**HEAD FOR MANEUVERS** — Heavy M-48 tanks of the U.S. 2nd Armored Division pull out of a staging area near Speabach, Germany, heading for NATO maneuvers. The division was flown from Texas to Germany last week in operation "Big Lift." U.S. Secretary of State Dean Rusk also went to Germany to dispel West German concern that U.S. troop strength would be cut because of the success of "Big Lift."  
(NEA Telephoto)

## Senator Says 'Party Girl' Story Not on Quiz Agenda

### Senate to Continue Its 'Outside Activity' Probe

WASHINGTON (UPI) — Sen. John L. Williams, R-DeL., said today he has nothing to "prove or disprove" reports of a Profumo-like story of a German beauty's relations with prominent Washington figures.

Williams said in a statement that the reports about activities of the West German woman, who was returned home after an FBI investigation, were not among the incidents he is to discuss before the Senate Rules Committee in a closed session Tuesday.

The committee is investigating outside activities of Senate employees, primarily the affairs of former Senate Democratic Secretary Robert G. (Bobby) Baker.

Williams referred specifically to a copyrighted story about the German woman in Sunday's Des Moines (Iowa) Register. Williams said the story "did not originate from my office, and whether it is true or false is something for which I cannot answer and for which the writer will have to assume the full responsibility." He added in his statement:

"There is nothing in my files which will either prove or disprove the story—nor was this one of the subjects on the agenda to be discussed at my meeting with the Senate Rules Committee tomorrow."

The party girl was described as the 27-year-old brunette wife of a West German army sergeant who had been assigned to the German military mission here.

The woman, called a "ravishing beauty" by an embassy spokesman, was whisked back to Germany with her husband

on Aug. 21 at the urging of the FBI, which had investigated her behavior.

She attracted the attention of the FBI because of the expensive clothes she wore and the high standard of living she and her husband maintained in the country club section of nearby Arlington, Va.

The woman also had a habit of dropping the names of prominent persons, according to reports.

Williams is scheduled to be the leadoff witness at Tuesday's closed hearing, which was called to look into the activities of Robert G. (Bobby) Baker, who resigned on Oct. 7 as Senate Democratic secretary following published reports of his business interests.

### 1,500 Battle Troops Sent Back to U.S.

FRANKFURT, Germany, (UPI) — The United States shipped home 1,500 combat troops on return flights of Operation Big Lift planes but kept the movement secret to avoid arousing European concern, it was learned today.

Big Lift, which brought more than 15,000 combat troops from bases in Texas to Germany for maneuvers, caused fears here that the number of U.S. troops permanently stationed in Europe would be cut.

The 1,500-man battle group was being returned to the United States in a normal rotation move and its withdrawal had nothing to do with reducing the strength of the six U.S. divisions here.

But Washington officials, currently seeking to counteract suspicion in Europe that U.S. combat power here may be reduced, were reported to have feared the rotation move would be misunderstood.

**No Announcement Allowed**  
Strenuous efforts were made to divert attention from the Kansas outfit's return after six months' temporary duty and no announcement was allowed.

Secretary of State Dean Rusk gave additional reassurances that no cuts were contemplated in U. S. strength in Europe in a speech here Sunday dedicating a memorial to soldier-statesman Gen. George C. Marshall.

"We have six divisions in Germany," he said. "We intend to maintain these divisions here as long as there is need for them — and under present circumstances there is no doubt that they will continue to be needed — and they are backed by nuclear forces of almost unimaginable power."

In reference to fears expressed here that Operation Big Lift, by its demonstration that an entire armored division can be airlifted to Europe in less than three days, would lead to troop cuts, Rusk said:

**A Source of Strength**  
"The opposite is the case. Because of this airlift we have at the moment a seventh division temporarily in Europe. Moreover, equipment is in position for still another division. Thus the airlift capability developed by the United States at such great expense provides a major source of added strength to the alliance."

Rusk called on the European members of the NATO alliance to work for increased military and political cooperation. He stressed in particular the need for a NATO nuclear force of Polaris-armed ships financed and manned by several countries.

**OPPOSE VACCINATIONS** — The Arkansas Supreme Court has ordered a lower court not to change the custody of Linda May, Wayne, and Delia Marie Cude, left to right, until it can be decided if the state can require smallpox vaccinations for them. The children, shown with their father, Archie Cude, in Mena, Ark., do not attend school because of the requirements for smallpox vaccinations.  
(NEA Telephoto)

### Tom Connally Dies at Home in Washington

WASHINGTON (UPI) — Former Sen. Tom Connally of Texas died early today at his home here of pneumonia. He was 86.

Connally's family said he had been ill for some time.

He had been living in retirement here since he left the Senate in 1963 after 36 years in Congress — 12 in the House and 24 in the Senate.

The silver-haired Texas Democrat, was a former chairman of the Foreign Relations Committee.

Connally decided to retire when former Texas Atty. Gen. Price Daniel announced as an opponent. Daniel won the Senate seat and later resigned to successfully run for governor of Texas.

**Colorful Lawmaker**  
A colorful lawmaker, Connally was known for his picturesque dress and his acid tongue which found targets among Soviet diplomats as well as political opponents.

Only a few weeks before he retired, Connally delivered a wrathful speech on the Senate floor denouncing the late Sen. Robert A. Taft, R-Ohio, for "going down into my state" and

"putting out a lot of political sludge."

Connally's blast was aimed at a Taft speech in Houston, accusing the Texan of having helped to bring on the Korean War by saying publicly that the United States would not help defend South Korea.

Connally was a strong administration supporter on foreign policy during World War II and during the postwar era, but toward the end of his career he became increasingly critical — mostly on foreign aid.

**Critical of France**  
He was especially critical of large foreign aid grants to France.

Connally served as a U.S. representative 12 years and as a senator 24 years. He became a senator on March 4, 1929.

In his retirement statement, Connally said, "during all that time, there has never been any intimation from any source that I have done anything that would reflect upon my integrity nor upon my devotion to public office."

Connally served as a U.S. delegate to the San Francisco Conference where the United Nations was formally established in 1945.

**Adviser to Byrnes**  
The following year he was a U.S. representative to the first session of the U.N. General Assembly in London, and he also served as adviser to former secretary of state James F. Byrnes at the Paris meeting of the council of foreign ministers.

### Battle Continues As Truce Talks Are Agreed Upon

ALGIERS (UPI) — Fighting continued today along the Moroccan-Algerian border, although both nations have agreed to meet for truce talks.

(Moroccan military sources in Marrakech said Moroccan troops defending the Sahara Desert outpost of Hassi Beida killed 60 Algerians and captured 100 others Sunday in repulsing an unsuccessful Algerian attack. There was no confirmation of the report from Algerian sources. It was the highest one-day casualty toll announced so far in the three-week old conflict.)

(The Moroccan sources said Moroccan troops "routed" the Algerians and drove them back 18 miles southeast of Hassi Beida toward Tinfouchi, where indecisive fighting was reported Saturday. More than 100 small arms were abandoned by the retreating Algerians, the sources said.)

Two other nations will take part in the truce talks — Mali, Nigeria's neighbor, and Ethiopia, which has tried before to mediate.

President Ahmed Ben Bella prepared to leave today at the head of a delegation to the talks which open Tuesday in Bamako, the capital of Mali. King Hassan II of Morocco, Emperor Haile Selassie of Ethiopia and President Modibo Keita of Mali also are scheduled to take part in the conference, which was announced over the weekend.

### Man, 7 Children Killed in Crash

GALLUP, N. M. (UPI) — A migrant farm worker and seven of his 10 children were killed in a head-on collision of a car and truck on U. S. Highway 66 about 36 miles north of Gallup, N.M., Sunday. Five others were injured.

State police identified the victims as Luz B. Garza, 37, whose last permanent address was Route 1, Nyssa, Ore., the driver of the car, and the seven-Garza children — Noelia, 16; Odella, 13; Irma, 11; Vivano, 8; Lupe, 5; Mercedes, 4; and Rojelio, 1.

The mother, Marie Garza, 40; the truckdriver William Delbert Wakefield, 48, of Aztec, N.M., and three other Garza children were injured. All were expected to survive.

State police said the family was on its way to Alamo, Tex., from the Idaho potato harvest. They planned to visit Mrs. Garza's relatives at Alamo.

