

Nixon Gets Cheers From West Berlin

BERLIN (UPI) — President Nixon made a triumphant visit to West Berlin and the Communist East today and warned the Soviet bloc the West will never bow to pressure from any source and will keep the city free. He emphasized the point by bringing the leaders of West Germany with him.

In an emotional speech to 8,000 cheering workers at West Berlin's vast Siemens electronics plant he told the people of the city in the sense you stand for freedom and peace, all the free peoples of the world are truly Berliners.

Left-wing extremist groups had threatened to spoil the visit with massive anti-American demonstrations but there were only a few minor outbreaks as a force of 8,000 police maintained order in the snow-covered city. Police arrested 36 demonstrators who tossed firecrackers after the Nixon motorcade passed.

Instead there were cheers from an estimated 250,000 West Berliners who held up welcome signs and broke through police lines to greet him in a burst of enthusiasm that unnerved Nixon's security guards. He waded into the crowds to shake hands and at one point climbed to the top of his limousine so he could be seen.

It was a warm welcome though not as furiously emotional as the visit by the late President John F. Kennedy in 1963. But it was the biggest welcome Nixon has received on his five-nation tour that has taken him to Brussels, London and Bonn. He goes to Rome tonight and Paris Friday before visiting Vatican City.

In the second of two major speeches so far during his tour the President told the Siemens electrical workers what he has told officials in the other cities — there will be no retreat from the NATO commitments to defend West Europe from aggression.

Let there be no miscalculation, no unilateral act, no form of pressure from any source which will shake the resolve of the Western powers to defend their rightful status as protectors of the people of free Berlin," he said.

In a major deviation from the prepared text Nixon said: "Sometimes you must feel you are very much alone. But always remember we are with you and people who are free and want to be free are with you. In the sense that the people of Berlin stand as a guarantor and a symbol for freedom and peace, all the free people of the world are truly Berliners."

Nixon received a massive standing ovation at the end of the speech. The workers, waving bright yellow hard hats, started shouting: "Ha-ho-hay! Nixon is okay!"

The President, waving and smiling, came back to the platform and shouted to them: "Ha-ho-hay! Berliners are okay!"

Then with a final wave he shouted in German: "Danke schoen und auf wiedersehen!" (See NIXON, Page 3)

Bad Colds Postpone Friday Space Flight

New Try Set For Monday

CAPE KENNEDY (UPI) — The launch of Apollo 9, toughest spaceflight man has ever attempted, today was postponed until Monday even though the three astronauts appeared to be recovering from colds.

The launch of astronauts James A. McDivitt, David R. Scott and Russell L. Schweickart on a 10-day earth orbital flight test had been scheduled for 10 a. m. CST Friday, but on Wednesday they came down with sore throats and stuffed noses.

"The Apollo 9 launch was rescheduled for 11 a. m. Monday after project officials reviewed medical reports," reported a space agency spokesman.

Chief astronaut physician Charles A. Berry examined the crew for 45 minutes today and reported "the condition of the three crewmembers is improved over yesterday."

Nevertheless, because of the hectic schedule in the first five days of flight, officials decided to delay the launch rather than have the astronauts' performance level degraded by their virus conditions.

The astronauts "were disappointed because they wanted to fly," the spokesman said, "but they understood."

The pilots came down with sore throats and stuffed noses Wednesday. Berry gave them pills and the classic advice to drink a lot of water and get plenty of rest.

Dr. George E. Mueller, associate space agency administrator in charge of manned spaceflight, said Wednesday night the launch decision would be "quite conservative."

"We'd like to launch them when they are well," he said. "If there's any question, I'd rather wait."

Mueller said there was one other problem that remained unresolved early today. It involved a slight vibration in the second stage of the Saturn 5 rocket that was detected in an analysis of the flight of the first manned moon rocket in December.

He said the problem was minor, but added, "I don't think we'd like to fly if we didn't understand its source." He said a study of the problem was expected to be completed today.

Mueller said tests Wednesday showed that the astronauts had a virus, but no secondary infection. He said McDivitt first felt bad Tuesday night and Scott and Schweickart showed the same symptoms Wednesday morning.

DOWN THEY COME — City workers cut down two locust trees at Lovett Memorial Library and two more will be planted in Pampa's everyday beautification work.

WEATHER

PAMPA AND VICINITY—Fair and cooler through Friday. High in upper 50s, low near 30. Outlook for Saturday: fair and warmer. Yesterday's high was 73; last night's low, 35.

State Policemen Shunning Union

By United Press International

From the man behind the desk called "chief" to the man on the beat, Texas policemen do not want a union, a UPI survey showed today.

"We don't want to have anything to do with a labor union and we'll fight it all the way," said Preston Parks, president of the 1,200 member Dallas Police Association.

The Dallas group is like many similar ones in larger Texas cities. They represent most of the police force and work for their betterment. But they are not unions.

George Meany, president of the AFL-CIO, suggested earlier in the week in Miami Beach, Fla. that policemen unionize.

"Policemen are workers like everybody else," Meany said. "There is a tremendous interest in this."

But a poll of law officers throughout the state showed there was not much interest in Texas.

"We just haven't found it necessary here in Houston," chief Herman B. Short said. "I think the benefits we've obtained without it are equal or superior to what we'd obtain with it."

Sgt. Jim Furlow of criminal intelligence, a board member of the Houston Police Association, agreed with his chief.

"We're strictly 100 per cent against it, now or ever," Furlow said. "We don't believe policemen ought to be able to strike because we have good relationships with the city fathers. I don't think you'll find any towns in Texas, large or small, that want anything to do with it."

Furlow said the union was discussed at the association's Feb. 6 meeting and the 60 persons attending unanimously were against it.

An objection from many policemen came over the legality

Sirhan Can't Recall Firing Fatal Shot

LOS ANGELES (UPI) — Sirhan B. Sirhan contends he cannot remember shooting Robert F. Kennedy.

Yet under hypnosis the 24-year-old Arab immigrant has re-enacted the scene down to the most minute detail and pulled the trigger of an imaginary gun.

This will be a basic fact of the debate case when the trial resumes Friday following today's recess. The prosecution ended its presentation late Wednesday after calling 56 witnesses to back up its charge that Sirhan carefully plotted and executed the murder of the New York senator.

Sirhan's mother and two brothers are expected to take the witness stand Friday to tell of seeing Arab-Israeli atrocities in Palestine as a child which caused him to go into trances for hours and which persisted up to the time of Kennedy's shooting.

The hypnosis was among several tests administered Sirhan including the Rorschach ink blot series and other psychiatric examinations during the investigation leading up to his trial. All of the findings were expected to be introduced in the defense case.

One of the last prosecution witnesses, William Jordan, a police officer of 15 years experience, testified Wednesday (See SIRHAN, Page 3)

of civil servants being allowed to strike as a union can.

"The association's constitution and by-laws say we will not be affiliated with any union," said Austin Police Association president Sgt. John Pope.

"The majority of the men feel we don't need it. If an association is strong it is its own spokesman."

Gus Krausse, police chief of Brownsville, said he believes the union movement is "riding a recent wave of sympathy for the police" in a drive to organize them, but he said the effort was "not feasible."

"A police officer just can't strike against the government," he said. "I believe the union has its place, but its place is not in police work."

He said recent sympathy for police is the result of "the condition things have gotten in." Krausse said only the citizens, not the police, can change it.

"Every community is going to get the kind of police department it wants," he said. "The people have the power to build their departments and improve their communities, and a union isn't going to make any difference in that."

Bill to Halt Campus Riots Hits Slow Down

AUSTIN (UPI) — A bill arming police with a law to stop campus disturbances in Texas won overwhelming approval in the house Wednesday, but apparently will be sent to the senate with a more cautious approach.

The bill by Rep. Joe Shannon Jr. of Fort Worth makes it a misdemeanor punishable by up to six months in jail to engage in disruptive activities on a college campus.

Shannon said Wednesday he has not gotten a senate sponsor for the bill, and has not attempted to get it put on the senate calendar for prompt action.

He pushed the measure through final passage in the house Wednesday within three hours after the house criminal jurisdiction committee reported the bill favorably in an impromptu meeting at the rear of the house chamber.

Rep. Curtis Graves of Houston led opposition to the bill, calling it "the kind of legislation that causes backlash."

Graves said he fears the legislation will cause "the feared violence and demonstrations to occur on or about our college campuses."

The bill was amended in committee to apply to both public and private schools.

It would allow arrest of persons seizing control of school buildings, blocking entrance or exit to buildings or campuses, interrupting or preventing authorized lawful assemblies.

Shannon said the bill was designed to fill a gap in Texas laws created when a federal court threw out the state's disturbing the peace law as unconstitutional because of its vagueness.

The house also approved and sent to the senate Wednesday a bill creating a University of Texas Nursing School at San Antonio and a measure changing the name of Stephen F. Austin State College to Stephen F. Austin University.

Both proposals have been introduced in the senate, but a senate subcommittee has refused to act on the nursing school bill on grounds it would require an appropriation. The committee said it would not send out bills requiring appropriations until the general appropriations bill has been approved.

