**BULL WINS THIS TIME** - Despite the frantic efforts of this cowboy, the bull has the advantage as he makes a sharp cut after coming out of the chutes. The boys' bull riding event ended the night session of the Kid Pony Show here Tuesday night at Recreation Park. (See Story on Page Two). Photo by Bob Kelly.

## Present Lull May Be Longest Of The War

### Ground Attacks May Stretch To September

SAIGON (UPI) - The present lull in Viet Cong and North Vietnamese ground attacks could stretch to September and become the longest of the war in Vietnam, U.S. military sources said today.

The military sources said they had changed their minds about last week's prediction of a new Communist offensive before the end of this month.

"July hasn't come off," one source said. "It's doubtful if there will be much this next month either."

B52 bombers blasted communist infiltration routes between Saigon and the Cambodian border again today. But only light and scattered action was reported on the ground.

The Allies reported killing 115 Communists in small engagements. Communist troops during the 24 hours ended Wednesday night shelled 11 targets but only two such attacks caused any damage or casualties. One American was wounded in the shelling.

The sources said an upsurge in shelling the night of July 5 might have been a Communist attempt to open a new campaign and that they were unable to keep it going.

The sources said they believed the lull has worked in the Allies' favor.

"This is the situation we need for pacification," one source said. "This is the situation we need for the ARVN (South Vietnamese army) to extend their control."

In the Mekong Delta, the U.S. today turned over fire support base Moore to the South Vietnamese army. It was the biggest base yet to be turned over to the Saigon government troops.

Military sources said the B52s dropped 700 tons of explosives on targets, some as close as 33 miles to Saigon. U.S. sources said an estimated 40,000 Communist troops are operating in provinces around Saigon and neighboring Cambodia.

Most of the points the bombers hit were in Tay Ninh and Bin Duong provinces. U.S. military sources have said they expect the Communists to try to seize Tay Ninh City and turn it into the capital of the Viet Cong's new provisional revolutionary government.

The U.S. Command said nine Allied targets were shelled late Tuesday and early today but seven of the attacks were listed as insignificant and the other two caused no fatalities.

U.S. infantrymen found a 7.5-ton rice cache 65 miles northwest of Saigon. In the Mekong Delta, American troops reported killing six communists in two sampans with no casualties to themselves.

**AROUND THE LAST BARREL** - This young girl has just completed the turn around the final barrel in the girls' barrel racing and is now stretching her horse towards the finish line in a race against the clock. The barrel racing events were a big part of the afternoon program at the Kid Pony Show here Tuesday. (See Story on Page Two). Photo by Bob Kelly.

## Houston Jury Returns Guilty Verdict For Tom R. Vessels

HOUSTON - A 17th District Court jury of 10 men and two women were deliberating today the punishment the state will impose on convicted Pampa rapist Tom R. Vessels.

Vessels was found guilty Tuesday by the jury of rape in the first degree, the second time he has been found guilty of the charge.

A Gray County District court jury found the 30-year-old former New Mexico man guilty of rape in 1966 and set his penalty at death in the electric chair.

But the Texas Court of Criminal Appeals ruled Vessels did not receive a fair trial in Pampa and granted him a new trial.

If the jury reaches a punishment verdict for Vessels who raped a Pampa housewife here in 1966, the trial will have lasted exactly one week.

Vessels' attorney, Warren Burnett of Odessa, put his client on the stand here in an attempt to prove his innocence. Vessels

did not take the stand in his Pampa trial.

But through the efforts of Gray County District Attorney Guy Hardin and a prosecutor from Harris County, testimony from two Amarillo women were the telling blows in Vessels' conviction.

Hardin had submitted a motion the two women be allowed to testify while Burnett filed a cross-motion asking Judge Dan Walton not to let the women's testimony be heard.

But Judge Walton ruled in favor of the state.

One of the women testified Vessels was the man who came to her home in the summer of 1966, after the rape in Pampa and attacked her with a knife.

Vessels served time in the state penitentiary for that crime.

The other Amarillo woman told the court that Vessels was the man who came to her home posing as a utility company workman and tried to gain entrance to her house.

This was the same ruse used to gain entry to the Pampa woman's house.

The state used 14 witnesses in the trial while Burnett used only one, Vessels, who said he came from the "poor side" of the tracks in Pampa and had never raped anybody.

Vessels showed no visible emotion when the guilty verdict was read.

TOM R. VESSELS convicted rapist

## State Detective Investigates Kennedy's Wreck

BULLETIN

EDGARTOWN, Martha's Vineyard, Mass. (UPI) - Sen. Edward M. Kennedy temporarily was found to be at "serious fault" for the auto accident which caused the death of his woman passenger and his license was suspended today pending a full hearing.

EDGARTOWN, Martha's Vineyard, Mass. (UPI) - A state police detective has been asked to investigate the circumstances surrounding the automobile accident in which a woman passenger of Sen. Edward M. Kennedy was drowned.

State Police Lt. George Killen was assigned Tuesday to assist Edgartown Police Chief Dominick J. Arena in the investigation of the accident late Friday or early Saturday when the 37-year-old senator's car ran off a narrow bridge into a pond on Chappaquiddick Island. Arena had asked the district attorney's office for help.

Dukes County Special Prosecutor Walter E. Steele told newsmen one of the objects of the investigation "is to determine if any additional charges will be placed against the senator."

Kennedy's wife Joan, and sister-in-law Ethel flew to Plymouth, Pa., Tuesday for the funeral of Miss Mary Jo Kopechne, 28, who was killed in the accident.

Killen was to talk to Joseph F. Gargan, a cousin of Kennedy, about the party on the island for former staff members of the late Sen. Robert F. Kennedy.

The senator was taking Miss Kopechne from the party, held at a cottage rented by Gargan, to the ferry for Martha's Vineyard, a three-minute ride from the island, when his car plunged off the bridge and landed upside down in about eight feet of water.

In a statement to police, Kennedy said he dived repeatedly to try to rescue Miss Kopechne from the car. He said he did not remember how he got out.

Kennedy did not report the accident until some nine or 10 hours later, about an hour after Miss Kopechne's body was recovered.

Arena has sought a complaint against Kennedy for leaving the scene of a personal injury accident.

## News In Brief

## Apollo Nears Earth, Splashdown Thursday

SPACE CENTER, Houston (UPI) - With earth's pull growing ever stronger, the men of Apollo 11 neared the midway point of their 60-hour return from the moon today anxious to get back home.

Now lighthearted and joking, Neil A. Armstrong, Edwin E. Aldrin Jr., and Michael Collins nonetheless looked ahead to their Pacific Ocean splashdown Thursday and recovery by the carrier USS Hornet.

The halfway point in time of the journey from lunar orbit to splashdown in the Pacific was due at 6:45 a.m. EDT. At that time, calculations showed Apollo 11 would be about 148,000 miles from earth and going 3,354 miles an hour. But because of the increasing pull of earth's gravity, the spacecraft will speed up considerably during the final 30 hours en route home.

Despite their obvious good humor and good health, Armstrong summed up the crew's feelings: "No matter where you travel, it's always nice to get home."

## Nixon Leaves S.F., Continues Tour

SAN FRANCISCO (UPI) - President Nixon arrived in California early today on his 11-day round-the-world journey, carrying with him the same message of peace America's astronauts left on the moon.

The Nixon party's Air Force jet touched down at San Francisco International Airport at 12:20 a.m. P.M.T. It will set out across the Pacific early this afternoon.

As the President left Washington Tuesday night, Vice President Spiro T. Agnew said: "The message of the olive branch left on the moon by astronauts Armstrong and Aldrin will be carried by the President in his personal effort to find the road to peace, progress and human understanding for all mankind."

"We wish him Godspeed success and a safe return."

Nixon left Washington in a monsoon-type rainstorm which forced him to drive to Andrews Air Force Base in nearby Maryland instead of taking the presidential helicopter. But the storm allowed him to leave an hour earlier than scheduled because it forced cancellation of the All-Star baseball game which he had planned to attend.

Nixon will fly to Honolulu, Hawaii, and then to Johnston Island which will be used as a shuttle base for his visit to the USS Hornet. He plans to be on the Hornet to chat with the returning moon astronauts in their isolated quarters.

Then he'll hop off at Guam for a flight to Manila, the Philippines and then to Jakarta, Indonesia. (See NIXON, Page 2)

WASHINGTON (UPI) - The Westinghouse Broadcasting Co. urged the Federal Communications Commission (FCC) today to adopt its version of a proposed rule limiting the three commercial networks' almost total control of prime time television programming.

AUSTIN, Tex. (UPI) - Oscar Cobb Speight Jr., 38, of San Antonio, Tex., flew over Austin Tuesday at an altitude of about 3,500 feet when the propeller of his single engine plane stalled. He looked down and saw only one car on normally busy Ben White Boulevard and promptly landed on the broad four-lane thoroughfare.

PLYMOUTH, Pa. (UPI) - Mary Jo Kopechne, one of the "Kennedy people," was buried Tuesday in the grey-brown earth of a tiny mountain-side cemetery near this mined-out coal town. Among her mourners was Sen. Edward M. Kennedy, in whose car Miss Kopechne, 28, met her death.

HOUSTON (UPI) - The Houston School Board will soon know if its freedom of choice plan will withstand a desegregation suit filed by the Justice Department.

## U.S. To Remove Poison Gas Bombs From Okinawa

WASHINGTON (UPI) - State Department officials said today they hope the U.S. decision to remove poison gas bombs from Okinawa will ease the strain on American-Japanese relations.

But the officials acknowledged that Okinawa, where the Defense Department has stored chemical munitions since the early 1960s, is likely to remain a sore point between the two countries for some time.

U.S.-Japanese relations were suddenly thrust into a near crisis last week after reports of an accident involving a highly toxic gas on Okinawa.

The Defense Department acknowledged Tuesday that certain chemical weapons had been stored on Okinawa.

## Top O' Texas Rodeo Attracts Top Riders

By RON CROSS

Dodge Brown, professional rodeo's second leading money winner this year, will try to add to his cache this week when the 25th Annual Top O' Texas Rodeo opens here tonight.

A parade at 4 p.m. today announced the opening of rodeo week in Pampa and the rodeo's first performance is scheduled to get underway at 8 p.m.

The rest of the week's performances will start at the same time and finals are slated Saturday night.

Cowboys will ride, rope and buck at the rodeo arena in Recreation Park.

Tickets are on sale at the Chamber of Commerce rodeo office and may be purchased at the gate also.

Brown, of Silverton, Ore., will be one of 149 cowboys competing here and trails leading money winner Larry Mahan of Brooks, Ore., in the all-around standings by \$6,286.

Brown has won \$25,594 in saddle bronc and bull riding this year while Mahan's leading total is \$31,960.

Brown is the only cowboy listed in the top 20 all-around list competing here with the other riders at rodeos in Cheyenne, Wyo. and Ogden, Utah.

Although Pampa's Jim Ivory,

who is ranked third in bareback bronc riding competition, won't be here, well-known Panhandle call roper Lee Cockrell will be.

Brown is the leading bull rider in the nation with \$16,397 and is sixth in the saddle bronc riding competition with \$8,974.

Besides Brown, Bill Stator and Kenning Bowman are two of the top bull riders here. Stator is fifth in the standings with \$3,867 and Bowman, from Calera, Okla., is 13th with \$3,930 won.

Denny Wingate in bareback riding, Brandon McReynolds in saddle bronc riding, Barry Burke in calf roping and Nathan Haley in steer wrestling are other names to watch.