The truck driver told officers he saw the car approaching him across a narrow bridge in the wrong lane. He locked his brakes, hoping to avoid the collision, skidded 50 feet and hit

## Soviets Plan to Spend 'Moon Money' on Earth

MOSCOW (UPI) — The Soviet Union, now officially out of the race to the moon, turned today to the domestic problems that may have prompted its decision.

Premier Nikita S. Khrushchev, in a 10,000-word interview to Soviet journalists Saturday, said "it would be very interesting to make a trip to the moon but I cannot say now when this will be possible." Noting the U.S. target date of 1970 for such a flight, he said "I wish them success. And we shall watch how they fly there."

Western observers believed the decision may have followed recognition that the money earmarked for the moon project was more urgently needed on earth to solve industrial and agricultural problems and to provide a better standard of living.

Communist union spokesmen for 68 million workers met here today to discuss better working conditions, including a proposal to cut the work week for most employees from 41 to 36 hours.

Khrushchev made news on a number of fronts in his long interview. His major points included:

—**American Wheat:** Khrushchev balked at agreeing to ship the \$250 million worth of American wheat he seeks to buy on U.S. ships, which would cost the Russians as much as \$12 a ton more than the world average.

"If the Americans attach any discriminatory terms to the sale of wheat we shall not buy wheat in America," he said.

—**The Soviet Economy:** Khrushchev said that on the whole it was going "very well," but bad weather caused grain crop failures and made foreign grain purchases necessary.

## Drought Bites Deeper Into Midwest and East

By United Press International  
A long and bitter drought—worst of the century in some parts of the country—bit deeper into the East today, sucking streams dry and feeding brittle fields with fire.

Weeks of withering heat sent damage estimates soaring into the millions of dollars.

Schools closed in Ohio. Farmers filed for emergency loans. Springs dried up in Vermont, for the first time in 70 years.

From Kansas wheatfields to New England forests, the story was the same: No rain. Indian summer on the warpath.

Another spell of unseasonable heat seared the East Sunday. Boston, Mass. — 85 degrees—an all-time record. Washington, D.C.—83 degrees—hottest ever for the date.

And Baltimore, Columbus, Albany, Worcester, Roanoke, Allentown, New York, Philadelphia, Wilmington, Portland, Windsor Locks: All records.

Some rain fell. Louisville got .73 of an inch. A record dry spell of 23 days ended when .02 inch fell at Albany, N.Y. The New York City dry spell went to a record 24 rainless days.

The weather bureau said: "The few sprinkles of rain that fell from the Ozarks to the Appalachians did little to relieve the drought situation."

And foresters across the drought area said it would take 3 inches of rain and more to ease the threat of fires.

### Librarians Meet Here on Saturday

About 100 librarians in the District I Texas Library Association will meet in Pampa Saturday in the Lovett Memorial Library. Pampa librarians will be hostesses for the morning session, coffee and luncheon.

The program begins at 9 a.m. with registration and a coffee served by members of the Pampa Library Board.

E. O. Wedgeworth, Chamber of Commerce manager, will give the welcoming address at the morning session. During this two-hour session, the board of trustees of District I will have a business meeting in the library conference room.

Dr. Sarah Law Kennerly, professor of library science at North Texas State University, Denton, will be featured speaker during the morning session. Her topic will be "Plain Facts About Library Cooperation."

Sister Jane Marie Barbour, president of the Texas State Library Association and head of library science at Our Lady of the Lake College, San Antonio, will address the group at the 12:30 p.m. luncheon in The Coronado Inn. Her topic will be "Three Cheers for Librarians."

Charles Gholz, from the Texas State Library in Austin, is also on the program. R. C. Janeway, head librarian at Texas Technological College, Lubbock, will be the official representative of the Texas Library Association.

## Temperature Hits New Daytime Low

Last night's 45-degree low temperature and yesterday's high of 65 made Sunday Pampa's coldest day and night this month, according to Pampa weather records. Home furnaces came on last night and many deserted short sleeves for sweaters today.

It was the third night Pampa has dropped lower than 50 degrees since Oct. 1. Temperatures started a slow decline last Monday with 49 degrees and dropped to 48 Saturday.

According to records kept by D. I. LaMar, 1921 N. Sumner, the lowest temperature reported since last spring was a low of 43 on Sept. 29. Other September lows below 50 were Sept. 27 with 48 and Sept. 30 with 46.

Yesterday's high of 65 was an 18 degree drop in temperature since Saturday's reported high of 83 and made yesterday the coldest day in Pampa this fall. The only other recent day that could compete with yesterday in coldness was Oct. 19 when the high was 66, according to records kept by LaMar.

### Prime Minister Home Says Britain First With Weapon

EASTER ROSS, Scotland (UPI)—Prime Minister Sir Alec Douglas-Home said today that Britain developed a nuclear weapon before the United States.

"We were the first in the field with the nuclear deterrent, and if it were not for the vulnerability of Great Britain in war it would not have gone across the Atlantic so soon," Douglas-Home told a news conference. He did not elaborate.

But informed sources recalled that reports have circulated here for years that, although American scientists had solved the problem theoretically, British experts were the first to develop a workable "trigger" for the atomic bomb.

The former 14th Earl of Home, his black cat mascot at his side, plunged into the by-election race at Kinross and West Perthshire, running for the House of Commons seat he is seeking before leading his Conservative party into general elections.

He defended strongly the agreement with President Kennedy which gave Britain Polaris missiles for submarines, and he rejected firmly opposition Labor party charges that this nation no longer has a nuclear strike force of its own.

### Seek Compromise On Civil Rights

WASHINGTON (UPI) — President Kennedy and Democratic House leaders today stepped up their efforts to work out a compromise on stalled civil rights legislation.

The administration's original proposals have become ensnared in the House Judiciary Committee after a subcommittee added provisions to strengthen the bill. Kennedy feels the broader measure would be defeated in the House.

House members and Justice Department representatives hoped to negotiate a compromise during the day to present to Kennedy at a White House meeting scheduled for 4 p.m. EST, today.

Barring another postponement, the judiciary committee will meet Tuesday to vote on the strong bill drafted last month by the subcommittee, or on a compromise version.

Leaders already have postponed a committee vote three times while they tried to work out a milder bill.

### Teen-Agers Face Judging Sessions

DALLAS (UPI) — Fifty candidates for the "Miss Teen-Age America" title today settled down to competition for the crown.

Sixteen-year-old Leslie Watkins of Pampa is among the contestants.

The girls faced three judging sessions today.

The "Miss Teen-Age America of 1964" crown will be based on personality, poise, intelligence, talent and good grooming. Sponsors emphasize the pageant is not a bathing suit contest.

### Rescuers Continue Efforts To Reach 3 Trapped Miners

PEINE, Germany (UPI) — A giant drill rig gnawed the rocky earth beneath a north German beet field today in an attempt to rescue three men trapped since Thursday 262 feet down in a flooded iron mine.

In the murky underground cavern, the three miners played cards or joked with the rescue crews over a microphone lowered to them Sunday.

"You poor chaps, I guess you've got to work night shifts," one told rescue officials. A rescuer sent word that "we had the season's first frost during the night and it's also pretty foggy."

"We also have some fog down here, but no frost. It's sort of cool, though," came back the reply.

The three men, in a pocket of high pressure air that has held back the flood waters, have been entombed since 8 p.m. Thursday.

The Ilseeder Huette Mining Co., owners of the Mathilde Mine four miles south of here at Lengede-Broistedt, said 39 or perhaps 40 miners died when a huge sedimentation basin burst and 19 million gallons of sludge and water poured down into the shafts and tunnels.

If it comes from a hardware store we have it. Lewis Hdwe. (Adv.)

## Canadian High School Senior Gives Reports on UN Visit

CANADIAN (Spl) — Linda Moon, Canadian High School senior who won a tour of the United Nations this summer under sponsorship of the local Rebekah-IOOF Lodges, told Canadian Rotarians of her experience recently. . . and made a glowing appeal for the UN itself.

"The United Nations means something a little different to everyone," Linda told the Rotary group. "but more to those who have been there."

"The biggest thing to come out of the UN," she declared, "is a dream of peace. It isn't perfect. . . and it's a lofty dream. . . but America was a dream. Democracy was a dream. Americans dream. . . and Americans work. . . and Americans can make this dream come true. We can do it by supporting the United Nations."

The pretty dark-haired high school youngster, a poised and forceful speaker, presented some compelling arguments to support her case. . . and the U. N.

