## Nixon Asks "Rights" For Buyers

### Nixon Keeps Hands Off Electric Ado

NEW YORK (UPI)—President Nixon said he won't intervene in the four-day-old General Electric Co. strike although management and labor have taken steps which could threaten his anti-inflation policies.

Nixon reaffirmed his hands-off position in a meeting with the AFL-CIO Executive Council at the White House Wednesday. Later, the council announced complete backing of the strike by a coalition of 13 unions representing 147,000 employees and prepared to raise millions of dollars to support them.

A long strike is anticipated. No further talks have been slated and management and labor have refused to budge from their positions.

Nixon, who has urged wage and price restraints to combat inflation, told the labor leaders in the GE strike he believed it would be in their best interests to hold down their demands. They told him, however, the rank-and-file members want more money.

Earlier this week, it was reported GE planned to raise prices on some of its 1970 appliances regardless of the size of the strike settlement. Westinghouse Electric Co., sec-

ond to GE in appliance production, has announced similar plans.

AFL-CIO leaders made it clear Wednesday they could not afford to lose the strike, which they said is really aimed at GE's bargaining tactics—an approach they contend is designed to destroy unions.

The company announced late Wednesday it planned to appeal to the Supreme Court a lower court ruling that its "take-it-or-leave-it" bargaining approach in a 1960 case was an unfair labor practice.

Spokesmen for the United Electrical Workers (UE) charged at a meeting in New York Wednesday GE was using the same one-offer tactics. They said the "workers are going to enforce the court decision" until GE begins meaningful negotiations.

The company offered a three-year contract Oct. 7 that included wage increases averaging 20 to 45 cents an hour the first year and a provision to negotiate other increases the remaining two years. The 13-union coalition rejected the offer. GE has made no other offers through Moore says it is on record as "being willing to modify" as the facts warrant.

ARRANGING SPARKLED LETTERS and autumn theme candles and leaves for the annual Chamber of Commerce membership banquet are CoFC office employees, Mrs. Marguerite McLeod, Mrs. Georgia Mack, center, and Mrs. June Sweetland. The Chamber's 45th annual banquet will start at 7:30 p.m. today in Robert E. Lee Junior High School cafeteria. Officers for 1970 will direct activities and take over their new duties. Don R. Lane succeeds George B. Cree Jr. as president (Staff Photo)

### Law Would Give Buyers Voice

WASHINGTON (UPI)—President Nixon asked Congress today to create a new office of consumer affairs to "give every American consumer a permanent voice in the White House."

In a special message to Congress, Nixon also proposed enactment of new laws to broaden rights of consumers and to permit them to sue for damages in behalf of the public as a whole and not simply as individuals.

Besides proposing a new White House consumer affairs office, the President called for creation in the Justice Department of a consumer protection division.

The proposal to allow lawsuits in behalf of consumers as a whole permit a number of citizens to divide among themselves the high cost of going to court.

The President termed his proposals "the buyers' bill of rights."

These were among the key recommendations. Expanded powers for the Federal Trade Commission to enable it to investigate activities "affecting" interstate commerce. Current laws limit the FTC's jurisdiction to activities "in" interstate commerce.

Establishment of a commission on consumer finance to

investigate and report on consumer credit. The President pointed out that total outstanding consumer credit had increased from \$5.7 billion 25 years ago to \$110 billion today.

Greater efforts by the Food and Drug Administration to enforce safety standards, including a review of products on its so-called GRAS (generally-regarded-as-safe) list. "Recent findings of the effects of cyclamate sweeteners on rats underscore the importance of continued vigilance in this field," Nixon said.

Publication of a new consumer bulletin containing in laymen's language technical information on consumer products.

Nixon told the House and Senate: "To their credit, producers and sellers have generally become more responsible with the passing years, but even the limited abuses which occur now have greater impact."

The new consumer affairs office in the White House would coordinate all federal activities concerning consumer protection, the President said. His special assistant for consumer affairs, Mrs. Virginia Knauer, currently is performing such duties under presidential executive order.

### Hearing Postponed On Pioneer's Gate Rate Adjustment Request

At the request of various cities, Pioneer Natural Gas Co. has asked the Texas Railroad Commission to postpone the hearing on Pioneer's gate rate adjustment application until Nov. 24, according to an announcement from Amarillo today by K.B. Watson, senior vice president and general counsel for the company.

The gate rate would apply to cities on Pioneer's West Texas System only, and would have no immediate effect on the current gas rate to consumers.

"Several communities wish to be represented at the hearing called by the Railroad Commission and felt that the hearing date of Nov. 4 would not afford them the necessary time," Watson said.

According to information received by Pioneer, a group of cities have formed a steering committee made up of 12 representatives from the various communities. A representative

of this group requested the postponement.

Watson stated reports from various cities and towns on the Pioneer West Texas Distribution System indicate that, in electing to participate, a number of the cities have also expressed confidence and satisfaction with Pioneer Natural Gas and its service, but did desire to keep the citizenry informed by being represented at the Railroad Commission hearing.

Pampa's City Council at its meeting on Tuesday voted to seek a postponement of the Nov. 4 hearing.

City Manager Charles Hill and City Atty. Bob Gordon also were instructed to study the gas company's request for an increase from the current 28-cent gate rate to 34 cents.

The two city officials said Pampa wants to determine if the gate rate increase request is justified.

### Lodge Calls For New Approach To Vietnam

Henry Cabot Lodge called for "a new approach" to the Vietnam peace talks today and proposed the conference begin secret negotiations the day after President Nixon's Nov. 3 speech on Vietnam.

"As I said at our last meeting," Lodge said in the 40th session of the talks, "you of the other side have done nothing in our 39 plenary sessions but demand unilateral actions by us and engage in vituperative language."

"You have shown no desire to engage in genuine negotiations."

"In all this time, you have allowed agreement only on the shape of the table. The plenary sessions have served only as a propaganda forum—not as a peace forum."

Lodge said "A new approach is needed to break out of this sterile situation and prompt serious negotiations."

"Therefore," Lodge said, "in

agreement with the government of the Republic of (South) Vietnam, the United States proposes that on next Tuesday, Nov. 4, the four principal spokesmen, each accompanied by no more than three advisers, meet in a restricted session at 10:30 a.m. here at the Majestic Hotel.

"At this session and any subsequent ones, each spokesman can raise any subject he wishes. There would be no public release of the record of what is said at such meetings, but we could agree on exactly what would be said to the press after each session."

There was no immediate reaction from the Viet Cong and the North Vietnamese delegations to Lodge's proposal.

The proposal added weight to reports that Nixon plans a major policy statement in his speech on his administration's plan to end the Vietnam War.

Lodge in the 38th session of the talks two weeks ago rejected a North Vietnamese proposal for secret talks to exclude the Saigon government delegation.

"We seek to bring about genuine constructive negotiations," Lodge said, "so that we can get a settlement and an end to this war. I've tried to do this many times in the past, and I'm going to try to do it again today."

### Capacity Crowd To Attend C-C Banquet Tonight

A complete sellout on tonight's Chamber of Commerce annual membership banquet was announced by chamber officials shortly before noon today.

A capacity dinner audience of 450 persons will hear an address by Dr. Walter Kerr of Tyler, director of the National Youth Foundation, and witness the change to new officers and directors for the coming year.

In a gavel exchange, Don R. Lane will take over the chamber presidency from George B. Cree, Jr. Kay Fancher will succeed Lane as vice president and David Fatheree will become finance director, the post held during the current year by Jim Morris.