Wingate, a Leon, Kan. product, is 14th in bareback riding competition with \$5,214 while McReynolds, who hails from Andrews, Tex., has won \$4,764 and is 12th in the saddle bronc listings.

Burke, who usually winds up in the National Finals Rodeo every year, is fifth in calf roping. The Duncan, Okla., roper has won \$10,869. Haley has won \$5,139 in steer wrestling and is ranked 14th.

Oklahoma State Senator Clem McSpadden will be the announcer. (See RODEO, Page 2)

## Braniff Airlines Has New Schedule

DALLAS (UPI) - Braniff International Airlines planned to announce its revised schedule, including flights between Hawaii and the Southeast and Southwest, within the next few days.

"All of our planning and preparations have been completed and we are ready to go," Braniff President Harding L. Lawrence said Tuesday.

Lawrence said the airlines opened offices in downtown areas and at the airports in the cities in which it will begin to serve. He also said 300 new personnel were trained and assigned.

The Civil Aeronautics Board in Washington said Braniff was granted routes from Honolulu and Hilo, Hawaii to the mainland cities of Atlanta, Dallas, Fort Worth, Houston, Miami, Fort Lauderdale and New Orleans.

"This new service will fill a great and long-standing need for the first direct access between a large area of the mainland and our 50th state," Lawrence said.

## 17th Anniversary O. King Farouk's Ouster Observed

CAIRO (UPI) - A top Egyptian defense official today marked the 17th anniversary of the ouster of King Farouk by proclaiming that Egypt has moved on the offensive against Israel.

War Minister Gen. Mohamed Fawzi said in the order of the day to the Egyptian armed that "the stage of active defense is over. The stage of liberation has begun."

President Gamal Abdel Nasser, whose rise to power began with the overthrow of Farouk, scheduled a nationwide television and radio address to mark the anniversary.

1175 Vie For Honors At Kid Pony Show

There were approximately 175 entries in the Kid Pony Show Tuesday with a double winner in both the afternoon and evening shows.

Joe Bridwell, Miami, won the boys' barrel race (I) with an 18.4 and the boys' stake race (I) in 11.0. He also placed third in boys' barrel race (II).

Pampa; 2. Rhea Lynn Shaw, 30.2, Durham, Okla.; 3. Whitney Caswell, 52.3, Pampa.

Boys' Barrel Race (Group II) 1. Donnie Lynn Pool, 19.7, Higgins; 2. Matt Russell, 19.3 (on RR), Pampa; 3. Jim Bridwell, 29.7 (on RR), Miami.

Girls' Barrel Race (Group III) 1. Carla Tuckness, 18.1, Canadian; 2. Lois Griffith, 18.6, Mooreland, Okla.; 3. Leslie Hale, 18.8, Miami.

Boys' Barrel Race (Group III) 1. Joe Bridwell, 18.4, Miami; 2. Allen Henry, 20.3, Lefors; 3. Ronny Lyon, 21.1, Pampa.

Girls' Barrel Race (Group IV) 1. Jody Freeman, 18.8, Pampa; 2. Charlotte Smith, 19.1, Shamrock; 3. Cindy Patterson, 19.3, Spearman.

Boys' Barrel Race (Group I) 1. Jeff Day, 18.0, Woodward, Okla.; 2. Larry Poteet, 18.4, Panhandle; 3. Kirk Flowers, 18.6, Miami.

Girls' Stake Race (Group I) 1. Jamie Greene, 21.1, Pampa; 2. Rhea Lynn Shaw, 24.1, Durham, Okla.; 3. Whitney Caswell, 30.5, Pampa.

Boys' Stake Race (II) 1. Scooter Mayo, 15.1, Panhandle; 2. Stephen Atchley, 19.2, Lefors; 3. Bobby Burrell, 21.2, Pampa; 4. Gary Griggs, 11.9, Skellytown.

Girls' Stake Race (II) 1. La Tonne Trimble, 12.0, Canadian; 2. Norma Griffith, 13.3, Mooreland, Okla.; 3. Jana Taylor, 12.2 (on RR), Pampa; 4. Jim Bridwell, 11.0, Miami; 5. Donnie Lynn Pool, 12.6, Higgins; 6. Thad Greene, 14.0, Pampa.

Boys' Stake Race (III) 1. Lois Griffith, 10.8, Mooreland, Okla.; 2. Janice Price, 12.1, Pampa; 3. Rolisa Hollis, 12.4, Pampa.

Girls' Stake Race (III) 1. Martha Maynard, 11.9, Amarillo; 2. Sandy Smith, 12.2, Groom; 3. Leatrice Vincent, 13.6, Lefors.

Boys' Stake Race (IV) 1. Carl Price, 11.7, Pampa; 2. Roy Whittenburg, 12.1, Amarillo; 3. Johnny Dell Harper, 13.2, Pampa.

Boys' Ring Race (II) 1. Billy Minyard, 28.6, Pampa; 2. George Coltrin, 31.0, Amarillo; 3. Matt Russell, 33.0, Pampa.

Boys' Ring Race (III) 1. Jim Morrison, 19.9, Pampa; 2. Krik Dauphin, 24.2, Mooreland, Okla.

Girls' Ring Race (IV) 1. Carolyn Johnson, 22.5, Amarillo; 2. Kim Dauphin, 23.1, Mooreland, Okla.

Boys' Stake Race (V) 1. Robert Schmidt, 12.1, Amarillo; 2. Mickey Parsons, 12.5, Miami; 3. Virginia Mooney, 9.7, Borger; 4. Becky Mayo, 9.8, Pampa; 5. Sherry Stevens, 10.1, Pampa.

Boys' Stake Race (VI) 1. Pampa; 2. John Spearman, 12.2, Pampa; 3. Jerry Jennings, 12.8, Skellytown.

Boys' Stake Race (VII) 1. David Boykin, 21.8, Childress; 2. Benny Turley, 23.3, Borger; 3. Barry Clark, 34.8, Jayton.

Boys' Stake Race (VIII) 1. Ricky Clark, Jayton; 2. Bubba Stevens, Pampa; 3. Bailey Patterson, Spearman.

Tuesday Afternoon Boys Bull Riding (Gr. IV) 1. Larry Poteet, Panhandle; 2. Monte Bentley, Pampa.

Girls' Flag Race (Gr. III) 1. Lisa Tuckness, 15.7, Canadian; 2. Sherry Smith, 17.2, Groom; 3. Shannon Shipley, 17.9, Stinnett.

Girls' Flag Race (Gr. IV) 1. Charlotte Smith, 13.3, Shamrock; 2. Leatrice Vincent, 13.7, Lefors; 3. Elaine Webb, 13.9, Mobeetie.

Boys' Flag Race (Gr. IV) 1. Roy Whittenburg, 13.2, Amarillo; 2. Frank Morrison, 13.6, Pampa; 3. Jeff Day, 14.5, Woodward, Okla.

Increase Given Further Study Insurance Rate

AUSTIN, Tex. (UPI)—A proposed hike in auto premiums by the State Insurance Board, scheduled to go into effect Sept. 1, will have to undergo further study.

Gov. Preston Smith said Tuesday he wants a committee he has appointed to "either justify or not justify this increase—this is what the people ought to know."

Smith called for an inquiry of auto insurance rates after industry spokesmen asked for an 11.4 per cent average increase in premiums earlier this month. The governor said the committee will begin its inquiry Thursday. A nine-member committee headed by former Gov. Price Daniel will investigate possible methods of reducing spiraling costs of auto insurance.

Sen. Chet Brooks, D-Pasadena, already has asked for a six-month "freeze" on auto insurance rates in Texas until three different committees studying the matter have reported their recommendations. However, spokesmen for the State Insurance Board said they doubted whether the increase could be forestalled. They said it might require court action to determine if the board has the statutory power to delay the increases.

Smith, who appoints members of the insurance board, could have a significant influence on what action the board eventually takes in regards to the rate hikes. Smith said he received a favorable response from the public on his call for an investigation of the insurance rates. Public reaction "has been just tremendous in accord with our position," he said.

Mainly About People

The News invites readers to phone in or mail letters about the comings and goings of themselves or friends for inclusion in this column.

Hi-Way Cafe after fire remodeling—opens Friday, 25th. Polyfoam, any size, 1/2" to 4" thick. Pampa Tent and Awning.

Attack (Continued From Page 1) northeast at least 25 civilians and Allied troops were killed or wounded in a double ambush near Da Nang. A bus struck a road mine during the fighting.

The battle broke out Monday 15 miles southeast of Da Nang when Viet Cong fired on a group of U.S. Marines and Navy engineers removing mines. The U.S. troops pulled back into the village of Phuoc My and the guerrillas fired 60 rounds of 60mm mortars into the village. A south Vietnamese militia unit was ambushed by the Viet Cong as it tried to come to the Americans' rescue.

Four South Vietnamese aboard the bus that struck a mine were killed and another wounded. In three actions Monday and Tuesday near Saigon, U.S. and South Vietnamese troops reported killing 20 North Vietnamese and Viet Cong at a cost of one American killed and 12 wounded.

Nixon (Continued From Page 1) Indonesia; Bangkok, Thailand; New Delhi; India; Lahore, Pakistan; Bucharest, Romania; and Mildenhall Air Force Base, Great Britain. It was also expected, though not announced for security reasons, that Nixon would make a quick side trip to Vietnam for a visit to troops in the war-zone. President Lyndon B. Johnson made two such trips while he was in office but they were not disclosed in advance.

Rodeo (Continued From Page 1) nouncer here for the second straight year. Famous trick roper J. W. Stoker will entertain the crowd nightly as the featured performer of the rodeo. The rodeo is under the production of Beutler and Sons, Elk City, Okla.

Obituaries

OTIS J. MOORE

Funeral services for Otis J. Moore, 77, who died Monday in Worley Hospital, will be held at 10:30 a.m. Thursday in Carmichael-Whitley Colonial Chapel with Rev. Dan Cameron, pastor of First Baptist Church officiating. Burial will be in Panhandle Cemetery.

D. R. BROWN

Drewie Rosco Brown, 69, resident southeast of Pampa, died at 7:45 a.m. today in Worley Hospital. Born Oct. 18, 1899, in Tennessee, he moved here from Oklahoma.

An employee of Cree Oil Co., 24 years, he retired in 1964. He was a member of Central Baptist Church, and was married June 30, 1925, to Georgia Evelyn Drinkwater at Drumright, Okla. Survivors are his wife, Georgia, of the home; two sons, Gene, Pampa, and Wade, Chico, Calif.; one daughter, Mrs. Bill Kidwell, Pampa; two brothers, Herman E. and Oran B., both of Gladewater; one sister, Mrs. Bedford Poteet, Cleveland, Okla., and three grandchildren. Funeral services are pending.

Conference Set By Credit Group

CANADIAN—The president and directors of the Canadian Production Credit Association will attend a group director and manager conference July 29-30 at Villa Inn in Amarillo.

Larry E. Albin, president of the association, along with directors M. Lawrence Elzey, C. E. Henderson, Wallace N. Hamker, H. H. Keahy, Hugh F. Parsell, and L. F. Etheredge will attend the conference. According to Albin the conference will permit association directors and managers to develop ways and means of improving credit service to farmers and ranchers of Texas.

One of the highlights of the conference will be a panel discussion on the legal, financial and credit aspects of agricultural conglomerates. W. H. Calkins, vice president of the Federal Intermediate Credit Bank of Houston, will moderate the panel. The panel will include W. N. Stokes, Jr., president of the bank, James E. Lewis, senior vice president of the bank, and James A. Rogers, secretary-treasurer of the bank.