In other developments Wednesday:

—A bill to make insurance companies pay personal property tax was sent to a favorable subcommittee in the house after a Dallas tax assessor-collector said special privileges for insurance firms are costing taxpayers millions. Norman Register of Dallas called the present statute covering insurance companies "the most inequitable tax law on the books."

—A bill to give the governor and city councils emergency powers in potential riot situations drew sharp questioning from a house committee. Rep. Arthur Vance of Pasadena took the witness stand against Houston Rep. Cletus Davis' bill and said the measure could aggravate racial tensions and "create armed camps on both sides."

Canines Had Their Troubles Here in '68

Figures on record at the Pampa police department show that 1,372 stray dogs were picked up by the city dog warden in 1968.

Of this number only 138 were bailed out of the dog pound by their owners. The other 1,136 were put to death in the dog pound gas chamber.

Police Chief Jim Conner said today that Pampa's dog control ordinance is being enforced.

Ordinance No. 648 requires that all dogs shall be tied, be on a leash or be restrained securely inside an enclosure or fence. It also requires that all dogs over the age of six months be vaccinated within each 12-month period.

Conner stated the city attorney has been contacted about the possibility of filing charges against dog owners who refuse to comply with the ordinance. Penalty for violation can draw a fine up to \$200.

The police chief said Dog Warden Don Armstrong has been given an assistant. This, he stated, will enable the city to have a dog catcher on duty eight hours a day seven days a week.

Chief Conner also stated arrangements are being made to put on an extra truck to double efforts to round up stray dogs.

The report shows that 202 dogs have been impounded so far in 1969.

Board Requests Official Petition For Bond Issue

Pampa School trustees took another step toward a proposed \$900,000 bond issue Thursday by requesting Columbia Securities of Amarillo to draw up an official petition to call the bond issue.

"We could not contact the school district's fiscal agent, Columbia Securities, until after the board meeting Thursday," Supt. James F. Malone said. "They will have to prepare the petition, because it has to be a legal, official document. After we get the petition, we will circulate it and secure signatures of 20 or more taxpayers. The minimum number required to call a bond issue is 20."

After signatures are secured, the board will set a meeting date for this week, possibly Friday, Dr. Malone said. The next step is to officially call the bond issue election and set a date.

"After the date is set, we will know more about when bids can be let and when construction can start on Phase I," Dr. Malone said.

Maximum estimated costs for Phase I elementary school projects are \$145,000 for cafeterias for Mann and Wilson Schools, and \$5,000 for heating, ceiling, restroom and roof repairs for Baker, Mann and Wilson schools.

A breakdown of estimated costs for Pampa High School improvements included athletics, \$185,699; band and music building, \$175,000; science wing, \$120,000; central library-learning center, \$50,000; girls' gym, \$80,000; auditorium renovation, \$50,000; vocational-technical (automobile mechanics), \$80,000; installation of third

HEAVY DAMAGE — Fire spread through a house at 414 Oklahoma last night and heavily damaged three rooms. Pampa firemen received the call at 9:40 p.m. and soon had the fire under control. No one was living in the house, which is owned by Si Bowen, 1402 S. Barnes.

Reds are Beaten Back

SAIGON (UPI)—U.S. and South Vietnamese guns and divebombers today broke the heaviest thrust of the Communist offensive on Saigon's doorstep. With 4,000 guerrillas dead, the five-day drive waned.

Beaten and battered from round-the-clock bombardments, the Reds abandoned the two villages they captured 15 miles northeast of the city on the edge of the American air base at Bien Hoa.

Maj. Garrett Hays of Fayetteville, N.C., an adviser to the Saigon soldiers, said the busiest air base in the world was the Communists' ultimate goal and "possibly they could have gotten in if they tried a little harder."

U.S. headquarters in Saigon listed 234 guerrillas killed in the suburban fighting. It reported 30 shellings around the nation overnight and no major ground battling, a dropoff from earlier in the week.

American intelligence warned, however, that the Communist command still had not committed most of its 65,000 troops in position around Saigon. They predicted more Red attacks toward the capital.

U.S. and South Vietnamese warplanes roared off the Bien Hoa runway Wednesday and wheeled quickly against the Communists. Propaganda planes dropped a picture of a Viet Cong who had surrendered and told the Reds to give up.

Without a shot, South Vietnamese soldiers at Dawn reoccupied Dong Lach and Ho Nai, 15 miles northeast of Saigon. The 1,000 Viet Cong and North Vietnamese who had turned them back in door-to-door fighting Wednesday were gone.

The Communists left behind 234 men dead and 80 captured, compared with one American and 41 South Vietnamese soldiers killed in the battle for the shantytowns that cater with beer and bargirls to the 40,000 American GIs at Bien Hoa.

In nearby Saigon, U.S. headquarters said the fighting had pushed to 4,000 the number of Communists killed since Sunday. The Reds late Wednesday and early today shelled 30 towns and camps, much fewer than in the first four days of the offensive.

American losses so far in the drive were put at 350 dead and about 1,000 wounded — a far higher casualty rate than the 164 killed and 1,031 wounded last week during Allied and Communist truces for Tet.

South Vietnam said nearly 500 of its fighting men were dead this week.

The command reports of a dropoff in the level of Communist attacks accompanied a warning from Hanoi the people of Vietnam had the right to fight the Americans any place, anytime in self defense.

U.S. military sources warned the Communists had not used the majority of the 65,000 troops they have in positions threatening Saigon. Eleven waves of E-32 bombers went after those hideouts overnight, hammering two million pounds of explosives (See REDS, Page 3)

SIO Social Planned Here On Friday

A box supper and social is planned for Friday at the Pioneer Natural Gas Co. headquarters, by the Pampa Southwest Indian Organization. The event will start at 7:30 p.m. in the Flame Room at PNG.

Each member is requested to bring a box lunch to be auctioned for the benefit of a free Pow-Wow, planned for March 29.

The Pow-Wow will honor all Boys Scouts of the Golden Spread area, a spokesman notes. All Scouts will be invited to join in the Indian dances and games planned for that day.

Prizes are to be awarded for the largest box, the prettiest box and the most original box to be sold at Friday's social. Indians attending will dress in tribal costume. Prizes will be provided by the organization and presented by Cherokee Princess Vanda Lancour and Kiowa Princess Tenny Lynn James.

Pampa Teacher Reports Dates Of Science Fair

Pampa students who plan to enter projects in the Texas Panhandle Science Fair in Amarillo March 28, 29 and 30 must register their entries by Monday, according to Mrs. Elaine Ledbetter, Pampa High School science teacher.

"In grades four, five and six, each school is allowed four entries, but not more than two entries in one classification," Mrs. Ledbetter said. "Grades seven, eight, and nine are allowed seven per school but more than three in one classification. Seven entries are allowed for grades 10, 11 and 12, but not more than four in one classification."

Classifications are botany, chemistry and biochemistry, earth and space, medicine and health, physics, mathematics and zoology.

"All entries must be approved by a teacher and on an official entry blank. All Pampa entry blanks were sent to me. The exhibits will be displayed in Commercial Exhibits Bldg., Amarillo Fair Grounds," Mrs. Ledbetter said.

Board

(Continued From Page 1) floor classrooms, \$20,000.

Cost estimates for other proposed projects included in Phase I are school parking lots, \$20,000; Pampa Junior High parking and playground area improvements, \$5,000 and Carver Center, administrative offices, \$5,000.

Board members stressed these estimates are maximum estimates for each project. Project Eight, vocational-technical wing (automobile mechanics) for PHS, could be approved for state and federal funds, which would lower the cost for Pampa taxpayers, Dr. Malone said.

Program Seeks 10 Host Families

Pampa area families who participate in the annual Experiment in International Living program will offer their homes as a temporary home for a high school student from Mexico, according to Mrs. J. E. Clark, project chairman for Pampa.

"We need 10 homes and could take those in Pampa and in the nearby area. Anyone interested in this project may call me at MO 4-6327," Mrs. Clark said.

The student would live here during July and August before enrolling in a United States college or university. The two-month visits are intended to introduce exchange students to American life by living with an American family.

Founded in 1932, the Experiment is an independent, non-profit, educational organization financed by program fees, foundation and corporation grants and gifts from alumni and friends, she said.

Five regional offices are maintained in the United States with international operations conducted through national Experiment offices for representatives in 60 countries and on six continents.

This can be a reciprocal arrangement where Pampa students could make a return visit to their Mexican guests' homes in the summer of 1970, Mrs. Clark said.

Manpower List Needed Here

Pampa employers will again be asked to respond to a manpower search survey to determine job availabilities in the area, following a special meeting of members of the Pampa Industrial Foundation and the Industrial Committee of the Pampa Chamber of Commerce this morning in the CoC conference room.

According to Bill Power, chairman of the committee, employers will be mailed a questionnaire early in March asking them to describe job openings that are, or will be available with their firms.

The questionnaire will ask for the job title or description, number needed, and approximate salary range. All information will remain confidential.

