as males called. Thirty-one kinds of problems came up.

"The most frequent by far were problems related to boy-girl relations (nearly 21 per cent) and problems related to parental conflict (nearly 19 per cent)," Dr. Garell said.

Nearly 7 per cent brought up drug problems; 5 per cent,

school problems; social isolation, social inhibition and pregnancy problems—3 per cent each.

Hotline staffers, graduate students in medicine, social work or psychology, are paid \$15 for six hours' work.

"The staff's approach to assisting callers is based upon a number of assumptions," Dr. Garell said. They include:

- Unconditional concern and respect for the caller.
- An understanding that those who call do so because they face some conflict or uncertainty that they have not yet been able to resolve on their own.
- It is suspected that teen-agers use the emergency service to discuss personal problems because of the anonymity and because the service is available immediately when a crisis occurs.
- The response suggests to Dr. Garell that communities should set up youth centers patterned on hotline's approach.
- By walking in, at such places young people could get health supervision, personal counseling, job placement, legal aid, or recreation, according to their needs.
- "Many more young people might seek help for their problems before serious complications develop," he said.
- Moreover, the communities might find that they had built effective two-way channels of communication between the establishment and the young.

Willy Brandt To Be Next German Chancellor

By United Press International — When former Soviet Premier Nikita S. Khrushchev once gave the Western Allies six months to get out of Berlin, Mayor Willy Brandt rebuked him with an indomitable spirit that won him the undying allegiance of Berliners. Brandt became a symbol of West Berlin's determination to stay out of Communist hands on that day 11 years ago. Without waiting for word from Washington, London or Paris, Brandt rejected the Soviet demand immediately. "We are not going to be cooked over a slow fire," Brandt told the Soviets. Brandt rallied the city around him as the late Mayor Ernest Reuter did during the 1948-1949 Berlin Blockade.

# Agriculturally Speaking

By FOSTER WHALEY

On September 24, Secretary of Agriculture Clifford Hardin unveiled his proposed long-range program for Agriculture before the House Committee on Agriculture.

He made some very pertinent remarks to preface his proposal to the House Agriculture Committee that I thought were very noteworthy. I'd like to quote him.

Secretary Hardin said, "I agree with the statement made by Chairman Poage last week in Texas to the effect that by themselves neither this committee, nor the administration, nor the Republicans, nor the Democrats, could pass a farm bill. We shall have to concentrate on the things that unite us if we are to rally the needed strength. It's in that spirit and in that framework that my colleagues and I desire to work with you."

Secretary Hardin went on to remind the group that the American farmers main problem was being able to produce in excess of our markets both domestic and foreign.

To me the key to his views was given when he said, "It is my firm belief that whatever series of programs we ultimately decide upon, they must provide the restraint on production that will permit satisfactory levels of price and income and will neither inhibit the growth of markets nor place needless obstacles in the way of efficient farm operation." He went on to say, "While there is clear need for sizeable programs to restrict output of American farm products, we must avoid giving our overseas competition the idea that they can expand their production without limit while the United States carries, by itself, the whole burden of acreage limitation."

The proposals that followed were a series of alternatives the Secretary of Agriculture laid out for the Congress to select the one they could best agree on with most of the details left to the Congress to fill in. This is quite a departure from past procedures by the Secretaries of Agriculture in the past.

Secretary Hardin's proposals on allotted crops has a somewhat different slant however, a lot of similarities. Payments are

## Panhandle Water

By FELIX W. RYALS

A United Press correspondent, Joseph L. Myler, recently did a study of the world-wide "Water Crisis". He then wrote a series of articles outlining the problem of fresh water. We are including a portion of one of his articles as it relates to the water problem in the United States.

"Some authorities hold that there is no water crisis. Says the National Academy of Sciences, 'there is no nationwide shortage and no imminent danger of one.'"

"It goes on to say, however, that 'there are serious regional shortages of usable water, many of which are becoming critical because of shortsighted planning or pollution of fresh water supplies.'"

Nace recently pleaded for preservation of a resource which he said is "perhaps the most valuable" humanity possesses. This is what the hydrologists call ground water. It has been stored by nature over the millennia in subterranean "aquifers" consisting of porous rock, gravel, sand and sediments.

According to Nace, 97 per cent of all fresh liquid water on the continents is contained in aquifers which hold "many times more water than can be stored in all the surface reservoirs that will ever be

built' by man. They are 'buried treasure.'"