Skellytown Man With Skelly For 25 Years

SKELLYTOWN, Tex. — Bernard E. Neeley, repairman at Skelly Oil Company's Crawford natural gasoline plant here, will celebrate his 25th anniversary with the firm on July 25. He was presented his service award watch last March at one of two dinners Skelly held in Pampa in commemoration of the firm's 50th anniversary. Neeley is a native of Oblong, Ill., and has been with Skelly's manufacturing department since 1944. He and his wife Pauline live on Rural Route 1 here.

# Highlights And Sidelights From The State Capitol

**By VERN SANFORD**  
**Texas Press Association**  
**AUSTIN** — It starts all over again Monday (July 28). Legislators will be back at the capitol, finishing up the finance chores they left dangling in their regular session.  
 Gov. Preston Smith, who called the special session after he rejected lawmakers' no-tax, one-year budget and insisted on adoption of a balanced biennial appropriations bill, apparently will spell out his recommendations on opening day.

Smith has been conducting a series of talks with business and industry leaders, exploring tax ideas. Legislators are expected to have to come up with a revenue measure totalling \$300 million or more.  
 Governor abandoned the idea of waiting until after the August 5 vote on an \$80 million welfare spending limit and other proposed constitutional amendments. Advisors and legislative leaders told him lawmakers will need every one of the 30 days allotted for the

special session to complete the big money job at hand.  
 Key legislative leaders have done some spadework on a \$5.6 billion two-year budget for the fiscal period extending through Aug. 31, 1971. No major difficulties are anticipated here, although some hitches could develop.  
 New court bills also are being drawn in preparation for special session effort, to enact a measure to replace the courts measure vetoed by Smith last month as reaching his desk too late.

**WATER FOR TEXAS** — Another state has offered Texas an option to purchase its surplus waters, State Water Development Board Director Howard Boswell revealed recently.  
 Boswell spoke in answer to criticism of Constitutional Amendment 2 on the August 5 ballot to authorize \$3.5 billion in bonds to finance a master water plan for the state.  
 Campaigns for and against the proposed amendment are heating up as election date nears. Proponents led by the

Governor's Committee of 500 argue that its failure would be "catastrophic" for the state and that the bonds will prove to be money makers for Texas as well as permitting orderly development of water resources.  
**INSURANCE PROBE ON** — Two tough critics of the insurance industry on occasion were named by the governor to his nine-member citizens committee which will investigate auto policy rate increases.  
 Smith named the panel after State Ins. Board staffers

recommended an 11.4 per cent rate increase.  
**OIL ALLOWABLE SLICED** — For the second consecutive month, Railroad Commission cut the statewide oil allowable, setting the August figure at 53.1 per cent of potential.  
 Top production would be 3,310,997 barrels a day. Allowable was lowered from 63.5 per cent of potential in June to 54.7 per cent in July. Nine major producers requested the same allowable as July. Three sought less and only two

asked for more oil during August.  
**COURTS SPEAK** — Supreme Court affirmed a farm anti-picketing order which labor unions claimed blunted the strike of field hands in the Rio Grande Valley.  
 Court of Criminal Appeals threw out the conviction of a San Antonio man who dressed as a woman in public because he was tried under an old Ku Klux Klan law prohibiting wearing of a mask in public.  
 One of two 600-pound antique

glass chandeliers, valued at \$1,000 each, on loan to the governor from the University of Texas, crashed to the floor of the Governor's office.  
 June job applications at the Texas Employment Commission office jumped to 92,907, compared to 35,507 in May as graduating high school students started looking for jobs.

By Abigail Van Buren

DEAR ABBY: I have been married nearly 30 years. We have grown children who all have families of their own. It seems that over the years I have lost my wife to our children. All her time is spent with this daughter or that son and their families, who all live within 20 miles of us. She has made a regular career out of "sitting" every evening with one of her grandchildren.

Night after night I have sat in my den alone watching television. My wife gets home about midnight or a little after, at which time I am already in bed.

My wife insisted I go out and enjoy myself, so I took her advice which led to meeting a beautiful 51-year-old widow. We are compatible in every way. In short, we have fallen in love. Now I'm not lonely anymore and neither is this widow.

My problem is, am I doing the right thing? How can I tell my wife about this affair? She doesn't suspect a thing as I'm always home before she is.

DISILLUSIONED: If you want what sounds like a "good excuse" for your affair, you have one. But that doesn't make it right.

DEAR ABBY: My wife spoiled our son until he was nearly five years old. He is nearly 16, and she is still "babying" him and catering to his every whim.

Unfortunately he is our only child so she has been able to devote her entire life to being a "good" mother to him.

Her excuse, "He will be going into the service pretty soon and I want him to enjoy life at home while he can."

The day he was eligible to drive a car she bought him one with her "savings." He has always been the best dressed kid in Highland Park, Ill., and

he's so spoiled you can smell him in Kenosha, Wis.

He is smart, but he's lazy, and barely makes his grades even with tutoring.

My question: If my wife decides to listen to a competent family counselor, can this kid be saved? Or do you think it's too late?

HIS FATHER: DEAR FATHER: It's never too late. The word from here is "try."

DEAR ABBY: As Dr. Paul Ehrlich of Stanford University has observed, "Anyone who stands in the way of measures to bring down the birth rate is automatically working for a rise in the death rate."

Those who understand what the unchecked increase in population means to the future of the world believe that it is morally wrong for a couple to have more than two children.

Tell "ARGUING" to explain that to her husband when he insists that she agree to having four children. (Or better yet, have two, and adopt two.)

CONSERVATIONIST: DEAR CONSERVATIONIST: Lord Brain of Great Britain, another like-minded man said it still another way: "When, wherever you live in the world, you can have children only when you wish, that will be a revolution with more far-reaching effects on the pattern of human culture than the discovery of atomic energy."

CONFIDENTIAL TO "MARINE'S GIRL": Do as he has asked you to do, and go with others while he is gone. If you really "love" him, and there is faithfulness in your heart, it will remain there until he returns. You are only 16, and a bit too young to wear a "RESERVED" sign.

## Men's Fashions By Parisian Designer Cause Heads To Turn In More Than 100 Countries

By ROSETTE HARGROVE  
NEA Staff Correspondent  
PARIS (NEA) — Many people of years ago, Pierre Cardin showed his first creations for men simultaneously with his bi-annual haute couture collections.

The smile is on Pierre's face these days. Of the \$27 million turnover he made last year, two-thirds of it came from his menswear.

His last-minute ideas will affect men's looks in close to 100 countries spread over five continents, beginning with the United States.

Cardin's "Plastique Boys" (as they are now called in Paris) caused quite a sensation at his combined summer and winter collection. To begin with, this imaginative creator decided to abandon his usual too-sophisticated "cover boy" models for a team of uninhibited students and blue-jean workers, which made for a relaxed approach, foreign to the usual ritual of a presentation.

He started with a few gags — high, skinny, shiny plastic boots in black or white worn with sleeveless tunics over wool turtleneck sweaters, sprinkled with Sam Brown belts, giant zippers and helmets. They looked like cosmonauts or musical comedy "motards" (motorized policemen) and very removed from the long-haired hippie.

Blazers in navy or black jersey topped white, gray or navy flannel pants and fastened with amusing triangular or square buttons for the fun of it.

Long, long, gaily striped scarves, like those of Oxford and Cambridge students, and colored shirts, with ultra-wide silk ties, contributed the relaxed note.

Hats which conjured up scenes from "Show Boat" and bright socks all pointed to the fact that the man of tomorrow is a bird of gay plumage. Relaxation being the order of the day, Cardin's contribution to semiformal evening scene consisted of shirts in soft linen with lace-edged bib-jackets or ascots pinned with a modernistic silver brooch. These were worn with the longer tuxedo or the cropped captain's jacket. There was also a long black velvet sleeveless tunic worn over a frilly white silk shirt which was reminiscent of the troubadour costume.

For resort wear, bermudas in printed terry cloth or long trousers with contrasting belt and incrustations on either side were amusing.

A new interpretation of the blazer signed Pierre Cardin is shown above. In navy or black jersey worn with bright shirts it is teamed with romantic hats.

Students and blue-jean workers modeled Pierre Cardin's recent collection for men. He made much use of black and white vinyl for sportswear and he featured tunics.

## Sorority Members List New Officers

Mrs. Joel Plunk was installed as president of Kappa Alpha chapter of Epsilon Sigma Alpha sorority recently in the home of Mrs. Ira Bewley, 1817 Duncan. Mrs. Plunk succeeds Mrs. Irwin Hungertford, who served as president during the past year, and who presided at the candlelight installation service.

and Mrs. Bewley. Preceding the ceremony was a salad supper to which each member had contributed a favorite salad dish.

Officers who will serve with Mrs. Plunk include Mrs. Robert Yost, vice president; Mrs. Joe Miller, secretary; Mrs. James Frazier, treasurer; and Mrs. Hungertford, educational director.

ESA is a cultural, philanthropic, and social sorority with more than 40,000 members in 1,600 chapters around the globe. Among the Pampa chapter's projects are: active affiliation with the Muscular Dystrophy Association of America, donating Thanksgiving and Christmas baskets to needy families in the area, and holiday parties for children at the school for mentally retarded in Pampa.

Other members present were Mrs. Dale Haynes, Mrs. Houston Fleetwood, Mrs. Milton Jones and Mrs. Charles Scott.

## Senior Center Corner

By MRS. O. A. WAGNER

About 70 members of the Senior Citizens group ventured out in the heat last Thursday when the temperature was 100 degrees.

Mrs. Anna Eckroat was given a surprise birthday party at her home Wednesday. Refreshments were served to 10 of her friends attending.

Mr. and Mrs. Raymond Darcey, son and daughter-in-law of Mrs. Myrtle Darcey, are vacationing in Canada.

Miss Nova Mayo, one of Pampa's junior high school teachers, is still in town. I had the pleasure of getting acquainted with her while playing 42. We had 17 tables of games playing Thursday.

Several relatives and friends came in last Saturday to help Mrs. Mollie Hethcock celebrate her 91st birthday. Her brother and sister-in-law, Mr. and Mrs. Emery Bell, Logan, Okla., attended. Others attending were Mr. and Mrs. Verner Bell, Woodward, Okla., Mr. and Mrs. Leon Norris, Booker, Okla., Mr. and Mrs. Roy Beck, Folette, all relatives, came with well-filled baskets. First Christian Church members sent a cake, jelly, canned apricots and grape butter. She also received a new dress and a perky red hat from a niece in California which she wore Thursday.

Hostesses serving refreshments were Delta Kappa Gamma members, Miss Pearl Spaug, Miss Nova Mayo and Mrs. Oletha Marlin. Altrusans serving with supervision were Mmes. Olive Hills, Lelia Clifford and Libby Shotwell, Marie Fitzgerald, Louise Sewell and Miss Jay Fanagan.

Door prizes were awarded to Mrs. Claude Lawrence, Mr. and Mrs. Jay Evans and D. W. Kendrick.

## POLLY'S POINTERS

Convert Bunk Beds Into Trundle Beds  
By POLLY CRAMER

DEAR POLLY — Grace wanted to know how to make trundle beds out of bunk beds. If the bunk beds have two high headboards, use one as the head and one as the foot of the high bed. Use the two low footboards at either end of the trundle or low bed which will slide under the taller one. Casters should be added to make it easier to slide in and out.