Following the results of the survey, the committee plans another extensive newspaper advertising campaign in the southwest advising of the job availabilities in Pampa.

A similar survey and advertising campaign was held last summer.

Members of the committee include Charles Hill, Don Forsha, Warren Hasse, Fred Neslage, Aubrey Steele, Bill Ragsdale, Gordon Lyons and John Fritsch.

Store Burglary Probe Started

SHAMROCK — A burglar or burglars struck White's Auto here Tuesday morning and made off with \$3,600 worth of merchandise and cash.

Wheeler County Sheriff Bus Dorman reported the department had several leads available, but more investigation would be required before any arrests would be made.

He predicted the case should be solved within a few days.

Merchandise taken from the store included 28 shotguns and rifles of various types and brands, nine pellet guns and two televisions, one color and one black and white.

In addition, the safe, containing \$500 in cash, was taken from the store. The safe has been found buried three miles west of Shamrock, Sheriff Dorman said.

Former Perryton Girl Artist in Sirhan Trial

A Perryton girl, Mrs. Billie Mae Rash, is covering the trial of Sirhan Sirhan, accused slayer of Sen. Robert F. Kennedy, as a television artist.

Mrs. Rash, daughter of Mr. and Mrs. Bill Gray, Perryton, is a graduate of Perryton High School and the University of Texas. She is holder of a master of fine arts degree.

Since no cameras are allowed in the courtroom where the Arab immigrant is being tried, Mrs. Rash has been employed to make sketches of trial personnel. She expects to remain with the station as staff artist after the trial is completed.

Jim Rash, husband of the Texas girl, is a Los Angeles real estate dealer.

CANDY SALE — Members of the Pampa Distributive Education Club have a candy sale project going to help raise money to attend their state convention in Dallas next month. Above from left, Ray Stewart, Steve Edwards, Bob Jeffers and Jim Beesley advertise the candy, costing fifty cents a box.

Looten Shows Grand Champ in Carson Show

Carl Looten, son of Mr. and Mrs. A. J. Lotten exhibited the Grand Champion at the recent Carson County Junior Livestock Show held in the Agricultural Building in Panhandle. This was a heavy weight Hereford steer.

Kenneth Woodward, agricultural instructor at Panhandle State College, Goodwell, Okla. was judge of the show.

Steve Dauer, son of Mr. and Mrs. Paul Dauer, showed the reserve champion, a medium weight Hereford steer. Both boys are members of Panhandle Future Farmers of America.

In the Angus division, Mary O'Neal, daughter of Mr. and Mrs. Harold V. O'Neal, Panhandle, showed the champion, a heavy weight steer. Lonnie Brown, Groom, showed the reserve champion. Mary is a member of the Conway 4-H Club, and Lonnie of the Groom FFA.

Division champions were light weight Hereford, Sheila Martin, Panhandle; light-weight Angus, Alvin Stamps, Panhandle; medium weight Angus, Lanita Brown, Groom 4-H; medium heavy Angus, Lonnie Brown.

Best of Breed in Angus heifers, Lonnie Brown with Steve senior and junior heifers. Steve Dauer captured both honors with his Hereford heifers.

Jackie Barnett, Panhandle FFA captured best of breed with his Showdown lamb, with John Brown, Panhandle FFA, showing the reserve best of breed.

In the medium wool division, Rodney Casey, Conway, 4-H showed the champion, with Gary Vance, Panhandle FFA, capturing reserve honors.

In the cross breeds, Larry Britten, Groom FFA showed with champion with Donnie Conrad, Groom FFA, capturing reserve honors.

Grand champion honors went to Casey with Vance getting the reserve.

The grand champion barrow, a Hampshire, was shown by Kris Black of the Groom 4-H Club, with Gary Vance, getting reserve honors with a Duroc.

Other championship honors went to Lanita Brown, Groom 4-H, with a Chester White barrow. In the crossbreed division of swine, Dale Gabel of the Conway 4-H, showed the champion.

Seventy-seven of the 162 animals were offered for sale and were brought by area businessmen and interested friends of the exhibitors.

Many animals from the show will be shown on March 3-5 at the Top O' Texas Junior Livestock Show in Pampa.

Pampan Jailed On DWI Charge

Lee Kenyon Stone, 59, of 827 E. Murphy, was arrested Wednesday night on a charge of driving while intoxicated.

According to the police report, policeman L. T. Bolin made the arrest after he noticed Stone running a red light, and driving to the left of center while making a right turn.

The incident occurred about 9:40 p.m.

Stone was taken to the city jail, where he remained shortly before noon in lieu of bond.

Accused Slayer Arraigned in Austin Today

AUSTIN (UPI)—Clyde Durbin Jr., a 21-year-old University of Texas dropout, charged in the deaths of a college student and his date, will be arraigned today in the death of John Albert White of Corpus Christi.

White and his date, Keitha Morris, 19, of White Deer, were killed Jan. 8 while on an outing in unseasonably warm weather. White's body was found later that same day and Miss Morris' body was found 20 hours later more than 50 miles from the picnic area.

Durbin, charged with both deaths, has been arraigned in Burnet County in Miss Morris' death. Her body was found floating in a lake in that county.

Shaw Goes On Stand In Trial

NEW ORLEANS (UPI)—Two years lacking two days—after his arrest, Clay L. Shaw was speaking out before a jury today in his own defense against Dist. Atty. Jim Garrison's charge of plotting the "crime of the century" murder of President John F. Kennedy.

The chief defense counsel, F. Irvin Dymond, promised a snappy direct examination in which the big man with the barrel chest would deny that he ever conspired with or even knew his alleged fellow plotters, Lee Harvey Oswald and David Ferrie.

There remained, before Shaw took the stand, the cross examination of a New Orleans police lieutenant who said Shaw's principal accuser told him, three months after he testified that he saw and heard the conspirators plotting, that actually Shaw had not been present.

The police lieutenant, Edward M. O'Donnell, testified for the defense that he spoke with Perry Raymond Russo on June 19, 1967. Russo, the state's star witness, had testified at a preliminary hearing three months before that he witnessed the conspiracy in Ferrie's apartment in September, 1963.

Toastmasters Give Program At Rotary Club

Members of the Pampa Toastmasters Club provided the program at the weekly luncheon meeting of the Pampa Rotary Club yesterday in the Coronado Inn.

Bill Watson served as toastmaster. Juan de Leon gave a talk on "Engineering in a world of change," and Toastmaster president Tony Morris served as critic.

The purpose of the Toastmaster Club, according to Watson, is to attain better communications through better thinking, better listening and better speaking.

Rotary president Jimmy Thompson announced that next week's meeting would be held at Travis School in conjunction with "Public Education Week."

Mendoza Talk To TFB Canceled

Meetings scheduled by the Texas Farm Bureau for the purpose of hearing Jose Mendoza discuss the farm labor situation have been canceled because of Mendoza's illness.

It is disclosed by TFB president Sidney Dean, Mendoza is a spokesman for grape workers in California who oppose compulsory unionism.

It's hoped, Dean said, that Mendoza's appearance may be rescheduled for a later date.

Sirhan

(Continued From Page 1) that Sirhan was one of the "most intelligent and alert" persons he had ever interrogated.

Nixon

(Continued From Page 1) (—thank you and goodbye). Shortly before Nixon flew the 110 miles inside East Germany to West Berlin the Soviet Union delivered a new blast against West Germany's plans to hold its presidential election at a meeting of the electoral college in West Berlin March 5. The Communist party newspaper Pravda said "it must not take place."

East Germany said the elections violate the four power agreements governing Berlin and increase tensions. The Communists have threatened the city's supply lines and protested the flights to West Berlin of West German officials.

The fact Nixon brought with him Chancellor Kurt Georg Kiesinger and Foreign Minister Willy Brandt.

Food Buying Guide
WASHINGTON (UPI)—The following guide to the nation's food buys for the weekend was prepared by the U.S. Department of Agriculture and Interior for United Press International.

USDA's Consumer and Marketing Service again reports that supermarkets and food stores should feature excellent supplies of meat and poultry and good supplies of some fresh fruit and vegetables for shoppers this weekend.

Broiler-fryer chickens and turkeys continue to be the leaders among the meats. Beef supplies are more than adequate with roasts, steaks, and ground beef as features.

Nearly all pork items are abundant, including bacon, Boston butts, chops, ham, roasts, sausage, smoked picnics and spareribs.

Canned salmon, fish sticks and portions, and fish filets are the fish buys to watch for, according to the U.S. Department of the Interior.

Cabbage, carrots, celery, onions, and potatoes are the most abundant fresh vegetables. Fresh fruit in the abundant class are apples, bananas, grapefruit and oranges.

Welcome Guests With Ground Beef Wrapped in Bacon

When there's a teen-age party on your calendar, give them Party Pups! They're made of popular ground beef, shaped like a hot dog, then wrapped in bacon for a big plus in savory flavor and an interesting look.

Party Pups will broil quickly at moderate temperature, advises Reba Staggs, meat expert with the National Live Stock and Meat Board. With a total broiling time of less than 15 minutes, cooked five inches from the heat, these ground beef novelties will be both juicy and flavorful.