"People who say 'let's get the US out of the UN. . . and vice versa' are well backed. . . by Communists in Cuba and Communists in Russia. . . and that's a lot of backing, if you want that kind," she declared.

"We (the U. S.) have the power. . . if we didn't want to stay in the United Nations, it wouldn't be necessary. And we pay one third of the cost of the U. N. Why support the UN, then? Because it is our duty to the countries of the world to help them help themselves. What happens anywhere in the world affects us today."

"We spend \$34 million on the United Nations," Linda told her audience. "but we also spend \$36 million dollars a year in New York City alone for garbage disposal. . . and more than \$20 billion on weapons."

"We Americans are truly blessed. We've been gifted. . . a gift from God. Haven't we an

obligation to help the needy people of the world?"

Tracing the modern history of war, Linda pointed out that the cost of killing a soldier in the American Revolution was a few dollars. By the time of the Civil War, the cost had risen to about \$400, and in World War II, it cost \$65,000 to kill one soldier. "But in a nuclear war, the cost of killing one man is estimated at about 15 cents. Science has reduced the cost of killing."

"That same 15 cents which could kill in war can, through UNICEF, give a glass of milk, a bowl of rice. . . and a penicillin shot that might well save a life."

To Linda Moon of Canadian high school, the United Nations obviously means a lot.

## For Weekend Treat Try Sourdough Idea

Breakfast or brunch cookouts are a weekend treat, particularly when you prepare Yeast-Raised Sourdough Pancakes.

**YEAST-RAISED SOURDOUGH PANCAKES**  
1 cup milk  
2 tablespoons sugar  
1/4 teaspoon salt  
1/4 cup shortening  
1 package dry granular yeast  
or 1 cake compressed yeast  
1/4 cup warm (not hot) water  
1/2 cup All-Bran  
1 egg, beaten  
1/4 cup sifted flour

Scald milk. Stir in sugar, salt and shortening; cool to lukewarm. Soften yeast in water. Stir in milk mixture. Add All-Bran, egg and flour and beat until smooth, about 1 minute. Cover and let rise in warm place until doubled in bulk, about 40 to 50 minutes. Stir down batter. Pour 1/4 cup batter for each pancake onto moderately hot, slightly greased griddle. Bake slowly until bubbles appear on surface and edges seem dry. Turn only once. Stack on warm plate. Stir down batter occasionally as it is used.

Yield: about 20 3-inch pancakes.

## Manners Make Friends

Open-mouth chewing leaves others slack-jawed.

Dear Abby

By Abigail Van Buren

**DEAR ABBY:** I am a junior in high school, but quite mature for my age. A good friend of the family, who is 40 and married, has taken an interest in me. He said, "If there is anything you want to know about the facts of life or anything you want to confide, come to me because you wouldn't want to go to your parents with things like that, would you?" He's right. There are some things I wouldn't go to my parents with. He said when he was my age, he developed a close friendship with a woman teacher and he learned a lot. He thinks every young person should develop a close friendship with someone older of the opposite sex. There are a few things I would like to know more about. Should I confide in him?

**LOTS OF QUESTIONS**  
**DEAR ABBY:** No. In my opinion this family friend is out of line. A REAL friend would encourage a young girl to confide in her parents. The best thing you can develop between this man and yourself is distance.

**DEAR ABBY:** My son is in Germany and has been there for five months. He got a "Dear John letter" from this girl in our home town who had promised him she'd wait "forever." We, being in the same town, knew she was writing our son this letter and we worried for fear he would take it very hard. We worried in vain. We heard that he put her picture up on the bulletin board with her name and address under it, and across the top he printed AVAILABLE. Now she is mad at all of us because she got six letters from soldiers in his outfit.

Yours truly,  
CASEVILLE, ILLINOIS

**DEAR ABBY:** Would you kindly inform me as to how soon a bride is expected to get her thank-you notes out for her wedding gifts? I was married three months ago. Over 700 people attended our wedding. We went on a two-week honeymoon, but the day after we returned I started back to work again. I have a five-room apartment to take care of, so you know I am not just sitting around doing nothing. My mother-in-law told my husband that if I didn't hurry up and get those thank-you notes out, she would offer

**FAMILY REUNION**—Five generations of the family of Mrs. Carrie Austin, left, met recently in the home of Mr. and Mrs. Jim Wilson, 1934 Grape. With Mrs. Austin are her daughter, Mrs. Jim Wilson, her grandson, William Coker of Glendale, Calif., her granddaughter, Mrs. John Beuson, and great-granddaughter, Susan Beuson of Glendale, Calif. (Smith's Studio Photo)

to do it for me. I'd like your opinion on how guilty of negligence you think I am.

**VERY, VERY BUSY**  
**DEAR BUSY:** Very! You should have started writing your thank-you notes the day after you returned from your wedding trip—if you had to burn the mid-

night oil while doing it.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

Hate to write letters? Send

one dollar to ABBY, Box 3365, Beverly Hills, Calif., for Abby's new booklet, "How To Write Letters For All Occasions".

## Texas Heritage Studied at Meeting

The "Light of Yester Years" was the subject of the program on Texas Heritage during a recent meeting of the Civic Culture Club held in the home of Mrs. R. E. Dauer, 1015 S. Faulkner.

Mrs. Irvin Cole and Mrs. Katie Vincent were in charge of the program. Mrs. Cole said, "In order to appreciate our Texas Heritage, one must be aware of the things that go to make up our heritage. One should revere these things and have a desire to preserve them. All over this area, there is an awakening of the historical importance of this section of Texas. Much is being done by the Texas State Historical Survey Committee which recently placed the first of its historical building medallions in a program designed to preserve and restore 1,175 historic buildings in Texas."

Much is being done by our local genealogical society to preserve history which otherwise would soon be forgotten". Mrs. Vincent discussed the importance of books which are being written about this part of

## Lions District Governor to Be Here Thursday

O. A. Stephens, district governor of District 2-T-1 of Lions International, will meet with the Pampa Noon Lions Club Thursday in the First Methodist Church.

During this annual visit he will counsel with the president and his board of directors on their plans for next year.

A charter president of the North Amarillo Lions Club, he has held all offices of that club and has served ten years with perfect attendance. He was a zone chairman in 1956-57, deputy district governor in 1958-59 and membership and retention chairman in 1960-61 and in 1962-63. He holds the master key in Lionsism.

District 2-T-1 consists of 28 counties in the Panhandle.

## Six More Cities Get Air Service

DALLAS (UPI)—Trans-Texas Airways inaugurated ten new flights yesterday to three cities in West Texas and three in New Mexico.

The schedule addition was the second part of a five-step expansion authorized by the Civil Aeronautics Board. Trans-Texas service started yesterday to Amarillo, Lubbock and Big Spring in Texas and Albuquerque, Santa Fe and Clovis, N.M.

Six more flights are scheduled to start Nov. 5, serving Roswell, Carlsbad and Hobbs, N.M. By Nov. 19th, a total of 38 new flights will be scheduled.

Trans-Texas started service Oct. 15 to Waco, Temple and College Station.

C. A. STEPHENS to meet with Lions

## Summer Heat Is Kayoed by Cold Front in Texas

By United Press International Floodwaters receded Monday in the Rio Grande Valley and a cool front invaded the north that knocked the summer heat out of Texas.

Up to a foot of weekend rains in the lower Rio Grande region caused some minor flooding, but no evacuations were necessary in Starr County, hardest hit area. For a time, the river was rising a foot an hour.

The Weather Bureau said the cool front, which brought cloudiness but little rain to the north-west, would keep temperatures down to "seasonal normals" today.

Pampa's low last night was 45.

**Chilly at Alpine**  
The mercury dipped to 41 degrees this morning at Alpine and 40 degree readings were common throughout the Panhandle. Galveston was the state's warm spot overnight, reporting 71 degrees.

Forecasters said the cool mass would move deeper in the state by Tuesday, but still would not bring any large temperature drops.

Highs Monday were expected to be in the 70s and 80s. Cloudiness in the northwest was credited with keeping temperatures even, and spotty cloudiness was expected elsewhere in the north.

**Rio Grande Rises**  
Torrential rains smashed into the Lower Rio Grande Valley Saturday, but became slack Sunday. Rincon reported 10 inches Saturday and two inches Sunday. At Roma, the Rio Grande rose 11 feet in 10 hours. Crests of 15 to 16 feet at Mercedes and 12 to 13 feet at Brownsville were forecast.