DEAR POLLY — If you do not want your spatulas ground up when using them in the blender, put the spatula in just to clear the blades, then mark that point on the handle with nail polish or anything that will not wash off. You will always know just how far the spatula can safely go into the blender.

DEAR POLLY — In converting bunk beds to a trundle bed Grace may find the upper bed has to be raised with wood blocks so the other will slide under it. Our blocks are eight inches long and about three inches thick, grooved to allow the hooks on the bed spring to fit in them. These are mounted higher than usual so the headboard on the low bed will clear the bottom of the top bed.

DEAR POLLY — Mrs. B. R. G. wanted to know how to care for her expensive off-white damask divan but didn't want to invest in custom-made slipcovers. An inexpensive method would be to spray it with a stain-and-water repeller. Spills will wipe off. This also is good for car upholstery.

Polly's Problem: DEAR POLLY — Does anyone know how to clean smoke film off an oil painting hung on a wall over a furnace vent? Thank you for any information.

The Office of Economic Opportunity reports there are now 4,503 VISTA volunteers. Since its inception, 16,048 have participated in this "domestic peace corps."

## Your Horoscope

JEANE DIXON

THURSDAY, JULY 24  
Your birthday Thursday: Personal prosperity, at whatever level fits your present work program, seems assured for the year. Adjustments come easier now, and there may be many journeys over familiar paths. Romantic interests thrive. Thursday's natives are likely to try almost anything new.

SAGITTARIUS (Nov. 22-Dec. 21): The day is promising; get an early start and try painstakingly for those things you want. The more effort you put into constructive action, the better the outcome. When quitting time comes, put the whole day's work out of your mind.

AIRIES (March 21-April 19): Social ties are susceptible to improvement Thursday. Put your heart as well as your mind into whatever you are about. New leads in your career are promising.

CAPRICORN (Dec. 22-Jan. 19): What you have to work with Thursday is mainly starting points and raw material. Nothing is finished now. Rest early in the evening.

TAURUS (April 20-May 20): Business during business hours, home life during your own personal hours; both are demanding Thursday, but keep them separate.

AQUARIUS (Jan. 20-Feb. 18): Your friends are attempting to be helpful, but have a tendency to say too much. Long distance communications are most productive.

GEMINI (May 21-June 20): Creative work prevails now. Everybody puts in his share Thursday to help.

PISCES (Feb. 19-March 10): You have a fair chance to make of your life what you will for the day; it's up to you. Pursue your career vigorously, especially where you have a new idea. Any social activity goes well in the evening.

CANCER (June 21-July 22): The trend is for general advancement, improvement of resources, better contacts for personal needs. Plan for a quiet evening.

LEO (July 23-Aug. 22): You can make another little step of progress upwards in your career. Your mate may outdo you and make even more progress. The later hours lend themselves to a gala.

VIRGO (Aug. 23-Sept. 22): A positive attitude helps avert fatigue and promotes your work-image with those who count. Save some energy for Thursday night's festivities.

LIBRA (Sept. 23-Oct. 22): Your work and organizational activity prosper Thursday. Friendships thrive and produce new contacts and shared interests. Relatives become more important. Cars, mechanical devices tend to balk.

SCORPIO (Oct. 23-Nov. 21): The effects of your planning take on exposure and the results begin to come back to you now and in the future. This could call for a celebration!

# Joe Daniel Named The Crazy World Texan Of The Month That Is Washington

Joe Daniel, III, son of Mr. and Mrs. Joe Daniel, 1928 Evergreen, was nominated young Texan of the month by the Pampa Optimist Club.

The nomination will place him in competition with other nominees throughout the state competing for the honor.

To be eligible for the competition a nominee must have a

JOE DANIEL... honored

background of organizational activity and academic excellence.

Graduating sixth in the 1969 graduating class at Pampa High School, Daniel has always excelled in scholastics. His sophomore year, he won second place in the Panhandle American History Contest sponsored by West Texas State University.

He was elected to the National Honor Society as a junior. In October, 1968, he was named a National Merit Scholar and subsequently received a Georgia

M. Wilkins National Merit Scholarship given by the University of the South, Seawane, Tenn.

Daniel has also been an active athlete. In junior high he played football and Babe Ruth baseball all three years.

In high school he played football one year and lettered in tennis three. He won the Outstanding Competitive Award for tennis in 1968 and won the Pampa Jaycee Junior Tennis Tournament in doubles.

Daniel has been active in student government, clubs and church. He was homeroom president and a member of student council each year in junior high and was vice-mayor his freshman year. He was a member of the Pampa High School Key Club and served as president during his senior year. He was also student council parliamentarian that year.

He served as president of both the junior and senior groups at St. Matthews Episcopal Church and serves his church regularly as an applicator.

An active scout since age 8, Daniel holds the rank of Eagle with 29 merit badges.

This fall he plans to enroll at the University of the South to pursue a course of study emphasizing the social sciences with the intent of becoming a historian.

Joe's scholastic and athletic records speak well of him. He is surely to be numbered among those outstanding students of the state. Paul R. Gobin, Young Texan Chairman of the Pampa Optimist Club, said,

## Washington Window

By HOWARD FIELDS

WASHINGTON (UPI)—Two authors, in a book just published, advocate the "complete abandonment of the nuclear power plant" program as unsafe.

The book, entitled "Perils of the Peaceful Atom," was written by Richard Curtis and Elizabeth Hogan and was published by Doubleday. It asks whether anything could be madder than to continue erecting this threat to the human race of incredible magnitude.

Dozens of such plants already are in various degrees of operation, construction or planning.

Two nuclear scientists replied after a review of the book. "It is strictly a biased, misleading, sensational political tract. It constitutes a public nuisance."

## Scientists' Review

Dr. James G. Beckerley, president of Radiotronics Inc. and co-author of a book on nuclear reactor safety, and Dr. Norman Hilberry, professor of nuclear engineering at the University of Arizona, said the book "is not a balanced account of the safety aspects of present and future nuclear power production."

Curtis, a free-lance writer, and Miss Hogan, a member of the Committee for Environmental Information, both from New York, charge that the Atomic Energy Commission promoted the building of nuclear reactors without giving proper consideration to safeguards and even at the sacrifice of some safety features.

The authors contend that atomic radiation is being released into the environment by even the smallest of the

reactors. They also decry the building of reactors so close to major cities.

As an example of the alleged danger, they cited an accident in 1966 at the Enrico Fermi power plant 30 miles south of Detroit. They said that due partially to untested controls, the Fermi reactor came close to bursting its walls and spewing "clouds of lethal gas" easily carried by the wind to Detroit.

The book says the government offered immunity to nuclear power plants owned by utilities in case of accident claims. The authors then ask:

"If utilities are sufficiently convinced of the safety of nuclear plants to be willing to gamble with the lives, health and property of the public, why are they not equally willing to assume financial responsibility for accidents at such plants?"

They also call for formation of some sort of committee to lead the fight against nuclear reactors.

BOULDER, Colo. (UPI)—The United States edged the Soviet Union 51-50 to capture the freestyle title in the World Junior Wrestling championships.

## Ptolemy Formed Laws Studying Moon

From the time Ptolemy (150 A.D.) first formed laws from studying the major improvement in man's knowledge of the moon—an until Tycho Brahe began to accurately plot the moon's centuries.

## Television in Review

By RICK DU BROW

HOLLYWOOD (UPI)—With man's moon-landing just several days off, I have been searching with increasing desperation for something brilliant that a television writer may have written about the moon.

I have found nothing. Television writers don't write much about the moon. They don't have much chance to. The ratings system doesn't bring out the moon in a writer. The closest thing you are likely to come to moon poetry in an anthology of past television is "Moon River," if you know what I mean.

The weekend's buildup to the moon landing will bring us, finally, some poetic tributes and dramatic readings about the moon let's have a nice round of applause for the moon, folks.

Meanwhile, we have to go back to those sublime practitioners of the written word—Shakespeare (William) Whitman (Walt) and Shelley (Percy Bysshe, not Shelley the press agent)—to give the moon its proper due. None of these fellows had to worry about ratings.

You remember Shakespeare had Romeo say: "Lady, by yonder blessed moon I swear, That tips with silver all these

fruit-tree tops. And then of course Juliet replied: "O, swear not by the moon, the inconstant moon, That monthly changes in her circled orb, Lest that thy love prove likewise variable."

Then there was Shelley: "Heaven's ebony vault, Studded with stars unutterably bright, Through which the moon's unclouded grandeur rolls, Seems like a canopy which love had spread To curtain her sleeping world."

Whitman, in "Dirge for Two Veterans," wrote: "Lo, the moon ascending Up from the east, the silvery round moon. Beautiful over the house-tops, ghastly, phantom moon. Immense and silent moon." So far as I know, none of the above poets got more than a "good agent," or had an accountant or business manager. But I think all of them knew a personal manager named Sheldon. History records there has always been a Sheldon.

**87 THOUSAND MILES OF HOT DOGS**—In the eight years since Armour and Company opened its food processing units at Houston and Arlington the company has produced 37,878 miles of hot dogs, Bill Bass, Southwest Area Manager, figures this is enough to encircle the State of Texas more than 13 times. Clyde Souchon, Armour executive, throws a hot dog lasso around a cutout of the state to illustrate the point. During the eight years of operation of the two Armour units the company has expended a total of \$285 million in Texas for materials, supplies, cattle, payrolls and other necessities, W. L. Tunnell regional manager for Armour, reported.

## Armour Gives Texas Economy Millions

HOUSTON (Sp) — Armour and Company's Houston and Arlington food processing units have poured a grand total of \$285 million into the economy of Texas since they were opened eight years ago.

This was announced today by Bill Bass, Southwest Area Manager for Armour's 10-state area headquartered in Houston.

The largest single expenditure in this total was \$218.1 million for cattle while the remainder is accounted for as follows: \$39.6 million for salaries and payroll; \$12 million for materials and supplies; \$12.7 million for maintenance replacements and related costs. Fuel, water and electricity costs during the eight year period totaled \$1.7 million, Bass added. "Armour is gratified to have been able to participate in the

**DESIGNS HELMET**

## Foreign News Commentary

By PHIL NEWSOM  
UPI Foreign News Analyst  
Window on the world:  
Lull before storm:  
Paris observers say the present summer doldrums gripping the French political scene may be a deceptive quiet before a nasty storm in the fall when the millions of French workers, now on vacation, come back and find that just about every commodity price has gone up. Ignoring warnings of the French government that sharp wage increases would further push up the inflationary spiral, trade union leaders have put Premier Jacques Chaban-Delmas on notice that they will demand wage hikes averaging 7 per cent when the summer holidays end in September.

**Accent on youth:**  
The horde of American journalists descending on Manila for the first stop in President Nixon's Asian tour possibly will be dealing with the newest and youngest member of the Philippine cabinet—a bright 28-year old former newsmen who is awaiting formal appointment as Philippines presidential press secretary. He is Francisco Tatad, former political columnist and diplomatic reporter for the Manila Daily Bulletin. He has been asked by President Ferdinand E. Marcos to take the post and may be sworn into office before Nixon's arrival July 26.