Party Pups
2 pounds ground beef
1 cup coarsely crushed blue cheese cracker crumbs
2 tablespoons minced dehydrated onion
1 cup milk
1 teaspoon salt
1/4 teaspoon pepper
1/2 teaspoon celery salt
12 slices bacon

Combine cracker crumbs, onion, milk, salt, pepper and mix thoroughly. Divide into 12 equal portions. Mold each portion into the shape of a hot dog, 1 inch thick. Wrap with bacon and secure with a wooden pick. Place on rack in broiler pan. Set regulator for broiling.

ITALIAN FLAIR ACCENTS this beef blade pot-roast with tomatoes, oregano, garlic, olives and mushrooms.

EATING OUT COSTS QUICKIE MACAROONS

Americans spend about \$20 billion a year for food and beverages served away from home. About \$18 billion of this is spent in restaurants, cafeterias, lunchrooms and refreshment stands. Another \$6 billion is spent in institutions such as hospitals, colleges, homes for aged and children and camps. Hotels and motels account for \$3 billion and another one billion goes to such places as drug and department stores, delicatessens, movies, private clubs and factories.

Place in broiler 5 inches from heat and broil 8 minutes on first side; turn, and broil second side 6 minutes or until bacon is lightly browned. Remove picks. 6 to 8 servings.

Italian Seasonings Accent Pot Roast

Your budget may not permit a trip to all the countries you'd like, but imaginatively you can always travel by means of culinary adventure.

Take Italy, for instance. Famous for its seasonings such as tomatoes, garlic, mushrooms, stuffed olives and green pepper, this country yields inspiration for many entrees. All of these can be starred with good, American beef pot-roast, declares Reba Staggs, meat expert for the National Live Stock and Meat Board.

Start with one three to four-pound beef arm or blade pot-roast. Dredge this meat with three tablespoons of flour which has been mixed with one and one-half teaspoons salt and one-eighth teaspoon pepper. Brown the meat slowly on both sides in three tablespoons lard or drippings. Pour off drippings.

Q. What is the name of this cut of meat?
A. Beef arm pot-roast.
Q. Where does it come from? How is it identified?
A. It comes from the chuck (shoulder) section. Although this cut carries the name of roast, it is not to be confused with the tender roasts which are cooked by dry heat. A pot-roast means this cut is to be cooked by braising. Beef arm pot-roast is usually cut about two inches thick. It is identified by a round bone.
Q. How is it prepared?
A. By braising. This means the meat is browned first in lard or drippings. Drippings are poured off. A small amount of liquid is then added, with seasonings, if desired. The pan or Dutch oven which is often used for braising is then covered tightly while the meat is cooked slowly for three to four hours or until tender.

A thought for the day: Francis Bacon said, "Virtue is like a rich stone, best plain set."

Marmalade Cinnamon Spins Make Breakfast Special

By GAYNOR MADDOX
(NEA) Food Editor

There are still thousands and thousands of good yeast bakers around. For them here is a bonus—delicious flavor compounded of corn meal, orange marmalade, cinnamon and chopped pecans.

MARMALADE CINNAMON SPINS

2 cakes compressed or 2 pkgs. dry yeast
1/4 cup lukewarm water
1 cup milk, scalded
one-third cup butter or margarine

1/2 cup sugar
2 1/2 teaspoons salt
4 1/2 to 5 cups sifted all-purpose flour
2 eggs, beaten
1 cup enriched corn meal
1 cup orange marmalade
1 cup chopped pecans

Pour scalded milk over butter, sugar and salt. When lukewarm, stir in 1 cup flour and eggs; add softened yeast, corn meal and enough flour to make a soft dough.

Knead until satiny; place in

greased bowl; brush with melted shortening. Cover and let rise in warm place until double in size.

Divide dough in half. Roll each half to form a 12 x 10-inch rectangle. Spread with 1/2-cup orange marmalade; sprinkle with 1/2-cup chopped pecans. Roll lengthwise; seal edges. Cut into 1-inch slices. Place in greased medium-sized muffin cups.

Combine 2 tablespoons sugar and 1/2-teaspoon cinnamon. Sprinkle over tops of rolls. Let

rise until nearly double in size. Bake in preheated, 350-degree oven about 25 minutes.

DRIED SKIM MILK WILL WHIP

A dried skim milk which can be whipped into a low-calorie dessert topping has been developed by U.S. Department of Agriculture scientists. The mixture needs no refrigeration or precooking of utensils report specialists. The experimental product can be stored without refrigeration. Skim milk which has been homogenized before

Food Questions And Answers

By GAYNOR MADDOX
(NEA) Food Editor

Q—I am 16 years old and planning a party. What kind of food would you suggest?

A—Here are a few tips that may help you. A recent survey to find out teens' likes and dislikes in food came up with the following:

drying and reconstituted with one part powder to two parts water will produce a foam if whipped for three minutes.

They like foods that are sweet or salty or spicy. Teens like best foods that can be eaten or drunk without sitting down at table or using utensils. This goes for party food as well as everyday snacks. They prefer foods that can be individualized by adding things. Boys, in particular, like to produce their own kooky combinations.

All the goodies in one roll.

Officer Seekers File in White Deer Election

WHITE DEER — Two candidates filed this week for the School Board election April 5. Jerry O'Neal filed for re-election to position 6 while Joe Wheeley signed for position 7, being vacated by W.J. Urbanczyk.

Deadline for filing for these two school board openings is March 6. Candidates may sign with Markham Waddill at the school tax office to have their name on the ballot.

Only one candidate has filed, thus far, for one of the three openings on the White Deer City Council. Virgil James filed for an alderman post with Mrs. Laura Jo skaggs, city secretary at the City Hall. The three openings on the Council are those of Horace Williams, Ike Richardson and Joe Wheeley.

The City and School elections will be held on the same date and place April 5, at the High School building.

Television In Review

By RICK DU BROW

HOLLYWOOD (UPI) — With the end of the television season drawing near, the latest national ratings indicate that the longtime series favorites continue to be the most popular.

The midseason CBS-TV replacement hour with Glen Campbell and his music ranks ninth among all shows, and NBC-TV's "Julia" remains very strong, placing 11th, in a tie with "Here's Lucy."

Next among the new series is the slapstick CBS-TV comedy, "The Good Guys," about a couple of pals, one of whom owns a diner. It came in 17th.

No New Series

After that, there is no new series until the CBS-TV western, "Lancer," which is 32nd. And then come ABC-TV's "The Mod Squad" (38th) and CBS-TV's Doris Day Show (39th).

Uniquely, two series dropped by NBC-TV recently have been picked up by competing networks.

"Get Smart" was grabbed quickly by CBS-TV once NBC-TV let it go. And the new series

"The Ghost and Mrs. Muir," dropped by the same network, will move over to ABC-TV next season.

It is interesting to note that "My Three Sons," which switched from AEC-TV to CBS-TV some years ago, finished a potent 13th in the latest ratings.

The statistics show that veteran programs like "Bonanza," "Gunsmoke," "The Beverly Hillbillies," "Family Affair" and "Bewitched" are maintaining their great audience appeal.

Laugh-In Tops

So, of course, is the top-rated "Laugh-In." The second-ranked "Gomer Pyle" ends after this season because its star, Jim Nabors, will do a variety hour on CBS-TV each week come fall.

And "Mayberry R.F.D." the heir to CBS-TV's Andy Griffith series, placed eighth—consistent with its strong showing ever since the transformation began last September.

"Gunsmoke," which ranks fifth, is a wonder. Several seasons ago, CBS-TV was going to drop it.

Wall Street Chatter

NEW YORK (UPI)—Bachs & Co. feels that "a degree of emotionality has entered the investment scene" in view of the velocity of decline in individual issues. Though the "market usually overdoes its short term swings and...the Dow Jones Industrial Average may be vulnerable by perhaps 25 to 35 points," individual issues already may be in an attractive buying range, the firm says. The market as a whole is rapidly adjusting to the political and economic factors that sent it into a downturn, it adds.

Standard & Poor's looks for a "groundswell of rising earnings in 1969," probably 7 to 8 per cent over 1968. Further stock price declines should be limited by this prospect, the firm says, though caution is still in order since irregularity is a more likely course for the market in the weeks ahead than any sudden upward turn.

E.F. Hutton says that a "rebound, which could only be classified as technical, or at least a temporary halt to the decline in the form of some sideways action" could be no more than a session or two away. Nevertheless, the firm says, "there are no perceptible signs of any halt to the decline and it seems probable that prices are headed still lower."

Light Bill Is Headache In Reynosa

REYNOSA, Mexico (UPI)—In the Mexican border city of Reynosa, the light bill is a traditional headache—and this week, Raphael Sierra de la Garza learned that even newly elected mayors are not immune to it.

De la Garza, who recently succeeded Rodolfo Garza Cantu as Reynosa's chief executive, Monday incurred the wrath of local labor leaders when he proposed a solution for the city's power problem.