Ten new directors, installed last week, also will begin official duties for the 1970 year. They are:

Crawford Atkinson, Jim Cook, John Gattis, Floyd Imel, Dr. James Malone, Jean Martindale and David Tucker, all elected to serve three-year terms, and Bill Adams, Al Bassett and Frank M. Carter Jr., appointed by the new president to serve a one-year term.

The banquet is scheduled for 7:30 p.m. in Robert E. Lee Junior High School cafeteria.

Entertainment will be by the Pampa High School Band and Concert Choir.

### Governor Says Unemployment 'Ridiculous'

SAN MARCOS, Tex. (UPI)—Gov. Preston Smith said Wednesday unemployment was "ridiculous" when there are technical jobs to be filled.

Smith called for increased state efforts to expand vocational and technical education programs such as those at the Gary Job Corps Center which he toured.

"Gary proved to me what I have long known in my own heart," Smith said. "That vocational-technical education on a large and impressive scale can work, does work and must work."

The governor said less than 20 per cent of the school children in Texas will go to college, but 80 per cent of the school curricula was directed toward preparing college students.

### Heart Men Team Up To Develop Man Made Heart

HOUSTON (UPI)—Dr. Denton A. Cooley and Dr. Domingo Liotta, the team who combined to produce and use the first artificial heart in a human, will develop another man made heart.

Both Cooley and Liotta, an Argentine physician, became embroiled in a medical controversy when they inserted an artificial heart earlier this year into Haskell Karp.

Cooley said Wednesday he hoped to test the new artificial heart soon on animals. He said the new device differs from the one given to Karp in that it has a different pumping mechanism and is stronger in "some stress areas."

Cooley also said he was "disappointed" in the progress of the heart transplant program, but added doctors have done all they can and it is now up to scientists to perfect heart transplants. He said rejection of a transplanted heart can never be "overcome," but only controlled. He said the new artificial

heart he and Liotta were developing will be tested "to get certain information from animals before we use it on humans. If we get it to where it will work successfully in animals for 48 hours, we will use it in humans under certain conditions," such as when a patient could not live unless the artificial heart was implanted.

"It is the greatest frustration to walk away from a person with a dead heart and the rest of his body functioning well," Cooley said. "It is frustrating to walk out of the operating room and wait for the brain to die."

As Cooley explained it, the soon-to-be-developed heart would still be connected to a large console and thereby confine the patient to bed, but he said he hoped in the future an artificial heart could be developed that would allow a person to get up and walk around. He added, however, no such portable heart was close to being developed.

Karp lived 63 hours with his

### Master Charge Card Goes To Wrong Master

TAMPA, Fla. (UPI)—With the credit card Anthony Benitez got in the mail, he could have flown to Europe, filled his clothes closets and dined at his choice of Gourmet restaurants.

Mrs. Benitez, however, returned the "Master Charge" card, explaining:

"Anthony is just learning to write his name—barely—and he can't read yet. He's only five."

Mrs. Benitez said bank officials called her Wednesday, saying they were "embarrassed, but that Anthony had passed the credit check with flying colors." She wouldn't name the bank that issued the card.

### Five Persons Hurt In Fire

WINNIE, Tex. (UPI)—An explosion at the Texas Gas Division of Union Oil Co. injured nine persons Wednesday, including five who needed hospital care.

Company officials said the explosion was caused by a flare blowout.

### Air Force Sergeants Face Court Charges

SAN ANTONIO, Tex. (UPI)—Three Air Force sergeants will face separate general courts martial on charges they forced "indignities and physical discomforts" on recruits at Lackland Air Force Base.

Of the three types of courts martial prescribed by military law, the general is the most serious. It can sentence a defendant found guilty to any length of confinement including life, a dishonorable discharge, total forfeiture of all pay and allowances or a combination of any of these.

The general courts martial for the three will be composed of at least five board members plus a military judge. At least two thirds of the court members must find a defendant guilty or he is acquitted.

Following a seven-week investigation, the Air Force announced Wednesday the three sergeants would face the general courts martial, but said a date for the separate trials would be set by their attorneys and the military judge.

S. Sgt. Raymond T. Lucy Jr.

28, of Lawrenceville, Va.; S. Sgt. Daniel W. S. Clark, 34, of Overlin, Ohio; and Sgt. Ronald E. Wood, 29, of Indianapolis, Ind., will face trials. Charges against two other sergeants were dropped when "evidence did not warrant trial," the Air Force said.

Fourteen recruits charged the sergeants with brutality and said the maltreatment occurred between July 3 and Aug. 3. One recruit said a sergeant stuck him in a garbage can on a hot August day and left him inside for five hours.

"The charges against them allege the subjecting of basic trainees to instances of indignities and physical discomforts," the Air Force statement said. "The five sergeants were relieved of their training instructor duties when the investigation was initiated Aug. 4 and transferred to other duties not involving training basic trainees."

Lackland is the nation's only military installation where Air Force recruits are trained.

### FCC Executive's Refusal To Show Records Brings Suit

WASHINGTON (UPI)—The House Commerce Committee voted today to bring contempt of Congress charges against Chairman Rosel H. Hyde of the Federal Communications Commission (FCC).

The committee vote favoring a citation was 20 to 13. It came after spirited debate over Hyde's refusal to produce FCC records asked by the committee in connection with a radio license renewal case.

The committee chairman, Rep. Harley O. Staggers, D-W.Va., said after a closed session in which the action was taken: "We only asked him to comply with the subpoena; he refused."

Neither the Justice Department, which normally prosecutes contempt of Congress charges, nor longtime congres-

sional staffers could recall any previous occasion when contempt of Congress charges had been brought against the chairman of a regulatory agency.

Staggers said he would discuss with House leaders the question of when to take the committee resolution to the floor.

At issue, as the committee saw it, was Congress' right of access to records of agencies it oversees.

Staggers said the records had been sought "just to see if there was anything wrong" in the FCC's handling of the case, involving an AM-FM station, WISE at Indianapolis, Ind.

If it comes from a Hdwe. store we have it, Lewis Hdwe. (Adv.)

**The Crazy  
World of  
Washington**

WASHINGTON (UPI)—Odds and ends from the nation's capital—mostly odd:

For those who don't hold with all this progress stuff, the National Forest Products Association in Washington comes out with some heartening news: "New England's newest covered bridge—first to be built in Vermont in 80 years—is now in use. It is at Woodstock, Vt., and spans the Ottauquechee River.

The all-wood bridge—there is no metal hardware in the structure—is fastened together with oak pegs or 'trunnels' just as all original covered bridges were constructed. "It replaces a steel bridge which had reached the end of its usefulness."

The Naval Facilities Engineering Command finally got around to reporting in a release, on "its first ocean engineering conference two weeks ago."

In a town where folks are given to taking themselves somewhat seriously, the Democratic Study Group comes on like an elf.

The group of about 120 liberal House Democrats announced its 10th birthday celebration Dec. 4 in a flyer portraying itself as a balding little knobby-kneed, paunchy guy in a Superman outfit and wearing tennis shoes.

Alongside the face of the cartoon figure staring vaguely through horn-rimmed glasses, there's a characterization: "Stronger than dirt, more meetings than a PTA, able to study major issues in a single day..."

Overheard in a Washington restaurant: "President Nixon's not trying to defuse his opposition on Vietnam—just diffuse it."

**WRONG VERDICT**

DENVER (UPI)—The jury admitted it was wrong Tuesday. Only the defendant wished it was right.