Rio Grande City reported floodwaters in a few homes and water rose to the doorsteps of 20 other houses.

Surging moist Gulf air from Mexico, an upper level low pressure trough and a cool jet stream all coming together, were blamed for the downpours.

## Pampa Man Wins Second Place

Irl M. Smith of Smith Studio of Pampa received second place honors in the color commercial division during the Panhandle Professional Photographers Association meeting in Amarillo yesterday.

About 85 photographers throughout the Panhandle attended. Awards also were given for outstanding work in color portraits, black and white portraits and hand coloring.

Officers were elected during the session and exhibits of photography by Professional Photographers of America was on display.

The next PPA meeting will be Feb. 23.

## Obituaries

**Laura D. Brown Silvey**  
Funeral services for Mrs. Laura Delar Brown Silvey will be held at 2 p.m. tomorrow in the First Baptist Church. Rev. Carroll Ray, district missionary, and Rev. Jack Parker, associate pastor of the First Baptist Church, will officiate. Burial, under direction of Duenkel-Carmichael Funeral Home, will be in Fairview Cemetery beside her husband, W. J. Brown who died Feb. 14, 1936.

The Pampa Rebekah Lodge will be in charge of graveside rites.

Mrs. Silvey died Sunday at 2:45 a.m. in the Plains Nursing Home in Borger.

Born July 5, 1882, in Upsher County, Texas, Mrs. Silvey moved to a farm west of Pampa in August, 1909. She was a charter member of the Pampa Rebekah Lodge and the First Baptist Church.

She is survived by three daughters; Mrs. Ann Northcott of Roswell, N. M., Mrs. Ellen Lewis of Sioux Falls, S. D., and Mrs. Myrtle Atkinson of Pampa; six sons, Park, Joe and R. C. of Pampa; W. J. of Odessa; Carl of Farmington, N. M.; and Archie of Oklahoma City; 20 grandchildren and 35 great-grandchildren.

Palbearers will be Orville Batson, Clyde Batson, Gus Greene, Clinton C. Henry, Paul Barrett and Herman Whatley.

**W. S. Carter**  
MIAMI (Sp) — W. S. Carter of Canyon, and formerly of Miami, died in Canyon this morning. Masonic graveside services will be conducted at 3 p.m. tomorrow in Miami.

Mr. Carter is survived by his wife Lillie of the home, and two daughters Mrs. Billie Guyer and Miss Marie Carter both of Canyon.

## Love Same In Any Language

BIRMINGHAM, Eng. (UPI)—Barbara Carpenter, 22, an English girl who reads no Italian, and Ezio Sereti, 25, an Italian who reads no English, were married Sunday.

This followed a two-year postal courtship involving 700 letters — every one of which had to be read by translators.

## Court News

**Corporation Court**  
William Floyd Willis, 1116 Willow Dr., disobeying stop sign, guilty plea, fined \$10.

Lawrence Hyatt, Herring Hotel, intoxication, guilty plea, fined \$25.

Jon Bruce Topper, Wheeler, intoxication, guilty plea, fined \$25.

Pearline Sprouse Waide, Perryton, intoxication, guilty plea, fined \$25.

**County Court**  
Calvin Temon Jones, 931 E. Denver, pleaded guilty to charge of driving while license suspended and was fined \$25 and costs.

Harry Benjamin Bell, 1017 Duncan, pleaded guilty to a charge of driving while intoxicated. He was fined \$100 and costs and sentenced to three days in jail.

Frank Wayne Sims of Amarillo, pleaded not guilty to a charge of driving while intoxicated. Bond was set at \$1,000.

H. R. Huggins, 844 Brunow, pleaded not guilty to a charge of aggravated assault. Bond set at \$1,000.

## GOP National Chairman Says Things 'Looking Up'

HOUSTON (UPI)—Rep. William E. Miller, Republican national chairman, predicted Sunday night that the GOP soon would have candidates in every congressional election in the South.

The New York congressman said, "We may elect the gov-

ernor in Kentucky and Mississippi—what do you think of that?"

Miller told the Texas Federation of Republican Women's Clubs the GOP never has been stronger "from the grassroots up" than it is today.

"It will not be long before the Republicans will contest every congressional race in the South," he said.

Miller said the GOP has "more issues than we know what to do with" for the 1964 campaign.

He charged the administration "has flopped in Cuba three times." He said there were foreign policy failures in Viet Nam, Pakistan, India, France, the Philippines and "we have lost eight countries in South America."

# Pasadena-GP, Tascosa Vs. Palo Duro 4A Tops

By United Press International  
A dozen games, most of them in the AAAA division, on this week's Texas schoolboy football program figure to play decisive roles in district races in the TIL's upper echelons.

Several of them involve ranked teams and some of the rapidly dwindling list of unbeaten teams.

Second-ranked Pasadena plays fourth-ranked Galena Park, which was upset by Baytown in a district 12-AAAA game last week. Pasadena is unbeaten in district play while Galena Park and Baytown have each lost once.

Seventh-ranked Amarillo Tascosa, which beat Amarillo High 29-0 in a Saturday night game, takes on Amarillo Palo Duro, which last week shocked fifth-ranked Borger 16-7 in a 3-AAAA game.

Garland vs. Richardson, And, 10th-ranked Garland, a 35-13 winner over Denton in another Saturday night game, plays Richardson for the 7-AAAA undisputed lead.

In AAA, 10th-ranked Lampasas meets Austin Lanier in the only game matching perfect record teams. The winner will contest Austin Johnson for the 13-AAA title.

Wichita Falls and Irving play

for the 4-AAAA lead; once-tied Ysleta Bel Air plays once-beaten El Paso Irvin with the 1-AAAA lead at stake; Lufkin plays Texarkana in 8-AAAA where Tyler Lee also boasts an unbeaten mark; South Houston and Houston Smiley meet to decide which contests third-ranked Spring Branch for the 10-AAAA crown, and in 3-AAA Snyder plays Brownfield with the winner favored to eventually win the title.

**Houston Co-Leaders**  
In Houston's 9-AAAA, this week's schedule finds the two co-leaders in each zone paired against each other—Lanier vs. Westbury and Lee against Reagan.

In other AAAA games played Saturday night, Corpus Christi Miller knocked Corpus Christi Carroll out of the perfect record lists 18-6; San Antonio Highlands stayed undefeated and untied with a 35-3 defeat of San Antonio MacArthur; El Paso Burges defeated El Paso Tech 7-0; Fort Worth Eastern Hills defeated Fort Worth North Side 7-0; Houston Lamar beat Houston Jones 13-8, and Houston Westbury downed Houston San Jacinto 21-16.

In AAA, Perryton defeated Littlefield 19-13; in AA, Little Cypress remained undefeated, tied with a 21-0 defeat of Newton and Pleasanton downed Poteet 34-0, while in Class A Canutillo spoiled Marfa's perfect record 14-13, Itasca blanked Glen Rose 44-0 and Gaston beat Judson 41-0.

**Blue Dogs Belt Thrashers, 20-6**

PLAINVIEW — The Plainview Blue Dogs led all the way to take a 20-6 victory over the Pampa Thrashers Saturday. Running wide plays successfully, Plainview scored in the first quarter and then twice more in the third period.

The Thrashers got their tally after a 70-yard drive in the fourth period, highlighted by 25 and 15-yard pass completions from Lynn Heller to Bobby Adams. Jimmy Moore went the last 11 yards behind the blocking of Frankie Steadman, Butch Robbins and David Geer.

Defensive standouts for Pampa were Randall Scott and Ronnie Babcock.

# Giants Stop Brown, Tighten NFL Race

By NORMAN MILLER  
UPI Sports Writer  
The New York Giants found a way of living with Jimmy Brown and the Green Bay Packers found a way of winning without Bart Starr. And suddenly the National Football League races are tighter than a pair of \$5 shoes.

The Giants brought Jimmy and the Browns crashing to the earth — in more ways than one — with a 33-6 beating Sunday, while the Starr-less Packers had to score two touchdowns in the final period for a 34-20 triumph over the Baltimore Colts. It was Cleveland's first defeat in seven games.

This was one of the most miserable afternoons Jimmy Brown has spent in seven NFL seasons. He fumbled on the third play of the game to set up New York's first score, gained only 40 rushing yards in nine carries, and wound up being ejected for the first time in his career, after a punning and wrestling match with linebacker Tom Scott of the Giants during the final minute. Scott also was ejected.