He said Reynosa's monthly bill to the federal government—which owns all public utilities in Mexico—was running between \$2,400 and \$3,200 (U.S.) month.

He said the city budget could not meet all of it, and he proposed a municipal tax aimed at picking up 1.5 per cent of the total tab.

"Unless the people help, there may be no lights in the city after dark," de la Garza was quoted as saying.

The gambit immediately drew fire from two Reynosa labor leaders, who charged the outright municipal tax would be unfair to the city's poor.

"It's always the working people who are the ones affected by such taxes," said Jose Ulloa, general secretary of "Workers of Reynosa." "If the city needs an additional source of income to pay the light bill, let it be a luxury tax."

Mrs. Shaw Visits OES Chapter 65

Mrs. Lillian Shaw, deputy grand matron, Order of the Eastern Star, made an official visit to Pampa Chapter No. 65 when it met recently in the Masonic Hall. The meeting was preceded by a dinner at Furr's Cafeteria.

Mrs. Lorena McNaughton, worthy matron, presided; Helen Ruth Mackie presented the flag, and Bill Hughes, worthy patron, led the pledge of allegiance.

Grand Officers introduced were Mmes. Lillian Shaw, Mary Wilson, Thelma Love, Viola Cobb, Maude Andis, and P.B. Kratzer.

Mrs. Shaw instructed the chapter in its work and expressed greetings from the Worthy Grand Matron, Mrs. Robbie Yates of the Grand Chapter of Texas.

Explaining the Grand Matron's four main projects she named providing funds to maintain the Eastern Star Home for the Elderly in Arlington; the Estarl Committee, which is to provide scholarships for religious training of youth; contributing to the Knights Templar Eye Fund; and giving aid to hospitalized

GROOVY--Red and white floral-printed cotton shapes a flared tunic and elephant's leg pants for resort '69. The delightful fabric adds extra sparkle to the already frivolous design. Ellen Tracy cuts the party tunic on the A and scoops the neck.

Veterans. Mrs. Vardeman Smith presented the speaker a gift of appreciation from the chapter.

The 12 guests represented chapters of Borger, Canadian, Skellytown, Top of Texas, and Cimarron Canyon of New (See CHAPTER, Page 9)

By Abigail Van Buren

DEAR ABBY: I am very bitter toward the company for which my husband works and wonder if other wives feel this way.

Right now I am home alone with my four children while my husband is in Europe! Before this trip, it was Jamaica, Puerto Rico, Mexico City, and Las Vegas. He's being winced and dined at "sales meetings."

Why do companies have their meetings in such exotic, exciting places and ask the men to leave their wives at home? These same wives who try to be understanding about the long hours, hard work and other absences their husbands take away from their families? (Wives are not even welcome at their own expense!)

I am pleased that my husband is doing so well financially, but what is the money if it ruins our marriage? Why don't companies let wives share in the "rewards," too? Please don't print my name or city for obvious reasons.

LONESOME AND BLUE. **DEAR LONESOME:** Your letter makes a lot of sense and I shall print it with the hope that the shoe pinches a few executives who are guilty of such practices. I, too, would like to know how they justify building resentment instead of goodwill.

DEAR ABBY: I am miserable and need your help. Three months ago I divorced my husband and now I find that I still love him. Please, God, I hope it isn't too late. Our divorce solved nothing. It just doomed me to loneliness to say nothing of what it has done to our children's morale. Abby, I am willing to crawl and beg. Anything to have us remarried, but I don't know what approach to use with him. Please, please help me.

FOOLISH IN NEBRASKA

DEAR FOOLISH: In your case, the best approach is the direct one. Tell your former husband what you have told me. Or better yet clip this and send it to him with an olive branch. You have nothing to lose but your loneliness.

DEAR ABBY: My problem concerns my boss. He's a wonderful man, and a good employer, but there's one thing he does that bugs me. He's always asking me what my boy friend and I do, where we go, how we spend our time together, etc. He's even asked me "how well" we know each other and if he's proposed to me!

I feel that these are very personal questions and I would rather not discuss them in the office. I don't want to "make waves," because this is a small office and I work closely with my boss, but I really feel that my private life is none of his boss' business. So how do I tell him (in a subtle way) to quit giving me the third degree? I don't want to spoil a good employe-employer relationship.

NO NAME, PLS.

DEAR NO NAME: Don't attempt to be subtle. It never works with one who asks questions that are none of his business. Simply tell him you would rather not discuss your personal affairs. Then quickly change the subject. He'll catch on. If he "forgets" -- repeat the same treatment. Eventually he'll get the message.

DEAR ABBY: That lady who says she would much rather go to bed with a good book than with her husband has me curious. I'd like to know the titles of the books she's reading. My husband travels abroad three months at a time and I also enjoy reading, but MY books aren't getting the job done.

Your Horoscope
JEANE DIXON

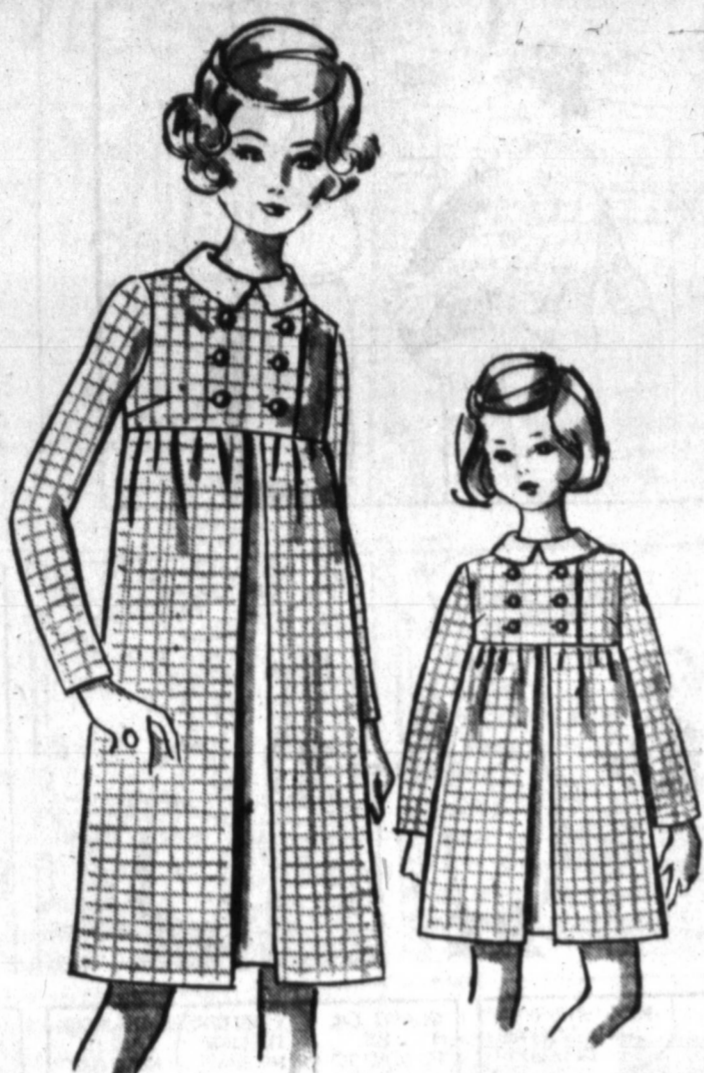

FRIDAY, FEB. 28
YOUR BIRTHDAY FRIDAY: This is only a starting point on a long journey into changing future conditions. Thoroughly see to every detail in your daily life, as you may not get the chance to go back to make corrections. Follow your intuition and seek new opportunity in every area which is unsatisfactory. Take nothing for granted. Friday's natives are somewhat detached in temperament and may suffer spells of feeling alone. Dramatic ability is frequent.
ARIES (March 21-April 19): The week-end round-up is again at hand. Lay in your supplies and organize a get-together tonight. Just stay within your budget!
TAURUS (April 20-May 20): Finish the work day with as much zest as you can put into it. Then go out early to see the brighter spots in town. Seek public entertainment or social invitations at night.
GEMINI (May 21-June 20): The edge is off personal differences for the time being. Do what you can to keep it that way with a friendly approach for all who come near, and leaving rest those who do not.
CANCER (June 21-July 22): Check over your public image; think about how you'd like to look, and see what you can do about it. New budgets may be worth going after. Get expert advice!
LEO (July 23-Aug. 22): You have to wait for news about distant matters of concern or else postpone long awaited happenings. Take advantage of nearby, short-term opportunities. Life doesn't wait for you to finish putting.
VIRGO (Aug. 23-Sept. 22): Social actions and money do not mix Friday and should not be tested together. Spend time

among new acquaintances, seeking out those who share similar interests.
LIBRA (Sept. 23-Oct. 22): Minor frustrations arise merely from the pile up. Rouse yourself and get them out of the way! This will save you a great deal of embarrassment. Some are of unsuspected importance.
SCORPIO (Oct. 23-Nov. 21): Look into any health symptom that distresses you. Since recent tensions could possibly have set you up for an ailment, medical advice may prevent an incipient illness. Relax before your system forces the relaxing.
SAGITTARIUS (Nov. 22-Dec. 21): Storms are blowing all around. You could get in except for financial concern. Don't worry, they will level out soon.
CAPRICORN (Dec. 22-Jan. 19): Stick to the middle-of-the-road, doing no more than the immediate situation calls for. Then make your own little private party at home with just the people you want to talk with.
AQUARIUS (Jan. 20-Feb. 18): Let larger responsibilities pass to broader shoulders. There is a limit to what you can carry singlehanded. Odds are that you are already over-committed and shouldn't volunteer for more.
PISCES (Feb. 19-Mar. 20): The urge is to be over-expansive in talk and spending or, perversely, to overdo the opposite. Find a comfortable balance with a very conservative work day and a somewhat freer evening. Romantic interests are favored by odd circumstances.
The North American trumpeter swan averages some 65 inches in length and has a wingspread of from six to eight feet.