The jury appeared stunned when U.S. District Court Clerk Adam Stibrich read a verdict acquitting Miss Evelyn Grace Cloud, 30, of passing a fraudulent money order.

"Wait a minute. That's not our verdict," Jury Foreman Marvin Weybright said.

The jury was given two new forms. This time they handed the clerk a guilty verdict.

A thought for the day: Gophocles said, "Though a man may be wise, it is no shame for him to live and learn."

**Pennsylvanian  
Named Innkeeper**

Jerry Ohldal of Pottsville, Pa. has been named manager of the Coronado Inn and will assume duties here Dec. 1, according to an announcement Wednesday by Hugh Burdette, president of the Pampa Community Hotel Co.

The 34-year-old innkeeper has been manager of the Necho Allen Hotel in Pottsville since 1962.

He will succeed Jim O'Connor, who submitted his resignation Oct. 11 to accept a post as manager of the Nassau Inn in Princeton, N.J.

O'Connor came to the Coronado Inn as manager from Trenton, N.J. in November, 1961.

Ohldal received a degree in Hotel Management from Paul Smith's College, New York and a bachelor of science degree from Florida State University in Tallahassee in 1959.

While attending school, he worked as a receiving clerk for the Hotel Van Curler in Schenectady, N.Y.; for the Niagara Mohawk Power Corp. as kitchen supervisor at Florida State University in charge of

the football training table; and as assistant food manager of Christ Hospital in Jersey City, N.J.

Prior to becoming manager of the Necho Allen Hotel, he served two and one-half years in the Army and received an honorable discharge in February, 1962.

Civic-wise, he is a past director on the Pottsville Rotary Club board; a member of the Pottsville Chamber of Commerce; served on the board of the Schuykill County Unit of the American Cancer Society; co-chairman of the Food and Beverage Division for the United Fund and the Industrial Development Corp. of Greater Pottsville; Schuykill County Tourist Promotion Association; director on the Hotel Greeters Society board; Schuykill County Convention Bureau; and is a member of the Beta Alpha Lambda alumnae.

O'Connor will remain in Pampa until after Dec. 1.

Ohldal, his wife, daughter age 6 and son age 4 1/2 will make their home at the Coronado Inn. They are members of a Catholic Church.

**Brush Fires Add To Misery  
Of Rain-Soaked California**

GRANADA HILLS, Calif. (UPI)—A 5,000-acre brush fire, whipped by winds up to 50 miles per hour, plunged into two housing tracts and destroyed five homes before firemen "got the upper hand" early today.

Four of the 700 Los Angeles city and county firemen fighting the massive blaze were injured, one seriously.

Five hundred persons and 200 horses from surrounding ranches were evacuated as a three-mile front of fire swept into the outer edges of the tracts in the San Fernando Valley.

Three of the homes destroyed, valued at from \$30,000 to \$40,000, overlooked a country club and golf course here. The two other homes gutted were in the \$20,000 bracket. Five other structures were damaged.

**Police Capture Drug Peddlers  
Selling To Elementary Pupils**

NEW YORK (UPI)—Police captured seven men outside an elementary school Wednesday where they allegedly were selling heroin and other drugs to the children.

Police, afraid to use their guns because of the children in the area, captured the men after a bare-knuckle brawl. Most of the children who supposedly were buying the heroin got away.

One detective said, "Have you ever tried to catch a 10-year-old who had a head start?"

Police confiscated a quantity of heroin, a capsule of cocaine, and \$250—mostly in pennies, nickels, dimes, quarters and dollar bills. Also seized was merchandise believed stolen from nearby stores, including a portable television set.

According to police, the seven men, ranging in age from 20 to 31, sold the drugs between the hours of 7 a.m. and 9 a.m., when the children were on their way to school.

Police said they set up a stakeout on a tip and watched as children, books in one hand and money in the other, lined up to make their purchases before entering the building.

**No Teenage Court**

There will be no teenage court held in Pampa's Municipal Court, according to the court clerk.

They said some of the children sold the drugs to other students to support their own habits.

**Junior Pythians Will  
Play Host To Seniors**

Members of Pampa Chapter No. 70, Pi Delta Pi, Junior Order Knights of Pythias met in a special meeting Wednesday night and accepted the invitation of Electra Lodge 393 Knights of Pythias to attend Electra Saturday, Nov. 1, and institute a new Junior Order Chapter at Electra. The Pampa members will initiate 18 new members and will also install their new officers.

Mark Watkins, regent, presided at last night's meeting. Members will leave from Pythian Hall, 315 N. Nelson, around 4 p.m. Saturday to go to Electra. Knights present were J. C. Hopkins, advisor, assisted by "Peg" Whittle and B.B. Altman, Jr.

**FBI Agents Give  
Tips On Techniques**

Law enforcement officers from the Panhandle heard Federal Bureau of Investigation agents lecture Wednesday and Thursday on different ways to interview and laws of arrest and search dealing with probable cause, police lineups, and exhibition.

O'Malley, FBI agent from Amarillo, lectured to the more than 25 officers on investigations, the different type of investigation and different ways to investigate.

Agent O'Malley gave seven points of good investigation: be attentive, be observant, be neutral, don't be overzealous, be positive of the facts involved, take the average description and watch for different attitudes.

Joseph M. Myers, agent from Ft. Worth, lectured to the officers Thursday morning, dealing with interviews. Myers touched briefly on street, car and office interviews and citizen's civil rights.

Myers pointed out that articles four, five, six and 14 of the Federal Bill of Rights are the ones officers have the most dealings with.

Amendment four deals with the right of the people to be secure in their persons, houses, etc. and a warrant to search such cannot be issued without probable cause.

The fifth amendment tells no one shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of war or public danger.

Under the fourteenth amendment all persons are due equal

**Life Valuable  
To Executive**

BOSTON (UPI)—An unidentified business executive has taken out a record \$20 million insurance policy with the John Hancock Life Insurance Co.

John W. Gardiner, senior vice president at John Hancock, said Wednesday the annual premium in the ordinary life policy will be \$1,285 million with the commission split among several agents.

He said the policyholder was over 60 and the chairman of the board of a large company.

Hancock has 50 multimillion dollar policies "in people having minimum estates of \$5 million," Gardiner said. The previous record was a \$17.9 million policy.

**Law . . .**

(Continued From Page 1)  
But Nixon said under the present arrangement the office "is neither as visible or effective as it should be."

"Both the prestige and responsibility of this office should be strengthened," he added.

The new office could receive complaints from individual consumers and represent them directly in dealings with business or manufacturers concerned.

In the Justice Department, Nixon would create a new assistant attorney general for consumer protection, a position similar to that of the assistant attorney general for antitrust actions.

The division would be empowered "to take quick and effective action under the new statute" in behalf of consumers, Nixon said. He said this would be "particularly important for protecting low income families who are frequently victimized by fraudulent and deceptive practices."

**UNEXPECTED SUPPORT**

MONTGOMERY, Ala. (UPI)—Circuit Court Judge Richard Emmet, who is considering running for governor, has drawn support from a man he recently sentenced to seven years in prison.

"Hi there," said the letter from prison. "Thought I would take time to drop you a few lines. I am still up here in jail and I'm getting along pretty good. I haven't heard anything concerning my appeal yet, but it shouldn't be much longer."