**MISS TEXAS HONORED**  
LONGVIEW, Tex. (UPI)—Mayor D. A. Benton proclaimed today as "Dana Dowell Day" in Longview in honor of Dana Lee Dowell, Miss Texas of 1969. The city's Jaycees and Jayettes planned to host a reception for Miss Dowell today.

desire for a regional defense pact, the latest to call for it being Malaysian Prime Minister Tengku Abdul Rahman. But despite the wish, there is not yet the will. Malaysia has internal problems which must be settled first. Indonesian President Suharto has put off his visit to Malaysia until next year. His agreement to the pact, which would be directed primarily against Red China, is essential if it is to have any meaning.

**Common Market:**  
The European Common Market meeting to consider Brism's entry probably will be held in November—after solution of Italy's internal political crisis and West Germany's general elections in September.

**WOULD RAISE WELFARE**  
DALLAS (UPI)—The controversial proposed amendment to the Texas Constitution which would raise the state's welfare payment ceiling has received the endorsement of the Christian Life Commission of the 1.8 million member Baptist General Convention. The commission endorsed the proposed amendment Monday. The proposal would authorize the state to spend an additional \$20 million a year on welfare payments.

In 1964 Barry Goldwater, accepting the Republican presidential nomination, said in part — "Extremism in the defense of liberty is no vice...moderation in the pursuit of justice is no virtue."

# All-Stars Will Try Again Today

WASHINGTON (UPI)—In the face of an ominous weather forecast, they'll try again at 12:45 p.m. CDT today to stage baseball's 40th annual major league All-Star Game. The only change in the pitching plans was Spiro Agnew for Richard Nixon.

The U.S. Weather Bureau saw a 50 per cent chance of more thunderstorms like the Tuesday evening deluge that forced the first postponement of the midsummer classic since it was started in 1933.

The starting pitchers remain the same—southpaw Steve Carlton, 22.5, for the slightly favored National League and right-hander Denny McLain, 4-5, for the home team American League.

But the rain washed out the scheduled appearance of President Nixon, honored only hours earlier as the "Nation's No. 1

baseball fan," as the ceremonial first-pitch tosser. Nixon had to leave late Tuesday night for San Francisco on the first leg of a world tour.

Thus the first-pitch honor in baseball's centennial summer falls to Vice President Agnew. Carlton, the St. Louis Cardinals ace lefty who bot the game starting assignment because he was well rested, was annoyed by the postponement because now he figures he may be too well rested.

"I haven't pitched since last Wednesday," Carlton pointed out. "That's six days rest and it could be too much. I think perhaps I would have been sharper last night."

Another rainout last Sunday when Carlton had been scheduled to pitch for St. Louis, was a factor in his long absence from the mound. Schoendienst said today he has made no change in his plans to follow

Carlton on the hill with first Juan Marichal of the San Francisco Giants and then either Bill Singer of the Los Angeles Dodgers or Phil Niekro of the Atlanta Braves.

Smith still declines to pick the pitchers who will follow McLain, preferring to wait and see how the game develops.

**The Lineup**  
 WASHINGTON (UPI)—The starting lineups for today's All-Star baseball game:  
**National League:** cf. Alou, Pitt; ss. Kessinger, Chi; rf. Aaron, Atl; lb. McCovey, SF; 3b. Santo, Chi; lf. Jones, NY; c. Bench, Cin; 2b. Millan, Atl; p. Carlton, StL.  
**American League:** 2b. Carew, Minn; cf. Jackson, Oak; rf. E. Robinson, Blt; 1b. Powell, Blt; lf. Howard, Wash; 3b. Bando, Oak; ss. Petrocelli, Bos; c. Freehan, Det; p. McLain, Det.

STEVE CARLTON to start

## Errors Deal Haynes, Pampa BR Stars Loss

GRAHAM — What happened to Pampa Babe Ruth pitcher Gary Haynes Tuesday night shouldn't happen to any pitcher. Top-seeded South San Antonio scored a run on two Pampa errors and a hit in the top of the seventh to hand Haynes and the Pampa stars a killing 2-1 defeat in the second round of the West Texas State tournament.

Pampa now meets Kenrick at 6 p.m. today in the losers' bracket of the double elimination tournament.

Haynes had relieved Pampa's ace pitcher Doug Thompson with one out in the second inning when the Pampa pitcher was wild with his tosses.

The 15-year-old hurler had stopped San Antonio on three hits and one run until the seventh.

But after two were out the Pampa fielding, which had just two errors in five previous games, came apart at the seams.

John Smith was safe on Thompson's second error of the game and Dave Murdock reached first on shortstop Mike Edgar's throwing error with Smith going to third.

Then pitcher Jim Dennis got only the fourth hit of the evening off Haynes to plate Smith with the winning run.

Haynes had pitched 12 previous innings in the playoffs, winning two games and had allowed no earned runs on four hits.

The only earned run off him came in the sixth when a leadoff single, fielder's choice and two walks forced in a run.

Pampa, held to only five hits by Dennis, who struck out 14 Pampa batters, scored its only run in the sixth.

With one out Thompson singled, stole second, went to third on an error and scored on Edgar's second hit of the night.

In the five and two-thirds innings he worked Haynes fanned five and walked two.

San Antonio threatened several times before they scored.

Two walks and a single in the first inning failed to score a run when Wes Johnson was cut down at the plate on a great throw by center fielder Greg Shultz.

Haynes came in with one out and runners on second and first but got the next two batters to ground out harmlessly.

# President Jokes With Old-Timers

## SPORTS PARADE

WASHINGTON (UPI)—Richard M. Nixon likes to needle a little.

He found a time prime target in Lefty Grove, officially designated the greatest left-handed pitcher in history and the type of performer whose annual season record generally was something like 28 and 12.

"Why did you lose so many games?" the president asked the white-haired 69-year-old Philadelphia and Boston ace, possibly having been tipped off that Grove was especially sensitive about every single defeat in his hey-day.

Proud as always, Lefty Grove, six-foot-three of him, raised tall and came right back with:

"It wasn't me; it was the other eight guys. You'd have to ask them."

The president laughed heartily.

The East Room of the White House isn't ordinarily given over to a dance but the people in baseball had a ball there Tuesday, a few hours before the All-Star game was rained out and moved up to today.

In a remarkable display of hospitality, cordiality and patience, Richard Nixon stood at the head of the receiving line along with Bowie Kuhn, the baseball commissioner, for almost an hour and greeted nearly 400 various baseball personalities.

The guests included Joe DiMaggio, Mrs. Babe Ruth, Casey Stengel, Tom Seaver, Ted Williams, Ron Santo, Mike Andrews and Jerry Koonsman—along with hundreds of other players.

Few larger receptions ever have been held in the East Room.

"Do you think this was the biggest one ever here?"

When Jim Lonborg, the Red Sox pitcher stepped up, Nixon said:

"It's nice to meet another Californian. How's the leg?"

To Jim Campbell, Detroit's general manager, he said, "I hope you get back up there again," and when Frank Cashen, Baltimore's executive vice-president was introduced, Nixon grinned and offered:

"You have nothing to worry about."

Cashen, taken aback for an instant, replied: "Oh yes, I do."

The president greeted Seaver this way: "Oh, I know you. You were a good pitcher even before the Mets were good."

He told Mrs. Babe Ruth, his wife still had an autographed picture of the Babe and he mentioned to Mrs. Lou Gehrig he had once seen her husband play in a previous All-Star game.

Ford Frick, who used to be baseball commissioner, also was at the reception which was held in conjunction with the game's 100th anniversary. He has been a guest in the White House previously, but he said he never saw anything like this before.

"The president practically turned over the white house to baseball," Frick said. "I don't believe anything like this ever happened before."

It never had.

Richard Nixon, the man responsible for it, had the best time of all.

SACK-RACING is the bag of Mary Harris, 12, of Greensboro, N.C. In city recreation race, she was among top finishers — but almost lost her sack.

RON HOLMBERG of Highland Falls, N.Y., keeps close eye on ball during U.S. Pro Tennis Tournament at Chestnut Hills, Mass. He watched so closely, he upset Cliff Drysdale.

## Bragen Slates More Changes In Texas League

FORT WORTH, Tex. (UPI)—When the list is made of the more conservative figures in baseball, along with the name of Bill Veeck, the name of Bobby Bragan also can be left out.

And when Bragan took over last year as president of the Texas Baseball League, he did nothing to change his image.

First of all he decked out his umpires in multi-colored uniforms which look as though they came right off the Paris designers' tables.

Now he has a couple more ideas up his sleeve. He's thinking about putting a stop watch on Texas League scoreboards to keep games going at a rapid pace.

And he's also tinkering with the idea of having an annual game between the Texas League all-stars and one of the league's parent Major League teams.

These notions, along with several others, will be discussed when Bragan convenes a meeting of the Texas League directors July 29 at Memphis, Tenn. July 29 also is the date for this year's Texas League all-star contest also to be played in Memphis.

Bragan's idea for a stop watch works something like this: After each pitch the scoreboard clock will start ticking and if the next pitch is not thrown within a designated time—say 25 seconds—then either the pitcher or the batter, will be penalized.

CHICAGO (UPI)—Daryl Gralka, the only Texas lass still competing in the United States Lawn Tennis Association national girls' 16 and under tournament, has advanced into today's fourth round after an easy upset victory.

Miss Gralka, the tournament's No. 9 seed from Houston, knocked over seventh seeded Susan Epstein of Miami, Fla., Tuesday, 6-0, 6-2.

The win put Miss Gralka into today's semifinal rounds.

Defending champion and top-seeded Janet Newberry of La Jolla, Calif., scored a third round win of 6-4 and 6-3 over Susan Vinton of Sarasota, Fla.

In other third round singles action, eighth seeded Susan Stap of Deerfield, Ill., defeated 10th-seeded Brenda Garcia of Lafayette, Calif., 6-2, 6-3; 13th seeded Janet Thomas of Tulsa, Okla., upset fourth seeded Linda Lewis of Palos Verdes, Calif., 2-6, 7-6, 6-3; and 12th seeded Laurie Tenney of Scarsdale, N. Y., upset sixth seeded Barbara Downs of Alamo, Calif., 6-3, 6-3.

Andra Voikos of Pawtucket, R. I., defeated Marita Redando of National City, Calif., 7-5, 6-3; Chris Everet of Fort Lauderdale, Fla., defeated Ann Kiyomura of San Mateo, Calif., 6-4, 6-2; and Eliza Pande, of Palo Alto, Calif., defeated Kay Schroyer of Arlington Heights, Ill., 6-1, 6-0.

## Favorites Advance In National Tennis Meet

INDIANAPOLIS, Ind. (UPI)—It was a day to play the favorites Tuesday as all top seeds advanced in men's singles of the National Clay Courts tennis championships at Woodstock in Indianapolis.

The second round of men's singles was slated for today along with the completion of the first round of women's singles was slated for today also hoped to get in some doubles to bring the rain-delayed event up to schedule.

Top seeded Arthur Ashe, Richmond, Va., Uncle Sam's top Davis Cupper and the 1967 clay courts king, won his first-round match Tuesday by default over Steve Faulk, Madisonville, La.

Cliff Richey, San Angelo, Tex., who Monday won the Western title at Cincinnati, was extended Tuesday by Jamaica's Rich Russell, but finally won, 6-1, 5-7, 6-3.

Charles Pasarell, from Puerto Rico and the No. 6 American seed, was forced to a three-set match to beat Roy Keldie, Australia, 8-6, 6-8, 6-2.

Defending champion and second-seeded Clark Graebner,

New York, stopped Victor Crotta, Italy, 6-3, 6-2. No. 3-seeded Stan Smith, Pasadena, Calif., defeated Sergio Palmieri, Italy, 6-4, 6-3.