Meriba was one of the names given to the rock which was struck by Moses and from which water flowed.

TOMATO BUYING
A machine may someday take the squeeze out of buying tomatoes. U.S. Department of Agriculture scientists are working on a machine which will help provide more uniform, better-quality tomatoes. The homemaker won't need to squeeze the fruit because the machine will look inside to see how ripe the tomatoes are, reports foods specialists with the Texas Agricultural Extension Service.
The Guernsey breed of dairy cow, which was imported into the United States in 1818 from the Islands of Guernsey and Alderney, weighs about 1,100 pounds.

DJ Makes With Song To Aid Our Servicemen

Earl Davis is one of those fellows who is big enough to leap over tall buildings in a single bound and all that kind of Superman stuff.

Earl, who is KPND's early, early morning and early afternoon radio man, also has a voice to match.

There are times when you can hear him with the radio turned way down low, in fact sometimes in the "off" position.

He has awakened me five mornings a week for some time now. When he comes on I get up. If you should ever have a hangover, do not turn Earl on.

Earl is a native Pampa but has lived in other places, such as New York, where it is rumored he got excited one morning on a broadcast and the sound vibrations from his voice almost caused the Empire State Building to collapse.

In his youth he has tried several different jobs, he held 15 assorted ones one summer. He's been, among other things, a salesman in a clothing store, baseball player and radio personality, which is what he is now and does best.

He does not sing best. During 1947-48 Earl played baseball for Pampa, Borger, Chickasha and McAlester, Okla.

So you can see the former minor league pitcher is well-traveled. He quit traveling a few years ago when he settled down at KPND.

Earl could never hit but he scared quite a few pitchers to death with his size.

He almost scared me to death a few mornings ago. You see, Earl sang a song over the air. He sang, of all things, "Winchester Cathedral."

You Don't Say ...

By

RON CROSS

Cathedral."

It isn't just everybody who can sing this particular type song. Earl is one of them.

He was accompanied on the guitar by Dan Michaels, who probably wished he was back making spudnuts.

Rudy Vallee did a good job of recording "Winchester Cathedral" and so did Bing Crosby.

I haven't figured out yet which one Earl was trying to sound like.

When Earl started singing the other morning, I cut myself three times shaving, my dog jumped in the hot water closet and every mirror in the house cracked.

I had almost forgotten about all this until Tuesday afternoon when I was driving down the street listening to some soothing music on the radio.

Now I figure Bob Melton must be some kind of antagonist.

Before I realized what was happening, old Bob was talking about what a fine voice Earl had. The next thing I knew he was playing THE song with Earl singing.

My car suddenly just quit running.

I found out later that my wife had been listening to the radio also. Our cat died of a heart attack and, you

guessed it, every mirror in the house cracked again.

If things are not bad enough, Earl told me yesterday that he and Mr. Michaels are thinking about recording "Harper Valley PTA."

They are going to do this with the help of Pat Carter's band, only Pat Carter and his band does not know anything about it yet.

I hope that Pat and his group are booked solid for the next few years.

I certainly hope Earl can take a joke for this is what this is.

You see, the reason that Earl played his recording over the radio was to help a bunch of good old boys over in Vietnam.

He had threatened to play his recording every day until a whole bunch of fu...ge has been sent to our fighting men in Vietnam.

This is a delicacy they do not get very often and they really enjoy it when they do get it.

I've sent 10 boxes already.

There is one thing I won't forget. I promised Earl that when he passes away engraved on his tombstone would be the following:

"Here lies Earl Davis, Pampa's answer to Mrs. Miller."

SPORTS

White Sox Needing Healthy Gary, Tom

CHICAGO —AL WEST—PROPHECY— Last season was a nightmare for the White Sox. They got off to a horrible start; Eddie Stanky was fired and Al Lopez brought out of retirement to take his place; Gary Peters and Tommy John suffered injuries and had dismal seasons, and the club wound up in a tie for ninth place. Sox need healthy Peters and John to start the climb upward.

PITCHING — Peters, one of baseball's sharpest lefties, won only four games last season and lost 13. Together with a rejuvenated John and Joe Harlen, he gives White Sox good pitching nucleus. Sammy Ellis, who had one good year (at Cincinnati) and has gone downhill ever since, has been picked up from the Angels and

White Sox used several combinations last season, but none were very successful. Best bet among rookies is Bill Melton at third base. Rating: C minus.

OUTFIELD — Pete Ward had poor season at plate last year, but will get chance to bounce back. Walt (No-Neck) Williams will try to win back right field job and same goes for Ken Berry in left. Hottest rookie prospect is Carlos May, who hit .330 with 13 homers and 74 RBIs last season for Lynchburg, Va., of Carolina League. He's only 20. Rating: C minus.

ROOKIES TO WATCH— Besides Melton and May, pitchers Jerry Nyman and Danny Lazar could stick. Both are hard-throwers.

Predicted Finish: 3rd in West

Lopez

Peters

could be No. 4 starter. Rating: B.

CATCHING — Duane Josephson has the starting job locked up, but depth is good with two new additions — Don Favletich from the Reds (he also can play first) and Russ Nixon from the Red Sox. Rating: B.

INFIELD — Only stable position in infield is shortstop, where Luis Aparicio—now 35—holds forth. He hit .264 and swiped 17 bases. Rest of infield will be in for some juggling.

Bosox Yaz Contract Reported \$125,000

By United Press International

Carl Yastrzemski got his \$100,000-plus, Bob Gibson didn't get his. Camilo Pascual agreed to \$45,000 and scores upon scores of lesser stars grabbed what they were offered and went to work in the major league training camps Wednesday.

Boston Red Sox General Manager Dick O'Connell claimed that Yaz' contract made Carl the highest paid player in the American League. Baltimore's Frank Robinson's approximate \$115,000 had been tops and a chap named Ted Williams once got \$125,000.

Gibson and Bing Devine of the St. Louis Cardinals could only agree they were apart on how much the 33-year-old right handed pitcher was worth.

Devine apparently offered over \$100,000, but not the \$125,000 Gibson has in mind for the 1.12 ERA, 22-9 record, 15 consecutive victories and 47 straight scoreless innings he posted last

season as the Cards won the pennant in a walk.

Slight Raise

Pascual accepted a slight raise from the Washington Senators after a 20-minute chat with owner Bob Short, who was preparing himself for the arrival of home run champion Frank Howard at Pompano Beach, Fla. Thursday. Howard has two requests—a \$75,000 contract and an extra week's delay in reporting so he can settle business affairs in Green Bay, Wis.

Harry Dalton, who handles contract work for the Baltimore Orioles, has his Robinson safely on the line, but is facing a trio of big names talking big money. Club RBI leader Boog Powell, 22-game winner Dave McNally and 15-game winner Tom Phoebus all want hefty increases.

At Tampa, Fla., National League batting champion Pete Rose was conspicuous by his absence. Pete is sitting it out in his Cincinnati home, having declined General Manager Bob Howsam's offer of \$30,000 over the \$55,000 of 1968.

The New York Yankees landed pitcher Mel Stottlemyre for \$55,000, but were getting nowhere with Al Downing, who pitched only 6 innings and had a 3-3 record a year ago. Downing has taken on an agent to do his negotiating, but the Yankee office wants to deal with Al directly.

The New York Mets appeared calm about the unsigned status of Ron Swoboda, Tommie Agee, J.C. Martin and Ed Kranepool and the Los Angeles Dodgers said that all but two players—pitcher Claude Osteen and outfielder Len Gabrielson—were at the Vero Beach camp or on their way.

Things were back to normal for the spring ritual.

SELECT SUCCESSOR

GREEN BAY, Wis. (UPI)—The executive committee of the Green Bay Packers will meet in closed session Saturday in the first of two meetings to select a successor to Vince Lombardi as general manager.

The new Packers GM is expected to be announced at the second meeting, to be held in about two weeks.

Jack, Arnie Ready To Move in Doral

MIAMI (UPI)—Jack Nicklaus

and Arnold Palmer, returning to the PGA tour after two-week layoffs, served notice today that they were in winning moods as they teed off in the opening round of the \$150,000 Doral Open—first stop on the rich

Florida circuit.