### Foreign News Commentary

Whatever the outcome of the current crisis in Lebanon, the future of that half-Christian, half-Muslim country can only be considered bleak.  
Any compromise with Palestinian commandos demands that they be given freedom of movement within Lebanon for their forays against Israel can mean only that a third Arab nation has surrendered to forces rejecting a peaceful Mideast settlement and demanding total obliteration of Israel.  
King Hussein of Jordan failed in his efforts to contain the commando terrorists and as result his throne is endangered.  
President Gamal Abdel Nasser of the United Arab Republic also was forced to lend reluctant support to the commando and has lost much of the power of his Arab leadership. But he remains the best the Russians have and continues to receive their support.  
Lebanon has been in a state of crisis over the guerrilla issue since early last spring.  
Premier Rashid Karami resigned as result of it in April and since had served as head of a caretaker government. He quit that job on Oct. 22, disclaiming responsibility for Lebanese army action against the commandos infiltrating from Syria.  
The question of a solution then fell to President Charles Helou who declared last May that Lebanon could not deal or negotiate with the commandos as a sovereign body.  
A later tacit agreement permitted the commandos to keep their men in a small area around Mt. Hermon in the south some miles from the Israeli frontier.  
This fall as the weather on Mt. Hermon became uncomfortable they began moving farther south within striking distance of northern Israel's industry and agriculture.  
Israeli estimates say their number has grown from around 100 a year ago to more than 5,000 now.

#### NAMES WATER PANEL

AUSTIN (UPI)— Lt. Gov. Ben Barnes named three senators Wednesday to represent the Senate on a special nine-member committee to look into the state's water problems. Barnes named Sens. Jim Bates, D-Edinburg, Tom Creighton, D-Mineral Wells and Criss Cole, D-Houston, to the panel.

"MATCH SANTA'S GIFTS"

**1000 EXTRA S&H GREEN STAMPS**

It's simple. Each week when you shop with us, you will receive a new gift idea sticker with \$5. or more purchase. There will be no repeats. You need all different stickers to get your 1000 extra S&H Green Stamps (300 extra S&H Green Stamps with only 6 or 7 different stickers.) Remember, These Stamps are in addition to your everyday stamps. (See "Watch Santa's Gifts" card for full details.)  
There's still time to get this week's sticker — SO HURRY on down to CASHWAY — today. (Next week's sticker available Sunday, Nov. 2.)

## Perk Up Goblins, Wandering Spirits With Meat Tricks

No matter whether the clan eats lunch at the kitchen table or from a brown paper bag, interest and spirits can be kindled with sandwiches wearing fanciful faces fashioned from pieces of colorful food.

The most innocent hamburger will bewitch when topped with a jack-o'-lantern face. Simply cover each hot broiled burger with a slice of cheese from which pieces have been cut to make holes for eyes and mouth. A few minutes under the broiler will melt the cheese and make the faces more fascinating.

Barbecued beef sandwiches, served open face with ripe olive slices for eyes and a strip of pimiento for mouth, are sure to enchant young children. Stuffed olive eyes, a green pepper strip mouth and mayonnaise nose outlined on ready-to-eat sausage also provide gay or grotesque faces. Other spooky sandwiches can be created by using slices of hard-cooked egg, tomato, carrot, pickle or celery to give eerie expressions.

Haunt the sack lunchers with sandwiches of chopped ready-to-serve meat or deviled ham mixed with shredded carrot or cheese, bits of prunes, raisins or black olive rings. For a magic touch, cut a toothless grin out of the top slice of a blackrye bread sandwich.

Keeping attention on dinner Halloween night is a challenge when eager youngsters are anxious to gather candy treats or collect for Unicef. Capture interest with tender slices of ham garnished with peach halves sporting raisin eyes and clove smiles.

Play tricks with meat loaf by decorating the top with cheese carved as pumpkins or olive slices arranged to form a witch's hat.

## Top Party Sandwiches With Witches' Symbols

Witches, owls and cats are show-off symbols on these inside out sandwiches. All help to add fun to the Halloween party. Even the mugs that are used to serve the hot mulled cider are a bit owly.

There is a sneaky reason for assembling the sandwiches with the luncheon meat and cheese cut-outs on the outside. The sandwiches can be made this way and covered closely to be refrigerated until party time. The lettuce will remain crisp and fresh because it is placed between two slices of bread without the mayonnaise which tends to wilt the lettuce.

The outside of the top slice of bread is then spread with a generous amount of mayonnaise and topped with plenty of meat. Slices of boiogna, cooked salami and pickle and pimiento loaf make each sandwich a complete meal. Cooky cutters or do-it-yourself patterns are used to cut the Halloween designs from processed cheese slices.

For easy eating, each guest turns the lettuce and bottom slice of bread over to cover the meat and cheese.

HOT MULLED CIDER

Yield: 6 to 8 servings  
1 quart apple cider  
1/2 cup brown sugar  
1/4 teaspoon salt  
1 cinnamon stick  
1/2 teas. whole cloves  
1/4 teas. nutmeg  
1/4 teas. mace  
4 lemon slices,  
1/4 inch thick  
6 to 8 cinnamon sticks,  
to garnish

Combine all ingredients in saucepan with the exception of garnish. Bring to boiling. Remove from heat. Strain. Serve hot using cinnamon sticks as stirrs.

If your windowsills are not wide enough to accommodate flowerpots, solve the problem with a self-attaching plant shelf. These are generally available at garden centers, hardware and department stores, or florist shops.

## Treat Adult 'Tricksters' To Halloween Sausage Witches

Food for a Halloween party is far from a trick-or-treat gesture. Youngsters enjoy apple treats and the candies and cakes that sport the witches and goblins closely related to this special celebration.

For those who plan to await the Great Pumpkin, a Halloween sausage witches dish will help hold off hunger pangs. This is a casserole-type meal that

the adult celebrants will like

**HALLOWEEN SAUSAGE WITCHES**  
1 pound pork sausage links  
2 tablespoons butter  
1/2 cup chopped celery  
1/2 cup chopped onion  
1 cup rice, uncooked  
2 cans (10 1/2 oz.)

consomme, undiluted  
1 tablespoon A1 Sauce  
3 circles of American cheese (cut with cookie cutter)

Cook sausages according to package instructions, until lightly browned. Set aside. In large pan, melt butter, saute celery and onion. In same pan, add rice, consomme and A1 Sauce. Mix well. Pour into shallow 6- to 8-cup casserole. Cover with top or foil and bake at 350 degrees for 1 hour until liquid is absorbed and rice is tender. Remove cover and shape three witches on top of rice, using cheese circles for face and sausage as arms and legs. With toothpick, put dab of A1 Sauce on cheese to make

eyes, nose and mouth. Makes 4 servings.

Witch sausages strictly "treat."

## PURE CANE RECIPE from Sugar Land

### Angel Food Royal

A heavenly combination of flavors  
Toasted almond slices and custard-whipped cream sauce turn plain angel food cake into a dramatic dessert. It's the success you have with extra fine 100% Pure Cane Sugar and remarkable recipes from Imperial Pure Cane Sugar, made in Sugar Land, Texas.

- 1 large angel food cake
- 1 cup Imperial Granulated Sugar
- 1/4 cup sifted flour
- 4 egg yolks, beaten
- 1/4 teaspoon salt
- 2 cups milk, scalded
- 1 tablespoon unflavored gelatin
- 2 tablespoons milk
- 2 cups whipping cream, whipped
- 2 teaspoons vanilla
- 1/2 cup chopped pecans or toasted, sliced almonds

Blend Imperial Granulated Sugar with flour. Add beaten egg yolks and salt. Mix carefully with scalded milk and cook in top of double boiler until thick, stirring constantly. Soak gelatin in 2 tablespoons milk. Add to hot custard mixture and cool completely. When almost set, fold in whipped cream and vanilla.  
With sharp knife, split cake into two layers. Spread part of custard mixture on bottom layer; sprinkle with nuts. Place top layer on; cover entire cake with remainder of custard. Refrigerate at least 2 hours before serving. Makes 12 servings.