Fifth-seeded Bob Lutz, Los Angeles, defeated Paul Laagre, Mexico, 6-1, 6-3.

Bill Bowery, Australia, the No. 2 foreign seed, defeated Dan Bleckinger, Oshkosh, Wis., 6-2, 0-6, 6-4; No. 4 foreigner, Allen Stone, Australia, defeated Roy Sprenghelmeyer, Dubuque, Iowa, 6-3, 6-1, and sixth-seeded foreigner Pancho Guzman of Ecuador defeated Dave Harmon, Salt Lake City, 8-6, 4-6, 6-3.

Nancy Richey, San Angelo, Tex., Cliff's sister, had won her first set, 6-0, over Marie Cardenas, Peru, when rain halted their match Tuesday. They were to continue today, as Miss Richey goes after a record seventh straight women's singles title.

Patti Hogan, the fourth-seeded American woman from La Jolla, Calif., lost by default.

The tennis stars are competing in the \$25,000 tourney for the first time at Woodstock since the past several years. Top prize in men's singles is \$5,000, while the women's singles champ gets \$1,000.

## Little League All-Stars Meet Starts Tonight

A Little League All-Star tournament gets underway at Optimist Park tonight with two games slated to get underway at 8 p.m. on the American and National League Parks.

The National League East All-Stars meet the American League West stars on the American League diamond and the American League North plays the National League South on the National League diamond.

The double elimination tournament is slated to end Saturday.

In baseball its three strikes and you're out and the same may now be true for football player Allen Jacobs of the New York Giants.

### Squads Set For Annual Greenbelt Game

CHILDRESS, Tex. (UPI)—During last year's high school football season, the name of quarterback Terry Kinnard of Lamesa was not often mentioned alongside that of Lex James of Houston Sam Houston.

Nor did one hear of Randy Parker, a running back from Colorado City, in the same breath as Joe Wylie of Henderson.

Perhaps that best explains the motive behind the Greenbelt Bowl which features players, graduating high school players, who were not picked for college scholarships. This year's game—the 20th annual such affair—is set for Aug. 16 in Fair Park Stadium.

Backers of the game invite 44 players from both Texas and Oklahoma to play in the game. The squad then is divided into two teams—22 players each with an East playing the West.

Selection Committee Chairman Weldon Hayes said Tuesday he received acceptances from 37 of the 44 players invited for this year's contest.

On an average, about 12 or more players display enough talent in the game to receive scholarships or perhaps grants from the scouts who watch the contest.

One such player is Cleveland Browns quarterback Frank Ryan, who said he would attend this year's Greenbelt Bowl to participate in a reunion with other former participants.

By position, the players who accepted invitations to play in this year's game are:

Quarterbacks—Kinnard; Albert Graser, Waco; Kelley Williams, Shamrock.

Backs—Danny Lane, Randy Barber and Donald Hill, all of Childress; Parker; Gary Fisher, Electra; Jerry Austin, Lubbock; Coronado; Terry Cole, Wheeler; Eddie Harmon, Quanah; James Spruill, Memphis.

Centers—Johnny Mathews, Colorado City; Johnny Lucy, Holiday; Bobby Green, Dallas; James Tucker, Wheeler.

Guards—Bill Collier and Harold Fuller, both of Childress; John Hodges, Big Spring; Doug Howard, Mansum, Okla.; Larry Comer, Silvertown; Kevin McClellan, Phillips; Donnie Michalik, Munday.

Tackles—Bernard Mushinski, Paducah; Phillip Erms, Seymour; Odie Kissiar, Perryton; Phillip Longan, Clarendon; Bobby Jester, Fort Worth; Darrell Marshall, Matador; Gale Smith, Amarillo Palo Duro; Kelly Cash, Crosbyton.

Ends—Eobby Gutierrez, Canadian; Armando Renteria, Ranger; Jay Johnson, Jacksboro; Jerry Brady, Dimmitt; Happy Fourton, Abilene High; and Mark Graves, Borger.

and 1968 season because of injuries, made it three years in a row Tuesday when he broke his left arm during a contact drill and was told he would be out for the season.

The 6-foot 215-pound fullback, who came to the Giants in 1965 from the Green-Bay Packers, will be operated on by team physician Dr. Anthony Pisani at Park City Hospital in Bridgeport, Conn.

Frank Ryan, the veteran

quarterback of the Cleveland Browns, who lost his job to Bill Collier's appraisal of Ryan. The coach also was pleased with Gary Collins, the wide receiver who missed most of the 1968 season with a shoulder separation.

Three players are still missing from the Cleveland camp—defensive halfback Erich Barnes, who is tied up with business transactions in New York, and two rookies Ron Johnson and Al Jenkins.

Coach Dick Nolan of the San Francisco 49ers threatened to trade holdouts Clifton McNeil and Howard Mudd, each of whom was scheduled to report last Sunday.

could get someone who could help me," said Nolan. "I'm trying to get a team together."

McNeil and Mudd, who are looking for more money, are being fined for every day they miss camp.

Claudis James, the sometime Green Bay Packer, said he was ready to play this season despite the contradictory claims of the Los Angeles Rams.

James, who was traded to the Rams last week for a high draft choice, was sent back to Green Bay because Los Angeles claimed he had a knee injury.

The speedy receiver, who was injured in a game against Atlanta last season in which he caught two touchdown passes, is awaiting results of new tests on the knee and is confident he can play for someone in the league.

never could come close to reaching an agreement on a contract.

He also said he would like to play in Texas where he could continue his education and look after business interests. He owns a boys camp in Texas along with another former Texas Longhorn—linebacker Corby Robertson.

Gilbert, who averaged more than 1,000 yards rushing per season over his three years at Texas, is the biggest name to

### TFL Serves Notice It Will Be Tough League

HOUSTON (UPI)—The Texas Football League apparently wants outsiders to begin to take the loop a little more seriously.

The loop signed the most prolific runner in the history of the Southwest Conference Tuesday and now is after the hottest unsigned property in football today—namely O. J. Simpson.

"I offered Simpson \$80 per cent of the net gate for our eight home games, or a flat \$15,000 per game for our entire 16-game schedule," said High,

one of five owners of the TFL's San Antonio Toros.

"I frankly don't see how he can turn the offer down, if he is as great a drawing card as he says he is," High said.

"We have a 20,000-seat stadium and even if we drew 15,000 per game he could make a fortune. That would gross about \$75,000 and we need approximately \$20,000 for stadium rental and other expenses. Take about 80 per cent of that and you have \$44,000 per game

or better than \$350,000 for the season."

"It's not every day you get offered that kind of money," Simpson said in Los Angeles.

"My manager called me and told me about it this morning. I'm flattered to receive it. But right now we're still hopeful we can work something out with the Buffalo Bills. I'm hopeful we can because I want to play in the National Football League.

with Buffalo or a trade, then we'll go on to the outside offers," Simpson said.

Chris Gilbert, the leading runner in the history of the Southwest Conference, signed a contract Tuesday with the TFL's Fort Worth Braves. The size of the contract was not disclosed.

Gilbert, a second-string All-American last year at Texas, was drafted fifth by the world champion New York Jets, but Gilbert said he and the Jets

never could come close to reaching an agreement on a contract.

He also said he would like to play in Texas where he could continue his education and look after business interests. He owns a boys camp in Texas along with another former Texas Longhorn—linebacker Corby Robertson.

Gilbert, who averaged more than 1,000 yards rushing per season over his three years at Texas, is the biggest name to

ever sign with the Texas Football League.

Simpson was selected by the first round of last year's common draft. But it is no secret he and the Bills' owner George Wilson have had some trouble in coming to terms.

Indianapolis of the Continental Football League also offered Simpson a sizeable sum to play pro football. The Texas Football League is a division of the Continental League under a recent realignment.

### Allen Works To Get Back In Shape Again

PHILADELPHIA (UPI)—Philadelphia Phillies long-ball hitter Richie Allen returned to Connie Mack Stadium Tuesday. He immediately set to work poing the long ball, but the 33,606 seats were empty because of the All-Star Game recess.

Allen was reinstated by Manager Bob Skinner on Sunday, but Skinner said his mod-dressed first baseman wouldn't play "until he is in shape to play." The manager indicated that would probably be around Thursday at the Astrodome in Houston.

Contrary to habit, Allen was on time for batting practice Tuesday. The slugger who returns with a .318 batting average picked up where he left off clubbing one ball onto the left field roof and hitting the next one over it.

McCRUM DIES  
ST. LOUIS (UPI)—Reid McCrum, 65, treasurer of the St. Louis baseball Cardinals, died Sunday of an apparent heart attack. He was also treasurer of Anheuser-Busch Inc., which owns the National League club.

## Hitching Hopes To Stars

One of the paradoxes of our times is the current upsurge of interest in the occult while reliance on the reasoning process also is growing. Business never was better for the casters of horoscopes and authors of books on astrology and prophecy.

What makes it even more paradoxical is that so many young people, reared in an age of science, are dabbling in astrology, witchcraft, spiritualism, tarot cards, the mysticism of the East and the like.

Campus bookshelves are filled with books on sorcery and astrology, reports the Rev. Andrew M. Greeley, a lecturer in sociology at the University of Chicago and director of the university's National Opinion Research Center. The Confucian system of "I Ching" to guide decisions is "particularly popular at Catholic girls' colleges," he says.

Greeley attributes the new interest in part to a revolt against science (we believe what the good Reverend really has reference to is "scientism," which is something else, again) which students say is failing to solve problems, and in part to an effort to fill the void left by a turning away from conventional religion. Some students also see in the occult a chance to control their own destinies, even though they may only half believe that it works.

While the supernatural may be a novelty to the young, fascination with it is as old as mankind. Even today, it exists

beneath our thin veneer of scientific rationality.

One of the newest publications directed at this enduring interest is called "Psychic." In its inaugural issue, the magazine reports that "disaster warning systems" have been set up in London and New York.

In London, the Central Premonitions Bureau, a working part of the London Evening Standard, collects and analyzes premonitions of disasters. The center was created largely as a result of an unusual number of prophetic dreams and premonitions preceding the October, 1967, tragedy in Aberfan, Wales, where an avalanche of slag killed 116 children and adults.

So far, the psychic warning system has collected over 600 premonitions, most of them concerning air crashes, earthquakes, and political events. Over-all aim of the project is to develop methods of assessing premonitions, especially large numbers of corresponding ones, in an effort to warn of coming disasters and prevent loss of life.

In New York, the Central Premonitions Registry is looking for premonitions involving national or world events, known personalities and their nonpersonal precognitive experiences.

If you've had a bad dream lately about some public disaster that hasn't happened yet, tell it to the registry at Box 48, Times Square Station, New York City. They'll take it seriously.

## Captive Nations Week

In 1959 Congress enacted legislation requiring the president to proclaim the third week in July as Captive Nations Week. A reader in Bartlesville, Okla., J. L. Harris, has reminded us of the commemoration. He also recalled that later that same year, then Vice President Nixon made a goodwill trip to Moscow and found Khrushchev "sore" about Captive Nations Week. According to Mr. Harris, Nixon told Khrushchev, "That was a foolish resolution."

One would hope that the day might come when there would be no need to mark the occasion, when there would be no more captive nations. But the possibility seems to grow more remote. Neighbors of Russia have had their captivity indelibly impressed upon them by the Czechoslovakian example. Only Finland has managed any degree of relief from oppression in their arrangement of coexistence and responsibility sharing by having Communists inside the government, they hold 41 of the 200 seats in the Finnish parliament.