**Tied For Lead**  
By winning, the Packers managed to remain tied for the Western Division lead with the Chicago Bears, who defeated the Philadelphia Eagles, 16-7. Both Green Bay and Chicago have 6-1 records.

The Giants' surprise win narrowed Cleveland's Eastern Division lead to one game and also permitted the St. Louis Cardinals to get back into close contention with a 21-7 victory over the Washington Redskins. Cleveland has a 6-1 record; New York and St. Louis are 5-2.

In Sunday's other games, the Pittsburgh Steelers clung to their long-shot hopes for the title with a thrilling 27-20 victory over the Dallas Cowboys; the Detroit Lions beat the Minnesota Vikings, 28-10, and the Los Angeles Rams made it two-in-a-row by edging the San Francisco Forty Niners, 28-21.

**Y.A. Tittle** completed 21 of 31 passes for 214 yards and two touchdowns, and Don Chandler kicked four field goals as the Giants forged their stunning upset before 84,213 fans at Cleveland.

**Held Halftime Lead**  
The Giants hopped on Brown's early fumble and a pass interception for 10 quick points within less than three minutes of play. They widened their lead to 23-0 at halftime.

John Roach and Elijah Pitts, two full-ins, were the big men in Green Bay's win. Roach, replacing the injured Starr at quarterback, directed the Packers to a 20-3 third-period lead.

Then, after the Colts had battled back to tie the score at 20-20, Pitts raced 34 yards for a go-ahead touchdown. A pass interference penalty helped the Packers in their tie-breaking drive. Jim Taylor's 27-yard scoring scamper with 1:13 remaining was the icer.

Jim Martin's 34-yard field goal and Johnny Unitas' touchdown tosses of 13 yards to Lenny Moore and 58 yards to John Mackey enabled the Colts to tie the score.

Billy Wade connected on 20 of 35 passes for 253 yards in the Bears' win over Philadelphia. Chicago intercepted four passes and recovered two Philadelphia fumbles. Wade hooked up on a 23-yard scoring pass to Joe Marconi and later set up Willie Galimore's seven-yard touchdown run.

**Three Three TD Passes**  
Charley Johnson's three scoring passes sent the Cardinals on to their win at Washington. Johnson hit on a 14-yard touchdown toss to Bobby Joe Conrad and strikes of 28 and 54 yards to Sonny Randle.

The Raiders scored the greatest victory since the club was organized when they beat the San Diego Chargers, 34-33, Sunday and stilled the Chargers' runaway to the Western Division title. The win was the first the Raiders ever scored over San Diego in 10 meetings and put them in second place in the West with a respectable 4-4 record.

The Houston Oilers took a one-game lead in the Eastern Division with a 28-7 win over the Kansas City Chiefs in Sunday's only other AFL game.

## Youth Center Basketball Loop

An open basketball league this winter will be organized at the Pampa Youth and Community Center, announced director George Smith. The league will open on Nov. 18 and play through until playoffs, which will finish Mar. 12.

The league will consist of the first eight teams to enter. The schedule will consist of a double round robin of 14 games for each team. Each team will play one game a week.

For complete information on schedules, entry fees, regulations and playing dates, all interested are advised to contact Smith at the YCC.

# Tony Crosby's Toe Again Leads Texas

By MARTIN LADER  
UPI Sports Writer  
It's the arm of a quarterback and the legs of a running back that draw most of the attention in football circles, but deep in the heart of Texas they pay special reverence to the toe of a bench-warmer.

Tony Crosby is a unique type of hero. He doesn't run, pass or play defense, and he's never on the field for more than two minutes in any one game. All he does is kick, and he doesn't even do that the right way.

Right or wrong, Crosby's unorthodox kicking, accomplished without the aid of a shoe on his foot, is one of the big reasons Texas today stands as one of only four major colleges with unblemished records. The other perfect-record teams are Auburn, Princeton and Bowling Green.

**Won Sixth Straight**  
The Longhorns, ranked No. 1 in the country, made it six in a row Saturday night when they nipped Rice, 10-6. Crosby was responsible for four points with his 19th straight point-after-conversion and a 22-yard field goal. It was the second week in a row that Crosby's bare toe has provided the winning margin for Texas.

Auburn, idle last weekend, has a 6-0 mark as does Bowling Green, which beat Kent State, 18-3. Princeton trounced Cornell, 51-14, to record its fifth straight triumph.

Several other members of the top 10 didn't fare as well Saturday. Second-ranked Wisconsin losing to Ohio State, 13-10, third-ranked Pittsburgh dropping a

24-12 decision to Navy, and ninth-ranked Northwestern falling before Michigan State, 15-7.

In addition, the nation's longest winning streak was halted at 15 when Dartmouth was a 17-13 upset victim to Harvard. The biggest form reversal of the weekend, however, came when Stanford rebounded from four straight setbacks to defeat Notre Dame, 24-14.

**Tide Rolls On**  
Fifth-ranked Alabama beat winless Houston, 21-13; sixth-ranked Mississippi romped to a 27-7 triumph over Vanderbilt; seventh-ranked Oklahoma remained unbeaten in Big Eight play by trouncing Kansas State, 34-9; and 10th-ranked Southern California built a 28-point halftime lead to coast to a 36-6 win over California.

In other top games last Saturday, Baylor stayed up with Texas by trouncing Texas A&M 34-7. Washington nipped Oregon, 26-19; Georgia Tech downed Tulane, 17-3; LSU beat Florida, 14-0; and Missouri stopped Iowa State, 6-0.

**Pro Basketball**  
By United Press International  
Richie Guerin, St. Louis' new dead-eye Dick, is providing the music for the sixth man theme that put the Hawks on the winning side of the ledger.

Guerin, recently acquired from the New York Knickerbockers, sank seven of seven foul shots Sunday night and deposited five baskets as St. Louis defeated the Baltimore Bullets, 123-112, in the only National Basketball action.

# 'Relaxation' Key To Pampa Win

Coach Otis Holladay and his staff credited the big difference in the Pampa Harvesters' overwhelming 47-15 victory Saturday night over Plainview to being relaxed.

"It was the difference," said Holladay, "these kids have had the pressure on them every game... they've been tied up in knots. You could feel going up this weekend that they were relaxed... that the pressure was off... and they went out and played just as well as we knew they could."

"It was, by far, our best team effort of the season... the blocking was really sharp, the backs

were hitting their holes and running better, the defense was in there on runs and passes.

"Kenny Hebert has been playing great ball all season, but he really lived up to his potential in every way Saturday night. His running, his passing sparked the team, his quarterbacking led them, his 51-yard punting average kept Plainview in the hole and his punt returns and pass interception score rounded out the 34 points he ran, passed or kicked for.

"Jerry Garrison also ran better than I've ever seen him. He was really galloping. Ricky Stewart again did a fine all-around job and his pass-receiving was tremendous.

"Stewart and Terry Criss did a fine defensive job against Tom Sawyer's passing. Hank Henry was fine in the defensive secondary, as well as doing a good running job with the second unit, and Eugene Madrid played his best defensive game. Ricky Goodwin, of course was again the outstanding defensive lineman.

"We were getting good blocking, from Goodwin and Criss as usual, and a fine job from Big Phil Klearner, just moved up to the starting team. Sam Williams also did a fine defensive job.

"I don't want to forget Carl Johnson's fine play both ways, highlighted by that pass interception for a touchdown. Carl saw it was going to be a screen pass, broke just right and grabbed the ball in one hand and barreled across the goal line. It was heads-up play.

"If we can play like this the rest of the way, the season can be very interesting."

Queried as to the district-3-AAAA race after Palo Duro's upset of Borger last week, Holladay said "I saw the game, and it wasn't any fluke. I was surprised, but not shocked. I knew Palo Duro was capable of winning, they beat us more soundly than any team we have faced.

"I would still have to pick Tascosa over Palo Duro next week, but whether Tascosa or Borger will win their game will be a big question. This means it is a three-team race instead of the two-team race it's been so far, and it looks like it won't be decided until the last game of the season."