**WORLD ALMANAC  
FACTS**

The night of Sept. 7, 1954, brought the baffling death of the steamship, Morro Castle. Nearing the end of her cruise from Havana to New York, the Castle was swept by flames in the early morning. The World Almanac says. Before the fire died, 134 lost their lives and the Castle was left in smoking ruin off the New Jersey coast. Although arson was suspected, cause of the tragic blaze has never been determined.

**ARRESTS "WITCH"**

SAN FRANCISCO (UPI)—Municipal Court Judge John A. O'Kane ordered the arrest of a "witch" Tuesday—and confiscated her broom.

Geri Southworth, who was jailed by O'Kane earlier this year for persistently violating an ordinance against feeding pigeons, walked into court dressed as a witch. Signs attached to her costume read: "Clean the rascals out. Let's sweep out City Hall."

Miss Southworth was freed after four hours, but Judge O'Kane warned her she would get five days in jail and a \$500 fine if she disrupts the court again.

**By DICK WEST**

WASHINGTON (UPI) — The Defense Department announced plans this week to "consolidate, reduce, realign or close" 307 military bases or operations. This turned out to have been an understatement.

When lists of the installations affected by the cutback were made available to members of Congress, they revealed that the action was more drastic than the Pentagon had indicated.

They disclosed that in addition to consolidations, reductions, realignments and closures, some of the facilities are being "disestablished."

The lawgivers probably assumed that "disestablished" was just another gobbledygook synonym for "inactivated" or "deactivated." But I am convinced there is more to it than that.

When the armed forces start disestablishing military facilities, it means only one thing to me. It means they are trying to neutralize these facilities as targets of antiwar protests.

We all know that many of the protests are directed at some vague entity, or figment, known as "the establishment." Realizing that, you can immediately see the advantage of disestablishing a military installation.

**CAREER CORNER** by F. J. Lain

© 1968 McNaught Syndicate, Inc. All rights reserved.

**TWO BILLION DOLLAR PAY-OUT:** Nationwide unemployment insurance benefits paid in 1968 amounted to \$2.032 billion — \$60 million less than in 1967. Total payments in previous years: 1965, \$2.283 billion; 1966, \$2.867 billion; and 1967, \$1.373 billion.

**TECHNICIANS' BOOKLET:** Readers often ask for suggestions of careers not requiring four years of college. One possibility is to become a technician. Technicians work with scientists, engineers and other professionals in fields of science and technology. Duties vary greatly, depending on specialization, but essentially the scientist or engineer does the theoretical work, and the technician assists — translating theory into application. A brief but informative booklet, "25 technical careers you can learn in two years or less" is available free from the Department of Health, Education and Welfare, Washington, D.C. 20202.

**COST IS "INFINITE"**

WASHINGTON (UPI) — President Nixon's science adviser, Dr. Lee A. Du Bridge, warns that the cost would be "infinite" if the United States tries to have "completely pure air and completely pure water." But he told a congressional committee Tuesday there is growing evidence people are willing to pay for some degree of pollution control through higher energy costs.

**What Job would you like to see explored in this column?**

Program sponsored by the National Federation of Business and Professional Women's Clubs. All agreed the best approach is to show respect for the employer's opinions, but to react honestly with something like, "You could be right, but based on my experience and knowledge, I believe that..." Good advice. If you can avoid forcing your boss to battle for his self-respect, he's more likely to be receptive to your views.

## Communal Bag Of Hippies, Drop-Outs In 'Age Of Aquarius'

CROSS PLAINS, Wis. (UPI)—A communal bag of hippies, drop-outs, and former drug addicts are living their Age of Aquarius through self-expression of a four-letter word—work.

"What's more, they're turning a profit on it. Fifteen young freethinkers are finding peace of mind, they say, through their business, a gift candle factory, housed in a barn on an 105-acre farm they rent near here.

The factor, a first stage in a hoped for "craft farm," employs all of the commune members plus three part-time workers from Madison, 20 miles away. They produce handsome sandcast candles in many original designs.

Larry, the group's founder, is a former drug user. A powerfully built young man, he often wears his blond locks bound up with a rubber band, a modified George Washington hair-do.

He set up the candle making months ago, because he saw work as an outlet for his own expression.

In July, he moved the factor to Cross Plains to a farm called the Aquarian Express by its former tenants, a group of hard-line addicts. Larry and the new Aquarian commune, however, are adamant against drugs on the farm.

Most commune members have had drug problems. Some have had frightening experiences with drugs. At least one member admits to having withdrawal symptoms.

Work, according to the communal family, is the key to their success. Their approach to it is almost religious.

"LSD and hard drugs can open a person to new views, but they lock you in; sometimes they confuse you," Larry said. "There is a point where you have to gather yourself to do something, a point where you have to build something."

The group's work day begins at 8 a.m. and continues until the job is done, often 12 hours later. Recently, the commune has had to work until past midnight to fill orders.

The factory has shipped five tons of candles some weeks. The Aquarians expect demand for the textured candles to multiply as markets are established. Two wholesale firms distribute the candles in the East and Midwest.

The commune is exploring plans to expand its artistic and commercial activities. One member now spends much of his time on leather work. They hope to have a silversmith and a potter soon.

## Brown Continues Fight To Stay Alive

LUBBOCK (UPI)—Dolphus Jack Brown, 27-year-old former Texas Tech and Southern Methodist student convicted of the bludgeoning deaths of his parents, Mr. & Mrs. D.J. Brown, still is battling to stay out of prison following his conviction over a year ago.

An all-male 34th District Court Jury in El Paso convicted the Shallowater playboy of the double murder Oct. 17, 1966, and assessed a term of 13 years in the state penitentiary. However, Brown has remained free on \$25,000 bond since Aug. 16, 1967.

## Hollywood In Review

HOLLYWOOD (UPI)—The failure of the new television season no longer is conjecture, according to the first complete Nielsen Rating in which all new series have been exposed to the public.

Nielsen, by whose count the three major networks determine the life or death of series, turned up only two new entries in the top 28 rated shows.

They are "The Jim Nabors Show," in 11th place and "Marcus Welby, M.D." in 12th spot. All the others are specials, movies or old favorites.

At the top of the list are Bob Hope, "Rowan and Martin's Laugh-In," Red Skelton, "Gunsmoke," "F.A.M.I.L.Y. Affair," "Here's Lucy," "Kraft Music Hall" and "Ironside."

**Lacks Imagination**  
 The polluted television medium is lacking so desperately in imagination and daring that in the first 56 shows rated by Nielsen, a puny total of eight new series was counted.

In addition to the aforementioned Nabors and Welby, the others were "The Governor and J.J.," "Room 222," "Andy Williams," "My World and Welcome To It," "Then Came Bronson" and "The Bold Ones." Eight from a total of 21 new programs which should have attracted at least the curious among home dial twirlers.

The CBS news with Walter Cronkite drew more viewers than 15 of the new dramas, comedies and musicals. Even Roger Mudd and his Saturday night CBS news out-gunned five new entertainment shows.

Home audiences are staying with entertainment and performing arts they know.