Cuba still exists as a communist state. Maoists are spreading their philosophy into African countries, while Russia still supports Egypt and other Arab states. Some South American countries are turning

further toward communism and demonstrating unfriendliness and ill will toward their north-of-the-border neighbor, the United States.

Too many Americans also are advocating some form of communist dictatorship in the United States as a solution to problems of poverty and hunger, not seeing that poverty and hunger are greater in the all-powerful states ruled by the Kremlin and the Maoists.

Wherever communism spreads the idea of an all-powerful state, individuals are unimportant. It is the opposite trend which was responsible for the growth of the United States into a powerful nation, the trend for individuals to seek freedom to live peaceably and putting that above the claim of the state over their lives.

To insure the lessening of captive nations, it is incumbent upon individuals to call for fewer powers of state and to assume responsibility for wise conduct of their own lives. However, as correspondent Harris wrote, "It's time for the annual proclamation, but don't expect any words of hope for the victims of communist tyranny. Instead we'll get the usual cliches—which are growing less enthusiastic each year."

## The Problem's Still Here

Those who wax wroth over the four letter word slingers and pushers of pornographic pulp and why-isn't-something-done-about-it hear this:

"Indeed, there is nothing which the legislator should be more careful to drive away than indecency of speech; for the slight utterance of shameful words leads soon to shameful actions. The young especially should never be allowed to repeat or hear anything of the sort. A freeman who is found saying or doing what is forbidden, if he be too young as yet to have the privilege of reclining at the public tables, should be disgraced and beaten, and an elder person degraded as his slavish conduct deserves. And since we do not allow improper language, clearly we should also banish pictures or speeches from the stage which are indecent. Let

the rulers take care that there be no image of picture representing unseemly actions. But the legislator should not allow youth to be spectators of jambi or of comedy until they are of an age to sit at the public tables and to drink strong wine; by that time education will have armed them against the evil influences of such representations."

The warning was sounded by Aristotle (385-322 B. C.) as he discussed the education of children in his lecture on "Politics."

So the problem has been around for quite awhile, as that was probably some 2300 years ago. And if the governor or the school administrators or the heads of families have not rid society of the problem, in the past year it is not surprising

## Soviets Eye Bomb Strike At Red China

By RAY CROMLEY

Washington Correspondent  
WASHINGTON (NEA)—It has now been learned that a number of years ago the leaders of the Kremlin seriously debated the pre-emptive bombing of Lop Nor and other Communist Chinese nuclear facilities in Sinkiang Province.

The story is going the rounds in Western diplomatic circles that Nikita Khrushchev was ousted in part because of the role he played in this fight. Khrushchev reportedly was for the bombing. But in that round, the doves won.

There is some evidence reaching here (in very small dribbles to be sure) that this same debate is now again going on within the Soviet Politburo.

The Red army's voice is stronger now. But the operation would be infinitely more difficult than in Khrushchev's time. Mao Tse-tung has dispersed his nuclear and missile facilities widely. He has moved crucial sections of his operations underground and strengthened them against bombing and blast.

Any aerial raid on Communist China's critical nuclear and missile works today would almost certainly have to use hydrogen weapons. The raids would need to be extraordinarily precise. A fist full of bombs or missiles would be required. The operations would have to keep fallout at very low levels.

(The high winds move East. Any appreciable fallout would have strong effects in North and South Korea, Japan and the United States.)

Pure reasoning would seem to indicate that under these circumstances the Russians would not carry out such an operation. But such logic proved wrong when applied to the intelligence indicating a Russian invasion of Czechoslovakia last summer.

The stakes are high. It is not the Sino-Soviet border clashes over disputed territory that causes bile to rise in Kremlin throats. It is that Russia's leaders feel they are faced almost daily with some new evidence of Red Chinese "blackmail." The Soviet Union has made this plain in secret communications to some friendly and some neutral governments.

When Moscow moves in Eastern Europe, as in Czechoslovakia, Peking threatens military reprisals in Asia.

China is using its underground to undercut the Soviet Union in the delicate Middle East.

Peking infiltrates revolutionary cadres into Soviet border provinces avowedly to develop "Vietnam" in the Eastern reaches of the Soviet empire.

The situation is bad in 1969. It will become "impossible" by 1975 when Red China may have 15 intercontinental or submarine-launched nuclear missiles.

With 15 well-placed ICBMs, Red China could take out a tenth of Russia's population and close to a third of her industrial capacity.

Because Red China's population is so dispersed and because (as the U.S. discovered in North Vietnam) an agricultural country is relatively less affected by industrial destruction, Moscow would have no credible retaliatory threat to offset Red China's blackmail.

On balance, some top analysts here are convinced the Soviet Union will in the end decide not to risk this operation. Other equally competent men have their fingers crossed.

But there's a wide and considered belief the Soviet Union must do something militarily or politically. The situation is not one that Russian leaders in the past have been willing to tolerate for long without some major attempt at a solution.

## Y'Want ME To Do A Nude Scene?

### THE GLOBAL VIEW:

## Nixon's Romania Visit May Spur Talks In Paris

By LEON DENNEN

Foreign News Analyst

PARIS (NEA) — President Nixon's decision to visit Romania in August, despite the misgivings of his critics in and out of the Senate, is a significant development in East-West relations.

This will be the first time since World War II that an American president has set foot on Communist soil. In the view of some East-European diplomats, Nixon's brief stopover in Bucharest on the way home from Asia might also pave the way for his eventual visit to Moscow.

More significant, according to the diplomats, is the fact that Romania's shrewd and cautious President Nicolae Ceausescu extended the invitation to Nixon while the United States is still at war with the Vietnamese Communists.

They cite it as more proof—if proof is still needed—that an important segment in the Communist world is becoming increasingly impatient with the hard line pursued in Paris by

the Viet Cong and their North Vietnamese mentors.

This has been obvious to specialists on Russia ever since the Vietnamese Reds failed to show up at the recent international conference in Moscow.

It was confirmed to me by leading French Communists who returned to Paris from the conference with the message for the Viet Cong's and Hanoi's representatives that the "main enemy" now is Red China and not the United States.

There is thus little basis for the "fear" of the American doves that Nixon's visit might be viewed as an anti-Soviet maneuver by the Kremlin leaders or that it would impede arms control negotiations. The same doves warned Americans that the Communists would never seek a rapprochement with the United States while there was fighting in Vietnam.

Admittedly Ceausescu is one of the Communist leaders who refused to swallow completely the Kremlin line. He displayed some independence at the Moscow conference. He sided with the Italian Communists and others in voicing mild opposition to Russia's invasion of Czechoslovakia. He was also against any public castigation of Red China as an "imperialist power."

But Romania is a member of the Soviet-dominated Warsaw Pact Organization and, like Czechoslovakia, completely at the mercy of Russia's military machine. Only the uninformed would assume that after Czechoslovakia a realistic politician like Ceausescu would dare to entertain Nixon without the knowledge and approval of Moscow.

Regardless of what the Kremlin may say publicly about Nixon's Romanian visit, the Russians, faced with the threat from Red China, are interested in opening more diplomatic doors to the West. They are also urging their East European allies to make overtures to the West.

Even Poland's Wladyslaw Gomułka recently offered to open up diplomatic negotiations with West Germany. For the first time in two decades Poland's conditions did not include recognition by Bonn of Communist East Germany.

Nixon's brief stopover in Bucharest will not usher in the new dawn in international relations. But it could speed up the Paris peace negotiations.

Surely it is more than a coincidence that Ceausescu took the initiative to invite Nixon just as Red China's ambassador returned to Bucharest after being absent since 1966.

The Red Chinese regard the Romanian president as a friend. He holds considerable influence in Peking. Like many other Communists, he seems to have decided long ago that the Viet Cong have not won the war.

He may be the man to impress the Chinese without whom there certainly can be no peace in Vietnam—that they have little to gain from a continuation of the war.

## The Doctor Says

By DR. W. G. BRANSTADT

### Academy Makes Report On Artificial Sweeteners

Because there has been a great deal of confusion about the safety of artificial sweeteners, a committee of the National Academy of Science made a thorough study of the matter. They found that, although saccharin and cyclamate are both used, the consumption of cyclamate is about five times that of the former. About 70 per cent of the cyclamate consumed is found in carbonated soft drinks. A 12-ounce can contains 0.25 to one gram of this substance.

The Academy reported that, while an adult might safely consume five grams per pound of body weight a day, even at higher levels of intake, however, the only side effects observed are a softening of the stools and an increased risk of sunburn (increased photosensitivity).

Occasionally, one hears that, because these products are derived from coal tar, they are harmful. This is illogical, because aspirin and several other products are derived from coal tar. If they were poisonous, the Food and Drug Administration (FDA) would prohibit their sale. The coal tar derivative that has caused cancer in mice is in no way related chemically to the artificial sweeteners.

After reviewing the Academy's report, the FDA recommended that products containing cyclamates be labeled to show the suggested limits on its daily intake and the total cyclamate content of the bottle or can. This should reassure the users of their safety—an important measure in view of the fact that the per capita consumption of sugar in this country is now five times as great as it was 100 years ago and the fact that this is a contributing cause of the increased prevalence of diabetes, dental decay and hardening of the arteries.

Q—I am a diabetic. Does saccharin destroy any of the food value in what one eats? Does it have any harmful side effects?

A—No to both questions.

## Inside Washington

By ROBERT ALLEN and JOHN GOLDSMITH

### But Who Will 'Safeguard' Taxpayer from Pentagon?

WASHINGTON — The thing to remember about the Senate's long ABM debate is that it has not been directed, primarily, at antiballistic missiles.

The real issue is chaining the Pentagon. It evolves out of a determined drive to apply tighter congressional controls to the Department of Defense and its spending programs.

President Nixon's planned deployment of the Safeguard missile defense system is a symbol — an important one — in this broader controversy. Opponents are using the Safeguard proposal as a parliamentary pretext for asserting their powers.

This other level of the ABM controversy has been implied for months as congressional opponents rallied to fight President Johnson's city-oriented Sentinel ABM and then shifted to attack Safeguard when President Nixon proposed that it be deployed to protect offensive Minuteman missiles.

The aim of ABM opponents is implied no longer. Take it straight from the chairman of the Senate Foreign Relations Committee, Sen. J. William Fulbright, D-Ark.:

"The real point of the debate is not the ABM as such. The whole point of the debate is not the ABM as such. The whole point of the debate is an effort on the part of some members of the Senate to reassert some control over the military department — the Senate is the only agency of the government that can do it. I do not exclude the President."

The Senate is the only agency that can bring about any degree of control over the military department because of the peculiar situation in our government. That is what the debate is about. Fulbright declared in a speech against the Safeguard deployment.

RUSSIA'S INTENT — In the debate, no one has opposed President Nixon's planned talks with the Russians about limiting strategic arms. Russia's long-range intentions are central to the broad controversy, however. Safeguard critics bitterly resent the suggestion that they are advocating a kind of unilateral disarmament by leaving the field of missile defense to the Soviets. They also reject the idea that, with a Safeguard deployment assured, the President's negotiators would have a better hand in the bargaining with Kremlin spokesmen.

Above all, opponents reject the thesis of Secretary of Defense Melvin R. Laird that the Russians are building a first-strike force with the deployment of the big SS-9 missile. The critics are aware that the SS-9 deployment is con-

tinuing and that the SS-9 and its warheads are useful mostly as a first strike weapon against U. S. missile bases.