Nicklaus, normally off to a slow start each year, announced his game was coming along fast enough to enable him to win a tournament here in his adopted state for the first time in his illustrious career.

Palmer, golf's top all-time money winner but believed by some to be fading at 39 years of age, pointed out that he has lost 12 pounds and feels "a lot better physically and mentally."

Chances for Nicklaus and Palmer have been enhanced by the fact that 1968 money leader Billy Casper, 1969 money leader Gene Littler and U.S. Open champion Lee Trevino, winner last week at Tucson, have all skipped this tournament.

Littler and Trevino are taking a break from the tour grind while Casper, who has steered clear of Florida in the past because of an allergy, plans to wait until the Jacksonville (Fla.) Open March 20-23 before testing his cure.

However, there are still plenty of leading contenders in the 147-man field. Two-time Doral champion Doug Sanders, who always does well here in Florida where he went to college, tuned up with a 4-under-par 68 in Wednesday's Pro-Am while defending Doral champion Gardner Dickinson had a 69.

Tommy Aaron, the Georgian who won notoriety at last year's Masters when he jotted down a wrong score for Robert DeVicenzo, won the Pro-Am with a 67.

The field in this four-day tournament will be cut to the low 70s and ties at the end of the second round Friday. The final two rounds Saturday and Sunday will be televised.

WALLACH WILL COACH

NEW YORK (UPI)—A U.S. track and field squad which will compete in a series of European meets next month will be coached by Les Wallach of Rutgers University. An official of the Amateur Athletic Union, sponsoring the tour, announced Wallach's appointment.

The team of 30 men and women to make the tour will be selected following this weekend's AAU indoor championships at Philadelphia.

Philly 76ers, Knicks in Pursuit Of Front Running Baltimore Bullets

By United Press International Neither the Philadelphia 76ers nor the New York Knicks have given up their pursuit of the Baltimore Bullets in the National Basketball Association Eastern Division race.

The Knicks threw a 31-point final period at the Boston Celtics Wednesday night and the 76ers overtook the Phoenix Suns as the winners picked up half a game apiece on the idle Bullets.

Walt Frazier of the Knicks put on a one-man show in the final period at Boston, getting 13 of his total 28 points as he led New York back from a 10-point deficit to a 92-88 victory. New York took the lead for good with only 2:23 left on a

free throw by Frazier. Willis Reed had 27 while Sam Jones and John Havlicek led Boston with 22 and 21.

The Knicks, in third place, are now five games behind Baltimore.

Second-place Philadelphia got quite an argument from the Sun before posting a 104-97 triumph and cutting the Bullets' lead to three and a half games. Hal Greer was high gun for the 76ers with 26 points, but had plenty of help from Chet Walker and Archie Clark, each with 18. Dick Van Arsdale kept the Suns in the game with 22, but Phoenix dropped its seventh straight.

The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

Our Capsule Policy

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

Digest Waves The Flag

A gift of a replica of the Stars and Stripes, a 3 by 5-inch decal, was inserted in each of the 18 million copies of the February Reader's Digest.

Bidding all recipients to fly this flag proudly, the Digest calls our flag "symbol of America's unquenchable ideals ever since those ideals were first proclaimed" and urges its display to "express our support of the American credo: one nation indivisible, with liberty and justice for all."

There will be those who take a dim view of the magazine's generous gift, denouncing the flag and replicas of it as mere symbolism, whether for dislike of symbols sake or for denouncing the sake. Of course people can be honorable, loyal citizens with genuine love of their country, without waving a flag, and some who wave flags put on a great show of patriotism while planning moves in the worst-interests of the country.

But if the citizens of this country are to "come together," it must be in an attitude of trust. This means to credit the man who displays his flag with having gratitude for the blessings conceived in the United States and still enjoyed here. When he displays a flag, others should trust that it is his signal to the world that he believes in and is determined to carry the American dream forward.

Many are good and they do not attend a church. Yet when they do, they are signaling to the world that they believe in goodness — even though many church members do not live up to high standards of goodness and though some church organizations seem to accent things material rather than spiritual. Church attendance, then, could be symbolism, since it is one way men make public admission that they believe in goodness.

Willingness to express one's beliefs openly so that others may challenge them if they choose is a step in the quest for truth. The flag flyer must be prepared to say why he is a patriot, why he believes in the United States. The answer might be as the Reader's Digest commented editorially, that flying the flag is an affirmation of the "belief that only as each one of us gives strength to America can America give strength to us."

Since February marked the birthday of two great presidents, it was an appropriate timing of the gift to encourage professed support of this nation's original principles.

The accent may be on youth, but if so the message never got through to the voters when congressmen were elected last November. The average age of freshman senators in the present Congress is 46.5 way beyond the 30th year line of demarcation drawn up by those who make a cult of such things. The average age of freshmen representatives is even farther removed from the 30-year-old line. As a group their age is 47.6.

Perhaps if 18-year-olds had the vote they would have seen to it that younger members were elected to Congress. But it isn't likely. Just about every politician seems ready to give the privilege of voting to those as young as 18 years. Johnson was for it, and so was Nixon. The latter reiterated his feeling in the matter just recently.

Okay, so 18-year-olds are going to be allowed to vote. Let us say a privilege—not a right —(which the state can grant, and, therefore, can take away). The argument is that teenagers nowadays are

"concerned" and "responsible." "Concerned" meaning they are interested in politics, and "responsible" meaning they're capable of weighing the issues and making a decision based on reason. If so they are superior to large numbers of their elders.

Well, how about making 18-year-olds legally responsible all the way down the line — just as if they were 21? Their contracts of all kinds would be legal, as opposed to present circumstances. The 18-year-olds would be responsible for themselves. The "legal infant" would become "legal adult."

Those below 21 may not relish all the implications. But if they are ready to assume the responsibility of voting, it seems logical to grant youth their majority at age 18.

Whether this would affect the age of congressmen would be determined in the elections, of course, but the effect would have to be radical indeed to do much about changing Congress into a group of youthful lawmakers. The average age of all senators in the 91st Congress is 56.6 years; House members 52.2.

Straight Talk

By TOM ANDERSON

The Biggest Hoax of All

Everybody has lost in the government farm programs except the super-rich, and part-time cowboys farming for a loss instead of a living, the inflation-hedgers, real estate operators and the 203,000 bureaucrats in the USDA who farm the farmers.

The "supply management" theory that government knows more about producing for the market has been proved, again and again, a miserable failure. The patient has cancer and moderate prescriptions can't cure.

The "farm program" has produced high taxes for the citizen, high prices for the consumer, strait jackets and cost-price squeezes for the farmer and a free lunch for the rats. In one year alone, 1961, the cost of storing the overproduction was more than \$1 billion! By 1966 the USDA had the surplus production "under control," proudly announcing that our storage costs were then only \$643,000 a day. Bear in mind, Fat Cats get the storage payments, not farmers.

In his book "The Federal Farm Fable," Representative Paul Findley tells about an ingenious North Dakota farmer who divides his farm among the members of his family, so each of them can qualify for maximum government goodies. Twelve of his children under 12 collect \$50,000 a year from us taxpaying suckers NOT TO FARM. Another farmer rents a 300-acre farm, and, without working it a single day, puts the farm into the acreage-diversion program and makes an \$8,000 profit.

Thus the government steals billions from taxpayers to pay "farmers" not to farm. Most of the payments go to corporations, tax evaders, inflation-hedgers and other rich people purposely farming for a loss instead of a living, while the poor little farmer is driven off the farm into the overcrowded, unhealthy, crime-ridden cities. There is not now, and never has been, any excuse for a dole for the rich.

A major plank in President Nixon's farm plan will be massive land retirement — more of what we already have. More disease and no cure. The suggested program of massive land retirement involving retirement of whole farms would help dry up rural communities.

Fifty million acres are already in retirement — mostly placed there by the rich at taxpayers' expense. Massive land retirement, of course, attracts mainly marginal lands, leaving high-producing land in production. Massive land retirement also accelerates the displacement of rural people and forces additional migration to the cities. Massive land retirement on a larger scale would kill with one hand the efforts of the other hand to help feed the world.

The United States leads the world in imports of meat, sugar and forestry products and is second among nations in all basic food imports. The Federal Government, through its food stamp plan, school lunch program and direct aid to the poor, is "combating hunger" with imported foods.

As for the disciplinary powers of private schools, a federal court in New York threw out a case brought by demonstrators on the ground that the government could not interfere with the internal affairs of a private institution. So far, no case has gone as high as the Supreme Court, but it is likely that one will have to before a final determination on the rights of students, and of schools, is made.

We've Been Fighting Poverty With "Missiles"

The Manion Forum

By MARILYN MANION

Mr. Businessman, Wake Up! When we begin to teach children the economic facts of American life, we often get a refresher course in the subject ourselves. It is a pretty good course, too, because we can't talk to youngsters in vague generalities, or use elaborate theories; we must be simple and to the point.