**Safe In Count**  
 High and safe in Mr. Nielsen's count are Dean Martin, Glen Campbell, Jackie Gleason and such ancient wheezers as "The Beverly Hillbillies," "The FBI," "Dragnet," "Bewitched," "Bonanza," "Green Acres," "The Virginian," and "Mayberry RFD."

Conclusions may be drawn. The habit pattern is strong, indeed overwhelming, among regular viewers. Many a video-oriented American had adopted father figures such as Raymond Burr or Lorne Greene as their own.

Others mistrust much that is new. Only "Julia" and "Laugh-In" made any sort of impression last season.

## Television In Review

HOLLYWOOD (UPI)—Notes to watch television by:

The Headliners: Johnny Cash, the countryfolk singer whose weekly show gained attention on ABC-TV this past summer, will return to the network with his series in late January.

Pat Paulsen, the deadpan humorist who scored well on the Smothers Brothers show, will also have his own series on ABC-TV next year—a weekly half-hour of comedy sketches.

Bob Hope finished No. 1 again in the national ratings with his latest NBC-TV special despite some rough notices. . . President Nixon's address on Vietnam Monday will be carried live by all three networks at 8:30 p.m. CST.

Johnny Carson has an hour prime-time special on NBC-TV Nov. 12, with his guests including George C. Scott, Maureen Stapleton and Marian Mercer.

Pernell Roberts, who quit as a regular on "Bonanza" because he was tired of doing that Western series, shows up on CBS-TV Nov. 18 playing an unlicensed doctor on "Lancer"—a Western series. . . Dick Smothers appears Nov. 12 in "Norman Rockwell's America," an hour NBC-TV variety special in which famous illustrations by the artist are the basis of musical and comedy segments.

The ratings: Robert Young's new ABC-TV medical series, "Marcus Welby, M.D.," continues very strong, placing 12th among all shows in the national ranks. . . The new CBS-TV situation comedy, "The Governor and J.J.," starring the very pleasant combination of Dan Dailey and Julie Sommers, moved up nicely in the statistics.

Sign of The Times: Three weekly series that star former movie queens went nowhere in the ratings. . . CBS-TV's Doris Day show, an erratic statistical entry since its inception, plummeted to 51st position. . . NBC-TV's Debbie Reynolds program, which has yet to make a strong move, came in 61st. . . ABC-TV's "The Survivors," a serial with Lana Turner as its chief name attraction, finished 79th among 87 rated programs.

The Shows: NBC-TV's morning "Today" series originates in Washington, D.C., all next week. . . Siberia is the subject of CBS-TV's National Geographic Society hour Dec. 2. . . Same network's action series, "Manix," beat the heralded movie "Tom Jones" in the New York Nielsen Ratings last Saturday after the film had flattened all the earlier-hour competition.

**SAFETY WARNING**  
 WASHINGTON (UPI)—The American Automobile Association advises drivers to slow down to 15 miles an hour Friday night when in areas where youngsters may be out trick-or-treating. "The combination of dark costumes and dimly lit streets can be a tragic one," the association said. "The lower speed will improve driver reaction time and reduce the required stopping distance should a child run in front of an oncoming car."

**INDICTED IN SLAYING**  
 HOUSTON (UPI)—Lloyd Glenn Gamble, 16, was indicted Wednesday for the shooting death of Ben Andrews, 67, Andrews, pushcart vendor for 35 years, died of three gunshot wounds when three youths robbed him of "pocket change."

## Wall Street Chatter

NEW YORK (UPI)—The correct approach to the current market situation is to take strategic profits in positions acquired last February and March for six-month gains and also to take some tactical profits in some more recent purchases, says Gould's Position. As for strategic commitments, the firm says, be sure you're not teaming up with traders swayed by psychological factors and probably headed for an interim top between now and Nov. 3, when President Nixon speaks on Vietnam.

The year thus far can be divided into two phases of stock market activity according to Spear & Staff, Inc. The first phase, January through July, was characterized by caution, and the second phase, July through mid-October, by moderate aggressiveness in favored industries and stocks. The third phase is now emerging in which traders are trying to keep 80 per cent to 100 per cent of funds invested with a view toward "beating the market," the firm says.

The market's strength is based on mounting anticipation of important progress in de-

Americanization of the war and the assumption that easing of monetary restraints is around the corner, observes Standard & Poor's Corp. The firm warns that the rise has been so rapid that the market has become temporarily overbought and could be vulnerable to any postponement of the realization of these hopes.

However, allowing for a probable temporary slackening of enthusiasm born of disillusionment, the market background has strengthened sufficiently to support a further rise in stock prices, the firm notes.

**SERIOUS OVERCROWDING**  
 CHICHESTER, England (UPI)—A building inspector cracked down on a Chinese restaurant Wednesday, but not because the chop suey was bad. The inspector said a large number of the restaurant's staff was living in the rafters and beams. He called it "a serious case of overcrowding."

# Dear Abby

by Abigail Van Buren

DEAR ABBY: In response to your request for a definition of the word "hippie," the following is rendered:

In one particular lawsuit "hippies" are identified as unconventional young persons in rebellion against competitive middle-class values who usually consort with their own kind and tend to symbolize rebellion through hirsuteness and picturesque garb. Sincerely, SAN DIEGO ATTORNEY

DEAR ABBY: The word "hippie" has no meaning. It is simply another example of the American penchant for classifying, pigeon-holing and lumping together everything and everybody into convenient little categories.

In the minds of ignorant small-minded people, a "hippie" is equated with uncleanness, drug addiction and the communist conspiracy. This image has become so implanted in the American mind that many people who wear their hair long and dress individually are harassed by the police, denied their civil rights, and have been violently attacked by their fellow Americans.

I have worn my hair long for two years, and I dress to suit myself. I bathe at least once a day. I don't use alcohol or drugs, nor do I advocate the overthrow of our government. In fact, I served in the United States air force and received an honorable discharge.

No one likes to be called a "hippie." I have a name. My parents gave it to me when I was born, and it suits me just fine. I know who I am. Thank you.

"WILLIAM"

DEAR ABBY: A hippie is a runaway, a cop-out, an escapist. He has nothing to contribute to society and hangs around with people like himself, sharing that "nothing." He gives the appearance of being unwashed and his hair is long and wild. He dresses in a manner to attract attention while insisting that all he wants is to be left alone to do his "thing." (His "thing" is doing nothing.) He shouts about his "right" to discover his own identity and to be "himself." Then he turns on with marijuana and LSD, and can't remember where he's been or who he is.

A hippie is anti-establishment, anti-church, anti-conformist, and anti-everything. But if you line up these "individualists" side by side, you can't tell one from the other.

A 23-YEAR-  
"OLD FOGY"

DEAR ABBY: A "hippie" is something that looks like a Jack, dresses like a Jill, and smells like a John.

JOE MILLER

DEAR ABBY: So you want to know what a hippie is? Please pay attention: "Un-toiled. One who sprang forth unattended, a random product of some indifferent mating process." Cheers!

TOM LEARY

DEAR ABBY: Define "hippie." From one who has been involved in the "hip" scene fully for the past five years, I'll let you in on a little secret: There ain't no such animal. It was a creation of Time, Inc. to sell magazines. Sincerely,

GARY G. TAYLOR,  
L.A., Calif.

DEAR ABBY: You asked for a definition of hippie? What's the matter with the three-letter word "BUM"?

L.A. TIMES READER

DEAR ABBY: "Define a hippie," you say. When I hear "respectable" (and narrow-minded) women my age making caustic remarks about "hippies," I have felt that this sort of confrontation has occurred again and again through history. So I finally broke into verse. Here is my poem:

"What are these persons — bearded, shabby and not over-clean, who preach against our emperor, our legions and our shrines?"