# The Pampa Daily News

A Watchful Newspaper  
EVER STRIVING FOR THE TOP O' TEXAS  
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

By carrier in Pampa, 35c per week, \$1.50 per 3 months, \$3.00 per 6 months, \$11.00 per year. By mail paid in advance at office, \$10.00 per year in retail trading zone, \$15.00 per year outside retail trading zone. \$1.25 per month. Price per single copy 5c daily, 10c Sunday. No Mail orders accepted in localities served by carrier. Published daily except Saturday by The Pampa Daily News, Atchison at Somerville, Pampa, Texas, Phone MO 4-2325 all departments. Entered as second class matter under the act of March 9, 1879.

## Pull Up A Chair

By Frank J. Markey

One of the most intriguing off-beat history books we've encountered in a long time is "Massachusetts Towns," by Ivan Sandrof, Worcester, Mass., historian, which gives a vivid picture of what life was like in the late 1830's in New England. Prior to railroads most of the early towns were self-sufficient entities. Sandrof skillfully traces a journey through the Bay State's 200 cities and towns in that period by John Barber, whose busy sketchpad and notebook chronicled all that he saw and heard. The result then was an account of a delightful trip. The result in the new volume is an intimate and sensitive glimpse of the unhurried life of 125 years ago. It's excellent.

Memory Lane: Remember when every local singer was likened to Caruso or John McCormack? That was before the time of crooners. There must be a shortage of judges in Wyoming. Recently a jurist there convened court and proceeded to fine himself \$7 for a traffic violation. Go west, ye law students. . . And speaking of justice, many states levy a monetary fine for auto fatalities. But Soviet Russia sentenced an American student to three years for the same. . . The latest in air cargo was flock of 130,000 new born hatching chicks flown from Connecticut to Japan, a distance of 8000 miles in 72 hours. That's faster than they'll ever fly again. . . Uncle Sam, still after your dough, collected \$4.7 billion in automobile taxes last year. . .

Someone named Truman in Phoenix, Arizona, applied for dog licenses for two cocker spaniels named Ike and Mamie. Can't be a Goldwater supporter. If men are trustworthy, then, clearly, there would never be a reason to fear freedom. If men are untrustworthy, then, with equal clarity, we must never grant them power over their fellows. If they are a mixture, as we suspect, then again we are going to have to let them remain free. Either they will use freedom wisely or foolishly. If they are wise, we have no problem. If they are foolish, we have a problem ONLY when we grant them power over their fellows. Any way you care to argue it, freedom is desirable and not to be feared nearly as much as slavery, regimentation, control and power in the hands of some to rule others. So, next time you hear someone saying, "Sure, I favor freedom, but . . ." you can put him down as a hopeless reactionary. He's afraid of your being free. He's afraid of the American revolution. He's afraid of life. Poor fellow. He's a non-realist. He probably figures that if he didn't have force to back him up somehow, he'd be out of business. Could be, too.

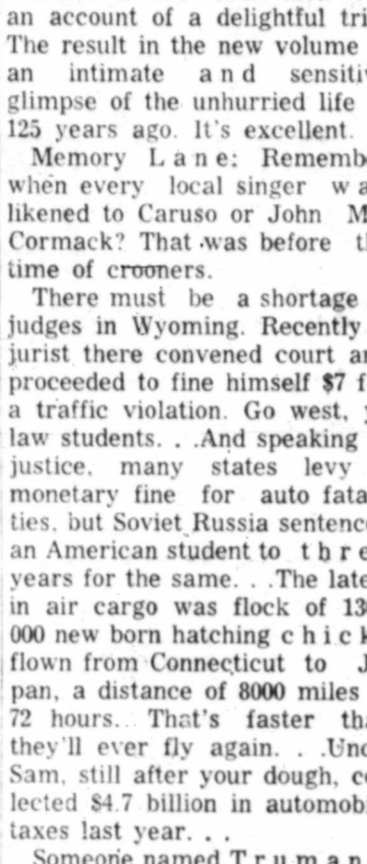

## 'I'm For Freedom, But . . .'

Those who favor a society in which human beings are regimented, usually like to cloak their purposes by saying: "Sure, we favor freedom, but . . ." What they really mean is that they are scared to death of freedom and don't want it for anyone but themselves. But because they know nearly every human being has a great yearning to be free they can't afford to come right out and champion the idea of slavery and regimentation. So, they say: "I'm for freedom, of course. But . . ."

Now, the favorite theme of these folks — indeed, it is about the only theme they can think of — is that if we didn't have some immediately available means of locking people up in jail or shooting them or otherwise compelling them to toe the mark, then we'd have chaos, anarchy, confusion and near riot about us all the time. Shall we take a moment to analyze that supposition? Note that we stated "If we didn't have some immediately available means . . ." Who is the "we" in the sentence? The "we" is a kind of mystic collective of people, something perhaps comparable to what Rousseau called the "general will." When we say "we'd" have to have certain things, we mean that people generally, including ourselves, have this requirement, whatever it may be. This can only mean that people are involved. When it is said that "we" must take action, it can only mean that people must take action. But wait. People are what we are supposed to fear, isn't it? That is why freedom fighters so many. Because if everyone were free, then all people could do as they pleased. And that would be a disaster. So, "we" must prevent that. But the "we" that must prevent that are people, too. So, by process of this reasoning, a system is established, not of free men (which is too terrible and repulsive to mention. . .)

Tube Full of Boobs

The next time you're having a few people in for the evening, how about including: A far-out neurotic — a real gone kook. A super scurvy beatnik, complete with beard. A loose woman. A tight woman — the bitterer the better. A lecherous old goat who works hard at it. A lecherous young squirt who doesn't have to work hard at it. One or two brittle, too - too clever babes — the kind you hate on sight. A shrill-voiced brat who ought to be taken to the woodshed, worked on and then put to bed. A mousy little jerk who is scared to death of his wife, but who turns out to be the murderer. A jolly little group eh? Well, they'll be in your living room within the next few evenings, along with a lot of other odd-ball characters too numerous and repulsive to mention. . . All you have to do is turn on your TV set. You can always get rid of them, of course, by a simple flick of the dial. But you won't. You'll sit there as if mesmerized, hoping they'll go away. But they won't go away — not as long as the sponsor has reason to believe you'll sit there and endure them. We know that television must reflect reality — that it must be stark and bare, as they say. But there just must be more normal people doing normal things and fewer sick people doing sick, sick things than is indicated by what we see on the trembling tube day after day. Let's all unite in silent but earnest prayer that one of these days the TV powers that be will put the ax to these weirdies who creep into our homes via the antenna, the creeps. . .

## Edson In Washington Rocky, Goldy Bore Voters Full Year Before Election

By PETER EDSON

WASHINGTON (NEA) — The biggest trouble about a debate between New York Gov. Nelson Rockefeller and Arizona Sen. Barry Goldwater would be shutting it off. It is charged that Goldwater sounds off every hour on the hour, but Rockefeller is right behind him on the half-hour. Both of them have been making speeches, issuing statements, subjecting themselves to interviews at such a clip that they're already beginning to bore their audiences, a full year before the election. The fact that neither is yet a declared candidate bothers no one. They're off and running. But neither seems to have a friend good enough to tell him to stop talking too much. Goldwater's opinions have been subjected to closer scrutiny so far because he's more controversial. Like Gen. Eisenhower, Rockefeller presses to be confused about what Goldwater really stands for, but the governor has been no less prolific and he can be subjected to the same criticism. Rocky is against the Kennedy administration on just as many counts as Barry. A debate between them would be a contest to determine who could denounce Democrats the most. Rockefeller opened up on the President with a New Year's resolution that the administration had not reduced unemployment and still avoid brain damage. The surgeon may remove a clot, repair an occluded vessel in the neck or provide it with a bypass or he may stop a hemorrhage. These operations save many lives that would otherwise be lost. When the stroke is due to an occluded vessel in the neck, complete recovery often takes place while the victim is still on the operating table. For those whose recovery is slower, rehabilitation is often possible. In order to accomplish the best results, this should be started as soon as the emergency aspects of the treatment are completed. In rehabilitation a nurse specially trained in this field is a key person. She sees to it that the victim's position is shifted at frequent intervals. This helps to prevent pressure ulcers or bedsores. She also moves paralyzed limbs so that the joints do not stiffen. As soon as the victim is able to make any voluntary movements of his fingers or toes, a series of graduated exercises is given. No victim is permitted to loaf or feel sorry for himself because as soon as this occurs he is doomed to a life of complete dependency. In one series of patients, 61 per cent of those who entered a program of active rehabilitation within less than six months after their stroke were restored to useful community living. Of these, half were able to return to some gainful employment. When the victims had been paralyzed for more than six months the results were much poorer.