So we tell them about the neighborhood butcher and baker—how they earn a living by supplying our needs. These everyday examples help explain supply and demand, employment, wages and the function of money. When you stop to think about it, small enterprises are the backbone of America.

Mr. Vern I. McCarthy, Jr. of Chicago is not a neighborhood butcher or baker. He is the President of Vulcan Containers, Inc. But McCarthy's company is a third-generation family enterprise, and it falls into the category of "small business."

McCarthy appeared on a recent Manion Forum radio program to point out some facts about business, government and our future. Here are a few of his comments:

"I might be speaking to a fellow-businessman, who I sense is not at all concerned about his government. He is rather apathetic come election time. He is not aware of the candidates or the issues. I challenge him by suggesting that the largest expense in his business is one that we call taxes.

"I suggest that perhaps he is not being as vigilant about the direction of this expense. In other words, the corporate dollars that he is entrusted with, as he is about other basic expenses of his business—such as raw materials, transportation, and the myriad of other costs he must meet.

"For instance, there is a constantly decreasing number of farmers in this country, yet at the same time we have more and more employees in the Department of Agriculture. I think this should cause many responsible people to ask why and to ask who are those people who are propagating this constant growth of government. Even though the original need might have been extremely valid, when it is gone from the scene and yet continues to absorb dollars year after year, something must be wrong.

"I am greatly concerned about the present epidemic of small businesses giving up. I have spoken to a number of businessmen who have sold their family businesses, even when they have sons to follow them. It is not that they are tired; it's the plain economics based on the realities of the impending inheritance tax and the continued intrusion of monopolistic unions.

"When you start a small business today, you must have an experienced expert at your side to guide you through a maze of taxes and regulations. All these roadblocks make it more difficult to start a business or to continue a small or medium-sized family business. This is making it ever more and more difficult to maintain the entrepreneurship which I feel is the basis of our country."

The Doctor Says

By DR. W. G. FRANSTADT

Chronic Loss of Blood May Be Anemia Cause Q—For about 15 years I have had to control my iron-deficiency anemia by taking liver extract. Now I find this doesn't control it any more. What do you advise?

A—In true iron-deficiency anemia, the only drug needed is ferrous sulfate. When this doesn't control it, a chronic loss of blood must be suspected and, when found, corrected.

Q—I am a housewife. My hemoglobin level varies from 9 to 11. In addition to treatment for this, I am taking Iodocin for my arthritis. Could this drug cause my low hemoglobin?

A—Indocin, like aspirin, may cause bleeding from the digestive tract and thus lower your hemoglobin level, which for women should be between 12 and 15.

Q—What foods are good for anemia? Is it true that port wine is good for anemia?

A—For most types of anemia, foods rich in iron are beneficial. These include liver, oysters, red meat, spinach and other greens and enriched breads and cereals. Alcoholic beverages are of no special value in the treatment of anemia.

Q—What is pernicious anemia? Is there any cure for it?

A—This disease of unknown cause is insidious in its onset. It is characterized by weakness, soreness of the tongue and numbness or tingling in the fingers. There is not only a low hemoglobin level and a low red blood cell count but also typical abnormalities can be seen in the microscopic examination of the red cells. The disease cannot be cured but it can be controlled by taking vitamin B-12. It is essential that this treatment be continued without interruption for life.

Q—Would a person taking vitamin B-12 for pernicious anemia for a long time be likely to develop liver trouble?

A—No.

Q—My mother has aplastic anemia. What is the cause and what is the best treatment?

WASHINGTON: Classic Red Tactic Be It Vietnam or West Berlin

By RAY CROMLEY

Washington Correspondent WASHINGTON (NEA)—Russia's Leonid Brezhnev is using in West Berlin a tactic that proved very effective in the Vietnam war.

The Viet Cong time and again terror-struck a hamlet, withdraw, then come back and repeat the performance to convince farmers their government has neither the will nor the strength to protect them.

This was one objective of the 1968 Tet offensives on Saigon, Hue and other major cities and province capitals. These tactics also aim at convincing Americans the war can never be won, no matter how many military victories we win.

In West Berlin the intermittent blockades and harassment have similar objectives: To convince the West Germans that the Americans, French and British will not come to their aid, that they stand naked and alone in any crunch.

To tire Americans of the struggle for a half city. It is certain Kremlin and West European officials are watching closely President Nixon's reactions to these moves, as they watched President Johnson's reaction—or lack of reaction—to Czechoslovakia.

The time and nature of the next Soviet-East German moves will depend in part on how the Kremlin strategists interpret the President's next steps. The Russians have a wide variety of choices. They do not need to harass U.S. movements of West Berlin—thus stirring up a hornet's nest. They could, more effectively as their next

Nixon's Hope For Summit With Soviet

By LEON DENNEN

Foreign News Analyst UNITED NATIONS, N.Y. (NEA) — President Nixon's journey to Europe is a diplomatic initiative that he hopes will lead to a summit meeting with Russia.

However, the President is too much a pragmatist to risk the peril of "instant summitry." He is not likely to repeat the error President Eisenhower made in 1955 when he went to Geneva to negotiate peace with the Russians while Moscow was accelerating the shipment of arms to the United Arab Republic.

By the time the "Spirit of Geneva" evaporated, Russia was well on the way to becoming a dominant power in the Middle East.

Nixon, obviously anxious to avoid such pitfalls, would like to have the firm backing of a united Europe before beginning the great debate with the Soviet Union. He wants to enhance his bargaining position by first strengthening the North Atlantic alliance.

The President also is playing for time since not even his favorite Kremlinologists really know who decides policy in Russia's ruling Politburo.

According to some Western intelligence reports, "soft-liners" like Premier Alexsei Kosygin and even the Politburo's veteran Mikhail Suslov are fighting for their political lives. They are ostensibly among the men who opposed Russia's invasion of Czechoslovakia.

Marshals, generals and hard-line Stalinists, who use Communist party chief Leonid Brezhnev as their puppet, are said to be reaching for more power. Communist diplomats from East Europe even believe that Russia is heading toward a military ("Bonapartist") dictatorship. They describe Brezhnev as a mediocre politician whose main interest is to re-establish Soviet supremacy among Communists.

Like Stalin and even Lenin, he exploits Marxist-Leninist ideology as the czars once used Pan-Slavism to further Russia's imperialist aims. The struggle for power in the Kremlin probably explains Moscow's conflicting policies. While the "doves" seek a detente with the NATO

step, suggest that the West Germans were shipping to Berlin materials used in that city to manufacture war equipment in violation of four-power agreements. This could require a detailed check on all shipments into West Berlin, inspections that might slow cargo enough to threaten the city's economy.

Some among the administration's advisers believe the long-run Soviet purpose is to convince the West Germans that they, like the French, should loosen their ties with the North Atlantic Treaty Alliance, build stronger connections with Moscow, take Russian suggestions on foreign policy, trade and armament.

One Russo-European specialist in the government calls this an attempt at the "Finlandization" of West Germany. Because of Soviet pressure, the Finns have gradually changed their external and internal policies so as to conform more closely with Russian desires. They have acceded to Russian suggestions on the make-up of their government. They are now under Russian pressure to tie their economy more closely to that of the Soviet Union.

Among West Germans considerable concern already exists about how far the United States is willing to go to back them up.

Numbers of West Germans are disturbed by the extent of the U.S. commitment in Vietnam, Thailand, Okinawa, Japan and Fomosa, by the weak U.S. reaction to Czechoslovakia and by the deterioration in France's relations with the North Atlantic Treaty Alliance.

nations, the hard-liners — who invaded Czechoslovakia and got away with it — are again warming up the cold war in Berlin.

It also explains why Yugoslavia's President Tito and President Nicolae Ceausescu of Romania, who are certainly in a position to know what goes on in the Kremlin, remain suspicious of Russia's intentions.

The two independent-minded leaders of the Communist world made this clear in a blunt statement after their recent meeting on the Yugoslav-Romanian border. Their declaration criticized the Kremlin's "new" doctrine which claims for Russia the right to intervene in any country where Communist regimes seem threatened.

It also reaffirmed the principle long ago enunciated by Tito that a country has a right to develop communism in its own way without interference by Moscow.

The Yugoslavs especially accept the possibility of "unpredictable" and "irrational" acts by Soviet Russia. They see Brezhnev as the tool of trigger-happy Stalinists backed by the military.

The struggle between the "hawks" and "doves" may not bring immediate changes in the Politburo. But there is increasing evidence that the "collective leadership" in the Kremlin is experiencing a crisis of confidence. The die-hard Stalinists are dissatisfied with the "weak" policies of Kosygin, the "cautious technocrat" and are pressing hard for his fall.

These are vital problems that Nixon must weigh carefully and explore with the NATO allies before embarking on another summit meeting with the Russians.

Although he lost 3,500 men, King Pyrrhus of Epirus, Greece, defeated the Romans at Asculum, Italy, in 279 B.C. The World Almanac says. On being congratulated for his victory the king replied: "Another such victory and we are undone." A pyrrhic victory is one in name only, the victor losing as much as or more than the vanquished.