"My dear, they are a strange sect called Christians, I believe."

Cook 'it, kids, no lions this time. Merely jail or fines! I fear my sympathies lie entirely with the younger people. Sincerely,

HERMONA BEACH GRANDMA

## Your Horoscope

# JEANE DIXON

FRIDAY, OCT. 31

Your birthday Friday: Now you begin a year of being a workhorse. You do the major creative part of the work, and then pass along the gains. Make a firm resolution to save a dollar for every 10 you collect. Emotional or romantic fulfillment is not hindered by all the turmoil and upheaval. Friday's natives are noted for their unlimited capacity for strong-willed action.

ARIES (March 21-April 19): You have to ration your time so as not to slight any of the numerous obligations you have.

TAURUS (April 20-May 20): Relatives and neighbors are easily upset or even angered. Later it turns out it's not because of what you want to do but the idea of your telling them what to do.

GEMINI (May 21-June 20): Optimism is great, but do not let it serve instead of judgment and evaluation. Quick moves are not readily understood. Conference may show you a flaw in the offer.

CANCER (June 21-July 22): For the moment act as if you had no personal plans, no special private goals. This keeps the way open while all visible programs suffer defeat solely for the sake of expression of opposition.

LEO (July 23-Aug. 22): Expect resistance to your proposals in proportion to the pressure you offer in selling the ideas. Let others handle tools and heavy equipment today, particularly if you are not used to doing it.

VIRGO (Aug. 23-Sept. 22): Well-meaning friends get in the way of all ventures Friday, with uncertain results. Keeping your own counsel from start to finish will be of great help. Purely social activity is not important enough to justify touching your reserves.

LIBRA (Sept. 23-Oct. 22): No natural law says that only Librans meditate, so let other people help you arbitrate.

Business and career actions are of great potential for future profit if you can avoid diversion for purely personal concerns.

SCORPIO (Oct. 23-Nov. 21): Let comments bounce off you Friday unanswered, and you will wind up in a much stronger position than ever. Only hard, steady work gets the results out.

SAGITTARIUS (Nov. 22-Dec. 21): Concentrate on study, artistic, abstract or philosophical angles, rather than using a great deal of physical energy. Let others carry the responsibility for a while; see if they can.

CAPRICORN (Dec. 22-Jan. 19): Your views may be overly conservative in the eyes of the people who know you. Let them talk you into a careful experiment, but do not argue past a reasonable point, or commit more than a minimum to the experiment.

AQUARIUS (Jan. 20-Feb. 18): Your theories lead you into trying a business expansion. It is all too easy to obligate yourself and your enterprise for more results than it can deliver.

PISCES (Feb. 19-Mar. 20): Turn your back on commercial considerations and cultivate relations where you care about the people involved. There is much to learn and project for future growth together.

A new study confirms earlier observations that smoking apparently encourages crow's feet and other wrinkles. More women smokers, according to the investigation, have slack, thin, wrinkled skin than do women who do not use cigarettes.

A bike-riding youngster ought to know the rules of the road.

Cookies-Milk

Hat Accents Outfit

Hats can accent almost any outfit. Try a snug-fitting cloche, a wide-brimmed picture hat, or a knit beret.

Fur Fling

Have a fling with fur this season. If your budget doesn't allow for the real thing, "fake it" with vests, bags, hats, skirts, dresses, pants and coats in zebra, leopard, mink, rabbit, and lamb.

# The Pampa Daily News

EVER STRIVING FOR THE TEXAS PANHANDLE TO BE AN EVEN BETTER PLACE TO LIVE Let Peace Begin With Me!

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands freedom and is free to control himself and all he produces can he develop his utmost capabilities.

We believe that all men are equally endowed by their Creator, and not by a government, with the right to take moral action to preserve their life and property and secure more freedom and keep it for themselves and others.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guide expressed in the Coveting Commandment.

(Permission is hereby granted to reproduce in whole or in part any editorials originated by the News and appearing in these columns, provided proper credit is given.)

## Nixon On Top For Awhile?

With the dawning of the '70s just a few short months away, the prospect is that President Nixon, a style politician, will dominate the scene for at least a third of the decade ahead.

Even though he has not ended the Vietnam war, licked inflation or urban problems, the president is riding high. He did falter if he does not make substantial progress on these issues.

What about 1968 and the following '70s? A persuasive case can be presented, though not proved until further confirming elections occur, that a longrun shift is happening.

There is reasonably general agreement among political specialists that the board emergence of the racial issue and black voting power is a political force comparable in magnitude to the war and depression which have caused major shifts before.

This development is driving southern whites from the Democratic party and has nearly destroyed it in the South as a presidential vehicle.

Heavy political impact also seems certain to result from the migrational streams that have brought blacks in huge numbers to the older cities and lower-to-middle-class whites to the modest suburbs and the sun states of Arizona, California, Florida and Texas.

The Democratic cities where blacks have come are shrinking in voting strength. Growth is fastest in suburbs and the sun Belt, where Republicans are recording big gains.

Are these strong shifts just brief gusts which will die down or the building of a steady GOP wind? The year 1972 may tell.

## Utilize Refugees' Skills

Professional trade and legal restrictions have barred the door to thousands of trained professionals, white-collar and skilled workers among our 200,000 Cuban refugees, denying the country the benefit of their training.

That is the finding of a special study made by the Department of Economics of Florida State University.

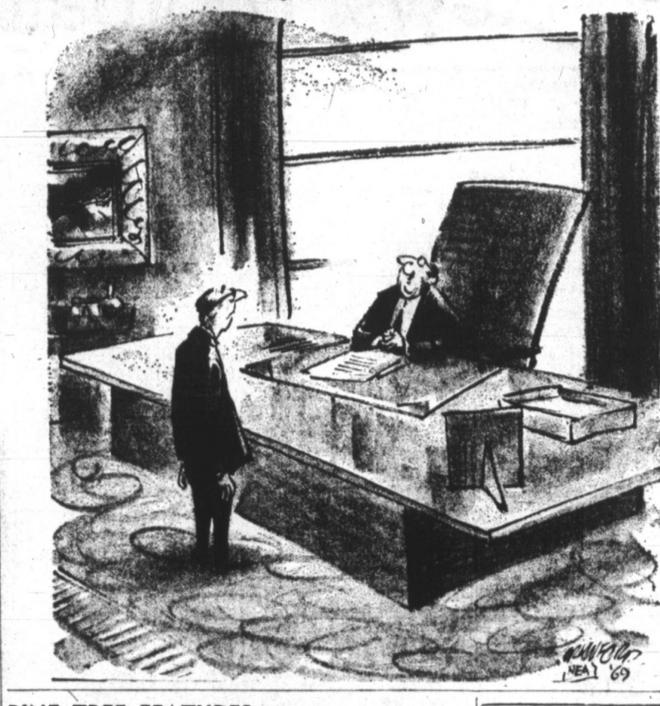

The study was headed up by Paul Moncarz of Miami, a 30-year-old native of Havana, who has earned a bachelor's degree at Florida Atlantic University and a master's at Florida State University.

Moncarz found that in addition to language barriers the trained Cubans, in trying to find employment, have encountered waiting periods, requirements for additional training imposed by states, localities or professional organizations, and sometimes have been assigned the status of a "colleague of lesser stature," resulting in their taking jobs beneath the level of their skills.