PLEASE send your questions and comments to Dr. Wayne G. Brandstadt, M.D., in care of this paper. While Dr. Brandstadt cannot answer individual letters, he will answer letters of general interest in future columns. Spotsylvania is the name of a county in Virginia which was the scene of four Civil War battles. The county is named for Alexander Spotswood, a pre-Revolutionary British governor of Virginia, who developed the state's iron industry and promoted religious education for the Indians. Spotsylvania is the name of a county in Virginia which was the scene of four Civil War battles. The county is named for Alexander Spotswood, a pre-Revolutionary British governor of Virginia, who developed the state's iron industry and promoted religious education for the Indians.

## The Doctor Says

Stroke Rehabilitation Takes Time, Patience

By DR. WAYNE BRANDSTADT Many strokes are being prevented today through the recognition of little strokes and through X-ray pictures of the blood vessel pattern in the brain. But what of those persons in whom a major stroke does occur? This is no longer a hopeless situation thanks to new surgical techniques and rehabilitation. The first thing the doctor must do is pinpoint the area involved. The symptoms produced vary from sudden paralysis to deafness or blindness and they give a pretty accurate clue to the location of the damage but they do not tell whether the cause was a hemorrhage or an obstruction due to a clot or the narrowing of a hardened artery. The use of a variety of X-ray techniques, but especially of a harmless opaque dye solves this problem. Since different causes require different treatments this step is essential. The brain tissue can withstand having the oxygen supply from the blood shut off for only a few minutes before permanent damage to its delicate cells occurs. By lowering the body temperature from 98.6 degrees down to 82 degrees the surgeon is able to work on the brain longer than he could if the normal body temperature were maintained. Scandinavian countries. And he will do it again on his impending Benelux trip. This public cold-shouldering of De Gaulle is part of a carefully calculated administration policy of attempting to "isolate" him from the other European powers. At one White House meeting on this matter, it was proposed that funds of the Central Intelligence Agency be used to finance French labor and political opposition to De Gaulle. Nothing was done about this plan. After Johnson returns from Europe, he is slated to fly to Los Angeles to preside at a November 14 conference on unemployment and racial problems. Representatives of so-called minority groups from six states will attend — California, Arizona, Colorado, Texas, New Mexico and Nevada. Among those participating will be Negroes, Indians, Chinese, and Spanish-Americans. The President will send a message, and Johnson and other administration officials will speak. CRYSTAL BALL — Governor Frank Morrison, D-Neb., will seek a third term. He will announce that on November 1, Morrison decided to try for governor again after determining not to try to unseat Republican Senator Roman Hruska. The "adjournment" date for this session of Congress is now set for December 22. That's what Senate and House leaders have privately agreed on. In effect, it means the session will continue for the remainder of the year and take a lay-off for the year-end holidays before reconvening after New Year's Day. For Thanksgiving, Congress will take a three-day recess.

## Allen-Scott Report

Justice Dept. to Enlarge Own Negro Employment As Civil Rights Campaign Comes Down to Wire

WASHINGTON — Attorney General Robert Kennedy is stepping up his civil rights crusade by taking it directly into his own department. The President's brother is demanding more Negroes be employed there. "Recruit them if necessary," he has sternly ordered his top lieutenants. This forceful edict was laid down by young Kennedy at a two-hour meeting with the heads of Justice Department divisions, sections, bureaus and other agencies. He told them he had been studying the department's personnel rolls and had found that of its more than 31,000 employees, less than 10 per cent are Negroes. "That's not enough," declared Kennedy. "We can't be pressing Congress for enactment of civil rights legislation and urging private industry to employ more Negroes, when we aren't doing our share along that line. I want you to give immediate consideration to bringing more Negroes into the Department, not only here in Washington but throughout the country. "Recruit them if necessary. But get them. It goes without saying they must be qualified. That's absolutely essential. We're not letting down any bars on that score. But this department must have more qualified Negroes in every category on its rolls, and I want prompt action on that." Kennedy also has directed U. S. Attorneys to keep a close eye on racial disturbances in their jurisdictions. He personally telephoned the U. S. Attorney in Chicago for a report on the explosive situation there. Two of the Attorney General's sons—Joseph, 11 and Robert Jr., 9—have been enrolled in an integrated private school operated by the Society of Friends (Quakers). It has eight Negroes in a student body of more than 250. The two Kennedy boys are transported daily in a chauffeured car from their home in Virginia to the school in Washington. TAPPING THE TAPPER — One of Attorney General Kennedy's assistants, for whom he wangled an appointment as a Federal Trade Commissioner, faces sharp questioning on wiretapping when his confirmation is considered by the Senate Commerce Committee. James R. Reilly, chief of the Executive Office for United States Attorneys, will be grilled on this at the instigation of Washington attorney James Laughlin. Laughlin represented a defendant in a case that was thrown out of court because the government's principal evidence had been obtained by wiretapping. Kennedy claims his department does not resort to this means of getting evidence. He asserted that flatly in a letter to Representative John Moss, D-Calif., chairman of the spe-

cial committee investigating government censorship. "The Department of Justice," wrote the President's brother, "does not use recorders wired into telephone circuits, or induction type attachments, or types of instruments that could be used to monitor or record telephone conversations. That is the fixed policy of the department." Yet a federal judge in Baltimore ruled a mistrial in a case conducted by U. S. Attorney David Acheson, son of the one-time Secretary of State, on the ground he had presented wiretapped evidence. The Commerce Committee, headed by Senator Warren Magnuson, D-Wash., proposes to closely interrogate Reilly about this. He has been in charge of U. S. Attorney activities. At a conference with Justice Department chiefs, Kennedy was very critical of the "bad publicity" that had resulted from this rebuff. He said the embarrassing disclosures were hurting his chances of obtaining the wiretapping legislation he has long been trying to put through Congress. Kennedy also talked bluntly to Acheson about the affair. Reilly is the latest assistant young Kennedy has installed in a key government office. He has built up a considerable "empire" of such appointees. It includes all major government agencies, and amounts to a personal organization of far-reaching scope and influence.

## The Almanac

Today is Monday, Oct. 28, the 301st day of 1963 with 64 to follow. The moon is approaching its full phase. The evening stars are Jupiter and Saturn. On this day in history: In 1886, on Bedloe's Island in New York harbor the Statue of Liberty was dedicated. In 1918, the Czechoslovak national committee in Prague proclaimed the independence of the republic of Czechoslovakia from the Hapsburgs. The 1919, following the lead of the House, the Senate passed the Volstead Prohibition Enforcement Act over the veto of President Wilson. In 1956, the College of Cardinals elected Pope John XXIII as the 202nd pontiff of the Roman Catholic Church. A thought for the day — At the opening of the second Ecumenical Council Pope John XXIII said: "Christ is ever present as the center of his history and life."

## Tube Full of Boobs

## Television In Review

**By RICK DU BROW**  
HOLLYWOOD (UPI) — One reason high society has maintained some of its status in this country is that it has surrounded itself with an aura of mystery so that few learn how really dull it is.

In the past few years, however, society figures have joined the contemporary tastelessness of exhibiting one's prized private functions on television. Sunday night was the latest example, with the permitted airing of a one-hour taped NBC-TV version of Friday's "April in Paris Ball" in New York City. The surest way to do away with society is to show it as it really is — not spruced up Hollywood-style. And so the question today is not who killed society, but why is it committing suicide? And I qualify this by assuming that many social figures are also unhappy with such goings-on.

If the Bowery Boys had been at the cameras Sunday night, they could not have more thoroughly demolished the concept of a glittering, poised and polished society gathering. This is not intended as a knock on the camera boys, but rather to give you an idea of the depressing, soft, comical nature of how the group on hand came across in what appeared to be a determined attempt at enjoyment. There was an embalming flavor, and some of the dancing was pathetic as well as uproariously bloodless.

A couple of nice kids, Liza Minnelli, who is Judy Garland's daughter, and Frank Sinatra Jr., were treated impolitely by the noisy gathering in their singing numbers. And another singer, Lisa Kirk, who is strictly for the big boys, tried desperately through the hour to simulate gaiety in her chore as video hostess. Her mate in this was Jean Pierre Aumont, who luckily wasn't around too much.