They take satisfaction, however, from the fact that the U. S. intelligence community has not supported Laird's thesis, and they are not worried about the fact that the intelligence community has not addressed itself to his rationale.

Safeguard, in the view of these critics, is one of the weapon systems which is helping the Pentagon to waste billions of dollars. As such, they say, it should be discarded and the Pentagon should be more tightly restrained.

NIXON A WINNER — At the hardware level, in the rather narrow controversy over Safeguard's radars and missiles and computer components, President Nixon looks like the eventual winner.

Even if the Senate restricts his employment plan a bit, the issue must still go to the House. Leaders in both parties say the President can get just what he wants there, and a Senate-House compromise, under these circumstances, would give him more than half-a-loaf.

The outlook is not so clear, however, in the broader controversy over the level of defense spending. Are there wasteful Pentagon programs which can be junked so that funds can be diverted to non-defense projects of a higher national priority?

In the debate Chairman John C. Stennis, D-Miss., of the Senate Armed Services Committee, has been suggesting that real savings can only result (after the war in Vietnam) when the personnel strength of the armed services can be trimmed back from some 3.5 million to about 2.5 million.

Another Safeguard supporter, Sen. Henry M. Jackson, D-Wash., has been stressing that, arguments to the contrary notwithstanding, there has been no long term increase in the Pentagon's spending for strategic offense and defense — for the deterrent forces.

"The U. S. budget for strategic-offense and defense forces in fiscal year 1962 was \$11.3 billion. The proposed fiscal 1970 budget comes to about \$8.3 billion. The proposed fiscal 1970 changes," says Jackson, "the 1970 budget figure is more than 50 per cent lower than in 1962."

Finally, there is the question of what constitutes waste in a day of deterrent force. All such spending is wasteful when deterrence is successful, in the sense that billions are spent for weapons which are developed, and then discarded in favor of more modern weapons.

One alternative to this expensive deterrence is a workable agreement to limit strategic arms.

## Question Box

(We invite questions on economics and the proper functions of government which will not injure anyone.)

QUESTION:— Recently a Freedom newspaper carried a story about an 11-year-old boy working eight or nine hours a day as a shoe shine boy in Buena Park, Cal. Do you think it is wrong or right for such a young child to work so hard?

ANSWER: It is dangerous to make generalizations from just one example. It might not be all right for all 11-year-old children, but we would say that for this boy it is certainly right. The boy in the story is Mike Eaca of Buena Park, Calif.

He has earned a great deal of self-respect through knowing that he can do useful work that someone else values enough to pay him for. He has built a tremendous amount of self-confidence that probably will last him and serve him well all his life because he has proved to himself and to others that he can always find some honest way to provide for himself and his needs. He will never have to be afraid that he cannot do this. He has learned he can be independent and self-reliant. He has learned to be diligent, skillful and thrifty so he will be prepared for further opportunities when they come his way.

He has already learned the most important part of what he needs to know to be a man. He lives in a real world and he has discovered he is capable of coping with it. This is probably the most valuable thing he will ever learn, for it is the basis of his being able

to do anything else he may ever want to do.

All young people need to learn these things in order to live full and satisfying lives as adults, and it seems to us that the sooner a child learns these lessons, the better off he will be. They need to learn they are capable of surviving and controlling their own lives.

It is young people like this who learn to do the useful, productive rewarding work of the world and to do it well, who really serve their fellowmen. They contribute to the world.

The place-card-carrying demonstrating, protesting youth of today are either simply parasites or are actually destructive. They contribute nothing to the world. They do nothing constructive to relieve the problems about which they protest. People who produce goods or services or new knowledge that other people want are the only ones who serve mankind and help solve its problems.

For parents to encourage their children to learn these lessons so early in life is one of the most important things they can do for their children.

Neither Mike nor his parents need anyone else's commendations, but we would like to express our respect for them and other families who encourage their children to become self-responsible, independent, confident, capable human beings. Mike is no longer a boy. He has already graduated into a young man.

# Pampan Named To Governor's Committee

AUSTIN — Fred S. Vandenberg, Pampa, has endorsed the adoption of the proposed constitutional amendment to carry out the state's long-range water plan, Governor Preston Smith announced today.

Vandenberg has accepted membership on the Governor's Committee of 500, a statewide group of outstanding Texans who are supporting the proposed amendment.

The proposal, Amendment No. 2, will appear on the ballot for the August 5 special election. Absentee voting on the nine proposed issues to appear on the ballot will continue through Aug. 1.

Adoption of Amendment No. 2 would authorize the Texas Water Development Board to issue \$3.5 billion in bonds to finance the state's share of the cost of the long-range Texas Water Plan, the governor said.

Smith, who is joined by former Governors Allan Shivers, Price Daniel and John Connally as co-chairmen of the committee, pointed out that the money would not be used to provide gifts or grants, but will provide temporary financing which will be repaid by the users of the water.

Noting that never before has a proposed amendment to the state constitution had the support of so many Texas leaders, Smith said the objective of the Texas Water Plan is to provide adequate water to maintain the growth and prosperity of Texas into the next century when it is estimated that the state will have a population of more than 30 million persons.

The program has been endorsed by every state and national agency dealing with water development, Smith said. The plan would provide for the full development of Texas water resources and the importation of surplus water from the lower Mississippi River for distribution to areas with declining water resources.

Smith said Vandenberg has joined with leading Texans from every region of the state in support of the plan because it will provide benefits for every section of the state.

The plan will provide water for domestic and municipal uses, for industry, for agriculture, for recreation, for bays and estuaries and for other beneficial purposes, Smith pointed out.

# HURRICANE HUNTERS — This WB-47 is one of many planes used by the Air Force Hurricane Hunters who fly into the eye of each of the storms to measure their fury. These efforts have saved countless lives and millions of dollars worth of property, due to the timely warnings which result.

SCOTT AFB, Ill. — In the Atlantic and Caribbean, another hurricane season is brewing, preparing to unleash killer winds against the area's tropical isles and against the mainland of the United States. In the past five years, 12 hurricanes have struck the U.S. four of them last season.

This year a new twist has been added. In addition to hunting and tracking storms, the Air Force Hurricane Reconnaissance Squadron of the Air Weather Service — will fly into the eye of each of these storms to measure their fury. Past such efforts have saved countless lives and millions of dollars' worth of property, due to the timely warnings which result.

Past such efforts have saved countless lives and millions of dollars' worth of property, due to the timely warnings which result.

This year a new twist has been added. In addition to hunting and tracking storms, the Air Force Hurricane Reconnaissance Squadron of the Air Weather Service — will fly into the eye of each of these storms to measure their fury. Past such efforts have saved countless lives and millions of dollars' worth of property, due to the timely warnings which result.

For BOMEX, a joint venture of the governments of the US and Barbados, the Hurricane Hunters will fly WB-47 and RB-57F missions as well as WC-130 sorties, using some aircraft and crews on loan from sister weather reconnaissance squadrons of the 9th Weather Reconnaissance Wing, WB-47s and WC-130s will fly atmospheric sampling missions on a daily or twice-daily basis, while RB-57Fs will fly high-altitude sampling and cloud-photography missions.

But, the 53rd's primary mission still is to provide storm surveillance for the Atlantic coast east of Puerto Rico and to locate and track tropical storms off the entire US coastline from Texas to Maine, alternating with the US Navy. The area covers a million and a half square miles of ocean and gulf waters.

In Miami, Fla., the National Hurricane Center, staffed by US Weather Bureau specialists, is hard at work on the 1969 season. Knowing that little can be done to lessen the force of the hurricane — warning network is the Chief of Aerial Reconnaissance. He is responsible for making sure that aerial reconnaissance by both Navy and Air Force is kept up with National Hurricane Center needs. His job is to follow through from the first report of a suspected storm — perhaps from one of America's orbiting weather satellites — to issuance of the season's last hurricane bulletin.

Stationed at the Miami center, CARCAH triggers a warning service to Navy, Army and Air Force installations. Warnings for civilian interests and the general public are issued by the Weather Bureau from its NHC. Military installations and ships at sea receive basic advisory forecasts from the Weather Bureau and tailor them to local needs, without substantial change in content.

During the annual hurricane season, the Hurricane Hunters receive a daily teletype message from CARCAH, outlining reconnaissance needs for the coming 24 hours. When an immediate report is necessary, a direct telephone request is made by CARCAH. Throughout the season, daily weather missions are flown on fixed routes, called "tracks." Special storm reports are given by diverting routine flights.

Air Force aircraft reports are received at the Miami center by teletype after being checked for accuracy by special AWS monitors at Charleston AFB, S.C. Monitors are in direct voice contact with observers aboard WC-130s and WB-47s. Reports give NHC forecasters temperature, pressure, humidity, winds, cloud structure and other technical data within and outside a storm's eye.

For additional data, CARCAH may ask AWS ground stations near an interest area to make special surface and upper-air observations. Ground radar sites along the coast and down the Eastern Test Range provide more data, "watching" storms within 200 miles of the coastline. Several radars will accurately fix and follow a storm at the same time.

The US Weather Bureau issues four advisories daily for civilian use, containing forecasts for six hours hence, and provides to the Air Force and Navy four daily bulletins (military advisories), containing 12-hour and 24-hour forecasts, as well as "outlooks," giving a storm's forecast position and intensity in 48 and 72 hours.

Always alert and watchful, the National Hurricane Center, backed by the men and aircraft of the nation's military weather reconnaissance force, is America's guardian against the hurricane. When the violent seasonal storms come, US weather agencies, working together, spread the word to take the precautions which can prevent loss of life and keep property damage to a minimum.

BANKAMERICARD

Check our everyday low prices on famous Firestone Champion® \$9.95

Full 4-Ply Nylon Cord Tires LOW AS \$9.95

A high quality, low cost tire with Firestone SUP-R-TUF rubber for long mileage.

10-Point BRAKE OVERHAUL (not just a reline) \$39.88

Price for drum-type brakes on most Fords, Plymouths, Chevys, American compacts.

WE DO ALL THIS WORK

1. Replace brake lining on all four wheels
2. Adjust lining for perfect contact with drums
3. Rebuild all 4 wheel cylinders
4. Turn and true brake drums
5. Inspect master cylinder
6. Replace outer wheel bearings on both front wheels
7. Inspect brake shoes
8. Replace brake shoe return springs
9. Add Super Heavy Duty brake fluid
10. Road test car

GUARANTEED 20,000 MILES OR 2 YEARS

We guarantee our brake lining for the specified number of miles or years from date of installation, whichever comes first. Adjustments provided on mileage not based on price current at time of adjustment.

Super King Size CAR COOL CUSHION 99¢

Limit one. Additional \$1.99 each.

06-03-018-1

- 12" x 21" overall dimensions
- Modern racing stripe
- Heavy-duty wire frame
- Tapped for seat belt
- Vinyl-coated fabric
- Choice of colors

Pick-up, Van & Camper TRUCK TIRES

Famous for mileage, traction, stability and strength. Six-ply nylon cord.

2 for \$40.00 \$20.00 each

2 for \$43.00 \$21.50 each

2 for \$53.00 \$26.50 each

More start & go power with Firestone BATTERIES

12-Volt

\$13.95 EACH

MOTOR KING

GUARANTEED 24 MONTHS

Every Firestone battery is unconditionally warranted against defects in workmanship and materials. Replacement or repairs are made without charge for 90 days from date of purchase. After 90 days, if any adjustment is necessary, an allowance will be made against the selling price of a new battery based on the unexpired portion of the original warranty period at the time the adjustment is made.