In arid regions they constitute the chief source of water. This nation, Nace said, need never run out of fresh water if it cooperates with nature to maintain its aquifers.

Ground water supplies are menaced in many ways. They can be killed by over pumping which results in subsidence and compaction of subsurface materials to the point where they become impervious and hence useless for water storage.

They also can be made unfit for use by pollution. Encroachment of salt water into pumped coastal aquifers is one source of pollution. Septic tanks do their bit. Another source is the growing practice of underground disposal of industrial wastes.

One of man's new and weird pollutants is simply warm water. Most of the water taken by industry and cities from streams is used for cooling and then poured back.

According to scientists, many forms of aquatic animal and plant life are threatened by the great tonnage of heated water from power plants, nuclear or coal-fired, which is being spewed into rivers, lakes and coastal waters.

If the problem is one for the present, it is even more so for the future.

A study reported by the geological survey showed that in 60 of the undeveloped countries of Africa, Asia, and Latin American 90 per cent of the population depends on water supplies "that are inadequate or unsafe."

The shortage in all countries, according to Nace, is not of water but of waterworks to make the available water usable.

The United States, with tough regional water problems of its own, is trying to help less fortunate nations with theirs. In 1967 it created the office of Water for Peace in the State Department. This agency is concerned with a host of projects ranging in scope from provision of drinkable water on a local scale to large riverbasin development programs.

As part of the Water for Peace endeavor the United States is spending about \$400 million a year in many countries to build waterworks designed to supply both household and industrial needs.

This is something that needed to be done. No nation can mature without an abundance of water. But does anybody imagine this or anything else projected will satisfy the needs of the seven billion human beings who will populate the earth by 2000 A.D. if current forecasts come true?"

## Hutchinson County Unit Of Water To Meet

By BORGER (Staff)—

The Hutchinson County Unit of Water, Inc., will be organized at a meeting slated here at 7:30 p.m., Tuesday at Sutphens Bar-B-Que. The organizational meeting was called by N. F. Renner of Spearman, district director of Water, Inc. Presiding will be Raymond R. Renfro.

Water, Inc., members living in Hutchinson County will form the nucleus of the county unit. A county board of directors will direct new membership, education and other Water, Inc., activities within the county.

Renner and Renfro joined in an invitation to all persons interested in future water in Hutchinson County to attend the initial meeting of the unit.

Water, Inc., was formed in mid-1967 by 1,000 concerned business and professional men and agriculturists with an eye toward a long-range solution to water problems. The organization was instrumental in the inclusion of the High Plains area into the Texas Water Plan, a long-range blueprint calling for importation of water into the area.

## 4-H Corner

By JESSE HOERMANN and JENI D. FINCH, Asst. County Agents

This has been a busy time for 4-H activities. We met with the leaders of Grandview, Ruben Baggerman and Arietus Ruthardt, to discuss the various projects and programs for the coming year. Leader training was held in Lefors in Food and Nutrition for leaders and junior leaders. They were Mrs. Luther Welborn, Mrs. Harry Youngblood, Mrs. Pat Burk, Mrs. J. M. McPherson, Mrs. Charles McCarthy, Mrs. Ed Brownfield, Mrs. Keni Dougal, Cindy Youngblood, Doris Carlton, Martha Carlton, and Joyce Carlton.

Five of the seven 4-H clubs were represented by about 40 4-H'ers and six leaders to make final plans for National 4-H Week which is slated for Oct. 5-11. Radio programs and news releases will be included during the week.

A 4-H livestock group was organized and has set up every first and third Saturday at 9 a.m. The next meeting will be held Saturday, Oct. 18 at the Agricultural Bldg. Anyone interested is invited. We will look at a class of cattle at one of the feedlots.

A meeting will be held Monday, Oct. 7 at the Agricultural Bldg. at 8 p.m. to make plans for the year for the Rifle Club. Anyone that has been in Rifle or would like to participate is invited out.

Monday night the Lucky Star 4-H Club will meet at 7:30 p.m. in the Agricultural Bldg.

billions of dollars worth of wheat damaged by grub worms. They kill the plant by shredding the plant just below the ground level. As cooler weather approaches they burrow deeper in the ground and will not damage new plantings. I've seen other fields damaged in the area this year. I believe a spron would be relatively safe to replant at present.