The program looked slapped together, the sound was frequently bad, and the taping must have been done under horrendous conditions. Even a sequence with Maurice Chevalier from Paris was trivial. I don't know — maybe NBC contributed some money to the charity ball. But nobody can cash that desperately.

**The Channel Swim:** Art Carney guests with CBS-TV's Danny Kaye Nov. 6... Alice Faye visits NBC-TV's Jack Paar Nov. 8... Same network's Saturday night movie Nov. 9 is "The Diary of Anne Frank"... Mickey Rooney plays a sheriff on an upcoming NBC-TV "Suspense Theatre"... He also does his long-awaited guest stint with CBS-TV's Judy Garland this Sunday.

**NBC-TV's "Today" show** originates from Puerto Rico the week of Nov. 11-15... Ed Sullivan's CBS-TV hour for Feb. 16 is reported to be virtually entirely devoted to Mitzi Gaynor

## Fight on Hunger Gains in Spite of Population Rise

STANFORD, Calif. (UPI) — Whatever other problems the population explosion may cause mankind, it shouldn't be the cause of hunger — at least not for a while.

In fact, man probably will gain some ground in his battle against hunger around the world between now and 1984, according to Emeritus Director Merrill K. Bennett of the Stanford University Food Research Institute.

"(Continued) shrinkage rather than expansion of hunger situations in the world seems to me in reasonable prospect," he writes in the current issue of Food Research Institute Studies. "A billion mouths are accompanied by a billion pairs of hands and a billion brains." Barring widespread warfare, there should be a continuance of the trends toward increased urbanization, better transportation and communication networks and more widespread land cultivation, Bennett said.

Vast amounts of well-watered land are still unsettled in the tropics, he said, and much more existing acreage can be irrigated, even without desalted sea water. More swamps can be drained, and existing farmlands can be made to yield two crops. And crops should get bigger with greater use of fertilizers, better pest control, improved soil management and better seeds.

But, looking a few hundred years farther ahead, Bennett conceded the population growth rate has got to slow down sometime. If the 1.6 per cent growth rate of the 1950's continues indefinitely, the population density of the entire planet will reach 15,000 per square mile by 2317 — leaving each individual a strip of land 27 by 70 feet. This, said Bennett, is "rather small — even allowing for forthcoming miracles of science."

**NEW OWNER** — Tom Glitsch of Woodward, Okla., has purchased Surplus City from Bill Cavel. It was announced this week. Glitsch announced that the Cuyler St. entrance to Surplus City, which was formerly sealed off, has been reopened. (Daily News Photo)

## Tom Glitsch Takes Over Surplus City Operation

Tom Glitsch, formerly of Woodward, Okla., announced this week that he had purchased Surplus City, located at 403 S. Cuyler, from Bill Cavel.

According to Glitsch, he purchased the discount store from Cavel Oct. 1.

Glitsch came to Pampa from Woodward, where he has resided since 1937.

He graduated from high school in Woodward and attended Enid Business College in Enid, Okla., and graduated from there in Jan. of 1951 with a degree in accounting.

Glitsch served in the U.S. Air Force from April 1951 until 1955. He was married to his wife Jonie during his tour of duty in the service.

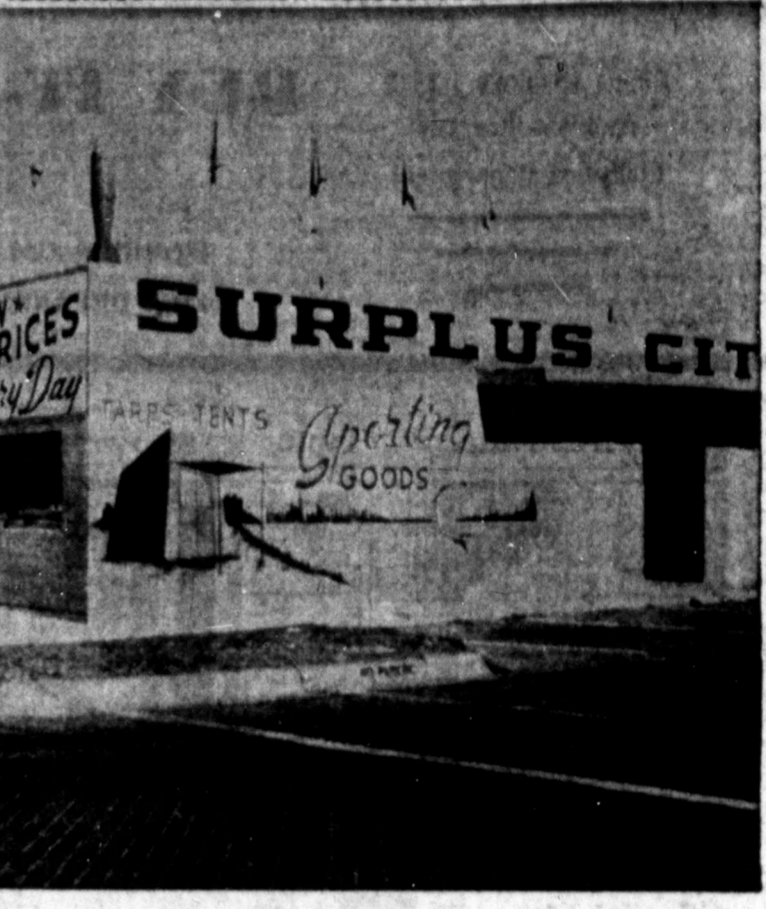

In 1955 he returned to Woodward where he was named assistant manager of C. R. Anthony Co. and in 1957 he was named manager of Newcombs Dept. Store in Woodward and in 1960 he became associated with Fitts Dry Goods Co. in Kansas City, Mo., as its salesman in northwest Oklahoma and the Texas Panhandle.

Glitsch's wife and three sons are presently residing in Woodward, but plan to move to Pampa as soon as possible. His sons are Randy 9, Steven 7 and Richard 5.

The other employees at Surplus City are Darl Cokely and Mrs. Wilma King.

"We are all looking forward to meeting and serving all of the people of Pampa and other adjoining towns," said Glitsch.

## Personal Income In Texas Hits An All-Time High

AUSTIN (UPI)—Personal income in Texas rose to an all-time high of \$20.36 billion in 1962, ranking the state No. 6 in the nation.

That was an increase of 4.4 per cent over the 1961 figure of \$19.5 billion, according to a report issued Saturday by the Bureau of Business Research at the University of Texas.

The Texas total represented 4.6 per cent of the nation's personal income and was given its biggest boosts by wages paid by the government, manufacturing industries and wholesale and retail trade.

Two-thirds of the total income received by Texans was in the form of pay from employers. That contrasted to only 51 per cent of the 1959 total from wages and salaries, meaning more of the money is being spread among a greater number of people.

"Texas has ceased to be a state of small farmers and businessmen," the bureau explained.

High quality products in painting, home decorating needs and all types of glass can be obtained from Pittsburgh Plate Glass at 112 N. Somerville. Glass for every conceivable need is available there, from large store fronts to the very smallest glass need, including table tops, mirrors, etc.

## Teaching Robot Will Not Replace School Teacher

**By CARLTON WILSON**  
AUSTIN (UPI) — An expert on teaching machines believes more and more students will be able to complain, justifiably, that their teachers "aren't human."

But Dr. A. Harvey Block, now touring the nation with an exhibit of the machines, does not believe machines will ever completely replace the teacher.

"There is no such animal as a teaching machine," Block said, "because the machine doesn't teach. It is the program of instruction that does. The machine is like a mechanical finger to turn the page."

Block, 32, of New York, helped design the exhibit which more than 100,000 persons have seen in 45 cities during its one year of travel under a federal grant. He takes the display from Austin to Houston for public viewing Nov. 5-7.

**Teachers Inquire**  
"Some of our most interested customers are teachers," Block said. "They come in asking the question, 'where's that thing that is going to replace us?'"

"They usually leave saying, 'Gee, it may work.'"

"The largest complaint is that there are not more physical machines to try out," he added.

Block's 1,000 square foot display was jammed into a meeting room at the University of Texas Student Union. On the door was a sign of warning: "This is not a conventional exhibit. It is 'programmed,' therefore, it requires your active participation in terms of reading, thinking and responding."

**Polonaise**  
The polonaise, a dignified ceremonial dance in three-quarter time, originally was a folk dance or warrior's triumphal march, according to the Encyclopaedia Britannica.