The study included such fields as medicine, law, dentistry, pharmacists, optometry, teaching, cosmetology, construction workers, engineers, and others in many or all of which there is a scarcity of American counterparts.

For example, Moncarz reports that 260 veterinarians among the Cuban refugees have found an insurmountable barrier against full use of their skills, some even after they were able to become licensed practitioners. This was true despite the fact that their training in Cuba was comparable with that required in this country. They

## PINE TREE FEATURES

### At The Root Of Slavery

By ROBERT LEFEVRE

The entire concept of slavery is abhorrent. The idea that some men can, with impunity, confiscate the production and earnings of other men is the root of the problem.

In earlier times, many men sought to own slaves. By this process they could acquire an unpaid labor force, confiscate the earnings, and bask in luxury and perhaps in idleness while their slaves toiled endlessly and helplessly under duress.

In theory, with the end of the Civil War, we banished slavery by law. The Thirteenth Amendment was supposed to do the job. In practice, no such abolition of slavery occurred. The law banished the idea that one man could own another. And the amendment clearly says: "Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist."

But the real core of slavery does not relate to a bill of sale wherein one human being is conveyed as a property to another. It relates to the ability of the "owner" to do as he will with the life and energies of his slave. If a man or body

of men may do as they please with the lives and properties of other men, even if they lack the bill of sale, a condition of slavery still persists.

The difference between modern slavery and the slavery that provided such a dark stain on the American dream prior to 1865 relates to the class of people enslaved. In the old days, blacks and impoverished whites (peons) were enslaved. Today's slaves consist of wage earners, businessmen, industrialists, and producers of all sorts.

Also, in the earlier time, slavery was a private affair in which individual citizens profited by the labors of those they had captured or purchased. Today's slavery is a public affair with government, blacks, and whites alike profiting by the labors of the most productive.

It's the productive of our era who toil endlessly to produce and earn so that the non-productive can bask in idleness and even luxury, or subsist on government business patronage.

To reveal to what depths we have sunk, all one has to do is read the President's latest message concerning taxation. The chief executive calmly describes in advance the extent of the inroads he proposes to enjoy upon those who work. And this is not even questioned in principle. The only challenge that is even dreamed of, is one wherein one toiling group complains that they are being made to pay a larger share than some other toiling group. It is taken for granted that the slave master has a "right" to take what he wishes if only he is "fair" about it. When has slavery ever been "fair"? Where is there a right that some shall profit by expending the lives and properties of others?

We no longer have private slavery, true. The government has banished private slavery and become the single, legalized slave master. It now enjoys a virtual monopoly in the area. And the more productive and industrious you are, the more that will be taken away from the natural fruit of your own enterprise.

A more monstrous and vicious distortion of equity can scarcely be imagined. Of course, it will be claimed that the industrious also benefit by "public" improvements. But this is the argument of the plantation owner that his slaves are better off when the stately pillars of his mansion take on more imposing air as a result of a new paint job. The real tragedy of modern slavery is found in the corruption of good men, who, finding that slavery is no longer possible at a private level, join hands with the federal looters so they, too, can benefit by the enslavement process.

Laws will never banish slavery. Slavery is made possible by law, whether the law supports public or private extortions against the helpless. We have come full circle. Instead of enslaving the least productive, we enslave the most productive. And the irony is that we call it freedom, and hail it as a bold, and brave new world.

Please send your questions and comments to Wayne G. Brandstadt, M.D., in care of this paper. While Dr. Brandstadt can't answer individual letters, he will answer letters of general interest in future columns.

## Inside Washington

Stepped-up Intelligence Plans Navy's Answer to USSR

WASHINGTON — Spurred by Russia's expanding activities at sea, the Navy is planning to step up and modernize its intelligence operations around the world.

Funds for an accelerated intelligence program are included in the big defense money bill now pending in the House and Senate. Navy spokesmen have urged that the sums be approved in their testimony behind closed doors.

Included in the Navy request is regular funding for cloak-and-dagger intelligence, and counter-intelligence activities of nearly 1,000 agents operating around the world. Those activities range from sensitive espionage investigations to an increasing number of inquiries into Navy narcotics use.

The proposed expansions, however, are requested for surveillance on, over and under the high seas. Involved are reports from visual sightings and those from radar, sound-sensitive sonobuoys and other sophisticated sensors.

Navy intelligence experts are developing a computerized system under which reports on activities at sea — including those of the Navy's own ships — are coordinated and analyzed at a new center in suburban Suitland, Md. data available there. Navy commanders will be supplied with a report, a computer printout or even a graphic display to meet their intelligence needs.

Information will also be made available to the Defense Intelligence Agency and to the civilian intelligence community. Computer operations in four regional centers will be linked by high speed communications to the new center in Suitland.

Some of the data processed will be used for non-military purposes. For example, the Navy's ocean surveillance program provided continuing reports to the State Department on ships which could assist in the evacuation of 7,000 Americans from Nigeria after the outbreak of the recent troubles there.

"URGENT EFFORT" — The Navy is requesting more than \$36 million in the present fiscal year for Naval intelligence, more than double the funds requested two years ago. A major part of the boost is an accounting transfer, but actual programs will increase by about one-third over the three years.

Rear Adm. F. J. Harfinger, commander of the Naval Intelligence Command, has told congressional committees that Russia's new interest in sea power is largely responsible for the step-up.

## PAUL HARVEY NEWS

### Behave Or Be Disciplined

By PAUL HARVEY

Those of us who like honey on our breakfast cereal want it straight from the bee honeycomb.

We don't want to buy some product that's been diluted with corn syrup.

And it's because cheaters were abusing the competitive system by mislabeling their products that our federal government produced a special "truth in packaging" law three years ago.

Now, as the Federal Trade Commission begins to implement that law, manufacturers are being forced to abandon such deceptive labels as "large economy size" on packages that contain one-third air.

Now the label must say how much the usable contents weigh. But where the consumer has a new advantage, he is simultaneously disadvantaged by the increased taxes he has to pay to police such government regulations.

It is abuse of freedom which invites government further to restrict freedom — and always at our expense. So we pay two ways: we end up with less freedom and higher taxes.

Yet, as we have piled laws on laws seeking to discipline ourselves, American industry and Americans generally are now inviting the further restraints and higher taxes necessary to write and invoke and enforce laws against pollution.

It's easy for Americans, coughing in eye-smarting smog, to demand that industry "shut down the smokestacks," though most of us won't even discipline ourselves.

The National Wildlife Federation recently evaluated all our antipollution and conservation efforts in air, water, soil, forests, wildlife and minerals. The federation found air pollution the most serious problem and automobile exhaust the greatest contributor.

Water pollution is next most serious and "people pollution" is greater than "industry pollution."

Our forests and soil are still being lost to erosion or polluted by pesticides and fertilizer.

Timberlands suffer from excessive harvests.

Pathologist Dr. William Snyder of the University of California says "Land pollution is more dangerous than air or water pollution because some of the viruses left behind by garbage, sewage, littering, crop refuse and chemicals actually reproduce themselves."

The American Chemical Society is calling for better systems of waste treatment and disposal, saying that what our nation now needs most is a "conscience" about such things.

I do not think we will bury ourselves under garbage and junk and rubble. I think Big Brother government will move in and discipline us "for our own good."

But what a shame it has to be done that punitive and expensive way.

What a shame that we look so clean and act so dirty.

As poet Mark Van Doren says, "Man is the most recent animal on earth — and the only one that fouls its own nest."

## LEGAL PUBLICATION
